13. The purchase hereunder is subject to the provisions of chapter 112, Florida Statutes. The Vendor must disclose the name(s) of any of its officers, directors, or agents who is also a County employee.

14. Vendors who provide goods and/or services to the County shall receive payment for such goods and/or services in accordance with the Local Government Prompt Payment Act (chapter 218, part VII, Florida Statutes).

15. Acceptance of this purchase order by the Vendor is verification that the Vendor and any subcontractor(s) it uses to fulfill this purchase order are registered with and utilize the U.S. Department of Homeland Security's E-Verify system to verify the work authorization status of all employees hired during the term of any purchase agreement between the parties and acknowledges that it is required to maintain such compliance throughout the term of the agreement. The Vendor also confirms that no public employer has terminated a contract with the Vendor for failure to comply with section 448.095(2), Florida Statutes, within the 12 months preceding the date of acceptance of this purchase order.

16. The County adheres to subsection 287.134(2)(a), Florida Statutes, and will not transact business with entities or affiliates placed on the discriminatory vendor list maintained by the Florida Department of Management Services. By accepting the purchase order, the Vendor certifies that is not on the discriminatory vendor list. Violation of this provision by the Vendor is grounds for termination of the purchase order and/or any associated agreement with the County.

17. Pursuant to section 287.135, Florida Statutes, by accepting the purchase order, the Vendor certifies that: (1) it is not on the Scrutinized Companies that Boycott Israel List, created pursuant to section 215.4725, Florida Statutes; (2) it is not participating in a boycott of Israel; (3) it is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Terrorism Sectors List, created pursuant to section 215.473, Florida Statutes; and (4) it is not engaged in business operations in Cuba or Syria.

    The County reserves the right to terminate the purchase order and/or any associated agreement if the County finds that: (1) any of the above certifications are false; (2) the Vendor has been placed on the Scrutinized Companies that Boycott Israel List; (3) the Vendor is engaged in a boycott of Israel; (4) the Vendor has been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Terrorism Sectors List; or (5) the Vendor is engaged in business operations in Cuba or Syria.

18. Pursuant to section 287.05701, Florida Statutes, the County: (1) may not request documentation of or consider a Vendor's social, political, or ideological interests when determining if the Vendor is a responsible vendor; and (2) may not give preference to a Vendor based on the Vendor's social, political, or ideological interests.

19. The purchase and any associated agreement(s) shall be governed by the laws of the State of Florida. Venue for any disputes relating to the purchase and any associated agreement(s) shall be the West Pasco Judicial Center in New Port Richey, Florida (for state claims) or the Middle District Court of Florida – Tampa Division (for federal claims). **The parties waive their right to a jury trial.**

20. Except as may be provided herein, the County does not waive any rights under law, including of any immunity or limitation of liability the County may be entitled to under the doctrine of sovereign immunity or section 768.28, Florida Statutes, nor agree to any terms less favorable to the County than those set forth herein. Notwithstanding any provisions contained in this or any other documents relating to the purchase, none of the following shall have any effect or be enforceable against the County or any of its officers, directors, employees, or agents:
    a) Requiring the County or any of its officers, directors, employees, or agents to indemnify or to hold harmless Vendor for any act or omission;
    b) Requiring that the County waive any immunity to which it is entitled by law; and/or
    c) Requiring or stating that the terms and conditions on the Vendor's standard form contract(s) shall prevail over the terms of this purchase order in the event of conflict.

21. For any purchases made under a piggybacked agreement, the buyer under said agreement is Pasco County. Any terms and conditions contained within such agreement apply to Pasco County and the Vendor, except contact and billing information and those terms and conditions that are specific to a jurisdiction other than the County.

22. If this purchase involves services, by accepting this purchase order, the Vendor agrees to comply with the public records requirements set forth in subsection 119.0701(2)(b), Florida Statutes.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT (727) 847-8194, PURCHASINGPRR@PASCOCOUNTYFL.NET, AND 7536 STATE STREET, 2ND FLOOR, NEW PORT RICHEY, FL 34654.

23. The County's performance and payment pursuant to the purchase order and/or any associated purchase agreement between the County and Vendor are contingent upon the Pasco County Board of County Commissioners appropriating funds in its approved budget for the purchase in each fiscal year of the agreement.

24. The Vendor shall not assign the purchase order or any associated agreement or delegate its duties under the purchase order or any associated purchase agreement to a third party without first obtaining permission from the County.

25. Vendor certifies that the goods or services sold to the County are not covered telecommunications equipment under 2 Code of Federal Regulations § 200.216.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** TED26-0302 **DATE:** 6/16/2026

SUBJECT: Resolution for Delegation of Authority to County Administrator and Designees – Standard Florida Department of Transportation (FDOT) Construction Agreements – No Funding Required

REFERENCES: Not Applicable

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: Panos Kontses, P.E., CPM, Interim Transportation Engineering Director

RECOMMENDED BOARD ACTION:

Adopt the Resolution delegating authority to the Pasco County Administrator and his designees to execute standard construction agreements with the Florida Department of Transportation (FDOT), which FDOT requires to ensure compliance with applicable standard specifications, plans, rules, regulations, and general requirements for projects involving improvements within FDOT's right of way. Authorize the Chairman to execute the Resolution, and direct Board Records to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

FDOT oversees construction and improvements within its right-of-way and requires local governments to enter into a standard construction agreement before entering into FDOT's right of way to perform work. These agreements ensure compliance with FDOT design standards, specifications, plans, and applicable laws and regulations; require a payment and performance bond in the amount of the estimated cost of construction; and require indemnification of FDOT against claims and damages arising out of or related to the performance or breach of the construction agreement. An example of a standard FDOT construction agreement is attached for reference.

The Transportation Engineering Department recommends that the Board of County Commissioners delegate authority to the County Administrator and his designees to execute standard FDOT construction agreements. The County's execution of these agreements is required for projects involving FDOT right of way. Delegating authority to the County Administrator and his designees to execute these standard agreements will expedite the process for FDOT approval of County projects involving FDOT right of way, and ultimately, will streamline project delivery and mitigate delays.

FISCAL IMPACT/COST/REVENUE STATEMENT:

No funding is required for this action.

DISTRIBUTION:

Board Records to distribute as set forth below:
1. Retain One Original

ATTACHMENT(S):

1. TED26-0302 Resolution (One Original)
2. TED26-0302 Standard FDOT Construction Agreement (Example)

cc: Olivia DeScala, Assistant County Attorney

BY THE BOARD OF COUNTY COMMISSIONERS **RESOLUTION NO. _____**

A RESOLUTION BY THE BOARD OF COUNTY COMMISSIONERS OF PASCO COUNTY, FLORIDA, AUTHORIZING THE COUNTY ADMINISTRATOR AND DESIGNEES TO ENTER INTO CONSTRUCTION AGREEMENTS WITH THE STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION (DEPARTMENT) TO MAKE IMPROVEMENTS WITHIN THE DEPARTMENT'S RIGHT OF WAY.

WHEREAS, Section 334.044, Florida Statutes, authorizes and requires the State of Florida Department of Transportation ("Department") to coordinate the planning, development, and operation of the State Highway System; and

WHEREAS, Section 20.23(6), Florida Statutes, authorizes the Department to contract with local government entities; and

WHEREAS, Section 334.175(2), Florida Statutes, requires the Department to review the design plans of transportation projects on, under, or over a Department-owned right-of-way for compliance with the Department's design standards; and

WHEREAS, the Department requires the Construction Coordinator for projects involving improvements within the Department's right-of-way to enter into a standard construction agreement with the Department requiring the project to comply with the Department's standard specifications and plans; federal, state, local, administrative, regulatory, safety and environmental laws, codes, rules, regulations, policies, and procedures; and requiring the Construction Coordinator to provide a payment and performance bond, to indemnify the Department; and to otherwise comply with the terms of the construction agreement ("Construction Agreement"); and

WHEREAS, the Department requires the Construction Coordinator to enter into the Construction Agreement prior to performing construction on the Department's right-of-way; and

WHEREAS, the Pasco County Board of County Commissioners approves projects to make improvements within the Department's right-of-way, which projects require the execution of the Construction Agreement; and

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Pasco County, in regular session, duly assembled, as follows:

1. The recitals set forth above are incorporated herein by reference and made part of this Resolution.

2. The Board of County Commissioners delegates full authority to the County Administrator and designees of the County Administrator, to act as the Construction Coordinator for Pasco County for the Construction Agreement for projects involving improvements within the Department's rights-of-way.

ADOPTED by the Board of County Commissioners of Pasco County, Florida, with a quorum present and voting this _____ day of _____, 2026.

(SEAL)

ATTEST:

BOARD OF COUNTY COMMISSIONERS
OF PASCO COUNTY, FLORIDA

_____
NIKKI ALVAREZ-SOWLES, ESQ.
CLERK & COMPTROLLER

_____
JACK MARIANO, CHAIRMAN

Construction Agreement No.: _____

THIS CONSTRUCTION AGREEMENT ("Agreement") is made and entered into by and between the State of Florida, Department of Transportation, 16411 Spring Hill Drive, Brooksville, FL 34604 (hereinafter referred to as the "DEPARTMENT") and Pasco County _____ (hereinafter referred to as the "Construction Coordinator").

WITNESSETH:

WHEREAS, the DEPARTMENT is authorized and required by Section 334.044, Florida Statutes, to coordinate the planning, development, and operation of the State Highway System; and

WHEREAS, pursuant to Section 20.23(6), Florida Statutes, the DEPARTMENT is authorized to contract with local governmental entities and with the private sector under specific circumstances; and

WHEREAS, Section 339.282, Florida Statutes, provides incentives to private sector entities that finance, construct, and improve public transportation facilities; and

WHEREAS, pursuant to Section 334.175(2), Florida Statutes, the DEPARTMENT is required to review the Project's design plans for compliance with Department design standards; and

WHEREAS, the Construction Coordinator proposes to construct certain improvements to SR 54 Section 12 Subsection _____ from Begin MP 5.930 to End MP 5.940 Local Name NA located in Pasco County (hereinafter referred to as the "Project"); and

WHEREAS, the parties desire to enter into this Agreement for the Construction Coordinator to make improvements within the DEPARTMENT'S right of way to construct the Project, which will become the property of the DEPARTMENT upon acceptance of the work.

NOW, THEREFORE, based on the premises above, and in consideration of the mutual covenants contained herein, the parties hereby agree that the construction of the Project shall proceed in accordance with the following terms and conditions:

1. The recitals set forth above are specifically incorporated herein by reference and made a part of this Agreement. The Construction Coordinator is authorized, subject to the conditions set forth herein, to enter the DEPARTMENT'S right of way to perform all activities necessary for the construction of **Player Dr sidewalk to existing SR 54 sidewalk**. **See attached Exhibit A Scope of Services/Special Provisions.**
2. The Project shall be designed and constructed in accordance with the latest edition of the Florida Department of Transportation (FDOT) Standard Specifications for Road and Bridge Construction ("FDOT Standard Specifications"), FDOT Standard Plans and FHWA Manual on Uniform Traffic Control Devices ("MUTCD"). The following guidelines shall apply as deemed appropriate by the DEPARTMENT: the FDOT Structures Design Manual, AASHTO Guide Specifications for the Design of Pedestrian Bridges, AASHTO LRFD Bridge Design Specifications, the FDOT Design Manual, Manual of Uniform Minimum Standards for Design, Construction and Maintenance for Streets and Highways (commonly known as the "Florida Greenbook") and the FDOT Traffic Engineering Manual. The Construction Coordinator will be required to submit any construction plans required by the DEPARTMENT for review and written approval prior to any work being commenced. Should any changes to the plans be required during construction of the Project, the Construction Coordinator shall be required to notify the DEPARTMENT of the changes and receive written approval from the DEPARTMENT prior to the changes being constructed. The Construction Coordinator shall maintain the area of the Project at all times and coordinate any work needs of the DEPARTMENT during construction of the Project.
3. In its sole discretion, the DEPARTMENT may reject designs which do not meet DEPARTMENT standards. The DEPARTMENT may also, in its sole discretion, allocate DEPARTMENT-managed resources, including structures engineers and/or project managers, to projects involving complex design structures and other design structures not commonly used by the DEPARTMENT. In addition, all complex bridges and bridge types not commonly used by the DEPARTMENT constructed via this Agreement will be monitored and inspected by DEPARTMENT personnel.
4. The Construction Coordinator shall provide the DEPARTMENT a minimum of 2 business days' notice before beginning construction within DEPARTMENT right of way. The Construction Coordinator shall notify the DEPARTMENT should construction be suspended for more than 5 working days.
5. Pursuant to Section 7-13 of the FDOT Standard Specifications, the Construction Coordinator is required to possess a general liability insurance naming the DEPARTMENT as an additional insured and insuring the DEPARTMENT and the Construction Coordinator against any and all claims for injury or damage to persons and property, and for the loss of life or property that may occur (directly or indirectly) by reason of the Construction Coordinator accessing DEPARTMENT right of way and the Construction Coordinator's performance of the Project. Such amount shall be carried in a minimum amount of not less than _____ and 00/100 Dollars ($ _____) for bodily injury or death to any one person or any number of persons in any one occurrence, and not less than _____ and 00/100 Dollars ($ _____) for property damage, or a combined coverage of not less than _____ and 00/100 Dollars ($ _____). Additionally, the Construction Coordinator shall supply the DEPARTMENT with a payment and performance bond in the amount of the estimated cost of construction, provided by a surety authorized to do business in the State of Florida, payable to the DEPARTMENT. The bond and insurance shall remain in effect until completion of construction and acceptance by the DEPARTMENT. Prior to commencement of the Project and on such other occasions as the DEPARTMENT may reasonably require, the Construction Coordinator shall provide

the DEPARTMENT with certificates documenting that the required insurance coverage is in place and effective. If the Construction Coordinator is a governmental entity, they will be exempt from these requirements.

6. The Construction Coordinator shall be responsible for monitoring construction operations and Temporary Traffic Control (TTC) throughout the course of the Project in accordance with the latest edition of the FDOT Standard Specifications, Section 102, Maintenance of Traffic, and FDOT Standard Plans, 102-600 series. The Construction Coordinator is responsible for the development of a TTC Plan and making any changes to that plan as necessary. Any TTC plan developed by the Construction Coordinator that deviates from the FDOT Standard Plans must be signed and sealed by a professional engineer. TTC plans will require written approval by the DEPARTMENT prior to implementation.
7. The Construction Coordinator shall be responsible for locating all existing utilities, both aerial and underground, and for ensuring that all utility locations are accurately documented on the construction plans. All utility conflicts shall be fully resolved directly with the applicable utility.
8. The Construction Coordinator will be responsible for obtaining all permits that may be required by other agencies or local governmental entities.
9. The Construction Coordinator shall take emergency steps to close any public road whenever there is a risk to life, health and safety of the travelling public. The safety of the travelling public is the DEPARTMENT'S first priority. If lane or road closures are required to ensure the life, health, and safety of the travelling public, the Construction Coordinator must notify the District Maintenance Engineer and District Traffic Operations Engineer immediately once the travelling public are not at imminent risk. The DEPARTMENT expects professional engineering judgement be applied in all aspects of locally or privately delivered projects. Defect management and supervision of Project bridge structures components must be proactively managed, monitored, and inspected by DEPARTMENT prequalified structures engineer(s). The District Maintenance Engineer must be notified immediately of defect monitoring that occurs in the Project construction, whether or not the defects are considered an imminent risk to life, health, or safety of the travelling public. When defects, including but not limited to, structural cracks, are initially detected during bridge construction, the engineer of record, construction engineering inspector, design-build firm, or local agency that owns or is responsible for the bridge construction has the authority to immediately close the bridge to construction personnel and close the road underneath. The Construction Coordinator shall also ensure compliance with the DEPARTMENT Construction Project Administration Manual, Section 9.1.8 regarding actions for maintenance of traffic and safety concerns.
10. It is hereby agreed by the parties that this Agreement creates a permissive use only and all improvements resulting from this agreement shall become the property of the DEPARTMENT. Neither the granting of the permission to use the DEPARTMENT right of way nor the placing of facilities upon the DEPARTMENT property shall operate to create or vest any property right to or in the Construction Coordinator, except as may otherwise be provided in separate agreements. The Construction Coordinator shall not acquire any right, title, interest, or estate in DEPARTMENT right of way, of any nature or kind whatsoever, by virtue of the execution, operation, effect, or performance of this Agreement including, but not limited to, the Construction Coordinator's use, occupancy, or possession of DEPARTMENT right of way. The parties agree that this Agreement does not, and shall not be construed to, grant credit for any future transportation concurrency requirements pursuant to Chapter 163, Florida Statutes.
11. The Construction Coordinator shall perform all required testing associated with the design and construction of the Project. Testing results shall be made available to the DEPARTMENT upon request. The DEPARTMENT shall have the right to perform its own independent testing during the course of the Project.
12. The Construction Coordinator shall exercise the rights granted herein and shall otherwise perform this Agreement in a good and workmanlike manner, with reasonable care, in accordance with the terms and provisions of this Agreement and all applicable federal, state, local, administrative, regulatory, safety and environmental laws, codes, rules, regulations, policies, procedures, guidelines, standards, and permits, as the same may be constituted and amended from time to time, including, but not limited to, those of the DEPARTMENT, applicable Water Management District, Florida Department of Environmental Protection, Environmental Protection Agency, the Army Corps of Engineers, the United States Coast Guard, and local governmental entities.
13. The Construction Coordinator is responsible for the provision of Construction Engineering Inspection (CEI) services. The DEPARTMENT reserves the right to require the Construction Coordinator to hire a DEPARTMENT pre-qualified consultant firm that includes one individual that has completed the Advanced Maintenance of Traffic Level Training. Notwithstanding any provision of law to the contrary, design services and CEI services may not be performed by the same entity. Administration of the CEI staff shall be under the responsible charge of a State of Florida Licensed Professional Engineer who shall provide the certification that all design and construction for the Project meets the minimum construction standards established by DEPARTMENT. The DEPARTMENT shall have the right to approve the CEI firm. The DEPARTMENT shall have the right, but not the obligation, to perform independent assurance testing during the course of construction of the Project. Subject to the written approval of the DEPARTMENT, a local government agency may choose to satisfy the requirements set forth in this paragraph by either hiring a DEPARTMENT prequalified consultant firm or utilizing local government staff that meet the requirements of this paragraph, or a combination thereof.
14. If the DEPARTMENT determines a condition exists which threatens the public's safety, the DEPARTMENT may, at its discretion, cause construction operations to cease and immediately have any potential hazards removed from its right of way at the sole cost, expense, and effort of the Construction Coordinator. The Construction Coordinator shall bear all construction delay costs incurred by the DEPARTMENT.
15. All work and construction shall be completed within **365** days of the date of the last signature affixed to this agreement. If construction is not completed within this time, the DEPARTMENT may make a claim on the bond. The DEPARTMENT may terminate

this Agreement at any time, with or without cause and without DEPARTMENT liability to the Construction Coordinator, by providing sixty (60) days' prior written notice of termination to the Construction Coordinator.

16. The Construction Coordinator shall be responsible for maintaining and restoring all features that might require relocation within the DEPARTMENT right of way.
17. The Construction Coordinator will be responsible for clean up or restoration required to correct any environmental or health hazards that may result from construction operations.
18. Upon completion of construction, the Construction Coordinator will be required to submit to the DEPARTMENT final as-built plans and an engineering certification that construction was completed in accordance with the Plans. Prior to the termination of this Agreement, the Construction Coordinator shall remove its presence, including, but not limited to, all of the Construction Coordinator's property, machinery, and equipment from DEPARTMENT right of way and shall restore those portions of DEPARTMENT right of way disturbed or otherwise altered by the Project to substantially the same condition that existed immediately prior to the commencement of the Project.
19. If the DEPARTMENT determines that the Project is not completed in accordance with the Provisions of this Agreement, the DEPARTMENT shall deliver written notification of such to the Construction Coordinator. The Construction Coordinator shall have thirty (30) days from the date of receipt of the DEPARTMENT'S written notice, or such other time as the Construction Coordinator and the DEPARTMENT mutually agree to in writing, to complete the Project and provide the DEPARTMENT with written notice of the same (the "Notice of Completion"). If the Construction Coordinator fails to timely deliver the Notice of Completion, or if it is determined that the Project is not properly completed after receipt of the Notice of Completion, the DEPARTMENT, within its discretion may: 1) provide the Construction Coordinator with written authorization granting such additional time as the DEPARTMENT deems appropriate to correct the deficiency(ies); or 2) file a claim against the payment and performance bond with the Surety for correction of the deficiency(ies) and completion of the contract; or 3) correct the deficiency(ies) at the Construction Coordinator's sole cost and expense, without DEPARTMENT liability to the Construction Coordinator for any resulting loss or damage to property, including, but not limited to, machinery and equipment. If the DEPARTMENT elects to correct the deficiency(ies), the DEPARTMENT shall provide the Construction Coordinator with an invoice for the costs incurred by the DEPARTMENT and the Construction Coordinator shall pay the invoice within thirty (30) days of the date of the invoice. If no payment is received within thirty (30) days from date of invoice submittal, the DEPARTMENT will file a claim against the bond for all expenses incurred, including services incidental to collecting losses.
20. Nothing in this Agreement shall be deemed or otherwise interpreted as waiving the DEPARTMENT'S sovereign immunity protections, or as increasing the limits of liability as set forth in Section 768.28, Florida Statutes. The DEPARTMENT'S liability for breach of this Agreement is limited in amount and shall not exceed the limitations of liability for tort actions as set forth in Section 768.28(5), Florida Statutes.
21. All formal notices, proposed changes and determinations between the parties hereto and those required by this Agreement, including, but not limited to, changes to the notification addresses set forth below, shall be in writing and shall be sufficient if mailed by regular United States mail, postage prepaid, to the parties at the contact information listed below. Electronic means of communication shall be sufficient if emailed to the parties at the contact information listed below.
22. The Construction Coordinator shall not cause any liens or encumbrances to attach to any portion of DEPARTMENT right of way.
23. This Agreement shall be governed by the laws of the State of Florida in terms of interpretation and performance. Venue for any and all actions arising out of or in any way related to the interpretation, validity, performance or breach of this Agreement shall lie exclusively in a state court of appropriate jurisdiction in Leon County, Florida.
24. The Construction Coordinator may not assign, pledge or transfer any of the rights, duties and obligations provided in this Agreement without the prior written consent of the DEPARTMENT'S District Secretary or his/her designee. The DEPARTMENT has the sole discretion and authority to grant or deny proposed assignments, with or without cause. Nothing herein shall prevent the Construction Coordinator from delegating its duties hereunder, but such delegation shall not release the Construction Coordinator from its obligation to perform this Agreement.
25. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. Nothing in this Agreement is intended to confer any rights, privileges, benefits, obligations, or remedies upon any other person or entity except as expressly provided for herein.
26. This instrument, together with the attached exhibits and documents made part hereof by reference, contain the entire agreement of the parties and no representations or promises have been made except those that are specifically set out in this Agreement. All prior and contemporaneous conversations, negotiations, possible and alleged agreements and representations, covenants, and warranties with respect to the subject matter of this Agreement, and any part hereof, are waived, merged herein and superseded hereby.
27. By their signature below, the parties hereby acknowledge the receipt, adequacy and sufficiency of consideration provided in this Agreement and forever waive the right to object to or otherwise challenge the same.
28. The failure of either party to insist on one or more occasions on the strict performance or compliance with any term or provision of this Agreement shall not be deemed a waiver or relinquishment in the future of the enforcement thereof, and it shall continue in full force and effect unless waived or relinquished in writing by the party seeking to enforce the same.
29. No term or provision of this Agreement shall be interpreted for or against any party because that party or that party's legal representative drafted the provision.
30. If any section, paragraph, clause or provision of this Agreement is adjudged by a court, agency or authority of competent jurisdiction to be invalid, illegal or otherwise unenforceable, all remaining parts of this Agreement shall remain in full force and effect and the parties shall be bound thereby so long as principal purposes of this Agreement remain enforceable.
31. A modification or waiver of any of the provisions of this Agreement shall be effective only if made in writing and executed with the same formality as this Agreement. Modifications to the Agreement shall be included in Appendix B.

32. The Construction Coordinator agrees to promptly indemnify, defend, save and hold harmless the DEPARTMENT and all of its officers, agents and employees from and pay all demands, claims, judgments, liabilities, damages, fines, fees, taxes, assessments, penalties, costs, expenses, attorneys' fees and suits of any nature or kind whatsoever caused by, or arising out of or related to the performance or breach of this Agreement by the Construction Coordinator, including, without limitation, performance of the Project within the DEPARTMENT'S right of way. The term "liabilities" shall specifically include, without limitation, any act, action, neglect or omission by the Construction Coordinator, its officers, agents, employees or representatives in any way pertaining to this Agreement, whether direct or indirect, except that neither the Construction Coordinator nor any of its officers, agents, employees or representatives will be liable under this provision for damages arising out of injury or damages directly caused or resulting from the sole negligence, intentional or wrongful acts of the DEPARTMENT or any of its officers, agents or employees. The Construction Coordinator shall notify the DEPARTMENT in writing immediately upon becoming aware of such liabilities. The Construction Coordinator's inability to evaluate liability, or its evaluation of liability, shall not excuse performance of the provisions of this paragraph. The indemnities assumed by the Construction Coordinator shall survive termination of this Agreement. The insurance coverage and limits required in this Agreement may or may not be adequate to protect the DEPARTMENT and such insurance coverage shall not be deemed a limitation on the Construction Coordinator's liability under the indemnities granted to the DEPARTMENT in this Agreement.
33. The Construction Coordinator shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Construction Coordinator during the term of the contract; and
34. The Construction Coordinator shall expressly require any subcontractors performing work or providing services pursuant to the state contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the contract term.
35. The Construction Coordinator shall allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the Construction Coordinator in conjunction with this Agreement. Specifically, if the Construction Coordinator is acting on behalf of a public agency the Construction Coordinator shall:
    A. Keep and maintain public records that ordinarily and necessarily would be required by the DEPARTMENT in order to perform the services being performed by the Construction Coordinator.
    B. Provide the public with access to public records on the same terms and conditions that the DEPARTMENT would provide the records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
    C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.
    D. Meet all requirements for retaining public records and transfer, at no cost, to the DEPARTMENT all public records in possession of the Construction Coordinator upon termination of the contract and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the DEPARTMENT in a format that is compatible with the information technology systems of the DEPARTMENT. Failure by the Construction Coordinator to grant such public access shall be grounds for immediate unilateral cancellation of this Agreement by the DEPARTMENT. The Construction Coordinator shall promptly provide the DEPARTMENT with a copy of any request to inspect or copy public records in possession of the Construction Coordinator and shall promptly provide the DEPARTMENT a copy of the Construction Coordinator's response to each such request.

IF THE CONSTRUCTION COORDINATOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSTRUCTION COORDINATOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 5 **FILE NO.:** UTD26-0081 **DATE:** 6/16/2026

SUBJECT: Task Order No. 1-26 – Freese and Nichols, Inc. – Southeast Wastewater Treatment Plant Reclaimed Water Ground Storage Tank and Main Upsizing (PCU 26-005.00) – $499,830.00

REFERENCES: RSQ-BW-25-075

AGENDA SECTION: Consent Agenda

THRU: Branford Adumuah, Assistant County Administrator

FROM: Adolfo Gonzalez, Utilities Engineering and Contract Management Director

RECOMMENDED BOARD ACTION:

Approve Task Order No. 1-26 (Task Order) with Freese and Nichols, Inc. (FNI) for the Southeast Wastewater Treatment Plant (SE WWTP) Reclaimed Water Ground Storage Tank (RCW GST) and Main Upsizing (Project), in the Not to Exceed (NTE) amount of $499,830.00 for Fiscal Year (FY) 2026. Authorize the Chairman to execute the two originals of the Task Order provided, and direct Board Records to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

Pasco County owns and maintains the SE WWTP, which produces reclaimed water (RCW) suitable for public irrigation. Currently, the SE WWTP utilizes a single RCW ground storage tank to manage the difference between continuous water production and primarily nighttime irrigation usage. As development continues throughout the County, both RCW production and irrigation demand are expected to increase, requiring additional storage capacity. The County has determined that an additional 5 million gallons of storage will be necessary to meet future needs. To support this expansion, the diameter of the reclaimed water transmission main will be increased to allow greater flow from the SE WWTP. This will involve installing approximately 1,400 linear feet of 24-inch diameter reclaimed water main within the public right-of-way along Handcart Road.

On January 21, 2026, the County Administrator, through a delegation of authority from the Board of County Commissioners (BCC), executed the Continuing Professional Services Agreement (RSQ-BW-25-075) with FNI for miscellaneous professional services.

The proposed Task Order with FNI includes engineering design and bid phase services necessary to complete the Project. Construction phase services are excluded from this Task Order and will be addressed separately under a future Task Order. The table below shows the anticipated project schedule and Task Order No. 1-26 budget.

Estimated Schedule and Budget:

Project Activity	Projected Schedule		Estimated budget	
	Start	Finish	Fiscal Year	Amount

Detailed Design Services	May 2026	May 2027	FY 2026	$496,633.00
Bid Phase	June 2027	November 2027	FW 2027	$3,197.00
Total				$499,830.00

Estimated Construction Schedule and Budget:

Project Activity	Projected Schedule		Estimated Budget	
	Start	Finish	Fiscal Year	Amount
Construction Engineering & Inspection Services	March 2027	February 2029	FY 2027 - FY 2028	$500,000.00
Construction Phase	November 2027	November 2028	FY 2027 - FY 2028	$6,872,586.00
Total				$7,372,586.00

The term of this Task Order shall be from its approval date, until one of the following occurs: the upper limit of this Task Order, including any Change Orders, is paid in full; the County terminates this Task Order; or November 30, 2027, whichever is earliest.

The Utilities Engineering and Contract Management Department, with concurrence from the Purchasing Department, requests approval of Task Order No. 1-26 with FNI in the NTE amount of $499,830.00 for FY 2026.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding in the amount of $499,830.00 is budgeted and available for FY 2026 in the Water & Wastewater Capital Fund, Water Connection Fee, Project Number 26018.

DISTRIBUTION:
Board Records to distribute as set forth below:
1. Retain One Original
2. Mail One Original to:
   Mr. Tony Pevec
   Freese and Nichols, Inc.
   1000 N Ashley Dr #200
   Tampa, FL 33602

Task Order No. 1-26
Southeast Wastewater Treatment Plant Reclaimed Water Ground Storage Tank & Main Upsizing
Pcu-26-005.00

This Task Order is entered into by and between Pasco County, Florida (the "County"), a political subdivision of the State of Florida, acting by and through its Board of County Commissioners, and Freese and Nichols, Inc. (FNI), a corporation authorized to do business in the State of Florida pursuant to the terms of the Continuing Professional Service Agreement for RSQ-BW-25-075 dated January 21, 2026, which is incorporated herein by reference.

WITNESSETH

WHEREAS, the County is experiencing additional demand for reclaimed water; and

WHEREAS, this demand requires both additional storage capacity at the Southeast Wastewater Treatment Plant (SE WWTP) and a larger diameter transmission main along Handcart Road. The County is seeking professional services for the design of a 5.0 million gallon (MG) ground storage tank and approximately 1,400 linear feet of 24" diameter transmission main.

NOW, THEREFORE, IN CONSIDERATION of the mutual covenants contained herein, the parties agree as follows:

1. **RECITALS**

   The foregoing recitals are true and correct and are incorporated herein by reference.

2. **SCOPE OF SERVICES**

   The Scope of Services to be rendered by FNI is described in Exhibit "A" of this Task Order, which is attached hereto and incorporated herein by reference.

3. **TERM**

   Work shall commence upon issuance of a separate written Notice to Proceed ("NTP"), which shall become part of this Task Order. The term of this Task Order shall be from the date this Task Order is approved by the County to the time at which: the upper limit of this Task Order, inclusive of any Change Orders, is paid in full; the project is terminated; or November 30, 2027; whichever is earliest.

4. **COMPENSATION AND METHOD OF PAYMENT**

   FNI will be paid for these services in accordance with Exhibit "B," the Summary of Fees; Exhibit "B" is attached hereto and incorporated herein by reference. The maximum compensation amount under this Task Order is four-hundred ninety-nine thousand eight hundred thirty and 00/100 Dollars ($499,830.00).

5. **CONFLICT**

   To the extent there is a conflict between the terms of the Agreement and this Task Order, the terms of the Agreement shall prevail.

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, the parties hereto, by their duly authorized representatives, have executed this Task Order No. 1-26, effective the last date listed below.

FOR: FREESE AND NICHOLS, INC.

By: _____
Tony Peyec, PE, Principal/Vice President

Exhibit A- Scope of Work

PROJECT UNDERSTANDING

Pasco County owns and maintains the Southeast Wastewater Treatment Plant (SE WWTP) which produces public access quality reclaimed water (RCW). Currently the SE WWTP uses a single RCW Ground Storage Tank (GST). The SE WWTP produces RCW all day long while RCW irrigation uses are primarily during nighttime hours. The GST provides storage to allow for the differences in production rates and usage rates during the day.

As development continues in the County, both RCW production rates as well as irrigation demands will continue to increase, requiring additional storage capacity. The County has determined that an additional 5 MG will be required.

Additionally, increasing the reclaimed main transmission main diameter to allow additional flow to be pumped out of the SE WWTP. To accomplish this approximately 1,400 linear feet of 24" diameter reclaimed main will be installed in the public right of way on Handcart Road.

SCOPE OF SERVICES

FNI shall render the following professional services in connection with the development of the task order. The task order is summarized by the following tasks.

- Task 100 – Project Management
- Task 200 – Survey, SUE and Geotechnical Investigation
- Task 300 – 5.0 MG Storage Tank Design
- Task 400 – Reclaimed Water Main Design
- Task 500 – Bid Phase Services

TASK 100 | PROJECT MANAGEMENT, DATA COLLECTION, AND GAP ANALYSIS

100.1. Project Kickoff Meeting

FNI will conduct a project kickoff meeting with the County to review project scope, schedule, and critical milestones. This meeting will be in-person with a virtual option. FNI will provide the County with a data request memorandum identifying data needs.

100.2. Project Communication

Throughout the project, monthly status reports will be submitted that summarize the progress and document upcoming tasks. The monthly status updates will outline any upcoming key decisions which require input from or discussion with the County staff. Progress meetings will occur monthly.

100.3. Data Collection and Review

FNI will coordinate with County staff on obtaining available data required for the project, including as-built plans, pressure data, pump curves, pump operation set points. In absence of data, FNI will document assumptions as required.

TASK 200 | Survey, SUE and Geotechnical Investigations

200.1 Survey

The SE WWTP is being expanded and has extensive survey information. It is assumed that this information will be sufficient for the purposes of the proposed 5 MG GST. No survey is included in this scope of work related to the GST design; the design will rely on record drawings from the 3.0 MGD to 6.0 MGD SE WWTF Expansion project.

Topographical Survey

Prepare a certified Topographic Survey in accordance with the Florida Statutes governing surveying and mapping for the full right-of-way of Handcart Road, approximately 1,400 linear feet.

The Topographic Survey will include surface elevations on a 50-foot grid, swales, ditches, top of bank, toe of slope, grade breaks and water elevations, if any, landscape limits, improvements with visible evidence above ground and utilities, invert elevations, pipe sizes and pipe material if obtainable. Benchmarks will be located along the route. The vertical data provided will be related to the North American Vertical Datum 1988 Adjustment (NAVD 1988). The horizontal data provided will be related to the North American Datum 1983/1990 adjustment or higher, state plane coordinates, Florida Zone West (902).

SUE Investigation

Provide SUE Designating (Quality Level-B) and SUE Locating/Test Holes (Quality Level-A) as requested along a 1400 LF portion of the project corridor. SUE Designating (Quality Level-B) will be completed within the apparent right-of-way (R/W) of Handcart Rd. A maximum of (6) locates/test holes will be performed on existing utilities at locations as directed by the engineer of record (EOR).

The SUE data and converted to CADD files for the design team's use. All work shall be performed in accordance with the minimum requirements of Chapter 5J-17 of the Florida Administrative Code, pursuant to Section 472.027, Florida Statutes.

Electronic deliverable in AutoCAD or MicroStation format of the following files:
- Drawing file representing the results of utility investigation
- SUE Quality Level A Test Hole Summary Report

200.2 Geotechnical Investigations

The objective of our study will be to identify existing soils and groundwater conditions at the proposed improvement locations in order to develop geotechnical recommendations for the project. Geotechnical services are proposed as follows:

1. Review published soils and topographic information. This published information will be obtained from the appropriate Florida Quadrangle Map published by the United States Geological Survey (USGS) and the Soil Survey for Pasco County, FL published by the United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS).
2. Conduct a visual reconnaissance of the project site and coordinate utility clearance.
3. Tierra intends to perform field work as follows:
    a. Ground Storage Tank - Perform three (3) Standard Penetration Test (SPT) borings to a depth on the order of 80 feet below existing grades.
    b. Pipeline Alignment - Perform five (5) hand auger borings to a depth of 7 feet below existing grades or to a depth at which the borehole collapses due to groundwater or refusal conditions are encountered.
4. Measure the groundwater table levels encountered in the field and estimate the SHGWT at select locations.
5. Visually classify the samples in the laboratory using the Unified Soil Classification System (USCS). Identify soil conditions at the boring locations. Perform laboratory testing on representative samples.
6. Determine feasibility of utilizing shallow and/or deep foundation systems for support of the new ground storage tank.

TASK 300 | 5.0 MG GST Design

Task 300.1 – Data Gathering

The County will supply the following information required for hydraulic calculations:

- Record Drawings for the RW high service pump station.
- Record Drawings for the Existing GST including operating levels in the tank.
- Pump information including Net Positive Suction Head Requirements.
- Peak flow rate.

The new proposed 5.0 GST will connect to the existing RW pump station. FNI will conduct hydraulic calculations to confirm the proposed pipe diameter from the tank to the connection point.

Task 300.2 Design and Calculations

30% Design

The 30% design will develop a technical memorandum detailing the results of:

- Calculations to propose a pipe diameter from the GST to the RW high service pump station.
- Preliminary pipe routing will be shown in figures.
- Preliminary site plan showing tank location.
- Design criteria for a Prestressed Concrete GST
- Standards to be used in design
- Draft Table of Contents for the Technical Specification which will be provided in final design.
- Electrical and Instrumentation requirements
    - It is assumed that the GST will have a level monitor matching the type of level measuring instrument in the existing GST.
    - It is assumed that the SCADA system will appropriately receive react to the level instrumentation. No new SCADA integration is assumed.
    - It is assumed that there are no other new site lighting or other electrical needs.

The County will provide review comments on the 30% Design Technical Memorandum. These comments and responses will be included in a comment log. Specific comments to be incorporated will be included in the 75% design submittal.

75% Design

The 75% design will develop drawings and technical specifications with major equipment detailed and most standard details that include:

- Drawing set:
    - Existing site plan
    - Site Grading Plan.
    - Yard Piping Plan and Profile
    - Civil Details
    - Ground Storage Tank Plan
    - Ground Storage Tank Sections
    - Ground Storage Tank Details
    - Electrical Site Plan
    - Control Plans
    - Interconnection Diagram
    - Grounding/Lightning Protection Plan
    - Electrical Standard Details
    - Piping and Instrumentation Diagram (P&ID)
- Technical Specifications
    - 75% Draft technical specifications.

- Permit Submittals:
    - The 75% Drawing Set will be used to apply for FDEP Permits:
        - Minor Modification to the Existing Plant Operating Permit
        - Current State of Florida rules require that development provide adequate stormwater infrastructure to prevent stormwater run off from exceeding the pre-improvement conditions.
        - The State of Florida enacted a rule that any project not completed by December 2025 must also incorporate treatment components for stormwater. It is likely that this would impact stormwater for the entire SE WWTP not just from the GST project.
    - ERP Modification for Stormwater

The County will provide review comments on the 75% Design Drawings and Technical Specifications. These comments and responses will be included in a comment log. Specific comments to be incorporated will be included in the 100% design submittal.

100% Design and Permit Submittal
The 100% will be a final set drafted for County comment. Any comments received from the County will be incorporated into a final sign and sealed Issued for Bid Set.

TASK 400 | Reclaimed Water Main Design
FNI will provide professional services to develop preliminary design, 30%, 75%, 100% and Issued For Bid milestones.

Task 400.1 – Preliminary Design
The preliminary design drawings will show the results of the proposed route will be laid out on the survey base in plan view. No profile views will be developed at this stage.

Task 400.1 Deliverables:
- 30% Drawings in PDF form

Task 400.2 – 75% Design Phase
Prepare drawings, technical specifications for the improvements to be constructed. Furnish the County one (1) electronic copy of the drawings and specifications marked "Preliminary" for approval by the County.
FNI will meet with the County to present the Plans and Specifications and to receive review comments. Review documents will include plan and profile sheets, pipeline appurtenances, and typical details. FNI will document comments received from the County and incorporated appropriately into the 100% design.

Task 400.3 – 100% Design Phase
Furnish the County one (1) electronic copy of the drawings and specifications marked "Final" for approval by the County.
FNI will meet with the County to present the Plans and Specifications and to receive review comments. Review documents will include all final plan and specifications. FNI will address comments appropriately in the Issued for Bid Documents.

Task 400 Deliverables:
- Technical Specifications
- OPCC at 30%, 75% and 100% Submittals
- 75% Plans and Specifications
- 100% Plans and Specifications
- Issued for Bid Plans and Specifications

TASK 500 | Bid Phase Services
FNI will provide professional services during bidding phase. It is assumed for level of effort that a single bid package for the proposed 5.0 GST and the proposed 24" reclaimed water main.

FNI will assist the County in answering questions from potential bidders. FNI will attend the pre-bid meeting in person.

ADDITIONAL SERVICES
Any services performed by FNI that are not included in the Basic Services described above are considered Additional Services. Additional Services will only be performed if requested and authorized by the County as set forth in the Continuing Professional Service Agreement and as provided for herein. Potential Additional Services may include, but not be limited to:

1. Providing services to investigate existing conditions or facilities, or to make measured drawings thereof, or to verify the accuracy of drawings or other information furnished by County.
2. Design, contract modifications, studies or analysis required to comply with local, State, Federal or other regulatory agencies that become effective after the date of this Task Order.
3. Preparing statements for invoicing or other documentation for billing other than for the standard invoice for services attached to this professional services agreement.
4. Designing a permanent backup generator.

RESPONSIBILITIES OF COUNTY
County shall perform the following in a timely manner so as not to delay the services of FNI:

- Designate in writing a person to act as County's representative with respect to the services to be rendered under this Task Order. Such person shall have contract authority to transmit instructions, receive information, interpret and define County's policies and decisions with respect to FNI's services for the Project.
- Assist FNI by placing at FNI's disposal all available information pertinent to the Project including previous reports and any other data relative to design or construction of the Project.
- Arrange for access to and make all provisions for FNI to enter upon public and private property as required for FNI to perform services under this Task Order.
- Examine all studies, reports, sketches, drawings, specifications, proposals, and other documents presented by FNI, provide review comments, and render in writing decisions pertaining thereto within a reasonable time.
- Provide anticipated flow demands.
- Furnish, or direct FNI to provide, Additional Services as stipulated in this scope of work or other services as required.

TIME OF COMPLETION

Table 1: Schedule

Task	Calendar Days
Task 100 – Project Management	Within 200 days of NTP
Task 200 – Survey and Geotech	Within 90 days of NTP
Task 300 – 5.0 MG GST Design	Within 300 days of NTP
Task 400 – RW Main Design	
Task 400.1- Preliminary Design	Within 60 Days of Task 200
Task 400.1 - 75% Design	Within 90 days of Task 400.1
Task 400.2 - 100% Design	Within 90 days of receiving County Comments on Task 400.1
Task 400.3 - Issued for Bid Drawings and Specifications	Within 30 days of County comments on Draft 100%
Task 500 – Bid Phase Services	150 days from Issued for Bid

Exhibit B- Summary of Fees

COMPENSATION

For performance of the services described in this Scope of Services, the County will compensate FNI in the lump sum amount of **$499,830** for Tasks 100 through 500 as shown in the table below. FNI will be paid for services performed per task as set forth herein, covering the work-in-progress expressed as a percentage of the total cost of the service and work required for each task involved. The total contract amount is **$499,830.00**.

Table 2: Summary of Costs

Task	Cost
Task 100 – Project Management	27,938
Task 200 – Survey and Geotechnical Investigation	54,389
Task 300 – 5.0 GST Design	248,196
Task 400 – Reclaimed Water Main Design	166,110
Task 500 – Bid Phase Services	3,197
Owner's Allowance	0
Lump Sum Total:	**$499,830**

INTEROFFICE MEMORANDUM

TO: Michael J. Carballa, P.E., BCEE, County Administrator

SUBJECT: Approval of Professional Service Agreements for RSQ-BW-25-075

THRU: Erik K. Breitenbach, P.E., CEM Assistant County Administrator (Internal Services)

FROM: Carrie C. Roberts, Purchasing Director

On November 12, 2025, the Board of County Commissioners (BCC) authorized the County Administrator to shortlist, negotiate and execute for RSQ-BW-25-075 Pasco County Utilities Continuing Professional Services (PU26-0002). There are a total of 25 agreements, each requiring the Clerk of Court's attestation, for services related to one or more of the following categories:

Category 1 - Water, Wastewater, and Reclaimed Water Treatment & Storage Systems
Category 2 - Water, Wastewater, and Reclaimed Water Conveyance Systems
Category 3 - Water, Wastewater, and Reclaimed Water Planning, Permitting, and Project Management
Category 4 – Utilities Enterprise Performance
Category 5 – SCADA, Electrical and Instrumentation/Controls
Category 6 – Survey
Category 7 - Geotechnical

Please sign two originals of each agreement and distribute them as set forth below.

APPROVED: Carrie C. Roberts

COMMISSION DISTRICT: All **FILE NO.:** PU26-0002 **DATE:** 11/12/2025

SUBJECT: Authorization to Shortlist and Delegate Negotiation and Execution of Agreements to County Administrator for RSQ-BW-25-075 – Pasco County Utilities Continuing Professional Services – Multiple Firms - No Funding Required

REFERENCES: Not Applicable

AGENDA SECTION: Consent Agenda

THRU: Erik Breitenbach, Assistant County Administrator

FROM: Carrie Roberts, Purchasing Director

RECOMMENDED BOARD ACTION:

Approve the Evaluation Committee's recommendation to shortlist the proposed firms for Category 1-Water, Wastewater, and Reclaimed Water Treatment & Storage Systems to 15 firms and delegate authority to the County Administrator under Section 2-110(c) of the Pasco County Purchasing Ordinance to negotiate and execute a contract with the top 10 ranked firms. Authorize negotiations with the next ranked firm, (if necessary) in the event an agreement cannot be reached with the top 10 ranked firms in order to secure a total of 10 agreements for RSQ-BW-25-075 for the Pasco County utilities Category 1-Water, Wastewater, and Reclaimed Water Treatment & Storage Systems continuing professional services.

Approve the Evaluation Committee's recommendation to shortlist the proposed firms for Category 2 - Water, Wastewater, and Reclaimed Water Conveyance Systems to 15 firms and delegate authority to the County Administrator under Section 2-110(c) of the Pasco County Purchasing Ordinance to negotiate and execute a contract with the top 12 ranked firms. Authorize negotiations with the next ranked firm, (if necessary) in the event an agreement cannot be reached with the top 12 ranked firms in order to secure a total of 12 agreements for RSQ-BW-25-075 for the Pasco County utilities Category 2 - Water, Wastewater, and Reclaimed Water Conveyance Systems continuing professional services.

Approve the Evaluation Committee's recommendation to shortlist the proposed firms for Category 3 - Water, Wastewater, and Reclaimed Water Planning, Permitting, and Project Management to 15 firms and delegate authority to the County Administrator under Section 2-110(c) of the Pasco County Purchasing Ordinance to negotiate and execute a contract with the top 10 ranked firms. Authorize negotiations with the next ranked firm, (if necessary) in the event an agreement cannot be reached with the top 10 ranked firms in order to secure a total of 10 agreements for RSQ-BW-25-075 for the Pasco County utilities Category 3 - Water, Wastewater, and Reclaimed Water Planning, Permitting, and Project Management.

Approve the Evaluation Committee's recommendation to shortlist the proposed firms for Category 4 – Utilities Enterprise Performance to 7 firms and delegate authority to the County Administrator under Section 2-110(c) of the Pasco County Purchasing Ordinance to negotiate and execute a contract with the top 5 ranked firms. Authorize negotiations with the next ranked firm, (if necessary) in the event an agreement cannot

be reached with the top 5 ranked firms in order to secure a total of 5 agreements for RSQ-BW-25-075 for the Pasco County utilities Category 4 – Utilities Enterprise Performance.

Approve the Evaluation Committee's recommendation to shortlist the proposed firms for Category 5 – SCADA, Electrical and Instrumentation/Controls to 6 firms and delegate authority to the County Administrator under Section 2-110(c) of the Pasco County Purchasing Ordinance to negotiate and execute a contract with the top 4 ranked firms. Authorize negotiations with the next ranked firm, (if necessary) in the event an agreement cannot be reached with the top 4 ranked firms in order to secure a total of 4 agreements for RSQ-BW-25-075 for the Pasco County utilities Category 5 – SCADA, Electrical and Instrumentation/Controls.

Approve the Evaluation Committee's recommendation to shortlist the proposed firms for Category 6 - Survey to 10 firms and delegate authority to the County Administrator under Section 2-110(c) of the Pasco County Purchasing Ordinance to negotiate and execute a contract with the top 8 ranked firms. Authorize negotiations with the next ranked firm, (if necessary) in the event an agreement cannot be reached with the top 8 ranked firms in order to secure a total of 8 agreements for RSQ-BW-25-075 for the Pasco County utilities Category 6 - Survey.

Approve the Evaluation Committee's recommendation to shortlist the proposed firms for Category 7 - Geotechnical to 6 firms and delegate authority to the County Administrator under Section 2-110(c) of the Pasco County Purchasing Ordinance to negotiate and execute a contract with the top 5 ranked firms. Authorize negotiations with the next ranked firm, (if necessary) in the event an agreement cannot be reached with the top 5 ranked firms in order to secure a total of 5 agreements for RSQ-BW-25-075 for the Pasco County utilities Category 7 - Geotechnical.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On May 28, 2025, at the request of the Utilities Department, the Purchasing Department solicited a Request for Statement of Qualifications (RSQ) for Pasco County Utilities Continuing Professional Services. The specifications were prepared by the Utilities Department. All provisions of the Purchasing Ordinance have been met.
On July 15, 2025, all bids were received, and publicly opened, with the names of the responding firms being read. The results are shown on the attached bid tabulation. Four thousand and ninety-two vendors received automatic email notices. Two hundred and forty-one manually searched for and downloaded the solicitation. Thirty-nine response(s) were received; six of which were from Pasco County. A summary of the download history for this solicitation is attached.

A five-member committee evaluated the subject responses. The Evaluation Committee members were Branford Adumuah, Public Infrastructure Assistant County Administrator; Adolfo Gonzalez, Utilities Engineering and Contract Management Director; Atef Hanna, Utilities Engineering Manager; Stewart Shook, Assistant Director Utilities Operation and Maintenance; Timothy Treshler, Senior Program Manager.

On August 22, 2025, at a properly noticed public meeting, the Evaluation Committee discussed and carefully considered the proposers' qualifications and experience as outlined in their proposals. The Evaluation Committee thereafter scored all responsive firms and found that the following firms are equally qualified for the specified professional engineering services listed below:

Category 1 - Water, Wastewater, and Reclaimed Water Treatment & Storage Systems
(Negotiating a total of 10 contracts):

Black & Veatch Corporation
Kimley-Horn and Associates, Inc.
Freese and Nichols, Inc.
Stroud Engineering Consultants, Inc.
Ardurra Group, Inc.
Stantec Consulting Services, Inc.
Arcadis U.S., Inc.
AECOM Technical Services
Mead and Hunt, Inc.
Dewberry Engineers, Inc.
Hazen and Sawyer, P.C.
McKim & Creed, Inc.
Tetra Tech, Inc.
Jacobs Engineering Group, Inc.
Jones Edmunds & Associates, Inc.

Category 2 - Water, Wastewater, and Reclaimed Water Conveyance Systems
(Negotiating a total of 12 contracts):

Black & Veatch Corporation
Stroud Engineering Consultants, Inc.
Kimley-Horn and Associates, Inc.
Jacobs Engineering Group, Inc.
Stantec Consulting Services, Inc.
Freese and Nichols, Inc.
Ayres Associates, Inc.
Hazen and Sawyer, P.C.
McKim & Creed, Inc.
Mead and Hunt, Inc.
Ardurra Group, Inc.
Dewberry Engineers, Inc.
AECOM Technical Services, Inc.
Veith Engineering and Business Solutions, LLC
Arcadis U.S., Inc.

Category 3 - Water, Wastewater, and Reclaimed Water Planning, Permitting, and Project Management
(Negotiating a total of 10 contracts):

Black & Veatch Corporation
Kimley-Horn and Associates, Inc.
Jacobs Engineering Group, Inc.
Stantec Consulting Services, Inc.
Freese and Nichols, Inc.
McKim & Creed, Inc.
Mead and Hunt, Inc.
Hazen and Sawyer, P.C.
Arcadis U.S., Inc.
Veith Engineering and Business Solutions, LLC
Jones Edmunds & Associates, Inc.
Dewberry Engineers, Inc.
Tetra Tech, Inc.
AECOM Technical Services
Florida Design Consultants, Inc.

