Pasco County Commission Agenda
Tuesday, January 20, 2026
10:00 AM

PASCO COUNTY FLORIDA
OPEN SPACES. VIBRANT PLACES.

West Pasco Government Center, Board Room, 1st Floor
8731 Citizens Drive, New Port Richey, Florida 34654

This meeting will be broadcast live on the County's website, YouTube channel, and Frontier Channel 42 and Spectrum Channel 643 (only for residents living in Pasco County).

Please silence all electronic devices.

10:00 a.m.	-	**Public Comment.** All resolutions will be presented after Public Comment.
	-	**Consent** and **Regular**
12:00 p.m.	-	Recess
1:30 p.m.	-	**Public Hearings**. Following the Public Hearings, the County Commission will complete any unfinished items from the 10:00 a.m. session.

The County Commission Agenda comprises four sections:
Public Comment is the section when individuals can comment on matters that the Board has before it for consideration. Everyone is limited to three minutes for such comments. A

yellow light will appear on the timer at the top of the podium when you have one minute remaining, then three beeps will sound when your time is up. The **Consent** section contains numerous routine matters that require the approval of the County Commission but do not require discussion. Prior to voting on the Consent portion of the agenda a County Commissioner, the County Administrator, or the County Attorney may request an item be removed from the Consent portion for discussion, correction, or withdrawal. All remaining items on Consent are approved by the County Commission with a single motion and vote. The **Regular** section consists of items for approval by the County Commission that require discussion, motions, and votes on an item-by-item basis. Beginning at 1:30 p.m., the final section of the agenda is **Public Hearings**, which are advertised items, including rezonings, land use amendments, ordinance adoptions and revisions. Comments by the public are allowed on each item.

Any person desiring to appeal any decision made by the Planning Commission or Board of County Commissioners with respect to any matter considered at any meeting or hearing will need a record of the proceedings and may need to ensure that a verbatim record of the proceedings is made which includes the testimony and evidence upon which the appeal is to be based. For this meeting, persons may obtain a verbatim record of the proceeding by contacting the Clerk and Comptroller's office, East Pasco Government Center, 14326 6th Street, Suite 201, Dade City, Florida 33523-3414; or at (352)521-4345.

If you are a person with a disability who needs any accommodation in order to participate in this proceeding, you are entitled, at no cost to you, to the provision of certain assistance. Please contact the County's Human Resources Department, Internal Services Building, 7536 State Street, New Port Richey, FL 34654; (727) 847-8030 (V) at least 7 days before the public hearing, or immediately upon receiving this notification if the time before the public hearing is less than 7 days; if you are hearing or voice impaired, call 711.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the

board members and the public.

PREPARED IN THE OFFICE OF
NIKKI ALVAREZ-SOWLES, Esq., CLERK & COMPTROLLER

THE MINUTES WERE PREPARED IN AGENDA ORDER
AS PUBLISHED AND NOT IN THE ORDER
IN WHICH THE ITEMS WERE HEARD

10:00 A.M.

WEST PASCO GOVERNMENT CENTER, BOARD ROOM
8731 CITIZENS DRIVE, NEW PORT RICHEY, FL 34654

County Commissioners	Honorable Ronald E. Oakley, Chairman, District 1 Honorable Kathryn Starkey, Vice Chairman, District 3 Honorable Seth Weightman, District 2 Honorable Lisa Yeager, District 4 Honorable Jack Mariano, District 5
Clerk & Comptroller	Honorable Nikki Alvarez-Sowles, Esq.
County Administrator	Mike Carballa, P.E.
County Attorney	Jeffrey N. Steinsnyder, Esq.

Call To Order

Chairman Oakley called the meeting to order at 10:14 a.m.

Invocation
Pledge of Allegiance

Ms. Alvarez-Sowles gave the Invocation and led the Pledge of Allegiance to the Flag.

Roll Call

Ms. Alvarez-Sowles called the roll. All Commissioners were present.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Chairman Oakley reviewed the procedures to be followed and called for public comment.

COMMISSIONER STARKEY MOVED approval to receive and file documents submitted by Mr. Michael Tantillo; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Mr. Michael Tantillo spoke regarding the photos he had distributed, his history in Pasco County, Hudson Beach, a broken swing seat, missing picnic tables, and neglect to the park.

Mr. Tom Wibert, West Pasco Board of Realtors, spoke regarding their opposition to raising impact fees, impacts to the economy and buyers, their desire to protect the value of homeownership, and the request for it to be spread over a time period. He congratulated the Commissioners for their victories last night.

Mr. Jerry Hekhuis, Ms. Valerie LaFrance, Pastor Leonard Lord, Mr. Pete Castellani, Founder of Oasis Pregnancy Care Center, Ms. Victoria Bailey, Ms. Keyla Nunez, and Pastor Troy Pederson spoke regarding opposition to Amendment 4; the Honorable Ron DeSantis, Governor of Florida; funding; impacts; costs; the Resolution adopted by Collier County; a Resolution that was presented at a previous meeting; unborn children; the number of babies aborted in Florida; the Florida Heartbeat Protection Act; a pin Ms. LaFrance was wearing and a model she had displayed; passages in the Bible; the right to life, liberty, and the pursuit of happiness; the Oasis Pregnancy Care Center; the Commissioner's support of Oasis Pregnancy Care Center; God's Law; parental rights; Liberty Council; and the belief that life started at conception.

COMMISSIONER STARKEY MOVED approval to receive and file documents submitted by Mr. Jerry Hekhuis; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER WEIGHTMAN MOVED approval to receive and file documents submitted by Pastor Troy Pederson; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Pastor Jen Kerouac noted that Shady Hills Mission Chapel prayed for all those in government every week and spoke regarding her appreciation for the Commissioners, a job fair, the need for jobs, Amendment 4, the Resolution, her request for one Board of County Commissioners meeting a month to be held after 5:00 p.m., Overdose Prevention Month, the County's support of organizations that helped with substance abuse disorder, and a passage in the Bible.

Reverend Mary Ann Kussmaul spoke regarding the Agenda, a need for a place for children, her sobriety, the need to think out of the box, homeless people in Shady Hills, and the need to come together.

Mr. Cress Diglio spoke regarding his commercial property, his previous tenant, his Building violation, issues he had, a letter that was sent to the Commissioners, and his attempts to fix the problem.

Ms. Lynn Anderson spoke regarding her objection to the Oaks Park MSBU assessment, the prior continuance, her objection to the boundary map, that she was outside the half a mile requirement, other closer complexes that were not included, a discussion that was held with Mr. Keith Wiley, Director of Parks, Recreation, & Natural Resources, and her request to be removed from the assessment and that others be added.

Resolutions

Commissioners Items - Chairman Oakley

RS1 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Recognizing Guardian Fleet Services, Inc. For Their Partnership With Pasco County Fire Rescue
File Number CAO24-5162
Comm. Dist. All
Recommendation Approve

Ms. Alvarez-Sowles read the Resolution into the record.

Chief Tony Perez, Fire Rescue, Chief Lee Hudson, Special Operations Chief, and Mr. Ken Neiland spoke regarding the Special Operations Division; photographs that were displayed; their appreciation; their collaborations; and Vehicle Machinery Rescue (VMR).

Discussion was held regarding their appreciation; the citizen's support; the photographs that were displayed; accidents Commissioner Starkey had seen; their practices; and their trainings.

COMMISSIONER STARKEY MOVED approval to adopt; **COMMISSIONER MARIANO SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous; and the motion carried.

Commissioners Items - Commissioner Starkey

RS2 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Declaring August 31, 2024, As International Overdose Awareness Day In Pasco County
File Number CAO24-5164
Comm. Dist. All
Recommendation Approve

Ms. Alvarez-Sowles read the Resolution into the record.

Mr. Justin McPadden, President and CEO of The Hope Shot, and Ms. Kelly Rodriguez, Alliance for Healthy Communities, spoke regarding his appreciation; what the day honored; the Always Center; the two coalitions, and the recognition.

Commissioner Starkey thanked them and noted it was important to continue to work on the problem and the opioid money.

Chairman Oakley left the meeting at 11:25 a.m. and passed the gavel to Vice-Chairman Starkey.

Chairman Oakley returned to the meeting at 11:28 a.m. and Vice-Chairman Starkey passed the gavel back to Chairman Oakley.

Comm. Dist. 5
Recommendation Approve

Mr. David Allen, Director of Utilities, spoke regarding what was being proposed. He introduced Mr. Garrit Van Lent, Utilities Policy Analyst, and Mr. Cisco Pavez, Senior Program Manager.

Mr. Van Lent used a PowerPoint presentation to review the item.

Discussion was held regarding an approach; what they based the program off of; that it was a septic upgrade; whether the County was managing the work; a group bid; that it would be public dollars going onto private property; how they would get their customers; the requirements for people to be sure their septic tanks weren't failing; a grant; and the recommendation for a public meeting.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation and to include the recommendation to have a public meeting; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Miscellaneous Business - District One - Commissioner Oakley

- Chairman Oakley displayed photographs and spoke regarding the Graduation for Firefighters, a story that was told regarding an emergency in which a man mowing his yard had a heart attack, that the firefighters should be proud of graduating and being a part of an elite group of people, and that 51 positions would be added.

- He displayed photographs and spoke regarding AdventHealth's addition to the north wing, that the citizens of Pasco would benefit from all the hospitals striving to be the very best, the plans for a dentist office and the Health Department, and that he had met Wilbur, Chief Barking Officer.

- He spoke regarding Mr. Branford Adumuah's, Assistant County Administrator for Public Infrastructure, plan to do a road in Commissioner Starkey's area using the new paving program.

  Commissioner Starkey spoke regarding Orchid Lake Road.

- He spoke regarding that he could not say enough about all of Staff, the great and positive things happening in the County, and the many issues being addressed.

  Discussion was held regarding the time it took to get a bathroom at Suncoast; Chairman Oakley's appreciation for FDOT for putting a light at Wire Road; the intersection of Wire Road and 301; stormwater projects; work done in Palm Terrace; and the time it took for projects to be completed.

Miscellaneous Business - District Two - Commissioner Weightman

- Commissioner Weightman displayed photographs and spoke regarding the AdventHealth Wesley Chapel Groundbreaking expansion, that it would be ready in late 2025, the number of beds, the number of units, the operating rooms and endoscopy suites, and the care provided to citizens.

Miscellaneous Business - District Three - Commissioner Starkey

- Commissioner Starkey displayed photographs and spoke regarding a hoarded house on Patriot Lane, the bank's responsibility to demo the house, another house in Commissioner Mariano's district, her desire to deal with them quicker than they had previously, and the need for a meeting with the Health Department.

- She displayed photographs and spoke regarding the August SimULI Breakfast, that it was focused on Pasco County, and those who were in attendance.

- She displayed photographs and spoke regarding a property on U.S. 19, that it was private property, the owner, that the owner was given fourteen days to clean up, her suggestion to foreclose on the liens, Code's budget, and that it would need to come out of the General Fund to pay for the cleanup.

  Mr. JP Murphy, Interim Assistant County Administrator for Development Services, spoke during the discussion.

Discussion was held regarding contact with the owner; the trespass agreement; that Code had gone out with their Sheriff Liaison; that the owner agreed to clean it up; the three years of tax deeds on the property; and the violation.

- She spoke regarding the Sign Ordinance, the Tree Mitigation Trust Fund program, and her suggestion to come up with a way to have grants to help people who have non-conforming signs as they transition to conforming.

- She spoke regarding the Citizen's Academy Kickoff and asked how many sessions there were.

  Ms. Joanna Cheshire, Chief of Staff, noted there were eleven sessions.

  Commissioner Starkey spoke regarding the big commitment, that someone was doing it for the second time, and the benefit to realtors.

- She spoke regarding the Global Competitiveness Committee, that International Business Day would be celebrated in February, an event that would be held, baskets that were auctioned off for money to help pay for young professionals that went to Germany, and the desire to build up Pasco's international business community.

- She spoke regarding the AdventHealth Ball and that Saturday was a holy day for Seventh Day Adventists.

- She spoke regarding a meeting that was held with DOT, the multiple accidents on 54, that people drive out the in, Duck Slough and 54 accidents, and that the County and DOT were going to work together.

- She spoke regarding a roundabout for Decubellis and Starkey and whether the streetlight that was currently there would be put to use somewhere else.

  Mr. Branford Adumuah, Assistant County Administrator for Public Infrastructure, and Mr. Carballa spoke during the discussion.

  Discussion was held regarding the reuse of the lights and Starkey Boulevard.

Miscellaneous Business - District Four - Commissioner Yeager

- Commissioner Yeager displayed photographs and spoke regarding the Pasco County Fire Rescue Graduation and the number of graduates. She noted she was proud of the men and women for their commitment to service and the community.

- She displayed photographs and spoke regarding a tour of the All Ways Center, the location, and that it was the first prevention and recovery community care center in the region.

- She displayed photographs and spoke regarding a tour of the Animal Shelter in Land O' Lakes, the facility, that the animals were spoiled, the photos that were displayed, and her appreciation for Staff.

- She noted her appreciation for Ms. Cathy Pearson, Assistant County Administrator for Public Services, and her team. She spoke regarding a recent situation involving a family that was waiting on a disability check.

Miscellaneous Business - District Five - Commissioner Mariano

- Commissioner Mariano spoke regarding the phenomenal job Mr. Branford Adumuah, Assistant County Administrator for Public Infrastructure, and his team had done with Palm Terrace, the amount of dirt that was taken out, that the people were thrilled, and another project in the area.

- He spoke regarding a potential change to the Change of Use application, the requirements to bring everyone up to current Code was devastating, that Staff would bring it back, boat trailers in yards in the Hudson area, an Ordinance that was passed, and that Code was citing people.

  Mr. JP Murphy, Interim Assistant County Administrator for Development Services, spoke during the discussion.

  Discussion was held regarding the request for Staff to bring something forward; where boats were kept; warnings and violations issued by Code; short term rentals where people bring boats; the responsibilities of property owners; that it would be another rule Code Enforcement would have to police; and that it would be an exemption to a rule that was already in place.

  COMMISSIONER MARIANO MOVED approval to "direct Planning and Economic Growth, bring back a Land Development Code amendment to allow boat trailers meeting the following Conditions, lots as described on the Property Appraiser's property information card as "SFR Waterfront", boat trailer in good working order, trailers shall be currently registered, grass under trailer shall be kept at the same height as their neighbor's yard, storage of any other material or items other than the boat shall be prohibited, the lot is 5,000 square feet or less with side yard setbacks of five feet or less making parking of a trailer impossible in the side yard" as stated by Mr. Steinsnyder; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the motion carried with Commissioner Starkey voting nay and Commissioner Yeager absent from the vote.

- He spoke regarding the fire stations being built, the desire to look at ways to cut expenses, and the cost of architects.
  Mr. J.J. Murphy, Assistant County Administrator for Public Safety, spoke during the discussion.

  Discussion was held regarding the suggestion by Fire Chief Tony Perez, Fire Rescue, to bring forward two or three fire stations to bid at the same time; a community fire station; a cut of a million dollars of savings per station that was done; that stations would go from four base to three base; that they were looking at building super stations; that they were looking at response times and road access; the projected completion of Station 17; and that the Board was pleased with the way Mr. Murphy and Fire Chief Perez were working.

- He spoke regarding the Pace program's predatory lending practices, that they were cut off by the Tax Collector's Office, and the desire to look into complaints where people lost houses.

  Discussion was held regarding that it would be in the State Attorney's Office's realm; the desire to find a way to coach people; the request for guidance from the County Attorney's Office; and that they would bring it back on the September 3rd meeting.

- He spoke regarding his campaign signs that were pulled up, that Staff had fixed the issue, and his desire for the situation to not occur again.

  Discussion was held regarding signs that were removed by Staff; the Sign Ordinance; that it was one sign per property; compliance with a Supreme Court case ruling; that it would have to be adjusted for other signs too; and that Code was given written guidance.

- He spoke regarding his request to look at the Landscaping Ordinance again and trees that were blocking the view of businesses.

  Discussion was held regarding compliments received regarding 19; that there were four new businesses moving in; the Holiday area; compliments received regarding the medians; trees that could be planted; the request to look at the Ordinance; the landscaping fund to help businesses; and grants that had come in.

- He spoke regarding a swing that broke at Hudson Beach, that it would cost just over $1,400.00 for two new ones, and plans for improvements coming up.

COMMISSIONER MARIANO MOVED to approve to spend up to $1,500.00 to replace those swings **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried with Commissioner Weightman and Commissioner Yeager absent from the vote.

Discussion was held regarding the great amenity for the community; the picnic tables; the plan to spruce up and make it nicer looking; and the upcoming RESTORE meeting.

Miscellaneous Business - County Administrator

- Mr. Carballa noted he had extended the Local State of Emergency for Hurricane Debby to August 29th. He spoke regarding flooding issues.

  Discussion was held regarding the flooding in east Pasco; houses that got water in the house in Hudson; that they could get a report from Emergency Management; and the gallons of water in the reservoir.

Miscellaneous Business - County Attorney

- No items.

Miscellaneous Business - Clerk and Comptroller

- No items.

Miscellaneous Business - Sheriff

- Absent

Roll Call

Ms. Alvarez-Sowles called the roll. All Commissioners were present.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Chairman Oakley reviewed the procedures to be followed and called for public comment.

Mr. Kostas Ktistakis spoke regarding updates on a light for Ross Lane and Little Road from Commissioner Oakley, a request for the Commission to keep the light in mind due to safety concerns, issues regarding double tax on paving assessments, and concerns regarding raised taxes.

Mr. Kevin Wright thanked the community for selecting him to oversee the MTSU. He spoke regarding drainage issues within the community due to new developments, his gratitude towards the Board's relationship with the MTSU and the Oversight Committee, that New River went right through the legacy subdivision, proper drainage maintenance, that if the MTSU was dissolved and money returned to taxpayers it would not handle current issues, that Mr. Wright looked forward to working with the Board going forward with new developments, and noted his agreement with Mr. Ktistakis regarding taxes.

Commissioner Oakley directed Mr. Wright to see Mr. Brandford Adumuah, Assistant County Administrator of Public Infrastructure, regarding his neighborhood concerns.

Ms. Nancy Hazlewood spoke regarding a notice from Tampa Bay Water in regards to wellfield testing in the northeast/rural protected area plan, the survey with the notice, the history of the plan, an overview of the wellfield's purpose, Tampa Bay Water's objective, her objections with the plan, her request to add to the northeast rural area plan regarding running water, and her request for more information and protection from the Board for the area.

Commissioner Oakley directed Ms. Hazlewood to speak with Mr. Brandford Adumuah, Assistant County Administrator of Public Infrastructure, regarding her concerns and clarified the water was for future use.

Ms. Christina Fitzpatrick displayed photos and spoke regarding the sign ordinance, visits with Code Enforcement during the election season, temporary signs, 1st Amendment Rights, not receiving a list where signs could be located, signs being removed, and Code Enforcement going on personal property.

Later in the meeting, the Board returned to Public Comment.

Dr. Christine Hankerson spoke regarding a visit to her community, a conversation with the Honorable Kurt Browning's, Superintendent of Pasco County Schools, office in regards to monitoring for speeding around stopped buses and crosswalks, examples of speeding around students in the crosswalk, devices used to catch speeders, fines, the hope for Pasco County to be progressive, prayers for children, conversations with the Sheriff's Office, the Sheriff's Office budget, that CDD funds were used to pay for off duty policemen to monitor the roads, an example of cars not stopping for a disabled individual, and a potential drug house within the community.

Consent

COMMISSIONER MARIANO MOVED approval of the Consent Agenda with the exception of Agenda items C5, C8, C17, C28, C39, C42, C43, and C46 which were pulled for discussion or revision and Agenda items C20, C38, C41, and C44 which had been withdrawn; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Development Services - Planning and Development

C5 Task Order PDE-TO2024-0004 - W.E. Oliver, PE, LLC - Development, Operations and Maintenance of the Villages of Pasadena Hills Fee Credit Registry - $768,610.50
File Number PDE24-0371
Comm. Dist. 1,2
Recommendation Approve

Mr. Nectarios Pittos, Director of Planning Services, spoke regarding the request to revise the scope of services to accommodate IT technical requirements, the increase of cost, and that funding within the VOPH Development Administration Review Liabilities Account would cover the cost increase.

Discussion was held regarding appreciation for the protection of citizens investing into the project and that the credits were managed appropriately.

COMMISSIONER WEIGHTMAN MOVED approval to receive and file documents submitted by Mr. Nectarios Pittos; **COMMISSIONER MARIANO SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER WEIGHTMAN MOVED approval of Staff's recommendation including the noted revision to scope of services to accommodate updated IT technical requirements; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Internal Services - Facilities Management

C8 Approve Professional Services Agreement for Hudson Library Renovation - RSQ-KM-20-084 – Design Services – Harvard Jolly, Inc. – $592,312.00
File Number FAC24-0108
Comm. Dist. 5
Recommendation Approve

Mr. Andrew Baxter, Director of Facilities Management, spoke regarding an error in the table on page two of the memo for the total for construction which should be $12 million for the entire project and that they were only requesting the approval of the design.

Discussion was held regarding clarification of language for the motion; the idea to delay the project for a year or two; the request to continue the item; whether phasing the project construction was possible; that people were looking forward to the library; cost concerns regarding waiting too long on the project; the benefits of the completed design work; and a request for a discussion with Staff at the start of the project.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation including the noted revision to adjust the table on page two of the memo for the total for construction; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

C17 Second Amendment to Agreement Between Pasco County and the Sixth District Medical Examiner for Reimbursement of Service Fees – Medical Examiner – $2,000,000.00
File Number OMB24-0043
Comm. Dist. All
Recommendation Approve

Ms. Amielee Farrell, Budget Director with the Office of Management and Budget, spoke during the discussion.

Discussion was held regarding questions on mandatory fees and coverage; the state mandate to fund for a medical examiner; the options for hiring a medical examiner; that contracting with Pinellas saved the County money; the cost responsibility of deceased individuals in Pasco County; an overview of the July medical examiner invoice; whether there was a breakdown of the type of deceased individuals; budget concerns; the concern over counties paying the bill if a visitor passed away; the lack of autopsy information; and whether the item could be continued to gather more information.

COMMISSIONER MARIANO MOVED approval to continue for two weeks; **COMMISSIONER STARKEY SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Internal Services - Purchasing

Recommendation Approve

Ms. Alvarez-Sowles spoke regarding the similar situation to Agenda Item C42, that time was needed to review the item, and requested approval be subject to Clerk review.

COMMISSIONER WEIGHTMAN MOVED approval of Staff's recommendation subject to Clerk review; **COMMISSIONER STARKEY SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Regular

Legislative/Administrative - County Administrator

R47 2025 State Legislative Discussion
File Number CA24-5030
Comm. Dist. All
Recommendation Presentation Only

Mr. Ralph Lair, Intergovernmental Affairs Officer, used documents distributed to review the item and spoke regarding the process of proposals received and initiatives and an overview of the issues within the Policy Proposals.

Mr. Keith Wiley, Director of Parks, Recreation, and Natural Resources, and Mr. Nick Uhren, Director of Engineering Services and County Engineer, spoke during the discussion.

Discussion was held regarding list submissions; that last year District 3 did not get to request for things; that there would be no caps on submissions; that the Honorable Ed Hooper, Florida Senator, would be the Appropriations Chair; the history and issues with the East Pasco Emergency Shelter, Recreation Complex, and Community Center; whether the Center was a part of the Parks Master Plan; the benefits of the Center for everyone; the benefit of moving the location; that the Center would not repeat the same mistake of the Fasano Shelter roof; whether there should be concerns regarding the Center being vetoed; that State Elected Officials were supportive; reasons for the chosen project; the issue with last year's projects; whether the projects could go under

Pasco County and Dade City; the request to see the Metro Project on a map; that requested projects needed to be a County project; the priority to connect Sunlake to 54; the contractual obligations to widen roads; that the extension to Bexley Parkway would be added to the 5-Year CIP; where the extension was on the MPO's priority list; the clarification on the processes between the priority projects that the MPO adopts and Capital Improvement Program that the Commission adopts; the removal of widening Trinity Boulevard from the 5-Year CIP and if money could be procured; Rangeland updates; whether to ask for Rangeland to relieve traffic on 54; whether a request for design funds was possible; the race to construct infrastructure to keep up growth and development within Pasco County; that projects were competing for funds; that projects presented were data driven and was an interactive process with the Board; an analysis of Trinity Boulevard and the intention to partner with Public Works; the East Lake Corridor; Trinity Boulevard; the impacts of asking for Appropriations on projects that had not been designed; the reallocation of funds for the bike/ped overpass at 54 and Suncoast to help with other projects; the agreement with FDOT regarding pedestrian overpasses; if Legislative Appropriation was sought for both roads; sidewalk safety concerns from Trinity Boulevard towards the schools; working with the School Board about their priorities to help receive Capital funds; the concern over the School Board's construction of sidewalks; an example of Shady Hill's sidewalks; the support of the School Board's priority list for sidewalks; the sidewalk and multi-mobile path created during the Old Pasco Road widening; discussions and coalition with FAC; whether a walkway for Metro was a part of County safety issues; that Metro and the County's request should work together; the issue with Metro's requests; that Metro had been asked to participate; a suggestion for a presentation to the Reginal Planning Councils regarding Live Local; the need and hopeful reception of the County and Municipal Enforcement Complaints; the great list of asks to support the County; and the potential policy discussions brought on by the unfunded state mandates throughout the Budget process.

The item was for information only.

Legislative/Administrative - Organizational Performance Management

R48 2025-2030 Strategic Plan
File Number OPM24-1008
Comm. Dist. All
Recommendation Presentation Only

Dr. Marc Bellas, Office of Strategy and Sustainability, used a PowerPoint presentation to review the item and spoke regarding the story of a movie played at an old theater in Oakland and a target analogy regarding the Strategic Plan.

Discussion was held regarding when there would be updated reviews; the ways for the Board to be updated on the process; the system metrics that the Board could use; the collaboration process with the Strategic Plan Development Committee; a request for a handout for the Leadership Council meetings; and that handouts would be produced.

The item was for information only.

Miscellaneous Business - District One - Commissioner Oakley

- Chairman Oakley displayed photographs and spoke regarding the new Health Department Building in Hudson, the services for citizens, the good work of the Team there, and that he was thankful for the work that supported the best health for all of Pasco citizens.

  Discussion was held regarding thanking Commissioner Oakley for attending the event and that the old building was to be sold and the money would be put back into the County

- He displayed photographs and spoke regarding attending the Pinellas and Hillsborough County Public Safety Operations Centers, the newer facility in Pinellas, that Pinellas had built for future and current needs, that Hillsborough County was run very well similar to Pinellas, that Hillsborough County was busting at the seams due to building at current needs instead of future, the loss and growth of Public Safety employees in Pasco, and that he was thankful for the Board's help for Public Safety employees and Pasco citizen.

- He displayed photographs and spoke regarding the Citizens Academy with Public Safety Sherrif and Fire Rescue, that they were a great group of people who were interested in the information, a SWAT team demonstration, and that he had explained the new paving assessment to the Advisory Group.

Miscellaneous Business - District Two - Commissioner Weightman

- Commissioner Weightman passed around a children's book and spoke regarding his concern in regards to children's books with adult conversations within Pasco's library system, that he had asked the Library Team to do a full review, his appreciation towards the seriousness of the exercise from Staff and the Library Team, the number of books found with similar verbiage, the comparison to the Florida Department of Education's objection list, the current audits, his request for all individuals to please be vigilant on what children may be reading, his goal to have the books thoroughly vetted, and that he looked forward to what the team could come up with and engaging with the Library Advisory Board.

  Discussion was held regarding previous conversations with the removal of certain books from libraries; the need to remove the books now; and to thank Commissioner Weightman for spearheading the issue.

  Mr. Sean McGarvey, Director of Library Services, spoke regarding that the books had been suppressed and removed under review, so that they were no longer on the shelf, as well as the titles mentioned within the catalog.

  Discussion continued regarding the books within public schools; that the school system followed the Florida Department of Education's objection list; that Pasco County Libraries were under the purview of the Board; the need to let the book vetting process play out; that the book vetting process had been approved two years ago; and that there was a civilian oversight and the library would begin the review process.

Miscellaneous Business - District Three - Commissioner Starkey

- Commissioner Starkey displayed photographs and spoke regarding her appearance at the Community Service Council Chopped event, the events she and her son won, that the event was a lot of fun, and the services of the Community Service Council.

- She displayed photographs and spoke regarding a tour, that she would tour Pinellas County's as well, that she had originally missed the Pinellas County tour due to being at the Honorable Ron DeSantis', Governor of Florida, conference on tourism, and the request to tie the Tourism Council to the Cultural Council for joint projects.

  Mr. Sean McGarvey, Director of Library Services, spoke regarding an upcoming meeting and that they could bring up the idea to the CAAC.

  Discussion was held regarding Commissioner Starkey attending the upcoming meetings.

- She displayed a video and spoke regarding the recycling of glass in the County, that Disney created their outdoor areas with recycled glass, the request to look into it, and that the machine was not very expensive.

  Discussion was held regarding the price of the machine.

- She spoke regarding a video displayed on the collection of coins.

  Discussion was held regarding the recycling of materials being sent to a facility; the request for more details on the program; the need for a machine that broke down glass into sand; and that grants were available to help purchase the machine.

- She displayed a photo and spoke regarding her concerns with a fenced house on Patriot Lane and whether the fence was allowed by Code.

- She distributed documents and spoke regarding her concerns with the Moffit powerlines that had not been buried due to the Withlacoochee power company, an example of the need for buried powerlines, that all powerlines had gone underground in Miami-Dade County, examples of power companies and their percentage of underground powerlines, the issues with new developments that had lines above ground, and the requirements in other counties for powerlines to be underground.

  Discussion was held regarding the type of powerlines; if Pasco required local transmission lines to be underground; that most new neighborhoods did not have above ground powerlines; that there was a disagreement happening and Moffit would like their lines to be buried; and that a rule in place would be needed if it did not exist.

- Later in the meeting, she spoke regarding Spokane, NACo achievement awards, the request for Pasco to copy the Skill Bridge program, a workforce training tour in Pennsylvania, and the hope that this program could bring jobs for citizens leaving the military.

- She distributed documents and spoke regarding an Ordinance adoption for camping misdemeanors, whether Pasco had a community court, the reading of the Ordinance, an example of a well shutdown near her, the potential benefits to a community court, and concerns with a property on 19.

Miscellaneous Business - District Four - Commissioner Yeager

- Commissioner Yeager displayed a photo and spoke regarding the ribbon cutting for the Florida Department of Health and Pasco County's Premier's new dental office, the amazing job with the building, and the services that would be provided.

- She displayed a photo and spoke regarding her visit and tour of the Clerk and Comptroller's Office.

- She displayed a photo and spoke regarding a fire in Moon Lake and the family's circumstances. She noted her appreciation for the Fire Department, the Fire Department charities, and to the Pasco community for their help with the family, and provided an update on the family's future living situation.

  Discussion was held regarding the location of the new home; that the family had lost everything; whether a GoFundMe page had been created; and that the Fire Department would set up a link to help the family.

Miscellaneous Business - District Five - Commissioner Mariano

- Commissioner Mariano displayed photographs and spoke regarding the Oasis Pregnancy Center and the event turn out.

- He displayed photographs and spoke regarding the Premier Healthcare Awards Event, the sponsors of the event, the great services provided for people, and the turn out for the event.

- Later in the meeting, he distributed documents and spoke regarding the Ordinance for election signage, sign violations, that the rules were different, and the request for the Board to look over the Ordinance for discussion at the next meeting.

  Discussion was held regarding the two separate issues; the possible solution; that it could be discussed at the upcoming September meeting; double-sided signs; and that Staff was working on the issue.

Miscellaneous Business - County Administrator

- Mr. Carballa spoke regarding potentially meeting and creating an agreement for the Board to approve taking over Safety Town.

  COMMISSIONER MARIANO MOVED approval to have the County Administrator and the County Attorney create an agreement for the Board to potentially take over Safety Town; **COMMISSIONER STARKEY SECONDED.**

  Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

- He displayed photographs and recognized the Community Development Team that was honored with the New Construction Rental Development Award. He

noted the great job regarding the affordable housing units constructed and thanked the Team for a job well done.

- He recognized the Purchasing Department for being met with an Achievement of Excellence and noted the Team continued to do great things.

- He held up a document and spoke regarding Community Rating System, the savings for residents, his thanks towards Emergency Management and BCS, and goals going forward for citizens.

- He spoke regarding Ms. Jordan Packard's retirement years ago, the resolution that was passed, and his request for a moment of silence for her passing.

Miscellaneous Business - County Attorney

- No items.

Miscellaneous Business - Clerk and Comptroller

- Ms. Alvarez-Sowles introduced the Board to the newly appointed Inspector General, Ms. Christine Calianno. She spoke regarding Ms. Calianno's work and leadership experience and her education experience and skills.

  Ms. Christine Calianno, Inspector General for the Clerk and Comptroller, thanked everyone for the formal introduction. She spoke regarding her background, her gratefulness towards her new role, the tie back to the Strategic Plan, her goals with relationships within the County, and was thankful for her opportunity.

  Chairman Oakley welcomed Ms. Calianno to Pasco and expressed the importance of her job.

Miscellaneous Business - Sheriff

- Absent.

THE BOARD RECESSED AT 12:06 P.M. AND RECONVENED AT 1:32 P.M. ALL COMMISSIONERS WERE PRESENT. MS. ALVAREZ-SOWLES WAS REPRESENTED BY MR. HAROLD SAMPLE, DEPUTY CLERK.

Public Hearings

Proposed Ordinances at 1:30 p.m.

P49 Land Development Code Amendment (Continuance) - An Ordinance By The Pasco County Board Of County Commissioners Amending The Pasco County Land Development Code; Section 802 Tree Preservation And Replacement; Appendix A Definitions; And Other Sections, As Necessary, For Internal Consistency; Providing For Applicability; Repealer; Providing For Severability; Inclusion Into The Land Development Code, And An Effective Date.

File Number PDE24-0379
Comm. Dist. All
Recommendation Continuance Requested

Mr. Sample noted the proof of publication.

Mr. Nectarios Pittos, Director of Planning Services, read the item into the record.

COMMISSIONER STARKEY MOVED approval to continue to a date uncertain; **COMMISSIONER MARIANO SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

P50 An Ordinance Amending The Pasco County Comprehensive Plan; Providing For A Comprehensive Plan Amendment To The Future Land Use Map (Map 2-15 And Sheet 12) From RES-3 (Residential - 3 Du/Ga) And AG (Agricultural) To PD (Planned Development) On Approximately 100.8 Acres Of Real Property Located At The Southeast Intersection Of US 41 And Leland Avenue And 1.1 Miles North Of S.R. 52; And A Text Amendment Creating Subarea Policy Flu 7.1.72 – Fletcher; And A Map Amendment To The Future Land Use Map 2-9 Adding Subarea Map 2-9(72) Fletcher; And Providing For Additional Text Amendments As Necessary For Internal Consistency; Providing For A Repealer, Severability, And An Effective Date.

File Number PDE24-0024
Comm. Dist. 1
Recommendation Approve

Mr. Sample noted the proof of publication.

Mr. Nectarios Pittos, Director of Planning Services, read the item into the record and used a PowerPoint presentation to review the item.

Discussion was held regarding the placement of the multi-family and commercial properties; clarification on whether the item was just a Comp Plan change; the need to make sure the site plan was binding; a concern on what would be in front of the project on 41; and the suggestion to listen to P58 before voting.

Public comment for Agenda items P50 and P58 were heard together.

Later in the meeting, the Board returned to this item.

COMMISSIONER MARIANO MOVED approval to continue to the October 8, 2024 Board of County Commissioners meeting at 1:30 p.m. in Dade City; **COMMISSIONER YEAGER SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

P51 An Ordinance By The Pasco County Board Of County Commissioners Amending The Pasco County Land Development Code; Amending Section 303.5, Common Procedures, Preapplication Consultation; Section 305.1, Neighborhood Meeting, Intent and Purpose; Section 402.3, Use Permits, Conditional Uses; Section 525.3, C-1 Neighborhood Commercial District, Conditional Uses; Section 525.4, C-1 Neighborhood Commercial District, Special Exception Uses; Section 526.3, C-2 General Commercial District, Conditional Uses; Section 907.3, Stacking Spaces And Drive-Through Facilities; Creating Section 1106, Car Wash Facilities Standards; Appendix A, Definitions; And Other Sections, As Necessary, For Internal Consistency; Providing For Applicability; Repealer; Providing For Severability; Inclusion Into The Land Development Code, And An Effective Date.

File Number PDE24-0336
Comm. Dist. All
Recommendation No Action Required

Mr. Sample noted the proof of publication.

Mr. Nectarios Pittos, Director of Planning Services, read the item into the record and used a PowerPoint presentation to review the item. He spoke regarding the limited frontages, the low opportunity for employment generating land uses, consideration for the types of land uses along the County roadways, and questions submitted by interested parties.

Mr. Clarke Hobby, Hobby and Hobby PA, Ms. Barbara Wilhite, and Ms. Cynthia Spidell, representative of the Circle K on Prospect and Clinton Avenue, spoke regarding no objections to car wash limits or Conditional Use requirements; the adoption of C2 standards within MPUDs; that car washes as a potential use would now go away; that

there had not been a lot of meetings with stakeholders; language issues within the draft; that they would like to sit down with the County Attorney's Office and Staff regarding the language; the representation of sellers; clarity that the site design requirements were still allowed; the concern of modifying an MPUD; the journey alongside Staff; that they understood the intent; whether they needed to pull in all car washes instead of just standalones and freestanding; notification concerns for convenience stores with car washes; the need for clarification on the prohibitions for car washes in a connected city and VOPH; the difficulties with neighborhood meetings; Staff's discretion for neighborhood meetings; a use exemption for type 2 Villages; the standard for driveway markings; modifications; appreciation for everyone's work; the concern that no alternative standards would be allowed; the difficulties with establishing public need, and competition within Pasco County.

Discussion was held regarding a request for the individuals of Pilot Country and the HOA to provide their contact information to Chairman Oakley; whether the car washes in the presentation met landscaping code; car washes that were not Pasco's; appreciation to the Planning team for the movement forward with car washes; the initiative for architectural design standards and distance requirements; the Board's ability to approve a car wash when necessary; traffic safety; the decommissioning plan on car washes over other businesses; that more work was needed before a vote; the hope that Staff, stakeholders, and Mr. Steinsynder could work together to create a good product; the request that anything the Board had already approved to not be impacted by the Ordinance; the excitement towards the final product; that concerns regarding car washes had been heard; and the positive direction for a more professional car wash product; a monopoly on land; the requirement of a Conditional Use permit; applications; that distance was the most important part of the Ordinance over the market analysis; the concern with approvals of MPUD's with C2 zoning; clarification on Mr. Allen Altman's specific MPUD and approval; clarification on MPUD's allowed C2 permitted uses; an overview of the approval process; the requirement of a neighborhood meeting; whether the neighborhood meeting requirement stemmed from the car wash in Seven Oaks; the need to make sure already approved projects were not affected; that the car wash at Prospect and Clinton was in the clear; whether going through a Conditional Use would require a modification for an MPUD; the suggestion to require a Conditional Use permit for someone that had C2 with no design standards; the intention of the language; the costs of a substantial modification; the cell tower Ordinance decommission; specific language for decommission; the creation of a Conditional Use; the need to work on the Conditional Use Standards; the idea that Planning Commission thought it would help self-regulate individuals so they would not proliferate car washes; an ex parte filed on the item; that they were close to a final version; that gas stations with car washes should not be within the protection; the location and distance of car washes; clarification on if accessory car washes should not be considered for the distance requirements; the public meeting requirement compared to other businesses; the surprise of a car wash for the Seven Oaks residents; the discretion of the Board; jobs per square foot; the public hearing; and that a neighborhood meeting would not be necessary since there would be a public hearing.

No action required as this was the first Public Hearing. The adoption hearing was scheduled for the September 17, 2024 Board of County Commissioners meeting at 1:30 p.m. in New Port Richey.

P52 An Ordinance By The Pasco County Board Of County Commissioners Amending The Pasco County Land Development Code; Section 604 Northeast Pasco Rural Protection Overlay District; Figure 604-1 Northeast Pasco Rural Protection Overlay District Boundary; Figure 604-2 Northeast Pasco Rural Scenic Roadways; Figure 604-4 Limits To Topographic Alterations; And Other Sections, As Necessary, For Internal Consistency; Providing For Applicability; Repealer, Severability; Inclusion Into The Land Development Code, And An Effective Date.

File Number PDE24-0413
Comm. Dist. All
Recommendation No Action Required

Mr. Sample noted an issue with the item.

Mr. Nectarios Pittos, Director of Planning Services, spoke regarding that the item was for an expansion of the northeast rural protection area, noted that the advertisement was misdated, and requested a continuance of the item.

COMMISSIONER MARIANO MOVED approval to continue to the October 8, 2024 Board of County Commissioners meeting at 1:30 p.m. in Dade City; **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

P53 An Ordinance by The Pasco County Board Of County Commissioners Amending The Pasco County Land Development Code, Section 905.2.E, Landscaping And Buffering; Landscape Acceptance, Maintenance, And Prohibitions; Appendix A Definitions; And Other Sections, As Necessary For Internal Consistency, Providing For Applicability; Repealer; Providing For Severability; Inclusion Into The Land Development Code, And An Effective Date.

File Number DRD24-0209
Comm. Dist. All
Recommendation Approve

Mr. Sample noted the proof of publication.

Mr. Nectarios Pittos, Director of Planning Services, read the item into the record.

Mr. Brad Tippin, Director of Development Review Services, used a PowerPoint presentation to review the item and spoke regarding references to invasive species with the current Comprehensive Plan and Land Development Code, cogon grass concerns, the change to FISC, and a separate paragraph on cogon grass.

Ms. Jennifer Seney spoke regarding that she was pleased with the final version of the amendment, her concern on when best management practices would go into effect, her preference for it to be at the site planning stage, that all invasives should be called out, the concern on follow up inspections, the Growth Management Manual, her appreciation for including the category 1 invasive species from the Florida Invasive Species Council, an overview of the list from the Florida Invasive Species Council, that the amendment was more than the County had done before to address invasive species, and it was a way to restore the native environment.

Discussion was held regarding the separation of cogon grass from other invasive species within the code; the reference to best management practices for removal of invasive species; that cogon grass was very detailed in the Florida Administrative Code compared to other invasive species; invasive species conflictions; the addition of extra cogon grass protection; that this was the first step within the process; future discussions with Staff; Ordinances from other counties; the need to get cogon grass under control; and that cogon grass was being sold as sod.

COMMISSIONER STARKEY MOVED approval of adoption; **COMMISSIONER MARIANO SECONDED**.

Mr. Sample called the roll; the vote was unanimous, and the motion carried.

Public Hearings at 1:30 p.m.

Mr. Steinsnyder reviewed the Public Hearing procedures to be followed.

Mr. Sample swore in those who planned to present testimony.

P54 Zoning Amendment (Continuance) – Suncoast Lakes MPUD Master Planned Unit Development – Rizk Florida JV - A Rezoning Request from an MPUD Master Planned Unit Development to an MPUD Master Planned Unit Development District to Allow a Modification to the Previously Approved MPUD to Reflect, Memorialize, and Approve Subsequent Revisions on Approximately 483.5 Acres in the South and Central Market Areas

File Number PDE24-7826
Comm. Dist. 4
Recommendation Continuance Requested

Mr. Sample noted the proof of publication.

Mr. Nectarios Pittos, Director of Planning Services, read the item into the record.

Discussion was held regarding the requested continuance.

COMMISSIONER STARKEY MOVED approval to continue to a date uncertain; **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

P55 Zoning Amendment (Consent) – Kokolakis West MPUD – SR 52 Limited Partnership and Jen Holdco LLC – Rezoning Request from an A-C Agricultural District to an MPUD Master Planned Unit Development District to Allow for the Maximum Development of 155 Single Family Detached Dwelling Units (DU), 67 Single Family Attached Dwelling Units, 168,799 Square Feet (SF) of Support Commercial, and 125,000 SF Corporate Business Park/Target Industry/Light Industry and Associated Infrastructure on Approximately 177.48 Acres Located in Central Pasco County

File Number PDE24-7597
Comm. Dist. 2
Recommendation Approval with Conditions

Mr. Sample noted the proof of publication.

Mr. Nectarios Pittos, Director of Planning Services, read the item into the record.

Mr. William Vermillion, Planning, Development and Economic Growth, used a PowerPoint presentation to review the item.

Mr. Brad Tippin, Director of Development Review Services, and Mr. Nick Uhren, Director of Engineering Services and County Engineer, spoke during the discussion.

Discussion was held regarding the alignment of the interior road; the need for the color key to the Central Pasco Employment Village Master Plan; the Swope MPUD; where the easements were within the map; the Tampa Bay water easement; an additional sliver to widen for use; the trail which would be allowed to come in and cut down to the road; why the blue strip wasn't shown on the property to the east; SWFWMD preservation; the history and reason the easement was not shown on the map; a year to comment on a 60-foot easement or 30-foot easement and whether there was a comment; that a 30-foot easement was determined acceptable; whether the easement was still there; the obligation of the property owner to the east; that the County chose to accept an easement; that at the time of Board approval the easement was not yet recorded due to fencing issues; that those issues had been resolved; that the easement

would be brought to the Board in October so it could be recorded; whether the developer's mobility fee credits should go towards the trail; that it was an asset towards their development; whether the property was fenced on both sides; that developers could build their segments of the Orange Belt Trail; the height challenge with developer's constructing a pedestrian facility; the request for a collection of fees that go to their property; the flexibility of mobility fees restricted by zones; the combination of funds used to create the Orange Belt Trail; the recommendation on how to use the mobility fees; that they were smaller compared to the transportation capacity mobility fees; the concern that there was no money; and the SUN Trail money.

COMMISSIONER STARKEY MOVED approval of Staff's recommendation **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

P56 Zoning Amendment (Consent) – Dave Mitchells Holding Company/Mitchell Clinton Rezoning – Change in Zoning from an R-1MH Single-Family/Mobile Home District and C-2 General Commercial District to a C-2 General Commercial District – East Central Pasco County – Northeast Corner of Circle B Road and Clinton Avenue – Containing Approximately 2.18 Acres

File Number PDE24-7808

Comm. Dist. 1
Recommendation Approval with Conditions

Mr. Sample noted the proof of publication.

Mr. Nectarios Pittos, Director of Planning Services, read the item into the record and spoke regarding the applicant's request for a continuance.

There was no public comment.

Discussion was held regarding the location of the item; that the item was looked at last month; density; the difference of the product; the motion of the item; and public input.

COMMISSIONER MARIANO MOVED approval to continue to the October 8, 2024 Board County Commissioners meeting at 1:30 p.m. in Dade City; **COMMISSIONER STARKEY SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

P58 Zoning Amendment (Regular) – Fletcher MPUD – Mary L Fletcher Rev. Trust and Richard D. Fletcher – Rezoning Request from an A-C Agricultural District and an R-1MH Single-Family/Mobile Home District to an MPUD Master Planned Unit Development District to Allow for the Development of 350 Multi-family Apartment Dwelling Units, 160 Townhome Dwelling Units, and 100,000 Square Feet of Commercial and Associated Infrastructure on Approximately 100.6 Acres Located in North Central Pasco

File Number PDE24-7739
Comm. Dist. 1
Recommendation Approval with Conditions

Mr. Sample noted the proof of publication.

Mr. Liam Devine, Planning, Development and Economic Growth, spoke regarding ex partes that had been received and that they would be submitted to the Clerk's Office. He reviewed the item using a PowerPoint presentation.

Ms. Christie Barreiro, Heidt Design, representative for the applicant, spoke regarding the hard work on the concept plan, the transition of the Comp Plan Amendment to the State, the approval from the Planning Commission, that the project was mixed use, that the applicant was not the developer, the density language in the sub area polices, the MPUD conditions per parcel, and that while the concept would not be binding there would not be much room to change the plan beyond the conditions.

Mr. Mark Wilke, representative for the applicant, spoke regarding the difference between carriage homes and townhomes, aesthetics with the rear loaded units, the density number, and the previous Planning Commission meeting.

Mr. Roberto Garcia, Mr. Tom Cooper, Mr. Michael Hoover, Mr. Paul Prince, Mr. Rick Warner, Mr. Mark Budd, Ms. Emma Hemness, Hemness Faller Law, Mr. Christopher Buell, and Mr. Dennis Hertenstein spoke regarding the ownership of the area; the issue with the access gate; unwanted traffic; that the road was used by airplanes with no way to backup with traffic; a letter for potential property owners notifying them of the runway and noise; complaints from a neighborhood; that the letters had not been signed; personal experiences as a pilot; personal experiences with bird strikes; how hits occurred; the removal of the ponds; potential future issues; the issues shown on the news; their history in the County; where they currently lived; those who owned an aircraft; flight history and experience; that Mr. Cooper was an elected representative of Pilot Country Estates Homeowners Association; the HOA's location and what it represented; development notification issues for Pilot Country Estate residents; rezoning concerns to the north; airport protection zoning regulations within the Land Development Code; the creation of more hazards; the unknown hazards recreated for future residents and pilots; issues with the developer's site plan; and a request for an invitation to all future development planning meetings or rezonings adjacent to the airport; appreciation to the Board for their time; the work that went into the plan and the

fundamental errors; an overview of the three entities of the Pilot Country Airport; that Staff had spoken with the owner's representative Mr. Spencer Brass and his residencies; the Airport Owner's desire for a return on investment; the desire of the members of the Home Owners Association and residents for a functioning airport community; water fowl off the runway; an example of an incident with a pilot and Sandhill Cranes; appreciation for Mr. Cooper; the need for Staff to consult with the Home Owners Association and not the airport; a change in Pasco County's slogan with the development; that Parcel D was a bad idea with the airplane noise; the two retention ponds; the displacement of gopher tortoises; the current cows; that the idea was all-around bad; that a commercial development would be more acceptable; that the airport owner did not speak for them; that the Home Owners Association and the property owners were separate entities; those who lived on the actual runway; the Commissioner's points that needed to be considered; the request for the changes; that they were not against development, but into safety; Mr. Warner's experience as an air traffic controller; the created kill zone; an example of a potential accident; that takeoff and landing were the most dangerous parts of flying; incapability of the area, and the request for Parcel G, Parcel G1, and Parcel D to be reworked; the letter received and filed by Mr. Garcia; flight enthusiasm; recent visits to Pilot Country Estates; that more attention was needed toward the gated access; the Conceptual Plan's bindingness; a transcript; the August 8, 2024 Planning Commission was the first meeting for the Pilot Country residents; the impacts of the private property owners of Pilot Country; a recommendation that the item not be approved today for the safety of the community; notifications for the community through the HOA for issues and involvement; comments made at last month's meeting; the scramble for the last meeting; multi-story houses on the airport; the difference between houses at the end; the controlled field and an overview of the traffic patterns; the issue with the traffic patterns over houses, an example of engine failure during climb out; personal experiences from an airplane crash; that commercial and warehouse space would be more compatible; that the Pasco County Sheriff used the runway for training; that the Air National Guard used the runway for practice; that most people living there accepted and enjoyed the traffic and activity; the concern with lack of notification for new residents about the airport; and the request to change the zoning to something more compatible with the current use.

Mr. Nectarios Pittos, Director of Planning Services, spoke during the discussion.

Discussion was held regarding clarification on where different zonings would be in the development; the required protection areas for the airport; the location of the multi-family units; that the conceptional plan was non-binding, but the parcels were specific on how they could be developed; that the applicant's desire for a LUEM was complicated with a binding conceptual; binding patterns imposing on other parcels; clarification on the flexibility of LUEMs for the development; the conditions of the LUEMs; if townhomes would be required to be rear loaded; the issues of the design being conceptual; examples of conceptual plans that did not match up with what was produced; issues regarding the transition to the rural area; that the project didn't necessarily fit with what was around it; the change of Parcel G due to bird concerns around the runaway; clarification on the shifted amount of rear loaded townhomes; the

land saved for the airport; the airport study; the suggestion to shift compensating storage in G1 due to water way concerns; clarification of the placement of the building and parking lots; the change to multi-family homes; that the number of apartment units could not be increased; that they could trade apartments for town homes, single-family homes, or commercial; percentages in the Conditions of Approval; the hard work with Staff and the Commissioners; that the multi-use did not fit in with the area; the vertical capping of apartments and townhomes; the potential of a carriage home product; the appropriateness and flexibility of the vertical mixed use building on the northeast corner; the provision of options for modifying the building uses; the need to be careful with the rural area and to keep the area as rural as possible; public comment options for the upcoming hearings; the bird concerns along both sides of the runway; documents distributed by Ms. Barreiro; that the compensating storage was a floodplain pond; other representatives present that could answer questions; that nothing would be developed in the runway protection zone; the guidelines just outside of the protection zone; an overview of the proposed pond edges in regards to vegetation and birds; clarification on the twenty percent of rear loaded townhomes; the requirement of park spaces; the matrix compared to the concept plan; the flexibility of the multifamily units; if the carriage homes could be separated; density problems; the request for the number of units within the legend; the concern with how the product looked; clarification on the flexible multilevel options within the parameters of the Conditions of Approval; that the apartment unit max was 350 and that they could not increase the amount using the LEUM; the number of garden style apartments; the clarification on carriage homes and why they are considered apartment dwelling units; the concern over the change in the number of carriage homes; the max of apartment units; the difference between a carriage home and a townhome; the aesthetic and location of the carriage homes; examples of carriage homes; the height of the carriage homes; the limits to changing the design; less density; that the east-west spine road could not change much; the concept closeness; photographs displayed by Commissioner Starkey the exterior of carriage homes in Starkey Ranch; the number of units with garages; living on the bottom units; the definition of a carriage home; the potential Condition of Approval for living areas; Commissioner Weightman's points for the concept; the approval of the towns and commercial; multifamily; the procedures to be followed for both items P50 and P58 for public comment; the access to potential places to visit; whether it was a pedestrian gate; the ponds; a request for Mr. Carballa to make a copy of the letter received and filed to be made for the Commissioners; that Chairman Oakley's office would be reaching out to Mr. Cooper about the issues regarding District 1; whether there were two-story houses in Pilot Country; the closeness of houses to the runway; a conflict on who gets to live in the area; the difference between living in the middle of the runway and the takeoff and landing zone; flight and noise complaints from Talavera; an example of Mr. Prince's son leaving Talavera; living near the airport; that the Board could not view the picture on Mr. Budd's phone and that the photo could be emailed or displayed; a photo displayed by Mr. Budd regarding a bird strike incident and the damage to his plane; the potential of his aircraft ending up in homes; the issue with that particular density close to the airport; the prevalent Florida bird activity; appreciation to Ms. Rauber; that they thought the community had been spoken to; conversations with

the airport; rules; a request in the future regarding notification of neighboring parcels with access management issues; and that all the concerns had been heard.

Ms. Angela Rauber, from Hill, Ward, Henderson, representative for the applicant, spoke regarding the state of the project with everyone involved, that there seemed to be more work to do, additional conversations with the neighborhood, and the request for a 30-day continuance of the item.

COMMISSIONER WEIGHTMAN MOVED approval to receive and file documents submitted by Ms. Christie Barreiro; **COMMISSIONER MARIANO SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER MARIANO MOVED approval to receive and file documents submitted by Mr. Roberto Garcia; **COMMISSIONER STARKEY SECONDED**.

Chairman Oakley called on the motion; and the motion carried with Commissioner Weightman absent from the vote.

COMMISSIONER MARIANO MOVED to receive and file documents submitted by Mr. Tom Cooper; **COMMISSIONER STARKEY SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER MARIANO MOVED approval to continue to the October 8, 2024 Board of County Commissioners meeting at 1:30 p.m. in Dade City; **COMMISSIONER YEAGER SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

THE REGULAR MEETING ADJOURNED AT 4:52 P.M.

Public Hearings at 5:15 p.m.

Call To Order

Chairman Oakley called the meeting to order at 5:18 p.m.

Invocation
Pledge of Allegiance

Mr. Sample gave the Invocation and led the Pledge of Allegiance to the Flag.

Roll Call

Mr. Sample called the roll. All Commissioners were present. Commissioner Weightman arrived to the meeting at 5:21 p.m.

P59 Adoption of Tentative Millage Rates and Tentative Budget for Fiscal Year 2025 - To Be Distributed
File Number OMB24-0045
Comm. Dist. All
Recommendation Approve

Chairman Oakley reviewed the procedures to be followed.

Ms. Amielee Farrell, Budget Director with the Office of Management and Budget, noted the proof of publication and used a PowerPoint presentation to review the item.

Mr. Farrell provided a summary of the General Fund and Transportation Fund.

Chairman Oakley called for public comment regarding the General Fund and Transportation Fund.

Ms. Christie Zimmer, Mr. Chris Walsh, Mr. Terry Schrader, Mr. Cecil Christian, and The Honorable Kevin Steele, State Representative, spoke regarding a request to reduce the millage rate; that the Honorable Mike Wells, Pasco County Property Appraiser, provided an opportunity to reduce the millage a couple of years ago; that people were taxed out of their homes; Ms. Zimmer's experience as a realtor; home assessment issues; that it was an election year; the request for some kind of reduction plan; examples of delays in paid taxes and abatements; the need to help taxpayers; the request to make budget cuts; Mr. Walsh's membership on the Board of Supervisors for the Talavera Community Development District; the homes and budget process; approval of some of the discussion; the taxable value back in 2019 versus now in Pasco County; that a lot of people could not afford their tax bill; previous discussions about affordable housing;

yearly tax increases; the reduction of millage rates; that something had to be done; appreciation to the Commission for what they did; resident phone calls Mr. Steele had received; inflation costs; that properties were artificially inflated; the reduction of costs once President Donald Trump was reelected back to office; that people would need to reapply for their home value to be lowered; a recommendation to reduce the value of the home or the millage rate; the amount of funds within the reserves; and the percentage put into the reserve.

Discussion was held regarding mandated funding by state statute; the delay of the Hudson Library design; that the $12 million fell under Capital Expenditures; the reduction in the paving MSTU millage; a suggestion to use the library funds to fund road paving; the amount taken away from the road paving MSTU; the recommendation to not level lower than the PVAS debt; that calculations for the mileage would be needed; the process required to enact on the idea; that cuts in the budget were still doable, but they just could not go up; clarification on the retiring the PVAS debt; the PVAS debt amount; the recommendation to pay for the debt with reserve funds; that reserve levels were sitting higher than the reserve policy required however recurring expenses exceeded current revenue; Public Safety agreements; the anticipation of drawing down the reserves in the out years; that Fiscal Year 2028 was the outyear; the issue with spending all the Capital funds; for Staff to bring the item back; the deferral of impact fees; that the Certificate of Occupancy was issued when impact fees were paid; an overview of the Senior Homestead Exemption; the comparison to other states in the Country about lowering taxes; whether a property was Homesteaded; increased tax rates; whether people within the district had reserve funds for a month; the recommendation to make adjustments; the need to help people; an overview of the reserve money and how it was used; the General Fund target reserve; the addition to the reserves each year; the Board policy target percentage; the target number increase difference; that the planned expenditures would decrease the number by 2028; whether there would be a penalty for going below the 60-day mark; bond ratings; that there were side effects to lowering the reserve, but no penalty; bond or debt covenants that required certain levels; the benefits of the Board's bond rating; and further discussion as they went through the process.

COMMISSIONER MARIANO MOVED approval to adopt the tentative Millage Rate for Fiscal Year 2025 for the General Fund of 7.5700 Mills; **COMMISSIONER STARKEY SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER WEIGHTMAN MOVED approval to adopt the tentative Millage Rate for Fiscal Year 2025 for the Transportation Fund of 0.0000 Mills; **COMMISSIONER STARKEY SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Ms. Farrell provided a summary of the Fire Municipal Service Taxing Unit.

Chairman Oakley called for public comment regarding the Fire Municipal Service Taxing Unit.

There was none.

Discussion was held regarding an explanation of the D-Shift; the work schedule for firemen; the benefits to the additional shift; the increased manning requirement; the elimination of the Kelly Day; that the item saved the County from losing Public Safety personnel; losses years prior; the gain for the shift; the push for wages; the funding of D-shift for work-stress reduction; the growth of the County; what the MSTU paid for; the appreciation towards Fire Chief Anthony Perez' budget; savings for Fire Rescue; the change of the high turnover rate; and that more people were protected and wanted to work in Pasco County.

COMMISSIONER STARKEY MOVED approval to adopt the tentative Millage Rate for the Fire MSTU of 2.1225 Mills; **COMMISSIONER MARIANO SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Ms. Farrell provided a summary of the Parks Capital Maintenance MSTU.

Chairman Oakley called for public comment regarding the Parks Capital Maintenance MSTU.

Ms. Janine Duffy and Ms. Christie Zimmer spoke regarding the importance of parks; the increase of costs; a request for Parks and Recreation to receive cuts; the parks in Pasco and maintenance; a personal situation and getting taxed out of their home; that others were also affected; that they did not want to move; the request to hear people out; that it was an election year; and Penny for Pasco funds.

Mr. Keith Wiley, Director of Parks, Recreation and Natural Resources, spoke during the discussion.

Discussion was held regarding maintenance delays; that during COVID Parks was able to catch up on maintenance; what the money was needed for; the zero dedicated funding source for Capital Improvements; that the GO Bond funding would last until Fiscal Year 2025; that the MSTU would pick the Capital funding up from the General Obligation Bond; cuts made during Commissioner Starkey's time on the School Board during the recession; the County's cuts of Parks and Libraries; when Commissioner Starkey moved to Pasco, being a parent of kids who played sports in the parks, and her experience as a youth coach; that the Starkey Regional Park was the first park to be added in 32 years; that they were adding fields; kids that had signed up for sports that

they could not play; the new Little League team with no fields; the last time a Little League Complex had been added; the addition of the softball complex at Starkey Ranch; a review of the Capital Maintenance list; cost increases for projects; concerns with taking care of existing facilities; the clarification that the MSTU followed the General Obligation Bond for park maintenance; when the Dade City Little League visited the Board; the Commissioners' personal experiences with parks; the concern of adding two taxes to citizens; the request to help Parks from the General Fund; that the level of investment was not in the General Fund; the current level of investment and recommendation to the Board to commit at that level; the complicated potential reduction of the General Operating millage; that additional funds would be needed from the General Operating Fund for park maintenance; the uncertainty of the presidential election; that the MSTU was not structured for a sound Parks Budget for the future; a vote for a Parks tax that was an all-encompassing MSTU; that it added a long-term lifeline to the department; that the government needed to find ways to control spending in other departments; not wanting to support the current tax, that it was up to every department to advocate for themselves; appreciation for the work of every County Department; looking out for the best interest in a different way; the importance of parks; the request for Mr. Wiley to not bring it this year; process discussions; dislike of MSTUs; the Pine Hill Park takeover; blighted cities on the west side; money paid back from the CREs; the burden to County people; an example of the Sheriff's MSTU from years ago; that MSTUs were a tough way to go; that there was a better way to fund parks; that an MSTU added transparency and accountability to the fund; a book to show transparency; Capital Funding; that it was Mr. Wiley's job to tell the Board what the cost was and how to get there was the Board's; potential issues in the future if the MSTU did not go through; that there would be a lack of emergency funds; the votes for 2018 referendums; the concerns on the maintenance budget; how much would be cut from the General Budget; finding a way to keep kids safe; the average presented; the Ordinance tiers; that it depended on what came online and what was needed; an example if something went down; the increase of fees; the consideration of a lower MSTU number; the difference between parents putting groceries in a buggy or sending their kids to play sports; to measure in wants and needs; that the government would figure it out; reoccurring revenue; the need to challenge themselves; why the budget wasn't sound and needed to be restructured; what was needed for the hearings vote and the adoption vote; how the Penny for Pasco funds were being implemented; whether it was enough for maintenance; that it was Capital Infrastructure Tax; that it was for only new building; that the only maintenance funds came from the GO Bond; and that something else would be cut.

Chairman Oakley called for a motion to adopt the millage rate of 0.1712 Mills for the Parks Capital Maintenance MSTU.

No motion was made.

Mr. Carballa recommended the Board adopt a motion to set the millage at 0.0000 Mills.

COMMISSIONER MARIANO MOVED approval to adopt the tentative Millage Rate for the Parks Capital Maintenance MSTU Fund of 0.0000 Mills; **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the motion carried with Commissioner Starkey voting nay.

Mr. Steinsynder clarified that the millage could not be raised at the next meeting.

Ms. Farrell provided a summary of the Road Rehabilitation MSTU.

Chairman Oakley called for public comment regarding the Road Rehabilitation MSTU.

Ms. Janine Duffy spoke regarding taxes that had been paid for years, that the roads were severely neglected, her confusion on which taxes would help the roads and infrastructure, a sinkhole in Holiday, the severe flooding, the additional sidewalk to Grand Boulevard, her experience driving through the flooding, and that the flooding in the past was not as bad as it was currently.

Mr. Brandford Adumuah, Assistant County Administrator of Public Infrastructure, and Mr. Daniel Risola, Assistant Budget Director with the Office of Management and Budget, spoke during the discussion.

Discussion was held regarding the support of the MSTU by a cut from the General Fund Mills; that the road MSTU was necessary; that it was a business the County should be in; looking forward to the discussion and outcome; an overview of how the mills were calculated; the mean value of homes; the funds towards paving the County's roads; the removal of the PVAS; the new paving system versus the PVAS system; the road conditions due to the PVAS system; the unfairness of the old system; dirt roads to be paved; seniors on fixed incomes; the understanding that it would cost money to pave roads; the two road types; an overview of road funding; road maintenance; the benefits and overview of the road tax; allocation of past taxes; the Transportation Trust Fund; clarification that roads were not fixed through property taxes; the growth of New Port Richey; the history of the east and west sides of the County paving for roads; the frustration of new developments getting new roads and sidewalks in the 19 Corridor; an example of when Pasadena Road would be paved; Holiday during a rainstorm; the fixing of sidewalks; the need for drainage; project priorities; the Lake Padgett Estates road paving; the reason to chip seal a road or pave it; whether roads that were more expensive would get pushed back; the scientific method of testing roads; the Paving Management System to rank roads; the cost effectiveness of the first roads to be fixed; objectivity to be fair to everyone; balancing fixing the roads throughout the five Commissioner Districts; that it would take time; that even dirt roads were a part of the system; the benefit that the funds were simply collected and allocated; whether to lower the MSTU by taking funds from the library; whether the Road Paving MSTU needed a

unanimous vote to pass at this meeting; the adoption hearing; the two forms that needed to be filled out; that both required five votes; the statute; the standard from Revenue; that confirmation would be needed; the agreement of 7.57 mills for the General Fund; a commensurate cut; whether to open up the General Fund Mills and vote a second time; whether the Commission could go through the process all at one time; the recommendation to hold the discussion and return to it next meeting with accurate numbers; whether the process was being followed correctly; the clarification that a unanimous vote was not required tonight but for the final adoption; that General Fund Mills could be open for discussion; that there could be no increase, but the rate could still decrease; the recommendation to stay at the advertised millage and the authority to turn it down at the final meeting; that a different answer came from the Department of Revenue; that the County would pay for roads, including arterials; the sharing of arterial roads; that the fund would be funded regardless of the number; that the amount of paving would decrease if the number was lowered; that the low number was already stretched out; that there was no decision on the funding of the remaining PVAS loans; whether to set the millage lower than .5184 or to come back with a number; the request that Staff bring back options; and the pledge to cut the MSTU upon finding out the new number.

COMMISSIONER YEAGER MOVED approval to adopt the tentative Millage Rate for the Road Rehabilitation MSTU Fund of 0.5184 Mills; **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Ms. Farrell provided a summary of the nine bond millage rates.

Chairman Oakley called for public comment regarding the nine bond millage rates.

There was none.

COMMISSIONER MARIANO MOVED approval to adopt the tentative Millage Rate of 0.0256 Mills for the 2019A Jail Facility Bond; **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER STARKEY MOVED approval to adopt the tentative Millage Rate of 0.0204 Mills for the 2019B Fire-Rescue Bond; **COMMISSIONER MARIANO SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER WEIGHTMAN MOVED approval to adopt the tentative Millage Rate of 0.0096 Mills for the 2019C Parks, Recreation, and Natural Resources Bond; **COMMISSIONER STARKEY SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER STARKEY MOVED approval to adopt the tentative Millage Rate of 0.0094 Mills for the 2019D Libraries Bond; **COMMISSIONER MARIANO SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER MARIANO MOVED approval to adopt the tentative Millage Rate of 0.0416 Mills for the 2020A Fire-Rescue Bond; **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER MARIANO MOVED approval to adopt the tentative Millage Rate of 0.0087 Mills for the 2021A Libraries Bond; **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER WEIGHTMAN MOVED approval to adopt the tentative Millage Rate of 0.1073 Mills for the 2021B Jail Facility Bond; **COMMISSIONER MARIANO SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER WEIGHTMAN MOVED approval to adopt the tentative Millage Rate of 0.0131 Mills for the 2022A Parks, Recreation, and Natural Resources Bond; **COMMISSIONER STARKEY SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER MARIANO MOVED approval to adopt the tentative Millage Rate of 0.0044 Mills for the 2024A Fire Rescue Bond; **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Ms. Farrell provided a summary of the tentative budget and spoke regarding the total budget change from $2,262,949,228.00 to $2,254,748,117.00.

Chairman Oakley called for public comment regarding the tentative budget.

There was none.

COMMISSIONER MARIANO MOVED approval to adopt the Fiscal Year 2025 tentative budget as $2,254,748,117.00 as outlined by Staff; **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Ms. Farrell noted the tentative aggregated millage as 10.1056 mills, which reflected an increase of 9.61% above the rolled back rate.

COMMISSIONER MARIANO MOVED approval to adopt the Resolution adopting the tentative levying of Ad Valorem Taxes for Fiscal Year 2025 as 10.1056 Mills reflecting a 9.61% increase; **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER WEIGHTMAN MOVED approval to adopt the Resolution adopting the tentative budget for Fiscal Year 2025; **COMMISSIONER MARIANO SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Call To Order

Chairman Oakley called the meeting to order at 10:08 a.m.

Invocation
Pledge of Allegiance

Mr. Sample gave the Invocation and led the Pledge of Allegiance to the Flag.

Roll Call

Mr. Sample called the roll. All Commissioners were present.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Chairman Oakley reviewed the procedures to be followed and called for public comment.

Ms. Nancy Gray spoke regarding Deer Lake overflowing, the car wash, issues with drainage, the neighbor's property across the street, lawsuits that were filed, emails and contact with Staff, Cranes Roost, and pumps.

Chairman Oakley directed Ms. Gray to speak with Staff.

COMMISSIONER MARIANO MOVED to receive and file documents from Mr. Skylar Alexander; **COMMISSIONER WEIGHTMAN SECONDED**.

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Mr. Skylar Alexander, Habitat of Humanity of Pinellas, West Pasco, and Hernando Counties, thanked the Board for their continued commitment and dedication and spoke regarding the upcoming Pasco Elected Build Day.

Mr. David Cadero spoke regarding the proposed anticipated budget, seniors on fixed incomes, maintaining his home, his support of Commissioner Bradford, and development that was approved.

Commissioner Starkey noted the extra homestead for next year as a senior.

Ms. Wanda Chasnoff spoke regarding the flooding in Green Key, homeless people in the woods, the amount of cats she's caught, the TNR program, that there was one trapper in Pasco County, that they couldn't use their septic tanks, that there were no culverts, a grant for Green Key, and the people that were moving here.

Commissioner Mariano spoke regarding funding and projects around Green Key, the flooding, thanked her for taking out the cats, and noted that they would look into the homeless problem.

Mr. Scott Keith spoke regarding the poor road conditions on Oakley Avenue, that there were community efforts for funding, and concerns of the speed limit on the road.

Chairman Oakley directed Mr. Keith to speak with Staff.

Ms. Jeannie Akins spoke regarding what their property was zoned as, that in-law suites were allowed when they purchased their property, the price of homes, that elder care was going up, and for them to reconsider allowing in-law suites.

Pastor Jen Kerouac thanked Commissioner Yeager for the Resolution as declaring September as National Recovery Month in Pasco County and spoke regarding the Shady Hills Road traffic, a situation that happened to her, the development in Shady Hills, dump trucks and oversized loads, and the Shady Hills Florida site on Facebook.

Reverand Mary Ann Kussmal spoke regarding the bridges that go over the Suncoast, suicide, the accessibility of the bridges, signs on the bridges, the homeless at Shady Hills, the grants, and the success rate for the church.

Chairman Oakley directed Reverand Kussmal to speak with Staff.

Ms. Lisa Moretti spoke regarding next years schedule of meetings, a recommendation from a Court Judge, the citizen access in Accela, that she had been inundated with requests for help, and the funds for TNR.

Ms. Rhonda Weaver noted that she was with Shady Hills Mission Chapel and Hope for the Children Ministries and spoke regarding Elsie Logan Memorial Park, that there was no light, traffic, a sidewalk, drug overdoses, rehabilitation facilities, and a facility that people could go to for 30 to 60 days.

Resolutions

Commissioners Items - Chairman Oakley

RS1 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Declaring September 15, 2024, To October 15, 2024, As Latin and Hispanic Heritage Month In Pasco County

File Number CAO24-5167
Comm. Dist. All
Recommendation Approve

Mr. Sample read the Resolution into the record.

Mr. Matthew Testoni, representative for Pasco County Schools, spoke regarding the Hispanic and Latino demographic, that Pasco County Schools was to engage and support the families, a Proclamation they signed for Hispanic Heritage Month, events around the school district, and an event at R.B. Cox Elementary School that would be held on Saturday, October 5th.

Discussion was held regarding their appreciation and the Hispanic population in Pasco County.

COMMISSIONER MARIANO MOVED approval to adopt; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Commissioners Items - Commissioner Starkey

RS2 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Declaring The Month Of October As Manufacturing Month And October 4, 2024, As Manufacturing Day In Pasco County.
File Number CAO24-5169
Comm. Dist. All
Recommendation Approve

Mr. Sample read the Resolution into the record.

Regular

R62 Final Adjustments of Fiscal Year 2025 Budget - To Be Distributed
File Number OMB24-0050
Comm. Dist. All
Recommendation Approve

Ms. Amielee Farrell, Budget Director with the Office of Management and Budget, used a PowerPoint presentation to review the item. She spoke regarding that there were minor adjustments and updates made to slides.

Mr. Carballa used a PowerPoint presentation to review the item and spoke regarding last year and the budget process, the reduction in the General Operating millage, the amount of new deputies, optimizing the timing of hires for Public Safety, cutting and deferring reoccurring expenses, and the PVAS.

Discussion was held regarding the new revised price on the bathrooms at the Suncoast Trail and the Starkey Trail; paving MSTU's; the PVAS system; private roads; flooding issues; maintaining their roads; contracts and interlocal agreements; sidewalks and kids having a safe way to get to school; the money from arterials and collectors; local roads; rejuvenating roads; Regency Park Library; and the spray jet technology.

COMMISSIONER WEIGHTMAN MOVED approval to receive and file the revised documents from Ms. Amilee Farrell, Budget Director; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Later in the meeting, the Board returned to the item.

Mr. Branford Adumuah, Assistant County Administrator for Public Infrastructure, Mr. Justin Grant, Director of Public Infrastructure Fiscal and Business Administration, and Mr. Jason Mickel, Director of Public Works, spoke during the discussion.

Discussion was held regarding the paving MSTU; the Hudson Library project; and road network issues; the paving millage; their appreciation; road paving; the library; the paving MSTU; one time capital; the General Operating millage and budget; level of

service; the silver plan and the bronze plan; the rank list of projects; lane miles; neighborhoods that went through PVAS; whether there was a place where citizens could see which roads were being done; parks; and the parks MSTU.

COMMISSIONER STARKEY MOVED approval to set the General Operating Millage and Budget as outlined to 7.4292 and set the paving MSTU Millage and Budget at .4052 with the addition of $6,000,000.00 from the Hudson Library Project to be applied to next year for the purposes of the Budget Hearing tonight thus retiring the PVAS debt as well; **COMMISSIONER MARIANO SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Development Services - Planning and Economic Growth

R63 (12:00 P.M. Time Certain) Urban3 Presentation

File Number PDE24-0446
Comm. Dist. All
Recommendation Presentation Only

Mr. David Engel, Director of Planning, Development and Economic Growth, introduced Mr. Joe Minicozzi, Principal of Urban3, and spoke regarding Urban3.

Mr. Joe Minicozzi, principal of Urban3, used a PowerPoint presentation and spoke regarding Ashville North Carolina, his work history, the definition of incorporate, annexation, land production, taxes, County property, the International Association of Assessing Officers Conference, displayed maps, taxable values, municipal economics, paying for roads, the Florida experience, recession, a property cap, the Save Our Homes Amendment, assessed values and market value, the cost of asphalt, Ocala's agriculture, single family and multifamily, revenues, urbanism, other counties, community and development comparisons, subdevelopment, growth from 2019 to 2024, South Florida, urban mirror, Golden Gate Estates, economic productivities, Rhode Island population, the revenue in Missouri, assets, road maintenance, the Nixon Administration, the cost of sprawl, Cheyenne, Wyoming, Fair and Equitable Magazine, redlining, sales ratio, assessment gap, gentrification, and a Pasco County report.

Discussion was held regarding who was in attendance; walkability and density; Peachtree City; property values and demographics; Rosemary Beach; revenue; Gilbert, Arizona; South Bend and the pipes; infrastructure and elevating up; long-term effects; Fayette County; and that Mr. Minicozzi would be speaking to stakeholders for a breakout and brief presentation.

The item was for information only.

The Clerk's Office was not provided with a copy of the presentation.

Miscellaneous Business - District One - Commissioner Oakley

- Chairman Oakley noted his attendance at the memorial at the Outlet Mall and spoke on behalf on Commissioner Gary Bradford while photographs were displayed.

- He spoke regarding the Pasco County Fire Rescue Engine 25 Push-In on September 9, 2024, the history of the ceremony and horse-drawn tanks, the brand-new ladder truck, and thanked the firefighters for what they did throughout the County while photographs were displayed.

- He spoke regarding that East Side Joint Cities Workshop, who was in attendance, where they had the meeting before, and that it was held in the IFAS building while photographs were displayed.

- He spoke regarding the Fallen Officer Memorial, the check that was given to the Mulberry Little League, the memorial in front of the Sheriff's Office in Polk County, the donations, the reason Commissioner Yeager read the donation names, and Commissioner Gary Bradford.

- He thanked everyone who helped with pushing the truck, the Cities and County meeting at the IFAS Building, and that it took everyone to do the right kind of job for the citizens of Pasco County.

- Later in the meeting, Chairman Oakley spoke regarding an individual reaching out about the condition of Mitchell High School and the regulations for opening the gates and doors to the school.

  Mr. Carballa noted that they had a good working relationship with the School Board.

  Discussion was held regarding who took Mr. Ray Gadd's place.

Miscellaneous Business - District Two - Commissioner Weightman

- None.

Miscellaneous Business - District Three - Commissioner Starkey

- Commissioner Starkey noted that she was able to host the Harbors South Leadership Council Meeting and spoke regarding the Harbors South Leadership Council while photographs were displayed.

- She spoke regarding her attendance at Pasco EDC 36th Annual Awards, that they honored the Philips family and the companies that moved here, that she introduced herself to the CEO of Gary Line, an awardee JTD, and a sponsor at the Manufacturing Dinner on October 10th while photographs were displayed.

- She spoke regarding the PEDC Trade Mission to Vancouver, that they went to the University of British Columbia to the Stewart Blusson Quantum Matter Institute, the Counties that were in attendance, a meeting with the doctors at the Canada's Immuno Engineering and Biomanufacturing Hub, and the research they were doing while photographs were displayed.

- She noted that she was not able to make it to the Fallen Police Officer Memorial but sent her staff and that it was a great thing for the County.

- She noted that she toured The Hope Shot and that it was a place for people who were recovering from drug abuse.

  Discussion was held regarding putting cameras under the bridges.

- She spoke regarding solar panels on roofs and to work on generating their own electricity.

- She noted that she would be heading to FAC in Pensacola.

- Later in the meeting, Commissioner Starkey spoke regarding Seven Springs Elementary School, the sidewalk on both sides, that the school never put in their sidewalk, and Old Mitchel Ranch.

  Mr. Brad Tippin, Development Review Director, spoke during the discussion.

  Discussion was held regarding sidewalks and schools; that some of the sites may have predated the review of them; who was responsible to put the sidewalk in; Cypress Creek High School and Middle School; the Active Transportation Planner for pedestrian; issues with traffic and children; that the older schools did not have a traffic pattern; Centennial and San Antonio School roads; instances when widening the road; Old Pasco Road widening; a 10-foot trail; the parking lot that doesn't have shade structure; and SRF Standards.

Miscellaneous Business - District Four - Commissioner Yeager

- Commissioner Yeager noted her attendance to the ceremony honoring former Commissioner Gary Bradford and noted that the Rotary Club of Wesley Chapel recently honored former County Commissioner Gary Bradford as local hero of the year in a ceremony held at the Tampa Bay Premium Outlets while photographs were displayed.

Discussion was held regarding the date of the ceremony and the wall of local heroes.

- She noted that she did a ride-a-long with Captain David Garofalo and spoke regarding the new training center, the white fire truck, the new station, the family event, and the fire MSTU's while photographs were displayed.

- She spoke regarding the ride-a-long with Corporal Ortiz, Millo the therapy dog, where they provided mental health services, and a call for a drone in Trilby while photographs were displayed.

- Later in the meeting, Commissioner Yeager spoke regarding a family on Moon Lake that had a fire and lost everything, grant money for them to be in the hotel, that they would be moving into a mobile home, that the community donated furniture, first month's rent, and what they would need for their home, and thanked everyone who helped.

Miscellaneous Business - District Five - Commissioner Mariano

- Commissioner Mariano spoke regarding the West Central Florida Girl Scouts at Camp Indian Echo, the presentation from Tampa Bay Water on the wonders of water, the Girl Scout Promise and Law, the aeration system, and Daisy Lake while photographs were displayed.

- He spoke regarding his attendance at the Fallen Law Enforcement Memorial Dedication and the Statue.

- He noted that he went to the Sertoma Club and the 9/11 Golf Tournament they had while photographs were displayed.

- He spoke regarding the Grace's Food Pantry, that it was established in 2013, the reason why it was started, where they go, that it helped the seniors make their food budgets every month, donations and sponsors, the group in Hacienda, and that he would be looking into space in the building and a surplus vehicle that they could use.

- He noted that he went to the Sugar Plum Academy in Hudson and his time there while photographs were displayed.

- He spoke regarding his attendance at The Hope Shot and noted that they were doing a great job.

Miscellaneous Business - County Administrator

- Mr. Carballa spoke regarding Cyber Security and that the Chief Information Officer and IT Director, Mr. Todd Bayley, was awarded a national level award by the Public Sector Cyber Security Summit.

Miscellaneous Business - County Attorney

- Mr. Steinsnyder noted that they should have received from the Purchasing Department the RSQ for the State Lobbyist and the Federal Lobbyist, that they were acting as the selection committee, and noted that they could not have any contact with any of the proposers once the proposal went on the street.

  Mr. Ralph Lair, Intergovernmental Affairs Officer, spoke during the discussion.

  Discussion was held regarding that they could not have contact with them about the proposal; that the Federal went out the end of last month and that the State went out a week after; the evaluation date that they would review both Federal and State; when they would do interviews and presentations; and the dates were officially on the calendar.

- He noted that in the mornings public comment a speaker indicated that they were required to have after five o'clock hearings, that it was a misinterpretation of the Statute, and that only applied to County initiated rezonings and the changes to the Land Development Code, a provision, that they adopted by motion to have those hearings during the afternoon hearings, the applicant rezonings, and that there had been no case they lost to that issue.

  Discussion followed regarding the case that was referred to during public comment and the Statue that was referenced.

Miscellaneous Business - Clerk and Comptroller

- Mr. Sample spoke regarding the Urban3 presentation and noted that the Clerk's Office did not have a copy of the presentation.

Miscellaneous Business - Sheriff

- Absent.

Roll Call

Mr. Sample called the roll. All Commissioners were present.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Chairman Oakley reviewed the procedures to be followed and called for public comment.

The Honorable Mike Fasano, Tax Collector, expressed his appreciation to the Board Members and Staff for their efforts during the recent three weeks. He spoke regarding those who had been effected, his concerns for those who had been put out of their homes, and those who had no insurance. He noted a few things they had achieved in the past year such as a piece of property purchased in the Angeline Community and where they were in the process, a generator that had been purchased for the Land O' Lakes office, the plans for the new Wesley Chapel office, that their starting salary was now $20.00 an hour and their turnover was little to none. He presented a check to the Board in the amount of $5.7 million.

Chairman Oakley expressed his appreciation for him coming and noted the team had a great boss.

Ms. Shamisea Griar spoke regarding being impacted by the recent back-to-back hurricanes, the industry she worked in, that an eviction had been filed against her by the apartment, that the apartment was not willing to work with her, when she lived in Hillsborough County, another resident that had given up their key because they were impacted by the storm, her past impacts from COVID-19, that she was looking for resources as she was not familiar with the County, and speaking on behalf of others who had been effected.

She was directed to speak with Ms. Cathy Pearson, Assistant County Administrator for Public Services.

Ms. Brigitte Endrulat spoke regarding being a resident of Thousand Oaks, the reoccurring flooding issues they and several surrounding communities had been facing, that they had been told Hurricane Milton was a hundred year storm, flooding that

occurred during regular storms and heavy rain seasons, threats to their homes, safety, and peace of mind, questions about what the concrete plans would be to address the floods, the Little Road pumps and whether they were operational during the last flood, ensuring Emergency Service access when the areas flood, that she had invested her life savings to move to the area and she chose it based on that it wasn't marked as a flood zone, concerns for property values and the emotional toll it was taking with homes repeatedly flooding, and that a comprehensive solution was needed.

She was directed to speak with Staff.

Pastor Jen Kerouac spoke regarding seeing the incredible devastation, that she and many other people had used their life savings to move to Florida for various reasons, congestion and the weight of development, people who were flooding in non-flood zones, sharing a passage from the Bible, people who had reached out to her and their concerns with the appearance of the lack of oversight with regards to the building, whether a moratorium could be considered in the same way as Zephyrhills, identifying stormwater issues for the current residents, looking to the Board for leadership and wise council.

Mr. Edward Supulveda expressed his appreciation to the Board for the organization and help that was out there for everyone who had suffered through the past two hurricanes. He spoke regarding how amazing to see boots on the ground from the Commissioners all together and the coordinating situation that was done quickly.

Consent

COMMISSIONER MARIANO MOVED approval of the Consent Agenda with the exception of Agenda Items C3, C38, C54, C63, and AC152 which had been pulled for discussion or revision and Agenda Items C15, C22, C49, C64, and C65 which had been withdrawn; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

District Five - Commissioner Mariano

C3 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Commending Grace's Food Pantry For Their Service To The Citizens Of Pasco County
File Number CAO25-5103
Comm. Dist. All
Recommendation Approve

Mr. Sample read the Resolution into the record.

Ms. Grace Sepulveda and Mr. Ed Sepe spoke regarding when she wanted to start the food pantry; the families they had assisted with; the recent storms; and appreciation for everyone's assistance.

Discussion was held regarding recognizing Grace's Pantry for the phenomenal job they had been doing; the distribution locations and process; other volunteer entities; personal stories with Grace's Food Pantry; the number of meals provided; and appreciation for their efforts in the community.

COMMISSIONER MARIANO MOVED approval to adopt; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Internal Services - Facilities Management

C15 Construction Contract Closeout Agreement to Agreement IFB-DS-20-131 – New Vista Builders Group LLC – South Holiday Library Renovations – Contract Decrease of $9,144.81

Recommendation Approve

The item was withdrawn.

Public Safety - Fire Rescue

C54 Approve First Amendment to Interlocal Agreement – Pasco County to Provide EMS Billing and Collection Services for Citrus County – No Funding Required
File Number FR25-1001
Comm. Dist. All
Recommendation Approve

Mr. Sample spoke regarding that the item had been received just a short time ago and with the volume of the combined Agendas he requested for the item to be contingent on Clerk review.

Mr. J.J. Murphy, Assistant County Administrator for Public Safety, spoke during the discussion

Discussion was held regarding that they had been doing it for a while; a question about what the issue was; and that it was the first renewal however there was a change of leadership in the Fire Department.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation contingent on Clerk review; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Public Services - Community Services

C63 Florida Department of Elder Affairs Standard Contract – Senior Center – 13900 4th Street, Dade City, Florida – No Funding Required
File Number SS25-0008
Comm. Dist. 1
Recommendation Approve

Mr. Sample spoke regarding that it was a situation where authority had been delegated contingent on final documents being prepared to the County Administrator for his execution and as it was a Board Document he requested for attestation to be coordinated and to be distributed in the normal process.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation including the coordination of the attestation as a Board document and distributed in a normal process; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Public Services - Parks, Recreation and Natural Resources

Regular

Legislative/Administrative - County Administrator

R71 Hurricane Helene & Hurricane Milton Update
File Number CA25-5000
Comm. Dist. All
Recommendation Presentation Only

Mr. Carballa used a PowerPoint presentation to review the item .

Interim Fire Chief Ryan Guynn, Fire and Rescue, spoke during the discussion.

Discussion was held regarding appreciation to all Staff, Leadership, the EOC (Emergency Operations Center) for what they do; how amazing what they had come through in the past few weeks; on how historic of an event it was; appreciation for their leadership, the Teams', Constitutional Officers', the School Board's, the not for profits', and engaged citizens' efforts during both storms; preparation for the citizens; that there was still a lot to do; road closures; videos that were displayed showing the conditions the First Responders faced during the storms; rescue efforts; power losses; stories that were shared from their experiences during the storms; the evacuation orders that were given; people that came from other states to help; a video showing and discussing the riverine flooding; appreciation for Staff efforts in putting the citizens' needs before their own; the waived tipping fees; efforts that were made before Milton; debris contractors; debris concerns; an overnight pilot program for debris cleanup; information being dispersed; Florida Delegation efforts; appreciation for Mr. Carballa's leadership and Staff efforts; appreciation for Mr. Steinsnyder and his team's efforts; and appreciation for the efforts of First Responders.

Later in the meeting, the Board returned to the item.

Mr. Andrew Fossa, Director of Emergency Management, spoke during the discussion.

Discussion was held regarding questions from contractors pertaining to bid parameters; FEMA reimbursement categories; the Team's phenomenal responses; the community coming together; that the east side would need a tremendous amount of work to get put back together; FEMA availability for the citizens; personal recovery stories; that a

celebration would be needed when it was all over; taking pictures to help plan for the future; a request for a map of the watersheds; the GIS map resource; Dade City flooding in 2004, what was learned, and how it looked today; graphics that had been released; flooding around the County; comments made during Public Comment; the Trinity Flood Task Force from the past; areas that had previously been cleaned up by the County that should have been maintained by the neighborhoods; the need to help residents; HOA maintenance responsibilities and challenges; culverts; past federal contracts; limitations in the State of Emergency; permitting authorities; and what they would be looking into.

The item was for information only.

Development Services - Planning and Economic Growth

R72 (11:00 A.M. Time Certain) Project Status Report for SPEROS FL - H. Lee Moffitt Cancer Center and Research Institute, Inc.
File Number PDE25-0026
Comm. Dist. 3
Recommendation Presentation Only

Mr. David Engel, Director of Planning, Development and Economic Growth, introduced the item.

Dr. Patrick Hwu, President and CEO of Moffitt Cancer Center, used a PowerPoint presentation to review the item and spoke regarding the short video that was displayed pertaining to T Cells directly killing cancer cells.

Discussion was held regarding the tours; excitement for and pride in the County; amazement with the facility; other places that would have the Proton Therapy; being in one of the fastest growing counties; quality of life in Pasco County; excitement for the future and lives to be saved; appreciation for their work; the AmSkills training center; workers that would be needed; treatments to be developed; and that death rates were starting to come down.

The item was for information only.

Miscellaneous Business - District One - Commissioner Oakley

- Chairman Oakley noted they had been through an event of two hundred years or more, the unprecedented amount of water, and not ever seeing anything like this.

- Later in the meeting, he spoke regarding going through Hurricane Helene and Hurricane Milton, people he had spoken to, visiting the Enclave Development area, people who had been saved, the flooding, homes that had been affected,

visiting the Outlet Mall, traveling with the Guard, and the one hundred year floodplain.

- He spoke regarding past work in the Hickory Hill area, pumping water, a culvert in the area, neighbors being flooded out, that what happened on the west side was different than what happened on the east side, the Brooksville Ridge, 150 year old oaks that did not make it through the storm, and a tree next to the Historic Courthouse that would need to be removed and replaced with different trees.

  Later in the meeting, Mr. Sample spoke regarding the 2004 season, impacts on the east side at that time, discussions on trees back then, and what was experienced during the recent storms.

- He spoke regarding a discussion WHEN he attended at Saint Leo University pertaining to things happening around the State and the County, those who were in attendance, that it was an informative meeting, and his appreciation to the Board and Staff for everything they had done during this time.

- He asked about the FEMA meeting on Thursday night at the Historic Courthouse and if it would be held like the other one. He was afraid people would attend looking for County information.

  Mr. Carballa spoke regarding the meeting that had been held at the Hudson Library, what had been learned, and that FEMA would be there however County Personnel would also be on hand to discuss County specific matters and issues.

  Discussion was held regarding the virtual option that would be available; people who had watched the last meeting in the Judicial Center parking lot; that a big crowd was expected; and that a lot of messaging had been put out there.

Miscellaneous Business - District Two - Commissioner Weightman

- Commissioner Weightman expressed his appreciation to County Administration, the County Attorney's Office, Commissioners, and all who were present for their hard work. He spoke regarding that there was no class to study and prepare for how to manage two hurricanes within the couple of weeks' time period, the challenges, turmoil, and loss, the opportunity for the government to learn through living through a hundred year rain event and planning moving forward, the rising waters, water that had been pumped out, keeping Ehren Cutoff open, projects that were not completed, seeing how the water was moving, concerns with future road failures, getting with experts and engineers to understand whether the direction they were on was still appropriate, flooding in specific neighborhoods, wanting to alleviate flooding in the area, legal nuances of approvals and State Statutes, finding a way to go on the offence, using information that had been

gathered, potentially partnering with CDDs and HOAs, that a new level of communication was needed, community infrastructures that had not been maintained in the past, culverts along the roads, that it was a big job that would take several years to understand, changes to the east Pasco landscape with the loss of generational Oak trees, reaching out to Commissioner Simpson's Office to see about potential programs to help with replanting efforts, people who were afraid of the trees now, trees that had potentially saved homes because they took the beating from the wind, and serving the people of Pasco County.

Miscellaneous Business - District Three - Commissioner Starkey

- Commissioner Starkey spoke regarding the flooding she encountered.

- She spoke on the tree situation, that she had always been a tree advocation, that the previous year they had started back on giving trees out on Arbor Day, a suggestion to double the efforts and potentially getting bigger trees, and money that was available for tree giveaways.

- She displayed photographs and spoke regarding the recent FAC fieldtrip to look at the Living Shore Line that they had received grant money after the spill, the islands that had been built up and other items that had been installed, and that it had protected the shoreline. A video was displayed.

  Discussion was held regarding the islands and that birds did not nest there.

- She displayed photographs and spoke regarding her trip to the Institute for Human and Machine Cognition (IHMC), the displayed suits that could be used by those with injuries or certain types of jobs, their interest with AmSkills and Moffitt, potentially inviting them down, legislative funding, and reading she had done on them.

- She displayed photographs and spoke regarding riding in swift boats with Commissioner Yeager and with firemen from Longview, Texas, Elfers Parkway, homes with water up to their windows and above, chickens that had been rescued, being grateful for the First Responders who had come, Governor DeSantis' visit, and mass destruction of the Oak trees.

- She spoke regarding a request she had received from a resident who lived on Buddy Lake that connected to Lake Pasadena, an Ordinance against air boats on some lakes, a passive park that was coming to Buddy Lake and Lake Pasadena, that someone had been zipping around in an airboat, and the request to add the lake as a lake that prohibited airboats.

  Chairman Oakley noted that since it was in his district he would check it out.

Discussion was held regarding the loudness of airboats; preemptions; airboat regulations; the age of the Ordinance; and an airboat in Gulf Harbors.

Later in the meeting, Mr. Steinsnyder spoke regarding the Ordinance and that it's last revision was in 2006, Chapter 327.60 Local Regulations language pertaining to air boat discriminations, the preemption, what could be overridden by two thirds vote, and that he felt the lake could be added.

Discussion was held regarding whether a lake bordering a park should be air boat free; potential noise; the sinkhole at Buddy Lake; rural neighbors who had air boats, public access to lakes; and a request for the Ordinance as it existed to be sent to all of the Commissioners.

- She expressed her appreciation for all of their hard work while going through two hurricanes in thirteen days.

  Discussion was held regarding the experience and the three rivers going through Pasco County.

- Later in the meeting, she displayed photographs and spoke regarding helping feeding people in the Place in the Sun, connecting with organizations to help clean-up, remediation that would be needed for the clubhouse, a meal she and her son had made, Staff efforts in the area, and she expressed her appreciation to Commissioner Yeager for helping keep an eye on a community.

- She displayed a video and spoke regarding her Aristida house.

  Discussion was held regarding flooding; the rivers; storm surges; and building a new home according to the FEMA regulations.

- She asked about foam that was coming out of a storm drain in Gulf Harbors, the community's concern on whether it was toxic or not, and water draining off of the golf course.

  Mr. Jason Mickel, Public Works Director, explained he had received the information that morning, that he had sent crews out, that he had not yet heard back yet, potentials causes, and that he was looking into it.

- Later in the meeting, she spoke regarding a notice she had received about red tide and asked about the Coast.

  Mr. Carballa noted he did not know but would get back with them and the Fish and Wildlife's Red tide Status Sampling Map.

- Later in the meeting, she led discussion regarding Dengue Fever; businesses with exposed tires; an Ordinance in the County stating tires were not to be left

uncovered; whether Code Enforcement was needed to be vigilant on it; spraying for mosquitos; and the number of cases of Dengue Fever.

- She spoke regarding an upcoming event to be held at Grand Boulevard, pallets that had been purchased, and asked Ms. Cathy Pearson, Assistant County Administrator for Public Services, to speak about it.

  Ms. Pearson spoke regarding the media event which would be from 9:00 a.m. to 11:00 a.m. on Thursday morning, that it was an opportunity for the media to come visit, and appreciation to the many teams for what they were able to do in a few weeks to create it.

  Discussion was held regarding when the pallets would be filled and the upcoming plans.

Miscellaneous Business - District Four - Commissioner Yeager

- Commissioner Yeager displayed photographs and spoke regarding visiting Moon Lake, delivering supplies and food that had been donated by individuals and businesses, a food truck that had been donated, lip sync battles and music that had played, and the whole community coming out.

- She displayed photographs and spoke regarding Discovery Childcare and Learning which was part of the Sertoma's Speech and Hearing Foundation Literacy Program.

- She displayed photographs and spoke regarding a gentleman named Bob who was a veteran that lived in a mobile home community and had been rescued, after he went to the hospital, and that he was doing well. She spoke regarding the team finding pockets of people in mobile home parks, people who owned the park who were not allowing the County to clean-up and were trying to evict the citizens, concerns with a big issue for senior citizens, that Staff had been amazing, and looking forward to helping more.

- Later in the meeting, she displayed photographs and spoke regarding a dog that had visiting the 911 and Emergency Center.

Miscellaneous Business - District Five - Commissioner Mariano

- Commissioner Mariano expressed his appreciation to Commissioner Yeager for stepping up and helping with the pocket as his and Commissioner Starkey's districts had a lot going on.

  Discussion was held regarding the great job Staff and the community had been doing with everything.

- He displayed photographs and spoke regarding Beacon Woods, trees that had fallen, conversations with the president about the developer, and trying to protect them. He expressed his appreciation to Staff for doing a phenomenal job, that the community appreciated it, and being proud of everyone there.

- Later in the meeting, he spoke regarding past discussions on swap outs for billboards, ones that had been ripped out of their foundation on US 19, and asked about what would happen after the fact.

  Discussion was held regarding non-conforming signs and broken support systems.

Miscellaneous Business - County Administrator

- Mr. Carballa thanked the Board for all their accolades for the Team.

- He spoke regarding Commissioner Weightman's earlier comments about approved development, that the Stormwater Master Plan was underway and potentially accelerating the pace, stormwater regulations, potentially using a workshop session to discuss and educate about stormwater, living shorelines, resiliency projects, and that it was something that took years to evolve but it had to start somewhere.

  Discussion was held regarding that it was a great idea; gathering information; specific sites; not buying the formulas; paying attention like never before; and GIS reporting flood waters.

- Mr. Carballa spoke regarding that he would like to work with the County Attorney's Office to pen a letter to send the State of Florida Department of Emergency Management to codify their understanding of certain actions that had been taken with solid waste and debris management in terms of their contracts and for it to be signed by the Chair.

  Discussion was held regarding a motion that would be required to authorize the Chair to sign the letter.

COMMISSIONER MARIANO MOVED approval to have the letter that was penned to be signed by the Chair which would be factual documentation of what had been understood through conversations with the State regarding some of the debris contracts; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

- Mr. Carballa introduced walk-on item CD25-0023, Delegation of Authority to execute Satisfaction of Mortgages which had been distributed to the Board. He explained on November 1st they were slated to close on the Cares Facility in Dade City, recent approvals, a number of liens that were on the property which needed to be cleared and in order to do so Cares was selling the facility on Clock Tower, liens that were held by the County through former CDBG mortgages on the Clock Tower facility, and the request.

  Ms. Cathy Pearson, Assistant County Administrator for Public Services, spoke during the discussion.

  Ms. Marcy Esbjerg, Community Development Director, spoke during the discussion.

  Discussion was held regarding not being comfortable with just forgiving it; the buildings; liens on the property; what was being proposed; the CDBG funds and restrictions; the timelines; the way business was done in Pasco County; what the Board had the right to forgive; the Dade City property; the Clock Tower property; what had been approved in August by the Board; that Cares was leveraged to the hilt; not wanting to inherit more liabilities; and what would happen if they did or didn't approve.

  COMMISSIONER STARKEY MOVED approval of Staff's recommendation; **COMMISSIONER YEAGER SECONDED.**

  Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Ms. Barbara Wilhite, representative for the applicant, and Mr. George Nichols, the applicant, spoke regarding representing the applicant; what it was already approved for; discussions with Hampton Inn; reviews it would go through; the extra step of a binding concept plan; the location; how long they had owned the property; taxes paid; roadways; the error that he did not create; money spent on design; expenses incurred; trying to come up with the highest and best use for the land; drainage; right-of-way; older built properties; pipes; and the pending contract they needed to get past.

Mr. Brad Tippin, Development Review Services Director, spoke during the discussion.

Discussion was held regarding the Pasco Mapper; what was under construction in the area; traffic; whether the intersections had lights; communities in the area; the conservation area; what was before the Board; established tracts; ingress and egress; private roads; bus stops; turn lanes; easements; County maintained areas; plat dedications; working with stakeholders; concept plans; development on other parcels and where they were in the processes; site plan reviews; road improvements; local impacts; residential development; drainage; privacy; concerns with overlooking the neighbors; water flow concerns; drainage; the rural style neighborhood; the closing on the property; that two hearings would be before the Board; that no action would be required; potentially moving the item forward; addressing the Commissioners' concerns; Murcott Way; traffic flow; Crela Drive that had been raised and it's issues; and concerns with the Code protections.

COMMISSIONER STARKEY MOVED approval to receive and file documentation submitted by Mr. Paul Bybee; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

No action was required as this was the first public hearing. The Adoption Hearing was scheduled for the November 12, 2024 Board of County Commissioners meeting at 1:30 p.m. in Dade City.

P86 Public Comment Regarding the Proposed Use of the Fiscal Year 2024 Edward Byrne Memorial Justice Assistance Grant (JAG) Program – Pasco Sheriff's Office – CFDA # 16.738

File Number OMB25-0003
Comm. Dist. All
Recommendation Other

Mr. Sample noted the proof of publication.

Mr. Chase Daniels, Undersheriff of Community Outreach Operations for the Pasco County Sheriff's Department, reviewed the item and spoke regarding the grant dollar amount, what it would fund, that cash match was not required, and what was before the Board.

There was no public comment.

Discussion was held regarding Gang Suppression.

COMMISSIONER MARIANO MOVED approval to accept Public Comment on the proposed use; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried with Commissioner Yeager absent from the vote.

Noted Items

Agenda items N87 through N151 were noted.

Addendum

Consent

AC152 Piggyback Agreement - Multiple Vendors - Underwriter Pool for Future Bond Issuances - No Funding Required
File Number OMB25-0013
Comm. Dist. All
Recommendation Approve

Mr. Sample spoke regarding the request for the item to be contingent on Clerk having a chance to review.

Discussion was held regarding signatures being obtained of the people who were awarded under the multiple vendors, which was why it didn't get to the Clerk's Office on time.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation contingent on Clerk review; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Call To Order

Chairman Oakley called the meeting to order at 10:03 a.m.

Chairman Oakley recognized a member of the Public Works team who had passed away, noted the thoughts and prayers for his family, and requested a moment of silence.

Invocation
Pledge of Allegiance

Ms. Gay gave the Invocation and led the Pledge of Allegiance to the Flag.

Roll Call

Ms. Gay called the roll. All Commissioners were present.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Chairman Oakley reviewed the procedures to be followed and called for public comment.

Ms. Missy Coyle, Alliance for Healthy Communities, introduced Mr. Justin McPadden, The Hope Shot, and thanked the Board for their assistance during the hurricanes, their help in opening a resource center, and their resources and partnership to help the public.

Mr. McPadden spoke regarding the trying month for Pasco County. He thanked the Board for their dedication to the County and their quick action on the experience.

Ms. Nancy Hazelwood thanked the Board for their attention to the flooding. She spoke regarding Commissioner Mariano being on top of issues, whether representatives on the SWFWMD Board could update rules and regulations, Agenda item C17, why the test site was not put in Central Pasco instead of near Hernando, the cost of the test site, whether there would be development within the Northeast Rural Area, the lack of notification on the plan, Tampa Bay Water's community meeting after the potential approval of the item, and the request to put the item on hold until more of the community was notified.

Chairman Oakley directed Ms. Hazelwood to see Mr. David Allen, Utilities Director, regarding her concerns.

Ms. Christine Hankerson spoke regarding an article on enforcement cameras in speed zones, Commissioner Starkey's comments on the issue at a previous meeting, examples of speeding, her conversation with a Pasco Sheriff Deputy on speeding, the lack of funds to patrol during school zone times, Commissioner Mariano's comments in the article, children hit within school zones, and her concerns for a potential tragic accident.

Ms. Tara Castro spoke regarding the location of her home, her concerns with the building and infrastructure, Quail Hollow Schools, the removal of police that detoured traffic, traffic issues, the lack of sidewalks for kids to walk to school, speeding issues, flooding concerns, road flooding issues, building on Old Pasco Road, and the request to stop building towards Cypress Creek and to push for Army Core Engineers to fix the damage caused by builders.

Mr. Michael T. Houston spoke regarding flooding in his park, the subdivisions built around him, the address of the community he lived in, an overview of Timber Lake Estates, retention ponds, his taxes, the storm and potential storms, concerns with building and water, his concern that homes were being built higher than his, whether SWFWMD took care of the ditches, culvert installation, his experience viewing the three properties after the storm and flooding, and the changing of his residency.

Resolutions

Commissioners Items - Chairman Oakley

RS1 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Recognizing Pasco County Fire Rescue For Its Fifty Years Of Outstanding Service To The Citizens Of Pasco County
File Number CAO25-5104
Comm. Dist. All
Recommendation Approve

Ms. Gay read the Resolution into the record,

COMMISSIONER WEIGHTMAN MOVED approval to adopt; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Commissioners Items - Commissioner Starkey

RS2 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Declaring The Month Of November As National Hospice And Palliative Care Month And Commending Gulfside Healthcare Services For Its Outstanding Service And Dedication To The Citizens Of Pasco County
File Number CAO25-5109
Comm. Dist. All
Recommendation Approve

Ms. Gay read the Resolution into the record.

Ms. Heather Rodriguez, Public Relations Director for Gulfside Healthcare Services, and Ms. Juliana Giraldo, Public Relations Assistant for Gulfside Healthcare Services, spoke regarding that they were there on the behalf of Ms. Linda Ward, President and CEO of Gulfside Healthcare Services, and that Ms. Ward was regretful she could not be at the meeting.

Discussion was held regarding Ms. Ward's absence; the importance of the services provided; Commissioner Starkey's experience with hospice and that it was her honor to sponsor the Resolution; the great work of the organization; that Ms. Ward was a great spearhead when she joined the organization; appreciation for their hard work; the special calling of the job; the essential part of the community; the blessing of hospice in times of need; Chairman Oakley's experience with hospice; the opening of the new building; and the pride in serving Pasco County for over 30 years.

COMMISSIONER STARKEY MOVED approval to adopt; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Commissioners Items - Commissioner Yeager

RS3 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Honoring Anita Wildey For Her 100th Birthday
File Number CAO25-5106
Comm. Dist. All
Recommendation Approve

Ms. Gay read the Resolution into the record.

Mr. David Wildey introduced his mother, Ms. Anita Wildey, and the others present and spoke regarding her residency in Pasco County, when she had turned 100 years old, owning a restaurant in Dade City, the location of the restaurant, his wife's teaching history, his son's teacher, their friend that helped them set up everything, appreciation to the Commissioners, and their family's history in Pasco County.

Discussion was held regarding congratulating Ms. Wildey and wishing her a happy birthday; how wonderful she looked; the change in costs from past to present; the great milestone of the occasion; celebrations with family; the age of Commissioner Yeager's great-grandfather; the blessings for many years to go; the age of Commissioner Mariano's grandmother and other relatives; the family around her; the secret to her age; that Ms. Wildey had seen all of the changes in the world; and that those changes happened quicker now.

COMMISSIONER STARKEY MOVED approval to adopt; **COMMISSIONER MARIANO SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

RS4 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Recognizing The Tenth Anniversary Of The Pasco County Commission On Human Trafficking
File Number CAO25-5101
Comm. Dist. All
Recommendation Approve

Ms. Gay read the Resolution into the record.

Ms. Liana Dean, Team Lead for Baycare and Chair of the Commission on Human Trafficking, spoke regarding appreciation to the Board for the acknowledgement and their support, human trafficking being a human issue, that it took people to effect change, her privilege to be standing with the group, the Commission's efforts, vulnerable populations, her experience working with children trafficked, community protection, unique human trafficking challenges, a request for continued support, a special thanks for their Survivor Representative and Vice-Chair, Ms. Laura Henderson, for her guidance to the Commission, and noted how phenomenal County Staff had been.

Mr. Brian Hoben, Director of Community Services, spoke during the discussion.

Discussion was held regarding the phenomenal impact in the community; appreciation to the Board of County Commissioners for their support, to the Advisory Board for all of their work over the past ten years, to the County Attorney's Office for their work and help, and to Ms. Tracy Toner, Manager for Misdemeanor Probation, for her liaison work; their congratulations and appreciation for their hard work; Commissioner Yeager's inquiries about openings and her excitement to be on the Board; the amazingness of the Commission; their great progress and their enthusiasm at the workshop in Dade City; their well-known reputation; being first in so many things; the different kinds of human trafficking; the need to be mindful and aware; the Commission being copied around the state; how proud they should be for setting the standard; that there was no

place for exploitation of people for profit; the Board's support; Chairman Oakley's experience on the Human Trafficking Board; that there was a lot of work still ahead of them; and Commissioner Bradford's membership on the Board.

COMMISSIONER STARKEY MOVED approval to adopt; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Consent

COMMISSIONER STARKEY MOVED approval of the Consent Agenda with the exception of Agenda items C10, C11, C15, C17, C30, C31, C36, C46, C47, C49, and C51 which had been pulled for discussion or revision; **COMMISSIONER MARIANO SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Development Services - Planning and Economic Growth

C10 First Amendments to Professional Service Agreements – Various Vendors – General Planning Consulting Services – No Funding Required
File Number PDE25-0024
Comm. Dist. All
Recommendation Approve

Mr. David Engel, Director of Planning, Development and Economic Growth, spoke regarding a scrivener's error in the first paragraph of the Background Summary in the Agenda Memo and the revision to delete of RSQ for RFP in order to identify the actual matter.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation with the revision to the first paragraph in the background summary of the Agenda Memo that would delete RSQ and replace it with RFP to identify the actual matter; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

C11 Update to Pasco County Fee Schedule for Planning, Development and Economic Growth, Natural Resources, GIS, Survey, Real Property & Planning, Engineering Inspections, Central Permitting, and Traffic Operations - No Funding Required
File Number PDE25-0044
Comm. Dist. All
Recommendation Approve

Ms. Gay spoke regarding a request for the item to be pulled contingent upon on Clerk's review, that the originals were not provided to the Clerk's Office in a timely manner, and that the Board Records full review process could not be completed.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation contingent on Clerk review; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Internal Services - Facilities Management

C15 Resolution Cancelling Taxes – Willow Brook Drive, Hudson – Willow Brook Road Closure - No Funding Required
File Number FAC25-0035
Comm. Dist. 5
Recommendation Approve

Ms. Gay spoke regarding a request for the item to be pulled contingent upon on Clerk's review, that the originals were not provided to the Clerk's Office in a timely manner, and that the Board Records full review process could not be completed.

COMMISSIONER STARKEY MOVED approval of Staff's recommendation contingent on Clerk review; **COMMISSIONER MARIANO SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

C17 Temporary Construction Easement – Tampa Bay Water – Eastern Pasco Wellfield Feasibility Study – No Funding Required
File Number FAC25-0044
Comm. Dist. 1
Recommendation Approve

Mr. David Allen, Director of Utilities, spoke during the discussion.

Discussion was held regarding Ms. Nancy Hazelwood's comments; that there was a bunch of information out there; the suggestion to reach out to the public to do a public meeting before moving forward; who the Tampa Bay Water representatives were; the intention of the item; Tampa Bay Water's request for the item; the location of the item; the test well for water quality and water pumping data; that it was one of many different Regional Supply projects being considered for the Implementation for the Regional Water Supply System in 2032; the investigative phase of the process; whether it was a part of the County's 300 acres; the public meeting on the easement; the recommendation of project viability for when public engagement could happen; additional water projects; the suggestion to delay the item so Tampa Bay Water could be present; the motion of the item; the coordination with Tampa Bay Water; and the suggestion to come back to the item in the afternoon after reaching out to them.

Later in the meeting, the Board returned to the item.

Mr. Allen spoke regarding Tampa Bay Water's agreement to come to the December 10, 2024 Board meeting, the presentation on an overview of their Developmental Alternatives Project, how the property would fit into a larger picture, their study, the request for a public information workshop before the next meeting, and the recommendation to continue to the December 10, 2024 Board of County Commissioners meeting.

Discussion was held on who would attend the meeting from Tampa Bay Water; that the item would be an Regular Item; that the item was a big picture for future water; and the priority list of water.

COMMISSIONER MARIANO MOVED approval to continue to the December 10, 2024 Board of County Commissioners meeting at 1:30 p.m. in New Port Richey; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Public Infrastructure - Transportation Engineering

C30 Recording of Plat with a Performance Guarantee – Len-Angeline, LLC – Angeline Phase 2A (185 Lots on 157.295 Acres, East of the Suncoast Parkway, South of State Road 52) – No Funding Required

Recommendation Approve

Discussion was held regarding the State mandate; that it was a long-term contract; and the request for a history or presentation.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation with the noted request for a presentation on the item; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Regular

Development Services - Planning and Development

R52 Ernst and Young Economic Development Strategies Presentation
File Number PDE25-0021
Comm. Dist. All
Recommendation Presentation Only

Mr. David Engel, Director of Planning, Development and Economic Growth, spoke regarding Ernst & Young and their experience, when they were retained, the independent evaluation of Economic Development and Growth programming, engagements with the EDC and their stakeholders, and the recommendation of the study.

Ms. Geri Lopez, Manager for Economic Development Advisory Services with Ernst & Young, used a PowerPoint presentation to review the item and spoke regarding her excitement to be there, working with County Staff and stakeholders, that the County was on the leading edge when thinking about Economic Development, Pasco's strong economic position, the effective use of programs, significant investments in attracting industries and development, positive returns on investments, benefits to a pro-business climate, rapid growth challenges, the outlined strategy for a prosperous future, and analysis and studies to access current economic conditions.

Discussion was held regarding concerns with breaking up Ready Sites; how Ready Sites could be used; landowner credit; the importance of Ready Sites; the recommendation; industrial sites; whether developers asked if smaller portions were available; small industrial users; the need for the small sites; the examples in the report; the metrics on the last chart; whether the County should buy the property; what the County's equivalent to a CRA would be; redevelopment of small parcel areas; what other areas around the country used to secure properties; an example of land the County could have bought; tax-increment financing; appreciation for the presentation;

the passion for the workforce; a future workshop on the item; partnerships with the schools; whether infrastructure was needed to be put in place around sites instead of owning them; working together with all parties around the County; a balanced look at Pasco County; residential and businesses brought into Pasco County; and an opportunity to build jobs for commuters and people who work and live in Pasco.

The item was for information only.

Public Infrastructure - Fiscal and Business Administration

R53 Series Resolution of the Board of County Commissioners of Pasco County, Florida, Supplementing Resolution No. 20-221; Authorizing the Issuance of Not to Exceed $90,000,000.00 Aggregate Principal Amount of Water and Sewer Refunding Revenue Bonds, Series 2024, in One or More Series, of the County to Finance the Cost of the Current Refunding of All or a Portion of the Water and Sewer Refunding Revenue Bonds, Series 2014A and Water and Sewer Improvement Revenue Bonds, Series 2014B, Appointing the Bond Registrar and Paying Agent and Approving the Form of and Authorizing the Execution and Delivery of a Paying Agent and Bond Registrar Agreement; Appointing an Escrow Holder and Approving the Form of and Authorizing the Execution and Delivery of an Escrow Deposit Agreement; Making Certain Covenants and Agreements in Connection Therewith; Providing for Severability; and Providing for an Effective Date. Authorizing Certain Officials of the County to Execute Any Document or to Take Any Actions Required to Offer the Bonds at Negotiated Sale and in Connection with the Issuance of Said Bonds; Award of Bid No. RFQP-LK-25-010 – BofA Securities, Inc., As Primary, and Raymond James & Associates, Inc. as Co-Manager, for Banking/Underwriting Services – Water and Sewer Revenue Refunding Bonds, Series 2024 – in the Total Not to Exceed Amount of $90,000,000.00 – No Funding Required

File Number PIFBA25-0077
Comm. Dist. All
Recommendation Approve

Mr. Justin Grant, Director of Public Infrastructure Fiscal and Business Administration, used a PowerPoint presentation to review the item and spoke regarding the moving market, that major things had happened within the Country, the moving around of treasury yields, and the bond.

Mr. Brent Wilder, PFM Financial Advisors, spoke regarding the prediction of rates, that the Fed was at a 25% basis point reduction, that the term was done, the market rates post-election, and the pre-election analysis versus the numbers being run today.

Discussion was held regarding whether Fed rates would drop further; if they were better off waiting; the expectation of stable rates; that the Fed impacted overnight rates; that market determination was separate from the Fed; the rates four years ago; the trending down of rates; the different presidential philosophies on rates; the continued pay of the locked in interest rates if there was no refinancing; the benefits of refinancing; whether they could go back in a few years and refinance again; the ten year call protection period for investors; that the call date had passed; the lack of savings; the large debt portfolio; savings on substantially lower rates a few years from now; and the recommendation to move forward.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation; **COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Public Services - Support Services

R54 Approval of the Opioid Treatment, Prevention, and Recovery Fund Awardees - Pasco County Opioid Task Force - Year 2 Project Funding Recommendations - $5,757,005.45
File Number SPS25-0001
Comm. Dist. All
Recommendation Approve

Ms. Cathy Pearson, Assistant County Administrator for Public Services, used a PowerPoint presentation to review the item.

Mr. J.J. Murphy, Assistant County Administrator for Public Safety, and Chief Chase Daniels, Undersheriff of Community Outreach Operations for the Pasco County Sherrif's Office, spoke during the discussion

Discussion was held regarding the meetings with Ms. Pearson; the modification to offset the budget for taxpayers; whether Fire Rescue and the Sheriff's Department were satisfied with what they were receiving; the collaboration between Staff; the roll out of impactful programs; the support for Sheriff and Fire Rescue with a wellness facility; that a Sheriff Officer who responded during the storm was still in the hospital; the dangers for first responders during a storm; appreciation for the Board's support; the big deal for members; the excitement to strengthen the partnership with Fire Rescue; the request to narrow down funding for next year; to maximize taxpayer funds; the appreciation for non-profits; whether the funds were reoccurring; that there was no guarantee; future funding; to not stray too far away from the purpose of the funds; an example of a person breaking into someone's home; the work on community; the Baycare discussion; to keep people out of jail; and the request for Staff to get better matching funds from the state.

COMMISSIONER STARKEY MOVED approval of Staff's recommendation including the revision stated by Ms. Cathy Pearson, Assistant County Administrator for Public Services, "the revised Opioid Treatment, Prevention, and Recovery Fund proposed project awardees, as recommended by the Opioid Task Force with the revision. Delegate full authority to the County Administrator to execute the project-specific agreements in substantially similar form, with review and approval from the County Attorney's Office, on behalf of the Board of County Commissioners. Additionally, delegate full authority to the County Administrator to act on behalf of the BCC for any purpose described in the approved subrecipient agreements, including, but not limited to the authority to provide any necessary notices, to exercise the right to terminate the agreements, to extend the agreements for twelve months, if necessary, and to execute any and all documents deemed necessary by the Department of Children and Families related to the project specific agreements for the use of the opioid settlement funds."; **COMMISSIONER MARIANO SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Public Safety - Fire Rescue

R55 Exempt Purchase - Mental Health Screenings with Ongoing Treatment for Pasco County First Responders - Tampa Bay Psychology Associates, LLC - $500,000.00

File Number PSA25-1000
Comm. Dist. All
Recommendation Approve

Mr. J.J. Murphy, Assistant County Administrator for Public Safety, spoke regarding the contract with Tampa Bay Psychology, the history of the contract, what it provided, the office locations, the current EAP services, and the services for this program.

Discussion was held regarding whether 911 operators were included in the program.

COMMISSIONER STARKEY MOVED approval of Staff's recommendation; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Public Safety - Public Safety Administration

R56 (11:45 A.M. Time Certain) Confirmation of Fire Chief – Ryan Guynn – Annual Salary of $175,000.00
File Number PSA25-1001
Comm. Dist. All
Recommendation Approve

Mr. J.J. Murphy, Assistant County Administrator for Public Safety, spoke regarding Mr. John Michael, President of the Fire Union, that it would be his last meeting, his fight for the people of the fire department, the consideration of Chief Ryan Guynn for Fire Chief of Pasco County, Chief Guynn's work history, experience, qualifications, leadership in response to two hurricanes, and the trust and respect of the fire team during those trying times, and those in attendance to support him.

Mr. John Michael, President of the Fire Union, spoke regarding the honor to represent Pasco firefighters before the Board, the bittersweetness of the day, his term expiration, why he chose not to seek re-election, his work for the past 12 years, accomplishments for firefighters during that time, areas where Pasco Fire lead, the confirmation of Chief Ryan Guynn, and reasons to confirm Chief Guynn.

Interim Fire Chief Ryan Guynn, Fire and Rescue, spoke regarding his appreciation to everyone, his support for firefighters, that they were Florida's premiere fire department, the national recognition, the commitment of those in the department towards their jobs, that he was honored to be at the front of the department, the push to move forward, and that he was blessed for the opportunity.

Discussion was held regarding appreciation to Chief Guynn and encouragement of his confirmation; conversations for a Fire Chief internal hire; Chief Guynn's career path and his leadership; the Board's appreciation and congratulations for Fire Chief Guynn and his career path from the bottom to the top; the opportunity to lead; future generations living in Pasco County; the confidence in him to lead future firefighters and Pasco Fire; accolades the department received; the big job of the fire department; looking forward to working with him again; that he stepped in during two hurricanes; everyone's great job during the storm; his family history with firefighting; that his career path showed the potential for growth within the industry; the rescues during the storm; his residency in District 1; the largeness of District 1; the firefighter brotherhood; and the firefighters working for the citizens of Pasco County.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation; **COMMISSIONER SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Miscellaneous Business - District One - Commissioner Oakley

- Chairman Oakley displayed pictures and spoke regarding visiting Pasco Hope, that he saw homes put in, a concerned call on the project regarding the homeless, that the homeless were homeless despite how a home was lost, that people went to these places to receive help, and that it was a good project and good for the County.

- He displayed pictures and spoke regarding a City Police Jack-O-Lantern event, recognition for the Chief of Police's painted pumpkin, and that it was a good event.

- He displayed pictures and spoke regarding speaking at Angeline, a ride in a hot air ballon, a meeting with a resident and her joy of living in Angeline, and that it was good for the new school and potential students for Pasco.

- He spoke regarding speaking to Doctors of Business Administration at St. Leo University, that it was an interesting and enjoyable event, and that he enjoyed seeing how the doctors earned their degrees.

- He noted he believed the Country was moving in the right direction, which meant that County was moving in the right direction. He spoke regarding that work still needed to be done to help citizens, the awareness of when the right time to get the work done was, his thanks towards the team and Staff, and that they would do their jobs to give help and support to make the right decision for citizens.

Miscellaneous Business - District Two - Commissioner Weightman

- Commissioner Weightman spoke regarding a groundbreaking at the new Advent Health ER at 54 and Meadow Pointe, a signing, and the opening date. He expressed his congratulations to the Advent team for Wesley Chapel and Zephyrhills, noted the nice public health infrastructure, and that he was glad to be a part of it.

Miscellaneous Business - District Three - Commissioner Starkey

- Commissioner Starkey expressed her enjoyment at the Veteran's lunch and the wonderful event. She asked where the veteran's list came from.

  Discussion was held regarding the veteran's membership; canvas of members; people who may want to be considered; and member submissions.

- She spoke regarding speaking at the Country Place Veterans Event, that it was nice to be invited, and that she was the keynote speaker. She noted the County's

number of veterans per capital in the state, that she thought they were higher, and the stats as of 2022 for World War II veterans in Pasco County.

Discussion was held regarding veterans at the lunch in.

- She spoke regarding the need to appointment Ms. Kelly Hackman to the Tourist Development Council.

  COMMISSIONER WEIGHTMAN MOVED approval to appoint Ms. Kelly Hackman to the Tourist Development Council; **COMMISSIONER MARIANO SECONDED.**

  Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

- She spoke regarding burying powerlines and communities within the state that required buried powerlines.

  Discussion was held with pictures displayed regarding regulations for Manatee and Pasco County; transmission lines above and underground around a subdivision; the issues with above ground powerlines; the request for stronger regulations for powerlines to go underground; powerline damage and outages; the potential increase in rates; and that other communities were looking into going underground.

- She spoke regarding Metro solar powered streetlights, the cost, the street light versions, that they did not require electricity, whether those lights could be put at school bus stops, kids in the dark at bus stops, and that it was the County's responsibility.

- She spoke regarding the lack of streetlights on roads and asked what the street road lighting program was.

  Discussion was held regarding lighting requirements within the Capital Program; that Trouble Creek was on the list; a presentation to the Board on the list; that Penny funds were allocated towards roadway safety and improvements; whether lights were built into the cost of building a road; and lack of lighting in East Pasco.

  Mr. Nick Uhren, Engineering Services Director and County Engineer, spoke regarding a policy to prioritize the construction of new streetlights, the look into the solar powered and electric options, the identification on the scoring of corridors for installation and projects for consideration as a part of the Capital Program, and that steps were being taken to nail down the information.

  Commissioner Starkey spoke regarding Lake Blanche Drive and streetlights.

- She spoke regarding damaged docks, requested what the process for dock permits were, her experience building her dock and getting a Code Enforcement permit, the new requirements with Building Construction permits and Engineering, and the assumption that people would now need to get re-engineered docks.

  Mr. JP Murphy, Interim Assistant County Administrator for Development Services, spoke regarding that the 49% rule did not apply to accessory structures and docks and that people would get a repair or alterations permit for docks.

  Discussion followed regarding the permit process and communication of that process; that specific details on the process would be provided; the assumption that pre-engineered docks could be prepared; that docks were non-conforming structures and would fall under non-conformity rules; that docks would go back through the regular permitting process; clarification that the regular permitting process was an engineered dock permit; how permitting slipped through the Florida Building Code rules before; and that it would be a surprise to some.

- She spoke regarding her office working on a Farm Share event, that 30 people needed to be signed up, her hope that it would be the Commissioners and their Staff, and that an email would be sent out.

  Discussion was held regarding whether there was any communication between the County and the School District on bus stops and lighting; that it was on a case-by-case basis; that the solar power lights might work; and that it would be looked into.

- She spoke regarding her meeting on the Joint Use Agreement between the K-8 at Starkey and the Cultural Center, the resolution to locking the parking lot too early, meeting room access, use of the gym, parents dropping their kids off in the park to get to school, construction on the multi-use fields, parent calls due to blocking off the back part of the park, permission for the school drop off line, and whether the gates could be opened.

- Later in the meeting, she spoke regarding that County Staff and Administration wanted to be in on the Farm Share and that it was a joint effort. She asked if there was a date.

  Ms. Joanna Chesire, Chief of Staff for County Administration, spoke during the discussion.

  Discussion was held that a date had not been set, but was being worked on; the excitement towards the event; and that they were looking at early next year.

Miscellaneous Business - District Four - Commissioner Yeager

- Commissioner Yeager displayed pictures and spoke regarding a ribbon cutting at Angeline Country Day School and the experience of riding in a hot air balloon.

  Discussion was held regarding riding the hot air balloon and missing the ride due to a traffic accident.

Miscellaneous Business - District Five - Commissioner Mariano

- Commissioner Mariano displayed pictures and spoke regarding the annual veteran's dinner at the Seven Springs Rotary Club, the World War veterans in attendance, and the experience of singing happy birthday to a veteran.

- He spoke regarding the Rotary 6950 Disaster Relief Team and his experience with the program cleaning out and repairing a lady's flooded home.

  Discussion was held regarding whether the event was on Veterans' Day.

- He spoke regarding that Florida Senator Rick Scott, United States Senator, was up for the Senate Majority Leader, a letter of rejection for Senator John Cornyn, Texas United States Senator, as the possible Majority Leader, his conversation with Senator Scott, an overview of the letter of support, and the request to send a letter of support from the Commissioners for Senator Scott for the Senator Majority Leader.

  COMMISSIONER MARIANO MOVED to send a signed letter of support from Chairman Oakley for Senator Rick Scott for the Senate Majority Leader to the appropriate people; **COMMISSIONER STARKEY SECONDED.**

  Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

- He spoke regarding issues with FEMA's 49% rule, property appraisals in Senate Manor to potentially help property's reach over the 49%, that Signal Cove may do the same, a list of neighborhoods that were in better shape, the request to provide a presence and information for people, and a meeting held at Senate Manor.

  Mr. JP Murphy, Interim Assistant County Administrator for Development Services, spoke during the discussion.

  Extensive discussion was held regarding the informational meeting at Gulf Harbors put on by Mr. Murphy and the Building Department; Mr. Muphy's great work at his job; the process for assessing and reviewing effected areas; the

effects of not being permitted; waiving permit fees incentivizes; increased permitting time; locations to get a permit; the work with people in individual neighborhoods; lack of Staff; to potentially work with the Facilities Department for a Substantial Damage Center; to work hands-on with individuals; the goal to get the process right the first time and to get more Staff on the phones to provide information; the Senate Manor meeting and appraisal process; the importance of providing details for a quick review time; the great job of the team post hurricanes; the number of people working from Title Basin; the number of permits and inspections a day; substantial evaluation process; when letters for substantial damage would go out; the additional Staff brought in for support outside the evaluation work; the website to view pulled permits; whether there was a correlation between permits pulled in the last calendar year and the 49%; the cumulative 49%; the permit timeframes; the closing of permits; the effects of recent improvements; reviews; the effects and process of not pulling a permit; a knocked down house in Gulf Harbors; and the demolition of homes for elevation preparation.