Category 4 – Utilities Enterprise Performance
(Negotiating a total of 5 contracts):

Black & Veatch Corporation
Kimley-Horn and Associates, Inc.
Stantec Consulting Services, Inc.
Jacobs Engineering Group, Inc.
Veith Engineering and Business Solutions, LLC
Arcadis U.S., Inc.
Tetra Tech, Inc.

Category 5 – SCADA, Electrical and Instrumentation/Controls
(Negotiating a total of 4 contracts):

Black & Veatch Corporation
McKim & Creed, Inc.
Hazen and Sawyer, P.C.
Arcadis U.S., Inc.
Kimley-Horn and Associates, Inc.
Freese and Nichols, Inc.

Category 6 - Survey
(Negotiating a total of 8 contracts):

Colliers Engineering & Design, Inc.
DRMP, Inc.
Florida Design Consultants, Inc.
McKim & Creed, Inc.
CPH Consulting, LLC
Dewberry Engineers, Inc.
V&A Consulting Engineers, Inc.
D.C. Johnson & Associates, Inc.

BGE, Inc.
CivilSurv Design Group, Inc.

Category 7 - Geotechnical
(Negotiating a total of 5 contracts):

Colliers Engineering & Design, Inc.
Professional Service Industries, Inc.
Tierra, Inc.
Tetra Tech, Inc.
Madrid CFTL
Halff Associates, Inc.

Section 2-110(c) of the Pasco County Purchasing Ordinance allows the Board of County Commissioners to delegate authority to the County Administrator to negotiate and execute contracts such as the ones sought to be awarded under RSQ-BW-25-075. It specifically provides the following:

Awards of Consultant Services. The Board of County Commissioners (BCC) may delegate to the County Administrator the authority to negotiate and execute a Consultant Services contract, or contracts if multiple contracts are specified in the Solicitation Package, with the shortlist of Vendors approved by the Board in the order approved on the shortlist. The contract negotiations shall be based on the terms and conditions and scope of work contained in the Solicitation Package and in accordance with F.S. § 287.055. The fees and costs negotiated by the County Administrator shall be prudent and reasonably consistent with fees and costs in similar County Consultant Services contracts negotiated in the last 12 months and shall not exceed the amount set by the Board without further Board action. The County Administrator may designate County staff to conduct the negotiations, but not sign the contract(s), and to present to the County Administrator a negotiated contract. The County Administrator may direct further negotiations by staff, conduct negotiations or may sign the contract(s). The County Administrator shall have final responsibility to ensure that the contract(s) is in compliance with this provision. Each contract, once executed, shall be reported and included in an agenda packet for a Board meeting.

The Utilities Department has discussed with the County Administrator its request that the Board delegate authority to him for negotiation and execution of the subject agreements. The County Administrator affirmed that he concurs with and will accept the delegation, if the BCC approves this request.

Upon BCC approval under Section 2-110(c), the Utilities Department can begin meaningful discussions with the top-ranked firms regarding specific professional design services, in hopes of securing multiple agreements as noted above. If an agreement cannot be reached with the top-ranked firms, the Utilities Department will move to begin meaningful discussions with the next-ranked top firm, and thereafter, until all agreements can be reached. The resulting Agreements will be presented to the County Administrator for review and execution with no funding required, as funding will be requested on a task-order basis. Once negotiated, the executed agreements will be

submitted to the BCC by the Utilities Department in an agenda packet as required by Section 2-110(c), specifically, through a Noted Item. The Agreements will be effective upon execution by the County Administrator and continue for a three-year contract term, with two one-year options to ensure availability, competition, and sufficient coverage for the numerous projects and work anticipated in the coming years.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding is not required at this time. Funding for each task-order will be approved according to the thresholds of the Purchasing Ordinance.

DISTRIBUTION:
Not applicable.

SECTION 1 – DEFINITIONS

The following definition of terms associated with this Agreement is provided to establish a common understanding between both parties to this Agreement as to the intended usage, application, interpretation, and meaning of such terms as they appear throughout this Agreement.

1.1 – COUNTY

The term County shall refer to the Board of County Commissioners of Pasco County, a political subdivision of the State of Florida, and any official and/or employee thereof who shall be duly authorized to act on the County's behalf relative to this Agreement.

1.2 - COUNTY ADMINISTRATOR

The term County Administrator shall refer to the County Administrator of Pasco County, Florida, acting directly or through duly authorized representatives, which representatives are acting exclusively within the scope of the duties and authority assigned to them as set forth in this Agreement and pursuant to the Purchasing Ordinance of Pasco County, Florida.

1.3 – CONSULTANT

The term Consultant shall refer to the individual, company, or firm that will offer the Consultant Services which, by execution of this Agreement, shall be legally obligated, responsible, and liable for providing and performing any and all of the work, materials, and/or services including work and materials required under the covenants, terms, and provisions contained in this Agreement and any and all Modifications, Task Orders, or Change Orders issued pursuant thereto.

1.4 – CONSULTANT SERVICES

The term Consultant Services or Services shall refer to all the work, materials, and services, and all related professional, technical, and administrative activities which are necessary to be provided and performed by the Consultant, its employees, and any subconsultants that the Consultant may engage to provide, perform, and complete the services required pursuant to the provisions of this Agreement, any Task Order, and as authorized under the Consultants' Competitive Negotiation Act ("CCNA").

This Scope of Services outlined below describes the general task order work and responsibilities the Consultant will be expected to perform a wide range of professional engineering services for the County. The Consultant will perform many tasks, including, but not limited to those set forth in the Statement of Work.

The work will be assigned on a Task Order basis as requested by the County in the County's sole discretion.

the Task Order and this Agreement. In the event that federal or state funding is ascertained, such additional state or federal provisions may be included in a Task Order as necessary. Each Task Order shall be limited to the monetary thresholds set forth in section 287.055, Florida Statutes (the CCNA).

All terms in this Agreement shall be incorporated by reference in each executed Task Order, unless specifically altered, superseded, or modified. In the event of any conflict, the provisions of this Agreement will control over the conflicting provisions of any Task Order. Each fully executed Task Order shall become a supplement to and a part of this Agreement.

1.9 – CHANGE ORDER

The term Change Order shall refer to a written document executed by both the COUNTY and the Consultant setting forth and authorizing changes to the agreed-upon scope of Consultant Services, compensation, method of payment, time and schedule of performance, or project guidelines and criteria as such were set forth and agreed to in the Task Order(s), or previous Change Order(s) issued thereto. The Change Order document shall set forth authorized changes to the scope of Consultant Services, tasks, work, or materials to be performed or provided by the Consultant and/or its Subconsultants as well as the compensation and method of payment, the schedule or time period for performance and completion, and the guidelines, criteria, and requirements pertaining thereto. Any changed compensation to the Consultant as a result of the Change Order shall be understood and agreed to be the total of all costs associated with said Change Order.

The time of performance for rendering Consultant Services pursuant to any Change Order shall commence to run from the date specified in the Notice to Proceed issued for said Change Order. The County specifically reserves the right to establish milestones for completion of the work required under the Change Order and/or to tie deliverables to any payment provided for under that Change Order.

All terms in this Agreement shall be incorporated by reference in each executed Change Order, unless specifically altered, superseded, or modified. In the event of any conflict, the provisions of this Agreement will control over the conflicting provisions of any Change Order. Each fully executed Change Order shall become a supplement to and a part of this Agreement.

1.10 – COUNTY PROJECT MANAGER

The term County Project Manager shall refer to that person employed by the County designated to serve and act on the County's behalf to provide direct contact and communication between the County and the Consultant throughout the effective period of this Agreement or, at the County's direction, for the duration of a particular Task Order and/or Change Order. The County Project Manager is not authorized to, and shall not, issue any verbal request or instruction to the Consultant that would have the effect, or be interpreted to have the effect, of modifying or changing in any way: (1) the scope of Consultant Services to be performed by the Consultant; (2) the time the Consultant is

PASCO COUNTY PROFESSIONAL SERVICES AGREEMENT

THIS **PROFESSIONAL SERVICES AGREEMENT** (hereinafter referred to as "Agreement") by and between Pasco County, Florida, a political subdivision of the State of Florida, acting by and through its Board of County Commissioners (hereinafter referred to as "County"), and Freese and Nichols, Inc., a Texas foreign-profit corporation, licensed in the State of Florida, whose address is 1000 North Ashley Drive, Suite 200, Tampa, FL, 33602 (hereinafter referred to as "Consultant").

RECITALS:

WHEREAS, the County issued a Request for Statements of Qualifications (**RSQ-BW-25-075**), together with any addenda ("RSQ") for **PASCO COUNTY UTILITIES CONTINUING PROFESSIONAL SERVICES,** to secure an experienced Consultant to render professional engineering services; and

WHEREAS, the Consultant submitted a response to the RSQ which was deemed by the County as responsive and responsible; and

WHEREAS, the Consultant desires to render certain Water, Wastewater, and Reclaimed Water Treatment & Storage Systems, Reclaimed Water Conveyance Systems, Reclaimed Water Planning, Permitting, and Project Management and related services (Categories 1, 2, & 3) as defined in the Agreement and as more fully described in specific Task Orders that will be separately executed under this Agreement, and the Consultant hereby certifies it has the qualifications, experience, staff, and resources to perform those services; and

WHEREAS, the selection and engagement of the Consultant has been made by the County based on the Consultant's response to the RSQ and the County's solicitation process, and in accordance with the provisions of the Consultant's Competitive Negotiation Act, Section 287.055, Florida Statutes; and

WHEREAS, the Consultant hereby certifies that it has been granted and possesses a valid, current license to do business in the State of Florida and in Pasco County, Florida, issued by those state boards and/or governmental agencies responsible for regulating and licensing the professional services to be provided and performed by the Consultant pursuant to this Agreement; and

WHEREAS, the Consultant has been informed of and has reviewed the professional services required to be performed pursuant to this Agreement and is qualified, willing, and able to provide and perform all such services in accordance with the provisions, conditions, and terms hereinafter set forth in this Agreement and any executed Task Orders and Change Orders; and

NOW, THEREFORE, in consideration of the mutual covenants, terms, and provisions contained herein, the parties, as indicated by their respective execution of this Agreement, agree that a Contract shall exist between the County and the Consultant specifically consisting of:

SECTION 1 – DEFINITIONS

The following definition of terms associated with this Agreement is provided to establish a common understanding between both parties to this Agreement as to the intended usage, application, interpretation, and meaning of such terms as they appear throughout this Agreement.

1.1 – COUNTY

The term County shall refer to the Board of County Commissioners of Pasco County, a political subdivision of the State of Florida, and any official and/or employee thereof who shall be duly authorized to act on the County's behalf relative to this Agreement.

1.2 - COUNTY ADMINISTRATOR

The term County Administrator shall refer to the County Administrator of Pasco County, Florida, acting directly or through duly authorized representatives, which representatives are acting exclusively within the scope of the duties and authority assigned to them as set forth in this Agreement and pursuant to the Purchasing Ordinance of Pasco County, Florida.

1.3 – CONSULTANT

The term Consultant shall refer to the individual, company, or firm that will offer the Consultant Services which, by execution of this Agreement, shall be legally obligated, responsible, and liable for providing and performing any and all of the work, materials, and/or services including work and materials required under the covenants, terms, and provisions contained in this Agreement and any and all Modifications, Task Orders, or Change Orders issued pursuant thereto.

1.4 – CONSULTANT SERVICES

The term Consultant Services or Services shall refer to all the work, materials, and services, and all related professional, technical, and administrative activities which are necessary to be provided and performed by the Consultant, its employees, and any subconsultants that the Consultant may engage to provide, perform, and complete the services required pursuant to the provisions of this Agreement, any Task Order, and as authorized under the Consultants' Competitive Negotiation Act ("CCNA").

This Scope of Services outlined below describes the general task order work and responsibilities the Consultant will be expected to perform a wide range of professional engineering services for the County. The Consultant will perform many tasks, including, but not limited to those set forth in the Statement of Work.

The work will be assigned on a Task Order basis as requested by the County in the County's sole discretion.

1.5 – SUBCONSULTANT

The term Subconsultant shall refer to any individual, company, or firm offering Consultant Services that is engaged by the Consultant to assist the Consultant in providing and performing the Consultant Services for which the Consultant is contractually obligated, responsible, and liable to provide and perform pursuant to the provisions of this Agreement. The use of any Subconsultant(s) must be approved in writing by the County Administrator or his designee before such Subconsultant(s) may be retained by the Consultant.

The County shall not be a party to, responsible or liable for, or assume any obligation whatsoever for any agreement or contract entered into between the Consultant and any Subconsultant.

1.6 – ADDITIONAL SERVICES

The term Additional Services shall refer to such Consultant Services the County may request or authorize the Consultant to provide or perform relative to this Agreement which are not included in the Agreement or Task Order. Additional Services shall be authorized by the execution of a Modification to this Agreement executed by both parties, a new Task Order, or a Change Order. Additional Services shall constitute a continuation of the Consultant Services under this Agreement and shall be provided and performed in accordance with the covenants, terms, and provisions set forth in this Agreement.

1.7 – MODIFICATION

The term Modification shall refer to a written document executed by both the County and the Consultant setting forth and authorizing Consultant Services or tasks which were not set forth in and are supplemental to this Agreement.

The amount of the change in contract compensation and time set forth in any Modification(s) executed and issued under this Agreement shall be understood and agreed by both the County and the Consultant to be fair, equitable, and adequate, and to represent the total of all costs associated with said Modification.

1.8 – TASK ORDER

The term Task Order shall refer to a written document executed by both parties to this Agreement, for which an individual Notice to Proceed may be issued that delineates a fixed number of days for completion of the specified Consultant Services, tasks, or scope of work set forth in the Task Order.

Through a properly executed Task Order and Notice to Proceed, the County provides authorization and notification to the Consultant to proceed to provide or perform certain Consultant Services, tasks, or work pursuant to the scope of Consultant's Services set forth in

the Task Order and this Agreement. In the event that federal or state funding is ascertained, such additional state or federal provisions may be included in a Task Order as necessary. Each Task Order shall be limited to the monetary thresholds set forth in section 287.055, Florida Statutes (the CCNA).

All terms in this Agreement shall be incorporated by reference in each executed Task Order, unless specifically altered, superseded, or modified. In the event of any conflict, the provisions of this Agreement will control over the conflicting provisions of any Task Order. Each fully executed Task Order shall become a supplement to and a part of this Agreement.

1.9 – CHANGE ORDER

The term Change Order shall refer to a written document executed by both the COUNTY and the Consultant setting forth and authorizing changes to the agreed-upon scope of Consultant Services, compensation, method of payment, time and schedule of performance, or project guidelines and criteria as such were set forth and agreed to in the Task Order(s), or previous Change Order(s) issued thereto. The Change Order document shall set forth authorized changes to the scope of Consultant Services, tasks, work, or materials to be performed or provided by the Consultant and/or its Subconsultants as well as the compensation and method of payment, the schedule or time period for performance and completion, and the guidelines, criteria, and requirements pertaining thereto. Any changed compensation to the Consultant as a result of the Change Order shall be understood and agreed to be the total of all costs associated with said Change Order.

The time of performance for rendering Consultant Services pursuant to any Change Order shall commence to run from the date specified in the Notice to Proceed issued for said Change Order. The County specifically reserves the right to establish milestones for completion of the work required under the Change Order and/or to tie deliverables to any payment provided for under that Change Order.

All terms in this Agreement shall be incorporated by reference in each executed Change Order, unless specifically altered, superseded, or modified. In the event of any conflict, the provisions of this Agreement will control over the conflicting provisions of any Change Order. Each fully executed Change Order shall become a supplement to and a part of this Agreement.

1.10 – COUNTY PROJECT MANAGER

The term County Project Manager shall refer to that person employed by the County designated to serve and act on the County's behalf to provide direct contact and communication between the County and the Consultant throughout the effective period of this Agreement or, at the County's direction, for the duration of a particular Task Order and/or Change Order. The County Project Manager is not authorized to, and shall not, issue any verbal request or instruction to the Consultant that would have the effect, or be interpreted to have the effect, of modifying or changing in any way: (1) the scope of Consultant Services to be performed by the Consultant; (2) the time the Consultant is

obligated to commence and complete all such services; and/or (3) the amount of compensation the County is obligated to pay the Consultant. The County Project Manager shall review and make appropriate recommendations on requests submitted by the Consultant for payment for services and work provided and performed pursuant to this Agreement and any Task Order(s) or Change Order(s) issued thereof.

1.11 – CONSULTANT'S STANDARD HOURLY RATES

The Consultant's standard hourly rates for professional services rendered pursuant to this Agreement are those attached hereto as Exhibit "A," entitled "Standard Hourly Rates", which Exhibit "A" is specifically made part of this Agreement. The Standard Hourly Rates shall be considered the maximum rates for specific job and/or work classifications and shall cover all the Consultant's costs, including direct salaries, overhead, operating margin, and Reimbursable Expenses as delineated in Section 5 below. If the Consultant charges less than those maximum rates included in Exhibit "A," those charges will be considered acceptable to the County.

Within sixty (60) calendar days after the first anniversary of the effective date of this Agreement, and each one (1) year anniversary thereafter, the Consultant may request in writing to the County an adjustment to those rates delineated in Exhibit "A". The County shall approve the rate adjustment or reject the rate adjustment until documentation substantiating the rate adjustment is provided by the Consultant and deemed acceptable to the County.

If the Consultant's Exhibit "A" covers multiple years, any request for a rate adjustment cannot exceed the multiple year rates included in the Consultant's Exhibit "A."

If the rate adjustment is found acceptable, it shall only be effective for Task Orders (not Change Orders) executed after the rate adjustment has been approved by the Board of County Commissioners. Therefore, any Change Orders executed after the approved rate adjustment shall continue to utilize the rates effective at the time of their originating Task Orders.

1.12 – NOTICE TO PROCEED

The term Notice to Proceed shall refer to a written document, executed by the County Administrator or his designee and issued to the Consultant, that shall notify the Consultant to commence work or to provide Consultant Services pursuant to a properly executed Task Order or Change Order. The time for performance of Consultant Services or work required pursuant to any properly executed Task Order or Change Order shall commence to run from the date specified in the Notice to Proceed.

SECTION 2 – TERM

Except as otherwise specified herein, this Agreement shall remain in full force and effect for a period of **three years, with two one-year options to renew,** from the effective date of this Agreement ("Effective Period"), unless terminated earlier as otherwise provided in this Agreement. The effective date for this Agreement shall be defined as the day and year that this

Agreement is executed by the County.

Where applicable, in the event that a properly executed Task Order initiated within the term of the Agreement or Change Order to such Task Order requires or expressly permits work to be performed by the Consultant after termination of the Agreement, such Task Order or Change Order shall automatically extend the Effective Period of the Agreement to coincide with the completion date delineated in said Task Order or Change Order. No new Task Orders may be issued, however, during this extension period.

SECTION 3 – CONSULTANT'S RESPONSIBILITIES

The obligations of the Consultant with respect to all Consultant Services authorized pursuant to this Agreement and any Task Order(s) and/or Change Order(s) issued thereof shall include, but not be limited to, the following:

3.1 – LICENSES

The Consultant agrees to maintain throughout the period this Agreement is in effect all such licenses as are required to do business in the State of Florida and in Pasco County, Florida, including, but not limited to, licenses required by the respective regulatory boards and/or other governmental agencies responsible for regulating and licensing the Consultant Services provided and performed by the Consultant pursuant to this Agreement.

3.2 – PERSONNEL

(1) QUALIFIED PERSONNEL
The Consultant agrees that when services to be provided and performed pursuant to this Agreement relate to Consultant Services which, under the Florida Statutes, require a license, certificate of authorization, or other form of legal entitlement to practice such service, the Consultant will employ and/or retain only qualified personnel to be in responsible charge of all such services.

(2) CONSULTANT'S PROJECT DIRECTOR
The Consultant agrees to employ and designate in writing a qualified, and if required by law, a licensed professional, to serve as the Consultant's Project Director. The Consultant's Project Director shall be authorized and responsible to act on behalf of the Consultant with respect to directing, coordinating, and administering all aspects of the services to be provided and performed under this Agreement and any Task Order(s) and/or Change Order(s) issued thereof. The Consultant's Project Director shall have full authority to bind and obligate the Consultant on any matter arising under this Agreement unless substitute arrangements, acceptable to the County, have been furnished to the County in writing.

(3) REMOVAL OF PERSONNEL FROM WORK ON THE PROJECT
The Consultant agrees, within seven (7) calendar days of receipt of a written request

from the County, to promptly remove and replace the Consultant's Project Director, or any other personnel employed or retained by the Consultant, or personnel of any Subconsultant(s) engaged by the Consultant pursuant to this Agreement. The County may make such request for the removal of personnel with or without cause.

SECTION 4 – COUNTY'S RESPONSIBILITIES

Except as otherwise provided herein, the County's responsibilities are as follows:

4.1 – DESIGNATION OF AUTHORITY

The County hereby designates the County Administrator, or his designee, to act on the County's behalf with respect to the Scope of Services of this Agreement and any Task Orders or Change Orders issued thereunder, where applicable. The County Administrator, or his designee, shall have complete authority to transmit instructions, receive information, interpret, and define County's policies and decisions with respect to materials, elements, and systems pertinent to Consultant's services.

4.2 – DESIGNATION OF COUNTY PROJECT MANAGER

The County agrees, after execution of this Agreement, to properly advise the Consultant, in writing, of the person designated to serve and act as the County Project Manager pursuant to the provisions of Section 1.10 of this Agreement.

4.3 – INFORMATION PROVIDED BY THE COUNTY

The County shall provide, within a reasonable time from request of the Consultant, existing data, plans, reports, and other information in the County's possession or under the County's control which are necessary for the performance of the duties of Consultant in the Scope of Services, and to provide full information regarding requirements of the Scope of Services, including objectives, budget constraints, criteria, and other requirements that exist at the time of signing of this Agreement or which may develop during the performance of this Agreement.

The County shall make available to the Consultant all information and data relative to the Consultant Services to be provided pursuant to this Agreement in the County's possession, including the County's objectives and constraints, previous studies, surveys, aerial photographs, maps, environmental reports, photographs, analytical data, and any other relevant information requested by the Consultant in writing.

4.4 – ACCESS TO COUNTY PROPERTY

The County agrees, with reasonable prior written notice given by the Consultant, to provide the Consultant with access to County property, facilities, buildings, and structures to enable the Consultant to provide and perform any required Consultant Services and work pursuant to this

Agreement. Such rights of access shall not be exercised in such a manner or to such an extent as to impede or interfere with County operations, or the operations carried on by others under a lease, or other contractual arrangements with the County, or in such a manner to adversely affect the public health, safety, or welfare.

SECTION 5 – COMPENSATION AND METHOD OF PAYMENT

The County shall pay the Consultant for all authorized Consultant Services rendered hereunder by the Consultant and any Subconsultant(s) and completed in accordance with the requirements, provisions, and/or terms of this Agreement, Task Order(s), Modification(s), and/or Change Order(s) and in accordance with the provisions delineated below. The Consultant acknowledges that Consultant Services will be requested on an as-needed basis and agrees that it will not be entitled to make any claim for damages or loss of profits due to the amount of work assigned during the term of the Agreement.

5.1 – PAYMENT METHODS

The fee paid to the Consultant shall be based on one of the following methods or any combination thereof as determined by the County in its sole discretion:

(1) LUMP-SUM PAYMENT METHOD
The County may pay a negotiated fixed-price amount for an executed Task Order as a Lump Sum. The Lump-Sum compensation amount will be estimated based on the Standard Hourly Rates cost for work performed on an estimated Task Order in accordance with the rates established in Exhibit "A," which rates shall include all the Consultant's costs, Overhead, Operating Margin, Reimbursable Expenses, and charges. A negotiated Lump-Sum compensation amount shall be delineated in the executed Task Order. The Lump-Sum Compensation Method shall anticipate that all costs for the Consultant Services required are known and that no modifications to the established Lump-Sum amount will be necessary. The County may also elect to apply the Lump-Sum Compensation Method on a line-item basis for a particular service or activity as defined within an individual Task Order, Change Order, or Modification to the Agreement. If the Lump-Sum Compensation Method is used, no additional documentation regarding costs for work will be required to be attached to the Consultant's invoices for Lump-Sum payment for the Task Order or Change Order or for a specific line item or items within a Task Order or Change Order.

(2) NOT TO EXCEED PAYMENT METHOD
The County will pay the Standard Hourly Rates for work provided or services performed on an executed Task Order in accordance with the rates delineated in Exhibit "A," subject to a Not-to-Exceed Amount, which shall be delineated in said Task Order. In no event shall the established Not-to-Exceed method be increased except through the issuance of a new Task Order or Change Order approved by the County. The County may also elect to apply the Not-to-Exceed method on a line- item basis for a particular service or activity defined within an individual Task Order or Additional Service defined

within a Change Order. If the Not-to-Exceed Method is used, additional documentation is required by the County (e.g., payroll sheets) regarding costs of work is required to be attached to the Consultant's invoices for Not-to-Exceed payment of a Task Order or Change Order or specific line item within a Task Order or Change Order.

(3) REIMBURSABLE EXPENSES

The County shall pay the Consultant for Reimbursable Expenses in accordance with the provisions of this Section. The term Reimbursable Expenses shall mean the Consultant's and/or the Subconsultant(s)'s out-of-pocket costs for items directly charged to any Task Order initiated pursuant to this Agreement including, but not limited to, charges for printing services and copying (both in-house or subcontracted), fees, and per diem and travel expenses of the Consultant's employees not to exceed the statutory limits delineated in Chapter 112.061, Florida Statutes.

The County shall only compensate the Consultant for Reimbursable Expenses which are directly charged to tasks performed pursuant to this Agreement, and/or any executed Task Order or Change Order, which are not included in the Consultant's Overhead Rate, and which are consistently charged to all clients. The County, in its sole discretion, may require the Consultant to verify and/or provide supporting documentation which demonstrates that Reimbursable Expenses for which compensation has been sought have been generated or originated from or by a task performed pursuant to this Agreement. If the Consultant seeks compensation for CADD, PC'S or Facilities Capital Cost of Money (FCCM) as a Reimbursable Expense, the cost basis for the unit rates used for such items must be fully supported by appropriate documentation. All Reimbursable Expenses shall be charged at the actual cost to the Consultant.

(4) ADDITIONAL COSTS

The parties agree that any additional costs for work or services to be provided or performed under a Task Order issued pursuant to this Agreement, or pursuant to any other method utilized by the parties for determining the original costs of work or services to be provided or performed by the Consultant, must be approved in writing by the Board of County Commissioners at a regularly scheduled meeting of said Board of County Commissioners. If such additional costs are not authorized by the Board of County Commissioners in writing, no payment, reimbursement, or compensation for such additional costs shall be tendered by the County to the Consultant.

(5) SUBCONSULTANT CHARGES

The professional services of any Subconsultant(s), whose expertise is required within the scope of the Consultant's work under this Agreement, will be paid in accordance with the fees identified in the individual Task Order(s) or Change Order(s) for such services.

The use of any Subconsultant(s) referenced in the above paragraph must be approved in writing by the County Administrator or his designee before such Subconsultant(s) may be retained by the Consultant.

5.2 – TERMS OF PAYMENT

(1) MONTHLY INVOICES

The Consultant shall submit one invoice statement to the County no later than 45 days from the last date of the month in which the services were rendered. The Consultant's invoice statement(s) shall be itemized to correspond to the basis of compensation as set forth in the Agreement, Task Order(s), or Change Order(s) issued hereunder. The Consultant's invoice statements shall contain amount of work and description of services(s) provided and/or performed, and where appropriate, supportive documentation of charges consistent with the basis of compensation set forth in this Agreement. If the Consultant has been issued more than one Task Order or Change Order pursuant to this Agreement, the Consultant shall submit separate invoices to the County for the specific services performed for each specific Task Order or Change Order. Failure to submit a timely invoice in accordance with this paragraph may result in a reduction of payment in the amount of 1.5% per day of the amount invoiced by the Consultant, beginning on the first day after the invoice is due to the County.

Payment for services rendered during any billing period by the Consultant shall be due and payable by the County in accordance with the provisions of Chapter 218, Part VII, Florida Statutes (the Local Government Prompt Payment Act). In the event that federal aid is a source of funds for payment, then 49 CFR § 26.29 will also be applicable.

(2) PAYMENT FOR SERVICES PERFORMED

The County shall pay the Consultant on the basis of services completed for tasks set forth in any Task Orders and any Change Orders agreed upon by the Consultant and the County. Payments shall be made for the Consultant's work-in progress or completed service items based on the agreed method of compensation as outlined in the Task Order or Change Order.

When the Lump-Sum Payment Method is used for a particular service or activity within the Task Order or a Change Order, the County shall pay the Consultant for services performed for tasks set forth in the Task Order or Change Order on the basis of the invoice statement covering the Consultant's work-in-progress expressed as a percentage of the total cost of the work and/or services required for each task involved. All such work-in-progress percentages are subject to review and approval by the County Project Manager. The decision of the County shall be final as to work-in-progress percentages to be paid. Payment by the County for tasks on a work-in-progress percentage basis shall not be deemed or interpreted in any way to constitute an approval or acceptance by the County of any such service or work-in-progress. The Consultant shall be responsible for correcting, re-doing, modifying, or otherwise completing the work and services required for each task before receiving final full payment, whether or not previous work-in-progress payments have been made by the County.

(3) PAYMENT SCHEDULE

The County shall issue payment to the Consultant as invoices are provided from the Consultant, which invoices must be in acceptable form and must contain the requested detailed description of charges. Should the County object or take exception to the amount of the Consultant's invoice statement, the County shall notify the Consultant of such objection or exception within twenty (20) business days from date of payment period set forth hereinbefore. If such objection or exception remains unresolved at the end of said twenty (20) business-day period, the County, as represented by the County Project Manager, shall have the authority to withhold the disputed amount and make payment to the Consultant of any amount not in dispute. Payment of any disputed amount, or adjustment thereto resolved by mutual agreement of the parties, will be paid in accordance with the Local Government Prompt Payment Act.

SECTION 6 – TASK ORDERS

The work and/or services to be provided and performed under this Agreement are Task Order driven. If and when the County requires the professional services of the Consultant, individual Task Orders or Orders will be approved by the County, by the County Administrator, or by the Purchasing Director, when applicable. For purposes of this Agreement, the Purchasing Director and County Administrator are specifically delegated authority by the County to issue and approve Task Order(s) for Consultant Services up to the allowable amount provided in the County's Purchasing Ordinance. The completion date for an individual Task Order will be specified in the Notice to Proceed. The completion date for an individual Task Order may be extended, in writing, by the County at a regularly scheduled meeting of the Board of County Commissioners or by the County Administrator, as provided herein.

For each Task required for a specific project, the County Project Manager shall provide the Consultant a detailed description of the services to be performed, the method of payment to be utilized in accordance with this Agreement, and the time and cost limitations for such task, if appropriate. The Consultant shall respond in writing, no more than 21 days from the date such detailed description is provided by the County Project Manager, by describing the proposed scope of work, staffing, schedule, total compensation, and the number and type of deliverables that are required to complete the described services. If the response from the Consultant is acceptable, the County may issue a Task Order to the Consultant containing the agreed-upon scope of work, staffing, schedule, time of performance, total compensation, method of payment, and deliverables.

Each Task Order shall be numbered consecutively and shall reference this Agreement. In the event of any conflict, the provisions of this Agreement will control over conflicting provisions of any Task Order. Each Task Order, after execution by the Board of County Commissioners, the County Administrator, or the Purchasing Director, shall become a supplement to and a part of this Agreement.

SECTION 7 – TIMELY ACCOMPLISHMENT OF SERVICES

The timely performance, provision, and completion of the required Consultant Services,

work, and materials is vitally important to the interests of the County. Time is of the essence for all the duties and obligations contained in this Agreement. The County may suffer damages in the event that the Consultant does not accomplish and complete the required services in a timely manner. The Consultant agrees to employ, engage, retain, and/or assign an adequate number of qualified personnel throughout the period this Agreement is in effect so that all Consultant Services will be provided and performed in a timely and diligent manner. If the Consultant fails to commence, provide, perform, and/or complete any service required under this Agreement in a timely and diligent manner as determined by the County, or within a specified time period delineated in executed Modification(s), Task Order(s), or Change Order(s), the County may consider such failure as a material breach of this Agreement. In such an event, the County, in its sole discretion, may terminate the Agreement.

The Consultant, at all times that this Agreement is in effect, shall ensure that sufficient time remains in the project schedule within which to complete the services required and authorized by any given Task Order(s). In the event there are delays which would modify or extend a scheduled Task Order completion date, the Consultant shall, within seven (7) calendar days of discovery of such delay, submit a written request to the County seeking a time extension to complete a delayed project, which request shall specifically identify the reason(s) for the delay and the amount of time related thereto.

In the event the specified time of performance for a given Task Order or Change Order expires and the Consultant has not requested a time extension, or if the County has denied a request for a time extension in writing, partial progress payments will be stopped on the date time expires.

SECTION 8 – STANDARDS OF PROFESSIONAL SERVICE

The work and services to be provided and/or performed by the Consultant shall be done in accordance with the generally accepted standards of professional practice and in accordance with the laws, rules, regulations, ordinances, codes, policies, standards, or other guidelines issued by any governmental agency having jurisdiction over all or a portion of any work performed under this Agreement in effect at the time of the performance of the Consultant Services. All final documents, reports, studies, or other data prepared by the Consultant shall bear a professional's seal/signature in accordance with the applicable Florida Statutes and/or any applicable Administrative Rules promulgated by the Florida Department of Business and Professional Regulation (where applicable).

SECTION 9 – CONSULTANT'S QUALITY CONTROL

9.1 – RESPONSIBILITY TO CORRECT

The Consultant agrees to be responsible for the professional quality, technical adequacy and accuracy, timely completion in accordance with the mutually agreed upon schedule, and the coordination of all data, studies, surveys, designs, specifications, calculations, estimates, plans,

drawings, construction documents, photographs, reports, memoranda, and other services, work, and materials performed, provided, and/or furnished by the Consultant, or any Subconsultant(s) utilized by the Consultant, pursuant to this Agreement.

Upon written notice from the County, the Consultant shall, without additional compensation, correct or revise any errors, omissions, mistakes or other deficiencies in such data, studies, calculations, estimates, plans, work, and materials resulting from the negligent act, errors or omissions, or intentional misconduct of the Consultant.

If the Consultant does not correct the defective work within the time specified in the County's written notice, the County may have the deficiency corrected. All direct or indirect costs of such correction shall be paid by the Consultant or deducted from payment due to the Consultant.

If any work or submittal prepared by the Consultant contains an error, omission, deficiency, or mistake and the Consultant fails to correct such error, omission, deficiency, or mistake within the time period established for completion in the notice to correct or the Task Order(s) requiring such work or submittal, the County, in its discretion, may terminate this Agreement.

9.2 – COUNTY'S APPROVAL SHALL NOT RELIEVE CONSULTANT OF RESPONSIBILITY

Neither review, approval, or acceptance by the County of data, studies, calculations, estimates, reports, memoranda, and incidental professional services, work and materials furnished hereunder by the Consultant shall in any way relieve the Consultant of responsibility for the adequacy, completeness, and accuracy of its services, work and/or materials, or the services, work and materials. Neither the County's review, approval, or acceptance of, nor payment for, any of the Consultant's work, services, and materials shall be construed to operate as a waiver of any of the County's rights under this Agreement, or any cause of action the County may have arising out of the performance of this Agreement.

The Consultant agrees and recognizes that the County shall not be held liable or responsible for any claims which may result from any action or omission of the Consultant in which the County participates either through review of or concurrence with the Consultant's actions. In reviewing, approving, or rejecting any submissions or other work prepared by the Consultant, the County in no way assumes or shares any of the responsibility or liability of the Consultant under this Agreement.

SECTION 10 – REPORTS AND REVIEWS

10.1 The County may, at any time, require the Consultant to report in writing in a format approved by the County on the status and overall progress of the work with a projection as to whether deliverables will be on time and within budget. In addition, the County may require the Consultant to provide an estimate of the overall percentage of completion.

10.2 The County will monitor the Consultant's work product for compliance with project

standards and criteria and may make comments and recommendations to the Consultant regarding the work. However, any such monitoring or comments and recommendations by the County, or absence thereof, shall not relieve the Consultant of any of its obligations under this Agreement. The Consultant retains sole authority and responsibility for the adequacy and accuracy of its Consultant Services in accordance with generally accepted practices.

SECTION 11 – WORK WITHIN COUNTY PROPERTY / CONSULTANT TO REPAIR PROPERTY DAMAGE CAUSED BY THE CONSULTANT OR ITS SUBCONSULTANTS

11.1 As applicable, the Consultant, any Subconsultant retained by Consultant, or any other person, firm, corporation, or other entity that contracts with or provides goods or services to the Consultant in connection with the work required to be performed pursuant to this Agreement shall perform all work within only the County-owned right-of-way(s) and/or any County easement(s), or as permitted by this solicitation or by law.

11.2 The Consultant agrees to promptly repair and/or replace, or cause to have repaired and/or replaced, at its sole cost and expense and in a manner acceptable to and approved by the County, any property damage arising out of, or caused by, the willful or negligent acts of the Consultant and/or its Subconsultant(s). The County reserves the right, should the Consultant fail to make such repairs and/or replacements within a reasonable period of time, to cause such repairs and/or replacements to be made. All costs and expenses associated with having such repairs and/or replacements performed shall be paid for by the Consultant directly or via reimbursement to the County from the Consultant.

SECTION 12 – DOCUMENTS

The documents comprising this Agreement between the County and the Consultant consist of the following:

1. This Professional Services Agreement and its Exhibits.
2. Any written amendments, modifications, or addenda to this Agreement.
3. Any Task Orders and Change Orders issued pursuant to this Agreement and executed by the County and the Consultant.
4. Request for Statements of Qualifications – **RSQ-BW-25-075**, including any written addenda. The Statement of Work attached to the RSQ is replaced with the Statement of Work attached hereto as Exhibit C.
5. The Consultant's proposal and attachments submitted in response to **RSQ-BW-25-075.**

SECTION 13 – COMPLIANCE AND AGREEMENT WITH LAWS AND REGULATIONS

13.1 The Consultant shall observe and comply with all applicable federal and state laws, County and municipal ordinances, and the rules and regulations of all authorities having jurisdiction over the project and all work performed pursuant to this Agreement, including but not limited to the federal and state provisions specifically provided for in the solicitation. All applicable federal, state, and local laws and ordinances are deemed to be included in this Agreement the same as

though herein written out in full.

13.2 The Consultant shall give all notice and comply with all laws, ordinances, rules, and regulations applicable to the Consultant Services. If the Consultant observes that any of the Contract Documents or executed Task Order or Change Order are contradictory to such laws, rules, and regulations, the Consultant will notify the County Project Manager promptly in writing. An appropriate Change Order or Modification shall then be used to institute any necessary changes. If the Consultant performs any work that it knows or should have known to be contrary to such laws, ordinances, rules, and regulations and without such notice to the County Project Manager, the Consultant shall bear all related costs.

SECTION 14 – PROHIBITION AGAINST CONTINGENCY FEES

In accordance with the provisions of section 287.055 of the Florida Statutes, the Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that the Consultant has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of this provision, the County shall have the right to terminate this Agreement without liability, and at its discretion, to deduct from the contract price, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

SECTION 15 – TRUTH-IN-NEGOTIATIONS/PUBLIC ENTITY CRIMES AFFIDAVIT

The Consultant certifies that wage rates and other factual unit costs supporting the compensation are accurate, complete, and current at the time of contracting. The original contract price, and any additions thereto, shall be adjusted to exclude any significant sums by which the County determines the contract price was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. The Consultant represents that it has furnished a Public Entity Crimes Affidavit pursuant to section 287.133, Florida Statutes, verifying its eligibility for award of an Agreement. The County may exercise its rights under this "certification" within one (1) year following final payment.

Pursuant to subsections 287.133(2) and (3), Florida Statutes, a person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for Category Two, for a period of 36 months following the date of being placed on the convicted vendor list. The Consultant agrees to include this provision in all

contracts it issues as a result of this Agreement.

SECTION 16 – DISCRIMINATORY VENDOR LIST

The County adheres to subsection 287.134(2)(a), Florida Statutes. The County will not transact business with entities or affiliates placed on the discriminatory vendor list maintained by the Florida Department of Management Services. By signing this Agreement or accepting any Task Order, the Consultant certifies that it is not placed on the discriminatory vendor list. The County may terminate this Agreement if this Consultant certification is found to be false. The Consultant agrees to include this provision in all contracts issued as a result of this Agreement.

SECTION 17 – SCRUTINIZED COMPANIES

A company is ineligible to, and may not, bid on, submit a proposal for, or enter into or renew a contract with the County for goods or services of:

(a) Any amount if, at the time of bidding on, submitting a proposal for, or entering into or renewing such contract, the company is on the Scrutinized Companies that Boycott Israel List, created pursuant to section 215.4725, Fla. Stat., or is engaged in a boycott of Israel; or

(b) One million dollars or more if, at the time of bidding on, submitting a proposal for, or entering into or renewing such contract, the company:

1. Is on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Terrorism Sectors List or the Scrutinized Companies with Activities in Iran Terrorism Sectors List, created pursuant to section 215.473, Fla. Stat.; or

2. Is engaged in business operations in Cuba or Syria.

By signing this Agreement and/or accepting any Task Order, the Consultant certifies that it is not participating in a boycott of Israel, is not on any of the aforementioned lists, and it does not have business operations in Cuba or Syria. The Consultant agrees to notify the County if placement on any of the aforementioned lists occurs or if the Consultant is engaged in a boycott of Israel or has business operations in Cuba or Syria.

The COUNTY may terminate this Agreement if the County finds that: the Consultant certification above is/are found to be false; the Consultant has been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel; the Consultant has been placed on the Scrutinized Companies with Activities in Terrorism Sectors List or the Scrutinized Companies with Activities in Iran Terrorism Sectors List; or the Consultant has been or is engaged in business operations in Cuba or Syria. In addition to possible termination of this Agreement based on the above grounds, the COUNTY will comply with section 287.135, Florida Statutes, regarding submittal of a false certification.

SECTION 18 – COMPLIANCE WITH PUBLIC RECORDS ACT

The Consultant shall allow public access to documents and materials made or received pursuant to this Agreement by either party in accordance with the Public Records Act, Chapter 119, Florida Statutes. To the extent required by section 119.0701, Florida Statutes, the Consultant shall (1) keep and maintain public records that ordinarily and necessarily would be required by the County in order to perform the service; (2) provide the public with access to public records on the same terms and conditions that the County would provide the records and at a cost that does not exceed the cost provided by law; (3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law; and (4) meet all requirements for retaining public records and transfer, at no cost to the Consultant, all public records in possession of the Consultant upon termination of this Agreement and destroy any duplicate public records that are exempt or confidential and exempt from public records requirements. All records stored electronically must be provided to the County in a format that is compatible with the information technology systems of the County. This paragraph shall survive the expiration or termination of this Agreement.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT (727) 847-8147, PRR@MYPASCO.NET, OR 7536 STATE STREET, NEW PORT RICHEY, FL 34654.

Under Florida law, a consultant who fails to provide the public records to the County within a reasonable time may be subject to penalties under section 119.10, Florida Statutes, and such non-compliance will constitute a breach of the Agreement and may serve as grounds for termination of this Agreement.

SECTION 19 – RETENTION OF DOCUMENTS

Upon payment of any compensation due for completed and accepted work, all documents prepared or obtained under this Agreement will be considered the property of the County without restriction or limitation on their use and shall be made available upon request to the County at any time.

19.1 Said records and documentation shall be retained by the Consultant and made available to the County for a minimum of five (5) years from the date of completion of the work. The County shall have the right to audit, inspect, and copy all such records and documentation as often as the County deems necessary during the term of this Agreement and during the above referenced five (5) year period at actual costs; provided, however, such activity shall be conducted only during normal business hours. If agreed to by the parties, the Consultant shall retain records and supporting documentation until further notified.

19.2 For those projects funded by State funds, the Consultant agrees to cooperate with any audit(s) requested by the State Auditor General's Office or, in the instance of federal funding, by the funding agency.

SECTION 20 – CONFLICTS OF INTEREST

The Consultant represents that it presently has no interest, either direct or indirect, that may or could conflict in any manner with the performance of the services required by this Agreement, and which interest has not been disclosed to the County in writing. The Consultant expressly agrees that, throughout the Effective Period, it shall not acquire an interest, either direct or indirect, which would conflict in any manner with the performance of services required by this Agreement, or which would conflict with any interest of the County. The Consultant further agrees that no person having any such interest shall be employed or engaged by the Consultant for said performance. In addition, the Consultant shall require all Subconsultants to comply with the provisions of this Section.

If the Consultant is about to engage in representing another client, whom it in good faith believes could result in a conflict of interest with the work being performed by the Consultant pursuant to this Agreement, then the Consultant shall promptly bring such potential conflict of interest to the County's attention, in writing. The County will advise the Consultant within twenty (20) calendar days, in writing, if such conflict of interest exists. If the County determines that a conflict of interest exists, the Consultant and/or any Subconsultant shall decline the representation upon the County's written notice. If the County determines that there is no such conflict of interest, then the County shall give its written consent to such representation.

In the event the Consultant fails to advise or notify the County, as provided hereinabove, of representation which could, or does, result in a conflict of interest, or should the Consultant fail to decline such representation upon the County's written notice, the County may, in its sole discretion, terminate this Agreement in accordance with the provisions of Section 23 below.

SECTION 21 – INSURANCE

The Consultant shall not commence any work pursuant to this Agreement until satisfactory proof of all insurance required hereunder has been provided to and approved by the County. It shall be the responsibility of the Consultant to ensure that all Subconsultant(s) performing services pursuant to this Agreement comply with the insurance requirements of this provision. The Consultant shall furnish to the County certificate(s) of insurance in the form required by County and, if requested by the County, the Consultant shall provide certified copies of all required insurance policies. The certificate(s) of insurance shall clearly indicate that the Consultant has obtained insurance of the type, amount, and classification required for strict compliance with this Agreement and that no reduction in coverage or in limits, suspension, or cancellation of the insurance shall be effective without thirty (30) calendar days' prior written notice to the County, as provided below. All certificate(s) of insurance shall be signed by a person authorized by that insurer to bind coverage on its behalf.

Each insurance policy required by this Agreement shall be endorsed to state that coverage shall not be suspended, voided, cancelled, reduced in coverage or in limits, except after thirty (30) calendar days' prior written notice by certified mail (return receipt requested) has been given to the County to the attention of the Pasco County Risk Manager, Internal Services Building, 7536 State Street, Suite 111, New Port Richey, Florida 34654. In the event any insurance coverage expires prior to the expiration of this Agreement, a renewal certificate shall be issued within thirty (30) calendar days prior to said expiration. Compliance with the foregoing requirements shall not relieve the Consultant of any liability and/or other obligations pursuant to this Agreement. Neither approval by the County, nor a failure to disapprove insurance certificates or policies furnished by the Consultant, shall release the Consultant from full responsibility of all liability or its obligations under this Agreement.

All insurance policies shall be issued by responsible companies authorized to do business under the laws of the State of Florida. Said insurance companies shall have an "A" policyholders' rating, have a financial rating of at least Class VIII in accordance with the most current Best Key Rating Guide, and shall be satisfactory to the County. All policies of insurance required by this Agreement shall be primary insurance with respect to the County, its officials, agents, or employees. Any insurance or self-insurance maintained by the County or its officials, agents, or employees, shall be in excess of the Consultant's insurance and shall not contribute with it. All policies of insurance required by this Agreement, except Workers' Compensation and Errors and Omissions Liability, shall specifically provide that Pasco County, Florida, a political subdivision of the State of Florida, by and through its Board of County Commissioners and its officials, agents, or employees shall be "additional insureds" under the policy and shall contain a provision for

severability of interests. The County shall also be listed as a certificate holder. All insurance policies required herein shall apply to all operations, activities, or use by the Consultant or anyone employed by, contracting with, or acting at the Consultant's direction or supervision. The insurance coverage and limits provided herein are designed to meet the minimum requirements of the County.

Any deductibles or self-insured retentions must be declared and approved by the County and are the responsibility of the Consultant. The minimum kinds and limits of coverage to be carried by the Consultant throughout the term of this Agreement shall be as follows:

21.1 – WORKER'S COMPENSATION AND EMPLOYER'S LIABILITY INSURANCE

The Consultant and all Subconsultants shall take out and maintain, during the life of this Agreement, Worker's Compensation Insurance for all employees working on this Agreement. Coverage shall be for the statutory limits in compliance with the applicable State and Federal laws. The policy must include employer's liability with a limit of $100,000.00 each accident. The insurer shall agree to waive all rights of subrogation against the County, its officials, agents, and employees. In case any employee is engaged in any hazardous work pursuant to this Agreement and is not protected under the Workers' Compensation statute, the Consultant and any Subconsultant(s) shall provide for adequate insurance coverage to protect these employees, as required under Florida law.

21.2 – COMPREHENSIVE GENERAL LIABILITY INSURANCE

The Comprehensive General Liability Insurance shall include premises and/or operations, products and/or competed operations, broad form of property damage, XCU coverage, independent contractors, and contractual liability, and shall be written on an "occurrence basis."

Bodily injury and personal injury, including death:

- $1,000,000.00 each person
- $3,000,000.00 aggregate

Property damage:

- $1,000,000.00 each occurrence
- $3,000,000.00 aggregate

21.3 – COMPREHENSIVE AUTOMOBILE LIABILITY INSURANCE

The Comprehensive Automobile Liability Insurance shall include owned vehicles, hired, and non-owned vehicles, and employees' non ownership.

Bodily injury and personal injury, including death:

- $1,000,000.00 each person

- $3,000,000.00 aggregate

Property damage:

- $1,000,000.00 each occurrence
- $3,000,000.00 aggregate

21.4 – PROFESSIONAL LIABILITY INSURANCE

The Consultant shall maintain during the term of this Agreement standard Professional Liability Insurance in the minimum amount of $1,000,000.00 per occurrence/$1,000,000.00 aggregate. The County may require a higher limit, as mutually agreed to with the Consultant, for specific Task Orders or Change Orders.

SPECIAL INSTRUCTIONS: Occurrence form Professional Liability Insurance is highly preferred. However, in the event the Consultant is only able to secure claims-made Professional Liability Insurance, special conditions apply. All certificates of insurance must clearly indicate whether the coverage is on a claims-made basis. Should coverage be afforded on a claims-made basis, the Consultant shall be obligated by virtue of this Agreement to maintain insurance coverage in effect with no less than limits of liability nor any more restrictive terms and conditions for a period of seven (7) years from the date of this Agreement. All Certificates of Insurance must clearly indicate whether the coverage is on a claim made or an occurrence basis.

SECTION 22 – SUSPENSION OF WORK

In addition to the County's contractual right to terminate this Agreement in its entirety as set forth above, the County may, at its convenience, stop, suspend, supplement, or otherwise change all, or any part of, the Consultant Services set forth herein. The County shall provide written notice to the Consultant to implement a stoppage, suspension, supplement, or change. If any engineering, professional, or consulting services covered by this Agreement to be carried out by the Consultant shall be suspended, abated, or terminated at the direction of the County for reasons unrelated to the quality of work provided by the Consultant, the County shall pay the Consultant for such services actually rendered prior to the suspension, abatement, or termination, and any reasonable additional costs incurred by the Consultant to effectuate an orderly closing of its activities, with the payment to be based insofar as possible on the fees established in this Agreement.

SECTION 23 – TERMINATION OF AGREEMENT BY THE COUNTY

The County may terminate this Agreement for any one or more of the following reasons:

1. If adequate progress on any phase of the Consultant Services is not being made by the Consultant as a direct result of the Consultant's failure to perform.
2. The quality of the Consultant Services performed by the Consultant is not in conformance with commonly accepted design codes and standards, standards of the

County and the requirements of Federal and/or State regulatory agencies in effect as of the date of this Agreement and the particular services involved are considered by the County to be essential to the proper completion of the Consultant Services.

3. The Consultant or any employee or agent of the Consultant is indicted or has a direct charge issued against him/her for any crime arising out of or in conjunction with any Consultant Services that have been performed by the Consultant.
4. The Consultant becomes involved in either voluntary or involuntary bankruptcy proceedings or makes an assignment for the benefit of creditors.
5. The Consultant is in non-compliance with any other provision of this Agreement.

In the event of any of the causes described in Items (1) through (5) above, the County's Project Manager will send a written notice to the Consultant requesting that the Consultant show cause why the Agreement should not be terminated. If adequate assurances or acceptable reasons are not given to the County within fifteen (15) calendar days of receipt by the Consultant of the show cause notice, the County may consider the Consultant to be in default and may immediately terminate this Agreement.

Notwithstanding any other provision of this Agreement, this Agreement and/or any Task Order(s) and/or any Change Order(s) may be terminated for any reason by the County giving fourteen (14) calendar days' written notice to the Consultant of the County's intent to terminate. In the event that a task of this Agreement and/or any Task Order, and/or any Change Order is terminated, the County shall identify the specific Task Order and/or Change Order being terminated and the specific tasks and/or Task Order(s) and/or Change Order(s) to be continued for completion, pursuant to the provisions of this Agreement. This Agreement will remain in full force and effect as to all authorized tasks and/or Task Order(s) and/or Change Order(s) which are to be continued to completion, unless the Agreement is terminated in full.

In the event of termination of this Agreement, the County shall compensate the Consultant only for: (1) all services performed and accepted by the County prior to the effective date of the termination; (2) Reimbursable Expenses then due; and (3) Reasonable Expenses incurred by the Consultant in affecting the termination of services, including costs incurred by submittal to the County of project drawings, plans, data, and other documents.

The Consultant shall not be entitled to receive compensation for anticipated professional fees, profit, general and administrative overhead expenses or for any other anticipated income or expense which may be associated with services which are terminated, suspended, eliminated, or cancelled.

Upon termination of this Agreement by the County, the Consultant shall promptly deliver to the County copies of all then completed deliverable items and all plans, reports, studies, calculations, maps, graphics, and other documents that directly support the deliveries prepared by Consultant.

SECTION 24 – CHOICE OF LAW / VENUE

This Agreement is to be governed by the laws of the State of Florida. The venue for any litigation resulting out of this Agreement shall be at the West Pasco Judicial Center, in Pasco County, Florida (State court matters) and the United States District Court in and for the Middle District of Florida – Tampa Division (Federal court matters).

SECTION 25 – SUCCESSORS AND ASSIGNS

The County and the Consultant respectively, bind themselves, their partners, successors, assigns, and legal representatives to the other party to this Agreement and to the partners, successors, assigns and legal representatives of such other party with respect to all covenants of this Agreement. The Consultant shall not assign or transfer any interest in this Agreement without the prior written consent of the County.

SECTION 26 – ASSIGNMENT, TRANSFER, AND SUBCONTRACTS

Neither the County nor the Consultant shall assign, sublet, or transfer its interest in this Agreement without the written consent of the other party. Except as otherwise authorized in this Agreement, the Consultant shall not subcontract any of its service obligations hereunder to third parties without the prior written approval of the County. The Consultant shall have the right, subject to the County's prior written approval, to employ other persons and/or firms to serve as Subconsultants to the Consultant pursuant to the requirements of this Agreement. The County shall have the right and be entitled to withhold its approval of Subconsultants, but such approval shall not be unreasonably withheld.

SECTION 27 – EXTENT OF THE AGREEMENT

This Agreement represents the entire and integrated agreement between the County and the Consultant and supersedes all prior negotiations, representations, or agreement, either written or oral. This Agreement may only be amended, supplemented, modified, changed, or canceled by a written instrument executed by both parties hereto.

SECTION 28 – NON-EXCLUSIVE AGREEMENT

This Agreement is not intended to be and shall not be construed as an exclusive contract and the County may employ additional or other consulting firms to perform any work contemplated by this Agreement without liability to the Consultant.

SECTION 29 – INDEMNIFICATION OF THE COUNTY

For good and valuable consideration, the receipt of which is acknowledged, and notwithstanding the provisions of section 725.06, Florida Statutes, and in accordance with section 725.08, Florida

Statutes, the Consultant shall indemnify and hold harmless the County and the County's Commissioners, officers, agents, and employees, harmless from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Consultant and other persons employed or utilized by the Consultant in the performance of the contract.

The Consultant shall not be required to indemnify the County for any negligence of the County's employees or agents. This indemnity shall include, but not be limited to, charges of attorneys, legal assistants, and other professionals, and costs of both defense and appeal in a court of law or other tribunal, for any reason.

This provision shall also pertain to any claim brought against the County by any employee of the Consultant, its subconsultant(s), or anyone directly or indirectly employed by any of them.

The Consultant's indemnification obligation under the provision shall not be limited in any way to the consideration hereunder, the agreed-upon prices as shown in any Task Order issued pursuant to this Agreement, or any other agreed payment or compensation amount, nor shall this indemnification be limited due to the Consultant's lack of sufficient insurance protection. The Consultant hereby acknowledges and expressly agrees that the compensation to be paid to the Consultant by the County pursuant to this Agreement specifically includes compensation as consideration for the indemnification provided herein.

This Section 29 shall survive the expiration or termination of the Agreement.

SECTION 30 – NOTICES

Any notices to be given under this Agreement shall be in writing and delivered by United States Mail to the respective addresses referenced above. All such notices shall be sent to the designated project managers for each party.

SECTION 31 – INDEPENDENT CONSULTANT

Neither the County nor any of its employees shall have any control over the conduct of the Consultant or any of Consultant's employees, except as herein set forth. The Consultant and any and all Subconsultants are and shall be Independent Contractors in and throughout the performance of all work and services provided and performed pursuant to this Agreement. As Independent Contractors, the Consultant's and the Subconsultant's agents, servants, or employees shall not be deemed agents, servants, or employees of the County.

The Consultant does not have the power or authority to bind the County in any promise, agreement, or representation other than specifically provided for in this Agreement. The Consultant shall be responsible to the County for all the work or services performed by the

Consultant, or any person or firm engaged as a Subconsultant pursuant to this Agreement. The County shall not be liable to any Subconsultant, or any other person, firm, corporation, or other entity that contracts with or provides goods or services to the Consultant in connection with the work required to be performed pursuant to this Agreement. The County shall not be liable to any Subconsultant, or any other person, firm, corporation, or other entity for debts or claims accruing to such parties against the Consultant pursuant to any work or services performed under this Agreement.

SECTION 32 – E-VERIFY PROGRAM

A contractor or consultant entering into a contract with a public entity (such as the County) is required to be registered with the U.S. Department of Homeland Security's E-Verify System and to utilize it to verify the work authorization status of all newly hired employees throughout the term of the contract. The contractor or consultant shall also be required to obtain and retain affidavits from all subcontractors or subconsultants utilized during the contract verifying that they do not employ, contract with, or subcontract with any unauthorized aliens as that term is defined in 8 U.S.C.S. 1324a(h)(3). The failure to comply with this requirement constitutes grounds for termination of the contract and for such other penalties as provided under section 448.095, Fla. Stat.

If a public employer has terminated a contract with a contractor for failure to comply with the requirements of the paragraph above, the contractor may not be awarded a public contract for at least one year after the date on which the contract was terminated.

The County reserves the right to request verification of compliance from its consultants and contractors during the term of its contract with the County and for a period of up to five (5) years thereafter. Should a County-retained consultant, contractor, and/or its subconsultants be found to be non-compliant with E-Verify as part of a federal audit or other inquiry, the consultant, contractor and/or its subconsultant(s) will be solely responsible for the payment of any fines or costs imposed upon the county as a result of such non-compliance. Compliance with this section is mandatory for all projects.

SECTION 33 – MAINTENANCE OF RECORDS / COOPERATION WITH STATE AUDITS

The Consultant shall keep and maintain its accounting records and supporting documentation related to the services, work, information, expenses, costs, invoices, and materials provided and/or performed pursuant to the requirements of this Agreement for a minimum of five (5) years from the date of termination or expiration of this Agreement. The County, its authorized agents and representatives of federal and state agencies funding the Agreement ("Agencies") shall, with reasonable prior notice, have the right to audit, inspect and copy all such accounting records and supporting documentation as often as they deem reasonably necessary during the effective period of the Agreement and during the five (5) year period after the date of final payment or termination hereof. Any auditing, inspections, or copying of the Consultant's accounting records and supporting

documentation performed by the County or Agencies shall be conducted during normal business hours upon reasonable prior notice to the Consultant and shall be at the sole expense of the County or the Agencies.

The Consultant specifically acknowledges that by accepting a Task Order which will be funded through state funds, the Consultant and any subconsultants retained by it will agree to cooperate with any audit initiated by the Office of the Auditor General of the State of Florida or any successor office. Such cooperation includes any investigation, audit, inspection, review, or hearing pursuant to section 20.055(5), Florida Statutes.

SECTION 34 – WAIVER OF BREACH

Waiver by either party of a breach of any provision of this Agreement shall not be deemed as a waiver of any other breach and shall not be construed to be a modification of the terms of this Agreement.

SECTION 35 – EMERGENCIES

In the event that the Consultant's services are activated or requested during an event that disrupts essential operations, or when there is a threat to the public's health, welfare, or safety, or when normal purchasing procedures are not possible, or when there is a local, state, or federal declared state of emergency, the provisions of Section 2-101 of the Pasco County Code of Ordinances and any declaration of emergency, and orders issued thereto, shall apply and shall supersede as necessary, the terms and conditions of this Agreement.

SECTION 36 – FORCE MAJEURE

Neither the County nor the Consultant shall be liable for delay or their failure to perform hereunder due to circumstances beyond their respective control, such as Acts of God, governmental laws or orders, wars, riots, pandemics, national emergencies, strikes, or accidents. The County or the Consultant may suspend their respective performance under this Agreement as a result of a force majeure and shall resume performance as soon as is reasonably possible. The delayed party must notify the other party promptly upon the occurrence of any such circumstance and inform the other party of its plans to resume performance; otherwise, performance by the delayed party will not be considered excused pursuant to this Section.

Should the Consultant be obstructed or delayed in the prosecution or completion of its obligations under this Agreement as a result of causes not due to its own fault or neglect, the Consultant shall notify the County in writing within seven (7) calendar days after commencement or discovery of such delay, stating the cause(s) therefore and requesting an extension of the Consultant's time of performance. Causes beyond the control of the Consultant shall include, but are not limited to, court orders and injunctions, actions or rulings

of any federal, state or municipal authority (including the County) having jurisdiction over any project and/or any Force Majeure event as delineated in this Section.

Upon receipt of the Consultant's request for an extension of time for cause(s) beyond the control of the Consultant, the County Administrator shall have the discretion to grant an extension of time only if the County determines the delay encountered by the Consultant was not due to its own fault or neglect. All other extensions of time must be approved by the Board of County Commissioners.
No interruption, interference, inefficiency, suspension, or delay in the commencement or progress of the Consultant's services for any cause whatsoever, including those for which the County, including any of its agents or employees, may be responsible in whole or in part, shall relieve the Consultant of its duty to perform or give rise to any right to damages or additional compensation from the County.

The Consultant's sole remedy against the County in the event of such interruption, interference, inefficiency, suspension, or delay in the commencement or progress of such services shall be the right to seek an extension of the time only, as included in any affected Task Order. However, such extension shall not operate as a waiver of any other rights of the County. This section shall expressly apply to claims for early completion, as well as claims based on late completion. The County shall not be responsible for any consequential damages or loss in profits incurred by the Consultant from such delays.

SECTION 37 – OWNERSHIP OF DOCUMENTS

All documents, such as drawings, tracings, notes, photographs, computer files, plans, specifications, maps, evaluations, reports, and other records and data relating to this Agreement shall become the property of the County and shall be delivered by the Consultant to the County within thirty (30) calendar days of completion of the Project or within seven (7) calendar days of the County making a request for said document delivery, whichever is applicable. In the event the County gives the Consultant a written Notice of Termination pursuant to Section 23 of this Agreement, or upon issuance to the Consultant by the County of a written Modification or Change Order which deletes all or part of the work or services required, the Consultant shall deliver to the County any and all documents listed above with the mutual understanding and commitment by the County that compensation earned or owing to the Consultant for services provided or performed by the Consultant pursuant to this Agreement prior to the date of any such termination will be paid to the Consultant as provided in Section 23 and within sixty (60) calendar days of the date of issuance of the Notice of Termination.

The Consultant, at its expense, may make and retain copies of all documents delivered to the County for the Consultant's reference and internal use. The Consultant shall not use any of these documents and/or data or information contained therein on any other project or for any other client without the prior expressed written permission of the County.

SECTION 38 – HEADINGS

The headings of the articles, sections, subsections, exhibits, and/or attachments contained in this Agreement are for the purpose of convenience only and shall not be deemed to expand, limit, or change the provisions contained in such articles, sections, subsections, exhibits and/or attachments.

SECTION 39 – EVALUATION OF THE CONSULTANT

The County shall perform a performance evaluation of the Consultant. The evaluation shall be forwarded to the Consultant for their records.

SECTION 40 – SEVERABILITY

In the event any one or more of the provisions contained in this Agreement shall for any reason be held invalid, illegal, or unenforceable in any respect, the invalidity, illegality, or unenforceability shall not affect any other provision and this Agreement shall be construed as if the invalid, illegal, or unenforceable provision had never been contained in it.

SECTION 41 – EXECUTION IN COUNTERPARTS

For the convenience of the parties and to facilitate execution, this Agreement may be executed in two (2) or more counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same document.

SECTION 42 – ENTIRE AGREEMENT

This Agreement, including all referenced exhibits and attachments hereto, any written amendments, modifications, or addenda to it, and all the documents referenced in Section 12, constitutes the entire Agreement between the County and the Consultant and shall supersede, replace, and nullify any and all prior agreements or understandings, written and oral, relating to the matters set forth herein. Prior agreements or understandings, if any, shall have no force or affect whatsoever on this Agreement.

SECTION 43- SCRUTINIZED COMPANIES

Pursuant to section 287.135, Florida Statutes, by accepting this Agreement, Consultant certifies that: (1) it is not on the Scrutinized Companies that Boycott Israel List, created pursuant to section 215.4725, Florida Statutes; (2) it is not participating in a boycott of Israel; (3) it is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Terrorism Sectors List, created pursuant to section 215.473, Florida Statutes; and (4) it is not engaged in business operations in Cuba or Syria.

The County reserves the right to terminate this Agreement if the County finds that: (1) any of

the above certifications are false; (2) Consultant has been placed on the Scrutinized Companies that Boycott Israel List; (3) Consultant is engaged in a boycott of Israel; (4) Consultant has been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Terrorism Sectors List; or (5) Consultant is engaged in business operations in Cuba or Syria. Notwithstanding the foregoing, the Parties are aware of the Eleventh Circuit Court's decision in Odbrecht Constr. v. Sec'y, Fla. DOT, 715 F.3d 1268 (11th Cir. Fla. 2013), and agree that the provisions of sections 287.135(1)-(5), F.S., pertaining to a company engaged in business operations in Cuba or Syria shall not apply to this Agreement unless and until the Eleventh Circuit Court's decision in Odebrecht Constr. v. Sec'y, Fla.DOT, 715 F.3d 1268 (11th Cir.Fla. 2013) is overturned.

SECTION 44- COUNTRIES OF CONCERN

As required by section 286.101, Florida Statutes, for contracts of $100,000.00 or more, contractors shall disclose to the County any current or prior interest of, any contract with, or any grant or gift received from a foreign country of concern if such interest, contract, or grant or gift has a value of $50,000 or more and such interest existed at any time or such contract or grant or gift was received or in force at any time during the previous 5 years ("Item"). "Foreign country of concern" means the People's Republic of China, the Russian Federation, the Islamic Republic of Iran, the Democratic People's Republic of Korea, the Republic of Cuba, the Venezuelan regime of Nicolás Maduro, or the Syrian Arab Republic, including any agency of or any other entity under significant control of such foreign country of concern. Consultant, by executing this Agreement, affirms that it has not received an Item from a foreign country of concern.

SECTION 45- CONVICTED VENDOR LIST (PUBLIC ENTITY CRIME)

In accordance with section 287.133, Florida Statutes, a person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in s. 287.017 for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list. Consultant certifies that it is not on the convicted vendor list.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** COR26-0013 **DATE:** 6/16/2026

SUBJECT: Off-Site Inmate Housing – Fourth Amendment to Interlocal Agreement – Hernando County Sheriff's Office and Additional Purchasing Authority – Hernando County Sheriff's Office and Seminole County Sheriff's Office – $1,067,200.00

REFERENCES: CA22-5030, COR23-0009, COR24-0015, COR25-0012, NI23-0406, COR25-0010

AGENDA SECTION: Consent Agenda

THRU: Joanna Cheshire, Assistant County Administrator (Public Safety)

FROM: Stacey Jenkins, Chief Corrections Officer

RECOMMENDED BOARD ACTION:

Approve the Fourth Amendment to the Interlocal Agreement between the Hernando County Sheriff's Office (HCSO) and the Pasco County Board of County Commissioners (BOCC) for housing inmates at the Hernando County Detention Center. Approve additional purchasing authority for **all** off-site inmate housing provided by HCSO at the Hernando County Detention Center and housing provided by the Seminole County Sheriff's Office (SCSO) at the John E. Polk Correctional Facility in the cumulative Not to Exceed (NTE) amount of $1,067,200.00 for Fiscal Year (FY) 2027.

Authorize the Chairman to execute two original agreements and direct the Board Records Department to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On September 6, 2022, the Board of County Commissioners (BOCC) delegated authority to the County Administrator to execute jail-related interlocal agreements and contracts received after September 6, 2022.

On November 4, 2022, the County Administrator executed the interlocal agreement between HCSO and the BOCC to allow HCSO to receive and house Pasco County inmates at the Hernando County Detention Center to relieve overcrowding at the County Detention Facility. The agreement was for a one-year contract term ending September 30, 2023, which included an option to be extended by mutual written consent of both parties.

On September 5, 2023, the BOCC executed the first amendment to the interlocal agreement between HCSO and the BOCC. The amendment extended the contract term for one year ending September 30, 2024, and included an option of extension by mutual written consent of both parties.

On May 7, 2024, the BOCC executed a second amendment to the interlocal agreement between HCSO and the BOCC. The agreement was for a one-year contract term ending September 30, 2025, and included an option to be extended by mutual written consent of both parties.

On September 16, 2025, the BOCC executed the third amendment to the interlocal

agreement between HCSO and the BOCC to allow HCSO to receive and house Pasco County inmates at the Hernando County Detention Center to relieve overcrowding at the County Detention Facility. The agreement was for a one-year contract term ending September 30, 2026, which included an option to be extended by mutual written consent of both parties. Due to current inmate housing constraints impacted by construction renovation, the Corrections Department, through the fourth amendment, is requesting approval to extend the Agreement term to September 30, 2027.

On September 16, 2022, the County Administrator executed the interlocal agreement between SCSO and the County to allow SCSO to receive and house Pasco County inmates at the John E. Polk Correctional Facility to relieve overcrowding at the County Detention Facility. The agreement was for a three-year contract term ending September 30, 2025, which included an option to be extended by mutual written consent of both parties. On August 5, 2025, the BCC approved the first amendment to the interlocal agreement between SCSO and the BOCC for an additional two-year contract term ending on September 30, 2027, which included the NTE amount of $2,901,750.00 for FY2026.

The Corrections Department, with concurrence from the Purchasing Department, requests approval of the fourth amendment to the agreement with HSCO. Additionally, the Corrections Department requests additional purchasing authority for off-site inmate housing with HSCO and SCSO in the cumulative NTE amount of $1,067,200.00. This request will allow the Corrections Department to house inmates at either off-site location while construction prohibits use of inmate housing areas due to construction renovations during FY 2027.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding in the amount of $1,067,200.00 will be budgeted for FY 2027 in the General Fund, Corrections Account, contingent upon Board approval of the budget.

DISTRIBUTION:

1. Retain one original
2. Mail one original to:

Karen Teele, Administrative Assistant
Hernando County Sheriff's Office Detention Center
16425 Spring Hill Drive
Brooksville, FL 34604

FOURTH AMENDMENT TO THE INTERLOCAL AGREEMENT BETWEEN THE BOARD OF COUNTY COMMISSIONERS OF PASCO COUNTY
AND THE
HERNANDO COUNTY SHERIFF'S OFFICE
FOR HOUSING INMATES IN THE HERNANDO COUNTY DETENTION CENTER

THIS FOURTH AMENDMENT of the Interlocal Agreement for Housing Inmates in the Hernando County Detention Center (the AGREEMENT) is made and entered into by and between the Pasco County Board of County Commissioners (the "BOARD") and Al Nienhuis, Sheriff of Hernando County, ("HCSO"), whose address is 18900 Cortez Boulevard, Brooksville, Florida 34601.

WHEREAS, the BOARD has a need to relieve overcrowding in BOARD's Detention Facility; and

WHEREAS, HCSO has capacity in the Hernando County Detention Center to accept additional inmates in order to assist the BOARD; and

WHEREAS, Sections 163.01(4) and 163.01(5), Florida Statutes, authorize local governmental units to ensure the most efficient use of the powers by enabling them to cooperate with other localities on a basis of mutual advantage.

WHEREAS, the Parties hereby agree to renew the AGREEMENT as set forth herein.

NOW THEREFORE, the Parties agree to amend the AGREEMENT as follows:

1. Recitals. The above recitals are true and correct and are incorporated herein by reference.

2. Pursuant to Section 3 of the AGREEMENT, the Parties hereby agree to extend the AGREEMENT for an additional one (1) year period beginning October 1, 2026, and ending September 30, 2027.

3. Section 11, Sentence 1 is amended to read, The BOARD shall pay HCSO a rate of one hundred sixteen dollars ($116.00) per day per inmate, except for any days where the BOARD is paying HCSO to house the inmate in a hospital or other medical or mental health facility.

4. The terms, covenants, and conditions set forth in the AGREEMENT are hereby ratified and confirmed in their entirety unless changed or modified in this Amendment. The AGREEMENT, as amended, shall remain in full force and effect until the Amendment's expiration on September 30, 2027.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed by the proper officers and officials.

Clerk & Comptroller

INTERLOCAL AGREEMENT
BETWEEN THE HERNANDO COUNTY SHERIFF'S OFFICE
AND THE
PASCO COUNTY BOARD OF COUNTY COMMISSIONERS
FOR HOUSING INMATES IN THE HERNANDO COUNTY DETENTION CENTER

THIS AGREEMENT is an interlocal agreement made and entered by and between Al Nienhuis, Sheriff of Hernando County, hereinafter referred to as "HCSO", a Constitutional Officer of the political subdivision of Hernando County, Florida, whose address is 18900 Cortez Boulevard, Brooksville, Florida 34601, and the Pasco County Board of County Commissioners, hereinafter referred to as "the BOARD", whose address is 8731 Citizens Drive, New Port Richey, Florida 34654, to allow HCSO to receive inmates from the BOARD to be housed at the Hernando County Detention Facility.

WHEREAS, the BOARD has a need to relieve overcrowding in their Detention Facility; and

WHEREAS, HCSO has capacity in the Hernando County Detention Center to accept additional inmates in order to assist the BOARD; and

WHEREAS, Sections 163.01(4) and 163.01(5), Florida Statutes, authorizes local governmental units to ensure the most efficient use of their powers by enabling them to cooperate with other localities on a basis of mutual advantage.

NOW, THEREFORE, in consideration of the mutual understanding and agreements set forth herein, the parties agree as follows:

Section 1. Recitals. The foregoing recitals are true and correct and form a material part of this Agreement upon which the parties have relied.

Section 2. Purpose. The purpose of this Agreement is to outline the responsibilities of each party involved in the Agreement.

Section 3. Agreement Term. The term of this Agreement will begin upon the date the Agreement is filed with the clerk of the circuit court of Pasco and Hernando counties in accordance with Section 163.01(11), Florida Statutes, and shall end on September 30, 2023 or until such time as HCSO or the BOARD desires to end the Agreement in accordance with the termination provision set forth in Section 10 of this Agreement. This Agreement may be extended upon mutual consent in writing by the parties.

Section 4. Cooperation. It is agreed that the parties shall provide all reasonable and necessary cooperation and assistance so as to facilitate the terms of this Agreement.

Section 5. The BOARD'S Responsibilities. The BOARD agrees to the following:

a. Provide all inmate transportation to and from the Hernando County Detention

Facility of Pasco County Inmates as defined herein.

b. Ensure the BOARD's inmates to be relocated to the Hernando County Detention Center meet the following criteria:

1. Pre-trial misdemeanor or felony classified inmates; however, sentenced inmates are preferred.

2. No current or ongoing disciplinary issues.

3. Have no known extensive medical issues.

c. The BOARD hereby grants permission to allow all of the BOARD'S inmates to work in Hernando County while housed at the Hernando County Detention Center as "inmate workers," who may be called upon to complete various tasks around the jail, including, but not limited to, maintenance services, cleaning services, laundry services, and kitchen/food preparation.

d. Upon request of HCSO, to remove, within 48 hours, any of the BOARD's inmate(s) who is a discipline problem, has intense medical needs, or is any way disruptive to the operation of the Hernando County Detention Center.

e. Provide hospital supervision to hospitalized BOARD's inmates within six (6) hours of notification by HCSO.

f. To remit timely payment to HCSO for the BOARD's inmates housed by HCSO as delineated in this Agreement.

g. To reimburse HCSO for all the BOARD's inmate medical expenses from outside medical professionals and hospital supervision expenses while in the custody of HCSO.

Section 6. HCSO Responsibilities. HCSO agrees to the following:

a. To accept up to one hundred **(100)** inmates from the BOARD on a space available basis, as determined by HCSO.

b. To provide shelter, food, supervision, and medical care to the BOARD'S inmates in HCSO custody.

c. In the event a BOARD'S inmate suffers a medical emergency, transport the inmate to the nearest hospital and provide hospital supervision for up to six (6) hours.

Section 7. Indemnification. To the extent permitted by law without waiver of

sovereign immunity provided in Section 768.28, Florida Statutes, the parties agrees to indemnify and hold harmless the other parties to the extent they incur liability as a result of any negligence, violation of civil rights, intentional actions, or other fault of the party or its agents, servants or employees arising out of the performance of this Agreement.

Section 8. Governing Law. This Agreement shall be governed by and construed with the laws of the State of Florida. Venue shall be in Hernando County for any lawsuit filed by HCSO, and venue shall be Pasco County for any lawsuit filed by the BOARD. In the event of a dispute, each party is responsible for their own attorney's fees and costs.

Section 9. Notices. Whenever any party desires to give notice unto the other party, notice shall be sent to:

For HCSO:
Shaun Klucznik, Major
Hernando County Sheriff's Office
18900 Cortez Blvd.
Brooksville, Florida 34601

For the Board:
Kimberlie Miller
Senior Purchasing Agent
7536 State Street
New Port Richey, FL 34564

Section 10. Termination. HCSO or the BOARD may terminate this Agreement upon providing ten (10) days written notice to the other party.

Section 11. Compensation. The BOARD shall pay HCSO a rate of $75.00 per day per inmate, except for any days where the BOARD is paying HCSO to house the inmate in a hospital or other medical or mental health facility. The BOARD shall additionally reimburse HCSO for all of the BOARD'S inmate medical expenses from outside medical professionals and hospital supervision expenses. HCSO invoices for medical expenses shall include an invoice from the medical provider showing the name of the BOARD'S inmate that received the medical care and the date(s) ~~that~~ such medical care was provided.

Invoices shall be sent by HCSO on a monthly basis to the following address:

Pasco County Board of County Commissioners
Attn: Finance Department
20101 Central Boulevard
Land O Lakes, FL 34637

PSO shall remit payment within forty-five (45) days of receipt of invoice to the following address:

Hernando County Sheriff's Office
Attn: Finance Department
18900 Cortez Blvd.
Brooksville, Florida 34601

Section 12. Entire Agreement. It is understood and agreed the entire Agreement of the parties is contained herein and this Agreement supersedes all oral agreements and negotiations between the parties relating to the subject matter hereof, as well any previous Agreement presently in effect between the parties relating to the subject matter hereof. Any alterations, amendments, deletions or waivers of the provisions of this Agreement shall be valid only when expressed in writing, approved by the respective parties, and duly executed on behalf of each party as set forth herein.

IN WITNESS HEREOF, the parties hereto have caused this agreement to be executed by the proper officers and officials.

THIRD AMENDMENT TO THE INTERLOCAL AGREEMENT BETWEEN THE BOARD OF COUNTY COMMISSIONERS OF PASCO COUNTY
AND THE
HERNANDO COUNTY SHERIFF'S OFFICE
FOR HOUSING INMATES IN THE HERNANDO COUNTY DETENTION CENTER

THIS THIRD AMENDMENT of the Interlocal Agreement for Housing Inmates in the Hernando County Detention Center (the AGREEMENT) is made and entered into by and between the Pasco County Board of County Commissioners (the "BOARD") and Al Nienhuis, Sheriff of Hernando County, ("HCSO"), whose address is 18900 Cortez Boulevard, Brooksville, Florida 34601.

WHEREAS, the BOARD has a need to relieve overcrowding in BOARD's Detention Facility; and

WHEREAS, HCSO has capacity in the Hernando County Detention Center to accept additional inmates in order to assist the BOARD; and

WHEREAS, Sections 163.01(4) and 163.01(5), Florida Statutes, authorize local governmental units to ensure the most efficient use of the powers by enabling them to cooperate with other localities on a basis of mutual advantage.

WHEREAS, the Parties hereby agree to renew the AGREEMENT as set forth herein.

NOW THEREFORE, the Parties agree to amend the AGREEMENT as follows:

1. Recitals. The above recitals are true and correct and are incorporated herein by reference.

2. Pursuant to Section 3 of the AGREEMENT, the Parties hereby agree to extend the AGREEMENT for an additional one (1) year period beginning October 1, 2025 and ending September 30, 2026.

3. Section 11, Sentence 1 is amended to read, The BOARD shall pay HCSO a rate of ninety-five dollars ($95.00) per day per inmate, except for any days where the BOARD is paying HCSO to house the inmate in a hospital or other medical or mental health facility.

4. The terms, covenants, and conditions set forth in the AGREEMENT are hereby ratified and confirmed in their entirety unless changed or modified in this Amendment. The AGREEMENT, as amended, shall remain in full force and effect until the Amendment's expiration on September 30, 2026.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed by the proper officers and officials.

INTEROFFICE MEMORANDUM

RECEIVED
NOV 17 2022
PASCO COUNTY, CLERK & COMPTROLLER

TO: Michael Carballa, County Administrator DATE: 11/01/2022

FROM: Kimberlie Miller, Assistant Purchasing Director

SUBJECT: Executing the Hernando County Sheriff's Office Inmate Housing Agreement

---

Please execute the two (2) original Inmate Housing Agreements (Agreements) with Hernando County Sheriff's Office, to receive inmates from the Pasco County Board of County Commissioners Detention Center when they have overcrowding, for a one-year contract term, ending September 30, 2023.

On September 6, 2022, the Board of County Commissioners delegated authority to the County Administrator to execute those jail-related contracts received after September 6, 2022.

Please distribute as set forth below:

1. Send one original to Board Records
2. Interoffice mail one (1) original to Kimberlie Miller in Purchasing

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** CA22-5030 **DATE:** 9/6/2022

SUBJECT: Interlocal Agreement - Pasco County and the Pasco Sheriff's Office - Transfer of the Pasco County Detention Facility and all Correctional Operations

REFERENCES: Not Applicable

AGENDA SECTION: Addendum Consent Items will be approved concurrently with the 9/6/22 BCC Agenda Consent Items with a single vote.

FROM: Mike Carballa, Interim County Administrator

RECOMMENDED BOARD ACTION:

Approve the Interlocal Agreement with the Pasco Sheriff's Office related to the transfer of the Pasco County Detention Facility and all Correctional Operations (ILA); authorize the Chairman to execute the ILA and those jail-related contracts in Exhibit "F" to the ILA that can be executed as of September 6, 2022 (which have a Chairman signature block); delegate authority to the County Administrator to execute those jail-related contracts in Exhibit "F" to the ILA that must be executed after September 6, 2022 (which have a County Administrator signature block); and direct Board Records to distribute as set forth under the Distribution section.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On April 6th, 2022, the Pasco County Sheriff (PSO) notified the Board of County Commissioners (BCC) of the intent to transfer the Pasco County Detention Facility and all Correctional Operations from the PSO to the County.

On June 7th and July 12th, 2022, the BCC approved resolutions evidencing its intent to assume the Pasco County Detention Facility and all Correctional Operations from the PSO.

The purpose of the Interlocal Agreement is to ensure an orderly transfer of responsibility for the Pasco County Detention Facility and all Correctional Operations; and to further delineate the respective obligations and liabilities of each Party. Upon execution of this Interlocal Agreement, effective October 1, 2022, the County will assume all duties and responsibilities of the management and operation of the Pasco County Detention Facility and all Correctional Operations.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Funding will be budgeted and available in the General Fund, Corrections Department, Other Contracted Services upon approval of the FY23 Budget.

DISTRIBUTION:

Board Records to distribute as set forth below:

1. Retain One Original
2. Mail an Original of the executed Contracts to:

Kimberlie Miller, Senior Purchasing Agent
7536 State Street

New Port Richey, FL 34654

3. Copies of the executed Interlocal Agreement and Contracts electronically to:

FIRST AMENDMENT TO THE INTERLOCAL AGREEMENT BETWEEN THE SEMINOLE COUNTY SHERIFF'S OFFICE AND THE PASCO COUNTY BOARD OF COUNTY COMMISSIONERS FOR HOUSING INMATES IN THE JOHN E. POLK CORRECTIONAL FACILITY

THIS FIRST AMENDMENT of the Interlocal Agreement for Housing Inmates in the John E. Polk Correctional Facility (the AGREEMENT) is made and entered into by and between Dennis M. Lemma, Sheriff, on behalf of the Seminole County Sheriff's Office, hereinafter referred to as "SCSO," a Constitutional Officer of the political subdivision of Seminole County, Florida, whose address is 100 Eslinger Way, Sanford, Florida 32773, and Pasco County Board of County Commissioners, hereinafter referred to as "PASCO," whose address is 8731 Citizen Drive, New Port Richey, Florida 34654.

WHEREAS, the Parties entered into Agreement on September 18, 2022, which is attached hereto and incorporated herein, to house Pasco County Corrections inmates at the John E. Polk Correctional Facility,

WHEREAS, PASCO has a continuing need to relieve overcrowding in their Detention Facility; and

WHEREAS, SCSO has capacity in the John E. Polk Correctional Facility to accept additional inmates in order to assist PASCO; and

WHEREAS, Sections 163.01(4) and 163.01(5), Florida Statutes, authorize local governmental units to ensure the most efficient use of the powers by enabling them to cooperate with other localities on a basis of mutual advantage.

WHEREAS, the Parties hereby agree to renew the AGREEMENT as set forth herein.

NOW THEREFORE, the Parties agree to amend the AGREEEMENT as follows:

1. Recitals. The above recitals are true and correct and are incorporated herein by reference.

2. Pursuant to Section 3 of the Agreement, the Parties hereby agree to extend the Agreement for an additional two (2) years from the expiration date of September 30, 2025, under like terms.

3. Section 11 is amended to read, PASCO shall pay SCSO a rate of one hundred and six dollars ($106.00) per day per inmate, in accordance with the current approved federal rate, except for any days where PASCO is paying SCSO to house the inmate in a hospital. Any changes to the current rate will be provided in writing with a thirty (30) day written notice.

   PASCO shall additionally reimburse SCSO for all PASCO inmate medical expenses from outside medical professionals and hospital supervision expenses. SCSO invoices for medical expenses shall include an invoice from the medical provider showing the name of the PASCO inmate that received the medical care and the date(s) that such medical care was provided.

4. The terms, covenants, and conditions set forth in the AGREEMENT are hereby ratified and confirmed in their entirety unless changed or modified in this Amendment. The AGREEMENT, as amended, shall remain in full force and effect until the Amendment's expiration on September 30, 2027.

IN WITNESS HEREOF, the Parties hereto have caused this agreement to be executed by the proper officers and officials.

AGREEMENT BETWEEN THE SEMINOLE COUNTY SHERIFF'S OFFICE AND THE PASCO COUNTY BOARD OF COUNTY COMMISSIONERS FOR HOUSING INMATES IN THE JOHN E. POLK CORRECTIONAL FACILITY

THIS AGREEMENT is made and entered by and between Dennis M. Lemma, Sheriff, on behalf of the Seminole County Sheriff's Office, hereinafter referred to as "SCSO", a Constitutional Officer of the political subdivision of Seminole County, Florida, whose address is 100 Eslinger Way, Sanford, Florida 32773, and Pasco County Board of County Commissioners, hereinafter referred to as "PASCO", whose address is 8731 Citizens Drive, New Port Richey, Florida 34654.

WITNESSETH

WHEREAS, PASCO has a need to relieve overcrowding in their Detention Facility; and

WHEREAS, SCSO has capacity in the John E. Polk Correctional Facility to accept additional inmates in order to assist PASCO; and

WHEREAS, Sections 163.01(4) and 163.01(5), Florida Statutes, authorizes local governmental units to ensure the most efficient use of their powers by enabling them to cooperate with other localities on a basis of mutual advantage.

NOW, THEREFORE, in consideration of the mutual understanding and agreements set forth herein, the parties agree as follows:

Section 1. Recitals. The foregoing recitals are true and correct and form a material part of this Agreement upon which the parties have relied.

Section 2. Purpose. The purpose of this Agreement is to outline the responsibilities of each party involved in the Agreement.

Section 3. Agreement Term. The term of this Agreement will begin upon the date the Agreement is filed with the clerk of the circuit court of Pasco and Seminole counties in accordance with Section 163.01(11), Florida Statutes, and shall end on September 30, 2025 or until such time as SCSO or PASCO desires to end the Agreement in accordance with the termination provision set forth in Section 10 of this Agreement. This Agreement may be extended upon mutual consent in writing by all parties.

Section 4. Cooperation. It is agreed that all parties shall provide all reasonable and necessary cooperation and assistance so as to facilitate the terms of this Agreement.

Section 5. PASCO Responsibilities. PASCO agrees to the following:

a. Provide all PASCO inmate transportation to and from the John E. Polk Correctional Facility.

b. Ensure PASCO inmates to be relocated to the SCSO Correctional Facility meet the following criteria:
    1. Non-violent pre-trial felony inmates who are minimum/medium custody inmates. Sentenced inmates are preferred.
    2. Have no known severe or violent disciplinary issues.
    3. Have no known extensive medical issues.

c. PASCO hereby grants permission to allow all PASCO inmates to work in Seminole County while housed at the John E. Polk Correctional Facility as "inmate workers," who may be called upon to complete various tasks around the Facility, including, but not limited to, maintenance services, cleaning services, laundry services, and kitchen/food preparation.

d. Upon request of SCSO, to remove, within 48 hours, any PASCO inmate who is a discipline problem, has intense medical needs, or is any way disruptive to the operation of the John E. Polk Correctional Facility.

e. Provide hospital supervision to hospitalized PASCO inmates within six (6) hours of notification by SCSO.

f. To remit timely payment to SCSO for PASCO inmates housed by SCSO as delineated in this Agreement.

g. To reimburse SCSO for all PASCO inmate medical expenses from outside medical professionals and hospital supervision expenses while in the custody of SCSO.

Section 6. SCSO Responsibilities. SCSO agrees to the following:

a. To accept up to seventy-five (75) inmates from PASCO on a space available basis, as determined by SCSO.

b. To provide shelter, food, supervision, and medical care to PASCO inmates in SCSO custody.

c. In the event a PASCO inmate suffers a medical emergency, transport the inmate to the nearest hospital and provide hospital supervision for up to six (6) hours.

Section 7. Indemnification. To the extent permitted by law without waiver of sovereign immunity provided in Section 768.28, Florida Statutes, the parties agree to indemnify and hold harmless the other party to the extent they incur liability as a result of any negligence, violation of civil rights, intentional actions, or other fault of the party or its agents, servants or employees arising out of the performance of this Agreement.

Section 8. Governing Law. This Agreement shall be governed by and construed with the laws of the State of Florida. Venue shall be Seminole County for any litigation filed by SCSO and in Pasco County for any litigation filed by PASCO. In the event of a dispute, each party is responsible for their own attorney's fees and costs.

Section 9. Notices. Whenever any party desires to give notice unto the other party, notice may be sent to:

For SCSO:
Laura Bedard, Chief of Corrections
Seminole County Sheriff's Office
100 Eslinger Way
Sanford, Florida 32773

For PASCO:
Stacey Jenkins, Chief Correctional Officer
Pasco County Corrections
20101 Central Blvd
Land O' Lakes, FL, 34637

Section 10. Termination. SCSO or PASCO may terminate this Agreement upon providing ten (10) days written notice to the other party.

Section 11. Compensation. PASCO shall pay SCSO a rate of one hundred and six dollars ($106.00) per day per inmate, except for any days where PASCO is paying SCSO to house the inmate in a hospital. PASCO shall additionally reimburse SCSO for all PASCO inmate medical expenses from outside medical professionals and hospital supervision expenses. SCSO invoices for medical expenses shall include an invoice from the medical provider showing the name of the PASCO inmate that received the medical care and the date(s) that such medical care was provided.

Invoices shall be sent by SCSO on a monthly basis to the following address:

Pasco County Board of County Commissioner
Accounts Payable Dept
PO Box 1554
Dade City, FL 33526-1554

PSO shall remit payment within forty-five (45) days of receipt of invoice to the following address:

Seminole County Sheriff's Office
Attn: Fiscal Services – Special Accounts
100 Eslinger Way
Sanford, Florida 32773

Section 12. Entire Agreement. It is understood and agreed the entire Agreement of the parties is contained herein and this Agreement supersedes all oral agreements and negotiations between the parties relating to the subject matter hereof, as well as any previous Agreement presently in effect between the parties relating to the subject matter hereof. Any alterations, amendments, deletions or waivers of the provisions of this Agreement shall be valid only when

expressed in writing, approved by the respective parties, and duly executed on behalf of each party as set forth herein.

IN WITNESS HEREOF, the parties hereto have caused this agreement to be executed by the proper officers and officials.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** HS26-0019 **DATE:** 6/16/2026

SUBJECT: SHINE Partnership Agreement – Area Agency on Aging of Pasco-Pinellas, Inc. – To Provide Medicare Counselors for Citizens of Pasco County and Counseling Sites – No Funding Required

REFERENCES: Memorandum No. HS21-0122

AGENDA SECTION: Consent Agenda

THRU: Catherine Pearson, Assistant County Administrator

FROM: Brian Hoben, Director of Community Services

RECOMMENDED BOARD ACTION:

Approve the SHINE Partnership Agreement between Area Agency on Aging Pasco-Pinellas, Inc. and the Pasco County Board of County Commissioners to allow elderly Pasco County residents to receive valuable information and counseling regarding their Medicare eligibility and benefits at County facilities. Authorize the Chairman to execute the four (4) originals of the Agreement, and direct Board Records to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

The Florida Department of Elder Affairs and Florida's eleven local Area Agencies on Aging, through the Serving Health Insurance Needs of Elders ("SHINE") Program, train and certify a network of Medicare and health benefit counselors, mostly volunteers, who provide elders and their families with information, counseling, and assistance regarding health insurance and health benefit options. These services are free of charge or obligation, unbiased, and confidential. Regional SHINE programs, operated under contract through the State's eleven Area Agencies on Aging, supervise and support local SHINE counselors.

The purpose of this Agreement is to ensure the continued implementation of the SHINE Program in Pasco County, as well as to expand the existing partnership between Area Agency on Aging Pasco-Pinellas, Inc.and the BCC. The Human Services Division plans to promote the SHINE program wherever possible and oversee scheduling to ensure County office locations are available for counseling and implementation of this viable program.

This Agreement will allow SHINE volunteers to provide valuable information and counseling assistance to Medicare beneficiaries and their representatives. Pasco County's elderly citizens, particularly the underserved, will also be able to take advantage of prescription assistance and other health benefit savings programs. This Agreement will specifically allow SHINE services to be offered at a variety of Pasco County Government offices, starting with Human Services at the Youth Lane (Port Richey), Land O'Lakes, and Dade City locations. The Agreement will last for one year upon execution and automatically renew for the same term each year thereafter unless terminated by either party.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Funding is not required for this action.

DISTRIBUTION:
Board Records to distribute as set forth below:

1. Retain one original;

2. Mail three originals to:

Ms. Ann Marie Winter, Executive Director
Area Agency on Aging of Pasco-Pinellas, Inc.
9549 Koger Boulevard
Suite 100, Gadsden Building
St. Petersburg, FL 33702
Telephone (727) 570-9696
Federal ID No. 31-1710636

The AAAPP will execute the three original agreements. Once fully-executed, one agreement will be retained by AAAPP. The two remaining fully-executed agreements are to be returned by AAAPP to the Pasco County Public Services Branch, Human Services Division, Port Richey. Human Services will retain one fully-executed contract and distribute the final contract to Board Records via courier.

ATTACHMENT(S):
1. HS26-0019 SHINE Partnership Agreement

SHINE Partnership Agreement

Between

Area Agency on Aging of Pasco-Pinellas, Inc. And

Pasco County

SECTION I – Purpose

The Florida Department of Elder Affairs (Elder Affairs), through the Serving Health Insurance Needs of Elders (SHINE) Program, trains and certifies a statewide network of Medicare benefit counselors, primarily volunteers who provide free, unbiased information, counseling, and assistance on Medicare and related health insurance options. Local SHINE Programs, operated under contract with Florida's eleven Area Agencies on Aging, oversee and support SHINE counselors in their regions.

This SHINE Partnership Agreement (Agreement) is made and entered into by and between the Area Agency on Aging of Pasco-Pinellas, Inc. and Pasco County, Florida, a political subdivision of the State of Florida by and through its Board of County Commissioners (Pasco County). The purpose of this Agreement is to enhance outreach, education, and enrollment assistance for Medicare beneficiaries who qualify under the Medicare Improvements for Patients and Providers Act (MIPPA). These individuals include those with limited income and resources, and/or those residing in rural areas, who may be eligible for Medicare cost-saving programs such as the Medicare Savings Programs (MSPs), Part D Low-Income Subsidy (LIS/Extra Help), and other preventive and wellness benefits.

This Agreement outlines the shared purpose, goals, and responsibilities under which the Partnership between the Area Agency on Aging of Pasco-Pinellas, Inc. and Pasco County will operate. Specifically, it reflects a joint commitment to expanding MIPPA-related activities aimed at reaching and assisting Medicare beneficiaries who are low-income and/or residing in rural or underserved areas. The goal is to ensure these individuals, their families, and their caregivers receive timely and accurate support in accessing Medicare cost-saving programs and understanding their healthcare benefits.

In consideration of our shared mission to improve the health, well-being, and financial savings of Florida's most vulnerable older adults, the Area Agency on Aging of Pasco-Pinellas, Inc. and Pasco County agree to work collaboratively to enhance the reach and effectiveness of MIPPA outreach, education, and enrollment efforts as follows:

SECTION II - Services

- Pasco County SHALL *(Please check all that apply under this agreement):*
  - ☐ Identify individuals likely eligible for Medicare Part D, LIS or MSP.
  - ☒ Complete training on applicable benefit programs, statutory changes, and target populations.
  - ☐ Provide direct LIS or MSP application assistance.
  - ☒ Refer individuals to the Area Agency on Aging of Pasco-Pinellas, Inc. through the Florida Elder Helpline (1-800-963-5337) for counseling and assistance when a SHINE counselor is not available at the site.

  Support the Area Agency on Aging of Pasco-Pinellas, Inc. in developing or conducting outreach and enrollment activities.
  - ☒ Display or distribute SHINE/MIPPA Program and Medicare related materials.
  - ☒ Provide a space conducive to conducting training and/or educational presentations.
  - ☐ Provide counselors with access to office supplies and equipment to assist with the counseling process.
  - ☒ Provide Internet access at the site location (if necessary).
  - ☒ Provide suitable space to assure privacy when a counselor is serving a client. Continuously publicize services of the SHINE/MIPPA Program through the Partnership and the availability of a SHINE counselor whenever possible.

B. The Area Agency on Aging of Pasco-Pinellas, Inc. SHALL:

- Educate and train staff of the Community Support Provider about MIPPA, Medicare Part D, LIS and MSPs.
- Provide educational materials regarding the MIPPA Program as well as Medicare and related programs.
- Provide highly trained staff and/or volunteers to assist beneficiaries.
- Provide supervision, support, and technical assistance for counselors.
- Ensure that counselors are available at the agreed upon location(s) for minimum number of hours per week.
- Continuously publicize services of the SHINE/MIPPA Program through the Partnership and the availability of a SHINE Counselor, whenever possible.

C. Agreement:

Pasco County agrees that its employees and all other affiliates assisting with the SHINE/MIPPA Program will comply with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) Privacy Rule. Pasco County also agrees that any medical records or personal information given to its employees under the arrangements of this Agreement shall be kept confidential and not divulged or made available to any individual or organization without the prior written approval of the Area Agency on Aging of Pasco-Pinellas, Inc.

D. Non-Fund Obligating Document

This agreement is neither a fiscal nor a funds obligation document. Any endeavor or transfer of anything of value involving reimbursement or contribution of funds between the parties to this agreement will be handled in accordance with applicable laws, regulations, and procedures. There are no such endeavors and added terms.

SECTION III - Contacts

The principal contacts for this agreement are:

Area Agency on Aging of Pasco Pinellas Contact Name: Terry Bowers, Program Manager, Medicare Counseling & Community Outreach Address: 9549 Koger Blvd, St Petersburg, FL 33702 Liaison Phone: 727-570-9696, ext. 259 Liaison Email: terry.bowers@aaapp.org	**Board of County Commissioners of Pasco County, Florida** Contact Name: Brian Hoben, Director, Pasco County Community Services Address: 8600 Galen Wilson Blvd, Port Richey, FL 34668 Phone: 727-847-8100 Email: bhoben@pascocountyfl.net:

SECTION IV - Modification/Termination

Modifications within the scope of the agreement shall be made by mutual consent of the parties, by the issuance of a written modification, signed and dated by all parties, prior to any changes being performed.

Any of the parties, in writing, may terminate the agreement in whole, or in part, at any time before the date of expiration. The parties agree that the Partnership is mutually beneficial and agree to the terms specified herein.

SECTION V - Signatures

This agreement will become effective on the date signed by both parties and remain in effect until terminated by either party upon providing 90 days' prior written notice.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** HS26-0020 **DATE:** 6/16/2026

SUBJECT: Budget Amendment and Resolution – Project Round-Up – Community Services Department, Human Services Division – Increase in Funding – $17,500.00

REFERENCES: HS17-001, HS18-0118

AGENDA SECTION: Consent Agenda

THRU: Catherine Pearson, Assistant County Administrator

FROM: Brian Hoben, Director of Community Services

RECOMMENDED BOARD ACTION:

Adopt the Resolution amending the final budget for Fiscal Year 2026 of Project Round-Up and approve Budget Amendment, Journal No. 2026 09 05, in the total amount of $17,500.00. Authorize the Chairman to execute the one (1) provided original of the Budget Resolution, and direct Board Records to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On October 25, 2016, the Pasco County Board of County Commissioners approved the above-referenced agenda item. Human Services and the Utilities Customer Service Administration Department proposed that all Project Round-Up funds be allocated for Pasco County Utilities bill payments, which would be utilized to assist residents who qualify under the criteria of a new program created by Human Services. The program was conducted in partnership with the Utilities Customer Service Administration Department to screen and qualify Pasco County Utilities customers for assistance with bill payments. Implementation of the Project Round-Up program began in the second quarter of Fiscal Year 2017. In Fiscal Year 2017, the Program provided $5,138.91 in funding assistance; in Fiscal Year 2018, the utilization of the Program has significantly increased by over 50%. As of the end of the third quarter of 2018, the Program has provided $13,274.47 to citizens of Pasco County for utility payment assistance.

The purpose of this amendment is to recognize and appropriate Round-Up Donation Revenue in the amount of $17,500 within the General Fund for use by the Human Services Division of the Community Services Department, in accordance with Section 129.06(2), Florida Statutes. The revenues have already been received through the Round-Up program and will be utilized to assist the growing number of citizens in need.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Upon approval of Budget Amendment, Journal No. 2026 09 05, funding in the amount of $17,500.00 will be budgeted and available in the General Fund, Community Services Department, Human Services Division.

DISTRIBUTION:

Board Records to distribute as set forth below:

1. Retain one original of the Budget Resolution.

BY THE BOARD OF COUNTY COMMISSIONERS **RESOLUTION NO. _____**

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF PASCO COUNTY, FLORIDA, AMENDING THE FINAL BUDGET FOR FISCAL YEAR 2026; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Section 129.06(2), Florida Statutes provides legal authority and defines how a budget may be amended for that year, and may within the first 60 days of a fiscal year amend the budget for the prior fiscal year; and,

WHEREAS, pursuant to Section 129.06(2)(d), Florida Statutes, a receipt of a nature from a source not anticipated in the budget and received for a particular purpose, including but not limited to grants, donations, gifts, or reimbursement for damages, may, by resolution of the board spread on its minutes, be appropriated and expended for that purpose, in addition to the appropriations and expenditures provided for in the budget. Such receipts and appropriations must be added to the budget of the proper fund. The resolution may amend the budget to transfer revenue between funds to properly account for unanticipated revenue.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Pasco County, Florida, that:

1. The Fiscal Year 2026 Final Budget be amended.
2. Revenues and expenses are increased in the amount of $17,500 within the General Fund for Round-Up Donation Revenue recognition for the Human Services Division, Community Services Department.
3. This resolution will take effect immediately upon its adoption.

DULY ADOPTED with a quorum present and voting this _____ day of _____, 2026.

SUBJECT: Budget Amendment and Resolution — Pasco County Library System — Recognize Budget from a Citizen Donation — $10,000.00

REFERENCES: Not Applicable

AGENDA SECTION: Consent Agenda

THRU: Catherine Pearson, Assistant County Administrator

FROM: Sean McGarvey, Library Director

RECOMMENDED BOARD ACTION:

Approve the attached Budget Amendment, Journal Entry No. 2026 08 1987; authorize the Chairman to execute the one original Resolution provided; adopt the Resolution amending the Final Budget for Fiscal Year 2026, and direct Board Records to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

Annually, Pasco County Library Services uses donated funds to support its operating expenses. On April 23, 2026, the department received a $10,000 donation from a Land O' Lakes Library patron. These funds will be used to purchase mystery and fiction eBooks.

Approval of Budget Amendment, Journal No. 2026 08 1987, and Resolution, in the amount of $10,000.00, will recognize the donations revenue and expense budget for the purpose of library book purchases to expand the existing Library Services collection.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Upon approval of Budget Amendment, Journal No. 2026 08 1987, funding in the amount of $10,000.00 will be budgeted and available in the General Fund, Library Services Department.

SUBJECT: Accept the Performance Guarantee Surety Bond – EPG Two Rivers QOZP, LLC – Surety Bond No. F361940 – Lodge Grass Boulevard North - No Funding Required

REFERENCES: Not Applicable

AGENDA SECTION: Consent Agenda

THRU: Catherine Pearson, Assistant County Administrator

FROM: Keith Wiley, Parks, Recreation & Natural Resources Director

RECOMMENDED BOARD ACTION:

Accept the Performance Guarantee Surety Bond No. F361940, in the amount of $5,416,407.27, along with the applicable rider. Authorize the Chairman to execute the Bond acceptance. Direct Board Records to retain the original Performance Guarantee Surety Bond, and distribute as set forth under the Distribution section below.