- He spoke regarding the campaign run, the hard work of the Commissioners, that it was the best Board he'd ever worked with, and that he was proud the Board got re-elected.

Miscellaneous Business - County Administrator

- Mr. Carballa spoke regarding the moment of silence for the passing of Mr. Matthew Sizemore, Labor Supervisor III in the Public Works Department. He spoke regarding Mr. Sizemore's work history and that he was a dedicated member of the team.

- He spoke regarding a received grant for unsignalized crosswalks for the County.

  Discussion was held regarding the number of sidewalks; how many sidewalks would be funded; and what the prioritization would be.

  Mr. Nick Uhren, Engineering Services Director and County Engineer, spoke regarding that 85 sidewalks would be funded for, the look at higher speed roadways, to provide visibility for pedestrians at crossing locations, and the excitement that the item had come into fruition.

  Discussion followed regarding the published road paving list and where it could be found; Sunray complaints; and that County Road 41 looked good due to it currently being paved.

- He spoke regarding a request for Mosquito Control to allow the Department of Agriculture to spray in the San Antonio area for adult mosquitoes, that it was a great way to take advantage of State resources, and the request for a motion.

COMMISSION STARKEY MOVED approval to authorize Chairman Oakley to sign a letter to the Department of Agriculture requesting adulticide treatment in the East San Antonio area for mosquitoes; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Ms. Joanna Chesire, Chief of Staff for County Administration, spoke during the discussion.

Discussion was held regarding why just that location; who was doing the work; clarification on which letters were signed; language additions to create the letter; whether they were still spraying in Moon Lake; questions on the description in the letter not limiting activity to San Antonio; and the clarification on if the letter was the correct one to be signed.

Miscellaneous Business - County Attorney

- Mr. Steinsnyder spoke regarding an Enforcement action when he worked with Manatee County, that FEMA came in, the enclosure of lower levels within a community, that the County almost lost flood insurance and was put on probation, that the County was held accountable for unpermitted work, that FEMA could potentially change, and the need to follow the legal steps the Building Department must do or risk a fight with FEMA while trying to protect the rest of Pasco County residents.

  Commissioner Starkey noted that it could not be messed around with.

Miscellaneous Business - Clerk and Comptroller

- No items.

Miscellaneous Business – Sheriff

- Absent.

THE BOARD RECESSED AT 12:08 P.M. AND RECONVENED AT 1:31 P.M. ALL COMMISSIONERS WERE PRESENT.

Recommendation Approval with Conditions

Ms. Gay noted the proof of publication.

Mr. Patrick Dutter, Planning, Development and Economic Growth, read the item into the record and spoke regarding the ex parte on the item that would be provided to the Clerk's Office.

Mr. William Vermillion, Planning, Development and Economic Growth, used a PowerPoint presentation to review the item.

Ms. Terra Castro spoke regarding concerns whether the Land Development Code was being followed, the jump from infrastructure to storm drainage to flooding, the consistent flooding issues, whether there was a County wide storm management plan, the Planning Development Code language, the consideration of existing homeowners during development approvals, the number of evacuations and rescues during Hurricane Milton, a personal example of a medical emergency, emergency response time in Pasco versus her time in Pheonix, that none of the built communities were flooded out, the request for the Board to not vote for more development until they had received the requested Army Core of Engineers, her experience with Army Core of Engineers, traffic issues, and a request to consider infrastructure.

Mr. Nick Uhren, Director of Engineering Services and County Engineer, and Ms. Barbara Wilhite, representative for the applicant, spoke during the discussion.

Discussion was held regarding Ms. Castro's address and flood zone; what the progression was for paving Old Pasco Road; the current contract to widen to four lanes up to the school entrance; widening of the southern piece from Wesley Chapel Boulevard to Sonny Drive; that they did not have widening from the school to State Road 52 in their Capital Program for the next five years; the new development's entitlements to put turn lanes; working with developers to bring in infrastructure; the movement of funds from a turn lane to widening the road; that the Developers were ready, but the County was not for widening; the potential need to reallocate resources in the Capital Program; whether there was right-of-way on both sides; the building of a pond for stormwater management; whether there was ways to improve stormwater retention in ELAMP lands; the sidewalk on the west side of the road; the request for the

applicant to build a sidewalk; the temporary condition of a five foot sidewalk before constructing the full twelve feet; walkability of homes to the sidewalk; whether building a sidewalk to tear back out and redo it was the best idea; the timing issue with the applicants and planned Capital Projects; importance of side walk connectivity and safety; effects of project lag times; reassurance that water would stay and not flow west into the Quail Hollow area; to make sure the project was built correctly; that the applicant would follow all the LDC provisions for stormwater management and State requirements; that the applicant had volunteered to build the sidewalk to Cypress Creek; to take the applicant's offer for the sidewalk if the item was approved; the land use allowance for 107 and that they were only doing 99; the prior approval; what the Commissioner wanted to see for his district; the agreeance to do 60-foot lots; infrastructure; Pond G for Old Pasco Road; the pond cost; public water and sewer at the location from Pasco County; happiness for a 60-foot subdivision; appreciation for the work on the project; that it was a better project than before; the stormwater project; that the County was buying the land around it; the strip of the County's right-of-way in front of the property; and that the project was nestled between ELAMP properties.

COMMISSIONER WEIGHTMAN MOVED approval of Staff's recommendation; **COMMISSIONER MARIANO SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

P75 Zoning Amendment (Consent) – Anodyne 54 LLC/Anodyne 54 LLC (East) – Change in Zoning from a C-1 Neighborhood Commercial District to a C-2 General Commercial District – Southeast Pasco County – Northeast Corner of the Intersection of State Road 54 and Point Cypress Boulevard – Containing Approximately 1.27 Acres

File Number PDE25-7823
Comm. Dist. 2
Recommendation Approve

Ms. Gay noted the proof of publication.

Mr. Patrick Dutter, Planning, Development and Economic Growth, read the item into the record and spoke regarding the voluntarily agreed upon deed restriction.

There was no public comment.

The item was approved as part of the Public Hearing Consent Agenda.

P76 Zoning Amendment (Consent) – Suncoast Lakes MPUD Master Planned Unit Development – Pasco County Planning Services Division – A Modification to the Previously Approved Master Plan and Conditions of Approval to Reflect and Memorialize Subsequent Revisions Thereto on Approximately 483.5 Acres in the South and Central Market Areas

File Number PDE25-7826
Comm. Dist. 4
Recommendation Approval with Conditions

Ms. Gay noted the proof of publication.

Mr. Patrick Dutter, Planning, Development and Economic Growth, read the item into the record.

There was no public comment.

The item was approved as part of the Public Hearing Consent Agenda.

P77 Zoning Amendment (Consent) – Sitex NR Holding LLC – Change in Zoning from a A-R Agricultural-Residential District to a C-2 General Commercial District – South Central Pasco County – West Side of Ernest Drive, Approximately 200 Feet South of State Road 54 – Containing Approximately 1.06 Acres

File Number PDE25-7827
Comm. Dist. 2
Recommendation Approve

Ms. Gay noted the proof of publication.

Mr. Patrick Dutter, Planning, Development and Economic Growth, read the item into the record and spoke regarding the voluntarily agreed upon deed restriction.

Mr. Tyler Suddeth, Suddeth Civil, spoke regarding his support for the item.

The item was approved as part of the Public Hearing Consent Agenda.

P78 Conditional Use (Regular) - Southern One LLC/Coral Towers LLC/Verizon Wireless - 185 Foot Above-Ground-Level Monopole Wireless Communications Facility in an A-R Agricultural-Residential District - North Central Pasco County - On the North Side of St. Joe Road, Approximately One-Half Mile West of Roberts Barn Road

File Number PDE25-CU02
Comm. Dist. 1
Recommendation Approval with Conditions

Ms. Gay noted the proof of publication.

Mr. Liam Devine, Planning, Development and Economic Growth, used a PowerPoint presentation to review the item and spoke regarding a typo in the Background Section of the Agenda Memo that currently read as Petition No. CU 25-01 aka CU24-15 and it should be Petition No. CU25-02 aka CU24-15.

Ms. Mattaniah Jahn, representative for the applicant, used a PowerPoint presentation to review the item and spoke regarding people who were available to answer questions on the project, an overview of a monopole, the color of the monopole, that it would be completely dark at night, that communication towers were an essential service to everyday life, and the 911 call stats in Pasco County in 2021.

Mr. John Terry spoke regarding the history of his land, his hope that the land would stay an AR-Residential, his understanding for growth, his opposition to the tower, aesthetic concerns, the detrimental unbridled growth in the County, the tower's inconsistency with the neighborhood, the tower's height, that he wanted his opposition noted, that there should be another place they could put it, and that they tried to put another tower down the street.

Discussion was held regarding the cell tower Ordinance; that more towers would be needed if they weren't as high; that everyone used their cell phones; the lack of landlines in new homes; Commissioner Starkey's reception issues and landline; that no one would choose to have a tower next to their home; that health risks could not be discussed; the Code required landscaping buffer; the tower location; a suggestion for landscaping along the front of the road; whether this site would make up for another one; what the plan for both towers had been; the importance of this item; that item P65 had been withdrawn; the sounds from the backup generator of the tower; that opposition to growth was no substantial evidence; hardlines within a home for 911 purposes; an example of a need for reliable service; a request for approval; the support of cell towers; that there was no away around them in today's world; that perhaps they could be gotten rid of and used differently decades from now; the provision in the Code for an unused tower; and the time when towers were lower and the top could be removed.

COMMISSIONER MARIANO MOVED approval to receive and file documents submitted by Ms. Mattaniah Jahn**; COMMISSIONER STARKEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER STARKEY MOVED approval of Staff's recommendation**; COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

P79 Zoning Amendment (Regular) – Sandarben LLC – Change in Zoning from a A-C Agricultural District to a AR-5 Agricultural-Residential District – North Central Pasco County – Northwest Corner of Bellamy Bros Boulevard and Johnston Road – Containing Approximately 92.60 Acres

File Number PDE25-7824
Comm. Dist. 1
Recommendation Approve

Ms. Gay noted the proof of publication.

Mr. Liam Devine, Planning, Development and Economic Growth, read the item into the record and spoke regarding the ex parte forms submitted, and that the item had been inadvertently put on the Agenda as a Regular item.

Mr. Daniel Raterman spoke regarding his property being east of the subject property, the dedicated wetlands area, the flooding in the area and on the property, the removal of a stranded vehicle from Hurricane Milton, the shutdown of Bellamy Brothers post-Hurricane Milton, the mailed site plan, the selling of lots right up to Bellamy, the effects of capping the grade with hard surfaces, the lack of water containment provisions, the need for the provisions, the great job of the Austin Woods development on Bellamy, and the suggestion to use ideas from that development.

Ms. Cyndi Tarapani, representative for the applicant, displayed documents and spoke regarding the awareness that Bellany Brothers was a Vision Road, the accommodation of a new right-of-way on the project, an overview of the site plan for 16 lots, the constructed access road, that the client still needed to go through the Minor Rural Subdivision process, that all SWFWMD and County requirements would need to be met, the pre-existing wetlands on Mr. Raterman's property, the plan matching the approved Plan Amendment in June, and the two existing homes currently on the property.

Mr. David Engel, Director of Planning, Development and Economic Growth, Mr. Nick Uhren, Director of Engineering Service and County Engineer, and Mr. Brad Tippin, Director of Development Review Services, spoke during the discussion.

Discussion was held regarding the great product and value of Minor Rural subdivisions; the concern on how to implement the subdivisions; the capping at 16 homes; the concern of accidentally hurting the County by capping lots; that it was based on the road improvements; the upgrade to the County Standard Road Cross-section for thirty or more homes; that Staff would take a look at it and put it on the priority list; the allowance of Minor Rural Subdivisions; the suggestion to make it easier for people to add onto their own property; Chairman Oakley's neighborhood; whether there was a plan for multi-use for Bellamy; that the Orange Belt Trail had to deviate from the rail corridor; clarification on projects; that the Vision Road Network for connected east to west had not been constructed; the construction or dedication of the Vision Road from residential projects; the developers obligation to construct sidewalks along their frontage of Bellamy Brothers Road; that the County would fill in the gaps of sidewalks for safety; the improvements and widening of Bellamy; the concern for someone to safely travel besides using a car; the displayed maps; the length of the east to west back lots; the suggestion to make the lots shorter; the work during the site plan review process; that stormwater ponds were not required in a Minor Rural Subdivision; the swale on each side of the entrance road; the approved and constructed driveway; whether the driveway had a culvert underneath and if that was required; whether there was existing flooding; the wetland area; historic flooding of the road; whether adding more to the area would stop the water from receding quickly; that this was the only zoning classification that could go in this location; that Euclidean Zoning could not be conditioned; the request for clarification on whether storm water engineering considerations were needed for the development; the lots; that the amount of impervious installed could trigger SWFWMD requirements; that there was no current plan to review; straight re-zoning; the height on the back part of the lot; the concern of making the runoff worse; the paved road; the lot size change; that these types of properties would not create flooding; the rolling hills throughout the County; whether there could be a request for channeling to help control water; the prevention of water on the roadways during big storm events; whether the applicant would work with County on channelization to store the water on along the edge; the consideration of ideas dealing with water on their site; and that the applicant could not fix pre-existing issues on other sites.

COMMISSIONER STARKEY MOVED approval of Staff's recommendation; **CHAIRMAN OAKLEY SECONDED.**

Chairman Oakley called on the motion; the vote was unanimous, and the motion carried.

Noted Items

Agenda items N80 through N97 were noted.

Addendum

There was none.

Chairman Starkey nominated Commissioner Weightman for Second Vice-Chairman of the Board.

Chairman Starkey called for other nominations. There were none.

Chairman Starkey called for a raise of hands for Commissioner Yeager to serve as Second Vice-Chairman. Commissioner Oakley and Commissioner Yeager raised their hands.

Chairman Starkey declared Commissioner Weightman as Second Vice-Chairman of the Board of County Commissioners.

Discussion was held regarding procedures and the nominations.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Chairman Starkey reviewed the procedures to be followed and called for public comment.

Mr. David Lambert, Withlacoochee River Electric Cooperative, Inc., congratulated Chairman Starkey and Vice-Chairman Mariano on their elections and spoke regarding the co-op, what they returned with the capital credit refund, the check that was presented, their rates, the hard work and dedication of their employees, a new powerplant, who owned Seminole Electric Cooperative, that they would be investing in infrastructure, and introduced Mr. John McCarty, District Manager.

Chairman Starkey noted her appreciation for the great service that they provided during hurricane Helene and Milton.

Commissioner Mariano spoke regarding the storm, that there was a clear communication line, that they were quick and efficient, that they made innovative strides to try to help Pasco grow, the scholarships that are given out, and a tree in Hudson.

Commissioner Yeager noted her appreciation for their help with a family that had a fire.

Commissioner Oakley noted his appreciation for what they had done in the community, that during the storm they were prepared, and the work that they had done went smoothly.

Ms. Lisa Moretti spoke regarding the Connected City project, flooding, the Tall Timbers project, language in the MPUD, SWFWMD standards and State regulations, FDOT standards, and developments and developers.

Mr. Michael Pultorak, the Pasco County Connected Residents Group, used a PowerPoint presentation and spoke regarding the Connected City MPUD, the 965

acres, the North and South Innovation Zones, Tall Timbers, the Community Hub, and why they felt it would not receive passing scores.

Ms. Julia Bartunek spoke regarding Agenda item C11 and Penny for Pasco funds.

Mr. John Kane spoke regarding development, concerns with the methods, lands that were cleared out, burning, a conversation with DEP, and an air curtain incinerator.

Mr. Larry Conwill spoke regarding the intersection of Ryals Road, Silverado Ranch Boulevard, and Eiland Boulevard, a stop light, possible signs, and the speed limit on Dean Dairy Road.

Mr. Al Hiller congratulated Chairman Starkey, thanked them for their help during the disastrous time, noted their appreciation for the commissioners, and spoke regarding Commissioner Mariano's involvement and help. He presented Commissioner Mariano with letters from citizens from his district.

Commissioner Mariano spoke regarding former Commissioner Bradford.

Mr. Jerry Kingsley spoke regarding Storyland, how many times his house had flooded, the natural disaster, and the mismanagement of infrastructure.

Ms. Wanda Chasnoff, Ms. Ireene Weltch, and Ms. Mary Lou Kiser spoke regarding Green Key Road; concerns with the homeless people and the homeless camp; a permanent trespass on the property; drug transactions; syringe needles; the rental market; the flooding; and the epidemic in the area.

Chairman Starkey noted that they would be having a discussion on what could be done with the private property owners and trespassing.

Ms. Lisa Vergilio spoke regarding Shady Hills, development projects, her aquifer, the population, accidents that happened, that there were no sidewalks, that there were not enough traffic lights, the width of the roads were not wide enough, and the Pasco County Commissioners' website.

COMMISSIONER OAKLEY MOVED to receive and file documents by Mr. Allen Rose; **COMMISSIONER MARIANO SECONDED.**

Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

Mr. Allen Rose spoke regarding Golden Acres, Agenda item P81, and converting the property.

Mr. Steinsnyder, noted that if it was a Public Hearing item, that was when he could make his comments.

Discussion was held regarding when comments should be made.

Mr. Peter Delayo spoke regarding Orchid Lake Road and Orchid Lake Subdivision, a petition for speedbumps, concerns with speeding, speed limit signs, a conversation with Commissioner Yeager, and road conditions in Orchid Lake Village.

Chairman Starkey directed Mr. Branford Adumuah, Assistant County Administrator for Public Infrastructure, to speak with him.

Ms. Nancy Hazlewood thanked the Board for arranging a meeting with Tampa Bay Water and spoke regarding the concerns with a well field in the Northeast Protected Area, that they had well and septic, those who represented the development community, and Connected City's first meeting.

Mr. Rob Richie spoke regarding Shady Hills, rapid development in the area, concerns with the lack of infrastructure, traffic, emergency services delays, a caution light, that there were no sidewalks or trails, sugar sand on the shoulder, pedestrian and bicycle traffic, the Del Webb Development, and road widening.

Pastor Jen Kerouac noted scripture and spoke regarding advocating for citizens, Connect City's plan, the widening of Shady Hills Road, and meetings she had with Commissioners.

Ms. Shamisea Griar spoke regarding her appreciation for County assistance, evictions, the SHIP Program, funding for properties, that the disaster displaced them, and company trucks on the properties.

Mr. Eric Johnson spoke regarding the Crela Estates Development, access to the property, the elevation difference, a berm and retention pond, the deed to the property, a conflict between different agencies, the rezoning sign, and that a 300 year old oak tree and his fence was taken down.

Chairman Starkey noted they would discuss that property later.

Mr. Bruce Kopka spoke regarding the Beacon Park Development, the soot problem, complaints to the HOA, fencing that was put up, and safety hazards on his property.

Commissioner Mariano directed Mr. JP Murphy, Interim Assistant County Administrator for Building Construction, to speak with him.

Resolutions

Commissioners Items - Chairman Oakley

RS1 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Recognizing Lane Mendelsohn And Abby Mendelsohn For Their Generosity In The Two Good Soles Shoes And Socks Drive
File Number CAO25-5107
Comm. Dist. All
Recommendation Approve

Ms. Alvarez-Sowles read the Resolution into the record.

Ms. Abby(a minor) and Mr. Lane Mendelsohn spoke regarding their appreciation; that it was her fourth year doing Two Good Soles and she liked to inspire people; that it felt good to donate; the reason they were giving; that he was working to inspire his daughters and teach them; that they donated their hair to an organization that makes wigs; possible profits from a steer being donated; and that their fourth quarter donation was to Catholic Charities.

Ms. Paula Baracaldo, Director of Support Services, spoke during the discussion.

Discussion was held regarding their appreciation; that kids in the school system would receive socks and shoes because of Ms. Abby's good work; what she was doing was amazing; their dedication to family; a discussion with Mr. Lane Mendelsohn; highlighting their efforts; the amount of shoes they collected; and a donation to get additional shoes and socks.

COMMISSIONER OAKLEY MOVED approval to adopt; **COMMISSIONER YEAGER SECONDED.**

Ms. Alvarez-Sowles called the roll; the vote was unanimous, and the motion carried with Chairman Starkey absent from the vote.

RS2 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Recognizing Jacques Hakim For His Generosity And Contributions To The Two Good Soles Shoes And Socks Drive
File Number CAO25-5108
Comm. Dist. All
Recommendation Approve

Ms. Alvarez-Sowles read the Resolution into the record.

Mr. Jacques Hakim noted his appreciation to the Board, appreciation to his wife, The Honorable Mike Wells, Property Appraiser, Ms. Abby, and Ms. Cathy Pearson, Assistant County Administrator for Public Services, and the amount of shoes for next year.

Ms. Paula Baracaldo, Director of Support Services, spoke during the discussion.

Discussion was held regarding their appreciation; that Mr. Hakim was a pivotal part; his participation; Two Good Soles; the hurricane; Title One kids; donations from family and friends; and that the program had grown.

COMMISSIONER OAKLEY MOVED approval to adopt; **COMMISSIONER YEAGER SECONDED.**

Ms. Alvarez-Sowles called the roll; the vote was unanimous, and the motion carried with Chairman Starkey absent from the vote.

Commissioners Items - Commissioner Starkey

RS3 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Recognizing The 10th Anniversary Of AmSkills
File Number CAO25-5111
Comm. Dist. All
Recommendation Approve

Item R75 was heard under RS3.

Ms. Alvarez-Sowles read the Resolution into the record.

Mr. Tom Mudano, President and CEO of AmSkills, used a PowerPoint presentation to review the item, thanked the Board and spoke regarding their primary purpose, that they were a 501C3, solutions that were created, programs that were created, that they were expanding their high schools, the amount of industry recognized certifications that they issued, a Holiday Community Block Party, and that they created a collaborative partnership agreement with the University of Florida, Florida Semiconductor Institute.

Dr. Jack Judy, Deputy Director for Workforce at the Florida Semiconductor Institute, Mr. Leroy Yancey, Chairman of AmSkills, Mr. Viggo Nielsen, and Dr. Joseph McGee, CEO of Harvest CROO Robotics, spoke regarding what their missions were; that they had been partnering with advanced teams and leaders; a MOU that was signed with AmSkills; their appreciation; the partnership between Florida Semiconductor Institute and AmSkills; that they were addressing the urgent need for a skilled workforce; the initiatives with special needs kids; that Mr. McGee owned a robotics company; and the development and training to scale the company.

Discussion was held regarding their 10-year anniversary; appreciation to Chairman Starkey for her dedicated involvement; Commissioner Mariano's support; the Semiconductor Institute involvement; partners; developers; industrial land; Pepin Academy; the Garyline ribbon cutting; and how many jobs they had filled in nine months.

COMMISSIONER MARIANO MOVED approval to adopt; **COMMISSIONER OAKLEY SECONDED**.

Ms. Alvarez-Sowles called the roll; the vote was unanimous, and the motion carried.

Consent

COMMISSIONER OAKLEY MOVED approval the Consent Agenda with the exception of Agenda Items C26, C33, C35, and C62 which had been pulled for discussion or revision and Agenda Items C27, C56, C66, and C68 which had been withdrawn; **COMMISSIONER MARIANO SECONDED.**

Ms. Alvarez-Sowles called the roll; the vote was unanimous, and the motion carried.

Internal Services - Facilities Management

C26 Exempt Agreement with Ryman Construction of Florida Inc. for Construction of the East Pasco Senior Center and Delegation of Authority to the County Administrator — Not to Exceed $1,070,111.36
File Number FAC25-0052

Recommendation Presentation Only

The item was heard under RS3.

The item was for information only.

Legislative/Administrative - County Administrator

R76 State Legislative Priorities
File Number CA25-0003
Comm. Dist. All
Recommendation Presentation Only

Mr. Ralph Lair, Intergovernmental Affairs Officer, used a PowerPoint presentation to review the item.

Mr. Nick Uhren, County Engineer, and Mr. Jason Mickel, Director of Public Works, spoke during the discussion.

Discussion was held regarding priority projects; the amount they should request; Countywide projects; money towards projects; a shelter on the east side; the Trinity Boulevard project; the bike pedestrian overpass; an agreement they entered into; the delay of the project; the widening of Suncoast Parkway; DOT District 7; the Ridge Road Extension; the Lobbyist team; Priority A projects; Fire Station projects; who could sponsor; appropriation shares; the Double Hammock North project; the Sea Pines project; funding; design, permitting, and construction; SWFWMD money; the CIP; Thousand Oaks in Trinity; and people living on other people's property.

The item was for information only.

Development Services - Planning and Economic Growth

R77 Legacy at Wiregrass Ranch Economic Development Agreement Term Sheet
File Number PDE25-0059
Comm. Dist. 2
Recommendation Approve

Mr. David Engel, Planning and Economic Development Director, used a PowerPoint presentation to review the item and spoke regarding consumer affairs designated

Wesley Chapel the best place to move to in the state of Florida, high population centers, that it was second in the state for lowest crime rate, and Wiregrass Legacy.

Mr. Scott Sheridan, Wiregrass Ranch, used a PowerPoint presentation to review the item and spoke regarding the tax base, how much they generate, the site plan, EDA timeline, what they were tending towards and already facilitating, the goals and objectives, investments, Orlando Health, a planned entertainment venue, a food hall, a statement from Ernst and Young, and displayed a video.

Discussion was held regarding the Porters; the Wiregrass Mall; the commercial aspects; concerns with the structure of apartments; affordability; workforce units; surrounding multi-family; demographics in Wesley Chapel; owning property; Penny 4 Pasco; that there needed to be centers like that; stewardship of the property; facilities that provide ownership; rental components; and condominiums.

COMMISSIONER OAKLEY MOVED approval of Staff's recommendation; **COMMISSIONER MARIANO SECONDED.**

Ms. Alvarez-Sowles called the roll; the vote was unanimous, and the motion carried.

Miscellaneous Business - District One - Commissioner Oakley

- Commissioner Oakley noted he had enjoyed being the Chairman, his appreciation to everyone for their help, and spoke regarding the storms.

  Discussion was held regarding the EOC; that they were still in active recovery; and if they were still pumping out on the East side.

- He spoke regarding the Fire Rescue Graduation Ceremony he attended and who was in attendance while photographs were being displayed.

Miscellaneous Business - District Two - Commissioner Weightman

- Commissioner Weightman congratulated Commissioner Oakley for his successful year in his Chairmanship and congratulated Chairman Starkey and Commissioner Mariano on their terms.

- He noted his appreciation for Mr. Brad Tippin, Development Review Director, and the Planning Staff for the Townhall meeting on Ehren Cutoff.

- He wished everyone a Merry Christmas and a happy New Year.

Miscellaneous Business - District Three - Commissioner Starkey

- Commissioner Starkey spoke regarding the Tourism Awards, Ms. Consuelo Sanchez, Tourism Assistant Director, that they won, events that were hosted, marketing accomplishments, a marking campaign that was relaunched, their outreach, and the website enhancements while pictures were displayed.

- She noted her attendance at the Pasco Leadership Luncheon while photographs were displayed.

- She noted that her Staff also attended the Garyline ribbon cutting and spoke regarding the recycled pellets while photographs were displayed.

- She spoke regarding her attendance at the NACo County Crossroad Symposium in California.

- She noted her appreciation for Corrections, Fire Rescue, and Public Safety for another successful Angel Tree Program and how many children they were able to sponsor while photographs were displayed.

- She spoke regarding the need to inform other Commissioners about big items that were going on, a request for an update on what was happening during Commissioner items, and a discussion she had with Ms. Tania Gorman, MPO Director, regarding the TMA meeting.

- She wished everyone a Merry Christmas.

- Mr. Steinsnyder confirmed with Chairman Starkey that Chair appointments would be done at the January meeting.

- Chairman Starkey spoke regarding the mission of Connected City, the need for an update, and Shady Hills.

  Commissioner Mariano spoke regarding County Line Road, Shady Hills, the community they approved in Del Webb, sidewalks, Crela Estates, stormwater, and basin of special concern.

Miscellaneous Business - District Four - Commissioner Yeager

- Commissioner Yeager spoke regarding the 4th annual Adoption Day while photographs were displayed.

- She spoke regarding the Habitat for Humanity home dedications while photographs were displayed.

- She spoke regarding the Trinity Women's League sponsorship of food and the partnership with Grace's Food Pantry while photographs were displayed.

- She noted her attendance at the Firefighter Graduation Ceremony and congratulated the cadets while photographs were displayed.

- She noted that she wanted to recognize Mr. Jeremy Blevins, Park, Recreation, and Natural Resources, for his help.

Miscellaneous Business - District Five - Commissioner Mariano

- Commissioner Mariano spoke regarding a meeting with Leisure Beach, a Civic Association, fecal matter concerns, and RV hook-ups while photographs were displayed.

  Discussion was held regarding how first responders would get around; where the ROW was; and hook-ups for sewage.

- He spoke regarding the Garyline Plastics facility, the amount of workers, products they made, and the company next to them while photographs were being displayed.

  Discussion was held regarding recycled plastics and suppliers.

- He wished everyone a Merry Christmas and noted his appreciation to the team.

Miscellaneous Business - County Administrator

- Mr. Carballa noted that they received money back from FEMA to help start the reimbursement.

- He spoke regarding CBD GDR grants and his request for a letter to the Federal Delegation.

  COMMISSIONER MARIANO MOVED to send the letter and put the recommendation in; **COMMISSIONER YEAGER SECONDED.**

  Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

Miscellaneous Business - County Attorney

- Mr. Steinsnyder wished everyone a Happy Holiday.

Miscellaneous Business - Clerk and Comptroller

- Mr. Sample noted that N131 was an audit that was performed to look at agreed upon procedures for the P-Card process and the recommendation.

- Mr. Sample read a statement from Clerk Alvarez-Sowles regarding the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association that was awarded to the Clerk's Office and noted the Clerk's appreciation of the Finance Team, Mr. Matt Lazar, Finance Director, Mr. Richard Van Steen, Assistant Finance Director, the Constitutional Officers, the County's Fiscal and Grant Management teams, Ms. Jessica Blesser, Fiscal Services Director, Ms. Kristina McGonigal, Public Services Grants and Fiscal Services Director, Ms. Amielee Farrell, and the Grants Management Team.

Miscellaneous Business - Sheriff

- Absent.

THE BOARD RECESSED AT 12:17 P.M AND RECONVENED AT 1:32 P.M. ALL COMMISSIONERS WERE PRESENT WITH COMMISSIONER WEIGHTMAN ATTENDING THE MEETING VIRTUALLY. CHAIRMAN STARKEY ARRIVED TO THE MEETING AT 1:42 P.M. MS. ALVAREZ-SOWLES WAS REPRESENTED BY MR. HAROLD SAMPLE, DEPUTY CLERK, FOR THE AFTERNOON SESSION.

Call To Order

Chairman Starkey called the meeting to order at 10:01 a.m.

Invocation
Pledge of Allegiance

Ms. Alvarez-Sowles gave the Invocation and led the Pledge of Allegiance to the Flag.

Roll Call

Ms. Alvarez-Sowles called the roll. All Commissioners were present.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Chairman Starkey reviewed the procedures to be followed and called for public comment.

COMMISSIONER WEIGHTMAN MOVED approval to receive and file documents submitted by Ms. Nancy Hazelwood; **COMMISSIONER OAKLEY SECONDED.**

Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

Ms. Nancy Hazelwood spoke regarding the Northeast Protected Area Plan, well and septic, keeping the land rural, the Comprehensive Plan, the packet on Wellfield, the document she distributed, the R49 Test Wellfield study, the Tampa Bay Water website, concerns with how far the well would be from growth in the County and associated costs, whether there would be a Wastewater Treatment Plant, renting sites, and the concern regarding development in the Northeast Rural Protected Area.

Ms. Asia Moore, Vice-President of Florida Uniting Manatee Awareness, spoke regarding the nonprofit organization, the Florida Nature Coast which covered 9 Counties and protection that was needed, dredging of the canals, the Sports Coast being Pasco County, water pollution and the red tide issues, Scallop Season closures, viewing the Nature Coast, Shady Hills Road and the dangers of driving, and living in a rural community.

Ms. Lisa Moretti spoke regarding the Tall Timbers continuance and objecting to the continuance, the bad sharing of information, Agenda availability concerns, that the maps for Tall Timbers were not provided to Planning Commission until 10 a.m. before the meeting, the need for residents to obtain critical information, the Land Use Code and continuance guidelines, the rules, and doing things the way they should be done.

Ms. Ann Marie Winter thanked Pasco County for the partnership with the Area Agency On Aging, thanked Commissioner Weightman for serving on the Board and his guidance, looking forward to having Commissioner Yeager serve as the Pasco County Commissioner seat, thanked Commissioner Oakley's generous donation to the Agency which would be going back out to the community, they would continue to provide meals to seniors at home, the congregate dining sites, other services that were provided, and the Case Management Program.

Discussion was held regarding congregate dining locations.

Commissioner Oakley noted his appreciation for all she was doing for the aging residents in Pasco and Pinellas Counties, and stated that it was greatly needed and they had done a great job.

Ms. Daphne Sais noted the challenges she faced during construction within the Crela Estates, the ingress and egress that was raised without a permit, that Code Enforcement stated it was a public road, property flooding, backyard retention ponds, trees that had been removed, compromised privacy and security, late night construction, paying property taxes that included part of the ingress and egress, a compensation request, and oversight concerns.

Discussion was held in regard to discussing the matter with an attorney and a site visit; council representation; the County reaching out to Ms. Sais; and that it was a private matter between two property owners.

Ms. Ava Russo noted that she was not speaking for public comment.

Ms. Julia Bartunek spoke regarding the Northeast Rural Pasco Area, the agricultural significance and environmental importance, the Wellfield studies, development concerns, those affected by the recent hurricanes, and building resiliency and sustainability.

Ms. Crista Howell Larkin spoke regarding displacement from the recent hurricanes, having to pay out of pocket, infrastructure improvements, questions not answered by the City, Silver Oaks money allocation issues, home building standards, flooding issues, personal property that was lost and stolen, impacts to people's lives, and the continued developments within the County.

Discussion was held regarding the losses; a future meeting to discuss the issues; FEMA and insurance issues; and the impact from the hurricanes on the County.

Resolutions

Commissioners Items - Commissioner Starkey

RS1 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Declaring January 17, 2025, As Arbor Day In Pasco County
File Number CAO25-5112
Comm. Dist. All
Recommendation Approve

Ms. Alvarez-Sowles read the Resolution into the record.

Ms. Lottie Kelley, Reworld Waste, and Ms. Ligia Martello Buchala, Keep Pasco Beautiful, spoke regarding Reworld Waste Board membership; what they believed in; giving out trees for Arbor Day; appreciation for the support; the upcoming Arbor Day Celebration; where to register for a tree; a tree planting workshop; and partnerships.

Mr. Mike Woodard, County Arborist, spoke during the discussion.

Discussion was held regarding being glad to give out more trees; the types of trees being given out; that last year they gave money to increase the number of trees being handed out; a request to add money to their number of trees; when the tree give away would be; the upcoming celebrations; that tree experts would be present to answer questions; hurricane damage; what trees could provide; and shaded parking spots.

COMMISSIONER WEIGHTMAN MOVED approval to adopt; **COMMISSIONER OAKLEY SECONDED.**

Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER OAKLEY MOVED approval to add $3,000.00 to their number of trees; **COMMISSIONER MARIANO SECONDED.**

Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

Commissioners Items - Commissioner Yeager

RS2 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Declaring The Month Of January As National Slavery And Human Trafficking Prevention Month And January 11, 2025, As National Human Trafficking Day In Pasco County
File Number CAO25-5110
Comm. Dist. All
Recommendation Approve

Ms. Alvarez-Sowles read the Resolution into the record.

Ms. Laura Henderson, Vice-Chair for the Commission on Human Trafficking, and Ms. Liana Dean, Chair for the Commission on Human Trafficking, spoke regarding appreciation for the recognition and their support; how long the Commission had been formed; spreading awareness; education; prevention; listening to survivors; bringing focus to survivors; guidance; and expertise.

Discussion was held regarding sponsorship of the Resolution; what work they did; that the group was amazing; appreciation for the work they had done; a difference that had been made in the County and the Nation; their support; a recent golf tournament held at Lake Jovita; pain knowing sex trafficking was still in the County; and AmSkills helping a group of survivors with a business.

COMMISSIONER YEAGER MOVED approval to adopt; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

Consent

COMMISSIONER OAKLEY MOVED approval of the Consent Agenda including the Addendum Items AC137 and AC138 with the exception of Agenda Items C5, C33, and C47 which had been pulled for discussion or revision and Agenda Items C9, C28, and C38 which had been withdrawn; **COMMISSIONER YEAGER SECONDED.**

Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

Development Services - Planning and Economic Growth

C5 Task Order No. PDETO25-0001 –W.E. Oliver, P.E., LLC. –Villages of Pasadena Hills Financial Plan 2025 Update– $246,080.00
File Number PDE25-0058
Comm. Dist. 1
Recommendation Approve

Comm. Dist. All
Recommendation Presentation Only

The item was not heard.

R51 Confirmation of Assistant County Administrator, Development Services – David Allen – Annual Salary of $205,000.00
File Number CA25-5012
Comm. Dist. All
Recommendation Approve

Mr. Carballa spoke regarding his appreciation to Mr. JP Murphy, Director for Building Construction Services, for serving in the interim role, the state of transition, his efforts during the storms, Mr. David Allen, Director for Utilities, compliments for his work, and his career history.

Mr. Allen spoke regarding appreciation to Mr. Carballa for his consideration of the position, appreciation to his team, his excitement for the role and opportunity, looking forward to developing new partnerships, and the Board's Mission, Vision, and Values for the County.

Discussion was held regarding working with Mr. Murphy; appreciation for his efforts; congratulations to Mr. Allen; working with Mr. Allen; and that they thought he would do a phenomenal job.

COMMISSIONER OAKLEY MOVED approval of Staff's recommendation; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

Miscellaneous Business – District One – Commissioner Oakley

- Commissioner Oakley spoke regarding the wildfires on the west coast of the United States and expressed his appreciation for the first responders with the fires and with the flooding that occurred in Pasco County.

Miscellaneous Business – District Two – Commissioner Weightman

- Commissioner Weightman expressed his excitement for the new year, working under the Board's leadership, and the new Committee assignments.

Miscellaneous Business – District Three – Commissioner Starkey

- Chairman Starkey spoke regarding the California fires and a relative that lives in Pacific Palisades and that she was grateful for how Pasco dealt with disasters. She asked about the Red Cross's response.

  Discussion was held regarding the response of Red Cross.

- Later in the meeting, she displayed photographs and spoke regarding the Women's Conference of Florida and hoped to send people to the event next year.

- She displayed photographs and noted the volunteer work with Metropolitan Ministries in their tent and gift deliveries by her Staff.

- She spoke regarding following Commissioner Yeager's influence when they were doing food in the Holiday area near Mile Stretch, Mr. Gary Joiner's Bar-be-que not getting a good amount of people, that she loaded up her car and went door-to-door, a gentleman she encountered with no food or car, and wanting the County to visit him. She noted Commissioner Yeager had set a great example for them to follow.

- She spoke regarding the County initiated Community Food Distribution at the St. Vincient de Paul Church.

- She requested a motion to reappoint Ms. Bobbi DeFilippis to the Tourist Development Council.

  COMMISSIONER MARIANO MOVED approval to reappoint Ms. Bobbi DeFilippis to the Tourist Development Council; **COMMISSIONER WEIGHTMAN SECONDED.**

  Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

- She spoke regarding the Committee seats that had been distributed, that the Withlacoochee State Trail did not have a council, and requested important updates from the Committees that the Board members served on.

  Commissioner Weightman spoke regarding the Springs Council, how the three Committees were made up, the fundings, and learning facts such as where the bull shark mating grounds were located.

Miscellaneous Business – District Four – Commissioner Yeager

- Commissioner Yeager displayed photographs and spoke regarding the prayer breakfast and having a guest speaker in attendance.

- She displayed photographs and spoke regarding surprising two different senior centers along with Ms. Cathy Pearson, Assistant County Administrator for Public Services, and her grandkids, singing Christmas Carols, and handing out candy canes.

- She displayed photographs and spoke regarding the Christmas event at Moon Lake, feeding 250 families, parents that went shopping, Metro Ministries, Graces Food Pantry, and the River Ridge Basketball Team that was there helping.

- She displayed photographs and spoke regarding a Tunnel to Towers event.

Miscellaneous Business – District Five – Commissioner Mariano

- Commissioner Mariano spoke regarding the comment that was discussed in Public Comment earlier in the meeting pertaining to the Nature Coast and the rebranding of Pasco County to the Sports Coast. He noted the Board had done a phenomenal job with the restorations and water quality efforts up and down the coast, working closely with Fish and Wildlife, the Scalloping Season, the Aquatic

Preserve, the Leisure Beach channel and the low tide, the markers, replanting in Homosassa, sea life, and water quality improvements and channel restorations.

- He noted his appreciation for Staff for working through the storms and for getting people back in their homes.

- He noted that Mr. Kevin Gutherie, Executive Director for the Florida Division of Emergency Management, would be a phenomenal lead for FEMA.

Miscellaneous Business – County Administrator

- Mr. Carballa expressed his appreciation to the Board for approving Addendum item 138 and that Pasco County would be one of three Agencies in the State with the capability to perform quick road clearing and advance search and rescue.

- He noted his appreciation for Mr. Kevin Guthrie's, Executive Director for the Division of Emergency Management, trust in Pasco County to deliver services to the citizens of the State of Florida.

- He spoke regarding the Strategic Plan that had been distributed to the Board and that more information would be presented later on.

- He noted that Pasco County had been a direct recipient of a direct allocation amount of $585,704,000.00 from HUD and that the funding would have to tie back to the natural disasters, and generally have to benefit low to moderate income individuals. He expressed his appreciation to Ms. Marcy Esbjerg, Community Development Director, and her team for their efforts, a letter that had previously signed by the Chairman, appreciation to Mr. Ralph Lair, Intergovernmental Affairs Officer, and his team for their efforts, they were developing an internal administrative structure, on how to manage it, and the next steps.

  Discussion was held regarding meeting with the Commissioners individually as quickly as possible; that NACo handles the money and works with CDBG, HUD, and FEMA; appreciation for the work NACo had done during COVID; that they had not heard anything negative about how the monies had been spent with the Counties; using NACo to know all the rules and if they had any issues; and Lee County.

- Mr. Carballa spoke regarding a thank you letter drafted for the Federal Delegation for any work that had been done behind the scenes to bring that money to Pasco and that it had been addressed from the Chair.

  COMMISSIONER OAKLEY MOVED approval to have the letter signed by the Chair; **COMMISSIONER YEAGER SECONDED.**

  Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

- He spoke regarding the upcoming Tri-County Regional Roundtable meeting at the Ruth Eckerd Hall, looking forward to meeting with the rest of the Boards, the presentation from Tampa Bay Water, the brief discussion on the MPO/TPO merger, the opioid funding, the Legislative discussion and what they had done individually as a group for the region, and Pasco County would be hosting the next meeting.

  Discussion was held regarding the meeting being valuable and encouraging everyone to put importance on their calendar; working together; the Four River Project; and inviting at least one Board member from the Cities to attend a meeting.

Miscellaneous Business – County Attorney

- Mr. Steinsnyder spoke regarding the CDBGDR program, discussions between him and the Administrator, that the program was different with more strings, bringing the program forward, and how the money was going to be spent.

  Chairman Starkey noted that it was a reimbursement.

Miscellaneous Business – Clerk and Comptroller

- Mr. Harold Sample noted that N102 was the 2025 Annual Audit Plan that was established after conducting a risk assessment, and that the Inspector General had interviewed the County's and the Clerks Office's management teams. He noted Ms. Alvarez-Sowles expressed her appreciation to the County and the Clerk's management team for their efforts during the risk assessment and the Inspector General had looked forward to working with the County and Administration management teams throughout the year.

Miscellaneous Business – Sheriff

- Absent.

THE BOARD RECESSED AT 12:02 P.M. AND RETURNED AT 1:33 P.M. ALL COMMISSIONERS WERE PRESENT. MS. ALVAREZ-SOWLES WAS REPRESENTED BY MR. HAROLD SAMPLE, DEPUTY CLERK, FOR THE AFTERNOON SESSION.

Invocation
Pledge of Allegiance

Mr. Sample gave the Invocation and led the Pledge of Allegiance to the Flag.

Roll Call

Mr. Sample called the roll. All Commissioners were present.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Chairman Starkey reviewed the procedures to be followed and called for public comment.

Pastor Troy Pederson, Mr. Reagan Weiss, Hub Charities, Ms. Amanda Hart, Mr. Bruce Bumstead, Ms. Valarie Lafrance, Ms. Wanda Chasnoff, Ms. Irene Welch, Reverand William Bowles, Mr. Allen Rose, and Mr. Peter Doty spoke regarding America; the Inauguration; prayer; prayer groups; that prayer requests could be emailed; quoted scripture; Hub-o-Ween; the sponsors; traffic; their appreciation; selective enforcement; mining operations; trucking companies; permits; complaints; dirt that was being moved; transfer stations; the Community Chaplin for Pasco County; the Agenda; discernment; Commissioner Mariano and his help; flooding; a homeless camp; residents on oxygen; the fires; the improvement of Green Key; that a child was attacked; responses that the communities had been given; that there was still trafficking; prostitution; drugs; the tents that were up; the State Stone; that there was no place to display them; examples that were brought in; that they came from Pasco County; a shrine that was built in Saint Leo; waterway issues; impaired waterways; the Master Plan; damage from the hurricanes; an offshore barrier island; Code Enforcement; overbuilding in the County; that there was no water; roadways; violations; fines; speeding; and DOT.

Mr. Keith Wiley, Director of Parks, Recreation and Natural Resources, spoke during the discussion.

Discussion was held regarding a prior meeting; the tri-county meeting; the new campus that would be opening; NACo; the opioid settlement dollars; the task force; the

Behavioral Health Urgent Care; the different services; funding and grants; and Steps to Recovery program for veterans.

The item was for information only.

Updates from Chairman-Appointed Boards and Committees

The updates were provided under Miscellaneous Business.

Miscellaneous Business – District One – Commissioner Oakley

- Commissioner Oakley gave an update on Tampa Bay Water and spoke regarding water that was permitted, the production of grass, pumping approval, public comment, the City of Zephyrhills water, desal water, saltwater wells, and a reservoir.

  Discussion was held regarding ag wells; the Howard Curren water; projects that would add water to the system; seagrass in the Bay; advanced wastewater treatment; reclaimed water; the documents distributed by Commissioner Mariano; FGUA properties; a discussion with U.S. Water; well credits; money; and water rights.

- He displayed pictures and spoke regarding his attendance at the 2025 Emergency Services Recognition Ceremony and that he spoke at the Ceremony.

- He displayed pictures and spoke regarding his attendance at the Moffitt site tour and development update, proton therapy, radiation treatments, cell production, new hospitals, that Advent was putting in 124 new beds, and the clinic.

- He spoke regarding that he met with HCA and Mr. Mike Irvan, CEO, that they paid ad-valorem tax to Pasco County, that he was willing to team up to help with projects, and a tour of the hospital.

  Discussion was held regarding the hospital.

- Later in the meeting, Commissioner Oakley spoke regarding that he missed the Tri-County meeting and a WREC retirement party.

- He spoke regarding that Metropolitan Ministries had reached out for 30 arm passes.

  Discussion was held regarding the ride passes; the prices; that there was a boycott at the fair; and when the fair was.

Miscellaneous Business - District Two - Commissioner Weightman

- Commissioner Weightman gave an update on the Spring Coast Steering Committee and spoke regarding the funding, pots of money, CFI, the South Hillsborough County Transmission Line Project, the Polk Regional Cooperative, what it was capped at, the long term funding plan, the Basin Management Action Plan (BMAP), projects that were submitted, and the score and rank of projects.

  Mr. Adolfo Gonzalez, Director of Utilities Engineering and Contract Management, and Mr. Doug Anderson, Facilities Management, spoke during the discussion.

  Discussion was held regarding what they were asking for the project; the total project cost; the applicant share; the Steering Committee dates; the cost for nitrogen removal; grants they had applied for; the design cost; the cooperative funding; projects ranked; Aripeka; septic to sewer; Sea Pines; and the BMAP.

- He spoke regarding appreciation to Senator Fasano for inviting them to the groundbreaking of a new location.

- He spoke regarding the tax discussion, broaching the 40 percent of new revenue that went to the Sheriff's Department, a Law Enforcement MSTU, the Constitutional Officers, and budgets.

  Discussion was held regarding the MSTU; the Sheriff's budget; the first budget cycle; the Fire MSTU; and the opportunities that it would give the Constitutionals.

- He spoke regarding the prayer and a prayer a clerk did at a YMCA breakfast a few years ago.

  Discussion was held regarding the prayer; what the other counties did; a non-denominational prayer; what the State Legislature did; the reason the prayer was developed; and a time of silence.

Miscellaneous Business - District Three - Commissioner Starkey

- Chairman Starkey gave an update on the Tourism Development Council and spoke regarding that the numbers were up, events in Pasco County, and writers at the Kumquat Festival.

  Discussion was held regarding the Senior Games and the golf game.

- She displayed pictures and spoke regarding her attendance at the Pasco EDC Economic Forecast Luncheon.

- She displayed pictures and spoke regarding the South Harbors Leadership Council, the Trinity Odessa Leadership Council, and who presented.

- She spoke regarding that she was awarded one of the Women of Distinction awards, Commissioners who were in attendance, that there was a luncheon on March 12th, and appreciation to the Girls Scouts of West Central Florida.

- She displayed pictures and spoke regarding her attendance at the Tri-County Workshop, the opioid discussion, and the Commissioners from Hillsborough.

  Discussion was held regarding the Tri-County Workshop; the pictures from the meeting; that the next meeting was May 2nd; the old Target building; City Councils and Mayors; the BRT; the Hillsborough MPO and their TPO; TMA and CSX; HUD money; and when the action plans were due.

- She spoke regarding the five Cricut machines she donated to the Cultural Center, what the Cricut machine was, classes, and businesses on Etsy.

- She displayed pictures and spoke regarding the 11th Annual Manufacturing Dinner, the AmSkills 10th Anniversary, who was in attendance, donor cards, and Maddy's Movement.

- She displayed pictures and spoke regarding the Moffitt site tour.

- She spoke regarding that AmSkills started a class for trafficked women, the centerpieces, when Moffitt visited, and the Created Class.

  Discussion was held regarding other counties that required a human trafficking course for vendors and employees who were mandated to take a course for awareness.

- She spoke regarding that she had asked Staff to test the Odessa Lakes for contamination.

- She spoke regarding a NACo housing discussion that Mr. Carballa and she participated in and a grant.

- She spoke regarding that she needed answers on SWFWMD, Starkey Ranch, and The Preserve.

- She spoke regarding something floating in the water behind her house in Gulf Harbors.

  Discussion was held regarding who was responsible; that it was a hazard in navigation; the location; and that pylons and channel markers were missing.

- Later in the meeting, she spoke regarding that she was not going to be at the next Board meeting.

- She spoke regarding the County Commission's first Food Distribution at Mile Stretch.

  Discussion was held regarding appreciation to those involved and who had helped; that there was a contractor that handled water debris; the Harbors South Leadership meeting; contacting the Solid Waste Department; and debris clean up.

- She spoke regarding citizens in Holiday that stated their water smelled.

  Discussion was held regarding appreciation to Staff; the pickup that went on; FEMA; and local businesses.

- She spoke regarding that the Legislative Conference was at the end of February and people in the White House.

  Discussion was held regarding whether they could extend their stay; appointments with elected officials; and Attorney General Bondi.

Miscellaneous Business - District Four - Commissioner Yeager

- Commissioner Yeager gave an update on the Human Trafficking Board and spoke regarding the Strategic Plan, budgeting, and TV ads.

- She spoke regarding recent alterations in the Florida Statute regarding towing, vehicles, and vessels, and Resolution 22-188.

  COMMISSIONER YEAGER MOVED approval to have the County Attorney look at the Ordinance for the towing; **COMMISSIONER MARIANO SECONDED.**

  Discussion was held regarding towing companies; General Fund liability; and the Sea Ranch Walmart parking lot.

  Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

- She displayed pictures and spoke regarding that she had spoken at the USF REACH Program.

- She displayed pictures spoke regarding a veteran who worked for free to get shelter, Pasco Proud, and that she partnered with firefighter charities.

Miscellaneous Business - District Five - Commissioner Mariano

- Commissioner Mariano gave an update on Tampa Bay Water and spoke regarding the Water Awards, a presentation done with the Tampa Bay Butterfly Foundation, the tree mitigation fund, and sponsorship funding while the flyer was displayed.

- He spoke regarding the homeless population and Brazilian Peppers.

  Discussion was held regarding Cogan grass and Brazilian Peppers.

  COMMISSIONER MARIANO MOVED approval to have Staff bring back something about a Brazilian Pepper Ordinances that they could look to implement; **COMMISSIONER YEAGER SECONDED.**

  Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

  Discussion followed regarding clarification of the motion.

- He spoke regarding the company that took over NiFlorida, that they were in violation of the Florida Administrative Code Rules and its Tariff, the violations, and sewer and water.

Miscellaneous Business - County Administrator

- Mr. Carballa spoke regarding his appreciation to the Board, strategic plan, and the budget.

- He spoke regarding an auditing agreement and engagement letters.

  COMMISSIONER MARIANO MOVED approval to delegate authority to the County Administration to sign these and all future engagement letters under the agreement with CRI dated September 20, 2022; **COMMISSIONER YEAGER SECONDED.**

  Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

- He spoke regarding Agenda Item C3 which had been withdrawn earlier in the meeting, that the reason it had been withdrawn was due to a budget amendment not being in place, and a request to make the award once the mechanics of the budget amendment was finalized and for him to sign the agreement and they could move forward with it.

Mr. J.J. Murphy, Assistant County Administrator for Public Safety, spoke during the discussion.

COMMISSIONER WEIGHTMAN MOVED approval to make that award once the mechanics of the budget amendment was finalized and have the County Administrator sign the agreement so they could move forward.

Discussion was held regarding specialty contracts; GO Bonds; and a meeting that was held.

The motion was withdrawn.

Miscellaneous Business - County Attorney

- Mr. Steinsnyder spoke regarding the Statute on holding bond referenda and the elections.

  Discussion was held regarding the budget chart; the funding; and where they ranked in the State for the number of deputies.

Miscellaneous Business - Clerk and Comptroller

- No items.

Miscellaneous Business - Sheriff

- Absent.

Call To Order

Vice-Chairman Mariano called the meeting to order at 10:01 a.m.

Invocation
Pledge of Allegiance

Mr. Sample gave the Invocation and led the Pledge of Allegiance to the Flag.

Roll Call

Mr. Sample called the roll. All Commissioners were present with the exception of Chairman Starkey who was absent.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Vice-Chairman Mariano reviewed the procedures to be followed and called for public comment.

Ms. Kimberly Barnes spoke regarding flooding and damages caused by Hurricane Milton, issues that began after the Heritage Hills development was built, flooding caused by a pop out drain, assistance that had previously been provided by Commissioner Oakley, calls made to the City of Dade City and SWFWMD, that they were still not in their home, and family history of the property.

Mr. Branford Adumuah, Assistant County Administrator for Public Infrastructure, was directed to speak with her.

Mr. Patrick Knight spoke regarding his home he had built in Hickory Hills, flooding that occurred, the tanker trucks, property erosion, a question on what the County was doing about the flooding in Hickory Hills, that he had been told the FEMA money had stopped, a question on what the County planned to avoid it happening again, a question on what steps were being taken to ensure the construction of Morningside Drive and the new development would not cause more flooding, and flooding that came days later from the Lake Jovita area.

Vice-Chairman Mariano noted they did not comment on public comment but told him that the Team was out there looking at it and were looking for a long term solution. He asked him to speak with Mr. Adumuah and Mr. Jason Mickel, Public Works Director.

Ms. Maureen Gontarek, HOA President for The Estates and Reserve of Beacon Woods, displayed a map and spoke regarding a brief history of their community, disruptions caused by the construction of Beacon Park, that the developer was not using proper construction routes, communication with County Staff and other entities, a cease and desist that had been sent out by the County to the developer, that construction vehicles

were still using their neighborhood, property damage, noise complaints, hazardous conditions, that there had been minimal response from the County, and that the developer had not been held accountable.

Mr. David Allen, Assistant County Administrator for Development Services, and Mr. David Engel, Planning, Development, and Economic Growth Director, were directed to speak with her and the residents.

Vice-Chairman Mariano noted the developer was the worst one he has worked with.

Mr. Victor Lemus spoke regarding continued flooding on the access road to his house, a visit by Commissioner Mariano, that it was a safety hazard and they had been locked out of their property for four months, there was no emergency access, that it was not acceptable, other neighbors that were fighting the same battle, that a short term and long term solution was needed, and asking them to be a part of the solution and not the problem.

COMMISSIONER OAKLEY MOVED approval to receive and file documents submitted by Mr. Tom Frain; **COMMISSIONER WEIGHTMAN SECONDED.**

Vice-Chairman Mariano called on the motion; the vote was unanimous, and the motion carried.

Mr. Tom Frain, representing Betmar Acres Club Incorporated, and Mr. Scott Wachsmuth spoke regarding their concern that the Property Appraiser was charging them non-ad valorum special assessments in violation of Florida Statutes; the documents that were submitted; what former Attorney General Charlie Crist had stated in 2024; that they had been paying for years; discussions with the Property Appraiser's Office and the County Attorney's Office; the City of Gainesville versus the State and the Department of Transportation case rule; that the fees should be spread over the development; their request to be placed on the March Agenda so it could be discussed further; that they did not want to go to litigation; that the corporation should not be charged as a whole; and language from the Florida Statutes.

Vice-Chairman Mariano explained they would get with the County Attorney's Office to review and have them reach back out to set up a meeting.

Mr. Eric Clayton spoke regarding recent and past flooding in 2004 in the Hickory Hills area, visits to the property by Commissioner Oakley and Commissioner Mariano, that if the elevations were fixed, the water would move as it should, not being opposed to growth but that things needed to be fixed before the growth, comments made by former Commissioners, and wanting to see follow through.

Mr. Robert Tucker echoed Mr. Clayton's comments and spoke regarding flooding in 1998, how the water flowed, drainage ditches that had been reconfigured, the 2004 flooding, the elevation changes, pumps that were placed, and culverts.

Ms. Janine Duffy spoke regarding the new President, the citizens of Pasco County looking forward to seeing great things, various changes she hoped to see, doing what the people asked, and making better decisions for the residents.

Ms. Lisa Moretti spoke regarding the recent Planning Commission meeting, the Evans 80 Project, disrespect that was shown to the Members and County Staff by the applicant, discussions with the applicant and issues she encountered, concerns regarding the applicant's behavior at the meeting, and flooding issues in King Lake.

Ms. Donna Dileo spoke regarding flooding in the Ehren Cutoff area, water being pumped into her lake, Lennar pumping after being told to stop, building that was allowed by the Engineers, her family's history on the property, that there were no filters on the pumps and there was now bacteria and pollution in her lake, and that it had never happened like that in the past.

Mr. Jack Tew spoke regarding appreciation for the Board's service, a not-for-profit they had started, wanting to comply with Zoning, that was looking for direction and help finding a property to build a shelter, that he was wanting to give back, and his credentials.

COMMISSIONER WEIGHTMAN MOVED approval to receive and file documents submitted by Mr. Jack Tew; **COMMISSIONER OAKLEY SECONDED.**

Vice-Chairman Mariano called on the motion; the vote was unanimous, and the motion carried.

Ms. Paula Chacon spoke regarding her property, flooding, what was accessible at her home, struggles she had faced trying to access her property, the water was now smelling and there were mosquitos, safety concerns, the lack of emergency access and waste management, and she requested their help.

She was directed to go downstairs to speak with the group that was speaking to those issues.

Vice-Chairman Mariano made a statement to let everyone know that their Team was working actively, that the Commissioners were working together, and that they were working towards the short term and the long term as well.

Resolutions

Commissioners Items - Commissioner Yeager

RS1 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Presenting Fivay High School's Fire Science Program With The Donation Of An E-One Typhoon Fire Pumper As A Token Of Appreciation For The Program's Partnership In Promoting Fire Science Education And Exposure To The Career Path To The Youth Of Pasco County

File Number CAO25-5114
Comm. Dist. All
Recommendation Approve

Mr. Sample read the Resolution into the record.

Dr. Lori Romano, Director of Career, Technical, and Adult Education for Pasco County Schools, Lieutenant Steve Smith, Fivay High School Fire Science Academy Instructor, and Mr. Ryan (a minor), student from Fivay High School, spoke during the discussion.

Chief Ryan Guynn, Fire Rescue, spoke during the discussion.

Discussion was held regarding excitement for presenting the Resolution; personal experiences with the School Board; being advocates of the academies and technical education opportunities for students; appreciation for the donation; appreciation to Fivay High School for everything they did inside and outside the classroom; appreciation to all in the County who made it possible; the continuing relationship between Fire Rescue and Fivay High School; growing in home Pasco County Firefighters; enhancing training capabilities; the success of the Fivay High School Fire Science Academy; learning about the program in Alachua County; appreciation to Fire Chief Guynn and his team's support and dedication; the profound impact it would have on the students' education and future careers; the students who were present; supporting the graduating students; the D shift; that it was for the good for the citizens of Pasco County; that it was a great way to retire a piece of equipment; improvements in Fire Rescue; and a desire to see a program for the students to be almost fully certified by the time they graduated high school.

COMMISSIONER OAKLEY MOVED approval to adopt; **COMMISSIONER YEAGER SECONDED.**

Vice-Chairman Mariano called on the motion; the vote was unanimous, and the motion carried.

Commissioners Items - Commissioner Mariano

RS2 A Resolution By The Board Of County Commissioners Of Pasco County, Florida, Commending The 2024 Star Performer, Star Leader, And Star Team Of The Year
File Number CAO25-5115
Comm. Dist. All
Recommendation Approve

Mr. Sample read the Resolution into the record.

Discussion was held regarding a personal story in Green Key; Pasco County being premier; going through the storms; issues that were continuing to be worked on; appreciation to Staff for their efforts; Employee Appreciation Day; working together as a team; the team stepping up; working in the public service field; representing the citizen's of Pasco County; appreciation to them working for Pasco County; and appreciation for their sacrifice, service, and dedication.

COMMISSIONER OAKLEY MOVED approval to adopt; **COMMISSIONER WEIGHTMAN SECONDED.**

Vice-Chairman Mariano called on the motion; the vote was unanimous, and the motion carried.

Consent

COMMISSIONER OAKLEY MOVED approval of the Consent Agenda with the exception of Agenda Item C15 which was withdrawn; **COMMISSIONER WEIGHTMAN SECONDED.**

Vice-Chairman Mariano called on the motion; the vote was unanimous, and the motion carried.

Public Infrastructure - Transportation Engineering

C15 Change Order No. 6 to Task Order No. EDO21-011 – Florida Design Consultants, Inc. – Withlacoochee State Connector Trail North Design Services – $268,900.00

Comm. Dist. 1
Recommendation Approve

The item was withdrawn.

Regular

Legislative/Administrative - County Administrator

R30 (11:00 A.M. Time Certain) Pasco Economic Development Council Quarterly Update
File Number CA25-5013
Comm. Dist. All
Recommendation Presentation Only

Mr. Bill Cronin, President and CEO of Pasco Economic Development Council, used a PowerPoint presentation to review the Pasco EDC and Penny for Pasco Quarter 4 updates.

Discussion was held regarding capital investments; incubators for food events; new jobs; tangible taxes; State Level efforts; rents on leased buildings; competitiveness; changes over the last few years; industry associations; those who were impacted; that they had a great year; MPUDs in the pipeline; being a Premier County; continued growth; landscaping; keeping the rural atmosphere; the projects; people interested in our County; being one of the few counties that still had land; bragging about our Green Spaces; upcoming opportunities; a container homes company looking to locate in Pasco; suggested areas; the Energy Tech company; and scheduling Net Fest next year not in the same week as Chasco.

The item was for information only.

Updates from Chairman-Appointed Boards and Committees

- There was none.

Miscellaneous Business - District One - Commissioner Oakley

- Commissioner Oakley spoke regarding the AdventHealth Zephyrhills Cath Lab Ribbon Cutting while photographs were displayed.

- He spoke regarding speaking at the First Presbyterian Church in Dade City, an outline in what was going on in east Pasco County, and the flooding issues they have had while photographs were displayed.

- He spoke regarding attending the Governor's Day Luncheon, seeing Senator Wilton Simpson, that Mr. Moffit was named Citizen of the Year in the Tampa Bay Area, and others who were in attendance while photographs were displayed.

- He spoke regarding the recent Pasco County Fire Rescue Graduation, that the D-Shift was on its way and changes in the last few years with their support photographs were displayed.

- He spoke regarding participating in Employee Appreciation Day while while photographs were being displayed.

Miscellaneous Business - District Two - Commissioner Weightman

- Commissioner Weightman spoke regarding Employee Appreciation Day.

- He spoke regarding Pasco County hosting the 2026 Dixie Softball World Series at Starkey Park from July 17th through the 22nd, the teams that would be visiting, and the growth of softball.

- He spoke regarding another Live Local Act application that had been received for an existing luxury apartment complex which was a Canadian based company, that they were waiting to see what they said up in Tallahassee, and unintended consequences.

  Mr. David Goldstein, Chief Assistant County Attorney, and Mr. Ralph Lair, Intergovernmental Affairs Officer, spoke during the discussion.

  Discussion was held regarding Land Use decisions and the flexibility they had; the differences between the Comprehensive Plan and Quasi-Judicial; a suggestion to put a hard stop on apartments in Land Use decisions; saying no to Live Local; existing complexes; continuing to opt out every year; issues that were faced the first year; the complex Commissioner Weightman was referencing; an item that would be coming on the next Agenda; that new Land Use approvals with multi-family entitlements were made to waive the right to seek the tax exemption; vulnerability concerns after twelve to twenty-four months; keeping up inventory to maintain surplus; proposed House Bill 409 Adaptive Reuse of Land; the lobbyists that were hired; wanting to set up a meeting in the Governor's Office; the importance of Bed Taxes; that a Senator had made the statement in an article to revisit the Live Local Bill since there had been so much negativity from Local Governments; whether there would be a chance for a permanent opt-out provision; other Local Governments that were following Pasco County; what was hoping to be addressed moving forward; being forced to build rental stock; homeownership; that Live Local missed the mark; there was a deficit of owner occupied affordable housing; recent multi-family that had been approved; that there was a deficit in the lower income apartments; the trend of luxury apartments with out of state owners applying for the exemption; that a suggested project would be brought up later in the day; current conditions for approvals; the three projects that had previously applied; and that current new builds were not restricted on prices.

Miscellaneous Business – District Three – Commissioner Starkey

- Absent.

Miscellaneous Business - District Four - Commissioner Yeager

- Commissioner Yeager spoke regarding reading to the students at the Early Learning Coalition while photographs were displayed.

- She spoke regarding being invited to the African American Club of Pasco while a photograph was displayed. She noted they were trying to do great things with the youth and trying to get a historical marker for a house.

- She spoke regarding attending the Pasco County Fire Rescue Graduation while a photograph was displayed. She noted there were eighteen graduates.

- She spoke regarding attending the Ribbon Cutting for the Fifth-Third Bank in Lutz while a photograph was displayed. She noted they gave a check to AmSkills for $10,000.00.

- She spoke regarding Team Appreciation Day while photographs were displayed. She expressed how grateful she was for County Staff.

Miscellaneous Business - District Five - Commissioner Mariano

- Vice-Chairman Mariano spoke regarding public comment from earlier in the meeting pertaining to Beacon Park, that the development initially was supposed to access Buffalo Drive but at another hearing it was changed to the Agua Clara Drive, advantage that had been taken of the public roads, a past decision made by Staff to allow flexibility to do certain things, his desire to undo the flexibility from Staff because they over ruled the Public Hearing, wanting to bring the Ordinance back to them so they can reverse it and give the power back to the Commission, and that he did not want it to happen again.

  Mr. David Allen, Assistant County Administrator for Development Services, and Mr. David Engel, Planning, Development, and Economic Growth Director, spoke during the discussion.

  Discussion was held regarding wanting to find out why it happened that way and the reasons; when there was a Development Review Committee; the past Site Plan approval process with Public Hearings; the rationale for the change; that the issue discussed was not with the Site Plan but rather the access; whether or not deviations from the Site Plan should be approved administratively or not which was up to the Board; the current approval levels and processes; another issue

that occurred in the particular project which was the construction haul route was tied to moving dirt on and off the site through an excavation permit that they then chose not to use; that County Staff did not stop them from using the roads because there was no Condition that was legally enforceable to do so; that the developer was Southern Impressions; the challenges; the nature of the area; difficulties with the request; the volume of work that was processed; working around the deviations; the past documents; a past haul route Condition and asking how it disappeared; whether there were red-lines; that the property owner had changed; the legal opinion that the Site Plan issued by Staff superseded the 2006 approval; approval revisions; the two different Staff approvals; how they could change the rule; the conditions of the roads and concerns with the life of the road that had been eroded away; a hope that the developer would hear the public's uproar and be a good partner to help clean it up; a meeting with the Officers of Beacon Park Homeowners Association to discuss the situation with them; doing research; that Compliance had been engaged; discretionary deviations from Board Policy; the recent reconsolidation of Current Planning and Planning and Development Departments; measures that were in place to ensure it did not happen again; a SOP that was being developed requiring supervisory approval of all the plans and permitting before they were executed; the planning check that was instituted at the Current Planning Division; how the decision would have been handled today; issues neighbors had encountered with the contractors; photographs that were displayed from the neighborhood; sinkholes and wetlands in the area and settling that was occurring; wanting to have it brought back to be looked at; infill projects; thoughtful design; having teammates looking at holistic pictures; and appreciation for the conversation.

- He spoke regarding Crela Estates, changes to the development, land that had been raised up, where the water was going to go, berms, the lack of buffering, and that it was poorly designed for the people while photographs were displayed.

  Discussion was held regarding issues found with infill; land being raised up; needing to watch how things were built; City Annexations; and it needed to be better.

- He spoke regarding joining the VFW Auxiliary with his Dad and others while photographs were displayed.

- He spoke regarding someone he would be doing a Resolution for at the next meeting at 1:30 p.m. who was 100 years old and a World War II Veteran while photographs were displayed.

- He spoke regarding visiting the Eagles, a gentleman with a shirt that said, "Been Through Helene and Back" and a gender reveal while photographs were displayed.

- He spoke regarding a visit to Saint Leo University, people who were in attendance, the nursing school, and the robots while photographs were displayed.

- He spoke regarding the Regional Planning Council he attended and apologized for missing the Employee Appreciation Day. He noted the upcoming Resiliency Summit, the Agenda he saw and had sent a copy to the Board, items he wanted them to look at, the panels they had and should have, and those who should be in attendance.

  Discussion was held regarding the Agenda and the phenomenal work of Mr. Kevin Guthrie, Executive Director for the Florida Division of Emergency Management.

Miscellaneous Business - County Administrator

- Mr. Carballa spoke regarding Team Appreciation Day. He expressed his appreciation to everyone who came out to support their team members.

- He spoke regarding public comment earlier in the meeting pertaining to flooding and reminded the Board they would have a workshop on February 18th where the subject would be stormwater and flooding.

- He spoke regarding celebrating International Trade and Tourism Day on February 20th at 4:30 p.m. at the Starkey Market in Trinity. He noted it was a great opportunity for tourism and trade partners to come together, that it would be $15.00 per person, that it was a great cause and event, and that some of the money raised would help fund the exchange programs.

  Discussion was held regarding the New Port Richey Rotary being a player and donations to keep the program going.

Miscellaneous Business - County Attorney

- Mr. Steinsnyder spoke regarding the need for an appointment to the Canvassing Board and that his understanding was that Commissioner Weightman had agreed to do it. He explained he needed a letter signed by the Chairman that appoints Commissioner Weightman as the Board's Canvassing Board Representative and Mr. Greg Giordano as the alternate.

  Discussion was held regarding for which year it was for; that it would only be for the Municipal elections; and certification classes.

COMMISSIONER OAKLEY MOVED approval to sign a letter appointing Commissioner Weightman as the Board's Canvassing Board Representative and Mr. Greg Giordano as the alternate; **COMMISSIONER YEAGER SECONDED.**

Vice-Chairman Mariano called on the motion; the vote was unanimous, and the motion carried.

- He spoke regarding public comment from earlier in the meeting pertaining to Betmar Acres. He explained that it was not a tax issue it was a Stormwater Utility Assessment that Betmar was experiencing on their golf course, that they dealt with the lawyers about five years ago and thought it had been resolved, that their position was still that the park owed the assessment because it was a Chapter 403 Stormwater Utility and not a tax, and he was unsure if there was anything they could resolve with them.

  Discussion was held regarding golf courses and water planning; why they were being charged for a Stormwater Utility if they were part of the solution for stormwater; that it was something that could be reviewed with the Public Infrastructure Branch to see if it was an exemption they should think about; some of the issues; members who did not want to pay it; and that they were not allowed to raise their fees for the course.

Miscellaneous Business - Clerk and Comptroller

- No items.

Miscellaneous Business - Sheriff

- Absent.

THE BOARD RECESSED AT 12:01 P.M. AND RECONVENED AT 1:31 P.M. ALL COMMISSIONERS WERE PRESENT. COMMISSIONER YEAGER ARRIVED TO THE MEETING AT 1:32 P.M.

Call To Order

Chairman Starkey called the meeting to order at 10:02 a.m.

Invocation
Pledge of Allegiance

Mr. Sample gave the Invocation and led the Pledge of Allegiance to the Flag.

Roll Call

Mr. Sample called the roll. All Commissioners were present with the exception of Commissioner Mariano who was absent from the morning session.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Chairman Starkey reviewed the procedures to be followed and called for Public Comment.

Mr. Jerry Smithson, Mr. George Anderson, Vice-President of Central Pasco Gulf Railroad, Mr. Darryl Henderson, Advocacy Director for Recovery Epicenter Foundation, and Ms. Brenda Broderick spoke regarding the railroad; the amount of riders; a proposed contract; service fees; that it was a free service; the distributed handout; someone who was an engineer on the railroad; the age of riders; where the railroad took you through the park; the mission at the Recovery Epicenter Foundation; what they practiced; a respite house in Clearwater; what a respite house was; a respite house that just opened in New Port Richey; that they were in the process of purchasing a van; a grand opening on April 4th; an unincorporated area; the need for progress in a revitalization project; Jasmine Lakes; water pollution in the pond; that it was a retention pond; the types of animals in the pond; the embankments that were collapsing; the fountain; the HOA maintenance agreement; and aeration.

Ms. Cathy Pearson, Assistant County Administrator for Public Servies, spoke during the discussion.

Discussion was held regarding that they were still working on the contract and that they would brief them when it came back.

COMMISSIONER OAKLEY MOVED approval to receive and file documents submitted by Mr. Jerry Smithson; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Starkey called on the motion; the motion carried with Commissioner Mariano absent from the vote.

COMMISSIONER WEIGHTMAN MOVED approval to receive and file documents submitted by Mr. Darryl Henderson; **COMMISSIONER OAKLEY SECONDED**.

Chairman Starkey called on the motion; the motion carried with Commissioner Mariano absent from the vote.

File Number PDE25-CU05
Comm. Dist. 5
Recommendation Approval with Conditions

Mr. Sample noted the proof of publication.

Mr. Nectarios Pittos, Director of Planning Services, used a PowerPoint presentation to review the item and spoke regarding the ex parte forms for all Commissioners that had been submitted and that there was an update to the maximum building height proposed.

Mr. Robert Carlo, HOA President of Deerfield Lakes, Ms. Jessica Konoff, and Pastor Jen Kerouac spoke regarding the growth in the area; concerns with the flow of traffic; the Vision Road project; the height requirement; concerns with the increase in people; what would be built first; history of the community; the infrastructure; Angeline and a 55 over community; wetlands; transportation; Quail Ridge and the Affidavit of posting; the traffic that would increase on Shady Hills Road; an email that was submitted; and the signage.

Ms. Barbara Wilhite, for the applicant, spoke regarding the condition, the Vision Road, the Comp Plan and alignment, connectivity, turn lanes and access management, and read the Condition into the record which stated that prior to final building inspection for the certificate of occupancy for the first residential building within the project, the project shall be required to convey a public access easement over and across an internal access way to ensure automobile traffic, bicycles, and pedestrians can access and utilize the internal access way within the project to and from Shady Hills Road and to and from Deerbrook Boulevard and the project shall not be gated.

Mr. Nick Uhren, County Engineer, Mr. David Goldstein, Chief Assistant County Attorney, and Mr. Steve Henry, Links and Associates, spoke during the discussion.

Discussion was held regarding the suggested changes; the additional height; the road construction; the Vision Road; costs; connectivity; the aerial view; Shady Hills Road; the status of the road; the connector road; whether they would see the site plan and open space requirements; the 8-foot sidewalk on Shady Hills; that the buildings would not front Shady Hills; the traffic; what the property was zoned; Angeline; the vision road map; project Arthur; the amount of units; a connectivity ordinance; a public access easement; parking and free flow of traffic; sidewalks; bike/ped interconnectivity; turn lanes; that it could not be gated; the right-of-way the County would receive; issues on 41; when Shady Hills Road would be widened; mobility fee credits; the minimum width of facilities suitable for travel; the road configuration in Deerbrook; an added condition; the interconnector roadway; parking; and clarification of the motion.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation with the extra height to four stories and with the condition listed by Ms. Wilhite.

Commissioner Mariano withdrew his motion.

COMMISSIONER YEAGER MOVED approval to continue for 30 days.

The motion died due to a lack of a second.

COMMISSIONER MARIANO MOVED approval of Staff's recommendation with the stated access with a final approval of the County Engineer with his professional opinion and no other consideration, allowing the extra height to four stories, 360 unit max, allowing for on Shady Hills Road a left turn in and a right turn lane decel lane coming in on Shady Hills Road and the condition as read by Ms. Wilhite; **COMMISSIONER OAKLEY SECONDED.**

Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

P38 Zoning Amendment - Substantial Modification (Consent) - Pristine Lake Preserve MPUD - Walker Development Company - A Rezoning Request to Substantially Modify the Pristine Lake Preserve MPUD to Amend the Pristine Lake Preserve MPUD Uses and to Allow for the Development of a 7,500 Square-Foot Office Building

File Number PDE25-7799

County Commissioners	Honorable Kathryn Starkey, Chairman, District 3 Honorable Jack Mariano, Vice Chairman, District 5 Honorable Seth Weightman, Second Vice-Chairman, District 2 Honorable Ronald E. Oakley, Chairman, District 1 Honorable Lisa Yeager, District 4
Clerk & Comptroller	Honorable Nikki Alvarez-Sowles, Esq. **Rep. by Mr. Harold Sample, Deputy Clerk**
County Administrator	Mike Carballa, P.E.
County Attorney	Jeffrey N. Steinsnyder, Esq.

Call To Order

Chairman Starkey called the meeting to order at 10:00 a.m.

Invocation
Pledge of Allegiance

Mr. Sample gave the Invocation and led the Pledge of Allegiance to the Flag.

Roll Call

Mr. Sample called the roll. All Commissioners were present.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Chairman Starkey reviewed the procedures to be followed and called for public comment.

Mr. Scott Galvin and Ms. Charlotte Payan-Salcedo spoke regarding the ADUs laws being considered by the Commission; specific language; a request for clarification; mobile homes; permanent fixed foundations; traffic on Orangewood Drive; clarifying the record of Orangewood Drive; Code Enforcement; county records; a business in the neighborhood; concerns with the dangers; and rezoning the business.

Discussion was held regarding comments meant for an item in the afternoon and Staff that could meet with people.

Updates from Chairman-Appointed Boards and Committees

The updates were provided under Miscellaneous Business.

Miscellaneous Business - District One - Commissioner Oakley

- Commissioner Oakley spoke regarding his request to appoint Dr. Christian Sobky to the Emergency Medical Services Advisory Board

  COMMISSIONER OAKLEY MOVED approval to appoint Dr. Christian Sobky to the Emergency Medical Services Advisory Board; **COMMISSIONER WEIGHTMAN SECONDED.**

  Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

Miscellaneous Business - District Two - Commissioner Weightman

- Commissioner Weightman displayed pictures and spoke regarding his appreciation to Mr. John Tillman, Certified Services, for his and his team's efforts during the Great American Clean-up and Keep Pasco Beautiful and the amount of trash that had been cleaned up.

- He displayed pictures and spoke regarding the Pasco County Commission on Human Trafficking, the campaign they were working on for the year, sexting and sextortion, working with the Tax Collector's Office, and the groundbreaking on Bridging Freedom at Generations Church in Trinity.

  Ms. Jeanie Germain, representative for the Rotary Club of Dade City, spoke regarding a conference held in 2020, that it was a subject the public needed to hear, a panel that had been put together that included a survivor, stories they had heard, raising awareness, other Rotary Clubs that participated to raise funds, the groundbreaking of two homes, and that Florida was the number one target.

  Discussion was held regarding that the shovels were painted by children that had survived; lodging; women who attended AmSkills; the collaborative effort by everyone; and those who had been trained in the Attorney General's program.

- He spoke regarding the recent Springs Coast meeting and projects sent to the governing board district.

- He spoke regarding a request for an update on the Live Local Bill.

Mr. David Goldstein, Chief Assistant County Attorney, and Mr. Ralph Lair, Intergovernmental Affairs Office, spoke during the discussion.

Discussion was held regarding the pending Bills; preemptions; deed restrictions; attorney's fees; the ones who were sponsoring the Bills; that everything they tried to use to fight Live Local was being attacked; language that had changed from the prior legislation; the apartment industry; the lobbyists; the next steps; those who were going up the following week; the Pasco Day that had been scheduled; wanting to schedule appointments; feedback that had been given on other Bills; that it was early in the session; the current form; and concerns with passing zonings.

Miscellaneous Business - District Three - Commissioner Starkey

- Chairman Starkey displayed pictures and spoke regarding the BayCare Behavioral Health Urgent Care, discussions at the Tri-County Meeting pertaining the opioid monies, conversations with other Commissioners from those counties, and that it should be submitted for a NACo (National Association of Counties) award.

  Discussion was held regarding the building and how it was designed.

- She displayed pictures and spoke regarding the NACo (National Association of Counties) Legislative Conference, those who attended, their legislative delegation, those they met, their asks, and the tariffs.

- She displayed pictures and spoke regarding a tour of Fire Station 17.

- She spoke regarding the recent Cultural Affairs Advisory meeting at the Starkey Cultural Center, their ideas, an upcoming tour of the new museum at Wendall Krinn, and the technical school.

- She spoke regarding a Coastal truck she was following on the Suncoast that had garbage coming out of it.

  Discussion was held regarding whether it was one of their trucks; that it was a new vendor; and the trash.

- She spoke regarding whether they had received the grant for septic to sewer for Riverside Village.

  Discussion was held regarding a FDEP Springs Coast presentation on nitrates; how other committees handled their programs; proactive steps; those who were working on it; and that it was a regional effort.

- She displayed pictures and spoke regarding House Bill 481, Anclote River Park, mooring balls, the boat ramps, and wanting to support the Bill.

  Mr. Ralph Lair, Intergovernmental Affairs Officer, spoke during the discussion.

  Discussion was held regarding language in the Bill; that it was only dealing with Miami-Dade and Biscayne Bay; wanting to be included and how they could do it; public mooring balls; where there was an issue; getting with the County Attorney; the desire for a rule that would make it so they couldn't stay for more than two or three days; why mooring fields are created; and DEP permitting.

- She spoke regarding the Google Earth display, cars that were parked along Colony Road, and that Code Enforcement was needed.

- She spoke regarding her recent tour of Angeline, concerns she had with their trails, that she had better hope, that she was going to try and make it better, and their farm.

- She spoke regarding needing coding parcels on the Property Appraiser's website.

Miscellaneous Business - District Four - Commissioner Yeager

- Commissioner Yeager spoke regarding the recent Transportation Disadvantaged Local Coordinating Board meeting, membership changes, updates that were presented, the Board's recommendation to include more messaging and outreach, and the GoPasco updates.

- She displayed pictures and spoke regarding the Elfers Senior Center Ribbon Cutting.

- She displayed pictures and spoke regarding the BayCare Behavioral Health Urgent Care.

- She displayed pictures and spoke regarding the Random Acts of Love they did in February, foster families, and a visit to Pasco Hope.

- She displayed pictures and spoke regarding a charity event where she came in 3rd place.

- She displayed pictures and spoke regarding the opening session in Tallahassee, a ladies lunch she attended, and that they discussed Hope Florida.

Miscellaneous Business - District Five - Commissioner Mariano

- Commissioner Mariano displayed pictures and spoke regarding his recent trip to Washington, D.C.

- He displayed pictures and spoke regarding a recent charity event he attended.

- He displayed pictures and spoke regarding the recent RESTORE Act Council, a living shoreline project presentation, that he and his team were looking into how it was done, and canal restoration.

- He displayed pictures and spoke regarding the BayCare event.

- He displayed pictures and spoke regarding the NACE (National Association of County Engineers) Conference and discussions with Staff about joining NACE.

- He displayed pictures and spoke regarding the USDOT (US Department of Transportation) those who were present, the difference in attending Washington, D.C. compared to the past, those who were receptive about what they were talking about, spray jet paving, a study being done, the Steps to Recovery Program for the Veterans, an extension, a special board meeting, Congressman Bilirakis, FEMA, and trash pickup after hurricanes.

- He displayed pictures and spoke regarding SunWest Park, around the second lake, and that it was raised and protected,.

  Discussion was held regarding the location; that high school races could be held there; Scallop Fest from the previous year; that they were set up to open on April 12th; the ribbon cutting; and what they would be able to do out there.

- He displayed a video and spoke regarding debris in the canal from the hurricane and from people throwing it in.

  Ms. Coleen Weaver, Legislative Assistant to Commissioner Mariano, spoke during the discussion.

  Discussion was held regarding a trailer that had a pipe going into the canal; that Staff was working on it; water quality concerns; being so far ahead; current debris clean up; and that it took over a year to clean up after Hurricane Ian.

- He displayed pictures and spoke regarding the Presidential Investiture at Pasco Hernando State College (PHSC), an annual report, and those who were in attendance.

- He displayed pictures and spoke regarding the SunWest Crab and Shrimp Festival, the bands, conversations with the vendors, and that people had a great time.

- He displayed pictures and a video and spoke regarding the intersection at Colony Road and Foxfire Drive, the Colony Road project, connections, the lack of drainage, the lack of sidewalks, State Road 52, recent improvements, that it was being made a Vision Road, a turn lane that didn't happen, land that was there, and looking at the long term plan.

  Discussion was held regarding the road; the fencing; the drainage; a sidewalk in the area; culverts; and a request for Staff to look at it.

- Later in the meeting, he spoke regarding consulting firms, someone trying to get exemptions to use CDBG funds for the emergency center, Magnolia Valley and other projects, and a potential extension letter.

  Discussion was held regarding that an extension was already being contemplated and the timeline.

Miscellaneous Business - County Administrator

- Mr. Carballa spoke regarding the recent trip to Washington, D.C., establishing relationships, the next steps, and improving their approach.

Miscellaneous Business - County Attorney

- No items.

Call To Order

Chairman Starkey called the meeting to order at 10:02 a.m.

Invocation
Pledge of Allegiance

Ms. Alvarez-Sowles gave the Invocation and led the Pledge of Allegiance to the Flag.

Roll Call

Ms. Alvarez-Sowles called the roll. All Commissioners were present.

Public Comment

Citizens are given an opportunity to comment on items listed on the Agenda by participating via WebEx during the meeting or attending in person. A WebEx pre-registration process can be found on the Public Comment Options page and must be completed to participate. Citizens may also comment on items listed on the Agenda in person inside the Board Room. The Board will take Public Comment on items on this agenda. It is requested that when you address the Board, that comments are not directed personally against a commissioner or team member, but rather directed at the issues. This provides mutual respect between the board members and the public.

Chairman Starkey reviewed the procedures to be followed and called for public comment.

Pastor Troy Pederson, Ms. Valerie LaFrance, Ms. Keyla Nunez, Mr. Ryck Morales with the Small Business Administration (SBA) Office of Disaster Assistance, and Ms. Tanya Riddlesworth spoke regarding an upcoming community event in Waterfront Park on April 19th; concerns of books with certain types of materials being allowed in Public Libraries; a visit to Tallahassee; the Governor of Florida's efforts; Library Card Policies; the Protect our Children Project; discussions with Library and County Staff members; God's Law; disaster assistance updates, upcoming deadlines, and contact information; concerns with Connected City and the upcoming presentation; concerns with encroachment and the Community Hub Zone; the Land Development Code; and permitted uses.

COMMISSIONER OAKLEY MOVED approval to receive and file documents submitted by Ms. Valerie LaFrance; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

COMMISSIONER MARIANO MOVED approval to receive and file documents submitted by Mr. Ryck Morales; **COMMISSIONER OAKLEY SECONDED.**

Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

Discussion was held regarding the Mobility Fee Update Study; Vision Map; building roads; the influx of apartments; whether enough mobility fees had been collected; Live Local impacts; reductions for certain land uses; park requirements; a proposed Senate Bill; parking requirements; people who were being towed; traffic; tax rolls; opting out of Live Local; and another proposed Bill.

The item was for information only.

Updates from Chairman-Appointed Boards and Committees

The updates were provided under Miscellaneous Business.

Miscellaneous Business - District One - Commissioner Oakley

- Commissioner Oakley displayed pictures and spoke regarding the Tampa Bay Evening Reception at the Capitol, people they were able to meet, feeling better about their attendance in Tallahassee, and that everyone seemed to be on board with them.

- He displayed pictures and spoke regarding the Pasco County Senior Services Annual Senior-Volunteer Appreciation Luncheon.

- He displayed pictures and spoke regarding the Graduation Ceremony for the Fire Rescue Class of 25-03, an influx of new candidates, changes with the D-Shift,

and a recent story of EMS workers who responded to a gentleman with a heart attack while mowing his lawn and they returned later to finish mowing the lawn.

Miscellaneous Business - District Two - Commissioner Weightman

- Commissioner Weightman displayed a picture and spoke regarding the Pasco-Hernando State College Bobcats Baseball Team's rankings.

- He displayed pictures and spoke regarding the Johns Hopkins Hospital groundbreaking, the size of the site, intersections in the area, and the community.

- He displayed a picture and spoke regarding congratulations to BayCare on Bruce B. Downs being recognized by the Times as one of the best places to work, competition, finding talent, and bringing people to Pasco County.

Miscellaneous Business - District Three - Commissioner Starkey

- Chairman Starkey displayed pictures and spoke regarding being honored by the Girl Scouts of West Central Florida with the Women of Distinction Luncheon.

- She displayed pictures and spoke regarding attending FAC in Tallahassee.

- She displayed pictures and spoke regarding her Staff attending the Fire Station 3 Ribbon Cutting.

- She displayed a video and spoke regarding the Sports and Events Europe meeting she attended with Tourism and a Brazilian group that would be visiting soon.

- She displayed pictures and spoke regarding the Texas Roadhouse on 54 in front of Starkey Ranch opening.

- She displayed pictures and spoke regarding the ULI of Pasco Tour.

- She displayed pictures and spoke regarding the Citizens Academy welcome.

- She spoke regarding attending Net Fest.

- She displayed pictures and spoke regarding the Pasco County Fire Rescue Graduation.

- She displayed pictures and spoke regarding the Xgenex Ribbon Cutting and upcoming the AmSkills Boot Camp Graduation.

- She spoke regarding the glass drop recycling pilot program which had been implemented by the Solid Waste team on April 1st.

  Discussion was held regarding the program; why it was created; costs; the drop off sites; commodities; "wish-cycling"; and contaminations.

- She spoke regarding the Tree Mitigation Fund, the desire to add not-for-profit organizations to receive trees, past discussions, and the intent.

  Mr. David Engel, Planning, Development, and Economic Growth Director, spoke during the discussion.

  Discussion was held regarding costs involved; being close on something to go through the process; that it would be coming back to the Board; the Parks Department; expedition of the fee increases; broadening the use of funds; public parks; and specific buildings.

- She spoke regarding the Fence Ordinance, vacant commercial properties, temporarily securing with chain-link fencing, and a Walmart with vinyl fencing and issues they had faced.

- She spoke regarding her interest in a Public Safety Impact Fee, discussions with the Sheriff, that the Penny for Pasco was not covering the cost of needs.

  Discussion was held regarding the Board's direction; discussions with the TBBA (Tampa Bay Builder's Association); looking at increasing one impact fee per year; the different impact fees; the Fire Rescue Impact Fee; that studies would take about six months; what could be included in the study; the need for an overarching look at impact fees; bringing forth a Workshop item; the lack of utilities on State Road 52; and working with developers.

Miscellaneous Business - District Four - Commissioner Yeager

- Commissioner Yeager displayed pictures and spoke regarding Hope Services, skills they taught, tutoring support, an Ikea donation, and products that were free to the community.

- She displayed pictures and spoke regarding One More Child and a partnership with Grace's Food Pantry.

- She displayed pictures and spoke regarding her Pop-Up Pantry that fed 297 people and that the next one would be tomorrow.

- She displayed pictures and spoke regarding the Grand Opening at a McDonald's, a donation to her charity of choice which was Grace's Food Pantry, and a program for employees to get rides to work.

- She displayed pictures and spoke regarding the Xgenex Labs Ribbon Cutting and food safety.

- She displayed pictures and spoke regarding the Ground Breaking for the new Fire Station.

- She spoke regarding Sheriff Nocco meeting with everyone to give them a presentation, being moved by the issues with the helicopters, the opportunity for them to purchase two used helicopters, and the desire for them to have the helicopters for many reasons.

  Chief Chase Daniels, Undersheriff of Community Outreach Operations for the Sheriff's Office, spoke during the discussion.

  Discussion was held regarding the previous presentations by the Sheriff's Office; the current number of helicopters and how they were utilized; the Sheriff's Budget; what was requested; offsetting costs with revenue collected from the salvaged value of the helicopters; downsizing to only two helicopters; drone programs; rescue efforts; language for the motion; and recent emergency landings.

  COMMISSIONER YEAGER MOVED approval to amend the Sheriff's Budget up to $7.5 million for the purchase of two helicopters from Volusia County using available and appropriate funding sources; **COMMISSIONER OAKLEY SECONDED.**

  Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

- Later in the meeting, she spoke regarding her desire to allow boat trailers to be parked in the driveway.

  Discussion was held regarding HOA restrictions; the Land Development Code; parking issues; where boat trailers were allowed to be parked; and that they would want it to be brought back before the Commission.

Miscellaneous Business - District Five - Commissioner Mariano

- Commissioner Mariano displayed pictures and spoke regarding Chasco Fiesta Parade.

- He spoke regarding the upcoming Ribbon Cutting for the new trail at Sunwest Park on April 12th at 10:00 a.m. with the first 5K run, anticipation for additional runs with non-profits and schools, and wanting to work with Florida Sports Coast to put supplies out there for the runs.

  Later in the meeting, pictures were displayed.

- He spoke regarding the upcoming Scallop Fest, businesses and local bands that would be participating, and that it would be more family friendly.

- He spoke regarding recent ribbon cuttings and groundbreakings he had missed due to driving to meet with Fish and Wildlife to talk about the Aquatic Preserve.

Miscellaneous Business - County Administrator

- Mr. Carballa spoke regarding a letter to be submitted to the State Department of Government Efficiency that would be signed by the Chairman.

- Mr. Ralph Lair, Intergovernmental Affairs Officer, spoke regarding Federal appropriation requests, the 2025 Federal Budget, that earmarks were not allowed, projects that had been in play with Congressman Bilirakis and Congresswoman Lee, the door opening for projects for 2026, that they had been recommended by Congressman Bilirakis to resubmit some projects they had exactly as they were, new projects that were submitted to Congresswoman Lee's Office, and that each congressperson was only allowed 15 projects.

  Discussion was held regarding the Area Agency on Aging location for supportive senior housing; Hudson Industrial Park; and why they were not submitting new projects in Congressman Bilirakis' District.

  COMMISSIONER YEAGER MOVED approval to submit the projects by Friday to the Offices as they move forward for 2026 budget process with Congress; **COMMISSIONER WEIGHTMAN SECONDED.**

  Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

- Mr. Carballa spoke regarding the distributed memorandum referencing Invocations at the Board of County Commission meetings, and the suggestions for consideration.

  Discussion was held regarding the documents distributed; the suggestions for consideration; what other jurisdictions did; a case from Brevard County in 2019; suggested prayers to use; the need to refresh what was being said; potentially rotating County chaplains; potentially having the Commissioners themselves do

it; time limits; the need for a non-denominational message; and maintaining boundaries.

COMMISSIONER YEAGER MOVED approval to have a Public Safety Chaplain do the prayer and if for some reason they could not make it that they would use Commissioner Starkey's prayer effective April 22nd; **COMMISSIONER WEIGHTMAN SECONDED.**

Chairman Starkey called on the motion; the vote was unanimous, and the motion carried.

Miscellaneous Business - County Attorney

- Mr. Steinsnyder spoke regarding the Public Comment section on the Agenda and his concerns.

Discussion was held regarding Public Comment and the concerns.

Miscellaneous Business - Clerk and Comptroller

- Ms. Alvarez-Sowles spoke regarding an update on Operation Greenlight which ran from March 27th through April 3rd which impacted over 921 individuals.

Miscellaneous Business – Sheriff

- Absent.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** PDE26-0145 **DATE:** 1/20/2026

SUBJECT: Food Policy Advisory Council Membership: New Appointments, Reappointments – No Funding Required

REFERENCES: Resolution No. 21-185

AGENDA SECTION: Consent Agenda

THRU: David Allen, Assistant County Administrator

FROM: David Engel, Director Planning, Development and Economic Growth

RECOMMENDED BOARD ACTION:

Approve the appointment of new members and reappointment of existing members to the Food Policy Advisory Council for a three-year term.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

The Food Policy Advisory Council (FPAC) was enacted by Resolution No. 21-185 as approved by the Board of County Commissioners. FPAC was created for the purpose of supporting an equitable, resilient, local food system in the County and to facilitate the review of responsible policies that improve the access to culturally appropriate, nutritionally sound and affordable food produced in the County. FPAC provides credible, well-conceived community food policy advice that can dramatically reduce instances of chronic disease and obesity, preserve agricultural lands, promote agricultural uses throughout the County, and assist in the development of new businesses in the food system sector.

Duties of the Food Policy Advisory Council are to:

- Provide collaborative, educated insights on food system elements that touch on economic development, food security efforts, preservation and enhancement of agricultural lands, and environmental concerns through community workshops;
- Support the development and expansion of locally produced foods through venues such as farmers markets and corner stores;
- Review proposed and existing County ordinances that affect the food system and advise the BCC on actions related to supporting the County's food system as appropriate;
- Make recommendations to the BCC concerning County food system elements;
- Gather, synthesize, and share information regarding community food systems within the County and the municipalities; and
- Provide an annual status report on the activities that the FPAC has undertaken in support of its purpose.

FPAC Membership:

FPAC members are appointed to a three-year term with no person serving more than three consecutive terms as a member. FPAC placed a priority on filling member vacancies in 2025. Previous FPAC Chair Dell DeChant resigned from the position in Spring 2025. Nicole Dube was selected to serve as the chair on October 3, 2025. The

current FPAC members recommend the following appointments and reappointments:

New Appointments:

- A farmer that resides and farms in Pasco County: Alicen Morency
- An academic professional specializing in cultural studies and ecology employed by a local university/higher education institution: David Sullivan
- A representative from a not-for-profit organization within the food system sector operating in Pasco County: Erika Leigh
- At-Large Position #2: Tanner Kauffman

Reappointments:

- A health care professional employed by the Florida Department of Health located in Pasco County: Jennifer Parker
- A food/nutrition/agricultural professional that is employed by the District School Board of Pasco County: Tiffany Young
- A representative from a grocer/distributor industry: Nicole Dube
- At-Large Position #1: Dan Mitchell
- A professional employed by the University of Florida Institute of Food/Agriculture Science (IFAS): Shari Bresin

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding is not required for this action.

BY THE BOARD OF COUNTY COMMISSIONERS **RESOLUTION No. 21-185**

A RESOLUTION BY THE PASCO COUNTY BOARD OF COUNTY COMMISSIONERS CONSOLIDATING RESOLUTION NOS. 15-165, 17-231, AND 20-154 AND RE-CONSTITUTING THE PASCO COUNTY FOOD POLICY ADVISORY COUNCIL

WHEREAS, the Pasco County Food Policy Advisory Council (FPAC), established by Resolution No. 15-165 and restructured by Resolution Nos. 17-231 and 20-154, has provided the Pasco County Board of County Commissioners and stakeholders with a forum to encourage the establishment of small businesses; the offering of safe, nutritious, affordable, and locally grown food; the efficient use of land, the preservation and conservation of agriculture; the reduction in food transportation distances; and the promotion of agricultural educational resources for the local population; and

WHEREAS, on March 10, 2021, at the regularly scheduled FPAC meeting, the FPAC voted unanimously to recommend to the Pasco County Board of County Commissioners to restructure the attorney member criteria to expand the pool of valuable skilled legal professionals for potential application to the FPAC attorney member position of the FPAC; and

WHEREAS, on March 10, 2021, at the regularly scheduled FPAC meeting, FPAC voted unanimously to recommend to the Pasco County Board of County Commissioners to extend the term of the FPAC for another six (6) year period to May 19, 2027; and

WHEREAS, the proposed restructuring of the FPAC member attorney criteria and extension of the FPAC term for another six (6) years will provide credible, well-conceived community food policy advice that can dramatically reduce instances of chronic disease and obesity, preserve agricultural lands, promote agricultural uses throughout the County and assist in the development of new business innovation in the food system sector; and

WHEREAS, the Board of County Commissioners desires to consolidate Resolutions Nos. 15-165, 17-231 and 20-154 and to re-constitute the FPAC as described herein.

NOW, THEREFORE, BE IT RESOLVED by the Pasco County Board of County Commissioners, in regular session duly assembled, that Resolution No. 15-165, as amended by Resolution No. 17-231, and as amended by Resolution No. 20-154 be consolidated and amended as follows:

Section 1. Recitals. The above recitals are true and correct and incorporated herein by reference.

Section 2. Purpose of the Food Policy Advisory Council.
The Pasco County Board of County Commissioner (BCC) has established the Food Policy Advisory Committee (FPAC) to support an equitable, resilient, local food system in Pasco County. The FPAC serves at the discretion of the BCC and provides advisement to the BCC by adhering to its mission of facilitating the review of responsible policies that improve the access to culturally appropriate, nutritionally sound and affordable food produced in Pasco County. Since its establishment in 2015, the FPAC has performed consistent with its mission and shall continue to be a resource to the BCC and the residents of Pasco County.

Section 3. Duties of the Food Policy Advisory Council.

The duties of the FPAC are as follows:

Provide collaborative, educated insight on food system elements that touch on economic development, food security efforts, preservation and enhancement of agricultural lands, and environmental concerns through community workshops that:

a) support the development and expansion of locally produced foods through venues such as farmers markets and corner stores;
b) review proposed and existing County ordinances that affect the food system and advise the BCC on a better course of action relative to supporting the County's food system as appropriate;
c) making recommendations to the BCC concerning County food system elements;
d) gather, synthesize, and share information regarding community food systems throughout the County and within the municipalities; and
e) provide an annual status report on the activities that the FPAC has undertaken in support of its Purpose.

Section 4. Composition of the Food Policy Advisory Council and Membership

a) Composition: The FPAC shall be comprised of eleven (11) voting members and one (1) non-voting member appointed by the BCC. The FPAC shall be comprised of:

i. Voting Members:

1. A farmer that resides and farms in Pasco County;
2. A health care professional employed by the Florida Department of Health located in Pasco County;
3. A food/nutrition/agricultural professional that is employed by the District School Board of Pasco County;
4. An academic professional specializing in cultural studies and ecology employed by a local university /higher education institution;
5. A local representative from an established farmers' market;
6. An attorney experienced in food systems, preferably residing and/or practicing in Pasco County or the Tampa Bay region.
7. A representative from a not-for-profit organization within the food system sector operating in Pasco County;
8. A representative from a grocer/distributor industry.
9. A food/nutrition professional that resides in Pasco County and possesses certified nutritionist credentials.
10. At-Large Position #1.
11. At-Large Position #2.

ii. Non-Voting Member:

1. A professional employed by the University of Florida's Institute of Food/Agriculture Science ("IFAS") program working in Pasco County's Cooperative Extension Program.

iii. Alternate Members:

1. Each of the above FPAC voting and non-voting members may have a designated alternate, with voting rights (except the non-voting member) if the seated FPAC member cannot attend an FPAC meeting. Designated alternates are expected to attend all FPAC quarterly meetings and workshops, as scheduled.

b) Terms. FPAC members shall be appointed to a three (3) year term with no person serving more than three consecutive terms as a member, except that if an appointment to the FPAC expires before the BCC has appointed a replacement member, then the member whose term has expired shall serve until a successor has been appointed.

c) Meetings. The FPAC shall meet at a minimum quarterly or more frequently as agreed upon by the majority vote of the members. A Pasco County staff member from the Planning and Development Department shall provide support based on availability.

d) Vacancy. If an FPAC member misses more than two meetings in a given year their membership shall be reviewed and replaced if agreed by a majority vote of the FPAC members. Member vacancies shall be filled in the same manner as the original appointment.

f) Compensation. Members shall be able to devote the time necessary to participate in the activities of the FPAC. Members shall receive no compensation for the performance of their duties as members of the FPAC; however each member may be paid necessary expenses, as authorized in Section 112.061, Florida Statutes, incurred while engaged in the performance of duties to the extent funds are available and such expenses are approved in advance by the County.

Section 5. Officers, Quorum, and Rules of Procedure.

a) Chairperson. The FPAC shall elect a Chairperson among the appointed FPAC members to preside at all meetings. The Chairperson shall be elected in June of each year and shall serve until the first meeting in June of the following year. The Chairperson will be responsible for creating meeting agendas with County staff designee. Additionally, the Chairperson will make all presentations, findings and determinations to the Pasco County BCC unless designated to another member and agreed upon by majority vote of the members. The Chairperson shallbe subject to the term limits set forth for all members.

b) Vice-Chairperson. The FPAC shall elect a Vice-Chairperson to preside and act on behalf of the Chairperson during his or her absence. The term of office and method of election for the Vice-Chairperson shall be the same as the Chairperson.

c) Quorum & Voting. The presence of a majority of the members of the FPAC shall constitute a quorum of the FPAC necessary to take action and transact business. No vacancy in the

membership of the FPAC shall impair the right of a quorum to exercise all the rights and perform all the duties of the FPAC. In addition, once quorum requirements have been met, an affirmative vote of the majority of the FPAC members present at a meeting shall be necessary for the FPAC to take any action. A tie vote shall not be considered an affirmative vote.

d) Conduct. The FPAC shall conduct its meetings in accordance with the current edition of Roberts Rules of Order. All FPAC activities shall be governed by the applicable federal, state, and local ordinances and are deemed to be included in this Resolution the same as though herein written out in full. All FPAC meetings shall be open to the public and subject to the applicable provisions of the Florida open meetings ("Sunshine") laws, Chapter 286, Florida Statutes. The records of the FPAC shall be subject to the applicable provisions of the Florida Public Records Law, Chapter 119, and Florida Statutes. The members of the FPAC shall be subject to the applicable provisions of the Code of Ethics for Public Officers and Employees, Chapter 112, Part III, Florida Statutes, including but not limited to sections 112.313 and 112.3143, Florida Statute.

Section 6. Meetings.

a) Meeting Notice. Notice of regular or special meetings of the FPAC and the time and location of each meeting shall be published to the public. FPAC meetings shall be held in a public facility of sufficient size to accommodate those present and at such locations as the FPAC may determine from time to time.

b) Regular Meetings. The F PAC shall establish a schedule of regular meetings,which shall be held at least quarterly. A schedule of each year's regular meetings shall be distributed to all FPAC members in June of the preceding calendar year.

c) Special Meetings. The Chairperson may call a special meeting of the FPAC on his/her initiative, at the request of any four (4) members or at the request of the BCC.

Section 7. Term. Six (6) years after the date of adoption of this Resolution, the Board shall review the activities of the FPAC to determine whether the FPAC still serves a necessary function and should continue in existence.

Section 8. Adoption.
This resolution shall become effective upon adoption.

DONE AND RESOLVED this 18th day of May 2021.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** PIFBA26-0027 **DATE:** 1/20/2026

SUBJECT: Cooperative Purchase – Fastenal Company – As Needed Paint and Supplies – $135,000.00

REFERENCES: Sourcewell Contract No. 091422-FAS

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: Joshua Wood, Public Infrastructure Fiscal and Business Administration Director

RECOMMENDED BOARD ACTION:

Approve the purchase of various paints and supplies, pursuant to Section 2-96 (b) of the Purchasing Ordinance, by utilizing the Sourcewell Contract No. 091422-FAS with Fastenal Company (Fastenal), which is currently still in effect, in the Not to Exceed (NTE) amount of $135,000.00 for Fiscal Year (FY) 2026. Authorize the Chairman to sign one original of the quote provided, and direct Board Records to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

The Warehouse Services Division of the Public Infrastructure Fiscal and Business Administration (PIFBA) Department maintains an extensive inventory list of various paints and supplies that are utilized by various Operations and Maintenance crews for mission-critical projects completed throughout Pasco County.

The Warehouse Services Division of the PIFBA Department, with concurrence from the Purchasing Department, finds it is in the County's best interest to utilize the Sourcewell Contract No. 091422-FAS with Fastenal, in the NTE amount of $135,000.00 for FY 2026.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Funding in the amount of $135,000.00 is budgeted and available for FY 2026 in the Water and Wastewater Unit fund, Warehouse Services, Inventory.

Following the placement of any order under this contract by a County Department, a journal entry will be posted to the budget of that Department when the materials from that order are received by the Warehouse Services Division of the PIFBA Department.

DISTRIBUTION:

Board Records to distribute as set forth below:
1. Retain One Original

Subject: RE: FY26 PO AS NEEDED PAINT AND ACCESSORIES

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Glen,

I just received this from my legal team:

In lieu of chasing down the president, Fastenal could alternatively provide written proof (in the form of a Board Resolution or something similar) that Mr. Coley has existing authority to (1) sign contracts for Fastenal, and (2) delegate that authority to others. If we get that proof alongside Mr. Coley's letter authorizing Mr. Hite, that would suffice.

I hope this helps.

Subject: RE: FY26 PO AS NEEDED PAINT AND ACCESSORIES

Glen,

No, I'm sorry – but the permission would have to be granted by the President of the corporation, not a regional VP.

RESTATED BYLAWS OF
FASTENAL
COMPANY

ARTICLE I REGISTERED OFFICE

The corporation shall maintain a registered office in Minnesota. The corporation may have other offices in such places within or outside of Minnesota as the Board of Directors may from time to time designate.

ARTICLE II
SHAREHOLDERS' MEETINGS

Section 1. Place. Meetings of the shareholders shall be held at the principal executive office of the corporation, or at such other place within or outside of Minnesota as may from time to time be designated by the Board of Directors or the Chief Executive Officer of the corporation; provided, however, that any meeting called by or at the demand of a shareholder or shareholders shall be held in the county where the principal executive office of the corporation is located. The Board of Directors may determine that shareholders not physically present in person or by proxy at a shareholder meeting may, by means of remote communication, participate in a shareholder meeting held at a designated place. The Board of Directors also may determine that a meeting of the shareholders shall not be held at a physical place, but instead solely by means of remote communication. Participation by remote communication constitutes presence at the meeting.

Section 2. Regular Meetings. A regular meeting of the shareholders shall be held annually, as soon as convenient after the close of the preceding fiscal year of the corporation, at a time to be fixed by the Board of Directors, for the election of directors and the transaction of other appropriate business.

Section 3. Special Meetings. Special meetings of the shareholders may be called at any time and for any purpose or purposes by a shareholder or shareholders holding ten percent or more of the voting power of all shares entitled to vote (except that a special meeting for the purpose of considering any action to directly or indirectly facilitate or effect a business combination, including any action to change or otherwise affect the composition of the Board of Directors for that purpose, must be called by twenty-five percent or more of the voting power of all shares entitled to vote) or by the Chair of the Board, the Chief Executive Officer, the Chief Financial Officer or two or more directors. The business transacted at a special meeting shall be limited to the purposes stated in the notice of the meeting.

Section 4. Notice. Unless otherwise required by law, written notice of each meeting of shareholders, stating the date, time and place of the meeting and, in the case of a special meeting, the purpose or purposes for which it is called, shall be given to every holder of shares entitled to vote at such meeting at least 10 days and not more than 60 days before the date of the meeting, except as otherwise permitted by law. Notice may be given to a shareholder by means of electronic communication if the requirements of Minnesota Statutes Section 302A.436, Subdivision 5, as amended from time to time, are met. Notice to a shareholder is also effectively given if the notice is addressed to the shareholder or a group of shareholders in a manner permitted by the rules and regulations under the Securities Exchange Act of 1934 (the "Exchange Act"), so long as the corporation has first received the written or implied consent required by those rules and regulations.

Section 5. Waiver; Objections. A shareholder may waive notice of the date, time, place, or purpose of a meeting of shareholders. A waiver of notice by a shareholder entitled to notice is effective whether given before, at, or after the meeting, and whether given in writing, orally, by authenticated electronic communication, or by attendance. Attendance by a shareholder at a meeting, including attendance by means of remote communication, is a waiver of notice of that meeting, except where the shareholder objects at the beginning of the meeting to the transaction of business because the meeting is not lawfully called or convened, or objects before a vote on an item of business because the item may not lawfully be considered at that meeting and does not participate in the consideration of the item at that meeting.

Section 6. Quorum; Adjourned Meetings. The holders of a majority of the voting power of the shares entitled to vote at a meeting, present in person or represented by proxy, shall constitute a quorum for the transaction of business, except as may be otherwise specifically provided by law, by the Articles of Incorporation, or by these Bylaws. If a quorum is present when a duly called or held meeting is convened, the shareholders present may continue to transact business until adjournment, even though the withdrawal of a number of shareholders originally present leaves less than a quorum. The Chair of any meeting of shareholders may adjourn the meeting, for any reason and whether or not a quorum is present, to a time and place announced at the time of adjournment, and no further notice of the adjourned meeting shall be required.

Section 7. Voting and Proxies. At all meetings of shareholders, every owner of shares entitled to vote may vote in person or by proxy and shall have one vote for each share held. In electing directors, the voting shall be by ballot. A shareholder may cast or authorize the casting of a vote (a) by filing a written appointment of a proxy, signed by the shareholder, with an officer of the corporation at or before the meeting at which the appointment is to be effective, or (b) by telephonic transmission or authenticated electronic communication, whether or not accompanied by written instructions of the shareholder, of an appointment of a proxy with the corporation or the corporation's duly authorized agent at or before the meeting at which the appointment is to be effective. The telephonic transmission or authenticated electronic communication must set forth or be submitted with information from which it can be determined that the appointment was authorized by the shareholder. Any copy, facsimile telecommunication, or other reproduction of the original of either the writing or transmission may be used in lieu of the original, provided that it is a complete and legible reproduction of the entire original. Any shareholder directly or indirectly soliciting proxies from other shareholders must use a proxy card color other than white, which shall be reserved for the exclusive use by the Board of Directors.

Section 8. Chair of Meeting; Conduct of Meetings. The Chair of the Board shall preside at all meetings of shareholders. In his or her absence, the Board of Directors may appoint any other officer or director to act as Chair at the meeting. The Board of Directors shall be entitled to make such rules and regulations for the conduct of meetings of shareholders as it shall deem necessary, appropriate, or convenient. Subject to such rules and regulations of the Board of Directors, if any, the Chair of the meeting shall have the right and authority to prescribe such rules, regulations, and procedures and to do all such acts as, in the judgment of such Chair are necessary, appropriate, or convenient for the proper conduct of the meeting, including, without limitation, establishing an agenda or order of business for the meeting, rules and procedures for maintaining order at the meeting and the safety of those present, limitations on participation in the meeting to shareholders of record of the corporation, their duly authorized and constituted proxies and such other persons as the Chair shall permit, restrictions on entry to the meeting after the time fixed for the commencement thereof, limitations on the time allotted to questions or comments by participants, regulation of the opening and closing of the polls, and restricting the use of cell phones, audio, or video recording devices and similar devices at the meeting. Unless and to the extent determined by the Board of Directors or the Chair, meetings of shareholders shall not be required to be held in accordance with the rules of parliamentary procedure.

Section 9. Advance-Notice Requirements.

Subdivision 1. Nomination of Directors. Only persons who are nominated in accordance with this Section 9 shall be eligible for election as directors. Nominations of persons for election to the Board of Directors of the corporation may be made at a meeting of shareholders (i) by or at the direction of the Board of Directors, (ii) by any shareholder of the corporation entitled to vote for the election of directors at the meeting who complies with the notice procedures of this Section 9 or (iii) by any Eligible Shareholder (as defined in Section 10 below) who complies with the requirements of Section 10 below.

Subdivision 2. Business Conducted at Meetings. The business conducted at any special meeting of shareholders of the corporation shall be limited to the purposes stated in the notice of the special meeting pursuant to Section 3 of this Article II. At any regular meeting of shareholders of the corporation, the proposal of business (other than the nomination and election of directors, which shall be subject to Subdivision 1 of this Section 9) to be considered by the shareholders may be made (i) pursuant to the corporation's notice of the meeting, (ii) by or at the direction of the Board of Directors, (iii) by any shareholder of the corporation entitled to vote at the meeting who complies with the notice procedures of this Section 9, or (iv) by a shareholder or group of shareholders pursuant to Rule 14a-8 promulgated under the Exchange Act.

Subdivision 3. Timing and Content of Notice. (a) Timing of Notice. Timely written notice of a nomination or proposal pursuant to this Section 9 must be given to the General Counsel of the corporation. To be timely, a shareholder's written notice of nominations or of proposals, in each case to be made at a regular meeting of shareholders (other than business proposed pursuant to Rule 14a-8 under the Exchange Act), must be delivered in writing to the General Counsel of the corporation, or mailed and received at the principal executive office of the corporation, not less than 90 days before the first anniversary of the date of the preceding year's regular meeting of shareholders. If, however, the date of the regular meeting of shareholders is more than 30 days before or 60 days after such anniversary date, notice by a shareholder shall be timely only if so delivered or so mailed and received not less than 90 days before such regular meeting or, if later, within 10 days after the first public announcement of the date of such regular meeting. If a special meeting of shareholders is called for the purpose of electing one or more directors, a shareholder's written notice of nominations to be made at the special meeting of shareholders must be delivered in writing to the General Counsel of the corporation, or mailed and received at the principal executive office of the corporation, not less than 90 days before the meeting (or, if later, within 10 days after the first public announcement of

the date of the meeting). Except to the extent otherwise required by law, the adjournment of a meeting of shareholders shall not commence a new time period for the giving of a shareholder's notice as described above.

(b) Content of Notice. A shareholder's notice to the corporation of nominations or of a proposal for a meeting of shareholders shall set forth:

(x) as to each person whom the shareholder proposes to nominate for election or re-election as a director: (i) such person's name, (ii) all information relating to such person that is required to be disclosed in solicitations of proxies for election of directors in an election contest, or that is otherwise required, pursuant to Regulation 14A under the Exchange Act, and (iii) such person's written consent to being named in any proxy materials as a nominee and to serving as a director if elected;

(y) as to each matter the shareholder proposes to bring before the meeting (other than the nomination of a director): (i) a brief description of the business desired to be brought before the meeting and the reasons for conducting such business at the meeting and (ii) any material interest in such business of the shareholder or any beneficial owner on whose behalf the proposal is made; and

(z) as to the shareholder giving the notice: (i) the name and address of such shareholder and of any beneficial owner on whose behalf the nomination or proposal is made, (ii) the class or series (if any) and number of shares of the corporation that are beneficially owned by such shareholder or any such beneficial owner, (iii) a description of any agreement, arrangement, or understanding (including any derivative or short positions, profit interests, options, hedging transactions, and borrowed or loaned shares) that has been entered into by, or on behalf of, such shareholder or any such beneficial owner, the effect or intent of which is to mitigate loss to, manage risk, or benefit of share price changes for, or increase or decrease the voting power of such shareholder or any such beneficial owner with respect to shares of stock of the corporation, (iv) a representation that the shareholder is a holder of record of shares of the corporation entitled to vote for the election of directors (in the case of a nomination) or entitled to vote at the meeting (in the case of a shareholder proposal), will continue to be a holder of record of shares entitled to vote for the election of directors or at the meeting, as the case may be, through the date of the meeting, and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice or to make the proposal, and (v) a representation whether the shareholder or any such beneficial owner intends or is part of a group that intends to deliver a proxy statement or form of proxy to holders of at least the percentage of the corporation's outstanding shares required to adopt the proposal (other than the nomination of a director) or otherwise to solicit proxies from shareholders in support of the proposal. A shareholder who intends to solicit proxies in support of director nominees other than the corporation's director nominees and who has delivered a notice of nomination pursuant to this Section 9 shall promptly certify to the corporation, and notify the corporation in writing, that it has complied with or will comply with the requirements of Rule 14a-19 under the Exchange Act, and upon request of the corporation, shall, not later than five business days prior to the date of the applicable meeting of shareholders, deliver to the corporation reasonable evidence of such compliance.

At the request of the Board of Directors, any person nominated by the Board of Directors for election as a director shall furnish to the General Counsel of the corporation all completed and signed questionnaires required of the corporation's directors and any other information required to be set forth in a shareholder's notice of nomination that pertains to a nominee.

(c) Consequences of Failure to Give Timely Notice. Notwithstanding anything in these Bylaws to the contrary, no person shall be eligible for election as a director of the corporation and no business shall be conducted at any regular meeting except in accordance with this Section 9 or Section 10 below. The Chair of the meeting shall, if the facts warrant, determine and declare to the meeting that a nomination or proposal was not made in accordance with this Section 9 or Section 10 below and, if the Chair should so determine, the Chair shall so declare to the meeting, and the defective nomination shall be disregarded or any such business not properly brought before the meeting shall not be transacted. The Chair of the meeting shall, if the facts warrant, determine and declare to the meeting that a nomination was not made in accordance with the procedures prescribed in this Section 9 and, if the Chair so determines, the defective nomination shall be disregarded. Unless otherwise required by law, if any shareholder (i) provides notice pursuant to Rule 14a-19 under the Exchange Act and (ii) subsequently (A) notifies the corporation that such shareholder no longer intends to solicit proxies in support of director nominees other than the corporation's

director nominees in accordance with Rule 14a-19, (B) fails to comply with the requirements of Rule 14a-19, or (C) fails to provide reasonable evidence sufficient to satisfy the corporation that such requirements have been met, then such shareholder's nominations shall be deemed null and void and the corporation shall disregard any proxies or votes solicited for any nominee proposed by such shareholder.

(d) Inapplicable in Certain Circumstances. This Section 9 does not apply to any shareholder proposal made pursuant to Rule 14a-8 promulgated under the Exchange Act. The requirements, procedures, and notice deadlines of Rule 14a-8 shall govern any proposal made pursuant thereto.

Subdivision 4. Public Announcement. For purposes of this Section 9 and Section 10 below, "public announcement" means disclosure (i) when made in a press release reported by the Dow Jones News Service, Associated Press, or comparable national news service, (ii) when filed in a document publicly filed by the corporation with the Securities and Exchange Commission pursuant to Section 13, 14, or 15(d) of the Exchange Act, or (iii) when mailed as the notice of the meeting pursuant to Section 4 of this Article II.

Subdivision 5. Compliance with Applicable Laws. Notwithstanding the foregoing provisions of this Section 9, a shareholder shall also comply with all applicable requirements of Minnesota law and the Exchange Act and the rules and regulations thereunder with respect to the matters set forth in this Section 9.

Section 10. Proxy Access for Director Nominations.

Subdivision 1. Inclusion of Nominee in Proxy Statement. Subject to the terms and conditions of these Bylaws, whenever the Board of Directors solicits proxies with respect to the election of directors at a regular meeting of shareholders, the corporation shall include in its proxy materials for such regular meeting, in addition to any persons nominated for election by the Board of Directors or a committee appointed by the Board of Directors or otherwise pursuant to Section 9 of Article II, the name, together with the Required Information (as defined below), of any nominee for election or reelection to the Board of Directors delivered pursuant to this Section 10 (a "Shareholder Nominee") who satisfies the eligibility requirements herein (subject to the maximum number established pursuant to Subdivision 11, and who is identified in a timely and proper notice pursuant to Subdivision 6 that both complies with this Subdivision 1 (the "Shareholder Notice") and is given by a shareholder on behalf of one or more shareholders or beneficial owners that:

(i) expressly elect at the time of the delivery of the Shareholder Notice to have such Shareholder Nominee included in the corporation's proxy materials for such regular meeting pursuant to this Subdivision 1;

(ii) own and have Owned (as defined below) continuously for at least three (3) years a number of shares that represents at least three percent (3%) of the outstanding shares of common stock entitled to vote in the election of directors (the "Required Shares") as of (i) the date on which the Shareholder Notice is delivered to the corporation at the principal executive offices and in accordance with this Subdivision 1, (ii) the record date for determining shareholders entitled to vote at the regular meeting, and (iii) the date of the regular meeting; and

(iii) satisfy such additional requirements in these Bylaws (an "Eligible Shareholder").

Subdivision 2. Eligible Shareholder. For purposes of qualifying as an Eligible Shareholder and satisfying the Ownership requirements under Subdivision 1:

(a) The outstanding shares of common stock Owned by one or more shareholders and beneficial owners that each shareholder and/or beneficial owner has Owned continuously for at least three (3) years as of (i) the date on which the Shareholder Notice is delivered to the corporation at the principal executive offices of the corporation in accordance with this Section 10, (ii) the record date for determining shareholders entitled to vote at the regular meeting, and (iii) the date of the regular meeting may be aggregated, provided that the number of shareholders and beneficial owners whose Ownership of shares is aggregated for such purpose shall not exceed twenty (20) and that any and all requirements and obligations for an Eligible Shareholder set forth in this Section 10 are satisfied by and as to each such shareholder and beneficial owner (except as noted with respect to aggregation or as otherwise provided in Subdivision 3);

(b) For this purpose, two or more funds that are (i) under common management and investment control, (ii) under common management and funded primarily by the same employer, or (iii) a "group of

investment companies," as such term is defined in Section 12(d)(1)(G)(ii) of the Investment Company Act of 1940, as amended (each, a "Qualifying Fund"), shall be treated as one shareholder or beneficial owner; and

(c) No shareholder or beneficial owner, alone or together with any of its affiliates, may be a member of more than one group constituting an Eligible Shareholder under this Subdivision 2. If a group of shareholders aggregates Ownership of shares in order to meet the requirements under this Subdivision 2, (i) all shares held by each shareholder constituting their contribution to the foregoing three percent (3%) threshold must have been held by that shareholder continuously for at least three (3) years and through the date of the regular meeting, and evidence of such continuous Ownership shall be provided as specified in Subdivision 5, (ii) each provision in this Section 10 that requires the Eligible Shareholder to provide any written statements, representations, undertakings, agreements or other instruments or to meet any other conditions shall be deemed to require each shareholder (including each individual fund) that is a member of such group to provide such statements, representations, undertakings, agreements or other instruments and to meet such other conditions (except that the members of such group may aggregate their shareholdings in order to meet the three percent (3%) Ownership requirement of the Required Shares definition), (iii) a breach of any obligation, agreement or representation under this Section 10 by any member of such group shall be deemed a breach by the Eligible Shareholder and (iv) such Ownership shall be determined by aggregating the lowest number of shares continuously Owned by each such shareholder during the required holding period and the Shareholder Notice must indicate, for each such shareholder, such lowest number of shares continuously owned by such shareholder during such period.

Subdivision 3. Ownership. For purposes of this Section 10:

(a) A shareholder or beneficial owner shall be deemed to "Own" only those outstanding shares of common stock of the corporation as to which such person possesses both (i) the full voting and investment rights pertaining to the shares and (ii) the full economic interest in (including the opportunity for profit and risk of loss on) such shares; provided that the number of shares calculated in accordance with clauses (i) and (ii) shall not include any shares (A) sold by such person or any of its affiliates in any transaction that has not been settled or closed, including any short sale, (B) borrowed by such person or any of its affiliates for any purposes, (C) purchased by such person or any of its affiliates pursuant to an agreement to resell, or (D) subject to any option, warrant, forward contract, swap, contract of sale, or other derivative or similar agreement entered into by such person or any of its affiliates, whether any such instrument or agreement is to be settled with shares or with cash based on the notional amount or value of outstanding shares of common stock of the corporation, in any such case which instrument or agreement has, or is intended to have, or if exercised would have, the purpose or effect of (x) reducing in any manner, to any extent or at any time in the future, such person's or its affiliates' full right to vote or direct the voting of any such shares, and/or (y) hedging, offsetting, or altering to any degree any gain or loss realized or realizable from maintaining the full economic ownership of such shares by such person or its affiliate.

(b) A shareholder or beneficial owner shall "Own" shares held in the name of a nominee or other intermediary so long as the person retains the right to instruct how the shares are voted with respect to the election of directors and possesses the full economic interest in the shares. A person's Ownership of shares shall be deemed to continue during any period in which (i) the person has loaned such shares, provided that the person has the power to recall such loaned shares on no more than three (3) business days' notice and such shares are recalled prior to the final date of the Shareholder Notice pursuant to Subdivision 6 or (ii) the person has delegated any voting power by means of a proxy, power of attorney, or other instrument or arrangement that is revocable at any time by the person. Provided the Eligible Shareholder's Shareholder Nominee will be included in the corporation's proxy materials subject to the terms herein; such recalled shares shall remain recalled (and otherwise 'owned' as defined herein) through the regular meeting.

(c) The terms "Owned," "Owning" and other variations of the word "Own" shall have correlative meanings. Whether outstanding shares of common stock of the corporation are "Owned" for purposes of this Subdivision 3 shall be determined by the Board of Directors or any committee thereof, which determination shall be conclusive and binding on the corporation and its shareholders. For purposes of this Subdivision 3, the term "affiliate" or "affiliates" shall have the meaning ascribed thereto under the rules and regulations of the Securities and Exchange Commission ("SEC") promulgated under the Exchange Act.

Subdivision 4. Required Information. For purposes of this Section 10, the "Required Information" that the corporation will include in its proxy statement is:

(a) The information concerning each Shareholder Nominee and the applicable Eligible Shareholder that is required to be disclosed in the corporation's proxy statement by the applicable requirements of the Exchange Act and the rules and regulations thereunder; and

(b) If the Eligible Shareholder so elects, a written statement of the Eligible Shareholder, not to exceed 500 words, in support of each Shareholder Nominee, which must be provided at the same time as the Shareholder Notice for inclusion in the corporation's proxy statement for the regular meeting (the "Statement"); provided that only one Statement may be submitted by any Eligible Shareholder, including any group of shareholders together constituting an Eligible Shareholder.

Notwithstanding anything to the contrary contained in this Section 10, the corporation may omit from its proxy materials any information or Statement that it, in good faith, believes would violate any applicable law, rule, regulation or listing standard. Nothing in this Section 10 shall limit the corporation's ability to solicit against and include in its proxy materials its own statements relating to any Eligible Shareholder or Shareholder Nominee.