Expand the delegation of authority provided to the County Administrator, County Attorney, County Engineer, and Clerk and Comptroller in Resolution No. 25-081, specifically including Sections 2, 3, 4, and 5, to be applicable to Performance Guarantee Surety Bond No. F361940, and the applicable rider.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

On September 15, 2021, this Board approved the Two Rivers Master Planned Unit Development (MPUD) zoning amendment (PDD21-7512). One of the MPUD conditions for recreation and open space required the developer to provide a district park site within the MPUD property of not less than 80 upland acres.

On June 17, 2025, the Board of County Commissioners approved the Contract for Sale and Dedication of Park Site (Contract) with EPG Two Rivers QOZP, LLC (Two Rivers) for the sale and dedication of a district park site within the MPUD (Park Site). The Contract also required Two Rivers to construct a shared roadway (the Road) west of the Park Site that will service the Park Site and a school site. Also, pursuant to the Contract, the County agreed to issue Parks and Recreation Facilities Impact Fee Credits in the amount of $1,579,358.33 to Two Rivers for a one-third portion of the design and construction costs of the Road upon the County's receipt of a performance guarantee to ensure the construction of the Road.

The Road, approximately 0.4 miles in length, will be constructed on Pasco County Property Appraiser's Parcel ID No. 28-26-21-0000-00100-0000, north of State Road 56. Two Rivers has provided a surety bond in the amount of 125% of the cost to construct the Road, in the amount of $5,416,407.27.

The delegation of authority in Resolution No. 25-081, related to performance securities and defect securities does not include performance guarantees for this specific type of construction, and therefore the Board's approval is required to accept the surety bond.

Planning, Development, and Economic Growth Department and Parks, Recreation, and Natural Resources Department recommend approval.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding is not required for this action.

DISTRIBUTION:
Board Records to distribute as set forth below:

1. Retain the original of the Performance Guarantee Surety Bond and applicable rider. Electronically to:

THE CONDITION of the above obligation is such that:

WHEREAS, PRINCIPAL and **COUNTY**, entered into that certain Contract for Sale and Dedication of Park Site, dated June 17, 2025 (the "**Contract**"), for the sale and dedication of a district park site within Two Rivers MPUD (the "**Park Site**") to implement and satisfy the MPUD Park Condition (the "**MPUD Park Condition**"). Capitalized terms not defined herein shall have the meaning given to them pursuant to the Contract.

WHEREAS, pursuant the terms of the **Contract** and the Two Rivers Master Planned Unit Development ("MPUD") Conditions of Approval Rezoning Petition No. PDD21-7512 (RZ-7512), as amended from time to time ("MPUD Conditions"), **PRINCIPAL** shall construct, or cause its designated third-party developer(s)/builder(s) (collectively, the "MPUD Site Developer") to construct the shared roadway west (the "Shared Roadway West") of the Property that will service the Park Site, certain school(s) to be developed by the District School Board of Pasco County, Florida, and potentially an affiliate of **PRINCIPAL**, as depicted on Exhibit B to the Contract (collectively, the "Road" or "Shared Roadway West," further described as "School Access Road (Developer Built)" on Exhibit B to the Contract), together with the storm water ponds, wetland mitigation (including the purchase of any necessary wetland mitigation credits) and flood plain compensation facilities associated with the Road (collectively, the "**Road Work**"). The **Road Work** may include On-Site Work in addition to the Off-Site Work (both as defined in the **Contract**) subject to the terms and conditions of the **Contract**. In no event shall On-Site Work include the Road or any ponds, flood plain compensation or wetland mitigation

GREAT AMERICAN.
INSURANCE GROUP

for the Road. The **Road Work** shall be completed no later than the sooner to occur of: (a) the date which is nine (9) months after the date on which the **COUNTY** receives an Environmental Resource Permit approved by the Southwest Florida Water Management District for the site plan for the Park, or (b) January 1, 2028, or as amended, pursuant to the terms of the Contract.

WHEREAS, **PRINCIPAL** shall timely complete construction of the **Road Work**, or ensure its designee timely completes construction of the **Road Work**, regardless of its actual cost, and regardless of whether **PRINCIPAL** (or its designee) is able to obtain contributions from other parties for the other two-thirds (2/3) of the estimated or actual cost of the Road.

WHEREAS the **COUNTY** will issue Mobility Fee Credits to the **PRINCIPAL** in reliance on this security guaranteeing the completion of the **Road Work**, located in Section 28, Township 26 South, Range 21 East, and delineated per the County-approved cost estimate dated September 26, 2025.

NOW THEREFORE, if the **PRINCIPAL** shall fully perform all the covenants and terms of said **Contract**, and complete the **Road Work**, then this obligation shall be null and void; otherwise this obligation shall remain in full force and effect, and Surety shall cause the **Road Work** to be fully performed or pay to **OBLIGEE** the remaining funds owed the **OBLIGEE** to complete construction of the **Road Work** in an amount not exceeding the said sum specified above. In the event such performance is not completed within the time specified in the **Contract**, the **OBLIGEE** shall be entitled to collection of this surety bond. Means of notification of intent to collect shall be by certified mail to the Surety at the address above. Payment will be made to the County within thirty (30) days by certified check drawn on behalf of the Board of County Commissioners to 37918 Meridian Avenue, Dade City, Florida 33525.

The Surety does hereby consent to any and all alterations, extensions of time, or other modifications to the Contract for the **Road Work** secured by this bond.

This Surety Bond shall be construed in accordance with the Laws of Florida. It is further understood that should the **OBLIGEE** be required to institute a legal proceeding in order to collect any funds under this Bond, venue shall be exclusively in the Sixth Judicial Circuit in and for Pasco County, Florida and **PRINCIPAL** shall be responsible for any and all attorney's fees and court costs incurred by the **OBLIGEE**.

This Power of Attorney is granted by authority of the following resolutions adopted by the Board of Directors of Great American Insurance Company by unanimous written consent dated June 9, 2008.

RESOLVED: That the Divisional President, the several Divisional Senior Vice Presidents, Divisional Vice Presidents and Divisonal Assistant Vice Presidents, or any one of them, be and hereby is authorized, from time to time, to appoint one or more Attorneys-in-Fact to execute on behalf of the Company, as surety, any and all bonds, undertakings and contracts of suretyship, or other written obligations in the nature thereof; to prescribe their respective duties and the respective limits of their authority; and to revoke any such appointment at any time.

RESOLVED FURTHER: That the Company seal and the signature of any of the aforesaid officers and any Secretary or Assistant Secretary of the Company may be affixed by facsimile to any power of attorney or certificate of either given for the execution of any bond, undertaking, contract of suretyship, or other written obligation in the nature thereof, such signature and seal when so used being hereby adopted by the Company as the original signature of such officer and the original seal of the Company, to be valid and binding upon the Company with the same force and effect as though manually affixed.

CERTIFICATION

I, STEPHEN C. BERAHA, Assistant Secretary of Great American Insurance Company, do hereby certify that the foregoing Power of Attorney and the Resolutions of the Board of Directors of June 9, 2008 have not been revoked and are now in full force and effect.

Signed and sealed this 29th day of October , 2025 .

Surety Bond Seal Addendum

Great American Insurance Company

During the COVID-19 pandemic, use of traditional seals has been made impractical due to government stay-at-home orders and social distancing guidelines. As a result, Great American Insurance Company ("Great American") has authorized its Attorneys-in-Fact to affix Great American's corporate seal to any bond executed on behalf of Great American by any such Attorney-in-Fact by attaching this Addendum to said bond.

To the extent this Addendum is attached to a bond that is executed on behalf of Great American by its Attorney-in-Fact, Great American agrees that the seal below shall be deemed affixed to said bond to the same extent as if its raised corporate seal were physically affixed to the face of the bond.

Dated this 24th day of March, 2020.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 4 **FILE NO.:** PRN26-0099 **DATE:** 6/16/2026

SUBJECT: Budget Amendment – Parks, Recreation, and Nature Resources Department – Site Security Residence at Crockett Lake Preserve Project – $145,000.00

REFERENCES: Not Applicable

AGENDA SECTION: Consent Agenda

THRU: Catherine Pearson, Assistant County Administrator

FROM: Keith Wiley, Parks, Recreation & Natural Resources Director

RECOMMENDED BOARD ACTION:
Approve Budget Amendment, Journal No. 2026 08 905, in the amount of $145,000.00.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:
The Parks, Recreation, and Natural Resources Department (PRNR) is requesting the transfer from the Environmental Lands Acquisition and Maintenance (ELAMP) Penny for Pasco budget to the Site Security Residence at Crockett Lake Preserve Project. This transfer will fund the purchase of a site security residence and related installation and set up costs for the residence.

An on-site security residence located at Crockett Lake Preserve will protect the Preserve from poaching, vandalism, trespassing, unauthorized ATV use, and illegal dumping. Site security residence deters crime and mitigates the potential risks.

Budget Amendment, Journal No. 2026 08 905, will transfer $145,000.00 from ELAMP Land Acquisition Major Project in Penny Environmental Land Fund to provide funding for the purchase and installation of the residence.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Upon approval of Budget Amendment, Journal No. 2026 08 905, funding in the amount of $145,000.00 will be budgeted and available in the Penny Environmental Land Fund, Parks, Recreation, and Natural Resources - ELAMP Department, Project Number 26051.

DISTRIBUTION:
Not applicable.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** PT26-0022 **DATE:** 6/16/2026

SUBJECT: Public Transportation Grant Agreement, Budget Amendment and Resolution – Federal Transit Administration – Section 5339: Rural Bus and Bus Facilities; CFDA No. 20.526 – $129,995.00 (FDOT); No Local Funding Required, Grant Contract No. G3Q02

REFERENCES: Not Applicable

AGENDA SECTION: Consent Agenda

THRU: Catherine Pearson, Assistant County Administrator

FROM: Jannina Elkin, Public Transportation Director

RECOMMENDED BOARD ACTION:

Approve the Public Transportation Grant Agreement (Contract No. G3Q02) and adopt the Resolution authorizing Pasco County to accept Federal Transit Administration (FTA) Section 5339: Rural Bus and Bus Facilities funding through Florida Department of Transportation (FDOT). In addition, approve the Budget Amendment, Journal No. 2026 09 10, in the amount of $129,995.00 and adopt the budget resolution, Pasco Grant No. G26R00, Project 23029. Authorize the Chairman to execute the original Public Transportation Grant Agreement and two Resolutions provided, and direct Board Records to distribute as set forth in the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

Pasco County Public Transportation (GoPasco) receives an annual formula funding apportionment from the FTA's Rural Bus and Bus Facilities Formula Grant Program through FDOT. This funding is designed to provide capital funding for public transportation projects, including the replacement, rehabilitation, or purchase of buses and related equipment as well as the construction or improvement of bus-related facilities. Activities can include procurement, construction, project management, and ensuring compliance with ADA, and all applicable federal, state, and local requirements.

Section 5339 funding has a twenty percent (20%) match requirement, but the local match will be covered by the FDOT Toll Revenue Credits in the amount $32,499.00.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Upon approval of Budget Amendment, Journal No. 2026 09 10, funding in the amount of $129,995.00 will be budgeted in the Grants Fund, Public Transportation Department, Pasco Grant No. G26R00, Project 23029. No local funding is required.

DISTRIBUTION:

Board Records to distribute as set forth below:

1. Retain one original.

2. Forward, electronically, the Grant Agreement with Resolution for FDOT's electronic signature (Via DocuSign) to:

    a. Ashley Crespo – acrespo@gopasco.com
    b. Caron Watkins – Caron.Watkins@dot.state.fl.us
    c. Rebecca Mosley – rmosley@pascocountyfl.net

3. Forward, electronically, the Budget Resolution to:
    a. Ashley Crespo – acrespo@gopasco.com
    b. Rebecca Mosley – rmosley@pascocountyfl.net

FDOT will return the fully executed agreement to Board Records for retention.

ATTACHMENT(S):

CFDA Title:	Section 5339: Rural Bus and Bus Facilities				
CSFA Number:	N/A				
CSFA Title:	N/A				

THIS PUBLIC TRANSPORTATION GRANT AGREEMENT ("Agreement") is entered into _____, by and between the State of Florida, Department of Transportation, ("Department"), and Pasco County Board of County Commissioners, ("Agency"). The Department and the Agency are sometimes referred to in this Agreement as a "Party" and collectively as the "Parties."

NOW, THEREFORE, in consideration of the mutual benefits to be derived from joint participation on the Project, the Parties agree to the following:

1. **Authority.** The Agency, by Resolution or other form of official authorization, a copy of which is attached as **Exhibit "D", Agency Resolution** and made a part of this Agreement, has authorized its officers to execute this Agreement on its behalf. The Department has the authority pursuant to Section(s) 341.051, Florida Statutes, to enter into this Agreement.

2. **Purpose of Agreement.** The purpose of this Agreement is to provide for the Department's participation in Engineering, Design, Construction/Rehabilitation/Renovation of Bus and Bus Facilities, as further described in **Exhibit "A", Project Description and Responsibilities**, attached and incorporated into this Agreement ("Project"), to provide Department financial assistance to the Agency, state the terms and conditions upon which Department funds will be provided, and to set forth the manner in which the Project will be undertaken and completed.

3. **Program Area.** For identification purposes only, this Agreement is implemented as part of the Department program area selected below (select all programs that apply):

   Aviation
   Seaports
   X **Transit**
   Intermodal
   Rail Crossing Closure
   Match to Direct Federal Funding (Aviation or Transit)
   (Note: Section 15 and Exhibit G do not apply to federally matched funding)
   Other

4. **Exhibits.** The following Exhibits are attached and incorporated into this Agreement:

   X Exhibit A: Project Description and Responsibilities
   X Exhibit B: Schedule of Financial Assistance
   *Exhibit B1: Deferred Reimbursement Financial Provisions
   *Exhibit B2: Advance Payment Financial Provisions
   X *Exhibit B3: Alternative Advanced Pay (Transit Bus Program)
   *Exhibit C: Terms and Conditions of Construction
   X Exhibit D: Agency Resolution
   X Exhibit E: Program Specific Terms and Conditions
   X Exhibit E1: Prohibition Based on Health Care Choices

X Exhibit E2: Exterior Vehicle Wrap, Tinting, Paint, Marketing and Advertising (Transit)

Exhibit E3: Geoengineering and Weather Modification Reporting (Aviation)
X Exhibit E4: Energy Policy Goals Reporting
X Exhibit F: Contract Payment Requirements
*Exhibit G: Audit Requirements for Awards of State Financial Assistance
X *Exhibit H: Audit Requirements for Awards of Federal Financial Assistance
X *Exhibit I: Certification of Disbursement of Payment to Vehicle and/or Equipment Vendor
*Additional Exhibit(s):

*Indicates that the Exhibit is only attached and incorporated if applicable box is selected.

5. Time. Unless specified otherwise, all references to "days" within this Agreement refer to calendar days.

6. Term of Agreement. This Agreement shall commence upon full execution by both Parties ("Effective Date") and continue through June 30, 2028. If the Agency does not complete the Project within this time period, this Agreement will expire unless an extension of the time period is requested by the Agency and granted in writing by the Department prior to the expiration of this Agreement. Expiration of this Agreement will be considered termination of the Project. The cost of any work performed prior to the Effective Date or after the expiration date of this Agreement will not be reimbursed by the Department.

a. If this box is checked the following provision applies:

Unless terminated earlier, work on the Project shall commence no later than the day of , or within days of the issuance of the Notice to Proceed for the construction phase of the Project (if the Project involves construction), whichever date is earlier. The Department shall have the option to immediately terminate this Agreement should the Agency fail to meet the above-required dates.

7. Amendments, Extensions, and Assignment. This Agreement may be amended or extended upon mutual written agreement of the Parties. This Agreement shall not be renewed. This Agreement shall not be assigned, transferred, or otherwise encumbered by the Agency under any circumstances without the prior written consent of the Department.

8. Termination or Suspension of Project. The Department may, by written notice to the Agency, suspend any or all of the Department's obligations under this Agreement for the Agency's failure to comply with applicable law or the terms of this Agreement until such time as the event or condition resulting in such suspension has ceased or been corrected.

a. Notwithstanding any other provision of this Agreement, if the Department intends to terminate the Agreement, the Department shall notify the Agency of such termination in writing at least thirty (30) days prior to the termination of the Agreement, with instructions to the effective date of termination or specify the stage of work at which the Agreement is to be terminated.

b. The Parties to this Agreement may terminate this Agreement when its continuation would not produce beneficial results commensurate with the further expenditure of funds. In this event, the Parties shall agree upon the termination conditions.

c. If the Agreement is terminated before performance is completed, the Agency shall be paid only for that work satisfactorily performed for which costs can be substantiated. Such payment, however, may not exceed the equivalent percentage of the Department's maximum financial assistance. If any portion of the Project is located on the Department's right-of-way, then all work in progress on the Department right-of-way will become the property of the Department and will be turned over promptly by the Agency.

d. In the event the Agency fails to perform or honor the requirements and provisions of this Agreement, the Agency shall promptly refund in full to the Department within thirty (30) days of the termination of the Agreement any funds that were determined by the Department to have been expended in violation of the Agreement.

e. The Department reserves the right to unilaterally cancel this Agreement for failure by the Agency to comply with the Public Records provisions of Chapter 119, Florida Statutes.

9. Project Cost:

a. The estimated total cost of the Project is $129,995. This amount is based upon **Exhibit "B", Schedule of Financial Assistance**. The timeline for deliverables and distribution of estimated amounts between deliverables within a grant phase, as outlined in **Exhibit "B", Schedule of Financial Assistance**, may be modified by mutual written agreement of the Parties and does not require execution of an **Amendment to the Public Transportation Grant Agreement**. The timeline for deliverables and distribution of estimated amounts between grant phases requires an amendment executed by both Parties in the same form as this Agreement.

b. The Department agrees to participate in the Project cost up to the maximum amount of $129,995 and, the Department's participation in the Project shall not exceed 100.00% of the total eligible cost of the Project, and as more fully described in **Exhibit "B'', Schedule of Financial Assistance**. The Agency agrees to bear all expenses in excess of the amount of the Department's participation and any cost overruns or deficits involved.

10. Compensation and Payment:

a. Eligible Cost. The Department shall reimburse the Agency for allowable costs incurred as described in **Exhibit "A"**, **Project Description and Responsibilities**, and as set forth in **Exhibit "B", Schedule of Financial Assistance**.

b. Deliverables. The Agency shall provide quantifiable, measurable, and verifiable units of deliverables. Each deliverable must specify the required minimum level of service to be performed and the criteria for evaluating successful completion. The Project and the quantifiable, measurable, and verifiable units of deliverables are described more fully in **Exhibit "A", Project Description and Responsibilities**. Modifications to the deliverables in **Exhibit "A", Project Description and Responsibilities** requires a formal written amendment.

c. Invoicing. Invoices shall be submitted no more often than monthly by the Agency in detail sufficient for a proper pre-audit and post-audit, based on the quantifiable, measurable, and verifiable deliverables as established in **Exhibit "A", Project Description and Responsibilities**. Deliverables and costs incurred must be received and approved by the Department prior to reimbursement. Requests for reimbursement by the Agency shall include an invoice, progress report, and supporting documentation for the deliverables being billed that are acceptable to the Department. The Agency shall use the format for the invoice and progress report that is approved by the Department.

d. Supporting Documentation. Supporting documentation must establish that the deliverables were received and accepted in writing by the Agency and must also establish that the required minimum standards or level of service to be performed based on the criteria for evaluating successful completion as specified in **Exhibit "A", Project Description and Responsibilities** has been met. All costs invoiced shall be supported by properly executed payrolls, time records, invoices, contracts, or vouchers evidencing in proper detail the nature and propriety of charges as described in **Exhibit "F", Contract Payment Requirements**.

e. Travel Expenses. The selected provision below is controlling regarding travel expenses:

X Travel expenses are NOT eligible for reimbursement under this Agreement.

Travel expenses ARE eligible for reimbursement under this Agreement. Bills for travel expenses specifically authorized in this Agreement shall be submitted on the Department's Contractor Travel Form No. 300-000-06 and will be paid in accordance with Section 112.061, Florida Statutes, and the most current version of the Department's Disbursement Handbook for Employees and Managers.

f. Financial Consequences. Payment shall be made only after receipt and approval of deliverables and costs incurred unless advance payments are authorized by the Chief Financial Officer of the State of Florida under Chapters 215 and 216, Florida Statutes, or the Department's Comptroller under Section 334.044(29), Florida Statutes. If the Department determines that the performance of the Agency is unsatisfactory, the Department shall notify the Agency of the deficiency to be corrected, which correction shall be made within a time-frame to be specified by the Department. The Agency shall, within thirty (30) days after notice from the Department, provide the Department with a corrective action plan describing how the Agency will address all issues of contract non-performance, unacceptable performance, failure to meet the minimum performance levels, deliverable deficiencies, or contract non-compliance. If the corrective action plan is unacceptable to the Department, the Agency will not be reimbursed. If the deficiency is subsequently resolved, the Agency may bill the Department for the amount that was previously not reimbursed during the next billing period. If the Agency is unable to resolve the deficiency, the funds shall be forfeited at the end of the Agreement's term.

g. Invoice Processing. An Agency receiving financial assistance from the Department should be aware of the following time frames. Inspection or verification and approval of deliverables shall take no longer than 20 days from the Department's receipt of the invoice. The Department has 20 days to deliver a request for payment (voucher) to the Department of Financial Services. The 20 days are measured from the latter of the date the invoice is received or the deliverables are received, inspected or verified, and approved.

If a payment is not available within 40 days, a separate interest penalty at a rate as established pursuant to Section 55.03(1), Florida Statutes, will be due and payable, in addition to the invoice amount, to the Agency. Interest penalties of less than one (1) dollar will not be enforced unless the Agency requests payment. Invoices that have to be returned to an Agency because of Agency preparation errors will result in a delay in the payment. The invoice payment requirements do not start until a properly completed invoice is provided to the Department.

A Vendor Ombudsman has been established within the Department of Financial Services. The duties of this individual include acting as an advocate for Agency who may be experiencing problems in obtaining timely payment(s) from a state agency. The Vendor Ombudsman may be contacted at (850) 413-5516.

h. Records Retention. The Agency shall maintain an accounting system or separate accounts to ensure funds and projects are tracked separately. Records of costs incurred under the terms of this Agreement shall be maintained and made available upon request to the Department at all times during the period of this Agreement and for five years after final payment is made. Copies of these records shall be furnished to the Department upon request. Records of costs incurred include the Agency's general accounting records and the Project records, together with supporting documents and records, of the Contractor and all subcontractors performing work on the Project, and all other records of the Contractor and subcontractors considered necessary by the Department for a proper audit of costs.

i. Progress Reports. Upon request, the Agency agrees to provide progress reports to the Department in the standard format used by the Department and at intervals established by the Department. The Department will be entitled at all times to be advised, at its request, as to the status of the Project and of details thereof.

j. Submission of Other Documents. The Agency shall submit to the Department such data, reports, records, contracts, and other documents relating to the Project as the Department may require as listed in **Exhibit "E", Program Specific Terms and Conditions** attached to and incorporated into this Agreement.

k. Offsets for Claims. If, after Project completion, any claim is made by the Department resulting from an audit or for work or services performed pursuant to this Agreement, the Department may offset such amount from payments due for work or services done under any agreement that it has with the Agency owing such amount if, upon written demand, payment of the amount is not made within 60 days to the Department. Offsetting any amount pursuant to this paragraph shall not be considered a breach of contract by the Department.

l. Final Invoice. The Agency must submit the final invoice on the Project to the Department within 120 days after the completion of the Project. Invoices submitted after the 120-day time period may not be paid.

m. Department's Performance and Payment Contingent Upon Annual Appropriation by the Legislature. The Department's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. If the Department's funding for this Project is in multiple fiscal years, a notice of availability of funds from the Department's project manager must be received prior to costs being incurred by the Agency. See **Exhibit "B", Schedule of Financial Assistance** for funding levels by fiscal year. Project costs utilizing any fiscal year funds are not eligible for reimbursement if incurred prior to funds approval being received. The Department will notify the Agency, in writing, when funds are available.

n. Limits on Contracts Exceeding $25,000 and Term more than 1 Year. In the event this Agreement is in excess of $25,000 and has a term for a period of more than one year, the provisions of Section 339.135(6)(a), Florida Statutes, are hereby incorporated:

> "The Department, during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such contract. The Department shall require a statement from the comptroller of the Department that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for periods exceeding 1 year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years; and this paragraph shall be incorporated verbatim in all contracts of the Department which are for an amount in excess of $25,000 and which have a term for a period of more than 1 year."

o. Agency Obligation to Refund Department. Any Project funds made available by the Department pursuant to this Agreement that are determined by the Department to have been expended by the Agency in violation of this Agreement or any other applicable law or regulation shall be promptly refunded in full to the Department. Acceptance by the Department of any documentation or certifications, mandatory or otherwise permitted, that the Agency files

shall not constitute a waiver of the Department's rights as the funding agency to verify all information at a later date by audit or investigation.

p. **Non-Eligible Costs.** In determining the amount of the payment, the Department will exclude all Project costs incurred by the Agency prior to the execution of this Agreement, costs incurred after the expiration of the Agreement, costs that are not provided for in **Exhibit "A"**, **Project Description and Responsibilities**, and as set forth in **Exhibit "B", Schedule of Financial Assistance**, costs agreed to be borne by the Agency or its contractors and subcontractors for not meeting the Project commencement and final invoice time lines, and costs attributable to goods or services received under a contract or other arrangement that has not been approved in writing by the Department. Specific unallowable costs may be listed in **Exhibit "A"**, **Project Description and Responsibilities.**

11. **General Requirements.** The Agency shall complete the Project with all practical dispatch in a sound, economical, and efficient manner, and in accordance with the provisions in this Agreement and all applicable laws.

a. **Necessary Permits Certification.** The Agency shall certify to the Department that the Agency's design consultant and/or construction contractor has secured the necessary permits.

b. **Right-of-Way Certification.** If the Project involves construction, then the Agency shall provide to the Department certification and a copy of appropriate documentation substantiating that all required right-of-way necessary for the Project has been obtained. Certification is required prior to authorization for advertisement for or solicitation of bids for construction of the Project, even if no right-of-way is required.

c. **Notification Requirements When Performing Construction on Department's Right-of-Way.** In the event the cost of the Project is greater than $250,000.00, and the Project involves construction on the Department's right-of-way, the Agency shall provide the Department with written notification of either its intent to:

i. Require the construction work of the Project that is on the Department's right-of-way to be performed by a Department prequalified contractor, or

ii. Construct the Project utilizing existing Agency employees, if the Agency can complete said Project within the time frame set forth in this Agreement.

d. If this box is checked, then the Agency is permitted to utilize its own forces and the following provision applies: **Use of Agency Workforce.** In the event the Agency proceeds with any phase of the Project utilizing its own forces, the Agency will only be reimbursed for direct costs (this excludes general overhead).

e. If this box is checked, then the Agency is permitted to utilize **Indirect Costs: Reimbursement for Indirect Program Expenses** (select one):

i. Agency has selected to seek reimbursement from the Department for actual indirect expenses (no rate).

ii. Agency has selected to apply a de minimus rate of 15% to modified total direct costs. Note: The de minimus rate is available only to entities that have never had a negotiated indirect cost rate. When selected, the de minimus rate must be used consistently for all federal awards until such time the agency chooses to negotiate a rate. A cost policy statement and de minimis certification form must be submitted to the Department for review and approval.

iii. Agency has selected to apply a state or federally approved indirect cost rate. A federally approved rate agreement or indirect cost allocation plan (ICAP) must be submitted annually.

f. Agency Compliance with Laws, Rules, and Regulations, Guidelines, and Standards. The Agency shall comply and require its contractors and subcontractors to comply with all terms and conditions of this Agreement and all federal, state, and local laws and regulations applicable to this Project.

g. Claims and Requests for Additional Work. The Agency shall have the sole responsibility for resolving claims and requests for additional work for the Project. The Agency will make best efforts to obtain the Department's input in its decisions. The Department is not obligated to reimburse for claims or requests for additional work.

12. Contracts of the Agency:

a. Approval of Third Party Contracts. The Department specifically reserves the right to review and approve any and all third party contracts with respect to the Project before the Agency executes or obligates itself in any manner requiring the disbursement of Department funds, including consultant and purchase of commodities contracts, or amendments thereto. If the Department chooses to review and approve third party contracts for this Project and the Agency fails to obtain such approval, that shall be sufficient cause for nonpayment by the Department. The Department specifically reserves unto itself the right to review the qualifications of any consultant or contractor and to approve or disapprove the employment of the same. If Federal Transit Administration (FTA) funds are used in the Project, the Department must exercise the right to third party contract review.

b. Procurement of Commodities or Contractual Services. It is understood and agreed by the Parties hereto that participation by the Department in a project with the Agency, where said project involves the purchase of commodities or contractual services where purchases or costs exceed the Threshold Amount for CATEGORY TWO per Section 287.017, Florida Statutes, is contingent on the Agency complying in full with the provisions of Section 287.057, Florida Statutes. The Agency's Authorized Official shall certify to the Department that the Agency's purchase of commodities or contractual services has been accomplished in compliance with Section 287.057, Florida Statutes. It shall be the sole responsibility of the Agency to ensure that any obligations made in accordance with this Section comply with the current threshold limits. Contracts, purchase orders, task orders, construction change orders, or any other agreement that would result in exceeding the current budget contained in **Exhibit "B", Schedule of Financial Assistance**, or that is not consistent with the Project description and scope of services contained in **Exhibit "A", Project Description and Responsibilities** must be approved by the Department prior to Agency execution. Failure to obtain such approval, and subsequent execution of an amendment to the Agreement if required, shall be sufficient cause for nonpayment by the Department, in accordance with this Agreement.

c. Consultants' Competitive Negotiation Act. It is understood and agreed by the Parties to this Agreement that participation by the Department in a project with the Agency, where said project involves a consultant contract for professional services, is contingent on the Agency's full compliance with provisions of Section 287.055, Florida Statutes, Consultants' Competitive Negotiation Act. In all cases, the Agency's Authorized Official shall certify to the Department that selection has been accomplished in compliance with the Consultants' Competitive Negotiation Act.

d. Disadvantaged Business Enterprise (DBE) Policy and Obligation. It is the policy of the Department that DBEs, as defined in 49 C.F.R. Part 26, as amended, shall have the opportunity to participate in the performance of contracts financed in whole or in part with Department funds under this Agreement. The DBE requirements of applicable federal and

state laws and regulations apply to this Agreement. The Agency and its contractors agree to ensure that DBEs have the opportunity to participate in the performance of this Agreement. In this regard, all recipients and contractors shall take all necessary and reasonable steps in accordance with applicable federal and state laws and regulations to ensure that the DBEs have the opportunity to compete for and perform contracts. The Agency and its contractors and subcontractors shall not discriminate on the basis of race, color, national origin or sex in the award and performance of contracts, entered pursuant to this Agreement.

13. **Maintenance Obligations**. In the event the Project includes construction or the acquisition of commodities then the following provisions are incorporated into this Agreement:

    a. The Agency agrees to accept all future maintenance and other attendant costs occurring after completion of the Project for all improvements constructed or commodities acquired as part of the Project. The terms of this provision shall survive the termination of this Agreement.

14. **Sale, Transfer, or Disposal of Department-funded Property:**

    a. The Agency will not sell or otherwise transfer or dispose of any part of its title or other interests in real property, facilities, or equipment funded in any part by the Department under this Agreement without prior written approval by the Department.

    b. If a sale, transfer, or disposal by the Agency of all or a portion of Department-funded real property, facilities, or equipment is approved by the Department, the following provisions will apply:

        i. The Agency shall reimburse the Department a proportional amount of the proceeds of the sale of any Department-funded property.

        ii. The proportional amount shall be determined on the basis of the ratio of the Department funding of the development or acquisition of the property multiplied against the sale amount, and shall be remitted to the Department within ninety (90) days of closing of sale.

        iii. Sale of property developed or acquired with Department funds shall be at market value as determined by appraisal or public bidding process, and the contract and process for sale must be approved in advance by the Department.

        iv. If any portion of the proceeds from the sale to the Agency are non-cash considerations, reimbursement to the Department shall include a proportional amount based on the value of the non-cash considerations.

    c. The terms of provisions “a” and “b” above shall survive the termination of this Agreement.

        i. The terms shall remain in full force and effect throughout the useful life of facilities developed, equipment acquired, or Project items installed within a facility, but shall not exceed twenty (20) years from the effective date of this Agreement.

        ii. There shall be no limit on the duration of the terms with respect to real property acquired with Department funds.

15. **Single Audit.** The administration of Federal or State resources awarded through the Department to the Agency by this Agreement may be subject to audits and/or monitoring by the Department. The following requirements do not limit the authority of the Department to conduct or arrange for the conduct of additional audits or evaluations of Federal awards or State financial assistance or limit the authority of any state agency inspector general, the State of Florida Auditor General, or any other state official. The Agency shall comply with all audit and audit reporting requirements as specified below.

Federal Funded:

a. In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F – Audit Requirements, monitoring procedures may include but not be limited to on-site visits by Department staff and/or other procedures, including reviewing any required performance and financial reports, following up, ensuring corrective action, and issuing management decisions on weaknesses found through audits when those findings pertain to Federal awards provided through the Department by this Agreement. By entering into this Agreement, the Agency agrees to comply and cooperate fully with any monitoring procedures/processes deemed appropriate by the Department. The Agency further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Department, State of Florida Chief Financial Officer (CFO), or State of Florida Auditor General.

b. The Agency, a non-Federal entity as defined by 2 CFR Part 200, Subpart F – Audit Requirements, as a subrecipient of a Federal award awarded by the Department through this Agreement, is subject to the following requirements:

i. In the event the Agency expends a total amount of Federal awards equal to or in excess of the threshold established by 2 CFR Part 200, Subpart F – Audit Requirements, the Agency must have a Federal single or program-specific audit conducted for such fiscal year in accordance with the provisions of 2 CFR Part 200, Subpart F – Audit Requirements. **Exhibit "H", Audit Requirements for Awards of Federal Financial Assistance**, to this Agreement provides the required Federal award identification information needed by the Agency to further comply with the requirements of 2 CFR Part 200, Subpart F – Audit Requirements. In determining Federal awards expended in a fiscal year, the Agency must consider all sources of Federal awards based on when the activity related to the Federal award occurs, including the Federal award provided through the Department by this Agreement. The determination of amounts of Federal awards expended should be in accordance with the guidelines established by 2 CFR Part 200, Subpart F – Audit Requirements. An audit conducted by the State of Florida Auditor General in accordance with the provisions of 2 CFR Part 200, Subpart F – Audit Requirements, will meet the requirements of this part.

ii. In connection with the audit requirements, the Agency shall fulfill the requirements relative to the auditee responsibilities as provided in 2 CFR Part 200, Subpart F – Audit Requirements.

iii. In the event the Agency expends less than the threshold established by 2 CFR Part 200, Subpart F – Audit Requirements, in Federal awards, the Agency is exempt from Federal audit requirements for that fiscal year. However, the Agency must provide a single audit exemption statement to the Department at FDOTSingleAudit@dot.state.fl.us no later than nine months after the end of the Agency's audit period for each applicable audit year. In the event the Agency expends less than the threshold established by 2 CFR Part 200, Subpart F – Audit Requirements, in Federal awards in a fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F – Audit Requirements, the cost of the audit must be paid from non-Federal resources (*i.e.*, the cost of such an audit must be paid from the Agency's resources obtained from other than Federal entities).

iv. The Agency must electronically submit to the Federal Audit Clearinghouse (FAC) at https://harvester.census.gov/facweb/ the audit reporting package as required by 2 CFR Part 200, Subpart F – Audit Requirements, within the earlier of 30 calendar days after receipt of the auditor's report(s) or nine months after the end of the audit period.

The FAC is the repository of record for audits required by 2 CFR Part 200, Subpart F – Audit Requirements. However, the Department requires a copy of the audit reporting package also be submitted to FDOTSingleAudit@dot.state.fl.us within the earlier of 30 calendar days after receipt of the auditor's report(s) or nine months after the end of the audit period as required by 2 CFR Part 200, Subpart F – Audit Requirements.

v. Within six months of acceptance of the audit report by the FAC, the Department will review the Agency's audit reporting package, including corrective action plans and management letters, to the extent necessary to determine whether timely and appropriate action on all deficiencies has been taken pertaining to the Federal award provided through the Department by this Agreement. If the Agency fails to have an audit conducted in accordance with 2 CFR Part 200, Subpart F – Audit Requirements, the Department may impose additional conditions to remedy noncompliance. If the Department determines that noncompliance cannot be remedied by imposing additional conditions, the Department may take appropriate actions to enforce compliance, which actions may include but not be limited to the following:

1. Temporarily withhold cash payments pending correction of the deficiency by the Agency or more severe enforcement action by the Department;
2. Disallow (deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance;
3. Wholly or partly suspend or terminate the Federal award;
4. Initiate suspension or debarment proceedings as authorized under 2 C.F.R. Part 180 and Federal awarding agency regulations (or in the case of the Department, recommend such a proceeding be initiated by the Federal awarding agency);
5. Withhold further Federal awards for the Project or program;
6. Take other remedies that may be legally available.

vi. As a condition of receiving this Federal award, the Agency shall permit the Department or its designee, the CFO, or State of Florida Auditor General access to the Agency's records, including financial statements, the independent auditor's working papers, and project records as necessary. Records related to unresolved audit findings, appeals, or litigation shall be retained until the action is complete or the dispute is resolved.

vii. The Department's contact information for requirements under this part is as follows:

Office of Comptroller, MS 24
605 Suwannee Street
Tallahassee, Florida 32399-0450
FDOTSingleAudit@dot.state.fl.us

State Funded:

a. In addition to reviews of audits conducted in accordance with Section 215.97, Florida Statutes, monitoring procedures to monitor the Agency's use of state financial assistance may include but not be limited to on-site visits by Department staff and/or other procedures, including reviewing any required performance and financial reports, following up, ensuring corrective action, and issuing management decisions on weaknesses found through audits when those findings pertain to state financial assistance awarded through the Department by this Agreement. By entering into this Agreement, the Agency agrees to comply and cooperate fully with any monitoring procedures/processes deemed appropriate by the Department. The Agency further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Department, the Department of Financial Services (DFS), or State of Florida Auditor General.

b. The Agency, a "nonstate entity" as defined by Section 215.97, Florida Statutes, as a recipient of state financial assistance awarded by the Department through this Agreement, is subject to the following requirements:

i. In the event the Agency meets the audit threshold requirements established by Section 215.97, Florida Statutes, the Agency must have a State single or project-specific audit conducted for such fiscal year in accordance with Section 215.97, Florida Statutes; applicable rules of the Department of Financial Services; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. **Exhibit "G", Audit Requirements for Awards of State Financial Assistance,** to this Agreement indicates state financial assistance awarded through the Department by this Agreement needed by the Agency to further comply with the requirements of Section 215.97, Florida Statutes. In determining the state financial assistance expended in a fiscal year, the Agency shall consider all sources of state financial assistance, including state financial assistance received from the Department by this Agreement, other state agencies, and other nonstate entities. State financial assistance does not include Federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

ii. In connection with the audit requirements, the Agency shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2)(e), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

iii. In the event the Agency does not meet the audit threshold requirements established by Section 215.97, Florida Statutes, the Agency is exempt for such fiscal year from the state single audit requirements of Section 215.97, Florida Statutes. However, the Agency must provide a single audit exemption statement to the Department at FDOTSingleAudit@dot.state.fl.us no later than nine months after the end of the Agency's audit period for each applicable audit year. In the event the Agency does not meet the audit threshold requirements established by Section 215.97, Florida Statutes, in a fiscal year and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the Agency's resources (*i.e.*, the cost of such an audit must be paid from the Agency's resources obtained from other than State entities).

iv. In accordance with Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, copies of financial reporting packages required by this Agreement shall be submitted to:

Florida Department of Transportation
Office of Comptroller, MS 24
605 Suwannee Street
Tallahassee, Florida 32399-0405
FDOTSingleAudit@dot.state.fl.us

And

State of Florida Auditor General
Local Government Audits/342
111 West Madison Street, Room 401
Tallahassee, FL 32399-1450
Email: flaudgen_localgovt@aud.state.fl.us

v. Any copies of financial reporting packages, reports, or other information required to be submitted to the Department shall be submitted timely in accordance with Section 215.97, Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.

vi. The Agency, when submitting financial reporting packages to the Department for audits done in accordance with Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, should indicate the date the reporting package was delivered to the Agency in correspondence accompanying the reporting package.

vii. Upon receipt, and within six months, the Department will review the Agency's financial reporting package, including corrective action plans and management letters, to the extent necessary to determine whether timely and appropriate corrective action on all deficiencies has been taken pertaining to the state financial assistance provided through the Department by this Agreement. If the Agency fails to have an audit conducted consistent with Section 215.97, Florida Statutes, the Department may take appropriate corrective action to enforce compliance.

viii. As a condition of receiving state financial assistance, the Agency shall permit the Department or its designee, DFS, or the Auditor General access to the Agency's records, including financial statements, the independent auditor's working papers, and project records as necessary. Records related to unresolved audit findings, appeals, or litigation shall be retained until the action is complete or the dispute is resolved.

c. The Agency shall retain sufficient records demonstrating its compliance with the terms of this Agreement for a period of five years from the date the audit report is issued and shall allow the Department or its designee, DFS, or State of Florida Auditor General access to such records upon request. The Agency shall ensure that the audit working papers are made available to the Department or its designee, DFS, or State of Florida Auditor General upon request for a period of five years from the date the audit report is issued, unless extended in writing by the Department.

16. Notices and Approvals. Notices and approvals referenced in this Agreement must be obtained in writing from the Parties' respective Administrators or their designees.

17. Restrictions, Prohibitions, Controls and Labor Provisions:

a. Convicted Vendor List. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity; may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

b. Discriminatory Vendor List. In accordance with Section 287.134, Florida Statutes, an entity or affiliate who has been placed on the Discriminatory Vendor List, kept by the Florida Department of Management Services, may not submit a bid on a contract to provide goods or services to a public entity; may not submit a bid on a contract with a public entity for the

construction or repair of a public building or public work; may not submit bids on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

c. Non-Responsible Contractors. An entity or affiliate who has had its Certificate of Qualification suspended, revoked, denied, or have further been determined by the Department to be a non-responsible contractor, may not submit a bid or perform work for the construction or repair of a public building or public work on a contract with the Agency.

d. Prohibition on Using Funds for Lobbying. No funds received pursuant to this Agreement may be expended for lobbying the Florida Legislature, judicial branch, or any state agency, in accordance with Section 216.347, Florida Statutes.

e. Unauthorized Aliens. The Department shall consider the employment by any contractor of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If the contractor knowingly employs unauthorized aliens, such violation will be cause for unilateral cancellation of this Agreement.

f. Procurement of Construction Services. If the Project is procured pursuant to Chapter 255, Florida Statutes, for construction services and at the time of the competitive solicitation for the Project, 50 percent or more of the cost of the Project is to be paid from state-appropriated funds, then the Agency must comply with the requirements of Section 255.0991, Florida Statutes.

g. E-Verify. The Agency shall:

i. Utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Agency during the term of the contract; and

ii. Expressly require any subcontractors performing work or providing services pursuant to the state contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the contract term.

h. Projects with Non-profit Organizations. Pursuant to Section 216.1366. Florida Statutes, if the Agency is a nonprofit organization as defined in Section 215.97(2)(m), Florida Statutes, the Agency shall provide documentation to indicate the amount of state funds:

i. Allocated to be used during the full term of this Agreement for remuneration to any member of the board of directors or an officer of the Agency

ii. Allocated under each payment by the Department to be used for remuneration of any member of the board of directors or an officer of the Agency. The documentation must indicate the amounts and recipients of the remuneration.

Such information will be posted by the Department to the Florida Accountability Contract Tracking System maintained pursuant to Section 215.985, F.S., and must additionally be posted to the Agency's website, if the Agency is a non-profit organization and maintains a website. The Agency shall utilize the Department's Form 350-090-19, Compensation to Non-Profits Using State Funds, for purposes of documenting the compensation. The subject Form is required for every contract for services executed, amended, or extended on or after July 1, 2023, with non-profit organizations.

Pursuant to Section 216.1366, F.S., the term:

i. "Officer" means a chief executive officer, chief financial officer, chief operating officer, or any other position performing and equivalent function.

ii. "Remuneration" means all compensation earned by or awarded to personnel, whether paid or accrued, regardless of contingency, including bonuses, accrued paid time off, severance payments, incentive payments, contributions to a retirement plan or in-kind payments, reimbursements, or allowances for moving expenses, vehicles and other transportation, telephone services, medical services, housing and meals.

iii. "State Funds" means funds paid from the General Revenue Fund or any state trust fund, funds allocated by the Federal Government and distributed by the state, or funds appropriated by the Federal Government and distributed by the state, or funds appropriated by the state for distribution through any grant program. The term does not include funds used for the Medicaid program.

i. Design Services and Construction Engineering and Inspection Services. If the Project is wholly or partially funded by the Department and administered by a local governmental entity, except for a seaport listed in Section 311.09, Florida Statutes, or an airport as defined in Section 332.004, Florida Statutes, the entity performing design and construction engineering and inspection services may not be the same entity.

18. Indemnification and Insurance:

a. It is specifically agreed between the Parties executing this Agreement that it is not intended by any of the provisions of any part of this Agreement to create in the public or any member thereof, a third party beneficiary under this Agreement, or to authorize anyone not a party to this Agreement to maintain a suit for personal injuries or property damage pursuant to the terms or provisions of this Agreement. The Agency guarantees the payment of all just claims for materials, supplies, tools, or labor and other just claims against the Agency or any subcontractor, in connection with this Agreement. Additionally, the Agency shall indemnify, defend, and hold harmless the State of Florida, Department of Transportation, including the Department's officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of the Agency and persons employed or utilized by the Agency in the performance of this Agreement. This indemnification shall survive the termination of this Agreement. Additionally, the Agency agrees to include the following indemnification in all contracts with contractors/subcontractors and consultants/subconsultants who perform work in connection with this Agreement:

"To the fullest extent permitted by law, the Agency's contractor/consultant shall indemnify, defend, and hold harmless the Agency and the State of Florida, Department of Transportation, including the Department's officers and employees, from liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness or intentional wrongful misconduct of the contractor/consultant and persons employed or utilized by the contractor/consultant in the performance of this Agreement.

This indemnification shall survive the termination of this Agreement."

b. The Agency shall provide Workers' Compensation Insurance in accordance with Florida's Workers' Compensation law for all employees. If subletting any of the work, ensure that the subcontractor(s) and subconsultant(s) have Workers' Compensation Insurance for their employees in accordance with Florida's Workers' Compensation law. If using "leased employees" or employees obtained through professional employer organizations ("PEO's"), ensure that such employees are covered by Workers' Compensation Insurance through the

PEO's or other leasing entities. Ensure that any equipment rental agreements that include operators or other personnel who are employees of independent contractors, sole proprietorships, or partners are covered by insurance required under Florida's Workers' Compensation law.

c. If the Agency elects to self-perform the Project, then the Agency may self-insure. If the Agency elects to hire a contractor or consultant to perform the Project, then the Agency shall carry, or cause its contractor or consultant to carry, Commercial General Liability insurance providing continuous coverage for all work or operations performed under this Agreement. Such insurance shall be no more restrictive than that provided by the latest occurrence form edition of the standard Commercial General Liability Coverage Form (ISO Form CG 00 01) as filed for use in the State of Florida. The Agency shall cause, or cause its contractor or consultant to cause, the Department to be made an Additional Insured as to such insurance. Such coverage shall be on an "occurrence" basis and shall include Products/Completed Operations coverage. The coverage afforded to the Department as an Additional Insured shall be primary as to any other available insurance and shall not be more restrictive than the coverage afforded to the Named Insured. The limits of coverage shall not be less than $1,000,000 for each occurrence and not less than a $5,000,000 annual general aggregate, inclusive of amounts provided by an umbrella or excess policy. The limits of coverage described herein shall apply fully to the work or operations performed under the Agreement, and may not be shared with or diminished by claims unrelated to the Agreement. The policy/ies and coverage described herein may be subject to a deductible and such deductibles shall be paid by the Named Insured. No policy/ies or coverage described herein may contain or be subject to a Retention or a Self-Insured Retention unless the Agency is a state agency or subdivision of the State of Florida that elects to self-perform the Project. Prior to the execution of the Agreement, and at all renewal periods which occur prior to final acceptance of the work, the Department shall be provided with an ACORD Certificate of Liability Insurance reflecting the coverage described herein. The Department shall be notified in writing within ten days of any cancellation, notice of cancellation, lapse, renewal, or proposed change to any policy or coverage described herein. The Department's approval or failure to disapprove any policy/ies, coverage, or ACORD Certificates shall not relieve or excuse any obligation to procure and maintain the insurance required herein, nor serve as a waiver of any rights or defenses the Department may have.

d. When the Agreement includes the construction of a railroad grade crossing, railroad overpass or underpass structure, or any other work or operations within the limits of the railroad right-of-way, including any encroachments thereon from work or operations in the vicinity of the railroad right-of-way, the Agency shall, or cause its contractor to, in addition to the insurance coverage required above, procure and maintain Railroad Protective Liability Coverage (ISO Form CG 00 35) where the railroad is the Named Insured and where the limits are not less than $2,000,000 combined single limit for bodily injury and/or property damage per occurrence, and with an annual aggregate limit of not less than $6,000,000. The railroad shall also be added along with the Department as an Additional Insured on the policy/ies procured pursuant to the paragraph above. Prior to the execution of the Agreement, and at all renewal periods which occur prior to final acceptance of the work, both the Department and the railroad shall be provided with an ACORD Certificate of Liability Insurance reflecting the coverage described herein. The insurance described herein shall be maintained through final acceptance of the work. Both the Department and the railroad shall be notified in writing within ten days of any cancellation, notice of cancellation, renewal, or proposed change to any policy or coverage described herein. The Department's approval or failure to disapprove any policy/ies, coverage, or ACORD Certificates shall not relieve or excuse any obligation to procure and maintain the insurance required herein, nor serve as a waiver of any rights the Department may have.

e. When the Agreement involves work on or in the vicinity of utility-owned property or facilities, the utility shall be added along with the Department as an Additional Insured on the

Commercial General Liability policy/ies procured above.

19. Miscellaneous:

a. Environmental Regulations. The Agency will be solely responsible for compliance with all applicable environmental regulations and for any liability arising from non-compliance with these regulations, and will reimburse the Department for any loss incurred in connection therewith.

b. Non-Admission of Liability. In no event shall the making by the Department of any payment to the Agency constitute or be construed as a waiver by the Department of any breach of covenant or any default which may then exist on the part of the Agency and the making of such payment by the Department, while any such breach or default shall exist, shall in no way impair or prejudice any right or remedy available to the Department with respect to such breach or default.

c. Severability. If any provision of this Agreement is held invalid, the remainder of this Agreement shall not be affected. In such an instance, the remainder would then continue to conform to the terms and requirements of applicable law.

d. Agency not an agent of Department. The Agency and the Department agree that the Agency, its employees, contractors, subcontractors, consultants, and subconsultants are not agents of the Department as a result of this Agreement.

e. Bonus or Commission. By execution of the Agreement, the Agency represents that it has not paid and, also agrees not to pay, any bonus or commission for the purpose of obtaining an approval of its application for the financing hereunder.

f. Non-Contravention of State Law. Nothing in the Agreement shall require the Agency to observe or enforce compliance with any provision or perform any act or do any other thing in contravention of any applicable state law. If any of the provisions of the Agreement violate any applicable state law, the Agency will at once notify the Department in writing so that appropriate changes and modifications may be made by the Department and the Agency to the end that the Agency may proceed as soon as possible with the Project.

g. Execution of Agreement. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which shall constitute the same Agreement. A facsimile or electronic transmission of this Agreement with a signature on behalf of a party will be legal and binding on such party.

h. Federal Award Identification Number (FAIN). If the FAIN is not available prior to execution of the Agreement, the Department may unilaterally add the FAIN to the Agreement without approval of the Agency and without an amendment to the Agreement. If this occurs, an updated Agreement that includes the FAIN will be provided to the Agency and uploaded to the Department of Financial Services' Florida Accountability Contract Tracking System (FACTS).

i. Inspector General Cooperation. The Agency agrees to comply with Section 20.055(5), Florida Statutes, and to incorporate in all subcontracts the obligation to comply with Section 20.055(5), Florida Statutes.

j. Law, Forum, and Venue. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida. In the event of a conflict between any portion of the

contract and Florida law, the laws of Florida shall prevail. The Agency agrees to waive forum and venue and that the Department shall determine the forum and venue in which any dispute under this Agreement is decided.

IN WITNESS WHEREOF, the Parties have executed this Agreement on the day and year written above.

EXHIBIT A

Project Description and Responsibilities

A. Project Description (description of Agency's project to provide context, description of project components funded via this Agreement (if not the entire project)): GoPasco will utilize FTA Section 5339 Rural funds under ALI 11.44.01 (Scope 114-00: Bus and Bus Facilities) to rehabilitate and/or renovate an existing transit administrative facility. Improvements will support safe, efficient operations and maintain the facility in a state of good repair.

B. Project Location (limits, city, county): Pasco County Board of County Commissioners/Port Richey, FL/Pasco
☐ Illustration/graphic/map of project area is applicable and attached to this Exhibit A.

C. Project Scope (allowable costs: describe project components, improvement type/service type, approximate timeline, project schedule, project size): The project includes the rehabilitation and/or renovation of an existing administrative building. Activities include procurement, construction, project management, and ensuring compliance with ADA, and all applicable federal, state, and local requirements.
This award includes Toll Development Credits provided by FDOT as local match in the amount of $32,499.

D. Deliverable(s): Progress Reports will be submitted, reviewed, and evaluated with each invoice or every six months, whichever comes first.

The project scope identifies the ultimate project deliverables. Deliverables for requisition, payment and invoice purposes will be the incremental progress made toward completion of project scope elements. Supporting documentation will be quantifiable, measurable, and verifiable, to allow for a determination of the amount of incremental progress that has been made, and provide evidence that the payment requested is commensurate with the accomplished incremental progress and costs incurred by the Agency.

E. Unallowable Costs (including but not limited to):

F. Transit Operating Grant Requirements (Transit Only):

Transit Operating Grants billed as an operational subsidy will require an expenditure detail report from the Agency that matches the invoice period. The expenditure detail, along with the progress report, will be the required deliverables for Transit Operating Grants. Operating grants may be issued for a term not to exceed three years from execution. The original grant agreement will include funding for year one. Funding for years two and three will be added by amendment as long as the grantee has submitted all invoices on schedule and the project deliverables for the year have been met.

EXHIBIT B

Schedule of Financial Assistance

FUNDS AWARDED TO THE AGENCY AND REQUIRED MATCHING FUNDS PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

A. Fund Type and Fiscal Year:

Financial Management Number	Fund Type	FLAIR Category	State Fiscal Year	Object Code	CSFA/ CFDA Number	CSFA/CFDA Title or Funding Source Description	Funding Amount
457433-1-94-25	DU	088774	2026	780000	20.526	Bus and Bus Facilities	$129,995.00
	Total Financial Assistance						$129,995.00

B. Estimate of Project Costs by Grant Phase:

Phases*	State	Local	Federal	Totals	State %	Local %	Federal %
Land Acquisition	$0.00	$0.00	$0.00	$0.00	0.00	0.00	0.00
Planning	$0.00	$0.00	$0.00	$0.00	0.00	0.00	0.00
Environmental/ Design/ Construction	$0.00	$0.00	$129,995.00	$129,995.00	0.00	0.00	100.00
Capital Equipment/ Preventative Maintenance	$0.00	$0.00	$0.00	$0.00	0.00	0.00	0.00
Match to Direct Federal Funding	$0.00	$0.00	$0.00	$0.00	0.00	0.00	0.00
Mobility Management (Transit Only)	$0.00	$0.00	$0.00	$0.00	0.00	0.00	0.00
Totals	$0.00	$0.00	$129,995.00	$129,995.00			

*Shifting items between these grant phases requires execution of an Amendment to the Public Transportation Grant Agreement.

Scope Code and/or Activity Line Item (ALI) (Transit Only)	114-00; 11.44.01
Common Name/UZA Name (Transit Only)	

BUDGET/COST ANALYSIS CERTIFICATION AS REQUIRED BY SECTION 216.3475, FLORIDA STATUTES:

I certify that the cost for each line item budget category (grant phase) has been evaluated and determined to be allowable, reasonable, and necessary as required by Section 216.3475, Florida Statutes. Documentation is on file evidencing the methodology used and the conclusions reached.

ALTERNATIVE ADVANCE PAY FOR FEDERAL TRANSIT ADMINISTRATION (FTA) SECTION 5310, 5311, 5339 PROGRAMS AND FDOT STATE FUNDED PROGRAMS FOR PUBLIC TRANSIT

1. The Agency must submit its invoice to the Department within 5 business days of the receipt of the invoice from the Vendor. The invoiced amount to the Department for transit related vehicles and/or equipment eligible under the FTA's Section 5310, 5311 and 5339 programs or FDOT State Funded Programs for Public Transit cannot exceed the Department's participation amount on Item 9 (b) of this agreement.

2. All invoices submitted to the Department must provide complete documentation, including a copy of the Vendor's invoice(s) and proof of vehicle and/or equipment delivery and acceptance by the Agency, to substantiate the cost on the invoice.

3. The Agency must certify on each invoice that the costs from the vendor are valid and have been incurred by the Vendor.

4. Within twenty (20) business days of receipt of payment from the Department, the following actions must be completed:

a. The Agency must submit their payment to the vendor.
b. Complete Exhibit I - Certification of Disbursement of Payment to Vehicle and/or Equipment Vendor.

Note: Exhibit I – Certification of Disbursement of Payment to Vehicle and/or Equipment Vendor will be initiated by the Department through DocuSign at the time payment from the Department has been made to the Agency. The DocuSign will be routed to the Agency and the Vendor. Each party will acknowledge the certification where applicable.

*This Exhibit is for use only when purchasing transit related vehicles and/or program eligible equipment. Must have preapproval from the Department of Financial Services (DFS).

AGENCY RESOLUTION

PLEASE SEE ATTACHED

EXHIBIT E
PROGRAM SPECIFIC TERMS AND CONDITIONS – TRANSIT

(Section 5339: Bus & Bus Facilities Formula Program)

This exhibit forms an integral part of the Agreement between the Department and the Agency.

The Agency as the "subrecipient" shall comply with all applicable federal laws, regulations, and requirements, and should follow applicable federal guidance as outlined in the current FTA Master Agreement and 2 CFR Part 200, including but not limited to:

1. **Conformance with Enabling Legislation.** This Agreement is in conformance with 49 U.S.C. 5339, 49 U.S.C. 5339, and Section 341.051(1)(a), F.S.

2. **Alcohol Misuse and Prohibited Drug Use.** The Agency shall establish and implement anti-drug and alcohol misuse prevention programs in accordance with the terms of 49 CFR 655.

3. **Adherence to Certifications and Assurances.** The Agency shall ensure adherence with all federally required certifications and assurances made in its application to the Department for Section 5339 funds.

4. **Formula Information.** This program is authorized under 49 U.S.C. 5339/, Federal Transit Administration Circular Rural Areas Formula Grant Program Circular 9040.1H, as amended. Said circular, Chapter III, Section 3, outlines the formula for federal apportionments under this program.

5. **FTA Compliance.**. The Agency shall at all times comply with all applicable Federal Transit Administration ("FTA") regulations, policies, procedures and directives, including without limitation those listed directly or by reference in the Master Agreement between the FDOT and FTA, as they may be amended or promulgated from time to time during the term of this contract. Failure to so comply shall constitute a material breach of this contract.

6. **Nondiscrimination.** The Agency assures the project will be completed in accordance with all applicable requirements imposed by or issued pursuant to 49 U.S.C. 5332, 42 U.S.C. 2000d, and 49 CFR 21, and understands that this assurance extends to its entire facility and to facilities operated in connection with the project.

7. **Seat Belt Use.** The Agency agrees to implement Executive Order No. 13043, "Increasing Seat Belt Use in the United States," 23 U.S.C. § 402.

8. **Distracted Driving.** The Agency agrees to comply with Executive Order No. 13513, "Federal Leadership on Reducing Text Messaging While Driving," 23 U.S.C. § 402 note and U.S. DOT Order 902.10, "Text Messaging While Driving and the U.S. DOT Special Provision pertaining to Distracted Driving.

9. **Buy America.** The Agency agrees to comply with Buy America requirements outlined in 49 U.S.C. 5323(j) and 49 CFR 661 if using the funds granted under this agreement for rolling stock purchases. The recipient also agrees to comply with the pre-award and post-delivery requirements outlined in 49 CFR 661.12.

10. **Clean Air and Water Pollution Acts.** The Agency agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act, codified at 33 U.S.C. 1251 et seq., as amended, if the agreement exceeds $150,000.

11. **Anti-Lobbying.** The Agency agrees to comply with the requirements pursuant to Byrd Anti-Lobbying Amendment, 31 U.S.C. 1352(b)(5). U.S. DOT regulations, "New Restrictions on Lobbying," 49 CFR Part 20, to the extent consistent with 31 U.S.C. § 1352, as amended and other applicable federal laws, regulations, requirements, and guidance prohibiting the use of federal assistance for any activity concerning legislation or appropriations designed to influence the U.S. Congress or a state legislature.

    Bonding Requirements. If this agreement is for a construction project over $250,000 the recipient must adhere to FTA's bonding requirements 2 CFR 200.326 as outlined in the Best Practices Procurement Manual.

12. **Solid Waste.** Where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000, the Agency agrees to comply with all the requirement of Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act , 49 U.S.C. 6962, as amended, including but not limited to the regulatory provisions of 40 CFR 247, and Executive Order 12873, as they apply to the procurement of the items designated in Subpart B of 40 CFR 247. Sample language can be found in the Department's "Procurement Guidance for Transit Agencies."

13. **Employee Relations (Davis-Bacon Act and Copeland Anti-Kickback Act).** The Agency agrees to comply with the Davis-Bacon and Copeland Anti-kickback Acts as codified at 40 U.S.C. 3141 et seq. and 18 U.S.C. 874 for any agreement exceeding $2,000. Sample language can be found in the Department's "Procurement Guidance for Transit Agencies."

14. **Employee Relations (Contract Work Hours and Safety Standards).** For any contract over $100,000 the Agency agrees to comply with the Contract Work Hours and Safety Standards Act, codified at 40 U.S.C. 3701 et seq.

15. **Transit Employee Protective Agreements.** The Agency agrees to comply with the Transit Employee Protective Agreements, codified in 49 U.S.C. 5339 and 29 CFR 215.

16. **Breaches and Dispute Resolution.** The Agency agrees to include "Breaches and Dispute Resolution" language in all third-party agreements in compliance with 2 CFR 200 and FTA Circular 4220.1E or subsequent revisions

17. **Compliance with FTA Terms and Conditions.** The Agency shall not perform any act, fail to perform any act, or refuse to comply with any FDOT requests which would cause the Agency to be in violation of the FTA terms and conditions.

18. **Annual Safety Certification.** In accordance with Section 341.061, F.S., and Rule 14-90, Florida Administrative Code, the Agency shall submit, and the Department shall have on file, an annual safety certification stating that the Agency has adopted and is complying with its adopted System Safety and Security Program Plan and has performed annual safety inspections of all buses operated.

19. **Disadvantaged Business Enterprises (DBE).** This grant is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, *Participation by* Disadvantaged Business Enterprises *in Department of Transportation Financial Assistance Programs*. The Agency must complete biannual DBE reports and submit them to the Department by May 1 and November 1 annually.

20. **FTA Drug and Alcohol Regulation.** The direct recipient of Section 5339 funds is responsible for ensuring that any entity providing transportation services on its behalf is in compliance with the FTA Drug and Alcohol Program, codified at 49 C.F.R. Part 655. If a transit system serves only to pass through non-FTA funding to

another transportation agency, the latter is not covered by the regulations. Those pass-through funds must be clearly identified and distinct from other FTA funds.

21. **Special Requirements.** Capital items purchased with these grant funds will require approval by the Department prior to completing your purchases.

22. **Bus shelters and stops.** In keeping with the current policy of the Department, placement of bus shelters and stops are to be coordinated with the Department District Bicycle/Pedestrian Coordinator prior to installation.

23. **Transit Vehicle Inventory Management.** The Agency will follow the Department's Transit Vehicle Inventory Management Procedure (725-030-025), which outlines the requirements for continuing management control, inventory transfer and disposal actions. This procedure pertains ONLY to capital procurements of rolling stock using the FTA Section 5310, Section 5311 or Section 5339 programs as the funding source, or where the Department participates in 50% or more of the public transit vehicle's purchase price. This may include vehicles purchased under the State Transit Block Grant Program, State Transit Corridor Program, State Transit Service Development Program, or other applicable Departmental programs.

24. **Build America, Buy America Act (BABA).** For all construction contracts, the Agency agrees to comply with the Build America, Buy America Act (BABA) requirements in the Infrastructure Investment and Jobs Act, Pub. L. No. 117-58, div. G §§ 70901-27, as implemented at 2 CFR Part 184.

25. **Special EEO Provision for Construction.** For all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3, the Agency agrees to comply with the requirements of 41 CFR 60-1.4(b). These regulations prohibit discrimination against all individuals based on their race, color, religion, sex, sexual orientation, gender identity, national origin, or for inquiring about, discussing or disclosing compensation. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity or national origin.

26. **Veterans Preference.** For all construction contracts, as provided in 49 U.S.C. § 5325(k), to the extent practicable, the Agency will give a hiring preference to veterans, as defined in 5 U.S.C. § 2108.

27. **Project Management Plan.** For all major capital projects, the Agency agrees to develop a project management plan that details their strategies to control the Project scope, budget, schedule and quality, in compliance with 49 CFR 633.

28. **Seismic Safety.** For construction contracts of new or existing buildings, the agency agrees to comply with the Earthquake Hazards Reduction Act of 1977, as amended, 42 U.S.C. § 7701, et seq., and U.S. DOT regulations, "Seismic Safety," 49 CFR Part 41, specifically, 49 C.F.R. § 41.117.

29. **Construction Plans and Specifications.** For all construction contracts, the Agency agrees to comply with all applicable statutes, regulations, and requirements, and follow FTA guidance in the development and implementation of construction plans and specifications, including drafting, review, and approval, for the Award.

30. **Review of Technical Plans and Specifications.** For all construction contracts, the agency agrees to permit FTA and/or the State to review, as deemed necessary by FTA and/or the State, the technical plans and specifications.

31. **Engineering Supervision at Construction Sites.** For all construction contracts, the Agency agrees to provide and maintain competent and adequate engineering supervision at the construction site to ensure that the

completed work conforms to the plans and specifications and that the intent of the scope of the Project is carried out.

Exhibit E1

PROGRAM SPECIFIC TERMS AND CONDITIONS

(Prohibition on Discrimination Based on Health Care Choices)

This exhibit forms an integral part of the Agreement between the Department and the Agency.

1. **Statutory Reference.** Section 339.08, F.S. and Section 381.00316, F.S.

2. **Statutory Compliance.** Pursuant to Section 339.08, F.S., the Department may not expend state funds to support a project or program of certain entities if the entity is found to be in violation of Section 381.00316, F.S. The Department shall withhold state funds until the entity is found to be in compliance with Section 381.00316, F.S. This shall apply to any of the following entities:

    a. A public transit provider as defined in s. 341.031(1), F.S.;
    b. An authority created pursuant to chapter 343, F.S., chapter 348, F.S., or chapter 349, F.S.; c. A public-use airport as defined in s. 332.004, F.S.; or
    d. A port listed in s. 311.09(1), F.S.

Exhibit E2

PROGRAM SPECIFIC TERMS AND CONDITIONS – TRANSIT

(Exterior Vehicle Wrap, Tinting, Paint, Marketing, and Advertising)

This exhibit forms an integral part of the Agreement between the Department and the Agency.

1. **Statutory Reference.** Section 341.051(8), F.S. and Section 316.2954, F.S.

2. **Statutory Compliance.** In accordance with Section 341.051(8), F.S., as a condition of receiving funds from the Department, a public transit provider may not expend Department funds for marketing or advertising activities, including any wrap, tinting, paint, or other medium displayed, attached, or affixed on a motor vehicle owned, leased, or operated by the public transit provider. Such vehicles on which department funds are expended are limited to exterior vehicle wrap, tinting, paint, marketing, and advertising displaying:

    a. a brand or logo of the public transit provider,
    b. the official seal of the jurisdictional governmental entity, or
    c. a state agency public service announcement.

3. **Window Tinting Requirements.** Any new wrap, tinting, paint, medium or advertisement on the passenger windows of a vehicle used by a public transit provider may not be darker than the legally allowed tinting requirements provided in Section 316.2954, F.S.

- End of Exhibit E2 -

EXHIBIT E4
PROGRAM SPECIFIC TERMS AND CONDITIONS
(Energy Policy Goals Reporting)

This exhibit forms an integral part of the Agreement between the Department and the Agency.

1. **Statutory Reference.** Section 339.135(2)(c)4, F.S. and Section 377.601(3), F.S.

2. **Statutory Compliance.** Pursuant to Section 339.135(2)(c)4, F.S., the Department shall submit a report identifying any agencies listed below that have adopted or promoted energy policy goals inconsistent with the State of Florida energy policy set forth in Section 377.601(3), F.S. to the legislative appropriation committees:

    a. A public transit provider as defined in s. 341.031(1), F.S.;
    b. An authority created pursuant to chapter 343, F.S., chapter 348, F.S., or chapter 349, F.S.;
    c. A public-use airport as defined in s. 332.004, F.S.; or
    d. A port listed in s. 311.09(1), F.S.

3. **Agency Reporting Requirements.** As a condition of receiving state funds from the Department, the Agency shall certify in the section below whether the Agency has adopted or promoted energy policy goals inconsistent with the State of Florida energy policy set forth in Section 377.601(3), F.S.:

    The Agency HAS ☐ / HAS NOT ☐ adopted or promoted energy policy goals inconsistent with the energy policy of the State of Florida set forth in Section 377.601(3), F.S.

– End of Exhibit E4 –

EXHIBIT F

Contract Payment Requirements
Florida Department of Financial Services, Reference Guide for State Expenditures
Cost Reimbursement Contracts

Invoices for cost reimbursement contracts must be supported by an itemized listing of expenditures by category (salary, travel, expenses, etc.). Supporting documentation shall be submitted for each amount for which reimbursement is being claimed indicating that the item has been paid. Documentation for each amount for which reimbursement is being claimed must indicate that the item has been paid. Check numbers may be provided in lieu of copies of actual checks. Each piece of documentation should clearly reflect the dates of service. Only expenditures for categories in the approved agreement budget may be reimbursed. These expenditures must be allowable (pursuant to law) and directly related to the services being provided.

Listed below are types and examples of supporting documentation for cost reimbursement agreements:

(1) Salaries: A payroll register or similar documentation should be submitted. The payroll register should show gross salary charges, fringe benefits, other deductions and net pay. If an individual for whom reimbursement is being claimed is paid by the hour, a document reflecting the hours worked times the rate of pay will be acceptable.

(2) Fringe Benefits: Fringe Benefits should be supported by invoices showing the amount paid on behalf of the employee (e.g., insurance premiums paid). If the contract specifically states that fringe benefits will be based on a specified percentage rather than the actual cost of fringe benefits, then the calculation for the fringe benefits amount must be shown.

Exception: Governmental entities are not required to provide check numbers or copies of checks for fringe benefits.

(3) Travel: Reimbursement for travel must be in accordance with Section 112.061, Florida Statutes, which includes submission of the claim on the approved State travel voucher or electronic means.

(4) Other direct costs: Reimbursement will be made based on paid invoices/receipts. If nonexpendable property is purchased using State funds, the contract should include a provision for the transfer of the property to the State when services are terminated. Documentation must be provided to show compliance with Department of Management Services Rule 60A-1.017, Florida Administrative Code, regarding the requirements for contracts which include services and that provide for the contractor to purchase tangible personal property as defined in Section 273.02, Florida Statutes, for subsequent transfer to the State.

(5) In-house charges: Charges which may be of an internal nature (e.g., postage, copies, etc.) may be reimbursed on a usage log which shows the units times the rate being charged. The rates must be reasonable.

(6) Indirect costs: If the contract specifies that indirect costs will be paid based on a specified rate, then the calculation should be shown.

Contracts between state agencies, and/or contracts between universities may submit alternative documentation to substantiate the reimbursement request that may be in the form of FLAIR reports or other detailed reports.

BY THE BOARD OF COUNTY COMMISSIONERS **RESOLUTION NO. _____**

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF PASCO COUNTY, FLORIDA, AMENDING THE FINAL BUDGET FOR FISCAL YEAR 2026; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Section 129.06(2), Florida Statutes provides legal authority and defines how a budget may be amended for that year, and may within the first 60 days of a fiscal year amend the budget for the prior fiscal year; and,

WHEREAS, pursuant to Section 129.06(2)(d), Florida Statutes, a receipt of a nature from a source not anticipated in the budget and received for a particular purpose, including but not limited to grants, donations, gifts, or reimbursement for damages, may, by resolution of the board spread on its minutes, be appropriated and expended for that purpose, in addition to the appropriations and expenditures provided for in the budget. Such receipts and appropriations must be added to the budget of the proper fund. The resolution may amend the budget to transfer revenue between funds to properly account for unanticipated revenue.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Pasco County, Florida, that:

1. The Fiscal Year 2026 Final Budget be amended.
2. Revenues and expenses are increased in the amount of $129,995.00 within Grant Fund for the execution of Pasco Grant No. G26R00 (Contract G3Q02), CSFA No. 20.526, project 23029. Funding is for the purposes of Engineering, Design, Construction/ Rehabilitation/ Renovation of Bus and Bus Facilities within the Pasco County Public Transportation (GoPasco) Department.
3. This resolution will take effect immediately upon its adoption.

DULY ADOPTED with a quorum present and voting this _____ day of _____, 2026.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** PT26-0023 **DATE:** 6/16/2026

SUBJECT: Budget Amendment and Resolution – Federal Transit Administration (FTA) – FY 2023-2024 Section 5307 Formula Grant Award – $14,068,948.00 (FTA); $940,000 (County)

REFERENCES: Not Applicable

AGENDA SECTION: Consent Agenda

THRU: Catherine Pearson, Assistant County Administrator

FROM: Jannina Elkin, Public Transportation Director

RECOMMENDED BOARD ACTION:

Approve Pasco County Public Transportation (GoPasco) to expend the grant funds pursuant to the terms of the awards. Approve the corresponding Budget Amendment, Journal No. 2026 09 11, in the amount of $15,008,948.00 and adopt the Budget Resolution to Pasco Grant No. G26P00. Authorize the Chairman to execute the one original Resolution provided, and direct Board Records to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

GoPasco receives annual funding from the FTA through the Section 5307 Urbanized Area Formula Grants Program for both large and small urbanized areas. GoPasco applied for and was awarded the FY23/FY24 Section 5307 Urbanized Area Formula grant on April 16, 2026. The award was executed on April 21st and was brought to the Board of County Commissioners as a Noted Item on May 19, 2026.

The FTA Section 5307 Urbanized Area Formula Grant Funds can include funding for vehicle purchases, ADA transportation, preventive maintenance, planning, computer hardware & software, purchase/lease of miscellaneous support equipment, purchase/install passenger amenities, computers, and office equipment. Other grant items include security equipment, employee education/training, operating assistance funds, contingency funding, and project administration funding. The funding has different match requirements depending on the use of the funding.

Total funding comprises a local match of $940,000.00 and FTA funding in the amount of $14,068,948.00. The total funded amount is $15,008,948.00.

GoPasco received Florida Department of Transportation (FDOT) Transportation Development Credits in the amount of $3,077,236 to cover the local match requirements for capital projects. The operational costs have a 50 percent FTA and 50 percent local match requirement.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Upon approval of the Budget Amendment, Journal No. 2026 09 11, funding in the amount of $15,008,948.00 will be budgeted and available in the Grants Fund, Public Transportation Department, Pasco Grant No. G26P00. The local match in the amount

of $940,000 is budgeted and available in the Multi-Modal Transportation Fund, Public Transportation Department.

DISTRIBUTION:
Board Records to distribute as set forth below:

1. Retain one original.

2. Forward, electronically, the Budget Resolution to:

   a. Ashley Crespo – acrespo@gopasco.com
   b. Rebecca Mosley – rmosley@pascocountyfl.net

Title: FY 2023 and FY 2024 5307 UZA Small and Large Urban and Non Fixed Route ADA Paratransit Services; Pasco Co, Tampa/St. Petersburg UZA, FL

Award with Amendment Number	Award Status	Award Type	Award Cost Center	Date Created	Last Updated Date	From TEAM?
FL-2026-016-00	Active (Executed)	Grant	Region 4	4/5/2024	4/5/2024	No

Award Executive Summary
This is a FY23/FY24 Section 5307 Urbanized Area Formula grant in the amount of $14,068,948 for Pasco County (GoPasco).

The funds are comprised of split letter allocations from Tampa's Large Urbanized Area (LU) and FDOTs Small Urban amounts.

The grant requests $4,322,999 from FY2023 Section 5307 Large Urban funds (which includes Tbarta's reallocation funds) and $1,310,264 from FY2023 Section 5307 Small Urban funds provided by FTA.

The grant also request $7,200,232 from FY2024 Section 5307 Large Urban funds and $1,235,453 from FY2024 Section 5307 Small Urban funds provided by FTA.

TBARTAs reallocation is reflected in the FY23 Tampa's Pot $4,322,999 (FY23 5307 Split Letter Apportioned amount: $3,901,417 and Tbarta's reallocated amount: $421,582)

The requested amount does not exceed Pasco County's regional allocation of the FY2023 and FY2024 available apportionment and the total non-federal share in the amount of $3,077,236 is provided by Transportation Development Credit. Toll Revenue Credits of $3,077,236 was approved on 8/12/25 by the State of Florida to be used for the 20% "soft match."

For the FY2023 and FY2024 5307 Large Urban apportionment, the non-federal share in the amount of $2,440,806 will be provided by the Transportation Development Credit.

For the FY2023 and FY2024 5307 Small Urban apportionment, the non-federal share in the amount of $636,430 will be provided by the Transportation Development Credit.

The current allocation agreement between the three transit agencies in this region was provided to FTA on May 28, 2018. This agreement definitively outlines the applicable split allocation between Pasco County (GoPasco), Hillsborough Area Regional Transit (HART), and Pinellas Suncoast Transit Authority (PSTA).

The Governor of Florida, through FDOT, approved the Pasco County Board of County Commissioners as the designated recipient of the small urbanized program funds on April 28, 2003 and the FTA Region IV Administrator subsequently accepted this designation on May 8, 2003 and again on August 4, 2006. Funds for this grant will be used to upgrade the GoPasco system.

Additionally, funds from this grant will be used to acquire an Intelligent Transportation System (ITS), replacement buses, farebox maintenance, bus maintenance, and operations. The funding will also support our complementary ADA mandated service, maintenance of vehicles and the operations of service. Funds from the grant may be used in conjunction with other grant opportunities to fund projects.

GoPasco, as a direct recipient, will administer the grant funding which will not be used for research and development.

This FY23/24 grant is intended to be used from date of grant award until March 30, 2036 (5 years after last milestone).

1% for Security Requirement (5307 ONLY): GoPasco intends to purchase upgraded security cameras and equipment for all of our buses using ALI 11.32.07 ($140,690).

0.75% for Safety Requirement (5307 ONLY): In addition to the security cameras (ALI 11.32.07) GoPasco will be purchasing newer vehicles that include modernized safety equipment that will allow for a safer trip for the customer. GoPasco also conducts periodic safety training.

The Recipient, GoPasco, or Sub-recipient (when applicable) will follow all 3rd party procurement policies as defined in C4220.1G (Third Party Contracting Guidance).

In addition to FTA's Buy America Act, which requires that the steel, iron, and manufactured goods used in an FTA-funded project are produced in the United States (49 U.S.C. 5323(j)(1)), the Build America, Buy America Act (BABA) (Public Law 117-58, div. G 70914(a)) now requires that construction materials used in infrastructure projects are also produced in the United States. Refer to terms and conditions in FTAs Master Agreement Section 15. The BABA requirement applies to this grant, in addition to the Buy America Act, except to the extent a waiver of either requirement may apply.

Does this application include funds for research and/or development activities?
This award does not include research and development activities.

Pre-Award Authority
This award is using Pre-Award Authority.

Does this application include suballocation funds?
Recipient organization is suballocated these apportioned funds and can apply for and receive these funds directly.

Will this Grant be using Lapsing Funds?
No, this Grant does not use Lapsing Funds.

Will indirect costs be applied to this application?
The de minimus indirect cost rate is applied to this application.

Indirect Rate Details: N/A

Requires E.O. 12372 Review
No, this application does not require E.O. 12372 Review.

Delinquent Federal Debt
No, my organization does not have delinquent federal debt.

Award Description

Purpose
The purpose of this grant is to provide assistance for maintenance, operations, fare boxes, rolling stock and other projects.

Activities to be performed:
We anticipate purchasing replacement rolling stock, preventive maintenance, and continuing to improve our operations through the funding of salaries.

Expected outcomes:
We expect to have an improved customer experience by purchasing and maintaining a more modern fleet and continuing to fund our operations.

Intended beneficiaries:
GoPasco, Pasco County residents and visitors and the riders that rely on its service will benefit from these implementations.

Subrecipient Activities:
N/A

Part 3: Project Information

Project Title: FY23 and FY24 5307 Large Urban Apportionment

Project Number	Temporary Project Number	Date Created	Start Date	End Date
FL-2026-016-01-00	5318-2024-1-P1	5/15/2024	3/8/2024	12/30/2030

Project Description
This is a FY 2023 and FY 2024 Section 5307 grant application consisting of $4,322,999.00 in FY23 and $7,200,232.00 in FY24 totaling $11,523,231.00 for Large Urban Apportionment to be matched with $2,440,807 in Transportation Development Credits. The application is for the purchase of rolling stock, preventive maintenance, operations, bus shelters, an ITS system, ADA access improvements, security equipment, and planning activities.

GoPasco will ensure that all vehicles purchased are accessible, purchased from an FTA approved Transit Vehicle Manufacturer (TVM), and reported to FTA within 30 days after a contract is signed.

GoPasco will check the current listing of TVM's at (https:/www.transit.dot.gov/regulations-and-guidance/civil-rights-ada/eligible-tvms-list) to ensure each is listed as a certified TVM in compliance with FTA regulations.

GoPasco will follow all 3rd party procurement policies as defined in C4220.1G (Third Party Contracting Guidance).

GoPasco will ensure contractors procured will not be on the FTA Suspension and Debarment List.

Project Benefits
The benefits of this funding will be to provide fixed route and paratransit service to the residents of Pasco County allowing them access to employment, healthcare, education, and other related activities in the community. Public transportation provides other benefits such as reduced traffic congestion and increased air quality. One of our main goals is to improve the reliability and customer experience of the system through the improvement of our technology and rolling stock among other projects enhancing and maintaining the current system.

Additional Information
None provided.

Location Description
Pasco County is north of Tampa Bay - St. Petersburg, Florida area within the Tampa--St. Petersburg UZA

BUS: SUPPORT EQUIP AND FACILITIES (114-00)	11.44.10	REHAB/RENOVATE - MOBILE FARE COLL EQUIP	REHAB/RENOVATE BUS SUPPORT FACIL/EQUIP	20

Extended Budget Description
Funds will be utilized to upgrade and maintain the sunset equipment that will be used to probe the bus, communicate with fareboxes, retrieve ridership and revenue data and provide reports. This will also be used to provide related parts and equipment to ensure sufficient bench stock, purchased on an as needed basis to repair damaged equipment (quantity cannot be properly forecasted as equipment purchase is responsive and event driven), to ensure operable fare collection equipment is available and immediately accessible to replace and maintain the farebox system as needed or install into buses that serve as back-ups to the revenue bus fleet. This equipment is essential to maintain consistency in the fare collection process, reporting requirements and passenger service.

Will 3rd Party contractors be used to fulfill this activity line item?
Yes, 3rd Party Contractors will be used for this line item.

Scope Name / Code	Line Item #	Line Item Name	Activity	Quantity
BUS: SUPPORT EQUIP AND FACILITIES (114-00)	11.44.03	REHAB/RENOVATE - ADMIN/MAINT FACILITY	REHAB/RENOVATE BUS SUPPORT FACIL/EQUIP	1

Extended Budget Description
This will be used to fund the renovation of our administrative facility. The useful life will be 30 years after renovation completion and the improvements will be to support the growth of the department and ensure the safety and well-being of our staff and visitors. This project is crucial due to the frequent threat of hurricanes in our region. Reinforcing the building to withstand severe weather conditions will provide a secure environment for our staff during storms. Additionally, the expansion will accommodate our growing department by providing additional space for staff and storage. The renovation will also improve bathrooms to include lockers and showers for drivers, especially during hurricane threats. Furthermore, the project includes the construction of a maintenance facility to support bus attendants in sanitizing and cleaning buses, ensuring a safe and hygienic environment for both staff and passengers.

Facility Address:
8620 Galen Wilson Blvd
Port Richey Fl, 34668

Will 3rd Party contractors be used to fulfill this activity line item?
Yes, 3rd Party Contractors will be used for this line item.

Project Environmental Findings

Finding: Class II(c) - Categorical Exclusions (C-List)

Class Level Description
Class II(c) consists of projects that do not have a significant environmental impact on the human or natural environment and are therefore categorically excluded from the requirement to prepare an environmental assessment or an environmental impact statement. FTA requires a sufficient project description to support a CE determination. The project may require additional documentation to comply with other environmental laws.

Categorical Exclusion Description

Type 07: Acquisition, installation, rehabilitation, replacement, and maintenance of vehicles or equipment, within or accommodated by existing facilities, that does not result in a change in functional use of the facilities, such as: equipment to be located within existing facilities and with no substantial off-site impacts; and vehicles, including buses, rail cars, trolley cars, ferry boats and people movers that can be accommodated by existing facilities or by new facilities that qualify for a categorical exclusion.

Project Title: FY23 and FY24 5307 Small Urban Apportionment

Project Number	Temporary Project Number	Date Created	Start Date	End Date
FL-2026-016-02-00	5318-2024-1-P3	6/17/2024	10/1/2025	9/30/2026

Project Description
This is a FY 2023 and FY 2024 Section 5307 grant application consisting of $2,545,717.00 for Small Urban Apportionment to be matched with $636,429.00 in Transportation Development Credits. The project will fund the preventive maintenance of our transit buses.

GoPasco will follow all 3rd party procurement policies as defined in C4220.1G (Third Party Contracting Guidance).

GoPasco will ensure contractors procured will not be on the FTA Suspension and Debarment List.

Project Benefits
The benefits of this funding will be to provide fixed route and paratransit service to the residents of Pasco County allowing them access to employment, healthcare, education, and other related activities in the community. Public transportation provides other benefits such as reduced traffic congestion and increased air quality. One of our main goals is to improve the reliability and customer experience of the system through the improvement of our technology and rolling stock among other projects enhancing and maintaining the current system.

Additional Information
None provided.

Location Description
Pasco County is north of Tampa Bay - St. Petersburg, Florida area within the Tampa--St. Petersburg UZA

Scope Name / Code	Line Item #	Line Item Name	Activity	Quantity
OTHER CAPITAL ITEMS (BUS) (117-00)	11.7A.00	PREVENTIVE MAINTENANCE	OTHER CAPITAL ITEMS (BUS)	0

Extended Budget Description
Funding for preventive maintenance is critical to safe and reliable service standards of our public transportation vehicles as well as the maintenance costs of other transit related equipment and systems. The GoPasco fleet is made up of a mixture of active, spare and contingency buses, station wagons/sedans, and pick-ups, which are maintained through the County Fleet Maintenance Department. Vehicles are maintained on a preventive maintenance schedule as well as repaired on an as-needed basis. In addition, regular and emergency facility maintenance is conducted on two GoPasco operational and administrative sites, as well as preventive maintenance and repairs needed to maintain an extensive array of required transit-related equipment, including electronic fareboxes, office equipment, shelters, signage, communications and computer systems. The funding will also support maintenance and data transmission service fees GoPasco's automated vehicle location (AVL) system. All associated eligible expenses including parts and labor are charged to this line item in accord with the current definition of preventive maintenance under the National Transit Database Reporting System.

GoPasco does not anticipate the purchase of items over $5,000 in value at this time. Any items with value over $5,000 identified during the execution of the activities under this ALI will be included after award (actual value and useful life).

This will be utilizing GoPasco's large urban apportionment with a match from the Transportation Development Credits.

Will 3rd Party contractors be used to fulfill this activity line item?
No, 3rd Party Contractors will not be used for this line item.

Part 4: Fleet Details

Fleet Type: Fixed Route

Fleet Comments
GoPasco currently serves the Tampa - St Petersburg UZA and the Zephyrhills UZA long with the rural areas of Pasco County.

Spares are a critical part of our emergency response effort used to support evacuation and other transportation requirements during contingencies, such as hurricanes and tropical storms. These spares also support paratransit service and shift change requirements.

GoPasco operates fixed route services out of two sites; one on the west coast of Pasco, which is densely populated and urbanized, and one in eastern Pasco, that serves two municipalities and other outlying areas. The distance between these service areas is approximately 40 miles. Therefore, sufficient spares are needed to ensure replacement flexibility and continuity of service at both sites.

Additionally, we are documenting that our fixed route buses are meeting their useful life in miles (500k) far sooner than their useful life in years (12). We need adequate spares to ensure that the buses reach their useful life of 500,000 at about the 12 year mark.

Finally, even with growth slowed due to the economic downturn, potential service expansion and refinement are expected and planned. Therefore, because of this and the aforementioned justification, the spare ratio is essential in assuring regular and emergency service reliability and responsiveness.

Refer to the budget details for information on vehicles scheduled for replacement via this FTA project.

		Current Value

	A. Peak Requirement	22
	B. Spares	8
	C. Total (A+B)	30
	D. Spare Ratio (B/A)	36.36%
II.	**Inactive Fleet**	
	A. Other	0
	B. Pending Disposal	4
	C. Total (A+B)	4
III.	**Total (I.C and II.C)**	34

Fleet Type: Paratransit

Fleet Comments
PCPT currently serves the Tampa - St Petersburg UZA and the Zephyrhills UZA long with the rural areas of Pasco County. PCPT will be requesting FY17 and FY18 funding for fleet replacement and expansion.

PCPT operates paratransit service throughout the 745 square miles of Pasco County, utilizing two operating sites, one on the eastside of the County and one on the westside. These sites are approximately 40 miles apart. Therefore, spares are necessary to ensure replacement flexibility and continuity of service. All PCPT vehicles must remain available to support evacuation and other transport requirements before, during and after hurricanes, storms or other declared emergencies within this county or as needed for assistance in neighboring counties.

		Current Value
I.	**Active Fleet**	
	A. Peak Requirement	17
	B. Spares	3

Part 5: FTA Review Comments

Application Review Comments

Comment By	**Guanying Lei**
Comment Type	Application Details
Date	8/19/2025
Comment	Technical Review Comments: 1) Please adjust the application Period of Performance (PoP) end date per Region IV guidance: The Period of Performance end date should be set to the next March 30 a minimum of 5 years beyond the latest milestone date in the application. For example, identify final milestone in the application (e.g., 06/25/2022), add five years (e.g., 06/25/2027). If that milestone falls after March 30 of that year, extend end date to March 30 of the following year (e.g., 03/30/2028). 2) Please update C 4220.1F to C 4220.1G throughout the application. 3) Intelligent Transportation System (ITS) i) Please identify the ITS project/element in this application. ii) Please clarify that the ITS participates in the regional or statewide ITS architecture process and the ITS project is included in the locally approved regional ITS Architecture per C 5010.1F. 4) Two 11.12.02s i) Both 11.12.02s for 35-FT replacement buses can be consolidated into one 11.12.02 if there is no particular reason for using two ALIs. ii) The unit cost is $640K for the four 35-FT buses but $660K for the two 35-FT buses. Please clarify. iii) The contract completion date for the 11.12.02 for two buses should be the last milestone date instead of prior to the 1st milestone date. 5) 11.32.07 Please add another milestone for the contract award date. 6) 11.32.10 Please add another milestone for the contract award date. 7) 11.42.08 i) Please describe the nature of the software ii) Please add another milestone for the contract award date 8) 11.42.10 i) The ALI is for acquisition of Fare Collection equipment/system. However, it is unclear what the activities will be funded under this ALI. If the activities are to rehab/renovate the system, then 11.44.10 is more appropriated. ii) Please ensure that the quantity of 20 is in alignment with the description of the

activities. If the unit cost of the item is less than $10,000, useful life doesnt need to be included in the EBD section. If the activities are for one equipment/system, the quantity should be revised to 1.
iii) Please add another milestone for the contract award date

9) 11.42.11
Please add another milestone for the contract award date.

10) 11.42.20
Please add another milestone for the contract award date.

11) 11.42.03
i) Please clarify whether or not useful life of 30 years is the extension of the facility.
ii) Please add the address of the facility in the EBD.
iii) Please add another milestone for the contract award date.
iv) Please provide the total estimated costs for this project. If the cost breakdown is available, please attach it TrAMS.

12) Multiple projects
i) Its unnecessary to create xx projects in this application. Suggest consolidating the projects / reducing the number of projects to avoid potential post-award issue when a budget revision is needed in the future.
ii) 11.7C.00 for ADA paratransit no longer needs to be placed in a separate project.

Comment By	**Doug Steiger**
Comment Type	Application Details
Date	11/17/2025
Comment	1) Period of Performance has been revised to 5 years beyond our latest updated milestone. 2) The circular reference has been updated throughout the application. 3) The project has been identified within the narrative and appropriate ALI. The Transportation Systems Management and Operations Master Plan for FDOT District 7 has been uploaded as a document. The plan references the nature of our ongoing ITS project. 4) The reason that 11.12.02 is split into multiple ALI's is so that it aligns better with our vehicle replacement plan. The lead time on fixed route vehicles is substantial and this allows us to better forecast the unit price of the vehicles as well as track the progress of replacing the vehicles accurately under FTA guidelines. 5) Milestone added for contract award date. 6) Milestone added for contract award date. 7) Narrative/Description has been updated and the milestone requested was added. 8) We have deleted ALI 11.42.10 and added 11.44.10 as suggested due to these activities being a rehab/replacement of existing equipment. Milestone added for contract award.

9) Milestone added for contract award date.

10) Milestone added for contract award date.

11) All details requested regarding the facility have been added. Additionally, the email we received from Julia Carrie Walker (Environmental Protection Specialist) has been attached and states: "The proposed project qualifies for an LCE#8. Both NEPA and Section 106 are concluded."

12) The ADA project (Project 2) was deleted and the ALI (11.7C.00) was moved to Project 1 Large Urban.

Date	11/20/2025
Comment	Additional Technical Review Comments: 1) 11.42.08 Please remove specific brand name. 2) 11.44.10 i) The EBD seems to indicate the activities are for one equipment. However, the quantity shows 20. Please clarify. ii) Please change No, 3rd Party Contractors will not be used for this line item to Yes since milestones include contract/acquisition. iii) Two milestones indicate acquiring farebox equipment, But the ALI is for rehab/ renovating fare collection system. Please clarify, iv) If its one fare collection system and the useful life will be extended after the rehab/ renovation, please indicate the extended useful life.

Comment	Operating assistance sought in TrAMS ($1,600,000) appears to exceed the amount in the STIP provided ($900,000) - please clarify and/or edit appropriately, coordinating with FDOT as needed. It's not clear where the planning funding sought is programmed in the UPWP, the budget tables do not appear to depict any 5307 funding programmed for planning activities. To more efficiently process this application, please review and revise accordingly, highlighting the activities and 5307 funding. The amount of toll credits sought in the application ($3,077,238) does not match the FDOT approval letter ($3,077,236) - please review and revise as applicable. Please attach the appropriate Table 3a for the FFY's of funding sought (i.e. FFY23 & 24). Multiple ALI milestones reference contracts, however "no" was selected for use of 3rd party contractors - please review and revise accordingly and note that activities involving 3rd party contractors require at least 3 milestones

Comment By	Doug Steiger

Date	12/4/2025
Comment	Operating assistance has been updated to reflect the STIP amount(s) uploaded. FY23/24 UPWP has been uploaded with 5307 funding highlighted in the budget tables. Toll Development Credits have been revised to reflect the amount on the final approved letters from FDOT. Table 3a for FY 2023 and FY 2024 uploaded and Tampa/St. Pete - Pasco County BOCC lines highlighted. All ALI's have been reviewed and revised regarding 3rd party contractors and/or the adequate number of milestones required.

Comment	Transit Vehicle Manufacturers (TVM) must have an approved FTA DBE Goal prior to bidding on contract. For a current listing, see https://www.transit.dot.gov/regulations-and-guidance/civil-rights-ada/eligible-tvms-list. Recipient must ensure that all vehicles purchased are accessible and purchased from an FTA approved TVM. Recipient must comply with all applicable Federal laws and regulations related to this project, including the ADA Standards for Transportation Facilities, based on the U.S. Access Boards ADA Accessibility Guidelines found here: http://www.access-board.gov/guidelines-and-standards/transportation/facilities/ada-standards-for-transportation-facilities. The following is a non-exhaustive list of ADA standards that Recipient must comply with. The information provided below is intended as technical assistance and applies only to the project as described. Should the project scope change or new information on the project be provided, FTA may require a re-evaluation of the project information as it relates to ADA and require additional information. This confirmation is not an express or implied promise of project compliance with the ADA. As required under DOT ADA Standard 206.4.1, Recipient must ensure that 60 percent of all public entrances to the facility will be accessible. If a station has only two entrances, then both must be accessible. As required under DOT ADA Standard 206.3, Recipient must ensure that accessible routes coincide with or are located in the same area as general circulation paths, and elements such as ramps, elevators, and fare vending and collection areas are placed to minimize the distance that wheelchair users and other persons who cannot climb steps must travel in comparison to the general public. As required under DOT ADA Standard 406.8, Recipient must ensure that curb ramps will have detectable warnings. As required under DOT ADA Standard 810.2, Recipient must ensure that bus boarding and alighting areas are in compliance with the ADA-ABA Guidelines (Section 810.2), which address surfaces (sturdy); dimensions (96 long x 60 wide); connection to sidewalks, streets, and pedestrian paths; slope (not steeper than 1:48); signs; and public address systems. As required by DOT ADA Standard 810.5.3, Recipient must ensure that station platforms must be coordinated with the vehicle floor height.

As required under DOT ADA Standard 810.3, Recipient must ensure bus shelters shall provide a minimum clear floor or ground space complying with Standard 305 entirely within the shelter. Bus shelters shall be connected by an accessible route complying with Standard 402 to a boarding and alighting area complying with 810.2. As required under DOT ADA Standard 810.2, new, altered, or relocated bus stops must have a firm, stable surface and must provide a clear length of 96 inches (2,440 mm), measured perpendicular to the curb or vehicle roadway edge, and a clear width of 60 inches (1, 525 mm), measured parallel to the vehicle roadway. As required under DOT ADA Standard 810.2, the slope of the bus boarding and alighting area in the direction parallel to the roadway must be the same as that of the roadway to the maximum extent practicable. Perpendicular to the roadway, the slope must not exceed 1:48, that is, not more than 1 inch of rise over a horizontal distance of 48 inches.
Recipient must comply with all applicable Federal laws and regulations related to this project, including the ADA Standards for Transportation Facilities, based on the U.S. Access Boards ADA Accessibility Guidelines found here: http://www.access-board.gov/guidelines-and-standards/transportation/facilities/ada-standards-for-transportation-facilities. The following is a non-exhaustive list of ADA standards that Recipient must comply with. The information provided below is intended as technical assistance and applies only to the project as described. Should the project scope change or new information on the project be provided, FTA may require a re-evaluation of the project information as it relates to ADA and require additional information. This confirmation is not an express or implied promise of project compliance with the ADA.
As required under DOT ADA Standard 201 and DOT ADA Regulation 49 C.F.R. 37.43(a)(1), Recipient must ensure that altered or added portions of the facility must be made accessible.

Part 6: Agreement

UNITED STATES OF AMERICA
DEPARTMENT OF TRANSPORTATION
FEDERAL TRANSIT ADMINISTRATION

GRANT AGREEMENT
(FTA G-34)

On the date the authorized U.S. Department of Transportation, Federal Transit Administration (FTA) official signs this Grant Agreement, FTA has obligated and awarded federal assistance as provided below. Upon execution of this Grant Agreement by the Recipient named below, the Recipient affirms this FTA Award, enters into this Grant Agreement with FTA, and binds its compliance with the terms of this Grant Agreement.

The following documents are incorporated by reference and made part of this Grant Agreement:
(1) "Federal Transit Administration Master Agreement," FTA MA(34), http://www.transit.dot.gov,
(2) The Certifications and Assurances applicable to the FTA Award that the Recipient has selected and provided to FTA, and
(3) Any Award notification containing special conditions or requirements, if issued.

WHEN THE TERM "FTA AWARD" OR "AWARD" IS USED, EITHER IN THIS GRANT AGREEMENT OR THE APPLICABLE MASTER AGREEMENT, "AWARD" ALSO INCLUDES ALL TERMS AND CONDITIONS SET FORTH IN THIS GRANT AGREEMENT.

FTA OR THE FEDERAL GOVERNMENT MAY WITHDRAW ITS OBLIGATION TO PROVIDE FEDERAL ASSISTANCE IF THE RECIPIENT DOES NOT EXECUTE THIS GRANT AGREEMENT WITHIN 90 DAYS FOLLOWING FTA's AWARD DATE SET FORTH HEREIN.

FTA AWARD

Federal Transit Administration (FTA) hereby awards a Federal Grant as follows:

Recipient Information

Recipient Name: PASCO COUNTY BOARD OF COUNTY COMMISSIONERS

Recipient ID: 5318

UEI: LNBJT4UX78P8

DUNS: 069677953

Award Information

Federal Award Identification Number (FAIN): FL-2026-016

Award with Amendment Number: FL-2026-016-00

Award Name: FY 2023 and FY 2024 5307 UZA Small and Large Urban and Non Fixed Route ADA Paratransit Services; Pasco Co, Tampa/St. Petersburg UZA, FL

Award Start Date: 4/16/2026

Original Award End Date: 3/30/2036

Current Award End Date: 3/30/2036

Award Executive Summary: This is a FY23/FY24 Section 5307 Urbanized Area Formula grant in the amount of $14,068,948 for Pasco County (GoPasco).

The funds are comprised of split letter allocations from Tampa's Large Urbanized Area (LU) and FDOTs Small Urban amounts.

The grant requests $4,322,999 from FY2023 Section 5307 Large Urban funds (which includes Tbarta's reallocation funds) and $1,310,264 from FY2023 Section 5307 Small Urban funds provided by FTA.

The grant also request $7,200,232 from FY2024 Section 5307 Large Urban funds and $1,235,453 from FY2024 Section 5307 Small Urban funds provided by FTA.

TBARTAs reallocation is reflected in the FY23 Tampa's Pot $4,322,999 (FY23 5307 Split Letter Apportioned amount: $3,901,417 and Tbarta's reallocated amount: $421,582)

The requested amount does not exceed Pasco County's regional allocation of the FY2023 and FY2024 available apportionment and the total non-federal share in the amount of $3,077,236 is provided by Transportation Development Credit. Toll Revenue Credits of $3,077,236 was approved on 8/12/25 by the State of Florida to be used for the 20% "soft match."

For the FY2023 and FY2024 5307 Large Urban apportionment, the non-federal share in the amount of $2,440,806 will be provided by the Transportation Development Credit.

For the FY2023 and FY2024 5307 Small Urban apportionment, the non-federal share in the amount of $636,430 will be provided by the Transportation Development Credit.

The current allocation agreement between the three transit agencies in this region was provided to FTA on May 28, 2018. This agreement definitively outlines the applicable split allocation between Pasco County (GoPasco), Hillsborough Area Regional Transit (HART), and Pinellas Suncoast Transit Authority (PSTA).

The Governor of Florida, through FDOT, approved the Pasco County Board of County Commissioners as the designated recipient of the small urbanized program funds on April 28, 2003 and the FTA Region IV Administrator subsequently accepted this designation on May 8, 2003 and again on August 4, 2006. Funds for this grant will be used to upgrade the GoPasco system.

Additionally, funds from this grant will be used to acquire an Intelligent Transportation System (ITS), replacement buses, farebox maintenance, bus maintenance, and operations. The funding will also

support our complementary ADA mandated service, maintenance of vehicles and the operations of service. Funds from the grant may be used in conjunction with other grant opportunities to fund projects.

GoPasco, as a direct recipient, will administer the grant funding which will not be used for research and development.

This FY23/24 grant is intended to be used from date of grant award until March 30, 2036 (5 years after last milestone).

1% for Security Requirement (5307 ONLY): GoPasco intends to purchase upgraded security cameras and equipment for all of our buses using ALI 11.32.07 ($140,690).

0.75% for Safety Requirement (5307 ONLY): In addition to the security cameras (ALI 11.32.07) GoPasco will be purchasing newer vehicles that include modernized safety equipment that will allow for a safer trip for the customer. GoPasco also conducts periodic safety training.

The Recipient, GoPasco, or Sub-recipient (when applicable) will follow all 3rd party procurement policies as defined in C4220.1G (Third Party Contracting Guidance).

In addition to FTA's Buy America Act, which requires that the steel, iron, and manufactured goods used in an FTA-funded project are produced in the United States (49 U.S.C. 5323(j)(1)), the Build America, Buy America Act (BABA) (Public Law 117-58, div. G 70914(a)) now requires that construction materials used in infrastructure projects are also produced in the United States. Refer to terms and conditions in FTAs Master Agreement Section 15. The BABA requirement applies to this grant, in addition to the Buy America Act, except to the extent a waiver of either requirement may apply.

Research and Development: This award does not include research and development activities.

Indirect Costs: The de minimus indirect cost rate is applied to this application.

Suballocation Funds: Recipient organization is suballocated these apportioned funds and can apply for and receive these funds directly.

Pre-Award Authority: This award is using Pre-Award Authority.

Award Budget

Total Award Budget: $15,008,948.00

Amount of Federal Assistance Obligated for This FTA Action (in U.S. Dollars): $14,068,948.00

Amount of Non-Federal Funds Committed to This FTA Action (in U.S. Dollars): $940,000.00

Total FTA Amount Awarded and Obligated (in U.S. Dollars): $14,068,948.00

Total Non-Federal Funds Committed to the Overall Award (in U.S. Dollars): $940,000.00

Award Budget Control Totals

(The Budget includes the individual Project Budgets (Scopes and Activity Line Items) or as attached)

Funding Source	Section of Statute	CFDA Number	Amount

5307 - Urbanized Area Formula Grants (2013 and forward)	5307-2A	20507	$14,068,948
Local			$940,000
Local/In-Kind			$0
State			$0
State/In-Kind			$0
Other Federal			$0
Transportation Development Credit			$3,077,236
Adjustment			$0
Total Eligible Cost			**$15,008,948**

(The Transportation Development Credits are not added to the amount of the Total Award Budget.)