Subdivision 5. Information to be Provided by Eligible Shareholder. The Shareholder Notice shall set forth all information and representations required under Subdivision 3(b) of Section 9 of this Article II above (and for such purposes, references to the "beneficial owner" on whose behalf the nomination is made shall be deemed to refer to the "Eligible Shareholder"), and in addition shall include:

(a) a copy of the Schedule 14N that has been or concurrently is filed with the SEC under Rule 14a-18 of the Exchange Act (as such rule may be amended);

(b) the details of any relationship that existed within the past three (3) years and that would have been described pursuant to Item 6(e) of Schedule 14N (or any successor item) if it existed on the date of submission of Schedule 14N;

(c) the written agreement of the Eligible Shareholder (in the case of a group, each shareholder or beneficial owner whose shares are aggregated for purposes of constituting an Eligible Shareholder) addressed to the corporation, setting forth the following additional agreements, representations, and warranties:

(1) setting forth and certifying to the number of shares of common stock it Owns and has Owned continuously for at least three years as of the date of the Shareholder Notice and agreeing to continue to Own such shares through the regular meeting of shareholders and during the initial term that the Shareholder Nominee may serve on the Board, which statement shall also be included in the Schedule 14N filed by the Eligible Shareholder with the SEC;

(2) the Eligible Shareholder's agreement to provide written statements from the record holder and intermediaries as required under this Subdivision 5 verifying the Eligible Shareholder's continuous Ownership of the Required Shares, in each case through and as of the business day immediately preceding the date of the regular meeting;

(3) the Eligible Shareholder's representation and warranty (i) that the Eligible Shareholder (v) acquired the Required Shares in the ordinary course of business and not with the intent or effect of changing or influencing control at the corporation, and does not presently have any such intent, (w) has not nominated and will not nominate for election to the Board at the regular meeting any person other than the Shareholder Nominee(s) being nominated pursuant to this Section 10, (x) has not engaged and will not engage in, and has not been and will not be a participant (as defined in Item 4 of Exchange Act Schedule 14A) in, a solicitation within the meaning of Rule 14a-1(l) of the Exchange Act, in support of the election of any individual as a director at the regular meeting other than its Shareholder Nominee or a nominee of the Board, (y) has not distributed and will not distribute to any shareholder any form of proxy for the regular meeting other than the form distributed by the corporation, and (z) will Own the Required Shares through the date of the regular meeting of shareholders, (ii) that the facts, statements and other information in all communications by the Eligible Shareholder with the corporation and its shareholders are and will be true and correct in all material respects and do not and will not omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading, and (iii) as to whether or not the Eligible Shareholder intends to maintain qualifying

Ownership of the Required Shares for at least one term of the Shareholder Nominee following their election to the Board; and

(4) the Eligible Shareholder's agreement to (i) assume all liability stemming from any legal or regulatory violation arising out of the Eligible Shareholder's communications with the shareholders of the corporation or out of the information that the Eligible Shareholder provided to the corporation, (ii) indemnify and hold harmless the corporation and each of its directors, officers and employees individually against any liability, loss or damages in connection with any threatened or pending action, suit or proceeding, whether legal, administrative or investigative, against the corporation or any of its directors, officers or employees arising out of any nomination submitted by the Eligible Shareholder pursuant to this Section 10, (iii) comply with all laws, rules, regulations and listing standards applicable to any solicitation in connection with the regular meeting, (iv) file all materials described below in Subdivision 7(c) with the SEC, regardless of whether any such filing is required under Exchange Act Regulation 14A, or whether any exemption from filing is available for such materials under Exchange Act Regulation 14A, and (v) provide to the corporation prior to the regular meeting such additional information as necessary or reasonably requested by the corporation; and

(d) In the case of a nomination by a group of shareholders or beneficial owners that together is an Eligible Shareholder, the designation by all group members of one group member that is authorized to act on behalf of all such members with respect to the nomination and matters related thereto, including withdrawal of the nomination.

Subdivision 6. Delivery of Shareholder Notice. To be timely under this Section 10, the Shareholder Notice must be delivered to, or mailed received by, the General Counsel of the corporation, not less than 120 days and not more than 150 days prior to the first anniversary of the date that the corporation distributed its proxy materials to shareholders for the previous year's regular meeting of shareholders. If, however, the date of the regular meeting of shareholders is more than 30 days before or 60 days after the anniversary date of the prior year's regular meeting of shareholders, the Shareholder Notice will be timely if so delivered or mailed and received within ten (10) days after the first public announcement of the date of the regular meeting.

Subdivision 7. Undertaking by Eligible Shareholder. An Eligible Shareholder must:

(a) within five business days after the date of the Shareholder Notice, provide to the corporation one or more written statements from the record holder(s) of the Required Shares and from each intermediary through which the Required Shares are or have been held, in each case during the requisite three-year holding period, specifying the number of shares that the Eligible Shareholder Owns, and has Owned continuously, in compliance with this Section 10;

(b) include in the Schedule 14N filed with the SEC a statement certifying that it Owns and has Owned the Required Shares in compliance with this Section 10;

(c) file with the SEC any solicitation or other communication by or on behalf of the Eligible Shareholder relating to the corporation's regular meeting of shareholders, one or more of the corporation's directors or director nominees or any Shareholder Nominee, regardless of whether any such filing is required under Exchange Act Regulation 14A or whether any exemption from filing is available for such solicitation or other communication under Exchange Act Regulation 14A; and

(d) as to any group of funds whose shares are aggregated for purposes of constituting an Eligible Shareholder, within five business days after the date of the Shareholder Notice, provide documentation reasonably satisfactory to the corporation that demonstrates that the funds satisfy Subdivision 3. The information provided pursuant to this Subdivision 7 shall be deemed part of the Shareholder Notice for purposes of this Section 10.

Subdivision 8. Representations and Agreement of the Shareholder Nominee. Within the time period prescribed in Subdivision 6 for delivery of the Shareholder Notice, the Eligible Shareholder must also deliver to the corporation a written representation and agreement (which shall be deemed part of the Shareholder Notice for purposes of this Section 10) signed by each Shareholder Nominee and representing and agreeing that such Shareholder Nominee:

(a) is not and will not become a party to (i) any voting commitment that has not been disclosed to the corporation, or (ii) any voting commitment that could limit or interfere with such person's ability to comply, if elected as a director of the corporation, with such person's fiduciary duties under applicable law;

(b) is not and will not become a party to any agreement, arrangement, or understanding with any person or entity other than the corporation with respect to any direct or indirect compensation, reimbursement, or indemnification in connection with service or action as a Shareholder Nominee or director that has not been disclosed to the corporation; and

(c) if elected as a director, will comply with all of the corporation's corporate governance, conflict of interest, confidentiality, and stock ownership and trading policies and guidelines, and any other corporation policies and guidelines applicable to directors, as well as any applicable law, rule or regulation or listing requirement.

At the request of the corporation, the Shareholder Nominee must promptly, but in any event within five business days after such request, submit all completed and signed questionnaires required of the corporation's directors and provide to the corporation such other information as it may reasonably request. The corporation may request such additional information (x) as necessary to permit the Board of Directors or any committee thereof to determine if such Shareholder Nominee is independent under the listing standards of any U.S. exchange upon which the corporation's common stock is listed, any rules of the Securities and Exchange Commission applicable to directors serving on the Board of Directors or any committee thereof and any publicly disclosed standards used by the Board of Directors in determining and disclosing the independence of the corporation's directors (the "Applicable Independence Standards") and otherwise to determine the eligibility of each Shareholder Nominee to serve as a director of the corporation, or (y) that could be material to a reasonable shareholder's understanding of the independence, or lack thereof, of each Shareholder Nominee.

Subdivision 9. True, Correct and Complete Information. In the event that any information or communications provided by the Eligible Shareholder or any Shareholder Nominees to the corporation or its shareholders is not, when provided, or thereafter ceases to be, true, correct and complete in all material respects (including omitting a material fact necessary to make the statements made, in light of the circumstances under which they were made, not misleading), each Eligible Shareholder or Shareholder Nominee, as the case may be, shall promptly notify the corporation and provide the information that is required to make such information or communication true, correct, complete and not misleading; it being understood that providing any such notification shall not be deemed to cure any such defect or limit the corporation's right to omit a Shareholder Nominee from its proxy materials pursuant to this Section 10. In addition, any person providing any information to the corporation pursuant to this Section 10 shall further update and supplement such information, if necessary, so that all such information shall be true and correct as of the record date for the regular meeting and as of the date that is ten (10) business days prior to the regular meeting or any adjournment or postponement thereof, and such update and supplement (or a written certification that no such updates or supplements are necessary and that the information previously provided remains true and correct as of the applicable date) shall be delivered to the corporation at the principal executive offices of the corporation not later than five (5) business days after the later of the record date for the regular meeting and the date on which the record date is first publicly disclosed by the corporation (in the case of any update and supplement required to be made as of the record date), and not later than seven (7) business days prior to the date of the regular meeting or any adjournment or postponement thereof (in the case of any update and supplement required to be made as of ten (10) business days prior to the meeting).

Subdivision 10. Disqualifications. Notwithstanding anything to the contrary set forth herein, if (i) an Eligible Shareholder who has nominated a Shareholder Nominee has engaged in or is currently engaged in, or has been or is a "participant" in another person's, "solicitation" within the meaning of Rule 14a-1(l) of the Exchange Act in support of the election of any individual as a director at the meeting other than its Shareholder Nominee(s) or a nominee of the Board of Directors, (ii) a Stockholder Nominee is determined not to satisfy the eligibility requirements of this Section 10 or any other provision of the corporation's bylaws, articles of incorporation, corporate governance guidelines or other applicable regulation at any time before the regular meeting, (iii) the election of a Shareholder Nominee to the Board would cause the corporation to be in violation of the articles of incorporation, these Bylaws, or any applicable state or federal law, rule, regulation or listing standard, (iv) a Shareholder Nominee (A) is not independent under the Applicable Independence Standards, (B) is or has been, within the past three years, an officer or director of a competitor, as defined in Section 8 of the Clayton Antitrust Act of 1914, as amended, (C) is a named subject of a pending criminal proceeding (excluding traffic violations and other minor offenses) or has been convicted in a criminal proceeding within the past ten years, (D) is subject to any order of the type specified in Rule 506(d) of

Regulation D promulgated under the Securities Act of 1933, as amended, or (E) dies, becomes disabled or otherwise becomes ineligible for inclusion in the corporation's proxy materials pursuant to this Section 10 or unavailable for election at the regular meeting, (v) a Shareholder Nominee and/or the applicable Eligible Shareholder shall have breached any of its obligations, agreements or representations, or fails to comply with its or their obligations pursuant to this Section 10, including by providing information to the corporation in respect to such nomination that was untrue in any material respect or omitted to state a material fact necessary in order to make the statement made, in light of the circumstances under which it was made, not misleading, (vi) the applicable Eligible Shareholder otherwise ceases to be an Eligible Shareholder for any reason, including but not limited to not Owning the Required Shares through the date of the applicable regular meeting of shareholders, in each case as determined by the Board of Directors, any committee thereof or the person presiding at the regular meeting, then (x) the corporation may omit or, to the extent feasible, remove the information concerning such Shareholder Nominee and the related Statement from its proxy materials and/or otherwise communicate to its shareholders that such Shareholder Nominee will not be eligible for election at the regular meeting, (y) the corporation shall not be required to include in its proxy materials any successor or replacement nominee proposed by the applicable Eligible Shareholder or any other Eligible Shareholder and (z) the Board of Directors or the person presiding at the regular meeting shall declare such nomination to be invalid and such nomination shall be disregarded notwithstanding that proxies in respect of such vote may have been received by the corporation. In addition, if the Eligible Shareholder (or a representative thereof) does not appear at the regular meeting to present any nomination pursuant to this Section 10, such nomination shall be declared invalid and disregarded as provided in clause (z) above.

Subdivision 11. Maximum Number of Shareholder Nominees. The maximum number of Shareholder Nominees that may be included in the corporation's proxy materials pursuant to this Section 10 shall not exceed the greater of (i) two or (ii) twenty percent (20%) of the number of directors in office as of the last day on which a Shareholder Notice may be delivered with respect to the regular meeting, or if such amount is not a whole number, the closest whole number below twenty percent (20%): provided, however, that this number shall be reduced by:

(a) any Shareholder Nominee whose name was submitted for inclusion in the corporation's proxy materials pursuant to this Section 10, but either is subsequently withdrawn or that the Board of Directors decides to nominate as a Board nominee;

(b) the number of incumbent directors who were Shareholder Nominees at any of the preceding two regular meetings (including any individual covered under clause (a) above) and whose election at the upcoming regular meeting is being recommended by the Board of Directors; and

(c) the number of directors in office or director candidates that in either case will be included in the corporation's proxy materials with respect to such regular meeting as an unopposed (by the corporation) nominee pursuant to any agreement, arrangement or other understanding with any shareholder or group of shareholders (other than any such agreement, arrangement or understanding entered into in connection with an acquisition of common stock, by such shareholder or group of shareholders, from the corporation), other than any such director referred to in this clause (c) who at the time of such regular meeting will have served as a director continuously, as a nominee of the Board of Directors, for at least two annual terms, but only to the extent the maximum number of Shareholder Nominees after such reduction with respect to this clause (c) equals or exceeds one (1).

If the Board resolves to reduce the size of the Board effective on or prior to the date of the regular meeting, then the maximum number shall be calculated based on the number of directors in office as so reduced. In the event that the number of Shareholder Nominees submitted by Eligible Shareholders pursuant to this Section 10 exceeds this maximum number, the corporation shall determine which Shareholder Nominees shall be included in the corporation's proxy materials in accordance with the following provisions: each Eligible Shareholder (or in the case of a group, each group constituting an Eligible Shareholder) will select one Shareholder Nominee for inclusion in the corporation's proxy materials until the maximum number is reached, going in order of the amount (largest to smallest) of shares of the corporation each Eligible Shareholder disclosed as Owned in its respective Shareholder Notice submitted to the corporation. If the maximum number is not reached after each Eligible Shareholder (or in the case of a group, each group constituting an Eligible Shareholder) has selected one Shareholder Nominee, this selection process will continue as many times as necessary, following the same order each time, until the maximum number is reached. If any such Shareholder Nominee is thereafter (i) nominated by the Board, (ii) not included in the corporation's proxy materials for any reason (including, without limitation, any determination that such Eligible Shareholder or Shareholder Nominee does not satisfy the requirements in this Section 10) or (iii) not submitted for director election for any reason (including, without limitation, the Eligible Shareholder's or Shareholder Nominee's failure to comply with this Section

10), no other nominee or nominees shall be included in the corporation's proxy materials or otherwise submitted for director election in substitution thereof.

Subdivision 12. Disqualified Shareholder Nominee. Any Shareholder Nominee who is included in the corporation's proxy materials for a particular regular meeting of shareholders but withdraws from or becomes ineligible or unavailable for election at the regular meeting for any reason, including for the failure to comply with any provision of these Bylaws (provided that in no event shall any such withdrawal, ineligibility or unavailability commence a new time period (or extend any time period) for the giving of a Shareholder Notice) or did not receive, after being included in the proxy materials, at least twenty percent (20%) of the votes cast "for" the Shareholder Nominee's election in the prior year's election, will be ineligible to be a Shareholder Nominee pursuant to this Section 10 for the next two regular meetings.

Subdivision 13. Authority of The Board. The Board (and any other person or body authorized by the Board) shall have the power and authority to interpret this Section 10 and to make any and all determinations necessary or advisable to apply this Section 10 to any persons, facts or circumstances, including the power to determine (i) whether one or more shareholders or beneficial owners qualifies as an Eligible Shareholder, (ii) whether a Shareholder Notice complies with this Section 10 and has otherwise met the requirements of this Section 10, (iii) whether a Shareholder Nominee satisfies the qualifications and requirements in this Section 10, and (iv) whether any and all requirements of this Section 10 (or any applicable requirements of these Bylaws) have been satisfied. Any such interpretation or determination adopted in good faith by the Board (or any other person or body authorized by the Board) shall be binding on all persons, including the corporation and its shareholders (including any beneficial owners). This Section 10 shall be the exclusive method for shareholders to include nominees for director election in the corporation's proxy materials (including, without limitation, any proxy card or written ballot), other than with respect to Rule 14a-19 to the extent applicable with respect to form of proxies.

ARTICLE III
BOARD OF DIRECTORS

Section 1. Management. The business and affairs of the corporation shall be managed by or under the direction of its Board of Directors, except as management rights are reserved or granted to shareholders by law.

Section 2. Number and Qualifications. The Board shall consist of not less than five nor more than twelve persons. The number of directors to be elected shall be fixed from time to time by the Board of Directors and shall be stated in the notice of the meeting at which directors are to be elected.

Section 3. Terms. Directors shall serve for an indefinite term that expires at the next regular meeting of shareholders. Each director shall hold office for the term for which he or she was elected and until a successor is elected and has qualified, or until his or her earlier death, resignation, removal, or disqualification.

Section 4. Vacancies. Vacancies on the Board resulting from the death, resignation, removal, or disqualification of a director may be filled by the affirmative vote of a majority of the remaining directors, even though less than a quorum. Vacancies on the Board resulting from newly created directorships may be filled by the affirmative vote of a majority of the directors serving at the time of the increase. Each director so elected to fill a vacancy shall hold office for an indefinite term that expires at the next regular meeting of the shareholders.

Section 5. Meetings. Regular meetings of the Board of Directors shall be held annually immediately after the regular meeting of shareholders and at such other times as may be fixed by resolution of the Board adopted from time to time. Special meetings of the Board of Directors may be called by the Chairman of the Board or by two or more directors.

Section 6. Notice. At least five days' notice shall be given to all directors of the date, time, and place of a special meeting of the Board. The notice may but not need state the purpose of the meeting. No notice is required if the day or date, time, and place of a Board meeting have been provided in a resolution of the Board establishing regular Board meetings or announced at a previous meeting of the Board. Notice of an adjourned meeting need not be given other than by announcement at the meeting at which adjournment is taken. Notice of a meeting may be waived by a director as provided by law.

Section 7. Advance Consent. A director may give advance written consent or opposition to a proposal to be acted on at a Board meeting. If the director is not present at the meeting, consent or opposition to a proposal does not constitute presence for purposes of determining the existence of a quorum, but consent or opposition shall be counted as a vote in favor of or against the proposal and shall be entered in the minutes or other record of action at the meeting, if the proposal acted on at the

meeting is substantially the same or has substantially the same effect as the proposal to which the director has consented or objected.

Section 8. Compensation. The directors shall receive such compensation for their services as directors and as members of any committee appointed by the Board as may be prescribed by the Board of Directors and shall be reimbursed by the corporation for ordinary and reasonable expenses incurred in the performance of their duties.

Section 9. Chair of the Board. The Board of Directors may elect from its own number a Chair of the Board. The Chair of the Board, if elected and present, shall preside at all meetings of the Board and of the shareholders, and shall perform such other duties as may be prescribed by the Board.

ARTICLE IV
OFFICERS

Section 1. Principal Officers. The Board of Directors shall elect a Chief Executive Officer and a Chief Financial Officer, neither of whom need be a director. Unless otherwise determined by the Board, and except as heretofore delegated to the Chair of the Board, the Chief Executive Officer shall have the duties of such office as set forth in Minnesota Statutes, Section 302A.305, Subdivision 2, as amended from time to time. Unless otherwise determined by the Board, the Chief Financial Officer shall have the duties of such office as set forth in Minnesota Statutes, Section 302A.305, Subdivision 3, as amended from time to time.

Section 2. Other Officers. The Board may elect or appoint such other officers or agents as it deems necessary for the operation and management of the corporation, each of whom shall have the powers, rights, duties, responsibilities, and terms in office determined by the Board. Unless otherwise provided by the Board, the Chief Executive Officer also may appoint officers other than the President, the Chief Financial Officer, or any other executive officer of the corporation. Any officer so appointed by the Chief Executive Officer shall have the powers, rights, duties, responsibilities, and terms in office determined by the Chief Executive Officer.

Section 3. Multiple Offices. Any number of offices or functions of those offices may be held or exercised by the same person, who may sign documents in more than one capacity if the documents indicate each capacity in which the person signs.

Section 4. Salaries. The salaries of all executive officers of the corporation shall be determined by or under the direction of the Board.

Section 5. Removal. An officer may be removed at any time, with or without cause, by a resolution approved by the affirmative vote of a majority of the directors present. The Chief Executive Officer also may remove any officer other than the President, the Chief Financial Officer, or any other executive officer of the corporation. A removal as described in this Section 5 is without prejudice to any contractual rights of the officer.

ARTICLE V
SHARES

Section 1. Issuance of Shares. The Board of Directors may authorize the issuance of shares of the corporation and rights to purchase shares of the corporation, to the full amount authorized by the Articles of Incorporation, in such amounts, at such times, and upon such terms as may be determined by the Board and permitted by law.

Section 2. Certificated and Uncertificated Shares.

Subdivision 1. The shares of the corporation shall be either certificated shares or uncertificated shares. Each holder of duly issued certificated shares is entitled to a certificate of shares.

Subdivision 2. Certificates for shares of the corporation shall be in such form as the Board of Directors may from time to time prescribe and shall be signed by the President or an Executive Vice President and by the Treasurer or an Assistant Treasurer. If certificates are signed by a transfer agent, acting on behalf of the corporation, and a registrar, the signatures of the officers of the corporation may be facsimile. If a person signs or has a facsimile signature placed upon a certificate while an officer, transfer agent, or registrar of the corporation, the certificate may be issued by the corporation, even if the person has ceased to serve in that capacity before the certificate is issued, with the same effect as if the person had that capacity at the date of its issue.

Subdivision 3. The corporation may determine that some or all of any or all classes and series of the shares of the corporation will be uncertificated shares. Any such determination shall not apply to shares represented by a certificate until the certificate is surrendered to the corporation.

Section 3. Transfer Agent. The Board of Directors may appoint one or more transfer agents and registrars for the transfer and registration of shares of any class and may require that share certificates shall be countersigned and registered by one or more of such transfer agents and registrars.

Section 4. Transfer of Shares. Shares of the corporation shall be transferable on the books of the corporation only by the holder of record thereof in person or by a duly authorized attorney. In the case of certificated shares, shares shall be transferred only upon surrender and cancellation of certificates for a like number of shares.

Section 5. Lost Certificates. If any certificate for shares of the corporation shall be lost, stolen, or destroyed, the corporation may require such proof of the fact and such indemnity to be given to it and to its transfer agent and registrar, if any, as shall be deemed necessary or advisable by it.

Section 6. Determination of Voting and Other Rights. The Board may fix a date not more than 60 days before the date of any meeting of shareholders or the date for payment of any dividend or other distribution or the date for the allotment of rights or the date when any change or conversion or exchanging of shares shall go into effect, as the date for the determination of the holders of shares entitled to notice of and entitled to vote at the meeting, or entitled to receive payment of any such dividends or other distributions, or entitled to any such allotment of rights, or entitled to exercise the rights in respect of any such change, conversion or exchange of shares, and in such case only shareholders of record on the date so fixed shall be entitled to such notice of and to vote at such meeting, or to receive payment of such dividend or distribution, or to such allotment of rights, or to exercise such rights, as the case may be, notwithstanding any transfer of any shares on the books of the corporation after any such record date fixed as herein provided.

Section 7. Holder of Record. The corporation shall be entitled to treat the holder of record of any share or shares as the holder thereof in fact and shall not be bound to recognize any equitable or other claim to or interest in such shares on the part of any other person, whether or not it shall have express or other notice thereof, except as otherwise expressly provided by law, or as authorized by any procedure established by resolution of the Board of Directors.

ARTICLE VI
MISCELLANEOUS

Section 1. Indemnification. The corporation shall provide indemnification and advances of expenses, including witness reimbursements, to any director or officer of the corporation made or threatened to be made a party to a proceeding, or appearing as a witness in a proceeding, by reason of the former or present official capacity of the person, in such manner, under such circumstances, and to such extent as required or permitted by Minnesota Statues, Section 302A.521, as amended from time to time, or as required or permitted by other provisions of law.

Section 2. Fiscal Year. The Board of Directors may fix, and from time to time change, the fiscal year of the corporation. Unless otherwise fixed by the Board, the calendar year shall be the fiscal year.

Section 3. Seal. The corporation shall have no seal, and the affixing of a seal shall not be essential to the execution of any document or instrument by or on behalf of the corporation.

Section 4. Execution of Instruments. The Chief Executive Officer, the President, any Vice President, or any other person or persons designated by the Board of Directors, may sign and deliver in the name of the corporation any deeds, mortgages, bonds, contracts, or other instruments pertaining to the business and affairs of the corporation, except in cases in which the authority to sign and deliver is required by the law to be exercised by another person or is expressly delegated by the Articles of Incorporation or these Bylaws or by the Board of Directors to some other officer or agent of the corporation.

FASTENAL

December 18, 2025

To whom it may concern,

Fastenal agrees that all purchases done pursuant to this price list will be subject to Pasco County's Purchase Order Terms and Conditions.

Sourcewell

Solicitation Number: RFP #091422

CONTRACT

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and Fastenal Company, 2001 Theurer Blvd., Winona, MN 55987 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Facility MRO, Industrial, and Building-Related Supplies and Equipment from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires November 8, 2026, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended up to two times, for one additional year per extension, upon the request of Sourcewell and written agreement by Supplier.

C. SURVIVAL OF TERMS. Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above.

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

E. GOVERNING LAW AND VENUE. The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

7. CUSTOMER SERVICE

A. PRIMARY ACCOUNT REPRESENTATIVE. Supplier will assign an Account Representative to Sourcewell for this Contract and must provide prompt notice to Sourcewell if that person is changed. The Account Representative will be responsible for:

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

- Maintenance and management of this Contract;
- Timely response to all Sourcewell and Participating Entity inquiries; and
- Business reviews to Sourcewell and Participating Entities, if applicable.

B. BUSINESS REVIEWS. Supplier must perform a minimum of one business review with Sourcewell per contract year. The business review will cover sales to Participating Entities, pricing and contract terms, administrative fees, sales data reports, performance issues, supply issues, customer issues, and any other necessary information.

8. REPORT ON CONTRACT SALES ACTIVITY AND ADMINISTRATIVE FEE PAYMENT

A. CONTRACT SALES ACTIVITY REPORT. Each calendar quarter, Supplier must provide a contract sales activity report (Report) to the Sourcewell Supplier Development Administrator assigned to this Contract. Reports are due no later than 45 days after the end of each calendar quarter. A Report must be provided regardless of the number or amount of sales during that quarter (i.e., if there are no sales, Supplier must submit a report indicating no sales were made).

The Report must contain the following fields:

- Participating Entity Name (e.g., City of Staples Highway Department);
- Participating Entity Physical Street Address;
- Participating Entity City;
- Participating Entity State/Province;
- Participating Entity Zip/Postal Code;
- Participating Entity Contact Name;
- Participating Entity Contact Email Address;
- Participating Entity Contact Telephone Number;
- Sourcewell Assigned Entity/Participating Entity Number;
- Item Purchased Description;
- Item Purchased Price;
- Sourcewell Administrative Fee Applied; and
- Date Purchase was invoiced/sale was recognized as revenue by Supplier.

B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcewell, the Supplier will pay an administrative fee to Sourcewell on all Equipment, Products, and Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for two percent (2%) multiplied by the total paid standard sales less taxes, freight, and product returns, and one-half percent (0.5%)

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

multiplied by the total paid onsite sales less taxes, freight, and product returns, of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

9. AUTHORIZED REPRESENTATIVE

Sourcewell's Authorized Representative is its Chief Procurement Officer.

Supplier's Authorized Representative is the person named in the Supplier's Proposal. If Supplier's Authorized Representative changes at any time during this Contract, Supplier must promptly notify Sourcewell in writing.

10. AUDIT, ASSIGNMENT, AMENDMENTS, WAIVER, AND CONTRACT COMPLETE

A. AUDIT. Pursuant to Minnesota Statutes Section 16C.05, subdivision 5, the books, records, documents, and accounting procedures and practices relevant to this Contract are subject to examination by Sourcewell or the Minnesota State Auditor for a minimum of six years from the end of this Contract. This clause extends to Participating Entities as it relates to business conducted by that Participating Entity under this Contract.

B. ASSIGNMENT. Neither party may assign or otherwise transfer its rights or obligations under this Contract without the prior written consent of the other party and a fully executed assignment agreement. Such consent will not be unreasonably withheld. Any prohibited assignment will be invalid.

C. AMENDMENTS. Any amendment to this Contract must be in writing and will not be effective until it has been duly executed by the parties.

D. WAIVER. Failure by either party to take action or assert any right under this Contract will not be deemed a waiver of such right in the event of the continuation or repetition of the

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

circumstances giving rise to such right. Any such waiver must be in writing and signed by the parties.

E. CONTRACT COMPLETE. This Contract represents the complete agreement between the parties. No other understanding regarding this Contract, whether written or oral, may be used to bind either party. For any conflict between the attached Proposal and the terms set out in Articles 1-22 of this Contract, the terms of Articles 1-22 will govern.

F. RELATIONSHIP OF THE PARTIES. The relationship of the parties is one of independent contractors, each free to exercise judgment and discretion with regard to the conduct of their respective businesses. This Contract does not create a partnership, joint venture, or any other relationship such as master-servant, or principal-agent.

11. INDEMNITY AND HOLD HARMLESS

Supplier must indemnify, defend, save, and hold Sourcewell and its Participating Entities, including their agents and employees, harmless from any claims or causes of action, including attorneys' fees incurred by Sourcewell or its Participating Entities, arising out of any act or omission in the performance of this Contract by the Supplier or its agents or employees; this indemnification includes injury or death to person(s) or property alleged to have been caused by some defect in the Equipment, Products, or Services under this Contract to the extent the Equipment, Product, or Service has been used according to its specifications. Sourcewell's responsibility will be governed by the State of Minnesota's Tort Liability Act (Minnesota Statutes Chapter 466) and other applicable law.

12. GOVERNMENT DATA PRACTICES

Supplier and Sourcewell must comply with the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13, as it applies to all data provided by or provided to Sourcewell under this Contract and as it applies to all data created, collected, received, maintained, or disseminated by the Supplier under this Contract.

13. INTELLECTUAL PROPERTY, PUBLICITY, MARKETING, AND ENDORSEMENT

A. INTELLECTUAL PROPERTY

1. *Grant of License.* During the term of this Contract:

   a. Sourcewell grants to Supplier a royalty-free, worldwide, non-exclusive right and license to use the trademark(s) provided to Supplier by Sourcewell in advertising and promotional materials for the purpose of marketing Sourcewell's relationship with Supplier.

   b. Supplier grants to Sourcewell a royalty-free, worldwide, non-exclusive right and license to use Supplier's trademarks in advertising and promotional materials for the purpose of marketing Supplier's relationship with Sourcewell.

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

2. *Limited Right of Sublicense*. The right and license granted herein includes a limited right of each party to grant sublicenses to their respective subsidiaries, distributors, dealers, resellers, marketing representatives, and agents (collectively "Permitted Sublicensees") in advertising and promotional materials for the purpose of marketing the Parties' relationship to Participating Entities. Any sublicense granted will be subject to the terms and conditions of this Article. Each party will be responsible for any breach of this Article by any of their respective sublicensees.

3. *Use; Quality Control.*

a. Neither party may alter the other party's trademarks from the form provided and must comply with removal requests as to specific uses of its trademarks or logos.

b. Each party agrees to use, and to cause its Permitted Sublicensees to use, the other party's trademarks only in good faith and in a dignified manner consistent with such party's use of the trademarks. Upon written notice to the breaching party, the breaching party has 30 days of the date of the written notice to cure the breach or the license will be terminated.

4. *Termination*. Upon the termination of this Contract for any reason, each party, including Permitted Sublicensees, will have 30 days to remove all Trademarks from signage, websites, and the like bearing the other party's name or logo (excepting Sourcewell's pre-printed catalog of suppliers which may be used until the next printing). Supplier must return all marketing and promotional materials, including signage, provided by Sourcewell, or dispose of it according to Sourcewell's written directions.

B. PUBLICITY. Any publicity regarding the subject matter of this Contract must not be released without prior written approval from the Authorized Representatives. Publicity includes notices, informational pamphlets, press releases, research, reports, signs, and similar public notices prepared by or for the Supplier individually or jointly with others, or any subcontractors, with respect to the program, publications, or services provided resulting from this Contract.

C. MARKETING. Any direct advertising, marketing, or offers with Participating Entities must be approved by Sourcewell. Send all approval requests to the Sourcewell Supplier Development Administrator assigned to this Contract.

D. ENDORSEMENT. The Supplier must not claim that Sourcewell endorses its Equipment, Products, or Services.

14. GOVERNING LAW, JURISDICTION, AND VENUE

The substantive and procedural laws of the State of Minnesota will govern this Contract. Venue for all legal proceedings arising out of this Contract, or its breach, must be in the appropriate state court in Todd County, Minnesota or federal court in Fergus Falls, Minnesota.

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

15. FORCE MAJEURE

Neither party to this Contract will be held responsible for delay or default caused by acts of God or other conditions that are beyond that party's reasonable control. A party defaulting under this provision must provide the other party prompt written notice of the default.

16. SEVERABILITY

If any provision of this Contract is found by a court of competent jurisdiction to be illegal, unenforceable, or void then both parties will be relieved from all obligations arising from that provision. If the remainder of this Contract is capable of being performed, it will not be affected by such determination or finding and must be fully performed.

17. PERFORMANCE, DEFAULT, AND REMEDIES

A. PERFORMANCE. During the term of this Contract, the parties will monitor performance and address unresolved contract issues as follows:

1. *Notification.* The parties must promptly notify each other of any known dispute and work in good faith to resolve such dispute within a reasonable period of time. If necessary, Sourcewell and the Supplier will jointly develop a short briefing document that describes the issue(s), relevant impact, and positions of both parties.
2. *Escalation.* If parties are unable to resolve the issue in a timely manner, as specified above, either Sourcewell or Supplier may escalate the resolution of the issue to a higher level of management. The Supplier will have 30 calendar days to cure an outstanding issue.
3. *Performance while Dispute is Pending*. Notwithstanding the existence of a dispute, the Supplier must continue without delay to carry out all of its responsibilities under the Contract that are not affected by the dispute. If the Supplier fails to continue without delay to perform its responsibilities under the Contract, in the accomplishment of all undisputed work, the Supplier will bear any additional costs incurred by Sourcewell and/or its Participating Entities as a result of such failure to proceed.

B. DEFAULT AND REMEDIES. Either of the following constitutes cause to declare this Contract, or any Participating Entity order under this Contract, in default:

1. Nonperformance of contractual requirements, or
2. A material breach of any term or condition of this Contract.

The party claiming default must provide written notice of the default, with 30 calendar days to cure the default. Time allowed for cure will not diminish or eliminate any liability for liquidated or other damages. If the default remains after the opportunity for cure, the non-defaulting party may:

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

- Exercise any remedy provided by law or equity, or
- Terminate the Contract or any portion thereof, including any orders issued against the Contract.

18. INSURANCE

A. REQUIREMENTS. At its own expense, Supplier must maintain insurance policy(ies) in effect at all times during the performance of this Contract with insurance company(ies) licensed or authorized to do business in the State of Minnesota having an "AM BEST" rating of A- or better, with coverage and limits of insurance not less than the following:

1. *Workers' Compensation and Employer's Liability.*
Workers' Compensation: As required by any applicable law or regulation.
Employer's Liability Insurance: must be provided in amounts not less than listed below:
Minimum limits:
$500,000 each accident for bodily injury by accident
$500,000 policy limit for bodily injury by disease
$500,000 each employee for bodily injury by disease

2. *Commercial General Liability Insurance.* Supplier will maintain insurance covering its operations, with coverage on an occurrence basis, and must be subject to terms no less broad than the Insurance Services Office ("ISO") Commercial General Liability Form CG0001 (2001 or newer edition), or equivalent. At a minimum, coverage must include liability arising from premises, operations, bodily injury and property damage, independent contractors, products-completed operations including construction defect, contractual liability, blanket contractual liability, and personal injury and advertising injury. All required limits, terms and conditions of coverage must be maintained during the term of this Contract.
Minimum Limits:
$1,000,000 each occurrence Bodily Injury and Property Damage
$1,000,000 Personal and Advertising Injury
$2,000,000 aggregate for products liability-completed operations
$2,000,000 general aggregate

3. *Commercial Automobile Liability Insurance.* During the term of this Contract, Supplier will maintain insurance covering all owned, hired, and non-owned automobiles in limits of liability not less than indicated below. The coverage must be subject to terms no less broad than ISO Business Auto Coverage Form CA 0001 (2010 edition or newer), or equivalent.
Minimum Limits:
$1,000,000 each accident, combined single limit

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

4. *Umbrella Insurance*. During the term of this Contract, Supplier will maintain umbrella coverage over Employer's Liability, Commercial General Liability, and Commercial Automobile.

Minimum Limits:
$2,000,000

5. *Network Security and Privacy Liability Insurance*. During the term of this Contract, Supplier will maintain coverage for network security and privacy liability. The coverage may be endorsed on another form of liability coverage or written on a standalone policy. The insurance must cover claims which may arise from failure of Supplier's security resulting in, but not limited to, computer attacks, unauthorized access, disclosure of not public data – including but not limited to, confidential or private information, transmission of a computer virus, or denial of service.

Minimum limits:
$2,000,000 per occurrence
$2,000,000 annual aggregate

Failure of Supplier to maintain the required insurance will constitute a material breach entitling Sourcewell to immediately terminate this Contract for default.

B. CERTIFICATES OF INSURANCE. Prior to commencing under this Contract, Supplier must furnish to Sourcewell a certificate of insurance, as evidence of the insurance required under this Contract. Prior to expiration of the policy(ies), renewal certificates must be mailed to Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 or sent to the Sourcewell Supplier Development Administrator assigned to this Contract. The certificates must be signed by a person authorized by the insurer(s) to bind coverage on their behalf.

Failure to request certificates of insurance by Sourcewell, or failure of Supplier to provide certificates of insurance, in no way limits or relieves Supplier of its duties and responsibilities in this Contract.

C. ADDITIONAL INSURED ENDORSEMENT AND PRIMARY AND NON-CONTRIBUTORY INSURANCE CLAUSE. Supplier agrees to list Sourcewell and its Participating Entities, including their officers, agents, and employees, as an additional insured under the Supplier's commercial general liability insurance policy with respect to liability arising out of activities, "operations," or "work" performed by or on behalf of Supplier, and products and completed operations of Supplier. The policy provision(s) or endorsement(s) must further provide that coverage is primary and not excess over or contributory with any other valid, applicable, and collectible insurance or self-insurance in force for the additional insureds.

D. WAIVER OF SUBROGATION. Supplier waives and must require (by endorsement or otherwise) all its insurers to waive subrogation rights against Sourcewell and other additional insureds for losses paid under the insurance policies required by this Contract or other

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

insurance applicable to the Supplier or its subcontractors. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Supplier or its subcontractors. Where permitted by law, Supplier must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.

E. UMBRELLA/EXCESS LIABILITY/SELF-INSURED RETENTION. The limits required by this Contract can be met by either providing a primary policy or in combination with umbrella/excess liability policy(ies), or self-insured retention.

19. COMPLIANCE

A. LAWS AND REGULATIONS. All Equipment, Products, or Services provided under this Contract must comply fully with applicable federal laws and regulations, and with the laws in the states and provinces in which the Equipment, Products, or Services are sold.

B. LICENSES. Supplier must maintain a valid and current status on all required federal, state/provincial, and local licenses, bonds, and permits required for the operation of the business that the Supplier conducts with Sourcewell and Participating Entities.

20. BANKRUPTCY, DEBARMENT, OR SUSPENSION CERTIFICATION

Supplier certifies and warrants that it is not in bankruptcy or that it has previously disclosed in writing certain information to Sourcewell related to bankruptcy actions. If at any time during this Contract Supplier declares bankruptcy, Supplier must immediately notify Sourcewell in writing.

Supplier certifies and warrants that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Supplier certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this Contract. Supplier further warrants that it will provide immediate written notice to Sourcewell if this certification changes at any time.

21. PROVISIONS FOR NON-UNITED STATES FEDERAL ENTITY PROCUREMENTS UNDER UNITED STATES FEDERAL AWARDS OR OTHER AWARDS

Participating Entities that use United States federal grant or FEMA funds to purchase goods or services from this Contract may be subject to additional requirements including the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. § 200. Participating Entities may have additional requirements based on specific funding source terms or conditions. Within this Article, all

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

references to “federal” should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Supplier’s Equipment, Products, or Services with United States federal funds.

A. EQUAL EMPLOYMENT OPPORTUNITY. Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of “federally assisted construction contract” in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 C.F.R. § 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.” The equal opportunity clause is incorporated herein by reference.

B. DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148). When required by federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. § 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report all suspected or reported violations to the federal awarding agency. Supplier must be in compliance with all applicable Davis-Bacon Act provisions.

C. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C. § 3701-3708). Where applicable, all contracts awarded by the non-federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. § 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

D. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT. If the federal award meets the definition of "funding agreement" under 37 C.F.R. § 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 C.F.R. § 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

E. CLEAN AIR ACT (42 U.S.C. § 7401-7671Q.) AND THE FEDERAL WATER POLLUTION CONTROL ACT (33 U.S.C. § 1251-1387). Contracts and subgrants of amounts in excess of $150,000 require the non-federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. § 7401- 7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. § 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Supplier certifies that during the term of this Contract will comply with applicable requirements as referenced above.

F. DEBARMENT AND SUSPENSION (EXECUTIVE ORDERS 12549 AND 12689). A contract award (see 2 C.F.R. § 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R. §180 that implement Executive Orders 12549 (3 C.F.R. § 1986 Comp., p. 189) and 12689 (3 C.F.R. § 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Supplier certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency.

G. BYRD ANTI-LOBBYING AMENDMENT, AS AMENDED (31 U.S.C. § 1352). Suppliers must file any required certifications. Suppliers must not have used federal appropriated funds to pay any

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Suppliers must disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the non-federal award. Suppliers must file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352).

H. RECORD RETENTION REQUIREMENTS. To the extent applicable, Supplier must comply with the record retention requirements detailed in 2 C.F.R. § 200.333. The Supplier further certifies that it will retain all records as required by 2 C.F.R. § 200.333 for a period of 3 years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

I. ENERGY POLICY AND CONSERVATION ACT COMPLIANCE. To the extent applicable, Supplier must comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act.

J. BUY AMERICAN PROVISIONS COMPLIANCE. To the extent applicable, Supplier must comply with all applicable provisions of the Buy American Act. Purchases made in accordance with the Buy American Act must follow the applicable procurement rules calling for free and open competition.

K. ACCESS TO RECORDS (2 C.F.R. § 200.336). Supplier agrees that duly authorized representatives of a federal agency must have access to any books, documents, papers and records of Supplier that are directly pertinent to Supplier's discharge of its obligations under this Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to Supplier's personnel for the purpose of interview and discussion relating to such documents.

L. PROCUREMENT OF RECOVERED MATERIALS (2 C.F.R. § 200.322). A non-federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. § 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

M. FEDERAL SEAL(S), LOGOS, AND FLAGS. The Supplier cannot use the seal(s), logos, crests, or reproductions of flags or likenesses of Federal agency officials without specific pre-approval.

N. NO OBLIGATION BY FEDERAL GOVERNMENT. The U.S. federal government is not a party to this Contract or any purchase by a Participating Entity and is not subject to any obligations or liabilities to the Participating Entity, Supplier, or any other party pertaining to any matter resulting from the Contract or any purchase by an authorized user.

O. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS. The Contractor acknowledges that 31 U.S.C. 38 (Administrative Remedies for False Claims and Statements) applies to the Supplier's actions pertaining to this Contract or any purchase by a Participating Entity.

P. FEDERAL DEBT. The Supplier certifies that it is non-delinquent in its repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowance, and benefit overpayments.

Q. CONFLICTS OF INTEREST. The Supplier must notify the U.S. Office of General Services, Sourcewell, and Participating Entity as soon as possible if this Contract or any aspect related to the anticipated work under this Contract raises an actual or potential conflict of interest (as described in 2 C.F.R. Part 200). The Supplier must explain the actual or potential conflict in writing in sufficient detail so that the U.S. Office of General Services, Sourcewell, and Participating Entity are able to assess the actual or potential conflict; and provide any additional information as necessary or requested.

R. U.S. EXECUTIVE ORDER 13224. The Supplier, and its subcontractors, must comply with U.S. Executive Order 13224 and U.S. Laws that prohibit transactions with and provision of resources and support to individuals and organizations associated with terrorism.

S. PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT. To the extent applicable, Supplier certifies that during the term of this Contract it will comply with applicable requirements of 2 C.F.R. § 200.216.

T. DOMESTIC PREFERENCES FOR PROCUREMENTS. To the extent applicable, Supplier certifies that during the term of this Contract will comply with applicable requirements of 2 C.F.R. § 200.322.

22. CANCELLATION

Sourcewell or Supplier may cancel this Contract at any time, with or without cause, upon 60 days' written notice to the other party. However, Sourcewell may cancel this Contract immediately upon discovery of a material defect in any certification made in Supplier's

DocuSign Envelope ID: AF8BA422-E62C-42F5-93F1-76A67EF96E58

Proposal. Cancellation of this Contract does not relieve either party of financial, product, or service obligations incurred or accrued prior to cancellation.

Table 2: Company Information and Financial Strength

Line Item	Question	Response *	

10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	The Fastenal story began in 1967 when Bob Kierlin pooled together $30,000 with four friends and opened the first Fastenal store, a 1,000 sq. ft. shop in his hometown of Winona, MN. (The original business plan was to dispense nuts and bolts via custom vending machines, but the technology proved impracticable at the time. Several decades would pass before Fastenal finally popularized industrial vending.) After surviving the typical struggles of a startup business, Fastenal gradually found its niche – by going the extra mile for customers and providing the kind of service that kept them coming back. Kierlin later drilled this approach down to four simple words: Growth Through Customer Service. This motto has guided us forward as we've grown from a small regional supplier into one of the world's most dynamic growth companies – from one store to more than 2,100 and counting. For Fastenal it is about more than just providing product to our customers - we believe fulfillment is a small part of a much larger opportunity to help our customers reduce assets, operate more productively, and unlock time, cash, and energy to grow their business faster. As our company has grown, we've aggressively invested in things that make a difference for our customers, continuously improving a multifaceted service network that today includes: • DATA ANALYTICS: Use our analytics program to visualize current activities and trends (at the local and contract levels) as well as future opportunities. Follow the data to continuous improvement. • CATEGORY MANAGEMENT: Product and application experts to help you fully leverage spend while driving your business goals – a focus on total value, not just lowest price. • DISTRIBUTION: From the source, to the last mile, to the point of use – our end-to-end control of product transport is a key element in a reliable and transparent supply chain. • e-BUSINESS SOLUTIONS: Bringing simplicity to purchasing, speed to fulfillment, and visibility to spend, usage, and inventory. • SUBJECT MATTER EXPERTS: Regionally-based experts in areas like safety, metalworking, and Lean supply – dedicated resources who become a vital part of your local operations. • AUTOMATED SUPPLY: A suite of devices to monitor, track, and control wide-ranging products. With Fastenal, the machine is just part of a total inventory management solution. • ONSITE PROGRAMS: Fully-customized onsite servicing locations for larger sites. Usher in expertise and innovation while offloading inventory and non-core activities. • SERVICES: We don't just sell products. We make, modify, and maintain them to meet your unique needs – from tool and hoist repairs to custom slings and hose assemblies. • SOCIAL RESPONSIBILITY SUPPORT: A portfolio of suppliers, products, programs, and solutions to support your environmental and supplier diversity initiatives.	*
11	What are your company's expectations in the event of an award?	Fastenal expects to continue our partnership with Sourcewell. This includes continued efforts to train our sellers on the benefits of cooperative purchasing and market our award to Sourcewell members and prospective Sourcewell members. Fastenal expects to continue to grow this contract aggressively to existing Sourcewell members and to bring new members to Sourcewell. Fastenal expects support from Sourcewell to answer questions about the contracting process and market the benefits of utilizing the Fastenal Sourcewell contract.	*
12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	A member of the S&P 500 index, Fastenal [NASDAQ: FAST] generated revenues of $6.0 billion and net earnings of $925 million in 2021. With minimal long-term debt, robust cash flow and market capitalization, and decades of consistent growth, we're able to drive aggressive improvement and scale our service to meet virtually any need. Please see the attached Financial Strength and Stability_2021 Annual Report for additional information.	*
13	What is your US market share for the solutions that you are proposing?	To our advantage, the industrial distribution market is very fragmented. Fastenal is currently #4 on the Industrial Distribution Big 50 list, and we have approximately 3% of the market share. This means that there is unlimited market potential and growth opportunity in both the US and Canada.	*
14	What is your Canadian market share for the solutions that you are proposing?	To our advantage, the industrial distribution market is very fragmented. Fastenal is currently #4 on the Industrial Distribution Big 50 list, and we have approximately 3% of the market share. This means that there is unlimited market potential and growth opportunity in both the US and Canada.	*
15	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	No.	*

16	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	Fastenal Company is an authorized distributor for all products which are offered for sale. Fastenal currently has more than 5,800 corporately approved vendors and more than 26,000 total vendors company-wide. Fastenal's distribution network is company-owned. Fastenal will employ our decades of experience in maximizing supply chain efficiency to anticipate each Participating Entity's delivery and stocking needs. Product will be delivered by Fastenal trucks first thing in the morning, and put away on the floor by Fastenal employees well before 3rd party logistics carriers are able to arrive. With more than 3,500 in-market locations, Fastenal support is never far away. Each Participating Entity's standard items will be housed in nearby Fastenal branches (or onsite in Fastenal's customer-dedicated 'branch' within the walls of the Participating Entity's site) and managed by Fastenal employees to minimize delays and decrease total touches. Inventory is delivered directly to the Participating Entity via Fastenal's fleet of more than 8,000 vehicles, stocked via the Fastenal Managed Inventory (FMI) solution that best meets the Member's needs, and distributed to points of use as needed.	*
17	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	N/A	*
18	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	Fastenal prides itself on conducting business in a highly ethical manner and we attempt to provide our customers with important information about our organization and the products and services we offer. We strive to bring educational opportunities to our customers in a cost effective manner and make it convenient for our customers to participate in our sponsored seminars, open houses and exposition events we conduct throughout the year. We believe it is important for our customers to be aware of the cost saving products and services Fastenal offers and provide these customers an opportunity to interact with our employees and suppliers to better understand these value added products and services and to take advantage of the cost savings programs for their organizations. Unfortunately, Fastenal received a Notice of Suspension from the Commonwealth of Virginia ('Commonwealth') in connection with the contract we maintain with the Commonwealth. The Notice of Suspension was related to and arises out Fastenal's practice of providing travel and lodging accommodations to all customers who attended a customer training and educational exposition sponsored by Fastenal. The Commonwealth informed us that two (2) agents of the Commonwealth that attended the Customer Expo did not have sufficient authorization to attend and the Commonwealth concluded that Fastenal's practice of providing travel and lodging to these agents was inconsistent with certain standards set forth in the Commonwealth's Vendor Manual. As a result, the Commonwealth issued a suspension of Fastenal's contract to offer goods and services to Commonwealth agencies. While Fastenal disagreed with the imposition of a suspension and we believe the Commonwealth's actions were unwarranted in our situation, the Commonwealth has taken this relatively harsh position on this matter. The suspension took effect on November 1, 2016 and remained in effect until October 31, 2017. Fastenal has since been issued a new MRO agreement with the Commonwealth.	*

Table 3: Industry Recognition & Marketplace Success

Line Item	Question	Response *	
19	Describe any relevant industry awards or recognition that your company has received in the past five years	2021 – One of America's Safest Companies, EHS Today 2021 - #4, Industrial Distribution Big 50, Industrial Distribution Magazine 2020 – #5, Industrial Distribution Big 50, Industrial Distribution Magazine 2020 - #7, Top 40 Industrial & Construction Distributors #4, Top MRO Industrial Distributors #4, Top Fluid Power Distributors Top Fastener Distributors Top Safety Distributor, Modern Distribution Magazine 2020 - #26, Top 50 Companies for Environmental, Social, Governance Values, Investor's Business Daily 2019 – One of the 10 Most Innovative Companies, Insight Success 2019 – #5, Industrial Distribution Big 50, Industrial Distribution Magazine 2018 – #5, Industrial Distribution Big 50, Industrial Distribution Magazine 2018 – Minnesota Governor's Safety Award for Performance in multiple facilities 2017 - #472, America's Top Public Companies, Forbes 2017 - #7, Industrial Distribution Big 50, Industrial Distribution Magazine 2017 - #157, Global 2000: World's Best Employers, Forbes	*
20	What percentage of your sales are to the governmental sector in the past three years	Education and government are tracked together in Fastenal's industry sales statistics. 2021: 4.6% 2020: 8.1% 2019: 3.7%	*
21	What percentage of your sales are to the education sector in the past three years	Education and government are tracked together in Fastenal's industry sales statistics. 2021: 4.6% 2020: 8.1% 2019: 3.7%	*
22	List any state, provincial, or cooperative purchasing contracts that you hold. What is the annual sales volume for each of these contracts over the past three years?	As an incumbent Sourcewell, OMNIA – Region 4, OMNIA - UCOP and NASPO ValuePoint contractor, Fastenal has demonstrated success in the administration, marketing, and compliance with the terms and conditions of national cooperative contracts. Fastenal also holds 47 state-wide MRO contracts and has more than 20 years of experience implementing many state-wide MRO contracts with cooperative use features. These statewide contracts span the spectrum of city, county, higher education and state government agencies and utilize participating addendums. Fastenal does not provide sales volumes as this information is confidential and proprietary.	*
23	List any GSA contracts or Standing Offers and Supply Arrangements (SOSA) that you hold. What is the annual sales volume for each of these contracts over the past three years?	Fastenal does not hold any GSA contracts. Fastenal currently holds two standing offers with the Government of Canada, one for safety supplies and one for hand tools.	*

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	

26	Sales force.	Fastenal's sales force is entirely Fastenal-employed, there are no third parties involved. We currently employ more than 20,000 employees worldwide, including 12,400 local sales personnel. Sourcewell participating entities will be serviced by a local Fastenal branch team that is dedicated to their satisfaction. After an account has been opened by a participating entity,a local account representative will be assigned. With our vast sales presence across the United States and Canada, Fastenal's level of support and accountability is unparalleled among industrial supply distributors. Fastenal customers rely on their direct relationship with local personnel who can solve problems, provide on-site/on-call service, and support their needs. This is what sets Fastenal apart in the eyes of our customers – knowing that their dedicated representative will be stopping by to assist with: • product requisition • billing/lead time questions • answering sourcing questions • providing local insight into supply chain solutions • demonstrations, promotions, training, product applications, new item introductions • warranty issues • recycling programs No matter where a member is located – from a remote rural area to a major metropolis – they benefit from a local relationship backed by corporate support and a national distribution network. Additionally, Sourcewell will have the support of Fastenal's Government Sales department. Sourcewell will be supported by Fastenal's 47 Government Sales Specialists whose focus is strictly State agencies, higher education, and political subdivisions. These specialists work directly with agencies and Fastenal branches to: • support contract best practice, compliance, and training (including customer and employee training) • develop custom market baskets and additional discounts within agencies • support FMI Technology implementation • respond to disasters • resolve issues • perform quarterly business reviews (QBR) and ensure overall customer satisfaction	*

27	Dealer network or other distribution methods.	At Fastenal, we understand that delivery speed is a function of distance – and that the shortest supply chain wins. So while others have embraced a centralized direct-ship model (with a 'built-in' one-day lead time), we've never stopped working to decentralize, providing faster, better service as we move ever closer to our customers. Fastenal's branch-based service model enables us to: • Stock product locally for immediate availability • Tailor local branch inventory to match our Sourcewell participating entities' needs • Manage customers' inventory to lower their total cost of ownership • Provide industry leading in-person, flexible, value added customer service Our multiple distribution points not only provide service to Sourcewell participating entities, they also contribute to each of the local communities by paying local taxes, hiring local employees, experiencing the local business environment, and understanding the culture and MRO requirements unique to that area. In addition to our standard branch locations, Fastenal also operates 16 Government branches who are dedicated solely to servicing the Government and higher education entities in their area. Fastenal holds more than $1 billion worth of inventory, immediately available to Sourcewell participating entities through our local branches. Each Fastenal branch serves as a local distribution point for a vast range of Facility MRO supplies – backed by our global distribution and sourcing strength, yet free to tailor its inventory and service to meet the needs of local customers. Branches are serviced by the nearest of 18 Fastenal distribution centers throughout North America, through our company owned fleet of more than 8,600 vehicles. Below are some of the distribution performance metrics that distinguish Fastenal in the marketplace: • 80% of all customer transactions are for products stocked in the local branch or available at a regional distribution center, representing either same-day or 24 to 48 hour fulfillment. • If a standard product is not already in stock at your local branch, we can usually get it there on our own trucks before the next business day begins. 80% of branch deliveries via Fastenal trucks from our distribution centers arrive before 8 a.m. on scheduled truck days. • Fastenal's branches and distribution centers carry more than a billion dollars in inventory in order to provide fast delivery for local customers.	*
28	Service force.	Service will be provided by the same personnel providing sales support on the local level. The assigned account representatives will service any FMI Technology that may be implemented, as well as work with Sourcewell participating entities to engage any additional support that may be required.	*

29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	Orders placed by Sourcewell participating entities will be handled by Fastenal throughout the process. One of our key differentiators in the industrial supply distribution marketplace is the number of options we offer for order placement. Some of the various ways Sourcewell participating entities can order from Fastenal include: • Local Fastenal Branch: Sourcewell participating entities can order items through their local branch (via phone, fax, or email). Branch will provide delivery or make the product available during will-call hours. Additionally, the branch will be available for emergency service outside of standard business hours. • Customer Site Visits: The goal of the site visits performed by Fastenal's local representatives is to provide superior customer and drive cost savings to each of Fastenal's customers by providing a local person to help in the ordering process. • Customer Service Center: Fastenal's Customer Service Center includes dedicated Sourcewell customer service representatives. Fastenal has a toll-free phone number (877-507-7555) as well as a toll-free fax number (866-664-1246) and email address: govsales@fastenal.com. • Product Sourcing: Sourcing of non-core items is service that Fastenal offers to customers to procure items that are not available within Fastenal's distribution system. The local Fastenal branch manages the sourcing, procurement, delivery, and, if required, the inventory management of the sourced items as part of a Fastenal vendor managed inventory solution. Fastenal's sourced items may be a direct line extension with an existing vendor or the item may be procured same day from local vendors. Pricing for sourced items is based on current market conditions and negotiated locally on a per-order basis. • Fastenal.com: Sourcewell participating entities who prefer to place their orders online have the option to place orders through Fastenal's state-of-the-art website. Members will be able to log in with their branch account number to view the Sourcewell online catalog. Fastenal primarily fulfills online orders at the local branch, maintaining the continuity of the local relationship as well as the order history for local inventory stocking models and reporting. • FMI Technology - Inventory Management: Local Fastenal branches can stock customized dedicated inventory for Sourcewell participating entities and keep just the right amount flowing to their stocking locations, minimizing waste, downtime, and total costs. Through these programs, local Fastenal personnel take on the "heavy lifting" of inventory monitoring, ordering, and replenishment. FAST Solutions are tailored to meet the needs of each individual site. • FASTBin: Customers utilize this solution to organize and add efficiency to the ordering process managed by the participating entity or Fastenal. We organize & label new or existing bins and collaborate to establish initial min/max levels and service schedule. Suggested replenishment orders are submitted, reviewed and approved via Fastenal.com. • FASTVend: Sourcewell participating entities position these devices at the point of use allowing more efficient access to inventory all while maintaining security and ensuring allocation rules are followed. When stock runs low, the machine sends an automated notification to the servicing branch and the Fastenal representative initiates the restock process. • Onsite: Participating entities receive the benefit of a team who essentially serve as part of the local staff, providing energy and expertise to free up labor resources and operate more efficiently. • E-Commerce Integration: Whether we connect through a B2B connection, a portal, or our FastConnect punch-out platform your business results are the same: paperless transactions, lower administration costs, and clear usage and spending visibility.

30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	The backbone of our service is a captive logistics network that positions regional distribution centers at the nexus of carefully planned routes to our customers. The system is animated by customer demand, pulling product into the region, the local market, and ultimately the point of use based on usage patterns and production forecasts. Reliable: Planned product needs are stocked in our regional DC and delivered via Fastenal truck to your facility (or offsite Fastenal location) on a regular service schedule to maintain your target inventory levels – a consistent, proactive flow that minimizes stock-outs and costly rush orders. Responsive: Through our 'Fastenal Express' program, a wide range of unplanned needs can be fulfilled the same day (via the local Fastenal public branch) or early the next morning (via our regional DC). Efficient: The combination of highly automated fulfillment centers and carefully planned transportation routes enables us to drive down our distribution costs and economize freight for our strategic customers. Simply put, nobody moves heavy industrial materials more efficiently. Each Fastenal branch will work with the Sourcewell participating entities they serve to establish min/max levels for commonly used and critical items. These items will be held in-stock at the Fastenal store and servicing distribution center to ensure it is available and where it's needed. The local branch will also work to establish vendor managed inventory programs that meet the specific needs of each facility, whether it be a simple bin stock program or a full-service onsite solution. Fastenal's lead time for in-stock items does not exceed 24 to 48 hours and for non-stock items does not exceed 10 days from the date of order (delivery times in AK, HI, PR, GU and Canada may differ).	*
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	Fastenal Company is willing and able to provide products and services to Sourcewell participating entities in all 50 U.S. states, Puerto Rico, and Guam. We currently operate more than 1,400 branch locations and 1,000+ customer onsite facilities in the US and are well equipped to continue our support of this contract.	*
32	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	Fastenal Company is willing and able to provide products and services to Sourcewell participating entities in Canada. In 1994 we opened our first branch in Canada, a number which has since expanded to 170+ branch locations in Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland, Nova Scotia, Ontario, Prince Edward Island, Quebec, and Saskatchewan. The purest expression of our local service philosophy is our Onsite service model, bringing not only our solutions but also Fastenal personnel and Fastenal-owned inventory – essentially a dedicated store – within the walls of your facilities. This service model allows us to provide localized, dedicated service to qualified Sourcewell participating entities which may not be located in close proximity to one of our Fastenal branches.	*
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	Fastenal Company can service all geographic areas of the United States, as well as Puerto Rico and Guam. While we do not maintain branch locations in the Northwest Territories or Yukon Territory in Canada, we are able to provide product via a drop-ship model.	*
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	N/A	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	Items not in-stock at the local branch or not in-stock at the Primary Distribution Center for Alaska, Hawaii, Puerto Rico, or Guam may be subject to shipping charges.	*

Table 7: Marketing Plan

Line Item	Question	Response *	

36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Fastenal's marketing team is committed to promoting Fastenal's products, services, solutions, and preeminent customer service to all Sourcewell Members. Our team will execute a strategic marketing plan that will be rolled out in conjunction with the Sourcewell implementation/ training program. This plan will focus on promoting both organizations and will ensure that our sales force and current and potential government customers understand the power of Fastenal and Sourcewell working together. We will utilize our considerable internal resources to achieve success, including our in-house Marketing and Graphic Design teams, print shop, and vinyl shop. This includes print marketing (linecards, brochures, etc.), online marketing utilizing our website and email marketing programs, and attendance at tradeshows/events. Fastenal is dedicated to ensuring eligible Members will be aware of the value the Agreement can bring to their operations. Our go-to-market strategy is to educate our sales and support personnel, provide tools to grow our local sales representatives' business through the Sourcewell Agreement, and promote the Sourcewell Agreement to our customers at every available opportunity. Fastenal has shown steady performance and growth in market share with our national cooperatives. Historically our training and implementation plans have been effective in deploying our vast network of local branches to end users. With our 3,500+ in-market locations and 12,000+ sales personnel, Fastenal's level of support and accountability is unparalleled among industrial supply distributors. Sourcewell Members will have the support of a variety of sales teams within Fastenal, including local branch personnel and Government Sales Specialists, dedicated to demonstrating the advantages of the Sourcewell Agreement to eligible Members. Fastenal's government sales team will meet with eligible Members to explain the aggressive discounts, market basket, services, and incentives available through the Sourcewell Agreement. Please see the attached "Marketing Plan_Sourcewell All-Inclusive Linecard" which is currently available and provided to Sourcewell Members. Fastenal will continue to make this linecard available to our branches and Sourcewell Members (with any revisions that may be needed per the new agreement).	*
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Fastenal Company leverages a variety of digital platforms to enhance our marketing effectiveness with additional tools being integrated into our marketing technology stack regularly. Fastenal is able to tap into an immense pool of behavioral and transactional data to effectively grow our marketing capabilities and efficiency. Data is collected, in part, from our proprietary ecommerce platform, third-party resources such as Google Ads and Google Analytics, marketing automation services, and from social media channels such as LinkedIn and Facebook. Furthermore, we employ staff to help drive this commitment to fully utilizing marketing data, including a Digital Marketing Manager, a Sales & Marketing Research Analyst, and a Marketing Operations position.	*
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Sourcewell's role in promoting this RFP will be to market to their members that Fastenal has been awarded the MRO contract. Fastenal will work with Sourcewell to develop marketing materials such as linecards, e-mail campaigns, and a landing page on Fastenal.com to promote the features and benefits of the Sourcewell contract. Fastenal will train our government sellers on this contract and target Sourcewell members to adopt this contract as their main MRO contract. Fastenal will work with Sourcewell to promote this contract to new members.	*

39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	https://www.fastenal.com Fastenal hosts a state-of-the-art transactional website to process online orders. All orders are processed through your local branch and sales representative providing quick confirmation and seamless fulfillment on Sourcewell items. Authorized Purchasers can order catalog items online through multiple time-saving functions. Superior online ordering capabilities include: • Advanced Permissions Settings: Spending limits can be set and managed for an unlimited number of users, approvers, or account administrators. Control spending by limiting users to set a budget over a flexible period of time and/or by limiting the size of individual orders. Any user can be set up to be an order requestor, an order approver, or an account administrator. • Product Search: Products can be searched by using product categories, descriptions, key words, manufactures, manufacturer part numbers, industry part numbers, competitor part numbers, customer-specific part numbers, green products, and more. All results can be narrowed down by using attribute refinements. • Custom Order Templates: Order templates are easy to use and easy to create. Simply add items to your cart and save the cart for future use. Give an identity to the Custom Template by choosing a name and applying a description to the Template. Order Templates are user specific or can be shared among users under one Fastenal.com account. • Electronic Quotes (eQuotes): eQuotes are electronic quotes sent to a user from their Fastenal Sales Representative. This is a method of converting customer product requests, vendor managed inventory requests, or vending machine transactions into customer orders without having to enter or re-type data. A notification is sent via email to the user and the eQuote is sent to the user's Fastenal.com account. Approve the eQuote and your local servicing branch will fulfill. • Fast Order Pad: Quickly add items to shopping cart by entering part number and quantity. • File Upload: Import an excel spreadsheet list of part numbers and quantities into the shopping cart. • Order Status: Sourcewell Members can see the status of their orders at any time during the order process. The local branch can provide tracking information on branch-delivered parts and 3rd party tracking numbers are made available in status updates where applicable. • Order History: Ordering entitites can view their history of orders placed online with Fastenal.com. Order history can be reordered and edited for future use and commonly ordered items can be saved into order templates for ease of re-ordering. • FAST 360°: The FAST 360° application on fastenal.com has been engineered to provide insight into your organization's relationship with Fastenal. This ability is exclusive to Fastenal and provides access to information critically important in managing your supply chain. Search, compare and manage your supply chain with three easy-to-use modules that are directly incorporated within Fastenal's eCommerce platform. • My Business allows you to click into each of your facilities locations and all of the way down to the individual vending machine or bin stock which is managed by Fastenal and then pull up the device's respective planogram to get additional information on a specific SKU. Other companies will tell you what they have in stock. With FAST 360º, instantly see what YOU stock in your own facility. • My Inventory allows you to search your own inventory for each of your associated account numbers. You can also use the search function to find items based on keyword, description or part number, and even search by your own part number when they're included in our system. • My Spend is a detailed snapshot of your purchasing habits which provides awareness of planned and unplanned spend behaviors. Using invoice data, FAST 360º illustrates how current spend is being allocated. Monitor purchase activity by category and see which channel that spend is flowing through. Fastenal.com is not just a portal for placing orders, but a tool for managing the supply chain needs. • Product Restriction: Products or categories may be restricted from purchase. Restricted items will be displayed as restricted and the user is not allowed to purchase the items. • Technical Information: All products contain technical information in the form of product attributes, product descriptions, and detailed notes fields. This information can guide the user by the type of product or the specific application of the product. Many products contain CAD Drawings and "Product Standards" informational PDF sheets which contain technical data such as chemical, mechanical, and performance information. Where applicable, links to (M)SDS sheets are made available in the product detail page of the corresponding part. Additionally, the "Supply Chain" section shows availability at the local Fastenal branch. All products visible on fastenal.com can be sourced in various manners.	*

Table 8: Value-Added Attributes

Line Item	Question	Response *	

40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Fastenal will provide customized training programs to meet Sourcewell Members' needs. Training sessions would generally be held at the member's facility, with training conducted by a local Fastenal employee and/or a Fastenal certified vendor. Because of our local presence, these trainings can be offered to Members frequently throughout the year. Costs may vary depending on the size and scope of the training. Fastenal branch representatives and other customer support personnel are kept current on product and industry trends through ongoing training, yearly reviews of industry standards, and close interaction with our suppliers. In addition to customer training, our sales and support personnel participate in career-long professional education and development to continually improve their knowledge and service. The result is a well-trained sales force that can provide technical expertise to end users within a local environment. Fastenal's Certified Vendor Training Program: This program includes training from certified vendors in the following areas: • New products • Equipment & operation – manufacturer/certified set-up/training • Safety and OSHA training • Product application, features and benefits • Cost savings, lean, and vendor managed inventory (VMI) solutions Although designed for our employees, Fastenal's Certified Vendor Training program will be offered to Sourcewell members as customized training workshops. Many of our product trainings are focused on safety, but the program also includes vendors outside of the safety category who provide training on various products and applications. In order to participate in the Certified Vendor Training program, the vendor must design training and present to the Fastenal School of Business (FSB) team, initiating a rigorous certification process that includes a consensus between the FSB instructors and the vendor on the following: • Training requirements • Hands-on and interactive delivery methods • Markets targeted for products • Product applications and uses Safety Training: To support our safety product offering, we've positioned trained Safety Specialists across the United States. Members' Safety Specialist will advise on best-in-class industry practices. With a wide range of categories and a team of industry experts, we are committed to providing technical resources in service of Members' safety program. This may include but is not limited to: • Fall Protection General Awareness Training • Ladder Safety Training • Hearing Conservation Awareness Training • Lock-Out/Tag-Out General Awareness Training Energy Efficient Lighting Audits and Training: Fastenal works in conjunction with our lighting vendors to provide energy efficient lighting audits and training as a value-added service for customers. This program includes: • Lamp/Ballast Standardization Recommendations • Lighting Energy Audits/Analysis/Presentations • Energy Saving Initiatives Specific to Lighting/Ballast • Sustainability Initiatives Specific to Lighting/Ballast & Other Products • Product Design Recommendation/Implementation of the Latest in LED Technology for Enhanced Energy and Maintenance Saving Strategies • Lighting upgrade installation and project management Green and Sustainability Training: Fastenal's Certified Vendor Training includes information about green and sustainability initiatives offered by our various manufacturer partners. We also offer training on our green and sustainability product reporting and ways Sourcewell Members can work with Fastenal's Sustainability Coordinator to establish goals and manage spend to achieve their goals. Annual Customer Show: Fastenal hosts an annual customer show to provide a venue for customers and manufacturing partners to participate in new product rollouts, cost savings training, demonstration of solutions, etc. Additionally, Sourcewell members are afforded an opportunity for government cooperative training provided by National Cooperative Procurement Partners (NCPP). Most trainings are provided at no cost, however some trainings may have applicable fees which will be negotiated based upon the scope of the project.	*

41	Describe any technological advances that your proposed products or services offer.	Fastenal offers a simple value proposition: great people, close to your business, empowered by technology. That includes advanced supply chain, warehouse, and transportation systems to keep product flowing to your facilities, mobility apps that allow us to check stock availability, provide quotes, process orders, and update changes to your inventory anytime, anywhere, and an ever-evolving lineup of automated supply devices, extending the internet of things to products of all shapes and sizes. With our FMI Technology solutions, Members can track assets like tools, tablets, and scanners, who's using each item, and when it's overdue for return or use the same technology as a 24/7 order pickup station. They can also control who has access to products and capture the dynamics behind every item dispensed - who, what, where, when, and why. We employ wide-ranging techniques to automate your inventory and we're exploring new frontiers for the future, including innovations in the areas of van management, customer-managed inventory, asset tracking, and inventory monitoring. Our high-touch service and automated devices combine to produce unique insight into your usage, and our reporting solutions help Members turn that insight into impact. A great example is vending; every time an item is dispensed, the transaction is tagged to an individual user and other custom metrics such as job number. This information flows to your reporting dashboard, where you can apply the data to simplify job costing, identify overuse issues, and optimize the mix in levels of products in your machines for maximum cost savings. Our FAST 360 portal gives you a live view of your Fastenal program. Members can visualize how inventory is organized in their bin stock and vending solutions as if they're standing in front of the device, search to see if a needed item is available within their facility and exactly where it's located, and analyze spend by time period, product category, or individual part to discern trends and opportunities within their operations. However, as important as technology is, for us it is just one element of a total supply chain solution. Behind the devices and software are local experts to shoulder the burden of inventory management, a world-class distribution machine to bring speed and agility to the supply chain, and a commitment to invest in our customers' success with the fundamentals of effective customer service.	*
42	Describe any “green” initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Fastenal offers a variety of resources specifically geared to help organizations achieve their sustainability goals. Visitors to Fastenal.com have easy eCommerce access to 76,000-plus environmentally preferred products. Fastenal offers environmentally preferred solutions across many product categories. These products reduce negative effects on human health and the environment compared to competing products. All of the EPPs on Fastenal websites are identified with the designation “Green” and a leaf symbol to the right and under the product’s compliance details. This symbol does not indicate third-party certification nor represent a certification of its own. We want to empower our customers by identifying green products so they can make eco-conscious decisions for their business needs. The products in our green offering promote sustainability through resource conservation, end-of-life waste management, and life cycle analysis. • Certified Green Products: Fastenal continues to partner with suppliers that bring solutions. This includes manufacturing, investing in, and offering environmentally preferred or eco-friendly options in every category we offer. From recycled content to third-party certifications, Fastenal's supply chain compliance team advocates and governs this offering. Some of the organizations include: Energy Star, Green Seal, EPA Safer Choice, EcoLogo, Forest Stewardship Council, Sustainable Forestry Initiative, Carpet & Rug Institute, GreenGuard Environmental Institute, USDA Biopreferred, EPA Watersense, SCS Certified, NEMA Premium, UL Environment, and more. • Non-Certified Green Products: Although not certified by a third party, these products offer environmental benefits according to information provided by the manufacturer. We offer this designation because third-party certifications do not exist globally for all green products and categories. Non-certified products in our offering are considered environmentally preferable for various reasons. For example, they may reduce energy consumption, they may have low or no-VOCs (which affect air quality), they may contain recycled content that meets or exceeds EPA standards, etc. We support customers with turnkey waste stream solutions through our partnerships with 56 leaders in the material recycling field, including TerraCycle, Veolia, Call2Recycle, and others. Products for which we have recycling programs available include cardboard, packaging & shipping materials, safety/PPE, sharps, batteries, lighting, electronics, flashlights, office supplies, janitorial/sanitization supplies, breakroom supplies, carbide metalworking products, and medical/dental supplies. Meanwhile, our industrial services, such as cutter regrinding and tool repair, mitigate waste stream impacts in a different way – by helping to extend the service life of the product. More broadly, sustainability is an intrinsic feature of our strategic service model. When organizations partner with Fastenal to avoid over-consumption, obsolete inventory, redundant purchases, expedited ordering, and overlapping deliveries from multiple vendors, they’re taking waste out of their business and the environment, with fewer materials consumed and fewer emissions produced. These outcomes stem from deep-seated values. For 55 years, Fastenal has prospered through careful resource consumption, sustainable value creation for stakeholders, and a core belief in people – foundational concepts that align seamlessly with our ESG vision.	*

43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Fastenal Company is currently ISO 14001:2015 certified for Environmental Management. Certified Green Products: Fastenal continues to partner with suppliers that bring solutions. This includes manufacturing, investing in, and offering environmentally preferred or eco-friendly options in every category we offer. From recycled content to third-party certifications, Fastenal's supply chain compliance team advocates and governs this offering. Some of the organizations include: Energy Star, Green Seal, EPA Safer Choice, EcoLogo, Forest Stewardship Council, Sustainable Forestry Initiative, Carpet & Rug Institute, GreenGuard Environmental Institute, USDA Biopreferred, EPA Watersense, SCS Certified, NEMA Premium, UL Environment, and more. Non-Certified Green Products: Although not certified by a third party, these products offer environmental benefits according to information provided by the manufacturer. We offer this designation because third-party certifications do not exist globally for all green products and categories. Non-certified products in our offering are considered environmentally preferable for various reasons. For example, they may reduce energy consumption, they may have low or no-VOCs (which affect air quality), they may contain recycled content that meets or exceeds EPA standards, etc.	*
44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	Tier 1 Program: Fastenal's Supply Chain Diversity program establishes strategic alliances with small businesses serving as authorized channels of distribution for Fastenal's products and services. Fastenal's Reseller Consortium features strategic partners with a wide range of manufacturing, distribution and service capabilities as well as a full complement of supplier diversity certifications. The full line of Fastenal's fasteners and industrial supplies are available for purchase from our authorized resellers. Some resellers are stocking distributors; others are service providers with agreements for Fastenal to provide logistics and distribution services in support of their customers' requirements. All authorized resellers are the vendor of record, responsible for contract negotiations, pricing, invoicing, accounts receivable management, e-procurement solutions and customer service. Tier II Program: Our Supplier Diversity team will review qualified suppliers and assist to match your company's needs to the capabilities by providing the following: • Potential early involvement in the design and establishment of goals • Realistic and understandable expectations • Accurate forecasting of our anticipated needs and timely distribution of pertinent information • Detailed Tier II usage reports including the following certifications: • HUBZone • Minority-Owned Business • Woman-Owned Business • Veteran-Owned Business • Service Disabled-Veteran Owned Business • Small Business • Small Disadvantaged Business Custom Reporting: Your national account support team will review your compliance reporting needs and benchmark spend accordingly. Reporting can range from basic summary reports (e.g., visualizing global supplier diversity or green spend by channel) to reports displaying spend by department/division, product category, or SKU.	*
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	In an industry that has become increasingly remote and transactional, Fastenal takes a different approach – investing and engaging on the local level to execute our customers' goals. Our value proposition centers on a simple concept: Great people, close to your business. What does this mean for Sourcewell Members? PROXIMITY: Our local footprint positions us to support Sourcewell Members with a dedicated service team, tailored in-market inventory, last-mile delivery (via Fastenal trucks), and custom Fastenal-managed inventory programs. The impact is direct. When we locally stock your product needs, that's inventory you don't have to carry. When we efficiently manage your MRO supply chain, that's time and energy you can focus on core activities. ENGAGEMENT: We become attuned to the nuances and needs of your operations – not only what your teams buy, but how the product is used and the daily challenges faced. PARTNERSHIP: The foundations are mutually-defined goals, a systematic approach to drive and measure continuous improvement, and a willingness to invest in our customers in ways that go far beyond contract pricing and efficient transactions. This includes a custom local or onsite supply chain for Member facilities, along with access to all of the resources that make Fastenal a leader in strategic supply.	*

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document

upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
46	Do your warranties cover all products, parts, and labor?	Fastenal's warranty policy is as follows: LIMITED WARRANTY, DISCLAIMERS, LIMITATION ON WARRANTIES AND REMEDIES. Seller warrants that Products delivered to Buyer hereunder shall be free from any defects in material or workmanship and in conformity with Buyer's written specifications for a period of one year after delivery. Buyer shall inspect Products within a reasonable time (not to exceed 10 days) after receipt and shall promptly notify Seller of any claimed defect or nonconformity. Where the nature, quantity or packaging of Products makes immediate inspection impracticable, neither acceptance nor payment for Products shall waive the right of inspection or the right to return defective or nonconforming Products. Upon receipt of written notice by Buyer and as an exclusive remedy, Seller shall promptly correct or replace, at Seller's option, any defective or non-conforming Products and the direct and necessary cost of such correction or replacement shall be borne by Seller. Correction shall be made, or replacement products shall be delivered by Seller within the on-time period applicable to the original purchase order, unless prevented by conditions not subject to Seller's control. This warranty will not be applicable in the event of the improper selection, misapplication or misuse of the Product by Buyer and any liability from such events is disclaimed by Seller. THE FOREGOING WARRANTIES ARE IN PLACE OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED AND SELLER EXPRESSLY DISCLAIMS ANY OTHER WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. EVERY CLAIM UNDER THIS LIMITED WARRANTY SHALL BE DEEMED WAIVED UNLESS WRITTEN NOTICE IS GIVEN TO SELLER WITHIN SIXTY (60) DAYS AFTER THE DEFECT TO WHICH EACH CLAIM RELATES IS DISCOVERED OR SHOULD HAVE BEEN DISCOVERED.	*
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Fastenal's warranty policy is as follows: LIMITED WARRANTY, DISCLAIMERS, LIMITATION ON WARRANTIES AND REMEDIES. Seller warrants that Products delivered to Buyer hereunder shall be free from any defects in material or workmanship and in conformity with Buyer's written specifications for a period of one year after delivery. Buyer shall inspect Products within a reasonable time (not to exceed 10 days) after receipt and shall promptly notify Seller of any claimed defect or nonconformity. Where the nature, quantity or packaging of Products makes immediate inspection impracticable, neither acceptance nor payment for Products shall waive the right of inspection or the right to return defective or nonconforming Products. Upon receipt of written notice by Buyer and as an exclusive remedy, Seller shall promptly correct or replace, at Seller's option, any defective or non-conforming Products and the direct and necessary cost of such correction or replacement shall be borne by Seller. Correction shall be made, or replacement products shall be delivered by Seller within the on-time period applicable to the original purchase order, unless prevented by conditions not subject to Seller's control. This warranty will not be applicable in the event of the improper selection, misapplication or misuse of the Product by Buyer and any liability from such events is disclaimed by Seller. THE FOREGOING WARRANTIES ARE IN PLACE OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED AND SELLER EXPRESSLY DISCLAIMS ANY OTHER WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. EVERY CLAIM UNDER THIS LIMITED WARRANTY SHALL BE DEEMED WAIVED UNLESS WRITTEN NOTICE IS GIVEN TO SELLER WITHIN SIXTY (60) DAYS AFTER THE DEFECT TO WHICH EACH CLAIM RELATES IS DISCOVERED OR SHOULD HAVE BEEN DISCOVERED.	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	N/A	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	N/A	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Fastenal does provide warranty services for some power tools made by other manufacturers for an additional year on top of the original manufacturer's warranty.	*

51	What are your proposed exchange and return programs and policies?	Fastenal must approve cancellation of any order prior to shipment. Orders for Special or Non-standard Products (not in the catalogue) may not be cancelled or returned. Any returns for shipping errors, damage or loss upon delivery must be reported within 10 days of the delivery date. Except as otherwise agreed, Products will not be accepted for return after 30 days from the date of delivery to the Purchaser. Any cancellation or returns accepted after 30 days may be subject to a restocking fee and other charges, for which the Purchaser shall be responsible. All returns should be made to a Fastenal branch or as otherwise designated by Fastenal, and must be in resalable condition and accompanied with an Invoice.	*
52	Describe any service contract options for the items included in your proposal.	Fastenal is offering our Onsite solutions as a service to Participating Sourcewell Entities. Our local branches position us within minutes of our customers' facilities. Our onsite model brings us even closer, in terms of proximity and partnership. While our branches have to balance general market needs, an onsite resource has a single focus: operating a world-class supply chain for one facility. Here's a brief overview at the potential benefits for select Participating Entity sites: EXPERTISE: Your onsite teams will do more than fill orders and bins. They become experts in your operations and the products you need to run them. They also serve as the point persons for other experts in our business, pulling in specialists, suppliers, and sales leadership to execute projects and drive improvement. LABOR UTILIZATION: The team essentially serves as part of your local staff, but without being on your payroll. Leverage our energy and expertise to free up labor resources and operate more efficiently. WORKING CAPITAL: When we move onsite, we sell down your current inventory and phase in our own. Moving forward, the inventory remains on our books until it reaches your floor stocking locations – a dollar-for-dollar improvement in working capital. CONSOLIDATION: The synergy and efficiency of the onsite model allows us to manage an even broader range of products used in your business, expanding opportunities to consolidate, simplify, and leverage. INNOVATION: We bring a deep history in supply chain management. Just as importantly, we bring the future. An onsite solution becomes a direct pipeline to the latest innovations in areas like automated supply, asset tracking, and data analytics. SCALABILITY: Our onsite programs range from less than $1M to over $70M in revenue (for a single site). This speaks to our ability to operate cost-effective solutions for both very large and relatively small facilities. EXPERIENCE: With 1,500+ onsite programs worldwide, nobody offers more experience in implementing and operating successful programs. We're ready to leverage our local talent and infrastructure to quickly craft and activate custom solutions for your facilities. Please see the attached "Standard Onsite Agreement (US)" and "Standard Onsite Agreement (Canada)" as attached within the Standard Transaction Document Samples.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
53	Describe your payment terms and accepted payment methods.	Standard payment terms are Net 30. Fastenal prefers payment via EFT. Payment can also be accepted via check or cash. P-cards/credit cards are accepted at the time of purchase only.	*
54	Describe any leasing or financing options available for use by educational or governmental entities.	N/A	*
55	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Please see the attached “Sourcewell Participation Form” which will need to be completed by each entity choosing to opt into the Sourcewell agreement. Please see the attached “FAST Solutions Terms – US - GOV” and “FAST Solutions Terms – CN – GOV” for an example of the agreement to be utilized for bin stock lease, FASTBin, POD, FASTScale, FASTScan, locker lease, or vending program. Please see the attached “Standard Bin Stock Agreement – GOV” for bin stock programs. Please see the attached “Standard Onsite Agreement (US)” and “Standard Onsite Agreement (Canada)” for the agreement to be utilized for Onsite programs.	*
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	P-cards/credit cards are accepted at the time of purchase only, with no additional cost.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Fastenal Company is offering a product category discount from our wholesale price. Please visit Fastenal’s online catalog at www.fastenal.com for available products and current wholesale prices. Please see the attached ”Sourcewell Discount Schedule.” Fastenal is also offering several “Hot List” options for Participating Sourcewell Entities, including a Hot List program wherein each qualifying Member will have the ability to customize a market basket of up to 500 items. These custom market baskets can be utilized for high-use items, green items, emergency response, etc. Additionally, Fastenal has included a Hot List of the items most commonly utilized by State and Local Government customers. Please see the attached “Sourcewell Hot List.” Additionally, Fastenal can provide sourcing of non-core items to procure items that are not available within Fastenal’s distribution system. Fastenal’s sourced items may be a direct line extension with an existing vendor or the item may be procured same day from local vendors. Pricing for sourced items is based on current market conditions and negotiated locally on a per-order basis.	*
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Fastenal’s discounts range from 23 – 57% off of the current wholesale price at the time of purchase.	*

59	Describe any quantity or volume discounts or rebate programs that you offer.	Volume Discount: Fastenal understands that Participating Entities may, from time to time, have unique purchasing needs requiring the purchase of products in a volume not related to ordinary purchase volume. Fastenal will assist Participating Entities by identifying and passing on the additional value which may be obtained through reaching a volume purchase. The volume discounts will be negotiated between the local Fastenal branch and the Sourcewell Entity based on market conditions. Rebate: To help drive participation to the Sourcewell Agreement, Fastenal has a variety of incentives available to eligible Participating Entities who reach a minimum spend threshold within a contract year. Proposed incentives may include: • Administration Fee • Sales Growth Incentive • Fastenal Solutions-Onsite Incentive • Cumulative Volume Category Discount • Customized Hot List	*
60	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	Fastenal’s sourcing model is a value-added service that we offer to customers to source products. The local Fastenal branch manages the sourcing, procurement, delivery, and, if required, the inventory management of the sourced product as part of a Fastenal vendor managed inventory solution. Pricing for sourced items is based on current market conditions and is negotiated locally on a per-order basis.	*
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Fastenal has not identified any total cost of acquisition costs that are not included in our pricing submission.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Sourced, expanded catalog (catalog items with no published wholesale price), or non-catalog (items not available in our catalog but with a published wholesale price) items and orders requiring special handling or expedited shipment may be subject to shipping charges. Items requiring additional charges would be communicated to the Sourcewell Participating Entity prior to acceptance of a purchase order. Approved charges would be prepaid and billed to the entity.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Items not in-stock at the local branch or not in-stock at the Primary Distribution Center for Alaska, Hawaii, or Canada may be subject to shipping charges.	*

64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Fastenal's FMI Technology solutions help you achieve the right balance of visibility and control for every product within the scope of the partnership. Our FMI Technology program centers on five core concepts: SIMPLIFY: Through our FASTStock program, your local Fastenal teams will execute a consistent service schedule to manually monitor and replenish your inventory locations. This manual process is enhanced by technology, including mobility applications that enable our teams to capture and illuminate data around every part we manage on your behalf: what it is, where it's located, and when we're servicing it. If you prefer to handle inventory monitoring/ordering internally, we also offer a self-service scanning solution (FASTScan). MONITOR: FASTBin devices provide an additional level of visibility and risk mitigation by enabling your servicing Fastenal teams to monitor your bin stock inventory remotely and continuously – a good fit for OEM parts or faster-moving/higher-value MRO items. The benefits are twofold: a more proactive and seamless supply chain, along with more productive utilization of your local Fastenal service teams (i.e., additional labor energy to focus on strategic activities vs. repetitive tasks). CONTROL: FASTVend devices can be deployed to control MRO products of all shapes and sizes. The cloud software makes it easy to set customized controls (who can access what, and how much) and to trace items to individual users and cost centers (including GL codes and/or job numbers if desired). One key result is a sharp and sustained reduction in consumption, typically 20 to 30%. Similar to FASTBin, the local Fastenal teams remotely monitor the inventory in the devices and proactively plan their service to ensure continuous supply. TRACK: We also offer FASTVend solutions to automate the check-out and return process for assets like tools, scanners, and tablets. Site managers can track each asset to the most current user and receive an alert if it's overdue for return. Alerts and lockdowns can also be scheduled for routine recharging, calibration, or maintenance, ensuring that job-ready tools are continuously available near the point of work. Leverage this technology to reduce tool loss and improve productivity. ANALYZE: The ultimate goal of an FMI Technology solution is to take industrial supplies out of the shadows and into a more efficient and controlled environment. Site managers will gain insight into product usage and allocation – how fast each item is turning, who's using it, and what it's being used for. Meanwhile, as your supply chain partner, we will analyze trends in your business and present opportunities to continuously evolve the program (devices, locations, product mix, and min-max levels) for maximum impact. Please see the attached "FAST Solutions Terms – US – GOV," "FAST Solutions Terms – CN – GOV," "Standard Bin Stock Agreement – GOV," "Standard Onsite Agreement (US)," and "Standard Onsite Agreement (Canada)" as included in the Standard Transaction Documents zip file for examples of the agreements to be utilized for our FMI Technology programs.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
65	b. the same as the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Fastenal's Contract Management team helps implement contract terms, conditions, pricing, and time lines for deliverables such as reporting, rebates, and additional discounts (if any). The Sourcewell agreement will be managed within Fastenal's contract management system, a proprietary database that manages pricing, FOB terms, rebates, reporting, and other relevant terms. The Contract Management team will be responsible for ensuring that the contract is correctly administered. This will include working with the Fastenal Government team to document the execution of participating addenda, any unique terms & conditions, rebates or additional fees, and/or reporting requirements of the Sourcewell Participating Entity. The Contract Management System administers the Sourcewell Agreement (including any participating addendum unique terms, fees or reporting) to the Fastenal branch account, driving compliance via the Fastenal branch point of sale (POS) system. The Contract Management team will also manage the administration of contract modifications, extensions, price updates, and other administrative correspondence. Government Sales Support Once the Sourcewell Agreement is entered into the Contract Management System, the day-to-day workload of interfacing with the Government Sales department and Fastenal's branch sales personnel becomes the primary responsibility of the Government Sales Support team. This group serves as a clearinghouse and liaison team between Contract Management and Sales. Fastenal's Government Sales Support team serves as the internal “customer service center” for our branch sales people, providing relevant contract information as well as the “linking” of branch accounts for Sourcewell Members to the Agreement within the Contract Management System. The Government Sales Support team is responsible for remitting reporting to Sourcewell and the Members. This includes sales reports, usage reports, supplier diversity reporting, sustainable purchases, etc.	*
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Fastenal will track the success of the Sourcewell contract by sales growth, number of customers using the contract, and the average dollar in sales per invoice.	*
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor’s sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member’s cost of goods. (See the RFP and template Contract for additional details.)	Fastenal proposes an administrative fee of one percent (1%) less taxes, freight, and product returns, with the exception of onsite customers which will be subject to an administrative fee of one half of a percent (0.5%) less taxes, freight, and product returns. Onsite customers must sign a Sourcewell onsite agreement. Sourcewell will be notified by Fastenal of these agreements. Onsites require a heavy investment in labor and technology but offer the lowest TCO for Sourcewell members.	*

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *	

69	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	Available product lines include: Abrasives; Adhesives, Sealants, and Tape; Cutting Tools and Metalworking; Electrical; Electronics and Batteries; Fasteners; Fleet and Automotive; HVAC and Refrigeration; Hardware; Hydraulics; Janitorial and Cleaning; Lighting; Lubricants, Coolants, and Fluids; Machinery; Material Handling, Lifting and Rigging; Motors; Office and Breakroom Supplies; Outdoor Products and Equipment; Packaging and Shipping Products; Paint and Painting Supplies; Plumbing; Pneumatics; Power Transmission; Pumps; Raw Materials; Safety; Sealing; Security; Test and Measurement; Tools and Equipment; Welding. Services and resources include: Supply Solutions (FMI Technology; FASTStock; FASTBin; FASTVend; E-Business; E-Procurement; Onsite; FASTCrib; Integrated Supply; Jobsite Inventory Solutions) Expert Consultants (National Accounts; Engineering Expertise; Construction Solutions; Government; Lean Solutions; Safety Solutions; Metalworking Support; OEM Support; Healthcare Resources) Manufacturing Services (Spensall Precision Machining; Cardinal Fastener High-Integrity Bolting; API 20E Bolting; Holo-Krome Cold-Forming; Metals, Alloys & Material Services) Industrial Services (Weld-to-Length Bandsaw Blades; Hose Fabrication; Hoist Repair & Certification; Custom Chain Sling Fabrication & Inspection; Custom Packaging; Lifting & Rigging Inspection; Special Assemblies; Tool & Cutter Grinding; Calibration & Repair; Tool Repair & Certification; Custom Logo Program) Compliance & Sourcing (Green Resources; Country of Origin Compliance Solutions; Fastenal Brands; Global Sourcing; Supplier Diversity; Blue Lane Freight)
70	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	ABRASIVES: Sanding Abrasives Products; Abrasive Brushes; Grinding Abrasives Products; Burr Products; Diamond Abrasives Products; Abrasive Accessories; Files & Rasps; Sand Blasters & Accessories; Deburring Products; Sharpeners & Accessories; Buffing & Polishing Products. ADHESIVES, SEALANTS, & TAPE: Tape; Adhesives & Glues; Silicones, Caulks, & Sealants; Threadlocking Chemicals; Adhesives & Sealants Dispensing Tools; Floor & Surface Care Chemicals; Tape Dispensers; Concrete & Asphalt. CUTTING TOOLS & METALWORKING: Indexable Cutting Tools; Milling Products; Saw Blades; General Purpose Holemaking; Threading & Tapping; High Performance Drilling; Toolholding Systems; Tooling Components; Turning & Boring Products; Cutting Tool Assortments Kits. ELECTRICAL: Industrial Controls; Electrical Wire & Accessories; Plugs, Receptacles & Connectors; Terminals & Wire Connectors; Conduit & Accessories; Wire Management; Circuit Protection & Distribution; Power Cords; Electrical Tape; Boxes, Covers, & Accessories; Robotics & Automation; Strut; Insulated Screwdriver Sets; Electrical Hand Tool Kits; NEMA Enclosures & Accessories; Insulated Socket Sets; Insulated Nut Driver Sets; Insulated Spanner Wrench Sets; Insulated Hex Key Sets; Insulated Hack Saws; Insulated Plier Sets; Insulated Wrench Sets; Insulated Wire Wrap & Unwrap Tools; Insulated Wire Wrap & Unwrap Tool Bits. ELECTRONICS AND BATTERIES: Data, Voice & Video Components; Electronic Hardware; Batteries; Battery Chargers; Holsters & Belt Clips; Head Sets; Radios & Two-Way Radios; Ear Pieces; Antennas; Speaker Microphones; Radio Retrofit Kits; Wireless Message Alert Callboxes; Appliances. FASTENERS: Bolts; Screws; Sockets; Nuts; Washers; Set Screws; Pins; Anchors; Retaining Rings & Clips; Rods & Studs; Automotive Fasteners; Rivets; Threaded Inserts & Thread Repair; Fastener Assortment Kits; Nails; Threadlockers; Thread Sealants & Compounds; Clinch Fasteners; Hardware Fasteners. FLEET & AUTOMOTIVE: Fleet Electrical Products; Fleet Filters & Accessories; Automotive Chemicals & Lubricants; DOT Fittings; Dock & Trailer Equipment; DOT Hose & Tubing; Towing & Accessories; Fleet Batteries & Accessories; Shop Equipment; Engine Oil & Additives; Automotive Specialty Tools; Fleet & Automotive Lighting; Truck Boxes & Vehicle Racks; Fluid Transfer Products; Tire & Wheel Products; Fleet Replacement Parts; Truck & Trailer Hardware; Mechanical Components; Air Line Products. HVAC AND REFRIGERATION: Filters; Ventilation Equipment & Supplies; Heating Equipment; Air Conditioners; HVAC Controls & Thermostats; Air Conditioner Accessories; HVAC/R Chemicals; Air Treatment; A/C & Refrigeration; Evaporative Cooler Accessories; Ice Machine Accessories; Valves & Accessories; Hydronic Heating; Heater Accessories; Evaporative Coolers; Seamers; Ice Machines; Punches; Crimpers; Notchers; Seam Rollers. HARDWARE AND BUILDING SUPPLIES: Springs; Hex Cap Screws & Hex Bolts; Strut Clamps & Hangers; Entry & Exit Door Products; Hardware Supplies; Strut Channel Accessories; Construction & Building Supplies; Hasps, Hinges, & Latches; Strut Clamp & Hanger Accessories; Caps & Plugs; Industrial Flooring Products; Cabinet Hardware; Strut Channel; Braces & Brackets; Magnets. HYDRAULICS: Hydraulic Fittings; Hydraulic Pumps & Cylinders; Hydraulic Hoses; Hydraulic Couplers & Accessories; Crimping Machine Accessories; Hydraulic Accumulators & Accessories; Crimping Machines. JANITORIAL & CLEANING: Cleaning Chemicals, Detergents, & Deodorizers; Brooms, Brushes, Dust Pans, & Dusters; Skin Care & Personal Hygiene; Wipers, Towels, & Rags; Trash Cans & Liners; Restroom Fixtures; Mops & Mopping

Equipment; Squeegees & Window Cleaning Equipment; Cleaning Supplies; Vacuums & Accessories; Cleaning Machines; Restroom Supplies; Buckets, Pails, Lids; Cleaning Machine Accessories; Foam Sealants; Janitorial Carts & Accessories.
LIGHTING: Lamps; Work Lights & Accessories; Emergency Lighting & Accessories; Sensors & Accessories; Fixture Accessories; Fixtures; Outdoor Lighting & Accessories; Ballasts & Accessories.
LUBRICANTS, COOLANTS & FLUIDS: Metalworking Chemicals; Lubricants; Grease Fittings & Accessories; Oils; Grease; Protective Coatings; Grease Guns & Accessories; Metalworking Fluid Equipment; Lubrication Equipment.
MACHINERY: Metalworking Machinery; Ironworker Accessories; Machinery Accessories; Drill Press Accessories; Machining Tables; Lathe Accessories; Grinding Machine Accessories; Cold Saw Accessories.
MATERIAL HANDLING, LIFTING & RIGGING: Carts & Trucks; Slings & Accessories; Casters & Wheels; Slot Bars & Accessories; Racks, Shelving, Pallet Racking & Accessories; Ladders & Work Accessing Equipment; Chain & Accessories; Levelers, Noise & Vibration Control; Workbenches, Work Tables & Accessories; Bins; Hoists & Pullers; Storage Containers & Accessories; Cabinets; Cart & Truck Accessories; Conveyors & Accessories; Lifting Hardware; Wire Rope & Accessories; Magnets; Lockers & Accessories; Hand Tool Storage; Cranes, Trolleys, & Accessories; Drums & Drum Handling Equipment; Bollards & Building Protectors; Tie Downs & Cargo Control; Guard Rails, Hand Rails, & Barriers; Rigging Hardware; Lifters & Accessories; Winches & Winch Accessories; Lifts, Stackers, & Accessories; Bin Accessories; Cages & Cage Accessories; Rope & Rope Accessories; Wall Storage Systems & Accessories; Warehouse Supplies & Equipment; Cabinet Accessories; Lifting Magnets & Suction Lifters; Hoppers & Accessories; Industrial Furniture; Pallets & Skids; Mezzanine & Mezzanine Accessories; Worker Movement; Machine Rollers & Roller Kits; Jacks; Tilters & Dumpers; Gondolas & Accessories; Slatwall & Accessories.
MOTORS: Motor Replacement Parts.
OFFICE & BREAKROOM SUPPLIES: Food Service Supplies; Office Organization; Office Furniture; Desk Supplies; Paper & Printing; Boards, Easels, & Accessories; Office Machines & Accessories; Time Cards & Clock Systems; Ice Machine Replacement Parts; Portable Air Conditioners; Ice Machine Replacement Pumps; Computer Supplies & Media; Water Dispensers; Ice Machine Replacement Valves; Ice Machines; Ice Machine Electrical Replacement Parts; Ice Storage Bins; Cash Handling; Freezers; Ice Machine Cleaners.
OUTDOOR PRODUCTS & EQUIPMENT: Garden Hose & Accessories; Landscaping Hand Tools; Landscaping Power Tools; Pressure Washers; Repellants & Pest Control; Generators; Salt Spreaders & Accessories; Pressure Washer Accessories; Generator Accessories; Sprayers & Accessories; Tents & Accessories; Foam Sealants; Trimmer Accessories; Snow & Ice Removal; Lawn Mowers & Accessories; Snow Blowers & Accessories; Chain Saw Accessories; Logging Tools; Power Equipment; Construction Tools & Equipment.
PACKAGING & SHIPPING PRODUCTS: Corrugated Boxes, Cartons, & Mailers; Shipping & Storage Bags; Masking Tape; Shipping Labels & Tags; Packaging Tape; Strapping Products & Accessories; Bubble, Foam, & Cushioning; Envelopes & Mailers; Stretch Wrap & Shrink Film; Water Activated Tape; Stretch Wrap Machines & Accessories; Scales & Accessories; Carry Handles; Desiccants.
PAINT & PAINTING SUPPLIES: Paint & Marking Products; Masking Tape; Paint Roller Products; Paint Brush Products; Painting Accessories; Paint Booth Accessories; Paint Additives; Painting Equipment; Paint Pad Products.
PLUMBING: Pipe Fittings; Plumbing Valves & Accessories; Pipe & Tubing; Plumbing Tools & Equipment; Faucets & Faucet Repair Parts; Toilets, Urinals & Accessories; Water Filters & Accessories; Fountains, Sinks, & Accessories; Drains & Accessories; Hose & Hose Products; Showers, Tubs, & Accessories; Pipe Insulation & Accessories; Pipe Cements & Primers; Pipe Thread Tape; Water Heaters & Accessories; Pipe Lengths; Pipe Thread Sealants; Plumbing Putty.
PNEUMATICS: Pneumatic Fittings; Tubing & Tubing Accessories; Hose Couplers & Accessories; Clamps & Collars; Pressure Gauges & Accessories; Hose Reels & Accessories; Pneumatic Valves & Accessories; Air Preparation; Hose & Hose Assemblies; Actuators & Cylinders; Blow Guns & Accessories; Air Piping Systems; Hose Guards; Pneumatic System Components.
POWER TRANSMISSION: Seals & Accessories; Bearings; Chain & Sprockets; Shims & Shim Stock; Keyed Shafts & Keys; Power Transmission Belts; Bushings; Cam Followers & Yoke Rollers; Collars, Couplings, & Components; Sheaves & Pulleys; Pullers, Separators, & Accessories; Bearing Heaters & Accessories; Linear Motion.
PUMPS: Pump Accessories; Sewage, Submersible & Sump Pumps; Plumbing Pumps; Plumbing Pump Parts & Accessories; Drum, Barrel, & Pail Pumps; Engine Driven Pumps; Evaporative Cooler Pumps; Test Pumps; Booster & Pressure Pumps.
RAW MATERIALS: Sheet Stock Material; Bar Stock; Precision Blanks & Raw Blanks; Tube Stock; Fully Threaded Studs; Threaded Rods; Wire Products; Angle Products; Ball Stock; Foil Products; Coil Rods.
SAFETY: Facility Identification; Hand & Arm Protection; Matting; High Visibility Garments; Traffic Control Products; Label Maker & Laminator Accessories; Fall Protection; Eye Protection; ARC Flash & FR; Disposable Garments; Head & Face

		Protection; First Aid & Emergency Products; Welding Safety Clothing; Lockout & Tagout Products; Work Wear; Foot Protection; Spill Containment; Chemical Resistant Garments; Rain Wear; Respiratory; Welding Helmets & Eye Protection; Safety Storage Cabinets & Containers; Powered & Supplied Air System Accessories; Hearing Protection; Dispensers & Bags; Confined Space Equipment; Heat Stress Products; Fleet & Automotive Safety Equipment; Step Ladders; Joint Support; Gas Detection Accessories; Powered & Supplied Air Systems; Gas Detectors; Intrinsically Safe Lights; Safety Knives; Storm Water Management; Hydration Products; Fire Protection; Label Makers & Laminators; Breathing Air Filtration Systems; Static Control Products; Safety Knife Accessories. SEALING: O-Rings; Flanges, Gaskets, & Gasket Materials; Cord Stock; Rotary & Linear Seals; Compression Packing. SECURITY: Locks & Accessories; Secure Facility; Radio Accessories; Law Enforcement; Key Center Components; Tactical Gear; Radios; Asset Monitoring; Warning Alarms. TEST & MEASUREMENT: Precision Measuring Tools; Meters; HVAC Test Instruments; Individual Levels; Meter Accessories; Thermometers; Lumber Crayons & China Markers; Thermal Imagers; Retrieval Tools; Inspection Mirrors; Thermal Imager Accessories; Chalk Refills; Chalk Reels; Level Sets; Measuring Wheels; Water Treatment; Plumb Bobs; Railroad Chalk; Laser Pointers. TOOLS & EQUIPMENT: Hand Tools; Power Tool Accessories; Air Tools & Accessories; Electrical Tools; Layout & Measuring Tools; Cordless Power Tools; Flashlights & Accessories; Corded Power Tools; Clamping & Holdings; Fastener Installation & Repair Tools; Tool Bags & Tool Belts; Repair & Replacement Parts; Powder & Gas Actuated Systems & Accessories; Compressors; Anchor Installation Tools; Hydraulic Tools & Accessories; HVAC Tools; Compressor Accessories. TRAININGS, RESOURCES, & SUSTAINABILITY: Work Literature & Resources; Recycling Programs; Trainings. WELDING: Consumables; Welding Rods & Wire; Welding Gloves; Gas Apparatus; Welding Safety Equipment; Welding Jackets & Capes; Welding Tools & Support Components; Welding & Cutting Machines; Welding Chemicals; Welding Cable & Accessories; Solder Tool Accessories; Welding Helmets; Welding PAPR Helmets; Welding Pants; Soldering; Heat Resistant Sleeves; Welding Goggles & Glasses; Welding Aprons; Welding Coveralls; Welding Face Shields; Solder Tools; Welding Glove Protectors; Welding Bibs; Welding Chaps & Spats; Welding Caps.	

Table 14B: Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types or classes of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments	
71	Facility MRO	(•) Yes ( ) No	In 2021 Fastenal supplied products spanning nearly 1.78 million unique stock-keeping units (SKUs). This includes 115,000+ “standard” part numbers that are well supported throughout our distribution system, along with a vast range of semi-standard and customer-specific items. Available product lines include: Abrasives; Adhesives, Sealants, and Tape; Cutting Tools and Metalworking; Electrical; Electronics and Batteries; Fasteners; Fleet and Automotive; HVAC and Refrigeration; Hardware; Hydraulics; Janitorial and Cleaning; Lighting; Lubricants, Coolants, and Fluids; Machinery; Material Handling, Lifting and Rigging; Motors; Office and Breakroom Supplies; Outdoor Products and Equipment; Packaging and Shipping Products; Paint and Painting Supplies; Plumbing; Pneumatics; Power Transmission; Pumps; Raw Materials; Safety; Security; Test and Measurement; Tools and Equipment; Welding.	*

72	Industrial supplies or building materials	(•) Yes ( ) No	In 2021 Fastenal supplied products spanning nearly 1.78 million unique stock-keeping units (SKUs). This includes 115,000+ “standard” part numbers that are well supported throughout our distribution system, along with a vast range of semi-standard and customer-specific items. Available product lines include: Abrasives; Adhesives, Sealants, and Tape; Cutting Tools and Metalworking; Electrical; Electronics and Batteries; Fasteners; Fleet and Automotive; HVAC and Refrigeration; Hardware; Hydraulics; Janitorial and Cleaning; Lighting; Lubricants, Coolants, and Fluids; Machinery; Material Handling, Lifting and Rigging; Motors; Office and Breakroom Supplies; Outdoor Products and Equipment; Packaging and Shipping Products; Paint and Painting Supplies; Plumbing; Pneumatics; Power Transmission; Pumps; Raw Materials; Safety; Security; Test and Measurement; Tools and Equipment; Welding.	*
73	Electric, mechanical, fluid, or pneumatic power transmission	(•) Yes ( ) No	A necessity in industrial environments, power transmission products enable energy in the form of rotary motion to be transmitted from the source of power generation to the machinery that depends on it. Bearings, sprockets, gears, belts, and related items are essential in the transmission of power.	*
74	Electrical service or lighting	(•) Yes ( ) No	Electrical products are concerned with the safe transmission of electrical energy for use with machines and appliances. Fastenal's electrical offering includes wires, cords, boxes, conduits, receptacles, and more make electrical energy available where needed while helping to prevent accidents. Lighting products illuminate business, home, and facility interiors as well as outdoor areas and temporary work sites. Lamps differ in terms of light output, energy consumption, and other factors, according to their type. Fluorescent, incandescent, LED, metal halide, sodium vapor, and mercury vapor are among the varieties found.	*
75	Plumbing or waterworks	(•) Yes ( ) No	Fastenal's plumbing offering includes fittings, valves and valve accessories, pipe and pipe accessories, hose and hose products, flanges and gaskets, restroom and plumbing fixtures, repair and replacement parts, tools, cleaning equipment and pumps and accessories.

Exceptions to Terms, Conditions, or Specifications Form

Only those Proposer Exceptions to Terms, Conditions, or Specifications that have been accepted by Sourcewell have been incorporated into the contract text.

Documents

Ensure your submission document(s) conforms to the following:

1. Documents in PDF format are preferred. Documents in Word, Excel, or compatible formats may also be provided.

2. Documents should NOT have a security password, as Sourcewell may not be able to open the file. It is your sole responsibility to ensure that the uploaded document(s) are not either defective, corrupted or blank and that the documents can be opened and viewed by Sourcewell.

3. Sourcewell may reject any response where any document(s) cannot be opened and viewed by Sourcewell.

4. If you need to upload more than one (1) document for a single item, you should combine the documents into one zipped file. If the zipped file contains more than one (1) document, ensure each document is named, in relation to the submission format item responding to. For example, if responding to the Marketing Plan category save the document as "Marketing Plan."

Addenda, Terms and Conditions

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.

3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor’s objectivity in performing the contract is, or might be, impaired.

5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.

7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.

8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.

9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.

10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.

11. Proposer its employees, agents, and subcontractors are not:
    1. Included on the “Specially Designated Nationals and Blocked Persons” list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: https://www.treasury.gov/ofac/downloads/sdnlist.pdf;

    2. Included on the government-wide exclusions lists in the United States System for Award Management found at: https://sam.gov/SAM/; or

    3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☑ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Terry Owen, Sr. Executive Vice President, Fastenal Company

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.

Florida Department of State, Division of Corporations

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 2 **FILE NO.:** UTD26-0015 **DATE:** 1/20/2026

SUBJECT: Change Order No. 1 – Vogel Bros. Building Co. – Additional Funds for Land O' Lakes Wastewater Treatment Plant Rehabilitation and Expansion (PCU22-018.00) – $4,200,000.00

REFERENCES: RSQ-KM-23-001, PU23-0021, UTD24-0021

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: Adolfo Gonzalez, Utilities Engineering and Contract Management Director

RECOMMENDED BOARD ACTION:

Approve Change Order No. 1 with Vogel Bros. Building Co. (Vogel) for Land O' Lakes Wastewater Treatment Plant Rehabilitation and Expansion project to increase the contract amount by the Not to Exceed (NTE) amount of $4,200,000.00, resulting in the total contract amount of $14,147,644.00 for Fiscal Year (FY) 2026. Authorize the Chairman to execute two originals of Change Order No. 1 provided, and direct Board Records to distribute as outlined in the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

To secure equipment with extended lead times, it is necessary to allocate additional funding to the Land O' Lakes Wastewater Treatment Plant Rehabilitation and Expansion contract with Vogel in the amount of $4,200,000.00. This funding will allow for the early procurement of the electrical switchgear and generators, as well as adding more contingency funding to the contract for future unknowns.

This project represents a long-term commitment to modernizing the Land O' Lakes Wastewater Treatment Plant (WWTP), ensuring it remains a dependable and compliant facility capable of supporting the County's evolving wastewater treatment needs. Rehabilitation and expansion of the existing infrastructure are essential to address aging systems, accommodate future growth, and align with environmental and operational standards. The County is using a Progressive Design Build (PDB) delivery method to manage the project in structured phases, beginning with early-stage design and coordination, followed by permitting and construction. This phased approach enhances risk management, strengthens cost predictability, and improves schedule efficiency.

On April 4, 2023, the Board of County Commissioners (BCC) approved the Evaluation Committee's recommendation to shortlist the Solicitation responses for RSQ-KM-23-001 to the top three firms and authorized negotiations with the top-ranked firm, Vogel, to establish a Progressive Design Build Agreement (PDBA) for the Land O' Lakes Wastewater Treatment Plant Rehabilitation and Expansion project (Project).

On November 14, 2023, the BCC approved the PDBA with Vogel for step one (Project Conceptualization and Planning) and step two (Preliminary Design Build) of the PDBA process for a total NTE amount of $9,947,644.00, which included $2,800,000.00 in allowance for additional services including site ground improvements and early

procurement of critical equipment for the project with long lead times for delivery.

Upon approval of the additional funding of $4,200,000.00, the allowance amount for this contract will be increased from $2,800,000.00 to $7,000,000.00. This allowance shall only be authorized in writing by the County Administrator, Assistant County Administrator (Public Infrastructure), or designee.

The Utilities Engineering and Contract Management Department, with concurrence from the Purchasing Department, requests approval to increase the contract by the NTE amount of $4,200,000.00 for FY 2026, resulting in the total contract amount of $14,147,644.00.

The following table shows the project schedule and estimated budget for the design and construction phases.

Estimated Project Schedule and Budget:

Project Activity	Projected Schedule		Estimated Budget	
	Start	Finish	Fiscal Year	Amount
Design - Phases 1 and 2	Fall 2023	Spring 2026	FY 2026	$14,147,644.00
*Construction - Phase 3	Fall 2026	Fall 2029	TBD	*$120,000,000.00
Total:				$134,147,644.00

*Estimated construction cost (not yet approved) is subject to change and will be determined at a later date.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding in the amount of $4,200,000.00 is budgeted and available in FY 2026 in the Water and Wastewater Capital Fund, Wastewater Connection Fee, Project Number 22035.

DISTRIBUTION:
Board Records to distribute as set forth below:
1. Retain one Original
2. Mail One Original to:
   Mr. Darren Vogel
   Vogel Bros. Building Co.
   2720 Drane Field Rd.
   Lakeland, FL 33811

ATTACHMENT(S):

CHANGE ORDER NO. 1

CONTRACT: Land O' Lakes Wastewater Treatment Plant Rehabilitation and Expansion
(Title)

CONTRACTOR: Vogel Bros. Building Co.

BID NO. RSQ-KM-23-001 TASK (if applicable)

CONTRACT DATE: November 14, 2023

(Circle as applicable)

TIME CHANGE **EXTRA WORK** **CREDIT** **OTHER**

The CONTRACTOR is hereby authorized and directed to make the following changes and modifications to the aforesaid Contract in accordance with all requirements applicable thereto.

DESCRIPTION OF CHANGE:	COST IMPACT	FINAL COMPLETION DAYS
Additional Time & Extra Work:	$4,200,000.00	0

REASON FOR CHANGE: Additional funding is needed for the early procurement of long-lead electrical switchgear and generators. This change order will add additional funding to the Allowance. The Allowance can only be authorized in writing by the County Administrator, Assistant County Administrator, or designee.

The initial Contract Price (Final Total Bid Price) was..... $9,947,644.00

Net change by previous Change Orders..... $ 0

The Contract Price prior to this Change Order was..... $9,947,644.00

The Contract Price will be increased by this Change Order..... $4,200,000.00

The Contract Price including this Change Order..... $14,147,644.00

The Final Completion Milestone prior to this Change Order:..... March 10, 2026

The time for the Final Milestone will be **Extended** by (0) days

The Final Completion Milestone as of this Change Order:..... March 10, 2026

The CONTRACTOR waives any and all claims to additional time extension and/or monetary compensation resulting from these changes and all costs associated with and addressed by this Change Order. Except to the extent expressly modified by this Change Order, the aforesaid Contract and all terms and conditions therein, as amended by all previous Change Orders, is reaffirmed in its entirety and shall remain in full force and effect.

IN WITNESS WHEREOF, this Change Order No. 1 to the Design Build Agreement dated November 14, 2023 for the Land O' Lakes Wastewater Treatment Plant Rehabilitation and Expansion has been executed by the parties hereto or by their authorized representatives.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UTD26-0209 **DATE:** 1/20/2026

SUBJECT: Budget Amendment and Resolution – Fourth Amendment to County Utility Projects Joint Funding Agreement between Pasco County, VOPH Master Development Company, LLC, and Galvin-Harris Land Services, LLC – Ratification of Funding, Villages of Pasadena Hills (VOPH) Water and Wastewater Infrastructure – $240,000.00

REFERENCES: UTD23-0180, UT23-0245, PEG24-0326, UTD25-0085, UTD25-0154

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: Adolfo Gonzalez, Utilities Engineering and Contract Management Director

RECOMMENDED BOARD ACTION:

Approve the Fourth Amendment to County Utility Projects Joint Funding Agreement (JFA) between Pasco County, VOPH Master Development Company, LLC, and Galvin-Harris Land Services, LLC (collectively, the Co-Developers), for design and construction services associated with Handcart Road, Tyndall Road, and Curley Road water and wastewater utility infrastructure. Ratify the adjustment of Fiscal Year (FY) 2026 funding from $7,000,000.00 to $7,361,900.00 and FY 2027 funding from $7,000,000.00 to $7,361,900.00, to align with the Capital Improvement Program. Authorize the Chairman to execute the three originals of the agreement provided and direct Board Records to distribute as set forth under the Distribution section below.

Approve Budget Amendment Journal No. 2026 04 13, in the amount of $240,000.00, for FY 2026. Authorize the Chairman to execute the one original Resolution provided; Adopt the Resolution amending the Final Budget for FY 2026, and direct Board Records to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

The Fourth Amendment will revise the water and wastewater infrastructure budget for the design and construction services associated with the Handcart Road, Tyndall Road, and Curley Road pipelines and booster pump stations described in the Joint Funding Agreement (the "Agreement"). The Agreement is limited to revising the anticipated cost of the County-funded portions of the work, and re-allocating the budget for remaining design and construction. VOPH Master Development Company, LLC is the Constructing Entity for the Handcart Road improvements and Galvin-Harris Land Services, LLC is the Constructing Entity for the Tyndall Road and Curley Road improvements.

On October 25, 2022, the Board of County Commissioners (BCC) approved the Villages of Pasadena Hills (VOPH) Global Funding and Escrow Agreement to provide infrastructure for the VOPH planning area. The Agreement allows Pasco County and the Co-Developers to mutually agree to enter into an agreement to induce the Co-Developers and their designated VOPH Master Planned Unit Development (MPUD) Owner(s) to privately fund, design, permit, and construct designated roadway and utilities infrastructure projects within the VOPH planning area.

On February 21, 2023, the County approved a Joint Funding Agreement (JFA) between Pasco County and the Co-Developers, and a budget amendment in the cumulative Not to Exceed (NTE) amount of $9,057,500.00 for the design and construction of water and wastewater infrastructure along Handcart Road (UTD23-0180). Project costs associated with the Florida Department of Environmental Protection (FDEP) Grant Segment will be paid by the County, with reimbursement from the FDEP up to the $6,500,000.00 grant amount. The remaining costs for the grant segment above the FDEP-funded amount will be paid by the County.

On March 21, 2023, the County approved the reallocation of unspent FY 2022 funds from the FDEP Standard Grant Agreement No. LPA0206 to FY 2023 for design and construction. The BCC also approved a budget amendment in the amount of $341,104.00 for owner's representative services (UT23-0245).

On December 5, 2023, the BCC ratified Amendment No. 1 to Agreement No. LPA0206 Standard Grant Agreement with the FDEP for the design and construction of water and wastewater infrastructure along Handcart Road up to a NTE grant reimbursement amount of $6,500,000.00.

On June 4, 2024, the BCC approved, and the parties executed, the First Amendment to the Agreement designating Galvin-Harris Land Services, the constructing entity, for the additional County funded water infrastructure improvements to be designed and constructed on Tyndall Road in VOPH (PEG24-0326). The recommended approval for this agenda item includes ratifying the Fiscal Impact Statement provided with the Amendment No. 1 memorandum.

On December 10, 2024, the BCC approved, and the parties executed, the Second Amendment to the Agreement to update the final budget for the Handcart Road water and wastewater utilities currently under construction by the constructing entity (UDT25-0085).

On January 28, 2025, the BCC approved the Third Amendment to the Agreement to clarify the rights and obligations of the County and Co-Developers, and to include water infrastructure improvements on Curley Road (UDT25-0154).

The Utilities Engineering & Contract Management Department, requests the ratification of the Fiscal Impact indicated in the First Amendment (PEG24-0326) from $7,000,000.00 to $7,361,900.00 for FY 2026 and $7,000,000.00 to $7,361,900.00 for FY 2027 for the Tyndall Road, and Curley Road water and wastewater utility infrastructure.

Also, Budget amendment Journal No. 2026 04 13, and the associated Resolution will transfer $240,000.00 in FY 2026 from Water and Wastewater Unit Fund reserves to provide funding to the Handcart Road project for the completion of the Booster Pump Station (BPS), Chemical Station, and the Supervisory Control and Data Acquisition (SCADA) network.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Upon approval of Budget Amendment Journal No. 2026 04 13, funding in the amount of $240,000.00 will be budgeted and available in the Water and Wastewater Capital Improvement Projects Fund, Water Connection Fees, Project Number 22043 in FY 2026. Ratification of FY 2026 in the amount $7,361,900.00 is budgeted and available in the Water, Wastewater Capital Fund, Water Connection Fee, Project Number 24025. Funding in the amount of $7,361,900.00 will be requested for FY 2027, contingent upon approval from the BCC of the various budgets.

DISTRIBUTION:

Board Records to distribute as set forth below:

1. Retain One Original Fourth Amendment and One Resolution

FOURTH AMENDMENT TO
COUNTY UTILITY PROJECTS JOINT FUNDING AGREEMENT
VILLAGES OF PASADENA HILLS (VOPH)
WATER AND WASTEWATER INFRASTRUCTURE

THIS FOURTH AMENDMENT TO COUNTY UTILITY PROJECTS JOINT FUNDING AGREEMENT FOR VILLAGES OF PASADENA HILLS (VOPH) WATER AND WASTEWATER INFRASTRUCTURE (the "Fourth Amendment"), is made and entered into between Pasco County, Florida, a political subdivision of the State of Florida, by and through its Board of County Commissioners ("BCC") (also referred to as the "County"), and VOPH Master Development Company, LLC, a Florida limited liability company ("VOPH Master"), and Galvin-Harris Land Services, LLC, a Florida limited liability company ("Galvin") (VOPH Master and Galvin are also referred to as the "Co-Developers"), with reference to the following facts:

A. On February 21, 2023, the BCC approved and the parties executed that certain County Utilities Projects Joint Funding Agreement for Villages of Pasadena Hills (VOPH) Water and Wastewater Infrastructure (the "Agreement").
B. On June 4, 2024, the BCC approved and the parties executed the First Amendment to the Agreement (together, the "First Amendment").
C. On December 10, 2024, the BCC approved and the parties executed the Second Amendment to the Agreement (together, the original Agreement, the First Amendment and the Second Amendment).
D. On January 28, 2025, the BCC approved and the parties executed the Third Amendment to the Agreement (together, the original Agreement, the First Amendment, the Second Amendment, and the Third Agreement are the "Agreements")
E. The First Amendment defined the budget and allocation of design, permitting, and construction funds for Tyndall Road and Curley Road.
F. Exhibit C and D of the Agreement contemplated a budget for wastewater and water improvements for Handcart Road, and were subsequently modified by the Second Amendment.
G. The County and the Co-Developers mutually have determined that clarification is needed to better allocate the remaining funds for the Handcart Road, Tyndall Road, and Curley Road utility improvements to meet the service commitments pursuant to the Agreements.

Based upon the foregoing recitals, and in consideration for the services to be performed and the funds to be expended by the respective parties, the County and Co-Developers agree as follows:

1. The above recitals are true and correct and are incorporated into this Fourth Amendment.
2. Exhibit C is deleted in its entirety and replaced with the attached Revised Exhibit C.
3. Exhibit D is deleted in its entirety and replaced with the attached Revised Exhibit D.

4. Section E of the First Amendment is deleted in its entirety and replaced with the following:

   The County has budgeted funds allocated for design, permitting, construction, and project management, as needed, for the Tyndall Road and Curley Road (collectively known as the Boyette WTP System Interconnect) as follows: Fiscal Year (FY) 2025 $250,000.00; FY 2026 $7,361,900.00; FY 2027 $7,361,900.00 (respectively for each FY, the "Budget Constraint").

5. The terms, covenants, and conditions set forth in the Agreement, except as specifically amended herein, are hereby ratified, approved, and confirmed in their entirety.

6. If there is any conflict between the terms and conditions of the Agreement and the terms and conditions of this Second Amendment, this Fourth Amendment shall prevail.

7. The Parties intend for the Agreement, the First Amendment, Second Amendment, Third Amendment, and this Fourth Amendment to be hereinafter considered and interpreted together as a single contract between the parties and that the capitalized terms of the Agreement not otherwise defined herein shall have the same meaning as defined in the Agreement.

[SIGNATURE PAGES FOLLOW]

Wherefore, the parties have executed this Fourth Amendment effective as of the date approved by the BCC, below.

BY THE BOARD OF COUNTY COMMISSIONERS **RESOLUTION NO. _____**

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF PASCO COUNTY, FLORIDA, AMENDING THE FINAL BUDGET FOR FISCAL YEAR 2026; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Section 129.06(2), Florida Statutes provides legal authority and defines how a budget may be amended for that year, and may within the first 60 days of a fiscal year amend the budget for the prior fiscal year; and,

WHEREAS, pursuant to Section 129.06(2)(c), Florida Statutes, the reserve for future construction and improvements may be appropriated by resolution of the board for the purposes for which the reserve was made; and,

WHEREAS, pursuant to Section 129.06(2)(e), Florida Statutes, increased receipts for enterprise or proprietary funds received for a particular purpose may, by resolution of the board spread on its minutes, be appropriated and expended for that purpose, in addition to the appropriations and expenditures provided for in the budget. The resolution may amend the budget to transfer revenue between funds to properly account for increased receipts.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Pasco County, Florida, that:

1. The Fiscal Year 2026 Final Budget be amended.
2. The Water & Wastewater Unit Fund appropriates reserves in the amount of $240,000.00 and transfers those funds to the Water & Wastewater Capital Improvement Projects Fund.

3. Revenues and expenses are increased in the amount of $240,000.00 within the Water and Wastewater Capital Improvement Projects Fund for funding the Handcart Road Water and Wastewater Distribution project which requires the completion of the Booster Pump Station, Chemical Station, and SCADA.

4. This resolution will take effect immediately upon its adoption.

DULY ADOPTED with a quorum present and voting this _____ day of _____, 2026.

JACK MARIANO, CHAIRMAN

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UTD23-0180 **DATE:** 2/21/2023

SUBJECT: Joint Funding Agreement and Budget Amendment Journal No. 1962 - Pasco County, VOPH Master Development Company, LLC, and Galvin Land Services, LLC – $2,557,500.00

REFERENCES: UTD22-0012, PDD23-0005

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: David Allen, Utilities Director

RECOMMENDED BOARD ACTION:

Approve the Joint Funding Agreement between Pasco County, VOPH Master Development Company, LLC, and Galvin Land Services, LLC (collectively referred to as the "VOPH Developers") for the design and construction of water and wastewater infrastructure along Handcart Road. Authorize the Chairman to execute the three originals of the agreement provided and direct Board Records to distribute as set forth under the Distribution section below.

Approve Budget Amendment Journal No. 1962 in the amount of $2,557,500.00.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On October 26, 2021, the County entered into a grant agreement with the Florida Department of Environmental Protection (FDEP) to construct water and wastewater infrastructure improvements along a portion of Handcart Road. The project's purpose is to stimulate economic growth in the area of Pasadena Hills. The grant amount is $6,500,000.00 to fund a portion of the total anticipated cost of the improvements.

On October 25, 2022, the County approved the Villages of Pasadena Hills (VOPH) Global Funding and Escrow Agreement to provide roadway and utility infrastructure inside the VOPH Special Planning Area. The agreement also designated the VOPH Developers as the constructing entity for the Handcart Road utility infrastructure described in the FDEP Grant. The Global Funding Agreement included a provision for a supplemental joint funding agreement, which is the subject of this request, to allocate any excess costs beyond the $6,500,000.00 FDEP Grant.

The Joint Funding Agreement describes and allocates the project design, permitting, and construction costs for water and wastewater infrastructure on Handcart Road from Old Bridge Road to Prospect Road in two segments: the FDEP Grant Segment and the VOPH Developer Segment. Project costs associated with the Grant Segment will be paid by the County, with reimbursement from the FDEP up to the $6,500,000.00 grant amount. The total anticipated construction costs of the water and wastewater infrastructure in the FDEP Grant Segment is $8,457,500.00. The cost differential between the FDEP grant construction allocation of $5,900,000.00 and the total Grant Segment cost is $2,557,500.00.

Costs associated with the VOPH Developers Segment totaling $1,450,000.00 will be funded by the VOPH Developers.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Funding in the amount of $2,557,500.00 will be available for Fiscal Year 2023 upon approval of Budget Amendment Journal No. 1962 in the Water and Wastewater Capital Fund, Water and Wastewater Connection Fees, Handcart Road Water/Wastewater Distribution, Project #22043.