There are no special conditions.

FINDINGS AND DETERMINATIONS

By signing this Award on behalf of FTA, I am making all the determinations and findings required by federal law and regulations before this Award may be made.

FTA AWARD OF THE GRANT AGREEMENT

Awarded By:
Yvette Taylor
Regional Administrator
FEDERAL TRANSIT ADMINISTRATION
U.S. DEPARTMENT OF TRANSPORTATION
Contact Info: yvette.taylor@dot.gov
Award Date: 4/16/2026

EXECUTION OF THE GRANT AGREEMENT

Upon full execution of this Grant Agreement by the Recipient, the Effective Date will be the date FTA or the Federal Government awarded Federal assistance for this Grant Agreement.

By executing this Grant Agreement, the Recipient intends to enter into a legally binding agreement in which the Recipient:
(1) Affirms this FTA Award,
(2) Adopts and ratifies all of the following information it has submitted to FTA:

(a) Statements,
(b) Representations,
(c) Warranties,
(d) Covenants, and
(e) Materials,

(3) Consents to comply with the requirements of this FTA Award, and
(4) Agrees to all terms and conditions set forth in this Grant Agreement.

PASCO COUNTY BOARD OF COUNTY COMMISSIONERS
4/21/2026

BY THE BOARD OF COUNTY COMMISSIONERS **RESOLUTION NO. _____**

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF PASCO COUNTY, FLORIDA, AMENDING THE FINAL BUDGET FOR FISCAL YEAR 2026; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Section 129.06(2), Florida Statutes provides legal authority and defines how a budget may be amended for that year, and may within the first 60 days of a fiscal year amend the budget for the prior fiscal year; and,

WHEREAS, pursuant to Section 129.06(2)(d), Florida Statutes, a receipt of a nature from a source not anticipated in the budget and received for a particular purpose, including but not limited to grants, donations, gifts, or reimbursement for damages, may, by resolution of the board spread on its minutes, be appropriated and expended for that purpose, in addition to the appropriations and expenditures provided for in the budget. Such receipts and appropriations must be added to the budget of the proper fund. The resolution may amend the budget to transfer revenue between funds to properly account for unanticipated revenue.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Pasco County, Florida, that:

1. The Fiscal Year 2026 Final Budget be amended.
2. Revenues and expenses are increased in the amount of $15,008,948.00 within the Grant Fund for the Federal Transit Administration FY 2023 – 2024 Section 5307 Formula Grant Award for, Pasco County Public Transportation (GoPasco) Department, Pasco Grant No. G26P00.
3. This resolution will take effect immediately upon its adoption.

DULY ADOPTED with a quorum present and voting this _____ day of _____, 2026.

SUBJECT: An Ordinance By The Pasco County Board Of County Commissioners Amending The Pasco County Land Development Code; Section 304 Public Notice Requirements; Section 402.3 Conditional Uses; Section 407.2 Zoning Variances; Section 407.4 Alternative Relief; Section 407.5 Alternative Standards; Section 503 A-C Agricultural District; Section 504 AC-1 Agricultural District; Section 505 A-R Agricultural-Residential District; Section 506 AR-1 Agricultural-Residential District; Section 507 AR-5 Agricultural-Residential District; Section 508 AR-5MH Agricultural Mobile Home District; Section 509 E-R Estate-Residential District; Section 510 ER-2 Estate-Residential District; Section 511 R-MH Mobile Home District; Section 512 R-1MH Single-Family/Mobile Home District; Section 513 R-2MH Rural Density Mobile Home District; Section 514 R-1 Rural Density Residential District; Section 515 R-2 Low Density Residential District; Section 516 R-3 Medium Density Residential District; Section 517 R-4 High Density Residential District; Section 518 MF-1 Multiple-Family Medium Density District; Section 519 MF-2 Multiple-Family High Density District; Section 520 MF-3 Multiple-Family High Density District; Creating Section 408 Reasonable Accommodations; Section 530.26 Standards For Community Residential Homes (Large); Appendix A Definitions; And Other Sections, As Necessary, For Internal Consistency; Providing For Applicability; Repealer; Providing For Severability; Inclusion Into The Land Development Code, And An Effective Date.

REFERENCES: All Local Planning Agency (LPA) and Board of County Commissioners (BCC) public hearings at 1:30 p.m. in New Port Richey (NPR) or Dade City (DC): LPA at DC 5/7/26 – BCC 1st Reading at NPR 6/16/26 – BCC Adoption at DC 8/11/26.

AGENDA SECTION: Public Hearings

THRU: David Allen, Assistant County Administrator

FROM: David Engel, Director Planning, Development and Economic Growth

RECOMMENDED BOARD ACTION:

Continue to 8/11/26, at 1:30 p.m. or as soon thereafter as same may be heard in Dade City.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

This continuance request is the continuance of the first hearing.

The proposed ordinance is to provide clarity regarding people with mental and physical disabilities, group homes that serve such individuals under Florida Statutes and other certifications, and the processes by which persons with disabilities may seek relief through reasonable accommodations.

On May 7, 2026, the Local Planning Agency (LPA) moved to recommend approval to the Board of County Commissioners for the Land Development Code Amendments associated with Community Residential Homes. The LPA requested changes to the proposed ordinance as a condition of their recommendation that require further research by the Planning, Development and Economic Growth Department (PDE). Therefore, PDE requests a continuance for the first hearing of this proposed ordinance

to the August 11, 2026 BCC meeting to conduct this research.

The BCC adopted the restated Pasco County Land Development Code (LDC) on October 18, 2011, by Ordinance No. 11-15. As of June 16, 2026, there have been 85 adopted amendments to the Code.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding is not required for this action. A Business Impact Estimate (BIE) was completed for this project in accordance with Section 125.66(3)(a), Florida Statutes, and published on the Pasco County website on April 9, 2026.

DISTRIBUTION:
Not applicable.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** PDE26-0777 **DATE:** 6/16/2026

SUBJECT: An Ordinance by the Pasco County Board of County Commissioners Establishing a Temporary Moratorium on the Submission and Acceptance of Applications for Building Permits, Site Plans, Development Orders, Development Agreements, Special Exception Uses, Conditional Uses, Rezonings, and Comprehensive Plan Amendments Related to Data Centers, Large-Scale Data Centers and Other Large Load Customers Within Unincorporated Pasco County; Providing for Authority; Legislative Findings of Fact; Temporary Moratorium Imposed; Duration of Temporary Moratorium; Severability; and an Effective Date.

REFERENCES: All Local Planning Agency (LPA) and Board of County Commissioners (BCC) public hearings at 1:30 p.m. in New Port Richey (NPR) or Dade City (DC): LPA at DC 6/11/26 – BCC 1st Reading at NPR 6/16/26 – BCC Adoption at DC 7/14/26.

AGENDA SECTION: Public Hearings

THRU: David Allen, Assistant County Administrator

FROM: David Engel, Director Planning, Development and Economic Growth

RECOMMENDED BOARD ACTION:

Accept public comment. No action is required by the Board of County Commissioners (BCC) as this is the first of two public hearings. The second hearing (adoption hearing) will be held on 7/14/26, at 1:30 p.m. or as soon thereafter as same may be heard in Dade City.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

The Board of County Commissioners has directed the preparation of this proposed ordinance that will put in place a temporary moratorium on the submission and acceptance of applications for building permits, site plans, development orders, development agreements, special exception uses, conditional uses, rezonings, and comprehensive plan amendments related to data centers, large-scale data centers as defined in Sections 373.203(3) and (4), Florida Statutes, and other large-load customers as defined in Section 366.043(2)(d), Florida Statutes.

Currently, the County is without any regulations governing all aspects of a data center. The Land Development Code regulates “data processing” as such term was understood in 1975 when the County’s first Zoning Code, Ord. No. 75-21, was adopted. (see PM-35 attached hereto, explaining the existing LDC provisions compared to contemporary data centers). Due to the potential of an applicant seeking to locate a contemporary data center within the unincorporated area of the County, and given the increasing demand for data center development nationwide, a moratorium serves as an appropriate mechanism to promote effective planning and preserve the status quo while formulating a more permanent development strategy that may be adopted into the Comprehensive Plan and Land Development Code.

During the time of the moratorium, Planning, Development, and Economic Growth (PDE) and other affected County Departments will research land use compatibility of data centers with surrounding uses. Additional concerns include limitations of

infrastructure and utility capacity including electricity demand, water consumption, wastewater treatment capacity, and environmental concerns including, but not limited to noise and light pollution. Furthermore, pursuant to recently adopted Section 163.326, Florida Statutes, the Legislature intends for such considerations to be addressed through local comprehensive planning and land development regulations, including provisions related to infrastructure capacity, land use compatibility, environmental impacts and the efficient provision of public facilities and services. Local governments have retained the authority to exercise the regulation of these uses and may even prohibit them.

The temporary moratorium is applicable to the unincorporated area of Pasco County. Server rooms and computer rooms typically used to house IT and related network equipment located internally to a building where such rooms are incidental to the primary use in the building or on the site are not included in the moratorium. After a determination of public necessity, the Board retains the ability to allow an existing development agreement to be amended, or a new one adopted to allow for the construction of a data center that is not a large load customer. Such agreements must impose specific conditions addressing, including, but not limited to, all of the following: location, size, light, glare, height, water use, electrical power consumption, noise, and compatibility.

The proposed ordinance would impose a moratorium of 12 months which may be lifted prior to 12-month period upon the adoption of new development regulations or be extended as necessary by the Board through resolution.

LPA Actions:
This item was scheduled to be heard at a public hearing by the LPA on June 11, 2026. At the time of the drafting of this memo, the LPA did not make a determination of the consistency of the proposed ordinance with the Comprehensive Plan.

Public Hearings History:

	Date	Vote: Approve/Deny
Local Planning Agency	6/11/26	Pending
Board of County Commissioners - 1st Hearing	6/16/26	No Action Required
Board of County Commissioners - Adoption Hearing	7/14/26	Pending

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding is not required for this action. A Business Impact Estimate (BIE) was completed for this project in accordance with Section 125.66(3)(a), Florida Statutes, and published on the Pasco County website on May 21, 2026.

BOARD OF COUNTY COMMISSIONERS **ORDINANCE NO. _____**

AN ORDINANCE BY THE PASCO COUNTY BOARD OF COUNTY COMMISSIONERS ESTABLISHING A TEMPORARY MORATORIUM ON THE SUBMISSION AND ACCEPTANCE OF APPLICATIONS FOR BUILDING PERMITS, SITE PLANS, DEVELOPMENT ORDERS, DEVELOPMENT AGREEMENTS, SPECIAL EXCEPTION USES, CONDITIONAL USES, REZONINGS, AND COMPREHENSIVE PLAN AMENDMENTS RELATED TO DATA CENTERS, LARGE-SCALE DATA CENTERS AND OTHER LARGE LOAD CUSTOMERS WITHIN UNINCORPORATED PASCO COUNTY; PROVIDING FOR AUTHORITY; LEGISLATIVE FINDINGS OF FACT; TEMPORARY MORATORIUM IMPOSED; DURATION OF TEMPORARY MORATORIUM; SEVERABILITY; AND AN EFFECTIVE DATE.

WHEREAS, the Board of County Commissioners of Pasco County, Florida, (hereinafter the "Board") has the authority pursuant to Chapter 125, Florida Statutes, and Article VIII of the Florida Constitution to protect the public health, safety, and general welfare of its residents and to enact ordinances for valid governmental purposes that are not inconsistent with general or special law; and

WHEREAS, Chapter Law 2026-65 creating Section 163.326, Florida Statutes, specifically provides for the authority of the Board to regulate facilities with substantial electric or other utility demands, such as data centers, large-scale data centers, as defined in Sections 373.203(3) and (4), Florida Statutes, and other large load customers, as defined in Section 366.043(2)(d), Florida Statutes, through comprehensive plans and land development regulations. Further, newly created Section 373.262, Florida Statutes, provides that local governments may prohibit the siting of large-scale data centers within their jurisdictions; and

WHEREAS, Pasco County is located within a coastal region and in the Tampa Bay Area, an area that relies heavily upon groundwater resources from the Floridan Aquifer system and surface waters; and

WHEREAS, the Southwest Florida Water Management District and Tampa Bay Water, of which Pasco County is a member, emphasize the importance of careful management of groundwater withdrawals and surface water resources to ensure long-term environmental and economic stability for the region; and

WHEREAS, data centers, large-scale data centers, and other large load customers (hereinafter referred to collectively as "Data Center Facilities") are known to require substantial water resources for cooling systems and substantial electrical power to support continuous computing operations, which in some cases require infrastructure demands comparable to small municipalities; and

WHEREAS, such Facilities have the potential to place significant demands on regional water supplies, water treatment infrastructure, electrical grid capacity, particularly in rapidly growing areas such as Pasco County; and

WHEREAS, such Facilities are typically massive in scale, covering vast land areas hundreds

of acres in size with buildings and infrastructure, while providing little to no employment opportunities; and

WHEREAS, the Board finds that Pasco County currently lacks specific zoning provisions or development regulations addressing the unique operational characteristics, infrastructure requirements, and environmental considerations associated with Data Center Facilities; and

WHEREAS, the Board further finds that allowing such Facilities to proceed without appropriate regulatory standards would create risks to the County's and the Region's water resources, electrical infrastructure capacity, and land use planning objectives, will undermine economic development initiatives and long-term community development strategy; and

WHEREAS, local governments may enact moratoriums if the moratorium is intended to preserve the status quo and is rationally related to the government's attempt to enact changes to development regulations. (*WCI Communities Inc. v. City of Coral Springs*, 885 So. 2d 912 (Fla. 4th DCA 2004)); and

WHEREAS, Florida courts have held that permissible basis for land use restrictions include concern about the effect of the proposed development on traffic, congestion, surrounding property values, demands for public services, and on other aspects of the general welfare. (*WCI Communities Inc. v. City of Coral Springs*, 885 So.2d 912 (Fla. 4th DCA 2004; see also *Corn v. City of Lauderdale Lakes*, 997 F.2d 1369, 1375 (11th Cir. 1993)); and

WHEREAS, local governments are entitled to enact moratoriums as a land-use tool to promote effective planning and preserve the status quo while formulating a more permanent development strategy. (*Tahoe-Sierra Pres. Council, Inc. v. Tahoe Reg'l Planning Agency*, 535 U.S. 302, 337; 122 S.Ct. 1465, 1487 (2002); and

WHEREAS, a temporary moratorium on the submission and acceptance of applications for building permits, site plans, development orders, development agreements, special exception uses, conditional uses, rezonings, and comprehensive plan amendments related to Data Center Facilities within unincorporated Pasco County will allow the Board the opportunity to determine the appropriateness of allowing such uses and adopt amendments to the Pasco County Comprehensive Plan, Land Development Code, and Code of Ordinances, as may be required, to regulate or prohibit such uses; and

WHEREAS, the Board wishes to establish a temporary moratorium of up to one (1) year on the submission and acceptance of applications for building permits, site plans, development orders, development agreements, special exception uses, conditional uses, rezonings, and comprehensive plan amendments related to Data Center Facilities within the unincorporated area and such moratorium is reasonable and necessary to accomplish the goal of revising its regulations to ensure the community

welfare is well-balanced and the public health, safety, and general welfare are preserved; and

WHEREAS, public notice of all hearings required by law has been provided in accordance with Chapters 125 and 163, Florida Statutes, and the Pasco County Land Development Code; and

WHEREAS, the Board hereby finds and declares that this Ordinance imposing a moratorium on the submission and acceptance of applications for building permits, site plans, development orders, development agreements, special exception uses, conditional uses, rezonings, and comprehensive plan amendments related to Data Center Facilities is in the best interest of the public health, safety, and welfare, and that it advances a valid and important public purpose.

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Pasco County, Florida, as follows:

SECTION 1. Authority.

This Ordinance is enacted pursuant to Chapter 125, Florida Statutes, and under the home rule powers of the County in the interest of the health, peace, safety, and general welfare of the people of Pasco County.

SECTION 2. Legislative Findings of Fact.

The foregoing Whereas clauses, incorporated herein, are true and correct. The Board further finds that to enable the Planning Development and Economic Growth Department and other affected County Departments the opportunity to research, study, and determine the appropriate treatment of Data Center Facilities in Pasco County, it is necessary to place a moratorium on the submission and acceptance of applications for building permits, site plans, development orders, development agreements, special exception uses, conditional uses, rezonings, and comprehensive plan amendments related to Data Center Facilities within the unincorporated area.

SECTION 3. Applicability.

The temporary moratorium is applicable to the unincorporated area of Pasco County, Florida. This temporary moratorium shall not apply to server rooms and computer rooms typically used to house IT and related network equipment located internally to a building where such rooms are incidental to the primary use in the building or on the site. After a determination of public necessity by the Board, an existing development agreement may be amended, or a new one adopted, by the Board to allow for the construction of a data center that is not a large load customer provided the agreement imposes

specific conditions addressing, including, but not limited to, all of the following: location, size, light, glare, height, water use, electrical power consumption, noise, and compatibility.

SECTION 4. Temporary Moratorium Imposed.

The County hereby imposes a temporary moratorium on the submission and acceptance of applications for building permits, site plans, development orders, development agreements, special exception uses, conditional uses, rezonings, and comprehensive plan amendments related to Data Center Facilities within the unincorporated areas. The adoption of this Ordinance is undertaken by the County in good faith and is intended to further the goals of the Comprehensive Plan and Chapter 163, Florida Statutes, and Chapter Law 2026-65 and is not intended to discriminate against those landowners which may be subject to this Ordinance.

SECTION 5. Duration of Temporary Moratorium.

The duration of this temporary moratorium shall be 12 months, or until such time as repealed by the Board, whichever occurs first, and may be extended by resolution of the Board to the extent permitted by law. In addition, this temporary moratorium shall not exceed 12 months unless approved by the Board of County Commissioners by a majority vote. The limited duration of this temporary moratorium has been established to accomplish appropriate planning and regulations for future development through the Land Development Code amendment process as described in Chapter 163, Part II, Florida Statutes, and the Comprehensive Plan.

SECTION 6. Severability.

It is declared to be the intent of the Board that if any section, subsection, sentence, clause, or provision of this Ordinance shall be declared invalid, the remainder of this Ordinance shall be construed as not having contained said section, subsection, sentence, clause, or provisions and shall not be affected by such holding.

SECTION 7. Effective Date.

This Ordinance shall be filed with the Florida Department of State by the Clerk to the Board by electronic mail within ten (10) days after adoption and shall take effect upon such filing.

ADOPTED with a quorum present and voting this 14th day of July, 2026.

NOTICE OF AMENDMENTS TO THE LAND DEVELOPMENT CODE FOR PASCO COUNTY

The Pasco County Board of County Commissioners proposes to adopt the following:

AN ORDINANCE BY THE PASCO COUNTY BOARD OF COUNTY COMMISSIONERS ESTABLISHING A TEMPORARY MORATORIUM ON THE SUBMISSION AND ACCEPTANCE OF APPLICATIONS FOR BUILDING PERMITS, SITE PLANS, DEVELOPMENT ORDERS, DEVELOPMENT AGREEMENTS, SPECIAL EXCEPTION USES, CONDITIONAL USES, REZONINGS, AND COMPREHENSIVE PLAN AMENDMENTS RELATED TO DATA CENTERS, LARGE-SCALE DATA CENTERS AND OTHER LARGE LOAD CUSTOMERS WITHIN UNINCORPORATED PASCO COUNTY; PROVIDING FOR AUTHORITY; LEGISLATIVE FINDINGS OF FACT; TEMPORARY MORATORIUM IMPOSED; DURATION OF TEMPORARY MORATORIUM; SEVERABILITY; AND AN EFFECTIVE DATE.

On Thursday, June 11, 2026, at 1:30 p.m., the Pasco County Planning Commission convened as the Local Planning Agency will hold a public hearing at the Historic Pasco County Courthouse, Board Room, 2nd Floor, 37918 Meridian Avenue, Dade City, Florida.

On Tuesday, June 16, 2026, at 1:30 p.m., the Pasco County Board of County Commissioners will hold a public hearing at the West Pasco Government Center, Board Room, 8731 Citizens Drive, New Port Richey, Florida.

On Tuesday, July 14, 2026, at 1:30 p.m., the Pasco County Board of County Commissioners will hold an adoption public hearing at the Historic Pasco County Courthouse, Board Room, 2nd Floor, 37918 Meridian Avenue, Dade City, Florida.

Information concerning this matter will be on file and available for examination by appointment only in the office of the Pasco County Planning, Development and Economic Growth Department, West Pasco Government Center, 8731 Citizens Drive, Suite 200, New Port Richey, Florida 34654, or anytime on our website: www.pascocountyfl.net. To make an appointment or for further information, you may call 727-847-8140. All interested parties may participate in the public hearing and be heard. To learn how to participate in this hearing virtually, which requires advance registration, please visit http://mypasco.net/meetingagendas.

Any person desiring to appeal any decision made by the Planning Commission or the Pasco County Board of County Commissioners with respect to any matter considered at any hearing will need a record of the proceedings and may need to ensure that a verbatim record of the proceedings is made which includes the testimony and evidence upon which the appeal is to be based. Persons may obtain a verbatim record of the proceeding by contacting the Clerk and Comptroller's Office, East Pasco Government Center, 14236 6th Street, Suite 201, Dade City, Florida 33523-3414; or at (352) 521-4345.

For questions or inquiries about this meeting, members of the public can reach out to the County's Customer Service Center (727) 847-2411 or County Administration (727) 847-8115 or visit www.mypasco.net. Business Impact Estimate

Consistent with the posting requirement set forth in Section 125.66(3)(a), F.S., the County hereby publishes the following BIE information for this proposed ordinance on its website for public viewing and consideration on this 21st day of May, 2026:

Proposed ordinance's title/reference:

AN ORDINANCE BY THE PASCO COUNTY BOARD OF COUNTY COMMISSIONERS ESTABLISHING A TEMPORARY MORATORIUM ON THE SUBMISSION AND ACCEPTANCE OF APPLICATIONS FOR BUILDING PERMITS, SITE PLANS, DEVELOPMENT ORDERS, DEVELOPMENT AGREEMENTS, SPECIAL EXCEPTION USES, CONDITIONAL USES, REZONINGS, AND COMPREHENSIVE PLAN AMENDMENTS RELATED TO DATA CENTERS, LARGE-SCALE DATA CENTERS AND OTHER LARGE LOAD CUSTOMERS WITHIN UNINCORPORATED PASCO COUNTY; PROVIDING FOR AUTHORITY; LEGISLATIVE FINDINGS OF FACT; TEMPORARY MORATORIUM IMPOSED; DURATION OF TEMPORARY MORATORIUM; SEVERABILITY; AND AN EFFECTIVE DATE.

1. Summary of the proposed ordinance (must include a statement of the public purpose, such as serving the public health, safety, morals and welfare):

The Pasco County Board of County Commissioners seeks to establish a temporary moratorium of one (1) year on the submission and acceptance of applications for building permits, site plans, development orders, development agreements, special exception uses, conditional uses, rezonings, and comprehensive plan amendments related to Data Center Facilities within the unincorporated area of Pasco County. The moratorium is reasonable and necessary to accomplish the goal of maintaining the status quo while considering the treatment of these Facilities and will serve the public health, safety, and general welfare of the residents and visitors to Pasco County by providing an opportunity for thoughtful and thorough consideration to reducing the negative impacts that these Facilities can have on a community.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in Pasco County, if any:

(a) An estimate of direct compliance costs that businesses may reasonably incur;

At this time it is impossible to estimate any compliance costs that the moratorium would impose on a business(es) seeking to establish a Data Center Facility within the unincorporated area as such businesses have not sought to locate in Pasco County.

(b) Any new charge or fee imposed by the proposed ordinance or for which businesses will be financially responsible; and This ordinance does not impose a charge or a fee.
(c) An estimate of Pasco County's regulatory costs, including estimated revenues from any new charges or fees to cover such costs. This ordinance does not impose regulatory costs.

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

The number of businesses seeking to establish a Data Center Facility within Pasco County is unknown.

OPEN SPACES. VIBRANT PLACES.

PDE Memo Series

TO: Planning Services

DATE: May 29, 2026 FILE: PM-35

SUBJECT: On Data Processing and Data Centers

FROM: Nectarios Pittos, AICP, CPM, CNU-A
Planning Services Director

REFERENCES: Land Development Code
Chapter 500

The purpose of this Policy Memo (PM-35) is to interpret the land use term “data processing” in the Land Development Code (LDC) and to determine it as a separate and distinct use not associated with new uses such as “data centers”. The term “data processing” is not defined by the LDC.

As a land use, “data processing” appears in the following zoning districts of the LDC:

- Section 522.5.D.1.c.3.c of the EC-MPUD Standards of the MPUD Master Planned Unit Development District
- Section 523.2.A.2 of the PO-1 Professional Office District
- Section 524.2.A.2 of the PO-2 Professional Office District
- Section 527.3.A.20 of the C-3 Commercial/Light Manufacturing District
- Section 528.2.A.9 of the I-1 Light Industrial Park District
- Section 529.2.A.2 of the I-2 General Industrial Park District

It also appears in various definitions such as Business Services, Corporate Headquarters Building, and General Light Industrial. Each of these definitions contemplate the employment of people in significant quantities sufficient for and pursuant to the County’s economic development goals.

Data Processing v. Data Centers
As a land use, the term “data processing” is original from the 1975 Zoning Code. The 1975 term could not have contemplated uses that are referred to as “data centers” in the year 2026. In 1975, data processing (DP) referred to the systematic, automated, or semi-automated manipulation of data using computer mainframes or “minicomputers”. Data collection was often collected manually, prepared and then fed to computers often using punch cards or magnetic tape for input and storage. Data processing also included the employment of data managers in data processing departments with personnel to manage the data in what was known then as managed information systems (MIS). Data processing departments and MIS locations were often office or warehouse-like environments in company headquarters facilities or office parks.

In 2026, a “data center” is a physical facility or centralized location that houses an organization’s IT infrastructure, including servers, data storage systems, and network equipment - all of which either did not exist or does not

describe the type of infrastructure used in the 1970s to process data. A data center serves as the node for storing, managing, and distributing digital data and applications securely, supporting everything from enterprise workloads to cloud computing, Artificial Intelligence (AI), and e-commerce.

On May 7, 2026, Governor DeSantis signed Senate Bill (SB) 484 into law. The bill discussed data centers in this way:

A data center means “a facility that primarily contains electronic equipment used to process, store, and transmit digital information, which may be a free-standing structure or a facility within a larger structure which uses environmental control equipment to maintain the proper conditions for the operation of electronic equipment.”

The employment of individuals is incidental to the structure for general maintenance, not the actual computation and data synthesis that was conducted in “data processing” facilities as envisioned when the Land Development Code was written in the 1970s. The fact that the State only recently provided a definition for “data center” in 2026 is indicative of the difference between what was previously understood as an entirely human intelligence endeavor in data processing and what is now understood as an entirely autonomous operation using artificial intelligence (AI).

There are different types of data centers, but the main types include some of, or a combination of, the following:

- *Enterprise Data Centers*: built, owned and operated by a single company for their own needs.
- *Colocation Facilities*: a third party building wherein companies rent space and infrastructure.
- *Cloud Data Centers*: distributed, public facilities managed by providers like Amazon Web Service (AWS), Microsoft Azure, or IBM Cloud.
- *Managed Services Data Centers*: a third-party operation on behalf of another company or other companies.
- *Edge Data Centers*: smaller, decentralized sites located near end-users for faster data processing.
- *AI Data Centers*: highly specialized, high-density facilities designed specifically to train, deploy, and run large-scale AI models, such as large language models (LLMs) and generative AI. Unlike traditional data centers, AI facilities prioritize massive graphics processing unit (GPU) driven parallel processing, intense energy consumption, and advanced liquid cooling to manage AI-specific workloads. Synonyms include: AI Factories (infrastructure designed to produce intelligence at an industrial scale), GPU Clusters (grouping of high-performance GPUs for AI computation), Hyperscale AI Facilities (massive, automated cloud data centers), High-Performance Computing (HPC) Clusters.

Different Uses
Changes in technology that reduce workforce demand and multiply the quantity and the speed of data manipulation and information system delivery for a multiplicity of industries in near simultaneous timeframes over vast distances mean that the impact to communities is different between the data processing of the 1970s (and the pre-AI era) and the data centers of the 2020s. Notwithstanding the technological differences, physical differences include the amount of land acreage needed, size and scale of primary and secondary structures (onsite and offsite), dimensional implications to site standards, the number of people employed/ economic impact, the location of support infrastructure and the quantity of demand, among other things, for local infrastructure and resources in terms of water capacity, energy demand, internet capacity and transportation capacity.

Conclusion
Given the above information, the land use term “data processing” does not include the contemporary understanding of the land use referred to as “data centers”. Data centers can conduct data processing, but data processing as a land use in and of itself, as contemplated in the Land Development Code, cannot be considered a data center in and of itself.

CHAPTER 2026-65

Committee Substitute for
Committee Substitute for Senate Bill No. 484

An act relating to data centers; creating s. 163.326, F.S.; providing legislative findings; specifying that local governments maintain authority to exercise power and responsibility over comprehensive planning and land development regulations relating to large load customers; prohibiting a large load customer from being considered an electric substation; amending s. 288.075, F.S.; defining the term "data center"; providing an exception to a provision allowing an extension of certain confidentiality protections; creating s. 366.043, F.S.; providing legislative findings; defining terms; requiring public utilities to provide certain minimum tariff and service requirements for large load customers; requiring that such requirements ensure that large load customers bear their costs of service and that such costs are not shifted to the general body of ratepayers; requiring certain measures to minimize the risk of nonpayment of such costs; requiring that such minimum tariff and service requirements include certain provisions designed to prevent a public utility from providing electric service to a large load customer that is a foreign entity; prohibiting a customer from separating a certain electrical load into multiple smaller connections for a specified purpose; authorizing the Florida Public Service Commission to approve public utility tariffs that include certain utility industry-accepted ratemaking and other financial tools; prohibiting any tariff, contractual provision, service requirement, or other public utility policy from preventing or hindering the curtailment or interruption of electric service to a large load customer for certain purposes; prohibiting a public utility from knowingly providing electric service to a large load customer that is a foreign entity; requiring each public utility to file a tariff in compliance with the provisions of the bill by a specified date; amending s. 373.203, F.S.; defining terms; creating s. 373.262, F.S.; providing legislative intent; prohibiting the governing board of a water management district or the Department of Environmental Protection from issuing a permit for the consumptive use of water to a large-scale data center under certain circumstances; requiring that such permit be issued to a large-scale data center applicant if the applicant establishes that the proposed use of water satisfies certain requirements; requiring the governing board or the department to require the use of reclaimed water for a large-scale data center applicant's allocation when certain requirements are met; specifying requirements for certain permit applications; prohibiting the approval of permit applications without a hearing; amending s. 373.239, F.S.; requiring that consumptive use permit modifications proposed by a large-scale data center be treated in a specified manner; requiring the Office of Program Policy Analysis and Government Accountability to contract for a study relating to the construction and operation of large-scale data centers; providing requirements for the study; requiring the study to be submitted

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

to the Governor, the President of the Senate, and the Speaker of the House by a specified date; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Effective upon becoming a law, section 163.326, Florida Statutes, is created to read:

163.326 Large load customer considerations.—

(1) The Legislature finds that certain land uses, including facilities with substantial electric or other utility demands, such as data centers and other large load customers as defined in s. 366.043(2), may present unique planning, infrastructure, and compatibility considerations. The Legislature intends that such considerations shall be addressed through local comprehensive planning and land development regulations adopted pursuant to this chapter, including provisions related to infrastructure capacity, land use compatibility, environmental impacts, and the efficient provision of public facilities and services.

(2) Local governments shall maintain the authority to exercise the powers and responsibilities for comprehensive planning and land development regulation granted by law with respect to large load customers. A large load customer may not be considered an electric substation for the purposes of s. 163.3208.

Section 2. Paragraphs (a), (b), and (c) of subsection (1) of section 288.075, Florida Statutes, are redesignated as paragraphs (b), (c), and (d), respectively, paragraph (a) of subsection (2) is amended, and a new paragraph (a) is added to subsection (1) of that section, to read:

288.075 Confidentiality of records.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Data center" has the same meaning as in s. 373.203.

(2) PLANS, INTENTIONS, AND INTERESTS.—

(a)1. If a private corporation, partnership, or person requests in writing before an economic incentive agreement is signed that an economic development agency maintain the confidentiality of information concerning plans, intentions, or interests of such private corporation, partnership, or person to locate, relocate, or expand any of its business activities in this state, the information is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution for 12 months after the date an economic development agency receives a request for confidentiality or until the information is otherwise disclosed, whichever occurs first.

2. An economic development agency may extend the period of confidentiality specified in subparagraph 1. for up to an additional 12 months upon

written request from the private corporation, partnership, or person who originally requested confidentiality under this section and upon a finding by the economic development agency that such private corporation, partnership, or person is still actively considering locating, relocating, or expanding its business activities in this state. Such a request for an extension in the period of confidentiality must be received prior to the expiration of any confidentiality originally provided under subparagraph 1. This subparagraph does not apply to information described in subparagraph 1. relating to data centers.

If a final project order for a signed economic development agreement is issued, then the information will remain confidential and exempt for 180 days after the final project order is issued, until a date specified in the final project order, or until the information is otherwise disclosed, whichever occurs first. However, such period of confidentiality may not extend beyond the period of confidentiality established in subparagraph 1. or subparagraph 2.

Section 3. Section 366.043, Florida Statutes, is created to read:

366.043 Large load tariffs for public electric utilities.—

(1) The Legislature finds that the provision of safe and reliable electric services, provided at fair, just, and reasonable rates, is essential to the welfare of the ratepayers of this state. The Legislature further finds that when one class of electric service customer requires uniquely large electrical loads at a single location, it imposes a disproportionate risk on the other ratepayers of this state and makes it necessary for the commission to develop and enforce rate structures and other policies for such customers which ensure such risk is mitigated as much as possible and prevent shifting the costs of serving large load customers to the general body of ratepayers.

(2) As used in this section, the term:

(a) "Controlled by" means having the power to direct or cause the direction of the management or policies of a company, whether through ownership of securities, by contract, or otherwise. A person or an entity that directly or indirectly has the right to vote 25 percent or more of the voting interests of the company or that is entitled to 25 percent or more of its profits is presumed to control the entity.

(b) "Foreign country of concern" has the same meaning as in s. 692.201.

(c) "Foreign entity" means an entity that is:

1. Owned or controlled by the government of a foreign country of concern; or

2. A partnership, an association, a corporation, an organization, or other combination of persons organized under the laws of or having its principal

CODING: Words stricken are deletions; words underlined are additions.

place of business in a foreign country of concern, or a subsidiary of such entity.

(d) "Large load customer" means a customer with an anticipated monthly peak load of 50 megawatts or more, calculated as the highest average load over a 15-minute interval at a single location. The term does not include a load aggregated across multiple locations owned by the same customer. However, the term includes all customers or other entities that have entered into a colocation or similar agreement at a single location that otherwise meets the anticipated monthly peak load provided in this paragraph.

(e) "Public utility" has the same meaning as in s. 366.02, except that the term does not include a gas utility.

(3) The following minimum tariff and service requirements for large load customers are required in public utility tariffs:

(a) The minimum tariff and service requirements must reasonably ensure that each large load customer bears its own full cost of service and that such cost is not shifted to the general body of ratepayers. Such cost of service includes, but is not limited to, connection, incremental transmission, incremental generation, and other infrastructure costs; operations and maintenance expenses; and any other costs required to serve a large load customer. The risk of nonpayment of such costs may not be borne by the general body of ratepayers.

(b) The minimum tariff and service requirements must include provisions reasonably designed to prevent a public utility from providing electric service to a customer that would otherwise qualify as a large load customer if that customer is a foreign entity.

(4) A customer may not separate an electrical load at a single location into multiple smaller connections to avoid being classified as a large load customer.

(5) To effectuate the requirements of subsection (3), the commission may approve public utility tariffs that include utility industry-accepted rate-making and other financial tools, including, but not limited to, the following:

(a) Contributions in aid of construction or other required customer infrastructure investments that may be returned, in whole or in part, to such customers over time.

(b) Demand charges, including minimum demand charges.

(c) Incremental generation charges.

(d) Financial guarantees.

(e) Minimum load factors.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(f) Take-or-pay provisions or similar provisions requiring payment for contracted capacity, regardless of a large load customer's actual electricity use or demand.

(g) Minimum period of service contract requirements, including early termination fees or other fees for violation of such contracts.

(6) Any tariff, contractual provision, service requirement, or other public utility policy relating to large load customers may not prevent or otherwise hinder the curtailment or interruption of electric service to a large load customer where such curtailment or interruption is intended to ensure grid stability, reduce the likelihood or breadth of wider service outages, or ensure public safety during an emergency or other exceptional circumstance.

(7) A public utility may not knowingly provide electric service to a customer that would otherwise qualify as a large load customer if that customer is a foreign entity.

(8) No later than October 1, 2026, each public utility shall file, for commission approval, a tariff that complies with this section.

Section 4. Effective upon becoming a law, subsections (3) and (4) of section 373.203, Florida Statutes, are redesignated as subsections (5) and (6), respectively, and new subsections (3) and (4) are added to that section, to read:

373.203 Definitions.—

(3) "Data center" means a facility that primarily contains electronic equipment used to process, store, and transmit digital information, which may be:

(a) A free-standing structure; or

(b) A facility within a larger structure which uses environmental control equipment to maintain the proper conditions for the operation of electronic equipment.

(4) "Large-scale data center" means a single location, with a data center on site, that has an anticipated monthly peak load of 50 megawatts or more, calculated as the highest average load over a 15-minute interval. The term does not include a load aggregated across multiple locations owned by the same customer. However, the term includes all customers or other entities that have entered into a colocation or similar agreement at a single location that otherwise meets the anticipated monthly peak load provided in this subsection.

Section 5. Section 373.262, Florida Statutes, is created to read:

373.262 Large-scale data center permitting.—

(1) It is the intent of the Legislature that the development and operation of large-scale data centers in this state be managed under a permitting framework that ensures this state's water resources are used in the public interest, in a manner that is not harmful to the water resources of this state, and consistent with local government zoning regulations and comprehensive plans.

(2) Consistent with other provisions of this part, the governing board of a water management district or the department may not issue a permit to a large-scale data center applicant for an allocation of water if the proposed use of the water is harmful to the water resources of the area or is prohibited by the applicable local government zoning regulations and comprehensive plan. A permit shall be issued to a large-scale data center applicant for an allocation of water if the applicant establishes that the proposed use of water:

(a) Is a reasonable-beneficial use as defined in s. 373.019;

(b) Will not interfere with any presently existing legal use of water; and

(c) Is consistent with the public interest.

(3) The governing board or the department shall require the use of reclaimed water in lieu of all or a portion of a proposed use of surface water or groundwater by a large-scale data center applicant when:

(a) A suitable reclaimed water supply source is available and permitted;

(b) Reclaimed water distribution or supply lines are available at the property boundary in sufficient capacity and quality to serve the applicant's needs;

(c) The applicant is capable of accessing the reclaimed water source through distribution or supply lines;

(d) Use of reclaimed water is environmentally, economically, and technically feasible; and

(e) Use of reclaimed water would not conflict with the requirements contained in the applicant's surface water discharge permit, if applicable.

(4)(a) In addition to the requirements of s. 373.229, all permit applications made under this part requesting an allocation of at least an average daily flow of 100,000 gallons of water per day by a large-scale data center must contain:

1. All sources and amounts of water and losses of water used for cooling, industrial and treatment processes, personal or sanitary needs of employees, and landscape irrigation; and

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

2. A water conservation plan that, at a minimum, incorporates recycling cooling water before discharge or disposal, implementation of a leak detection and repair program, use of water efficient fixtures, and implementation of an employee awareness and education program concerning water conservation.

(b) Notwithstanding s. 373.229(4), the governing board or the department may not approve a permit application made under this part by a large-scale data center without a hearing.

Section 6. Subsection (2) of section 373.239, Florida Statutes, is amended to read:

373.239 Modification and renewal of permit terms.—

(2) If the proposed modification involves water use of 100,000 gallons or more per day or is proposed by a large-scale data center as defined in s. 373.203, the application shall be treated under the provisions of s. 373.229 in the same manner as the initial permit application. Otherwise, the governing board or the department may at its discretion approve the proposed modification without a hearing, provided the permittee establishes that:

(a) A change in conditions has resulted in the water allowed under the permit becoming inadequate for the permittee's need, or

(b) The proposed modification would result in a more efficient utilization of water than is possible under the existing permit.

Section 7. The Office of Program Policy Analysis and Government Accountability (OPPAGA) shall contract for an independent, interdisciplinary study of policy considerations related to the construction and operation of large-scale data centers, including, but not limited to, state, regional, or local economic development and tax revenue impacts; use of land, water, and other natural resources; energy use and related cost and rate impacts; and public health and safety related impacts. OPPAGA may contract with one or more nonpartisan academic or nonprofit research organizations with policy and scientific expertise in relevant fields of study. The study must identify any issues unique to the construction and operation of large-scale data centers in this state. The study must also include recommendations on facility siting and mitigation measures that should be considered to reduce any potential negative impacts. OPPAGA shall submit the study to the Governor, the President of the Senate, and the Speaker of the House of Representatives by July 1, 2027.

Section 8. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon becoming a law, this act shall take effect July 1, 2026.

Approved by the Governor May 7, 2026.

Filed in Office Secretary of State May 7, 2026.

May 28 2026

Linda Young, 3853 Lomi Lomi Dr., Holiday FL 34691

To: Pasco County Planning Commission
Pasco County Board of County Commissioners

Subject: Request for Permanent Moratorium on Data Centers and Large Load Developments in Unincorporated Pasco County

Dear Members of the Planning Commission and County Board,

I am writing to express my strong concern regarding the continued consideration, approval, and development of data centers, large-scale data centers, and other high electrical load industrial customers within unincorporated Pasco County.

I respectfully request that the County adopt a permanent moratorium on the acceptance, review, approval, and development of these facilities in unincorporated areas.

My concerns are based on several important issues affecting residents and the long-term sustainability of our community, including:

- Increased strain on the electrical grid and public infrastructure
- Significant water consumption and environmental impacts
- Noise pollution from cooling systems and backup generators
- Increased traffic and industrialization of rural and residential areas
- Loss of community character and open space
- Potential negative impacts on nearby property values and quality of life
- Limited direct benefit to local residents compared to the burden placed on county resources

Pasco County's unincorporated communities should be protected from development that may permanently alter the rural and residential nature of these areas while placing substantial demands on infrastructure and public services.

I believe the County should prioritize sustainable growth, responsible land use planning, environmental protection, and the interests of existing residents over large-scale industrial expansion projects that may not align with the long-term vision for our community.

I respectfully urge the Planning Commission and County leadership to take proactive action by implementing a permanent moratorium on these types of developments before additional applications are approved.

Thank you for your time, consideration, and service to the residents of Pasco County. I appreciate the opportunity to share my concerns and request that this letter be included in the public record regarding future planning and zoning discussions related to data centers and large load developments.

Sincerely,

Linda Young 47lyoung@gmail.com

Weightman ; Kathryn Starkey ; Lisa Yeager ; Jack Mariano Subject: AI Data Centers I'll be honest out the gate, I'm not good at this kind of thing. I've watched advocates for different issues speak and write so eloquently and have wished I possessed that same skillset. This may not be the best written email, but I hope you are able to see my sincerity. The issues surrounding AI Data Centers are popping up everywhere in our country. I am seeing mixed messages as to whether or not the development of one of these centers is a reality for Pasco County, but I do know the matter for a temporary moratorium will be addressed in the near future. I implore you to ultimately establish a permanent moratorium. Pasco County is being completely overdeveloped. This, in and of itself, is enough to cause irreparable damage to our environment in this beautiful county. The amount of water AI Centers require will exacerbate our water shortage. Pasco County is already prone to sinkholes, and I truly believe an AI Center will yield catastrophic results regarding the quality of air and the condition of the waterways in our county. It is my understanding the following list of items is impacting the areas in which AI Data Centers currently exist: The air surrounding a data center is immediately impacted. Diesel backup generators — which these facilities require by the dozens or even hundreds — release fine particulate matter and nitrogen oxides linked to asthma, heart disease, and respiratory illness. Internal noise levels can reach up to 96 decibels — well above the 85 dB threshold considered harmful to human hearing. Those living near a center reported having to deal with the increased noise levels on a daily basis causing sleep disruption. Long term effects will cause hearing loss. Water starts disappearing. A mid-sized data center uses roughly 300,000 gallons of water per day — the same as 1,000 homes. Between 80 and 90 percent of that water comes from surface water or groundwater — often the same sources our tap water comes from. Wildlife is impacted. Animal communication breaks down. Migration patterns shift. Nesting fails. The water table doesn't stop at the property line. Heavy reliance on groundwater can lead to aquifer depletion that threatens ecosystems and diminishes long-term water availability for surrounding communities, not just those next door. Again, I implore you to establish a permanent moratorium (and pass the temporary moratorium) that will prohibit an AI Data Center from ever being developed in Pasco County. We just don't need it. Our land, water and air are more important. Thank you, Rebecca Dorsey Sent from my iPhone

Subject: Data Center - PASCO COUNTY

I am submitting this comment in strong opposition to the proposed data center development in Pasco County.

This project represents a significant and unacceptable environmental risk. Developments of this scale are well known to require substantial land use, water consumption, and energy demand, all of which directly impact local ecosystems and long-term environmental stability. These are not minor concerns, yet they do not appear to be driving the decision-making process. Pasco County is already experiencing rapid and unsustainable growth. Infrastructure is strained, natural resources are under pressure, and residents are already dealing with the consequences of overdevelopment. Of particular concern is our limited water supply, which is increasingly stressed by current growth trends. Approving a high-demand facility such as a data center will only accelerate these issues and place further strain on resources that are already nearing their limits.
In addition, the financial burden on residents cannot be ignored. Increased utility demand will inevitably translate into higher costs, further impacting a community that is already facing rising expenses tied to ongoing development.

At this point, it is difficult not to conclude that Pasco County is prioritizing continued expansion over the well-being of its current residents. Decisions like this give the clear impression that the County does not have the best interests of the community in mind. Responsible governance requires balancing growth with sustainability, resource availability, and quality of life. This proposal fails to meet that standard.

I urge the Board to reject this development

Kind Regards,
Christy

Subject: Data center concerns - County Commisioners

Dear Sir and Ma'am's,

I am writing to express my concerns regarding the potential approval of the proposed data centers. Given the information available, there are significant worries that such a development could lead to a catastrophic outcome.

In light of this, I am curious about the reasoning behind the continued push for these projects. Is this due to a lack of complete information regarding the impact, or are there other motivations at play that outweigh these environmental and community concerns?

I urge you to seek further wisdom on this matter and find the strength to reconsider the long-term consequences of this decision.

Best regards,
Hannah Joseph

Weightman ; Kathryn Starkey ; Lisa Yeager ; jmarino@mypasco.net Subject: Data centers I'm writing as a Pasco homeowner, tax payer and voter to urge you to pass the proposed moratorium on any and all applications for large scale data centers. There is abundant proof that these centers are damaging to property, the environment, wildlife and humans and should not be permitted to be built anywhere in Pasco...or Florida for that matter. We already have frequent drought conditions which will be made much worse by large scale water users. There are reported multiple health conditions created by the conditions around these centers which will adversely affect Pasco residents especially children. Please pass the moratorium on these businesses so that Pasco can continue to be a great place to live. Thank you, Linda Rowley 10483 Echo Dock Loop SanAntonio, FL Sent from my iPad

Subject: Data Centers in Pasco County

Good Afternoon Pasco County Commissioners,

I am writing to urge you to reconsider Data Centers built in Pasco County. Existing data centers across the US show they use an excessive amount of water and power. We are already in a drought! We do not need to waste our precious water resources on computers. People living near existing data centers have reported poor water quality and/or low pressure from their water faucets. Pasco residents need clean water more than we need a data center. The US has a sufficient number of existing data centers we do not need any more. The below points discuss how existing data centers have disrupted living conditions around them.

AT THE FENCE LINE/DIRECT NEIGHBORS: The air around a data center is not the same air you grew up breathing. Diesel backup generators — which these facilities require by the dozens or even hundreds — release fine particulate matter (PM2.5) and nitrogen oxides (NOx) linked to asthma, heart disease, and respiratory illness. Those generators emit 200 to 600 times more nitrogen oxides than natural gas plants. (World Resources Institute) At the xAI facility in Memphis, a Time Magazine investigation found that nitrogen dioxide levels in the air markedly increased from pre-data center levels in areas immediately surrounding the facility. (Sehn)The

noise never stops. Internal noise levels can reach up to 96 decibels — well above the 85 dB threshold considered harmful to human hearing. (PubMed Central) Neighbors near a Virginia facility described sound levels of 90 decibels at their homes. One resident said he can no longer open his windows. Another put mattresses against the glass to block it out.The light from hyperscale facilities runs all night, disrupting the natural circadian rhythms of the body — including melatonin production and sleep-wake cycles. (EHP) Sleep disruption. Chronic stress. Hearing loss. These aren't hypotheticals. They are documented outcomes in communities that said yes before they understood what they were saying yes to.

WITHIN A MILE: The land changes. The average data center site in 2024 covered about 224 acres — roughly 450 football fields — a 144% increase in footprint since 2022. (World Resources Institute) Farmland gone. Forests cleared. Viewsheds destroyed. The water starts disappearing. A mid-sized data center uses roughly 300,000 gallons of water per day — the same as 1,000 homes. (Nixon Peabody) Between 80 and 90 percent of that water comes from surface water or groundwater — often the same sources your tap water comes from. (Fwpcoa) Most of it evaporates in the cooling towers and never comes back. Wildlife starts acting differently. Researchers describe data centers as potential "sensory danger zones" — places where light and noise exceed the thresholds at which there are measurable fitness consequences for species. (National Wildlife Federation) Animal communication breaks down. Migration patterns shift. Nesting fails.

AND DOWNSTREAM: The water table doesn't stop at the property line. Heavy reliance on groundwater can lead to aquifer depletion that threatens ecosystems and diminishes long-term water availability for surrounding communities — not just those next door. (Waterplan)The power plants that feed these facilities pollute far beyond the data center itself. Datacenters rely heavily on energy from large-scale power plants — facilities now increasingly co-located with data centers to avoid delays in grid upgrades. (arXiv) Whatever that plant burns, your airshed absorbs. A September 2025 study found that air pollutants from data center operations increase rates of respiratory diseases and cardiovascular conditions, and elevate cancer risks among nearby communities. (EHP)

THIS IS PENNSYLVANIA RIGHT NOW: From Penn Forest Township to Kline Township to Salem Township to Archbald Borough — proposals are moving. Permits are being filed. Ordinances are being written or ignored. The research is clear. The damage is real. The question is whether your municipality is asking the hard questions before the ground gets broken — or after. You deserve to know what's being built next to your water. Your land. Data Center Accountability / Carbon County, PAUnpaid. Independent.

I highly suggest you encourage more research prior to allowing data centers to be built here. So far, the negatives outweigh the positives. The negatives, I suspect are sufficient enough to lower property values of neighboring homes. Please do not consider a data center build until it is possible to build without using clean water, without being a strain on our power grid and without being an environmental burden. Keep Pasco beautiful! Keep Pasco a place where people want to live! Your choices will be considered in the next elections. Listen to the people you represent.

Subject: Formal Opposition to Data Center Development — Electrical Grid and Ratepayer Costs — Stacy Smith, Pasco County Resident

Dear Commissioner Oakley, Commissioner Moore, Commissioner Starkey, Commissioner Wells, and Commissioner Mariano,

My name is Stacy Smith. I am a resident of Pasco County at 7618 Kickliter Lane, Land O' Lakes. This is my third letter formally opposing hyperscale data center development in Pasco County.

ELECTRICAL GRID

Duke Energy Florida serves most of Pasco County. A hyperscale data center draws between 100 and 500 megawatts of continuous, uninterrupted power — equivalent to the peak demand of 80,000 to 400,000 typical Florida homes. The substations, switching stations, and transmission upgrades required to serve that load represent a capital investment of hundreds of millions of dollars.

In Virginia, residential utility customers experienced bill increases of 10 to 20 percent that were partly attributable to data center grid infrastructure socialized through general rate base adjustments. Florida SB 484, signed by

Governor DeSantis on May 7, 2026, specifically prohibits Duke Energy Florida from shifting data center infrastructure costs onto residential ratepayers. That law was passed because the alternative — unlimited cost socialization — was a documented, ongoing harm to residential customers in states that lacked that protection.

This Board should require, as a mandatory condition of any data center application, that Duke Energy Florida certify in writing that all transmission and substation infrastructure required to serve the proposed facility will be funded exclusively by the developer under a dedicated large-load tariff, with zero cost recovery through general residential or commercial rate adjustments. That certification should be a public document in the permit record before any vote is scheduled.

This letter constitutes part of the permanent public record under Florida's Sunshine Law (Chapter 286, F.S.) and Public Records Act (Chapter 119, F.S.).

Respectfully,
Stacy Smith

Subject: Formal Opposition to Data Center Development — Health and Air Quality — Stacy Smith, Pasco County Resident

Dear Commissioner Oakley, Commissioner Moore, Commissioner Starkey, Commissioner Wells, and Commissioner Mariano,

My name is Stacy Smith. I am a resident of Pasco County at 7618 Kickliter Lane, Land O' Lakes. This is my second letter formally opposing hyperscale data center development in Pasco County.

HEALTH — AIR QUALITY

Hyperscale data centers require between 50 and 200 diesel backup generators per campus. In Pasco County — where thunderstorms and tropical weather systems cause frequent power outages — those generators run regularly, not just during scheduled testing. Each run produces PM2.5, NOx, carbon monoxide, and volatile organic compounds. The EPA classifies diesel exhaust as a probable human carcinogen. PM2.5 at elevated concentrations causes asthma exacerbation, cardiac events, stroke, and premature mortality.

Land O' Lakes is a rapidly growing residential community. Families with children, expectant mothers, and residents with pre-existing respiratory

conditions are the most vulnerable to diesel particulate exposure, and they are precisely the population being drawn to Pasco County by its residential development. This community did not choose to live next to an industrial facility. Any data center applicant must provide a certified independent air quality impact assessment reviewed by the Florida Department of Environmental Protection before any county permit is considered.

Industrial cooling towers at hyperscale campuses also present Legionella amplification risk under Florida's humid subtropical conditions. A certified Legionella water management plan reviewed by the Florida Department of Health must also be required.

This letter constitutes part of the permanent public record under Florida's Sunshine Law (Chapter 286, F.S.) and Public Records Act (Chapter 119, F.S.).

Respectfully,
Stacy Smith

Subject: Formal Opposition to Data Center Development — Water Supply and Aquifer Protection — Stacy Smith, Pasco County Resident

Dear Commissioner Oakley (District 1), Commissioner Moore (District 2, Vice Chair), Commissioner Starkey (District 3, Chair), Commissioner Wells (District 4), and Commissioner Mariano (District 5),

My name is Stacy Smith. I am a resident of Pasco County at 7618 Kickliter Lane, Land O' Lakes. I am writing to formally oppose any current or proposed hyperscale data center development in Pasco County and to urge this Board to adopt protective provisions before any such project advances.

WATER SUPPLY

Pasco County's rapid residential growth has placed the Floridan Aquifer and the Southwest Florida Water Management District's permitted water supply framework under sustained pressure. Land O' Lakes, Lutz, and the broader eastern Pasco corridor draw water from the same aquifer system that is also being tapped by Tampa Bay Water's regional wellfields. A hyperscale data center consuming 1 to 5 million gallons per day adds industrial-scale demand

to a system that is already operating near its permitted capacity in parts of this county.

The SWFMD recently updated its data center water permit policy to require governing board approval at publicly noticed meetings — an acknowledgment that these demands are too consequential for routine administrative handling. That policy change happened because data center water use is not comparable to ordinary commercial or residential demand. Any data center application in Pasco County must obtain a complete SWFMD consumptive use permit as a mandatory condition of county approval. Florida SB 484, signed May 7, 2026, requires data centers to use reclaimed water where feasible — compliance must also be a required condition.

I urge this Board to adopt a moratorium on hyperscale data center development, following the precedent set by Citrus County on May 13, 2026.

This letter constitutes part of the permanent public record under Florida's Sunshine Law (Chapter 286, F.S.) and Public Records Act (Chapter 119, F.S.).

Respectfully,
Stacy Smith

Weightman ; Kathryn Starkey ; gbradford@mypasco.net Cc: dorishcarroll1@gmail.com Subject: Formal Opposition to Large-Scale Data Center Development — Pasco County Resident Doris Carroll Dear Pasco County Board of County Commissioners, My name is Doris Carroll, and I reside at 5244 Hawk Dr, Pasco County, Florida. I am writing to formally oppose any proposed hyperscale or large-scale data center development in Pasco County and to urge each Commissioner to take immediate, decisive action to protect our community's water supply, electric grid, environment, and right to government transparency. WATER SUPPLY Pasco County sits atop the Florida aquifer system, one of the most productive and ecologically sensitive freshwater systems in the world. A single hyperscale data center can consume millions of gallons of water per day for cooling. Florida's landmark SB 484 (Chapter 2026-65, signed May 7, 2026) now prohibits water management districts and the DEP from issuing consumptive use permits to large-scale data centers where the proposed use is harmful to the area's water resources. I urge this Board to formally communicate to the Southwest Florida Water Management District (SWFWMD) that Pasco County's residential and agricultural water needs must take absolute priority, and that no data center project should receive a consumptive use permit without full independent analysis of its impact on local water availability, well water levels, and aquifer recharge. ELECTRIC GRID STABILITY A single AI-focused data center can demand as much electricity as 100,000 ordinary homes. Pasco County's grid infrastructure was designed to serve homes, businesses, and schools — not industrial megaconsumers. Florida SB 484 mandates that the Public Service Commission ensure large load customers pay their own full cost of service, with zero cost shifted to residential ratepayers. I ask this Board to formally oppose any data center project that cannot provide documented proof of grid-neutral impact on Pasco County residents, and to demand that Duke Energy and TECO provide written assurances that no infrastructure upgrade costs will be borne by residential customers. TRANSPARENCY Florida SB 484 establishes that large-scale data center developers may not conceal their plans from local governments for more than one year. However, even a single year of secrecy is too long when the impacts on our water, grid, and neighborhoods can be irreversible. Under Florida Statute § 286.011 (the Sunshine Law), all meetings of public boards and commissions must be open to the public. I urge this Board to adopt a formal policy requiring immediate public disclosure the moment any data center developer initiates contact with Pasco County, its Economic Development Council, or any affiliated agency. ENVIRONMENT Florida Statute § 163.3177 requires Pasco County's comprehensive plan to include a conservation element protecting natural resources. Data centers create massive impervious surfaces, generate light and noise pollution, strain stormwater systems, and can degrade wetland and habitat corridors. I urge this Board to invoke its full land development regulation authority, expressly preserved by SB 484, to require environmental impact assessments,

habitat surveys, and stormwater management plans before any data center application is approved. I also urge you to mandate the use of reclaimed water for cooling as a minimum condition of any approval, in alignment with SB 484's reclaimed water provisions. REQUEST FOR ACTION I respectfully ask this Board to: 1. Adopt a formal resolution affirming Pasco County's commitment to protecting its residents from the impacts of large-scale data center development. 2. Require full public hearings with substantial advance notice before any data center land use application is processed. 3. Formally request that SWFWMD deny any data center consumptive use permit that poses any risk to Pasco County's aquifer or residential water supply. 4. Demand full compliance with Florida SB 484 (Chapter 2026-65) and all applicable local comprehensive plan requirements. 5. Adopt an immediate disclosure policy requiring that any data center developer contact be made public within 30 days. The people of Pasco County elected you to protect them. I urge you to do exactly that. Respectfully submitted, Doris Carroll 5244 Hawk Dr Pasco County, Florida --- This letter was submitted on behalf of the resident by Florida Data Centers. Subject: Further development.

Dear County Commissioners,

I am writing as a concerned resident to express my strong opposition to continued large-scale development in our county, especially the proposed expansion of industrial-scale data centers.

Our community is already experiencing the effects of rapid growth — increased traffic, strain on infrastructure, loss of green space, pressure on water resources, rising noise levels, and a gradual erosion of the rural and residential character that many of us chose this area for in the first place. Approving additional large developments without fully considering the long-term consequences threatens the quality of life for current residents.

I am particularly concerned about data center development. While these projects are often presented as economic opportunities, the reality is that data centers consume enormous amounts of electricity and water, create constant noise from cooling systems and generators, and provide relatively few permanent jobs compared to the size and impact of the facilities. They can permanently alter landscapes and place significant burdens on local utilities and infrastructure.

Residents should not be expected to sacrifice our environment, peace, property values, and community identity for projects that primarily benefit outside corporations. Growth should be responsible, measured, and aligned with the wishes of the people who already live here.

I urge the Commission to:

- Reject or place strict limitations on additional high-density and industrial development projects, including data centers.
- Require comprehensive environmental and infrastructure impact studies before approving any new projects.
- Protect residential areas, agricultural land, wetlands, wildlife habitats, and natural resources.
- Prioritize transparency and meaningful public input in all zoning and development decisions.
- Focus on sustainable planning that preserves the character and livability of our community for future generations.

Please remember that your responsibility is not only to encourage economic growth, but also to protect the health, safety, and quality of

life of the residents you represent.

Thank you for your time and consideration.

Sincerely,

Lynn Foggia

Subject: Moratorium on Large Scale Data Centers (proposed ordinance)

I support a moratorium on new applications for large scale data centers until we all have a better idea on the impacts, particularly electric power and water consumption, as well as impacts on society generally and Pasco County residents and businesses in particular.

These data centers and the artificial intelligence technologies driving them are coming. We understand that. But we need to explore matters of public interest. Who benefits? Who pays? Who is affected by the side effects? Once these questions are explored, we need to address questions such as

how to regulate them, how to minimize negative impacts, and how they will affect the overall business and living environment in Pasco County.

Rational caution is a reasonable approach.

Subject: new ai datacenters in pasco

To whom it may concern regarding growth strategies for Pasco,

I'm a technology person, I've worked in this field for most of my working career and currently work as a cybersecurity expert. I use AI in part of my daily professional and personal life. However, I would give up these conveniences to avoid having an AI datacenter in my backyard. They aren't worth it.

My take is that these endless datacenters for AI aren't worth the cost to our environment and our tourism communities. We must ask what we are really going to gain from this. Is it more awful AI videos on social media? Are they trying to use agentic solutions to cure illnesses? Extremely unlikely considering ChatGPT can't tell the difference between a urethroscopy and a nasal endoscopy. I thought that meme was just an exaggeration until I asked ChatGPT what the image depicted and it reported a nasal endoscopy.

Here are some considerations I've gathered/observed over the past few months that should be heavily weighed against:

- January the UN declared we're in a global water bankruptcy. We literally have places in the world where water cannot be recovered or restored to

stabilize the region.
- These AI datacenters consume millions of gallons of drinking water
- Areas that currently support massive datacenters are destabilizing and predicting failure, in addition to the global water bankruptcy already reported.

Common large complaints for areas near new AI data centers include:

- Complaints of unending light pollution
- Complaints of rising temperatures in the area
- Complaints of constant humming for miles near the data centers?

What about long-term unknowns?

- How will the datacenter's humming or constant frequency impact the area?
- What's the risk to aquatic life near the shore?
- What are the risks to the microbiology in the water or springs in the area?
- What about the ground once it is installed?
- Will it cause sinkholes around the area as the frequencies agitate sedimentary movement?

On top of that, we're looking at a huge increase in electricity costs because higher demand will drive up the rates per kWh significantly.

I'm all for improving and evolving tech, but this doesn't seem worth the risk of generating or perpetuating more sinkholes or the impact on the multi-billion dollar tourism industry here.

Adding more datacenters is about greed at this point for more CPU cycles. We stopped being efficient with AI when executives started figuring how to let people go instead of letting people grow. This venture promises no major jobs. This new datacenter will require the minimum number of people necessary to maintain it and secure the premises around the clock.

Hindsight is 20/20, here are some articles to provide the right perspective on the possibilities here. While the money seems enticing, the long-term prospects don't seem worth adding AI datacenters here. My observation when explaining most of the these issues is that people do NOT want new AI datacenters near their homes.

Subject: No AI Data Centers

Good afternoon,

After viewing a post on the Pasco Accountability and Transparency page online, I felt strongly that I needed to include myself, along with countless others, who are completely and entirely against AI data centers entering this county.
In the time I have lived in this county I have seen strain from multiple sources put onto the land and communities. Traffic, road deterioration, concerns for water, concerns of strain on the land, overdevelopment, the list goes on. How could we continue to try to enjoy the rural beauty and natural environment of Florida, in our county, if we allow a poisonous project to enter our area?
It is not merely about the opinions of the families and individuals that call this area home (though, the rights and input of said people should be valued greatly as this is whom your decisions impact directly and significantly), it is about facts. Critically important, environmentally altering facts, for which recovery could very well be impossible. I'm sure very few are unaware of the destruction the existing AI data centers have already caused. Contaminated water supply, energy use that rivals nuclear weaponry, continued destruction of natural land, and countless other negative effects that are occurring unregulated, untested, and seemingly without concern. Coupled with the

significant, negative impact on the land and those that live on it, we are seeing the voices of home/land owners being ignored when they do the right thing and speak up against these developments. When they TRUST in their government officials to listen to their voice. In a country claiming to be founded on democracy, we should be ashamed. To allow a dollar sign or pressure from a conglomerate to steamroll over our citizens rights and wishes, shows that as a country we are failing the very principles we claim to stand for. Pasco county cannot follow in the misguided footsteps of those who supported data centers, for the consequences would be swift and devastating. You all have a duty to hear your county to stand up for their wishes, to protect their property and home.
Would you want to live in a county where your opinions are null and void? Would you want to support individuals who appear to have no concern for the wellbeing of anyone but themselves? Do you want to be the reason a family's water supply is rendered completely useless and unsafe?
If we are to have faith in our appointed representatives; I should think the answer to those questions are a strong "no". There needs to be accountability for something that has vastly more risk than perceived reward. AI data centers have NO PLACE in Pasco County, Florida, or quite frankly anywhere else. The facts are there. The people have spoken. Benefits are nonexistent. I implore you to make the right choice and stand up for those you're employed to represent. Anything less is an abject failure.

Respectfully,
A concerned Pasco County Resident

Subject: No Ai Data Centers in Pasco

Hello,

My name is Christina Nicholas. I've beena resident of Pasco County for 22 years. I've seen the county grow and develop, some for the better and some for the worse.

Please, do not approve any AI Data Centers. They tell you it's just a building full of computers. Here's what they don't tell you.

AT THE FENCE LINE: The air around a data center is not the same air you grew up breathing. Diesel backup generators — which these facilities require by the dozens or even hundreds — release fine particulate matter (PM2.5) and nitrogen oxides (NOx) linked to asthma, heart disease, and respiratory illness. Those generators emit 200 to 600 times more nitrogen oxides than natural gas plants. (World Resources Institute). At the xAI facility in Memphis, a Time Magazine investigation found that nitrogen dioxide levels in the air markedly increased from pre-data center levels in areas immediately surrounding the facility.

(Sehn)The noise never stops. Internal noise levels can reach up to 96 decibels — well above the 85 dB threshold considered harmful to human hearing. (PubMed Central) Neighbors near a Virginia facility described sound levels of 90 decibels at their homes. One resident said he can no longer open his windows. Another put mattresses against the glass to block it out.

The light from hyperscale facilities runs all night, disrupting the natural circadian rhythms of the body — including melatonin production and sleep-wake cycles. (EHP) Sleep disruption. Chronic stress. Hearing loss. These aren't hypotheticals. They are documented outcomes in communities that said yes before they understood what they were saying yes to.

WITHIN A MILE: The land changes. The average data center site in 2024 covered about 224 acres — roughly 450 football fields — a 144% increase in footprint since 2022. (World Resources Institute) Farmland gone. Forests cleared. Viewsheds destroyed.The water starts disappearing. A mid-sized data center uses roughly 300,000 gallons of water per day — the same as 1,000 homes. (Nixon Peabody) Between 80 and 90 percent of that water comes from surface water or groundwater — often the same sources your tap water comes from. (Fwpcoa) Most of it evaporates in the cooling towers and never comes back.Wildlife starts acting differently. Researchers describe data centers as potential "sensory danger zones" — places where light and noise exceed the thresholds at which there are measurable fitness consequences for species. (National Wildlife Federation) Animal communication breaks down. Migration patterns shift. Nesting fails. The water table doesn't stop at the property line. Heavy reliance on groundwater can lead to aquifer depletion that threatens ecosystems and diminishes long-term water availability for surrounding communities — not just those next door. (Waterplan)The power plants that feed these facilities pollute far beyond the data center itself. Datacenters rely heavily on energy from large-scale power plants — facilities now increasingly co-located with data centers to avoid delays in grid upgrades. (arXiv) Whatever that plant burns, your airshed absorbs. A September 2025 study found that air pollutants from data center operations increase rates of respiratory diseases and cardiovascular conditions, and elevate cancer risks among nearby communities. (EHP)THIS IS PENNSYLVANIA RIGHT NOW. From Penn Forest Township to Kline Township to Salem Township to Archbald Borough — proposals are moving. Permits are being filed. Ordinances are being written or ignored.The research is clear. The damage is real. The question is whether your municipality is asking the hard questions before the ground gets broken — or after. You deserve to know what's being built next to your water. Your air. Your land. PA Data Center Accountability / Carbon County, PAUnpaid. Independent. Sourced.

Hello. I am a concerned Pasco County resident of 26 years. I am requesting you take residents seriously for a moment and reconsider building data centers in Pasco County. I have spoken to multiple people who have also lived in Pasco County almost their entire lives, and we are very concerned. We do not want this. We do not want to hear deafening noise, We do not want our drinking water contaminated or to run out and we definitely do not need any more development. The development in Pasco County has been detrimental to wildlife, and this is not being taken seriously. Please reconsider.

Subject: No Data Centers

I am writing today to request a permanent moratorium on data centers in Pasco county. Data centers present major problems, primarily because of massive resource consumption. The main cons are: extreme electricity demands causing strain on local power grids , excessive water usage, environmental and noise pollution, and driving up utility bills for residents.

Thank you for your time and attention to this matter.

Subject: date center in New Port Richey

Hello,
I do not agree with establishing a data center in New Port Richey or in Pasco County.
Below is a basic search of how data centers are not good for the environment, will cause increased bills for the citizens and can cause harm to the people.

Please vote against this.
Thank you,

Mary McLochlin

Subject: NO DATA CENTERS FOR PASCO

County and Planning Commissioners,

Know that it you plan to approve zoning requests for planned AI data centers in Pasco county, you will not have my vote in your reelection. Our water is not worth sacrificing for ANY amount of money these tech companies are promising you.

The amount of building you have approved that has clogged our roads and destroyed rural areas is disgraceful. We're under water restrictions but you happily approve carwash after carwash for construction. You should be embarrassed and ashamed of what our once quiet, peaceful community has turned into.

Someone who has almost lost faith in you,

JoAnna Longa-Smith

Subject: No Data Centers in Pasco County

Hello!

Please, please do not approve anything for AI Data Centers in Pasco County.

Studies are showing this. They tell you it's just a building full of computers. Here's what they don't tell you.

AT THE FENCE LINE:The air around a data center is not the same air you grew up breathing. Diesel backup generators — which these facilities require by the dozens or even hundreds — release fine particulate matter (PM2.5) and nitrogen oxides (NOx) linked to asthma, heart disease, and respiratory illness. Those generators emit 200 to 600 times more nitrogen oxides than natural gas plants. (World Resources Institute) At the xAI facility in Memphis, a Time Magazine investigation found that nitrogen dioxide levels in the air markedly increased from pre-data center levels in areas immediately surrounding the facility. (Sehn)The noise never stops. Internal noise levels can reach up to 96 decibels — well above the 85 dB threshold considered harmful to human hearing. (PubMed Central) Neighbors near a Virginia facility described sound levels of 90 decibels at their homes. One resident said he can no longer open his windows. Another put mattresses against the glass to block it out.The light

from hyperscale facilities runs all night, disrupting the natural circadian rhythms of the body — including melatonin production and sleep-wake cycles. (EHP) Sleep disruption. Chronic stress. Hearing loss. These aren't hypotheticals. They are documented outcomes in communities that said yes before they understood what they were saying yes to.

WITHIN A MILE:The land changes. The average data center site in 2024 covered about 224 acres — roughly 450 football fields — a 144% increase in footprint since 2022. (World Resources Institute) Farmland gone. Forests cleared. Viewsheds destroyed.The water starts disappearing. A mid-sized data center uses roughly 300,000 gallons of water per day — the same as 1,000 homes. (Nixon Peabody) Between 80 and 90 percent of that water comes from surface water or groundwater — often the same sources your tap water comes from. (Fwpcoa) Most of it evaporates in the cooling towers and never comes back.Wildlife starts acting differently. Researchers describe data centers as potential "sensory danger zones" — places where light and noise exceed the thresholds at which there are measurable fitness consequences for species. (National Wildlife Federation) Animal communication breaks down. Migration patterns shift. Nesting fails.

MILES AWAY — AND DOWNSTREAM:The water table doesn't stop at the property line. Heavy reliance on groundwater can lead to aquifer depletion that threatens ecosystems and diminishes long-term water availability for surrounding communities — not just those next door. (Waterplan)The power plants that feed these facilities pollute far beyond the data center itself. Datacenters rely heavily on energy from large-scale power plants — facilities now increasingly co-located with data centers to avoid delays in grid upgrades. (arXiv) Whatever that plant burns, your airshed absorbs.A September 2025 study found that air pollutants from data center operations increase rates of respiratory diseases and cardiovascular conditions, and elevate cancer risks among nearby communities.

(EHP)THIS IS PENNSYLVANIA RIGHT NOW.From Penn Forest Township to Kline Township to Salem Township to Archbald Borough — proposals are moving. Permits are being filed.Ordinances are being written or ignored.The research is clear. The damage is real. The question is whether your municipality is asking the hard questions before the ground gets broken — or after.You deserve to know what's being built next to your water. Your air. Subject: NO DATA CENTERS IN PASCO

We don't want AI data centers in Pasco!!!
We already have water shortages and severe droughts! AI data center will destroy Pasco.

1. Carbon Emissions & Energy Consumption

- ***Grid Strain:*** *AI data centers require extreme amounts of power. In the U.S., data center electricity consumption is projected to double—from roughly 4% to between 8% and 12% of total national energy usage by 2030.*
- ***Fossil Fuel Reliance:*** *Surging energy demands frequently force regional utility companies to delay the retirement of fossil-fuel plants or keep carbon-heavy natural gas plants online to maintain a steady baseload.*
- ***Carbon Footprint:*** *Training a single large AI model can emit as much carbon as five cars over their entire lifetimes. By 2030, AI-driven emissions could annually pump up to 44 million metric tons of \(CO_{2}\) into the atmosphere. [1, 2, 3, 4, 5]*

2. Massive Water Usage

- ***Cooling Demands:*** *Enormous heat generated by AI training requires constant cooling. Mid-sized to large facilities can use up to 300,000 to 5 million gallons of water daily, putting massive stress on local aquifers and watersheds.*
- ***Per-Query Cost:*** *Research indicates that asking an AI chat session around 20 to 50 queries can consume up to an entire bottle (about 500 ml) of freshwater.*
- ***Siting Issues:*** *Roughly two-thirds of all data centers built or developed since 2022 are located in already water-stressed regions, such as Texas, southern Arizona, and the Colorado River Basin. [1, 2, 3, 4, 5]*

3. Hardware & Electronic Waste

- ***Resource Depletion:*** *Manufacturing graphics processing units (GPUs) requires extracting scarce rare earth minerals, which involves intensive mining processes and toxic chemical treatments.*
- ***E-Waste:*** *Rapidly evolving hardware makes older AI chips obsolete quickly, leading to growing volumes of electronic waste that contain toxic substances like mercury and lead. [1, 2, 3]*

4. Localized Community Impacts

- ***Noise Pollution:*** *The industrial cooling systems and backup generators required to keep data centers humming 24/7 generate high-decibel noise pollution, which negatively impacts nearby residential neighborhoods and local ecosystems.*
- ***Emergency Emissions:*** *In the event of grid instability, these facilities rely on arrays of toxic, diesel-powered backup generators, which emit localized nitrogen oxides and particulate matter into the surrounding air.*

We also need to stop building until all of nature is gone!!

Smile, God loves you!!

I can endure all things through Christ who strengthens me. (Philippians 4:13)

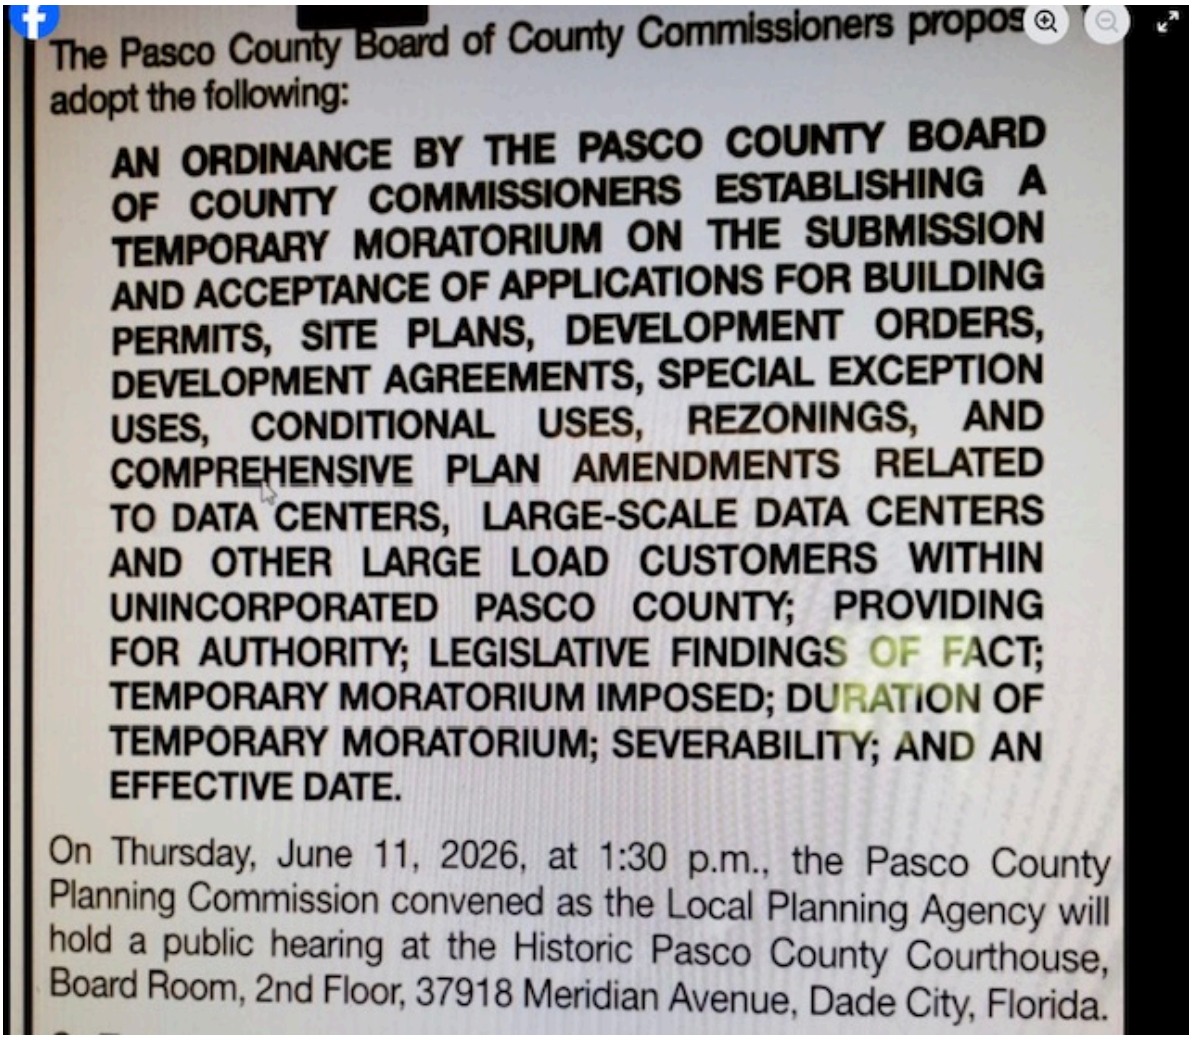
Subject: No To Data Center



To Whom It Concerns,

These Data centers are ruining Florida. We should be keeping Florida as Florida. The Data centers are running the environment and water supply. It's running up electric and water costs and making water undrinkable for citizens. It's also hugely impacting our water supply negatively. This has already been proven in other states where data centers have been placed. People are angry and do not want these Data centers, don't let greed and power win.

Thank you,
Macy Gilliland

Subject: NO TO DATA CENTERS IN PASCO COUTY

Dear Elected Representatives within Pasco County:

Pasco county already has major infrastructure issues along the coastline and water restrictions that are never ending. Please do not sell our beautiful county out to data centers that will consume our natural resources faster than other forms of economic development. Lake Tahoe is already unable to provide adequate power and electricity to their own communities due to poor planning and back room deals. While Governor DeSantis has pushed for data centers to at least pay for their own water and utility usage, it's not enough. We don't want the data centers, we don't want the heat, we don't want the utilities drain, and we don't want our water tables drained to further unsustainable levels by creating artificial drought conditions due to abuse of natural resources.

PLEASE BLOCK DATA CENTERS FROM OUR COUNTY!!!!!

Janelle Moore & Dan Talbot

Girardi ; Matthew Munz ; Jon Moody ; Chris Poole ; dpontilitz@mypasco.net Cc: Ron Oakley ; Seth D. Weightman ; Kathryn Starkey ; Lisa Yeager ; Jack Mariano Subject: Pasco county - data centers Good morning, I feel compelled to right this email as a 15 year resident of pasco county and as a Tampa native. Throughout the last 34 years I have seen Florida change, watched pasco county grow, develop and become the great county it is now. It's a county I have been visiting my entire life and called home over a decade ago. My children call this place home, we have a wonderful home here and pasco county has been a big part of fulfilling my dreams of motherhood and creating a beautiful life for my family. This is our home. As a Florida native, I have seen our wildlife suffer at the expense of growth. I have watched our native species loose their habitat for the betterment of society. I have seen precious farmland and fields turned into concrete neighborhoods in the blink of an eye. While I do understand the need for growth and change, I feel threatened that data centers will do the same thing to humans as we have done to nature. I am highly concerned about what is being reported about these data centers doing to the land and water around them. Bringing these to pasco county is detrimental. Our states precious aquifer is already suffering due to water usage, and our county is already high risk for sinkhole. For the first time, I see no need for this "growth." With so many unknowns and so many people against the development of data centers, along with the potential harm to wildlife and humans, these should not be allowed. The potential to pollute our already struggling resources, and the potential to change climates in the immediate vicinity of these centers is detrimental. Please, please consider the words of a pasco a resident, mom, and Florida native. I beg of you to put Florida residents and Florida wildlife first. Do not put our precious ecosystem in harms way. Florida is such a special place, and worth protecting from harm. Once we begin damage, there is no turning back - and it's not too late to stop it. Do what's best for pasco and say no to data centers. Amanda Parks

Subject: Pasco County data center moratorium

Good morning,

I am long-time residents of Pasco county and am writing to urge you all to vote for a data center moratorium. The impacts of data centers on the local environment, health of nearby residents, and costs for the community are all serious concerns that need to be addressed prior to any consideration for this type of project.

Thank you,

Rachelle Scarfone

Subject: Pasco County Planning Commission-Large Scale Data Centers

Dear Members of the Pasco County Planning Commission,

I am writing to formally express my **strong opposition** to the development of AI data centers within Pasco County.

Unfortunately, I am unable to attend the upcoming public hearing due to work obligations that require me to be out of town. However, I want to ensure that my concerns are included in the public record and carefully considered as part of your decision-making process.

While I understand the growing demand for digital infrastructure, I am deeply concerned about the potential environmental and public health impacts associated with large-scale AI data centers. Specifically, I ask the Commission to consider the following:

- **Air Quality Impacts:** Many data centers rely on large backup diesel generators, which can contribute significantly to localized air pollution during testing or power

outages. This raises concerns about respiratory health, particularly for vulnerable populations such as children, the elderly, and those with pre-existing conditions.

- **Noise Pollution and Sleep Disruption:** Data centers operate continuously and often produce constant low-frequency noise from cooling systems and mechanical equipment. Additionally, generator testing can create intermittent loud noise events. These factors can negatively affect nearby residents' quality of life, including sleep disruption and long-term stress.
- **Public Health Concerns:** The combination of emissions, noise, and industrial-scale infrastructure may contribute to increased risks of respiratory issues and other health impacts in surrounding communities.
- **Environmental and Wildlife Impacts:** Large-scale developments can disrupt local ecosystems, affecting wildlife habitats and migration patterns. Pasco County's natural environment is one of its greatest assets, and projects of this size could permanently alter it.
- **Groundwater and Resource Usage:** Data centers consume significant quantities of water for cooling in many cases, which could place strain on local water resources and potentially impact groundwater systems.
- **Long-Term Pollution and Community Character:** The cumulative impact of emissions, infrastructure expansion, and industrialization may degrade the environmental quality and character of Pasco County, affecting both current residents and future generations.

Given these concerns, I respectfully urge the Planning Commission to exercise caution and prioritize the health, safety, and environmental integrity of the community when evaluating any proposals for AI data centers.

At a minimum, I request that any such proposals undergo rigorous environmental impact assessments, include meaningful public input, and be subject to strict regulatory controls to mitigate harm. However, my strong preference is that these developments **not be** approved within Pasco County.

Thank you for your time, consideration, and service to our community. Please include this letter in the official record for the public hearing.

Respectfully,

Jamie L. Moore

Subject: Pasco County Resident Concern

Hello,

I am a concerned citizen of Pasco County. Unfortunately, I cannot make it to the meetings as they are during regular working hours- -which is also concerning as most citizens work during the day and are unable to attend to voice our concerns.

However, this is regarding the data centers that companies have been proposing all around the country. The rate that they are requesting these buildings are insane and we are unable to feasibly support them in any way, especially at this current time.

I'm sure as you know, data centers cost money, water, electricity, and anything extra to build and maintain and as a tax payer, I'm not willing to fund this. Inflation has gotten so out of hand that everything is difficult to pay for anyway. Data centers will increase the inflation to pay for them. The amount of water they are going to need to use for every response to any AI question is water thay could go to water the grass to keep the county looking nice -which over the years has been an issue due to drought regardless of data centers being build or not. Residents have had to limit water use for years to water grass and

plants due to this. Imagine how much less we will be able to use when the data center creates less water throughout the state.

I understand the benefit of the data center being useful to create jobs, but at the same time, it will take away more jobs than it already has for years to come.

WHEN CITIZENS DON'T MAKE MONEY, HOW CAN COMPANIES PROFIT?

These are questions we need to ask to be able to keep American citizens alive and we'll to be able to keep the economy strong.

Please take my comments and voice into consideration while making these decisions.

Thank you for reading,

Michele Donahue

Subject: PC Development & Community opinion incorporation

To whom it may concern,

I am a single 26 Y/O resident of PC for about 2 years now. I own my house mortage free right in one of your hot spot future development corridors (right off ridge road west extension)

I am very impressed with a plethora of your decisions. Tho our infrastructure lags, I've read through 2050 FDOT transportation plans, seen proposed widening points, connections, corridors facelifts (bravo btw with what's been done in downtown W railroad square, nicks point, and long time acquisition of waterfront land, excited to see what the future holds)

That said, AI data centers are not what the people (even the pro development youth) are looking for in Pasco county. Furthermore the meetings time constrains (1:30 PM on a word day) creates an inconvenient window for working class PC residents (only the rich can attend this meeting)——— I write this again, as a 26 Y/O FP&A analyst w/ a paid off house and no debt ——- and I still don't have the schedule flexibility to make this meeting

I ask you to consider how true of a representation of PC citizens' opinions' you can garner with a meeting at 1:30 PM on a work day.

Thank you for your regard & please let me know the consensus,

Peter Iselo

Subject: Please place a moratorium on data centers

Dear Pasco County Commissioners,

I have been a Pasco County resident since 1984 and have owned a small horse farm in Quail Hollow since 1994. I love this area and value living in one of the last semi-rural communities in Wesley Chapel.

Like many longtime residents, I am concerned about the rapid pace of development in our community and the strain it places on infrastructure, natural resources, wildlife habitat, and the character of our legacy neighborhoods. However, the prospect of large-scale data centers being built in this area raises an entirely different level of concern.

Depending on their size and cooling systems, some data centers can consume up to 1.5 million gallons of water per day. Pasco County has struggled with water shortages and declining water levels for nearly two years. Residents are routinely asked to conserve water, and restructions are placed on our usage. Data centers, however, cannot reduce their water consumption in times of drought.

In addition to their water usage, data centers require significant amounts of electricity, generate noise from cooling equipment and backup generators, and provide relatively few long-term jobs compared to the amount of land and resources

they consume. The benefits to local residents appear limited, while the costs to our community could be substantial and long-lasting.

Pasco County's growth should be balanced with responsible stewardship of our natural resources and thoughtful planning that reflects the needs and values of existing residents. Once rural land is converted to industrial use, it is gone forever. I urge you to carefully consider whether data centers are an appropriate fit for Pasco County.

Thank you for your service and for considering the concerns of those of us who have called Pasco County home for decades.

Sincerely,

Christie Gold

Subject: Please reconsider further data center development in Pasco

Dear County Commissioners,

I am writing as a concerned resident to urge you to reconsider and halt the continued development of large-scale data centers in our county.

While I understand the importance of economic development and technological growth, these projects come with significant long-term impacts that deserve greater scrutiny and public discussion. Many residents are deeply concerned about the strain data centers place on our infrastructure, including increased energy demand, water consumption, traffic, noise pollution, and environmental degradation. These facilities can also dramatically alter the character of our communities without providing proportional benefits to local residents.

Our county's growth should prioritize sustainable development that protects our natural resources, preserves quality of life, and reflects the wishes of the people who live here. Once large industrial projects like these are approved, the impacts are often permanent and difficult to reverse.

I respectfully ask the Commission to:

- Pause approvals for new data center developments
- Conduct thorough environmental and infrastructure impact studies
- Increase transparency and public engagement before future decisions are made
- Consider zoning protections for residential and conservation areas
- Prioritize development that directly benefits residents and preserves the character of our community

Please listen to the voices of the residents who will be most affected by these decisions. We care deeply about the future of our county and want thoughtful, responsible growth that serves the community for generations to come.

Thank you for your time and consideration.

Sincerely,

Skylin Spencer

Subject: Please Say No To Data Centers

Hello County and Planning Commissioners,

It has come to my attention that there has been a moratorium on new building permits, development orders, rezonings, etc. with regard to data centers in Pasco County. I commend the decision. It's easy to feel the impulse to jump at the chance to bring the kind of revenue and job creation to the county afforded by the construction of a new data center, but the sheer volume of natural resources consumed, coupled with the effects not only on the local residents in the form of noise pollution and utility consumption, but also the surrounding ecosystem and wildlife, make for a difficult cost/benefit decision to make. I am of the belief that the benefits do not outweigh the costs.

It's no secret that the recent data center boom is driven partially by the meteoric rise of AI and generative AI. It's also very publicly discussed that data centers consume gargantuan amounts of electricity and water to operate. In a 2025 report titled *Energy and AI*, the International Energy Agency (IEA) stated that,

> *"a typical AI-focused* [hyperscale data center] *annually consumes as much electricity as 100,000 households. The larger ones currently under construction are expected to use 20 times as much, the IEA predicts."*

An article from Pew Research Center cites multiple sources identifying the strain new data centers have been putting on municipal power grids across the United States, forcing providers to upgrade their equipment to compensate. American households and small businesses often have to shoulder the associated costs with their wallets via their power bill.

Similarly, a July 2025 policy brief published by the University of Michigan via their Science, Technology, and Public Policy program concluded that data centers lead to strains in the local power grid due to outsized demand (as much as 2 MWh - or as much as 2000 homes consume), in turn requiring infrastructure upgrades, with the increased costs passed to local residents in the form of higher rates to compensate. The brief also found that tax incentives for data centers do not yield the intended benefits for the local communities they are located in, nor do they bring in the kind of high-paying tech jobs that would drive further community growth. The facilities don't require many in-house employees, and the jobs they do create tend to be low-wage and non-technical (e.g. janitorial, security, and maintenance).

In closing, I don't believe that Pasco County needs the risk or headaches associated with building and powering even one data center. While the scheduled times are inconvenient for people who work full time, I look forward to the conversations that will be had at the public hearings next month in Dade City and New Port Richey.

Thank you for your time,

Derek Christian, PE

Subject: Please vote yes on MORATORIUM for data center

Dear Commissioners,

Please vote to place a moratorium on data centers for Pasco County.

These structures are catastrophic wherever they are built, and we have plenty of testimony to this point from residents across the country who already have had data centers pop up near them.

These mass surveillance centers pollute and consume vast quantities of water, hike up energy costs for every resident, consume exorbitant levels of energy, produce constant noise, and take up hundreds of acres of land per unit. They also do not bring jobs to residents.

Pasco County will be absolutely ruined for the long-term if data centers are permitted to be built.

As someone who works both in tech and in politics, I can also tell you that the bubble of these data centers will be popping very soon. They are not actually LEGAL according to our Constitution, so they have a short shelf life once the court cases begin.

Subject: Protect Pasco County Water Resources – Oppose Data Center Development

Dear Planning Commissioners and Pasco County Commissioners,

Thank you for your service to our county.

I am writing as a concerned resident and taxpayer in Pasco County to express strong opposition to the expansion and development of large-scale data centers within our county.

Across the country, communities are experiencing serious concerns related to data center development, particularly regarding water consumption, water quality, infrastructure strain, and rising utility costs. What is occurring in Morgan County, Georgia has raised significant alarm regarding the impact these facilities may have on local water systems, including concerns about water quality, pressure, access, long-term sustainability, and increased costs borne by residents.

Pasco County is already facing growth-related pressures on infrastructure and natural resources. Our drinking water and aquifer systems are not unlimited resources. Residents, families, schools, healthcare facilities, and local businesses depend on reliable access to clean and affordable water. These basic community needs must take precedence over industrial developments that may place extraordinary demands on our shared resources.

While technological growth and economic development are important, they should not come at the expense of environmental stewardship and public welfare. Before approving any data center projects, I urge county leaders to require transparent and independent studies evaluating:

- Projected water consumption and long-term sustainability
- Effects on water pressure and residential access
- Potential impacts on water quality and aquifer health
- Infrastructure and energy demands
- Long-term cost impacts to taxpayers and utility customers
- Environmental consequences and emergency resiliency concerns

I respectfully ask Pasco County leadership to take a precautionary approach and oppose or place a moratorium on data center developments until residents are fully informed and protected.

The people of Pasco County deserve responsible planning that prioritizes clean water, environmental protection, and quality of life over rapid industrial expansion.

I appreciate your attention to this matter and ask that you represent the interests of the residents who rely on you to safeguard our community and natural resources.

Sincerely,
Anna-Maria Livdal

Subject: URGENT: AI data centers

To Whom it May Concern

I am writing to express my concerns regarding the potential approval of the proposed data centers. Given the information available, there are significant worries that such a development could lead to a catastrophic outcome.

In light of this, I am curious about the reasoning behind the continued push for these projects. Is this due to a lack of complete information regarding the impact, or are there other motivations at play that outweigh these environmental and community concerns?

I urge you to seek further wisdom on this matter and find the strength to reconsider the long-term consequences of this decision.

Sincerely,

Miranda Wincek

Subject: URGENT: NO DATA CENTERS

Hello Commissioner,

I am writing to express my concerns about the planning to allow data centers in Pasco County. Allowing these dangerous and environmentally unsafe businesses to move in will negatively affect our community. As a homeowner in Pasco I am saying NO to the data centers , please stand with me and our thriving community.

Please, please do not approve anything for AI Data Centers. Studies are showing the air around a data center is not the same air you grew up breathing. Diesel backup generators — which these facilities require by the dozens or even hundreds — release fine particulate matter (PM2.5) and nitrogen oxides (NOx) linked to asthma, heart disease, and respiratory illness. Those generators emit 200 to 600 times more nitrogen oxides than natural gas plants. (World Resources Institute) At the xAI facility in Memphis, a Time Magazine investigation found that nitrogen dioxide levels in the air markedly increased from pre-data center levels in areas immediately surrounding the facility. (Sehn)The noise never stops. Internal noise levels can reach up to 96 decibels — well above the 85 dB threshold considered harmful to human hearing. (PubMed Central) Neighbors near a Virginia facility described sound levels of 90 decibels at their homes. One resident said he can no longer open his windows. Another put mattresses against the glass to block it out. The light

from hyperscale facilities runs all night, disrupting the natural circadian rhythms of the body — including melatonin production and sleep-wake cycles. (EHP) Sleep disruption. Chronic stress. Hearing loss. These aren't hypotheticals. They are documented outcomes in communities that said yes before they understood what they were saying yes to.

WITHIN A MILE: The land changes. The average data center site in 2024 covered about 224 acres — roughly 450 football fields — a 144% increase in footprint since 2022. (World Resources Institute) Farmland gone. Forests cleared. Viewsheds destroyed. The water starts disappearing. A mid-sized data center uses roughly 300,000 gallons of water per day — the same as 1,000 homes. (Nixon Peabody) Between 80 and 90 percent of that water comes from surface water or groundwater — often the same sources your tap water comes from. (Fwpcoa) Most of it evaporates in the cooling towers and never comes back. Wildlife starts acting differently. Researchers describe data centers as potential "sensory danger zones" — places where light and noise exceed the thresholds at which there are measurable fitness consequences for species. (National Wildlife Federation) Animal communication breaks down. Migration patterns shift. Nesting fails.

MILES AWAY — AND DOWNSTREAM: The water table doesn't stop at the property line. Heavy reliance on groundwater can lead to aquifer depletion that threatens ecosystems and diminishes long-term water availability for surrounding communities — not just those next door. (Waterplan)The power plants that feed these facilities pollute far beyond the data center itself. Datacenters rely heavily on energy from large-scale power plants — facilities now increasingly co-located with data centers to avoid delays in grid upgrades. (arXiv) Whatever that plant burns, your airshed absorbs. A September 2025 study found that air pollutants from data center operations increase rates of respiratory diseases and cardiovascular conditions, and elevate cancer risks among nearby communities. (EHP)THIS IS PENNSYLVANIA RIGHT NOW. From Penn Forest Township to Kline Township to Salem Township to Archbald Borough — proposals are moving. Permits are being filed. Ordinances are being written or ignored. The research is clear. The damage is real. The question is whether your municipality is asking the hard questions before the ground gets broken — or after. You deserve to know what's being built next to OUR WATER, OUR AIR and OUR LAND. PLEASE HEAR OUR VOICES.

Weightman ; Kathryn Starkey ; Lisa Yeager ; Jack Mariano ; Charles Grey ; Jamie P. Girardi Subject: We said NO. Good day, hopefully with many more ahead. We the people, do not accept data centers as a whole nor in our community. We have seen what these things do to the water, the noise pollution, and the fact that the government just loves to stick them in low income areas - while I do not live in a poverty ridden area, no longer are we standing by and watching our rights be stripped away and our concerns ignored. It seems these days the government thinks because they pulled a fast one here or there that their constituents are mentally incapable. I want to make something very clear, everyone is opening their eyes. From the FLOCK cameras to this bs. Our government on a local level is almost our last layer of protection from an eroding democracy. We do not want mass fucking surveillance nor the data centers that support them. No moratorium, no “we need to review the data”, NO. A firm fucking no. Then again, I’m sure donations and contributions have been made by these big corporations. But guys trust me where this is headed money won’t matter and bureaucrats won’t be welcomed because they’ll be the reason why we had to revisit the day this country was founded. Get me? I’ve lived here my whole life. I’ve watched one of you contribute to fucking up the nature preserve area already *cough* but this is a whole other level of fuckery guys. Stand for something or die for nothing they say, where are you all at in this? Fuck the moratorium, ban the fucking Data centers for the next decade so our kids can actually grow up in a state that isn’t turned to shit. Sent from my iPhone

Subject: Support for Moratorium on Data Centers in Pasco County

Dear Pasco County Planning Commissioners and Members of the Board of County Commissioners,

I am writing as a Pasco County resident to express my strong support for the proposed temporary moratorium on new data centers and other large-scale electricity users in unincorporated Pasco County.

As someone who lives and works in this region, I have seen firsthand how rapidly our community is growing. With that growth comes an increased responsibility to protect our natural resources, infrastructure, and quality of life. The proposed ordinance (temporarily halting the submission and approval of applications related to data centers and other major electricity users) is a prudent, proactive step to ensure that development in Pasco County remains thoughtful, sustainable, and aligned with the needs of its residents.

This moratorium is necessary as data centers are infrastructure-intensive facilities that can pose significant challenges to local communities:

- **Extremely high electricity consumption:** Data centers already account for a meaningful and growing share of U.S. electricity demand, which can place strain on local grids and contribute to increased energy costs for residents.
- **Substantial water use:** Large facilities may consume millions of gallons of water per day for cooling, placing stress on local water resources — an important concern in Florida, where water conservation is critical.
- **Noise and heat impacts:** These facilities operate 24/7, producing continuous mechanical noise and heat that may affect nearby neighborhoods and disrupt the character of residential and rural areas.

- **Land use and habitat disruption:** Data center campuses often require clearing large areas of land, potentially impacting wetlands, wildlife habitats, and green space that are vital to Pasco County's environmental health.
- **Strain on infrastructure and services:** Increased demand on roads, utilities, and emergency services may not be accompanied by proportional long-term benefits to the community.

Across the country, communities are increasingly pausing new data center development to better understand these impacts and ensure responsible planning.

Pasco County is not just a place of development, it is a community made up of families, working professionals, students, and retirees who value access to green space, clean water, and livable neighborhoods.

As residents, we are already navigating rapid population growth and increased development, rising demands on traffic infrastructure and utilities, and ongoing concerns about water conservation and environmental preservation.

Introducing large-scale, resource-intensive developments without a comprehensive understanding of their long-term impacts risks compounding these challenges.

A temporary moratorium provides the County with the time needed to evaluate the long-term sustainability of water use, assess impacts on electrical grid capacity and cost to residents, ensure compatibility with surrounding land uses and neighborhoods, and develop clear regulations that protect both economic growth and community well-being.

A moratorium is not a permanent prohibition, it is a responsible pause. It allows Pasco County to be intentional rather than reactive in planning for emerging industries. Decisions made today will shape the character, affordability, and livability of our community for decades to come.

As a resident invested in the future of Pasco County, I respectfully urge the Planning Commission and Board of County Commissioners to approve and uphold the proposed moratorium on data centers and major electricity users.

This action reflects thoughtful leadership and a commitment to balancing growth with sustainability, protecting our shared resources, and preserving the quality of life that makes Pasco County a desirable place to live.

Thank you for your time, your service, and your continued dedication to our community.

Sincerely,

Raena Steffen, 26000 Bayhead Rd, Dade City, FL 33523

To: Kathryn Starkey <kstarkey@pascocountyfl.net>
Subject: Data Center Concerns

Dear Commissioner Kathryn Starkey,

I am a Pasco county resident writing to urge you to support a full moratorium on all data center development in out county, effective immediately.

Data centers place enormous and unsustainable demands on our water supply, our environment, and our power grid. A single large facility can consume as much electricity as 80,000 homes and millions of gallons of water daily-straining our aquifers and driving up utility rates for Pasco County families who did not ask to subsidize big tech's infrastructure. Data centers increase harm for respiratory diseases as well as increase environmental racism's effects on communities of people of color.

I urge you to use the public hearings on June 11th and June 16th to take decisive action: Impose a full moratorium on all new data center development until a comprehensive environmental impact assessment has been completed and the community has been meaningfully consulted.

Out county deserves a voice in decisions that will shape out water, power, and our environment for decades.

Thank you,
Leidy Gonzalez

Subject: Request for Careful Consideration of Proposed Data Centers

To the Pasco County Board of County Commissioners and Planning Commission,

I am writing as a concerned resident of Pasco County regarding the proposed development of additional data centers within our community.

While I understand that data centers are often promoted as economic development opportunities, I do not believe they represent the best use of Pasco County's land, infrastructure, or natural resources. The long-term impacts on our community deserve careful consideration before approving additional projects.

My concerns include:

• Significant electricity demand that may place additional strain on regional power infrastructure.

• Large water consumption requirements for cooling systems, particularly during a time when Florida communities must carefully manage water resources.

• Industrial-scale development that permanently alters land that could otherwise support housing, local businesses, conservation efforts, parks, or agriculture.

• Limited long-term job creation compared to the amount of land and resources consumed. Many data centers create construction jobs initially but employ relatively few permanent workers once operational.

• Potential noise, traffic, and visual impacts affecting nearby neighborhoods and property owners.

• Uncertainty regarding whether the public benefits justify any incentives, infrastructure investments, or land-use changes required to support these facilities.

Pasco County is growing rapidly, and the decisions made today will shape our community for generations. I encourage the Board and Planning Commission to prioritize developments that provide substantial local employment, support small businesses, protect our natural resources, and enhance the quality of life for residents.

As a resident of this beautiful county that a beautiful balance of community and nature, and as Florida's wildlife and infrastructure is already impacted by the expansion and population growth occurring, I deeply ask to consider saying NO to the development of data centers in this county.

I respectfully request that you carefully evaluate whether additional data centers truly serve the long-term interests of Pasco County and its residents before approving future projects.

Thank you for your time, consideration, and service to our community.

Sincerely,

Taylor Woods
Pasco County Resident

To: Kathryn Starkey <kstarkey@pascocountyfl.net>
Subject: NO TO DATA CENTER IN PASCO OR IN ANY FLORIDA COUNTY

No to Data Centers. No 1 year pause. Just deny for ANY future plans. Too much development ALREADY destroyed this county.

Subject: Public Comment: Data Center Moratorium

Dear Commissioners and Planning Commission Members,

I am a resident of Pasco County and, although I am unable to attend the upcoming public hearing in person, I would like to submit my comments by email in lieu of appearing before you.

I respectfully urge you to vote in favor of the proposed temporary moratorium on new data centers and other large-scale electricity users.

This moratorium is not a ban on future development. Rather, it provides the County with an opportunity to carefully evaluate the potential impacts these facilities may have on our electrical infrastructure, water resources, land use planning, transportation networks, and quality of life before additional projects are approved.