COUNTY UTILITY PROJECTS JOINT FUNDING AGREEMENT
VILLAGES OF PASADENA HILLS (VOPH)
WATER AND WASTEWATER INFRASTRUCTURE

THIS AGREEMENT, is made and entered into by and between Pasco County, Florida, a political subdivision of the State of Florida, by and through its Board of County Commissioners ("BCC"), hereinafter referred to as the "County", whose address is 19420 Central Blvd., Land O'Lakes, Florida 34637, and VOPH Master Development Company, LLC, a Florida limited liability company ("VOPH Master"), whose address is 4065 Crescent Park Drive, Riverview, FL 33578, and Galvin Land Services, LLC, a Florida limited liability company ("Galvin"), whose address is 121 Snell Isle Blvd., St. Petersburg, FL 33704 (VOPH Master and Galvin also are referred to herein as the "Co-Developers" and each may be referred to herein as a "Developer" where the context requires), and is joined in by the individual MPUD applicant entities identified herein, their successors and assigns, as third-party beneficiaries only (individually a "VOPH-MPUD Owner" or jointly the "VOPH-MPUD Owners").

W I T N E S S E T H:

WHEREAS, pursuant to the VOPH Financial Plan as previously amended and adopted by the BCC, the County and the Co-Developers (or their respective VOPH-MPUD Owners) are responsible for funding and constructing their respective portions of the master utility infrastructure improvements required to support new development within the Villages of Pasadena Hills Special Planning Area ("VOPH"); and

WHEREAS, the County previously entered into a Standard Grant Agreement (LPA 0206) with the State of Florida Department of Environmental Protection (DEP) for "Pasco County Handcart Road Water and Wastewater" (the "DEP Grant Agreement"), which addresses a portion of the required VOPH master utility improvements necessary to implement the VOPH Financial Plan; and

WHEREAS, the DEP Grant Agreement provides for County reimbursement up to the amount $6,500,000.00 from the State of Florida ("VOPH State Funding") for the two (2) County Utility Projects identified in Sections 5.a (i) and 5.a.(ii) of the October 25, 2022 Funding & Escrow Agreement For Roadways & Utilities Capital Infrastructure Villages Of Pasadena Hills (VOPH) Designated VOPH-MPUD Projects ("VOPH Funding and Escrow Agreement"); and

WHEREAS, as contemplated by the VOPH Funding & Escrow Agreement, dated October 25, 2022, the County and the Co-Developers have mutually analyzed and determined the scope of VOPH master utility improvements necessary to support the initial phases of development within VOPH which are addressed in the VOPH Funding and Escrow Agreement, including, among others, the portion addressed in the DEP Grant agreement; and

WHEREAS, the County and the Co-Developers desire to memorialize the scope of VOPH master utility infrastructure required to support certain initial phases of development within VOPH, to implement the DEP Grant Agreement with respect to the County Utility Projects as identified in the VOPH Funding and Escrow Agreement, and to implement the pre-existing requirements of the adopted VOPH Financial Plan, and amended on October 25, 2022, with respect to the allocation of costs for the required VOPH master utilities infrastructure.

NOW THEREFORE, the County and the Co-Developers, in consideration of the mutual terms, covenants, and conditions set forth herein and above, which are hereby incorporated by reference, agree as follows:

1. **VOPH Master Utility Plan Update**. The initial sizing and scope for future VOPH water and wastewater system components was based on a Master Utility Plan ("MUP") developed by the County and dated April 2020 as set forth in Exhibit A, attached hereto and incorporated by reference. Subsequent VOPH master utilities planning, and preliminary design work (as referenced below) has established that the adopted MUP should be updated and modified due to system capacity and pressure limitations, in order to provide water and sewer service to VOPH as contemplated by the DEP Grant Agreement, the MUP, the adopted VOPH Financial Plan, and this Agreement (see Section 7(k), below).

2. **Handcart Road Segment Plan Scope; DEP Grant Compliance.** The County agrees that a single, consolidated plan set, which includes both County-funded and developer-funded segments, is acceptable for the Handcart Road water and wastewater facilities from the existing terminus at Old Bridge Road north to Prospect Road (the "Handcart Road Segment"). However, to enable the County to meet the requirements for its DEP Grant Agreement, the Co-Developers shall insure that the accepted proposals, bids, and contracts for the design, permitting and construction costs for the Handcart Road Segment shall be segregated to document the costs attributable to the segment graphically identified in the DEP Grant agreement, Attachment 3, page 3, for DEP audit compliance purposes (the "DEP Grant Segment"). The County agrees to

prioritize the review for the consolidated water and sewer Handcart Road plans and that the plan review and approval process for the Handcart Road Segment will proceed prior to the County's update to its MUP pursuant to Section 7(k) below, to meet the time deadlines imposed by the DEP Grant Agreement. In addition, the County will be the responsible party to seek any necessary extension from the State of Florida for the completion and reimbursement deadlines set forth in the DEP Grant Agreement; provided, however, that both the County and the Co-Developers agree to act in good faith and to exercise commercial reasonableness to meet the current DEP Grant agreement deadlines. The Handcart Road Segment with separate identification of the DEP Grant Segment thereof (including the BPS Site) and the Co-Developer Segment thereof are graphically depicted on Exhibit B attached hereto.

3. **Handcart Road Segment Plan Details; MRP Compliance.** To meet the deadlines set forth in the DEP Grant Agreement, the parties agree that existing right-of-way should be utilized for the master utilities within the Handcart Road Segment to the maximum extent feasible. However, the utility plans also shall account for the potential future buildout of the Handcart Road travel lanes pursuant to the adopted VOPH Master Roadway Plan ("MRP"). Accordingly, the utility plans for the Handcart Road Segment shall provide for utility line locations outside (i) current roadway travel lanes and (ii) the future roadway travel lane pavement at ultimate buildout per the VOPH MRP, unless otherwise approved by the County, which such approval will be conditioned on the Co-Developers agreement to fund any future utility relocation of lines placed under future travel lane pavement; however, future landscape areas outside the edge of future travel lane pavement, provided no existing trees are retained or future trees are installed within five feet (5') of any utility line, and MRP areas designated for future sidewalks or trails may be used for the utility facilities subject to County approval, which shall not be unreasonably withheld where necessary to avoid new right-of-way or easement acquisition, and subject to providing the minimum separation between each utility line required by State and County standards.

4. **Wastewater Plan Scope and Implementation.**

a. **Handcart Road Segment Capacity, Line Sizes and Appurtenances.** The County has approved the following wastewater transmission line sizes for the Handcart Road Segment: (i) 16" force main from Old Bridge Road north to Kiefer Road and (ii) 12" force main from Kiefer Road north to Prospect Road. The current MUP does not contemplate any regional or master booster/lift stations in the wastewater

transmission line for the Handcart Road Segment; accordingly, each VOPH-MPUD shall be required to design and construct its internal subdivision lift station(s) to create sufficient pressure flow in the wastewater transmission lines. However, the County in its discretion and at its own expense may elect to provide regional supplemental booster pump(s) for the Handcart Road Segment related to its future VOPH service needs beyond the service requirements for the Designated VOPH-MPUD's as set forth in the VOPH Funding and Escrow Agreement. The Co-Developer's consulting engineer has confirmed that the foregoing wastewater transmission line capacity for the Handcart Road Segment will service approximately 8,000 residential units, which is beyond the minimum 6,000 residential unit capacity specified in the VOPH Funding & Escrow Agreement.

b. **Handcart Road Segment Cost Allocations.** The parties agree to allocate the costs for design, permit and construction of wastewater transmission line facilities within the Handcart Road Segment, as follows:

(i) Based on commitments made incident to the DEP Grant Agreement, the County shall fully fund the design, permit, and construction costs for the wastewater transmission line within the DEP Grant Segment (approximately 13,700 lineal feet), subject to the County's exclusive right to reimbursement to the maximum extent authorized by the DEP Grant Agreement. The Co-Developers or their designee shall serve as the Constructing Entity for the County for the wastewater facilities within the Handcart Road Segment, including implementation of the procurement and document submittal procedures required for the County to meet the reimbursement and audit compliance requirements of the DEP Grant Agreement, as previously specified in the VOPH Funding and Escrow Agreement; and

(ii) The Co-Developers (or their designee) shall fully fund the design, permit, and construction costs for the remainder of the Handcart Road Segment from the terminus of the DEP Grant Segment north to Prospect Road (approximately 2,900 lineal feet), subject to their right to receive VOPH utility surcharge fee credits pursuant to the VOPH Financial Plan and the VOPH Funding and Escrow Agreement.

c. Preliminary Budget for Handcart Road Segment. The preliminary wastewater budget for the Handcart Road Segment, allocated between the County and the Co-Developers pursuant to Section 4(b), above, is attached hereto as Exhibit C, which preliminary budget remains subject to the final contract amounts for the respective segments.

d. **Southeast Wastewater Treatment Plant (SE WWTP) Capacity Upgrade; Potential Wesley Center WWTP System Interconnect**. Notwithstanding the transmission line service capacity created by the Handcart Road Segment as set forth in Section 4(a) above, the County's Southeast Wastewater Treatment Plant ("SE WWTP") only has the current capacity to provide service for the initial 2,000 residential units within the Designated VOPH-MPUD's (versus the 6,000 residential units required by the VOPH Global Funding and Escrow Agreement). However, the County has executed the contract for and has a current expansion/upgrade in process for the SE WWTP, which upon completion by the County (currently anticipated by December 31, 2025) will provide wastewater treatment capacity via the Handcart Road Segment beyond the 6,000 residential units required for the Designated VOPH-MPUD's pursuant to the VOPH Funding and Escrow Agreement and will meet the 9,000 residential units (and more) specified in the DEP Grant application. Consequently, there is no present need for any westward interconnect to the Wesley Center WWTP, subject to confirmation in the planned update to the MUP, to meet the capacity requirements for the VOPH Funding and Escrow Agreement or the DEP Grant Agreement. However, the County may in its discretion and at its own expense (or at the expense of future development projects who are not a party to the current VOPH Funding and Escrow Agreement) elect to fund additional improvements to the wastewater collection system or wastewater treatment plant(s) to meet future needs.

e. **Wastewater Phasing Plan.** Based upon the foregoing, the County and the Co-Developers agree that the wastewater phasing plan pursuant to the VOPH Funding and Escrow Agreement shall be: Phase 1 for the initial 2,000 residential units within the Designated VOPH-MPUD's which presently can be serviced from the SE WWTP via the Handcart Road Segment (once the transmission line is constructed under this Agreement); and Phase 2 for the additional 4,000 residential units to achieve the total 6,000 residential units required by the VOPH Funding and Escrow Agreement which can be serviced from the Handcart Road Segment upon completion of the SE WWTP capacity expansion (also recognizing that the SE WWTP upgrade/expansion (see Section 4.d., above) then will provide service beyond the aggregate 9,000 residential units contemplated by the DEP Grant application to serve additional VOPH density and other density within the service area for the SE WWTP).

5. **Water Plan Scope and Implementation.**

a. **Handcart Road Segment Capacity, Line size and Appurtenances**. The County has approved a 16" potable water transmission line for the Handcart Road Segment. However, due to (i) the substantial topographical elevation increases along Handcart Road north to Prospect Road and (ii) the limited capacity and pressure currently available at the County's Southeast Water Treatment Plant ("SE WTP"), a 2,000-gallon per minute (gpm) water booster pump station ("BPS") also is required for the County to provide service via the Handcart Road Segment pursuant to the DEP Grant Agreement and/or the VOPH Funding and Escrow Agreement. The Co-Developers' consulting engineer has confirmed that the foregoing transmission line capacity together with the BPS would be sufficient to provide service via the Handcart Road Segment for the 6,000 residential units required by the VOPH Funding and Escrow Agreement (and the 9,000 units contemplated by the DEP Grant application) if the SE WTP had sufficient capacity/pressure; however, the SE WTP presently has sufficient capacity/pressure only to serve the first 2,000 residential units pursuant to the VOPH Funding and Escrow Agreement.

b. **Handcart Road Segment Cost Allocations**. The parties agree to allocate the costs for design, permit and construction of potable water transmission line facilities within the Handcard Road Segment, as follows:

(i) Based on commitments made incident to the DEP Grant Agreement, the County shall fully fund the design, permit and construction costs for the potable water transmission line within the DEP Grant Segment (approximately 12,100 lineal feet). The County's funding obligation shall include a BPS which is necessary to provide the service for the DEP Grant Segment and falls within the "transmission infrastructure (e.g., booster pump stations, storage, diversion components, and interconnects)" facility category which is the County's funding responsibility pursuant to the VOPH Financial Plan. The County's funding obligation for the DEP Grant Segment (including both the transmission line and the BPS) is subject to the County's exclusive right to reimbursement to the maximum extent authorized by the DEP Grant Agreement. The Co-Developers or their designee shall serve as the Constructing Entity for the County for the potable water transmission line and BPS within the Handcart Road Segment, including implementation of the procurement and document submittal procedures required for

the County to meet the reimbursement and audit compliance requirements of the DEP Grant agreement, as previously specified in the VOPH funding and Escrow Agreement; and

(ii) The Co-Developers (or their designee) shall fully fund the design, permit and construction costs for the remainder of the water transmission line within the Handcart Road Segment from the terminus of the DEP Grant Segment north to Prospect Road (approximately 2,900 lineal feet), subject to their right to receive VOPH utility surcharge fee credits pursuant to the VOPH Financial Plan and the VOPH funding and Escrow Agreement.

c. Preliminary Budget for Handcart Road Segment. The preliminary budget for the water transmission line and BPS within the Handcart Road Segment, allocated between the County and the Co-Developers pursuant to Section 5(b) above, is attached hereto as Exhibit D. This preliminary budget remains subject to the final contract amounts for the respective segments.

d. Water Booster Pump Station (BPS) Parcel Site. The Co-Developers have facilitated the provision of a parcel of land which presently is owned by the Pasco County School District ("School District"), to serve as the site for the County's BPS referenced in Section 5(a) and 5(b), above. The School District has agreed to convey the BPS Site, which is identified on Exhibit B hereto, at no cost to the County for exclusive use for the BPS site. The County shall make direct arrangements with the School District for conveyance of the BPS site to the County within 90 days after the date of this Agreement.

e. Potential Boyette WTP System Interconnect. As stated in Section 5(a) above, the SE WTP presently has capacity to serve up to 2,000 residential units within the Designated VOPH MPUD's via the Handcart Road Segment (once the transmission line with BPS is constructed). Consequently, in order to provide treatment plant capacity and sufficient water pressure to serve up to 6,000 residential units within the Designated VOPH-MPUD's pursuant to the VOPH Funding and Escrow Agreement (and to serve the 9,000 units contemplated by the DEP Grant application), the County may implement a capacity expansion/upgrade to the SE WTP, provide additional capacity from its Boyette Water Treatment Plant ("Boyette WTP"), or improvements to other water transmission infrastructure. In any event, the SE WTP capacity expansion/upgrade, the additional capacity from Boyette WTP, or other water "transmission infrastructure (booster pump stations, storage, diversion components, and interconnects)" and/or "treatment plant capacity" is the County's responsibility to fund pursuant to the VOPH Financial Plan. The County's previous MUP contemplated that sufficient potable water

service could be provided from the Pasco One Well, the SE WTP via the Handcart Road Segment and a transmission main westward to the Boyette WTP for the build-out condition. However, the Co-Developers' consulting engineer and the County have agreed that the County cannot provide the required water capacity and fire suppression service (beyond the first 2,000 residential units) without additional transmission mains which provides a "loop system" between the SE WTP and the Boyette WTP. Consequently, the County's MUP update pursuant to Section 7(k) below shall include the following alternative routes for such system "looping" to the Boyette WTP:

(i) From the existing water transmission line terminus in Curley Road via Prospect Road to Handcart Road (the "Prospect Water Line Route");

(ii) From the existing water transmission line terminus in Curley Road via future Kiefer Road to Handcart Road (the "Kiefer Water Line Route"); and

(iii) From the existing water transmission line terminus in Curley Road via future Tyndall Road to Handcart Road (the "Tyndall Water Line Route").

The County agrees that its MUP update shall authorize any of the foregoing routes, or other approved combination of water main alignments that meet intended system design requirements, as an acceptable alternative to achieve the required water transmission main interconnect to the Boyette WTP, so that the cost feasibility, timing, and VOPH capacity increase can be determined for each alternative route. In any event, the County also reserves the right to require appropriate third-party participation from other development projects not included within the VOPH Funding and Escrow Agreement, in the construction of additional water transmission lines, BPS, and other appurtenances. The Co-Developers agree to provide the alternative route analysis (including right-of-way requirements), cost feasibility, and capacity enhancement analysis through its consulting engineer for County review, and the County agrees to award VOPH utility surcharge fee credits to the Co-Developers for the engineering costs incurred for such system design engineering analysis.

f. **Water Phasing Plan.** Based on the foregoing, the County and the Co-Developers agree that the water phasing plan pursuant to the VOPH Funding and Escrow Agreement shall be: Phase 1 for the initial 2,000 residential units within the Designated VOPH-MPUD's which can be serviced from the SE WTP via the Handcart Road Segment (once the Handcart Road Segment transmission line with BPS is constructed

pursuant to this Agreement); and Phase 2 for the additional 4,000 residential units to achieve the total 6,000 residential units required by the VOPH Funding and Escrow Agreement (and the 9,000 residential units contemplated by the DEP Grant application) which also can be serviced from the Handcart Road Segment upon a subsequent expansion/upgrade of the SE WTP, and/or the construction of the system interconnect to the Boyette WTP by the County, and/or the construction of a system interconnect with the Pasco One Well, as set forth above. The County agrees to act in good faith and with commercial reasonableness to provide the required water capacity and/or system interconnect to serve Phase 2 by December 31, 2027.

6. **Administration of DEP Grant Agreement**. As set forth in the VOPH Funding and Escrow Agreement, the Co-Developers (or their designee) shall be the Constructing Party for the County with respect to the Handcart Road Segment, including the DEP Grant Segment portion thereof. With respect to the administration of the DEP Grant Agreement, the parties agree as follows:

a. The DEP Grant Agreement does not allow reimbursement to the County for the cost of any right-of-way acquisition. Consequently, the Co-Developers shall dedicate (where its Designated VOPH-MPUD's own or control the land) or otherwise negotiate for the purchase of any third-party right-of-way required for the Handcart Road Segment per the approved plans; provided, however, that (i) as stated in Section 3 above, the existing right-of-way for Handcart Road shall be used wherever feasible, (ii) pursuant to the VOPH Enabling Documents, the County will pursue condemnation by quick-taking if private third-party purchase is not available within a reasonable time or at a reasonable cost (and subject to funding of all such condemnation costs by the Co-Developers), and (iii) the co-Developers shall receive VOPH Transportation Development Fee Credits for all sums spent in the third-party purchase or condemnation process for such right-of-way acquisition, subject to County pre-approval of such costs, which approval shall not be unreasonably withheld and shall be provided if such costs are within the VOPH Financial Plan budget for right-of-way costs.

b. The Co-Developers' and the County's rights and obligations as set forth in this Agreement shall terminate if the Co-Developers have not issued the Notice to Proceed with construction of the DEP Grant Segment to the approved contractor by September 1, 2023, as required in this Agreement; provided, however, that the County shall have approved the utility plans for the DEP Segment by not later than April 15, 2023, or within thirty (30) calendar days after the submittal of a complete set of construction documents deemed

complete and ready for approval by the County, whichever occurs last. Upon termination, the Co-Developers' and the County's rights and obligation as set forth in this Agreement shall terminate unless such date is extended in writing by the County Administrator and the Co-Developers; provided, however, that the County will agree to requested extensions which are consistent with any extension which may be approved by the State of Florida for the DEP Grant Agreement. Once the Notice to Proceed has been issued, the work to complete the DEP Segment shall be carried forward to completion to the satisfaction of the County, in a diligent manner.

c. The Co-Developers (or their designee) shall initially fund each construction draw for the DEP Segment pursuant to the contract draw schedule approved by the Co-Developers and the County, and the County shall reimburse the Co-Developers (or their designee as applicable) within 45 days after receipt of proof of each construction draw payment, together with the required supporting documents. The Co-Developers shall provide all documentation required by and in compliance with the DEP Grant Agreement, attached hereto as Exhibit E and incorporated by reference.

d. The engineering plans, survey and permit costs, not to exceed the amount of $265,000 incurred by the Co-Developers prior to approval of this Agreement and at the request of the County for the DEP Grant Segment, shall be reimbursed by the County to the Co-Developers within 45 days after the approval of the utility plans by the County for the DEP Grant Segment and submittal by the Co-Developers to the County of all documentation required by the County for such engineering and permit cost verification. All design, permit and construction costs, and award of fee credits, for work to be performed by the Co-Developers under this Agreement, other than the costs related to the DEP Grant Segment (above), shall be governed by the VOPH Funding and Escrow Agreement.

e. The County shall be responsible to submit its request to DEP for reimbursement pursuant to the DEP Grant Agreement; however, the Co-Developers shall provide the required documentation to the County for such DEP submittal, including evidence of payment of all costs by the County pursuant to Section 6 (c) above.

f. Prior to beginning work on the DEP Grant Segment, Co-Developers shall have complied with the competitive bidding requirements of the County, DEP Grant Agreement and Florida Statutes.

7. **Miscellaneous**.

a. Within each Designated VOPH-MPUD, the VOPH-MPUD Owners will reserve, or otherwise obtain, all necessary easement and permits, construct and install all internal subdivision lines (which shall mean all lines and related equipment and facilities) necessary to provide the development with potable water and sanitary sewer service as provided for in a County-approved Master Utility Plan, and will bear all costs and expenses thereof, including engineering fees, legal fees, labor, and materials; provided, however, that any main transmission lines now or hereafter identified on the VOPH MUP and which traverse through a Designated VOPH-MPUD shall qualify for VOPH utility surcharge fee credits pursuant to the VOPH-FP. Installation of lines within the subdivision shall not be commenced until plans and specifications therefore have been submitted to and approved, in writing, by the County and other appropriate agencies having jurisdiction.

b. The VOPH-MPUD Owners shall construct and install all lines necessary to tie into the County's existing and future water and wastewater facilities (including the Handcart Road Segment pursuant to this Agreement) and shall bear all costs and expenses thereof, including engineering fees, permitting fees, and construction costs. Installation of these lines shall not be commenced until plans and specifications thereof have been submitted to and approved, in writing, by the County and other appropriate agencies having jurisdiction. These facilities shall be located within existing County easements or rights-of-way or in easements or rights-of-way acquired by the VOPH-MPUD Owners. The right of the VOPH-MPUD Owners to construct facilities in County easements or rights-of-way shall not be unreasonably withheld by the County. Upon completion of the Project by the Co-Developers, the Project shall be inspected by the County and certified by the Co-Developers' engineers. Upon determination by the County that the Project has been properly installed by the Co-Developers in accordance with approved plans and specifications, potable water and sanitary sewer service will be provided to the Project provided the Co-Developers have performed and fulfilled all its obligations imposed upon the Co-Developers under the terms of this agreement, relevant laws, rules, regulations, and ordinances.

c. Either Co-Developer or any Designated VOPH-MPUD Owner included within the VOPH Funding & Escrow Agreement (as may be hereafter amended to add additional Designated VOPH-MPUD’s) shall have the right to secure a guaranty of capacity for water service and/or wastewater service by the

County for a designated number of residential units within such Designated VOPH-MPUD, by payment to the County of fifty percent (50%) of the base impact/connection fees applicable to such residential units (which shall not require pre-payment of any portion of the VOPH utility surcharge amount). The County shall issue a certificate of capacity reservation for such Designated VOPH-MPUD upon receipt of the 50% payment deposit, which capacity reservation will be assignable by the Co-Developer to its developer/builder designees for such Designated VOPH-MPUD. This available procedure to purchase and thereby secure a guaranty of capacity for water service and/or wastewater service by a Designated VOPH-MPUD Owner included within the Funding & Escrow Agreement may accelerate the phasing plan timelines described in Section 4.e. or Section 5.f., above.

d. In consideration for the obligations undertaken by the Co-Developers pursuant to this Agreement, the County agrees that it shall (i) provide notice to the Co-Developers upon the County's receipt of any application for utility plan or permit approval from any developer or builder other than a Co-Developer or its Designated MPUD Owner, for connection of a VOPH development project to the Handcart Road water or wastewater transmission lines required to be constructed by the Co-Developers under this Agreement, (ii) add to its VOPH utility plan approval/permit application checklist a required written letter of authorization from the Co-Developers confirming that a reasonable proportionate share payment and/or purchase and assignment of VOPH utility surcharge credits has been resolved between the Co-Developers and such third-party developer or builder, and (iii) except as required by law, shall not issue any final utility plan/permit approval within VOPH for connection to the Handcart Road transmission lines without receipt of such Co-Developer authorization letter. On not less than a quarterly basis, the Co-Developers shall be responsible (rather than PCU) for coordinating the reporting to the VOPH Fee Credit Registry manager, PCU, and other applicable County departments regarding any sale/assignment of VOPH Utility Fee surcharges related to the foregoing fair share contributions by third-party developers/builders (such Co-Developer reports to include the applicable PCU Application #).

e. It is agreed that, at such time as the Project , or any portion thereof, is connected to and becomes a part of the County's water and sewer system, all such lines and all permits, engineering drawings, and other property owned by the Co-Developers, in connection therewith, shall henceforth be deemed to be owned by the County, and title and ownership shall automatically vest in the County without the necessity of any separate instrument of conveyance or separate instrument of assignment or transfer, and the County shall

have the full privilege of all of the easements and rights-of-way occupied by such facilities. It being the further understanding of the parties, that at such time as the Project , or any part or portion thereof, are used to provide potable water and sanitary sewer service to the development, such lines shall be deemed to be owned by the County in their entirety as fully and completely as if installed and paid for by the County, except that the Co-Developers and its successors and/or assigns reserve the right to use these lines for the purpose set forth in this Agreement. The Co-Developers shall confirm or verify such ownership, conveyance, and title by the execution and delivery of appropriate bills of sale, transfer, assignments, or other instruments of conveyance, free and clear of all liens and encumbrances.

f. After ownership and title to any portion of the Project are vested in the County as set forth above, all responsibility for repair and maintenance of such part or portion as have been installed in appropriate easements or rights-of-way shall be borne by the County, provided that the County shall not, by this agreement, waive or otherwise affect or diminish its rights and remedies under any Maintenance Bond, Performance Bond, the Co-Developers letter of credit, or other guarantee of performance regarding such lines which has been provided the County in accordance with the requirements of its subdivision or other applicable development ordinance. Furthermore, the Designated MPUD-Owner agrees to post a one (1) year maintenance bond in an amount of fifteen (15) percent of the total cost of the internal subdivision project(s). It is further agreed that the Co-Developers shall assign to the County, for the use and benefit of the County and its successors and assigns, each and every construction warranty obtained by the Co-Developers in connection with the installation of the lines and facilities.

g. This agreement shall be binding on any successors or assigns of the parties, including without limitation any Designated VOPH-MPUD owner or successor owner/developer.

h. Nothing in this agreement will be construed to benefit any person or entity, other than the DEP, not a party to this agreement.

i. This agreement shall be governed by the laws of the State of Florida.

j. The WHEREAS clauses and all Exhibits are hereby incorporated as an integral part of this agreement.

k. The County agrees to submit and process its VOPH MUP update consistent with the plans approved by the County pursuant to this Agreement, as a staff-initiated application(s) through its Planning and Development Department, including any required amendments to the VOPH Enabling Documents (including CPAL, VOPH-SD, LDC amendments, etc. as applicable) to conform to this Agreement. No developer or builder applications for utility or other plan approvals or permits related to this Agreement, or for any Designated VOPH-MPUD, shall unreasonably be withheld or delayed by reason of the County's pending or subsequent process to update its MUP pursuant to this Agreement.

l. In the event of any failure by the Co-Developers to provide to the County (i) any required documents specified by FDEP for its reimbursement procedures as set forth in the FDEP Grant Agreement or (ii) any supplemental documents or information subsequently requested by FDEP for any audit compliance procedure, and provided such information or document exists or reasonably can be prepared by the Co-Developers or their third-party contractors or consultants (as such request is applicable), the Co-Developers shall be required to provide same to the County within fifteen (15) days after written request for same. Upon failure by the Co-Developer to provide same, the County shall have the right to specific performance or a mandatory injunction against the Co-Developers, as well as any other remedy provided at law or in equity for such non-compliance, including the right to reimbursement from the Co-Developers for any funds not received from DEP due to the Co-Developers' non-compliance with the DEP Grant Agreement. For any other breach by either the County or the Co-Developers under this Agreement, the non-breaching party shall provide written notice of such breach to the breaching party, and thirty (30) days within which to cure such breach (or such additional time as reasonably required to cure, provided that such cure is commenced within such 30-day period). If a breach is not cured as set forth above to the reasonable satisfaction of the non-breaching party, then the non-breaching party shall have all available remedies at law or in equity, including specific performance, injunctive, mandamus, or other and equitable relief. No bond shall be required to be posted for any injunctive or other equitable relief sought by a non-breaching party and awarded by the Court under this Agreement.

[REMAINDER OF THIS PAGE LEFT INTENTIONALLY BLANK]

IN WITNESS WHEREOF, the parties hereto have executed the foregoing agreement as of the day executed by the County and noted below.

1. Introduction

Pasco County Utilities provides potable water, wastewater, solid waste and reclaimed water services to most of Pasco County residents and businesses. Our mission is to deliver clean and safe water, treat wastewater and reuse treated wastewater for irrigation. Our goal is to provide these services while expanding our system to keep pace with the ever-growing population.

The Villages of Pasadena Hills (VOPH) is a large-scale development planned for approximately 22,000 acres of eastern Pasco County as shown below in Figure 1. As of March 2020, this area is considered "undeveloped" with land currently occupied by small residential neighborhoods, citrus groves, and pasture lands. Extensive infrastructure construction is required before development may move forward.

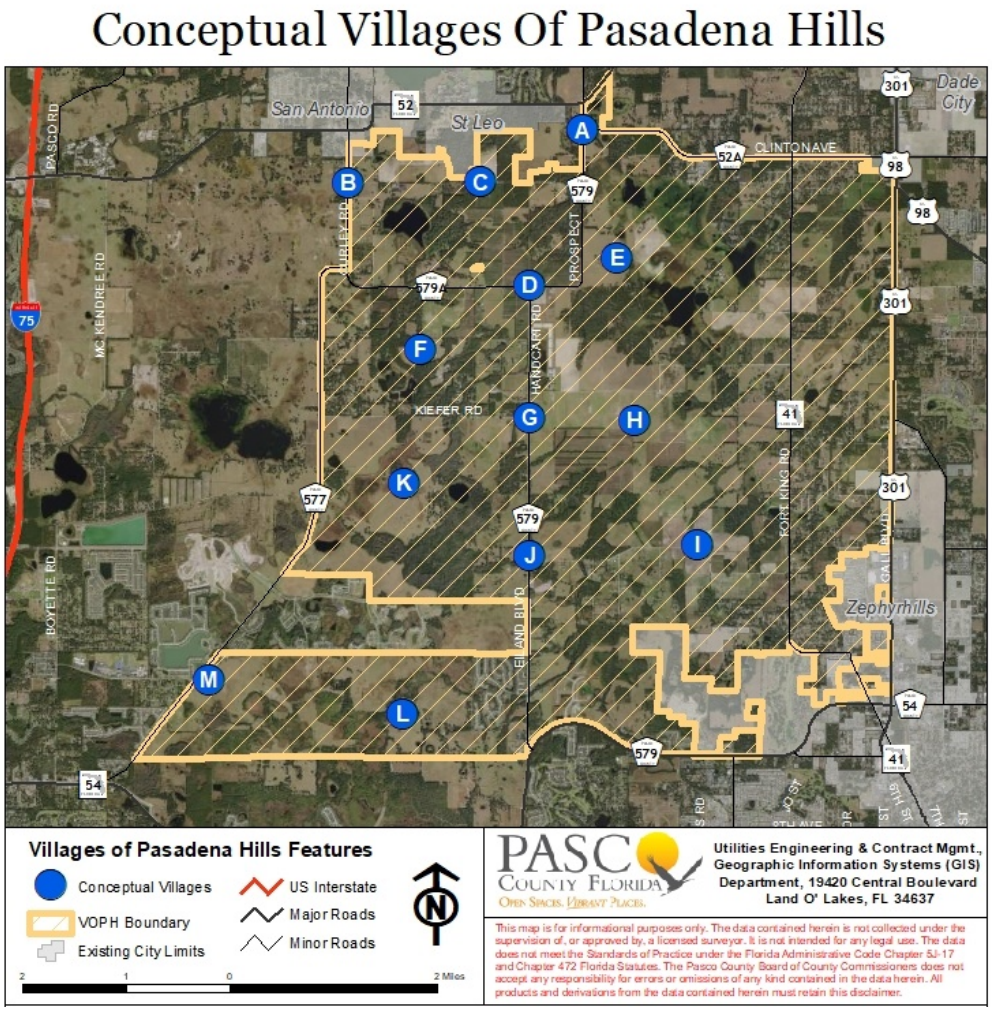

Figure 1. Villages of Pasadena Hills is a relatively large area of eastern Pasco County. (Map created by Max McAmis, Pasco County Utilities Engineering and Contracts Management, GIS Department. Sources: Esri, DigitalGlobe, GeoEye, Earthstar Geographics, CNES/Airbus DS, USDA, USGS, AeroGRID, IGN, the GIS User Community, and Pasco County GIS Data; ArcGIS Desktop 10.5.1. March 23, 2020. Path: C:\Users\ewalton\Documents\ArcGIS\Projects\VOPH_MasterPlan\VOPH_Overview.mxd.)

This report explains the potable, reclaimed, and wastewater services required to support projected growth. The development will be built in two main stages:

1. The Medium-Term Condition is the time between the start of construction when homes are occupied and businesses are up and running, but before build-out. Goals during this time depend on market forces.

2. The Build-Out Condition is when all land parcels are filled and used, and all necessary infrastructure is completed. For utility services, this means the commercial and residential development is at capacity.

The timing and progress of all infrastructure depend on what growth and market forces allow. Careful consideration by stakeholders is needed to time, fund, and organize each role in adding every component of the overall system. However, this report does not focus on these considerations, but on build-out. Thus, this report is not to be used as a detailed roadmap of construction planning or schedules.

2. Project Background

VOPH developers propose building approximately 42,000 single-family homes and 3 million square feet of commercial and office space split into 13 sections, currently identified as Villages A through M as shown in Figure 2.

Pasco County Utility (PCU) planners use the location of each village, their elevations, Pasco County's Highway Vision Plan, and flow requirements to develop a conceptual plan with the sizes and layout for the proposed infrastructure. Pasco County survey data is our source for land elevations. The Highway Vision Plan is the Pasco County Metropolitan Planning Organization's (MPO) plan for future transportation corridors. We base flow requirements for potable water, wastewater, and reclaimed water on proposed population and estimated water use for businesses per industry standards.

The utility infrastructure will include PVC pipes of various diameters, various valve types, well pumps, wastewater pump stations, and manholes. All utility structures are to be installed in the public rights of way and will be owned and maintained by the County.

2.1. Location

The proposed development is bounded by State Route 52 to the North, Eiland Boulevard to the South, Curly Road to the West, and US 301 to the East as shown in Figure 2. Village locations are preliminary and may change as development progresses.

2.2. Demands

After all building and development are complete, Table 1 shows what we expect the demands will be for the final build-out:

Table 1. **Estimated demands at build out**

Utility Service	Millions of Gallons per Day (mgd)
Potable Water Supplied	9.43
Reclaimed Water Supplied	21.10
Wastewater Received and Treated	8.81

3. Potable Water

3.1. Assumptions

PCU planners calculated the potable water demand in Table 1 based on the following assumptions:

- Average daily flow (ADF) for residential areas is based on 215 gallons per day per equivalent residential unit (ERU). An ERU represents a unit of residential development equal to a single-family residence in terms of water use. Therefore, one ERU is equal to one single-family home.
- ADF for commercial properties is 0.15 gallons per day per square foot (gpd/sf).
- Engineers estimate pipe dimensions for peak conditions at buildout.
- A local raw water source, known as Pasco One Well (Fig. 3), can supply up to 1.44 mgd, which is the permitted capacity.
- Connection to the Boyette Water Treatment Plant (WTP) (Fig. 3) will be independent of any current discharge connections to existing infrastructure.
- Pasco One Well and the Southeast WTP will each provide 0.5 mgd to VOPH.
- This report only considers transmission pipes and does not include localized distribution and service lines to the individual single-family homes or commercial and office spaces.

To ensure safe water supply and consistent fire flows, PCU must keep potable water pressure above 20 pounds per square inch (psi). Higher pressures provide better flow to individual connections, but excessive pressures may damage pipes, and other equipment. The modeled pressures range from 45 to 90 psi. These are acceptable pressures in a public supply system. However, pipe materials will be selected to withstand pressures as high as 250 psi.

PCU monitors maximum velocity in pipes to avoid damaging system components. Lower water speeds have the added benefit of reducing noise in the system. PCU's 2020 Utility Standards state velocities in transmission pipes shall be slower than 6.5 feet per second (fps). Our models show water in the proposed distribution system moving below 6 fps.

Figure 2 shows a conceptual layout of the potable water pipes with modeling results.

3.2. Required Potable Water Infrastructure

To effectively serve the proposed VOPH with potable water, the following infrastructure improvements are required.

- The elevations in the proposed VOPH boundary are between 0 feet at sea level to 246 feet above sea level (Fig. 3). To overcome elevation differences between Villages F and G and the other Villages, PCU will need to install a booster pump station capable of pumping approximately 6,000 gpm at 60 psi.

- To reduce possible high-water pressures in the pipes, a pressure-reducing valve is required on Prospect Road south of Village E.

3.3. Proposed Infrastructure

The proposed infrastructure was modeled using fixed-head reservoirs and demand nodes. Demands were based on the ADF with a peaking factor of 1.67 for each village as shown in Table 2. The total length of proposed pipe is shown in Table 3.

Table 2. **Potable Average Daily Flow and Peak Flow**

Village	Total ADF[1] (mgd)	Peak Flow[2] (gpm)
A	0.23	300
B	0.72	800
C	0.60	700
D	1.00	1,200
E	0.21	200
F	1.00	1,200
G	1.20	1,400
H	1.20	1,300
I	0.98	1,100
J	0.71	800

8	3.3
12	9.1
16	7.6
24	1.1
36	4.3
Total	**25.4**

[1] Length calculated from GIS computer models of proposed pipe routes.

3.4. Results

A total of 25.4 miles of potable water transmission pipe is expected to be installed. See the potable water infrastructure map in Figure 2.

4. Wastewater

4.1. Assumptions

PCU planners calculated the wastewater demand in Table 4 based on the following assumptions:

- Engineers use ADF based on 200 gpd per ERU for residential parcels and 0.15 gpd/sf for commercial properties.
- Engineers use an updated peaking factor of 3.0 when estimating Peak Flow.
- County design standards require a minimum of 2 feet per second (fps) flow to keep the pipes clean.

4.2. Proposed Infrastructure

PCU planners use the location of each village, elevations, the transportation MPO Highway Vision Plan, and flow requirements for each development to conceptually size and layout the routes for the proposed infrastructure.

Computer modeling was used for testing the proposed infrastructure and estimating required pipe size and capacity. The ADF demands used by the model for each village are shown in Table 4. A standard peaking factor of 3.8 based on demand was used to calculate pipe capacity to hydraulically remote areas of the project.

A peak factor is used for modeling and design of utility systems to estimate maximum flow at certain times of day. PCU recently updated the utility standards, lowering the peak factor from 3.8 to 3.0.

Table 4. Wastewater Average Daily Flow and Peak Flow

Village	Total ADF[1] (mgd)	Peak Flow[2] (gpm)
A	0.22	400
B	0.67	1,400
C	0.56	1,200

H	1.08	2,300
I	0.91	1,900
J	0.66	1,400
K	0.58	1,200
L	0.47	1,000
M	0.42	900
Total	**8.81**	**18,500**

[1] Total ADF = Number of residential units (EDU) x 200 gpd divided by 1,000,000.

[2] Peak Flow = ADF x 3.68 (peak factor) divided by 1440 (number of minutes in a day). Results rounded up to nearest hundred.

Table 5 shows proposed lengths of pipes.

Wastewater from VOPH will be treated at the Southeast Wastewater Treatment Plant (WWTP) and Wesley Center WWTP, requiring an increase in their capacity to handle 8 mgd and 1 mgd, respectively. Figure 4 shows additional capacity on existing force main pipes. Existing utility infrastructure will serve Village M, as shown in Figure 4.

Table 5. Required Wastewater Force Mains

Diameter (inches)	Approximate Length[1] (miles)
8	1.6
12	8.0
16	8.1
24	1.0
Total	**18.7**

[1] Length calculated from GIS maps of computer models of proposed pipe routes.

4.3. Results

Computer modeling results and a conceptual layout of the wastewater water system pipes can be found in Figure 4.

Conceptual Villages of Pasadena Hills Wastewater Infrastructure Improvements

The data does not meet the Standards of Practice under the Florida Administrative Code Chapter 5J-17 and Chapter 472 Florida Statutes. The Pasco County Board of County Commissioners does not accept any responsibility for errors or omissions of any kind contained in the data herein. All products and derivations from the data contained herein must retain this disclaimer.

Figure 3. A Conceptual Layout of Wastewater Infrastructure required to provide services to the Villages of Pasadena Hills including additional capacity on existing force main pipes is shown; existing utility infrastructure will serve Village M. (Map created by Max McAmis, Pasco County Utilities Engineering and Contracts Management, GIS Department. Sources: Esri; Digital Globe; GeoEye; Earthstar Geographics; CNES/Airbus DS; AeroGRID; IGN and the GIS User Community; Pasco County GIS Department; USDA/NRCS - National Geospatial Center of Excellence; U.S. Department of Agriculture, Service Center Agencies; U.S. Census Bureau, Geography Division. ArcGIS Desktop 10.5.1. April 2, 2020. Path: U:\UTIL_ENG\Project Files- Planning\Development\Villages of Pasadena Hills (VOPH)\Documents\Maps\April 2020_VOPH_Wastewater_MasterPlan.mxd.)

As with the potable water system, high pressures and sudden pressure changes can damage the wastewater infrastructure. The risk is unacceptable if forces reach above 90 psi, requiring corrective action. Typically, a well-functioning system will have pressures below 60 psi. Computer models show that even at peak conditions, pressures in the pipes will remain within an acceptable range of 9 to 63 psi.

5. Reclaimed Water

5.1. Assumptions

PCU planners base their reclaimed water calculations on the following assumptions:

- An adequate amount of reclaimed water is available.
- VOPH will require approximately 21 mgd of reclaimed water for irrigation purposes.
- VOPH will produce about 9 mgd of wastewater to be treated and reused for irrigation. The Pasco County Master Reuse System (PCMRS) will use repump stations and storage reservoirs to supply the remaining 13 mgd.
- An existing reclaimed repump station, known as Price Altman, will provide reclaimed water for Villages A, C, D, E, H, I, St. Leo, and the Lake Jovita Subdivision. Price Altman's current storage tank and pumps will need extensive upgrades so it can supply an estimated 10 mgd to VOPH.
    - The Pasco County Master Reuse System (PCMRS) will fill the Price Altman storage tank during non-watering hours.
- PCMRS will provide reclaimed water to Villages B, F, G, J, K, L, and M directly from the regional pipe system.
    - This source provides the remaining 12 mgd of reclaimed water.
- An average daily flow (ADF) based on 500 gpd/du for residential homes.
    - Commercial developments were excluded, due to minimal impact on pipe sizes and irrigation demands.
- Peak flow is based on $PF = Homes \times 15 \frac{gpm}{zone} \times 0.20 \times 0.25$
    - Peak flows based on 20 percent of households watering each day, with a 25 percent overlap of watering schedules.

- Landscaping contractors divide irrigation areas into zones, which are specific areas served by certain types of sprinkler heads and are used to calculate the demand. In this case, each home lot is a single zone.

- If parallel pipes where proposed, they will be modeled as a single pipe for simplicity. For example, planners will model two 4-inch diameter pipes in parallel as one 6-inch diameter pipe. The capacities are not equal, but close enough for modeling purposes.

- Computer modeling accounted for other large subdivisions and commercial developments, Mirada, EPCO Ranch North, and Epperson Ranch South at build-out conditions.

- PCU planners will not include other known developments south of the Southeast Wastewater Treatment Plant (WWTP).

  - Existing utility infrastructure is at capacity.

5.2. Required Infrastructure

To effectively serve reclaimed water to the proposed VOPH and the developments referenced in section 5.1, the following infrastructure and storage improvements are required:

- PCU needs to expand its Southeast WWTF. Afterwards, it can store and provide 6 mgd of reclaimed water to VOPH.

- PCU should expand the Boyette High-Service Pump (HSP) station by 15,000 gpm. HSPs operate under higher pressures and are used to pump water to higher elevations, usually water storage tanks.

- The Price Altman site will need an additional 8.0 MG of storage and an additional 15,000 gpm HSP station.

- To relieve possible high pressures in pipes, a pressure-reducing valve is required on Prospect Road, just south of Village E.

5.3. Proposed Infrastructure

The proposed infrastructure was modeled using fixed-head reservoirs and demand nodes. Demands were based on the peak flows for each village as shown in Table 6. The total length of proposed pipe is shown in Table 7.

Table 6. Reclaimed Water Daily Demand and Peak Flow Villages A to M

Village	Total ADF[1] (mgd)	Peak Flow[2] (gpm)
A	0.45	700
B	1.64	2,500
C	1.30	2,000
D	2.10	3,200
E	0.500	800
F	2.30	3,500
G	2.70	4,000
H	2.70	4,000
I	2.20	3,300
J	1.60	2,400
K	1.40	2,200
L	1.16	1,800
M	1.05	1,600
Total	**21.10**	**32,000**

[1] Total ADF = number of residential units (EDU) x 300 gpd divided by 1,000,000. Result rounded.

[2] Peak flow = number of EDUs x 15 gpm per zone x 20 percent x 25 percent. Result is rounded up to nearest hundred.

Table 7. Required Reclaimed Water Transmission Mains

Diameter (inches)	Approximate Length[1] (miles)
12	12.9
16	2.5
24	4.4
36	1.9
48	6.2
Total	**27.9**

1 Length calculated from GIS maps of computer models of proposed pipe routes.

5.4. Results

Figure 5 contains the modeling results and a conceptual layout of the reclaimed water mains.

In order to ensure a reliable reclaimed water supply, reclaimed water pressure must stay above 35 psi during watering hours. Higher internal pressures provide better flow to individual connections, but excessive pressures may damage pipes and other equipment. Computer models show pressures in the reclaimed pipes between 40 and 80 psi, this is an acceptable range for a public utility system. Even so, as per industry practice, pipe material will be selected to withstand pressures as high as 250 psi.

Conceptual Villages of Pasadena Hills Reclaimed Water Infrastructure Improvements

Table 8. Conceptual High Service Pump Requirements (Model Inputs)

Location	Elevation (ft)	Flow (gpm)	Setting (psi)
Boyette Reservoir	122	20,870	70
Price Altman	209	14,361	65
Southeast WWTP	106	4,034	70

6. Summary and Conclusions

Based on the above computer modeling results, PCU's planning team has determined that significant infrastructure improvements will be required to provide utility services to VOPH. Overall, close to 72 miles of water, wastewater, and reclaimed pipes will be installed once the project is completed. These improvements are summarized below.

6.1. Potable Water Requirements

- Construction of a Booster Pump Station to move water to higher elevations
- Install multiple hydraulic control valves
- We need to verify that County water sources, Pasco One Well and Southeast WTP, can supply 500,000 gpd to meet the new demand.
- Install about 26 miles of water pipes in various sizes

6.2. Wastewater Requirements

- Expand the Southeast WWTF to handle up to 14.0 mgd
- Expand the Wesley Chapel WWTF with an additional 1.0 mgd capacity
- Install about 19 miles of force main pipes and gravity sewer pipes

6.3. Reclaimed Water Requirements

- Expand the Southeast WWTF Ground Storage Tank (GST) and HSP stations
- Expand the Boyette Reservoir HSP station by 15,000 gpm
- Expand of the Price Altman GST by an additional 8 mg and add an HSP station capable of 15,000 gpm
- Install multiple hydraulic control valves
- Installation of approximately 28 miles of various diameter reclaimed mains

Table 9. Summary of Pipe Infrastructure Requirements

Pipe Diameter[1]	Potable[2]	Wastewater[2]	Reclaimed Water[2]	Total[2]
8	3.3	1.6		**4.90**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Standard Grant Agreement

This Agreement is entered into between the Parties named below, pursuant to Section 215.971, Florida Statutes:

1. Project Title (Project): **Pasco County Handcart Road Water and Wastewater**
Agreement Number: **LPA0206**

2. Parties: **State of Florida Department of Environmental Protection, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000** (Department)
Grantee Name: **Pasco County**
Entity Type: **Local Government**
Grantee Address: **8731 Citizens Dr., New Port Richey, FL 34654**
FEID: **59-6000793** (Grantee)

3. Agreement Begin Date: **Upon Execution**
Date of Expiration: **March 31, 2024**

4. Project Number: *(If different from Agreement Number)*
Project Location(s): **Lat/Long (28.2843, -82.2456)**
Project Description: **The Grantee will construct a water and wastewater distribution system along Handcart Rd.**

5. Total Amount of Funding: **$6,500,000.00**

Funding Source?	Award #s or Line Item Appropriations:	Amount per Source(s):
☑ State ☐ Federal	**LP, GAA LI 1607A, FY 21-22, GR**	**$6,500,000.00**
☐ State ☐ Federal

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STANDARD TERMS AND CONDITIONS
APPLICABLE TO GRANT AGREEMENTS

ATTACHMENT 1

1. Entire Agreement.

This Grant Agreement, including any Attachments and Exhibits referred to herein and/or attached hereto (Agreement), constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, whether written or oral, with respect to such subject matter. Any terms and conditions included on Grantee's forms or invoices shall be null and void.

2. Grant Administration.

a. Order of Precedence. If there are conflicting provisions among the documents that make up the Agreement, the order of precedence for interpretation of the Agreement is as follows:
   i. Standard Grant Agreement
   ii. Attachments other than Attachment 1, in numerical order as designated in the Standard Grant Agreement
   iii. Attachment 1, Standard Terms and Conditions
   iv. The Exhibits in the order designated in the Standard Grant Agreement

b. All approvals, written or verbal, and other written communication among the parties, including all notices, shall be obtained by or sent to the parties' Grant Managers. All written communication shall be by electronic mail, U.S. Mail, a courier delivery service, or delivered in person. Notices shall be considered delivered when reflected by an electronic mail read receipt, a courier service delivery receipt, other mail service delivery receipt, or when receipt is acknowledged by recipient. If the notice is delivered in multiple ways, the notice will be considered delivered at the earliest delivery time.

c. If a different Grant Manager is designated by either party after execution of this Agreement, notice of the name and contact information of the new Grant Manager will be submitted in writing to the other party and maintained in the respective parties' records. A change of Grant Manager does not require a formal amendment or change order to the Agreement.

d. This Agreement may be amended, through a formal amendment or a change order, only by a written agreement between both parties. A formal amendment to this Agreement is required for changes which cause any of the following:
   (1) an increase or decrease in the Agreement funding amount;
   (2) a change in Grantee's match requirements;
   (3) a change in the expiration date of the Agreement; and/or
   (4) changes to the cumulative amount of funding transfers between approved budget categories, as defined in Attachment 3, Grant Work Plan, that exceeds or is expected to exceed twenty percent (20%) of the total budget as last approved by Department.
   A change order to this Agreement may be used when:
   (1) task timelines within the current authorized Agreement period change;
   (2) the cumulative transfer of funds between approved budget categories, as defined in Attachment 3, Grant Work Plan, are less than twenty percent (20%) of the total budget as last approved by Department;
   (3) changing the current funding source as stated in the Standard Grant Agreement; and/or
   (4) fund transfers between budget categories for the purposes of meeting match requirements.
   This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.

e. All days in this Agreement are calendar days unless otherwise specified.

3. Agreement Duration.

The term of the Agreement shall begin and end on the dates indicated in the Standard Grant Agreement, unless extended or terminated earlier in accordance with the applicable terms and conditions. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement, unless otherwise specified in Attachment 2, Special Terms and Conditions. However, work performed prior to the execution of this Agreement may be reimbursable or used for match purposes if permitted by the Special Terms and Conditions.

4. Deliverables.

The Grantee agrees to render the services or other units of deliverables as set forth in Attachment 3, Grant Work Plan. The services or other units of deliverables shall be delivered in accordance with the schedule and at the pricing outlined in the Grant Work Plan. Deliverables may be comprised of activities that must be completed prior to Department making payment on that deliverable. The Grantee agrees to perform in accordance with the terms and conditions set forth in this Agreement and all attachments and exhibits incorporated by the Standard Grant Agreement.

5. Performance Measures.

The Grantee warrants that: (1) the services will be performed by qualified personnel; (2) the services will be of the kind and quality described in the Grant Work Plan; (3) the services will be performed in a professional and workmanlike manner in accordance with industry standards and practices; (4) the services shall not and do not knowingly infringe upon the intellectual property rights, or any other proprietary rights, of any third party; and (5) its employees, subcontractors, and/or subgrantees shall comply with any security and safety requirements and processes, if provided by Department, for work done at the Project Location(s). The Department reserves the right to investigate or inspect at any time to determine whether the services or qualifications offered by Grantee meet the Agreement requirements. Notwithstanding any provisions herein to the contrary, written acceptance of a particular deliverable does not foreclose Department's remedies in the event deficiencies in the deliverable cannot be readily measured at the time of delivery.

6. Acceptance of Deliverables.

a. Acceptance Process. All deliverables must be received and accepted in writing by Department's Grant Manager before payment. The Grantee shall work diligently to correct all deficiencies in the deliverable that remain outstanding, within a reasonable time at Grantee's expense. If Department's Grant Manager does not accept the deliverables within 30 days of receipt, they will be deemed rejected.

b. Rejection of Deliverables. The Department reserves the right to reject deliverables, as outlined in the Grant Work Plan, as incomplete, inadequate, or unacceptable due, in whole or in part, to Grantee's lack of satisfactory performance under the terms of this Agreement. The Grantee's efforts to correct the rejected deliverables will be at Grantee's sole expense. Failure to fulfill the applicable technical requirements or complete all tasks or activities in accordance with the Grant Work Plan will result in rejection of the deliverable and the associated invoice. Payment for the rejected deliverable will not be issued unless the rejected deliverable is made acceptable to Department in accordance with the Agreement requirements. The Department, at its option, may allow additional time within which Grantee may remedy the objections noted by Department. The Grantee's failure to make adequate or acceptable deliverables after a reasonable opportunity to do so shall constitute an event of default.

7. Financial Consequences for Nonperformance.

a. Withholding Payment. In addition to the specific consequences explained in the Grant Work Plan and/or Special Terms and Conditions, the State of Florida (State) reserves the right to withhold payment when the Grantee has failed to perform/comply with provisions of this Agreement. None of the financial consequences for nonperformance in this Agreement as more fully described in the Grant Work Plan shall be considered penalties.

b. Corrective Action Plan. If Grantee fails to correct all the deficiencies in a rejected deliverable within the specified timeframe, Department may, in its sole discretion, request that a proposed Corrective Action Plan (CAP) be submitted by Grantee to Department. The Department requests that Grantee specify the outstanding deficiencies in the CAP. All CAPs must be able to be implemented and performed in no more than sixty (60) calendar days.

    i. The Grantee shall submit a CAP within ten (10) days of the date of the written request from Department. The CAP shall be sent to the Department's Grant Manager for review and approval. Within ten (10) days of receipt of a CAP, Department shall notify Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, Grantee shall have ten (10) days from receipt of Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above may result in Department's termination of this Agreement for cause as authorized in this Agreement.

    ii. Upon Department's notice of acceptance of a proposed CAP, Grantee shall have ten (10) days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department does not relieve Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, Department shall retain the right to require additional or further remedial steps, or to terminate this Agreement for failure to perform. No actions approved by Department or steps taken by Grantee shall preclude Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement

the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to Department as requested by Department's Grant Manager.

iii. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by Department may result in termination of the Agreement.

8. Payment.

a. Payment Process. Subject to the terms and conditions established by the Agreement, the pricing per deliverable established by the Grant Work Plan, and the billing procedures established by Department, Department agrees to pay Grantee for services rendered in accordance with Section 215.422, Florida Statutes (F.S.).

b. Taxes. The Department is exempted from payment of State sales, use taxes and Federal excise taxes. The Grantee, however, shall not be exempted from paying any taxes that it is subject to, including State sales and use taxes, or for payment by Grantee to suppliers for taxes on materials used to fulfill its contractual obligations with Department. The Grantee shall not use Department's exemption number in securing such materials. The Grantee shall be responsible and liable for the payment of all its FICA/Social Security and other taxes resulting from this Agreement.

c. Maximum Amount of Agreement. The maximum amount of compensation under this Agreement, without an amendment, is described in the Standard Grant Agreement. Any additional funds necessary for the completion of this Project are the responsibility of Grantee.

d. Reimbursement for Costs. The Grantee shall be paid on a cost reimbursement basis for all eligible Project costs upon the completion, submittal, and approval of each deliverable identified in the Grant Work Plan. Reimbursement shall be requested on Exhibit C, Payment Request Summary Form. To be eligible for reimbursement, costs must be in compliance with laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures, which can be accessed at the following web address: https://www.myfloridacfo.com/Division/AA/Manuals/documents/ReferenceGuideforStateExpenditures.pdf.

e. Invoice Detail. All charges for services rendered or for reimbursement of expenses authorized by Department pursuant to the Grant Work Plan shall be submitted to Department in sufficient detail for a proper pre-audit and post-audit to be performed. The Grantee shall only invoice Department for deliverables that are completed in accordance with the Grant Work Plan.

f. Interim Payments. Interim payments may be made by Department, at its discretion, if the completion of deliverables to date have first been accepted in writing by Department's Grant Manager.

g. Final Payment Request. A final payment request should be submitted to Department no later than sixty (60) days following the expiration date of the Agreement to ensure the availability of funds for payment. However, all work performed pursuant to the Grant Work Plan must be performed on or before the expiration date of the Agreement.

h. Annual Appropriation Contingency. The State's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of Department if the Legislature reduces or eliminates appropriations.

i. Interest Rates. All interest rates charged under the Agreement shall be calculated on the prevailing rate used by the State Board of Administration. To obtain the applicable interest rate, please refer to: www.myfloridacfo.com/Division/AA/Vendors/default.htm.

j. Refund of Payments to the Department. Any balance of unobligated funds that have been advanced or paid must be refunded to Department. Any funds paid in excess of the amount to which Grantee or subgrantee is entitled under the terms of the Agreement must be refunded to Department. If this Agreement is funded with federal funds and the Department is required to refund the federal government, the Grantee shall refund the Department its share of those funds.

9. Documentation Required for Cost Reimbursement Grant Agreements and Match.

If Cost Reimbursement or Match is authorized in Attachment 2, Special Terms and Conditions, the following conditions apply. Supporting documentation must be provided to substantiate cost reimbursement or match requirements for the following budget categories:

a. Salary/Wages. Grantee shall list personnel involved, position classification, direct salary rates, and hours spent on the Project in accordance with Attachment 3, Grant Work Plan in their documentation for reimbursement or match requirements.

b. Overhead/Indirect/General and Administrative Costs. If Grantee is being reimbursed for or claiming match for multipliers, all multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by Grantee exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate.

c. Contractual Costs (Subcontractors). Match or reimbursement requests for payments to subcontractors must be substantiated by copies of invoices with backup documentation identical to that required from Grantee. Subcontracts which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours spent on the Project. All eligible multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by any subcontractor exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate. Nonconsumable and/or nonexpendable personal property or equipment costing $5,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in Chapters 273 and/or 274, F.S., and Chapter 69I-72, Florida Administrative Code (F.A.C.) and/or Chapter 69I-73, F.A.C., as applicable. The Grantee shall be responsible for maintaining appropriate property records for any subcontracts that include the purchase of equipment as part of the delivery of services. The Grantee shall comply with this requirement and ensure its subcontracts issued under this Agreement, if any, impose this requirement, in writing, on its subcontractors.
    i. For fixed-price (vendor) subcontracts, the following provisions shall apply: The Grantee may award, on a competitive basis, fixed-price subcontracts to consultants/contractors in performing the work described in Attachment 3, Grant Work Plan. Invoices submitted to Department for fixed-price subcontracted activities shall be supported with a copy of the subcontractor's invoice and a copy of the tabulation form for the competitive procurement process (e.g., Invitation to Bid, Request for Proposals, or other similar competitive procurement document) resulting in the fixed-price subcontract. The Grantee may request approval from Department to award a fixed-price subcontract resulting from procurement methods other than those identified above. In this instance, Grantee shall request the advance written approval from Department's Grant Manager of the fixed price negotiated by Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor. Upon receipt of Department Grant Manager's approval of the fixed-price amount, Grantee may proceed in finalizing the fixed-price subcontract.
    ii. If the procurement is subject to the Consultant's Competitive Negotiation Act under section 287.055, F.S. or the Brooks Act, Grantee must provide documentation clearly evidencing it has complied with the statutory or federal requirements.

d. Travel. All requests for match or reimbursement of travel expenses shall be in accordance with Section 112.061, F.S.

e. Direct Purchase Equipment. For the purposes of this Agreement, Equipment is defined as capital outlay costing $5,000 or more. Match or reimbursement for Grantee's direct purchase of equipment is subject to specific approval of Department, and does not include any equipment purchased under the delivery of services to be completed by a subcontractor. Include copies of invoices or receipts to document purchases, and a properly completed Exhibit B, Property Reporting Form**.**

f. Rental/Lease of Equipment. Match or reimbursement requests for rental/lease of equipment must include copies of invoices or receipts to document charges.

g. Miscellaneous/Other Expenses. If miscellaneous or other expenses, such as materials, supplies, non-excluded phone expenses, reproduction, or mailing, are reimbursable or available for match or reimbursement under the terms of this Agreement, the documentation supporting these expenses must be itemized and include copies of receipts or invoices. Additionally, independent of Grantee's contract obligations to its subcontractor, Department shall not reimburse any of the following types of charges: cell phone usage; attorney's fees or court costs; civil or administrative penalties; or handling fees, such as set percent overages associated with purchasing supplies or equipment.

h. Land Acquisition. Reimbursement for the costs associated with acquiring interest and/or rights to real property (including access rights through ingress/egress easements, leases, license agreements, or other site access agreements; and/or obtaining record title ownership of real property through purchase) must be supported by the following, as applicable: Copies of Property Appraisals, Environmental Site Assessments, Surveys and Legal Descriptions, Boundary Maps, Acreage Certification, Title Search Reports, Title Insurance, Closing Statements/Documents, Deeds, Leases, Easements, License Agreements, or other legal instrument documenting

acquired property interest and/or rights. If land acquisition costs are used to meet match requirements, Grantee agrees that those funds shall not be used as match for any other Agreement supported by State or Federal funds.

10. Status Reports.

The Grantee shall submit status reports quarterly, unless otherwise specified in the Attachments, on Exhibit A, Progress Report Form**,** to Department's Grant Manager describing the work performed during the reporting period, problems encountered, problem resolutions, scheduled updates, and proposed work for the next reporting period. Quarterly status reports are due no later than twenty (20) days following the completion of the quarterly reporting period. For the purposes of this reporting requirement, the quarterly reporting periods end on March 31, June 30, September 30 and December 31. The Department will review the required reports submitted by Grantee within thirty (30) days.

11. Retainage.

The following provisions apply if Department withholds retainage under this Agreement:

a. The Department reserves the right to establish the amount and application of retainage on the work performed under this Agreement up to the maximum percentage described in Attachment 2, Special Terms and Conditions. Retainage may be withheld from each payment to Grantee pending satisfactory completion of work and approval of all deliverables.

b. If Grantee fails to perform the requested work, or fails to perform the work in a satisfactory manner, Grantee shall forfeit its right to payment of the retainage associated with the work. Failure to perform includes, but is not limited to, failure to submit the required deliverables or failure to provide adequate documentation that the work was actually performed. The Department shall provide written notification to Grantee of the failure to perform that shall result in retainage forfeiture. If the Grantee does not correct the failure to perform within the timeframe stated in Department's notice, the retainage will be forfeited to Department.

c. No retainage shall be released or paid for incomplete work while this Agreement is suspended.

d. Except as otherwise provided above, Grantee shall be paid the retainage associated with the work, provided Grantee has completed the work and submits an invoice for retainage held in accordance with the invoicing procedures under this Agreement.

12. Insurance.

a. Insurance Requirements for Sub-Grantees and/or Subcontractors. The Grantee shall require its sub-grantees and/or subcontractors, if any, to maintain insurance coverage of such types and with such terms and limits as described in this Agreement. The Grantee shall require all its sub-grantees and/or subcontractors, if any, to make compliance with the insurance requirements of this Agreement a condition of all contracts that are related to this Agreement. Sub-grantees and/or subcontractors must provide proof of insurance upon request.

b. Deductibles. The Department shall be exempt from, and in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Grantee providing such insurance.

c. Proof of Insurance. Upon execution of this Agreement, Grantee shall provide Department documentation demonstrating the existence and amount for each type of applicable insurance coverage ***prior to*** performance of any work under this Agreement. Upon receipt of written request from Department, Grantee shall furnish Department with proof of applicable insurance coverage by standard form certificates of insurance, a self-insured authorization, or other certification of self-insurance.

d. Duty to Maintain Coverage. In the event that any applicable coverage is cancelled by the insurer for any reason, or if Grantee cannot get adequate coverage, Grantee shall immediately notify Department of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within ten (10) days after the cancellation of coverage.

e. Insurance Trust. If the Grantee's insurance is provided through an insurance trust, the Grantee shall instead add the Department of Environmental Protection, its employees, and officers as an additional covered party everywhere the Agreement requires them to be added as an additional insured.

13. Termination.

a. Termination for Convenience. When it is in the State's best interest, Department may, at its sole discretion, terminate the Agreement in whole or in part by giving 30 days' written notice to Grantee. The Department shall notify Grantee of the termination for convenience with instructions as to the effective date of termination or the specific stage of work at which the Agreement is to be terminated. The Grantee must submit all invoices for work to be paid under this Agreement within thirty (30) days of the effective date of termination. The Department shall not pay any invoices received after thirty (30) days of the effective date of termination.

b. Termination for Cause. The Department may terminate this Agreement if any of the events of default described in the Events of Default provisions below occur or in the event that Grantee fails to fulfill any of its other

obligations under this Agreement. If, after termination, it is determined that Grantee was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Department. The rights and remedies of Department in this clause are in addition to any other rights and remedies provided by law or under this Agreement.

c. Grantee Obligations upon Notice of Termination. After receipt of a notice of termination or partial termination unless as otherwise directed by Department, Grantee shall not furnish any service or deliverable on the date, and to the extent specified, in the notice. However, Grantee shall continue work on any portion of the Agreement not terminated. If the Agreement is terminated before performance is completed, Grantee shall be paid only for that work satisfactorily performed for which costs can be substantiated. The Grantee shall not be entitled to recover any cancellation charges or lost profits.
d. Continuation of Prepaid Services. If Department has paid for any services prior to the expiration, cancellation, or termination of the Agreement, Grantee shall continue to provide Department with those services for which it has already been paid or, at Department's discretion, Grantee shall provide a refund for services that have been paid for but not rendered.
e. Transition of Services Upon Termination, Expiration, or Cancellation of the Agreement. If services provided under the Agreement are being transitioned to another provider(s), Grantee shall assist in the smooth transition of Agreement services to the subsequent provider(s). This requirement is at a minimum an affirmative obligation to cooperate with the new provider(s), however additional requirements may be outlined in the Grant Work Plan. The Grantee shall not perform any services after Agreement expiration or termination, except as necessary to complete the transition or continued portion of the Agreement, if any.

14. Notice of Default.

If Grantee defaults in the performance of any covenant or obligation contained in the Agreement, including, any of the events of default, Department shall provide notice to Grantee and an opportunity to cure that is reasonable under the circumstances. This notice shall state the nature of the failure to perform and provide a time certain for correcting the failure. The notice will also provide that, should the Grantee fail to perform within the time provided, Grantee will be found in default, and Department may terminate the Agreement effective as of the date of receipt of the default notice.

15. Events of Default.

Provided such failure is not the fault of Department or outside the reasonable control of Grantee, the following non-exclusive list of events, acts, or omissions, shall constitute events of default:

a. The commitment of any material breach of this Agreement by Grantee, including failure to timely deliver a material deliverable, failure to perform the minimal level of services required for a deliverable, discontinuance of the performance of the work, failure to resume work that has been discontinued within a reasonable time after notice to do so, or abandonment of the Agreement;
b. The commitment of any material misrepresentation or omission in any materials, or discovery by the Department of such, made by the Grantee in this Agreement or in its application for funding;
c. Failure to submit any of the reports required by this Agreement or having submitted any report with incorrect, incomplete, or insufficient information;
d. Failure to honor any term of the Agreement;
e. Failure to abide by any statutory, regulatory, or licensing requirement, including an entry of an order revoking the certificate of authority granted to the Grantee by a state or other licensing authority;
f. Failure to pay any and all entities, individuals, and furnishing labor or materials, or failure to make payment to any other entities as required by this Agreement;
g. Employment of an unauthorized alien in the performance of the work, in violation of Section 274 (A) of the Immigration and Nationality Act;
h. Failure to maintain the insurance required by this Agreement;
i. One or more of the following circumstances, uncorrected for more than thirty (30) days unless, within the specified 30-day period, Grantee (including its receiver or trustee in bankruptcy) provides to Department adequate assurances, reasonably acceptable to Department, of its continuing ability and willingness to fulfill its obligations under the Agreement:
    i. Entry of an order for relief under Title 11 of the United States Code;
    ii. The making by Grantee of a general assignment for the benefit of creditors;
    iii. The appointment of a general receiver or trustee in bankruptcy of Grantee's business or property; and/or
    iv. An action by Grantee under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, or liquidation.

16. Suspension of Work.

The Department may, in its sole discretion, suspend any or all activities under the Agreement, at any time, when it is in the best interest of the State to do so. The Department shall provide Grantee written notice outlining the particulars of suspension. Examples of reasons for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, Grantee shall comply with the notice. Within 90 days, or any longer period agreed to by the parties, Department shall either: (1) issue a notice authorizing resumption of work, at which time activity shall resume; or (2) terminate the Agreement. If the Agreement is terminated after 30 days of suspension, the notice of suspension shall be deemed to satisfy the thirty (30) days' notice required for a notice of termination for convenience. Suspension of work shall not entitle Grantee to any additional compensation.

17. Force Majeure.

The Grantee shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of Grantee or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond Grantee's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to Grantee. In case of any delay Grantee believes is excusable, Grantee shall notify Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten days after the cause that creates or will create the delay first arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) if delay is not reasonably foreseeable, within five days after the date Grantee first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY**. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against Department. The Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist Grantee shall perform at no increased cost, unless Department determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Department, in which case Department may: (1) accept allocated performance or deliveries from Grantee, provided that Grantee grants preferential treatment to Department with respect to products subjected to allocation; (2) contract with other sources (without recourse to and by Grantee for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchases may be deducted from the Agreement quantity; or (3) terminate Agreement in whole or in part.

18. Indemnification.

a. The Grantee shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless Department and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description arising from or relating to:
    i. personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, or subcontractors; provided, however, that Grantee shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of Department;
    ii. the Grantee's breach of this Agreement or the negligent acts or omissions of Grantee.

b. The Grantee's obligations under the preceding paragraph with respect to any legal action are contingent upon Department giving Grantee: (1) written notice of any action or threatened action; (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense; and (3) assistance in defending the action at Grantee's sole expense. The Grantee shall not be liable for any cost, expense, or compromise incurred or made by Department in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

c. Notwithstanding sections a. and b. above, the following is the sole indemnification provision that applies to Grantees that are governmental entities: Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of Section 768.28, F.S. Further, nothing herein shall be construed as consent by a state agency or subdivision of the State to be sued by third parties in any matter arising out of any contract or this Agreement.

d. No provision in this Agreement shall require Department to hold harmless or indemnify Grantee, insure or assume liability for Grantee's negligence, waive Department's sovereign immunity under the laws of Florida, or

otherwise impose liability on Department for which it would not otherwise be responsible. Any provision, implication or suggestion to the contrary is null and void.

19. Limitation of Liability.

The Department's liability for any claim arising from this Agreement is limited to compensatory damages in an amount no greater than the sum of the unpaid balance of compensation due for goods or services rendered pursuant to and in compliance with the terms of the Agreement. Such liability is further limited to a cap of $100,000.

20. Remedies.

Nothing in this Agreement shall be construed to make Grantee liable for force majeure events. Nothing in this Agreement, including financial consequences for nonperformance, shall limit Department's right to pursue its remedies for other types of damages under the Agreement, at law or in equity. The Department may, in addition to other remedies available to it, at law or in equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against it.

21. Waiver.

The delay or failure by Department to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of Department's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

22. Statutory Notices Relating to Unauthorized Employment and Subcontracts.

a. The Department shall consider the employment by any Grantee of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If Grantee/subcontractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement. The Grantee shall be responsible for including this provision in all subcontracts with private organizations issued as a result of this Agreement.

b. Pursuant to Sections 287.133, 287.134, and 287.137 F.S., the following restrictions apply to persons placed on the convicted vendor list, discriminatory vendor list, or the antitrust violator vendor list:

   i. Public Entity Crime. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, F.S., for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

   ii. Discriminatory Vendors. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

   iii. Antitrust Violator Vendors. A person or an affiliate who has been placed on the antitrust violator vendor list following a conviction or being held civilly liable for an antitrust violation may not submit a bid, proposal, or reply on any contract to provide any good or services to a public entity; may not submit a bid, proposal, or reply on any contract with a public entity for the construction or repair of a public building or public work; may not submit a bid, proposal, or reply on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with a public entity; and may not transact new business with a public entity.

   iv. Notification. The Grantee shall notify Department if it or any of its suppliers, subcontractors, or consultants have been placed on the convicted vendor list, the discriminatory vendor list, or antitrust violator vendor list during the life of the Agreement. The Florida Department of Management Services is responsible for maintaining the discriminatory vendor list and the antitrust violator vendor list and posts the list on its website. Questions regarding the discriminatory vendor list or antitrust violator vendor list may be directed to the Florida Department of Management Services, Office of Supplier Diversity, at (850) 487-0915.

23. Compliance with Federal, State and Local Laws.

a. The Grantee and all its agents shall comply with all federal, state and local regulations, including, but not limited to, nondiscrimination, wages, social security, workers' compensation, licenses, and registration requirements. The Grantee shall include this provision in all subcontracts issued as a result of this Agreement.
b. No person, on the grounds of race, creed, color, religion, national origin, age, gender, or disability, shall be excluded from participation in; be denied the proceeds or benefits of; or be otherwise subjected to discrimination in performance of this Agreement.
c. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.
d. Any dispute concerning performance of the Agreement shall be processed as described herein. Jurisdiction for any damages arising under the terms of the Agreement will be in the courts of the State, and venue will be in the Second Judicial Circuit, in and for Leon County. Except as otherwise provided by law, the parties agree to be responsible for their own attorney fees incurred in connection with disputes arising under the terms of this Agreement.

24. Scrutinized Companies.

a. Grantee certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
b. If this Agreement is for more than one million dollars, the Grantee certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.
c. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize these contracting prohibitions then they shall become inoperative.

25. Lobbying and Integrity.

The Grantee agrees that no funds received by it under this Agreement will be expended for the purpose of lobbying the Legislature or a State agency pursuant to Section 216.347, F.S., except that pursuant to the requirements of Section 287.058(6), F.S., during the term of any executed agreement between Grantee and the State, Grantee may lobby the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding that agreement. The Grantee shall comply with Sections 11.062 and 216.347, F.S.

26. Record Keeping.

The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with United States generally accepted accounting principles (US GAAP) consistently applied. The Department, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following the completion date or termination of the Agreement. In the event that any work is subcontracted, Grantee shall similarly require each subcontractor to maintain and allow access to such records for audit purposes. Upon request of Department's Inspector General, or other authorized State official, Grantee shall provide any type of information the Inspector General deems relevant to Grantee's integrity or responsibility. Such information may include, but shall not be limited to, Grantee's business or financial records, documents, or files of any type or form that refer to or relate to Agreement. The Grantee shall retain such records for the longer of: (1) three years after the expiration of the Agreement; or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/).

27. Audits.

a. Inspector General. The Grantee understands its duty, pursuant to Section 20.055(5), F.S., to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Grantee will comply with this duty and ensure that its sub-grantees and/or subcontractors issued under this Agreement, if any, impose this requirement, in writing, on its sub-grantees and/or subcontractors, respectively.
b. Physical Access and Inspection. Department personnel shall be given access to and may observe and inspect work being performed under this Agreement, with reasonable notice and during normal business hours, including by any of the following methods:
    i. Grantee shall provide access to any location or facility on which Grantee is performing work, or storing or staging equipment, materials or documents;

ii. Grantee shall permit inspection of any facility, equipment, practices, or operations required in performance of any work pursuant to this Agreement; and,
iii. Grantee shall allow and facilitate sampling and monitoring of any substances, soils, materials or parameters at any location reasonable or necessary to assure compliance with any work or legal requirements pursuant to this Agreement.

c. Special Audit Requirements. The Grantee shall comply with the applicable provisions contained in Attachment 5, Special Audit Requirements. Each amendment that authorizes a funding increase or decrease shall include an updated copy of Exhibit 1, to Attachment 5. If Department fails to provide an updated copy of Exhibit 1 to include in each amendment that authorizes a funding increase or decrease, Grantee shall request one from the Department's Grants Manager. The Grantee shall consider the type of financial assistance (federal and/or state) identified in Attachment 5, Exhibit 1 and determine whether the terms of Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. For federal financial assistance, Grantee shall utilize the guidance provided under 2 CFR §200.330 for determining whether the relationship represents that of a subrecipient or vendor. For State financial assistance, Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website: https:\\apps.fldfs.com\fsaa.

d. Proof of Transactions. In addition to documentation provided to support cost reimbursement as described herein, Department may periodically request additional proof of a transaction to evaluate the appropriateness of costs to the Agreement pursuant to State guidelines (including cost allocation guidelines) and federal, if applicable. Allowable costs and uniform administrative requirements for federal programs can be found under 2 CFR 200. The Department may also request a cost allocation plan in support of its multipliers (overhead, indirect, general administrative costs, and fringe benefits). The Grantee must provide the additional proof within thirty (30) days of such request.

e. No Commingling of Funds. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
    i. If Department finds that these funds have been commingled, Department shall have the right to demand a refund, either in whole or in part, of the funds provided to Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from Department shall refund, and shall forthwith pay to Department, the amount of money demanded by Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from Department by Grantee to the date repayment is made by Grantee to Department.
    ii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by Department, from another source(s), Grantee shall reimburse Department for all recovered funds originally provided under this Agreement and interest shall be charged for those recovered costs as calculated on from the date(s) the payment(s) are recovered by Grantee to the date repayment is made to Department.
    iii. Notwithstanding the requirements of this section, the above restrictions on commingling funds do not apply to agreements where payments are made purely on a cost reimbursement basis.

28. Conflict of Interest.

The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.

29. Independent Contractor.

The Grantee is an independent contractor and is not an employee or agent of Department.

30. Subcontracting.

a. Unless otherwise specified in the Special Terms and Conditions, all services contracted for are to be performed solely by Grantee.

b. The Department may, for cause, require the replacement of any Grantee employee, subcontractor, or agent. For cause, includes, but is not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with an applicable Department policy or other requirement.

c. The Department may, for cause, deny access to Department's secure information or any facility by any Grantee employee, subcontractor, or agent.
d. The Department's actions under paragraphs b. or c. shall not relieve Grantee of its obligation to perform all work in compliance with the Agreement. The Grantee shall be responsible for the payment of all monies due under any subcontract. The Department shall not be liable to any subcontractor for any expenses or liabilities incurred under any subcontract and Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under any subcontract.
e. The Department will not deny Grantee's employees, subcontractors, or agents access to meetings within the Department's facilities, unless the basis of Department's denial is safety or security considerations.
f. The Department supports diversity in its procurement program and requests that all subcontracting opportunities afforded by this Agreement embrace diversity enthusiastically. The award of subcontracts should reflect the full diversity of the citizens of the State. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Diversity at (850) 487-0915.
g. The Grantee shall not be liable for any excess costs for a failure to perform, if the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both Grantee and the subcontractor(s), and without the fault or negligence of either, unless the subcontracted products or services were obtainable from other sources in sufficient time for Grantee to meet the required delivery schedule.

31. Guarantee of Parent Company.

If Grantee is a subsidiary of another corporation or other business entity, Grantee asserts that its parent company will guarantee all of the obligations of Grantee for purposes of fulfilling the obligations of Agreement. In the event Grantee is sold during the period the Agreement is in effect, Grantee agrees that it will be a requirement of sale that the new parent company guarantee all of the obligations of Grantee.

32. Survival.

The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of this Agreement, including without limitation, the obligations regarding confidentiality, proprietary interests, and public records, shall survive termination, cancellation, or expiration of this Agreement.

33. Third Parties.

The Department shall not be deemed to assume any liability for the acts, failures to act or negligence of Grantee, its agents, servants, and employees, nor shall Grantee disclaim its own negligence to Department or any third party. This Agreement does not and is not intended to confer any rights or remedies upon any person other than the parties. If Department consents to a subcontract, Grantee will specifically disclose that this Agreement does not create any third-party rights. Further, no third parties shall rely upon any of the rights and obligations created under this Agreement.

34. Severability.

If a court of competent jurisdiction deems any term or condition herein void or unenforceable, the other provisions are severable to that void provision, and shall remain in full force and effect.

35. Grantee's Employees, Subcontractors and Agents.

All Grantee employees, subcontractors, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Grantee shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under Agreement must comply with all security and administrative requirements of Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement.

36. Assignment.

The Grantee shall not sell, assign, or transfer any of its rights, duties, or obligations under the Agreement, or under any purchase order issued pursuant to the Agreement, without the prior written consent of Department. In the event of any assignment, Grantee remains secondarily liable for performance of the Agreement, unless Department expressly waives such secondary liability. The Department may assign the Agreement with prior written notice to Grantee of its intent to do so.

37. Compensation Report.

If this Agreement is a sole-source, public-private agreement or if the Grantee, through this agreement with the State, annually receive 50% or more of their budget from the State or from a combination of State and Federal funds, the Grantee shall provide an annual report, including the most recent IRS Form 990, detailing the total compensation for the entities' executive leadership teams. Total compensation shall include salary, bonuses, cashed-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout. The Grantee must also inform the Department of any changes in total executive compensation between the annual

reports. All compensation reports must indicate what percent of compensation comes directly from the State or Federal allocations to the Grantee.

38. Execution in Counterparts and Authority to Sign.

This Agreement, any amendments, and/or change orders related to the Agreement, may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument. In accordance with the Electronic Signature Act of 1996, electronic signatures, including facsimile transmissions, may be used and shall have the same force and effect as a written signature. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Terms and Conditions
AGREEMENT NO. LPA0206

ATTACHMENT 2

These Special Terms and Conditions shall be read together with general terms outlined in the Standard Terms and Conditions, Attachment 1. Where in conflict, these more specific terms shall apply.

1. Scope of Work.
The Project funded under this Agreement is Pasco County Handcart Road Water and Wastewater. The Project is defined in more detail in Attachment 3, Grant Work Plan.

2. Duration.
a. Reimbursement Period. The reimbursement period for this Agreement begins on July 1, 2021 and ends at the expiration of the Agreement.
b. Extensions. There are extensions available for this Project.
c. Service Periods. Additional service periods are not authorized under this Agreement.

3. Payment Provisions.
a. Compensation. This is a cost reimbursement Agreement. The Grantee shall be compensated under this Agreement as described in Attachment 3.
b. Invoicing. Invoicing will occur as indicated in Attachment 3.
c. Advance Pay. Advance Pay is not authorized under this Agreement.

4. Cost Eligible for Reimbursement or Matching Requirements.
Reimbursement for costs or availability for costs to meet matching requirements shall be limited to the following budget categories, as defined in the Reference Guide for State Expenditures, as indicated:

Reimbursement	Match	Category
☐	☐	Salaries/Wages
		Overhead/Indirect/General and Administrative Costs:
☐	☐	a. Fringe Benefits, N/A.
☐	☐	b. Indirect Costs, N/A.
☒	☐	Contractual (Subcontractors)
☐	☐	Travel, in accordance with Section 112, F.S.
☐	☐	Equipment
☐	☐	Rental/Lease of Equipment
☐	☐	Miscellaneous/Other Expenses
☐	☐	Land Acquisition

5. Equipment Purchase.
No Equipment purchases shall be funded under this Agreement.

6. Land Acquisition.
There will be no Land Acquisitions funded under this Agreement.

7. Match Requirements
There is no match required on the part of the Grantee under this Agreement.

8. Insurance Requirements

Required Coverage. At all times during the Agreement the Grantee, at its sole expense, shall maintain insurance coverage of such types and with such terms and limits described below. The limits of coverage under each policy maintained by the Grantee shall not be interpreted as limiting the Grantee's liability and obligations under the Agreement. Grantee shall provide coverage through a self-insurance program established and operating under the laws of Florida. Additional insurance requirements for this Agreement may be required elsewhere in this Agreement, however the minimum insurance requirements applicable to this Agreement are:

a. Comprehensive General Liability Insurance.
The Grantee shall provide adequate comprehensive general liability insurance coverage and hold such liability insurance at all times during the Agreement. The minimum limits shall be $200,000 for each person and $300,000 per occurrence.

b. Commercial Automobile Insurance.
If the Grantee's duties include the use of a commercial vehicle, the Grantee shall maintain automobile liability, bodily injury, and property damage coverage. Insuring clauses for both bodily injury and property damage shall provide coverage on an occurrence basis. The minimum limits shall be as follows:

$200,000/300,000	Automobile Liability for Company-Owned Vehicles, if applicable
$200,000/300,000	Hired and Non-owned Automobile Liability Coverage

c. Workers' Compensation.
The Grantee shall comply with the workers' compensation requirements of Chapter 440, F.S.

d. Other Insurance. None.

9. Quality Assurance Requirements.

There are no special Quality Assurance requirements under this Agreement.

10. Retainage.

No retainage is required under this Agreement.

11. Subcontracting.

The Grantee may subcontract work under this Agreement without the prior written consent of the Department's Grant Manager except for certain fixed-price subcontracts pursuant to this Agreement, which require prior approval. The Grantee shall submit a copy of the executed subcontract to the Department prior to submitting any invoices for subcontracted work. Regardless of any subcontract, the Grantee is ultimately responsible for all work to be performed under this Agreement.

12. State-owned Land.

The work will not be performed on State-owned land.

13. Office of Policy and Budget Reporting.

The Grantee will identify the expected return on investment for this project and provide this information to the Governor's Office of Policy and Budget (OPB) within three months of execution of this Agreement. For each full calendar quarter thereafter, the Grantee will provide quarterly update reports directly to OPB, no later than 20 days after the end of each quarter, documenting the positive return on investment to the state that results from the Grantee's project and its use of funds provided under this Agreement. Quarterly reports will continue until the Grantee is instructed by OPB that no further reports are needed, or until the end of this Agreement, whichever occurs first. All reports shall be submitted electronically to OPB at env.roi@laspbs.state.fl.us, and a copy shall also be submitted to the Department at legislativeaffairs@floridaDEP.gov.

14. Additional Terms.

None.

ATTACHMENT 3
GRANT WORK PLAN

PROJECT TITLE: Pasco County Handcart Road Water and Wastewater

PROJECT LOCATION: The Project will be located in the Pasadena Hills area within Pasco County; Lat/Long (28.2811, -82.2455). See Figure 1 for a location map.

PROJECT BACKGROUND: The project will provide water and wastewater infrastructure improvements to stimulate economic growth in a currently undeveloped area of Pasadena Hills, a portion of central Pasco County.

PROJECT DESCRIPTION: Pasco County (Grantee) will construct a water and wastewater distribution system including a piping system and appurtenances, a lift station, restoration, project management, and all work necessary to complete the project.

The Grantee does not anticipate that the funding under this Agreement will result in a fully completed project, so this Agreement will cover a portion of the work.

TASKS: All documentation should be submitted electronically unless otherwise indicated.

Task 1: Design and Permitting

Deliverables: The Grantee will complete design of the water and wastewater distribution system and obtain all necessary permits for construction of the project including construction plans and specs.

Documentation: The Grantee will submit: 1) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 2) a summary of design (or preconstruction) activities to date, indicating the percentage of design completion for the time period covered in the payment request. For the final documentation, the Grantee will also submit a copy of the design completed with the funding provided for this task and a list of all required permits identifying issue dates and issuing authorities.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

Task 2: Construction

Deliverables: The Grantee will construct water and wastewater distribution system in accordance with the construction contract documents prepared for the project.

Documentation: The Grantee will submit 1) a copy of the final design; 2) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 3) a signed Engineer's Certification of Payment Request.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

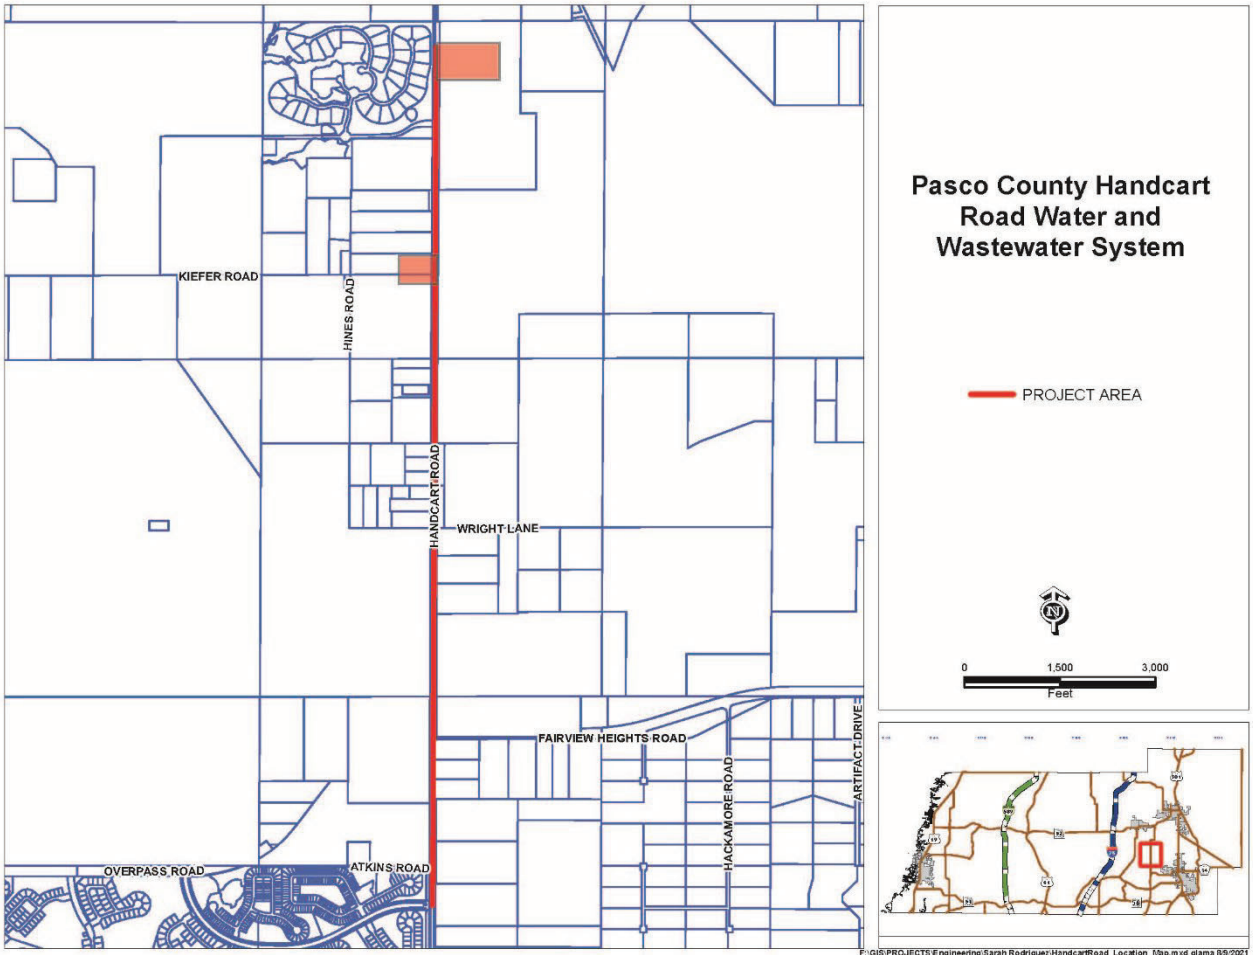
PROJECT TIMELINE & BUDGET DETAIL:

The tasks must be completed by, and all documentation received by, the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below.

Task No.	Task Title	Budget Category	Grant Amount	Task Start Date	Task End Date
1	Design and Permitting	Contractual Services	$600,000	07/01/2021	09/30/2023
2	Construction	Contractual Services	$5,900,000	07/01/2021	09/30/2023
		Total:	$6,500,000		

Note: The budget for this project is estimated and subject to change as the project progresses. A change order or amendment is expected to reallocate the budget.

Figure 1. Location Map



STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Public Records Requirements

Attachment 4

1. **Public Records.**

a. If the Agreement exceeds $35,000.00, and if Grantee is acting on behalf of Department in its performance of services under the Agreement, Grantee must allow public access to all documents, papers, letters, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by Grantee in conjunction with the Agreement (Public Records), unless the Public Records are exempt from section 24(a) of Article I of the Florida Constitution or section 119.07(1), F.S.

b. The Department may unilaterally terminate the Agreement if Grantee refuses to allow public access to Public Records as required by law.

2. **Additional Public Records Duties of Section 119.0701, F.S., If Applicable.**
For the purposes of this paragraph, the term "contract" means the "Agreement." If Grantee is a "contractor" as defined in section 119.0701(1)(a), F.S., the following provisions apply and the contractor shall:

a. Keep and maintain Public Records required by Department to perform the service.

b. Upon request, provide Department with a copy of requested Public Records or allow the Public Records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

c. A contractor who fails to provide the Public Records to Department within a reasonable time may be subject to penalties under section 119.10, F.S.

d. Ensure that Public Records that are exempt or confidential and exempt from Public Records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the Public Records to Department.

e. Upon completion of the contract, transfer, at no cost, to Department all Public Records in possession of the contractor or keep and maintain Public Records required by Department to perform the service. If the contractor transfers all Public Records to Department upon completion of the contract, the contractor shall destroy any duplicate Public Records that are exempt or confidential and exempt from Public Records disclosure requirements. If the contractor keeps and maintains Public Records upon completion of the contract, the contractor shall meet all applicable requirements for retaining Public Records. All Public Records stored electronically must be provided to Department, upon request from Department's custodian of Public Records, in a format specified by Department as compatible with the information technology systems of Department. These formatting requirements are satisfied by using the data formats as authorized in the contract or Microsoft Word, Outlook, Adobe, or Excel, and any software formats the contractor is authorized to access.

f. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, F.S., TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN OF PUBLIC RECORDS AT:**

Telephone: **(850) 245-2118**
Email: public.services@floridadep.gov
Mailing Address: **Department of Environmental Protection**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Audit Requirements
(State and Federal Financial Assistance)

Attachment 5

The administration of resources awarded by the Department of Environmental Protection *(which may be referred to as the "Department", "DEP", "FDEP" or "Grantor", or other name in the agreement*) to the recipient *(which may be referred to as the "Recipient", "Grantee" or other name in the agreement)* may be subject to audits and/or monitoring by the Department of Environmental Protection, as described in this attachment.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEP Department staff, limited scope audits as defined by 2 CFR 200.425, or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends $750,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of Environmental Protection. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR 200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200.514 will meet the requirements of this part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR 200.508-512.

3. A recipient that expends less than $750,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than $750,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other federal entities.

4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at **www.cfda.gov**

PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(2), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through the Department of Environmental Protection by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal year ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than $750,000 in state financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. For information regarding the Florida Catalog of State Financial Assistance (CSFA), a recipient should access the Florida Single Audit Act website located at https://apps.fldfs.com/fsaa for assistance. In addition to the above websites, the following websites may be accessed for information: Legislature's Website at http://www.leg.state.fl.us/Welcome/index.cfm, State of Florida's website at http://www.myflorida.com/, Department of Financial Services' Website at http://www.fldfs.com/and the Auditor General's Website at http://www.myflorida.com/audgen/.

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

PART IV: REPORT SUBMISSION

1. Copies of reporting packages for audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and required by PART I of this form shall be submitted, when required by 2 CFR 200.512, by or on behalf of the recipient directly to the Federal Audit Clearinghouse (FAC) as provided in 2 CFR 200.36 and 200.512

   A. The Federal Audit Clearinghouse designated in 2 CFR §200.501(a) (the number of copies required by 2 CFR §200.501(a) should be submitted to the Federal Audit Clearinghouse), at the following address:

By Mail:

Federal Audit Clearinghouse
Bureau of the Census
1201 East 10th Street
Jeffersonville, IN 47132

Submissions of the Single Audit reporting package for fiscal periods ending on or after January 1, 2008, must be submitted using the Federal Clearinghouse's Internet Data Entry System which can be found at http://harvester.census.gov/facweb/

2. Copies of financial reporting packages required by PART II of this Attachment shall be submitted by or on behalf of the recipient directly to each of the following:

A. The Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

B. The Auditor General's Office at the following address:

Auditor General
Local Government Audits/342
Claude Pepper Building, Room 401
111 West Madison Street
Tallahassee, Florida 32399-1450

The Auditor General's website (http://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Copies of reports or management letters required by PART III of this Attachment shall be submitted by or on behalf of the recipient directly to the Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

4. Any reports, management letters, or other information required to be submitted to the Department of Environmental Protection pursuant to this Agreement shall be submitted timely in accordance with 2 CFR 200.512, section 215.97, F.S., and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.

5. Recipients, when submitting financial reporting packages to the Department of Environmental Protection for audits done in accordance with 2 CFR 200, Subpart F-Audit Requirements, or Chapters 10.550 (local governmental entities) and 10.650 (non and for-profit organizations), Rules of the Auditor General, should indicate the date and the reporting package was delivered to the recipient correspondence accompanying the reporting package.

PART V: RECORD RETENTION

The recipient shall retain sufficient records demonstrating its compliance with the terms of the award and this Agreement for a period of **five (5)** years from the date the audit report is issued, and shall allow the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General upon request for a period of **three (3)** years from the date the audit report is issued, unless extended in writing by the Department of Environmental Protection.

EXHIBIT – 1

FUNDS AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Note: If the resources awarded to the recipient represent more than one federal program, provide the same information shown below for each federal program and show total federal resources awarded

Federal Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following:					
Federal Program A	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	
Federal Program B	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	

Note: Of the resources awarded to the recipient represent more than one federal program, list applicable compliance requirements for each federal program in the same manner as shown below:

Federal Program A	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.:(eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	
Federal Program B	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.: (eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	

Note: If the resources awarded to the recipient for matching represent more than one federal program, provide the same information shown below for each federal program and show total state resources awarded for matching.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Matching Resources for Federal Programs:					
Federal Program A	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category
Federal Program B	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category

Note: If the resources awarded to the recipient represent more than one state project, provide the same information shown below for each state project and show total state financial assistance awarded that is subject to section 215.97, F.S.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Resources Subject to Section 215.97, F.S.:						
State Program A	**State Awarding Agency**	**State Fiscal Year[1]**	**CSFA Number**	**CSFA Title or Funding Source Description**	**Funding Amount**	**State Appropriation Category**
Original Agreement	Department of Environmental Protection	2021-2022	37.039	Statewide Surface Water Restoration and Wastewater Projects	$6,500,000	140047
State Program B	**State Awarding Agency**	**State Fiscal Year[2]**	**CSFA Number**	**CSFA Title or Funding Source Description**	**Funding Amount**	**State Appropriation Category**

Total Award	$6,500,000	

Note: List applicable compliance requirement in the same manner as illustrated above for federal resources. For matching resources provided by the Department for DEP for federal programs, the requirements might be similar to the requirements for the applicable federal programs. Also, to the extent that different requirements pertain to different amount for the non-federal resources, there may be more than one grouping (i.e. 1, 2, 3, etc.) listed under this category.

For each program identified above, the recipient shall comply with the program requirements described in the Catalog of Federal Domestic Assistance (CFDA) [www.cfda.gov] and/or the Florida Catalog of State Financial Assistance (CSFA) [https://apps.fldfs.com/fsaa/searchCatalog.aspx], and State Projects Compliance Supplement (Part Four: State Projects Compliance Supplement [https://apps.fldfs.com/fsaa/state_project_compliance.aspx]. The services/purposes for which the funds are to be used are included in the Agreement's Grant Work Plan. Any match required by the Recipient is clearly indicated in the Agreement.

Exhibit A
Progress Report Form

DEP Agreement No.:	LPA0206
Project Title:	Pasco County Handcart Road Water and Wastewater
Grantee Name:	Pasco County
Grantee's Grant Manager:	Robert Marin
Reporting Period:	Select reporting period. Select year.

Provide the following information for all tasks identified in the Grant Work Plan:
Summarize the work completed within each task for the reporting period. Provide an update on the estimated completion date for each task and an explanation for any anticipated delays or problems encountered. Add or remove task sections and use as many pages as necessary to cover all tasks. Use the format provided below.

Task 1: Design and Permitting

- Progress for this reporting period:
- Identify delays or problems encountered:

Task 2: Construction

- Progress for this reporting period:
- Identify delays or problems encountered:

Indicate the completion status for the following tasks:

Design (Plans/Submittal): 30% ☐, 60% ☐, 90% ☐, 100% ☐

Permitting (Completed): Yes ☐, No ☐

Construction (Estimated): _____ %

This report is submitted in accordance with the reporting requirements of the above DEP Agreement number and accurately reflects the activities associated with the project.

Please use the most current form found on the website, linked above, for each payment request.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UTD22-0012 **DATE:** 10/26/2021

SUBJECT: Agreement No. LPA0206 Standard Grant Agreement – State of Florida Department of Environmental Protection – Pasco County Handcart Road Water and Wastewater; Budget Amendment Journal No. 3; and Recognize Revenue in the Water & Wastewater Capital Fund – $6,500,000.00

REFERENCES: Not Applicable

AGENDA SECTION: Consent Agenda

THRU: Michael Carballa, Assistant County Administrator

FROM: Charles Cullen, Utilities Engineering Director

RECOMMENDED BOARD ACTION:

Approve the Florida Department of Environmental Protection (FDEP) Standard Grant Agreement, Pasco County Handcart Road Water and Wastewater Agreement No. LPA0206 in the amount of $6,500,000.00. Authorize the Chairman to execute one original of the Standard Grant Agreement provided, and direct Board Records to Distribute as set forth under the distribution section below.

Approve Budget Amendment Journal No. 3 in the amount of $6,500,000.00 for Fiscal Year (FY) 2022.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

Pasco County has been awarded through FDEP, $6,500,000.00 to provide water and wastewater infrastructure improvements to stimulate economic growth in the currently underdeveloped area of Pasadena Hills, a portion of central Pasco County.

Pasco County will construct a water and wastewater distribution system including a piping system an d appurtenances, a lift station, restoration, project management, and all work necessary to complete the project as outlined in the Grant Work Plan in Attachment 3 of the Standard Grant Agreement.

The Standard Grant Agreement begins upon execution and expires on March 31, 2024. This grant award does not require any match from Pasco County. This is a cost-reimbursement agreement.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Upon approval of Budget Amendment Journal No. 3, funding in the amount of $6,500,000.00 will be budgeted and available in the Water & Wastewater Capital Fund, Utilities Engineering & Contract Management Department for FY 2022.

DISTRIBUTION:

Board Records to distribute as set forth below:
1. Retain the original Standard Grant Agreement.
2. Electronically to: Joshua Wood, Assistant Director, Public Infrastructure Fiscal and Business Administration Department – jwood@pascocountyfl.net. The Standard Grant Agreement will be sent

electronically to the FDEP and upon execution, a fully executed .pdf will be sent electronically to Board Records.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STANDARD TERMS AND CONDITIONS
APPLICABLE TO GRANT AGREEMENTS

ATTACHMENT 1

1. Entire Agreement.

This Grant Agreement, including any Attachments and Exhibits referred to herein and/or attached hereto (Agreement), constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, whether written or oral, with respect to such subject matter. Any terms and conditions included on Grantee's forms or invoices shall be null and void.

2. Grant Administration.

a. Order of Precedence. If there are conflicting provisions among the documents that make up the Agreement, the order of precedence for interpretation of the Agreement is as follows:
   i. Standard Grant Agreement
   ii. Attachments other than Attachment 1, in numerical order as designated in the Standard Grant Agreement
   iii. Attachment 1, Standard Terms and Conditions
   iv. The Exhibits in the order designated in the Standard Grant Agreement

b. All approvals, written or verbal, and other written communication among the parties, including all notices, shall be obtained by or sent to the parties' Grant Managers. All written communication shall be by electronic mail, U.S. Mail, a courier delivery service, or delivered in person. Notices shall be considered delivered when reflected by an electronic mail read receipt, a courier service delivery receipt, other mail service delivery receipt, or when receipt is acknowledged by recipient. If the notice is delivered in multiple ways, the notice will be considered delivered at the earliest delivery time.

c. If a different Grant Manager is designated by either party after execution of this Agreement, notice of the name and contact information of the new Grant Manager will be submitted in writing to the other party and maintained in the respective parties' records. A change of Grant Manager does not require a formal amendment or change order to the Agreement.

d. This Agreement may be amended, through a formal amendment or a change order, only by a written agreement between both parties. A formal amendment to this Agreement is required for changes which cause any of the following:
   (1) an increase or decrease in the Agreement funding amount;
   (2) a change in Grantee's match requirements;
   (3) a change in the expiration date of the Agreement; and/or
   (4) changes to the cumulative amount of funding transfers between approved budget categories, as defined in Attachment 3, Grant Work Plan, that exceeds or is expected to exceed twenty percent (20%) of the total budget as last approved by Department.
   A change order to this Agreement may be used when:
   (1) task timelines within the current authorized Agreement period change;
   (2) the cumulative transfer of funds between approved budget categories, as defined in Attachment 3, Grant Work Plan, are less than twenty percent (20%) of the total budget as last approved by Department;
   (3) changing the current funding source as stated in the Standard Grant Agreement; and/or
   (4) fund transfers between budget categories for the purposes of meeting match requirements.
   This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.

e. All days in this Agreement are calendar days unless otherwise specified.

3. Agreement Duration.

The term of the Agreement shall begin and end on the dates indicated in the Standard Grant Agreement, unless extended or terminated earlier in accordance with the applicable terms and conditions. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement, unless otherwise specified in Attachment 2, Special Terms and Conditions. However, work performed prior to the execution of this Agreement may be reimbursable or used for match purposes if permitted by the Special Terms and Conditions.

4. Deliverables.

The Grantee agrees to render the services or other units of deliverables as set forth in Attachment 3, Grant Work Plan. The services or other units of deliverables shall be delivered in accordance with the schedule and at the pricing outlined in the Grant Work Plan. Deliverables may be comprised of activities that must be completed prior to Department making payment on that deliverable. The Grantee agrees to perform in accordance with the terms and conditions set forth in this Agreement and all attachments and exhibits incorporated by the Standard Grant Agreement.

5. Performance Measures.

The Grantee warrants that: (1) the services will be performed by qualified personnel; (2) the services will be of the kind and quality described in the Grant Work Plan; (3) the services will be performed in a professional and workmanlike manner in accordance with industry standards and practices; (4) the services shall not and do not knowingly infringe upon the intellectual property rights, or any other proprietary rights, of any third party; and (5) its employees, subcontractors, and/or subgrantees shall comply with any security and safety requirements and processes, if provided by Department, for work done at the Project Location(s). The Department reserves the right to investigate or inspect at any time to determine whether the services or qualifications offered by Grantee meet the Agreement requirements. Notwithstanding any provisions herein to the contrary, written acceptance of a particular deliverable does not foreclose Department's remedies in the event deficiencies in the deliverable cannot be readily measured at the time of delivery.

6. Acceptance of Deliverables.

a. Acceptance Process. All deliverables must be received and accepted in writing by Department's Grant Manager before payment. The Grantee shall work diligently to correct all deficiencies in the deliverable that remain outstanding, within a reasonable time at Grantee's expense. If Department's Grant Manager does not accept the deliverables within 30 days of receipt, they will be deemed rejected.

b. Rejection of Deliverables. The Department reserves the right to reject deliverables, as outlined in the Grant Work Plan, as incomplete, inadequate, or unacceptable due, in whole or in part, to Grantee's lack of satisfactory performance under the terms of this Agreement. The Grantee's efforts to correct the rejected deliverables will be at Grantee's sole expense. Failure to fulfill the applicable technical requirements or complete all tasks or activities in accordance with the Grant Work Plan will result in rejection of the deliverable and the associated invoice. Payment for the rejected deliverable will not be issued unless the rejected deliverable is made acceptable to Department in accordance with the Agreement requirements. The Department, at its option, may allow additional time within which Grantee may remedy the objections noted by Department. The Grantee's failure to make adequate or acceptable deliverables after a reasonable opportunity to do so shall constitute an event of default.

7. Financial Consequences for Nonperformance.

a. Withholding Payment. In addition to the specific consequences explained in the Grant Work Plan and/or Special Terms and Conditions, the State of Florida (State) reserves the right to withhold payment when the Grantee has failed to perform/comply with provisions of this Agreement. None of the financial consequences for nonperformance in this Agreement as more fully described in the Grant Work Plan shall be considered penalties.

b. Corrective Action Plan. If Grantee fails to correct all the deficiencies in a rejected deliverable within the specified timeframe, Department may, in its sole discretion, request that a proposed Corrective Action Plan (CAP) be submitted by Grantee to Department. The Department requests that Grantee specify the outstanding deficiencies in the CAP. All CAPs must be able to be implemented and performed in no more than sixty (60) calendar days.

    i. The Grantee shall submit a CAP within ten (10) days of the date of the written request from Department. The CAP shall be sent to the Department's Grant Manager for review and approval. Within ten (10) days of receipt of a CAP, Department shall notify Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, Grantee shall have ten (10) days from receipt of Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above may result in Department's termination of this Agreement for cause as authorized in this Agreement.

    ii. Upon Department's notice of acceptance of a proposed CAP, Grantee shall have ten (10) days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department does not relieve Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, Department shall retain the right to require additional or further remedial steps, or to terminate this Agreement for failure to perform. No actions approved by Department or steps taken by Grantee shall preclude Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement

the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to Department as requested by Department's Grant Manager.

iii. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by Department may result in termination of the Agreement.

8. Payment.

a. Payment Process. Subject to the terms and conditions established by the Agreement, the pricing per deliverable established by the Grant Work Plan, and the billing procedures established by Department, Department agrees to pay Grantee for services rendered in accordance with Section 215.422, Florida Statutes (F.S.).

b. Taxes. The Department is exempted from payment of State sales, use taxes and Federal excise taxes. The Grantee, however, shall not be exempted from paying any taxes that it is subject to, including State sales and use taxes, or for payment by Grantee to suppliers for taxes on materials used to fulfill its contractual obligations with Department. The Grantee shall not use Department's exemption number in securing such materials. The Grantee shall be responsible and liable for the payment of all its FICA/Social Security and other taxes resulting from this Agreement.

c. Maximum Amount of Agreement. The maximum amount of compensation under this Agreement, without an amendment, is described in the Standard Grant Agreement. Any additional funds necessary for the completion of this Project are the responsibility of Grantee.

d. Reimbursement for Costs. The Grantee shall be paid on a cost reimbursement basis for all eligible Project costs upon the completion, submittal, and approval of each deliverable identified in the Grant Work Plan. Reimbursement shall be requested on Exhibit C, Payment Request Summary Form. To be eligible for reimbursement, costs must be in compliance with laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures, which can be accessed at the following web address: https://www.myfloridacfo.com/Division/AA/Manuals/documents/ReferenceGuideforStateExpenditures.pdf.

e. Invoice Detail. All charges for services rendered or for reimbursement of expenses authorized by Department pursuant to the Grant Work Plan shall be submitted to Department in sufficient detail for a proper pre-audit and post-audit to be performed. The Grantee shall only invoice Department for deliverables that are completed in accordance with the Grant Work Plan.

f. Interim Payments. Interim payments may be made by Department, at its discretion, if the completion of deliverables to date have first been accepted in writing by Department's Grant Manager.

g. Final Payment Request. A final payment request should be submitted to Department no later than sixty (60) days following the expiration date of the Agreement to ensure the availability of funds for payment. However, all work performed pursuant to the Grant Work Plan must be performed on or before the expiration date of the Agreement.

h. Annual Appropriation Contingency. The State's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of Department if the Legislature reduces or eliminates appropriations.

i. Interest Rates. All interest rates charged under the Agreement shall be calculated on the prevailing rate used by the State Board of Administration. To obtain the applicable interest rate, please refer to: www.myfloridacfo.com/Division/AA/Vendors/default.htm.

j. Refund of Payments to the Department. Any balance of unobligated funds that have been advanced or paid must be refunded to Department. Any funds paid in excess of the amount to which Grantee or subgrantee is entitled under the terms of the Agreement must be refunded to Department. If this Agreement is funded with federal funds and the Department is required to refund the federal government, the Grantee shall refund the Department its share of those funds.

9. Documentation Required for Cost Reimbursement Grant Agreements and Match.

If Cost Reimbursement or Match is authorized in Attachment 2, Special Terms and Conditions, the following conditions apply. Supporting documentation must be provided to substantiate cost reimbursement or match requirements for the following budget categories:

a. Salary/Wages. Grantee shall list personnel involved, position classification, direct salary rates, and hours spent on the Project in accordance with Attachment 3, Grant Work Plan in their documentation for reimbursement or match requirements.

b. Overhead/Indirect/General and Administrative Costs. If Grantee is being reimbursed for or claiming match for multipliers, all multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by Grantee exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate.

c. Contractual Costs (Subcontractors). Match or reimbursement requests for payments to subcontractors must be substantiated by copies of invoices with backup documentation identical to that required from Grantee. Subcontracts which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours spent on the Project. All eligible multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by any subcontractor exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate. Nonconsumable and/or nonexpendable personal property or equipment costing $5,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in Chapters 273 and/or 274, F.S., and Chapter 69I-72, Florida Administrative Code (F.A.C.) and/or Chapter 69I-73, F.A.C., as applicable. The Grantee shall be responsible for maintaining appropriate property records for any subcontracts that include the purchase of equipment as part of the delivery of services. The Grantee shall comply with this requirement and ensure its subcontracts issued under this Agreement, if any, impose this requirement, in writing, on its subcontractors.
    i. For fixed-price (vendor) subcontracts, the following provisions shall apply: The Grantee may award, on a competitive basis, fixed-price subcontracts to consultants/contractors in performing the work described in Attachment 3, Grant Work Plan. Invoices submitted to Department for fixed-price subcontracted activities shall be supported with a copy of the subcontractor's invoice and a copy of the tabulation form for the competitive procurement process (e.g., Invitation to Bid, Request for Proposals, or other similar competitive procurement document) resulting in the fixed-price subcontract. The Grantee may request approval from Department to award a fixed-price subcontract resulting from procurement methods other than those identified above. In this instance, Grantee shall request the advance written approval from Department's Grant Manager of the fixed price negotiated by Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor. Upon receipt of Department Grant Manager's approval of the fixed-price amount, Grantee may proceed in finalizing the fixed-price subcontract.
    ii. If the procurement is subject to the Consultant's Competitive Negotiation Act under section 287.055, F.S. or the Brooks Act, Grantee must provide documentation clearly evidencing it has complied with the statutory or federal requirements.

d. Travel. All requests for match or reimbursement of travel expenses shall be in accordance with Section 112.061, F.S.

e. Direct Purchase Equipment. For the purposes of this Agreement, Equipment is defined as capital outlay costing $5,000 or more. Match or reimbursement for Grantee's direct purchase of equipment is subject to specific approval of Department, and does not include any equipment purchased under the delivery of services to be completed by a subcontractor. Include copies of invoices or receipts to document purchases, and a properly completed Exhibit B, Property Reporting Form**.**

f. Rental/Lease of Equipment. Match or reimbursement requests for rental/lease of equipment must include copies of invoices or receipts to document charges.

g. Miscellaneous/Other Expenses. If miscellaneous or other expenses, such as materials, supplies, non-excluded phone expenses, reproduction, or mailing, are reimbursable or available for match or reimbursement under the terms of this Agreement, the documentation supporting these expenses must be itemized and include copies of receipts or invoices. Additionally, independent of Grantee's contract obligations to its subcontractor, Department shall not reimburse any of the following types of charges: cell phone usage; attorney's fees or court costs; civil or administrative penalties; or handling fees, such as set percent overages associated with purchasing supplies or equipment.

h. Land Acquisition. Reimbursement for the costs associated with acquiring interest and/or rights to real property (including access rights through ingress/egress easements, leases, license agreements, or other site access agreements; and/or obtaining record title ownership of real property through purchase) must be supported by the following, as applicable: Copies of Property Appraisals, Environmental Site Assessments, Surveys and Legal Descriptions, Boundary Maps, Acreage Certification, Title Search Reports, Title Insurance, Closing Statements/Documents, Deeds, Leases, Easements, License Agreements, or other legal instrument documenting

acquired property interest and/or rights. If land acquisition costs are used to meet match requirements, Grantee agrees that those funds shall not be used as match for any other Agreement supported by State or Federal funds.

10. Status Reports.

The Grantee shall submit status reports quarterly, unless otherwise specified in the Attachments, on Exhibit A, Progress Report Form**,** to Department's Grant Manager describing the work performed during the reporting period, problems encountered, problem resolutions, scheduled updates, and proposed work for the next reporting period. Quarterly status reports are due no later than twenty (20) days following the completion of the quarterly reporting period. For the purposes of this reporting requirement, the quarterly reporting periods end on March 31, June 30, September 30 and December 31. The Department will review the required reports submitted by Grantee within thirty (30) days.

11. Retainage.

The following provisions apply if Department withholds retainage under this Agreement:

a. The Department reserves the right to establish the amount and application of retainage on the work performed under this Agreement up to the maximum percentage described in Attachment 2, Special Terms and Conditions. Retainage may be withheld from each payment to Grantee pending satisfactory completion of work and approval of all deliverables.

b. If Grantee fails to perform the requested work, or fails to perform the work in a satisfactory manner, Grantee shall forfeit its right to payment of the retainage associated with the work. Failure to perform includes, but is not limited to, failure to submit the required deliverables or failure to provide adequate documentation that the work was actually performed. The Department shall provide written notification to Grantee of the failure to perform that shall result in retainage forfeiture. If the Grantee does not correct the failure to perform within the timeframe stated in Department's notice, the retainage will be forfeited to Department.

c. No retainage shall be released or paid for incomplete work while this Agreement is suspended.

d. Except as otherwise provided above, Grantee shall be paid the retainage associated with the work, provided Grantee has completed the work and submits an invoice for retainage held in accordance with the invoicing procedures under this Agreement.

12. Insurance.

a. Insurance Requirements for Sub-Grantees and/or Subcontractors. The Grantee shall require its sub-grantees and/or subcontractors, if any, to maintain insurance coverage of such types and with such terms and limits as described in this Agreement. The Grantee shall require all its sub-grantees and/or subcontractors, if any, to make compliance with the insurance requirements of this Agreement a condition of all contracts that are related to this Agreement. Sub-grantees and/or subcontractors must provide proof of insurance upon request.

b. Deductibles. The Department shall be exempt from, and in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Grantee providing such insurance.

c. Proof of Insurance. Upon execution of this Agreement, Grantee shall provide Department documentation demonstrating the existence and amount for each type of applicable insurance coverage ***prior to*** performance of any work under this Agreement. Upon receipt of written request from Department, Grantee shall furnish Department with proof of applicable insurance coverage by standard form certificates of insurance, a self-insured authorization, or other certification of self-insurance.

d. Duty to Maintain Coverage. In the event that any applicable coverage is cancelled by the insurer for any reason, or if Grantee cannot get adequate coverage, Grantee shall immediately notify Department of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within ten (10) days after the cancellation of coverage.

e. Insurance Trust. If the Grantee's insurance is provided through an insurance trust, the Grantee shall instead add the Department of Environmental Protection, its employees, and officers as an additional covered party everywhere the Agreement requires them to be added as an additional insured.

13. Termination.

a. Termination for Convenience. When it is in the State's best interest, Department may, at its sole discretion, terminate the Agreement in whole or in part by giving 30 days' written notice to Grantee. The Department shall notify Grantee of the termination for convenience with instructions as to the effective date of termination or the specific stage of work at which the Agreement is to be terminated. The Grantee must submit all invoices for work to be paid under this Agreement within thirty (30) days of the effective date of termination. The Department shall not pay any invoices received after thirty (30) days of the effective date of termination.

b. Termination for Cause. The Department may terminate this Agreement if any of the events of default described in the Events of Default provisions below occur or in the event that Grantee fails to fulfill any of its other

obligations under this Agreement. If, after termination, it is determined that Grantee was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Department. The rights and remedies of Department in this clause are in addition to any other rights and remedies provided by law or under this Agreement.

c. Grantee Obligations upon Notice of Termination. After receipt of a notice of termination or partial termination unless as otherwise directed by Department, Grantee shall not furnish any service or deliverable on the date, and to the extent specified, in the notice. However, Grantee shall continue work on any portion of the Agreement not terminated. If the Agreement is terminated before performance is completed, Grantee shall be paid only for that work satisfactorily performed for which costs can be substantiated. The Grantee shall not be entitled to recover any cancellation charges or lost profits.
d. Continuation of Prepaid Services. If Department has paid for any services prior to the expiration, cancellation, or termination of the Agreement, Grantee shall continue to provide Department with those services for which it has already been paid or, at Department's discretion, Grantee shall provide a refund for services that have been paid for but not rendered.
e. Transition of Services Upon Termination, Expiration, or Cancellation of the Agreement. If services provided under the Agreement are being transitioned to another provider(s), Grantee shall assist in the smooth transition of Agreement services to the subsequent provider(s). This requirement is at a minimum an affirmative obligation to cooperate with the new provider(s), however additional requirements may be outlined in the Grant Work Plan. The Grantee shall not perform any services after Agreement expiration or termination, except as necessary to complete the transition or continued portion of the Agreement, if any.

14. Notice of Default.

If Grantee defaults in the performance of any covenant or obligation contained in the Agreement, including, any of the events of default, Department shall provide notice to Grantee and an opportunity to cure that is reasonable under the circumstances. This notice shall state the nature of the failure to perform and provide a time certain for correcting the failure. The notice will also provide that, should the Grantee fail to perform within the time provided, Grantee will be found in default, and Department may terminate the Agreement effective as of the date of receipt of the default notice.

15. Events of Default.

Provided such failure is not the fault of Department or outside the reasonable control of Grantee, the following non-exclusive list of events, acts, or omissions, shall constitute events of default:

a. The commitment of any material breach of this Agreement by Grantee, including failure to timely deliver a material deliverable, failure to perform the minimal level of services required for a deliverable, discontinuance of the performance of the work, failure to resume work that has been discontinued within a reasonable time after notice to do so, or abandonment of the Agreement;
b. The commitment of any material misrepresentation or omission in any materials, or discovery by the Department of such, made by the Grantee in this Agreement or in its application for funding;
c. Failure to submit any of the reports required by this Agreement or having submitted any report with incorrect, incomplete, or insufficient information;
d. Failure to honor any term of the Agreement;
e. Failure to abide by any statutory, regulatory, or licensing requirement, including an entry of an order revoking the certificate of authority granted to the Grantee by a state or other licensing authority;
f. Failure to pay any and all entities, individuals, and furnishing labor or materials, or failure to make payment to any other entities as required by this Agreement;
g. Employment of an unauthorized alien in the performance of the work, in violation of Section 274 (A) of the Immigration and Nationality Act;
h. Failure to maintain the insurance required by this Agreement;
i. One or more of the following circumstances, uncorrected for more than thirty (30) days unless, within the specified 30-day period, Grantee (including its receiver or trustee in bankruptcy) provides to Department adequate assurances, reasonably acceptable to Department, of its continuing ability and willingness to fulfill its obligations under the Agreement:
    i. Entry of an order for relief under Title 11 of the United States Code;
    ii. The making by Grantee of a general assignment for the benefit of creditors;
    iii. The appointment of a general receiver or trustee in bankruptcy of Grantee's business or property; and/or
    iv. An action by Grantee under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, or liquidation.

16. Suspension of Work.

The Department may, in its sole discretion, suspend any or all activities under the Agreement, at any time, when it is in the best interest of the State to do so. The Department shall provide Grantee written notice outlining the particulars of suspension. Examples of reasons for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, Grantee shall comply with the notice. Within 90 days, or any longer period agreed to by the parties, Department shall either: (1) issue a notice authorizing resumption of work, at which time activity shall resume; or (2) terminate the Agreement. If the Agreement is terminated after 30 days of suspension, the notice of suspension shall be deemed to satisfy the thirty (30) days' notice required for a notice of termination for convenience. Suspension of work shall not entitle Grantee to any additional compensation.

17. Force Majeure.

The Grantee shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of Grantee or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond Grantee's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to Grantee. In case of any delay Grantee believes is excusable, Grantee shall notify Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten days after the cause that creates or will create the delay first arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) if delay is not reasonably foreseeable, within five days after the date Grantee first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY**. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against Department. The Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist Grantee shall perform at no increased cost, unless Department determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Department, in which case Department may: (1) accept allocated performance or deliveries from Grantee, provided that Grantee grants preferential treatment to Department with respect to products subjected to allocation; (2) contract with other sources (without recourse to and by Grantee for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchases may be deducted from the Agreement quantity; or (3) terminate Agreement in whole or in part.

18. Indemnification.

a. The Grantee shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless Department and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description arising from or relating to:
    i. personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, or subcontractors; provided, however, that Grantee shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of Department;
    ii. the Grantee's breach of this Agreement or the negligent acts or omissions of Grantee.

b. The Grantee's obligations under the preceding paragraph with respect to any legal action are contingent upon Department giving Grantee: (1) written notice of any action or threatened action; (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense; and (3) assistance in defending the action at Grantee's sole expense. The Grantee shall not be liable for any cost, expense, or compromise incurred or made by Department in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

c. Notwithstanding sections a. and b. above, the following is the sole indemnification provision that applies to Grantees that are governmental entities: Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of Section 768.28, F.S. Further, nothing herein shall be construed as consent by a state agency or subdivision of the State to be sued by third parties in any matter arising out of any contract or this Agreement.

d. No provision in this Agreement shall require Department to hold harmless or indemnify Grantee, insure or assume liability for Grantee's negligence, waive Department's sovereign immunity under the laws of Florida, or

otherwise impose liability on Department for which it would not otherwise be responsible. Any provision, implication or suggestion to the contrary is null and void.

19. Limitation of Liability.

The Department's liability for any claim arising from this Agreement is limited to compensatory damages in an amount no greater than the sum of the unpaid balance of compensation due for goods or services rendered pursuant to and in compliance with the terms of the Agreement. Such liability is further limited to a cap of $100,000.

20. Remedies.

Nothing in this Agreement shall be construed to make Grantee liable for force majeure events. Nothing in this Agreement, including financial consequences for nonperformance, shall limit Department's right to pursue its remedies for other types of damages under the Agreement, at law or in equity. The Department may, in addition to other remedies available to it, at law or in equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against it.

21. Waiver.

The delay or failure by Department to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of Department's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

22. Statutory Notices Relating to Unauthorized Employment and Subcontracts.

a. The Department shall consider the employment by any Grantee of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If Grantee/subcontractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement. The Grantee shall be responsible for including this provision in all subcontracts with private organizations issued as a result of this Agreement.

b. Pursuant to Sections 287.133, 287.134, and 287.137 F.S., the following restrictions apply to persons placed on the convicted vendor list, discriminatory vendor list, or the antitrust violator vendor list:

   i. Public Entity Crime. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, F.S., for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

   ii. Discriminatory Vendors. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

   iii. Antitrust Violator Vendors. A person or an affiliate who has been placed on the antitrust violator vendor list following a conviction or being held civilly liable for an antitrust violation may not submit a bid, proposal, or reply on any contract to provide any good or services to a public entity; may not submit a bid, proposal, or reply on any contract with a public entity for the construction or repair of a public building or public work; may not submit a bid, proposal, or reply on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with a public entity; and may not transact new business with a public entity.

   iv. Notification. The Grantee shall notify Department if it or any of its suppliers, subcontractors, or consultants have been placed on the convicted vendor list, the discriminatory vendor list, or antitrust violator vendor list during the life of the Agreement. The Florida Department of Management Services is responsible for maintaining the discriminatory vendor list and the antitrust violator vendor list and posts the list on its website. Questions regarding the discriminatory vendor list or antitrust violator vendor list may be directed to the Florida Department of Management Services, Office of Supplier Diversity, at (850) 487-0915.

23. Compliance with Federal, State and Local Laws.

a. The Grantee and all its agents shall comply with all federal, state and local regulations, including, but not limited to, nondiscrimination, wages, social security, workers' compensation, licenses, and registration requirements. The Grantee shall include this provision in all subcontracts issued as a result of this Agreement.
b. No person, on the grounds of race, creed, color, religion, national origin, age, gender, or disability, shall be excluded from participation in; be denied the proceeds or benefits of; or be otherwise subjected to discrimination in performance of this Agreement.
c. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.
d. Any dispute concerning performance of the Agreement shall be processed as described herein. Jurisdiction for any damages arising under the terms of the Agreement will be in the courts of the State, and venue will be in the Second Judicial Circuit, in and for Leon County. Except as otherwise provided by law, the parties agree to be responsible for their own attorney fees incurred in connection with disputes arising under the terms of this Agreement.

24. Scrutinized Companies.

a. Grantee certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
b. If this Agreement is for more than one million dollars, the Grantee certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.
c. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize these contracting prohibitions then they shall become inoperative.

25. Lobbying and Integrity.

The Grantee agrees that no funds received by it under this Agreement will be expended for the purpose of lobbying the Legislature or a State agency pursuant to Section 216.347, F.S., except that pursuant to the requirements of Section 287.058(6), F.S., during the term of any executed agreement between Grantee and the State, Grantee may lobby the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding that agreement. The Grantee shall comply with Sections 11.062 and 216.347, F.S.

26. Record Keeping.

The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with United States generally accepted accounting principles (US GAAP) consistently applied. The Department, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following the completion date or termination of the Agreement. In the event that any work is subcontracted, Grantee shall similarly require each subcontractor to maintain and allow access to such records for audit purposes. Upon request of Department's Inspector General, or other authorized State official, Grantee shall provide any type of information the Inspector General deems relevant to Grantee's integrity or responsibility. Such information may include, but shall not be limited to, Grantee's business or financial records, documents, or files of any type or form that refer to or relate to Agreement. The Grantee shall retain such records for the longer of: (1) three years after the expiration of the Agreement; or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/).

27. Audits.

a. Inspector General. The Grantee understands its duty, pursuant to Section 20.055(5), F.S., to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Grantee will comply with this duty and ensure that its sub-grantees and/or subcontractors issued under this Agreement, if any, impose this requirement, in writing, on its sub-grantees and/or subcontractors, respectively.
b. Physical Access and Inspection. Department personnel shall be given access to and may observe and inspect work being performed under this Agreement, with reasonable notice and during normal business hours, including by any of the following methods:
    i. Grantee shall provide access to any location or facility on which Grantee is performing work, or storing or staging equipment, materials or documents;

ii. Grantee shall permit inspection of any facility, equipment, practices, or operations required in performance of any work pursuant to this Agreement; and,
iii. Grantee shall allow and facilitate sampling and monitoring of any substances, soils, materials or parameters at any location reasonable or necessary to assure compliance with any work or legal requirements pursuant to this Agreement.

c. Special Audit Requirements. The Grantee shall comply with the applicable provisions contained in Attachment 5, Special Audit Requirements. Each amendment that authorizes a funding increase or decrease shall include an updated copy of Exhibit 1, to Attachment 5. If Department fails to provide an updated copy of Exhibit 1 to include in each amendment that authorizes a funding increase or decrease, Grantee shall request one from the Department's Grants Manager. The Grantee shall consider the type of financial assistance (federal and/or state) identified in Attachment 5, Exhibit 1 and determine whether the terms of Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. For federal financial assistance, Grantee shall utilize the guidance provided under 2 CFR §200.330 for determining whether the relationship represents that of a subrecipient or vendor. For State financial assistance, Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website: https:\\apps.fldfs.com\fsaa.

d. Proof of Transactions. In addition to documentation provided to support cost reimbursement as described herein, Department may periodically request additional proof of a transaction to evaluate the appropriateness of costs to the Agreement pursuant to State guidelines (including cost allocation guidelines) and federal, if applicable. Allowable costs and uniform administrative requirements for federal programs can be found under 2 CFR 200. The Department may also request a cost allocation plan in support of its multipliers (overhead, indirect, general administrative costs, and fringe benefits). The Grantee must provide the additional proof within thirty (30) days of such request.

e. No Commingling of Funds. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
    i. If Department finds that these funds have been commingled, Department shall have the right to demand a refund, either in whole or in part, of the funds provided to Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from Department shall refund, and shall forthwith pay to Department, the amount of money demanded by Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from Department by Grantee to the date repayment is made by Grantee to Department.
    ii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by Department, from another source(s), Grantee shall reimburse Department for all recovered funds originally provided under this Agreement and interest shall be charged for those recovered costs as calculated on from the date(s) the payment(s) are recovered by Grantee to the date repayment is made to Department.
    iii. Notwithstanding the requirements of this section, the above restrictions on commingling funds do not apply to agreements where payments are made purely on a cost reimbursement basis.

28. Conflict of Interest.

The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.

29. Independent Contractor.

The Grantee is an independent contractor and is not an employee or agent of Department.

30. Subcontracting.

a. Unless otherwise specified in the Special Terms and Conditions, all services contracted for are to be performed solely by Grantee.

b. The Department may, for cause, require the replacement of any Grantee employee, subcontractor, or agent. For cause, includes, but is not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with an applicable Department policy or other requirement.

c. The Department may, for cause, deny access to Department's secure information or any facility by any Grantee employee, subcontractor, or agent.
d. The Department's actions under paragraphs b. or c. shall not relieve Grantee of its obligation to perform all work in compliance with the Agreement. The Grantee shall be responsible for the payment of all monies due under any subcontract. The Department shall not be liable to any subcontractor for any expenses or liabilities incurred under any subcontract and Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under any subcontract.
e. The Department will not deny Grantee's employees, subcontractors, or agents access to meetings within the Department's facilities, unless the basis of Department's denial is safety or security considerations.
f. The Department supports diversity in its procurement program and requests that all subcontracting opportunities afforded by this Agreement embrace diversity enthusiastically. The award of subcontracts should reflect the full diversity of the citizens of the State. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Diversity at (850) 487-0915.
g. The Grantee shall not be liable for any excess costs for a failure to perform, if the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both Grantee and the subcontractor(s), and without the fault or negligence of either, unless the subcontracted products or services were obtainable from other sources in sufficient time for Grantee to meet the required delivery schedule.

31. Guarantee of Parent Company.

If Grantee is a subsidiary of another corporation or other business entity, Grantee asserts that its parent company will guarantee all of the obligations of Grantee for purposes of fulfilling the obligations of Agreement. In the event Grantee is sold during the period the Agreement is in effect, Grantee agrees that it will be a requirement of sale that the new parent company guarantee all of the obligations of Grantee.

32. Survival.

The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of this Agreement, including without limitation, the obligations regarding confidentiality, proprietary interests, and public records, shall survive termination, cancellation, or expiration of this Agreement.

33. Third Parties.

The Department shall not be deemed to assume any liability for the acts, failures to act or negligence of Grantee, its agents, servants, and employees, nor shall Grantee disclaim its own negligence to Department or any third party. This Agreement does not and is not intended to confer any rights or remedies upon any person other than the parties. If Department consents to a subcontract, Grantee will specifically disclose that this Agreement does not create any third-party rights. Further, no third parties shall rely upon any of the rights and obligations created under this Agreement.

34. Severability.

If a court of competent jurisdiction deems any term or condition herein void or unenforceable, the other provisions are severable to that void provision, and shall remain in full force and effect.

35. Grantee's Employees, Subcontractors and Agents.

All Grantee employees, subcontractors, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Grantee shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under Agreement must comply with all security and administrative requirements of Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement.

36. Assignment.

The Grantee shall not sell, assign, or transfer any of its rights, duties, or obligations under the Agreement, or under any purchase order issued pursuant to the Agreement, without the prior written consent of Department. In the event of any assignment, Grantee remains secondarily liable for performance of the Agreement, unless Department expressly waives such secondary liability. The Department may assign the Agreement with prior written notice to Grantee of its intent to do so.

37. Compensation Report.

If this Agreement is a sole-source, public-private agreement or if the Grantee, through this agreement with the State, annually receive 50% or more of their budget from the State or from a combination of State and Federal funds, the Grantee shall provide an annual report, including the most recent IRS Form 990, detailing the total compensation for the entities' executive leadership teams. Total compensation shall include salary, bonuses, cashed-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout. The Grantee must also inform the Department of any changes in total executive compensation between the annual

reports. All compensation reports must indicate what percent of compensation comes directly from the State or Federal allocations to the Grantee.

38. Execution in Counterparts and Authority to Sign.

This Agreement, any amendments, and/or change orders related to the Agreement, may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument. In accordance with the Electronic Signature Act of 1996, electronic signatures, including facsimile transmissions, may be used and shall have the same force and effect as a written signature. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Terms and Conditions
AGREEMENT NO. LPA0206

ATTACHMENT 2

These Special Terms and Conditions shall be read together with general terms outlined in the Standard Terms and Conditions, Attachment 1. Where in conflict, these more specific terms shall apply.

1. Scope of Work.
The Project funded under this Agreement is Pasco County Handcart Road Water and Wastewater. The Project is defined in more detail in Attachment 3, Grant Work Plan.

2. Duration.
a. Reimbursement Period. The reimbursement period for this Agreement begins on July 1, 2021 and ends at the expiration of the Agreement.
b. Extensions. There are extensions available for this Project.
c. Service Periods. Additional service periods are not authorized under this Agreement.

3. Payment Provisions.
a. Compensation. This is a cost reimbursement Agreement. The Grantee shall be compensated under this Agreement as described in Attachment 3.
b. Invoicing. Invoicing will occur as indicated in Attachment 3.
c. Advance Pay. Advance Pay is not authorized under this Agreement.

4. Cost Eligible for Reimbursement or Matching Requirements.
Reimbursement for costs or availability for costs to meet matching requirements shall be limited to the following budget categories, as defined in the Reference Guide for State Expenditures, as indicated:

Reimbursement	Match	Category
☐	☐	Salaries/Wages
		Overhead/Indirect/General and Administrative Costs:
☐	☐	a. Fringe Benefits, N/A.
☐	☐	b. Indirect Costs, N/A.
☒	☐	Contractual (Subcontractors)
☐	☐	Travel, in accordance with Section 112, F.S.
☐	☐	Equipment
☐	☐	Rental/Lease of Equipment
☐	☐	Miscellaneous/Other Expenses
☐	☐	Land Acquisition

5. Equipment Purchase.
No Equipment purchases shall be funded under this Agreement.

6. Land Acquisition.
There will be no Land Acquisitions funded under this Agreement.

7. Match Requirements
There is no match required on the part of the Grantee under this Agreement.

8. Insurance Requirements

Required Coverage. At all times during the Agreement the Grantee, at its sole expense, shall maintain insurance coverage of such types and with such terms and limits described below. The limits of coverage under each policy maintained by the Grantee shall not be interpreted as limiting the Grantee's liability and obligations under the Agreement. Grantee shall provide coverage through a self-insurance program established and operating under the laws of Florida. Additional insurance requirements for this Agreement may be required elsewhere in this Agreement, however the minimum insurance requirements applicable to this Agreement are:

a. Comprehensive General Liability Insurance.
The Grantee shall provide adequate comprehensive general liability insurance coverage and hold such liability insurance at all times during the Agreement. The minimum limits shall be $200,000 for each person and $300,000 per occurrence.

b. Commercial Automobile Insurance.
If the Grantee's duties include the use of a commercial vehicle, the Grantee shall maintain automobile liability, bodily injury, and property damage coverage. Insuring clauses for both bodily injury and property damage shall provide coverage on an occurrence basis. The minimum limits shall be as follows:

$200,000/300,000	Automobile Liability for Company-Owned Vehicles, if applicable
$200,000/300,000	Hired and Non-owned Automobile Liability Coverage

c. Workers' Compensation.
The Grantee shall comply with the workers' compensation requirements of Chapter 440, F.S.

d. Other Insurance. None.

9. Quality Assurance Requirements.

There are no special Quality Assurance requirements under this Agreement.

10. Retainage.

No retainage is required under this Agreement.

11. Subcontracting.

The Grantee may subcontract work under this Agreement without the prior written consent of the Department's Grant Manager except for certain fixed-price subcontracts pursuant to this Agreement, which require prior approval. The Grantee shall submit a copy of the executed subcontract to the Department prior to submitting any invoices for subcontracted work. Regardless of any subcontract, the Grantee is ultimately responsible for all work to be performed under this Agreement.

12. State-owned Land.

The work will not be performed on State-owned land.

13. Office of Policy and Budget Reporting.

The Grantee will identify the expected return on investment for this project and provide this information to the Governor's Office of Policy and Budget (OPB) within three months of execution of this Agreement. For each full calendar quarter thereafter, the Grantee will provide quarterly update reports directly to OPB, no later than 20 days after the end of each quarter, documenting the positive return on investment to the state that results from the Grantee's project and its use of funds provided under this Agreement. Quarterly reports will continue until the Grantee is instructed by OPB that no further reports are needed, or until the end of this Agreement, whichever occurs first. All reports shall be submitted electronically to OPB at env.roi@laspbs.state.fl.us, and a copy shall also be submitted to the Department at legislativeaffairs@floridaDEP.gov.

14. Additional Terms.

None.

ATTACHMENT 3
GRANT WORK PLAN

PROJECT TITLE: Pasco County Handcart Road Water and Wastewater

PROJECT LOCATION: The Project will be located in the Pasadena Hills area within Pasco County; Lat/Long (28.2811, -82.2455). See Figure 1 for a location map.

PROJECT BACKGROUND: The project will provide water and wastewater infrastructure improvements to stimulate economic growth in a currently undeveloped area of Pasadena Hills, a portion of central Pasco County.

PROJECT DESCRIPTION: Pasco County (Grantee) will construct a water and wastewater distribution system including a piping system and appurtenances, a lift station, restoration, project management, and all work necessary to complete the project.

The Grantee does not anticipate that the funding under this Agreement will result in a fully completed project, so this Agreement will cover a portion of the work.

TASKS: All documentation should be submitted electronically unless otherwise indicated.

Task 1: Design and Permitting

Deliverables: The Grantee will complete design of the water and wastewater distribution system and obtain all necessary permits for construction of the project including construction plans and specs.

Documentation: The Grantee will submit: 1) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 2) a summary of design (or preconstruction) activities to date, indicating the percentage of design completion for the time period covered in the payment request. For the final documentation, the Grantee will also submit a copy of the design completed with the funding provided for this task and a list of all required permits identifying issue dates and issuing authorities.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

Task 2: Construction

Deliverables: The Grantee will construct water and wastewater distribution system in accordance with the construction contract documents prepared for the project.

Documentation: The Grantee will submit 1) a copy of the final design; 2) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 3) a signed Engineer's Certification of Payment Request.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

PROJECT TIMELINE & BUDGET DETAIL:

The tasks must be completed by, and all documentation received by, the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below.

Task No.	Task Title	Budget Category	Grant Amount	Task Start Date	Task End Date
1	Design and Permitting	Contractual Services	$600,000	07/01/2021	09/30/2023
2	Construction	Contractual Services	$5,900,000	07/01/2021	09/30/2023
		Total:	$6,500,000		

Note: The budget for this project is estimated and subject to change as the project progresses. A change order or amendment is expected to reallocate the budget.

DEPARTMENT OF ENVIRONMENTAL PROTECTION
Public Records Requirements

Attachment 4

1. **Public Records.**

a. If the Agreement exceeds $35,000.00, and if Grantee is acting on behalf of Department in its performance of services under the Agreement, Grantee must allow public access to all documents, papers, letters, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by Grantee in conjunction with the Agreement (Public Records), unless the Public Records are exempt from section 24(a) of Article I of the Florida Constitution or section 119.07(1), F.S.

b. The Department may unilaterally terminate the Agreement if Grantee refuses to allow public access to Public Records as required by law.

2. **Additional Public Records Duties of Section 119.0701, F.S., If Applicable.**
For the purposes of this paragraph, the term "contract" means the "Agreement." If Grantee is a "contractor" as defined in section 119.0701(1)(a), F.S., the following provisions apply and the contractor shall:

a. Keep and maintain Public Records required by Department to perform the service.

b. Upon request, provide Department with a copy of requested Public Records or allow the Public Records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

c. A contractor who fails to provide the Public Records to Department within a reasonable time may be subject to penalties under section 119.10, F.S.

d. Ensure that Public Records that are exempt or confidential and exempt from Public Records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the Public Records to Department.

e. Upon completion of the contract, transfer, at no cost, to Department all Public Records in possession of the contractor or keep and maintain Public Records required by Department to perform the service. If the contractor transfers all Public Records to Department upon completion of the contract, the contractor shall destroy any duplicate Public Records that are exempt or confidential and exempt from Public Records disclosure requirements. If the contractor keeps and maintains Public Records upon completion of the contract, the contractor shall meet all applicable requirements for retaining Public Records. All Public Records stored electronically must be provided to Department, upon request from Department's custodian of Public Records, in a format specified by Department as compatible with the information technology systems of Department. These formatting requirements are satisfied by using the data formats as authorized in the contract or Microsoft Word, Outlook, Adobe, or Excel, and any software formats the contractor is authorized to access.

f. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, F.S., TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN OF PUBLIC RECORDS AT:**

Telephone: **(850) 245-2118**
Email: public.services@floridadep.gov
Mailing Address: **Department of Environmental Protection**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Audit Requirements
(State and Federal Financial Assistance)

Attachment 5

The administration of resources awarded by the Department of Environmental Protection *(which may be referred to as the "Department", "DEP", "FDEP" or "Grantor", or other name in the agreement*) to the recipient *(which may be referred to as the "Recipient", "Grantee" or other name in the agreement)* may be subject to audits and/or monitoring by the Department of Environmental Protection, as described in this attachment.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEP Department staff, limited scope audits as defined by 2 CFR 200.425, or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends $750,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of Environmental Protection. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR 200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200.514 will meet the requirements of this part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR 200.508-512.

3. A recipient that expends less than $750,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than $750,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other federal entities.

4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at **www.cfda.gov**

PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(2), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through the Department of Environmental Protection by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal year ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than $750,000 in state financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. For information regarding the Florida Catalog of State Financial Assistance (CSFA), a recipient should access the Florida Single Audit Act website located at https://apps.fldfs.com/fsaa for assistance. In addition to the above websites, the following websites may be accessed for information: Legislature's Website at http://www.leg.state.fl.us/Welcome/index.cfm, State of Florida's website at http://www.myflorida.com/, Department of Financial Services' Website at http://www.fldfs.com/and the Auditor General's Website at http://www.myflorida.com/audgen/.

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

PART IV: REPORT SUBMISSION

1. Copies of reporting packages for audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and required by PART I of this form shall be submitted, when required by 2 CFR 200.512, by or on behalf of the recipient directly to the Federal Audit Clearinghouse (FAC) as provided in 2 CFR 200.36 and 200.512

   A. The Federal Audit Clearinghouse designated in 2 CFR §200.501(a) (the number of copies required by 2 CFR §200.501(a) should be submitted to the Federal Audit Clearinghouse), at the following address:

By Mail:

Federal Audit Clearinghouse
Bureau of the Census
1201 East 10th Street
Jeffersonville, IN 47132

Submissions of the Single Audit reporting package for fiscal periods ending on or after January 1, 2008, must be submitted using the Federal Clearinghouse's Internet Data Entry System which can be found at http://harvester.census.gov/facweb/

2. Copies of financial reporting packages required by PART II of this Attachment shall be submitted by or on behalf of the recipient directly to each of the following:

A. The Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

B. The Auditor General's Office at the following address:

Auditor General
Local Government Audits/342
Claude Pepper Building, Room 401
111 West Madison Street
Tallahassee, Florida 32399-1450

The Auditor General's website (http://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Copies of reports or management letters required by PART III of this Attachment shall be submitted by or on behalf of the recipient directly to the Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

4. Any reports, management letters, or other information required to be submitted to the Department of Environmental Protection pursuant to this Agreement shall be submitted timely in accordance with 2 CFR 200.512, section 215.97, F.S., and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.

5. Recipients, when submitting financial reporting packages to the Department of Environmental Protection for audits done in accordance with 2 CFR 200, Subpart F-Audit Requirements, or Chapters 10.550 (local governmental entities) and 10.650 (non and for-profit organizations), Rules of the Auditor General, should indicate the date and the reporting package was delivered to the recipient correspondence accompanying the reporting package.

PART V: RECORD RETENTION

The recipient shall retain sufficient records demonstrating its compliance with the terms of the award and this Agreement for a period of **five (5)** years from the date the audit report is issued, and shall allow the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General upon request for a period of **three (3)** years from the date the audit report is issued, unless extended in writing by the Department of Environmental Protection.

EXHIBIT – 1

FUNDS AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Note: If the resources awarded to the recipient represent more than one federal program, provide the same information shown below for each federal program and show total federal resources awarded

Federal Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following:					
Federal Program A	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	
Federal Program B	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	

Note: Of the resources awarded to the recipient represent more than one federal program, list applicable compliance requirements for each federal program in the same manner as shown below:

Federal Program A	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.:(eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	
Federal Program B	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.: (eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	

Note: If the resources awarded to the recipient for matching represent more than one federal program, provide the same information shown below for each federal program and show total state resources awarded for matching.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Matching Resources for Federal Programs:					
Federal Program A	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category
Federal Program B	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category

Note: If the resources awarded to the recipient represent more than one state project, provide the same information shown below for each state project and show total state financial assistance awarded that is subject to section 215.97, F.S.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Resources Subject to Section 215.97, F.S.:						
State Program A	**State Awarding Agency**	**State Fiscal Year[1]**	**CSFA Number**	**CSFA Title or Funding Source Description**	**Funding Amount**	**State Appropriation Category**
Original Agreement	Department of Environmental Protection	2021-2022	37.039	Statewide Surface Water Restoration and Wastewater Projects	$6,500,000	140047
State Program B	**State Awarding Agency**	**State Fiscal Year[2]**	**CSFA Number**	**CSFA Title or Funding Source Description**	**Funding Amount**	**State Appropriation Category**

Total Award	$6,500,000	

Note: List applicable compliance requirement in the same manner as illustrated above for federal resources. For matching resources provided by the Department for DEP for federal programs, the requirements might be similar to the requirements for the applicable federal programs. Also, to the extent that different requirements pertain to different amount for the non-federal resources, there may be more than one grouping (i.e. 1, 2, 3, etc.) listed under this category.

For each program identified above, the recipient shall comply with the program requirements described in the Catalog of Federal Domestic Assistance (CFDA) [www.cfda.gov] and/or the Florida Catalog of State Financial Assistance (CSFA) [https://apps.fldfs.com/fsaa/searchCatalog.aspx], and State Projects Compliance Supplement (Part Four: State Projects Compliance Supplement [https://apps.fldfs.com/fsaa/state_project_compliance.aspx]. The services/purposes for which the funds are to be used are included in the Agreement's Grant Work Plan. Any match required by the Recipient is clearly indicated in the Agreement.

Exhibit A
Progress Report Form

DEP Agreement No.:	LPA0206
Project Title:	Pasco County Handcart Road Water and Wastewater
Grantee Name:	Pasco County
Grantee's Grant Manager:	Robert Marin
Reporting Period:	Select reporting period. Select year.

Provide the following information for all tasks identified in the Grant Work Plan:
Summarize the work completed within each task for the reporting period. Provide an update on the estimated completion date for each task and an explanation for any anticipated delays or problems encountered. Add or remove task sections and use as many pages as necessary to cover all tasks. Use the format provided below.

Task 1: Design and Permitting

- Progress for this reporting period:
- Identify delays or problems encountered:

Task 2: Construction

- Progress for this reporting period:
- Identify delays or problems encountered:

Indicate the completion status for the following tasks:

Design (Plans/Submittal): 30% ☐, 60% ☐, 90% ☐, 100% ☐

Permitting (Completed): Yes ☐, No ☐

Construction (Estimated): _____ %

This report is submitted in accordance with the reporting requirements of the above DEP Agreement number and accurately reflects the activities associated with the project.

Signature of Grantee's Grant Manager (Original Ink) Date

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** PDD23-0005 **DATE:** 10/25/2022

SUBJECT: Villages of Pasadena Hills - Global Funding and Escrow Agreement

REFERENCES: All Pasadena Hill Planning and Policy Committee (PHPPC), and Board of County Commissioners (BCC) public hearings at 1:30 p.m in New Port Richey (NPR) or Dade City (DC): VOPH PPC in DC: 8/17/22 - BCC in NPR: 10/25/22.

AGENDA SECTION: Consent Agenda

THRU: Sally Sherman, Assistant County Administrator

FROM: Nectarios Pittos, Planning and Development Director

RECOMMENDED BOARD ACTION:

Approve the VOPH Global Funding and Escrow Agreement. Authorize the Chairman to execute the Agreement, and direct Board Records to distribute as set forth under the Distribution Section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

To provide infrastructure for the Villages of Pasadena Hills special planning area, Pasco County and the Co-Developers have mutually agreed to enter into this agreement to induce the Co-Developers and their designated Villages of Pasadena Hills (VOPH) MPUD Owner(s) to privately fund, design, permit, and construct designated roadway and utilities infrastructure projects within the VOPH special planning area. In exchange, said constructing parties who fund the designated infrastructure improvements will receive VOPH Transportation Development Fee and Utility Surcharge Fee Credits consistent with the provisions of the VOPH Financial Plan.

Roadway Infrastructure Projects

Each VOPH-MPUD project is assigned specific projects they will have to design, permit, and construct. Each project will be built to the conditions outlined within the MPUD process. Any change in the obligations of the MPUD must be approved by the County Administrator and relevant Co-Developer as an administrative amendment to this agreement. Currently, The VOPH-MPUDs in this agreement will be responsible for designated segments of the following roads:

- Handcart Road (Primary Road)
- Keifer Road (Primary Road)
- Highland Boulevard (Intermediate Road)
- Tyndall Road (Intermediate Road)
- Prospect Road (Intermediate Road)
- New River Boulevard (Intermediate Road)

Transportation Development Fee Credits

The Designated MPUDs anticipate pre-funding the improvements for each MPUD. Once a deposit is made into the VOPH Roadway Escrow account (a segregated account managed by the Financial Escrow Agent), the County will then provide VOPH Transportation Fee Credits to the applicable Co-Developer or MPUD Owner. Within 45-days after the Financial Escrow Agent confirms funds have been deposited into the VOPH Roadway Escrow Account, the County will issue credits. These credits cannot be used on the VOPH External Improvement Fee or Administrative Fee-these fees

must be paid in cash.

Intermediate Roadway Credits
The 2022 VOPH Financial Plan update (also scheduled for consideration by the BCC on 10/25) if adopted, will provide roadway fee credits for all intermediate roadways (based on a partial allocation of the existing tax increment previously approved in VOPH). This would make both primary and intermediate roads creditable within VOPH and will encourage needed roadway construction within VOPH.

Utility Infrastructure Projects
The County has entered into a grant agreement with the State of Florida Department of Environment Protection (DEP) for designated utility projects within VOPH and desires the Co-Developers to be the constructing entity for the DEP Grant Project. As the constructing entity, the Co-Developers also shall design, permit, and construct additional VOPH Master Utility Projects within this agreement. The funding for any excess costs for the County Master Utility Projects beyond the $6.5 million DEP Grant reimbursement amount will be the subject of a Supplemental Agreement between PCUD and the Co-Developers.

County Master Utility Projects
1. Handcart Road Master Potable Water Transmission Line Extension & Appurtenances (also known as the Main Potable Water System Extension)
2. Handcart Road Main Sanitary Sewer Collection System Extension (also known as the Handcart Main Sanitary Sewer Transmission Line)

Developer Utility Projects
Developers will also be responsible for additional utility projects, which will include: potable water, wastewater, and reclaimed water transmission lines and are located in the following road segments:

- Handcart Road
- Keifer Road
- Highland Boulevard
- Tyndall Road
- New River Boulevard

VOPH Utility Projects Funding and Surcharge Fee Credits
VOPH Utility Surcharge Fees and Credits will work similarly to the Transportation Development Fee Credits, except that utility credits apply only to utility surcharges and not to base utility connection fees.

Supplemental Agreements
This agreement contemplates the negotiation for two additional supplemental agreements: (1) the PCUD Supplemental Agreement for any excess costs for the County Master Utility Projects beyond the DEP Grant amount (see above), and (2) a potential agreement between PDD and the Co-Developers to facilitate review of public roadway construction plans through third-party outsourcing to qualified engineering review consultants (subject to BCC approval).

VOPH Planning and Policy Committee Recommendation
On August 17, 2022, the VOPH Planning and Policy Committee recommended approval of the VOPH Global Funding and Escrow Agreement to the Board of County Commissioners.

This memo was prepared by Gavin Covey, Project Coordinator III.

FISCAL IMPACT/COST/REVENUE STATEMENT:

With the exception of the County Master Utility Projects (which will be addressed by supplemental agreement), all funding of the required roadway and utility projects, and all funding for the Financial Escrow Agent and Engineer Verification Agent, will be provided by the applicable Co-Developer(s) or MPUD Owner(s) in exchange for applicable Transportation Development Fees and Utility Surcharge Fee Credits.

DISTRIBUTION:

Board Records Department to distribute as set forth below.

RE: Global Funding and Escrow Agreement
C15 PDD23-0005

Dear Sir/Madam:

At the Pasco County Board of County Commissioners meeting of October 25, 2022, the above mentioned agenda item was approved. Attached is a copy of the document for your files.

Any exhibits related to this document can be viewed by visiting the Pasco County Website as follows: go to www.pascocountyfl.net, scroll down and click on "Transparency", click on "Agendas & Minutes", select the meeting date from the list, click on "Agenda", click on the agenda item number indicated above, and click on the attachment you wish to view.

If you have any questions, please contact the appropriate department or call (352) 521-4274 or (727) 847-2411.

Sincerely,

Jessica L Popplewell

Jessica L Popplewell

FUNDING & ESCROW AGREEMENT
FOR ROADWAYS & UTILITIES CAPITAL INFRASTRUCTURE
VILLAGES OF PASADENA HILLS (VOPH)
DESIGNATED VOPH-MPUD PROJECTS

VOPH Master Development Company, LLC
& Galvin Land Services, LLC

THIS FUNDING & ESCROW AGREEMENT (the "**Agreement**") is made and entered into effective as of the Effective Date (as defined herein), by and between **PASCO COUNTY, FLORIDA,** a political subdivision of the State of Florida ("**Pasco County**" or the "**County**"), by and through its Board of County Commissioners, the governing body thereof, and **VOPH Master Development Company, LLC,** a Florida limited liability company ("**VOPH Master**"), whose address is 4065 Crescent Park Drive, Riverview, FL 33578, and **Galvin Land Services, LLC**, a Florida limited liability company ("**Galvin**"), whose address is 121 Snell Isle Blvd., St. Petersburg, FL 33704 (VOPH Master and Galvin also are referred to herein as the "**Co-Developers**" and each may be referred to herein as a "**Developer**" where the context requires), and is joined in by the individual MPUD applicant entities identified herein, their successors and assigns, as third-party beneficiaries only (individually a "**VOPH-MPUD Owner**" or jointly the "**VOPH-MPUD Owners**"), with reference to the following matters:

RECITALS

A. The County previously established the Villages of Pasadena Hills ("**VOPH**") as a special planning area, including the creation of a Dependent Special District (the "**District**") and establishment of a Stewardship District Ordinance, VOPH Financial Plan, VOPH Master Utility Plan, VOPH Master Roadway Plan, and specific Land Development Code ("**LDC**") regulations applicable to VOPH (as previously or hereafter amended, collectively the "**VOPH Enabling Documents").**

B. In order to provide substantial VOPH master infrastructure facilities required for the commencement of development and thereby to secure a material portion of the anticipated VOPH master infrastructure capital improvements contemplated by the VOPH Financial Plan,, the Co-Developers and the County mutually desire to enter into this Agreement to facilitate the implementation of portions of the VOPH Financial Plan, VOPH Master Utility Plan, and VOPH Master Roadway Plan for a designated number of VOPH-MPUD projects anticipated to commence near-term development on a phased basis (as now or hereafter identified pursuant to this Agreement, the "**Designated VOPH-MPUDs**").

C. The County has entered into a State of Florida Department of Environmental Protection (DEP) Standard Grant Agreement, LPA0206, which provides $6,500,000 on a reimbursement basis for the Handcart Road Water and Wastewater Project.

D. Consequently, this Agreement is intended to specify certain infrastructure and other commitments required to support the respective, Designated VOPH-MPUDs, and the process and conditions for implementation of such capital infrastructure improvements by either Co-Developer as the Constructing Entity (defined below) for the applicable VOPH-MPUD Owner(s) or the County, as applicable.

E. With respect to any VOPH-MPUD already owned by a Co-Developer, this Agreement shall be immediately applicable thereto. However, this Agreement shall apply to and govern the ownership and future development of the other Designated VOPH-MPUDs only if and as of the date the designated VOPH-MPUD Owner(s) acquire record title to the applicable VOPH-MPUD land. This Agreement shall not encumber or otherwise cloud the title to any Designated VOPH-MPUD land until such time as the designated VOPH-MPUD Owner, its successor or assign, acquires record title to same and notice is provided by the applicable Developer to the County pursuant to Section 3.a., below.

NOW, THEREFORE, for and in consideration of the mutual promises, covenants and conditions set forth herein, the County and the Developer agree as follows:

AGREEMENT

1. **Recitals & Exhibits**. The above recitals are true and correct, and together with all exhibits hereto, are incorporated by reference herein and made a part of this Agreement.

2. **Intent & Purpose.** It is the intent and purpose of this Agreement to induce the Co-Developers and the applicable VOPH-MPUD Owner(s) to fund, design, permit and construct certain VOPH master roadway and master utility infrastructure projects, in exchange for certain VOPH Transportation Credits and Utility Credits (as defined herein and collectively the "**VOPH Fee Credits**"). Consequently, this Agreement provides for (i) certain procedures that will enhance the development feasibility of VOPH and facilitate future regulatory approvals and permit issuance for the designated master infrastructure work, (ii) specifically identified Developer and VOPH-MPUD Owner commitments for certain master public infrastructure to support VOPH, (iii) the process for funding the costs for the designated public infrastructure improvements and for the verification, issuance and use of the applicable VOPH Fee Credits, and (iv) the earmark, allocation and use of certain State of Florida funding provided to the County for the Handcart Road County Utility Project (as defined herein).

3. **Designated VOPH-MPUDs; Public Infrastructure Permitting.**

   a. **Designated VOPH-MPUDs; Applicability**. The initial VOPH-MPUDs which shall be governed by this Agreement (the "**Designated VOPH-MPUDs**") and their respective, contemplated VOPH-MPUD Owner entities are set forth on **Exhibit A** hereto. The listed VOPH-MPUD Owner(s) are either fee simple record owners or contract vendees having an equitable ownership interest in the respective Designated VOPH-MPUD. As stated in Recital D, above, this Agreement shall not apply to or otherwise bind any Designated VOPH-MPUD unless and until (i) said VOPH-MPUD is approved by the County and (ii) the applicable VOPH-MPUD Owner, or its successor or assign as designated by the applicable Developer, acquires record title to such VOPH-MPUD and provides written notice of such closing date of record to the County pursuant to this Agreement. The applicable Developer and the County Administrator (or Designee) by mutual agreement also shall have the right to identify additional VOPH-MPUDs as a Designated VOPH-MPUD under this Agreement, in which event the County Administrator or the County Administrator's Designee shall add such additional Designated VOPH-MPUDs (with applicable designated master roadway and/or utility infrastructure) by administrative amendment to this Agreement. The applicable Developer for such VOPH-MPUD shall provide notice to the County

Administrator or the County Administrator's Designee, including a copy of the recorded deed, when this Agreement is activated by record ownership for the respective Designated VOPH-MPUDs. Nothing in this Agreement shall obligate the BCC to approve any specific MPUD listed on Exhibit A or subsequently added to this Agreement as set forth above, which MPUD rezoning approval(s) remain subject to normal County process and requirements.

b. **Master Public Infrastructure Approvals and Permits.** Pasco County shall accept and process pursuant to the Land Development Code the applications for all Pasco County approvals, permits, and permit modifications reasonably necessary for the design, permitting and/or construction of any public infrastructure or related matters covered by this Agreement. Without limiting the foregoing, the anticipated construction plan and permit review is expected to include the following matters to the extent they are related to the matters set forth in this Agreement:

i. **VOPH Master Roadway Plan improvements;**

ii. **VOPH Master Utility Plan improvements;**

iii. **Alternative Vehicle (AV) or other Alternative Transportation Network improvements to the extent part of the Master Roadway Plan improvements;**

iv. **Storm Water System plans, permits and construction related to master roadway or master utilities infrastructure;**

v. **Wetland and/or flood plain impact/compensation, and other mitigation plans, permits, and construction related to master roadway or master utilities infrastructure; and**

vi. **Mass Grading and/or Right-of-Way Use permits to implement any of the foregoing items**

c. **Public Infrastructure Plan Review Process**. Subject to mutual approval by the Planning & Development Department (PDD) and the Co-Developer(s), the plans and permit applications submitted for the public roadway infrastructure pursuant to this Agreement, if submitted as stand-alone plans (not combined with internal subdivision plans), may be outsourced to a qualified third-party engineering consultant (the "**Road Plan Review Consultant**"). Such supplemental agreement is subject to mutual agreement between PDD and the Co-Developer(s) and may include the following: (i) the timeline and costs for the initial third-party review by the Road Plan Review Consultant; (ii) the timeline and review fees for final County review and approval after submittal by the Road Plan Review Consultant; and (iii) the potential award of VOPH Planning & Review Administrative Fee credits to the Co-Developer(s) for the Road Plan Review Consultant expenses (and subject to BCC approval, if legally required). Any such Road Plan Review Consultant process shall not apply to any internal VOPH-MPUD subdivision improvement plans or infrastructure plans which are combined with internal subdivision improvement plans, which shall be subject to standard review process by applicable County departments. All public utilities infrastructure plans and permit applications shall be processed exclusively by PCUD as set forth in Section 5.g., below, of this Agreement.

4. **Designated Master Roadway Pipeline Projects; Phasing Plan; Funding Process; Escrow Arrangement; VOPH Transportation Development Fee Credits.**

a. **Initial Designated Master Roadway Plan Pipeline Projects; Additional Projects.** The County and the Co-Developers have agreed on the initial "**Designated Master Roadway Pipeline Projects**" identified on **Exhibit B-1** hereto, which also are graphically depicted on **Exhibit B-2** hereto. The initial Designated Master Roadway Pipeline Projects identified on Exhibits B-1 and B-2 are allocated and linked to the respective Designated VOPH-MPUD which has been obligated or will be obligated to design, permit, and construct the respective Master Roadway Pipeline Improvement(s), pursuant to its VOPH-MPUD County approval process for each such VOPH-MPUD. The list of roadway obligations identified in Exhibit B-1 and B-2 are subject to change as a result of the VOPH-MPUD review and approval process; in the event that any such obligations change, the County Administrator and specified Co-Developer(s) shall approve administrative amendments to Exhibit B-1 and B-2 to conform this Agreement to the approved VOPH-MPUD conditions of approval, and provide copies of the amended Exhibits to the Engineer Verification Agent and Financial Escrow Agent. Either Co-Developer shall have the right to designate, subject to approval by the County Administrator or the County Administrator's Designee, additional Designated Master Roadway Pipeline Projects identified within and linked to additional Designated VOPH-MPUDs owned or controlled by such Co-Developer, in which event such additional Designated VOPH-MPUDs and the respective additional linked Designated Master Roadway Pipeline Projects shall be added to this Agreement by administrative amendment executed by the County Administrator or designee and the specified Co-Developer (with copies provided to the Engineer Verification Agent and Financial Escrow Agent), and joined in by such additional Designated VOPH-MPUD as a third-party beneficiary of this Agreement.

b. **Phasing Plan; Subsequent Revisions.** The County and the Co-Developers have agreed on the "**Initial Phasing Plan for Designated Master Roadway and Developer Utility Pipeline Projects**" set forth on **Exhibit C** hereto. The sequencing for the individual VOPH-MPUD roadway projects may change or overlap, such projects may be designed, permitted or constructed in phases, and concurrent or combined roadway project design, permitting and/or construction may occur in the sole discretion of either Co-Developer; however, the applicable Co-Developer shall meet the "Initial Commencement Date" for each such roadway project phase as set forth on Exhibit C and shall complete each project phase by not later than the completion date set forth for each such roadway project phase on Exhibit C, subject to Force Majeure (as defined in Section 13.v. of this Agreement). In addition, the phasing plan for the individual pipeline projects may be modified by the applicable Co-Developer with the consent of the County Administrator or the County Administrator's Designee, through administrative amendment to the applicable exhibits to this Agreement, provided that (a) the functionality of the VOPH roadway capacity intended to serve the applicable Designated VOPH-MPUD at such time is not adversely impacted by such modifications (as reasonably determined by the County Administrator or his/her Designee), and (b) copies of the amended phasing plan are provided to the Engineer Verification Agent and Financial Escrow Agent. The County acknowledges and agrees that the Co-Developers shall not be required to be the Constructing Entity or otherwise responsible for any roadway segments or other transportation improvements related to

any County roadway project or to any other development project which is not a Designated VOPH-MPUD initially or hereafter identified by a Co-Developer as owned or controlled by such Co-Developer, pursuant to this Agreement. With respect to any Designated Master Roadway Pipeline Project identified by this Agreement or subsequently designated as authorized above, either Co-Developer (or its designee) shall have the right upon thirty (30) days' prior written notice to the Engineer Verification Agent, the Financial Escrow Agent, the County and the other Co-Developer to assume responsibility for funding, design, permitting and construction thereof in the event (i) the Co-Developer or Designated VOPH-MPUD Owner originally assigned such roadway pipeline project fails to pursue same as and when required by this Agreement or (ii) the roadway pipeline project otherwise becomes necessary to serve another Designated VOPH-MPUD Project at an earlier date, due to actual project development sequencing within VOPH. In such case the Co-Developer or Designated VOPH-MPUD Owner which actually provides the funding to the Roadway Escrow Account or otherwise designs, permits, constructs and pays for the roadway pipeline shall receive the Transportation Credits for such roadway pipeline under this Agreement.

c. **Prepayment of VOPH Roadway Pipeline Project Costs; Alternative Funding Options.** The Co-Developers' initial funding mechanism for the Designated Master Roadway Pipeline Projects is intended to be the pre-payment of projected costs for each such Designated Master Roadway Pipeline Project as allocated to each Designated VOPH-MPUD, pursuant to the funding schedule set forth in Section 4.e., below, in exchange for the "Transportation Credits" as defined in Section 4.f. below. Such Co-Developer pre-payment of projected roadway pipeline costs or other Alternative Funding Source (defined below) may occur at any time prior to the funding schedule deadlines set forth in Section 4.e., below, and Exhibit C, in the discretion of the applicable Co-Developer or the applicable VOPH-MPUD Owner. All such prepaid amounts shall be earmarked and deposited by the "Financial Escrow Agent" (defined below) directly into the "VOPH Roadway Escrow Account" as provided in Section 4.d., below, and held, disbursed, and administered as required by this Agreement. Either Co-Developer also may elect in its discretion, in whole or in part, to fund the VOPH Roadway Escrow Account through Community Development District (CDD) funding in accordance with applicable law, capital funding from the Co-Developer and/or the applicable VOPH-MPUD Owner(s), or other private funding sources (jointly and severally the "**Alternative Funding Source**"). The initial funding amounts for the respective Developer Master Roadway Pipeline Projects shall be based upon (i) the project engineer's opinion of probable cost ("OPC") for each respective pipeline project, inclusive of design, permitting, construction, testing/inspection, and other construction contract costs, (ii) a pre-deposit for the aggregate Financial Escrow Agent fees and the aggregate Engineer Verification Agent fees for the first three (3) year period commencing with the first such escrow deposit under this Agreement (a 3-year total of $140,000 for the Financial Escrow Agent fees and a 3-year total of $337,842 for the Engineer Verification Agent fees), and (iii) any other known or anticipated costs (such as any applicable right-of-way acquisition costs), but subject to subsequent reconciliation and adjustment when the final, selected contract bid(s) are received for each applicable pipeline project. The Developer shall provide any additional funding to the Financial Escrow Agent that is required to pay the actual costs incurred for each applicable Developer Master Roadway Pipeline Project, if the initial deposit of funds for such project are not sufficient. Any funds deposited into the VOPH Roadway Escrow Account by a Co-Developer or any Designated VOPH-MPUD,

whether from pre-paid roadway pipeline costs or any Alternative Funding Source, shall be governed by this Agreement. The County shall not be required to contribute to the VOPH Roadway Escrow Account.

d. **VOPH Roadway Escrow Account.** The Financial Escrow Agent shall establish a segregated escrow account for the private funding provided by the Co-Developers and/or the Designated VOPH-MPUD Owner(s) pursuant to Section 4.c., above, for the exclusive purpose of funding the Designated VOPH Master Roadway Pipeline Projects identified in this Agreement from time to time (the "**VOPH Roadway Escrow Account**"). The funds deposited into the VOPH Roadway Escrow Account shall not be commingled with any other funds nor any funds related to any other developer's projects or any other VOPH developer(s) or VOPH-MPUD ownership entities not initially or hereafter identified and included by the Co-Developers under this Agreement. However, the County reserves the right to make other, independent business arrangements with other developers or owners within VOPH for other roadway improvements required for unrelated VOPH-MPUDs not owned, controlled by, or affiliated with the Co-Developers, in the sole discretion of the County. However, any such unrelated projects shall be governed by separate agreement(s) between the County and such unrelated developer(s) and the VOPH Roadway Escrow Account required herein shall be utilized and administered by the Financial Escrow Agent solely for the Co-Developer's Designated VOPH Master Roadway Pipeline Projects as set forth in this Agreement.

e. **VOPH Roadway Escrow Account Funding Schedule**. The Co-Developers anticipate closing on the respective VOPH-MPUD projects over time; therefore, the required funding schedule for the respective Designated Master Roadway Pipeline Project(s) which are linked to each separate Designated VOPH-MPUD, shall be based upon the schedule set forth in **Exhibit C** as to each Designated VOPH-MPUD. By way of clarification, in the event either Co-Developer or its designated VOPH-MPUD Owner fails to fund the VOPH Escrow Account when required pursuant to Exhibit C, then: (i) no Transportation Credits (defined below) shall be awarded to such Co-Developer for such VOPH-MPUD unless and until such funding occurs, and (ii) the applicable Master Roadway Pipeline Project(s) which are linked to such VOPH-MPUD pursuant to each respective VOPH-MPUD approval, shall remain an obligation of such VOPH-MPUD Owner in order for development to proceed for such VOPH-MPUD, unless such project(s) first is/are constructed by others pursuant to any separate VOPH-MPUD approvals by the County. If the applicable Co-Developer or its Designated VOPH-MPUD Owner does not pre-fund the VOPH Roadway Escrow Account for a designated roadway pipeline project as contemplated herein, then no Transportation Credits for such roadway pipeline until such construction is completed and costs are verified pursuant to this Agreement. All final Transportation Fee Credits shall be verified and reported by the Engineering Verification Agent and the Financial Escrow Agent pursuant to the terms of this Agreement and shall be adjusted as required when confirmed and ratified by the County pursuant to Section 6 below.

f. **VOPH Transportation Development Fee Credits; Use and Assignment.** As a material inducement for the Co-Developers and the Designated VOPH-MPUD Owners to enter into this Agreement and to fund the VOPH Roadway Escrow Account, the County agrees that the applicable Co-Developer (or its designee in its sole discretion) shall receive VOPH Transportation Development Fee Credits (the "**Transportation Credits**") for a portion (as specified below) of the initial deposits with the Financial

Escrow Agent, which Transportation Credits shall be issued by the County within forty-five (45) days of the date that the Financial Escrow agent confirms to the County that funds have been deposited into the VOPH Roadway Escrow Account, so that the Transportation Credits shall thereafter be immediately usable and assignable by the Co-Developer and its designee(s). The Co-Developers and their respective designee(s) shall be allowed to use and/or assign the Transportation Credits (i) against applicable VOPH Transportation Development Fees (both base mobility fees and surcharges, if any) for any Designated VOPH-MPUD, (ii) by and through registration on the VOPH Fee Credit Registry pursuant to the County's adopted policies applicable thereto, and/or (iii) for private sale and assignment to any other VOPH owners, developers, builders, CDDs, or other persons or entities within VOPH not included within this Agreement, in the sole discretion of the Co-Developer or its designee(s). Pursuant to the VOPH Enabling Documents, however, the Transportation Credits shall not be used against the VOPH External Improvements Fee (which includes the SIS and Transit portions) or the Administrative Fee portion of the applicable VOPH base mobility fees, which must be paid to the County in cash by the applicable VOPH-MPUD developer(s) or builder(s). With respect to the issuance of the Transportation Credits to the applicable co-Developer (or its designee) as provided herein, upon the deposit of the Co-Developer's or VOPH-MPUD Owner(s)' funds into the VOPH Roadway Escrow Account, Transportation Credits shall be issued by the County to the Co-Developer or its designee for ninety percent (90%) of such amount tendered, as the "Interim Credit Amount." Once the Financial Escrow Agent confirms to the County the amount and owner of the Interim Credit Amount, the County shall create a Transportation Credit account for such owner for the Interim Credit Amount. Thereafter, Transportation Credits up to the Interim Credit Amount shall be usable or assignable by the Co-Developer or its designee. At any time after funding for a specific project in the VOPH Roadway Escrow Account, the Co-Developer shall submit documentation to revise the amount so required for the applicable project, based upon receipt of either an updated OPC, revised bid amount, or interim contract change. In the event of such interim adjustment, the amount(s) required to be funded into the VOPH Roadway Escrow Account shall be revised accordingly, with any shortfall to be paid by the Co-Developer into the VOPH Roadway Escrow Account within fifteen (15) days thereafter (with 90% Interim Credits also issued by the County for such additional deposit amount within forty-five (45) days of the County receiving written confirmation of the additional deposit from the Financial Escrow Agent). Upon completion of the applicable project and final reconciliation of the VOPH Roadway Escrow Account, which reconciliation shall be made by the Engineer Verification Agent and Financial Escrow Agent within forty-five (45) days after the Final Disbursement (as defined in Section 11.f.), the Co-Developer's (or its designee's) Transportation Credit account shall be adjusted by the County to equal the final, total amount expended from the VOPH Roadway Escrow Account for the applicable project (the "Final Credit Amount"). Any unused cash amounts tendered by the Co-Developer or its designee into the VOPH Roadway Escrow Account for the applicable project then shall be disbursed and returned to the applicable Co-Developer or its designee, within fifteen (15) days after the final VOPH Roadway Escrow Account reconciliation is made for said project.

g. VOPH Financial Plan Update; Intermediate Roadway Credits. In order to support the award of Transportation Credits for the number of off-site intermediate roadways included herein and also to include on-site intermediate roadways as creditable

improvements, the County has requested and the Co-Developers have agreed to provide a proposed VOPH Financial Plan update to the County which will include an analysis of the roadway budget impact to provide credits for all intermediate roadways (in addition to primary roadways) within VOPH. In connection with such Financial Plan update, the availability of a portion of the future tax increment funding within VOPH will be taken into account. Upon completion and delivery of the required budget analysis the County agrees to process such VOPH Financial Plan update concurrently or soon after the date of this Agreement and in accordance with the VOPH Enabling Documents, for consideration by the Board of County Commissioners.

5. **Designated Master Utility Pipeline Projects; Phasing Plan; Funding Process; Escrow Arrangement; VOPH Utility Surcharge Fee Credits; Internal MPUD Requirements.**

a. **County Master Utility Pipeline Projects.** The County and the Co-Developers have agreed on the following County master utility projects for VOPH which shall be implemented through either of the Co-Developers or their designee as the "**Constructing Entity**" (also referred to as the "**Developer**" below) for the County (collectively the "**County Utility Projects**"):

(i) Handcart Road Master Potable Water Transmission Line Extension & Appurtenances. As the County's designated Constructing Entity pursuant to Section 8, below, the Developer shall design, permit and construct, pursuant to plans approved by the Pasco County Utilities Department (PCUD), the "**Handcart Main Potable Water Transmission Line**" as conceptually depicted on **Exhibit D-1**. At a minimum, such plans shall include (x) the initial 16-inch main transmission line (or larger if specified by the County), (y) all required booster pumps and other appurtenances, and (z) all storage facilities required to extend the existing main potable water transmission line from its existing terminus in Handcart Road northward to Kiefer Road, with sufficient potable water and fire suppression capacity and pressure to serve not less than 6,000 equivalent residential units ("ERU's") in such intended initial VOPH service area (such approved plans collectively are referred to herein as the "**Main Potable Water System Extension**"). The County agrees to fund the design, permitting and construction costs for the Main Potable Water System Extension pursuant and subject to Section 5.b., below. The County agrees to be the permit applicant for the Main Potable Water System Extension (but not for any private developer project improvements) and shall provide the system-wide capacity required from time-to-time to serve the Designated VOPH-MPUDs pursuant to the VOPH Enabling Documents. Applicable VOPH potable water commitment/surcharge fees and connection/service fees shall apply to all parcel developers and users within VOPH, as specified in the VOPH Enabling Documents as adopted by the County from time-to-time. No VOPH Utility Surcharge Fee Credits (defined below) shall be awarded to Developer for any portion of the Handcart Main Potable Water System Extension that is funded by the County.

(ii) Handcart Road Main Sanitary Sewer Collection System Extension. As the County's designated Constructing Entity pursuant to Section 8, below, the Developer shall design, permit and construct, pursuant to plans approved by the PCUD, the "**Handcart Main Sanitary Sewer Transmission Line**" as conceptually depicted on **Exhibit D-2.** At a minimum such plans shall include the primary 12-inch sanitary sewer collection/transmission line (or larger if specified by the County) and any related pumps or other appurtenances required to extend the existing main sanitary sewer

transmission line from its existing terminus in Handcart Road north to Kiefer Road, with sufficient capacity to serve not less than 6,000 ERU's in such intended initial VOPH service area (such approved plans collectively are referred to herein as the "**Main Sanitary Sewer Collection System Extension**"). The County agrees to fund the design, permitting and construction costs for the Handcart Main Sanitary Sewer Transmission Line pursuant and subject to Section 5.b., below. The County agrees to be the permit applicant for the public project improvements (but not any private developer improvements)and shall provide the system-wide treatment capacity required from time-to-time to serve the Designated VOPH-MPUDs pursuant to the VOPH Enabling Documents. Applicable VOPH sewer commitment/surcharge fees and connection/service fees shall apply to all parcel developers and users within VOPH as specified in the VOPH Enabling Documents as adopted by the County from time-to-time. No VOPH Utility Surcharge Fee Credits (defined below) shall be awarded to Developer for any portion of the Handcart Main Sanitary Sewer Collection System Extension that is funded by the County.

(iii) **Schedule for County Utility Projects**. The Developer and PCUD agree that the schedule for design, permitting, award of bid(s), and construction of each of the County Utility Projects identified above shall comply with the process and deadlines (to be set by the County) required for the County to meet the terms and conditions of that certain Standard Grant Agreement (LPA 0206) between the County and the State of Florida Department of Environmental Protection (DEP) for "Pasco County Handcart Road Water and Wastewater" (the "DEP Grant Agreement").

b. County Utility Project(s) Funding Agreement. The DEP Grant Agreement provides for County reimbursement from the State of Florida for the two (2) County Utility Projects identified in Sections 5.a (i) and 5.a.(ii) above, up to the amount of $6,500,000.00 the ("**VOPH State Funding**"). To comply with the VOPH State Funding reimbursement requirements, the County and the Developer(s) agree to negotiate in good faith to agree upon the following matters within sixty (60) days after the Effective Date of this Agreement:

i. a master utility plan ("MUP") for the County Utility Projects, including the sizing and scope for the main transmission lines, booster pumps, storage facilities, and other required appurtenances;
ii. a preliminary budget for the County Utility Projects based on the MUP and the VOPH Enabling Documents;
iii. a County Utility Projects Reimbursement Agreement (which shall be deemed a supplement to this Agreement) which includes the process and requirements pursuant to the DEP Grant Agreement, which currently expires on March 31, 2024, for the County to receive the VOPH State Funding reimbursement amount; and
iv. the funding source(s) and process for the County Utility Projects (but excluding any "Developer Utility Projects" (defined below) for any required transmission line extensions outside the County Utility Projects), including any additional amounts required for the County Utility Projects beyond the VOPH State Funding Amount. The funding and disbursements for the County Utility Projects shall be managed entirely by the County, and the Financial Escrow Agent and Engineer Verification Agent shall not have any responsibility for managing the County Utility Projects or for administering or requesting reimbursements under the DEP Grant Agreement.

c. **Initial Developer Master Utility Projects; Phasing Plan; Additional Projects.** Apart from the County Utility Projects identified in Section 5.a., above, the County and the Developer have agreed that the applicable Co-Developer or its Designated VOPH-MPUD(s) shall design, permit and construct the additional VOPH master utility projects (the "**Developer Utility Projects**") to the extent necessary (after the County Utility Projects) to complete the master transmission lines identified on **Exhibit E-1** (as to potable water transmission lines), **Exhibit E-2** (as to wastewater transmission lines), and **Exhibit E-3** (as to reclaim transmission lines), attached hereto. The Developer Utility Projects are linked and allocated to the respective VOPH-MPUDs, as graphically depicted on Exhibits E-1 through E-3, and more specifically described on **Exhibit E-4** hereto. The "**Initial Phasing Plan for Designated Master Roadway & Developer Utility Pipeline Projects**" as set forth in **Exhibit C** shall apply to the Developer Utility Projects on the same schedule and in the same manner as to the Designated Master Roadway Pipeline Projects applicable to each individual VOPH-MPUD. Not later than the commencement of site development for each respective VOPH-MPUD, the VOPH-MPUD Owner, its successor or assign, shall initially fund the VOPH Utility Escrow Account (defined below) for each of the Developer Utility Projects linked and allocated to such VOPH-MPUD, based upon the amount of the project engineer's OPC for each respective Developer Utility Project linked to such VOPH-MPUD and as set forth in Section 7(d) below. When bids are awarded for contracts, the Developer shall fund any additional amount required to supplement the VOPH Utility Escrow Account deposit amount required to fully fund such Developer Utility Project (or the Financial Escrow Agent shall refund any excess deposit amount to the Developer). Subject to approval by PCUD, the County Administrator and the applicable Co-Developer by mutual agreement may by administrative amendment to this Agreement (with copies to the Engineer Verification Agent and Financial Escrow Agent) add additional Developer Utility Projects subject to the same terms and conditions of this Agreement. VOPH Master and Galvin hereby agree that VOPH Master will be the initial responsible party for the design, permitting and construction of certain aspects of the Developer Utility Projects and the County Utility Projects. With respect to any Developer Utility Projects or the County Utility Projects, either Co-Developer (or its designee) shall have the right upon sixty (60) days' prior written notice to the Engineer Verification Agent, the Financial Escrow Agent, the County and the other Co-Developer to assume responsibility for funding, design, permitting and construction thereof in the event (i) the Co-Developer or Designated VOPH-MPUD Owner originally assigned such utility pipeline project fails to pursue same as and when required by this Agreement or (ii) the utility pipeline project otherwise becomes necessary to serve another Designated VOPH-MPUD Project at an earlier date, due to actual project development sequencing within VOPH. In such case, the Co-Developer or Designated VOPH-MPUD owner (or its applicable CDD) which actually provides the funding to the VOPH Utility Escrow Account (defined below) or otherwise designs, permits, constructs and pays for the utility pipeline shall receive the Utility Credits (defined below) for such pipeline under this Agreement (which credit amounts will be pro-rated in accordance with such funding/cost amounts actually paid by the respective parties).

d. **VOPH Utility Escrow Account.** The Financial Escrow Agent shall establish a segregated escrow sub-account for the private funding provided by the applicable Co-Developer and/or the Designated VOPH-MPUDs for the Developer Utility Projects,

for the exclusive purpose of funding the Developer Utility Projects within VOPH (collectively the sub-accounts are the "**VOPH Utility Escrow Account**"). In connection with the Developer Utility Projects, the VOPH Utility Escrow Account funding by the Developer shall include the applicable amounts required for the Financial Escrow Agent fees and Engineer Verification Agent fees, as part of the utility project costs. The funds deposited into the VOPH Utility Escrow Account shall not be commingled with any other funds nor any funds related to any other VOPH development projects or VOPH developers or VOPH-MPUD ownership entities not included under this Agreement. The County reserves the right to make other business arrangements with other developers or owners within VOPH for other master utility improvements required for unrelated VOPH-MPUDs not owned or controlled by either Co-Developer, in the sole discretion of the County; however, the VOPH Utility Escrow Account required by this Agreement shall be utilized and administered solely by the Financial Escrow Agent for the Developer Utility Projects now or hereafter identified under this Agreement.

e. **Developer Utility Projects Funding; VOPH Utility Surcharge Fee Credits; Use and Assignment.** As a material inducement for the Co-Developers and the Designated VOPH-MPUD Owners to enter into this Agreement and to fund the VOPH Utility Escrow Account as set forth in Section 5.d. above, the County agrees that the applicable Co-Developer (or its designee in its sole discretion) shall receive immediate VOPH Utility Surcharge Fee Credits (the "**Utility Credits**") within forty-five (45) days of the date that the Financial Escrow Agent confirms that private (non-County) funds are deposited into the VOPH Utility Escrow Account, so that the Utility Credits shall thereafter be immediately usable and assignable by the Co-Developer and its designee(s). The Developer or the applicable VOPH-MPUDs may fund the Developer Utility Projects as needed or desired for the advancement of the applicable VOPH-MPUD projects. The Co-Developer and/or the Designated VOPH-MPUDs may utilize (i) pre-paid VOPH Utility Surcharge Fees (but not base utility commitment/connection fees), (ii) CDD funding (pursuant and subject to applicable law), and/or (iii) other private capital funding for the funding required for the Developer Utility Projects now or hereafter identified under this Agreement. Pursuant to the VOPH Enabling Documents, the Utility Credits shall be used only against the VOPH Utility Surcharge Fees applicable within VOPH from time to time, and not against any base utility commitment/connection fees, which base utility commitment/connection fees must be paid to the County in cash by the applicable VOPH-MPUD developer(s) or builder(s). The Co-Developers and/or the Designated VOPH-MPUD Owner(s) shall have the right (i) to sell/assign the Utility Credits to any CDD, developer, builder, owner or other third-party entity within VOPH, and/or (ii) to use the Utility Credits against the applicable VOPH Utility Surcharge Fees (but not base commitment/connection impact fees) payable for any VOPH project. Pursuant to current VOPH Enabling Documents, the Utility Credits are subject to registration on the VOPH Fee Credit Registry and shall not be administered directly through PCUD. With respect to the issuance of the Utility Credits to the applicable co-Developer (or its designee) as provided herein, upon the deposit of the Co-Developer's or VOPH-MPUD Owner(s)' funds into the VOPH Utility Escrow Account, Utility Credits shall be issued by the County to the Co-Developer or its designee for ninety percent (90%) of such amount tendered, as the "Interim Credit Amount." Once the Financial Escrow Agent confirms to the County the amount and owner of the Interim Credit Amount, the County shall create a Utility Credit account for such owner for the Interim Credit Amount. Thereafter, Utility Credits up to the Interim Credit Amount shall be usable or assignable by the Co-

Developer or its designee. At any time after funding for a specific project in the VOPH Utility Escrow Account, the Co-Developer shall submit documentation to revise the amount so required for the applicable project, based upon receipt of either an updated OPC, revised bid amount, or interim contract change. In the event of such interim adjustment, the amount(s) required to be funded into the VOPH Utility Escrow Account shall be revised accordingly, with any shortfall to be paid by the Co-Developer into the VOPH Utility Escrow Account within fifteen (15) days thereafter (with 90% Interim Credits also issued by the County for such additional deposit amount within forty-five (45) days of the County receiving written confirmation of the additional deposit from the Financial Escrow Agent). Upon completion of the applicable project and final reconciliation of the VOPH Utility Escrow Account, which reconciliation shall be made by the Engineer Verification Agent and Financial Escrow Agent within forty-five (45) days after the Final Disbursement (as defined in Section 11.f.), the Co-Developer's (or its designee's) Utility Credit account shall be adjusted by the County to equal the final, total amount expended from the VOPH Utility Escrow Account for the applicable project (the "Final Credit Amount"). Any unused cash amounts tendered by the Co-Developer or its designee into the VOPH Utility Escrow Account for the applicable project then shall be disbursed and returned to the applicable
Co-Developer or its designee, within fifteen (15) days after the final VOPH Utility Escrow Account reconciliation is made for said project.

f. Internal Project Utilities System; Master Utilities Service Agreement. Other than the specific County Projects and Developer Projects now or hereafter identified pursuant to this Section 5 of this Agreement, all internal utilities lines and appurtenances required to serve any applicable VOPH-MPUD shall be the sole responsibility of the applicable VOPH-MPUD owner(s) or developer(s) for each respective parcel within VOPH. The applicable owner/developer shall enter into a master Utilities Service Agreement ("**USA**") with PCUD for all such internal utilities distribution or collection system.

g. PCUD Facilitation. The County agrees that the County Utilities Projects and the Developer Utilities Projects are critical infrastructure which presently impede any meaningful development within VOPH. Consequently, to facilitate the implementation of the County's longstanding VOPH Special Area Plan, PCUD shall expedite to the maximum extent practical, all County utility plan and permit application reviews and shall provide written comments not later than thirty (30) days after submittal of each plan set or application and shall expeditiously issue County permits for such work. To the extent applications to other review agencies are required, PCUD agrees to be the permit applicant for the County Utility Projects and to assist the applicable Co-Developer with procurement of all such required third-party permits.

6. <u>Financial Escrow Agent; Engineer Verification Agent; Respective Duties, Terms and Conditions; County Confirmation and Ratification of Credits.</u> As used in this Section 6, the term "Developer" shall mean the applicable Co-Developer or their respective VOPH-MPUD Owner(s), CDD's or other designees who deposit funding into escrow for roadway or utilities infrastructure projects under this Agreement:

a. Designation of Agents; Financial Account Administration and Engineering Credit Verification. The County shall designate the following agents (each an "**Agent**" and collectively the "**Agents**"):

i. The law firm of Phelps Dunbar, LLP (the "**Financial Escrow Agent**") to receive, hold, administer and disburse all monetary funds for the VOPH Roadway Escrow Account and the VOPH Utility Escrow Account, pursuant to the terms and conditions of this Agreement; and

ii. W.E. Oliver, P.E., LLC, through its sub-consultant Vanasse, Hangen, Brustlin, Inc., to review, verify, and confirm the validity of the expenditures for the creditable roadway and utility infrastructure projects as specified by this Agreement and as more specifically set forth in the Scope of Services attached as **Exhibit F** hereto and incorporated herein by reference, and to comply with the procedures set forth in this Agreement for verification and issuance of the Transportation Credits and/or Utility Credits, as applicable under this Agreement (the "**Engineer Verification Agent" or the "EVA").**

iii. The Agents upon their respective designation under this Agreement, shall execute a separate joinder and consent to this Agreement accepting the terms and conditions of this Agreement which are specifically applicable to each respective Agent and agreeing to perform faithfully in accordance therewith. The Developer and the County shall administer the VOPH Roadway Escrow Account and the VOPH Utility Escrow Account through the Financial Escrow Agent pursuant to the terms and conditions of this Agreement, and the process for verification of the costs and issuance of the Transportation Credits and the Utility Credits through the Engineer Verification Agent pursuant to the terms and conditions of this Agreement. Engineer Verification Agent shall develop the required standard approval forms for issuance and verification of credits, and assignment and use of same, for approval by the Developer and the County.

b. Respective Duties of Agents. The parties agree that the Financial Escrow Agent shall have a fiduciary duty to both the County and the Developer, and the Engineer Verification Agent shall have the standard professional duty of his/her industry to both the County and the Developer, in the performance of their respective duties under this Agreement. The Agents' duties are independent of each other and neither Agent shall be responsible for the performance of any duties which are assigned to the other Agent under this Agreement.

c. Allocation of Duties of Agents. The Agents shall have the following duties and responsibilities, subject to the terms and conditions of this Agreement:

(i) The Financial Escrow Agent shall receive and hold in escrow all of the cash deposits made in connection with this Agreement;

(ii) The Financial Escrow Agent shall notify the County, the Developer, and the Engineer Verification Agent upon receipt of any Developer deposit(s) into the VOPH Roadway Escrow Account or VOPH Utility Escrow Account, as applicable, and the resulting Interim Credit Amounts (as set forth above). Because such deposits will be based upon OPC's and other cost estimates, such Interim Credit Amounts shall be subject to true-up and final verification by the Engineer Verification Agent and to ultimate ratification and confirmation by the

County as final credits as set forth above.

(iii) The Engineer Verification Agent shall review and approve on behalf of the County all submittals made by the Developer, its designee(s), or any contractor, consultant or other third-party related to all contract or other third-party disbursement requests under this Agreement, and shall confirm that all disbursement requests (a) are for a project identified on Exhibit B, D or E, (b) comply with the deadlines in Exhibit C, (c) are supported by the documentation required by Section 11.f., (d) are consistent with the County and/or FDOT approved design pursuant to Section 9, and (d) comply with the bidding requirements and/or funding limitations in Sections 10.c. and 11.f. Upon completion of such confirmation, the Engineer Verification Agent shall provide confirmation and authorization for all such disbursements to the Financial Escrow Agent;

(iv) The Financial Escrow Agent shall separately account for all funds deposited into the VOPH Roadway Escrow Account and the VOPH Utility Escrow Account by the Developer or its designee(s), as applicable, and shall provide not less than a quarterly accounting for all receipts into and disbursements from the Escrow Account(s), organized separately for each public infrastructure project pursuant to this Agreement; in this regard, the applicable County department(s) shall reconcile its credit accounts with the quarterly reports of the Financial Escrow Agent;

(v) The Financial Escrow Agent shall have the right to rely upon the written request (which may be made via email) of the Developer and the written authorization of the Engineer Verification Agent to make all disbursements from the Escrow Account pursuant to this Agreement, subject to prior written notification by the Financial Escrow Agent to the County; the applicable County department shall provide any written objection to such disbursement within ten (10) business days, or the disbursement shall be deemed approved;

(vi) The Engineer Verification Agent shall review and recommend approval of the Final Credit Amounts for all VOPH Transportation Credits and VOPH Utility Credits required to be issued pursuant to this Agreement, and shall transmit such verified fee credit information to the Developer, the Financial Escrow Agent, and to other County departments impacted by the award of said VOPH Fee Credits, as applicable. Such recommendation shall not be final until confirmed and ratified by the applicable County department (as to Transportation Credits or Utility Credits, as applicable). In this regard, once approved by the Engineer Verification Agent each VOPH-MPUD Project's creditable costs packets shall be provided by the Engineer Verification Agent to the applicable County department(s) and the Developer prior to closing-out the project and determining the Final Credit Amounts for all VOPH Transportation Credits and VOPH Utility Credits, as applicable, and, upon approval by the applicable County department(s), the applicable County department(s) shall reconcile their credit account records with those of the Engineer Verification Agent. Upon such County confirmation and ratification, the Engineer Verification Agent shall implement any required true-up for the final credits versus the interim credits (which were based on deposit amounts, only), and shall report such adjustments and final credit amounts back to the applicable Developer, the County, and the VOPH Fee Credit Registry manager (if requested by such Developer).

(vii) Each Agent shall interact and coordinate with the Developer, the County's transportation and engineering departments, office of management and budget, real estate department, PCUD, and other departments and agencies as applicable and necessary to implement the terms and conditions of this Agreement, and to ensure compliance herewith;

(viii) The Financial Escrow Agent shall utilize commercially reasonable efforts to make the disbursements when and as required by this Agreement, absent notice of objection thereto by the County or the Developer, within ten (10) business days after written notice of such proposed disbursement;

(ix) Upon the completion of each separate public infrastructure project under this Agreement, the Financial Escrow Agent shall provide the final Escrow Account reconciliation and accounting, and shall disburse any amounts not expended for such project back to the Developer, as applicable, and after County confirmation and ratification of final credits, the Engineer Verification Agent shall provide the Final Credit Amount for such project as required under this Agreement;

(x) Upon the completion of all public infrastructure projects under this Agreement, or the mutual termination of this Agreement by the County and the Developer, the Financial Escrow Agent shall provide the final accounting and reconciliation required to make the final disbursements to the applicable parties and to close out the Escrow Account(s); and

(xi) The applicable Agent shall take such other actions as may be required or contemplated for implementation by the applicable Agent under this Agreement.

d. **Agent(s) Compensation**. The compensation for the Financial Escrow Agent and the Engineer Verification Agent shall be as follows: (a) the Financial Escrow Agent shall be paid $40,000 at the time of the initial deposit with the Financial Escrow Agent, then $33,333 per year (to be paid on the yearly anniversary date of the initial deposit) for the duration of the Agreement, including for any one (1) year renewal terms (if necessary); (b) the Engineer Verification Agent shall be paid $32,795 at the time of the initial deposit with the Financial Escrow Agent, then $30,505 per quarter (to be paid on the quarterly anniversary date of the initial deposit with the Financial Escrow Agent) for the first three years, $35,080 per quarter for the first additional year (if necessary), and $37,185 per quarter for the second additional year (if necessary). Such compensation shall be accepted by each Agent through its separate Joinder and Consent to this Agreement. Such Joinder and consent also shall be limited to the specific provisions of this Agreement which are applicable to each Agent. Provided that the Developer has made the deposits required by this Agreement, the Financial Escrow Agent shall be responsible for making the required payments to the Engineer Verification Agent, as set forth above.

e. **Escrow Account(s); Reports and Information Access.** The Financial Escrow Agent shall maintain one (1) or more interest bearing accounts into which all funds held in escrow shall be deposited, which interest bearing account(s) may

be held at any of the following financial institutions: (i) Wells Fargo, N.A.; (ii) Bank of America, N.A.; (iii) JP Morgan Chase & Co.; (iv) Truist Bank; (v) Capital One, N.A.; or (vi) any other institution that may be approved from time to time by the written consent of the County and the Developer. The Financial Escrow Agent shall provide the County and the Developer a quarterly report detailing the funds and documents then held in escrow by Escrow Agent and shall allow timely inspection and copying, within three (3) business days following receipt of a written request by either party, of all records and other documents maintained by the Financial Escrow Agent pursuant to this Agreement.

f. **Audit of Financial Escrow Agent and Escrowed Funds**. The County or the Developer shall have the right, but not the obligation, to request an audit of the Financial Escrow Agent's practices and procedures used in carrying out its responsibilities under this Escrow Agreement and/or to request an audit of the funds and documents held in escrow and disbursements and distributions made by the Financial Escrow Agent, in order to verify compliance with the terms and conditions of this Agreement. The party requesting the audit shall bear the cost of the audit unless such audit reveals a breach of the Financial Escrow Agent's obligations under this Agreement, in which event the Financial Escrow Agent shall pay the cost of such audit and shall cure, at its sole cost and expense, such breach or violation as noted therein. The report prepared by the auditor at the conclusion of any audit shall be made available without cost to the other party to this Agreement.

g. **Initial Term; Extension of Term.** The initial term of each Agent's service under this Agreement shall be for a period of three (3) years from the date of the initial deposit with the Financial Escrow Agent. Until this Agreement is terminated, such initial term shall automatically be extended for up to two additional one (1) year terms unless either the County or the Developer object, in which case a replacement Agent shall be designated by mutual agreement of the County and the Developer. Prior to each additional one (1) year extension, the Developer shall deposit additional funds with the Financial Escrow Agent to cover the Financial Escrow Agent and Engineer Verification Agent fees for such year, as set forth above.

h. **Termination or Resignation of Agent; Selection of Successor Agent**. Either Agent's service shall terminate and expire and such Agent shall be discharged and relieved of all further responsibilities, duties and obligations under and pursuant to this Agreement: (a) at the end of any term (as set forth above) of the Agent's service; (b) sixty days (60) after notice of resignation by the Agent; (c) termination of this Agreement; (d) for breach of the Agent's duties under this Agreement; or (e) for reasons as may be set forth in and pursuant to an order of a court of competent jurisdiction. Upon the resignation or removal of either Agent, the County shall designate a successor Agent, subject to approval of the Developer which shall not be unreasonably withheld.

i. **Nature of Agents' Duties**. The duties and obligations of each respective Agent pursuant to this Agreement shall be and hereby are limited to those duties and obligations of such Agent expressly set forth in this Agreement. No duties or obligations on the part of either Agent under and pursuant to this Agreement

shall be implied from the terms of this Agreement or otherwise. Each Agent assumes no duties or obligations under this Agreement except only those stated in this Agreement. The Financial Escrow Agent shall not be authorized to exercise any discretion in the release of documents or funds held in escrow. The Financial Escrow Agent shall have no responsibilities, duties or obligations with respect to the documents or funds held in escrow other than as expressly stated in this Escrow Agreement. Neither Agent shall be responsible or liable for any mistakes of fact or for any acts or omissions of any kind unless the same constitute gross negligence or willful misconduct.

j. **Reliance of Agents.** In the performance of their duties and obligations as an Agent under and pursuant to this Agreement, each Agent (a) may act in reliance upon any written notice, direction, document or instrument which the Agent believes in good faith, to be genuine, (b) may assume the validity and accuracy of any statement or assertion of fact and direction contained in any such written notice, direction, document or instrument, (c) may assume the genuineness of any signature presented to the Agent and the identity, right and authority of any person executing any such written notice, direction document or instrument and (d) may assume that any person purporting to sign such written notice, direction, document or instrument under or in connection with this Agreement has been duly authorized to do so.

k. **Institution and Defense of Legal Proceedings by Financial Escrow Agent or Engineer Verification Agent.** Neither Agent shall have any duty or obligation to institute legal proceedings of any kind or nature under or pursuant to this Agreement. In the event any litigation should arise between the parties to this Agreement concerning the escrowed funds or performance of any duties or obligations, then, subject to applicable statutory limitations and/or sovereign immunity limitations, Developer and County hereto do jointly and severally agree to hold Financial Escrow Agent harmless from, and indemnify and defend Financial Escrow Agent for, the payment of any cost or other expenses that may be involved in said litigation (including reasonable legal fees and expenses of attorneys chosen by Financial Escrow Agent, which may include Financial Escrow Agent's own costs using its usual billing rates for attorneys employed by Financial Escrow Agent), and from and for any and all loss, damage, tax, liability and expense that may be incurred by Financial Escrow Agent arising out of or in connection with its acceptance or appointment as Financial Escrow Agent, other than liability arising from the gross negligence, willful misconduct or bad faith of the Financial Escrow Agent. In the event of a dispute, Financial Escrow Agent's only obligation shall be to retain the escrowed funds until a final determination has been issued or to pay the escrowed funds into a court of competent jurisdiction.

l. **Interpleader of Documents and Funds in Escrow.** In the event that, in the good faith judgment of the Financial Escrow Agent, there shall exist some doubt on the part of the Agent as to whom, how, or under what circumstances the documents or funds being held in escrow are to be released or delivered by the Financial Escrow Agent pursuant to this Agreement, the Financial Escrow Agent shall so notify all parties in writing and, if, thereafter, the parties are unable to resolve such doubt and mutually agree and direct the Agent in writing as to whom, how, or under what circumstances the Financial Escrow Agent shall be

authorized to release or deliver the same, the Agent shall be entitled, but not obligated, to deposit the documents or funds about which the Agent is in doubt into the registry of the Court and to interplead all parties to this Agreement (other than Financial Escrow Agent) with respect thereto without any further responsibility or liability on the part of the Agent. All costs, expenses, including reasonable attorneys' fees and other charges, if any, suffered, incurred, or paid by the Financial Escrow Agent for, on account of or in connection with such interpleader action shall be borne equally by the parties and may be paid out of the escrowed funds without the consent of any parties. Should Financial Escrow Agent elect not to deposit the documents or funds into the registry of the Court, as aforesaid, the Financial Escrow Agent shall not be obligated or entitled to release or deliver the documents or funds then held by the Agent unless and until (a) both parties shall have jointly directed the Agent in writing to release or deliver the documents or funds at the time and in the manner designated in such joint written direction or (b) a final order of a court of competent jurisdiction, from which no appeal has been taken and with respect to which the appeal time has expired, or, if an appeal has been taken, has become final directing the Financial Escrow Agent to take the action specified in such final order with respect to the documents or funds about which the Agent was in doubt.

m. **Liability of Financial Escrow Agent**. Financial Escrow Agent shall not incur any liability in acting upon any signature, notice, demand, request, waiver, consent, receipt, or other writing, instrument or document reasonably believed by Financial Escrow Agent to be genuine. Financial Escrow Agent shall be obligated only for the performance of such duties as are specifically set forth in this Agreement, being purely ministerial in nature. Nothing contained herein shall be deemed to obligate Financial Escrow Agent to pay or transfer any monies hereunder unless and until such funds are received by Financial Escrow Agent. Financial Escrow Agent shall have no liability for loss arising from any cause beyond its control, including without limitation the following: (i) the act, failure, neglect or insolvency of any financial institution selected by Financial Escrow Agent; (ii) any delay, error, omission or default connected with the remittance of funds by another party; (iii) any delay, error, omission or default of any mail, telephone or e-mail service or operator; or (iv) the acts of any government or governmental agency or other entity exercising governmental powers.

7. **Procurement Process for Right-of-Way or Easements Required for Public Infrastructure Projects.** With respect to any rights-of-way, easements, or other use rights required for any of the VOPH master roadway or utility infrastructure projects identified under this Agreement, and which lie over, across or under any third-party land not owned or controlled by the Co-Developer or a Designated VOPH-MPUD, the following procurement process shall apply: (i) if the subject land lies within a previously approved VOPH-MPUD or is within lands included in a pending VOPH-MPUD application, the County shall require the provision of the subject right-of-way or easement area subject to and in accordance with the VOPH Enabling Documents; (ii), for any land not covered by (i) above, then: (x) the Co-Developer first shall utilize good faith, commercially reasonable efforts to negotiate the procurement from such third-party landowner, on the County's behalf, and any proposed compensation to be paid to such third-party owner shall be subject to the County's approval, which shall not be unreasonably withheld; (y) if the Co-Developer notifies the County in writing that the foregoing negotiations are not successful, the County shall initiate condemnation proceedings in accordance with applicable Florida law to effect a "quick taking" of

the required rights; and (z) the County then shall pursue the completion of such condemnation process to establish the final just compensation due to such third-party landowner pursuant to applicable Florida law. The foregoing condemnation process shall not apply in any circumstance where the affected landowner has an existing zoning or other development approval condition which requires the conveyance of right-of-way, easements, or other similar cooperation, in which event the County shall diligently pursue enforcement of such pre-existing zoning or development approval condition with such third-party landowner. No third-party landowner is intended to be a third-party beneficiary of this provision, which is intended solely to identify the respective rights and obligations of the County and the Co-Developers with respect to the VOPH public infrastructure projects identified herein. Prior to the initiation of any formal condemnation process under this Section 7, the Co-Developer or the applicable Designated VOPH-MPUD shall enter into a right-of-way acquisition agreement which memorializes the terms and conditions for such action consistent with this Agreement. The County shall initially advance the costs for any such condemnation action, subject to reimbursement by the Developer in exchange for 100% Transportation Credits or Utility Credits pursuant to Section 4 or Section 5 of this Agreement, as applicable.

8. **County Utility Project(s) Accounting, Reports and Administration of Funds.** The County Utility Projects identified in Section 5 above shall be undertaken by the applicable Co-Developer as the "**Constructing Entity**" for the County or on behalf of the Designated VOPH-MPUD Owner(s), as applicable (together with the master roadway projects under Section 4, above, the "**Public Infrastructure Project(s)")** (such Constructing Entity also is referred to as the "Developer" herein). For each such Public Infrastructure Project for which the Developer is designated as the County's Constructing Entity, the Developer as Constructing Entity shall comply with the provisions of Section 215.97, F.S., as applicable, and the following terms, conditions and processes for such Public Infrastructure Project(s):

    a. To be responsible for such portion of the design, permitting, bidding and construction of the improvements specified for such delegated Public Infrastructure Project in a manner reasonably satisfactory to Pasco County and consistent with any applicable permitting requirements of all agencies having jurisdiction thereof.

    b. To maintain books, records, documents, and other evidence including, but not limited to, records of all progress payments made for work in connection with the Public Infrastructure Project, any change orders and payments made pursuant to such orders, according to generally accepted accounting principles, procedures, and practices relating to the Public Infrastructure Project included, but not limited to, books, records, etc., which sufficiently and properly reflect all costs of any nature incurred by Developer for the Public Infrastructure Project, and to retain said books, records, documents, and other evidence for a period of five (5) years after final completion of the Public Infrastructure Project or termination of this Agreement whichever is later.

    c. That aforesaid records, books, documents, and other evidence shall be subject at all times to inspection, review, or financial audit as required by law or otherwise by County personnel authorized by the Pasco County Administrator or his designee.

    d. That the aforementioned audit and record-keeping requirements shall be included in contracts and subcontracts entered into by Developer with any party for work or services required for the Public Infrastructure Project.

e. That three (3) months after the date of execution of this Agreement and every three (3) months thereafter, Developer shall provide Pasco County with a progress report containing a narrative description of the work completed according to the Public Infrastructure Project schedule; a description of any change orders executed; a budget summary detailing planned expenditures versus actual expenditures; and identification of minority business enterprises used as contractors and subcontractors.

f. That upon final acceptance of the Public Infrastructure Project, the Developer shall provide the following:

i. Certification that the Public Infrastructure Project has been completed in compliance with the terms and conditions of this Agreement and meets minimum construction standards established in accordance with Section 336.045, Fla. Stat.

ii. A report that shall specify the total cost of the Public Infrastructure Project and the total direct costs of the Public Infrastructure Project paid from the funds made available by Pasco County from the VOPH Utility Escrow Account pursuant to this Agreement.

9. **VOPH Infrastructure Project(s) Design and Permitting Process.** The primary responsibility for design and permitting, and the applicable process and requirements for the respective infrastructure projects shall be allocated between the County and the applicable Co-Developer (or its designee), as follows (such Constructing Entity is referred to as the "Developer" herein) :

a. With respect to the County Utility Projects, the County and the Developer shall collaborate on the design plans, and upon approval for the design plans by the County, the Developer shall process the plans and permits for approval on behalf of the County, with PCUD identified as the applicant. Upon procurement of all required local, state, and/or federal permits for each such County Utilities Project, the Developer shall construct the project(s) as the County's Constructing Entity pursuant to Section 5 and Section 8, above.

b. With respect to the Developer Utility Projects, the Developer or its designee shall procure the design plans, subject to approval thereof by PCUD, and the Developer or its designee shall be the applicant and shall process the plans and permits for approval by all local, state and federal agencies having jurisdiction. Upon procurement of all required approvals, the Developer or its designee shall construct the Developer Utility Projects pursuant to Section 5, above.

c. With respect to the VOPH Master Roadway Pipeline Projects, the Developer shall procure the plans in accordance with the VOPH Master Roadway Plan, including the specific cross-section design requirements set forth in the VOPH Enabling Documents, for approval by the County (and by FDOT but only where applicable for a specific roadway segment under FDOT jurisdiction). The Developer or its designee shall be the applicant for the roadway plans and permits; provided, however, that upon request by the Developer, the County shall be the named applicant for any state or federal permit application processed by the Developer or its designee related to public roadway impacts to wetlands, flood plains, or other state or federal permitting issues, which consent shall not be unreasonably withheld. The Developer's roadway design plans and specifications shall be subject to County approval in accordance with applicable

VOPH Master Roadway Plan design criteria and/or Florida Department of Transportation design standards (but only where there is applicable FDOT jurisdiction). Any necessary wetland or floodplain impacts or compensation related to the roadway project shall be included in the design and indicated on the plans. The purchase of off-site mitigation bank credits shall be required in lieu of any County-maintained mitigation areas (provided, however, that any CDD, HOA, or Developer-maintained mitigation area, including comingled mitigation areas, shall be allowed).

d. The construction contractors used by Developer or its designee to construct and complete the utility and roadway projects shall be selected by the Developer and shall be reasonably satisfactory to Pasco County and/or FDOT, as applicable. The consent of Pasco County and/or the Developer to any plans, design, permit conditions, selection of contractors, or project contract costs shall not be unreasonably withheld, conditioned, or delayed.

e. Drainage and/or mitigation facilities for any VOPH infrastructure project may be commingled or combined with drainage and/or mitigation facilities for an adjacent VOPH-MPUD project or any other facilities or developments along the route of the infrastructure project; however, any such shared facilities shall be owned, operated, and maintained by a Community Development District ("**CDD**"), Homeowner/Property Owner's Association ("**POA**"), or such other legal entity as may be approved by Pasco County (which approval shall not be unreasonably or untimely withheld or conditioned). Any isolated stormwater or mitigation facilities which serve only the public infrastructure project shall be owned, operated, and maintained by the County. Where applicable for any shared facilities, the CDD, POA, or such other legal entity shall provide appropriate easements to Pasco County so that Pasco County has the ability to maintain such drainage and/or mitigation facilities in the event that the CDD, POA, or such other legal entity defaults on its obligations to maintain the drainage facilities. If the drainage facilities for the public infrastructure project are commingled or combined with drainage facilities for any adjacent private project then all such drainage facilities shall remain owned by an entity other than Pasco County, and operation and maintenance of the same shall be the responsibility of the respective underlying land owner, the CDD, the POA, or such other similar legal entity as may be approved by Pasco County (which approval shall not be unreasonably or untimely withheld or conditioned), as applicable. The underlying landowner, the CDD, the POA, or such other similar legal entity shall be responsible for the design, permitting, and construction of all such commingled or combined drainage facilities, unless otherwise approved by Pasco County (which approval shall not be unreasonably or untimely withheld or conditioned). Appropriate easements to Pasco County shall be provided on all lands owned by the applicable VOPH-MPUD Owner(s) and shall be obtained from all other underlying land owners, by condemnation if necessary, of land containing drainage facilities serving the public infrastructure project, including those drainage facilities that are commingled or combined, so that Pasco County has the ability to maintain the drainage facilities associated with the public infrastructure project in the event that the CDD, the POA, or such other legal entity fails properly to maintain same.

f. In the event that the permitted wetland and/or floodplain mitigation area(s) for the impacts associated strictly with the public infrastructure project are permitted and constructed separately and distinctly from impacts associated with any other private project facilities or developments, then Pasco County will accept ownership and

maintenance responsibilities after the completion of the maintenance and monitoring period and acceptance by any governing agencies having jurisdiction over the public infrastructure project (notwithstanding the foregoing, the County reserves the right to purchase off-site mitigation bank rights in lieu of on-site wetland or floodplain mitigation areas which require permanent maintenance). If the permitted wetland and floodplain mitigation areas related to the public infrastructure project are commingled/combined with wetland and floodplain mitigation areas of any other private project facilities or developments, all the wetland and floodplain mitigation areas shall be permitted, owned, operated, and maintained by the underlying landowner, the CDD, the POA, or such other legal entity as may be approved by Pasco County. Appropriate easements shall be provided to Pasco County for the wetland and floodplain mitigation areas associated with the public infrastructure project that are owned by the applicable VOPH-MPUD Owner(s), the CDD, or the POA, or such other legal entity as may be approved by Pasco County Pasco County and shall be obtained, by condemnation if necessary, from all other underlying landowners of land containing such mitigation areas serving the public infrastructure project, including those areas that are commingled or combined, so that Pasco County has the ability to maintain the wetland and/or floodplain mitigation area(s) in the event that the CDD, or the POA, or such other legal entity as may be approved by Pasco County or any other underlying landowner defaults on its [their] obligations to maintain the facilities.

g. For any County roadway project delegated by the County Administrator to the Developer as the Constructing Entity for design and permitting, if the County review will be completed by a department other than the Planning and Development Department, the Developer shall complete and submit sixty (60) percent, ninety (90) percent, and final design plans for those portions of the public infrastructure project to Pasco County and/or FDOT, as appropriate, for review and approval unless FDOT and/or Pasco County, as appropriate, agrees in writing to, or have adopted, an alternative submittal schedule. Developer shall obtain approval of the 100 percent design and right-of-way plans for those portions of the public infrastructure project from Pasco County and/or FDOT, as applicable, prior to commencement of any bidding of the public infrastructure project. Developer shall provide at the time of 100 percent design and right-of-way plan submission for the public infrastructure project an engineer's estimate of the cost of the constructing the public infrastructure project, including inspection costs, which estimate shall be certified by an engineer duly registered in the State of Florida and approved by Pasco County.

10. **Pasco County Cooperation and Assistance with Developer Projects; Bidding Process for Developer Infrastructure Projects**. Pasco County shall cooperate with the applicable Constructing Entity (also referred to as the "Developer" herein) with respect to plans and permit applications and construction for the Developer roadway and utility projects pursuant to this Agreement, including assistance when appropriate with other agencies having jurisdiction over such projects, subject to the following terms and conditions:

a. **County and FDOT Review**. Developer agrees and recognizes that Pasco County and FDOT shall not be held liable or responsible for any claims which may result from any actions or omissions of Developer, or engineers/contractors selected by Developer, for any Developer project in which Pasco County or FDOT participated, either through review or concurrence of their actions. In reviewing, approving, or rejecting any submissions or acts of Developer, or engineers/contractors selected by Developer, Pasco County and FDOT in no way assume or share any of the responsibility or liability

of Developer or its consultants, contractors, or registered professionals (e.g., architects and/or engineers) under this Agreement. All work covered under this Agreement shall be performed in accordance with good engineering practice, and all established design criteria and procedures shall be followed. Pasco County and FDOT, as applicable, will review the submittals, although detailed checking will not necessarily be done. Developer remains solely responsible for the work related to any Developer project and is not relieved of that responsibility by review comments.

b. **Utilities Relocation**. Developer shall coordinate the relocation of any utilities infrastructure in conflict with any County or Developer infrastructure project, including Pasco County utilities. Relocation of any utilities infrastructure which is in conflict with the County or Developer infrastructure project, including Pasco County utilities, shall be completed and paid for by the owner of the utilities infrastructure to the extent required by Sections 337.403-404, Fla. Stat. Pasco County agrees, upon request of Developer, to cooperate with Developer in requiring the relocations of any such utilities infrastructure to the extent allowed by Section 337.403-404, Fla. Stat., in a timely manner. However, under no circumstances shall Pasco County incur any expenses for the relocation of such utilities for any infrastructure projects.

c. **Bidding Process**. With respect to any County or Developer infrastructure project that is subject to impact, mobility, or other fee credits or County funding under this Agreement, the Developer shall comply with the bidding procedures set forth in either (i) Pasco County's Guidelines for Development Pipeline Bid Process, as amended by the County from time to time, (ii) the required bid procedures for a CDD pursuant to Florida Statutes as amended from time to time, and subject to County approval thereof, (iii) the bidding procedures set forth in any subsequent VOPH Fee Credit Registry Resolution or Policy Memorandum approved by the County Administrator or his designee, or (iv) such other public bidding process as approved by the County Administrator or his designee. The Developer shall retain full control of all bids and determinations regarding bidder qualification and determination of the qualified lowest bidder. The Developer may elect in its reasonable discretion to award the bids of portions, phases, or segments of the roadway or utility improvements to a qualified bidder that is not the lowest overall bidder; provided, however, that in such event any fee credit amounts or reimbursements for construction of the roadway or utility improvements that are the subject to such bid may be limited to quantities and amounts awarded in comparable projects located in Pasco County, Florida, as reasonably determined by the County.

11. **Construction of and Disbursements for County Project(s) Delegated to a Co-Developer as Constructing Entity.** With respect any County or Developer infrastructure project delegated by the County Administrator to a Co-Developer or its designee as Constructing Entity (also referred to as the "Developer" herein), the following requirements and procedures shall apply:

    a. **Construction Schedule**. Subject to design plan and permit approvals from all agencies having jurisdiction, the Developer shall commence and complete construction of the Developer infrastructure projects in accordance with Exhibit C, and shall commence and complete construction of the County Utility Projects in accordance with the schedule set forth in the subsequent agreement for such projects. Developer shall proceed and complete the construction of the County and Developer infrastructure projects in accordance with the final alignment, design, specification, and construction plans as approved by Pasco County and other applicable Federal, State, and regional

regulatory agencies. Developer and Pasco County agree that nothing contained herein shall prohibit or in any way restrict Developer's ability to accelerate the schedule for construction of any portion of the County and Developer infrastructure projects, subject only to procurement of required permits.

b. **Tender of Improvement Area**. Upon the issuance to Developer or its contractor of a Pasco County construction permit, the area covered by such construction permit shall be deemed to be tendered to Developer or its contractor, as applicable, and such entity shall be in the custody and control of the project areas. Developer or its contractor shall be responsible for providing a safe work zone for the public.

c. **Pasco County Observation**. Pasco County reserves the right to inspect, observe, and materials-test any and all work associated with the County and Developer infrastructure projects and shall at all times have access to the work being performed pursuant to this Agreement for Pasco County's observation. However, should Pasco County observe any deficiencies inconsistent with the plans or construction not accordance with the specifications, Pasco County shall notify Developer and its representative in writing and Developer shall correct the deficiencies as necessary. Nothing herein shall require Pasco County to observe or inspect the work of the County and Developer infrastructure projects. Developer shall be solely responsible for ensuring that the County and Developer infrastructure projects are constructed in accordance with the plans, specifications, and required standards for such projects. Observations by Pasco County or its inspectors that do not discover that construction is not in accordance with the approved plans, specifications, and required standards shall not be deemed a waiver of Developer's requirements herein.

d. **Acceptance of County and Developer Infrastructure Projects**. Prior to acceptance of any portion of the County and Developer infrastructure projects by Pasco County, Developer shall meet the application requirements of the County. All conveyances for any project areas outside existing public rights-of-way shall include appropriate utilities and access easements and shall be in a form acceptable to Pasco County's Real Estate Division.

e. **Construction Requirements**. During the construction phase of the County and Developer infrastructure projects the Developer and/or its construction contractor(s) shall:

    i. Provide its own on-site inspection and observation under the direction of a professional engineer registered in the State of Florida for the purpose of observing and inspecting the progress and quality of the work and to ensure that it is constructed according to the plans, contract documents, and specifications. The construction engineering and inspection contract shall be approved by Pasco County.

    ii. Obtain all necessary Right-of-Way Use Permits; provided, however, that the County shall be the applicant on any required permits.

    iii. Be responsible for supervising and inspecting the construction of the County and Developer infrastructure projects and shall be responsible for ensuring the accuracy of all reference points, grade lines, right-of-way lines, and field measurements associated with such constructions.

iv. Be responsible for full and complete performance of all construction activities required pursuant to this Agreement. Developer shall be responsible for the care and protection of any materials provided or work performed for the County and Developer infrastructure projects until the improvements are completed and accepted by Pasco County, which acceptance shall not be unreasonable nor untimely withheld or conditioned.

v. Require testing by an independent laboratory, acceptable to Pasco County, in accordance with Pasco County Engineering Services Department and/or PCUD, as applicable. Any failed tests shall be immediately reported to the Pasco County Engineer and/or PCUD, as applicable, and all test reports shall be provided on a quarterly basis to the Pasco County Engineer and/or PCUD, as applicable.

vi. Provide to Pasco County copies of all design drawings, as-build drawings, and permits received for the County and Developer infrastructure projects. All plans submitted to Pasco County shall include reproducible Mylars™ and electronic files compatible with *AutoCADD*.

vii. Upon completion of the County and Developer infrastructure projects, the engineer shall provide any required documentation of completion such as but not limited to final quantities and payment certifications, record drawings, and copies of final inspection reports.

f. **Escrow Account Disbursement Documentation; Fee Credit Amount Reconciliation.** For all disbursements to be made from either the VOPH Roadway Escrow Account or the VOPH Utility Escrow Account, the following required documentation shall be provided. All disbursements to be made by the Financial Escrow Agent from the respective escrow account(s) shall be made not later than fifteen (15) days after receipt of the required documentation (including the Engineer Verification Agent and County review approvals) and shall be made on an interim basis for each interim contractor draw period ("**Interim Disbursements**"), and then for the final closeout of each project or phase covered by the applicable contract ("**Final Disbursements**"), pursuant to the following procedures and requirements. In addition, the following cost limits shall apply to all projects for which the Developer is the Constructing Entity for the County:

i. costs for design, permitting and other pre-construction consultants: 10% of construction costs;
ii. costs for construction engineering inspections, construction phase services and testing: 10% of construction costs;
iii. costs for insurance: 1% of construction costs;
iv. costs for bonding expenses: 1.5% of construction costs; and
v. costs for roadway landscape (excluding sod) and irrigation: 2% of construction costs (not for utilities); plus 100% of sod costs (this also may require a License and Maintenance Agreement within County public right-of-way areas); and
vi. No disbursements shall be provided for any site-related improvements which are the responsibility of any adjacent, approved VOPH-MPUD, such as turn

lanes or driveway aprons, unless the turn lanes are within existing or future VOPH Primary or Intermediate Roadway segments for which the County is providing Transportation Credits pursuant to this Agreement. The Developer shall separately calculate the cost of any such excluded site-related improvements as a percentage of the design or construction contract, and deduct such costs from each disbursement request to the Engineer Verification Agent, and the affected adjacent VOPH-MPUD Owner shall separately pay such excluded site-related amount.

A complete disbursement request package shall include one hard copy and an electronic version (pdf) for the following (as to both Interim Disbursements and Final Disbursements, as applicable:

(a) Copies of all vendor contracts for which reimbursement is being requested, i.e., Design & Permitting, CEI, Construction Contractor, etc. The contract copies shall be submitted with the first Interim Reimbursement request that includes each vendor, and copies of any change order contracts shall be submitted when they are included in subsequent reimbursement requests.

(b) A signed Cover Sheet (Invoice) denoting the reimbursement amount being requested and pertinent remittance information.

(c) A Summary Sheet reflecting the invoice numbers, invoice dates, invoice amounts, check numbers, cancelled check amounts, check dates, eligible amount, ineligible amount (if any) and amount requested. The summary sheet shall be segregated by vendor, and include subtotals for each vendor, along with grand total amounts, ensuring that the grand total requested equals the amount requested on the cover sheet.

(d) One hard copy and one electronic version (pdf) of the invoices and proof of payment (cancelled checks or evidence of electronic payments/transfers) for invoices reflected on the Summary Sheet. An affidavit from the vendor affirming payment in full of the invoices and amounts included on the Summary Sheet can be provided in lieu of cancelled checks.

In addition, for the Final Disbursement submittal, two (2) hard copies and one electronic file for the following also shall be submitted:

(e) All deeds and easements, including, but not limited to, deeds for rights-of-way or ponds, drainage easements, slope easements (where allowed), ingress/egress easements or any other property interest required for the County to own or control the road, the right-of-way identified in the approved construction plans as well as all structures and features (including, but not limited to, such items as retaining walls, drainage structures, etc.) which serve or support the road and the right-of-way required to be conveyed by the Developer and/or other fee owner. The required conveyances referred to under this section shall also include any other conveyances required by this Agreement. The Developer or other fee owner must submit the conveyance documents(s) required to the Real Estate Division for review and submittal to the Board of County Commissioners for acceptance and recording.

(f) Where applicable, evidence that the Southwest Florida Water Management District (SWFWMD) Operation and Maintenance (O&M) permit has been transferred to a CDD

or Homeowners' Association. The O&M may be transferred to the County only for projects wherein the SWFWMD Project Area consists exclusively of County-owned right-of-way and County-owned ponds that are not co-mingled with flows from non-County owned property.

(g) Evidence that all permit conditions from all applicable permitting regulatory agencies for the project have been satisfied.

(h) An Engineer's Certificate of Completion from the Engineer of Record, as-built / record drawings, test reports, Warranty/Maintenance Guarantee(s) required for the project, License & Maintenance Agreements (if necessary), and other documentation as required by this Agreement.

The Financial Escrow Agent shall withhold payment of the Final Disbursement request (which includes the contractor's previous contract retainage amounts) until the items listed in (e) through (h) are provided to the Engineer Verification Agent and accepted by the County.

g. **Developer Default; County Use of Escrow Account Funds.** In the event either Co-Developer or its Designated MPUD Owner or MPUD developer/builder fails to complete when required by this Agreement: (i) a Designated Master Roadway Pipeline Project for which the applicable Co-Developer or its designee has funded the VOPH Roadway Escrow Account for Transportation Credits, or (ii) a Developer Utility Project for which the applicable Co-Developer or its designee has funded the VOPH Utility Escrow Account for Utility Credits, then: (x) after not less than thirty (30) days' written notice of default to the Co-Developer and failure of the Co-Developer or its designee to address the cure thereof to the reasonable satisfaction of the County, or if such cure cannot reasonably be made within thirty (30) days, then within such reasonable time as necessary for the Co-Developer to commence and thereafter diligently complete such cure, (y) the County shall have the right to access all remaining funds within the VOPH Roadway Escrow Account or VOPH Utility Escrow Account and designated for use on the applicable VOPH infrastructure project, and (z) to utilize said funds in the County's discretion to complete the applicable project. The foregoing remedy is without limitation to any other remedies which may be available to the County under applicable law. Any default by a Co-Developer under this Agreement shall not constitute a default by the other Co-Developer, as each Co-Developer (and its Designated VOPH-MPUD Owner) shall be responsible only for the specific roadway and utility pipeline projects assigned to it under this Agreement. To the extent the County uses funds previously deposited by a Co-Developer, Designated MPUD Owner, or MPUD developer-builder to complete such project(s), the party who originally deposited such funds shall retain the fee credits applicable thereto.

12. **Payment and Performance Bonds, Maintenance Guarantees, and Insurance Requirements for Public Infrastructure Projects**. As the County's designated Constructing Entity, no letter of credit, surety bond, or other performance guarantee shall be required from the Constructing Entity (referred to as the "Developer" herein) with respect to any County infrastructure project delegated to it by the County Administrator and to be funded by the County under this Agreement. Similarly, because the Developer (or its designee) is tendering all estimated costs into the applicable VOPH escrow account in advance for the Developer infrastructure projects, such cash escrow account deposit(s) shall serve as the security to the County for the Developer's performance under this Agreement. However, with respect to each public infrastructure project administered by the

Developer (both as the Constructing Entity for the County Utility Projects and all Developer projects involving public infrastructure) the following requirements shall apply to the general contractor and other third-party professionals selected by the Developer for such public infrastructure project:

a. **Performance and Payment Bond(s)**. The applicable contractor(s) shall be required, prior to commencing construction of the public infrastructure project, to post in favor of the applicable Co-Developer and Pasco County and provide to Pasco County, for its approval, a performance and payment bond acceptable to the Co-Developer and Pasco County to guarantee payment of the contractors' obligations as required by the law (the **"Performance and Payment Bond"**). The Performance and Payment Bond shall be with a bank, surety, or other financial institution reasonably acceptable to Developer and Pasco County, which is authorized to do business in the State of Florida, and which has an "A" policyholders rating and a financial rating of at least Class VII in accordance with the most current Best's Key Rating Guide. The Performance and Payment Bond shall be in the amount of 125% of the construction contract amount. The cost of issuance of the Performance and Payment Bond(s) required pursuant to this Agreement is hereby authorized and shall be included in the total approved costs for the public infrastructure project(s).

b. **Conditions of Performance Guarantees**.

    i. The Performance and Payment Bonds required pursuant to this Agreement must be issued by a bank, surety, savings association, or other financial institution (the **"Performance Guarantee Issuer"**) reasonably acceptable to Developer and Pasco County that is authorized to do business in the State of Florida.

    ii. The Performance Guarantee Issuer must have and maintain (1) a minimum financial ranking of 120 in the Bank Financial Quarterly, or a similar financial ranking acceptable to Pasco County's Risk Manager, and (2) a minimum rating of at least AA/Aa/AA by S&P, Moody's, or Fitch. If the Performance Guarantee Issuer does not maintain the minimum financial ranking above or is downgraded below the minimum rating above, the Performance Guarantee Issuer must notify Pasco County and Developer within five (5) days, and the contractor must provide a substitute Performance Guarantee in substantially the same form and containing the same terms as the original Performance Guarantee from a bank of financial institution with the minimum ratings set forth above within fifteen (5) days of such downgrade event, or Pasco County or Developer may draw on the original Performance Guarantee and complete or cause the completion of the Public Infrastructure Project.

    iii. The Performance Guarantee must provide for draws to be made on a bank or savings association located in West Central Florida or by facsimile to other Performance Guarantee Issuers.

c. **Default Event**. In the event of a contractor default hereunder with respect to the construction of any public infrastructure project, Pasco County or applicable Co-Developer may call on and avail itself of the Performance Guarantee and complete or cause the completion of the public infrastructure project.

d. **Maintenance Guarantee**. Upon completion of the public infrastructure project and final acceptance by Pasco County and/or FDOT, applicable, in accordance with the County Engineering Inspections Division certification as required in this Section, the construction contractors shall be required to guarantee that the Pasco County improvements included in the public infrastructure project (not the FDOT improvements) and all work performed thereon is free from defects in workmanship or materials for a maintenance period of three (3) years (the **"Maintenance Period"**). Accordingly, each construction contractor shall provide a maintenance guarantee valid for such Maintenance Period, and the monetary amount that shall be made available to the Pasco County Board of County Commissioners under the terms of such guarantee shall equal fifteen percent (15%) of the cost of the Pasco County improvements included in the public infrastructure project (the **"Maintenance Guarantee"**). The Maintenance Period shall commence on the date of acknowledgement of completion and acceptance of the Maintenance Guarantee in accordance with this section. The costs for the Maintenance Guarantee are authorized and shall be included in the approved total costs for the public infrastructure project. The applicable contractor shall be responsible for maintaining the Pasco County improvements included in the public infrastructure project during the Maintenance Period and, if any part of the Pasco County improvements included in the public infrastructure project should fail within this period due to a defect in workmanship or materials, it shall be repaired, replaced and/or restored to satisfactory condition and/or operation at no cost to Pasco County. In the event the applicable contractor does not maintain the Pasco County improvements included in the public infrastructure project during the Maintenance Period, the Pasco County Administrator shall notify such contractor in writing via certified mail, return receipt requested, of the areas that require maintenance. Such contractor shall have sixty (60) days from receipt of the notice to perform the required maintenance to the satisfaction of the Pasco County Administrator or be in default of the Maintenance Guarantee, unless a longer time is agreed upon between the contractor and the Pasco County Administrator. Developer shall be responsible for requesting, in writing, a final inspection from the Pasco County Engineering Inspection Division not before ninety (90) days prior to the termination of the Maintenance Period. Upon receipt of the request for final inspection, the Engineering Inspections Division shall notify Developer and the applicable contractor via certified mail, return receipt requested, postmarked within thirty (30) days of such request, providing a list of deficiencies of items to be remedied by the contractor before the expiration of the Maintenance Period. In the event the contractor does not remedy the deficiencies before the expiration of the maintenance Period, the contractor shall be in default of the Maintenance Guarantee. This remedy for correction shall be a contractual obligation in the applicable construction contract that is a cumulative and not exclusive remedy. Upon completion of construction of the public infrastructure project and final inspection by Pasco County as being constructed in accordance with all appropriate contract documents and permit requirements, etc., and upon the expiration of the required Maintenance Guarantee during the Maintenance Period, Pasco County shall be responsible for maintenance of the Pasco County improvements included in the public infrastructure project and all associated drainage facilities which are not commingled/combined. Upon the remedy of any defects to the satisfaction of the Pasco County Administrator, or in the case of no defects, but in any case no sooner than the expiration of the Maintenance Period, the Pasco County Administrator and County Attorney may release this Maintenance Guarantee.

e. **Insurance**.

i. **General**. No work shall commence on the public infrastructure project, nor shall occupancy of any of the property within the public infrastructure project limits take place until the required Certificates of Insurance and certified true and exact copies of all insurance policies are received by Pasco County and/or FDOT, as applicable, as set forth below:

1. During the term of this Agreement, Developer shall require any engineers and/or general contractors providing work for the improvements to pay for or maintain insurance of the types and in the amounts described herein. All such insurance shall be provided by responsible companies authorized to transact business in the State of Florida which have an "A" policyholder's rating and a financial rating of at least Class VIII in accordance with the most current *Best's Key Rating Guide* and which are reasonable satisfactory to Pasco County and/or FDOT, as applicable.

2. Developer shall require the engineers and/or general contractor to provide to Developer and to Pasco County and/or FDOT, as applicable, evidence of insurance coverage of the types and in the amounts required by submitting four (4) original, executed Certificates of Insurance on the form to be provided by Pasco County and/or FDOT, as applicable, to Developer. Each certificate shall set for the original, manual signatures of the authorized representative of the insurance company[ies], identified therein and shall have attached thereto, proof that said representative is authorized to execute the same. In addition to the Certificates of Insurance required herein, Developer shall require the engineers and/or contractors to also provide to Pasco County and/or FDOT, as applicable, certified true and exact copies of all insurance policies required hereunder at the time of submittal of the Certificates of Insurance. The required Certificates of Insurance not only shall name the types of policies provided, but also shall refer specifically to the agreement between Developer and the contractor for the improvement.

3. All policies of insurance required by this Agreement shall require that the insurer deliver to Pasco County and/or FDOT, as applicable, and Developer thirty (30) days' written notice prior to any cancellation, intent not to renew, or reduction in coverage and ten (10) days' written notice of any nonpayment of premium. Such notice shall be delivered by certified U.S. Mail to Pasco County and Developer, addressed to the parties as described in the notice provision of this Agreement. In the event of any reduction in the aggregate limit of any policy, Developer shall require the engineers and/or contractor to immediately restore such limit to the amount required herein.

4. Developer shall require that all insurance coverage provided by the engineers and/or general contractor be primary to any insurance or self-insurance program of Pasco County and/or FDOT, as applicable, and Developer that is applicable to the work provided for in this

Agreement. All such insurance shall also remain in effect until final payment and until after the Maintenance Period provided herein.

5. Receipt by Pasco County and/or FDOT, as applicable, of any Certificate of Insurance or copy of any policy evidencing the insurance coverage and limits required by the contract documents does not constitute approval or agreement by Pasco County and/or FDOT, as applicable, that the insurance requirements have been satisfied or that the insurance policies or Certificate of Insurance are in compliance with the requirements under this Agreement.

6. The insurance coverage and limits that Developer shall require from engineers and/or contractors under this Agreement are designed to meet the minimum requirements of Pasco County and/or FDOT, as applicable. They are not designed as a recommended insurance program. Developer shall notify the engineers and/or contractors that the engineers and/or contractors shall be responsible for the sufficiency of its own insurance program.

7. If the insurance coverage initially provided by the engineers and/or contractors is to expire prior to completion of the work, Developer shall require the engineers and/or contractors to provide renewal Certificates of Insurance on Pasco County or FDOT's forms, as applicable, thirty (30) days prior to expiration of current coverage.

8. All insurance policies that Developer shall require the engineers and/or contractors to obtain pursuant to this Agreement, other than workers' compensation and employer's liability policy, shall specifically provide that Pasco County, the Pasco County Engineer, FDOT (if applicable), and each of their respective officers, employees, and agents shall be "additional insured" under the policy and shall also incorporate a severability of interests provision. All insurance coverages required herein shall apply to all engineers' and/or contractors' activities and any subcontractors' activities for the Public Infrastructure Project without regard for the location of such activity.

ii. **Coverage**. Amounts and types of insurance shall conform to the following minimum requirements and shall be listed on a current Pasco County Certificate of Insurance form, which shall be provided by the engineers and/or contractors to Developer.

1. **Workers' Compensation and Employer's Liability Insurance**. Developer shall require that coverage be maintained by the engineers and/or contractors for all employees engaged in the work in accordance with the laws of the State of Florida. The amount of such insurance shall not be less than (a) Florida's statutory requirements for workers' compensation insurance, and (b) One Million Dollars ($1,000,000.00 USD) per incident. Developer shall require the engineers and/or contractors and their respective insurance companies

to waive their rights of subrogation against Pasco County and/or FDOT, as applicable, and their respective agents and employees.

2. **Commercial General Liability Insurance**. Developer shall require commercial general liability insurance coverage be maintained by the engineers and/or contractors, which shall include, but not be limited to personal and advertising injury; contractual for the improvements, including any hold-harmless and/or indemnification agreement; independent contractors; broad form property and personal injury, and combined single limits:

    a. **General Aggregate**. Two Million Dollars ($2,000,000.00 USD).

    b. **Products, Completed Operations Aggregate**. Two Million Dollars ($2,000,000.00 USD).

    c. **Bodily Injury, Including Death (Each Person)**. One Million Dollars ($1,000,000.00 USD).

    d. **Bodily Injury, Including Death (Each Occurrence)**. Two Million Dollars ($2,000,000.00 USD).

    e. **Property Damage (Each Occurrence)**. One Million Dollars ($1,000,000.00 USD).

    f. **Personal and Advertising Injury (Each Occurrence)**. Five Hundred Thousand Dollars ($500,000.00 USD).

    g. **Fire Damage (Any One (1) Fire)**. Five Hundred Thousand Dollars ($500,000.00 USD).

3. **Business Automobile Liability Insurance**. Developer shall require coverage to be maintained by the engineers and/or contractors as to the ownership, maintenance, and use of all owned, non-owned, leased, or hired vehicles and employees' non-ownership with limits of not less than (a) One Million Dollars ($1,000,000.00 USD) combined, single limit for bodily injury and personal injury, including death, and (b) One Million Dollars ($1,000,000.00 USD) combined, single limit for property damage.

4. **Excess Liability Insurance**. Developer shall require coverage be maintained by the contractors for excess liability, which shall be over and above the commercial general liability insurance and business automobile liability insurance requirements, with limits of not less than (a) Three Million Dollars ($3,000,000.00 USD) per occurrence, and (b) Three Million Dollars ($3,000,000.00 USD) aggregate.

5. **Professional Error and Omissions Liability Insurance**. Developer shall require that the engineers maintain standard, professional-

liability insurance in the minimum amount of One Million Dollars ($1,000,000.00 USD) per occurrence.

6. **Special Instructions**. Occurrence form professional, liability insurance is highly preferred. However, if the consultant is only able to secure claims-made, professional-liability insurance, then special conditions apply. Any Certificate of Insurance issued to Pasco County and/or FDOT, as applicable, must clearly indicate whether the coverage is on a claims-made basis. If coverage is afforded on a claims-made basis, then Developer shall require the consultant to be obligated by virtue of this Agreement to maintain insurance in effect with no less limits of liability nor any more restrictive and/or conditions for a period of five (5) years from the Effective Date (as defined below) of this Agreement.

13. **General Provisions**.

a. **Constitutional Limitations**. The terms and conditions of this Agreement placed upon Pasco County are applicable only to the extent they are within and consistent with the constitutional and statutory limitations on the authority of the County. Specifically, the parties acknowledge that the County is without authority to grant or pledge a security interest in any of the County's revenue sources or County property.

b. **Independent Capacity; Limitation on Liability.** The Co-Developers, Designated MPUD Owner(s), any designated Constructing Entity/Developer and any consultants, contractors, or agents are and shall be, in the performance of all work, services, and activities under this Agreement, independent contractors and not employees, agents, or servants of Pasco County or joint venturers with Pasco County. The Co-Developer, their agents and representatives do not have the power or authority to bind Pasco County in any promise, agreement, or representation other than specifically as provided for in this Agreement. Pasco County shall not be liable to any person, firm, or corporation who contracts with or provides goods or services to the Co-Developers with respect to any private infrastructure project for debts or claims accruing to such parties against the Co-Developer(s) for such private infrastructure project, and the County's liability hereunder shall extend only to the funds deposited into the VOPH Roadway Escrow Account or the VOPH Utility Escrow Account, as applicable, for the public infrastructure projects included in this Agreement. There is no contractual relationship expressed or implied between Pasco County and any other person, firm, or corporation supplying any work, labor, services, foods, or materials to any private infrastructure project.

c. **Time Extensions**.

i. If Pasco County reasonably requires additional time beyond that allocated herein to act upon a submission by the Co-Developer or its designee of complete and correct documents for review and/or approval, there shall be an automatic extension of the time periods set forth in this Agreement for the public infrastructure project for the documented number of days which it takes Pasco County beyond the days allowed for the Pasco County's review and/or approval.

ii. If the Co-Developer is unable to meet a deadline as set forth in this Agreement for any public infrastructure project, the Co-Developer may, prior to the deadline, submit a request to the County Administrator for administrative amendment, which shall not be unreasonably withheld or delayed.

d. **Contracts**. All contracts entered into by either Co-Developer for any public infrastructure projects shall be made in accordance with all applicable laws, rules, and regulations; shall be specified by written contract or agreement; and shall be subject to each applicable paragraph set forth in this Agreement. The applicable Co-Developer shall monitor all contracts on a regular basis to ensure contract compliance. Results of monitoring efforts shall be summarized in written reports submitted to Pasco County and supported with documented evidence of follow-up actions taken to correct areas of noncompliance.

i. The Co-Developer shall cause all applicable provisions of this Agreement to be included and made a part of any contract for the public infrastructure project.

ii. The Co-Developer agrees to include in all construction contracts a retainage clause providing that upon completion of all work the retainage will be reimbursed.

e. **Law Compliance**. The Co-Developers and Pasco County will comply with all applicable Federal, State, and local laws, rules, regulations, and guidelines related to performance under this Agreement. In particular, the Co-Developers verify and affirm that each party is in compliance with the 8 U.S.C. 1324, prohibiting the employment either directly or by contract, subcontract, or exchange of unauthorized aliens in the United States. Pasco County will consider the employment of unauthorized aliens by the Co-Developer(s) during the term of this Agreement a violation of the Immigration and Nationality Act.

f. **Certification**. The applicable Co-Developer shall provide certification to Pasco County and/or FDOT, as applicable, under the seal and signature of a registered, professional engineer that any public roadway infrastructure project has been designed and constructed in accordance with the applicable standards promulgated by the FDOT in Section 336.045, Fla. Stat., if applicable; Pasco County standards; the contract documents; and this Agreement.

g. **Notice**. Any notice or demand to be given to or served upon any party hereto in connection with this Agreement shall be in writing and shall be (i) delivered by hand, or (ii) delivered through the United States mail, postage prepaid, certified or registered, return receipt required, or (iii) delivered through a nationally recognized overnight delivery service, such as FedEx, which provides proof of delivery. Or, if notice is given by a method other than the foregoing, it shall be deemed to be given and received when delivered to and received by the party to whom it is addressed. Such notices shall be given to the parties hereto at the following addresses:

If to Pasco County:

Pasco County Administrator
West Pasco Government Center
8731 Citizens Drive, Suite 340

If to Financial Escrow Agent:

Phelps Dunbar LLP
Attn: Robert H. Gidel Jr., Esq.
100 S. Ashley Drive,
Suite 2000
Tampa, FL 33602
Email: robert.gidel@phelps.com
Phone: 813-472-7759

It is agreed that, if any party hereto is represented by legal counsel, such legal counsel is authorized to delivered notice directly to the other party on behalf of his or her client, and the same shall be deemed proper notice hereunder if delivered in the manner hereinabove specified.

Any party hereto may, at any time by giving three (3) days written notice to the other party hereto, designate any other address in substitution of the foregoing address to which such notice shall be given and other parties to whom copies of all notices hereunder shall be sent.

Any notice or demand that may be given hereunder shall be deemed complete (notwithstanding the lack of actual receipt by addressee) (i) three (3) days, after depositing any such notice or demand in the United States mail with proper postage affixed thereto, certified or registered, return receipt requested, or (ii) on the next business day after deposit (prior to the deadline for delivery on such business day) with a nationally recognized overnight delivery service which provides evidence of delivery, or (iii) upon hand-delivery to the appropriate address as herein provided during normal business hours.

h. **Entire Agreement**. Except for the respective VOPH-MPUD approvals and subsequent development approvals through application of the Land Development Code for such VOPH-MPUD's, this Agreement embodies and constitutes the entire understanding and agreement between the parties with respect to the transactions contemplated herein, and this Agreement supersedes all prior and contemporaneous agreements, understands, representations, communications, and statements, either oral or written between the Co-Developers, the Engineer Verification Agent, the Financial Escrow Agent, and Pasco County as to the specific subject matters set forth herein.

i. **Modification and Amendment**. Neither this Agreement, nor any portion hereof, may be waived, modified, amended, discharged, nor terminated, except as authorized by law pursuant to an instrument in writing, signed by the party against which the enforcement of such waiver, modification, amendment, discharge, or termination is sought and then only to the extent set forth in such instrument. The County Administrator shall be authorized to bind the County to any modification or amendment hereto without Board approval provided the item does not exceed the Administrator's authorized expenditure (or fee credit award) limit of fifty thousand dollars ($50,000.00). Any amendment to this Agreement shall require only the Co-Developers' execution, and not any VOPH-MPUD Owner(s) (who shall be deemed third-party beneficiaries, only, as set forth below).

j. **Waiver**. The failure of any party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is a violation of the terms of this

Agreement shall not be construed as a waiver of the violation or breach or of any future violation, breach, or wrongful conduct.

k. **Contract Execution**. This Agreement may be executed in several counterparts, each constituting a duplicate original, but all such counterparts shall constitute one (1) and the same agreement.

l. **Gender**. Whenever the context hereof shall so require, the singular shall include the plural, the male gender shall include the female gender and the neuter and vice versa.

m. **Headings**. All article and descriptive headings of paragraphs in this Agreement are inserted for convenience only and shall not affect the construction or interpretation hereof.

n. **Severability**. In case anyone (1) or more of the provisions contained in this Agreement is found to be invalid, illegal, or unenforceable in any respect, such invalidity, or unenforceability shall not affect any other provision hereof, and this Agreement shall be construed as if such invalid, illegal, or unenforceable provisions had never been contained herein, unless such unenforceable provision results in ta frustration of the purpose of this Agreement or the failure of consideration.

o. **Construction**. The parties hereby agree that each has played an equal part in the negotiation and drafting of this Agreement and, in the event any ambiguity should be realized in the construction or interpretation of this Agreement, the result of such ambiguity shall be equally assumed and realized by each of the parties to this Agreement.

p. **Cancellation**. This Agreement may be canceled by mutual consent of the parties to this Agreement.

q. **Third Party Beneficiaries**. Pasco County and the Co-Developers acknowledge and agree that, upon their consummation of the respective closings upon the Designated VOPH-MPUD, each VOPH-MPUD Owner and its successors and assign(s) shall be deemed an express, intended third-party beneficiary of this Agreement to the extent this Agreement pertains to any off-site infrastructure which serves the Designated VOPH-MPUD. Such VOPH-MPUD Owner(s) shall not be deemed "parties" to this Agreement and nothing in this Agreement shall be construed to benefit any person or entity not a party or an express third-party beneficiary to this Agreement.

r. **Signatories Authority**. By the execution hereof, the parties covenant that the provisions of this Agreement have been duly approved and signatories hereto are duly authorized to execute this Agreement.

s. **Controlling Law**. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida. Venue for any litigation arising from this Agreement shall be in the 6th Judicial Circuit in and for Pasco County, Florida.

t. **Successors and Assigns**. The terms of this Agreement shall be binding upon the Co-Developers, their respective successors and assigns. Either Co-Developer may assign its interest in this Agreement and its respective rights and obligations hereunder, in whole or in part, to any firm, corporation, or other legal entity, to any authorized CDD,

POA, or other County-approved entity created for the purpose of constructing or operating a public infrastructure project with the consent of all parties to this Agreement, which consent shall not be unreasonably withheld or delayed, and any such assignee shall be entitled to all the rights and powers of such participation hereunder; provided however, that the Co-Developer shall deliver to Pasco County a copy of any such fully executed assignment instrument as a condition to the effectiveness of such assignment, and further, if such assignee (a) is not wholly owned or majority controlled by the Co-Developer, or (b) is not an authorized CDD or POA as provided for herein, such assignment shall require Pasco County's prior written consent, which shall not be unreasonably withheld. Upon any such assignment, such assignee shall succeed to all the rights and obligations of the applicable Co-Developer as to such assigned matters, only. The duties, rights and obligations of the Financial Escrow Agent and Engineer Verification Agent under this Agreement shall not be assignable without the prior written consent of the County and Co-Developers.

u. **Survival**. The provisions of all sections of this Agreement that, from their sense and context are intended to survive the term or any termination of this Agreement, including, but not limited to, affirmative maintenance and other obligations, in order for them to be effectual and have the meaning intended by the parties, shall so survive (but shall expire within any specific time limitation which may be expressly stated elsewhere in this Agreement) the term or any termination of this Agreement and remain independently binding upon the parties, as applicable.

v. **Force Majeure**. In the event any party's performance of this Agreement is delayed or interrupted by consequent act of God, or the public enemy, or national emergency, or a government restriction upon the use of availability of labor or materials, or civil insurrection, riot, racial or civil rights disorders or demonstration, strike, embargo, flood, tidal wave, fire, explosion, bomb detonation, nuclear fallout, windstorm hurricane, sinkholes, earthquake, or other casualty, disaster, or catastrophe, or judgment, or a restraining order or injunction of any court, or material supply shortage, equipment or labor disruption beyond the control of such party (individually or collectively a "Force Majeure" event), such party shall not be liable for such nonperformance, and the time of performance shall be extended for the number of days that the force majeure event delays or interrupts such party's performance of this Agreement as reasonably determined by the other parties. This paragraph shall not apply to Force Majeure events caused by the party with delayed or interrupted performance or under the control or caused by the party with delayed or interrupted performance . In the event performance by any party of the commitments set forth in this Agreement shall be interrupted or delayed in connection with acquisition of necessary governmental permits or approvals which interruption or delay is caused through no fault of the party with a delayed performance, then the party with a delayed performance shall submit documentation to the other parties regarding such event for review and concurrence. If such documentation shows that such event(s) have taken place, then the party with a delayed performance shall be excused from such performance for such period of time as is reasonably necessary after such occurrence to remedy the effects thereof. Any Force Majeure event which exceeds one hundred eighty (180) days shall require a formal amendment to this Agreement. For purposes of this paragraph, the Engineer Verification Agent and Financial Escrow Agent shall be considered parties to this Agreement.

w. Indemnification. Developer shall indemnify and hold harmless the County, the Engineer Verification Agent and the Financial Escrow Agent and their employees and agents from and against all liabilities, claims, suits, demands, damages, losses, and expenses, including, but not limited to, attorneys' fees, arising out of or resulting from the Developer's design, permitting or construction of the Infrastructure Projects, provided that any such liability, claim, suit, demand, damage, loss or expense: (a) is attributable to bodily injury, sickness, disease or death, or injury to or destruction of tangible property (other than the Infrastructure Projects themselves), or arises out of any infringement of patent rights, copyrights, trademarks, or other intellectual property rights held by others, and (b) is caused in whole or in part by an act or omission of Developer or anyone directly or indirectly employed or retained by Developer, or anyone for whose act any of them may be liable. The foregoing indemnity by the Developer shall not apply to any willful misconduct, gross negligence or other malfeasance by either the Financial Escrow Agent or the Engineer Verification Agent in the performance of their prescribed duties under this Agreement.

x. **Public Records**. The Developer, Financial Escrow Agent, Engineer Verification Agent, and all contractors performing work under this Agreement, as applicable, shall comply with the requirements of Florida's Public Records Act, Chapter 119, Florida Statutes. To the extent required by Section 119.0701, Florida Statutes, each such party shall (a) keep and maintain those public records required by the County hereunder to perform the services under this Agreement; (b) upon request from the County's custodian of public records provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided for under Florida's Public Records law; (c) ensure that the public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement term and following completion of the Agreement if the applicable party does not transfer the records to the County; and (d) upon completion of the Agreement, transfer, at no cost to the County, all public records in possession of such party. Upon transfer, the party shall destroy any duplicate public records that are exempt or confidential and exempt from public records requirements. All records stored electronically must be provided to the County in a format that is compatible with the information technology systems of the County. All documentation produced as part of this Agreement will become the property of the County. This paragraph shall survive the expiration or termination of this Agreement.

IF ANY APPLICABLE PARTY HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE PARTY'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT TELEPHONE NUMBER (727) 815-7092, E-MAIL ADDRESS oeg@pascocountyfl.net, WEST PASCO GOVERNMENT CENTER, 8731 CITIZENS DRIVE, SUITE 135, NEW PORT RICHEY, FLORIDA 34654.

y. Under Florida law, a company who fails to provide the public records to the County within a reasonable time may be subject to penalties under Section 119.10, Florida Statutes, and such non-compliance will constitute a breach of the Agreement and may serve as grounds for termination of this Agreement. Such records shall be and remain

available at the applicable party's place of business at all reasonable times during the term of this Agreement and for five (5) years after Agreement termination.

z. **Term**. This Agreement shall remain in effect from the date of execution by the last party to sign the agreement (the **"Effective Date"**) until December 31, 2050, unless otherwise extended by mutual consent of the parties.

IN WITNESS WHEREOF, the parties have set their hands and seals on the respective dates set forth below.

Exhibit C: Phasing Plan for Designated Master Roadway & Developer Utility Pipeline Projects

Exhibit D-1: Graphic for County's Handcart Main Potable Water Transmission Line

Exhibit D-2: Graphic for County's Handcart Main Sanitary Sewer Transmission Line

Exhibit E-1: Graphic for Developer Potable Water Transmission Line Projects

Exhibit E-2: Graphic for Developer Wastewater Transmission Line Projects

Exhibit E-3: Graphic for Developer Reclaim Transmission Line Projects

Exhibit E-4: Designated Developer Utility Projects for each Co-Developer [w/ matching VOPH-MPUDs]

Exhibit F: Scope of Services for Engineer Verification Agent ("EVA")

Exhibit A

List of Designated VOPH-MPUDs

MPUD Name	Co-Developer	MPUD Entity
Bailey MPUD	Galvin Land	VOPH LAC Bailey, LLC
Price Harvest Hills North MPUD	Galvin Land	Galvin Land Services, LLC
Price Harvest Commons MPUD	Galvin Land	Galvin Land Services, LLC
Price Harvest Hills South MPUD	Galvin Land	Galvin Land Services, LLC
Hopkins MPUD	Galvin Land	Galvin Land Services, LLC
Nursery MPUD	Galvin Land	Galvin Land Services, LLC
Pasadena (G-1; H-1; H-2) MPUD	VOPH Master	VOPH Land Acquisition Company, LLC

Prior or subsequent to closing on the applicable VOPH-MPUD land, the applicable Co-Developer shall have the right to designate a substitute VOPH-MPUD ownership entity; provided, however, that the applicable VOPH master roadway plan pipeline project identified for each such VOPH-MPUD shall remain applicable to and binding upon each successor owner or assignee so designated by the Co-Developer, as to that VOPH-MPUD. In addition, either Co-Developer with the consent of the County Administrator may designate additional VOPH-MPUDs with appurtenant designated master roadway pipeline project(s), in which event the applicable exhibits to this Development Agreement shall be administratively amended by the applicable Co-Developer and the County Administrator.

Exhibit B-1

Designated Master Roadway Pipeline Projects

Designated VOPH-MPUD	**Designated Roadway Pipeline Project(s)**
Bailey MPUD:	Tyndall Road from Handcart Road to North-South Avenue B (Intermediate Off-Site Creditable); and North-South Avenue B from Tyndall Road to Bailey MPUD entrance (Intermediate Off-Site Creditable)
Price Harvest Hills North MPUD:	Handcart Road from Prospect Road north to Price Harvest Hills North MPUD boundary (Primary Creditable)
Price Harvest Commons MPUD:	Handcart Road from southern boundary of Price Harvest Commons MPUD to Clinton Avenue (Primary Creditable)
Price Harvest Hills South MPUD:	Handcart Road from Tyndall Road to Prospect Road (Primary Creditable); and North-South Avenue B from Prospect Road to Bailey MPUD Entrance (Intermediate Off-Site Creditable)
Hopkins MPUD:	New River Blvd. from Prospect Road to Tyndall Road (Intermediate Off-Site Creditable); and Tyndall Road from New River Blvd. to North-South Avenue B (Intermediate Off-Site Creditable); and Prospect Road from North-South Avenue B to Handcart Road (Intermediate Off-Site Creditable)
Evans Nursery MPUD:	Prospect Road from New River Blvd. to North-South Avenue B (Partially Intermediate Off-Site Creditable and Partially Intermediate On-Site Not Creditable*)
Evans Pasadena MPUD(s):	Keifer Road from Handcart Road to the easternmost subdivision entrance constructed by the Co-Developer (Primary Creditable) (the remaining eastern portion of Keifer Road within Pasadena MPUD(s) shall require right-of-way dedication only); Highlands Blvd. from the southern MPUD boundary to the northernmost subdivision entrance constructed by the Co-

	Developer (Intermediate On-Site Not Creditable*) (the remaining northern portion of Highland Blvd. within Pasadena MPUD(s) shall require right-of-way dedication only); the entirety of the internal roadway south of Keifer Road to the southern MPUD boundary (not creditable*)

- Fee credit for on-site intermediate roadways is subject to VOPH Financial Plan amendment. In the event on-site intermediate roadways are made creditable, then this Exhibit B-1 shall be deemed automatically amended (without further action by the Board or County Administrator) to provide VOPH Development Fee credits for all such intermediate roadways constructed by the Co-Developers. Any Designated VOPH-MPUD which had prior MPUD approval without such on-site intermediate roadway credits shall be updated by PDD through a Non-Substantial Modification, to conform to the VOPH-Financial Plan, as amended, and to provide for such on-site intermediate roadway credits consistent with this DA, without a required application from such previously-approved VOPH-MPUD.

Exhibit C

Initial Phasing Plan for Designated Master Roadway Plan & Developer Utility Pipeline Projects

Design/Permitting:	Commence design/permitting and right-of-way acquisition (if necessary) not later than thirty (30) days after (i)the VOPH-MPUD rezoning final approval and (ii) the closing by the Co-Developer or its Designated VOPH-MPUD Owner have both occurred, for the applicable Designated VOPH-MPUD Project (the "Initial Commencement Date")
Escrow Funding Date:	Not later than thirty (30) days after issuance of the Site Development Permit (or Site Development Placard) for the applicable roadway and/or utility project
Construction:	Commence roadway and/or utility construction not later than twelve (12) months after issuance of the Site Development Permit (or Site Development Placard) for the applicable roadway and/or utility project
Completion:	Complete roadway and/or utility construction not later than eighteen (18) months after commencement of construction for the applicable roadway and/or utility phase. Construction shall be deemed "complete" when the applicable roadway or utility project is open for public use and the applicable Maintenance Guarantee (as defined in the Agreement) has been accepted by the County.

Note: The foregoing schedule shall apply to each separate VOPH-MPUD Master Roadway Pipeline Project and/or Developer Utility Project, which project(s) may be designed, permitted and/or constructed in phases, and may overlap or occur concurrently, in the Co-Developer's discretion, provided that each applicable, individual VOPH-MPUD pipeline project deadline nevertheless is met. The subsequent, actual sequencing of the Master Roadway Pipeline and/or Developer Utility Projects by the Co-Developer or its designee(s) shall not affect the credibility of any Master Roadway Pipeline or Developer Utility Project, as established in each applicable Designated VOPH-MPUD approval or this Agreement. Applicable credits shall be awarded upon the earlier of (i) funding by the applicable Co-Developer of the VOPH Roadway Escrow Account or VOPH Utility Escrow Account, as applicable, or (ii) completion of construction and verification of costs for the Designated Master Roadway Plan Pipeline Project or Developer Utility Project (as applicable), as provided in this Agreement.

Exhibit F
Scope of Engineer Verification Agent Services
for Roadways and Utilities Capital Infrastructure
Villages of Pasadena Hills MPUD Owner Projects

RECITALS

The EVA will review and verify the propriety of requests for third-party disbursement payments, reimbursements, and/or award of fee credits (as applicable) for implementing capital improvement infrastructure described in the "Funding and Escrow Agreement" ("F&EA"), and provide its recommendation to the requestor, Co-Developer, Pasco County, and a Financial Escrow Agent. Within this scope of services, EVA will create submittal requirement checklists, review regular (monthly) electronic submittal packages, maintain public records, and issue acceptance/approval letters to the above parties.

These services will be primarily led by and undertaken by a W.E. Oliver, P.E., LLC sub-Consultant firm, Vanasse, Hangen, Brustlin, Inc., referred to herein as "VHB". W.E. Oliver, P.E., LLC and Vanasse Hangen Brustlin, Inc. are jointly referred to as the "EVA".

SCOPE OF WORK

Task 1: Project Administration
The EVA will prepare project kick-off, quality assurance review, monitoring procedures, regular administration services for communications, project billing, filing and administer the work order assignment through the project term of service.

Up to a bi-monthly basis, EVA will meet by video-conference (e.g. MS Teams, WebEx, ZOOM, etc.) and coordinate with Pasco County, Financial Escrow Agent, Co-Developers, and/or representatives to discuss current progress, explain steps and process of obtaining disbursement, reimbursement, and/or credit reviews, and the role of the EVA.

Task 2: Prepare Typical Disbursement, Reimbursement, and/or Fee Credit Materials
The EVA will coordinate with Pasco County, Financial Escrow Agent, Co-Developers, and/or representatives to create payment disbursement, reimbursement, and fee credit review requirement checklists and define Co-Developer materials required for submittal, process diagrams, and approval letter templates. The EVA will provide a draft copy of the checklist (substantively consistent with the terms of the F&EA) to the County and the Co-Developers for review and comment. The EVA will then revise the checklist based on consolidated comments

received for resubmit. A maximum total of three (3) reviews and revisions will be undertaken. All of the materials will be created using MS Office Suite software.

Co-Developers will be required to submit an official letter that lists the required materials for the EVA to determine the amount of eligible disbursement, reimbursement, or fee credits, as applicable, and include in the package, at a minimum, the following evidence:

A. Co-Developer applicant letter indicating amount of third-party disbursement, reimbursement, or fee credits requested, with amounts segmented by Escrow Account (as needed);
B. Eligibility Criteria Checklist signed by Co-Developer applicant;
C. Co-Developer Applicant Contact information, address, etc.;
D. Installation Segment Location: Location of the applicable capital improvements (e.g. transmission lines are located in the ROW (Name of Road) from X segment to Y Segment, with map);
E. Proof that all improvements adhere to the capital improvements identified in the F&EA;
F. Certified 3rd party (e.g. Co-Developer's Engineer of Record) cost estimate verification for requested disbursement, reimbursement, or fee credit amount;
G. Approved Pasco County sign off of Construction Drawings for the creditable improvements;
H. Land is dedicated or easements are in place for installation of improvements;
I. Proof of Inspection Verification Sign off by Pasco County; and
J. Other criteria as required by EVA to complete reviews for Pasco County and Financial Escrow Agent approvals (consistent with the terms of the F&EA).

Task 3: Receive, Review, and Process Co-Developer Authorization Requests

The EVA will review and document Co-Developer application submittals for third-party disbursements, reimbursements, and/or fee credit awards, as applicable under the F&EA. It is anticipated that thirty (30) Co-Developer verification requests will occur on a no more frequently than monthly basis over the initial three (3) years, and with optional extensions, up to five (5) year anticipated project length.

It is assumed that the applications will occur electronically, will contain all required Task 2 materials, that review correspondence will occur through email, that multiple reviews and issuance of printed deficiency comments will not be typically necessary.

The EVA will prepare and maintain a database (MS Office Suite) that summarizes the review completed for the submitted materials and prepare a document to submit to the County for concurrence review prior to issuance of an acceptance letter to the County and the Escrow Agent.

Upon completed review and acceptance of Co-Developer verification application materials, the EVA will issue a signed and sealed letter to the County and Escrow Agent approving the third-

party disbursement or Co-Developer reimbursement payment from the Escrow Account(s), and/or the recommendation for award of fee credits to the County, as applicable.

The EVA will maintain the submitted materials and record of actions in an organized, electronic filing system per County and Florida Statutes requirements.

SCHEDULE

The EVA will begin performance of the above services on the date written authorization to proceed is received. The schedule is also subject to timely delivery of information required by the Co-Developer and is exclusive of County or other review of interim products. Upon receipt of a complete review request, review and recommendation is expected to be completed within 20 days.

A three (3) year-long project is initially anticipated to complete the Co-Developer projects, but the F&EA provides for two additional one-year extension options. Tasks One and Two services will be commenced upon receipt of Notice to Proceed and confirmation of sufficient Co-Developer application funding. Subsequent Tasks Three and Four services will be undertaken as disbursement, reimbursement, and/or fee credit verification requests are received.

AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UT23-0245 **DATE:** 3/21/2023

SUBJECT: Budget Amendment Journal No. 924 and Purchasing Approval to Reallocate Fiscal Year 2022 Approved Amount for Fiscal Year 2023 – Agreement No. LPA0206 Standard Grant Agreement, State of Florida Department of Environmental Protection – Pasco County Handcart Road Water and Wastewater – $6,841,104.00

REFERENCES: UTD22-0012, UTD22-0263, PDD23-0005, UTD23-0180

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: David Allen, Utilities Director

RECOMMENDED BOARD ACTION:

Approve purchasing approval to reallocate Fiscal Year (FY) 2022 approved amount for the State of Florida Department of Environmental Protection (FDEP) Standard Grant Agreement, Pasco County Handcart Road Water and Wastewater Agreement No. LPA0206, in the Not To Exceed (NTE) amount of $6,500,000.00 for FY 2023.

Approve Budget Amendment Journal No. 924 in the amount of $341,104.00 for FY 2023.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On October 26, 2021, the County entered into a $6,500,000.00 grant agreement with the FDEP to construct water and wastewater infrastructure improvements along a portion of Handcart Road. The project's purpose is to stimulate economic growth in the area of Pasadena Hills.

On October 25, 2022, the County approved the Villages of Pasadena Hills (VOPH) Global Funding and Escrow Agreement to provide roadway and utility infrastructure inside the VOPH Special Planning Area. The agreement also designated the VOPH Developers as the constructing entity for the Handcart Road utility infrastructure described in the FDEP Grant. The Global Funding Agreement included a provision for a supplemental joint funding agreement to allocate any excess costs beyond the $6,500,000.00 FDEP Grant.

On February 21, 2023, the County approved a Joint Funding Agreement between Pasco County, VOPH Master Development Company, LLC, and Galvin Land Services, LLC (collectively referred to as the “VOPH Developers”) and budget amendment for the design and construction of water and wastewater infrastructure along Handcart Road. Project costs associated with the FDEP Grant Segment will be paid by the County, with reimbursement from the FDEP up to the $6,500,000.00 grant amount.

On April 19, 2022, the County approved Task Order No. 1-22 with Ardurra Group, Inc. (Ardurra), for engineering management services for the Handcart Road Utility Improvements Program Management project in the NTE amount of $343,688.00, $2,585.00 was expended in FY 2022 leaving a remaining amount of $341,103.00 on Task Order No. 1-22.

The Utilities Department, with concurrence from the Purchasing Department, requests approval to reallocate the FY 2022 approved amount with FDEP for Pasco County Handcart Road Water and

Wastewater in the NTE amount of $6,500,000.00 for FY 2023 resulting in the cumulative NTE amount of $9,057,500.00 for the contract term expiring on March 31, 2024. This amount associated with FDEP includes the full value of the construction and design award for the grant as well as engineering and project management services provided by Ardurra, as described above.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding in the amount of $6,500,000.00 is available in FY 2023 in the Water and Wastewater Capital Fund, Water and Wastewater Connection Fees, Utilities Capital Improvement, Project 22043, Grant # G22001.

Funding in the amount of $341,103.00 will be available for Fiscal Year 2023 upon approval of Budget Amendment Journal No. 924 in the Water and Wastewater Capital Fund, Water and Wastewater Connection Fees, Project 22043.

DISTRIBUTION:
Not applicable.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UTD22-0012 **DATE:** 10/26/2021

SUBJECT: Agreement No. LPA0206 Standard Grant Agreement – State of Florida Department of Environmental Protection – Pasco County Handcart Road Water and Wastewater; Budget Amendment Journal No. 3; and Recognize Revenue in the Water & Wastewater Capital Fund – $6,500,000.00

REFERENCES: Not Applicable

AGENDA SECTION: Consent Agenda

THRU: Michael Carballa, Assistant County Administrator

FROM: Charles Cullen, Utilities Engineering Director

RECOMMENDED BOARD ACTION:

Approve the Florida Department of Environmental Protection (FDEP) Standard Grant Agreement, Pasco County Handcart Road Water and Wastewater Agreement No. LPA0206 in the amount of $6,500,000.00. Authorize the Chairman to execute one original of the Standard Grant Agreement provided, and direct Board Records to Distribute as set forth under the distribution section below.

Approve Budget Amendment Journal No. 3 in the amount of $6,500,000.00 for Fiscal Year (FY) 2022.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

Pasco County has been awarded through FDEP, $6,500,000.00 to provide water and wastewater infrastructure improvements to stimulate economic growth in the currently underdeveloped area of Pasadena Hills, a portion of central Pasco County.

Pasco County will construct a water and wastewater distribution system including a piping system an d appurtenances, a lift station, restoration, project management, and all work necessary to complete the project as outlined in the Grant Work Plan in Attachment 3 of the Standard Grant Agreement.

The Standard Grant Agreement begins upon execution and expires on March 31, 2024. This grant award does not require any match from Pasco County. This is a cost-reimbursement agreement.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Upon approval of Budget Amendment Journal No. 3, funding in the amount of $6,500,000.00 will be budgeted and available in the Water & Wastewater Capital Fund, Utilities Engineering & Contract Management Department for FY 2022.

DISTRIBUTION:

Board Records to distribute as set forth below:
1. Retain the original Standard Grant Agreement.
2. Electronically to: Joshua Wood, Assistant Director, Public Infrastructure Fiscal and Business Administration Department – jwood@pascocountyfl.net. The Standard Grant Agreement will be sent

electronically to the FDEP and upon execution, a fully executed .pdf will be sent electronically to Board Records.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

BCC APPROVED
04/19/2022

COMMISSION DISTRICT: 1 **FILE NO.:** UTD22-0263 **DATE:** 4/19/2022

SUBJECT: Task Order No. 1-22 – Ardurra Group, Inc. – Handcart Road Utility Improvements Program Management (PCU22-401.00) – $343,688.00

REFERENCES: Memorandum PU20-0035

AGENDA SECTION: Consent Agenda

THRU: Michael Carballa, Assistant County Administrator

FROM: Charles Cullen, Utilities Engineering Director

RECOMMENDED BOARD ACTION:

Approve Task Order No. 1-22 (Task Order) with Ardurra Group, Inc. (Ardurra), for engineering management services for the Handcart Road Utility Improvements Program Management project (Project) in the Not to Exceed (NTE) amount of $343,688.00 for Fiscal Year (FY) 2022 utilizing the NTE payment method referenced in the agreement, which can be paid in monthly progress payments. Authorize the Chairman to execute the two originals of the Task Order provided, and direct Board Records to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On December 16, 2020, the County Administrator, through delegation from the Board of County Commissioners (BCC), executed the Continuing Professional Services Agreement (RSQ-DS-20-056) with Ardurra for miscellaneous professional services.

The Utilities Engineering and Contract Management (E&CM) negotiated the attached Task Order with Ardurra to provide engineering services for the management of the Project. The Project consists of improvements to the utility infrastructure in the Villages of Pasadena Hills neighborhood along Handcart Road which are necessary to maintain the level of service for the customers and to meet future demands projected for the area. The Project will be executed by contracted private developers and Ardurra will oversee the work on behalf of the County. Ardurra's services include project management, design reviews, permitting assistance as well as construction management. The table below shows the overall schedule and budget of the project.

Estimated Schedule and Budget:

Project Activity	Projected Schedule Start	Projected Schedule Finish	Fiscal Year	Estimated Budget Amount
Project Management Services	April 2022	December 2024	2022	$343,688.00

The schedule in the task order and table above is related to Ardurra's estimated time to complete the proposed services only and does not include the County's time that might be necessary to complete the services and close the Task Order. Therefore, the term of the Task Order has been set at the time which the upper limit is paid in full, the County terminates it, or December 15, 2025, whichever is sooner, to give the department flexibility to complete the Project.

The Utilities E&CM Department, with concurrence from the Purchasing Department, requests approval of Task Order, with Ardurra in the NTE amount of $343,688.00 for FY 2022, utilizing the NTE payment method referenced in the agreement, which can be paid in monthly progress payments.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Funding in the amount of $343,688.00 is budgeted and available for FY 2022 in the Water and Wastewater Capital Fund, Utility Engineering and Contract Management, Water Connection Fees.

DISTRIBUTION:

Board Records to distribute as set forth below:

1. Retain One Original
2. Electronically to: Sarah N. Rodriguez, P.E., PMP, Utilities Engineering Manager, Utilities Engineering and Contract Management (Public Infrastructure) – srodriguez@pascocountyfl.net

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** PDD23-0005 **DATE:** 10/25/2022

SUBJECT: Villages of Pasadena Hills - Global Funding and Escrow Agreement

REFERENCES: All Pasadena Hill Planning and Policy Committee (PHPPC), and Board of County Commissioners (BCC) public hearings at 1:30 p.m in New Port Richey (NPR) or Dade City (DC): VOPH PPC in DC: 8/17/22 - BCC in NPR: 10/25/22.

AGENDA SECTION: Consent Agenda

THRU: Sally Sherman, Assistant County Administrator

FROM: Nectarios Pittos, Planning and Development Director

RECOMMENDED BOARD ACTION:

Approve the VOPH Global Funding and Escrow Agreement. Authorize the Chairman to execute the Agreement, and direct Board Records to distribute as set forth under the Distribution Section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

To provide infrastructure for the Villages of Pasadena Hills special planning area, Pasco County and the Co-Developers have mutually agreed to enter into this agreement to induce the Co-Developers and their designated Villages of Pasadena Hills (VOPH) MPUD Owner(s) to privately fund, design, permit, and construct designated roadway and utilities infrastructure projects within the VOPH special planning area. In exchange, said constructing parties who fund the designated infrastructure improvements will receive VOPH Transportation Development Fee and Utility Surcharge Fee Credits consistent with the provisions of the VOPH Financial Plan.

Roadway Infrastructure Projects

Each VOPH-MPUD project is assigned specific projects they will have to design, permit, and construct. Each project will be built to the conditions outlined within the MPUD process. Any change in the obligations of the MPUD must be approved by the County Administrator and relevant Co-Developer as an administrative amendment to this agreement. Currently, The VOPH-MPUDs in this agreement will be responsible for designated segments of the following roads:

- Handcart Road (Primary Road)
- Keifer Road (Primary Road)
- Highland Boulevard (Intermediate Road)
- Tyndall Road (Intermediate Road)
- Prospect Road (Intermediate Road)
- New River Boulevard (Intermediate Road)

Transportation Development Fee Credits

The Designated MPUDs anticipate pre-funding the improvements for each MPUD. Once a deposit is made into the VOPH Roadway Escrow account (a segregated account managed by the Financial Escrow Agent), the County will then provide VOPH Transportation Fee Credits to the applicable Co-Developer or MPUD Owner. Within 45-days after the Financial Escrow Agent confirms funds have been deposited into the VOPH Roadway Escrow Account, the County will issue credits. These credits cannot be used on the VOPH External Improvement Fee or Administrative Fee-these fees

must be paid in cash.

Intermediate Roadway Credits
The 2022 VOPH Financial Plan update (also scheduled for consideration by the BCC on 10/25) if adopted, will provide roadway fee credits for all intermediate roadways (based on a partial allocation of the existing tax increment previously approved in VOPH). This would make both primary and intermediate roads creditable within VOPH and will encourage needed roadway construction within VOPH.

Utility Infrastructure Projects
The County has entered into a grant agreement with the State of Florida Department of Environment Protection (DEP) for designated utility projects within VOPH and desires the Co-Developers to be the constructing entity for the DEP Grant Project. As the constructing entity, the Co-Developers also shall design, permit, and construct additional VOPH Master Utility Projects within this agreement. The funding for any excess costs for the County Master Utility Projects beyond the $6.5 million DEP Grant reimbursement amount will be the subject of a Supplemental Agreement between PCUD and the Co-Developers.

County Master Utility Projects
1. Handcart Road Master Potable Water Transmission Line Extension & Appurtenances (also known as the Main Potable Water System Extension)
2. Handcart Road Main Sanitary Sewer Collection System Extension (also known as the Handcart Main Sanitary Sewer Transmission Line)

Developer Utility Projects
Developers will also be responsible for additional utility projects, which will include: potable water, wastewater, and reclaimed water transmission lines and are located in the following road segments:

- Handcart Road
- Keifer Road
- Highland Boulevard
- Tyndall Road
- New River Boulevard

VOPH Utility Projects Funding and Surcharge Fee Credits
VOPH Utility Surcharge Fees and Credits will work similarly to the Transportation Development Fee Credits, except that utility credits apply only to utility surcharges and not to base utility connection fees.

Supplemental Agreements
This agreement contemplates the negotiation for two additional supplemental agreements: (1) the PCUD Supplemental Agreement for any excess costs for the County Master Utility Projects beyond the DEP Grant amount (see above), and (2) a potential agreement between PDD and the Co-Developers to facilitate review of public roadway construction plans through third-party outsourcing to qualified engineering review consultants (subject to BCC approval).

VOPH Planning and Policy Committee Recommendation
On August 17, 2022, the VOPH Planning and Policy Committee recommended approval of the VOPH Global Funding and Escrow Agreement to the Board of County Commissioners.

This memo was prepared by Gavin Covey, Project Coordinator III.

FISCAL IMPACT/COST/REVENUE STATEMENT:

With the exception of the County Master Utility Projects (which will be addressed by supplemental agreement), all funding of the required roadway and utility projects, and all funding for the Financial Escrow Agent and Engineer Verification Agent, will be provided by the applicable Co-Developer(s) or MPUD Owner(s) in exchange for applicable Transportation Development Fees and Utility Surcharge Fee Credits.

DISTRIBUTION:

Board Records Department to distribute as set forth below.

RE: Global Funding and Escrow Agreement
C15 PDD23-0005

Dear Sir/Madam:

At the Pasco County Board of County Commissioners meeting of October 25, 2022, the above mentioned agenda item was approved. Attached is a copy of the document for your files.

Any exhibits related to this document can be viewed by visiting the Pasco County Website as follows: go to www.pascocountyfl.net, scroll down and click on "Transparency", click on "Agendas & Minutes", select the meeting date from the list, click on "Agenda", click on the agenda item number indicated above, and click on the attachment you wish to view.

If you have any questions, please contact the appropriate department or call (352) 521-4274 or (727) 847-2411.

Sincerely,

Jessica L Popplewell

FUNDING & ESCROW AGREEMENT
FOR ROADWAYS & UTILITIES CAPITAL INFRASTRUCTURE
VILLAGES OF PASADENA HILLS (VOPH)
DESIGNATED VOPH-MPUD PROJECTS

VOPH Master Development Company, LLC
& Galvin Land Services, LLC

THIS FUNDING & ESCROW AGREEMENT (the "**Agreement**") is made and entered into effective as of the Effective Date (as defined herein), by and between **PASCO COUNTY, FLORIDA,** a political subdivision of the State of Florida ("**Pasco County**" or the "**County**"), by and through its Board of County Commissioners, the governing body thereof, and **VOPH Master Development Company, LLC,** a Florida limited liability company ("**VOPH Master**"), whose address is 4065 Crescent Park Drive, Riverview, FL 33578, and **Galvin Land Services, LLC**, a Florida limited liability company ("**Galvin**"), whose address is 121 Snell Isle Blvd., St. Petersburg, FL 33704 (VOPH Master and Galvin also are referred to herein as the "**Co-Developers**" and each may be referred to herein as a "**Developer**" where the context requires), and is joined in by the individual MPUD applicant entities identified herein, their successors and assigns, as third-party beneficiaries only (individually a "**VOPH-MPUD Owner**" or jointly the "**VOPH-MPUD Owners**"), with reference to the following matters:

RECITALS

A. The County previously established the Villages of Pasadena Hills ("**VOPH**") as a special planning area, including the creation of a Dependent Special District (the "**District**") and establishment of a Stewardship District Ordinance, VOPH Financial Plan, VOPH Master Utility Plan, VOPH Master Roadway Plan, and specific Land Development Code ("**LDC**") regulations applicable to VOPH (as previously or hereafter amended, collectively the "**VOPH Enabling Documents").**

B. In order to provide substantial VOPH master infrastructure facilities required for the commencement of development and thereby to secure a material portion of the anticipated VOPH master infrastructure capital improvements contemplated by the VOPH Financial Plan,, the Co-Developers and the County mutually desire to enter into this Agreement to facilitate the implementation of portions of the VOPH Financial Plan, VOPH Master Utility Plan, and VOPH Master Roadway Plan for a designated number of VOPH-MPUD projects anticipated to commence near-term development on a phased basis (as now or hereafter identified pursuant to this Agreement, the "**Designated VOPH-MPUDs**").

C. The County has entered into a State of Florida Department of Environmental Protection (DEP) Standard Grant Agreement, LPA0206, which provides $6,500,000 on a reimbursement basis for the Handcart Road Water and Wastewater Project.

D. Consequently, this Agreement is intended to specify certain infrastructure and other commitments required to support the respective, Designated VOPH-MPUDs, and the process and conditions for implementation of such capital infrastructure improvements by either Co-Developer as the Constructing Entity (defined below) for the applicable VOPH-MPUD Owner(s) or the County, as applicable.

E. With respect to any VOPH-MPUD already owned by a Co-Developer, this Agreement shall be immediately applicable thereto. However, this Agreement shall apply to and govern the ownership and future development of the other Designated VOPH-MPUDs only if and as of the date the designated VOPH-MPUD Owner(s) acquire record title to the applicable VOPH-MPUD land. This Agreement shall not encumber or otherwise cloud the title to any Designated VOPH-MPUD land until such time as the designated VOPH-MPUD Owner, its successor or assign, acquires record title to same and notice is provided by the applicable Developer to the County pursuant to Section 3.a., below.

NOW, THEREFORE, for and in consideration of the mutual promises, covenants and conditions set forth herein, the County and the Developer agree as follows:

AGREEMENT

1. **Recitals & Exhibits**. The above recitals are true and correct, and together with all exhibits hereto, are incorporated by reference herein and made a part of this Agreement.

2. **Intent & Purpose.** It is the intent and purpose of this Agreement to induce the Co-Developers and the applicable VOPH-MPUD Owner(s) to fund, design, permit and construct certain VOPH master roadway and master utility infrastructure projects, in exchange for certain VOPH Transportation Credits and Utility Credits (as defined herein and collectively the "**VOPH Fee Credits**"). Consequently, this Agreement provides for (i) certain procedures that will enhance the development feasibility of VOPH and facilitate future regulatory approvals and permit issuance for the designated master infrastructure work, (ii) specifically identified Developer and VOPH-MPUD Owner commitments for certain master public infrastructure to support VOPH, (iii) the process for funding the costs for the designated public infrastructure improvements and for the verification, issuance and use of the applicable VOPH Fee Credits, and (iv) the earmark, allocation and use of certain State of Florida funding provided to the County for the Handcart Road County Utility Project (as defined herein).

3. **Designated VOPH-MPUDs; Public Infrastructure Permitting.**

   a. **Designated VOPH-MPUDs; Applicability**. The initial VOPH-MPUDs which shall be governed by this Agreement (the "**Designated VOPH-MPUDs**") and their respective, contemplated VOPH-MPUD Owner entities are set forth on **Exhibit A** hereto. The listed VOPH-MPUD Owner(s) are either fee simple record owners or contract vendees having an equitable ownership interest in the respective Designated VOPH-MPUD. As stated in Recital D, above, this Agreement shall not apply to or otherwise bind any Designated VOPH-MPUD unless and until (i) said VOPH-MPUD is approved by the County and (ii) the applicable VOPH-MPUD Owner, or its successor or assign as designated by the applicable Developer, acquires record title to such VOPH-MPUD and provides written notice of such closing date of record to the County pursuant to this Agreement. The applicable Developer and the County Administrator (or Designee) by mutual agreement also shall have the right to identify additional VOPH-MPUDs as a Designated VOPH-MPUD under this Agreement, in which event the County Administrator or the County Administrator's Designee shall add such additional Designated VOPH-MPUDs (with applicable designated master roadway and/or utility infrastructure) by administrative amendment to this Agreement. The applicable Developer for such VOPH-MPUD shall provide notice to the County

Administrator or the County Administrator's Designee, including a copy of the recorded deed, when this Agreement is activated by record ownership for the respective Designated VOPH-MPUDs. Nothing in this Agreement shall obligate the BCC to approve any specific MPUD listed on Exhibit A or subsequently added to this Agreement as set forth above, which MPUD rezoning approval(s) remain subject to normal County process and requirements.

b. **Master Public Infrastructure Approvals and Permits.** Pasco County shall accept and process pursuant to the Land Development Code the applications for all Pasco County approvals, permits, and permit modifications reasonably necessary for the design, permitting and/or construction of any public infrastructure or related matters covered by this Agreement. Without limiting the foregoing, the anticipated construction plan and permit review is expected to include the following matters to the extent they are related to the matters set forth in this Agreement:

i. **VOPH Master Roadway Plan improvements;**

ii. **VOPH Master Utility Plan improvements;**

iii. **Alternative Vehicle (AV) or other Alternative Transportation Network improvements to the extent part of the Master Roadway Plan improvements;**

iv. **Storm Water System plans, permits and construction related to master roadway or master utilities infrastructure;**

v. **Wetland and/or flood plain impact/compensation, and other mitigation plans, permits, and construction related to master roadway or master utilities infrastructure; and**

vi. **Mass Grading and/or Right-of-Way Use permits to implement any of the foregoing items**

c. **Public Infrastructure Plan Review Process**. Subject to mutual approval by the Planning & Development Department (PDD) and the Co-Developer(s), the plans and permit applications submitted for the public roadway infrastructure pursuant to this Agreement, if submitted as stand-alone plans (not combined with internal subdivision plans), may be outsourced to a qualified third-party engineering consultant (the "**Road Plan Review Consultant**"). Such supplemental agreement is subject to mutual agreement between PDD and the Co-Developer(s) and may include the following: (i) the timeline and costs for the initial third-party review by the Road Plan Review Consultant; (ii) the timeline and review fees for final County review and approval after submittal by the Road Plan Review Consultant; and (iii) the potential award of VOPH Planning & Review Administrative Fee credits to the Co-Developer(s) for the Road Plan Review Consultant expenses (and subject to BCC approval, if legally required). Any such Road Plan Review Consultant process shall not apply to any internal VOPH-MPUD subdivision improvement plans or infrastructure plans which are combined with internal subdivision improvement plans, which shall be subject to standard review process by applicable County departments. All public utilities infrastructure plans and permit applications shall be processed exclusively by PCUD as set forth in Section 5.g., below, of this Agreement.

4. **Designated Master Roadway Pipeline Projects; Phasing Plan; Funding Process; Escrow Arrangement; VOPH Transportation Development Fee Credits.**

a. **Initial Designated Master Roadway Plan Pipeline Projects; Additional Projects.** The County and the Co-Developers have agreed on the initial "**Designated Master Roadway Pipeline Projects**" identified on **Exhibit B-1** hereto, which also are graphically depicted on **Exhibit B-2** hereto. The initial Designated Master Roadway Pipeline Projects identified on Exhibits B-1 and B-2 are allocated and linked to the respective Designated VOPH-MPUD which has been obligated or will be obligated to design, permit, and construct the respective Master Roadway Pipeline Improvement(s), pursuant to its VOPH-MPUD County approval process for each such VOPH-MPUD. The list of roadway obligations identified in Exhibit B-1 and B-2 are subject to change as a result of the VOPH-MPUD review and approval process; in the event that any such obligations change, the County Administrator and specified Co-Developer(s) shall approve administrative amendments to Exhibit B-1 and B-2 to conform this Agreement to the approved VOPH-MPUD conditions of approval, and provide copies of the amended Exhibits to the Engineer Verification Agent and Financial Escrow Agent. Either Co-Developer shall have the right to designate, subject to approval by the County Administrator or the County Administrator's Designee, additional Designated Master Roadway Pipeline Projects identified within and linked to additional Designated VOPH-MPUDs owned or controlled by such Co-Developer, in which event such additional Designated VOPH-MPUDs and the respective additional linked Designated Master Roadway Pipeline Projects shall be added to this Agreement by administrative amendment executed by the County Administrator or designee and the specified Co-Developer (with copies provided to the Engineer Verification Agent and Financial Escrow Agent), and joined in by such additional Designated VOPH-MPUD as a third-party beneficiary of this Agreement.

b. **Phasing Plan; Subsequent Revisions.** The County and the Co-Developers have agreed on the "**Initial Phasing Plan for Designated Master Roadway and Developer Utility Pipeline Projects**" set forth on **Exhibit C** hereto. The sequencing for the individual VOPH-MPUD roadway projects may change or overlap, such projects may be designed, permitted or constructed in phases, and concurrent or combined roadway project design, permitting and/or construction may occur in the sole discretion of either Co-Developer; however, the applicable Co-Developer shall meet the "Initial Commencement Date" for each such roadway project phase as set forth on Exhibit C and shall complete each project phase by not later than the completion date set forth for each such roadway project phase on Exhibit C, subject to Force Majeure (as defined in Section 13.v. of this Agreement). In addition, the phasing plan for the individual pipeline projects may be modified by the applicable Co-Developer with the consent of the County Administrator or the County Administrator's Designee, through administrative amendment to the applicable exhibits to this Agreement, provided that (a) the functionality of the VOPH roadway capacity intended to serve the applicable Designated VOPH-MPUD at such time is not adversely impacted by such modifications (as reasonably determined by the County Administrator or his/her Designee), and (b) copies of the amended phasing plan are provided to the Engineer Verification Agent and Financial Escrow Agent. The County acknowledges and agrees that the Co-Developers shall not be required to be the Constructing Entity or otherwise responsible for any roadway segments or other transportation improvements related to

any County roadway project or to any other development project which is not a Designated VOPH-MPUD initially or hereafter identified by a Co-Developer as owned or controlled by such Co-Developer, pursuant to this Agreement. With respect to any Designated Master Roadway Pipeline Project identified by this Agreement or subsequently designated as authorized above, either Co-Developer (or its designee) shall have the right upon thirty (30) days' prior written notice to the Engineer Verification Agent, the Financial Escrow Agent, the County and the other Co-Developer to assume responsibility for funding, design, permitting and construction thereof in the event (i) the Co-Developer or Designated VOPH-MPUD Owner originally assigned such roadway pipeline project fails to pursue same as and when required by this Agreement or (ii) the roadway pipeline project otherwise becomes necessary to serve another Designated VOPH-MPUD Project at an earlier date, due to actual project development sequencing within VOPH. In such case the Co-Developer or Designated VOPH-MPUD Owner which actually provides the funding to the Roadway Escrow Account or otherwise designs, permits, constructs and pays for the roadway pipeline shall receive the Transportation Credits for such roadway pipeline under this Agreement.

c. **Prepayment of VOPH Roadway Pipeline Project Costs; Alternative Funding Options.** The Co-Developers' initial funding mechanism for the Designated Master Roadway Pipeline Projects is intended to be the pre-payment of projected costs for each such Designated Master Roadway Pipeline Project as allocated to each Designated VOPH-MPUD, pursuant to the funding schedule set forth in Section 4.e., below, in exchange for the "Transportation Credits" as defined in Section 4.f. below. Such Co-Developer pre-payment of projected roadway pipeline costs or other Alternative Funding Source (defined below) may occur at any time prior to the funding schedule deadlines set forth in Section 4.e., below, and Exhibit C, in the discretion of the applicable Co-Developer or the applicable VOPH-MPUD Owner. All such prepaid amounts shall be earmarked and deposited by the "Financial Escrow Agent" (defined below) directly into the "VOPH Roadway Escrow Account" as provided in Section 4.d., below, and held, disbursed, and administered as required by this Agreement. Either Co-Developer also may elect in its discretion, in whole or in part, to fund the VOPH Roadway Escrow Account through Community Development District (CDD) funding in accordance with applicable law, capital funding from the Co-Developer and/or the applicable VOPH-MPUD Owner(s), or other private funding sources (jointly and severally the "**Alternative Funding Source**"). The initial funding amounts for the respective Developer Master Roadway Pipeline Projects shall be based upon (i) the project engineer's opinion of probable cost ("OPC") for each respective pipeline project, inclusive of design, permitting, construction, testing/inspection, and other construction contract costs, (ii) a pre-deposit for the aggregate Financial Escrow Agent fees and the aggregate Engineer Verification Agent fees for the first three (3) year period commencing with the first such escrow deposit under this Agreement (a 3-year total of $140,000 for the Financial Escrow Agent fees and a 3-year total of $337,842 for the Engineer Verification Agent fees), and (iii) any other known or anticipated costs (such as any applicable right-of-way acquisition costs), but subject to subsequent reconciliation and adjustment when the final, selected contract bid(s) are received for each applicable pipeline project. The Developer shall provide any additional funding to the Financial Escrow Agent that is required to pay the actual costs incurred for each applicable Developer Master Roadway Pipeline Project, if the initial deposit of funds for such project are not sufficient. Any funds deposited into the VOPH Roadway Escrow Account by a Co-Developer or any Designated VOPH-MPUD,

whether from pre-paid roadway pipeline costs or any Alternative Funding Source, shall be governed by this Agreement. The County shall not be required to contribute to the VOPH Roadway Escrow Account.

d. **VOPH Roadway Escrow Account.** The Financial Escrow Agent shall establish a segregated escrow account for the private funding provided by the Co-Developers and/or the Designated VOPH-MPUD Owner(s) pursuant to Section 4.c., above, for the exclusive purpose of funding the Designated VOPH Master Roadway Pipeline Projects identified in this Agreement from time to time (the "**VOPH Roadway Escrow Account**"). The funds deposited into the VOPH Roadway Escrow Account shall not be commingled with any other funds nor any funds related to any other developer's projects or any other VOPH developer(s) or VOPH-MPUD ownership entities not initially or hereafter identified and included by the Co-Developers under this Agreement. However, the County reserves the right to make other, independent business arrangements with other developers or owners within VOPH for other roadway improvements required for unrelated VOPH-MPUDs not owned, controlled by, or affiliated with the Co-Developers, in the sole discretion of the County. However, any such unrelated projects shall be governed by separate agreement(s) between the County and such unrelated developer(s) and the VOPH Roadway Escrow Account required herein shall be utilized and administered by the Financial Escrow Agent solely for the Co-Developer's Designated VOPH Master Roadway Pipeline Projects as set forth in this Agreement.

e. **VOPH Roadway Escrow Account Funding Schedule**. The Co-Developers anticipate closing on the respective VOPH-MPUD projects over time; therefore, the required funding schedule for the respective Designated Master Roadway Pipeline Project(s) which are linked to each separate Designated VOPH-MPUD, shall be based upon the schedule set forth in **Exhibit C** as to each Designated VOPH-MPUD. By way of clarification, in the event either Co-Developer or its designated VOPH-MPUD Owner fails to fund the VOPH Escrow Account when required pursuant to Exhibit C, then: (i) no Transportation Credits (defined below) shall be awarded to such Co-Developer for such VOPH-MPUD unless and until such funding occurs, and (ii) the applicable Master Roadway Pipeline Project(s) which are linked to such VOPH-MPUD pursuant to each respective VOPH-MPUD approval, shall remain an obligation of such VOPH-MPUD Owner in order for development to proceed for such VOPH-MPUD, unless such project(s) first is/are constructed by others pursuant to any separate VOPH-MPUD approvals by the County. If the applicable Co-Developer or its Designated VOPH-MPUD Owner does not pre-fund the VOPH Roadway Escrow Account for a designated roadway pipeline project as contemplated herein, then no Transportation Credits for such roadway pipeline until such construction is completed and costs are verified pursuant to this Agreement. All final Transportation Fee Credits shall be verified and reported by the Engineering Verification Agent and the Financial Escrow Agent pursuant to the terms of this Agreement and shall be adjusted as required when confirmed and ratified by the County pursuant to Section 6 below.

f. **VOPH Transportation Development Fee Credits; Use and Assignment.** As a material inducement for the Co-Developers and the Designated VOPH-MPUD Owners to enter into this Agreement and to fund the VOPH Roadway Escrow Account, the County agrees that the applicable Co-Developer (or its designee in its sole discretion) shall receive VOPH Transportation Development Fee Credits (the "**Transportation Credits**") for a portion (as specified below) of the initial deposits with the Financial

Escrow Agent, which Transportation Credits shall be issued by the County within forty-five (45) days of the date that the Financial Escrow agent confirms to the County that funds have been deposited into the VOPH Roadway Escrow Account, so that the Transportation Credits shall thereafter be immediately usable and assignable by the Co-Developer and its designee(s). The Co-Developers and their respective designee(s) shall be allowed to use and/or assign the Transportation Credits (i) against applicable VOPH Transportation Development Fees (both base mobility fees and surcharges, if any) for any Designated VOPH-MPUD, (ii) by and through registration on the VOPH Fee Credit Registry pursuant to the County's adopted policies applicable thereto, and/or (iii) for private sale and assignment to any other VOPH owners, developers, builders, CDDs, or other persons or entities within VOPH not included within this Agreement, in the sole discretion of the Co-Developer or its designee(s). Pursuant to the VOPH Enabling Documents, however, the Transportation Credits shall not be used against the VOPH External Improvements Fee (which includes the SIS and Transit portions) or the Administrative Fee portion of the applicable VOPH base mobility fees, which must be paid to the County in cash by the applicable VOPH-MPUD developer(s) or builder(s). With respect to the issuance of the Transportation Credits to the applicable co-Developer (or its designee) as provided herein, upon the deposit of the Co-Developer's or VOPH-MPUD Owner(s)' funds into the VOPH Roadway Escrow Account, Transportation Credits shall be issued by the County to the Co-Developer or its designee for ninety percent (90%) of such amount tendered, as the "Interim Credit Amount." Once the Financial Escrow Agent confirms to the County the amount and owner of the Interim Credit Amount, the County shall create a Transportation Credit account for such owner for the Interim Credit Amount. Thereafter, Transportation Credits up to the Interim Credit Amount shall be usable or assignable by the Co-Developer or its designee. At any time after funding for a specific project in the VOPH Roadway Escrow Account, the Co-Developer shall submit documentation to revise the amount so required for the applicable project, based upon receipt of either an updated OPC, revised bid amount, or interim contract change. In the event of such interim adjustment, the amount(s) required to be funded into the VOPH Roadway Escrow Account shall be revised accordingly, with any shortfall to be paid by the Co-Developer into the VOPH Roadway Escrow Account within fifteen (15) days thereafter (with 90% Interim Credits also issued by the County for such additional deposit amount within forty-five (45) days of the County receiving written confirmation of the additional deposit from the Financial Escrow Agent). Upon completion of the applicable project and final reconciliation of the VOPH Roadway Escrow Account, which reconciliation shall be made by the Engineer Verification Agent and Financial Escrow Agent within forty-five (45) days after the Final Disbursement (as defined in Section 11.f.), the Co-Developer's (or its designee's) Transportation Credit account shall be adjusted by the County to equal the final, total amount expended from the VOPH Roadway Escrow Account for the applicable project (the "Final Credit Amount"). Any unused cash amounts tendered by the Co-Developer or its designee into the VOPH Roadway Escrow Account for the applicable project then shall be disbursed and returned to the applicable Co-Developer or its designee, within fifteen (15) days after the final VOPH Roadway Escrow Account reconciliation is made for said project.

g. VOPH Financial Plan Update; Intermediate Roadway Credits. In order to support the award of Transportation Credits for the number of off-site intermediate roadways included herein and also to include on-site intermediate roadways as creditable

improvements, the County has requested and the Co-Developers have agreed to provide a proposed VOPH Financial Plan update to the County which will include an analysis of the roadway budget impact to provide credits for all intermediate roadways (in addition to primary roadways) within VOPH. In connection with such Financial Plan update, the availability of a portion of the future tax increment funding within VOPH will be taken into account. Upon completion and delivery of the required budget analysis the County agrees to process such VOPH Financial Plan update concurrently or soon after the date of this Agreement and in accordance with the VOPH Enabling Documents, for consideration by the Board of County Commissioners.

5. **Designated Master Utility Pipeline Projects; Phasing Plan; Funding Process; Escrow Arrangement; VOPH Utility Surcharge Fee Credits; Internal MPUD Requirements.**

a. **County Master Utility Pipeline Projects.** The County and the Co-Developers have agreed on the following County master utility projects for VOPH which shall be implemented through either of the Co-Developers or their designee as the "**Constructing Entity**" (also referred to as the "**Developer**" below) for the County (collectively the "**County Utility Projects**"):

(i) Handcart Road Master Potable Water Transmission Line Extension & Appurtenances. As the County's designated Constructing Entity pursuant to Section 8, below, the Developer shall design, permit and construct, pursuant to plans approved by the Pasco County Utilities Department (PCUD), the "**Handcart Main Potable Water Transmission Line**" as conceptually depicted on **Exhibit D-1**. At a minimum, such plans shall include (x) the initial 16-inch main transmission line (or larger if specified by the County), (y) all required booster pumps and other appurtenances, and (z) all storage facilities required to extend the existing main potable water transmission line from its existing terminus in Handcart Road northward to Kiefer Road, with sufficient potable water and fire suppression capacity and pressure to serve not less than 6,000 equivalent residential units ("ERU's") in such intended initial VOPH service area (such approved plans collectively are referred to herein as the "**Main Potable Water System Extension**"). The County agrees to fund the design, permitting and construction costs for the Main Potable Water System Extension pursuant and subject to Section 5.b., below. The County agrees to be the permit applicant for the Main Potable Water System Extension (but not for any private developer project improvements) and shall provide the system-wide capacity required from time-to-time to serve the Designated VOPH-MPUDs pursuant to the VOPH Enabling Documents. Applicable VOPH potable water commitment/surcharge fees and connection/service fees shall apply to all parcel developers and users within VOPH, as specified in the VOPH Enabling Documents as adopted by the County from time-to-time. No VOPH Utility Surcharge Fee Credits (defined below) shall be awarded to Developer for any portion of the Handcart Main Potable Water System Extension that is funded by the County.

(ii) Handcart Road Main Sanitary Sewer Collection System Extension. As the County's designated Constructing Entity pursuant to Section 8, below, the Developer shall design, permit and construct, pursuant to plans approved by the PCUD, the "**Handcart Main Sanitary Sewer Transmission Line**" as conceptually depicted on **Exhibit D-2.** At a minimum such plans shall include the primary 12-inch sanitary sewer collection/transmission line (or larger if specified by the County) and any related pumps or other appurtenances required to extend the existing main sanitary sewer

transmission line from its existing terminus in Handcart Road north to Kiefer Road, with sufficient capacity to serve not less than 6,000 ERU's in such intended initial VOPH service area (such approved plans collectively are referred to herein as the "**Main Sanitary Sewer Collection System Extension**"). The County agrees to fund the design, permitting and construction costs for the Handcart Main Sanitary Sewer Transmission Line pursuant and subject to Section 5.b., below. The County agrees to be the permit applicant for the public project improvements (but not any private developer improvements)and shall provide the system-wide treatment capacity required from time-to-time to serve the Designated VOPH-MPUDs pursuant to the VOPH Enabling Documents. Applicable VOPH sewer commitment/surcharge fees and connection/service fees shall apply to all parcel developers and users within VOPH as specified in the VOPH Enabling Documents as adopted by the County from time-to-time. No VOPH Utility Surcharge Fee Credits (defined below) shall be awarded to Developer for any portion of the Handcart Main Sanitary Sewer Collection System Extension that is funded by the County.

(iii) **Schedule for County Utility Projects**. The Developer and PCUD agree that the schedule for design, permitting, award of bid(s), and construction of each of the County Utility Projects identified above shall comply with the process and deadlines (to be set by the County) required for the County to meet the terms and conditions of that certain Standard Grant Agreement (LPA 0206) between the County and the State of Florida Department of Environmental Protection (DEP) for "Pasco County Handcart Road Water and Wastewater" (the "DEP Grant Agreement").

b. County Utility Project(s) Funding Agreement. The DEP Grant Agreement provides for County reimbursement from the State of Florida for the two (2) County Utility Projects identified in Sections 5.a (i) and 5.a.(ii) above, up to the amount of $6,500,000.00 the ("**VOPH State Funding**"). To comply with the VOPH State Funding reimbursement requirements, the County and the Developer(s) agree to negotiate in good faith to agree upon the following matters within sixty (60) days after the Effective Date of this Agreement:

i. a master utility plan ("MUP") for the County Utility Projects, including the sizing and scope for the main transmission lines, booster pumps, storage facilities, and other required appurtenances;
ii. a preliminary budget for the County Utility Projects based on the MUP and the VOPH Enabling Documents;
iii. a County Utility Projects Reimbursement Agreement (which shall be deemed a supplement to this Agreement) which includes the process and requirements pursuant to the DEP Grant Agreement, which currently expires on March 31, 2024, for the County to receive the VOPH State Funding reimbursement amount; and
iv. the funding source(s) and process for the County Utility Projects (but excluding any "Developer Utility Projects" (defined below) for any required transmission line extensions outside the County Utility Projects), including any additional amounts required for the County Utility Projects beyond the VOPH State Funding Amount. The funding and disbursements for the County Utility Projects shall be managed entirely by the County, and the Financial Escrow Agent and Engineer Verification Agent shall not have any responsibility for managing the County Utility Projects or for administering or requesting reimbursements under the DEP Grant Agreement.

c. **Initial Developer Master Utility Projects; Phasing Plan; Additional Projects.** Apart from the County Utility Projects identified in Section 5.a., above, the County and the Developer have agreed that the applicable Co-Developer or its Designated VOPH-MPUD(s) shall design, permit and construct the additional VOPH master utility projects (the "**Developer Utility Projects**") to the extent necessary (after the County Utility Projects) to complete the master transmission lines identified on **Exhibit E-1** (as to potable water transmission lines), **Exhibit E-2** (as to wastewater transmission lines), and **Exhibit E-3** (as to reclaim transmission lines), attached hereto. The Developer Utility Projects are linked and allocated to the respective VOPH-MPUDs, as graphically depicted on Exhibits E-1 through E-3, and more specifically described on **Exhibit E-4** hereto. The "**Initial Phasing Plan for Designated Master Roadway & Developer Utility Pipeline Projects**" as set forth in **Exhibit C** shall apply to the Developer Utility Projects on the same schedule and in the same manner as to the Designated Master Roadway Pipeline Projects applicable to each individual VOPH-MPUD. Not later than the commencement of site development for each respective VOPH-MPUD, the VOPH-MPUD Owner, its successor or assign, shall initially fund the VOPH Utility Escrow Account (defined below) for each of the Developer Utility Projects linked and allocated to such VOPH-MPUD, based upon the amount of the project engineer's OPC for each respective Developer Utility Project linked to such VOPH-MPUD and as set forth in Section 7(d) below. When bids are awarded for contracts, the Developer shall fund any additional amount required to supplement the VOPH Utility Escrow Account deposit amount required to fully fund such Developer Utility Project (or the Financial Escrow Agent shall refund any excess deposit amount to the Developer). Subject to approval by PCUD, the County Administrator and the applicable Co-Developer by mutual agreement may by administrative amendment to this Agreement (with copies to the Engineer Verification Agent and Financial Escrow Agent) add additional Developer Utility Projects subject to the same terms and conditions of this Agreement. VOPH Master and Galvin hereby agree that VOPH Master will be the initial responsible party for the design, permitting and construction of certain aspects of the Developer Utility Projects and the County Utility Projects. With respect to any Developer Utility Projects or the County Utility Projects, either Co-Developer (or its designee) shall have the right upon sixty (60) days' prior written notice to the Engineer Verification Agent, the Financial Escrow Agent, the County and the other Co-Developer to assume responsibility for funding, design, permitting and construction thereof in the event (i) the Co-Developer or Designated VOPH-MPUD Owner originally assigned such utility pipeline project fails to pursue same as and when required by this Agreement or (ii) the utility pipeline project otherwise becomes necessary to serve another Designated VOPH-MPUD Project at an earlier date, due to actual project development sequencing within VOPH. In such case, the Co-Developer or Designated VOPH-MPUD owner (or its applicable CDD) which actually provides the funding to the VOPH Utility Escrow Account (defined below) or otherwise designs, permits, constructs and pays for the utility pipeline shall receive the Utility Credits (defined below) for such pipeline under this Agreement (which credit amounts will be pro-rated in accordance with such funding/cost amounts actually paid by the respective parties).

d. **VOPH Utility Escrow Account.** The Financial Escrow Agent shall establish a segregated escrow sub-account for the private funding provided by the applicable Co-Developer and/or the Designated VOPH-MPUDs for the Developer Utility Projects,

for the exclusive purpose of funding the Developer Utility Projects within VOPH (collectively the sub-accounts are the "**VOPH Utility Escrow Account**"). In connection with the Developer Utility Projects, the VOPH Utility Escrow Account funding by the Developer shall include the applicable amounts required for the Financial Escrow Agent fees and Engineer Verification Agent fees, as part of the utility project costs. The funds deposited into the VOPH Utility Escrow Account shall not be commingled with any other funds nor any funds related to any other VOPH development projects or VOPH developers or VOPH-MPUD ownership entities not included under this Agreement. The County reserves the right to make other business arrangements with other developers or owners within VOPH for other master utility improvements required for unrelated VOPH-MPUDs not owned or controlled by either Co-Developer, in the sole discretion of the County; however, the VOPH Utility Escrow Account required by this Agreement shall be utilized and administered solely by the Financial Escrow Agent for the Developer Utility Projects now or hereafter identified under this Agreement.

e. **Developer Utility Projects Funding; VOPH Utility Surcharge Fee Credits; Use and Assignment.** As a material inducement for the Co-Developers and the Designated VOPH-MPUD Owners to enter into this Agreement and to fund the VOPH Utility Escrow Account as set forth in Section 5.d. above, the County agrees that the applicable Co-Developer (or its designee in its sole discretion) shall receive immediate VOPH Utility Surcharge Fee Credits (the "**Utility Credits**") within forty-five (45) days of the date that the Financial Escrow Agent confirms that private (non-County) funds are deposited into the VOPH Utility Escrow Account, so that the Utility Credits shall thereafter be immediately usable and assignable by the Co-Developer and its designee(s). The Developer or the applicable VOPH-MPUDs may fund the Developer Utility Projects as needed or desired for the advancement of the applicable VOPH-MPUD projects. The Co-Developer and/or the Designated VOPH-MPUDs may utilize (i) pre-paid VOPH Utility Surcharge Fees (but not base utility commitment/connection fees), (ii) CDD funding (pursuant and subject to applicable law), and/or (iii) other private capital funding for the funding required for the Developer Utility Projects now or hereafter identified under this Agreement. Pursuant to the VOPH Enabling Documents, the Utility Credits shall be used only against the VOPH Utility Surcharge Fees applicable within VOPH from time to time, and not against any base utility commitment/connection fees, which base utility commitment/connection fees must be paid to the County in cash by the applicable VOPH-MPUD developer(s) or builder(s). The Co-Developers and/or the Designated VOPH-MPUD Owner(s) shall have the right (i) to sell/assign the Utility Credits to any CDD, developer, builder, owner or other third-party entity within VOPH, and/or (ii) to use the Utility Credits against the applicable VOPH Utility Surcharge Fees (but not base commitment/connection impact fees) payable for any VOPH project. Pursuant to current VOPH Enabling Documents, the Utility Credits are subject to registration on the VOPH Fee Credit Registry and shall not be administered directly through PCUD. With respect to the issuance of the Utility Credits to the applicable co-Developer (or its designee) as provided herein, upon the deposit of the Co-Developer's or VOPH-MPUD Owner(s)' funds into the VOPH Utility Escrow Account, Utility Credits shall be issued by the County to the Co-Developer or its designee for ninety percent (90%) of such amount tendered, as the "Interim Credit Amount." Once the Financial Escrow Agent confirms to the County the amount and owner of the Interim Credit Amount, the County shall create a Utility Credit account for such owner for the Interim Credit Amount. Thereafter, Utility Credits up to the Interim Credit Amount shall be usable or assignable by the Co-

Developer or its designee. At any time after funding for a specific project in the VOPH Utility Escrow Account, the Co-Developer shall submit documentation to revise the amount so required for the applicable project, based upon receipt of either an updated OPC, revised bid amount, or interim contract change. In the event of such interim adjustment, the amount(s) required to be funded into the VOPH Utility Escrow Account shall be revised accordingly, with any shortfall to be paid by the Co-Developer into the VOPH Utility Escrow Account within fifteen (15) days thereafter (with 90% Interim Credits also issued by the County for such additional deposit amount within forty-five (45) days of the County receiving written confirmation of the additional deposit from the Financial Escrow Agent). Upon completion of the applicable project and final reconciliation of the VOPH Utility Escrow Account, which reconciliation shall be made by the Engineer Verification Agent and Financial Escrow Agent within forty-five (45) days after the Final Disbursement (as defined in Section 11.f.), the Co-Developer's (or its designee's) Utility Credit account shall be adjusted by the County to equal the final, total amount expended from the VOPH Utility Escrow Account for the applicable project (the "Final Credit Amount"). Any unused cash amounts tendered by the Co-Developer or its designee into the VOPH Utility Escrow Account for the applicable project then shall be disbursed and returned to the applicable
Co-Developer or its designee, within fifteen (15) days after the final VOPH Utility Escrow Account reconciliation is made for said project.

f. Internal Project Utilities System; Master Utilities Service Agreement. Other than the specific County Projects and Developer Projects now or hereafter identified pursuant to this Section 5 of this Agreement, all internal utilities lines and appurtenances required to serve any applicable VOPH-MPUD shall be the sole responsibility of the applicable VOPH-MPUD owner(s) or developer(s) for each respective parcel within VOPH. The applicable owner/developer shall enter into a master Utilities Service Agreement ("**USA**") with PCUD for all such internal utilities distribution or collection system.

g. PCUD Facilitation. The County agrees that the County Utilities Projects and the Developer Utilities Projects are critical infrastructure which presently impede any meaningful development within VOPH. Consequently, to facilitate the implementation of the County's longstanding VOPH Special Area Plan, PCUD shall expedite to the maximum extent practical, all County utility plan and permit application reviews and shall provide written comments not later than thirty (30) days after submittal of each plan set or application and shall expeditiously issue County permits for such work. To the extent applications to other review agencies are required, PCUD agrees to be the permit applicant for the County Utility Projects and to assist the applicable Co-Developer with procurement of all such required third-party permits.

6. <u>Financial Escrow Agent; Engineer Verification Agent; Respective Duties, Terms and Conditions; County Confirmation and Ratification of Credits.</u> As used in this Section 6, the term "Developer" shall mean the applicable Co-Developer or their respective VOPH-MPUD Owner(s), CDD's or other designees who deposit funding into escrow for roadway or utilities infrastructure projects under this Agreement:

a. **Designation of Agents; Financial Account Administration and Engineering Credit Verification.** The County shall designate the following agents (each an "**Agent**" and collectively the "**Agents**"):

i. The law firm of Phelps Dunbar, LLP (the "**Financial Escrow Agent**") to receive, hold, administer and disburse all monetary funds for the VOPH Roadway Escrow Account and the VOPH Utility Escrow Account, pursuant to the terms and conditions of this Agreement; and

ii. W.E. Oliver, P.E., LLC, through its sub-consultant Vanasse, Hangen, Brustlin, Inc., to review, verify, and confirm the validity of the expenditures for the creditable roadway and utility infrastructure projects as specified by this Agreement and as more specifically set forth in the Scope of Services attached as **Exhibit F** hereto and incorporated herein by reference, and to comply with the procedures set forth in this Agreement for verification and issuance of the Transportation Credits and/or Utility Credits, as applicable under this Agreement (the "**Engineer Verification Agent" or the "EVA").**

iii. The Agents upon their respective designation under this Agreement, shall execute a separate joinder and consent to this Agreement accepting the terms and conditions of this Agreement which are specifically applicable to each respective Agent and agreeing to perform faithfully in accordance therewith. The Developer and the County shall administer the VOPH Roadway Escrow Account and the VOPH Utility Escrow Account through the Financial Escrow Agent pursuant to the terms and conditions of this Agreement, and the process for verification of the costs and issuance of the Transportation Credits and the Utility Credits through the Engineer Verification Agent pursuant to the terms and conditions of this Agreement. Engineer Verification Agent shall develop the required standard approval forms for issuance and verification of credits, and assignment and use of same, for approval by the Developer and the County.

b. **Respective Duties of Agents**. The parties agree that the Financial Escrow Agent shall have a fiduciary duty to both the County and the Developer, and the Engineer Verification Agent shall have the standard professional duty of his/her industry to both the County and the Developer, in the performance of their respective duties under this Agreement. The Agents' duties are independent of each other and neither Agent shall be responsible for the performance of any duties which are assigned to the other Agent under this Agreement.

c. **Allocation of Duties of Agents**. The Agents shall have the following duties and responsibilities, subject to the terms and conditions of this Agreement:

(i) The Financial Escrow Agent shall receive and hold in escrow all of the cash deposits made in connection with this Agreement;

(ii) The Financial Escrow Agent shall notify the County, the Developer, and the Engineer Verification Agent upon receipt of any Developer deposit(s) into the VOPH Roadway Escrow Account or VOPH Utility Escrow Account, as applicable, and the resulting Interim Credit Amounts (as set forth above). Because such deposits will be based upon OPC's and other cost estimates, such Interim Credit Amounts shall be subject to true-up and final verification by the Engineer Verification Agent and to ultimate ratification and confirmation by the

County as final credits as set forth above.

(iii) The Engineer Verification Agent shall review and approve on behalf of the County all submittals made by the Developer, its designee(s), or any contractor, consultant or other third-party related to all contract or other third-party disbursement requests under this Agreement, and shall confirm that all disbursement requests (a) are for a project identified on Exhibit B, D or E, (b) comply with the deadlines in Exhibit C, (c) are supported by the documentation required by Section 11.f., (d) are consistent with the County and/or FDOT approved design pursuant to Section 9, and (d) comply with the bidding requirements and/or funding limitations in Sections 10.c. and 11.f. Upon completion of such confirmation, the Engineer Verification Agent shall provide confirmation and authorization for all such disbursements to the Financial Escrow Agent;

(iv) The Financial Escrow Agent shall separately account for all funds deposited into the VOPH Roadway Escrow Account and the VOPH Utility Escrow Account by the Developer or its designee(s), as applicable, and shall provide not less than a quarterly accounting for all receipts into and disbursements from the Escrow Account(s), organized separately for each public infrastructure project pursuant to this Agreement; in this regard, the applicable County department(s) shall reconcile its credit accounts with the quarterly reports of the Financial Escrow Agent;

(v) The Financial Escrow Agent shall have the right to rely upon the written request (which may be made via email) of the Developer and the written authorization of the Engineer Verification Agent to make all disbursements from the Escrow Account pursuant to this Agreement, subject to prior written notification by the Financial Escrow Agent to the County; the applicable County department shall provide any written objection to such disbursement within ten (10) business days, or the disbursement shall be deemed approved;

(vi) The Engineer Verification Agent shall review and recommend approval of the Final Credit Amounts for all VOPH Transportation Credits and VOPH Utility Credits required to be issued pursuant to this Agreement, and shall transmit such verified fee credit information to the Developer, the Financial Escrow Agent, and to other County departments impacted by the award of said VOPH Fee Credits, as applicable. Such recommendation shall not be final until confirmed and ratified by the applicable County department (as to Transportation Credits or Utility Credits, as applicable). In this regard, once approved by the Engineer Verification Agent each VOPH-MPUD Project's creditable costs packets shall be provided by the Engineer Verification Agent to the applicable County department(s) and the Developer prior to closing-out the project and determining the Final Credit Amounts for all VOPH Transportation Credits and VOPH Utility Credits, as applicable, and, upon approval by the applicable County department(s), the applicable County department(s) shall reconcile their credit account records with those of the Engineer Verification Agent. Upon such County confirmation and ratification, the Engineer Verification Agent shall implement any required true-up for the final credits versus the interim credits (which were based on deposit amounts, only), and shall report such adjustments and final credit amounts back to the applicable Developer, the County, and the VOPH Fee Credit Registry manager (if requested by such Developer).

(vii) Each Agent shall interact and coordinate with the Developer, the County's transportation and engineering departments, office of management and budget, real estate department, PCUD, and other departments and agencies as applicable and necessary to implement the terms and conditions of this Agreement, and to ensure compliance herewith;

(viii) The Financial Escrow Agent shall utilize commercially reasonable efforts to make the disbursements when and as required by this Agreement, absent notice of objection thereto by the County or the Developer, within ten (10) business days after written notice of such proposed disbursement;

(ix) Upon the completion of each separate public infrastructure project under this Agreement, the Financial Escrow Agent shall provide the final Escrow Account reconciliation and accounting, and shall disburse any amounts not expended for such project back to the Developer, as applicable, and after County confirmation and ratification of final credits, the Engineer Verification Agent shall provide the Final Credit Amount for such project as required under this Agreement;

(x) Upon the completion of all public infrastructure projects under this Agreement, or the mutual termination of this Agreement by the County and the Developer, the Financial Escrow Agent shall provide the final accounting and reconciliation required to make the final disbursements to the applicable parties and to close out the Escrow Account(s); and

(xi) The applicable Agent shall take such other actions as may be required or contemplated for implementation by the applicable Agent under this Agreement.

d. **Agent(s) Compensation**. The compensation for the Financial Escrow Agent and the Engineer Verification Agent shall be as follows: (a) the Financial Escrow Agent shall be paid $40,000 at the time of the initial deposit with the Financial Escrow Agent, then $33,333 per year (to be paid on the yearly anniversary date of the initial deposit) for the duration of the Agreement, including for any one (1) year renewal terms (if necessary); (b) the Engineer Verification Agent shall be paid $32,795 at the time of the initial deposit with the Financial Escrow Agent, then $30,505 per quarter (to be paid on the quarterly anniversary date of the initial deposit with the Financial Escrow Agent) for the first three years, $35,080 per quarter for the first additional year (if necessary), and $37,185 per quarter for the second additional year (if necessary). Such compensation shall be accepted by each Agent through its separate Joinder and Consent to this Agreement. Such Joinder and consent also shall be limited to the specific provisions of this Agreement which are applicable to each Agent. Provided that the Developer has made the deposits required by this Agreement, the Financial Escrow Agent shall be responsible for making the required payments to the Engineer Verification Agent, as set forth above.

e. **Escrow Account(s); Reports and Information Access.** The Financial Escrow Agent shall maintain one (1) or more interest bearing accounts into which all funds held in escrow shall be deposited, which interest bearing account(s) may

be held at any of the following financial institutions: (i) Wells Fargo, N.A.; (ii) Bank of America, N.A.; (iii) JP Morgan Chase & Co.; (iv) Truist Bank; (v) Capital One, N.A.; or (vi) any other institution that may be approved from time to time by the written consent of the County and the Developer. The Financial Escrow Agent shall provide the County and the Developer a quarterly report detailing the funds and documents then held in escrow by Escrow Agent and shall allow timely inspection and copying, within three (3) business days following receipt of a written request by either party, of all records and other documents maintained by the Financial Escrow Agent pursuant to this Agreement.

f. **Audit of Financial Escrow Agent and Escrowed Funds**. The County or the Developer shall have the right, but not the obligation, to request an audit of the Financial Escrow Agent's practices and procedures used in carrying out its responsibilities under this Escrow Agreement and/or to request an audit of the funds and documents held in escrow and disbursements and distributions made by the Financial Escrow Agent, in order to verify compliance with the terms and conditions of this Agreement. The party requesting the audit shall bear the cost of the audit unless such audit reveals a breach of the Financial Escrow Agent's obligations under this Agreement, in which event the Financial Escrow Agent shall pay the cost of such audit and shall cure, at its sole cost and expense, such breach or violation as noted therein. The report prepared by the auditor at the conclusion of any audit shall be made available without cost to the other party to this Agreement.

g. **Initial Term; Extension of Term.** The initial term of each Agent's service under this Agreement shall be for a period of three (3) years from the date of the initial deposit with the Financial Escrow Agent. Until this Agreement is terminated, such initial term shall automatically be extended for up to two additional one (1) year terms unless either the County or the Developer object, in which case a replacement Agent shall be designated by mutual agreement of the County and the Developer. Prior to each additional one (1) year extension, the Developer shall deposit additional funds with the Financial Escrow Agent to cover the Financial Escrow Agent and Engineer Verification Agent fees for such year, as set forth above.

h. **Termination or Resignation of Agent; Selection of Successor Agent**. Either Agent's service shall terminate and expire and such Agent shall be discharged and relieved of all further responsibilities, duties and obligations under and pursuant to this Agreement: (a) at the end of any term (as set forth above) of the Agent's service; (b) sixty days (60) after notice of resignation by the Agent; (c) termination of this Agreement; (d) for breach of the Agent's duties under this Agreement; or (e) for reasons as may be set forth in and pursuant to an order of a court of competent jurisdiction. Upon the resignation or removal of either Agent, the County shall designate a successor Agent, subject to approval of the Developer which shall not be unreasonably withheld.

i. **Nature of Agents' Duties**. The duties and obligations of each respective Agent pursuant to this Agreement shall be and hereby are limited to those duties and obligations of such Agent expressly set forth in this Agreement. No duties or obligations on the part of either Agent under and pursuant to this Agreement

shall be implied from the terms of this Agreement or otherwise. Each Agent assumes no duties or obligations under this Agreement except only those stated in this Agreement. The Financial Escrow Agent shall not be authorized to exercise any discretion in the release of documents or funds held in escrow. The Financial Escrow Agent shall have no responsibilities, duties or obligations with respect to the documents or funds held in escrow other than as expressly stated in this Escrow Agreement. Neither Agent shall be responsible or liable for any mistakes of fact or for any acts or omissions of any kind unless the same constitute gross negligence or willful misconduct.

j. **Reliance of Agents.** In the performance of their duties and obligations as an Agent under and pursuant to this Agreement, each Agent (a) may act in reliance upon any written notice, direction, document or instrument which the Agent believes in good faith, to be genuine, (b) may assume the validity and accuracy of any statement or assertion of fact and direction contained in any such written notice, direction, document or instrument, (c) may assume the genuineness of any signature presented to the Agent and the identity, right and authority of any person executing any such written notice, direction document or instrument and (d) may assume that any person purporting to sign such written notice, direction, document or instrument under or in connection with this Agreement has been duly authorized to do so.

k. **Institution and Defense of Legal Proceedings by Financial Escrow Agent or Engineer Verification Agent.** Neither Agent shall have any duty or obligation to institute legal proceedings of any kind or nature under or pursuant to this Agreement. In the event any litigation should arise between the parties to this Agreement concerning the escrowed funds or performance of any duties or obligations, then, subject to applicable statutory limitations and/or sovereign immunity limitations, Developer and County hereto do jointly and severally agree to hold Financial Escrow Agent harmless from, and indemnify and defend Financial Escrow Agent for, the payment of any cost or other expenses that may be involved in said litigation (including reasonable legal fees and expenses of attorneys chosen by Financial Escrow Agent, which may include Financial Escrow Agent's own costs using its usual billing rates for attorneys employed by Financial Escrow Agent), and from and for any and all loss, damage, tax, liability and expense that may be incurred by Financial Escrow Agent arising out of or in connection with its acceptance or appointment as Financial Escrow Agent, other than liability arising from the gross negligence, willful misconduct or bad faith of the Financial Escrow Agent. In the event of a dispute, Financial Escrow Agent's only obligation shall be to retain the escrowed funds until a final determination has been issued or to pay the escrowed funds into a court of competent jurisdiction.

l. **Interpleader of Documents and Funds in Escrow.** In the event that, in the good faith judgment of the Financial Escrow Agent, there shall exist some doubt on the part of the Agent as to whom, how, or under what circumstances the documents or funds being held in escrow are to be released or delivered by the Financial Escrow Agent pursuant to this Agreement, the Financial Escrow Agent shall so notify all parties in writing and, if, thereafter, the parties are unable to resolve such doubt and mutually agree and direct the Agent in writing as to whom, how, or under what circumstances the Financial Escrow Agent shall be

authorized to release or deliver the same, the Agent shall be entitled, but not obligated, to deposit the documents or funds about which the Agent is in doubt into the registry of the Court and to interplead all parties to this Agreement (other than Financial Escrow Agent) with respect thereto without any further responsibility or liability on the part of the Agent. All costs, expenses, including reasonable attorneys' fees and other charges, if any, suffered, incurred, or paid by the Financial Escrow Agent for, on account of or in connection with such interpleader action shall be borne equally by the parties and may be paid out of the escrowed funds without the consent of any parties. Should Financial Escrow Agent elect not to deposit the documents or funds into the registry of the Court, as aforesaid, the Financial Escrow Agent shall not be obligated or entitled to release or deliver the documents or funds then held by the Agent unless and until (a) both parties shall have jointly directed the Agent in writing to release or deliver the documents or funds at the time and in the manner designated in such joint written direction or (b) a final order of a court of competent jurisdiction, from which no appeal has been taken and with respect to which the appeal time has expired, or, if an appeal has been taken, has become final directing the Financial Escrow Agent to take the action specified in such final order with respect to the documents or funds about which the Agent was in doubt.

m. **Liability of Financial Escrow Agent**. Financial Escrow Agent shall not incur any liability in acting upon any signature, notice, demand, request, waiver, consent, receipt, or other writing, instrument or document reasonably believed by Financial Escrow Agent to be genuine. Financial Escrow Agent shall be obligated only for the performance of such duties as are specifically set forth in this Agreement, being purely ministerial in nature. Nothing contained herein shall be deemed to obligate Financial Escrow Agent to pay or transfer any monies hereunder unless and until such funds are received by Financial Escrow Agent. Financial Escrow Agent shall have no liability for loss arising from any cause beyond its control, including without limitation the following: (i) the act, failure, neglect or insolvency of any financial institution selected by Financial Escrow Agent; (ii) any delay, error, omission or default connected with the remittance of funds by another party; (iii) any delay, error, omission or default of any mail, telephone or e-mail service or operator; or (iv) the acts of any government or governmental agency or other entity exercising governmental powers.

7. **Procurement Process for Right-of-Way or Easements Required for Public Infrastructure Projects.** With respect to any rights-of-way, easements, or other use rights required for any of the VOPH master roadway or utility infrastructure projects identified under this Agreement, and which lie over, across or under any third-party land not owned or controlled by the Co-Developer or a Designated VOPH-MPUD, the following procurement process shall apply: (i) if the subject land lies within a previously approved VOPH-MPUD or is within lands included in a pending VOPH-MPUD application, the County shall require the provision of the subject right-of-way or easement area subject to and in accordance with the VOPH Enabling Documents; (ii), for any land not covered by (i) above, then: (x) the Co-Developer first shall utilize good faith, commercially reasonable efforts to negotiate the procurement from such third-party landowner, on the County's behalf, and any proposed compensation to be paid to such third-party owner shall be subject to the County's approval, which shall not be unreasonably withheld; (y) if the Co-Developer notifies the County in writing that the foregoing negotiations are not successful, the County shall initiate condemnation proceedings in accordance with applicable Florida law to effect a "quick taking" of

the required rights; and (z) the County then shall pursue the completion of such condemnation process to establish the final just compensation due to such third-party landowner pursuant to applicable Florida law. The foregoing condemnation process shall not apply in any circumstance where the affected landowner has an existing zoning or other development approval condition which requires the conveyance of right-of-way, easements, or other similar cooperation, in which event the County shall diligently pursue enforcement of such pre-existing zoning or development approval condition with such third-party landowner. No third-party landowner is intended to be a third-party beneficiary of this provision, which is intended solely to identify the respective rights and obligations of the County and the Co-Developers with respect to the VOPH public infrastructure projects identified herein. Prior to the initiation of any formal condemnation process under this Section 7, the Co-Developer or the applicable Designated VOPH-MPUD shall enter into a right-of-way acquisition agreement which memorializes the terms and conditions for such action consistent with this Agreement. The County shall initially advance the costs for any such condemnation action, subject to reimbursement by the Developer in exchange for 100% Transportation Credits or Utility Credits pursuant to Section 4 or Section 5 of this Agreement, as applicable.

8. **County Utility Project(s) Accounting, Reports and Administration of Funds.** The County Utility Projects identified in Section 5 above shall be undertaken by the applicable Co-Developer as the "**Constructing Entity**" for the County or on behalf of the Designated VOPH-MPUD Owner(s), as applicable (together with the master roadway projects under Section 4, above, the "**Public Infrastructure Project(s)")** (such Constructing Entity also is referred to as the "Developer" herein). For each such Public Infrastructure Project for which the Developer is designated as the County's Constructing Entity, the Developer as Constructing Entity shall comply with the provisions of Section 215.97, F.S., as applicable, and the following terms, conditions and processes for such Public Infrastructure Project(s):

    a. To be responsible for such portion of the design, permitting, bidding and construction of the improvements specified for such delegated Public Infrastructure Project in a manner reasonably satisfactory to Pasco County and consistent with any applicable permitting requirements of all agencies having jurisdiction thereof.

    b. To maintain books, records, documents, and other evidence including, but not limited to, records of all progress payments made for work in connection with the Public Infrastructure Project, any change orders and payments made pursuant to such orders, according to generally accepted accounting principles, procedures, and practices relating to the Public Infrastructure Project included, but not limited to, books, records, etc., which sufficiently and properly reflect all costs of any nature incurred by Developer for the Public Infrastructure Project, and to retain said books, records, documents, and other evidence for a period of five (5) years after final completion of the Public Infrastructure Project or termination of this Agreement whichever is later.

    c. That aforesaid records, books, documents, and other evidence shall be subject at all times to inspection, review, or financial audit as required by law or otherwise by County personnel authorized by the Pasco County Administrator or his designee.

    d. That the aforementioned audit and record-keeping requirements shall be included in contracts and subcontracts entered into by Developer with any party for work or services required for the Public Infrastructure Project.

e. That three (3) months after the date of execution of this Agreement and every three (3) months thereafter, Developer shall provide Pasco County with a progress report containing a narrative description of the work completed according to the Public Infrastructure Project schedule; a description of any change orders executed; a budget summary detailing planned expenditures versus actual expenditures; and identification of minority business enterprises used as contractors and subcontractors.

f. That upon final acceptance of the Public Infrastructure Project, the Developer shall provide the following:

i. Certification that the Public Infrastructure Project has been completed in compliance with the terms and conditions of this Agreement and meets minimum construction standards established in accordance with Section 336.045, Fla. Stat.

ii. A report that shall specify the total cost of the Public Infrastructure Project and the total direct costs of the Public Infrastructure Project paid from the funds made available by Pasco County from the VOPH Utility Escrow Account pursuant to this Agreement.

9. **VOPH Infrastructure Project(s) Design and Permitting Process.** The primary responsibility for design and permitting, and the applicable process and requirements for the respective infrastructure projects shall be allocated between the County and the applicable Co-Developer (or its designee), as follows (such Constructing Entity is referred to as the "Developer" herein) :

a. With respect to the County Utility Projects, the County and the Developer shall collaborate on the design plans, and upon approval for the design plans by the County, the Developer shall process the plans and permits for approval on behalf of the County, with PCUD identified as the applicant. Upon procurement of all required local, state, and/or federal permits for each such County Utilities Project, the Developer shall construct the project(s) as the County's Constructing Entity pursuant to Section 5 and Section 8, above.

b. With respect to the Developer Utility Projects, the Developer or its designee shall procure the design plans, subject to approval thereof by PCUD, and the Developer or its designee shall be the applicant and shall process the plans and permits for approval by all local, state and federal agencies having jurisdiction. Upon procurement of all required approvals, the Developer or its designee shall construct the Developer Utility Projects pursuant to Section 5, above.

c. With respect to the VOPH Master Roadway Pipeline Projects, the Developer shall procure the plans in accordance with the VOPH Master Roadway Plan, including the specific cross-section design requirements set forth in the VOPH Enabling Documents, for approval by the County (and by FDOT but only where applicable for a specific roadway segment under FDOT jurisdiction). The Developer or its designee shall be the applicant for the roadway plans and permits; provided, however, that upon request by the Developer, the County shall be the named applicant for any state or federal permit application processed by the Developer or its designee related to public roadway impacts to wetlands, flood plains, or other state or federal permitting issues, which consent shall not be unreasonably withheld. The Developer's roadway design plans and specifications shall be subject to County approval in accordance with applicable

VOPH Master Roadway Plan design criteria and/or Florida Department of Transportation design standards (but only where there is applicable FDOT jurisdiction). Any necessary wetland or floodplain impacts or compensation related to the roadway project shall be included in the design and indicated on the plans. The purchase of off-site mitigation bank credits shall be required in lieu of any County-maintained mitigation areas (provided, however, that any CDD, HOA, or Developer-maintained mitigation area, including comingled mitigation areas, shall be allowed).

d. The construction contractors used by Developer or its designee to construct and complete the utility and roadway projects shall be selected by the Developer and shall be reasonably satisfactory to Pasco County and/or FDOT, as applicable. The consent of Pasco County and/or the Developer to any plans, design, permit conditions, selection of contractors, or project contract costs shall not be unreasonably withheld, conditioned, or delayed.

e. Drainage and/or mitigation facilities for any VOPH infrastructure project may be commingled or combined with drainage and/or mitigation facilities for an adjacent VOPH-MPUD project or any other facilities or developments along the route of the infrastructure project; however, any such shared facilities shall be owned, operated, and maintained by a Community Development District ("**CDD**"), Homeowner/Property Owner's Association ("**POA**"), or such other legal entity as may be approved by Pasco County (which approval shall not be unreasonably or untimely withheld or conditioned). Any isolated stormwater or mitigation facilities which serve only the public infrastructure project shall be owned, operated, and maintained by the County. Where applicable for any shared facilities, the CDD, POA, or such other legal entity shall provide appropriate easements to Pasco County so that Pasco County has the ability to maintain such drainage and/or mitigation facilities in the event that the CDD, POA, or such other legal entity defaults on its obligations to maintain the drainage facilities. If the drainage facilities for the public infrastructure project are commingled or combined with drainage facilities for any adjacent private project then all such drainage facilities shall remain owned by an entity other than Pasco County, and operation and maintenance of the same shall be the responsibility of the respective underlying land owner, the CDD, the POA, or such other similar legal entity as may be approved by Pasco County (which approval shall not be unreasonably or untimely withheld or conditioned), as applicable. The underlying landowner, the CDD, the POA, or such other similar legal entity shall be responsible for the design, permitting, and construction of all such commingled or combined drainage facilities, unless otherwise approved by Pasco County (which approval shall not be unreasonably or untimely withheld or conditioned). Appropriate easements to Pasco County shall be provided on all lands owned by the applicable VOPH-MPUD Owner(s) and shall be obtained from all other underlying land owners, by condemnation if necessary, of land containing drainage facilities serving the public infrastructure project, including those drainage facilities that are commingled or combined, so that Pasco County has the ability to maintain the drainage facilities associated with the public infrastructure project in the event that the CDD, the POA, or such other legal entity fails properly to maintain same.

f. In the event that the permitted wetland and/or floodplain mitigation area(s) for the impacts associated strictly with the public infrastructure project are permitted and constructed separately and distinctly from impacts associated with any other private project facilities or developments, then Pasco County will accept ownership and

maintenance responsibilities after the completion of the maintenance and monitoring period and acceptance by any governing agencies having jurisdiction over the public infrastructure project (notwithstanding the foregoing, the County reserves the right to purchase off-site mitigation bank rights in lieu of on-site wetland or floodplain mitigation areas which require permanent maintenance). If the permitted wetland and floodplain mitigation areas related to the public infrastructure project are commingled/combined with wetland and floodplain mitigation areas of any other private project facilities or developments, all the wetland and floodplain mitigation areas shall be permitted, owned, operated, and maintained by the underlying landowner, the CDD, the POA, or such other legal entity as may be approved by Pasco County. Appropriate easements shall be provided to Pasco County for the wetland and floodplain mitigation areas associated with the public infrastructure project that are owned by the applicable VOPH-MPUD Owner(s), the CDD, or the POA, or such other legal entity as may be approved by Pasco County Pasco County and shall be obtained, by condemnation if necessary, from all other underlying landowners of land containing such mitigation areas serving the public infrastructure project, including those areas that are commingled or combined, so that Pasco County has the ability to maintain the wetland and/or floodplain mitigation area(s) in the event that the CDD, or the POA, or such other legal entity as may be approved by Pasco County or any other underlying landowner defaults on its [their] obligations to maintain the facilities.

g. For any County roadway project delegated by the County Administrator to the Developer as the Constructing Entity for design and permitting, if the County review will be completed by a department other than the Planning and Development Department, the Developer shall complete and submit sixty (60) percent, ninety (90) percent, and final design plans for those portions of the public infrastructure project to Pasco County and/or FDOT, as appropriate, for review and approval unless FDOT and/or Pasco County, as appropriate, agrees in writing to, or have adopted, an alternative submittal schedule. Developer shall obtain approval of the 100 percent design and right-of-way plans for those portions of the public infrastructure project from Pasco County and/or FDOT, as applicable, prior to commencement of any bidding of the public infrastructure project. Developer shall provide at the time of 100 percent design and right-of-way plan submission for the public infrastructure project an engineer's estimate of the cost of the constructing the public infrastructure project, including inspection costs, which estimate shall be certified by an engineer duly registered in the State of Florida and approved by Pasco County.

10. **Pasco County Cooperation and Assistance with Developer Projects; Bidding Process for Developer Infrastructure Projects**. Pasco County shall cooperate with the applicable Constructing Entity (also referred to as the "Developer" herein) with respect to plans and permit applications and construction for the Developer roadway and utility projects pursuant to this Agreement, including assistance when appropriate with other agencies having jurisdiction over such projects, subject to the following terms and conditions:

a. **County and FDOT Review**. Developer agrees and recognizes that Pasco County and FDOT shall not be held liable or responsible for any claims which may result from any actions or omissions of Developer, or engineers/contractors selected by Developer, for any Developer project in which Pasco County or FDOT participated, either through review or concurrence of their actions. In reviewing, approving, or rejecting any submissions or acts of Developer, or engineers/contractors selected by Developer, Pasco County and FDOT in no way assume or share any of the responsibility or liability

of Developer or its consultants, contractors, or registered professionals (e.g., architects and/or engineers) under this Agreement. All work covered under this Agreement shall be performed in accordance with good engineering practice, and all established design criteria and procedures shall be followed. Pasco County and FDOT, as applicable, will review the submittals, although detailed checking will not necessarily be done. Developer remains solely responsible for the work related to any Developer project and is not relieved of that responsibility by review comments.

b. **Utilities Relocation**. Developer shall coordinate the relocation of any utilities infrastructure in conflict with any County or Developer infrastructure project, including Pasco County utilities. Relocation of any utilities infrastructure which is in conflict with the County or Developer infrastructure project, including Pasco County utilities, shall be completed and paid for by the owner of the utilities infrastructure to the extent required by Sections 337.403-404, Fla. Stat. Pasco County agrees, upon request of Developer, to cooperate with Developer in requiring the relocations of any such utilities infrastructure to the extent allowed by Section 337.403-404, Fla. Stat., in a timely manner. However, under no circumstances shall Pasco County incur any expenses for the relocation of such utilities for any infrastructure projects.

c. **Bidding Process**. With respect to any County or Developer infrastructure project that is subject to impact, mobility, or other fee credits or County funding under this Agreement, the Developer shall comply with the bidding procedures set forth in either (i) Pasco County's Guidelines for Development Pipeline Bid Process, as amended by the County from time to time, (ii) the required bid procedures for a CDD pursuant to Florida Statutes as amended from time to time, and subject to County approval thereof, (iii) the bidding procedures set forth in any subsequent VOPH Fee Credit Registry Resolution or Policy Memorandum approved by the County Administrator or his designee, or (iv) such other public bidding process as approved by the County Administrator or his designee. The Developer shall retain full control of all bids and determinations regarding bidder qualification and determination of the qualified lowest bidder. The Developer may elect in its reasonable discretion to award the bids of portions, phases, or segments of the roadway or utility improvements to a qualified bidder that is not the lowest overall bidder; provided, however, that in such event any fee credit amounts or reimbursements for construction of the roadway or utility improvements that are the subject to such bid may be limited to quantities and amounts awarded in comparable projects located in Pasco County, Florida, as reasonably determined by the County.

11. **Construction of and Disbursements for County Project(s) Delegated to a Co-Developer as Constructing Entity.** With respect any County or Developer infrastructure project delegated by the County Administrator to a Co-Developer or its designee as Constructing Entity (also referred to as the "Developer" herein), the following requirements and procedures shall apply:

    a. **Construction Schedule**. Subject to design plan and permit approvals from all agencies having jurisdiction, the Developer shall commence and complete construction of the Developer infrastructure projects in accordance with Exhibit C, and shall commence and complete construction of the County Utility Projects in accordance with the schedule set forth in the subsequent agreement for such projects. Developer shall proceed and complete the construction of the County and Developer infrastructure projects in accordance with the final alignment, design, specification, and construction plans as approved by Pasco County and other applicable Federal, State, and regional

regulatory agencies. Developer and Pasco County agree that nothing contained herein shall prohibit or in any way restrict Developer's ability to accelerate the schedule for construction of any portion of the County and Developer infrastructure projects, subject only to procurement of required permits.

b. **Tender of Improvement Area**. Upon the issuance to Developer or its contractor of a Pasco County construction permit, the area covered by such construction permit shall be deemed to be tendered to Developer or its contractor, as applicable, and such entity shall be in the custody and control of the project areas. Developer or its contractor shall be responsible for providing a safe work zone for the public.

c. **Pasco County Observation**. Pasco County reserves the right to inspect, observe, and materials-test any and all work associated with the County and Developer infrastructure projects and shall at all times have access to the work being performed pursuant to this Agreement for Pasco County's observation. However, should Pasco County observe any deficiencies inconsistent with the plans or construction not accordance with the specifications, Pasco County shall notify Developer and its representative in writing and Developer shall correct the deficiencies as necessary. Nothing herein shall require Pasco County to observe or inspect the work of the County and Developer infrastructure projects. Developer shall be solely responsible for ensuring that the County and Developer infrastructure projects are constructed in accordance with the plans, specifications, and required standards for such projects. Observations by Pasco County or its inspectors that do not discover that construction is not in accordance with the approved plans, specifications, and required standards shall not be deemed a waiver of Developer's requirements herein.

d. **Acceptance of County and Developer Infrastructure Projects**. Prior to acceptance of any portion of the County and Developer infrastructure projects by Pasco County, Developer shall meet the application requirements of the County. All conveyances for any project areas outside existing public rights-of-way shall include appropriate utilities and access easements and shall be in a form acceptable to Pasco County's Real Estate Division.

e. **Construction Requirements**. During the construction phase of the County and Developer infrastructure projects the Developer and/or its construction contractor(s) shall:

    i. Provide its own on-site inspection and observation under the direction of a professional engineer registered in the State of Florida for the purpose of observing and inspecting the progress and quality of the work and to ensure that it is constructed according to the plans, contract documents, and specifications. The construction engineering and inspection contract shall be approved by Pasco County.

    ii. Obtain all necessary Right-of-Way Use Permits; provided, however, that the County shall be the applicant on any required permits.

    iii. Be responsible for supervising and inspecting the construction of the County and Developer infrastructure projects and shall be responsible for ensuring the accuracy of all reference points, grade lines, right-of-way lines, and field measurements associated with such constructions.

iv. Be responsible for full and complete performance of all construction activities required pursuant to this Agreement. Developer shall be responsible for the care and protection of any materials provided or work performed for the County and Developer infrastructure projects until the improvements are completed and accepted by Pasco County, which acceptance shall not be unreasonable nor untimely withheld or conditioned.

v. Require testing by an independent laboratory, acceptable to Pasco County, in accordance with Pasco County Engineering Services Department and/or PCUD, as applicable. Any failed tests shall be immediately reported to the Pasco County Engineer and/or PCUD, as applicable, and all test reports shall be provided on a quarterly basis to the Pasco County Engineer and/or PCUD, as applicable.

vi. Provide to Pasco County copies of all design drawings, as-build drawings, and permits received for the County and Developer infrastructure projects. All plans submitted to Pasco County shall include reproducible Mylars™ and electronic files compatible with *AutoCADD*.

vii. Upon completion of the County and Developer infrastructure projects, the engineer shall provide any required documentation of completion such as but not limited to final quantities and payment certifications, record drawings, and copies of final inspection reports.

f. **Escrow Account Disbursement Documentation; Fee Credit Amount Reconciliation.** For all disbursements to be made from either the VOPH Roadway Escrow Account or the VOPH Utility Escrow Account, the following required documentation shall be provided. All disbursements to be made by the Financial Escrow Agent from the respective escrow account(s) shall be made not later than fifteen (15) days after receipt of the required documentation (including the Engineer Verification Agent and County review approvals) and shall be made on an interim basis for each interim contractor draw period ("**Interim Disbursements**"), and then for the final closeout of each project or phase covered by the applicable contract ("**Final Disbursements**"), pursuant to the following procedures and requirements. In addition, the following cost limits shall apply to all projects for which the Developer is the Constructing Entity for the County:

i. costs for design, permitting and other pre-construction consultants: 10% of construction costs;
ii. costs for construction engineering inspections, construction phase services and testing: 10% of construction costs;
iii. costs for insurance: 1% of construction costs;
iv. costs for bonding expenses: 1.5% of construction costs; and
v. costs for roadway landscape (excluding sod) and irrigation: 2% of construction costs (not for utilities); plus 100% of sod costs (this also may require a License and Maintenance Agreement within County public right-of-way areas); and
vi. No disbursements shall be provided for any site-related improvements which are the responsibility of any adjacent, approved VOPH-MPUD, such as turn

lanes or driveway aprons, unless the turn lanes are within existing or future VOPH Primary or Intermediate Roadway segments for which the County is providing Transportation Credits pursuant to this Agreement. The Developer shall separately calculate the cost of any such excluded site-related improvements as a percentage of the design or construction contract, and deduct such costs from each disbursement request to the Engineer Verification Agent, and the affected adjacent VOPH-MPUD Owner shall separately pay such excluded site-related amount.

A complete disbursement request package shall include one hard copy and an electronic version (pdf) for the following (as to both Interim Disbursements and Final Disbursements, as applicable:

(a) Copies of all vendor contracts for which reimbursement is being requested, i.e., Design & Permitting, CEI, Construction Contractor, etc. The contract copies shall be submitted with the first Interim Reimbursement request that includes each vendor, and copies of any change order contracts shall be submitted when they are included in subsequent reimbursement requests.

(b) A signed Cover Sheet (Invoice) denoting the reimbursement amount being requested and pertinent remittance information.

(c) A Summary Sheet reflecting the invoice numbers, invoice dates, invoice amounts, check numbers, cancelled check amounts, check dates, eligible amount, ineligible amount (if any) and amount requested. The summary sheet shall be segregated by vendor, and include subtotals for each vendor, along with grand total amounts, ensuring that the grand total requested equals the amount requested on the cover sheet.

(d) One hard copy and one electronic version (pdf) of the invoices and proof of payment (cancelled checks or evidence of electronic payments/transfers) for invoices reflected on the Summary Sheet. An affidavit from the vendor affirming payment in full of the invoices and amounts included on the Summary Sheet can be provided in lieu of cancelled checks.

In addition, for the Final Disbursement submittal, two (2) hard copies and one electronic file for the following also shall be submitted:

(e) All deeds and easements, including, but not limited to, deeds for rights-of-way or ponds, drainage easements, slope easements (where allowed), ingress/egress easements or any other property interest required for the County to own or control the road, the right-of-way identified in the approved construction plans as well as all structures and features (including, but not limited to, such items as retaining walls, drainage structures, etc.) which serve or support the road and the right-of-way required to be conveyed by the Developer and/or other fee owner. The required conveyances referred to under this section shall also include any other conveyances required by this Agreement. The Developer or other fee owner must submit the conveyance documents(s) required to the Real Estate Division for review and submittal to the Board of County Commissioners for acceptance and recording.

(f) Where applicable, evidence that the Southwest Florida Water Management District (SWFWMD) Operation and Maintenance (O&M) permit has been transferred to a CDD

or Homeowners' Association. The O&M may be transferred to the County only for projects wherein the SWFWMD Project Area consists exclusively of County-owned right-of-way and County-owned ponds that are not co-mingled with flows from non-County owned property.

(g) Evidence that all permit conditions from all applicable permitting regulatory agencies for the project have been satisfied.

(h) An Engineer's Certificate of Completion from the Engineer of Record, as-built / record drawings, test reports, Warranty/Maintenance Guarantee(s) required for the project, License & Maintenance Agreements (if necessary), and other documentation as required by this Agreement.

The Financial Escrow Agent shall withhold payment of the Final Disbursement request (which includes the contractor's previous contract retainage amounts) until the items listed in (e) through (h) are provided to the Engineer Verification Agent and accepted by the County.

g. **Developer Default; County Use of Escrow Account Funds.** In the event either Co-Developer or its Designated MPUD Owner or MPUD developer/builder fails to complete when required by this Agreement: (i) a Designated Master Roadway Pipeline Project for which the applicable Co-Developer or its designee has funded the VOPH Roadway Escrow Account for Transportation Credits, or (ii) a Developer Utility Project for which the applicable Co-Developer or its designee has funded the VOPH Utility Escrow Account for Utility Credits, then: (x) after not less than thirty (30) days' written notice of default to the Co-Developer and failure of the Co-Developer or its designee to address the cure thereof to the reasonable satisfaction of the County, or if such cure cannot reasonably be made within thirty (30) days, then within such reasonable time as necessary for the Co-Developer to commence and thereafter diligently complete such cure, (y) the County shall have the right to access all remaining funds within the VOPH Roadway Escrow Account or VOPH Utility Escrow Account and designated for use on the applicable VOPH infrastructure project, and (z) to utilize said funds in the County's discretion to complete the applicable project. The foregoing remedy is without limitation to any other remedies which may be available to the County under applicable law. Any default by a Co-Developer under this Agreement shall not constitute a default by the other Co-Developer, as each Co-Developer (and its Designated VOPH-MPUD Owner) shall be responsible only for the specific roadway and utility pipeline projects assigned to it under this Agreement. To the extent the County uses funds previously deposited by a Co-Developer, Designated MPUD Owner, or MPUD developer-builder to complete such project(s), the party who originally deposited such funds shall retain the fee credits applicable thereto.

12. **Payment and Performance Bonds, Maintenance Guarantees, and Insurance Requirements for Public Infrastructure Projects**. As the County's designated Constructing Entity, no letter of credit, surety bond, or other performance guarantee shall be required from the Constructing Entity (referred to as the "Developer" herein) with respect to any County infrastructure project delegated to it by the County Administrator and to be funded by the County under this Agreement. Similarly, because the Developer (or its designee) is tendering all estimated costs into the applicable VOPH escrow account in advance for the Developer infrastructure projects, such cash escrow account deposit(s) shall serve as the security to the County for the Developer's performance under this Agreement. However, with respect to each public infrastructure project administered by the

Developer (both as the Constructing Entity for the County Utility Projects and all Developer projects involving public infrastructure) the following requirements shall apply to the general contractor and other third-party professionals selected by the Developer for such public infrastructure project:

a. **Performance and Payment Bond(s)**. The applicable contractor(s) shall be required, prior to commencing construction of the public infrastructure project, to post in favor of the applicable Co-Developer and Pasco County and provide to Pasco County, for its approval, a performance and payment bond acceptable to the Co-Developer and Pasco County to guarantee payment of the contractors' obligations as required by the law (the **"Performance and Payment Bond"**). The Performance and Payment Bond shall be with a bank, surety, or other financial institution reasonably acceptable to Developer and Pasco County, which is authorized to do business in the State of Florida, and which has an "A" policyholders rating and a financial rating of at least Class VII in accordance with the most current Best's Key Rating Guide. The Performance and Payment Bond shall be in the amount of 125% of the construction contract amount. The cost of issuance of the Performance and Payment Bond(s) required pursuant to this Agreement is hereby authorized and shall be included in the total approved costs for the public infrastructure project(s).

b. **Conditions of Performance Guarantees**.

    i. The Performance and Payment Bonds required pursuant to this Agreement must be issued by a bank, surety, savings association, or other financial institution (the **"Performance Guarantee Issuer"**) reasonably acceptable to Developer and Pasco County that is authorized to do business in the State of Florida.

    ii. The Performance Guarantee Issuer must have and maintain (1) a minimum financial ranking of 120 in the Bank Financial Quarterly, or a similar financial ranking acceptable to Pasco County's Risk Manager, and (2) a minimum rating of at least AA/Aa/AA by S&P, Moody's, or Fitch. If the Performance Guarantee Issuer does not maintain the minimum financial ranking above or is downgraded below the minimum rating above, the Performance Guarantee Issuer must notify Pasco County and Developer within five (5) days, and the contractor must provide a substitute Performance Guarantee in substantially the same form and containing the same terms as the original Performance Guarantee from a bank of financial institution with the minimum ratings set forth above within fifteen (5) days of such downgrade event, or Pasco County or Developer may draw on the original Performance Guarantee and complete or cause the completion of the Public Infrastructure Project.

    iii. The Performance Guarantee must provide for draws to be made on a bank or savings association located in West Central Florida or by facsimile to other Performance Guarantee Issuers.

c. **Default Event**. In the event of a contractor default hereunder with respect to the construction of any public infrastructure project, Pasco County or applicable Co-Developer may call on and avail itself of the Performance Guarantee and complete or cause the completion of the public infrastructure project.

d. **Maintenance Guarantee**. Upon completion of the public infrastructure project and final acceptance by Pasco County and/or FDOT, applicable, in accordance with the County Engineering Inspections Division certification as required in this Section, the construction contractors shall be required to guarantee that the Pasco County improvements included in the public infrastructure project (not the FDOT improvements) and all work performed thereon is free from defects in workmanship or materials for a maintenance period of three (3) years (the **"Maintenance Period"**). Accordingly, each construction contractor shall provide a maintenance guarantee valid for such Maintenance Period, and the monetary amount that shall be made available to the Pasco County Board of County Commissioners under the terms of such guarantee shall equal fifteen percent (15%) of the cost of the Pasco County improvements included in the public infrastructure project (the **"Maintenance Guarantee"**). The Maintenance Period shall commence on the date of acknowledgement of completion and acceptance of the Maintenance Guarantee in accordance with this section. The costs for the Maintenance Guarantee are authorized and shall be included in the approved total costs for the public infrastructure project. The applicable contractor shall be responsible for maintaining the Pasco County improvements included in the public infrastructure project during the Maintenance Period and, if any part of the Pasco County improvements included in the public infrastructure project should fail within this period due to a defect in workmanship or materials, it shall be repaired, replaced and/or restored to satisfactory condition and/or operation at no cost to Pasco County. In the event the applicable contractor does not maintain the Pasco County improvements included in the public infrastructure project during the Maintenance Period, the Pasco County Administrator shall notify such contractor in writing via certified mail, return receipt requested, of the areas that require maintenance. Such contractor shall have sixty (60) days from receipt of the notice to perform the required maintenance to the satisfaction of the Pasco County Administrator or be in default of the Maintenance Guarantee, unless a longer time is agreed upon between the contractor and the Pasco County Administrator. Developer shall be responsible for requesting, in writing, a final inspection from the Pasco County Engineering Inspection Division not before ninety (90) days prior to the termination of the Maintenance Period. Upon receipt of the request for final inspection, the Engineering Inspections Division shall notify Developer and the applicable contractor via certified mail, return receipt requested, postmarked within thirty (30) days of such request, providing a list of deficiencies of items to be remedied by the contractor before the expiration of the Maintenance Period. In the event the contractor does not remedy the deficiencies before the expiration of the maintenance Period, the contractor shall be in default of the Maintenance Guarantee. This remedy for correction shall be a contractual obligation in the applicable construction contract that is a cumulative and not exclusive remedy. Upon completion of construction of the public infrastructure project and final inspection by Pasco County as being constructed in accordance with all appropriate contract documents and permit requirements, etc., and upon the expiration of the required Maintenance Guarantee during the Maintenance Period, Pasco County shall be responsible for maintenance of the Pasco County improvements included in the public infrastructure project and all associated drainage facilities which are not commingled/combined. Upon the remedy of any defects to the satisfaction of the Pasco County Administrator, or in the case of no defects, but in any case no sooner than the expiration of the Maintenance Period, the Pasco County Administrator and County Attorney may release this Maintenance Guarantee.

e. **Insurance**.

i. **General**. No work shall commence on the public infrastructure project, nor shall occupancy of any of the property within the public infrastructure project limits take place until the required Certificates of Insurance and certified true and exact copies of all insurance policies are received by Pasco County and/or FDOT, as applicable, as set forth below:

1. During the term of this Agreement, Developer shall require any engineers and/or general contractors providing work for the improvements to pay for or maintain insurance of the types and in the amounts described herein. All such insurance shall be provided by responsible companies authorized to transact business in the State of Florida which have an "A" policyholder's rating and a financial rating of at least Class VIII in accordance with the most current *Best's Key Rating Guide* and which are reasonable satisfactory to Pasco County and/or FDOT, as applicable.

2. Developer shall require the engineers and/or general contractor to provide to Developer and to Pasco County and/or FDOT, as applicable, evidence of insurance coverage of the types and in the amounts required by submitting four (4) original, executed Certificates of Insurance on the form to be provided by Pasco County and/or FDOT, as applicable, to Developer. Each certificate shall set for the original, manual signatures of the authorized representative of the insurance company[ies], identified therein and shall have attached thereto, proof that said representative is authorized to execute the same. In addition to the Certificates of Insurance required herein, Developer shall require the engineers and/or contractors to also provide to Pasco County and/or FDOT, as applicable, certified true and exact copies of all insurance policies required hereunder at the time of submittal of the Certificates of Insurance. The required Certificates of Insurance not only shall name the types of policies provided, but also shall refer specifically to the agreement between Developer and the contractor for the improvement.

3. All policies of insurance required by this Agreement shall require that the insurer deliver to Pasco County and/or FDOT, as applicable, and Developer thirty (30) days' written notice prior to any cancellation, intent not to renew, or reduction in coverage and ten (10) days' written notice of any nonpayment of premium. Such notice shall be delivered by certified U.S. Mail to Pasco County and Developer, addressed to the parties as described in the notice provision of this Agreement. In the event of any reduction in the aggregate limit of any policy, Developer shall require the engineers and/or contractor to immediately restore such limit to the amount required herein.

4. Developer shall require that all insurance coverage provided by the engineers and/or general contractor be primary to any insurance or self-insurance program of Pasco County and/or FDOT, as applicable, and Developer that is applicable to the work provided for in this

Agreement. All such insurance shall also remain in effect until final payment and until after the Maintenance Period provided herein.

5. Receipt by Pasco County and/or FDOT, as applicable, of any Certificate of Insurance or copy of any policy evidencing the insurance coverage and limits required by the contract documents does not constitute approval or agreement by Pasco County and/or FDOT, as applicable, that the insurance requirements have been satisfied or that the insurance policies or Certificate of Insurance are in compliance with the requirements under this Agreement.

6. The insurance coverage and limits that Developer shall require from engineers and/or contractors under this Agreement are designed to meet the minimum requirements of Pasco County and/or FDOT, as applicable. They are not designed as a recommended insurance program. Developer shall notify the engineers and/or contractors that the engineers and/or contractors shall be responsible for the sufficiency of its own insurance program.

7. If the insurance coverage initially provided by the engineers and/or contractors is to expire prior to completion of the work, Developer shall require the engineers and/or contractors to provide renewal Certificates of Insurance on Pasco County or FDOT's forms, as applicable, thirty (30) days prior to expiration of current coverage.

8. All insurance policies that Developer shall require the engineers and/or contractors to obtain pursuant to this Agreement, other than workers' compensation and employer's liability policy, shall specifically provide that Pasco County, the Pasco County Engineer, FDOT (if applicable), and each of their respective officers, employees, and agents shall be "additional insured" under the policy and shall also incorporate a severability of interests provision. All insurance coverages required herein shall apply to all engineers' and/or contractors' activities and any subcontractors' activities for the Public Infrastructure Project without regard for the location of such activity.

ii. **Coverage**. Amounts and types of insurance shall conform to the following minimum requirements and shall be listed on a current Pasco County Certificate of Insurance form, which shall be provided by the engineers and/or contractors to Developer.

1. **Workers' Compensation and Employer's Liability Insurance**. Developer shall require that coverage be maintained by the engineers and/or contractors for all employees engaged in the work in accordance with the laws of the State of Florida. The amount of such insurance shall not be less than (a) Florida's statutory requirements for workers' compensation insurance, and (b) One Million Dollars ($1,000,000.00 USD) per incident. Developer shall require the engineers and/or contractors and their respective insurance companies

to waive their rights of subrogation against Pasco County and/or FDOT, as applicable, and their respective agents and employees.

2. **Commercial General Liability Insurance**. Developer shall require commercial general liability insurance coverage be maintained by the engineers and/or contractors, which shall include, but not be limited to personal and advertising injury; contractual for the improvements, including any hold-harmless and/or indemnification agreement; independent contractors; broad form property and personal injury, and combined single limits:

    a. **General Aggregate**. Two Million Dollars ($2,000,000.00 USD).

    b. **Products, Completed Operations Aggregate**. Two Million Dollars ($2,000,000.00 USD).

    c. **Bodily Injury, Including Death (Each Person)**. One Million Dollars ($1,000,000.00 USD).

    d. **Bodily Injury, Including Death (Each Occurrence)**. Two Million Dollars ($2,000,000.00 USD).

    e. **Property Damage (Each Occurrence)**. One Million Dollars ($1,000,000.00 USD).

    f. **Personal and Advertising Injury (Each Occurrence)**. Five Hundred Thousand Dollars ($500,000.00 USD).

    g. **Fire Damage (Any One (1) Fire)**. Five Hundred Thousand Dollars ($500,000.00 USD).

3. **Business Automobile Liability Insurance**. Developer shall require coverage to be maintained by the engineers and/or contractors as to the ownership, maintenance, and use of all owned, non-owned, leased, or hired vehicles and employees' non-ownership with limits of not less than (a) One Million Dollars ($1,000,000.00 USD) combined, single limit for bodily injury and personal injury, including death, and (b) One Million Dollars ($1,000,000.00 USD) combined, single limit for property damage.

4. **Excess Liability Insurance**. Developer shall require coverage be maintained by the contractors for excess liability, which shall be over and above the commercial general liability insurance and business automobile liability insurance requirements, with limits of not less than (a) Three Million Dollars ($3,000,000.00 USD) per occurrence, and (b) Three Million Dollars ($3,000,000.00 USD) aggregate.

5. **Professional Error and Omissions Liability Insurance**. Developer shall require that the engineers maintain standard, professional-

liability insurance in the minimum amount of One Million Dollars ($1,000,000.00 USD) per occurrence.

6. **Special Instructions**. Occurrence form professional, liability insurance is highly preferred. However, if the consultant is only able to secure claims-made, professional-liability insurance, then special conditions apply. Any Certificate of Insurance issued to Pasco County and/or FDOT, as applicable, must clearly indicate whether the coverage is on a claims-made basis. If coverage is afforded on a claims-made basis, then Developer shall require the consultant to be obligated by virtue of this Agreement to maintain insurance in effect with no less limits of liability nor any more restrictive and/or conditions for a period of five (5) years from the Effective Date (as defined below) of this Agreement.

13. **General Provisions**.

a. **Constitutional Limitations**. The terms and conditions of this Agreement placed upon Pasco County are applicable only to the extent they are within and consistent with the constitutional and statutory limitations on the authority of the County. Specifically, the parties acknowledge that the County is without authority to grant or pledge a security interest in any of the County's revenue sources or County property.

b. **Independent Capacity; Limitation on Liability.** The Co-Developers, Designated MPUD Owner(s), any designated Constructing Entity/Developer and any consultants, contractors, or agents are and shall be, in the performance of all work, services, and activities under this Agreement, independent contractors and not employees, agents, or servants of Pasco County or joint venturers with Pasco County. The Co-Developer, their agents and representatives do not have the power or authority to bind Pasco County in any promise, agreement, or representation other than specifically as provided for in this Agreement. Pasco County shall not be liable to any person, firm, or corporation who contracts with or provides goods or services to the Co-Developers with respect to any private infrastructure project for debts or claims accruing to such parties against the Co-Developer(s) for such private infrastructure project, and the County's liability hereunder shall extend only to the funds deposited into the VOPH Roadway Escrow Account or the VOPH Utility Escrow Account, as applicable, for the public infrastructure projects included in this Agreement. There is no contractual relationship expressed or implied between Pasco County and any other person, firm, or corporation supplying any work, labor, services, foods, or materials to any private infrastructure project.

c. **Time Extensions**.

i. If Pasco County reasonably requires additional time beyond that allocated herein to act upon a submission by the Co-Developer or its designee of complete and correct documents for review and/or approval, there shall be an automatic extension of the time periods set forth in this Agreement for the public infrastructure project for the documented number of days which it takes Pasco County beyond the days allowed for the Pasco County's review and/or approval.

ii. If the Co-Developer is unable to meet a deadline as set forth in this Agreement for any public infrastructure project, the Co-Developer may, prior to the deadline, submit a request to the County Administrator for administrative amendment, which shall not be unreasonably withheld or delayed.

d. **Contracts**. All contracts entered into by either Co-Developer for any public infrastructure projects shall be made in accordance with all applicable laws, rules, and regulations; shall be specified by written contract or agreement; and shall be subject to each applicable paragraph set forth in this Agreement. The applicable Co-Developer shall monitor all contracts on a regular basis to ensure contract compliance. Results of monitoring efforts shall be summarized in written reports submitted to Pasco County and supported with documented evidence of follow-up actions taken to correct areas of noncompliance.

i. The Co-Developer shall cause all applicable provisions of this Agreement to be included and made a part of any contract for the public infrastructure project.

ii. The Co-Developer agrees to include in all construction contracts a retainage clause providing that upon completion of all work the retainage will be reimbursed.

e. **Law Compliance**. The Co-Developers and Pasco County will comply with all applicable Federal, State, and local laws, rules, regulations, and guidelines related to performance under this Agreement. In particular, the Co-Developers verify and affirm that each party is in compliance with the 8 U.S.C. 1324, prohibiting the employment either directly or by contract, subcontract, or exchange of unauthorized aliens in the United States. Pasco County will consider the employment of unauthorized aliens by the Co-Developer(s) during the term of this Agreement a violation of the Immigration and Nationality Act.

f. **Certification**. The applicable Co-Developer shall provide certification to Pasco County and/or FDOT, as applicable, under the seal and signature of a registered, professional engineer that any public roadway infrastructure project has been designed and constructed in accordance with the applicable standards promulgated by the FDOT in Section 336.045, Fla. Stat., if applicable; Pasco County standards; the contract documents; and this Agreement.

g. **Notice**. Any notice or demand to be given to or served upon any party hereto in connection with this Agreement shall be in writing and shall be (i) delivered by hand, or (ii) delivered through the United States mail, postage prepaid, certified or registered, return receipt required, or (iii) delivered through a nationally recognized overnight delivery service, such as FedEx, which provides proof of delivery. Or, if notice is given by a method other than the foregoing, it shall be deemed to be given and received when delivered to and received by the party to whom it is addressed. Such notices shall be given to the parties hereto at the following addresses:

If to Pasco County:

Pasco County Administrator
West Pasco Government Center
8731 Citizens Drive, Suite 340
New Port Richey, Florida 34654

If to Financial Escrow Agent:

Phelps Dunbar LLP
Attn: Robert H. Gidel Jr., Esq.
100 S. Ashley Drive,
Suite 2000
Tampa, FL 33602
Email: robert.gidel@phelps.com
Phone: 813-472-7759

It is agreed that, if any party hereto is represented by legal counsel, such legal counsel is authorized to delivered notice directly to the other party on behalf of his or her client, and the same shall be deemed proper notice hereunder if delivered in the manner hereinabove specified.

Any party hereto may, at any time by giving three (3) days written notice to the other party hereto, designate any other address in substitution of the foregoing address to which such notice shall be given and other parties to whom copies of all notices hereunder shall be sent.

Any notice or demand that may be given hereunder shall be deemed complete (notwithstanding the lack of actual receipt by addressee) (i) three (3) days, after depositing any such notice or demand in the United States mail with proper postage affixed thereto, certified or registered, return receipt requested, or (ii) on the next business day after deposit (prior to the deadline for delivery on such business day) with a nationally recognized overnight delivery service which provides evidence of delivery, or (iii) upon hand-delivery to the appropriate address as herein provided during normal business hours.

h. **Entire Agreement**. Except for the respective VOPH-MPUD approvals and subsequent development approvals through application of the Land Development Code for such VOPH-MPUD's, this Agreement embodies and constitutes the entire understanding and agreement between the parties with respect to the transactions contemplated herein, and this Agreement supersedes all prior and contemporaneous agreements, understands, representations, communications, and statements, either oral or written between the Co-Developers, the Engineer Verification Agent, the Financial Escrow Agent, and Pasco County as to the specific subject matters set forth herein.

i. **Modification and Amendment**. Neither this Agreement, nor any portion hereof, may be waived, modified, amended, discharged, nor terminated, except as authorized by law pursuant to an instrument in writing, signed by the party against which the enforcement of such waiver, modification, amendment, discharge, or termination is sought and then only to the extent set forth in such instrument. The County Administrator shall be authorized to bind the County to any modification or amendment hereto without Board approval provided the item does not exceed the Administrator's authorized expenditure (or fee credit award) limit of fifty thousand dollars ($50,000.00). Any amendment to this Agreement shall require only the Co-Developers' execution, and not any VOPH-MPUD Owner(s) (who shall be deemed third-party beneficiaries, only, as set forth below).

j. **Waiver**. The failure of any party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is a violation of the terms of this

Agreement shall not be construed as a waiver of the violation or breach or of any future violation, breach, or wrongful conduct.

k. **Contract Execution**. This Agreement may be executed in several counterparts, each constituting a duplicate original, but all such counterparts shall constitute one (1) and the same agreement.

l. **Gender**. Whenever the context hereof shall so require, the singular shall include the plural, the male gender shall include the female gender and the neuter and vice versa.

m. **Headings**. All article and descriptive headings of paragraphs in this Agreement are inserted for convenience only and shall not affect the construction or interpretation hereof.

n. **Severability**. In case anyone (1) or more of the provisions contained in this Agreement is found to be invalid, illegal, or unenforceable in any respect, such invalidity, or unenforceability shall not affect any other provision hereof, and this Agreement shall be construed as if such invalid, illegal, or unenforceable provisions had never been contained herein, unless such unenforceable provision results in ta frustration of the purpose of this Agreement or the failure of consideration.

o. **Construction**. The parties hereby agree that each has played an equal part in the negotiation and drafting of this Agreement and, in the event any ambiguity should be realized in the construction or interpretation of this Agreement, the result of such ambiguity shall be equally assumed and realized by each of the parties to this Agreement.

p. **Cancellation**. This Agreement may be canceled by mutual consent of the parties to this Agreement.

q. **Third Party Beneficiaries**. Pasco County and the Co-Developers acknowledge and agree that, upon their consummation of the respective closings upon the Designated VOPH-MPUD, each VOPH-MPUD Owner and its successors and assign(s) shall be deemed an express, intended third-party beneficiary of this Agreement to the extent this Agreement pertains to any off-site infrastructure which serves the Designated VOPH-MPUD. Such VOPH-MPUD Owner(s) shall not be deemed "parties" to this Agreement and nothing in this Agreement shall be construed to benefit any person or entity not a party or an express third-party beneficiary to this Agreement.

r. **Signatories Authority**. By the execution hereof, the parties covenant that the provisions of this Agreement have been duly approved and signatories hereto are duly authorized to execute this Agreement.

s. **Controlling Law**. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida. Venue for any litigation arising from this Agreement shall be in the 6th Judicial Circuit in and for Pasco County, Florida.

t. **Successors and Assigns**. The terms of this Agreement shall be binding upon the Co-Developers, their respective successors and assigns. Either Co-Developer may assign its interest in this Agreement and its respective rights and obligations hereunder, in whole or in part, to any firm, corporation, or other legal entity, to any authorized CDD,

POA, or other County-approved entity created for the purpose of constructing or operating a public infrastructure project with the consent of all parties to this Agreement, which consent shall not be unreasonably withheld or delayed, and any such assignee shall be entitled to all the rights and powers of such participation hereunder; provided however, that the Co-Developer shall deliver to Pasco County a copy of any such fully executed assignment instrument as a condition to the effectiveness of such assignment, and further, if such assignee (a) is not wholly owned or majority controlled by the Co-Developer, or (b) is not an authorized CDD or POA as provided for herein, such assignment shall require Pasco County's prior written consent, which shall not be unreasonably withheld. Upon any such assignment, such assignee shall succeed to all the rights and obligations of the applicable Co-Developer as to such assigned matters, only. The duties, rights and obligations of the Financial Escrow Agent and Engineer Verification Agent under this Agreement shall not be assignable without the prior written consent of the County and Co-Developers.

u. **Survival**. The provisions of all sections of this Agreement that, from their sense and context are intended to survive the term or any termination of this Agreement, including, but not limited to, affirmative maintenance and other obligations, in order for them to be effectual and have the meaning intended by the parties, shall so survive (but shall expire within any specific time limitation which may be expressly stated elsewhere in this Agreement) the term or any termination of this Agreement and remain independently binding upon the parties, as applicable.

v. **Force Majeure**. In the event any party's performance of this Agreement is delayed or interrupted by consequent act of God, or the public enemy, or national emergency, or a government restriction upon the use of availability of labor or materials, or civil insurrection, riot, racial or civil rights disorders or demonstration, strike, embargo, flood, tidal wave, fire, explosion, bomb detonation, nuclear fallout, windstorm hurricane, sinkholes, earthquake, or other casualty, disaster, or catastrophe, or judgment, or a restraining order or injunction of any court, or material supply shortage, equipment or labor disruption beyond the control of such party (individually or collectively a "Force Majeure" event), such party shall not be liable for such nonperformance, and the time of performance shall be extended for the number of days that the force majeure event delays or interrupts such party's performance of this Agreement as reasonably determined by the other parties. This paragraph shall not apply to Force Majeure events caused by the party with delayed or interrupted performance or under the control or caused by the party with delayed or interrupted performance . In the event performance by any party of the commitments set forth in this Agreement shall be interrupted or delayed in connection with acquisition of necessary governmental permits or approvals which interruption or delay is caused through no fault of the party with a delayed performance, then the party with a delayed performance shall submit documentation to the other parties regarding such event for review and concurrence. If such documentation shows that such event(s) have taken place, then the party with a delayed performance shall be excused from such performance for such period of time as is reasonably necessary after such occurrence to remedy the effects thereof. Any Force Majeure event which exceeds one hundred eighty (180) days shall require a formal amendment to this Agreement. For purposes of this paragraph, the Engineer Verification Agent and Financial Escrow Agent shall be considered parties to this Agreement.

w. Indemnification. Developer shall indemnify and hold harmless the County, the Engineer Verification Agent and the Financial Escrow Agent and their employees and agents from and against all liabilities, claims, suits, demands, damages, losses, and expenses, including, but not limited to, attorneys' fees, arising out of or resulting from the Developer's design, permitting or construction of the Infrastructure Projects, provided that any such liability, claim, suit, demand, damage, loss or expense: (a) is attributable to bodily injury, sickness, disease or death, or injury to or destruction of tangible property (other than the Infrastructure Projects themselves), or arises out of any infringement of patent rights, copyrights, trademarks, or other intellectual property rights held by others, and (b) is caused in whole or in part by an act or omission of Developer or anyone directly or indirectly employed or retained by Developer, or anyone for whose act any of them may be liable. The foregoing indemnity by the Developer shall not apply to any willful misconduct, gross negligence or other malfeasance by either the Financial Escrow Agent or the Engineer Verification Agent in the performance of their prescribed duties under this Agreement.

x. **Public Records**. The Developer, Financial Escrow Agent, Engineer Verification Agent, and all contractors performing work under this Agreement, as applicable, shall comply with the requirements of Florida's Public Records Act, Chapter 119, Florida Statutes. To the extent required by Section 119.0701, Florida Statutes, each such party shall (a) keep and maintain those public records required by the County hereunder to perform the services under this Agreement; (b) upon request from the County's custodian of public records provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided for under Florida's Public Records law; (c) ensure that the public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement term and following completion of the Agreement if the applicable party does not transfer the records to the County; and (d) upon completion of the Agreement, transfer, at no cost to the County, all public records in possession of such party. Upon transfer, the party shall destroy any duplicate public records that are exempt or confidential and exempt from public records requirements. All records stored electronically must be provided to the County in a format that is compatible with the information technology systems of the County. All documentation produced as part of this Agreement will become the property of the County. This paragraph shall survive the expiration or termination of this Agreement.

IF ANY APPLICABLE PARTY HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE PARTY'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT TELEPHONE NUMBER (727) 815-7092, E-MAIL ADDRESS oeg@pascocountyfl.net, WEST PASCO GOVERNMENT CENTER, 8731 CITIZENS DRIVE, SUITE 135, NEW PORT RICHEY, FLORIDA 34654.

y. Under Florida law, a company who fails to provide the public records to the County within a reasonable time may be subject to penalties under Section 119.10, Florida Statutes, and such non-compliance will constitute a breach of the Agreement and may serve as grounds for termination of this Agreement. Such records shall be and remain

available at the applicable party's place of business at all reasonable times during the term of this Agreement and for five (5) years after Agreement termination.

z. **Term**. This Agreement shall remain in effect from the date of execution by the last party to sign the agreement (the **"Effective Date"**) until December 31, 2050, unless otherwise extended by mutual consent of the parties.

IN WITNESS WHEREOF, the parties have set their hands and seals on the respective dates set forth below.

Exhibit E-4: Designated Developer Utility Projects for each Co-Developer [w/ matching VOPH-MPUDs]

Exhibit F: Scope of Services for Engineer Verification Agent ("EVA")

Exhibit A

List of Designated VOPH-MPUDs

MPUD Name	Co-Developer	MPUD Entity
Bailey MPUD	Galvin Land	VOPH LAC Bailey, LLC
Price Harvest Hills North MPUD	Galvin Land	Galvin Land Services, LLC
Price Harvest Commons MPUD	Galvin Land	Galvin Land Services, LLC
Price Harvest Hills South MPUD	Galvin Land	Galvin Land Services, LLC
Hopkins MPUD	Galvin Land	Galvin Land Services, LLC
Nursery MPUD	Galvin Land	Galvin Land Services, LLC
Pasadena (G-1; H-1; H-2) MPUD	VOPH Master	VOPH Land Acquisition Company, LLC

Prior or subsequent to closing on the applicable VOPH-MPUD land, the applicable Co-Developer shall have the right to designate a substitute VOPH-MPUD ownership entity; provided, however, that the applicable VOPH master roadway plan pipeline project identified for each such VOPH-MPUD shall remain applicable to and binding upon each successor owner or assignee so designated by the Co-Developer, as to that VOPH-MPUD. In addition, either Co-Developer with the consent of the County Administrator may designate additional VOPH-MPUDs with appurtenant designated master roadway pipeline project(s), in which event the applicable exhibits to this Development Agreement shall be administratively amended by the applicable Co-Developer and the County Administrator.

Exhibit B-1

Designated Master Roadway Pipeline Projects

Designated VOPH-MPUD	**Designated Roadway Pipeline Project(s)**
Bailey MPUD:	Tyndall Road from Handcart Road to North-South Avenue B (Intermediate Off-Site Creditable); and North-South Avenue B from Tyndall Road to Bailey MPUD entrance (Intermediate Off-Site Creditable)
Price Harvest Hills North MPUD:	Handcart Road from Prospect Road north to Price Harvest Hills North MPUD boundary (Primary Creditable)
Price Harvest Commons MPUD:	Handcart Road from southern boundary of Price Harvest Commons MPUD to Clinton Avenue (Primary Creditable)
Price Harvest Hills South MPUD:	Handcart Road from Tyndall Road to Prospect Road (Primary Creditable); and North-South Avenue B from Prospect Road to Bailey MPUD Entrance (Intermediate Off-Site Creditable)
Hopkins MPUD:	New River Blvd. from Prospect Road to Tyndall Road (Intermediate Off-Site Creditable); and Tyndall Road from New River Blvd. to North-South Avenue B (Intermediate Off-Site Creditable); and Prospect Road from North-South Avenue B to Handcart Road (Intermediate Off-Site Creditable)
Evans Nursery MPUD:	Prospect Road from New River Blvd. to North-South Avenue B (Partially Intermediate Off-Site Creditable and Partially Intermediate On-Site Not Creditable*)
Evans Pasadena MPUD(s):	Keifer Road from Handcart Road to the easternmost subdivision entrance constructed by the Co-Developer (Primary Creditable) (the remaining eastern portion of Keifer Road within Pasadena MPUD(s) shall require right-of-way dedication only); Highlands Blvd. from the southern MPUD boundary to the northernmost subdivision entrance constructed by the Co-

	Developer (Intermediate On-Site Not Creditable*) (the remaining northern portion of Highland Blvd. within Pasadena MPUD(s) shall require right-of-way dedication only); the entirety of the internal roadway south of Keifer Road to the southern MPUD boundary (not creditable*)

- Fee credit for on-site intermediate roadways is subject to VOPH Financial Plan amendment. In the event on-site intermediate roadways are made creditable, then this Exhibit B-1 shall be deemed automatically amended (without further action by the Board or County Administrator) to provide VOPH Development Fee credits for all such intermediate roadways constructed by the Co-Developers. Any Designated VOPH-MPUD which had prior MPUD approval without such on-site intermediate roadway credits shall be updated by PDD through a Non-Substantial Modification, to conform to the VOPH-Financial Plan, as amended, and to provide for such on-site intermediate roadway credits consistent with this DA, without a required application from such previously-approved VOPH-MPUD.

Exhibit C

Initial Phasing Plan for Designated Master Roadway Plan & Developer Utility Pipeline Projects

Design/Permitting:	Commence design/permitting and right-of-way acquisition (if necessary) not later than thirty (30) days after (i)the VOPH-MPUD rezoning final approval and (ii) the closing by the Co-Developer or its Designated VOPH-MPUD Owner have both occurred, for the applicable Designated VOPH-MPUD Project (the "Initial Commencement Date")
Escrow Funding Date:	Not later than thirty (30) days after issuance of the Site Development Permit (or Site Development Placard) for the applicable roadway and/or utility project
Construction:	Commence roadway and/or utility construction not later than twelve (12) months after issuance of the Site Development Permit (or Site Development Placard) for the applicable roadway and/or utility project
Completion:	Complete roadway and/or utility construction not later than eighteen (18) months after commencement of construction for the applicable roadway and/or utility phase. Construction shall be deemed "complete" when the applicable roadway or utility project is open for public use and the applicable Maintenance Guarantee (as defined in the Agreement) has been accepted by the County.

Note: The foregoing schedule shall apply to each separate VOPH-MPUD Master Roadway Pipeline Project and/or Developer Utility Project, which project(s) may be designed, permitted and/or constructed in phases, and may overlap or occur concurrently, in the Co-Developer's discretion, provided that each applicable, individual VOPH-MPUD pipeline project deadline nevertheless is met. The subsequent, actual sequencing of the Master Roadway Pipeline and/or Developer Utility Projects by the Co-Developer or its designee(s) shall not affect the credibility of any Master Roadway Pipeline or Developer Utility Project, as established in each applicable Designated VOPH-MPUD approval or this Agreement. Applicable credits shall be awarded upon the earlier of (i) funding by the applicable Co-Developer of the VOPH Roadway Escrow Account or VOPH Utility Escrow Account, as applicable, or (ii) completion of construction and verification of costs for the Designated Master Roadway Plan Pipeline Project or Developer Utility Project (as applicable), as provided in this Agreement.

Exhibit F
Scope of Engineer Verification Agent Services
for Roadways and Utilities Capital Infrastructure
Villages of Pasadena Hills MPUD Owner Projects

RECITALS

The EVA will review and verify the propriety of requests for third-party disbursement payments, reimbursements, and/or award of fee credits (as applicable) for implementing capital improvement infrastructure described in the "Funding and Escrow Agreement" ("F&EA"), and provide its recommendation to the requestor, Co-Developer, Pasco County, and a Financial Escrow Agent. Within this scope of services, EVA will create submittal requirement checklists, review regular (monthly) electronic submittal packages, maintain public records, and issue acceptance/approval letters to the above parties.

These services will be primarily led by and undertaken by a W.E. Oliver, P.E., LLC sub-Consultant firm, Vanasse, Hangen, Brustlin, Inc., referred to herein as "VHB". W.E. Oliver, P.E., LLC and Vanasse Hangen Brustlin, Inc. are jointly referred to as the "EVA".

SCOPE OF WORK

Task 1: Project Administration
The EVA will prepare project kick-off, quality assurance review, monitoring procedures, regular administration services for communications, project billing, filing and administer the work order assignment through the project term of service.

Up to a bi-monthly basis, EVA will meet by video-conference (e.g. MS Teams, WebEx, ZOOM, etc.) and coordinate with Pasco County, Financial Escrow Agent, Co-Developers, and/or representatives to discuss current progress, explain steps and process of obtaining disbursement, reimbursement, and/or credit reviews, and the role of the EVA.

Task 2: Prepare Typical Disbursement, Reimbursement, and/or Fee Credit Materials
The EVA will coordinate with Pasco County, Financial Escrow Agent, Co-Developers, and/or representatives to create payment disbursement, reimbursement, and fee credit review requirement checklists and define Co-Developer materials required for submittal, process diagrams, and approval letter templates. The EVA will provide a draft copy of the checklist (substantively consistent with the terms of the F&EA) to the County and the Co-Developers for review and comment. The EVA will then revise the checklist based on consolidated comments

received for resubmit. A maximum total of three (3) reviews and revisions will be undertaken. All of the materials will be created using MS Office Suite software.

Co-Developers will be required to submit an official letter that lists the required materials for the EVA to determine the amount of eligible disbursement, reimbursement, or fee credits, as applicable, and include in the package, at a minimum, the following evidence:

A. Co-Developer applicant letter indicating amount of third-party disbursement, reimbursement, or fee credits requested, with amounts segmented by Escrow Account (as needed);
B. Eligibility Criteria Checklist signed by Co-Developer applicant;
C. Co-Developer Applicant Contact information, address, etc.;
D. Installation Segment Location: Location of the applicable capital improvements (e.g. transmission lines are located in the ROW (Name of Road) from X segment to Y Segment, with map);
E. Proof that all improvements adhere to the capital improvements identified in the F&EA;
F. Certified 3rd party (e.g. Co-Developer's Engineer of Record) cost estimate verification for requested disbursement, reimbursement, or fee credit amount;
G. Approved Pasco County sign off of Construction Drawings for the creditable improvements;
H. Land is dedicated or easements are in place for installation of improvements;
I. Proof of Inspection Verification Sign off by Pasco County; and
J. Other criteria as required by EVA to complete reviews for Pasco County and Financial Escrow Agent approvals (consistent with the terms of the F&EA).

Task 3: Receive, Review, and Process Co-Developer Authorization Requests

The EVA will review and document Co-Developer application submittals for third-party disbursements, reimbursements, and/or fee credit awards, as applicable under the F&EA. It is anticipated that thirty (30) Co-Developer verification requests will occur on a no more frequently than monthly basis over the initial three (3) years, and with optional extensions, up to five (5) year anticipated project length.

It is assumed that the applications will occur electronically, will contain all required Task 2 materials, that review correspondence will occur through email, that multiple reviews and issuance of printed deficiency comments will not be typically necessary.

The EVA will prepare and maintain a database (MS Office Suite) that summarizes the review completed for the submitted materials and prepare a document to submit to the County for concurrence review prior to issuance of an acceptance letter to the County and the Escrow Agent.

Upon completed review and acceptance of Co-Developer verification application materials, the EVA will issue a signed and sealed letter to the County and Escrow Agent approving the third-

party disbursement or Co-Developer reimbursement payment from the Escrow Account(s), and/or the recommendation for award of fee credits to the County, as applicable.

The EVA will maintain the submitted materials and record of actions in an organized, electronic filing system per County and Florida Statutes requirements.

SCHEDULE

The EVA will begin performance of the above services on the date written authorization to proceed is received. The schedule is also subject to timely delivery of information required by the Co-Developer and is exclusive of County or other review of interim products. Upon receipt of a complete review request, review and recommendation is expected to be completed within 20 days.

A three (3) year-long project is initially anticipated to complete the Co-Developer projects, but the F&EA provides for two additional one-year extension options. Tasks One and Two services will be commenced upon receipt of Notice to Proceed and confirmation of sufficient Co-Developer application funding. Subsequent Tasks Three and Four services will be undertaken as disbursement, reimbursement, and/or fee credit verification requests are received.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UTD23-0180 **DATE:** 2/21/2023

SUBJECT: Joint Funding Agreement and Budget Amendment Journal No. 1962 - Pasco County, VOPH Master Development Company, LLC, and Galvin Land Services, LLC – $2,557,500.00

REFERENCES: UTD22-0012, PDD23-0005

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: David Allen, Utilities Director

RECOMMENDED BOARD ACTION:

Approve the Joint Funding Agreement between Pasco County, VOPH Master Development Company, LLC, and Galvin Land Services, LLC (collectively referred to as the "VOPH Developers") for the design and construction of water and wastewater infrastructure along Handcart Road. Authorize the Chairman to execute the three originals of the agreement provided and direct Board Records to distribute as set forth under the Distribution section below.

Approve Budget Amendment Journal No. 1962 in the amount of $2,557,500.00.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On October 26, 2021, the County entered into a grant agreement with the Florida Department of Environmental Protection (FDEP) to construct water and wastewater infrastructure improvements along a portion of Handcart Road. The project's purpose is to stimulate economic growth in the area of Pasadena Hills. The grant amount is $6,500,000.00 to fund a portion of the total anticipated cost of the improvements.

On October 25, 2022, the County approved the Villages of Pasadena Hills (VOPH) Global Funding and Escrow Agreement to provide roadway and utility infrastructure inside the VOPH Special Planning Area. The agreement also designated the VOPH Developers as the constructing entity for the Handcart Road utility infrastructure described in the FDEP Grant. The Global Funding Agreement included a provision for a supplemental joint funding agreement, which is the subject of this request, to allocate any excess costs beyond the $6,500,000.00 FDEP Grant.

The Joint Funding Agreement describes and allocates the project design, permitting, and construction costs for water and wastewater infrastructure on Handcart Road from Old Bridge Road to Prospect Road in two segments: the FDEP Grant Segment and the VOPH Developer Segment. Project costs associated with the Grant Segment will be paid by the County, with reimbursement from the FDEP up to the $6,500,000.00 grant amount. The total anticipated construction costs of the water and wastewater infrastructure in the FDEP Grant Segment is $8,457,500.00. The cost differential between the FDEP grant construction allocation of $5,900,000.00 and the total Grant Segment cost is $2,557,500.00.

Costs associated with the VOPH Developers Segment totaling $1,450,000.00 will be funded by the VOPH Developers.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Funding in the amount of $2,557,500.00 will be available for Fiscal Year 2023 upon approval of Budget Amendment Journal No. 1962 in the Water and Wastewater Capital Fund, Water and Wastewater Connection Fees, Handcart Road Water/Wastewater Distribution, Project #22043.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** PEG24-0326 **DATE:** 6/4/2024

SUBJECT: Amendment to County Utility Projects Joint Funding Agreement

REFERENCES: All Villages of Pasadena Hills Planning and Policy Committee (PHPPC) and Board of County Commissioners (BCC) public hearings at 1:30 p.m. in New Port Richey (NPR) or Dade City (DC): PHPPC at DC 4/17/24 and BCC at DC 6/4/24

AGENDA SECTION: Consent Agenda

THRU: Joseph Murphy, Interim Assistant County Administrator

FROM: David Engel, Director Planning and Economic Growth

RECOMMENDED BOARD ACTION:

Approve the amendment to the Funding Agreement. Authorize the Chairman to execute the Amendment and direct Board Records to distribute as set forth under the Distribution Section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On February 21, 2023, the BCC approved, and the parties executed, the County Utility Projects Joint Funding Agreement for Villages of Pasadena Hills (VOPH) Water and Wastewater Infrastructure.

The proposed amendment to the Joint Funding Agreement includes the following main updates:

- Galvin-Harris Land Services, LLC, has completed a feasibility design analysis for the County for the Tyndall Water Line Route, per section 5.e of the agreement; this route has been approved by the County to connect to the Boyette WTP System.
- Pasco County Utilities (PCU) has designated Galvin-Harris Land Services as the construction party for the Tyndall Water Line Route and will initiate the construction design phase for the project.
- As the designated construction party, Galvin will fund the initial design phase, with the County reimbursing Galvin quarterly (as allowed by "Budget Constraints").
- Galvin shall also act as the designated construction party and will be reimbursed on a monthly basis after submitting contractor invoices (subject to "Budget Constraints"). For more information on the "Budget Constraints", see Fiscal Impact section noted below.

FISCAL IMPACT/COST/REVENUE STATEMENT:

The County has budgeted funds allocated for design, permitting and construction for the Boyette WTP System Interconnect as follows: Fiscal Year 2023: $250,000 for design; Fiscal Year 2024: $250,000 for design/permitting; Fiscal Year 2025: $7,000,000 for construction; and FY 2026: $7,000,000 for construction. Each of these Fiscal Year

funding allocations are the respective "Budget Constraints" noted in the Joint Funding Agreement. The funding source is BRU 41505, Water Connection Fees.

DISTRIBUTION:
Board Records to distribute as set forth below:
1. Retain One Original.

2. Mail Two (2) Originals to the applicant

RE: Amendment to County Utility Projects Joint Funding Agreement
C15 PEG24-0326

Dear Sir/Madam:

At the Pasco County Board of County Commissioners meeting of June 4, 2024, the above-mentioned agenda item was approved. Attached is a copy of the document for your files.

Any exhibits related to this document can be viewed by visiting the Pasco County Website as follows: go to www.pascocountyfl.net, scroll down and click on "Transparency", click on "Agendas & Minutes", select the meeting date from the list, click on "Meeting Overview", scroll down to the agenda item number indicated above, and click on the attachment you wish to view.

If you have any questions, please contact the appropriate department or call (352) 521-4274 or (727) 847-2411.

Sincerely,

Kayla Zine
Records Clerk I, Board Records Division
Deputy Clerk
Office of Nikki Alvarez-Sowles, Esq.
Pasco County Clerk & Comptroller

Enclosure

FIRST AMENDMENT TO

COUNTY UTILITY PROJECTS JOINT FUNDING AGREEMENT

VILLAGES OF PASADENA HILLS (VOPH)

WATER AND WASTEWATER INFRASTRUCTURE

THIS FIRST AMENDMENT TO COUNTY UTILITY PROJECTS JOINT FUNDING AGREEMENT FOR VILLAGES OF PASADENA HILLS (VOPH) WATER AND WASTEWATER INFRASTRUCTURE (the "First Amendment"), is made and entered into between Pasco County, Florida, a political subdivision of the State of Florida, by and through its Board of County Commissioners ("BCC") (also referred to as the "County"), and VOPH Master Development Company, LLC, a Florida limited liability company ("VOPH Master") Galvin Land Services, LLC, a Florida limited liability company, and Galvin-Harris Land Services, LLC, a Florida limited liability company ("Galvin") (VOPH Master and Galvin are also referred to as the "Co-Developers"), with reference to the following facts:

A. On February 21, 2023, the BCC approved and the parties executed that certain County Utilities Projects Joint Funding Agreement for Villages of Pasadena Hills (VOPH) Water and Wastewater Infrastructure (the "Agreement").
B. Galvin Land Services, LLC, as one of the Co-Developers under the Agreement, has assigned to Galvin-Harris Land Services, LLC, and Galvin-Harris Land Services, LLC has accepted, all rights and obligations of Galvin Land Services, LLC, pursuant to the Agreement. Henceforth "Galvin" shall refer to Galvin-Harris Land Services, LLC, for all purposes under the Agreement, as now or hereafter as amended.
C. Section 5.e. of the Agreement contemplated multiple alternatives for capacity expansion/upgrade to the County's water treatment system to provide the future water service capacity required pursuant to the Agreement. One such potential system upgrade identified in the Agreement is the transmission infrastructure interconnection to the Boyette WTP (identified as the "Boyette WTP System Interconnect" herein).
D. Section 5.e. of the Agreement also identified various alternative route alignments for the future Boyette WTP System Interconnect.
E. The County has budget funds allocated for design, permitting and construction for the Boyette WTP System Interconnect, as follows: Fiscal Year 2023 $250,000 for design; Fiscal Year 2024 $250,000 for design/permitting; Fiscal Year 2025 $7,000,000 for construction; and FY 2026 $7,000,000 for construction (respectively for each FY, the "Budget Constraint").

Based upon the foregoing recitals and in consideration for the services to be performed and the funds to be expended by the respective parties, the County and the Co-Developers agree as follows:

1. The above recitals are true and correct and are incorporated into this First Amendment.

2. Pursuant to Section 5.e. of the Agreement, Galvin has completed the feasibility design analysis for the County and the County has approved the "Tyndall Water Line Route" as identified in

Section 5.e. of the Agreement, as the route alignment for the Boyette WTP System Interconnect.

3. Galvin as the County's designated Constructing Party under the Agreement shall retain a qualified engineering design consultant (the "Consultant") and shall promptly initiate the "Construction Design Phase" for the Tyndall Water Line Route. Galvin shall advance the costs for the Consultant's design services and the County shall reimburse Galvin on a quarterly basis for the design costs incurred with the Consultant for the Construction Design Phase, subject to the Budget Constraint. PCU agrees to review the Construction Design Phase plans in a timely manner and shall have the final authority to approve the construction design plans and engineer's opinion of probable cost for the Boyette WTP System Interconnect (inclusive of transmission lines, booster pump(s), and other required appurtenances). To facilitate the County's budget process, the Consultant shall provide (i) sixty percent (60%) design plans with Opinions of Probable Cost (OPC's) for County review and budgeting purposes, and then (ii) final design plans with updated OPC's for County review, prior to solicitation of formal bids for the Tyndall Water Line Route. In addition, the County may require one or more other third-party developers (other than a Co-Developer under this Agreement) to construct one or more segment portion(s) of the Tyndall Water Line Route incident to development of other projects, in which event the following procedures shall apply:
    a. Promptly upon execution of a development agreement or other binding written commitment by such third-party developer to design and/or construct any portion of the Tyndall Water Line Route, the County shall provide a copy of such written commitment to Galvin and the Consultant. At such time, the consultant shall modify the pending design plans for the Tyndall Water Line Route to incorporate such third-party's County-approved plans and shall re-submit the master plans as part of the Construction Design Phase, for County review and approval.
    b. Any segment or portion of the Tyndall Water Line Route approved by the County for design and/or construction by a third-party developer than shall be excluded from the Co-Developer's responsibility under this Agreement, and this Agreement then shall apply only to such remaining work for the Tyndall Water Line Route to be designed and constructed by the Co-Developer hereunder. In addition, the County shall then have direct responsibility (rather than the Co-Developer) for the performance by such third-party developer for such portion or segment which is excluded from the Co-Developer's work under this Agreement.
    c. Not later than sixty (60) days prior to the date that the Co-Developer intends to solicit contractor bids for the Tyndall Water Line Route based on the final design plans approved by the County, the County shall confirm in writing the specific segments or portions of the Tyndall Water Line Route which shall be constructed by other third-party developers, if any. The Co-Developer shall rely upon such final determination by the County and then shall proceed with the construction of the Tyndall Water Line Route as directed by the County and shall have responsibility for such County-designated portion, only. No further revisions then shall be made by the County pending completion of the Co-Developer's work.

4. Promptly after the County's approval of the final Construction Design Phase plans pursuant to Section 3.c. above, Galvin as the County's designated Constructing Party shall prepare bid packages and procure bids from qualified construction entities for the portion of the Boyette WTP Interconnect as determined by the County pursuant to Section 3.c. above and pursuant to the procedures set forth in the Agreement. Upon approval of the bid selection by PCU, the following procedures shall apply:

    a. Galvin as the County's designated Constructing Party shall administer the construction contract(s) and shall advance all "Costs of Construction" (inclusive of right-of-way acquisition, permitting, construction, testing, bond and insurance, and related contract costs) for the Boyette WTP Interconnect, which will include the water transmission line extension via Tyndall Road from Handcart Road to Curley Road, together with the booster pump station and other appurtenances as approved by the County in the Construction Design Phase, less only any segment(s) or portion(s) previously allocated by the County to a third-party developer pursuant to Section 3.c., above.
    b. The County shall reimburse Galvin monthly for all Costs of Construction based upon contractor invoices, subject to the Budget Constraint.
    c. In the event the Budget Constraint limits reimbursement for any given budget period, such reimbursement shall be deferred to the next budget period.
    d. In the event the aggregate costs for feasibility design, construction design, and costs of construction for the Boyette WTP Interconnect exceed the Budget Constraint, then in such event Galvin agrees to fund such budget shortfall in exchange for County reimbursement not later than December 31, 2027.

5. The County acknowledges that reclaim water capacity is not presently available for the co-Developers' VOPH-MPUD projects. Consequently, in consideration for the services of Galvin as the County's Constructing Party with respect to the Boyette WTP System Interconnect as set forth above, the County agrees that potable water may be used for irrigation purposes for any of the Co-Developers' Designated VOPH-MPUD projects (on an interim basis, only) pending the availability of reclaim water service for such projects. Once the County provides reclaim water service to a Co-Developer's Designated VOPH-MPUD project, this interim provision shall terminate as to such VOPH-MPUD project.

6. Notwithstanding any other provision of this Agreement, all deadlines set forth herein providing for reimbursement and/or funding by the County under this First Amendment or the Agreement are subject to the terms of the Local Government Prompt Payment Act (Sections 218.70 through 218.80, Florida Statutes), provided, however, Co-Developers hereby waive the reimbursement deadlines in the Local Government Prompt Payment Act to the extent any specific reimbursement request exceeds the amount budgeted by the County for reimbursement for the fiscal year in which the reimbursement request is submitted ("Excess Reimbursement Amount"); in such event, the County's reimbursement deadline under the Local Government Prompt Payment Act for the Excess Reimbursement Amount shall begin on October 1 of the fiscal year in which the County has budgeted sufficient funds for

reimbursement of the Excess Reimbursement Amount. Furthermore, nothing in this First Amendment or the Agreement shall be construed as a direct or indirect pledge of the County's ad valorem taxing authority, and the Co-Developers shall not have any authority to compel the County to increase ad valorem taxes to comply with the terms of the Agreement or this First Amendment.

7. No provision of this First Amendment shall be deemed to alter, amend, or abrogate the respective commitments made by the parties in the Agreement, as this First Amendment is intended and shall serve solely to facilitate the County's design and construction for the Boyette WTP System Interconnect as contemplated by Section 5.e. of the Agreement. Except as expressly set forth herein, all terms and conditions of the Agreement shall remain in full force and effect.

Wherefore, the parties have executed this First Amendment effective as of the date approved by the BCC, below.

COUNTY COMMISSIONERS ORGANIZED 1887 PASCO COUNTY FLORIDA

ATTEST:

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UTD25-0085 **DATE:** 12/10/2024

SUBJECT: Second Amendment to County Utility Projects Joint Funding Agreement and Budget Amendment Journal No. 214 – Pasco County, VOPH Master Development Company, LLC and Gavin-Harris Land Services, LLC – $7,176,912.42

REFERENCES: VOPH Planning and Policy Committee File No. 2024-1749, UT24-0071, UTD23-0180, UT23-0245, PEG24-0326

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: Adolfo Gonzalez, Utilities Engineering and Contract Management Director

RECOMMENDED BOARD ACTION:

Approve the Second Amendment to the County Utility Projects Joint Funding Agreement (JFA) between Pasco County, VOPH Master Development Company, LLC, Galvin-Harris Land Services, LLC (collectively referred to as the Co-Developers), for the final water and wastewater infrastructure budget of $18,534,412.42, which includes a $16,234,412.42 for the County's share and $2,300,000.00 for the Co-Developers' share, for the design and construction services related to the Handcart Road segment described in the Joint Funding Agreement. Authorize the Chairman to execute the three originals of the agreement provided and direct Board Records to distribute as set forth under the Distribution section below.

Approve Budget Amendment Journal No. 214 in the amount of $7,176,913.00.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

The Second Amendment will revise the final water and wastewater infrastructure budget for the design and construction services related to the Handcart Road segment described in the Joint Funding Agreement (the "Agreement"). The amendment is limited to revising the anticipated cost of water and wastewater infrastructure for the County and Co-Developer funded segments currently under construction on Handcart Road.

On October 25, 2022, the Board of County Commissioners (BCC) approved the Villages of Pasadena Hills (VOPH) Global Funding and Escrow Agreement to provide infrastructure for the VOPH planning area. The Agreement allows Pasco County and the Co-Developers to mutually agree to enter into an agreement to induce the Co-Developers and their designated VOPH Master Planned Unit Development (MPUD) Owner(s) to privately fund, design, permit, and construct designated roadway and utilities infrastructure projects within the VOPH planning area.

On December 5, 2023, the BCC ratified Amendment No. 1 to Agreement No. LPA0206 Standard Grant Agreement with the State of Florida Department of Environmental Protection for the design and construction of water and wastewater infrastructure along Handcart Road up to a Not to Exceed (NTE) grant reimbursement amount of $6,500,000.00.

On February 21, 2023, the County approved a Joint Funding Agreement (JFA) between

Pasco County and the Co-Developers, and a budget amendment for the design and construction of water and wastewater infrastructure along Handcart Road. Project costs associated with the FDEP Grant Segment will be paid by the County, with reimbursement from the FDEP up to the $6,500,000.00 grant amount.

On March 21, 2023, the County approved to reallocate the amount approved in Fiscal Year 2022 for the FDEP Standard Grant Agreement No. LPA0206 in the NTE amount of $6,500,000.00 for FY 2023, resulting in a cumulative NTE amount of $9,057,500.00. The amount associated with the FDEP grant includes engineering management services by Ardurra Group, Inc., the County's Owner's Representative.

On June 4, 2024, the BCC approved, and the parties executed, the First Amendment to the Agreement designating the constructing entity for the additional County funded water infrastructure improvements to be designed and constructed on Tyndall Road in VOPH.

The Utilities Engineering and Contract Management Department, with concurrence from the Purchasing Department, requests approval to increase the existing contract by $7,176,912.42, resulting in a cumulative NTE amount of $16,234,412.42 to the existing contract with the Co-Developers for the water and wastewater infrastructure for the design and construction services related to the Handcart Road segment described in the Joint Funding Agreement.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding in the amount of $7,176,912.42 will be available in FY 2025 upon approval of Budget Amendment Journal No. 214 in the Water and Wastewater Capital Fund, Water Connection Fees and Wastewater Connection Fees, Project Number 22043.

SECOND AMENDMENT TO

COUNTY UTILITY PROJECTS JOINT FUNDING AGREEMENT

VILLAGES OF PASADENA HILLS (VOPH)

WATER AND WASTEWATER INFRASTRUCTURE

THIS SECOND AMENDMENT TO COUNTY UTILITY PROJECTS JOINT FUNDING AGREEMENT FOR VILLAGES OF PASADENA HILLS (VOPH) WATER AND WASTEWATER INFRASTRUCTURE (the "Second Amendment"), is made and entered into between Pasco County, Florida, a political subdivision of the State of Florida, by and through its Board of County Commissioners ("BCC") (also referred to as the "County"), and VOPH Master Development Company, LLC, a Florida limited liability company ("VOPH Master"), and Galvin-Harris Land Services, LLC, a Florida limited liability company ("Galvin") (VOPH Master and Galvin are also referred to as the "Co-Developers"), with reference to the following facts:

A. On February 21, 2023, the BCC approved and the parties executed that certain County Utility Projects Joint Funding Agreement for Villages of Pasadena Hills (VOPH) Water and Wastewater Infrastructure (the "Agreement").
B. On June 6, 2024, the BCC approved and the parties executed that certain First Amendment to County Utility Projects Joint Funding Agreement (the "First Amendment").
C. Section 4.c of the Agreement contemplated a preliminary wastewater infrastructure budget for the Handcart Road Segment as further described in Exhibit C of the Agreement, subject to the final contract amounts for the respective segments.
D. Section 5.c of the Agreement contemplated a preliminary water infrastructure budget for the Handcart Road Segment as further described in Exhibit D of the Agreement, subject to the final contract amounts for the respective segments.

Based upon the foregoing recitals and in consideration for the services to be performed and the funds to be expended by the respective parties, the County and the Co-Developers agree as follows:

1. The above recitals are true and correct and are incorporated into this Second Amendment.

2. The final wastewater infrastructure budget for the Handcart Road Segment, allocated between the County and the Co-Developers pursuant to Section 4(b) of the Agreement, is attached hereto as Exhibit C.

3. The final water infrastructure budget for the Handcart Road Segment, allocated between the County and the Co-Developers pursuant to Section 5(b) of the Agreement, is attached hereto as Exhibit D.

4. Nothing in this Second Amendment, the Agreement, or the First Amendment shall be construed as a direct or indirect pledge of the County's ad valorem taxing authority, and the

Co-Developers shall not have any authority to compel the County to increase ad valorem taxes to comply with the terms of the Agreement, the First Amendment, or this Second Amendment.

5. No provision of this Second Amendment shall be deemed to alter, amend, or abrogate the respective commitments made by the parties in the Agreement or the First Amendment, as this Second Amendment is intended and shall serve solely to increase the estimated wastewater and water infrastructure budgets contemplated in Sections 4.c and 5.c, respectively, of the Agreement. Except as expressly set forth herein, all terms and conditions of the Agreement shall remain in full force and effect.

Wherefore, the parties have executed this Second Amendment effective as of the date approved by the BCC, below.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UT24-0071 **DATE:** 12/5/2023

SUBJECT: Amendment No. 1 to Agreement No. LPA0206 Standard Grant Agreement – State of Florida Department of Environmental Protection – Pasco County Handcart Road Water and Wastewater – No Funding Required

REFERENCES: NI23-0890

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: Adolfo Gonzalez, Utilities Engineering and Contract Management Director

RECOMMENDED BOARD ACTION:
Ratify and confirm contract extension of Amendment No. 1 to Agreement No. LPA0206 between the Florida Department of Environmental Protection (FDEP) and Pasco County that was signed by the County Administrator and FDEP on May 19, 2023, for the Handcart Road Water and Wastewater Grant.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:
The County is cooperating with the Village of Pasadena Hills Developers to design and construct water and sewer infrastructure along Handcart Road from Old Bridge Road to Prospect Road. Design of the pipelines is complete and construction is expected to commence this winter. The design of the water main booster pump station is 30% complete, which will allow the contractor to purchase long-lead time components while the remainder of the design is completed. The project will be funded by a combination of grant funds and Water and Wastewater Capital funds.

The FDEP grant was set to expire on March 31, 2024. The County requested a time extension to allow sufficient time to complete design, purchase long-lead time components and construct the improvements. The new revised grant expiration date is March 31, 2026.

The County Administrator and the FDEP approved the Amendment on May 19, 2023. However, the Amendment should have been executed by the Board of County Commissioners rather than the County Administrator to comply with the signature approval thresholds in the current Purchasing Policy.

FISCAL IMPACT/COST/REVENUE STATEMENT:
No funding is required for this action.

DISTRIBUTION:
Not applicable.

The County is cooperating with the VOPH developers to design and construct water and sewer infrastructure along Handcart Road from Old Bridge Road to Prospect Road. Design is at 60% complete and is expected to be completed this summer. Most of the project will be funded through a grant from the Florida Department of Environmental Protection (FDEP Grant No. LPA0206).

The FDEP grant expires on March 31, 2024. The County is requesting a time extension to allow sufficient time to complete design, purchase long lead components and construct the improvements. The new revised grant expiration date is March 31, 2026.

Enclosed is the original Grant and Amendment 1. We recommend approval of the time extension request defined in Amendment 1. Please sign on page 2 of the document at your earliest convenience.

AMENDMENT NO. 1
TO AGREEMENT NO. LPA0206
BETWEEN
FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION
AND
PASCO COUNTY

This Amendment to Agreement No. LPA0206 (Agreement) is made by and between the Department of Environmental Protection (Department), an agency of the State of Florida, and Pasco County (Grantee), on the date last signed below.

WHEREAS, the Department entered into the Agreement with the Grantee for Pasco County Handcart Road Water and Wastewater (Project), effective December 21, 2021; and,

WHEREAS, the Grantee has requested an extension of the Agreement due to COVID related production delay; and,

WHEREAS, the parties have agreed to amend the Agreement as set forth herein.

NOW THEREFORE, the parties agree as follows:

1. Section 3. of the Standard Grant Agreement is hereby revised to change the Date of Expiration to March 31, 2026. The Department and the Grantee shall continue to perform their respective duties during this extension period pursuant to the same terms and conditions provided in the Agreement.

2. Attachment 3, Grant Work Plan, is hereby deleted in its entirety and replaced with Attachment 3-1, Revised Grant Work Plan, as attached to this Amendment and hereby incorporated into the Agreement. All references in the Agreement to Attachment 3 shall hereinafter refer to Attachment 3-1, Revised Grant Work Plan.

3. All other terms and conditions of the Agreement remain in effect. If and to the extent that any inconsistency may appear between the Agreement and this Amendment, the provisions of this Amendment shall control.

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

The parties agree to the terms and conditions of this Amendment and have duly authorized their respective representatives to sign it on the dates indicated below.

ATTACHMENT 3-1
REVISED GRANT WORK PLAN

PROJECT TITLE: Pasco County Handcart Road Water and Wastewater

PROJECT LOCATION: The Project will be located in the Pasadena Hills area within Pasco County; Lat/Long (28.2811, -82.2455). See Figure 1 for a location map.

PROJECT BACKGROUND: The project will provide water and wastewater infrastructure improvements to stimulate economic growth in a currently undeveloped area of Pasadena Hills, a portion of central Pasco County.

PROJECT DESCRIPTION: Pasco County (Grantee) will construct a water and wastewater distribution system including a piping system and appurtenances, a lift station, restoration, project management, and all work necessary to complete the project.

The Grantee does not anticipate that the funding under this Agreement will result in a fully completed project, so this Agreement will cover a portion of the work.

TASKS: All documentation should be submitted electronically unless otherwise indicated.

Task #1: Design and Permitting

Deliverables: The Grantee will complete design of the water and wastewater distribution system and obtain all necessary permits for construction of the project including construction plans and specifications.

Documentation: The Grantee will submit: 1) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 2) a summary of design activities to date, indicating the percentage of design completion for the time period covered in the payment request. For the final documentation, the Grantee will also submit a copy of the design completed with the funding provided for this task and a list of all required permits identifying issue dates and issuing authorities.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

Task #2: Construction

Deliverables: The Grantee will construct water and wastewater distribution system in accordance with the construction contract documents prepared for the project.

Documentation: The Grantee will submit 1) a copy of the final design; 2) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 3) a signed Engineer's Certification of Payment Request.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

PROJECT TIMELINE & BUDGET DETAIL:

The tasks must be completed by, and all documentation received by, the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below.

Task No.	Task Title	Budget Category	Grant Amount	Task Start Date	Task End Date
1	Design and Permitting	Contractual Services	$600,000	07/01/2021	09/30/2025
2	Construction	Contractual Services	$5,900,000	07/01/2021	09/30/2025
		Total:	$6,500,000		

Note that, per Section 8.h. of Attachment 1 in the Agreement, authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the Department if the Legislature reduces or eliminates appropriations. Extending the contract end date carries the risk that funds for this project may become unavailable in the future. This should be a consideration for the Grantee with this and future requests for extension.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UT23-0245 **DATE:** 3/21/2023

SUBJECT: Budget Amendment Journal No. 924 and Purchasing Approval to Reallocate Fiscal Year 2022 Approved Amount for Fiscal Year 2023 – Agreement No. LPA0206 Standard Grant Agreement, State of Florida Department of Environmental Protection – Pasco County Handcart Road Water and Wastewater – $6,841,104.00

REFERENCES: UTD22-0012, UTD22-0263, PDD23-0005, UTD23-0180

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: David Allen, Utilities Director

RECOMMENDED BOARD ACTION:

Approve purchasing approval to reallocate Fiscal Year (FY) 2022 approved amount for the State of Florida Department of Environmental Protection (FDEP) Standard Grant Agreement, Pasco County Handcart Road Water and Wastewater Agreement No. LPA0206, in the Not To Exceed (NTE) amount of $6,500,000.00 for FY 2023.

Approve Budget Amendment Journal No. 924 in the amount of $341,104.00 for FY 2023.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On October 26, 2021, the County entered into a $6,500,000.00 grant agreement with the FDEP to construct water and wastewater infrastructure improvements along a portion of Handcart Road. The project's purpose is to stimulate economic growth in the area of Pasadena Hills.

On October 25, 2022, the County approved the Villages of Pasadena Hills (VOPH) Global Funding and Escrow Agreement to provide roadway and utility infrastructure inside the VOPH Special Planning Area. The agreement also designated the VOPH Developers as the constructing entity for the Handcart Road utility infrastructure described in the FDEP Grant. The Global Funding Agreement included a provision for a supplemental joint funding agreement to allocate any excess costs beyond the $6,500,000.00 FDEP Grant.

On February 21, 2023, the County approved a Joint Funding Agreement between Pasco County, VOPH Master Development Company, LLC, and Galvin Land Services, LLC (collectively referred to as the “VOPH Developers”) and budget amendment for the design and construction of water and wastewater infrastructure along Handcart Road. Project costs associated with the FDEP Grant Segment will be paid by the County, with reimbursement from the FDEP up to the $6,500,000.00 grant amount.

On April 19, 2022, the County approved Task Order No. 1-22 with Ardurra Group, Inc. (Ardurra), for engineering management services for the Handcart Road Utility Improvements Program Management project in the NTE amount of $343,688.00, $2,585.00 was expended in FY 2022 leaving a remaining amount of $341,103.00 on Task Order No. 1-22.

The Utilities Department, with concurrence from the Purchasing Department, requests approval to reallocate the FY 2022 approved amount with FDEP for Pasco County Handcart Road Water and

Wastewater in the NTE amount of $6,500,000.00 for FY 2023 resulting in the cumulative NTE amount of $9,057,500.00 for the contract term expiring on March 31, 2024. This amount associated with FDEP includes the full value of the construction and design award for the grant as well as engineering and project management services provided by Ardurra, as described above.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding in the amount of $6,500,000.00 is available in FY 2023 in the Water and Wastewater Capital Fund, Water and Wastewater Connection Fees, Utilities Capital Improvement, Project 22043, Grant # G22001.

Funding in the amount of $341,103.00 will be available for Fiscal Year 2023 upon approval of Budget Amendment Journal No. 924 in the Water and Wastewater Capital Fund, Water and Wastewater Connection Fees, Project 22043.

DISTRIBUTION:
Not applicable.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UTD22-0012 **DATE:** 10/26/2021

SUBJECT: Agreement No. LPA0206 Standard Grant Agreement – State of Florida Department of Environmental Protection – Pasco County Handcart Road Water and Wastewater; Budget Amendment Journal No. 3; and Recognize Revenue in the Water & Wastewater Capital Fund – $6,500,000.00

REFERENCES: Not Applicable

AGENDA SECTION: Consent Agenda

THRU: Michael Carballa, Assistant County Administrator

FROM: Charles Cullen, Utilities Engineering Director

RECOMMENDED BOARD ACTION:

Approve the Florida Department of Environmental Protection (FDEP) Standard Grant Agreement, Pasco County Handcart Road Water and Wastewater Agreement No. LPA0206 in the amount of $6,500,000.00. Authorize the Chairman to execute one original of the Standard Grant Agreement provided, and direct Board Records to Distribute as set forth under the distribution section below.

Approve Budget Amendment Journal No. 3 in the amount of $6,500,000.00 for Fiscal Year (FY) 2022.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

Pasco County has been awarded through FDEP, $6,500,000.00 to provide water and wastewater infrastructure improvements to stimulate economic growth in the currently underdeveloped area of Pasadena Hills, a portion of central Pasco County.

Pasco County will construct a water and wastewater distribution system including a piping system an d appurtenances, a lift station, restoration, project management, and all work necessary to complete the project as outlined in the Grant Work Plan in Attachment 3 of the Standard Grant Agreement.

The Standard Grant Agreement begins upon execution and expires on March 31, 2024. This grant award does not require any match from Pasco County. This is a cost-reimbursement agreement.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Upon approval of Budget Amendment Journal No. 3, funding in the amount of $6,500,000.00 will be budgeted and available in the Water & Wastewater Capital Fund, Utilities Engineering & Contract Management Department for FY 2022.

DISTRIBUTION:

Board Records to distribute as set forth below:
1. Retain the original Standard Grant Agreement.
2. Electronically to: Joshua Wood, Assistant Director, Public Infrastructure Fiscal and Business Administration Department – jwood@pascocountyfl.net. The Standard Grant Agreement will be sent

electronically to the FDEP and upon execution, a fully executed .pdf will be sent electronically to Board Records.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STANDARD TERMS AND CONDITIONS
APPLICABLE TO GRANT AGREEMENTS

ATTACHMENT 1

1. Entire Agreement.

This Grant Agreement, including any Attachments and Exhibits referred to herein and/or attached hereto (Agreement), constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, whether written or oral, with respect to such subject matter. Any terms and conditions included on Grantee's forms or invoices shall be null and void.

2. Grant Administration.

a. Order of Precedence. If there are conflicting provisions among the documents that make up the Agreement, the order of precedence for interpretation of the Agreement is as follows:
   i. Standard Grant Agreement
   ii. Attachments other than Attachment 1, in numerical order as designated in the Standard Grant Agreement
   iii. Attachment 1, Standard Terms and Conditions
   iv. The Exhibits in the order designated in the Standard Grant Agreement

b. All approvals, written or verbal, and other written communication among the parties, including all notices, shall be obtained by or sent to the parties' Grant Managers. All written communication shall be by electronic mail, U.S. Mail, a courier delivery service, or delivered in person. Notices shall be considered delivered when reflected by an electronic mail read receipt, a courier service delivery receipt, other mail service delivery receipt, or when receipt is acknowledged by recipient. If the notice is delivered in multiple ways, the notice will be considered delivered at the earliest delivery time.

c. If a different Grant Manager is designated by either party after execution of this Agreement, notice of the name and contact information of the new Grant Manager will be submitted in writing to the other party and maintained in the respective parties' records. A change of Grant Manager does not require a formal amendment or change order to the Agreement.

d. This Agreement may be amended, through a formal amendment or a change order, only by a written agreement between both parties. A formal amendment to this Agreement is required for changes which cause any of the following:
   (1) an increase or decrease in the Agreement funding amount;
   (2) a change in Grantee's match requirements;
   (3) a change in the expiration date of the Agreement; and/or
   (4) changes to the cumulative amount of funding transfers between approved budget categories, as defined in Attachment 3, Grant Work Plan, that exceeds or is expected to exceed twenty percent (20%) of the total budget as last approved by Department.
   A change order to this Agreement may be used when:
   (1) task timelines within the current authorized Agreement period change;
   (2) the cumulative transfer of funds between approved budget categories, as defined in Attachment 3, Grant Work Plan, are less than twenty percent (20%) of the total budget as last approved by Department;
   (3) changing the current funding source as stated in the Standard Grant Agreement; and/or
   (4) fund transfers between budget categories for the purposes of meeting match requirements.
   This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.

e. All days in this Agreement are calendar days unless otherwise specified.

3. Agreement Duration.

The term of the Agreement shall begin and end on the dates indicated in the Standard Grant Agreement, unless extended or terminated earlier in accordance with the applicable terms and conditions. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement, unless otherwise specified in Attachment 2, Special Terms and Conditions. However, work performed prior to the execution of this Agreement may be reimbursable or used for match purposes if permitted by the Special Terms and Conditions.

4. Deliverables.

The Grantee agrees to render the services or other units of deliverables as set forth in Attachment 3, Grant Work Plan. The services or other units of deliverables shall be delivered in accordance with the schedule and at the pricing outlined in the Grant Work Plan. Deliverables may be comprised of activities that must be completed prior to Department making payment on that deliverable. The Grantee agrees to perform in accordance with the terms and conditions set forth in this Agreement and all attachments and exhibits incorporated by the Standard Grant Agreement.

5. Performance Measures.

The Grantee warrants that: (1) the services will be performed by qualified personnel; (2) the services will be of the kind and quality described in the Grant Work Plan; (3) the services will be performed in a professional and workmanlike manner in accordance with industry standards and practices; (4) the services shall not and do not knowingly infringe upon the intellectual property rights, or any other proprietary rights, of any third party; and (5) its employees, subcontractors, and/or subgrantees shall comply with any security and safety requirements and processes, if provided by Department, for work done at the Project Location(s). The Department reserves the right to investigate or inspect at any time to determine whether the services or qualifications offered by Grantee meet the Agreement requirements. Notwithstanding any provisions herein to the contrary, written acceptance of a particular deliverable does not foreclose Department's remedies in the event deficiencies in the deliverable cannot be readily measured at the time of delivery.

6. Acceptance of Deliverables.

a. Acceptance Process. All deliverables must be received and accepted in writing by Department's Grant Manager before payment. The Grantee shall work diligently to correct all deficiencies in the deliverable that remain outstanding, within a reasonable time at Grantee's expense. If Department's Grant Manager does not accept the deliverables within 30 days of receipt, they will be deemed rejected.

b. Rejection of Deliverables. The Department reserves the right to reject deliverables, as outlined in the Grant Work Plan, as incomplete, inadequate, or unacceptable due, in whole or in part, to Grantee's lack of satisfactory performance under the terms of this Agreement. The Grantee's efforts to correct the rejected deliverables will be at Grantee's sole expense. Failure to fulfill the applicable technical requirements or complete all tasks or activities in accordance with the Grant Work Plan will result in rejection of the deliverable and the associated invoice. Payment for the rejected deliverable will not be issued unless the rejected deliverable is made acceptable to Department in accordance with the Agreement requirements. The Department, at its option, may allow additional time within which Grantee may remedy the objections noted by Department. The Grantee's failure to make adequate or acceptable deliverables after a reasonable opportunity to do so shall constitute an event of default.

7. Financial Consequences for Nonperformance.

a. Withholding Payment. In addition to the specific consequences explained in the Grant Work Plan and/or Special Terms and Conditions, the State of Florida (State) reserves the right to withhold payment when the Grantee has failed to perform/comply with provisions of this Agreement. None of the financial consequences for nonperformance in this Agreement as more fully described in the Grant Work Plan shall be considered penalties.

b. Corrective Action Plan. If Grantee fails to correct all the deficiencies in a rejected deliverable within the specified timeframe, Department may, in its sole discretion, request that a proposed Corrective Action Plan (CAP) be submitted by Grantee to Department. The Department requests that Grantee specify the outstanding deficiencies in the CAP. All CAPs must be able to be implemented and performed in no more than sixty (60) calendar days.

    i. The Grantee shall submit a CAP within ten (10) days of the date of the written request from Department. The CAP shall be sent to the Department's Grant Manager for review and approval. Within ten (10) days of receipt of a CAP, Department shall notify Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, Grantee shall have ten (10) days from receipt of Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above may result in Department's termination of this Agreement for cause as authorized in this Agreement.

    ii. Upon Department's notice of acceptance of a proposed CAP, Grantee shall have ten (10) days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department does not relieve Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, Department shall retain the right to require additional or further remedial steps, or to terminate this Agreement for failure to perform. No actions approved by Department or steps taken by Grantee shall preclude Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement

the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to Department as requested by Department's Grant Manager.

iii. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by Department may result in termination of the Agreement.

8. Payment.

a. Payment Process. Subject to the terms and conditions established by the Agreement, the pricing per deliverable established by the Grant Work Plan, and the billing procedures established by Department, Department agrees to pay Grantee for services rendered in accordance with Section 215.422, Florida Statutes (F.S.).

b. Taxes. The Department is exempted from payment of State sales, use taxes and Federal excise taxes. The Grantee, however, shall not be exempted from paying any taxes that it is subject to, including State sales and use taxes, or for payment by Grantee to suppliers for taxes on materials used to fulfill its contractual obligations with Department. The Grantee shall not use Department's exemption number in securing such materials. The Grantee shall be responsible and liable for the payment of all its FICA/Social Security and other taxes resulting from this Agreement.

c. Maximum Amount of Agreement. The maximum amount of compensation under this Agreement, without an amendment, is described in the Standard Grant Agreement. Any additional funds necessary for the completion of this Project are the responsibility of Grantee.

d. Reimbursement for Costs. The Grantee shall be paid on a cost reimbursement basis for all eligible Project costs upon the completion, submittal, and approval of each deliverable identified in the Grant Work Plan. Reimbursement shall be requested on Exhibit C, Payment Request Summary Form. To be eligible for reimbursement, costs must be in compliance with laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures, which can be accessed at the following web address: https://www.myfloridacfo.com/Division/AA/Manuals/documents/ReferenceGuideforStateExpenditures.pdf.

e. Invoice Detail. All charges for services rendered or for reimbursement of expenses authorized by Department pursuant to the Grant Work Plan shall be submitted to Department in sufficient detail for a proper pre-audit and post-audit to be performed. The Grantee shall only invoice Department for deliverables that are completed in accordance with the Grant Work Plan.

f. Interim Payments. Interim payments may be made by Department, at its discretion, if the completion of deliverables to date have first been accepted in writing by Department's Grant Manager.

g. Final Payment Request. A final payment request should be submitted to Department no later than sixty (60) days following the expiration date of the Agreement to ensure the availability of funds for payment. However, all work performed pursuant to the Grant Work Plan must be performed on or before the expiration date of the Agreement.

h. Annual Appropriation Contingency. The State's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of Department if the Legislature reduces or eliminates appropriations.

i. Interest Rates. All interest rates charged under the Agreement shall be calculated on the prevailing rate used by the State Board of Administration. To obtain the applicable interest rate, please refer to: www.myfloridacfo.com/Division/AA/Vendors/default.htm.

j. Refund of Payments to the Department. Any balance of unobligated funds that have been advanced or paid must be refunded to Department. Any funds paid in excess of the amount to which Grantee or subgrantee is entitled under the terms of the Agreement must be refunded to Department. If this Agreement is funded with federal funds and the Department is required to refund the federal government, the Grantee shall refund the Department its share of those funds.

9. Documentation Required for Cost Reimbursement Grant Agreements and Match.

If Cost Reimbursement or Match is authorized in Attachment 2, Special Terms and Conditions, the following conditions apply. Supporting documentation must be provided to substantiate cost reimbursement or match requirements for the following budget categories:

a. Salary/Wages. Grantee shall list personnel involved, position classification, direct salary rates, and hours spent on the Project in accordance with Attachment 3, Grant Work Plan in their documentation for reimbursement or match requirements.

b. Overhead/Indirect/General and Administrative Costs. If Grantee is being reimbursed for or claiming match for multipliers, all multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by Grantee exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate.

c. Contractual Costs (Subcontractors). Match or reimbursement requests for payments to subcontractors must be substantiated by copies of invoices with backup documentation identical to that required from Grantee. Subcontracts which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours spent on the Project. All eligible multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by any subcontractor exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate. Nonconsumable and/or nonexpendable personal property or equipment costing $5,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in Chapters 273 and/or 274, F.S., and Chapter 69I-72, Florida Administrative Code (F.A.C.) and/or Chapter 69I-73, F.A.C., as applicable. The Grantee shall be responsible for maintaining appropriate property records for any subcontracts that include the purchase of equipment as part of the delivery of services. The Grantee shall comply with this requirement and ensure its subcontracts issued under this Agreement, if any, impose this requirement, in writing, on its subcontractors.
    i. For fixed-price (vendor) subcontracts, the following provisions shall apply: The Grantee may award, on a competitive basis, fixed-price subcontracts to consultants/contractors in performing the work described in Attachment 3, Grant Work Plan. Invoices submitted to Department for fixed-price subcontracted activities shall be supported with a copy of the subcontractor's invoice and a copy of the tabulation form for the competitive procurement process (e.g., Invitation to Bid, Request for Proposals, or other similar competitive procurement document) resulting in the fixed-price subcontract. The Grantee may request approval from Department to award a fixed-price subcontract resulting from procurement methods other than those identified above. In this instance, Grantee shall request the advance written approval from Department's Grant Manager of the fixed price negotiated by Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor. Upon receipt of Department Grant Manager's approval of the fixed-price amount, Grantee may proceed in finalizing the fixed-price subcontract.
    ii. If the procurement is subject to the Consultant's Competitive Negotiation Act under section 287.055, F.S. or the Brooks Act, Grantee must provide documentation clearly evidencing it has complied with the statutory or federal requirements.

d. Travel. All requests for match or reimbursement of travel expenses shall be in accordance with Section 112.061, F.S.

e. Direct Purchase Equipment. For the purposes of this Agreement, Equipment is defined as capital outlay costing $5,000 or more. Match or reimbursement for Grantee's direct purchase of equipment is subject to specific approval of Department, and does not include any equipment purchased under the delivery of services to be completed by a subcontractor. Include copies of invoices or receipts to document purchases, and a properly completed Exhibit B, Property Reporting Form.

f. Rental/Lease of Equipment. Match or reimbursement requests for rental/lease of equipment must include copies of invoices or receipts to document charges.

g. Miscellaneous/Other Expenses. If miscellaneous or other expenses, such as materials, supplies, non-excluded phone expenses, reproduction, or mailing, are reimbursable or available for match or reimbursement under the terms of this Agreement, the documentation supporting these expenses must be itemized and include copies of receipts or invoices. Additionally, independent of Grantee's contract obligations to its subcontractor, Department shall not reimburse any of the following types of charges: cell phone usage; attorney's fees or court costs; civil or administrative penalties; or handling fees, such as set percent overages associated with purchasing supplies or equipment.

h. Land Acquisition. Reimbursement for the costs associated with acquiring interest and/or rights to real property (including access rights through ingress/egress easements, leases, license agreements, or other site access agreements; and/or obtaining record title ownership of real property through purchase) must be supported by the following, as applicable: Copies of Property Appraisals, Environmental Site Assessments, Surveys and Legal Descriptions, Boundary Maps, Acreage Certification, Title Search Reports, Title Insurance, Closing Statements/Documents, Deeds, Leases, Easements, License Agreements, or other legal instrument documenting

acquired property interest and/or rights. If land acquisition costs are used to meet match requirements, Grantee agrees that those funds shall not be used as match for any other Agreement supported by State or Federal funds.

10. Status Reports.

The Grantee shall submit status reports quarterly, unless otherwise specified in the Attachments, on Exhibit A, Progress Report Form, to Department's Grant Manager describing the work performed during the reporting period, problems encountered, problem resolutions, scheduled updates, and proposed work for the next reporting period. Quarterly status reports are due no later than twenty (20) days following the completion of the quarterly reporting period. For the purposes of this reporting requirement, the quarterly reporting periods end on March 31, June 30, September 30 and December 31. The Department will review the required reports submitted by Grantee within thirty (30) days.

11. Retainage.

The following provisions apply if Department withholds retainage under this Agreement:

a. The Department reserves the right to establish the amount and application of retainage on the work performed under this Agreement up to the maximum percentage described in Attachment 2, Special Terms and Conditions. Retainage may be withheld from each payment to Grantee pending satisfactory completion of work and approval of all deliverables.

b. If Grantee fails to perform the requested work, or fails to perform the work in a satisfactory manner, Grantee shall forfeit its right to payment of the retainage associated with the work. Failure to perform includes, but is not limited to, failure to submit the required deliverables or failure to provide adequate documentation that the work was actually performed. The Department shall provide written notification to Grantee of the failure to perform that shall result in retainage forfeiture. If the Grantee does not correct the failure to perform within the timeframe stated in Department's notice, the retainage will be forfeited to Department.

c. No retainage shall be released or paid for incomplete work while this Agreement is suspended.

d. Except as otherwise provided above, Grantee shall be paid the retainage associated with the work, provided Grantee has completed the work and submits an invoice for retainage held in accordance with the invoicing procedures under this Agreement.

12. Insurance.

a. Insurance Requirements for Sub-Grantees and/or Subcontractors. The Grantee shall require its sub-grantees and/or subcontractors, if any, to maintain insurance coverage of such types and with such terms and limits as described in this Agreement. The Grantee shall require all its sub-grantees and/or subcontractors, if any, to make compliance with the insurance requirements of this Agreement a condition of all contracts that are related to this Agreement. Sub-grantees and/or subcontractors must provide proof of insurance upon request.

b. Deductibles. The Department shall be exempt from, and in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Grantee providing such insurance.

c. Proof of Insurance. Upon execution of this Agreement, Grantee shall provide Department documentation demonstrating the existence and amount for each type of applicable insurance coverage ***prior to*** performance of any work under this Agreement. Upon receipt of written request from Department, Grantee shall furnish Department with proof of applicable insurance coverage by standard form certificates of insurance, a self-insured authorization, or other certification of self-insurance.

d. Duty to Maintain Coverage. In the event that any applicable coverage is cancelled by the insurer for any reason, or if Grantee cannot get adequate coverage, Grantee shall immediately notify Department of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within ten (10) days after the cancellation of coverage.

e. Insurance Trust. If the Grantee's insurance is provided through an insurance trust, the Grantee shall instead add the Department of Environmental Protection, its employees, and officers as an additional covered party everywhere the Agreement requires them to be added as an additional insured.

13. Termination.

a. Termination for Convenience. When it is in the State's best interest, Department may, at its sole discretion, terminate the Agreement in whole or in part by giving 30 days' written notice to Grantee. The Department shall notify Grantee of the termination for convenience with instructions as to the effective date of termination or the specific stage of work at which the Agreement is to be terminated. The Grantee must submit all invoices for work to be paid under this Agreement within thirty (30) days of the effective date of termination. The Department shall not pay any invoices received after thirty (30) days of the effective date of termination.

b. Termination for Cause. The Department may terminate this Agreement if any of the events of default described in the Events of Default provisions below occur or in the event that Grantee fails to fulfill any of its other

obligations under this Agreement. If, after termination, it is determined that Grantee was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Department. The rights and remedies of Department in this clause are in addition to any other rights and remedies provided by law or under this Agreement.

c. Grantee Obligations upon Notice of Termination. After receipt of a notice of termination or partial termination unless as otherwise directed by Department, Grantee shall not furnish any service or deliverable on the date, and to the extent specified, in the notice. However, Grantee shall continue work on any portion of the Agreement not terminated. If the Agreement is terminated before performance is completed, Grantee shall be paid only for that work satisfactorily performed for which costs can be substantiated. The Grantee shall not be entitled to recover any cancellation charges or lost profits.
d. Continuation of Prepaid Services. If Department has paid for any services prior to the expiration, cancellation, or termination of the Agreement, Grantee shall continue to provide Department with those services for which it has already been paid or, at Department's discretion, Grantee shall provide a refund for services that have been paid for but not rendered.
e. Transition of Services Upon Termination, Expiration, or Cancellation of the Agreement. If services provided under the Agreement are being transitioned to another provider(s), Grantee shall assist in the smooth transition of Agreement services to the subsequent provider(s). This requirement is at a minimum an affirmative obligation to cooperate with the new provider(s), however additional requirements may be outlined in the Grant Work Plan. The Grantee shall not perform any services after Agreement expiration or termination, except as necessary to complete the transition or continued portion of the Agreement, if any.

14. Notice of Default.

If Grantee defaults in the performance of any covenant or obligation contained in the Agreement, including, any of the events of default, Department shall provide notice to Grantee and an opportunity to cure that is reasonable under the circumstances. This notice shall state the nature of the failure to perform and provide a time certain for correcting the failure. The notice will also provide that, should the Grantee fail to perform within the time provided, Grantee will be found in default, and Department may terminate the Agreement effective as of the date of receipt of the default notice.

15. Events of Default.

Provided such failure is not the fault of Department or outside the reasonable control of Grantee, the following non-exclusive list of events, acts, or omissions, shall constitute events of default:

a. The commitment of any material breach of this Agreement by Grantee, including failure to timely deliver a material deliverable, failure to perform the minimal level of services required for a deliverable, discontinuance of the performance of the work, failure to resume work that has been discontinued within a reasonable time after notice to do so, or abandonment of the Agreement;
b. The commitment of any material misrepresentation or omission in any materials, or discovery by the Department of such, made by the Grantee in this Agreement or in its application for funding;
c. Failure to submit any of the reports required by this Agreement or having submitted any report with incorrect, incomplete, or insufficient information;
d. Failure to honor any term of the Agreement;
e. Failure to abide by any statutory, regulatory, or licensing requirement, including an entry of an order revoking the certificate of authority granted to the Grantee by a state or other licensing authority;
f. Failure to pay any and all entities, individuals, and furnishing labor or materials, or failure to make payment to any other entities as required by this Agreement;
g. Employment of an unauthorized alien in the performance of the work, in violation of Section 274 (A) of the Immigration and Nationality Act;
h. Failure to maintain the insurance required by this Agreement;
i. One or more of the following circumstances, uncorrected for more than thirty (30) days unless, within the specified 30-day period, Grantee (including its receiver or trustee in bankruptcy) provides to Department adequate assurances, reasonably acceptable to Department, of its continuing ability and willingness to fulfill its obligations under the Agreement:
    i. Entry of an order for relief under Title 11 of the United States Code;
    ii. The making by Grantee of a general assignment for the benefit of creditors;
    iii. The appointment of a general receiver or trustee in bankruptcy of Grantee's business or property; and/or
    iv. An action by Grantee under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, or liquidation.

16. Suspension of Work.

The Department may, in its sole discretion, suspend any or all activities under the Agreement, at any time, when it is in the best interest of the State to do so. The Department shall provide Grantee written notice outlining the particulars of suspension. Examples of reasons for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, Grantee shall comply with the notice. Within 90 days, or any longer period agreed to by the parties, Department shall either: (1) issue a notice authorizing resumption of work, at which time activity shall resume; or (2) terminate the Agreement. If the Agreement is terminated after 30 days of suspension, the notice of suspension shall be deemed to satisfy the thirty (30) days' notice required for a notice of termination for convenience. Suspension of work shall not entitle Grantee to any additional compensation.

17. Force Majeure.

The Grantee shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of Grantee or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond Grantee's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to Grantee. In case of any delay Grantee believes is excusable, Grantee shall notify Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten days after the cause that creates or will create the delay first arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) if delay is not reasonably foreseeable, within five days after the date Grantee first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY**. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against Department. The Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist Grantee shall perform at no increased cost, unless Department determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Department, in which case Department may: (1) accept allocated performance or deliveries from Grantee, provided that Grantee grants preferential treatment to Department with respect to products subjected to allocation; (2) contract with other sources (without recourse to and by Grantee for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchases may be deducted from the Agreement quantity; or (3) terminate Agreement in whole or in part.

18. Indemnification.

a. The Grantee shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless Department and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description arising from or relating to:
    i. personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, or subcontractors; provided, however, that Grantee shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of Department;
    ii. the Grantee's breach of this Agreement or the negligent acts or omissions of Grantee.

b. The Grantee's obligations under the preceding paragraph with respect to any legal action are contingent upon Department giving Grantee: (1) written notice of any action or threatened action; (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense; and (3) assistance in defending the action at Grantee's sole expense. The Grantee shall not be liable for any cost, expense, or compromise incurred or made by Department in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

c. Notwithstanding sections a. and b. above, the following is the sole indemnification provision that applies to Grantees that are governmental entities: Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of Section 768.28, F.S. Further, nothing herein shall be construed as consent by a state agency or subdivision of the State to be sued by third parties in any matter arising out of any contract or this Agreement.

d. No provision in this Agreement shall require Department to hold harmless or indemnify Grantee, insure or assume liability for Grantee's negligence, waive Department's sovereign immunity under the laws of Florida, or

otherwise impose liability on Department for which it would not otherwise be responsible. Any provision, implication or suggestion to the contrary is null and void.

19. Limitation of Liability.

The Department's liability for any claim arising from this Agreement is limited to compensatory damages in an amount no greater than the sum of the unpaid balance of compensation due for goods or services rendered pursuant to and in compliance with the terms of the Agreement. Such liability is further limited to a cap of $100,000.

20. Remedies.

Nothing in this Agreement shall be construed to make Grantee liable for force majeure events. Nothing in this Agreement, including financial consequences for nonperformance, shall limit Department's right to pursue its remedies for other types of damages under the Agreement, at law or in equity. The Department may, in addition to other remedies available to it, at law or in equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against it.

21. Waiver.

The delay or failure by Department to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of Department's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

22. Statutory Notices Relating to Unauthorized Employment and Subcontracts.

a. The Department shall consider the employment by any Grantee of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If Grantee/subcontractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement. The Grantee shall be responsible for including this provision in all subcontracts with private organizations issued as a result of this Agreement.

b. Pursuant to Sections 287.133, 287.134, and 287.137 F.S., the following restrictions apply to persons placed on the convicted vendor list, discriminatory vendor list, or the antitrust violator vendor list:

   i. Public Entity Crime. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, F.S., for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

   ii. Discriminatory Vendors. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

   iii. Antitrust Violator Vendors. A person or an affiliate who has been placed on the antitrust violator vendor list following a conviction or being held civilly liable for an antitrust violation may not submit a bid, proposal, or reply on any contract to provide any good or services to a public entity; may not submit a bid, proposal, or reply on any contract with a public entity for the construction or repair of a public building or public work; may not submit a bid, proposal, or reply on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with a public entity; and may not transact new business with a public entity.

   iv. Notification. The Grantee shall notify Department if it or any of its suppliers, subcontractors, or consultants have been placed on the convicted vendor list, the discriminatory vendor list, or antitrust violator vendor list during the life of the Agreement. The Florida Department of Management Services is responsible for maintaining the discriminatory vendor list and the antitrust violator vendor list and posts the list on its website. Questions regarding the discriminatory vendor list or antitrust violator vendor list may be directed to the Florida Department of Management Services, Office of Supplier Diversity, at (850) 487-0915.

23. Compliance with Federal, State and Local Laws.

a. The Grantee and all its agents shall comply with all federal, state and local regulations, including, but not limited to, nondiscrimination, wages, social security, workers' compensation, licenses, and registration requirements. The Grantee shall include this provision in all subcontracts issued as a result of this Agreement.
b. No person, on the grounds of race, creed, color, religion, national origin, age, gender, or disability, shall be excluded from participation in; be denied the proceeds or benefits of; or be otherwise subjected to discrimination in performance of this Agreement.
c. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.
d. Any dispute concerning performance of the Agreement shall be processed as described herein. Jurisdiction for any damages arising under the terms of the Agreement will be in the courts of the State, and venue will be in the Second Judicial Circuit, in and for Leon County. Except as otherwise provided by law, the parties agree to be responsible for their own attorney fees incurred in connection with disputes arising under the terms of this Agreement.

24. Scrutinized Companies.

a. Grantee certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
b. If this Agreement is for more than one million dollars, the Grantee certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.
c. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize these contracting prohibitions then they shall become inoperative.

25. Lobbying and Integrity.

The Grantee agrees that no funds received by it under this Agreement will be expended for the purpose of lobbying the Legislature or a State agency pursuant to Section 216.347, F.S., except that pursuant to the requirements of Section 287.058(6), F.S., during the term of any executed agreement between Grantee and the State, Grantee may lobby the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding that agreement. The Grantee shall comply with Sections 11.062 and 216.347, F.S.

26. Record Keeping.

The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with United States generally accepted accounting principles (US GAAP) consistently applied. The Department, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following the completion date or termination of the Agreement. In the event that any work is subcontracted, Grantee shall similarly require each subcontractor to maintain and allow access to such records for audit purposes. Upon request of Department's Inspector General, or other authorized State official, Grantee shall provide any type of information the Inspector General deems relevant to Grantee's integrity or responsibility. Such information may include, but shall not be limited to, Grantee's business or financial records, documents, or files of any type or form that refer to or relate to Agreement. The Grantee shall retain such records for the longer of: (1) three years after the expiration of the Agreement; or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/).

27. Audits.

a. Inspector General. The Grantee understands its duty, pursuant to Section 20.055(5), F.S., to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Grantee will comply with this duty and ensure that its sub-grantees and/or subcontractors issued under this Agreement, if any, impose this requirement, in writing, on its sub-grantees and/or subcontractors, respectively.
b. Physical Access and Inspection. Department personnel shall be given access to and may observe and inspect work being performed under this Agreement, with reasonable notice and during normal business hours, including by any of the following methods:
    i. Grantee shall provide access to any location or facility on which Grantee is performing work, or storing or staging equipment, materials or documents;

ii. Grantee shall permit inspection of any facility, equipment, practices, or operations required in performance of any work pursuant to this Agreement; and,
iii. Grantee shall allow and facilitate sampling and monitoring of any substances, soils, materials or parameters at any location reasonable or necessary to assure compliance with any work or legal requirements pursuant to this Agreement.

c. Special Audit Requirements. The Grantee shall comply with the applicable provisions contained in Attachment 5, Special Audit Requirements. Each amendment that authorizes a funding increase or decrease shall include an updated copy of Exhibit 1, to Attachment 5. If Department fails to provide an updated copy of Exhibit 1 to include in each amendment that authorizes a funding increase or decrease, Grantee shall request one from the Department's Grants Manager. The Grantee shall consider the type of financial assistance (federal and/or state) identified in Attachment 5, Exhibit 1 and determine whether the terms of Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. For federal financial assistance, Grantee shall utilize the guidance provided under 2 CFR §200.330 for determining whether the relationship represents that of a subrecipient or vendor. For State financial assistance, Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website: https:\\apps.fldfs.com\fsaa.

d. Proof of Transactions. In addition to documentation provided to support cost reimbursement as described herein, Department may periodically request additional proof of a transaction to evaluate the appropriateness of costs to the Agreement pursuant to State guidelines (including cost allocation guidelines) and federal, if applicable. Allowable costs and uniform administrative requirements for federal programs can be found under 2 CFR 200. The Department may also request a cost allocation plan in support of its multipliers (overhead, indirect, general administrative costs, and fringe benefits). The Grantee must provide the additional proof within thirty (30) days of such request.

e. No Commingling of Funds. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
    i. If Department finds that these funds have been commingled, Department shall have the right to demand a refund, either in whole or in part, of the funds provided to Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from Department shall refund, and shall forthwith pay to Department, the amount of money demanded by Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from Department by Grantee to the date repayment is made by Grantee to Department.
    ii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by Department, from another source(s), Grantee shall reimburse Department for all recovered funds originally provided under this Agreement and interest shall be charged for those recovered costs as calculated on from the date(s) the payment(s) are recovered by Grantee to the date repayment is made to Department.
    iii. Notwithstanding the requirements of this section, the above restrictions on commingling funds do not apply to agreements where payments are made purely on a cost reimbursement basis.

28. Conflict of Interest.

The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.

29. Independent Contractor.

The Grantee is an independent contractor and is not an employee or agent of Department.

30. Subcontracting.

a. Unless otherwise specified in the Special Terms and Conditions, all services contracted for are to be performed solely by Grantee.

b. The Department may, for cause, require the replacement of any Grantee employee, subcontractor, or agent. For cause, includes, but is not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with an applicable Department policy or other requirement.

c. The Department may, for cause, deny access to Department's secure information or any facility by any Grantee employee, subcontractor, or agent.
d. The Department's actions under paragraphs b. or c. shall not relieve Grantee of its obligation to perform all work in compliance with the Agreement. The Grantee shall be responsible for the payment of all monies due under any subcontract. The Department shall not be liable to any subcontractor for any expenses or liabilities incurred under any subcontract and Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under any subcontract.
e. The Department will not deny Grantee's employees, subcontractors, or agents access to meetings within the Department's facilities, unless the basis of Department's denial is safety or security considerations.
f. The Department supports diversity in its procurement program and requests that all subcontracting opportunities afforded by this Agreement embrace diversity enthusiastically. The award of subcontracts should reflect the full diversity of the citizens of the State. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Diversity at (850) 487-0915.
g. The Grantee shall not be liable for any excess costs for a failure to perform, if the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both Grantee and the subcontractor(s), and without the fault or negligence of either, unless the subcontracted products or services were obtainable from other sources in sufficient time for Grantee to meet the required delivery schedule.

31. Guarantee of Parent Company.

If Grantee is a subsidiary of another corporation or other business entity, Grantee asserts that its parent company will guarantee all of the obligations of Grantee for purposes of fulfilling the obligations of Agreement. In the event Grantee is sold during the period the Agreement is in effect, Grantee agrees that it will be a requirement of sale that the new parent company guarantee all of the obligations of Grantee.

32. Survival.

The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of this Agreement, including without limitation, the obligations regarding confidentiality, proprietary interests, and public records, shall survive termination, cancellation, or expiration of this Agreement.

33. Third Parties.

The Department shall not be deemed to assume any liability for the acts, failures to act or negligence of Grantee, its agents, servants, and employees, nor shall Grantee disclaim its own negligence to Department or any third party. This Agreement does not and is not intended to confer any rights or remedies upon any person other than the parties. If Department consents to a subcontract, Grantee will specifically disclose that this Agreement does not create any third-party rights. Further, no third parties shall rely upon any of the rights and obligations created under this Agreement.

34. Severability.

If a court of competent jurisdiction deems any term or condition herein void or unenforceable, the other provisions are severable to that void provision, and shall remain in full force and effect.

35. Grantee's Employees, Subcontractors and Agents.

All Grantee employees, subcontractors, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Grantee shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under Agreement must comply with all security and administrative requirements of Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement.

36. Assignment.

The Grantee shall not sell, assign, or transfer any of its rights, duties, or obligations under the Agreement, or under any purchase order issued pursuant to the Agreement, without the prior written consent of Department. In the event of any assignment, Grantee remains secondarily liable for performance of the Agreement, unless Department expressly waives such secondary liability. The Department may assign the Agreement with prior written notice to Grantee of its intent to do so.

37. Compensation Report.

If this Agreement is a sole-source, public-private agreement or if the Grantee, through this agreement with the State, annually receive 50% or more of their budget from the State or from a combination of State and Federal funds, the Grantee shall provide an annual report, including the most recent IRS Form 990, detailing the total compensation for the entities' executive leadership teams. Total compensation shall include salary, bonuses, cashed-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout. The Grantee must also inform the Department of any changes in total executive compensation between the annual

reports. All compensation reports must indicate what percent of compensation comes directly from the State or Federal allocations to the Grantee.

38. Execution in Counterparts and Authority to Sign.

This Agreement, any amendments, and/or change orders related to the Agreement, may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument. In accordance with the Electronic Signature Act of 1996, electronic signatures, including facsimile transmissions, may be used and shall have the same force and effect as a written signature. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Terms and Conditions
AGREEMENT NO. LPA0206

ATTACHMENT 2

These Special Terms and Conditions shall be read together with general terms outlined in the Standard Terms and Conditions, Attachment 1. Where in conflict, these more specific terms shall apply.

1. Scope of Work.
The Project funded under this Agreement is Pasco County Handcart Road Water and Wastewater. The Project is defined in more detail in Attachment 3, Grant Work Plan.

2. Duration.
a. Reimbursement Period. The reimbursement period for this Agreement begins on July 1, 2021 and ends at the expiration of the Agreement.
b. Extensions. There are extensions available for this Project.
c. Service Periods. Additional service periods are not authorized under this Agreement.

3. Payment Provisions.
a. Compensation. This is a cost reimbursement Agreement. The Grantee shall be compensated under this Agreement as described in Attachment 3.
b. Invoicing. Invoicing will occur as indicated in Attachment 3.
c. Advance Pay. Advance Pay is not authorized under this Agreement.

4. Cost Eligible for Reimbursement or Matching Requirements.
Reimbursement for costs or availability for costs to meet matching requirements shall be limited to the following budget categories, as defined in the Reference Guide for State Expenditures, as indicated:

Reimbursement	Match	Category
☐	☐	Salaries/Wages
		Overhead/Indirect/General and Administrative Costs:
☐	☐	a. Fringe Benefits, N/A.
☐	☐	b. Indirect Costs, N/A.
☒	☐	Contractual (Subcontractors)
☐	☐	Travel, in accordance with Section 112, F.S.
☐	☐	Equipment
☐	☐	Rental/Lease of Equipment
☐	☐	Miscellaneous/Other Expenses
☐	☐	Land Acquisition

5. Equipment Purchase.
No Equipment purchases shall be funded under this Agreement.

6. Land Acquisition.
There will be no Land Acquisitions funded under this Agreement.

7. Match Requirements
There is no match required on the part of the Grantee under this Agreement.

8. Insurance Requirements

Required Coverage. At all times during the Agreement the Grantee, at its sole expense, shall maintain insurance coverage of such types and with such terms and limits described below. The limits of coverage under each policy maintained by the Grantee shall not be interpreted as limiting the Grantee's liability and obligations under the Agreement. Grantee shall provide coverage through a self-insurance program established and operating under the laws of Florida. Additional insurance requirements for this Agreement may be required elsewhere in this Agreement, however the minimum insurance requirements applicable to this Agreement are:

a. Comprehensive General Liability Insurance.
The Grantee shall provide adequate comprehensive general liability insurance coverage and hold such liability insurance at all times during the Agreement. The minimum limits shall be $200,000 for each person and $300,000 per occurrence.

b. Commercial Automobile Insurance.
If the Grantee's duties include the use of a commercial vehicle, the Grantee shall maintain automobile liability, bodily injury, and property damage coverage. Insuring clauses for both bodily injury and property damage shall provide coverage on an occurrence basis. The minimum limits shall be as follows:

$200,000/300,000	Automobile Liability for Company-Owned Vehicles, if applicable
$200,000/300,000	Hired and Non-owned Automobile Liability Coverage

c. Workers' Compensation.
The Grantee shall comply with the workers' compensation requirements of Chapter 440, F.S.

d. Other Insurance. None.

9. Quality Assurance Requirements.

There are no special Quality Assurance requirements under this Agreement.

10. Retainage.

No retainage is required under this Agreement.

11. Subcontracting.

The Grantee may subcontract work under this Agreement without the prior written consent of the Department's Grant Manager except for certain fixed-price subcontracts pursuant to this Agreement, which require prior approval. The Grantee shall submit a copy of the executed subcontract to the Department prior to submitting any invoices for subcontracted work. Regardless of any subcontract, the Grantee is ultimately responsible for all work to be performed under this Agreement.

12. State-owned Land.

The work will not be performed on State-owned land.

13. Office of Policy and Budget Reporting.

The Grantee will identify the expected return on investment for this project and provide this information to the Governor's Office of Policy and Budget (OPB) within three months of execution of this Agreement. For each full calendar quarter thereafter, the Grantee will provide quarterly update reports directly to OPB, no later than 20 days after the end of each quarter, documenting the positive return on investment to the state that results from the Grantee's project and its use of funds provided under this Agreement. Quarterly reports will continue until the Grantee is instructed by OPB that no further reports are needed, or until the end of this Agreement, whichever occurs first. All reports shall be submitted electronically to OPB at env.roi@laspbs.state.fl.us, and a copy shall also be submitted to the Department at legislativeaffairs@floridaDEP.gov.

14. Additional Terms.

None.

ATTACHMENT 3
GRANT WORK PLAN

PROJECT TITLE: Pasco County Handcart Road Water and Wastewater

PROJECT LOCATION: The Project will be located in the Pasadena Hills area within Pasco County; Lat/Long (28.2811, -82.2455). See Figure 1 for a location map.

PROJECT BACKGROUND: The project will provide water and wastewater infrastructure improvements to stimulate economic growth in a currently undeveloped area of Pasadena Hills, a portion of central Pasco County.

PROJECT DESCRIPTION: Pasco County (Grantee) will construct a water and wastewater distribution system including a piping system and appurtenances, a lift station, restoration, project management, and all work necessary to complete the project.

The Grantee does not anticipate that the funding under this Agreement will result in a fully completed project, so this Agreement will cover a portion of the work.

TASKS: All documentation should be submitted electronically unless otherwise indicated.

Task 1: Design and Permitting

Deliverables: The Grantee will complete design of the water and wastewater distribution system and obtain all necessary permits for construction of the project including construction plans and specs.

Documentation: The Grantee will submit: 1) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 2) a summary of design (or preconstruction) activities to date, indicating the percentage of design completion for the time period covered in the payment request. For the final documentation, the Grantee will also submit a copy of the design completed with the funding provided for this task and a list of all required permits identifying issue dates and issuing authorities.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

Task 2: Construction

Deliverables: The Grantee will construct water and wastewater distribution system in accordance with the construction contract documents prepared for the project.

Documentation: The Grantee will submit 1) a copy of the final design; 2) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 3) a signed Engineer's Certification of Payment Request.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

PROJECT TIMELINE & BUDGET DETAIL:

The tasks must be completed by, and all documentation received by, the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below.

Task No.	Task Title	Budget Category	Grant Amount	Task Start Date	Task End Date
1	Design and Permitting	Contractual Services	$600,000	07/01/2021	09/30/2023
2	Construction	Contractual Services	$5,900,000	07/01/2021	09/30/2023
		Total:	$6,500,000		

Note: The budget for this project is estimated and subject to change as the project progresses. A change order or amendment is expected to reallocate the budget.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Public Records Requirements

Attachment 4

1. **Public Records.**

a. If the Agreement exceeds $35,000.00, and if Grantee is acting on behalf of Department in its performance of services under the Agreement, Grantee must allow public access to all documents, papers, letters, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by Grantee in conjunction with the Agreement (Public Records), unless the Public Records are exempt from section 24(a) of Article I of the Florida Constitution or section 119.07(1), F.S.

b. The Department may unilaterally terminate the Agreement if Grantee refuses to allow public access to Public Records as required by law.

2. **Additional Public Records Duties of Section 119.0701, F.S., If Applicable.**
For the purposes of this paragraph, the term "contract" means the "Agreement." If Grantee is a "contractor" as defined in section 119.0701(1)(a), F.S., the following provisions apply and the contractor shall:

a. Keep and maintain Public Records required by Department to perform the service.

b. Upon request, provide Department with a copy of requested Public Records or allow the Public Records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

c. A contractor who fails to provide the Public Records to Department within a reasonable time may be subject to penalties under section 119.10, F.S.

d. Ensure that Public Records that are exempt or confidential and exempt from Public Records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the Public Records to Department.

e. Upon completion of the contract, transfer, at no cost, to Department all Public Records in possession of the contractor or keep and maintain Public Records required by Department to perform the service. If the contractor transfers all Public Records to Department upon completion of the contract, the contractor shall destroy any duplicate Public Records that are exempt or confidential and exempt from Public Records disclosure requirements. If the contractor keeps and maintains Public Records upon completion of the contract, the contractor shall meet all applicable requirements for retaining Public Records. All Public Records stored electronically must be provided to Department, upon request from Department's custodian of Public Records, in a format specified by Department as compatible with the information technology systems of Department. These formatting requirements are satisfied by using the data formats as authorized in the contract or Microsoft Word, Outlook, Adobe, or Excel, and any software formats the contractor is authorized to access.

f. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, F.S., TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN OF PUBLIC RECORDS AT:**

Telephone: **(850) 245-2118**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Audit Requirements
(State and Federal Financial Assistance)

Attachment 5

The administration of resources awarded by the Department of Environmental Protection *(which may be referred to as the "Department", "DEP", "FDEP" or "Grantor", or other name in the agreement)* to the recipient *(which may be referred to as the "Recipient", "Grantee" or other name in the agreement)* may be subject to audits and/or monitoring by the Department of Environmental Protection, as described in this attachment.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEP Department staff, limited scope audits as defined by 2 CFR 200.425, or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends $750,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of Environmental Protection. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR 200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200.514 will meet the requirements of this part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR 200.508-512.

3. A recipient that expends less than $750,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than $750,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other federal entities.

4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at www.cfda.gov

PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(2), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through the Department of Environmental Protection by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal year ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than $750,000 in state financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. For information regarding the Florida Catalog of State Financial Assistance (CSFA), a recipient should access the Florida Single Audit Act website located at https://apps.fldfs.com/fsaa for assistance. In addition to the above websites, the following websites may be accessed for information: Legislature's Website at http://www.leg.state.fl.us/Welcome/index.cfm, State of Florida's website at http://www.myflorida.com/, Department of Financial Services' Website at http://www.fldfs.com/and the Auditor General's Website at http://www.myflorida.com/audgen/.

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

PART IV: REPORT SUBMISSION

1. Copies of reporting packages for audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and required by PART I of this form shall be submitted, when required by 2 CFR 200.512, by or on behalf of the recipient directly to the Federal Audit Clearinghouse (FAC) as provided in 2 CFR 200.36 and 200.512

   A. The Federal Audit Clearinghouse designated in 2 CFR §200.501(a) (the number of copies required by 2 CFR §200.501(a) should be submitted to the Federal Audit Clearinghouse), at the following address:

By Mail:

Federal Audit Clearinghouse
Bureau of the Census
1201 East 10th Street
Jeffersonville, IN 47132

Submissions of the Single Audit reporting package for fiscal periods ending on or after January 1, 2008, must be submitted using the Federal Clearinghouse's Internet Data Entry System which can be found at http://harvester.census.gov/facweb/

2. Copies of financial reporting packages required by PART II of this Attachment shall be submitted by or on behalf of the recipient directly to each of the following:

A. The Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

B. The Auditor General's Office at the following address:

Auditor General
Local Government Audits/342
Claude Pepper Building, Room 401
111 West Madison Street
Tallahassee, Florida 32399-1450

The Auditor General's website (http://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Copies of reports or management letters required by PART III of this Attachment shall be submitted by or on behalf of the recipient directly to the Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

4. Any reports, management letters, or other information required to be submitted to the Department of Environmental Protection pursuant to this Agreement shall be submitted timely in accordance with 2 CFR 200.512, section 215.97, F.S., and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.

5. Recipients, when submitting financial reporting packages to the Department of Environmental Protection for audits done in accordance with 2 CFR 200, Subpart F-Audit Requirements, or Chapters 10.550 (local governmental entities) and 10.650 (non and for-profit organizations), Rules of the Auditor General, should indicate the date and the reporting package was delivered to the recipient correspondence accompanying the reporting package.

PART V: RECORD RETENTION

The recipient shall retain sufficient records demonstrating its compliance with the terms of the award and this Agreement for a period of **five (5)** years from the date the audit report is issued, and shall allow the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General upon request for a period of **three (3)** years from the date the audit report is issued, unless extended in writing by the Department of Environmental Protection.

EXHIBIT – 1

FUNDS AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Note: If the resources awarded to the recipient represent more than one federal program, provide the same information shown below for each federal program and show total federal resources awarded

Federal Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following:					
Federal Program A	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	
Federal Program B	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	

Note: Of the resources awarded to the recipient represent more than one federal program, list applicable compliance requirements for each federal program in the same manner as shown below:

Federal Program A	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.:(eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	
Federal Program B	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.: (eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	

Note: If the resources awarded to the recipient for matching represent more than one federal program, provide the same information shown below for each federal program and show total state resources awarded for matching.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Matching Resources for Federal Programs:					
Federal Program A	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category
Federal Program B	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category

Note: If the resources awarded to the recipient represent more than one state project, provide the same information shown below for each state project and show total state financial assistance awarded that is subject to section 215.97, F.S.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Resources Subject to Section 215.97, F.S.:						
State Program A	**State Awarding Agency**	**State Fiscal Year[1]**	**CSFA Number**	**CSFA Title or Funding Source Description**	**Funding Amount**	**State Appropriation Category**
Original Agreement	Department of Environmental Protection	2021-2022	37.039	Statewide Surface Water Restoration and Wastewater Projects	$6,500,000	140047
State Program B	**State Awarding Agency**	**State Fiscal Year[2]**	**CSFA Number**	**CSFA Title or Funding Source Description**	**Funding Amount**	**State Appropriation Category**

Total Award	$6,500,000	

Note: List applicable compliance requirement in the same manner as illustrated above for federal resources. For matching resources provided by the Department for DEP for federal programs, the requirements might be similar to the requirements for the applicable federal programs. Also, to the extent that different requirements pertain to different amount for the non-federal resources, there may be more than one grouping (i.e. 1, 2, 3, etc.) listed under this category.

For each program identified above, the recipient shall comply with the program requirements described in the Catalog of Federal Domestic Assistance (CFDA) [www.cfda.gov] and/or the Florida Catalog of State Financial Assistance (CSFA) [https://apps.fldfs.com/fsaa/searchCatalog.aspx], and State Projects Compliance Supplement (Part Four: State Projects Compliance Supplement [https://apps.fldfs.com/fsaa/state_project_compliance.aspx]. The services/purposes for which the funds are to be used are included in the Agreement's Grant Work Plan. Any match required by the Recipient is clearly indicated in the Agreement.

Progress Report Form

DEP Agreement No.:	LPA0206
Project Title:	Pasco County Handcart Road Water and Wastewater
Grantee Name:	Pasco County
Grantee's Grant Manager:	Robert Marin
Reporting Period:	Select reporting period. Select year.

Provide the following information for all tasks identified in the Grant Work Plan:
Summarize the work completed within each task for the reporting period. Provide an update on the estimated completion date for each task and an explanation for any anticipated delays or problems encountered. Add or remove task sections and use as many pages as necessary to cover all tasks. Use the format provided below.

Task 1: Design and Permitting

- Progress for this reporting period:
- Identify delays or problems encountered:

Task 2: Construction

- Progress for this reporting period:
- Identify delays or problems encountered:

Indicate the completion status for the following tasks:

Design (Plans/Submittal): 30% ☐, 60% ☐, 90% ☐, 100% ☐

Permitting (Completed): Yes ☐, No ☐

Construction (Estimated): _____ %

This report is submitted in accordance with the reporting requirements of the above DEP Agreement number and accurately reflects the activities associated with the project.

Please use the most current form found on the website, linked above, for each payment request.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UTD23-0180 **DATE:** 2/21/2023

SUBJECT: Joint Funding Agreement and Budget Amendment Journal No. 1962 - Pasco County, VOPH Master Development Company, LLC, and Galvin Land Services, LLC – $2,557,500.00

REFERENCES: UTD22-0012, PDD23-0005

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: David Allen, Utilities Director

RECOMMENDED BOARD ACTION:

Approve the Joint Funding Agreement between Pasco County, VOPH Master Development Company, LLC, and Galvin Land Services, LLC (collectively referred to as the "VOPH Developers") for the design and construction of water and wastewater infrastructure along Handcart Road. Authorize the Chairman to execute the three originals of the agreement provided and direct Board Records to distribute as set forth under the Distribution section below.

Approve Budget Amendment Journal No. 1962 in the amount of $2,557,500.00.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On October 26, 2021, the County entered into a grant agreement with the Florida Department of Environmental Protection (FDEP) to construct water and wastewater infrastructure improvements along a portion of Handcart Road. The project's purpose is to stimulate economic growth in the area of Pasadena Hills. The grant amount is $6,500,000.00 to fund a portion of the total anticipated cost of the improvements.

On October 25, 2022, the County approved the Villages of Pasadena Hills (VOPH) Global Funding and Escrow Agreement to provide roadway and utility infrastructure inside the VOPH Special Planning Area. The agreement also designated the VOPH Developers as the constructing entity for the Handcart Road utility infrastructure described in the FDEP Grant. The Global Funding Agreement included a provision for a supplemental joint funding agreement, which is the subject of this request, to allocate any excess costs beyond the $6,500,000.00 FDEP Grant.

The Joint Funding Agreement describes and allocates the project design, permitting, and construction costs for water and wastewater infrastructure on Handcart Road from Old Bridge Road to Prospect Road in two segments: the FDEP Grant Segment and the VOPH Developer Segment. Project costs associated with the Grant Segment will be paid by the County, with reimbursement from the FDEP up to the $6,500,000.00 grant amount. The total anticipated construction costs of the water and wastewater infrastructure in the FDEP Grant Segment is $8,457,500.00. The cost differential between the FDEP grant construction allocation of $5,900,000.00 and the total Grant Segment cost is $2,557,500.00.

Costs associated with the VOPH Developers Segment totaling $1,450,000.00 will be funded by the VOPH Developers.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Funding in the amount of $2,557,500.00 will be available for Fiscal Year 2023 upon approval of Budget Amendment Journal No. 1962 in the Water and Wastewater Capital Fund, Water and Wastewater Connection Fees, Handcart Road Water/Wastewater Distribution, Project #22043.

DISTRIBUTION:

Board Records to distribute as set forth below:

1. Retain One Original
2. Electronically to:
   a. Joel Tew, President, Hedgehog Development, at jtew@hedgehogdevelopment.us
   b. Justin Grant, Director, Public Infrastructure and Business Administration Department, at jgrant@pascocountyfl.net
   c. Ernest Monaco, Manager of Special Districts, Planning and Development Department, at emonaco@pascountyfl.net

#ServeAndConnect

COUNTY UTILITY PROJECTS JOINT FUNDING AGREEMENT
VILLAGES OF PASADENA HILLS (VOPH)
WATER AND WASTEWATER INFRASTRUCTURE

THIS AGREEMENT, is made and entered into by and between Pasco County, Florida, a political subdivision of the State of Florida, by and through its Board of County Commissioners ("BCC"), hereinafter referred to as the "County", whose address is 19420 Central Blvd., Land O'Lakes, Florida 34637, and VOPH Master Development Company, LLC, a Florida limited liability company ("VOPH Master"), whose address is 4065 Crescent Park Drive, Riverview, FL 33578, and Galvin Land Services, LLC, a Florida limited liability company ("Galvin"), whose address is 121 Snell Isle Blvd., St. Petersburg, FL 33704 (VOPH Master and Galvin also are referred to herein as the "Co-Developers" and each may be referred to herein as a "Developer" where the context requires), and is joined in by the individual MPUD applicant entities identified herein, their successors and assigns, as third-party beneficiaries only (individually a "VOPH-MPUD Owner" or jointly the "VOPH-MPUD Owners").

W I T N E S S E T H:

WHEREAS, pursuant to the VOPH Financial Plan as previously amended and adopted by the BCC, the County and the Co-Developers (or their respective VOPH-MPUD Owners) are responsible for funding and constructing their respective portions of the master utility infrastructure improvements required to support new development within the Villages of Pasadena Hills Special Planning Area ("VOPH"); and

WHEREAS, the County previously entered into a Standard Grant Agreement (LPA 0206) with the State of Florida Department of Environmental Protection (DEP) for "Pasco County Handcart Road Water and Wastewater" (the "DEP Grant Agreement"), which addresses a portion of the required VOPH master utility improvements necessary to implement the VOPH Financial Plan; and

WHEREAS, the DEP Grant Agreement provides for County reimbursement up to the amount $6,500,000.00 from the State of Florida ("VOPH State Funding") for the two (2) County Utility Projects identified in Sections 5.a (i) and 5.a.(ii) of the October 25, 2022 Funding & Escrow Agreement For Roadways & Utilities Capital Infrastructure Villages Of Pasadena Hills (VOPH) Designated VOPH-MPUD Projects ("VOPH Funding and Escrow Agreement"); and

WHEREAS, as contemplated by the VOPH Funding & Escrow Agreement, dated October 25, 2022, the County and the Co-Developers have mutually analyzed and determined the scope of VOPH master utility improvements necessary to support the initial phases of development within VOPH which are addressed in the VOPH Funding and Escrow Agreement, including, among others, the portion addressed in the DEP Grant agreement; and

WHEREAS, the County and the Co-Developers desire to memorialize the scope of VOPH master utility infrastructure required to support certain initial phases of development within VOPH, to implement the DEP Grant Agreement with respect to the County Utility Projects as identified in the VOPH Funding and Escrow Agreement, and to implement the pre-existing requirements of the adopted VOPH Financial Plan, and amended on October 25, 2022, with respect to the allocation of costs for the required VOPH master utilities infrastructure.

NOW THEREFORE, the County and the Co-Developers, in consideration of the mutual terms, covenants, and conditions set forth herein and above, which are hereby incorporated by reference, agree as follows:

1. **VOPH Master Utility Plan Update**. The initial sizing and scope for future VOPH water and wastewater system components was based on a Master Utility Plan ("MUP") developed by the County and dated April 2020 as set forth in Exhibit A, attached hereto and incorporated by reference. Subsequent VOPH master utilities planning, and preliminary design work (as referenced below) has established that the adopted MUP should be updated and modified due to system capacity and pressure limitations, in order to provide water and sewer service to VOPH as contemplated by the DEP Grant Agreement, the MUP, the adopted VOPH Financial Plan, and this Agreement (see Section 7(k), below).

2. **Handcart Road Segment Plan Scope; DEP Grant Compliance.** The County agrees that a single, consolidated plan set, which includes both County-funded and developer-funded segments, is acceptable for the Handcart Road water and wastewater facilities from the existing terminus at Old Bridge Road north to Prospect Road (the "Handcart Road Segment"). However, to enable the County to meet the requirements for its DEP Grant Agreement, the Co-Developers shall insure that the accepted proposals, bids, and contracts for the design, permitting and construction costs for the Handcart Road Segment shall be segregated to document the costs attributable to the segment graphically identified in the DEP Grant agreement, Attachment 3, page 3, for DEP audit compliance purposes (the "DEP Grant Segment"). The County agrees to

prioritize the review for the consolidated water and sewer Handcart Road plans and that the plan review and approval process for the Handcart Road Segment will proceed prior to the County's update to its MUP pursuant to Section 7(k) below, to meet the time deadlines imposed by the DEP Grant Agreement. In addition, the County will be the responsible party to seek any necessary extension from the State of Florida for the completion and reimbursement deadlines set forth in the DEP Grant Agreement; provided, however, that both the County and the Co-Developers agree to act in good faith and to exercise commercial reasonableness to meet the current DEP Grant agreement deadlines. The Handcart Road Segment with separate identification of the DEP Grant Segment thereof (including the BPS Site) and the Co-Developer Segment thereof are graphically depicted on Exhibit B attached hereto.

3. **Handcart Road Segment Plan Details; MRP Compliance.** To meet the deadlines set forth in the DEP Grant Agreement, the parties agree that existing right-of-way should be utilized for the master utilities within the Handcart Road Segment to the maximum extent feasible. However, the utility plans also shall account for the potential future buildout of the Handcart Road travel lanes pursuant to the adopted VOPH Master Roadway Plan ("MRP"). Accordingly, the utility plans for the Handcart Road Segment shall provide for utility line locations outside (i) current roadway travel lanes and (ii) the future roadway travel lane pavement at ultimate buildout per the VOPH MRP, unless otherwise approved by the County, which such approval will be conditioned on the Co-Developers agreement to fund any future utility relocation of lines placed under future travel lane pavement; however, future landscape areas outside the edge of future travel lane pavement, provided no existing trees are retained or future trees are installed within five feet (5') of any utility line, and MRP areas designated for future sidewalks or trails may be used for the utility facilities subject to County approval, which shall not be unreasonably withheld where necessary to avoid new right-of-way or easement acquisition, and subject to providing the minimum separation between each utility line required by State and County standards.

4. **Wastewater Plan Scope and Implementation.**

a. **Handcart Road Segment Capacity, Line Sizes and Appurtenances.** The County has approved the following wastewater transmission line sizes for the Handcart Road Segment: (i) 16" force main from Old Bridge Road north to Kiefer Road and (ii) 12" force main from Kiefer Road north to Prospect Road. The current MUP does not contemplate any regional or master booster/lift stations in the wastewater

transmission line for the Handcart Road Segment; accordingly, each VOPH-MPUD shall be required to design and construct its internal subdivision lift station(s) to create sufficient pressure flow in the wastewater transmission lines. However, the County in its discretion and at its own expense may elect to provide regional supplemental booster pump(s) for the Handcart Road Segment related to its future VOPH service needs beyond the service requirements for the Designated VOPH-MPUD's as set forth in the VOPH Funding and Escrow Agreement. The Co-Developer's consulting engineer has confirmed that the foregoing wastewater transmission line capacity for the Handcart Road Segment will service approximately 8,000 residential units, which is beyond the minimum 6,000 residential unit capacity specified in the VOPH Funding & Escrow Agreement.

b. **Handcart Road Segment Cost Allocations.** The parties agree to allocate the costs for design, permit and construction of wastewater transmission line facilities within the Handcart Road Segment, as follows:

(i) Based on commitments made incident to the DEP Grant Agreement, the County shall fully fund the design, permit, and construction costs for the wastewater transmission line within the DEP Grant Segment (approximately 13,700 lineal feet), subject to the County's exclusive right to reimbursement to the maximum extent authorized by the DEP Grant Agreement. The Co-Developers or their designee shall serve as the Constructing Entity for the County for the wastewater facilities within the Handcart Road Segment, including implementation of the procurement and document submittal procedures required for the County to meet the reimbursement and audit compliance requirements of the DEP Grant Agreement, as previously specified in the VOPH Funding and Escrow Agreement; and

(ii) The Co-Developers (or their designee) shall fully fund the design, permit, and construction costs for the remainder of the Handcart Road Segment from the terminus of the DEP Grant Segment north to Prospect Road (approximately 2,900 lineal feet), subject to their right to receive VOPH utility surcharge fee credits pursuant to the VOPH Financial Plan and the VOPH Funding and Escrow Agreement.

c. Preliminary Budget for Handcart Road Segment. The preliminary wastewater budget for the Handcart Road Segment, allocated between the County and the Co-Developers pursuant to Section 4(b), above, is attached hereto as Exhibit C, which preliminary budget remains subject to the final contract amounts for the respective segments.

d. **Southeast Wastewater Treatment Plant (SE WWTP) Capacity Upgrade; Potential Wesley Center WWTP System Interconnect**. Notwithstanding the transmission line service capacity created by the Handcart Road Segment as set forth in Section 4(a) above, the County's Southeast Wastewater Treatment Plant ("SE WWTP") only has the current capacity to provide service for the initial 2,000 residential units within the Designated VOPH-MPUD's (versus the 6,000 residential units required by the VOPH Global Funding and Escrow Agreement). However, the County has executed the contract for and has a current expansion/upgrade in process for the SE WWTP, which upon completion by the County (currently anticipated by December 31, 2025) will provide wastewater treatment capacity via the Handcart Road Segment beyond the 6,000 residential units required for the Designated VOPH-MPUD's pursuant to the VOPH Funding and Escrow Agreement and will meet the 9,000 residential units (and more) specified in the DEP Grant application. Consequently, there is no present need for any westward interconnect to the Wesley Center WWTP, subject to confirmation in the planned update to the MUP, to meet the capacity requirements for the VOPH Funding and Escrow Agreement or the DEP Grant Agreement. However, the County may in its discretion and at its own expense (or at the expense of future development projects who are not a party to the current VOPH Funding and Escrow Agreement) elect to fund additional improvements to the wastewater collection system or wastewater treatment plant(s) to meet future needs.

e. **Wastewater Phasing Plan.** Based upon the foregoing, the County and the Co-Developers agree that the wastewater phasing plan pursuant to the VOPH Funding and Escrow Agreement shall be: Phase 1 for the initial 2,000 residential units within the Designated VOPH-MPUD's which presently can be serviced from the SE WWTP via the Handcart Road Segment (once the transmission line is constructed under this Agreement); and Phase 2 for the additional 4,000 residential units to achieve the total 6,000 residential units required by the VOPH Funding and Escrow Agreement which can be serviced from the Handcart Road Segment upon completion of the SE WWTP capacity expansion (also recognizing that the SE WWTP upgrade/expansion (see Section 4.d., above) then will provide service beyond the aggregate 9,000 residential units contemplated by the DEP Grant application to serve additional VOPH density and other density within the service area for the SE WWTP).

5. **Water Plan Scope and Implementation.**

a. **Handcart Road Segment Capacity, Line size and Appurtenances**. The County has approved a 16" potable water transmission line for the Handcart Road Segment. However, due to (i) the substantial topographical elevation increases along Handcart Road north to Prospect Road and (ii) the limited capacity and pressure currently available at the County's Southeast Water Treatment Plant ("SE WTP"), a 2,000-gallon per minute (gpm) water booster pump station ("BPS") also is required for the County to provide service via the Handcart Road Segment pursuant to the DEP Grant Agreement and/or the VOPH Funding and Escrow Agreement. The Co-Developers' consulting engineer has confirmed that the foregoing transmission line capacity together with the BPS would be sufficient to provide service via the Handcart Road Segment for the 6,000 residential units required by the VOPH Funding and Escrow Agreement (and the 9,000 units contemplated by the DEP Grant application) if the SE WTP had sufficient capacity/pressure; however, the SE WTP presently has sufficient capacity/pressure only to serve the first 2,000 residential units pursuant to the VOPH Funding and Escrow Agreement.

b. **Handcart Road Segment Cost Allocations**. The parties agree to allocate the costs for design, permit and construction of potable water transmission line facilities within the Handcard Road Segment, as follows:

(i) Based on commitments made incident to the DEP Grant Agreement, the County shall fully fund the design, permit and construction costs for the potable water transmission line within the DEP Grant Segment (approximately 12,100 lineal feet). The County's funding obligation shall include a BPS which is necessary to provide the service for the DEP Grant Segment and falls within the "transmission infrastructure (e.g., booster pump stations, storage, diversion components, and interconnects)" facility category which is the County's funding responsibility pursuant to the VOPH Financial Plan. The County's funding obligation for the DEP Grant Segment (including both the transmission line and the BPS) is subject to the County's exclusive right to reimbursement to the maximum extent authorized by the DEP Grant Agreement. The Co-Developers or their designee shall serve as the Constructing Entity for the County for the potable water transmission line and BPS within the Handcart Road Segment, including implementation of the procurement and document submittal procedures required for

the County to meet the reimbursement and audit compliance requirements of the DEP Grant agreement, as previously specified in the VOPH funding and Escrow Agreement; and

(ii) The Co-Developers (or their designee) shall fully fund the design, permit and construction costs for the remainder of the water transmission line within the Handcart Road Segment from the terminus of the DEP Grant Segment north to Prospect Road (approximately 2,900 lineal feet), subject to their right to receive VOPH utility surcharge fee credits pursuant to the VOPH Financial Plan and the VOPH funding and Escrow Agreement.

c. Preliminary Budget for Handcart Road Segment. The preliminary budget for the water transmission line and BPS within the Handcart Road Segment, allocated between the County and the Co-Developers pursuant to Section 5(b) above, is attached hereto as Exhibit D. This preliminary budget remains subject to the final contract amounts for the respective segments.

d. Water Booster Pump Station (BPS) Parcel Site. The Co-Developers have facilitated the provision of a parcel of land which presently is owned by the Pasco County School District ("School District"), to serve as the site for the County's BPS referenced in Section 5(a) and 5(b), above. The School District has agreed to convey the BPS Site, which is identified on Exhibit B hereto, at no cost to the County for exclusive use for the BPS site. The County shall make direct arrangements with the School District for conveyance of the BPS site to the County within 90 days after the date of this Agreement.

e. Potential Boyette WTP System Interconnect. As stated in Section 5(a) above, the SE WTP presently has capacity to serve up to 2,000 residential units within the Designated VOPH MPUD's via the Handcart Road Segment (once the transmission line with BPS is constructed). Consequently, in order to provide treatment plant capacity and sufficient water pressure to serve up to 6,000 residential units within the Designated VOPH-MPUD's pursuant to the VOPH Funding and Escrow Agreement (and to serve the 9,000 units contemplated by the DEP Grant application), the County may implement a capacity expansion/upgrade to the SE WTP, provide additional capacity from its Boyette Water Treatment Plant ("Boyette WTP"), or improvements to other water transmission infrastructure. In any event, the SE WTP capacity expansion/upgrade, the additional capacity from Boyette WTP, or other water "transmission infrastructure (booster pump stations, storage, diversion components, and interconnects)" and/or "treatment plant capacity" is the County's responsibility to fund pursuant to the VOPH Financial Plan. The County's previous MUP contemplated that sufficient potable water

service could be provided from the Pasco One Well, the SE WTP via the Handcart Road Segment and a transmission main westward to the Boyette WTP for the build-out condition. However, the Co-Developers' consulting engineer and the County have agreed that the County cannot provide the required water capacity and fire suppression service (beyond the first 2,000 residential units) without additional transmission mains which provides a "loop system" between the SE WTP and the Boyette WTP. Consequently, the County's MUP update pursuant to Section 7(k) below shall include the following alternative routes for such system "looping" to the Boyette WTP:

(i) From the existing water transmission line terminus in Curley Road via Prospect Road to Handcart Road (the "Prospect Water Line Route");

(ii) From the existing water transmission line terminus in Curley Road via future Kiefer Road to Handcart Road (the "Kiefer Water Line Route"); and

(iii) From the existing water transmission line terminus in Curley Road via future Tyndall Road to Handcart Road (the "Tyndall Water Line Route").

The County agrees that its MUP update shall authorize any of the foregoing routes, or other approved combination of water main alignments that meet intended system design requirements, as an acceptable alternative to achieve the required water transmission main interconnect to the Boyette WTP, so that the cost feasibility, timing, and VOPH capacity increase can be determined for each alternative route. In any event, the County also reserves the right to require appropriate third-party participation from other development projects not included within the VOPH Funding and Escrow Agreement, in the construction of additional water transmission lines, BPS, and other appurtenances. The Co-Developers agree to provide the alternative route analysis (including right-of-way requirements), cost feasibility, and capacity enhancement analysis through its consulting engineer for County review, and the County agrees to award VOPH utility surcharge fee credits to the Co-Developers for the engineering costs incurred for such system design engineering analysis.

f. **Water Phasing Plan.** Based on the foregoing, the County and the Co-Developers agree that the water phasing plan pursuant to the VOPH Funding and Escrow Agreement shall be: Phase 1 for the initial 2,000 residential units within the Designated VOPH-MPUD's which can be serviced from the SE WTP via the Handcart Road Segment (once the Handcart Road Segment transmission line with BPS is constructed

pursuant to this Agreement); and Phase 2 for the additional 4,000 residential units to achieve the total 6,000 residential units required by the VOPH Funding and Escrow Agreement (and the 9,000 residential units contemplated by the DEP Grant application) which also can be serviced from the Handcart Road Segment upon a subsequent expansion/upgrade of the SE WTP, and/or the construction of the system interconnect to the Boyette WTP by the County, and/or the construction of a system interconnect with the Pasco One Well, as set forth above. The County agrees to act in good faith and with commercial reasonableness to provide the required water capacity and/or system interconnect to serve Phase 2 by December 31, 2027.

6. **Administration of DEP Grant Agreement**. As set forth in the VOPH Funding and Escrow Agreement, the Co-Developers (or their designee) shall be the Constructing Party for the County with respect to the Handcart Road Segment, including the DEP Grant Segment portion thereof. With respect to the administration of the DEP Grant Agreement, the parties agree as follows:

a. The DEP Grant Agreement does not allow reimbursement to the County for the cost of any right-of-way acquisition. Consequently, the Co-Developers shall dedicate (where its Designated VOPH-MPUD's own or control the land) or otherwise negotiate for the purchase of any third-party right-of-way required for the Handcart Road Segment per the approved plans; provided, however, that (i) as stated in Section 3 above, the existing right-of-way for Handcart Road shall be used wherever feasible, (ii) pursuant to the VOPH Enabling Documents, the County will pursue condemnation by quick-taking if private third-party purchase is not available within a reasonable time or at a reasonable cost (and subject to funding of all such condemnation costs by the Co-Developers), and (iii) the co-Developers shall receive VOPH Transportation Development Fee Credits for all sums spent in the third-party purchase or condemnation process for such right-of-way acquisition, subject to County pre-approval of such costs, which approval shall not be unreasonably withheld and shall be provided if such costs are within the VOPH Financial Plan budget for right-of-way costs.

b. The Co-Developers' and the County's rights and obligations as set forth in this Agreement shall terminate if the Co-Developers have not issued the Notice to Proceed with construction of the DEP Grant Segment to the approved contractor by September 1, 2023, as required in this Agreement; provided, however, that the County shall have approved the utility plans for the DEP Segment by not later than April 15, 2023, or within thirty (30) calendar days after the submittal of a complete set of construction documents deemed

complete and ready for approval by the County, whichever occurs last. Upon termination, the Co-Developers' and the County's rights and obligation as set forth in this Agreement shall terminate unless such date is extended in writing by the County Administrator and the Co-Developers; provided, however, that the County will agree to requested extensions which are consistent with any extension which may be approved by the State of Florida for the DEP Grant Agreement. Once the Notice to Proceed has been issued, the work to complete the DEP Segment shall be carried forward to completion to the satisfaction of the County, in a diligent manner.

c. The Co-Developers (or their designee) shall initially fund each construction draw for the DEP Segment pursuant to the contract draw schedule approved by the Co-Developers and the County, and the County shall reimburse the Co-Developers (or their designee as applicable) within 45 days after receipt of proof of each construction draw payment, together with the required supporting documents. The Co-Developers shall provide all documentation required by and in compliance with the DEP Grant Agreement, attached hereto as Exhibit E and incorporated by reference.

d. The engineering plans, survey and permit costs, not to exceed the amount of $265,000 incurred by the Co-Developers prior to approval of this Agreement and at the request of the County for the DEP Grant Segment, shall be reimbursed by the County to the Co-Developers within 45 days after the approval of the utility plans by the County for the DEP Grant Segment and submittal by the Co-Developers to the County of all documentation required by the County for such engineering and permit cost verification. All design, permit and construction costs, and award of fee credits, for work to be performed by the Co-Developers under this Agreement, other than the costs related to the DEP Grant Segment (above), shall be governed by the VOPH Funding and Escrow Agreement.

e. The County shall be responsible to submit its request to DEP for reimbursement pursuant to the DEP Grant Agreement; however, the Co-Developers shall provide the required documentation to the County for such DEP submittal, including evidence of payment of all costs by the County pursuant to Section 6 (c) above.

f. Prior to beginning work on the DEP Grant Segment, Co-Developers shall have complied with the competitive bidding requirements of the County, DEP Grant Agreement and Florida Statutes.

7. **Miscellaneous**.

a. Within each Designated VOPH-MPUD, the VOPH-MPUD Owners will reserve, or otherwise obtain, all necessary easement and permits, construct and install all internal subdivision lines (which shall mean all lines and related equipment and facilities) necessary to provide the development with potable water and sanitary sewer service as provided for in a County-approved Master Utility Plan, and will bear all costs and expenses thereof, including engineering fees, legal fees, labor, and materials; provided, however, that any main transmission lines now or hereafter identified on the VOPH MUP and which traverse through a Designated VOPH-MPUD shall qualify for VOPH utility surcharge fee credits pursuant to the VOPH-FP. Installation of lines within the subdivision shall not be commenced until plans and specifications therefore have been submitted to and approved, in writing, by the County and other appropriate agencies having jurisdiction.

b. The VOPH-MPUD Owners shall construct and install all lines necessary to tie into the County's existing and future water and wastewater facilities (including the Handcart Road Segment pursuant to this Agreement) and shall bear all costs and expenses thereof, including engineering fees, permitting fees, and construction costs. Installation of these lines shall not be commenced until plans and specifications thereof have been submitted to and approved, in writing, by the County and other appropriate agencies having jurisdiction. These facilities shall be located within existing County easements or rights-of-way or in easements or rights-of-way acquired by the VOPH-MPUD Owners. The right of the VOPH-MPUD Owners to construct facilities in County easements or rights-of-way shall not be unreasonably withheld by the County. Upon completion of the Project by the Co-Developers, the Project shall be inspected by the County and certified by the Co-Developers' engineers. Upon determination by the County that the Project has been properly installed by the Co-Developers in accordance with approved plans and specifications, potable water and sanitary sewer service will be provided to the Project provided the Co-Developers have performed and fulfilled all its obligations imposed upon the Co-Developers under the terms of this agreement, relevant laws, rules, regulations, and ordinances.

c. Either Co-Developer or any Designated VOPH-MPUD Owner included within the VOPH Funding & Escrow Agreement (as may be hereafter amended to add additional Designated VOPH-MPUD’s) shall have the right to secure a guaranty of capacity for water service and/or wastewater service by the

County for a designated number of residential units within such Designated VOPH-MPUD, by payment to the County of fifty percent (50%) of the base impact/connection fees applicable to such residential units (which shall not require pre-payment of any portion of the VOPH utility surcharge amount). The County shall issue a certificate of capacity reservation for such Designated VOPH-MPUD upon receipt of the 50% payment deposit, which capacity reservation will be assignable by the Co-Developer to its developer/builder designees for such Designated VOPH-MPUD. This available procedure to purchase and thereby secure a guaranty of capacity for water service and/or wastewater service by a Designated VOPH-MPUD Owner included within the Funding & Escrow Agreement may accelerate the phasing plan timelines described in Section 4.e. or Section 5.f., above.

d. In consideration for the obligations undertaken by the Co-Developers pursuant to this Agreement, the County agrees that it shall (i) provide notice to the Co-Developers upon the County's receipt of any application for utility plan or permit approval from any developer or builder other than a Co-Developer or its Designated MPUD Owner, for connection of a VOPH development project to the Handcart Road water or wastewater transmission lines required to be constructed by the Co-Developers under this Agreement, (ii) add to its VOPH utility plan approval/permit application checklist a required written letter of authorization from the Co-Developers confirming that a reasonable proportionate share payment and/or purchase and assignment of VOPH utility surcharge credits has been resolved between the Co-Developers and such third-party developer or builder, and (iii) except as required by law, shall not issue any final utility plan/permit approval within VOPH for connection to the Handcart Road transmission lines without receipt of such Co-Developer authorization letter. On not less than a quarterly basis, the Co-Developers shall be responsible (rather than PCU) for coordinating the reporting to the VOPH Fee Credit Registry manager, PCU, and other applicable County departments regarding any sale/assignment of VOPH Utility Fee surcharges related to the foregoing fair share contributions by third-party developers/builders (such Co-Developer reports to include the applicable PCU Application #).

e. It is agreed that, at such time as the Project , or any portion thereof, is connected to and becomes a part of the County's water and sewer system, all such lines and all permits, engineering drawings, and other property owned by the Co-Developers, in connection therewith, shall henceforth be deemed to be owned by the County, and title and ownership shall automatically vest in the County without the necessity of any separate instrument of conveyance or separate instrument of assignment or transfer, and the County shall

have the full privilege of all of the easements and rights-of-way occupied by such facilities. It being the further understanding of the parties, that at such time as the Project , or any part or portion thereof, are used to provide potable water and sanitary sewer service to the development, such lines shall be deemed to be owned by the County in their entirety as fully and completely as if installed and paid for by the County, except that the Co-Developers and its successors and/or assigns reserve the right to use these lines for the purpose set forth in this Agreement. The Co-Developers shall confirm or verify such ownership, conveyance, and title by the execution and delivery of appropriate bills of sale, transfer, assignments, or other instruments of conveyance, free and clear of all liens and encumbrances.

f. After ownership and title to any portion of the Project are vested in the County as set forth above, all responsibility for repair and maintenance of such part or portion as have been installed in appropriate easements or rights-of-way shall be borne by the County, provided that the County shall not, by this agreement, waive or otherwise affect or diminish its rights and remedies under any Maintenance Bond, Performance Bond, the Co-Developers letter of credit, or other guarantee of performance regarding such lines which has been provided the County in accordance with the requirements of its subdivision or other applicable development ordinance. Furthermore, the Designated MPUD-Owner agrees to post a one (1) year maintenance bond in an amount of fifteen (15) percent of the total cost of the internal subdivision project(s). It is further agreed that the Co-Developers shall assign to the County, for the use and benefit of the County and its successors and assigns, each and every construction warranty obtained by the Co-Developers in connection with the installation of the lines and facilities.

g. This agreement shall be binding on any successors or assigns of the parties, including without limitation any Designated VOPH-MPUD owner or successor owner/developer.

h. Nothing in this agreement will be construed to benefit any person or entity, other than the DEP, not a party to this agreement.

i. This agreement shall be governed by the laws of the State of Florida.

j. The WHEREAS clauses and all Exhibits are hereby incorporated as an integral part of this agreement.

k. The County agrees to submit and process its VOPH MUP update consistent with the plans approved by the County pursuant to this Agreement, as a staff-initiated application(s) through its Planning and Development Department, including any required amendments to the VOPH Enabling Documents (including CPAL, VOPH-SD, LDC amendments, etc. as applicable) to conform to this Agreement. No developer or builder applications for utility or other plan approvals or permits related to this Agreement, or for any Designated VOPH-MPUD, shall unreasonably be withheld or delayed by reason of the County's pending or subsequent process to update its MUP pursuant to this Agreement.

l. In the event of any failure by the Co-Developers to provide to the County (i) any required documents specified by FDEP for its reimbursement procedures as set forth in the FDEP Grant Agreement or (ii) any supplemental documents or information subsequently requested by FDEP for any audit compliance procedure, and provided such information or document exists or reasonably can be prepared by the Co-Developers or their third-party contractors or consultants (as such request is applicable), the Co-Developers shall be required to provide same to the County within fifteen (15) days after written request for same. Upon failure by the Co-Developer to provide same, the County shall have the right to specific performance or a mandatory injunction against the Co-Developers, as well as any other remedy provided at law or in equity for such non-compliance, including the right to reimbursement from the Co-Developers for any funds not received from DEP due to the Co-Developers' non-compliance with the DEP Grant Agreement. For any other breach by either the County or the Co-Developers under this Agreement, the non-breaching party shall provide written notice of such breach to the breaching party, and thirty (30) days within which to cure such breach (or such additional time as reasonably required to cure, provided that such cure is commenced within such 30-day period). If a breach is not cured as set forth above to the reasonable satisfaction of the non-breaching party, then the non-breaching party shall have all available remedies at law or in equity, including specific performance, injunctive, mandamus, or other and equitable relief. No bond shall be required to be posted for any injunctive or other equitable relief sought by a non-breaching party and awarded by the Court under this Agreement.

[REMAINDER OF THIS PAGE LEFT INTENTIONALLY BLANK]

IN WITNESS WHEREOF, the parties hereto have executed the foregoing agreement as of the day executed by the County and noted below.

1. Introduction

Pasco County Utilities provides potable water, wastewater, solid waste and reclaimed water services to most of Pasco County residents and businesses. Our mission is to deliver clean and safe water, treat wastewater and reuse treated wastewater for irrigation. Our goal is to provide these services while expanding our system to keep pace with the ever-growing population.

The Villages of Pasadena Hills (VOPH) is a large-scale development planned for approximately 22,000 acres of eastern Pasco County as shown below in Figure 1. As of March 2020, this area is considered "undeveloped" with land currently occupied by small residential neighborhoods, citrus groves, and pasture lands. Extensive infrastructure construction is required before development may move forward.

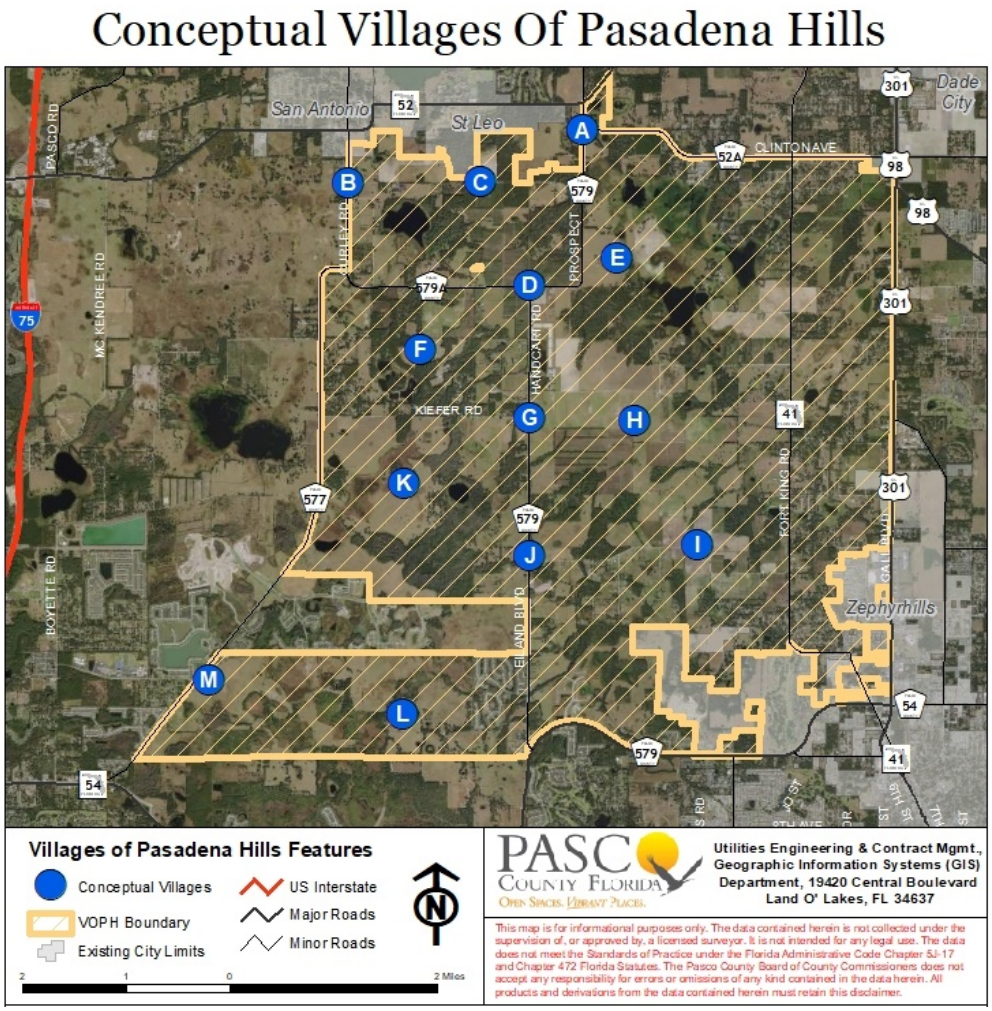

Figure 1. Villages of Pasadena Hills is a relatively large area of eastern Pasco County. (Map created by Max McAmis, Pasco County Utilities Engineering and Contracts Management, GIS Department. Sources: Esri, DigitalGlobe, GeoEye, Earthstar Geographics, CNES/Airbus DS, USDA, USGS, AeroGRID, IGN, the GIS User Community, and Pasco County GIS Data; ArcGIS Desktop 10.5.1. March 23, 2020. Path: C:\Users\ewalton\Documents\ArcGIS\Projects\VOPH_MasterPlan\VOPH_Overview.mxd.)

This report explains the potable, reclaimed, and wastewater services required to support projected growth. The development will be built in two main stages:

1. The Medium-Term Condition is the time between the start of construction when homes are occupied and businesses are up and running, but before build-out. Goals during this time depend on market forces.

2. The Build-Out Condition is when all land parcels are filled and used, and all necessary infrastructure is completed. For utility services, this means the commercial and residential development is at capacity.

The timing and progress of all infrastructure depend on what growth and market forces allow. Careful consideration by stakeholders is needed to time, fund, and organize each role in adding every component of the overall system. However, this report does not focus on these considerations, but on build-out. Thus, this report is not to be used as a detailed roadmap of construction planning or schedules.

2. Project Background

VOPH developers propose building approximately 42,000 single-family homes and 3 million square feet of commercial and office space split into 13 sections, currently identified as Villages A through M as shown in Figure 2.

Pasco County Utility (PCU) planners use the location of each village, their elevations, Pasco County's Highway Vision Plan, and flow requirements to develop a conceptual plan with the sizes and layout for the proposed infrastructure. Pasco County survey data is our source for land elevations. The Highway Vision Plan is the Pasco County Metropolitan Planning Organization's (MPO) plan for future transportation corridors. We base flow requirements for potable water, wastewater, and reclaimed water on proposed population and estimated water use for businesses per industry standards.

The utility infrastructure will include PVC pipes of various diameters, various valve types, well pumps, wastewater pump stations, and manholes. All utility structures are to be installed in the public rights of way and will be owned and maintained by the County.

2.1. Location

The proposed development is bounded by State Route 52 to the North, Eiland Boulevard to the South, Curly Road to the West, and US 301 to the East as shown in Figure 2. Village locations are preliminary and may change as development progresses.

2.2. Demands

After all building and development are complete, Table 1 shows what we expect the demands will be for the final build-out:

Table 1. **Estimated demands at build out**

Utility Service	Millions of Gallons per Day (mgd)
Potable Water Supplied	9.43
Reclaimed Water Supplied	21.10
Wastewater Received and Treated	8.81

3. Potable Water

3.1. Assumptions

PCU planners calculated the potable water demand in Table 1 based on the following assumptions:

- Average daily flow (ADF) for residential areas is based on 215 gallons per day per equivalent residential unit (ERU). An ERU represents a unit of residential development equal to a single-family residence in terms of water use. Therefore, one ERU is equal to one single-family home.
- ADF for commercial properties is 0.15 gallons per day per square foot (gpd/sf).
- Engineers estimate pipe dimensions for peak conditions at buildout.
- A local raw water source, known as Pasco One Well (Fig. 3), can supply up to 1.44 mgd, which is the permitted capacity.
- Connection to the Boyette Water Treatment Plant (WTP) (Fig. 3) will be independent of any current discharge connections to existing infrastructure.
- Pasco One Well and the Southeast WTP will each provide 0.5 mgd to VOPH.
- This report only considers transmission pipes and does not include localized distribution and service lines to the individual single-family homes or commercial and office spaces.

To ensure safe water supply and consistent fire flows, PCU must keep potable water pressure above 20 pounds per square inch (psi). Higher pressures provide better flow to individual connections, but excessive pressures may damage pipes, and other equipment. The modeled pressures range from 45 to 90 psi. These are acceptable pressures in a public supply system. However, pipe materials will be selected to withstand pressures as high as 250 psi.

PCU monitors maximum velocity in pipes to avoid damaging system components. Lower water speeds have the added benefit of reducing noise in the system. PCU's 2020 Utility Standards state velocities in transmission pipes shall be slower than 6.5 feet per second (fps). Our models show water in the proposed distribution system moving below 6 fps.

Figure 2 shows a conceptual layout of the potable water pipes with modeling results.

Conceptual Villages of Pasadena Hills Potable Water Infrastructure Improvements

Figure 2. A Conceptual Layout of Potable Water Infrastructure needed to provide services to the Villages of Pasadena Hills. (Map created by Max McAmis, Pasco County Utilities Engineering and Contracts Management, GIS Department. Sources: Esri; Digital Globe; GeoEye; Earthstar Geographics; CNES/Airbus DS; AeroGRID; IGN and the GIS User Community; Pasco County GIS Department; USDA/NRCS - National Geospatial Center of Excellence; U.S. Department of Agriculture, Service Center Agencies; U.S. Census Bureau, Geography Division. ArcGIS Desktop 10.5.1. April 2, 2020. Path: U:\UTIL_ENG\Project Files- Planning\Development\Villages of Pasadena Hills (VOPH)\Documents\Maps\April 2020_VOPH_Potable_MasterPlan.mxd.)

3.2. Required Potable Water Infrastructure

To effectively serve the proposed VOPH with potable water, the following infrastructure improvements are required.

- The elevations in the proposed VOPH boundary are between 0 feet at sea level to 246 feet above sea level (Fig. 3). To overcome elevation differences between Villages F and G and the other Villages, PCU will need to install a booster pump station capable of pumping approximately 6,000 gpm at 60 psi.

- To reduce possible high-water pressures in the pipes, a pressure-reducing valve is required on Prospect Road south of Village E.

3.3. Proposed Infrastructure

The proposed infrastructure was modeled using fixed-head reservoirs and demand nodes. Demands were based on the ADF with a peaking factor of 1.67 for each village as shown in Table 2. The total length of proposed pipe is shown in Table 3.

Table 2. **Potable Average Daily Flow and Peak Flow**

Village	Total ADF[1] (mgd)	Peak Flow[2] (gpm)
A	0.23	300
B	0.72	800
C	0.60	700
D	1.00	1,200
E	0.21	200
F	1.00	1,200
G	1.20	1,400
H	1.20	1,300
I	0.98	1,100
J	0.71	800
K	0.62	700
L	0.50	600
M	0.46	500
Total	**9.43**	**10,800**

[1] Total ADF = Number of residential units (EDU) x 215 gpd divided by 1,000,000.

[2] Peak Flow = ADF x 1.67 (peak factor) divided by 1440 (number of minutes in a day). Results rounded up to nearest hundredth.

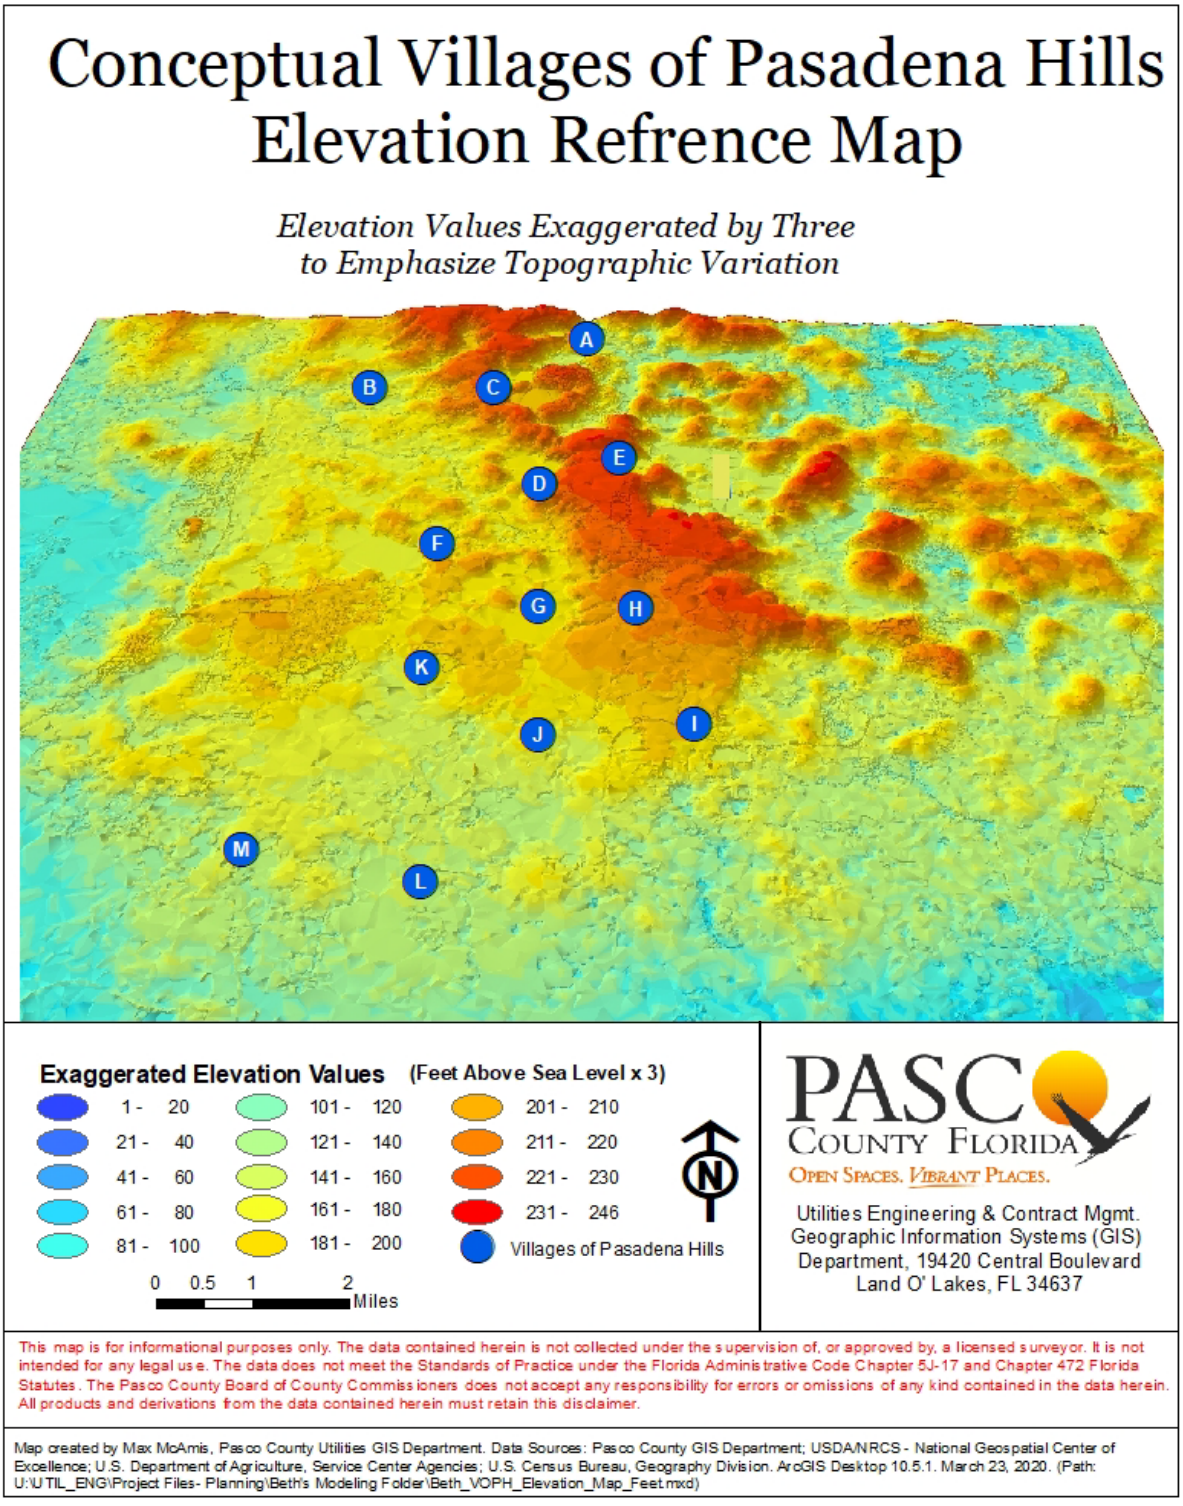

Figure 2. Exaggerated Elevation to illustrate differences in topography. Note: National Elevation Data was used to model the map above. (Map created by Pasco County Utilities Engineering and Contracts Management, GIS Department. Table 3. Required Potable Water Transmission Mains

Pipe Diameter (inches)	Approximate Length[1] (miles)
8	3.3
12	9.1
16	7.6
24	1.1
36	4.3
Total	**25.4**

[1] Length calculated from GIS computer models of proposed pipe routes.

3.4. Results

A total of 25.4 miles of potable water transmission pipe is expected to be installed. See the potable water infrastructure map in Figure 2.

4. Wastewater

4.1. Assumptions

PCU planners calculated the wastewater demand in Table 4 based on the following assumptions:

- Engineers use ADF based on 200 gpd per ERU for residential parcels and 0.15 gpd/sf for commercial properties.
- Engineers use an updated peaking factor of 3.0 when estimating Peak Flow.
- County design standards require a minimum of 2 feet per second (fps) flow to keep the pipes clean.

4.2. Proposed Infrastructure

PCU planners use the location of each village, elevations, the transportation MPO Highway Vision Plan, and flow requirements for each development to conceptually size and layout the routes for the proposed infrastructure.

Computer modeling was used for testing the proposed infrastructure and estimating required pipe size and capacity. The ADF demands used by the model for each village are shown in Table 4. A standard peaking factor of 3.8 based on demand was used to calculate pipe capacity to hydraulically remote areas of the project.

A peak factor is used for modeling and design of utility systems to estimate maximum flow at certain times of day. PCU recently updated the utility standards, lowering the peak factor from 3.8 to 3.0.

Table 4. Wastewater Average Daily Flow and Peak Flow

Village	Total ADF[1] (mgd)	Peak Flow[2] (gpm)
A	0.22	400
B	0.67	1,400
C	0.56	1,200
D	0.95	2,000
E	0.20	400
F	0.94	2,000
G	1.15	2,400
H	1.08	2,300
I	0.91	1,900
J	0.66	1,400
K	0.58	1,200
L	0.47	1,000
M	0.42	900
Total	**8.81**	**18,500**

[1] Total ADF = Number of residential units (EDU) x 200 gpd divided by 1,000,000.

[2] Peak Flow = ADF x 3.68 (peak factor) divided by 1440 (number of minutes in a day). Results rounded up to nearest hundred.

Table 5 shows proposed lengths of pipes.

Wastewater from VOPH will be treated at the Southeast Wastewater Treatment Plant (WWTP) and Wesley Center WWTP, requiring an increase in their capacity to handle 8 mgd and 1 mgd, respectively. Figure 4 shows additional capacity on existing force main pipes. Existing utility infrastructure will serve Village M, as shown in Figure 4.

Table 5. Required Wastewater Force Mains

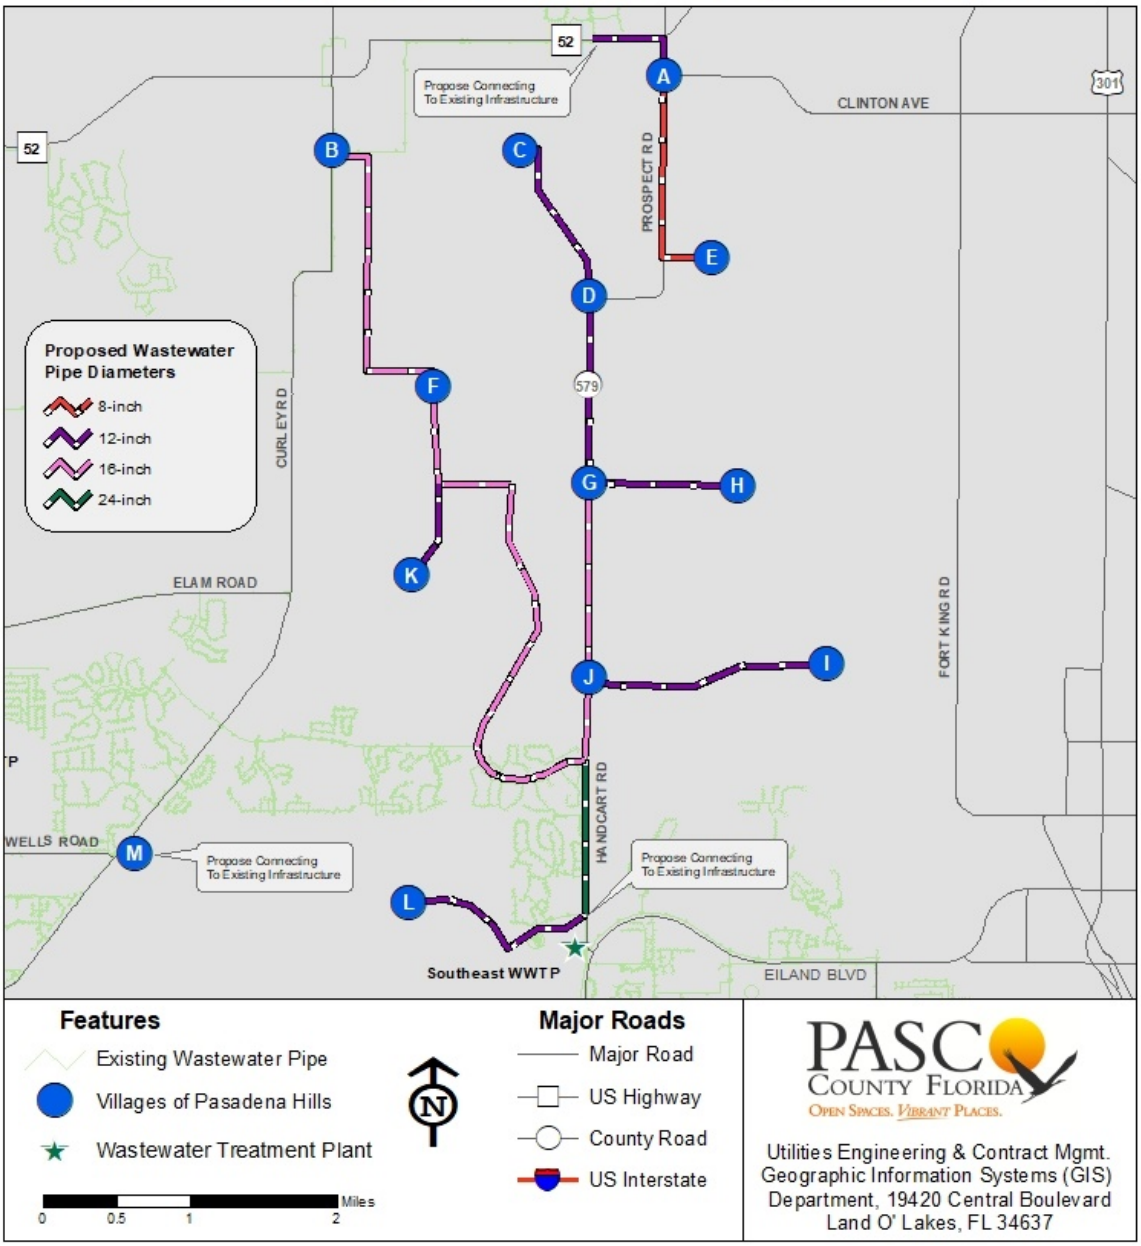
Diameter (inches)	Approximate Length[1] (miles)
8	1.6
12	8.0
16	8.1
24	1.0
Total	**18.7**

[1] Length calculated from GIS maps of computer models of proposed pipe routes.

4.3. Results

Computer modeling results and a conceptual layout of the wastewater water system pipes can be found in Figure 4.

Conceptual Villages of Pasadena Hills Wastewater Infrastructure Improvements



This map is for informational purposes only. The data contained herein is not collected under the supervision of, or approved by, a licensed surveyor. It is not intended for any legal use. The data does not meet the Standards of Practice under the Florida Administrative Code Chapter 5J-17 and Chapter 472 Florida Statutes. The Pasco County Board of County Commissioners does not accept any responsibility for errors or omissions of any kind contained in the data herein. All products and derivations from the data contained herein must retain this disclaimer.

Figure 3. A Conceptual Layout of Wastewater Infrastructure required to provide services to the Villages of Pasadena Hills including additional capacity on existing force main pipes is shown; existing utility infrastructure will serve Village M. (Map created by Max McAmis, Pasco County Utilities Engineering and Contracts Management, GIS Department. Sources: Esri; Digital Globe; GeoEye; Earthstar Geographics; CNES/Airbus DS; AeroGRID; IGN and the GIS User Community; Pasco County GIS Department; USDA/NRCS - National Geospatial Center of Excellence; U.S. Department of Agriculture, Service Center Agencies; U.S. Census Bureau, Geography Division. ArcGIS Desktop 10.5.1. April 2, 2020. Path: U:\UTIL_ENG\Project Files- Planning\Development\Villages of Pasadena Hills (VOPH)\Documents\Maps\April 2020_VOPH_Wastewater_MasterPlan.mxd.)

As with the potable water system, high pressures and sudden pressure changes can damage the wastewater infrastructure. The risk is unacceptable if forces reach above 90 psi, requiring corrective action. Typically, a well-functioning system will have pressures below 60 psi. Computer models show that even at peak conditions, pressures in the pipes will remain within an acceptable range of 9 to 63 psi.

5. Reclaimed Water

5.1. Assumptions

PCU planners base their reclaimed water calculations on the following assumptions:

- An adequate amount of reclaimed water is available.
- VOPH will require approximately 21 mgd of reclaimed water for irrigation purposes.
- VOPH will produce about 9 mgd of wastewater to be treated and reused for irrigation. The Pasco County Master Reuse System (PCMRS) will use repump stations and storage reservoirs to supply the remaining 13 mgd.
- An existing reclaimed repump station, known as Price Altman, will provide reclaimed water for Villages A, C, D, E, H, I, St. Leo, and the Lake Jovita Subdivision. Price Altman's current storage tank and pumps will need extensive upgrades so it can supply an estimated 10 mgd to VOPH.
    - The Pasco County Master Reuse System (PCMRS) will fill the Price Altman storage tank during non-watering hours.
- PCMRS will provide reclaimed water to Villages B, F, G, J, K, L, and M directly from the regional pipe system.
    - This source provides the remaining 12 mgd of reclaimed water.
- An average daily flow (ADF) based on 500 gpd/du for residential homes.
    - Commercial developments were excluded, due to minimal impact on pipe sizes and irrigation demands.
- Peak flow is based on $PF = Homes \times 15 \frac{gpm}{zone} \times 0.20 \times 0.25$
    - Peak flows based on 20 percent of households watering each day, with a 25 percent overlap of watering schedules.

    - Landscaping contractors divide irrigation areas into zones, which are specific areas served by certain types of sprinkler heads and are used to calculate the demand. In this case, each home lot is a single zone.

- If parallel pipes where proposed, they will be modeled as a single pipe for simplicity. For example, planners will model two 4-inch diameter pipes in parallel as one 6-inch diameter pipe. The capacities are not equal, but close enough for modeling purposes.

- Computer modeling accounted for other large subdivisions and commercial developments, Mirada, EPCO Ranch North, and Epperson Ranch South at build-out conditions.

- PCU planners will not include other known developments south of the Southeast Wastewater Treatment Plant (WWTP).

    - Existing utility infrastructure is at capacity.

5.2. Required Infrastructure

To effectively serve reclaimed water to the proposed VOPH and the developments referenced in section 5.1, the following infrastructure and storage improvements are required:

- PCU needs to expand its Southeast WWTF. Afterwards, it can store and provide 6 mgd of reclaimed water to VOPH.

- PCU should expand the Boyette High-Service Pump (HSP) station by 15,000 gpm. HSPs operate under higher pressures and are used to pump water to higher elevations, usually water storage tanks.

- The Price Altman site will need an additional 8.0 MG of storage and an additional 15,000 gpm HSP station.

- To relieve possible high pressures in pipes, a pressure-reducing valve is required on Prospect Road, just south of Village E.

5.3. Proposed Infrastructure

The proposed infrastructure was modeled using fixed-head reservoirs and demand nodes. Demands were based on the peak flows for each village as shown in Table 6. The total length of proposed pipe is shown in Table 7.

Table 6. Reclaimed Water Daily Demand and Peak Flow Villages A to M

Village	Total ADF[1] (mgd)	Peak Flow[2] (gpm)
A	0.45	700
B	1.64	2,500
C	1.30	2,000
D	2.10	3,200
E	0.500	800
F	2.30	3,500
G	2.70	4,000
H	2.70	4,000
I	2.20	3,300
J	1.60	2,400
K	1.40	2,200
L	1.16	1,800
M	1.05	1,600
Total	**21.10**	**32,000**

[1] Total ADF = number of residential units (EDU) x 300 gpd divided by 1,000,000. Result rounded.

[2] Peak flow = number of EDUs x 15 gpm per zone x 20 percent x 25 percent. Result is rounded up to nearest hundred.

Table 7. Required Reclaimed Water Transmission Mains

Diameter (inches)	Approximate Length[1] (miles)
12	12.9
16	2.5
24	4.4
36	1.9
48	6.2
Total	**27.9**

1 Length calculated from GIS maps of computer models of proposed pipe routes.

5.4. Results

Figure 5 contains the modeling results and a conceptual layout of the reclaimed water mains.

In order to ensure a reliable reclaimed water supply, reclaimed water pressure must stay above 35 psi during watering hours. Higher internal pressures provide better flow to individual connections, but excessive pressures may damage pipes and other equipment. Computer models show pressures in the reclaimed pipes between 40 and 80 psi, this is an acceptable range for a public utility system. Even so, as per industry practice, pipe material will be selected to withstand pressures as high as 250 psi.

Table 8. Conceptual High Service Pump Requirements (Model Inputs)

Location	Elevation (ft)	Flow (gpm)	Setting (psi)
Boyette Reservoir	122	20,870	70
Price Altman	209	14,361	65
Southeast WWTP	106	4,034	70

6. Summary and Conclusions

Based on the above computer modeling results, PCU's planning team has determined that significant infrastructure improvements will be required to provide utility services to VOPH. Overall, close to 72 miles of water, wastewater, and reclaimed pipes will be installed once the project is completed. These improvements are summarized below.

6.1. Potable Water Requirements

- Construction of a Booster Pump Station to move water to higher elevations
- Install multiple hydraulic control valves
- We need to verify that County water sources, Pasco One Well and Southeast WTP, can supply 500,000 gpd to meet the new demand.
- Install about 26 miles of water pipes in various sizes

6.2. Wastewater Requirements

- Expand the Southeast WWTF to handle up to 14.0 mgd
- Expand the Wesley Chapel WWTF with an additional 1.0 mgd capacity
- Install about 19 miles of force main pipes and gravity sewer pipes

6.3. Reclaimed Water Requirements

- Expand the Southeast WWTF Ground Storage Tank (GST) and HSP stations
- Expand the Boyette Reservoir HSP station by 15,000 gpm
- Expand of the Price Altman GST by an additional 8 mg and add an HSP station capable of 15,000 gpm
- Install multiple hydraulic control valves
- Installation of approximately 28 miles of various diameter reclaimed mains

Table 9. Summary of Pipe Infrastructure Requirements

Pipe Diameter[1]	Potable[2]	Wastewater[2]	Reclaimed Water[2]	Total[2]

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Standard Grant Agreement

This Agreement is entered into between the Parties named below, pursuant to Section 215.971, Florida Statutes:

1. Project Title (Project): **Pasco County Handcart Road Water and Wastewater**
Agreement Number: **LPA0206**

2. Parties: **State of Florida Department of Environmental Protection, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000** (Department)
Grantee Name: **Pasco County**
Entity Type: **Local Government**
Grantee Address: **8731 Citizens Dr., New Port Richey, FL 34654**
FEID: **59-6000793** (Grantee)

3. Agreement Begin Date: **Upon Execution**
Date of Expiration: **March 31, 2024**

4. Project Number: *(If different from Agreement Number)*
Project Location(s): **Lat/Long (28.2843, -82.2456)**
Project Description: **The Grantee will construct a water and wastewater distribution system along Handcart Rd.**

5. Total Amount of Funding: **$6,500,000.00**

Funding Source?	Award #s or Line Item Appropriations:	Amount per Source(s):
☑ State ☐ Federal	**LP, GAA LI 1607A, FY 21-22, GR**	**$6,500,000.00**
☐ State ☐ Federal		
☐ Grantee Match		
	Total Amount of Funding + Grantee Match, if any:	**$6,500,000.00**

6. Department's Grant Manager

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STANDARD TERMS AND CONDITIONS
APPLICABLE TO GRANT AGREEMENTS

ATTACHMENT 1

1. Entire Agreement.

This Grant Agreement, including any Attachments and Exhibits referred to herein and/or attached hereto (Agreement), constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, whether written or oral, with respect to such subject matter. Any terms and conditions included on Grantee's forms or invoices shall be null and void.

2. Grant Administration.

a. Order of Precedence. If there are conflicting provisions among the documents that make up the Agreement, the order of precedence for interpretation of the Agreement is as follows:
   i. Standard Grant Agreement
   ii. Attachments other than Attachment 1, in numerical order as designated in the Standard Grant Agreement
   iii. Attachment 1, Standard Terms and Conditions
   iv. The Exhibits in the order designated in the Standard Grant Agreement

b. All approvals, written or verbal, and other written communication among the parties, including all notices, shall be obtained by or sent to the parties' Grant Managers. All written communication shall be by electronic mail, U.S. Mail, a courier delivery service, or delivered in person. Notices shall be considered delivered when reflected by an electronic mail read receipt, a courier service delivery receipt, other mail service delivery receipt, or when receipt is acknowledged by recipient. If the notice is delivered in multiple ways, the notice will be considered delivered at the earliest delivery time.

c. If a different Grant Manager is designated by either party after execution of this Agreement, notice of the name and contact information of the new Grant Manager will be submitted in writing to the other party and maintained in the respective parties' records. A change of Grant Manager does not require a formal amendment or change order to the Agreement.

d. This Agreement may be amended, through a formal amendment or a change order, only by a written agreement between both parties. A formal amendment to this Agreement is required for changes which cause any of the following:
   (1) an increase or decrease in the Agreement funding amount;
   (2) a change in Grantee's match requirements;
   (3) a change in the expiration date of the Agreement; and/or
   (4) changes to the cumulative amount of funding transfers between approved budget categories, as defined in Attachment 3, Grant Work Plan, that exceeds or is expected to exceed twenty percent (20%) of the total budget as last approved by Department.
   A change order to this Agreement may be used when:
   (1) task timelines within the current authorized Agreement period change;
   (2) the cumulative transfer of funds between approved budget categories, as defined in Attachment 3, Grant Work Plan, are less than twenty percent (20%) of the total budget as last approved by Department;
   (3) changing the current funding source as stated in the Standard Grant Agreement; and/or
   (4) fund transfers between budget categories for the purposes of meeting match requirements.
   This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.

e. All days in this Agreement are calendar days unless otherwise specified.

3. Agreement Duration.

The term of the Agreement shall begin and end on the dates indicated in the Standard Grant Agreement, unless extended or terminated earlier in accordance with the applicable terms and conditions. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement, unless otherwise specified in Attachment 2, Special Terms and Conditions. However, work performed prior to the execution of this Agreement may be reimbursable or used for match purposes if permitted by the Special Terms and Conditions.

4. Deliverables.

The Grantee agrees to render the services or other units of deliverables as set forth in Attachment 3, Grant Work Plan. The services or other units of deliverables shall be delivered in accordance with the schedule and at the pricing outlined in the Grant Work Plan. Deliverables may be comprised of activities that must be completed prior to Department making payment on that deliverable. The Grantee agrees to perform in accordance with the terms and conditions set forth in this Agreement and all attachments and exhibits incorporated by the Standard Grant Agreement.

5. Performance Measures.

The Grantee warrants that: (1) the services will be performed by qualified personnel; (2) the services will be of the kind and quality described in the Grant Work Plan; (3) the services will be performed in a professional and workmanlike manner in accordance with industry standards and practices; (4) the services shall not and do not knowingly infringe upon the intellectual property rights, or any other proprietary rights, of any third party; and (5) its employees, subcontractors, and/or subgrantees shall comply with any security and safety requirements and processes, if provided by Department, for work done at the Project Location(s). The Department reserves the right to investigate or inspect at any time to determine whether the services or qualifications offered by Grantee meet the Agreement requirements. Notwithstanding any provisions herein to the contrary, written acceptance of a particular deliverable does not foreclose Department's remedies in the event deficiencies in the deliverable cannot be readily measured at the time of delivery.

6. Acceptance of Deliverables.

a. Acceptance Process. All deliverables must be received and accepted in writing by Department's Grant Manager before payment. The Grantee shall work diligently to correct all deficiencies in the deliverable that remain outstanding, within a reasonable time at Grantee's expense. If Department's Grant Manager does not accept the deliverables within 30 days of receipt, they will be deemed rejected.

b. Rejection of Deliverables. The Department reserves the right to reject deliverables, as outlined in the Grant Work Plan, as incomplete, inadequate, or unacceptable due, in whole or in part, to Grantee's lack of satisfactory performance under the terms of this Agreement. The Grantee's efforts to correct the rejected deliverables will be at Grantee's sole expense. Failure to fulfill the applicable technical requirements or complete all tasks or activities in accordance with the Grant Work Plan will result in rejection of the deliverable and the associated invoice. Payment for the rejected deliverable will not be issued unless the rejected deliverable is made acceptable to Department in accordance with the Agreement requirements. The Department, at its option, may allow additional time within which Grantee may remedy the objections noted by Department. The Grantee's failure to make adequate or acceptable deliverables after a reasonable opportunity to do so shall constitute an event of default.

7. Financial Consequences for Nonperformance.

a. Withholding Payment. In addition to the specific consequences explained in the Grant Work Plan and/or Special Terms and Conditions, the State of Florida (State) reserves the right to withhold payment when the Grantee has failed to perform/comply with provisions of this Agreement. None of the financial consequences for nonperformance in this Agreement as more fully described in the Grant Work Plan shall be considered penalties.

b. Corrective Action Plan. If Grantee fails to correct all the deficiencies in a rejected deliverable within the specified timeframe, Department may, in its sole discretion, request that a proposed Corrective Action Plan (CAP) be submitted by Grantee to Department. The Department requests that Grantee specify the outstanding deficiencies in the CAP. All CAPs must be able to be implemented and performed in no more than sixty (60) calendar days.

    i. The Grantee shall submit a CAP within ten (10) days of the date of the written request from Department. The CAP shall be sent to the Department's Grant Manager for review and approval. Within ten (10) days of receipt of a CAP, Department shall notify Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, Grantee shall have ten (10) days from receipt of Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above may result in Department's termination of this Agreement for cause as authorized in this Agreement.

    ii. Upon Department's notice of acceptance of a proposed CAP, Grantee shall have ten (10) days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department does not relieve Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, Department shall retain the right to require additional or further remedial steps, or to terminate this Agreement for failure to perform. No actions approved by Department or steps taken by Grantee shall preclude Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement

the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to Department as requested by Department's Grant Manager.

iii. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by Department may result in termination of the Agreement.

8. Payment.

a. Payment Process. Subject to the terms and conditions established by the Agreement, the pricing per deliverable established by the Grant Work Plan, and the billing procedures established by Department, Department agrees to pay Grantee for services rendered in accordance with Section 215.422, Florida Statutes (F.S.).

b. Taxes. The Department is exempted from payment of State sales, use taxes and Federal excise taxes. The Grantee, however, shall not be exempted from paying any taxes that it is subject to, including State sales and use taxes, or for payment by Grantee to suppliers for taxes on materials used to fulfill its contractual obligations with Department. The Grantee shall not use Department's exemption number in securing such materials. The Grantee shall be responsible and liable for the payment of all its FICA/Social Security and other taxes resulting from this Agreement.

c. Maximum Amount of Agreement. The maximum amount of compensation under this Agreement, without an amendment, is described in the Standard Grant Agreement. Any additional funds necessary for the completion of this Project are the responsibility of Grantee.

d. Reimbursement for Costs. The Grantee shall be paid on a cost reimbursement basis for all eligible Project costs upon the completion, submittal, and approval of each deliverable identified in the Grant Work Plan. Reimbursement shall be requested on Exhibit C, Payment Request Summary Form. To be eligible for reimbursement, costs must be in compliance with laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures, which can be accessed at the following web address: https://www.myfloridacfo.com/Division/AA/Manuals/documents/ReferenceGuideforStateExpenditures.pdf.

e. Invoice Detail. All charges for services rendered or for reimbursement of expenses authorized by Department pursuant to the Grant Work Plan shall be submitted to Department in sufficient detail for a proper pre-audit and post-audit to be performed. The Grantee shall only invoice Department for deliverables that are completed in accordance with the Grant Work Plan.

f. Interim Payments. Interim payments may be made by Department, at its discretion, if the completion of deliverables to date have first been accepted in writing by Department's Grant Manager.

g. Final Payment Request. A final payment request should be submitted to Department no later than sixty (60) days following the expiration date of the Agreement to ensure the availability of funds for payment. However, all work performed pursuant to the Grant Work Plan must be performed on or before the expiration date of the Agreement.

h. Annual Appropriation Contingency. The State's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of Department if the Legislature reduces or eliminates appropriations.

i. Interest Rates. All interest rates charged under the Agreement shall be calculated on the prevailing rate used by the State Board of Administration. To obtain the applicable interest rate, please refer to: www.myfloridacfo.com/Division/AA/Vendors/default.htm.

j. Refund of Payments to the Department. Any balance of unobligated funds that have been advanced or paid must be refunded to Department. Any funds paid in excess of the amount to which Grantee or subgrantee is entitled under the terms of the Agreement must be refunded to Department. If this Agreement is funded with federal funds and the Department is required to refund the federal government, the Grantee shall refund the Department its share of those funds.

9. Documentation Required for Cost Reimbursement Grant Agreements and Match.

If Cost Reimbursement or Match is authorized in Attachment 2, Special Terms and Conditions, the following conditions apply. Supporting documentation must be provided to substantiate cost reimbursement or match requirements for the following budget categories:

a. Salary/Wages. Grantee shall list personnel involved, position classification, direct salary rates, and hours spent on the Project in accordance with Attachment 3, Grant Work Plan in their documentation for reimbursement or match requirements.

b. Overhead/Indirect/General and Administrative Costs. If Grantee is being reimbursed for or claiming match for multipliers, all multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by Grantee exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate.

c. Contractual Costs (Subcontractors). Match or reimbursement requests for payments to subcontractors must be substantiated by copies of invoices with backup documentation identical to that required from Grantee. Subcontracts which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours spent on the Project. All eligible multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by any subcontractor exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate. Nonconsumable and/or nonexpendable personal property or equipment costing $5,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in Chapters 273 and/or 274, F.S., and Chapter 69I-72, Florida Administrative Code (F.A.C.) and/or Chapter 69I-73, F.A.C., as applicable. The Grantee shall be responsible for maintaining appropriate property records for any subcontracts that include the purchase of equipment as part of the delivery of services. The Grantee shall comply with this requirement and ensure its subcontracts issued under this Agreement, if any, impose this requirement, in writing, on its subcontractors.
    i. For fixed-price (vendor) subcontracts, the following provisions shall apply: The Grantee may award, on a competitive basis, fixed-price subcontracts to consultants/contractors in performing the work described in Attachment 3, Grant Work Plan. Invoices submitted to Department for fixed-price subcontracted activities shall be supported with a copy of the subcontractor's invoice and a copy of the tabulation form for the competitive procurement process (e.g., Invitation to Bid, Request for Proposals, or other similar competitive procurement document) resulting in the fixed-price subcontract. The Grantee may request approval from Department to award a fixed-price subcontract resulting from procurement methods other than those identified above. In this instance, Grantee shall request the advance written approval from Department's Grant Manager of the fixed price negotiated by Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor. Upon receipt of Department Grant Manager's approval of the fixed-price amount, Grantee may proceed in finalizing the fixed-price subcontract.
    ii. If the procurement is subject to the Consultant's Competitive Negotiation Act under section 287.055, F.S. or the Brooks Act, Grantee must provide documentation clearly evidencing it has complied with the statutory or federal requirements.

d. Travel. All requests for match or reimbursement of travel expenses shall be in accordance with Section 112.061, F.S.

e. Direct Purchase Equipment. For the purposes of this Agreement, Equipment is defined as capital outlay costing $5,000 or more. Match or reimbursement for Grantee's direct purchase of equipment is subject to specific approval of Department, and does not include any equipment purchased under the delivery of services to be completed by a subcontractor. Include copies of invoices or receipts to document purchases, and a properly completed Exhibit B, Property Reporting Form**.**

f. Rental/Lease of Equipment. Match or reimbursement requests for rental/lease of equipment must include copies of invoices or receipts to document charges.

g. Miscellaneous/Other Expenses. If miscellaneous or other expenses, such as materials, supplies, non-excluded phone expenses, reproduction, or mailing, are reimbursable or available for match or reimbursement under the terms of this Agreement, the documentation supporting these expenses must be itemized and include copies of receipts or invoices. Additionally, independent of Grantee's contract obligations to its subcontractor, Department shall not reimburse any of the following types of charges: cell phone usage; attorney's fees or court costs; civil or administrative penalties; or handling fees, such as set percent overages associated with purchasing supplies or equipment.

h. Land Acquisition. Reimbursement for the costs associated with acquiring interest and/or rights to real property (including access rights through ingress/egress easements, leases, license agreements, or other site access agreements; and/or obtaining record title ownership of real property through purchase) must be supported by the following, as applicable: Copies of Property Appraisals, Environmental Site Assessments, Surveys and Legal Descriptions, Boundary Maps, Acreage Certification, Title Search Reports, Title Insurance, Closing Statements/Documents, Deeds, Leases, Easements, License Agreements, or other legal instrument documenting

acquired property interest and/or rights. If land acquisition costs are used to meet match requirements, Grantee agrees that those funds shall not be used as match for any other Agreement supported by State or Federal funds.

10. Status Reports.

The Grantee shall submit status reports quarterly, unless otherwise specified in the Attachments, on Exhibit A, Progress Report Form**,** to Department's Grant Manager describing the work performed during the reporting period, problems encountered, problem resolutions, scheduled updates, and proposed work for the next reporting period. Quarterly status reports are due no later than twenty (20) days following the completion of the quarterly reporting period. For the purposes of this reporting requirement, the quarterly reporting periods end on March 31, June 30, September 30 and December 31. The Department will review the required reports submitted by Grantee within thirty (30) days.

11. Retainage.

The following provisions apply if Department withholds retainage under this Agreement:

a. The Department reserves the right to establish the amount and application of retainage on the work performed under this Agreement up to the maximum percentage described in Attachment 2, Special Terms and Conditions. Retainage may be withheld from each payment to Grantee pending satisfactory completion of work and approval of all deliverables.

b. If Grantee fails to perform the requested work, or fails to perform the work in a satisfactory manner, Grantee shall forfeit its right to payment of the retainage associated with the work. Failure to perform includes, but is not limited to, failure to submit the required deliverables or failure to provide adequate documentation that the work was actually performed. The Department shall provide written notification to Grantee of the failure to perform that shall result in retainage forfeiture. If the Grantee does not correct the failure to perform within the timeframe stated in Department's notice, the retainage will be forfeited to Department.

c. No retainage shall be released or paid for incomplete work while this Agreement is suspended.

d. Except as otherwise provided above, Grantee shall be paid the retainage associated with the work, provided Grantee has completed the work and submits an invoice for retainage held in accordance with the invoicing procedures under this Agreement.

12. Insurance.

a. Insurance Requirements for Sub-Grantees and/or Subcontractors. The Grantee shall require its sub-grantees and/or subcontractors, if any, to maintain insurance coverage of such types and with such terms and limits as described in this Agreement. The Grantee shall require all its sub-grantees and/or subcontractors, if any, to make compliance with the insurance requirements of this Agreement a condition of all contracts that are related to this Agreement. Sub-grantees and/or subcontractors must provide proof of insurance upon request.

b. Deductibles. The Department shall be exempt from, and in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Grantee providing such insurance.

c. Proof of Insurance. Upon execution of this Agreement, Grantee shall provide Department documentation demonstrating the existence and amount for each type of applicable insurance coverage ***prior to*** performance of any work under this Agreement. Upon receipt of written request from Department, Grantee shall furnish Department with proof of applicable insurance coverage by standard form certificates of insurance, a self-insured authorization, or other certification of self-insurance.

d. Duty to Maintain Coverage. In the event that any applicable coverage is cancelled by the insurer for any reason, or if Grantee cannot get adequate coverage, Grantee shall immediately notify Department of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within ten (10) days after the cancellation of coverage.

e. Insurance Trust. If the Grantee's insurance is provided through an insurance trust, the Grantee shall instead add the Department of Environmental Protection, its employees, and officers as an additional covered party everywhere the Agreement requires them to be added as an additional insured.

13. Termination.

a. Termination for Convenience. When it is in the State's best interest, Department may, at its sole discretion, terminate the Agreement in whole or in part by giving 30 days' written notice to Grantee. The Department shall notify Grantee of the termination for convenience with instructions as to the effective date of termination or the specific stage of work at which the Agreement is to be terminated. The Grantee must submit all invoices for work to be paid under this Agreement within thirty (30) days of the effective date of termination. The Department shall not pay any invoices received after thirty (30) days of the effective date of termination.

b. Termination for Cause. The Department may terminate this Agreement if any of the events of default described in the Events of Default provisions below occur or in the event that Grantee fails to fulfill any of its other

obligations under this Agreement. If, after termination, it is determined that Grantee was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Department. The rights and remedies of Department in this clause are in addition to any other rights and remedies provided by law or under this Agreement.

c. Grantee Obligations upon Notice of Termination. After receipt of a notice of termination or partial termination unless as otherwise directed by Department, Grantee shall not furnish any service or deliverable on the date, and to the extent specified, in the notice. However, Grantee shall continue work on any portion of the Agreement not terminated. If the Agreement is terminated before performance is completed, Grantee shall be paid only for that work satisfactorily performed for which costs can be substantiated. The Grantee shall not be entitled to recover any cancellation charges or lost profits.
d. Continuation of Prepaid Services. If Department has paid for any services prior to the expiration, cancellation, or termination of the Agreement, Grantee shall continue to provide Department with those services for which it has already been paid or, at Department's discretion, Grantee shall provide a refund for services that have been paid for but not rendered.
e. Transition of Services Upon Termination, Expiration, or Cancellation of the Agreement. If services provided under the Agreement are being transitioned to another provider(s), Grantee shall assist in the smooth transition of Agreement services to the subsequent provider(s). This requirement is at a minimum an affirmative obligation to cooperate with the new provider(s), however additional requirements may be outlined in the Grant Work Plan. The Grantee shall not perform any services after Agreement expiration or termination, except as necessary to complete the transition or continued portion of the Agreement, if any.

14. Notice of Default.

If Grantee defaults in the performance of any covenant or obligation contained in the Agreement, including, any of the events of default, Department shall provide notice to Grantee and an opportunity to cure that is reasonable under the circumstances. This notice shall state the nature of the failure to perform and provide a time certain for correcting the failure. The notice will also provide that, should the Grantee fail to perform within the time provided, Grantee will be found in default, and Department may terminate the Agreement effective as of the date of receipt of the default notice.

15. Events of Default.

Provided such failure is not the fault of Department or outside the reasonable control of Grantee, the following non-exclusive list of events, acts, or omissions, shall constitute events of default:

a. The commitment of any material breach of this Agreement by Grantee, including failure to timely deliver a material deliverable, failure to perform the minimal level of services required for a deliverable, discontinuance of the performance of the work, failure to resume work that has been discontinued within a reasonable time after notice to do so, or abandonment of the Agreement;
b. The commitment of any material misrepresentation or omission in any materials, or discovery by the Department of such, made by the Grantee in this Agreement or in its application for funding;
c. Failure to submit any of the reports required by this Agreement or having submitted any report with incorrect, incomplete, or insufficient information;
d. Failure to honor any term of the Agreement;
e. Failure to abide by any statutory, regulatory, or licensing requirement, including an entry of an order revoking the certificate of authority granted to the Grantee by a state or other licensing authority;
f. Failure to pay any and all entities, individuals, and furnishing labor or materials, or failure to make payment to any other entities as required by this Agreement;
g. Employment of an unauthorized alien in the performance of the work, in violation of Section 274 (A) of the Immigration and Nationality Act;
h. Failure to maintain the insurance required by this Agreement;
i. One or more of the following circumstances, uncorrected for more than thirty (30) days unless, within the specified 30-day period, Grantee (including its receiver or trustee in bankruptcy) provides to Department adequate assurances, reasonably acceptable to Department, of its continuing ability and willingness to fulfill its obligations under the Agreement:
    i. Entry of an order for relief under Title 11 of the United States Code;
    ii. The making by Grantee of a general assignment for the benefit of creditors;
    iii. The appointment of a general receiver or trustee in bankruptcy of Grantee's business or property; and/or
    iv. An action by Grantee under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, or liquidation.

16. Suspension of Work.

The Department may, in its sole discretion, suspend any or all activities under the Agreement, at any time, when it is in the best interest of the State to do so. The Department shall provide Grantee written notice outlining the particulars of suspension. Examples of reasons for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, Grantee shall comply with the notice. Within 90 days, or any longer period agreed to by the parties, Department shall either: (1) issue a notice authorizing resumption of work, at which time activity shall resume; or (2) terminate the Agreement. If the Agreement is terminated after 30 days of suspension, the notice of suspension shall be deemed to satisfy the thirty (30) days' notice required for a notice of termination for convenience. Suspension of work shall not entitle Grantee to any additional compensation.

17. Force Majeure.

The Grantee shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of Grantee or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond Grantee's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to Grantee. In case of any delay Grantee believes is excusable, Grantee shall notify Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten days after the cause that creates or will create the delay first arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) if delay is not reasonably foreseeable, within five days after the date Grantee first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY**. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against Department. The Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist Grantee shall perform at no increased cost, unless Department determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Department, in which case Department may: (1) accept allocated performance or deliveries from Grantee, provided that Grantee grants preferential treatment to Department with respect to products subjected to allocation; (2) contract with other sources (without recourse to and by Grantee for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchases may be deducted from the Agreement quantity; or (3) terminate Agreement in whole or in part.

18. Indemnification.

a. The Grantee shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless Department and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description arising from or relating to:
    i. personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, or subcontractors; provided, however, that Grantee shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of Department;
    ii. the Grantee's breach of this Agreement or the negligent acts or omissions of Grantee.

b. The Grantee's obligations under the preceding paragraph with respect to any legal action are contingent upon Department giving Grantee: (1) written notice of any action or threatened action; (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense; and (3) assistance in defending the action at Grantee's sole expense. The Grantee shall not be liable for any cost, expense, or compromise incurred or made by Department in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

c. Notwithstanding sections a. and b. above, the following is the sole indemnification provision that applies to Grantees that are governmental entities: Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of Section 768.28, F.S. Further, nothing herein shall be construed as consent by a state agency or subdivision of the State to be sued by third parties in any matter arising out of any contract or this Agreement.

d. No provision in this Agreement shall require Department to hold harmless or indemnify Grantee, insure or assume liability for Grantee's negligence, waive Department's sovereign immunity under the laws of Florida, or

otherwise impose liability on Department for which it would not otherwise be responsible. Any provision, implication or suggestion to the contrary is null and void.

19. Limitation of Liability.

The Department's liability for any claim arising from this Agreement is limited to compensatory damages in an amount no greater than the sum of the unpaid balance of compensation due for goods or services rendered pursuant to and in compliance with the terms of the Agreement. Such liability is further limited to a cap of $100,000.

20. Remedies.

Nothing in this Agreement shall be construed to make Grantee liable for force majeure events. Nothing in this Agreement, including financial consequences for nonperformance, shall limit Department's right to pursue its remedies for other types of damages under the Agreement, at law or in equity. The Department may, in addition to other remedies available to it, at law or in equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against it.

21. Waiver.

The delay or failure by Department to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of Department's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

22. Statutory Notices Relating to Unauthorized Employment and Subcontracts.

a. The Department shall consider the employment by any Grantee of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If Grantee/subcontractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement. The Grantee shall be responsible for including this provision in all subcontracts with private organizations issued as a result of this Agreement.

b. Pursuant to Sections 287.133, 287.134, and 287.137 F.S., the following restrictions apply to persons placed on the convicted vendor list, discriminatory vendor list, or the antitrust violator vendor list:

   i. Public Entity Crime. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, F.S., for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

   ii. Discriminatory Vendors. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

   iii. Antitrust Violator Vendors. A person or an affiliate who has been placed on the antitrust violator vendor list following a conviction or being held civilly liable for an antitrust violation may not submit a bid, proposal, or reply on any contract to provide any good or services to a public entity; may not submit a bid, proposal, or reply on any contract with a public entity for the construction or repair of a public building or public work; may not submit a bid, proposal, or reply on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with a public entity; and may not transact new business with a public entity.

   iv. Notification. The Grantee shall notify Department if it or any of its suppliers, subcontractors, or consultants have been placed on the convicted vendor list, the discriminatory vendor list, or antitrust violator vendor list during the life of the Agreement. The Florida Department of Management Services is responsible for maintaining the discriminatory vendor list and the antitrust violator vendor list and posts the list on its website. Questions regarding the discriminatory vendor list or antitrust violator vendor list may be directed to the Florida Department of Management Services, Office of Supplier Diversity, at (850) 487-0915.

23. Compliance with Federal, State and Local Laws.

a. The Grantee and all its agents shall comply with all federal, state and local regulations, including, but not limited to, nondiscrimination, wages, social security, workers' compensation, licenses, and registration requirements. The Grantee shall include this provision in all subcontracts issued as a result of this Agreement.
b. No person, on the grounds of race, creed, color, religion, national origin, age, gender, or disability, shall be excluded from participation in; be denied the proceeds or benefits of; or be otherwise subjected to discrimination in performance of this Agreement.
c. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.
d. Any dispute concerning performance of the Agreement shall be processed as described herein. Jurisdiction for any damages arising under the terms of the Agreement will be in the courts of the State, and venue will be in the Second Judicial Circuit, in and for Leon County. Except as otherwise provided by law, the parties agree to be responsible for their own attorney fees incurred in connection with disputes arising under the terms of this Agreement.

24. Scrutinized Companies.

a. Grantee certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
b. If this Agreement is for more than one million dollars, the Grantee certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.
c. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize these contracting prohibitions then they shall become inoperative.

25. Lobbying and Integrity.

The Grantee agrees that no funds received by it under this Agreement will be expended for the purpose of lobbying the Legislature or a State agency pursuant to Section 216.347, F.S., except that pursuant to the requirements of Section 287.058(6), F.S., during the term of any executed agreement between Grantee and the State, Grantee may lobby the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding that agreement. The Grantee shall comply with Sections 11.062 and 216.347, F.S.

26. Record Keeping.

The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with United States generally accepted accounting principles (US GAAP) consistently applied. The Department, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following the completion date or termination of the Agreement. In the event that any work is subcontracted, Grantee shall similarly require each subcontractor to maintain and allow access to such records for audit purposes. Upon request of Department's Inspector General, or other authorized State official, Grantee shall provide any type of information the Inspector General deems relevant to Grantee's integrity or responsibility. Such information may include, but shall not be limited to, Grantee's business or financial records, documents, or files of any type or form that refer to or relate to Agreement. The Grantee shall retain such records for the longer of: (1) three years after the expiration of the Agreement; or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/).

27. Audits.

a. Inspector General. The Grantee understands its duty, pursuant to Section 20.055(5), F.S., to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Grantee will comply with this duty and ensure that its sub-grantees and/or subcontractors issued under this Agreement, if any, impose this requirement, in writing, on its sub-grantees and/or subcontractors, respectively.
b. Physical Access and Inspection. Department personnel shall be given access to and may observe and inspect work being performed under this Agreement, with reasonable notice and during normal business hours, including by any of the following methods:
    i. Grantee shall provide access to any location or facility on which Grantee is performing work, or storing or staging equipment, materials or documents;

ii. Grantee shall permit inspection of any facility, equipment, practices, or operations required in performance of any work pursuant to this Agreement; and,
iii. Grantee shall allow and facilitate sampling and monitoring of any substances, soils, materials or parameters at any location reasonable or necessary to assure compliance with any work or legal requirements pursuant to this Agreement.

c. Special Audit Requirements. The Grantee shall comply with the applicable provisions contained in Attachment 5, Special Audit Requirements. Each amendment that authorizes a funding increase or decrease shall include an updated copy of Exhibit 1, to Attachment 5. If Department fails to provide an updated copy of Exhibit 1 to include in each amendment that authorizes a funding increase or decrease, Grantee shall request one from the Department's Grants Manager. The Grantee shall consider the type of financial assistance (federal and/or state) identified in Attachment 5, Exhibit 1 and determine whether the terms of Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. For federal financial assistance, Grantee shall utilize the guidance provided under 2 CFR §200.330 for determining whether the relationship represents that of a subrecipient or vendor. For State financial assistance, Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website: https:\\apps.fldfs.com\fsaa.

d. Proof of Transactions. In addition to documentation provided to support cost reimbursement as described herein, Department may periodically request additional proof of a transaction to evaluate the appropriateness of costs to the Agreement pursuant to State guidelines (including cost allocation guidelines) and federal, if applicable. Allowable costs and uniform administrative requirements for federal programs can be found under 2 CFR 200. The Department may also request a cost allocation plan in support of its multipliers (overhead, indirect, general administrative costs, and fringe benefits). The Grantee must provide the additional proof within thirty (30) days of such request.

e. No Commingling of Funds. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
    i. If Department finds that these funds have been commingled, Department shall have the right to demand a refund, either in whole or in part, of the funds provided to Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from Department shall refund, and shall forthwith pay to Department, the amount of money demanded by Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from Department by Grantee to the date repayment is made by Grantee to Department.
    ii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by Department, from another source(s), Grantee shall reimburse Department for all recovered funds originally provided under this Agreement and interest shall be charged for those recovered costs as calculated on from the date(s) the payment(s) are recovered by Grantee to the date repayment is made to Department.
    iii. Notwithstanding the requirements of this section, the above restrictions on commingling funds do not apply to agreements where payments are made purely on a cost reimbursement basis.

28. Conflict of Interest.

The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.

29. Independent Contractor.

The Grantee is an independent contractor and is not an employee or agent of Department.

30. Subcontracting.

a. Unless otherwise specified in the Special Terms and Conditions, all services contracted for are to be performed solely by Grantee.

b. The Department may, for cause, require the replacement of any Grantee employee, subcontractor, or agent. For cause, includes, but is not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with an applicable Department policy or other requirement.

c. The Department may, for cause, deny access to Department's secure information or any facility by any Grantee employee, subcontractor, or agent.
d. The Department's actions under paragraphs b. or c. shall not relieve Grantee of its obligation to perform all work in compliance with the Agreement. The Grantee shall be responsible for the payment of all monies due under any subcontract. The Department shall not be liable to any subcontractor for any expenses or liabilities incurred under any subcontract and Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under any subcontract.
e. The Department will not deny Grantee's employees, subcontractors, or agents access to meetings within the Department's facilities, unless the basis of Department's denial is safety or security considerations.
f. The Department supports diversity in its procurement program and requests that all subcontracting opportunities afforded by this Agreement embrace diversity enthusiastically. The award of subcontracts should reflect the full diversity of the citizens of the State. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Diversity at (850) 487-0915.
g. The Grantee shall not be liable for any excess costs for a failure to perform, if the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both Grantee and the subcontractor(s), and without the fault or negligence of either, unless the subcontracted products or services were obtainable from other sources in sufficient time for Grantee to meet the required delivery schedule.

31. Guarantee of Parent Company.

If Grantee is a subsidiary of another corporation or other business entity, Grantee asserts that its parent company will guarantee all of the obligations of Grantee for purposes of fulfilling the obligations of Agreement. In the event Grantee is sold during the period the Agreement is in effect, Grantee agrees that it will be a requirement of sale that the new parent company guarantee all of the obligations of Grantee.

32. Survival.

The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of this Agreement, including without limitation, the obligations regarding confidentiality, proprietary interests, and public records, shall survive termination, cancellation, or expiration of this Agreement.

33. Third Parties.

The Department shall not be deemed to assume any liability for the acts, failures to act or negligence of Grantee, its agents, servants, and employees, nor shall Grantee disclaim its own negligence to Department or any third party. This Agreement does not and is not intended to confer any rights or remedies upon any person other than the parties. If Department consents to a subcontract, Grantee will specifically disclose that this Agreement does not create any third-party rights. Further, no third parties shall rely upon any of the rights and obligations created under this Agreement.

34. Severability.

If a court of competent jurisdiction deems any term or condition herein void or unenforceable, the other provisions are severable to that void provision, and shall remain in full force and effect.

35. Grantee's Employees, Subcontractors and Agents.

All Grantee employees, subcontractors, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Grantee shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under Agreement must comply with all security and administrative requirements of Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement.

36. Assignment.

The Grantee shall not sell, assign, or transfer any of its rights, duties, or obligations under the Agreement, or under any purchase order issued pursuant to the Agreement, without the prior written consent of Department. In the event of any assignment, Grantee remains secondarily liable for performance of the Agreement, unless Department expressly waives such secondary liability. The Department may assign the Agreement with prior written notice to Grantee of its intent to do so.

37. Compensation Report.

If this Agreement is a sole-source, public-private agreement or if the Grantee, through this agreement with the State, annually receive 50% or more of their budget from the State or from a combination of State and Federal funds, the Grantee shall provide an annual report, including the most recent IRS Form 990, detailing the total compensation for the entities' executive leadership teams. Total compensation shall include salary, bonuses, cashed-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout. The Grantee must also inform the Department of any changes in total executive compensation between the annual

reports. All compensation reports must indicate what percent of compensation comes directly from the State or Federal allocations to the Grantee.

38. Execution in Counterparts and Authority to Sign.

This Agreement, any amendments, and/or change orders related to the Agreement, may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument. In accordance with the Electronic Signature Act of 1996, electronic signatures, including facsimile transmissions, may be used and shall have the same force and effect as a written signature. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Terms and Conditions
AGREEMENT NO. LPA0206

ATTACHMENT 2

These Special Terms and Conditions shall be read together with general terms outlined in the Standard Terms and Conditions, Attachment 1. Where in conflict, these more specific terms shall apply.

1. Scope of Work.
The Project funded under this Agreement is Pasco County Handcart Road Water and Wastewater. The Project is defined in more detail in Attachment 3, Grant Work Plan.

2. Duration.
a. Reimbursement Period. The reimbursement period for this Agreement begins on July 1, 2021 and ends at the expiration of the Agreement.
b. Extensions. There are extensions available for this Project.
c. Service Periods. Additional service periods are not authorized under this Agreement.

3. Payment Provisions.
a. Compensation. This is a cost reimbursement Agreement. The Grantee shall be compensated under this Agreement as described in Attachment 3.
b. Invoicing. Invoicing will occur as indicated in Attachment 3.
c. Advance Pay. Advance Pay is not authorized under this Agreement.

4. Cost Eligible for Reimbursement or Matching Requirements.
Reimbursement for costs or availability for costs to meet matching requirements shall be limited to the following budget categories, as defined in the Reference Guide for State Expenditures, as indicated:

Reimbursement	Match	Category
☐	☐	Salaries/Wages
		Overhead/Indirect/General and Administrative Costs:
☐	☐	a. Fringe Benefits, N/A.
☐	☐	b. Indirect Costs, N/A.
☒	☐	Contractual (Subcontractors)
☐	☐	Travel, in accordance with Section 112, F.S.
☐	☐	Equipment
☐	☐	Rental/Lease of Equipment
☐	☐	Miscellaneous/Other Expenses
☐	☐	Land Acquisition

5. Equipment Purchase.
No Equipment purchases shall be funded under this Agreement.

6. Land Acquisition.
There will be no Land Acquisitions funded under this Agreement.

7. Match Requirements
There is no match required on the part of the Grantee under this Agreement.

8. Insurance Requirements

Required Coverage. At all times during the Agreement the Grantee, at its sole expense, shall maintain insurance coverage of such types and with such terms and limits described below. The limits of coverage under each policy maintained by the Grantee shall not be interpreted as limiting the Grantee's liability and obligations under the Agreement. Grantee shall provide coverage through a self-insurance program established and operating under the laws of Florida. Additional insurance requirements for this Agreement may be required elsewhere in this Agreement, however the minimum insurance requirements applicable to this Agreement are:

a. Comprehensive General Liability Insurance.
The Grantee shall provide adequate comprehensive general liability insurance coverage and hold such liability insurance at all times during the Agreement. The minimum limits shall be $200,000 for each person and $300,000 per occurrence.

b. Commercial Automobile Insurance.
If the Grantee's duties include the use of a commercial vehicle, the Grantee shall maintain automobile liability, bodily injury, and property damage coverage. Insuring clauses for both bodily injury and property damage shall provide coverage on an occurrence basis. The minimum limits shall be as follows:

$200,000/300,000	Automobile Liability for Company-Owned Vehicles, if applicable
$200,000/300,000	Hired and Non-owned Automobile Liability Coverage

c. Workers' Compensation.
The Grantee shall comply with the workers' compensation requirements of Chapter 440, F.S.

d. Other Insurance. None.

9. Quality Assurance Requirements.

There are no special Quality Assurance requirements under this Agreement.

10. Retainage.

No retainage is required under this Agreement.

11. Subcontracting.

The Grantee may subcontract work under this Agreement without the prior written consent of the Department's Grant Manager except for certain fixed-price subcontracts pursuant to this Agreement, which require prior approval. The Grantee shall submit a copy of the executed subcontract to the Department prior to submitting any invoices for subcontracted work. Regardless of any subcontract, the Grantee is ultimately responsible for all work to be performed under this Agreement.

12. State-owned Land.

The work will not be performed on State-owned land.

13. Office of Policy and Budget Reporting.

The Grantee will identify the expected return on investment for this project and provide this information to the Governor's Office of Policy and Budget (OPB) within three months of execution of this Agreement. For each full calendar quarter thereafter, the Grantee will provide quarterly update reports directly to OPB, no later than 20 days after the end of each quarter, documenting the positive return on investment to the state that results from the Grantee's project and its use of funds provided under this Agreement. Quarterly reports will continue until the Grantee is instructed by OPB that no further reports are needed, or until the end of this Agreement, whichever occurs first. All reports shall be submitted electronically to OPB at env.roi@laspbs.state.fl.us, and a copy shall also be submitted to the Department at legislativeaffairs@floridaDEP.gov.

14. Additional Terms.

None.

ATTACHMENT 3
GRANT WORK PLAN

PROJECT TITLE: Pasco County Handcart Road Water and Wastewater

PROJECT LOCATION: The Project will be located in the Pasadena Hills area within Pasco County; Lat/Long (28.2811, -82.2455). See Figure 1 for a location map.

PROJECT BACKGROUND: The project will provide water and wastewater infrastructure improvements to stimulate economic growth in a currently undeveloped area of Pasadena Hills, a portion of central Pasco County.

PROJECT DESCRIPTION: Pasco County (Grantee) will construct a water and wastewater distribution system including a piping system and appurtenances, a lift station, restoration, project management, and all work necessary to complete the project.

The Grantee does not anticipate that the funding under this Agreement will result in a fully completed project, so this Agreement will cover a portion of the work.

TASKS: All documentation should be submitted electronically unless otherwise indicated.

Task 1: Design and Permitting

Deliverables: The Grantee will complete design of the water and wastewater distribution system and obtain all necessary permits for construction of the project including construction plans and specs.

Documentation: The Grantee will submit: 1) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 2) a summary of design (or preconstruction) activities to date, indicating the percentage of design completion for the time period covered in the payment request. For the final documentation, the Grantee will also submit a copy of the design completed with the funding provided for this task and a list of all required permits identifying issue dates and issuing authorities.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

Task 2: Construction

Deliverables: The Grantee will construct water and wastewater distribution system in accordance with the construction contract documents prepared for the project.

Documentation: The Grantee will submit 1) a copy of the final design; 2) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 3) a signed Engineer's Certification of Payment Request.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

PROJECT TIMELINE & BUDGET DETAIL:

The tasks must be completed by, and all documentation received by, the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below.

Task No.	Task Title	Budget Category	Grant Amount	Task Start Date	Task End Date
1	Design and Permitting	Contractual Services	$600,000	07/01/2021	09/30/2023
2	Construction	Contractual Services	$5,900,000	07/01/2021	09/30/2023
		Total:	$6,500,000		

Note: The budget for this project is estimated and subject to change as the project progresses. A change order or amendment is expected to reallocate the budget.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Public Records Requirements

Attachment 4

1. **Public Records.**

a. If the Agreement exceeds $35,000.00, and if Grantee is acting on behalf of Department in its performance of services under the Agreement, Grantee must allow public access to all documents, papers, letters, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by Grantee in conjunction with the Agreement (Public Records), unless the Public Records are exempt from section 24(a) of Article I of the Florida Constitution or section 119.07(1), F.S.

b. The Department may unilaterally terminate the Agreement if Grantee refuses to allow public access to Public Records as required by law.

2. **Additional Public Records Duties of Section 119.0701, F.S., If Applicable.**
For the purposes of this paragraph, the term "contract" means the "Agreement." If Grantee is a "contractor" as defined in section 119.0701(1)(a), F.S., the following provisions apply and the contractor shall:

a. Keep and maintain Public Records required by Department to perform the service.

b. Upon request, provide Department with a copy of requested Public Records or allow the Public Records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

c. A contractor who fails to provide the Public Records to Department within a reasonable time may be subject to penalties under section 119.10, F.S.

d. Ensure that Public Records that are exempt or confidential and exempt from Public Records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the Public Records to Department.

e. Upon completion of the contract, transfer, at no cost, to Department all Public Records in possession of the contractor or keep and maintain Public Records required by Department to perform the service. If the contractor transfers all Public Records to Department upon completion of the contract, the contractor shall destroy any duplicate Public Records that are exempt or confidential and exempt from Public Records disclosure requirements. If the contractor keeps and maintains Public Records upon completion of the contract, the contractor shall meet all applicable requirements for retaining Public Records. All Public Records stored electronically must be provided to Department, upon request from Department's custodian of Public Records, in a format specified by Department as compatible with the information technology systems of Department. These formatting requirements are satisfied by using the data formats as authorized in the contract or Microsoft Word, Outlook, Adobe, or Excel, and any software formats the contractor is authorized to access.

f. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, F.S., TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN OF PUBLIC RECORDS AT:**

Telephone: **(850) 245-2118**
Email: public.services@floridadep.gov
Mailing Address: **Department of Environmental Protection**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Audit Requirements
(State and Federal Financial Assistance)

Attachment 5

The administration of resources awarded by the Department of Environmental Protection *(which may be referred to as the "Department", "DEP", "FDEP" or "Grantor", or other name in the agreement*) to the recipient *(which may be referred to as the "Recipient", "Grantee" or other name in the agreement)* may be subject to audits and/or monitoring by the Department of Environmental Protection, as described in this attachment.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEP Department staff, limited scope audits as defined by 2 CFR 200.425, or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends $750,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of Environmental Protection. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR 200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200.514 will meet the requirements of this part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR 200.508-512.

3. A recipient that expends less than $750,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than $750,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other federal entities.

4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at **www.cfda.gov**

PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(2), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through the Department of Environmental Protection by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal year ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than $750,000 in state financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. For information regarding the Florida Catalog of State Financial Assistance (CSFA), a recipient should access the Florida Single Audit Act website located at https://apps.fldfs.com/fsaa for assistance. In addition to the above websites, the following websites may be accessed for information: Legislature's Website at http://www.leg.state.fl.us/Welcome/index.cfm, State of Florida's website at http://www.myflorida.com/, Department of Financial Services' Website at http://www.fldfs.com/and the Auditor General's Website at http://www.myflorida.com/audgen/.

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

PART IV: REPORT SUBMISSION

1. Copies of reporting packages for audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and required by PART I of this form shall be submitted, when required by 2 CFR 200.512, by or on behalf of the recipient directly to the Federal Audit Clearinghouse (FAC) as provided in 2 CFR 200.36 and 200.512

   A. The Federal Audit Clearinghouse designated in 2 CFR §200.501(a) (the number of copies required by 2 CFR §200.501(a) should be submitted to the Federal Audit Clearinghouse), at the following address:

By Mail:

Federal Audit Clearinghouse
Bureau of the Census
1201 East 10th Street
Jeffersonville, IN 47132

Submissions of the Single Audit reporting package for fiscal periods ending on or after January 1, 2008, must be submitted using the Federal Clearinghouse's Internet Data Entry System which can be found at http://harvester.census.gov/facweb/

2. Copies of financial reporting packages required by PART II of this Attachment shall be submitted by or on behalf of the recipient directly to each of the following:

A. The Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

B. The Auditor General's Office at the following address:

Auditor General
Local Government Audits/342
Claude Pepper Building, Room 401
111 West Madison Street
Tallahassee, Florida 32399-1450

The Auditor General's website (http://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Copies of reports or management letters required by PART III of this Attachment shall be submitted by or on behalf of the recipient directly to the Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

4. Any reports, management letters, or other information required to be submitted to the Department of Environmental Protection pursuant to this Agreement shall be submitted timely in accordance with 2 CFR 200.512, section 215.97, F.S., and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.

5. Recipients, when submitting financial reporting packages to the Department of Environmental Protection for audits done in accordance with 2 CFR 200, Subpart F-Audit Requirements, or Chapters 10.550 (local governmental entities) and 10.650 (non and for-profit organizations), Rules of the Auditor General, should indicate the date and the reporting package was delivered to the recipient correspondence accompanying the reporting package.

PART V: RECORD RETENTION

The recipient shall retain sufficient records demonstrating its compliance with the terms of the award and this Agreement for a period of **five (5)** years from the date the audit report is issued, and shall allow the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General upon request for a period of **three (3)** years from the date the audit report is issued, unless extended in writing by the Department of Environmental Protection.

EXHIBIT – 1

FUNDS AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Note: If the resources awarded to the recipient represent more than one federal program, provide the same information shown below for each federal program and show total federal resources awarded

Federal Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following:					
Federal Program A	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	
Federal Program B	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	

Note: Of the resources awarded to the recipient represent more than one federal program, list applicable compliance requirements for each federal program in the same manner as shown below:

Federal Program A	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.:(eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	
Federal Program B	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.: (eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	

Note: If the resources awarded to the recipient for matching represent more than one federal program, provide the same information shown below for each federal program and show total state resources awarded for matching.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Matching Resources for Federal Programs:					
Federal Program A	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category
Federal Program B	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category

Note: If the resources awarded to the recipient represent more than one state project, provide the same information shown below for each state project and show total state financial assistance awarded that is subject to section 215.97, F.S.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Resources Subject to Section 215.97, F.S.:						
State Program A	**State Awarding Agency**	**State Fiscal Year[1]**	**CSFA Number**	**CSFA Title or Funding Source Description**	**Funding Amount**	**State Appropriation Category**
Original Agreement	Department of Environmental Protection	2021-2022	37.039	Statewide Surface Water Restoration and Wastewater Projects	$6,500,000	140047
State Program B	**State Awarding Agency**	**State Fiscal Year[2]**	**CSFA Number**	**CSFA Title or Funding Source Description**	**Funding Amount**	**State Appropriation Category**

Total Award	$6,500,000	

Note: List applicable compliance requirement in the same manner as illustrated above for federal resources. For matching resources provided by the Department for DEP for federal programs, the requirements might be similar to the requirements for the applicable federal programs. Also, to the extent that different requirements pertain to different amount for the non-federal resources, there may be more than one grouping (i.e. 1, 2, 3, etc.) listed under this category.

For each program identified above, the recipient shall comply with the program requirements described in the Catalog of Federal Domestic Assistance (CFDA) [www.cfda.gov] and/or the Florida Catalog of State Financial Assistance (CSFA) [https://apps.fldfs.com/fsaa/searchCatalog.aspx], and State Projects Compliance Supplement (Part Four: State Projects Compliance Supplement [https://apps.fldfs.com/fsaa/state_project_compliance.aspx]. The services/purposes for which the funds are to be used are included in the Agreement's Grant Work Plan. Any match required by the Recipient is clearly indicated in the Agreement.

Progress Report Form

DEP Agreement No.:	LPA0206
Project Title:	Pasco County Handcart Road Water and Wastewater
Grantee Name:	Pasco County
Grantee's Grant Manager:	Robert Marin
Reporting Period:	Select reporting period. Select year.

Provide the following information for all tasks identified in the Grant Work Plan:
Summarize the work completed within each task for the reporting period. Provide an update on the estimated completion date for each task and an explanation for any anticipated delays or problems encountered. Add or remove task sections and use as many pages as necessary to cover all tasks. Use the format provided below.

Task 1: Design and Permitting

- Progress for this reporting period:
- Identify delays or problems encountered:

Task 2: Construction

- Progress for this reporting period:
- Identify delays or problems encountered:

Indicate the completion status for the following tasks:

Design (Plans/Submittal): 30% ☐, 60% ☐, 90% ☐, 100% ☐

Permitting (Completed): Yes ☐, No ☐

Construction (Estimated): _____ %

This report is submitted in accordance with the reporting requirements of the above DEP Agreement number and accurately reflects the activities associated with the project.

Please use the most current form found on the website, linked above, for each payment request.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** UTD22-0012 **DATE:** 10/26/2021

SUBJECT: Agreement No. LPA0206 Standard Grant Agreement – State of Florida Department of Environmental Protection – Pasco County Handcart Road Water and Wastewater; Budget Amendment Journal No. 3; and Recognize Revenue in the Water & Wastewater Capital Fund – $6,500,000.00

REFERENCES: Not Applicable

AGENDA SECTION: Consent Agenda

THRU: Michael Carballa, Assistant County Administrator

FROM: Charles Cullen, Utilities Engineering Director

RECOMMENDED BOARD ACTION:

Approve the Florida Department of Environmental Protection (FDEP) Standard Grant Agreement, Pasco County Handcart Road Water and Wastewater Agreement No. LPA0206 in the amount of $6,500,000.00. Authorize the Chairman to execute one original of the Standard Grant Agreement provided, and direct Board Records to Distribute as set forth under the distribution section below.

Approve Budget Amendment Journal No. 3 in the amount of $6,500,000.00 for Fiscal Year (FY) 2022.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

Pasco County has been awarded through FDEP, $6,500,000.00 to provide water and wastewater infrastructure improvements to stimulate economic growth in the currently underdeveloped area of Pasadena Hills, a portion of central Pasco County.

Pasco County will construct a water and wastewater distribution system including a piping system an d appurtenances, a lift station, restoration, project management, and all work necessary to complete the project as outlined in the Grant Work Plan in Attachment 3 of the Standard Grant Agreement.

The Standard Grant Agreement begins upon execution and expires on March 31, 2024. This grant award does not require any match from Pasco County. This is a cost-reimbursement agreement.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Upon approval of Budget Amendment Journal No. 3, funding in the amount of $6,500,000.00 will be budgeted and available in the Water & Wastewater Capital Fund, Utilities Engineering & Contract Management Department for FY 2022.

DISTRIBUTION:

Board Records to distribute as set forth below:
1. Retain the original Standard Grant Agreement.
2. Electronically to: Joshua Wood, Assistant Director, Public Infrastructure Fiscal and Business Administration Department – jwood@pascocountyfl.net. The Standard Grant Agreement will be sent

electronically to the FDEP and upon execution, a fully executed .pdf will be sent electronically to Board Records.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STANDARD TERMS AND CONDITIONS
APPLICABLE TO GRANT AGREEMENTS

ATTACHMENT 1

1. Entire Agreement.

This Grant Agreement, including any Attachments and Exhibits referred to herein and/or attached hereto (Agreement), constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, whether written or oral, with respect to such subject matter. Any terms and conditions included on Grantee's forms or invoices shall be null and void.

2. Grant Administration.

a. Order of Precedence. If there are conflicting provisions among the documents that make up the Agreement, the order of precedence for interpretation of the Agreement is as follows:
   i. Standard Grant Agreement
   ii. Attachments other than Attachment 1, in numerical order as designated in the Standard Grant Agreement
   iii. Attachment 1, Standard Terms and Conditions
   iv. The Exhibits in the order designated in the Standard Grant Agreement

b. All approvals, written or verbal, and other written communication among the parties, including all notices, shall be obtained by or sent to the parties' Grant Managers. All written communication shall be by electronic mail, U.S. Mail, a courier delivery service, or delivered in person. Notices shall be considered delivered when reflected by an electronic mail read receipt, a courier service delivery receipt, other mail service delivery receipt, or when receipt is acknowledged by recipient. If the notice is delivered in multiple ways, the notice will be considered delivered at the earliest delivery time.

c. If a different Grant Manager is designated by either party after execution of this Agreement, notice of the name and contact information of the new Grant Manager will be submitted in writing to the other party and maintained in the respective parties' records. A change of Grant Manager does not require a formal amendment or change order to the Agreement.

d. This Agreement may be amended, through a formal amendment or a change order, only by a written agreement between both parties. A formal amendment to this Agreement is required for changes which cause any of the following:
   (1) an increase or decrease in the Agreement funding amount;
   (2) a change in Grantee's match requirements;
   (3) a change in the expiration date of the Agreement; and/or
   (4) changes to the cumulative amount of funding transfers between approved budget categories, as defined in Attachment 3, Grant Work Plan, that exceeds or is expected to exceed twenty percent (20%) of the total budget as last approved by Department.
   A change order to this Agreement may be used when:
   (1) task timelines within the current authorized Agreement period change;
   (2) the cumulative transfer of funds between approved budget categories, as defined in Attachment 3, Grant Work Plan, are less than twenty percent (20%) of the total budget as last approved by Department;
   (3) changing the current funding source as stated in the Standard Grant Agreement; and/or
   (4) fund transfers between budget categories for the purposes of meeting match requirements.
   This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.

e. All days in this Agreement are calendar days unless otherwise specified.

3. Agreement Duration.

The term of the Agreement shall begin and end on the dates indicated in the Standard Grant Agreement, unless extended or terminated earlier in accordance with the applicable terms and conditions. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement, unless otherwise specified in Attachment 2, Special Terms and Conditions. However, work performed prior to the execution of this Agreement may be reimbursable or used for match purposes if permitted by the Special Terms and Conditions.

4. Deliverables.

The Grantee agrees to render the services or other units of deliverables as set forth in Attachment 3, Grant Work Plan. The services or other units of deliverables shall be delivered in accordance with the schedule and at the pricing outlined in the Grant Work Plan. Deliverables may be comprised of activities that must be completed prior to Department making payment on that deliverable. The Grantee agrees to perform in accordance with the terms and conditions set forth in this Agreement and all attachments and exhibits incorporated by the Standard Grant Agreement.

5. Performance Measures.

The Grantee warrants that: (1) the services will be performed by qualified personnel; (2) the services will be of the kind and quality described in the Grant Work Plan; (3) the services will be performed in a professional and workmanlike manner in accordance with industry standards and practices; (4) the services shall not and do not knowingly infringe upon the intellectual property rights, or any other proprietary rights, of any third party; and (5) its employees, subcontractors, and/or subgrantees shall comply with any security and safety requirements and processes, if provided by Department, for work done at the Project Location(s). The Department reserves the right to investigate or inspect at any time to determine whether the services or qualifications offered by Grantee meet the Agreement requirements. Notwithstanding any provisions herein to the contrary, written acceptance of a particular deliverable does not foreclose Department's remedies in the event deficiencies in the deliverable cannot be readily measured at the time of delivery.

6. Acceptance of Deliverables.

a. Acceptance Process. All deliverables must be received and accepted in writing by Department's Grant Manager before payment. The Grantee shall work diligently to correct all deficiencies in the deliverable that remain outstanding, within a reasonable time at Grantee's expense. If Department's Grant Manager does not accept the deliverables within 30 days of receipt, they will be deemed rejected.

b. Rejection of Deliverables. The Department reserves the right to reject deliverables, as outlined in the Grant Work Plan, as incomplete, inadequate, or unacceptable due, in whole or in part, to Grantee's lack of satisfactory performance under the terms of this Agreement. The Grantee's efforts to correct the rejected deliverables will be at Grantee's sole expense. Failure to fulfill the applicable technical requirements or complete all tasks or activities in accordance with the Grant Work Plan will result in rejection of the deliverable and the associated invoice. Payment for the rejected deliverable will not be issued unless the rejected deliverable is made acceptable to Department in accordance with the Agreement requirements. The Department, at its option, may allow additional time within which Grantee may remedy the objections noted by Department. The Grantee's failure to make adequate or acceptable deliverables after a reasonable opportunity to do so shall constitute an event of default.

7. Financial Consequences for Nonperformance.

a. Withholding Payment. In addition to the specific consequences explained in the Grant Work Plan and/or Special Terms and Conditions, the State of Florida (State) reserves the right to withhold payment when the Grantee has failed to perform/comply with provisions of this Agreement. None of the financial consequences for nonperformance in this Agreement as more fully described in the Grant Work Plan shall be considered penalties.

b. Corrective Action Plan. If Grantee fails to correct all the deficiencies in a rejected deliverable within the specified timeframe, Department may, in its sole discretion, request that a proposed Corrective Action Plan (CAP) be submitted by Grantee to Department. The Department requests that Grantee specify the outstanding deficiencies in the CAP. All CAPs must be able to be implemented and performed in no more than sixty (60) calendar days.

    i. The Grantee shall submit a CAP within ten (10) days of the date of the written request from Department. The CAP shall be sent to the Department's Grant Manager for review and approval. Within ten (10) days of receipt of a CAP, Department shall notify Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, Grantee shall have ten (10) days from receipt of Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above may result in Department's termination of this Agreement for cause as authorized in this Agreement.

    ii. Upon Department's notice of acceptance of a proposed CAP, Grantee shall have ten (10) days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department does not relieve Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, Department shall retain the right to require additional or further remedial steps, or to terminate this Agreement for failure to perform. No actions approved by Department or steps taken by Grantee shall preclude Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement

the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to Department as requested by Department's Grant Manager.

iii. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by Department may result in termination of the Agreement.

8. Payment.

a. Payment Process. Subject to the terms and conditions established by the Agreement, the pricing per deliverable established by the Grant Work Plan, and the billing procedures established by Department, Department agrees to pay Grantee for services rendered in accordance with Section 215.422, Florida Statutes (F.S.).

b. Taxes. The Department is exempted from payment of State sales, use taxes and Federal excise taxes. The Grantee, however, shall not be exempted from paying any taxes that it is subject to, including State sales and use taxes, or for payment by Grantee to suppliers for taxes on materials used to fulfill its contractual obligations with Department. The Grantee shall not use Department's exemption number in securing such materials. The Grantee shall be responsible and liable for the payment of all its FICA/Social Security and other taxes resulting from this Agreement.

c. Maximum Amount of Agreement. The maximum amount of compensation under this Agreement, without an amendment, is described in the Standard Grant Agreement. Any additional funds necessary for the completion of this Project are the responsibility of Grantee.

d. Reimbursement for Costs. The Grantee shall be paid on a cost reimbursement basis for all eligible Project costs upon the completion, submittal, and approval of each deliverable identified in the Grant Work Plan. Reimbursement shall be requested on Exhibit C, Payment Request Summary Form. To be eligible for reimbursement, costs must be in compliance with laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures, which can be accessed at the following web address: https://www.myfloridacfo.com/Division/AA/Manuals/documents/ReferenceGuideforStateExpenditures.pdf.

e. Invoice Detail. All charges for services rendered or for reimbursement of expenses authorized by Department pursuant to the Grant Work Plan shall be submitted to Department in sufficient detail for a proper pre-audit and post-audit to be performed. The Grantee shall only invoice Department for deliverables that are completed in accordance with the Grant Work Plan.

f. Interim Payments. Interim payments may be made by Department, at its discretion, if the completion of deliverables to date have first been accepted in writing by Department's Grant Manager.

g. Final Payment Request. A final payment request should be submitted to Department no later than sixty (60) days following the expiration date of the Agreement to ensure the availability of funds for payment. However, all work performed pursuant to the Grant Work Plan must be performed on or before the expiration date of the Agreement.

h. Annual Appropriation Contingency. The State's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of Department if the Legislature reduces or eliminates appropriations.

i. Interest Rates. All interest rates charged under the Agreement shall be calculated on the prevailing rate used by the State Board of Administration. To obtain the applicable interest rate, please refer to: www.myfloridacfo.com/Division/AA/Vendors/default.htm.

j. Refund of Payments to the Department. Any balance of unobligated funds that have been advanced or paid must be refunded to Department. Any funds paid in excess of the amount to which Grantee or subgrantee is entitled under the terms of the Agreement must be refunded to Department. If this Agreement is funded with federal funds and the Department is required to refund the federal government, the Grantee shall refund the Department its share of those funds.

9. Documentation Required for Cost Reimbursement Grant Agreements and Match.

If Cost Reimbursement or Match is authorized in Attachment 2, Special Terms and Conditions, the following conditions apply. Supporting documentation must be provided to substantiate cost reimbursement or match requirements for the following budget categories:

a. Salary/Wages. Grantee shall list personnel involved, position classification, direct salary rates, and hours spent on the Project in accordance with Attachment 3, Grant Work Plan in their documentation for reimbursement or match requirements.

b. Overhead/Indirect/General and Administrative Costs. If Grantee is being reimbursed for or claiming match for multipliers, all multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by Grantee exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate.

c. Contractual Costs (Subcontractors). Match or reimbursement requests for payments to subcontractors must be substantiated by copies of invoices with backup documentation identical to that required from Grantee. Subcontracts which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours spent on the Project. All eligible multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by any subcontractor exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate. Nonconsumable and/or nonexpendable personal property or equipment costing $5,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in Chapters 273 and/or 274, F.S., and Chapter 69I-72, Florida Administrative Code (F.A.C.) and/or Chapter 69I-73, F.A.C., as applicable. The Grantee shall be responsible for maintaining appropriate property records for any subcontracts that include the purchase of equipment as part of the delivery of services. The Grantee shall comply with this requirement and ensure its subcontracts issued under this Agreement, if any, impose this requirement, in writing, on its subcontractors.
    i. For fixed-price (vendor) subcontracts, the following provisions shall apply: The Grantee may award, on a competitive basis, fixed-price subcontracts to consultants/contractors in performing the work described in Attachment 3, Grant Work Plan. Invoices submitted to Department for fixed-price subcontracted activities shall be supported with a copy of the subcontractor's invoice and a copy of the tabulation form for the competitive procurement process (e.g., Invitation to Bid, Request for Proposals, or other similar competitive procurement document) resulting in the fixed-price subcontract. The Grantee may request approval from Department to award a fixed-price subcontract resulting from procurement methods other than those identified above. In this instance, Grantee shall request the advance written approval from Department's Grant Manager of the fixed price negotiated by Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor. Upon receipt of Department Grant Manager's approval of the fixed-price amount, Grantee may proceed in finalizing the fixed-price subcontract.
    ii. If the procurement is subject to the Consultant's Competitive Negotiation Act under section 287.055, F.S. or the Brooks Act, Grantee must provide documentation clearly evidencing it has complied with the statutory or federal requirements.

d. Travel. All requests for match or reimbursement of travel expenses shall be in accordance with Section 112.061, F.S.

e. Direct Purchase Equipment. For the purposes of this Agreement, Equipment is defined as capital outlay costing $5,000 or more. Match or reimbursement for Grantee's direct purchase of equipment is subject to specific approval of Department, and does not include any equipment purchased under the delivery of services to be completed by a subcontractor. Include copies of invoices or receipts to document purchases, and a properly completed Exhibit B, Property Reporting Form**.**

f. Rental/Lease of Equipment. Match or reimbursement requests for rental/lease of equipment must include copies of invoices or receipts to document charges.

g. Miscellaneous/Other Expenses. If miscellaneous or other expenses, such as materials, supplies, non-excluded phone expenses, reproduction, or mailing, are reimbursable or available for match or reimbursement under the terms of this Agreement, the documentation supporting these expenses must be itemized and include copies of receipts or invoices. Additionally, independent of Grantee's contract obligations to its subcontractor, Department shall not reimburse any of the following types of charges: cell phone usage; attorney's fees or court costs; civil or administrative penalties; or handling fees, such as set percent overages associated with purchasing supplies or equipment.

h. Land Acquisition. Reimbursement for the costs associated with acquiring interest and/or rights to real property (including access rights through ingress/egress easements, leases, license agreements, or other site access agreements; and/or obtaining record title ownership of real property through purchase) must be supported by the following, as applicable: Copies of Property Appraisals, Environmental Site Assessments, Surveys and Legal Descriptions, Boundary Maps, Acreage Certification, Title Search Reports, Title Insurance, Closing Statements/Documents, Deeds, Leases, Easements, License Agreements, or other legal instrument documenting

acquired property interest and/or rights. If land acquisition costs are used to meet match requirements, Grantee agrees that those funds shall not be used as match for any other Agreement supported by State or Federal funds.

10. Status Reports.

The Grantee shall submit status reports quarterly, unless otherwise specified in the Attachments, on Exhibit A, Progress Report Form**,** to Department's Grant Manager describing the work performed during the reporting period, problems encountered, problem resolutions, scheduled updates, and proposed work for the next reporting period. Quarterly status reports are due no later than twenty (20) days following the completion of the quarterly reporting period. For the purposes of this reporting requirement, the quarterly reporting periods end on March 31, June 30, September 30 and December 31. The Department will review the required reports submitted by Grantee within thirty (30) days.

11. Retainage.

The following provisions apply if Department withholds retainage under this Agreement:

a. The Department reserves the right to establish the amount and application of retainage on the work performed under this Agreement up to the maximum percentage described in Attachment 2, Special Terms and Conditions. Retainage may be withheld from each payment to Grantee pending satisfactory completion of work and approval of all deliverables.

b. If Grantee fails to perform the requested work, or fails to perform the work in a satisfactory manner, Grantee shall forfeit its right to payment of the retainage associated with the work. Failure to perform includes, but is not limited to, failure to submit the required deliverables or failure to provide adequate documentation that the work was actually performed. The Department shall provide written notification to Grantee of the failure to perform that shall result in retainage forfeiture. If the Grantee does not correct the failure to perform within the timeframe stated in Department's notice, the retainage will be forfeited to Department.

c. No retainage shall be released or paid for incomplete work while this Agreement is suspended.

d. Except as otherwise provided above, Grantee shall be paid the retainage associated with the work, provided Grantee has completed the work and submits an invoice for retainage held in accordance with the invoicing procedures under this Agreement.

12. Insurance.

a. Insurance Requirements for Sub-Grantees and/or Subcontractors. The Grantee shall require its sub-grantees and/or subcontractors, if any, to maintain insurance coverage of such types and with such terms and limits as described in this Agreement. The Grantee shall require all its sub-grantees and/or subcontractors, if any, to make compliance with the insurance requirements of this Agreement a condition of all contracts that are related to this Agreement. Sub-grantees and/or subcontractors must provide proof of insurance upon request.

b. Deductibles. The Department shall be exempt from, and in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Grantee providing such insurance.

c. Proof of Insurance. Upon execution of this Agreement, Grantee shall provide Department documentation demonstrating the existence and amount for each type of applicable insurance coverage ***prior to*** performance of any work under this Agreement. Upon receipt of written request from Department, Grantee shall furnish Department with proof of applicable insurance coverage by standard form certificates of insurance, a self-insured authorization, or other certification of self-insurance.

d. Duty to Maintain Coverage. In the event that any applicable coverage is cancelled by the insurer for any reason, or if Grantee cannot get adequate coverage, Grantee shall immediately notify Department of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within ten (10) days after the cancellation of coverage.

e. Insurance Trust. If the Grantee's insurance is provided through an insurance trust, the Grantee shall instead add the Department of Environmental Protection, its employees, and officers as an additional covered party everywhere the Agreement requires them to be added as an additional insured.

13. Termination.

a. Termination for Convenience. When it is in the State's best interest, Department may, at its sole discretion, terminate the Agreement in whole or in part by giving 30 days' written notice to Grantee. The Department shall notify Grantee of the termination for convenience with instructions as to the effective date of termination or the specific stage of work at which the Agreement is to be terminated. The Grantee must submit all invoices for work to be paid under this Agreement within thirty (30) days of the effective date of termination. The Department shall not pay any invoices received after thirty (30) days of the effective date of termination.

b. Termination for Cause. The Department may terminate this Agreement if any of the events of default described in the Events of Default provisions below occur or in the event that Grantee fails to fulfill any of its other

obligations under this Agreement. If, after termination, it is determined that Grantee was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Department. The rights and remedies of Department in this clause are in addition to any other rights and remedies provided by law or under this Agreement.

c. Grantee Obligations upon Notice of Termination. After receipt of a notice of termination or partial termination unless as otherwise directed by Department, Grantee shall not furnish any service or deliverable on the date, and to the extent specified, in the notice. However, Grantee shall continue work on any portion of the Agreement not terminated. If the Agreement is terminated before performance is completed, Grantee shall be paid only for that work satisfactorily performed for which costs can be substantiated. The Grantee shall not be entitled to recover any cancellation charges or lost profits.
d. Continuation of Prepaid Services. If Department has paid for any services prior to the expiration, cancellation, or termination of the Agreement, Grantee shall continue to provide Department with those services for which it has already been paid or, at Department's discretion, Grantee shall provide a refund for services that have been paid for but not rendered.
e. Transition of Services Upon Termination, Expiration, or Cancellation of the Agreement. If services provided under the Agreement are being transitioned to another provider(s), Grantee shall assist in the smooth transition of Agreement services to the subsequent provider(s). This requirement is at a minimum an affirmative obligation to cooperate with the new provider(s), however additional requirements may be outlined in the Grant Work Plan. The Grantee shall not perform any services after Agreement expiration or termination, except as necessary to complete the transition or continued portion of the Agreement, if any.

14. Notice of Default.

If Grantee defaults in the performance of any covenant or obligation contained in the Agreement, including, any of the events of default, Department shall provide notice to Grantee and an opportunity to cure that is reasonable under the circumstances. This notice shall state the nature of the failure to perform and provide a time certain for correcting the failure. The notice will also provide that, should the Grantee fail to perform within the time provided, Grantee will be found in default, and Department may terminate the Agreement effective as of the date of receipt of the default notice.

15. Events of Default.

Provided such failure is not the fault of Department or outside the reasonable control of Grantee, the following non-exclusive list of events, acts, or omissions, shall constitute events of default:

a. The commitment of any material breach of this Agreement by Grantee, including failure to timely deliver a material deliverable, failure to perform the minimal level of services required for a deliverable, discontinuance of the performance of the work, failure to resume work that has been discontinued within a reasonable time after notice to do so, or abandonment of the Agreement;
b. The commitment of any material misrepresentation or omission in any materials, or discovery by the Department of such, made by the Grantee in this Agreement or in its application for funding;
c. Failure to submit any of the reports required by this Agreement or having submitted any report with incorrect, incomplete, or insufficient information;
d. Failure to honor any term of the Agreement;
e. Failure to abide by any statutory, regulatory, or licensing requirement, including an entry of an order revoking the certificate of authority granted to the Grantee by a state or other licensing authority;
f. Failure to pay any and all entities, individuals, and furnishing labor or materials, or failure to make payment to any other entities as required by this Agreement;
g. Employment of an unauthorized alien in the performance of the work, in violation of Section 274 (A) of the Immigration and Nationality Act;
h. Failure to maintain the insurance required by this Agreement;
i. One or more of the following circumstances, uncorrected for more than thirty (30) days unless, within the specified 30-day period, Grantee (including its receiver or trustee in bankruptcy) provides to Department adequate assurances, reasonably acceptable to Department, of its continuing ability and willingness to fulfill its obligations under the Agreement:
    i. Entry of an order for relief under Title 11 of the United States Code;
    ii. The making by Grantee of a general assignment for the benefit of creditors;
    iii. The appointment of a general receiver or trustee in bankruptcy of Grantee's business or property; and/or
    iv. An action by Grantee under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, or liquidation.

16. Suspension of Work.

The Department may, in its sole discretion, suspend any or all activities under the Agreement, at any time, when it is in the best interest of the State to do so. The Department shall provide Grantee written notice outlining the particulars of suspension. Examples of reasons for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, Grantee shall comply with the notice. Within 90 days, or any longer period agreed to by the parties, Department shall either: (1) issue a notice authorizing resumption of work, at which time activity shall resume; or (2) terminate the Agreement. If the Agreement is terminated after 30 days of suspension, the notice of suspension shall be deemed to satisfy the thirty (30) days' notice required for a notice of termination for convenience. Suspension of work shall not entitle Grantee to any additional compensation.

17. Force Majeure.

The Grantee shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of Grantee or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond Grantee's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to Grantee. In case of any delay Grantee believes is excusable, Grantee shall notify Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten days after the cause that creates or will create the delay first arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) if delay is not reasonably foreseeable, within five days after the date Grantee first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY**. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against Department. The Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist Grantee shall perform at no increased cost, unless Department determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Department, in which case Department may: (1) accept allocated performance or deliveries from Grantee, provided that Grantee grants preferential treatment to Department with respect to products subjected to allocation; (2) contract with other sources (without recourse to and by Grantee for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchases may be deducted from the Agreement quantity; or (3) terminate Agreement in whole or in part.

18. Indemnification.

a. The Grantee shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless Department and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description arising from or relating to:
    i. personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, or subcontractors; provided, however, that Grantee shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of Department;
    ii. the Grantee's breach of this Agreement or the negligent acts or omissions of Grantee.

b. The Grantee's obligations under the preceding paragraph with respect to any legal action are contingent upon Department giving Grantee: (1) written notice of any action or threatened action; (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense; and (3) assistance in defending the action at Grantee's sole expense. The Grantee shall not be liable for any cost, expense, or compromise incurred or made by Department in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

c. Notwithstanding sections a. and b. above, the following is the sole indemnification provision that applies to Grantees that are governmental entities: Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of Section 768.28, F.S. Further, nothing herein shall be construed as consent by a state agency or subdivision of the State to be sued by third parties in any matter arising out of any contract or this Agreement.

d. No provision in this Agreement shall require Department to hold harmless or indemnify Grantee, insure or assume liability for Grantee's negligence, waive Department's sovereign immunity under the laws of Florida, or

otherwise impose liability on Department for which it would not otherwise be responsible. Any provision, implication or suggestion to the contrary is null and void.

19. Limitation of Liability.

The Department's liability for any claim arising from this Agreement is limited to compensatory damages in an amount no greater than the sum of the unpaid balance of compensation due for goods or services rendered pursuant to and in compliance with the terms of the Agreement. Such liability is further limited to a cap of $100,000.

20. Remedies.

Nothing in this Agreement shall be construed to make Grantee liable for force majeure events. Nothing in this Agreement, including financial consequences for nonperformance, shall limit Department's right to pursue its remedies for other types of damages under the Agreement, at law or in equity. The Department may, in addition to other remedies available to it, at law or in equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against it.

21. Waiver.

The delay or failure by Department to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of Department's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

22. Statutory Notices Relating to Unauthorized Employment and Subcontracts.

a. The Department shall consider the employment by any Grantee of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If Grantee/subcontractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement. The Grantee shall be responsible for including this provision in all subcontracts with private organizations issued as a result of this Agreement.

b. Pursuant to Sections 287.133, 287.134, and 287.137 F.S., the following restrictions apply to persons placed on the convicted vendor list, discriminatory vendor list, or the antitrust violator vendor list:

   i. Public Entity Crime. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, F.S., for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

   ii. Discriminatory Vendors. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

   iii. Antitrust Violator Vendors. A person or an affiliate who has been placed on the antitrust violator vendor list following a conviction or being held civilly liable for an antitrust violation may not submit a bid, proposal, or reply on any contract to provide any good or services to a public entity; may not submit a bid, proposal, or reply on any contract with a public entity for the construction or repair of a public building or public work; may not submit a bid, proposal, or reply on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with a public entity; and may not transact new business with a public entity.

   iv. Notification. The Grantee shall notify Department if it or any of its suppliers, subcontractors, or consultants have been placed on the convicted vendor list, the discriminatory vendor list, or antitrust violator vendor list during the life of the Agreement. The Florida Department of Management Services is responsible for maintaining the discriminatory vendor list and the antitrust violator vendor list and posts the list on its website. Questions regarding the discriminatory vendor list or antitrust violator vendor list may be directed to the Florida Department of Management Services, Office of Supplier Diversity, at (850) 487-0915.

23. Compliance with Federal, State and Local Laws.

a. The Grantee and all its agents shall comply with all federal, state and local regulations, including, but not limited to, nondiscrimination, wages, social security, workers' compensation, licenses, and registration requirements. The Grantee shall include this provision in all subcontracts issued as a result of this Agreement.
b. No person, on the grounds of race, creed, color, religion, national origin, age, gender, or disability, shall be excluded from participation in; be denied the proceeds or benefits of; or be otherwise subjected to discrimination in performance of this Agreement.
c. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.
d. Any dispute concerning performance of the Agreement shall be processed as described herein. Jurisdiction for any damages arising under the terms of the Agreement will be in the courts of the State, and venue will be in the Second Judicial Circuit, in and for Leon County. Except as otherwise provided by law, the parties agree to be responsible for their own attorney fees incurred in connection with disputes arising under the terms of this Agreement.

24. Scrutinized Companies.

a. Grantee certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
b. If this Agreement is for more than one million dollars, the Grantee certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. Pursuant to Section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.
c. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize these contracting prohibitions then they shall become inoperative.

25. Lobbying and Integrity.

The Grantee agrees that no funds received by it under this Agreement will be expended for the purpose of lobbying the Legislature or a State agency pursuant to Section 216.347, F.S., except that pursuant to the requirements of Section 287.058(6), F.S., during the term of any executed agreement between Grantee and the State, Grantee may lobby the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding that agreement. The Grantee shall comply with Sections 11.062 and 216.347, F.S.

26. Record Keeping.

The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with United States generally accepted accounting principles (US GAAP) consistently applied. The Department, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following the completion date or termination of the Agreement. In the event that any work is subcontracted, Grantee shall similarly require each subcontractor to maintain and allow access to such records for audit purposes. Upon request of Department's Inspector General, or other authorized State official, Grantee shall provide any type of information the Inspector General deems relevant to Grantee's integrity or responsibility. Such information may include, but shall not be limited to, Grantee's business or financial records, documents, or files of any type or form that refer to or relate to Agreement. The Grantee shall retain such records for the longer of: (1) three years after the expiration of the Agreement; or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/).

27. Audits.

a. Inspector General. The Grantee understands its duty, pursuant to Section 20.055(5), F.S., to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Grantee will comply with this duty and ensure that its sub-grantees and/or subcontractors issued under this Agreement, if any, impose this requirement, in writing, on its sub-grantees and/or subcontractors, respectively.
b. Physical Access and Inspection. Department personnel shall be given access to and may observe and inspect work being performed under this Agreement, with reasonable notice and during normal business hours, including by any of the following methods:
    i. Grantee shall provide access to any location or facility on which Grantee is performing work, or storing or staging equipment, materials or documents;

ii. Grantee shall permit inspection of any facility, equipment, practices, or operations required in performance of any work pursuant to this Agreement; and,
iii. Grantee shall allow and facilitate sampling and monitoring of any substances, soils, materials or parameters at any location reasonable or necessary to assure compliance with any work or legal requirements pursuant to this Agreement.

c. Special Audit Requirements. The Grantee shall comply with the applicable provisions contained in Attachment 5, Special Audit Requirements. Each amendment that authorizes a funding increase or decrease shall include an updated copy of Exhibit 1, to Attachment 5. If Department fails to provide an updated copy of Exhibit 1 to include in each amendment that authorizes a funding increase or decrease, Grantee shall request one from the Department's Grants Manager. The Grantee shall consider the type of financial assistance (federal and/or state) identified in Attachment 5, Exhibit 1 and determine whether the terms of Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. For federal financial assistance, Grantee shall utilize the guidance provided under 2 CFR §200.330 for determining whether the relationship represents that of a subrecipient or vendor. For State financial assistance, Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website: https:\\apps.fldfs.com\fsaa.

d. Proof of Transactions. In addition to documentation provided to support cost reimbursement as described herein, Department may periodically request additional proof of a transaction to evaluate the appropriateness of costs to the Agreement pursuant to State guidelines (including cost allocation guidelines) and federal, if applicable. Allowable costs and uniform administrative requirements for federal programs can be found under 2 CFR 200. The Department may also request a cost allocation plan in support of its multipliers (overhead, indirect, general administrative costs, and fringe benefits). The Grantee must provide the additional proof within thirty (30) days of such request.

e. No Commingling of Funds. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
    i. If Department finds that these funds have been commingled, Department shall have the right to demand a refund, either in whole or in part, of the funds provided to Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from Department shall refund, and shall forthwith pay to Department, the amount of money demanded by Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from Department by Grantee to the date repayment is made by Grantee to Department.
    ii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by Department, from another source(s), Grantee shall reimburse Department for all recovered funds originally provided under this Agreement and interest shall be charged for those recovered costs as calculated on from the date(s) the payment(s) are recovered by Grantee to the date repayment is made to Department.
    iii. Notwithstanding the requirements of this section, the above restrictions on commingling funds do not apply to agreements where payments are made purely on a cost reimbursement basis.

28. Conflict of Interest.

The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.

29. Independent Contractor.

The Grantee is an independent contractor and is not an employee or agent of Department.

30. Subcontracting.

a. Unless otherwise specified in the Special Terms and Conditions, all services contracted for are to be performed solely by Grantee.

b. The Department may, for cause, require the replacement of any Grantee employee, subcontractor, or agent. For cause, includes, but is not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with an applicable Department policy or other requirement.

c. The Department may, for cause, deny access to Department's secure information or any facility by any Grantee employee, subcontractor, or agent.
d. The Department's actions under paragraphs b. or c. shall not relieve Grantee of its obligation to perform all work in compliance with the Agreement. The Grantee shall be responsible for the payment of all monies due under any subcontract. The Department shall not be liable to any subcontractor for any expenses or liabilities incurred under any subcontract and Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under any subcontract.
e. The Department will not deny Grantee's employees, subcontractors, or agents access to meetings within the Department's facilities, unless the basis of Department's denial is safety or security considerations.
f. The Department supports diversity in its procurement program and requests that all subcontracting opportunities afforded by this Agreement embrace diversity enthusiastically. The award of subcontracts should reflect the full diversity of the citizens of the State. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Diversity at (850) 487-0915.
g. The Grantee shall not be liable for any excess costs for a failure to perform, if the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both Grantee and the subcontractor(s), and without the fault or negligence of either, unless the subcontracted products or services were obtainable from other sources in sufficient time for Grantee to meet the required delivery schedule.

31. Guarantee of Parent Company.

If Grantee is a subsidiary of another corporation or other business entity, Grantee asserts that its parent company will guarantee all of the obligations of Grantee for purposes of fulfilling the obligations of Agreement. In the event Grantee is sold during the period the Agreement is in effect, Grantee agrees that it will be a requirement of sale that the new parent company guarantee all of the obligations of Grantee.

32. Survival.

The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of this Agreement, including without limitation, the obligations regarding confidentiality, proprietary interests, and public records, shall survive termination, cancellation, or expiration of this Agreement.

33. Third Parties.

The Department shall not be deemed to assume any liability for the acts, failures to act or negligence of Grantee, its agents, servants, and employees, nor shall Grantee disclaim its own negligence to Department or any third party. This Agreement does not and is not intended to confer any rights or remedies upon any person other than the parties. If Department consents to a subcontract, Grantee will specifically disclose that this Agreement does not create any third-party rights. Further, no third parties shall rely upon any of the rights and obligations created under this Agreement.

34. Severability.

If a court of competent jurisdiction deems any term or condition herein void or unenforceable, the other provisions are severable to that void provision, and shall remain in full force and effect.

35. Grantee's Employees, Subcontractors and Agents.

All Grantee employees, subcontractors, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Grantee shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under Agreement must comply with all security and administrative requirements of Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement.

36. Assignment.

The Grantee shall not sell, assign, or transfer any of its rights, duties, or obligations under the Agreement, or under any purchase order issued pursuant to the Agreement, without the prior written consent of Department. In the event of any assignment, Grantee remains secondarily liable for performance of the Agreement, unless Department expressly waives such secondary liability. The Department may assign the Agreement with prior written notice to Grantee of its intent to do so.

37. Compensation Report.

If this Agreement is a sole-source, public-private agreement or if the Grantee, through this agreement with the State, annually receive 50% or more of their budget from the State or from a combination of State and Federal funds, the Grantee shall provide an annual report, including the most recent IRS Form 990, detailing the total compensation for the entities' executive leadership teams. Total compensation shall include salary, bonuses, cashed-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout. The Grantee must also inform the Department of any changes in total executive compensation between the annual

reports. All compensation reports must indicate what percent of compensation comes directly from the State or Federal allocations to the Grantee.

38. Execution in Counterparts and Authority to Sign.

This Agreement, any amendments, and/or change orders related to the Agreement, may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument. In accordance with the Electronic Signature Act of 1996, electronic signatures, including facsimile transmissions, may be used and shall have the same force and effect as a written signature. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Terms and Conditions
AGREEMENT NO. LPA0206

ATTACHMENT 2

These Special Terms and Conditions shall be read together with general terms outlined in the Standard Terms and Conditions, Attachment 1. Where in conflict, these more specific terms shall apply.

1. Scope of Work.
The Project funded under this Agreement is Pasco County Handcart Road Water and Wastewater. The Project is defined in more detail in Attachment 3, Grant Work Plan.

2. Duration.
a. Reimbursement Period. The reimbursement period for this Agreement begins on July 1, 2021 and ends at the expiration of the Agreement.
b. Extensions. There are extensions available for this Project.
c. Service Periods. Additional service periods are not authorized under this Agreement.

3. Payment Provisions.
a. Compensation. This is a cost reimbursement Agreement. The Grantee shall be compensated under this Agreement as described in Attachment 3.
b. Invoicing. Invoicing will occur as indicated in Attachment 3.
c. Advance Pay. Advance Pay is not authorized under this Agreement.

4. Cost Eligible for Reimbursement or Matching Requirements.
Reimbursement for costs or availability for costs to meet matching requirements shall be limited to the following budget categories, as defined in the Reference Guide for State Expenditures, as indicated:

Reimbursement	Match	Category
☐	☐	Salaries/Wages
		Overhead/Indirect/General and Administrative Costs:
☐	☐	a. Fringe Benefits, N/A.
☐	☐	b. Indirect Costs, N/A.
☒	☐	Contractual (Subcontractors)
☐	☐	Travel, in accordance with Section 112, F.S.
☐	☐	Equipment
☐	☐	Rental/Lease of Equipment
☐	☐	Miscellaneous/Other Expenses
☐	☐	Land Acquisition

5. Equipment Purchase.
No Equipment purchases shall be funded under this Agreement.

6. Land Acquisition.
There will be no Land Acquisitions funded under this Agreement.

7. Match Requirements
There is no match required on the part of the Grantee under this Agreement.

8. Insurance Requirements

Required Coverage. At all times during the Agreement the Grantee, at its sole expense, shall maintain insurance coverage of such types and with such terms and limits described below. The limits of coverage under each policy maintained by the Grantee shall not be interpreted as limiting the Grantee's liability and obligations under the Agreement. Grantee shall provide coverage through a self-insurance program established and operating under the laws of Florida. Additional insurance requirements for this Agreement may be required elsewhere in this Agreement, however the minimum insurance requirements applicable to this Agreement are:

a. Comprehensive General Liability Insurance.
The Grantee shall provide adequate comprehensive general liability insurance coverage and hold such liability insurance at all times during the Agreement. The minimum limits shall be $200,000 for each person and $300,000 per occurrence.

b. Commercial Automobile Insurance.
If the Grantee's duties include the use of a commercial vehicle, the Grantee shall maintain automobile liability, bodily injury, and property damage coverage. Insuring clauses for both bodily injury and property damage shall provide coverage on an occurrence basis. The minimum limits shall be as follows:

$200,000/300,000	Automobile Liability for Company-Owned Vehicles, if applicable
$200,000/300,000	Hired and Non-owned Automobile Liability Coverage

c. Workers' Compensation.
The Grantee shall comply with the workers' compensation requirements of Chapter 440, F.S.

d. Other Insurance. None.

9. Quality Assurance Requirements.

There are no special Quality Assurance requirements under this Agreement.

10. Retainage.

No retainage is required under this Agreement.

11. Subcontracting.

The Grantee may subcontract work under this Agreement without the prior written consent of the Department's Grant Manager except for certain fixed-price subcontracts pursuant to this Agreement, which require prior approval. The Grantee shall submit a copy of the executed subcontract to the Department prior to submitting any invoices for subcontracted work. Regardless of any subcontract, the Grantee is ultimately responsible for all work to be performed under this Agreement.

12. State-owned Land.

The work will not be performed on State-owned land.

13. Office of Policy and Budget Reporting.

The Grantee will identify the expected return on investment for this project and provide this information to the Governor's Office of Policy and Budget (OPB) within three months of execution of this Agreement. For each full calendar quarter thereafter, the Grantee will provide quarterly update reports directly to OPB, no later than 20 days after the end of each quarter, documenting the positive return on investment to the state that results from the Grantee's project and its use of funds provided under this Agreement. Quarterly reports will continue until the Grantee is instructed by OPB that no further reports are needed, or until the end of this Agreement, whichever occurs first. All reports shall be submitted electronically to OPB at env.roi@laspbs.state.fl.us, and a copy shall also be submitted to the Department at legislativeaffairs@floridaDEP.gov.

14. Additional Terms.

None.

ATTACHMENT 3
GRANT WORK PLAN

PROJECT TITLE: Pasco County Handcart Road Water and Wastewater

PROJECT LOCATION: The Project will be located in the Pasadena Hills area within Pasco County; Lat/Long (28.2811, -82.2455). See Figure 1 for a location map.

PROJECT BACKGROUND: The project will provide water and wastewater infrastructure improvements to stimulate economic growth in a currently undeveloped area of Pasadena Hills, a portion of central Pasco County.

PROJECT DESCRIPTION: Pasco County (Grantee) will construct a water and wastewater distribution system including a piping system and appurtenances, a lift station, restoration, project management, and all work necessary to complete the project.

The Grantee does not anticipate that the funding under this Agreement will result in a fully completed project, so this Agreement will cover a portion of the work.

TASKS: All documentation should be submitted electronically unless otherwise indicated.

Task 1: Design and Permitting

Deliverables: The Grantee will complete design of the water and wastewater distribution system and obtain all necessary permits for construction of the project including construction plans and specs.

Documentation: The Grantee will submit: 1) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 2) a summary of design (or preconstruction) activities to date, indicating the percentage of design completion for the time period covered in the payment request. For the final documentation, the Grantee will also submit a copy of the design completed with the funding provided for this task and a list of all required permits identifying issue dates and issuing authorities.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

Task 2: Construction

Deliverables: The Grantee will construct water and wastewater distribution system in accordance with the construction contract documents prepared for the project.

Documentation: The Grantee will submit 1) a copy of the final design; 2) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 3) a signed Engineer's Certification of Payment Request.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

PROJECT TIMELINE & BUDGET DETAIL:

The tasks must be completed by, and all documentation received by, the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below.

Task No.	Task Title	Budget Category	Grant Amount	Task Start Date	Task End Date
1	Design and Permitting	Contractual Services	$600,000	07/01/2021	09/30/2023
2	Construction	Contractual Services	$5,900,000	07/01/2021	09/30/2023
		Total:	$6,500,000		

Note: The budget for this project is estimated and subject to change as the project progresses. A change order or amendment is expected to reallocate the budget.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Public Records Requirements

Attachment 4

1. **Public Records.**

a. If the Agreement exceeds $35,000.00, and if Grantee is acting on behalf of Department in its performance of services under the Agreement, Grantee must allow public access to all documents, papers, letters, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by Grantee in conjunction with the Agreement (Public Records), unless the Public Records are exempt from section 24(a) of Article I of the Florida Constitution or section 119.07(1), F.S.

b. The Department may unilaterally terminate the Agreement if Grantee refuses to allow public access to Public Records as required by law.

2. **Additional Public Records Duties of Section 119.0701, F.S., If Applicable.**
For the purposes of this paragraph, the term "contract" means the "Agreement." If Grantee is a "contractor" as defined in section 119.0701(1)(a), F.S., the following provisions apply and the contractor shall:

a. Keep and maintain Public Records required by Department to perform the service.

b. Upon request, provide Department with a copy of requested Public Records or allow the Public Records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

c. A contractor who fails to provide the Public Records to Department within a reasonable time may be subject to penalties under section 119.10, F.S.

d. Ensure that Public Records that are exempt or confidential and exempt from Public Records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the Public Records to Department.

e. Upon completion of the contract, transfer, at no cost, to Department all Public Records in possession of the contractor or keep and maintain Public Records required by Department to perform the service. If the contractor transfers all Public Records to Department upon completion of the contract, the contractor shall destroy any duplicate Public Records that are exempt or confidential and exempt from Public Records disclosure requirements. If the contractor keeps and maintains Public Records upon completion of the contract, the contractor shall meet all applicable requirements for retaining Public Records. All Public Records stored electronically must be provided to Department, upon request from Department's custodian of Public Records, in a format specified by Department as compatible with the information technology systems of Department. These formatting requirements are satisfied by using the data formats as authorized in the contract or Microsoft Word, Outlook, Adobe, or Excel, and any software formats the contractor is authorized to access.

f. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, F.S., TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN OF PUBLIC RECORDS AT:**

Telephone: **(850) 245-2118**
Email: public.services@floridadep.gov
Mailing Address: **Department of Environmental Protection**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Audit Requirements
(State and Federal Financial Assistance)

Attachment 5

The administration of resources awarded by the Department of Environmental Protection *(which may be referred to as the "Department", "DEP", "FDEP" or "Grantor", or other name in the agreement*) to the recipient *(which may be referred to as the "Recipient", "Grantee" or other name in the agreement)* may be subject to audits and/or monitoring by the Department of Environmental Protection, as described in this attachment.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEP Department staff, limited scope audits as defined by 2 CFR 200.425, or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends $750,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of Environmental Protection. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR 200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200.514 will meet the requirements of this part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR 200.508-512.

3. A recipient that expends less than $750,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than $750,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other federal entities.

4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at **www.cfda.gov**

PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(2), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through the Department of Environmental Protection by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal year ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than $750,000 in state financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. For information regarding the Florida Catalog of State Financial Assistance (CSFA), a recipient should access the Florida Single Audit Act website located at https://apps.fldfs.com/fsaa for assistance. In addition to the above websites, the following websites may be accessed for information: Legislature's Website at http://www.leg.state.fl.us/Welcome/index.cfm, State of Florida's website at http://www.myflorida.com/, Department of Financial Services' Website at http://www.fldfs.com/and the Auditor General's Website at http://www.myflorida.com/audgen/.

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

PART IV: REPORT SUBMISSION

1. Copies of reporting packages for audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and required by PART I of this form shall be submitted, when required by 2 CFR 200.512, by or on behalf of the recipient directly to the Federal Audit Clearinghouse (FAC) as provided in 2 CFR 200.36 and 200.512

   A. The Federal Audit Clearinghouse designated in 2 CFR §200.501(a) (the number of copies required by 2 CFR §200.501(a) should be submitted to the Federal Audit Clearinghouse), at the following address:

By Mail:

Federal Audit Clearinghouse
Bureau of the Census
1201 East 10th Street
Jeffersonville, IN 47132

Submissions of the Single Audit reporting package for fiscal periods ending on or after January 1, 2008, must be submitted using the Federal Clearinghouse's Internet Data Entry System which can be found at http://harvester.census.gov/facweb/

2. Copies of financial reporting packages required by PART II of this Attachment shall be submitted by or on behalf of the recipient directly to each of the following:

A. The Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

B. The Auditor General's Office at the following address:

Auditor General
Local Government Audits/342
Claude Pepper Building, Room 401
111 West Madison Street
Tallahassee, Florida 32399-1450

The Auditor General's website (http://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Copies of reports or management letters required by PART III of this Attachment shall be submitted by or on behalf of the recipient directly to the Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

4. Any reports, management letters, or other information required to be submitted to the Department of Environmental Protection pursuant to this Agreement shall be submitted timely in accordance with 2 CFR 200.512, section 215.97, F.S., and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.

5. Recipients, when submitting financial reporting packages to the Department of Environmental Protection for audits done in accordance with 2 CFR 200, Subpart F-Audit Requirements, or Chapters 10.550 (local governmental entities) and 10.650 (non and for-profit organizations), Rules of the Auditor General, should indicate the date and the reporting package was delivered to the recipient correspondence accompanying the reporting package.

PART V: RECORD RETENTION

The recipient shall retain sufficient records demonstrating its compliance with the terms of the award and this Agreement for a period of **five (5)** years from the date the audit report is issued, and shall allow the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General upon request for a period of **three (3)** years from the date the audit report is issued, unless extended in writing by the Department of Environmental Protection.

EXHIBIT – 1

FUNDS AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Note: If the resources awarded to the recipient represent more than one federal program, provide the same information shown below for each federal program and show total federal resources awarded

Federal Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following:					
Federal Program A	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	
Federal Program B	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	

Note: Of the resources awarded to the recipient represent more than one federal program, list applicable compliance requirements for each federal program in the same manner as shown below:

Federal Program A	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.:(eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	
Federal Program B	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.: (eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	

Note: If the resources awarded to the recipient for matching represent more than one federal program, provide the same information shown below for each federal program and show total state resources awarded for matching.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Matching Resources for Federal Programs:					
Federal Program A	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category
Federal Program B	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category

Note: If the resources awarded to the recipient represent more than one state project, provide the same information shown below for each state project and show total state financial assistance awarded that is subject to section 215.97, F.S.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Resources Subject to Section 215.97, F.S.:						
State Program A	**State Awarding Agency**	**State Fiscal Year[1]**	**CSFA Number**	**CSFA Title or Funding Source Description**	**Funding Amount**	**State Appropriation Category**
Original Agreement	Department of Environmental Protection	2021-2022	37.039	Statewide Surface Water Restoration and Wastewater Projects	$6,500,000	140047
State Program B	**State Awarding Agency**	**State Fiscal Year[2]**	**CSFA Number**	**CSFA Title or Funding Source Description**	**Funding Amount**	**State Appropriation Category**

Total Award	$6,500,000	

Note: List applicable compliance requirement in the same manner as illustrated above for federal resources. For matching resources provided by the Department for DEP for federal programs, the requirements might be similar to the requirements for the applicable federal programs. Also, to the extent that different requirements pertain to different amount for the non-federal resources, there may be more than one grouping (i.e. 1, 2, 3, etc.) listed under this category.

For each program identified above, the recipient shall comply with the program requirements described in the Catalog of Federal Domestic Assistance (CFDA) [www.cfda.gov] and/or the Florida Catalog of State Financial Assistance (CSFA) [https://apps.fldfs.com/fsaa/searchCatalog.aspx], and State Projects Compliance Supplement (Part Four: State Projects Compliance Supplement [https://apps.fldfs.com/fsaa/state_project_compliance.aspx]. The services/purposes for which the funds are to be used are included in the Agreement's Grant Work Plan. Any match required by the Recipient is clearly indicated in the Agreement.

Exhibit A
Progress Report Form

DEP Agreement No.:	LPA0206
Project Title:	Pasco County Handcart Road Water and Wastewater
Grantee Name:	Pasco County
Grantee's Grant Manager:	Robert Marin
Reporting Period:	Select reporting period. Select year.

Provide the following information for all tasks identified in the Grant Work Plan:
Summarize the work completed within each task for the reporting period. Provide an update on the estimated completion date for each task and an explanation for any anticipated delays or problems encountered. Add or remove task sections and use as many pages as necessary to cover all tasks. Use the format provided below.

Task 1: Design and Permitting

- Progress for this reporting period:
- Identify delays or problems encountered:

Task 2: Construction

- Progress for this reporting period:
- Identify delays or problems encountered:

Indicate the completion status for the following tasks:

Design (Plans/Submittal): 30% ☐, 60% ☐, 90% ☐, 100% ☐

Permitting (Completed): Yes ☐, No ☐

Construction (Estimated): _____ %

This report is submitted in accordance with the reporting requirements of the above DEP Agreement number and accurately reflects the activities associated with the project.

Signature of Grantee's Grant Manager (Original Ink) Date

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 1 **FILE NO.:** PDD23-0005 **DATE:** 10/25/2022

SUBJECT: Villages of Pasadena Hills - Global Funding and Escrow Agreement

REFERENCES: All Pasadena Hill Planning and Policy Committee (PHPPC), and Board of County Commissioners (BCC) public hearings at 1:30 p.m in New Port Richey (NPR) or Dade City (DC): VOPH PPC in DC: 8/17/22 - BCC in NPR: 10/25/22.

AGENDA SECTION: Consent Agenda

THRU: Sally Sherman, Assistant County Administrator

FROM: Nectarios Pittos, Planning and Development Director

RECOMMENDED BOARD ACTION:

Approve the VOPH Global Funding and Escrow Agreement. Authorize the Chairman to execute the Agreement, and direct Board Records to distribute as set forth under the Distribution Section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

To provide infrastructure for the Villages of Pasadena Hills special planning area, Pasco County and the Co-Developers have mutually agreed to enter into this agreement to induce the Co-Developers and their designated Villages of Pasadena Hills (VOPH) MPUD Owner(s) to privately fund, design, permit, and construct designated roadway and utilities infrastructure projects within the VOPH special planning area. In exchange, said constructing parties who fund the designated infrastructure improvements will receive VOPH Transportation Development Fee and Utility Surcharge Fee Credits consistent with the provisions of the VOPH Financial Plan.

Roadway Infrastructure Projects

Each VOPH-MPUD project is assigned specific projects they will have to design, permit, and construct. Each project will be built to the conditions outlined within the MPUD process. Any change in the obligations of the MPUD must be approved by the County Administrator and relevant Co-Developer as an administrative amendment to this agreement. Currently, The VOPH-MPUDs in this agreement will be responsible for designated segments of the following roads:

- Handcart Road (Primary Road)
- Keifer Road (Primary Road)
- Highland Boulevard (Intermediate Road)
- Tyndall Road (Intermediate Road)
- Prospect Road (Intermediate Road)
- New River Boulevard (Intermediate Road)

Transportation Development Fee Credits

The Designated MPUDs anticipate pre-funding the improvements for each MPUD. Once a deposit is made into the VOPH Roadway Escrow account (a segregated account managed by the Financial Escrow Agent), the County will then provide VOPH Transportation Fee Credits to the applicable Co-Developer or MPUD Owner. Within 45-days after the Financial Escrow Agent confirms funds have been deposited into the VOPH Roadway Escrow Account, the County will issue credits. These credits cannot be used on the VOPH External Improvement Fee or Administrative Fee-these fees

must be paid in cash.

Intermediate Roadway Credits
The 2022 VOPH Financial Plan update (also scheduled for consideration by the BCC on 10/25) if adopted, will provide roadway fee credits for all intermediate roadways (based on a partial allocation of the existing tax increment previously approved in VOPH). This would make both primary and intermediate roads creditable within VOPH and will encourage needed roadway construction within VOPH.

Utility Infrastructure Projects
The County has entered into a grant agreement with the State of Florida Department of Environment Protection (DEP) for designated utility projects within VOPH and desires the Co-Developers to be the constructing entity for the DEP Grant Project. As the constructing entity, the Co-Developers also shall design, permit, and construct additional VOPH Master Utility Projects within this agreement. The funding for any excess costs for the County Master Utility Projects beyond the $6.5 million DEP Grant reimbursement amount will be the subject of a Supplemental Agreement between PCUD and the Co-Developers.

County Master Utility Projects
1. Handcart Road Master Potable Water Transmission Line Extension & Appurtenances (also known as the Main Potable Water System Extension)
2. Handcart Road Main Sanitary Sewer Collection System Extension (also known as the Handcart Main Sanitary Sewer Transmission Line)

Developer Utility Projects
Developers will also be responsible for additional utility projects, which will include: potable water, wastewater, and reclaimed water transmission lines and are located in the following road segments:

- Handcart Road
- Keifer Road
- Highland Boulevard
- Tyndall Road
- New River Boulevard

VOPH Utility Projects Funding and Surcharge Fee Credits
VOPH Utility Surcharge Fees and Credits will work similarly to the Transportation Development Fee Credits, except that utility credits apply only to utility surcharges and not to base utility connection fees.

Supplemental Agreements
This agreement contemplates the negotiation for two additional supplemental agreements: (1) the PCUD Supplemental Agreement for any excess costs for the County Master Utility Projects beyond the DEP Grant amount (see above), and (2) a potential agreement between PDD and the Co-Developers to facilitate review of public roadway construction plans through third-party outsourcing to qualified engineering review consultants (subject to BCC approval).

VOPH Planning and Policy Committee Recommendation
On August 17, 2022, the VOPH Planning and Policy Committee recommended approval of the VOPH Global Funding and Escrow Agreement to the Board of County Commissioners.

This memo was prepared by Gavin Covey, Project Coordinator III.

FISCAL IMPACT/COST/REVENUE STATEMENT:

With the exception of the County Master Utility Projects (which will be addressed by supplemental agreement), all funding of the required roadway and utility projects, and all funding for the Financial Escrow Agent and Engineer Verification Agent, will be provided by the applicable Co-Developer(s) or MPUD Owner(s) in exchange for applicable Transportation Development Fees and Utility Surcharge Fee Credits.

DISTRIBUTION:

Board Records Department to distribute as set forth below.

FUNDING & ESCROW AGREEMENT
FOR ROADWAYS & UTILITIES CAPITAL INFRASTRUCTURE
VILLAGES OF PASADENA HILLS (VOPH)
DESIGNATED VOPH-MPUD PROJECTS

VOPH Master Development Company, LLC
& Galvin Land Services, LLC

THIS FUNDING & ESCROW AGREEMENT (the "**Agreement**") is made and entered into effective as of the Effective Date (as defined herein), by and between **PASCO COUNTY, FLORIDA,** a political subdivision of the State of Florida ("**Pasco County**" or the "**County**"), by and through its Board of County Commissioners, the governing body thereof, and **VOPH Master Development Company, LLC,** a Florida limited liability company ("**VOPH Master**"), whose address is 4065 Crescent Park Drive, Riverview, FL 33578, and **Galvin Land Services, LLC**, a Florida limited liability company ("**Galvin**"), whose address is 121 Snell Isle Blvd., St. Petersburg, FL 33704 (VOPH Master and Galvin also are referred to herein as the "**Co-Developers**" and each may be referred to herein as a "**Developer**" where the context requires), and is joined in by the individual MPUD applicant entities identified herein, their successors and assigns, as third-party beneficiaries only (individually a "**VOPH-MPUD Owner**" or jointly the "**VOPH-MPUD Owners**"), with reference to the following matters:

RECITALS

A. The County previously established the Villages of Pasadena Hills ("**VOPH**") as a special planning area, including the creation of a Dependent Special District (the "**District**") and establishment of a Stewardship District Ordinance, VOPH Financial Plan, VOPH Master Utility Plan, VOPH Master Roadway Plan, and specific Land Development Code ("**LDC**") regulations applicable to VOPH (as previously or hereafter amended, collectively the "**VOPH Enabling Documents").**

B. In order to provide substantial VOPH master infrastructure facilities required for the commencement of development and thereby to secure a material portion of the anticipated VOPH master infrastructure capital improvements contemplated by the VOPH Financial Plan,, the Co-Developers and the County mutually desire to enter into this Agreement to facilitate the implementation of portions of the VOPH Financial Plan, VOPH Master Utility Plan, and VOPH Master Roadway Plan for a designated number of VOPH-MPUD projects anticipated to commence near-term development on a phased basis (as now or hereafter identified pursuant to this Agreement, the "**Designated VOPH-MPUDs**").

C. The County has entered into a State of Florida Department of Environmental Protection (DEP) Standard Grant Agreement, LPA0206, which provides $6,500,000 on a reimbursement basis for the Handcart Road Water and Wastewater Project.

D. Consequently, this Agreement is intended to specify certain infrastructure and other commitments required to support the respective, Designated VOPH-MPUDs, and the process and conditions for implementation of such capital infrastructure improvements by either Co-Developer as the Constructing Entity (defined below) for the applicable VOPH-MPUD Owner(s) or the County, as applicable.

E. With respect to any VOPH-MPUD already owned by a Co-Developer, this Agreement shall be immediately applicable thereto. However, this Agreement shall apply to and govern the ownership and future development of the other Designated VOPH-MPUDs only if and as of the date the designated VOPH-MPUD Owner(s) acquire record title to the applicable VOPH-MPUD land. This Agreement shall not encumber or otherwise cloud the title to any Designated VOPH-MPUD land until such time as the designated VOPH-MPUD Owner, its successor or assign, acquires record title to same and notice is provided by the applicable Developer to the County pursuant to Section 3.a., below.

NOW, THEREFORE, for and in consideration of the mutual promises, covenants and conditions set forth herein, the County and the Developer agree as follows:

AGREEMENT

1. **Recitals & Exhibits**. The above recitals are true and correct, and together with all exhibits hereto, are incorporated by reference herein and made a part of this Agreement.

2. **Intent & Purpose.** It is the intent and purpose of this Agreement to induce the Co-Developers and the applicable VOPH-MPUD Owner(s) to fund, design, permit and construct certain VOPH master roadway and master utility infrastructure projects, in exchange for certain VOPH Transportation Credits and Utility Credits (as defined herein and collectively the "**VOPH Fee Credits**"). Consequently, this Agreement provides for (i) certain procedures that will enhance the development feasibility of VOPH and facilitate future regulatory approvals and permit issuance for the designated master infrastructure work, (ii) specifically identified Developer and VOPH-MPUD Owner commitments for certain master public infrastructure to support VOPH, (iii) the process for funding the costs for the designated public infrastructure improvements and for the verification, issuance and use of the applicable VOPH Fee Credits, and (iv) the earmark, allocation and use of certain State of Florida funding provided to the County for the Handcart Road County Utility Project (as defined herein).

3. **Designated VOPH-MPUDs; Public Infrastructure Permitting.**

   a. **Designated VOPH-MPUDs; Applicability**. The initial VOPH-MPUDs which shall be governed by this Agreement (the "**Designated VOPH-MPUDs**") and their respective, contemplated VOPH-MPUD Owner entities are set forth on **Exhibit A** hereto. The listed VOPH-MPUD Owner(s) are either fee simple record owners or contract vendees having an equitable ownership interest in the respective Designated VOPH-MPUD. As stated in Recital D, above, this Agreement shall not apply to or otherwise bind any Designated VOPH-MPUD unless and until (i) said VOPH-MPUD is approved by the County and (ii) the applicable VOPH-MPUD Owner, or its successor or assign as designated by the applicable Developer, acquires record title to such VOPH-MPUD and provides written notice of such closing date of record to the County pursuant to this Agreement. The applicable Developer and the County Administrator (or Designee) by mutual agreement also shall have the right to identify additional VOPH-MPUDs as a Designated VOPH-MPUD under this Agreement, in which event the County Administrator or the County Administrator's Designee shall add such additional Designated VOPH-MPUDs (with applicable designated master roadway and/or utility infrastructure) by administrative amendment to this Agreement. The applicable Developer for such VOPH-MPUD shall provide notice to the County

Administrator or the County Administrator's Designee, including a copy of the recorded deed, when this Agreement is activated by record ownership for the respective Designated VOPH-MPUDs. Nothing in this Agreement shall obligate the BCC to approve any specific MPUD listed on Exhibit A or subsequently added to this Agreement as set forth above, which MPUD rezoning approval(s) remain subject to normal County process and requirements.

b. **Master Public Infrastructure Approvals and Permits.** Pasco County shall accept and process pursuant to the Land Development Code the applications for all Pasco County approvals, permits, and permit modifications reasonably necessary for the design, permitting and/or construction of any public infrastructure or related matters covered by this Agreement. Without limiting the foregoing, the anticipated construction plan and permit review is expected to include the following matters to the extent they are related to the matters set forth in this Agreement:

i. **VOPH Master Roadway Plan improvements;**

ii. **VOPH Master Utility Plan improvements;**

iii. **Alternative Vehicle (AV) or other Alternative Transportation Network improvements to the extent part of the Master Roadway Plan improvements;**

iv. **Storm Water System plans, permits and construction related to master roadway or master utilities infrastructure;**

v. **Wetland and/or flood plain impact/compensation, and other mitigation plans, permits, and construction related to master roadway or master utilities infrastructure; and**

vi. **Mass Grading and/or Right-of-Way Use permits to implement any of the foregoing items**