As Pasco County continues to grow, it is important that decisions of this magnitude are made with a full understanding of their long-term consequences. Taking the time to study these issues now is a prudent and responsible approach that protects both current residents and future generations.

Thank you for your service to our community and for supporting a thoughtful, data-driven review process by approving the proposed moratorium.

Sincerely,

Anthony Cicanese
San Antonio, Florida

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** CC26-0006 **DATE:** 6/16/2026

SUBJECT: An Ordinance By The Board Of County Commissioners Of Pasco County, Florida, Providing For The Amendment Of Chapter 18, Article IX Foreclosure Registry/Real Property Registration System, Sections 18-152 Definitions And 18-154 Maintenance Requirements, Pasco County Code Of Ordinances; Providing For Modification; Repealer; Severability; Inclusion Into The Pasco County Code Of Ordinances; And An Effective Date.

REFERENCES: Ordinance No. 10-49; Ordinance No. 15-14

AGENDA SECTION: Public Hearings

THRU: David Allen, Assistant County Administrator

FROM: Denise Sanderson, Director of Code Compliance

RECOMMENDED BOARD ACTION:

Accept public comment on the amendments to Chapter 18, Article IX. Adopt the Ordinance by roll call vote, authorize the execution of the Ordinance by the Chairman and direct Board Records to transmit the Ordinance to the Department of State by electronic mail within ten (10) days of the adoption of the Ordinance.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

For purposes of Chapter 18, Article IX, local agents must be located within the boundaries of Pasco County, Florida. The proposed amendments will expand the list of counties that are considered local for the purpose of local agent registration. The proposed ordinance amends the definition of local to include counties that border Pasco County: Pinellas County, Hernando County, Hillsborough County, Polk County, and Sumter County.

FISCAL IMPACT/COST/REVENUE STATEMENT:

Funding is not required for this action. In accordance with Section125.66(3)(a), F.S. a Business Impact Estimate (BIE) was prepared for the proposed ordinance amendments. Consistent with the posting requirement set forth in Section 125.66(3)(a), F.S., the County published the BIE information for this proposed ordinance on the County website for public viewing and consideration on April 29, 2026.

DISTRIBUTION:

Board Records to distribute as set forth below:
1. Retain One Original.

ATTACHMENT(S):

1. CC26-0006 Proposed Ordinance
2. CC26-0006 Business Impact Estimate Form
3. CC26-0006 Proof of Publication

BOARD OF COUNTY COMMISSIONERS **ORDINANCE NO. _____**

AN ORDINANCE BY THE BOARD OF COUNTY COMMISSIONERS OF PASCO COUNTY, FLORIDA, PROVIDING FOR THE AMENDMENT OF CHAPTER 18, ARTICLE IX FORECLOSURE REGISTRY/REAL PROPERTY REGISTRATION SYSTEM, SECTIONS 18-152 DEFINITIONS AND 18-154 MAINTENANCE REQUIREMENTS, PASCO COUNTY CODE OF ORDINANCES; PROVIDING FOR MODIFICATION; REPEALER; SEVERABILITY; INCLUSION INTO THE PASCO COUNTY CODE OF ORDINANCES; AND AN EFFECTIVE DATE.

WHEREAS, Chapter 18, Article IX of the Pasco County Code of Ordinances requires certain properties with filings of foreclosure to be registered with Pasco County by owners and mortgagees; and

WHEREAS, registration requires owners and mortgagees to certify the property has been inspected within the preceding thirty (30) days and whether the property was found to be abandoned, vacant or showed evidence of vacancy; and

WHEREAS, certain minor changes to Chapter 18, Article IX of the Pasco County Code of Ordinances are required to clarify the definition of local as it pertains to a local agent.

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Pasco County, Florida, as follows:

Section 1. Recitals.

The foregoing whereas clauses are true and correct and are incorporated herein.

Section 3. Chapter 18, Article IX, Section 18-152 and Section 18-154

Section 18-152 and Section 18-154 are amended to read:

Sec. 18-152. - Definitions.

For the purpose of this article, the following definitions shall apply unless the context clearly indicates and requires a different meaning:

Abandoned real property means any real property in unincorporated Pasco County that (1) is vacant or shows evidence of vacancy, and (2) is the subject of a lis pendens, a foreclosure action or proceeding, a foreclosure sale where the title was retained by the mortgagee involved in the foreclosure, and/or has been transferred under a deed in lieu of foreclosure or sale to the mortgagee or any company, trust, or entity in which the mortgagee has a financial interest.

Code enforcement officer or inspector means any authorized agent or employee of Pasco

County whose duty it is to assure code compliance.

County means Pasco County, Florida.

Days means consecutive calendar days.

Evidence of vacancy means any condition that on its own, or combined with other conditions present would lead a reasonable person to believe that the property is vacant. Such conditions may include, but not be limited to, overgrown and/or dead vegetation, electricity/water/other utilities turned off, a stagnant or green swimming pool, statements by neighbors/passers-by/delivery agents or government agents, lack of response to notices, returned or forwarded mail, unsecured doors, absence of, or condition of, personal belongings on the property, habitation by vagrants/transients/trespassers, etc.

Foreclosure means the legal process by which a parcel, tract, lot or other defined area of real property, placed as security for a real estate loan, is prepared for sale by the lender/mortgagee to satisfy the debt if the borrower/mortgagor defaults. This definition shall include all processes, activities and actions, by whatever name, associated with the described process.

Local means within the boundaries of Pasco County**, Pinellas County, Hernando County, Hillsborough County, Polk County, and Sumter County**, Florida.

Local agent means the agent designated by the mortgagee upon registration as required under this article. The local agent or its employee must be able to be located and served at a local address during a majority of the regular working week (8:00 a.m. to 5:00 p.m. Monday through Friday).

Mortgagee means the creditor, including, but not limited to, trustees; service companies; lenders in a mortgage agreement; any agent, servant, or employee of the creditor; any successor in interest; or any assignee of the creditor's rights, interests or obligations under the mortgage agreement. This includes any company, trust, or entity in which the mortgagee has a financial interest. For purposes of this article only, the term "mortgagee" does not apply to governmental entities (including HUD, Fannie Mae, and Freddie Mac), civic associations, HOAs, and/or CDDs.

Owner means every person, entity, or service company, who alone or severally with others:

(1) Has legal or equitable title to any dwelling, dwelling unit, mobile dwelling unit, building, structure, or parcel of land, vacant or otherwise, including a mobile home park; or

(2) Has, or has exercised, care, charge or control of any dwelling, dwelling unit, mobile dwelling unit, building, structure or parcel of land, vacant or otherwise, including a mobile home park, in any capacity including, but not limited to, agent, executor, executrix, administrator, administratix, trustee or guardian of the estate of the holder of legal title; changing of locks or service of paperwork directing occupants to vacate the premises is prima facie evidence of the exercise of care, charge, or control of any dwelling; or

(3) Is a mortgagee in possession of any such property; or

(4) Is an agent, trustee or other person appointed by the courts and vested with possession or control of any such property; or

(5) After a property subject to registration is sold, or the lis pendens and foreclosure action is terminated, a former mortgagee (or any company, trust, or entity in which the former mortgagee has a financial interest) that obtains possession, ownership, and/or control of the property.

Property means any real property, or portion thereof, located in unincorporated Pasco County, including building or structures situated on the property. For purposes of this article only, property does not include property owned or subject to the control of the county or any of its governmental bodies.

Securing means any measures that assist in making the property inaccessible to unauthorized persons.

Vacant means any building, structure or property that is not legally occupied.

Sec. 18-154. - Maintenance requirements.

(a) All owners of properties which are abandoned real property, vacant, or show evidence of vacancy, are responsible for maintaining the properties in accordance with the provisions of this article and all other applicable Pasco County codes and ordinances.

(b) If the owner of the property is not a natural person physically residing on the property, the owner shall contract with a local agent to perform monthly inspections on the property and to

verify compliance with the requirements of this article and any other applicable laws. The local agent shall be empowered to accept service of warnings, citations, and other legal process for the owner if the owner is not a natural person physically residing on the property.

(c) Abandoned real property, vacant property, and property showing evidence of vacancy must be maintained by owners to meet the standards in the county's minimum housing codes located in chapter 18 of the Pasco County Code of Ordinances, and to comply with ~~local~~ regulations concerning external and/or visible maintenance. These ordinances include section 42-1 of the Pasco County Code of Ordinances (Overgrown conditions and related public safety violations), section 106-54 of the Pasco County Code of Ordinances (outdoor storage of inoperative, unregistered, abandoned, or wrecked vehicles on any property prohibited), and sections of the Land Development Code pertaining to accumulation of debris; property maintenance; fences and walls. Pools must be maintained in accordance with chapter 18 of the Pasco County Code of Ordinances.

(d) Compliance with this article does not relieve the owner of any applicable obligations set forth elsewhere in the Pasco County Code of Ordinances, the Pasco County Land Development Code, or within any covenants, conditions and restrictions and/or homeowner's association rules and regulations.

Section 4. Repealer.

Any ordinance, or part of any ordinance, in conflict herewith is hereby repealed to the extent of any conflict.

Section 5. Severability.

It is declared to the intent of the Board of County Commissioners that if any section, subsection, sentence, clause, or provision of this Ordinance shall be declared invalid, the remainder of this Ordinance shall be construed as not having contained said section, subsection, clause, or provision and shall not be affected by such holding.

Section 6. Inclusion into the Pasco County Code of Ordinances.

It is the intent of the Board of County Commissioners that the provisions of this Ordinance shall become

and be made part of the Pasco County Code of Ordinances.

Section 7. Effective Date.

This Ordinance shall be transmitted to the Department of State by the Clerk to the Board by electronic mail within ten (10) days after adoption of this Ordinance, and this Ordinance shall take effect upon confirmation by the Department of State of its receipt.

ADOPTED with a quorum present and voting this 16th day of June 2026.

(SEAL)

BOARD OF COUNTY COMMISSIONERS
OF PASCO COUNTY, FLORIDA

ATTEST:

NIKKI ALVAREZ-SOWLES, ESQ
PASCO COUNTY CLERK & COMPTROLLER

JACK MARIANO, CHAIRMAN

Business Impact Estimate

Consistent with the posting requirement set forth in Section 125.66(3)(a), F.S., the County hereby publishes the following BIE information for this proposed ordinance on its website for public viewing and consideration on this 29th day of April, 2026:

Proposed ordinance's title/reference:

An Ordinance By The Board Of County Commissioners Of Pasco County, Florida, Providing For The Amendment Of Chapter 18, Article IX Foreclosure Registry/Real Property Registration System, Sections 18-152 Definitions And 18-154 Maintenance Requirements, Pasco County Code Of Ordinances; Providing For Modification; Repealer; Severability; Inclusion Into The Pasco County Code Of Ordinances; And An Effective Date.

1. Summary of the proposed ordinance (must include a statement of the public purpose, such as serving the public health, safety, morals and welfare):

Chapter 18 Article IX, Foreclosure Registry/Real Property Registration, of the Pasco County Code of Ordinances is being amended to expand the list of Counties that are considered local for the purpose of local agent registration. This expands the list beyond solely Pasco County to counties that border Pasco County: Pinellas County, Hernando County, Hillsborough County, Polk County, and Sumter County.

It is the intent and purpose of the Foreclosure Registry/Real Property Registration to protect and preserve public safety, security, and quiet enjoyment of abutters and neighborhoods by (i) identifying vacant and abandoned properties; (ii) requiring all mortgagees, including lenders, trustees, and service companies, to register properties that have been foreclosed upon or are the subject of foreclosure actions or proceedings and to identify whether such properties are abandoned, vacant, or show evidence of vacancy; and (iii) regulating the inspection, security, and maintenance of abandoned properties that have been foreclosed upon or are the subject of foreclosure actions or proceedings, to prevent blighted and unsecured residences.

Expanding the list of those who may register furthers this intent and purpose.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in Pasco County, if any:

(a) An estimate of direct compliance costs that businesses may reasonably incur;

The amendments will expand the list of parties that may serve as local agents (local individual or local property management company) as the party(ies) responsible for inspecting the property in accordance with this Foreclosure Registry/Real Property Registration, for the security and maintenance of the property, and for timely updates of the registration.

The proposed amendments do not increase the direct compliance costs as new or increased fees are not being proposed.
(b) Any new charge or fee imposed by the proposed ordinance or for which businesses will be financially responsible; and The amendments do not create a new charge or fee.
(c) An estimate of Pasco County's regulatory costs, including estimated revenues from any new charges or fees to cover such costs. None

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

The proposed ordinance is a generally applicable ordinance that applies to all persons similarly situated (individuals as well as businesses) that invoke the sections of the Pasco County Code of Ordinances amended by this Ordinance and, therefore, the proposed ordinance does not affect only businesses.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** SPS26-0055 **DATE:** 6/16/2026

SUBJECT: An Ordinance By The Board of County Commissioners Of Pasco County, Florida, Providing For The Amendment Of Chapter 94, Article IV, Pasco County Local Provider Participation Fund; Providing For Modification; Repealer; Severability; Inclusion Into The Pasco County Code Of Ordinances; And An Effective Date.

REFERENCES: SB2500; SPS24-0012; SPS24-0021; SPS25-0039

AGENDA SECTION: Public Hearings

THRU: Catherine Pearson, Assistant County Administrator

FROM: Paula Baracaldo, Support Services Director

RECOMMENDED BOARD ACTION:

Accept public comment on the amendments to Chapter 94, Article IV. Adopt the Ordinance amending Chapter 94, Article IV, by roll call vote; authorize the Chairman to execute the Ordinance, and direct Board Records to retain the original and to transmit the Ordinance to the Department of State by electronic mail within ten (10) days after adoption of the Ordinance.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

The formal introduction of this Ordinance amendment was waived, and the Board of County Commissioners (BCC) was briefed on this amendment on June 2, 2026.

Hospitals in Pasco County annually provide millions of dollars of uncompensated care to persons who qualify for Medicaid. The hospitals report that on average, Medicaid typically only covers 61% of the costs of the healthcare services actually provided by hospitals to Medicaid-eligible persons, leaving hospitals with significant uncompensated costs. The Centers for Medicare & Medicaid Services (CMS) Medicaid managed care regulations at 42 C.F.R Part 438 govern how states may direct plan expenditures in connection with implementing delivery system and provider payment initiatives under Medicaid managed care contracts. In November 2017, CMS published guidance for states to obtain approval of state-directed payments under 42 C.F.R. § 438.6(c). The State of Florida received CMS approval of its proposal for its directed payment program arrangement on April 26, 2021. The non-federal share of the program will be obtained through the proposed non-ad valorem assessments to be levied on each participating private hospital.

On August 6, 2024, the BCC adopted Ordinance 24-36, establishing the Pasco County Local Provider Participation Fund (LPPF). The LPPF Ordinance requires the hospitals located in the Agency for Health Care Administration's (AHCA) Region C (formerly Region 5), which is Pasco County, to pay a uniform, non-ad valorem special assessment, set annually by resolution by the BCC, on hospitals that have an ownership or leasehold interest in real property in Pasco County.

In 2025, Congress passed the One Big Beautiful Bill Act (OBBBA), a transformational piece of legislation for the Medicaid landscape. The Bill (OBBBA) affected how states can finance Medicaid programs and what opportunities remain available for the future.

Florida is now seeking waivers to exempt certain facilities from the provider taxes in 19 local jurisdictions across the state. If CMS grants the waivers, the exempt facilities will no longer be subject to the assessment. While the state and CMS continue to negotiate these waivers, Pasco County should alter the current ordinance language to prepare for the possible exemptions. The amended language addresses the new quality incentive program, the exemption of waiver facilities, and clearly identifies the authorized purposes and programs qualifying under the DPP, as an outcome of the federal changes implemented through the OBBBA.

The Support Services Department recommends adoption of the amended Ordinance. In addition, according to Resolution 25-272, Section 4.2, the County will be compensated for administrative costs associated with this program, in an amount not to exceed $150,000.00, per the administration fee provision of the LPPF Ordinance. No additional County funds will be required.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding is not required for this action.

DISTRIBUTION:
Board Records to distribute as set forth below:

1.Retain the one original Ordinance.

2. Electronically to:
a. Erik Wangsness, AdventHealth - AdventHealth Wesley Chapel – erik.wangsness@adventhealth.com<>>
b. Mike Murrill, AdventHealth - AdventHealth Zephyrhills, Dade City and Connerton – mike.murrill@adventhealth.com<>>

BOARD OF COUNTY COMMISSIONERS **ORDINANCE NO._____**

AN ORDINANCE BY THE BOARD OF COUNTY COMMISSIONERS OF PASCO COUNTY, FLORIDA, PROVIDING FOR THE AMENDMENT OF CHAPTER 94, ARTICLE IV, PASCO COUNTY LOCAL PROVIDER PARTICIPATION FUND; PROVIDING FOR MODIFICATION; REPEALER; SEVERABILITY; INCLUSION INTO THE PASCO COUNTY CODE OF ORDNANCES; AND AN EFFECTIVE DATE.

WHEREAS, the hospitals in Pasco County's jurisdiction (the "Hospitals") annually provide millions of dollars of uncompensated care to those who qualify for Medicaid because Medicaid, on average, historically covers only 61% of the costs of the health-care services actually provided by Hospitals to Medicaid-eligible persons, leaving Hospitals with significant uncompensated costs; and

WHEREAS, the State of Florida (the "State") operates several supplemental payment programs designed to provide reimbursement to cover the Medicaid reimbursement shortfall, to provide resources to support charity care, and to ensure improvements in quality of care; and

WHEREAS, certain non-public Hospitals have asked Pasco County (the "County") to impose assessments upon certain real property upon which Hospitals operate to help finance the non-federal share of the State's Medicaid program; and

WHEREAS, the only properties to be assessed are the real property sites of such Hospitals; and

WHEREAS, the funding raised by the County assessments will, through intergovernmental transfers ("IGTs") consistent with federal guidelines, support additional funding for Medicaid supplemental payments to Hospitals; and

WHEREAS, the County acknowledges that the Hospital properties assessed can benefit directly and especially from the assessments as a result of the above-described additional funding; and

WHEREAS, the County has determined that a logical relationship exists between the services provided and the special and particular benefit to the real property upon which the Hospitals operate; and

WHEREAS, the County has an interest in promoting access to healthcare for its low-income and uninsured residents; and

WHEREAS, leveraging additional federal support through the above-described IGTs to fund supplemental payments to the Hospitals for healthcare services directly and specifically benefits the properties upon which Hospitals operate and supports their continued ability to provide those services; and

WHEREAS, imposing assessments limited to the properties upon which the Hospitals operate to help fund the provision of these services and the achievement of certain quality

standards by the Hospitals to residents of the County is a valid public purpose that benefits the health, safety, and welfare of the citizens of the County; and

WHEREAS, the assessments support the financial stability and viability of the Hospitals providing such services; and

WHEREAS, the Hospitals are important contributors to the overall County's economy, and the financial benefit to these Hospitals directly and specifically supports their mission, as well as their ability to grow, expand, and maintain their facilities in concert with the population growth in the jurisdiction of the County; and

WHEREAS, the County finds that the assessments will enhance the Hospitals' ability to grow, expand, maintain, improve, and increase the value of their properties and facilities under all present circumstances and those of the foreseeable future; and

WHEREAS, the County is proposing properly apportioned assessments by which certain Hospitals will be assessed a uniform amount that is compliant with 42 C.F.R. § 433.68(d); and

WHEREAS, the County adopts this Ordinance enabling the County to levy uniform non-ad valorem special assessments, which are fairly and reasonably apportioned among the properties upon which Hospitals operate within the County's jurisdictional limits, to establish and maintain a system of funding for IGTs to support the non-federal share of Medicaid supplemental payments, thus directly and specially benefitting properties upon which Hospitals operate.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF PASCO COUNTY, FLORIDA:

SECTION 1. RECITALS.

The foregoing whereas clauses are true and correct and are incorporated herein.

SECTION 2. CHAPTER 94, ARTICLE IV – PASCO COUNTY LOCAL PROVIDER PARTICIPATION FUND, AMENDED.

Chapter 94, Article IV, of the Pasco County Code, is hereby amended to read:

ARTICLE IV. PASCO COUNTY LOCAL PROVIDER PARTICIPATION FUND

Sec. 94-77. - Title.

This Article IV shall be known and may be cited as the "Pasco County Local Provider Participation Fund Ordinance."

Sec. 94-78. - Authority.

Pursuant to Article VIII, Section 1(f) of the Constitution of the State of Florida, and Chapter 125 of the Florida Statutes, the Board is hereby authorized to impose special assessments against

certain private for-profit and not-for-profit hospitals located within the County to fund the non-federal share of supplemental payments associated with Local Services.

Sec. 94-79. - Purpose.

The non-ad valorem special assessments authorized by this article shall be imposed, levied, collected, and enforced against Assessed Properties located within the County. Proceeds from the Assessments shall be used to benefit Assessed Properties through supplemental payments for Local Services. When imposed, the Assessments shall constitute liens upon the Assessed Properties equal in rank and dignity with the liens of all state, county, district, or municipal taxes and other non-ad valorem assessments. Failure to pay may cause foreclosure proceedings, which could result in loss of title, to commence. The Assessments shall be computed and assessed only in the manner provided in this Ordinance.

Sec. 94-80. - Alternative Method.

This Ordinance shall be deemed to provide an additional and alternative method, as specified in § 197.3631, Fla. Stat., for the assessment and collection of the non-ad valorem special assessments described herein. The Ordinance shall be regarded as supplemental and additional to powers conferred by other laws and shall not be regarded as in derogation of any powers now existing, or which may exist in the future. This Ordinance, being necessary for the health, safety, and welfare of the inhabitants of the County, shall be liberally construed to effectuate the purposes hereof.

Sec. 94-81. - Definitions.

When used in this Ordinance, the following terms shall have the following meanings, unless the context clearly requires otherwise:

Assessed Property means the real property in the County to which an Institutional Health Care Provider holds a right of possession and right of use through an ownership or leasehold interest, thus making the property subject to the Assessments.

Assessments mean the non-ad valorem special assessments imposed by the County on Assessed Property to fund the non-federal share of supplemental payments that will benefit hospitals providing Local Services.

Assessment Resolutions mean the resolutions described in Section 94-85 hereof.

Board means the Board of County Commissioners of Pasco County, Florida.

Comptroller means the Pasco County Comptroller, *ex officio* Clerk to the Board, or other such person as may be duly authorized to act on such person's behalf.

County means Pasco County, Florida.

Fiscal Year means the period commencing on October 1 of each year and continuing through the next succeeding September 30, or such other period as may be prescribed by law as the fiscal year for the County.

Institutional Health Care Provider means a **licensed** private for-profit or not-for-profit hospital that provides inpatient hospital services**, unless the Centers for Medicare and Medicaid Services (CMS) exempts the hospital through an approved or pending health care tax waiver**.

Local Services means the provision of health care services to Medicaid, indigent, and uninsured members of the Pasco County community and surrounding area.

Local Provider Participation Fund means a separate, custodial or other fund account into which funds collected from the Non-Ad Valorem assessments are deposited for the specific purpose of supporting the IGTs in execution of this program.

Non-Ad Valorem Assessment Rolls means the special assessment rolls prepared by the County.

Ordinance means the Pasco County Local Provider Participation Fund Ordinance.

Supplemental Payments **means funding received through the Directed Payment Program, the Low Income Pool, and any other supplemental or managed care quality incentive program or arrangement authorized by CMS and expressly designated in an assessment resolution described in Section 94-85 hereof.**

Tax Collector means the Pasco County Tax Collector.

Sec. 94-82. - Interpretation.

Unless the context indicates otherwise, the terms "hereof," "hereby," "herein," "hereto," "hereunder" and similar terms refer to this Article. The term "hereafter" means after, and the term "heretofore" means before the effective date of the Ordinance.

Sec. 94-83. - Scope of Assessments.

Pursuant to § 125.01, Fla. Stat., the Board is hereby authorized to create non-ad valorem special assessments that shall be imposed, levied, collected, and enforced against Assessed Property to fund the non-federal share of supplemental payments benefitting Assessed Properties providing Local Services in the County. Funds generated as a result of the Assessments shall be held in a custodial or other fund account, as required and established by this ordinance for the purpose of supporting this program, called the Local Provider Participation Fund, and shall be available to be used only to (1) provide to the Florida Agency for Health Care Administration the non-federal share for supplemental payments to be made directly or indirectly in support of hospitals serving low-income, Medicaid, and uninsured patients and (2) reimburse the County for administrative costs associated with the implementation of the Assessments authorized by this Ordinance, as further specified in the Assessment Resolutions.

The Assessments must **comport with federal and state requirements for health care-related assessments** ~~be broad based, and the amount of the Assessments must be uniformly imposed on each Assessed Property~~. The Assessments may not hold harmless any Institutional Health Care Provider, as required under 42 U.S.C. § 1396b(w). As set forth in Section 94-79, the Assessments shall constitute a lien upon the Assessed Properties equal in rank and dignity with the liens of all state, county, district, or municipal taxes and other non-ad valorem assessments. In addition to

other remedies available at law or equity, the enforcement of the aforesaid Assessments shall be at the same time and in like manner as ad valorem taxes and subject to all ad valorem tax enforcement procedures afforded to the official annual real property tax notice.

Creation and implementation of the Assessments will not result in any additional pecuniary obligation on the County, Board, or County residents. The Assessments shall be imposed, levied, collected, and enforced against only Assessed Properties, and the Assessment Resolutions shall provide that the County's administrative costs shall be reimbursed from the collected amounts. The County's administrative costs shall not exceed $150,000, unless amended by Resolution by the Board in accordance with State and Federal law. Any reasonable expenses the County incurs to collect delinquent assessments in support of this program, including any attorney's fees incurred as a result of contracting with an attorney to represent the county in seeking and enforcing the collection of delinquent assessments or other legal matters as a result of this program, are not subject to the limitation on administrative costs.

The Board may establish a designee to carry out the administration and execution of the Assessments. The designee may establish administrative rules and procedures to effectively carry out the program consistent with the Ordinance and Assessment Resolutions.

Sec. 94-84. – Computation of Assessments.

The annual Assessments shall be specified for each Assessed Property. The Board shall set the Assessments in amounts that in the aggregate will generate sufficient revenue to fund the non-federal share of supplemental payments associated with Local Services to be funded by the Assessments.

The amount of the Assessments required of each Assessed Property may not exceed an amount that, when added to the amount of other hospital assessments levied by the state or local government, exceeds the maximum percent of the aggregate net patient revenue of all Assessed Hospitals in the **State** ~~County~~ permitted by 42 C.F.R. § 433.68(f)(3)(i)(A). Assessments for each Assessed Property will be derived from data contained in hospital cost reports and/or the Florida Hospital Uniform Reporting System, as available from the Florida Agency for Health Care Administration.

Sec. 94-85. – Assessment Resolutions.

The Assessment Resolutions shall describe (a) the supplemental payments proposed for funding from proceeds of the Assessments; (b) the benefits to the Assessment Properties associated with the Assessments; (c) the methodology for computing the assessed amounts; and (d) the method of collection, including how and when the Assessments are to be paid.

Sec. 94-86. – Non-Ad Valorem Assessment Roll.

The Non-Ad Valorem Assessment Rolls shall contain the following:

a) The names and addresses of the Assessed Properties; and

b) The Assessment rates and amount of the Assessments to be imposed against each Assessed Property based on the Assessment Resolutions.

The Non-Ad Valorem Assessment Rolls shall be retained by the Board or a designee of the Board and shall be open to public inspection. The foregoing shall not be construed to require that the Assessment Rolls be in printed form if the amount of the Assessments for each Assessed Property can be determined by use of a computer terminal available to the public.

Sec. 94-87. - Notice by Publication.

Notice shall be published once in a newspaper of general circulation within the County stating that the Board, at a regular, adjourned, or special meeting on a certain day and hour, not earlier than 20 calendar days from such publication, will hear objections of all interested persons to approve the Assessments. Such notice shall include:

a) The Assessment rates;
b) The procedure for objecting to the Assessment rates;
c) The method by which the Assessments will be collected; and
d) A statement that Non-Ad Valorem Special Assessment Rolls are available for public inspection.

Sec. 94-88. - Notice by Mail.

In addition to the published notice required by Section 94-87, the Board or a designee of the Board shall provide notice of the proposed Assessments by first-class mail to the Assessed Properties. Such notice shall include:

a) The purpose of the Assessments;
b) The Assessment rates to be levied against each Assessed Property;
c) The unit of measurement used to determine the Assessments;
d) The total revenue to be collected by the County from the Assessments;
e) A statement that failure to pay the Assessments will cause a tax certificate to be issued against the property or foreclosure proceedings, either of which may result in a loss of title to the property;
f) A statement that all affected and/or interested parties have a right to appear at the hearing and to file written objections with the Board within 20 days of the notice; and
g) The date, time, and place of the hearing.

Notice shall be mailed at least 20 calendar days prior to the hearing to each Assessed Property at such address as is shown on the Assessment Rolls. Notice shall be deemed mailed upon delivery thereof to the possession of the United States Postal Service. Proof of service of said notice may be made by affidavit. Failure of the Assessed Property to receive such notice, because of mistake or inadvertence, shall not affect the validity of the Assessment Rolls or release or discharge any obligation for payment of the Assessments imposed by the Board pursuant to this Article.

Sec. 94-89. - Adoption of Assessment Resolution and Non-Ad Valorem Assessment Rolls.
At the time named in the notice, the Board shall receive and consider any written objections of interested persons. All objections to the Assessment Resolution and Non-Ad Valorem Assessment Roll shall be made in writing and filed with the Board at or before the time or adjourned time of such hearing. At the date and time named in the notice, the Board may adopt the Assessment Resolution and Non-Ad Valorem Assessment Roll which shall:

a) Set the rate of the Assessments to be imposed;
b) Approve the Non-Ad Valorem Assessment Rolls, with such amendments as it deems just and right; and
c) Affirm the method of collection.

Sec. 94-90. - Revisions to the Assessment Roll.
The Board may revise the Non-Ad Valorem Assessment Rolls one or more times during the Fiscal Year to modify the Assessment rates through the adoption of additional Assessment Resolutions, following the procedures set forth herein and as provided for in applicable Florida Statutes, as may be amended from time to time.

Sec. 94-91. - Effect of the Assessment Resolutions.
The adoption of Assessment Resolutions shall be the final adjudication of the issues presented (including, but not limited to, the method of apportionment and Assessment, the Assessment rates, the initial rates of Assessment, the Non-Ad Valorem Assessment Rolls, and the levy and lien of the Assessments), unless proper steps shall be initiated in a court of competent jurisdiction to secure relief within 20 days from the date of Board action on the Assessment Resolution. The Non-Ad Valorem Assessment Rolls shall be delivered to the Tax Collector or such other official as the Board by resolution shall designate.

Sec. 94-92. - Method of Collection.
The amount of the Assessments is to be collected pursuant to the Alternative Method, as specified in the Assessment Resolution.

Sec. 94-93. - Refunds.
If, at the end of the Fiscal Year, additional amounts remain in the Local Provider Participation Fund, the Board is hereby authorized to make refund to Assessed Properties in proportion to amounts paid in during the Fiscal Year for all or a portion of the unutilized Local Provider Participation Fund. Absent Board action, funds will remain in the account and roll over for the next fiscal year.

Sec. 94-94. - Responsibility for Enforcement.
The County and its agent, if any, shall maintain the duty to enforce the prompt collection of the Assessments by the means provided herein. The duties related to collection of assessments may be

enforced at the suit of any holder of obligations in a court of competent jurisdiction by mandamus or other appropriate proceedings or actions.

Sec. 94-95. - Correction of Errors and Omissions.
No act of error or omission on the part of the Comptroller, Property Appraiser, Tax Collector, Board, or their deputies or employees shall operate to release or discharge any obligation for payment of the Assessments imposed by the Board under the provision of this Chapter.

Sec. 94-96. - Limitations on Surcharges.
Payments made by Assessed Properties under this article may not be passed along to patients of the Assessed Property as a surcharge or as any other form of additional patient charge.

Sec. 94-97 – Release of Liability
The Hospitals that are subject to the Assessments imposed pursuant to this Ordinance have requested adoption of this Ordinance and have given assurances to the County that the objectives and procedures addressed in this Ordinance are proper and lawful. Accordingly, each such of the Hospitals shall, as a prerequisite for the County imposing Assessments hereunder, forever release the County and its officers, employees, agents, and instrumentalities from any and all liability relating to the imposition of the Assessments. The release shall be in a form approved by the County Attorney's Office and submitted prior to the adoption of the Assessment Resolution.

SECTION 3. MODIFICATION

It is the intent of the Board of County Commissioners that the provisions of this ordinance may be modified as a result of considerations that may arise during public hearings. Such modifications shall be incorporated into the final version of the ordinance adopted by the Board and filed by the Clerk of the Board pursuant to this Section.

SECTION 4. REPEALER

Any ordinance, or part of any ordinance, in conflict herewith is hereby repealed to the extent of any conflict.

SECTION 5. SEVERABILITY.

It is declared to the intent of the Board of County Commissioners that if any section, subsection, sentence, clause, or provision of this Ordinance shall be declared invalid, the remainder of this Ordinance shall be construed as not having contained said section, subsection, clause, or provision and shall not be affected by such holding.

SECTION 6. INCLUSION INTO THE PASCO COUNTY CODE OF ORDINANCES.

It is the intent of the Board of County Commissioners that the provisions of this Ordinance shall become and be made part of the Pasco County Code of Ordinances.

SECTION 7. EFFECTIVE DATE.

This Ordinance shall be transmitted to the Department of State by the Clerk to the Board by electronic mail within ten (10) days after adoption of this Ordinance, and this Ordinance shall take effect upon confirmation by the Department of State of its receipt.

DONE AND ADOPTED with a quorum present and voting this _____ day of _____, 2026.

NOTICE OF PUBLIC HEARING

PUBLIC NOTICE is hereby given that the Board of County Commissioners will hold a public hearing on Tuesday, June 16, 2026, at the West Pasco Government Center, 1st Floor, Board Room, 8731 Citizens Drive, New Port Richey, Florida 34654, at 1:30 pm, to consider amendments to the following Ordinance:

AN ORDINANCE BY THE BOARD OF COUNTY COMMISSIONERS OF PASCO COUNTY, FLORIDA, PROVIDING FOR THE AMENDMENT OF CHAPTER 94, ARTICLE IV, PASCO COUNTY LOCAL PROVIDER PARTICIPATION FUND; PROVIDING FOR MODIFICATION; REPEALER; SEVERABILITY; INCLUSION INTO THE PASCO COUNTY CODE OF ORDNANCES; AND AN EFFECTIVE DATE.

Information concerning this matter will be on file and available for examination in the office of the Pasco County Support Services Department, 8620 Galen Wilson Blvd., Port Richey, Florida 34668; or anytime on our website: www.pascocountyfl.net. To make an appointment or for further information, you may call (727) 847-2411. All interested parties may participate in this hearing virtually, which requires advance registration; please visit https://pasco.rja.revize.com/forms/7184 .

Any person desiring to appeal any decision made by the Board of County Commissioners with respect to any matter considered at any hearing will need a record of the proceedings and may need to ensure that a verbatim record of the proceedings is made which includes the testimony and evidence upon which the appeal is to be based. Persons may obtain a verbatim record of the proceeding by contacting the Clerk and Comptroller's Office, East Pasco Government Center at 14326 6th Street, Suite 201, Dade City, Florida 33523-3414, or at (352) 521-4345.

For questions or inquiries about this meeting, members of the public can reach out to the County's Customer Service Center (727) 847-2411 or County Administration (727) 847-8115 or visit www.mypasco.gov. To view the Board of County Commissioner's Agenda please visit https://www.pascocountyfl.net/government/agendas___minutes_.php

If you are a person with a disability who needs any accommodations in order to participate in this proceeding, you are entitled, at no cost to you, to the provision of certain assistance. Please contact the County's Human Resources Department, Internal Services Building, 7536 State Steet, New Port Richey, Florida 34654 or (727) 847-8030 at least 7 days before the public hearing, or immediately upon receiving this notification if the time before the public hearing is less than 7 days. If you are hearing or voice impaired, call 711.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** PDE26-0475 **DATE:** 6/16/2026

SUBJECT: An Ordinance By The Pasco County Board Of County Commissioners Amending The Pasco County Land Development Code; Section 1104 Flood Damage Prevention; Appendix A Definitions; And Other Sections, As Necessary, For Internal Consistency; Providing For Applicability; Repealer; Providing For Severability; Inclusion Into The Land Development Code, And An Effective Date.

REFERENCES: All Local Planning Agency (LPA) and Board of County Commissioners (BCC) public hearings at 1:30 p.m. in New Port Richey (NPR) or Dade City (DC): LPA at DC 4/9/26 – BCC at DC 5/5/26 – BCC at NPR 6/16/26

AGENDA SECTION: Public Hearings

THRU: David Allen, Assistant County Administrator

FROM: David Engel, Director Planning, Development and Economic Growth

RECOMMENDED BOARD ACTION:

Accept public comment. Adopt the proposed Land Development Code Amendment and Ordinance by roll-call vote. Authorize the Chair to execute the original(s) of the Ordinance provided and direct the Board Records Department to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

The purpose of this ordinance is to implement the required revisions to the Pasco County Land Development Code (LDC) to ensure compliance with Section 163.31795 F.S. concerning hurricane relief, recovery, and response.

The BCC adopted the restated Pasco County Land Development Code (LDC) on October 18, 2011, by Ordinance No. 11-15. As of June 16, 2026, there have been 85 adopted amendments to the Code.

The Ordinance Development Team (ODT) leads the drafting and review of all potential Land Development Code Amendments. After any necessary research is completed, potential amendments are drafted by members of ODT. The draft amendments are then taken to the LDC Interested Parties and Horizontal Roundtable (HRT) group for review and comment. Pursuant to Section 203, Local Planning Agency, of the LDC, the Planning Commission is designated by the Board of County Commissioners as the Local Planning Agency (LPA) and shall have all the functions, powers, and duties as set forth in Section 163.3174, Florida Statutes. For the purposes of LDC amendments, the LPA shall review proposed amendments as to their consistency with the adopted Pasco County Comprehensive Plan.

On February 18, 2026, the proposed amendments were presented to and discussed with the LDC Interested Parties and the HRT. On April 9, 2026, the LPA found the proposed ordinance amendments consistent with the Pasco County Comprehensive Plan.

History of the Ordinance:

Section 163.31795(2), F.S., prohibits any local government participating in the National Flood Insurance Program (NFIP) from adopting or enforcing an ordinance for substantial improvements or repairs to a structure that includes a cumulative substantial improvement period, commonly referred to as “lookback ordinances.” The proposed amendments align the existing provisions of the Land Development Code with the revised requirements of the Florida Statutes.

The following Sections are amended and stricken as shown in Attachments 1, 2 and 3:

- LDC Section 1104.4.F.3:
  - The duties of the Floodplain Administrator have been updated to remove the evaluation of previous permits issued for improvement and repairs, as currently specified in the definition of “substantial improvement”.
- Appendix A Definitions – Updates to the following definitions:
  - Market Value (as it pertains to flood damage prevention)
    - Removed the language that previously allowed the Building Official to make the final determination of market value to align the LDC definition with the definition approved by the Florida Division of Emergency Management (FDEM).
  - Substantial damage
    - Reduced the percentage of market value of the structure from 50% to 49% to correct a Scrivener's error from a 2022 amendment for substantial improvement. This creates consistency within the Code, and does not change legal effect, as the County currently enforces 49% for both substantial improvement and substantial damage.
  - Substantial improvement
    - Removed the references to the cumulative cost and period of accumulation to align with Section 163.31795(2), F.S.

Planning, Development, and Economic Growth, County Attorney’s Office and Building Construction Services provided input on these proposed amendments. The proposed amendments do not impact the County’s Community Rating System (CRS) Score. The amendments will be accompanied by a corresponding revision to Chapter 18, Pasco County Code of Ordinances.

Public Hearing History:

	Date	**Vote: Approve/Deny**
Local Planning Agency	4/9/2026	Approved: 5 - 0
Board of County Commissioners - 1st Hearing	5/5/2026	No Action Required
Board of County Commissioners	6/16/2026	Pending

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding is not required for this action. A Business Impact Estimate (BIE) is not required pursuant to Section 125.66(3)(c)1. Florida Statutes.

DISTRIBUTION:
Board Records to distribute as set forth below:
1. Retain one original for the record.
2. File a copy of the Ordinance with the Florida Department of State by transmittal via electronic mail within ten (10) days after the adoption of the Ordinance to CountyOrdinances@dos.myflorida.com.
3. Send the Executed Ordinance and redline to Municode via electronic mail after the adoption of the Ordinance to MunicodeOrds@civicplus.com.
4. Send electronically to: Brian Yunker, Planner II (byunker@mypasco.net), Amandla Hill, Principal Planner (ahill@mypasco.net).

BOARD OF COUNTY COMMISSIONERS **ORDINANCE NO. _____**

AN ORDINANCE BY THE PASCO COUNTY BOARD OF COUNTY COMMISSIONERS AMENDING THE PASCO COUNTY LAND DEVELOPMENT CODE; SECTION 1104 FLOOD DAMAGE PREVENTION; APPENDIX A DEFINITIONS; AND OTHER SECTIONS, AS NECESSARY, FOR INTERNAL CONSISTENCY; PROVIDING FOR APPLICABILITY; REPEALER; PROVIDING FOR SEVERABILITY; INCLUSION INTO THE LAND DEVELOPMENT CODE, AND AN EFFECTIVE DATE.

WHEREAS, the Board of County Commissioners of Pasco County, Florida, is authorized under Chapters 125, 162, 163, 177, and 380 Florida Statutes, to enact zoning and other land development regulations to protect the health, safety and welfare of the citizens of Pasco County; and

WHEREAS, Sections 163.3201, 163.3202, 163.3211 and 163.3213, Florida Statutes, empowers and requires the Board of County Commissioners of Pasco County, Florida, to implement adopted Comprehensive Plans by the adoption of appropriate land development regulations and specifies the scope, content and administrative review procedures for said regulations; and

WHEREAS, Section 163.3202, Florida Statutes, provides that certain specified and mandated regulations are to be combined and compiled into a single land development code for the jurisdiction; and

WHEREAS, the Board of Commissioners adopted the restated Pasco County Land Development Code on October 18, 2011, by Ord. No. 11-15; and

WHEREAS, at the time of the adoption of the restated Land Development Code, the Board of County Commissioners contemplated the need to make amendments addressing issues of implementation and internal consistency; and

WHEREAS, pursuant to Section 553.80, Florida Statutes, the Board of County Commissioners is required to enforce the Florida Building Code on all public and private buildings, structures, and facilities; and

WHEREAS, the Federal Emergency Management Agency has identified special flood hazard areas within the boundaries of Pasco County and such areas may be subject to periodic inundation which may result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare; and

WHEREAS, Pasco County participates in the National Flood Insurance Program (NFIP) and enforces floodplain management regulations consistent with FEMA standards and the Florida Building Code; and

WHEREAS, on June 26, 2025, Governor DeSantis signed Senate Bill 180 into law, prohibiting local governments participating in the NFIP from adopting or enforcing any ordinance that includes a cumulative substantial improvement period; and

WHEREAS, Section 1104 of the Pasco County Land Development Code currently contains a

provision that directs the Floodplain Administrator to evaluate previous permits in making substantial improvement or substantial damage determinations based on the cumulative look-back period defined in Appendix A;

WHEREAS, Appendix A of the Pasco County Land Development Code currently defines "substantial improvement" in a manner that includes cumulative calculations inconsistent with state law;

WHEREAS, the Local Planning Agency conducted a public hearing on April 9, 2026 and found the proposed amendments consistent with the Pasco County Comprehensive Plan; and

WHEREAS, the Board of County Commissioners conducted duly noticed public hearings on May 5, 2026 and June 16, 2026, where the Board of County Commissioners considered all oral and written comments received at public hearings, including staff reports and information received during said public hearings and found the proposed amendments consistent with the Pasco County Comprehensive Plan; and

WHEREAS, the citizens of Pasco County were provided with ample opportunity for comment and participation in this amendment process through Horizontal Roundtable and Interested Parties meeting, public meetings and public hearings; and

WHEREAS, in exercise of said authority the Board of County Commissioners of Pasco County, Florida, has determined that it is necessary and desirable to amend the restated Pasco County Land Development Code to implement policy direction and to correct internal inconsistencies.

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Pasco County, Florida, as follows:

SECTION 1. Authority.

This ordinance is enacted pursuant to Chapter 125 and 163, Florida Statutes, as amended and under the home rule powers of the County.

SECTION 2. Legislative Findings of Fact.

The foregoing Whereas clauses, incorporated herein, are true and correct.

SECTION 3. Applicability and Effect on Existing Development Approvals.

The applicability and effect of this amendment shall be as provided for in Sections 103.1 and 103.2 of the restated Land Development Code.

SECTION 4. Repealer.

Any and all ordinances in conflict herewith are hereby repealed to the extent of any conflict.

SECTION 5. Amendment.

The Pasco County Land Development Code is hereby amended as shown and described in Attachment A, Attached hereto and made part hereof.

SECTION 6. Severability.

It is declared to be the intent of the Board of County Commissioners of Pasco County, Florida, that

if any section, subsection, sentence, clause, or provision of this Ordinance shall be declared invalid, the remainder of this Ordinance shall be construed as not having contained said section, subsection, sentence, clause, or provisions and shall not be affected by such holding.

SECTION 7. Effective Date.

A certified copy of this ordinance shall be filed with the Florida Department of State by the Clerk to the Board by electronic mail within ten (10) days after adoption and shall take effect upon such filing.

ADOPTED with a quorum present and voting this 16th day of June, 2026.

(SEAL)

BOARD OF COUNTY COMMISSIONERS
OF PASCO COUNTY, FLORIDA

ATTEST:

NIKKI ALVAREZ-SOWLES, ESQ
PASCO COUNTY CLERK & COMPTROLLER

JACK MARIANO, CHAIRMAN

Attachment A

(This page was intentionally left blank.)

1104.4. Floodplain Administrator

The Board of County Commissioners hereby appoints the County Administrator, or designee, to administer and implement this section. The duties shall include, but not be limited to, all of the following:

A. Review development applications to determine whether proposed new development will be located in flood hazard areas.

B. Review all development applications to ensure that the permit requirements of this section have been satisfied.

C. Review development applications to determine whether proposed development will be reasonably safe from flooding.

D. Establish, in coordination with the Building Official, procedures for administering and documenting determinations of substantial improvement and substantial damage.

E. Make final determinations on development permits for developments that are not subject to the *Florida Building Code,* including buildings, structures, and facilities exempt from the *Florida Building Code.*

F. For applications for building permits to improve buildings, structures, and facilities in flood hazard areas, including alterations, movement, enlargement, replacement, repair, change of occupancy, additions, rehabilitations, renovations, substantial improvements, repairs of substantial damage, and any other improvement or work to such buildings, structures, and facilities, the Floodplain Administrator, in coordination with the Building Official, shall:

1. Estimate the Market Value of the building or structure before the start of construction of the proposed work; in the case of repair, the market value of the building or structure shall be the market value before the damage occurred and before any repairs are made;

2. Compare the cost to perform the improvement, the cost to repair a damaged building to its pre-damaged condition, or the combined costs of improvements and repairs, if both repaired and improved are proposed, to the market value of the building or structure;

3. Determine and document whether the proposed work constitutes substantial improvement or repair of substantial damage; and

4. Notify the applicant if it is determined that the proposed work constitutes substantial improvement or repair of substantial damage

and that compliance with flood resistant construction requirements of the Florida Building Code and this Code, Section 1104 is required.

G. Review, in coordination with the Building Official, requests submitted that seek approval to modify the strict application of the flood load and flood-resistant construction requirements of the *Florida Building Code*, as amended by Pasco County, to determine whether such requests require the granting of a variance pursuant to this Code, Section 1104.7.

H. Make required inspections for development permits that are not subject to the *Florida Building Code*, including buildings, structures, and facilities exempt from the *Florida Building Code.*

I. Advise the permittee when additional Federal or State permits may be required and require that copies of such permits be provided and maintained on file with the Development Permit, including but not limited to:

1. Southwest Florida Water Management District; Section 373.036, F.S..

2. Florida Department of Health for onsite sewage treatment and disposal systems; Section 381.0065, F.S. and Chapter 62, F.A.C.

3. The Florida Department of Environmental Protection for construction, reconstruction, changes, or physical activities for shore protection or other activities seaward of the coastal construction control line; Section 161.141, F.S.

4. The Florida Department of Environmental Protection for activities subject to the Joint Coastal Permit; Section 161.055, F.S.

5. The Florida Department of Environmental Protection for activities that affect wetlands and alter surface water flows, in conjunction with the U.S. Army Corps of Engineers; Section 404 of the Clean Water Act.

6. Federal permits and approvals.

J. Notify adjacent communities, the Florida Division of Emergency Management, State Floodplain Management Office, and other Federal and/or State agencies with statutory or regulatory authority prior to any alteration or relocation of a watercourse and submit copies of such notifications to FEMA.

K. Ensure that the flood-carrying capacity within the altered or relocated portion of any watercourse is maintained.

L. Review required design certifications and documentation of elevations specified by this Code, Section 1104, and the *Florida Building Code,* as amended by Pasco County, to determine that such certifications and documentations are complete.

M. Provide available flood elevation and flood hazard information.

N. Where interpretation is needed as to the exact location of boundaries of the areas of special flood hazard, for example, where there appears to be a conflict between a mapped boundary and actual field conditions, make the necessary interpretation. The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in this Code, Section 1104.7.

O. When base flood elevation data or floodway data have not been provided on a FIRM, obtain, review, and reasonably utilize any base flood elevation and floodway data available from a Federal, State, or other source in order to administer the provisions of this Code, Section 1104, and the *Florida Building Code*, as amended by Pasco County.

P. Determine whether additional flood hazard data shall be obtained from other sources or shall be developed by an applicant.

Q. Require applicants who submit hydrologic and hydraulic engineering analyses to support permit applications to submit to FEMA, the data and information necessary to maintain the FIRMs if the analyses propose to change base flood elevations, flood hazard area boundaries, or floodway designations; such submissions shall be made within six (6) months of such data becoming available.

R. Notify FEMA when the unincorporate boundaries of Pasco County are modified.

S. Advise applicants for new buildings and structures, including substantial improvements that are located in any unit of the Coastal Barrier Resources System established by the Coastal Barrier Resources Act (Pub.L. 97-348) and the Coastal Barrier Improvement Act of 1990 (Pub.L. 101-591) that federal flood insurance is not available on such construction. Areas subject to this limitation are identified on Flood Insurance Rate Maps as "Coastal Barrier Resource System Areas" and "Otherwise Protected Areas."

T. All records pertaining to this Code, Section 1104, and the flood provisions of the *Florida Building Code*, as amended by Pasco County, shall be maintained in the office of the County Administrator, or designee, and shall be open for public inspection.

Appendix A

Definitions

Market Value (as it pertains to Flood Damage Prevention). The building value, excluding the land and other improvements on the parcel, as would be agreed to between a willing buyer and seller, as established by what the local real estate market will bear. Market value is the Actual Cash Value (like-kind replacement cost depreciated for age, wear and tear, neglect, and quality of construction) determined by a qualified independent appraiser, or tax assessment value adjusted to approximate market value by a factor provided by the Property Appraiser.

Substantial damage.

1. As it pertains to Flood Damage Prevention: Damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed forty-nine (49) percent of the market value of the structure before the damage occurred.

2. As it pertains to Dock Construction: Damage of any origin sustained by a dock whereby the cost of restoring the dock to its predamaged condition would equal or exceed fifty (50) percent of the market value of the dock before the damage occurred.

Substantial improvement.

1. As it pertains to Flood Damage Prevention: Any one or more, or any combination thereof, of repair, reconstruction, rehabilitation, addition, alteration, or other improvement of a building or structure, the cost of which equals or exceeds forty-nine (49) percent of the market value of the structure before the "start of construction" of the improvement. This term includes structures, which have incurred "substantial damage," regardless of the actual repair work performed. For the purposes of this definition, "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the building.

The term does not, however, include either:

a. Any project for improvement of a building required to comply with existing health, sanitary, or safety code violations which have been identified prior to permit issuance by the County Administrator or designee, and which are solely necessary to ensure safe living conditions except when damages are caused by willful intent or cumulative neglect by the owner or owners; or

b. Any alteration of a "historic structure" provided that the alteration would not preclude the structure's continued designation as a "historic structure."

2. As it pertains to Dock Construction: The replacement of more than 50 percent of the structure, or the lateral or lineal extension of any dock.

CHAPTER 1100. SPECIAL DEVELOPMENT STANDARDS

SECTION 1104. FLOOD DAMAGE PREVENTION

1104.4. Floodplain Administrator

The Board of County Commissioners hereby appoints the County Administrator, or designee, to administer and implement this section. The duties shall include, but not be limited to, all of the following:

A. Review development applications to determine whether proposed new development will be located in flood hazard areas.

B. Review all development applications to ensure that the permit requirements of this section have been satisfied.

C. Review development applications to determine whether proposed development will be reasonably safe from flooding.

D. Establish, in coordination with the Building Official, procedures for administering and documenting determinations of substantial improvement and substantial damage.

E. Make final determinations on development permits for developments that are not subject to the *Florida Building Code,* including buildings, structures, and facilities exempt from the *Florida Building Code.*

F. For applications for building permits to improve buildings, structures, and facilities in flood hazard areas, including alterations, movement, enlargement, replacement, repair, change of occupancy, additions, rehabilitations, renovations, substantial improvements, repairs of substantial damage, and any other improvement or work to such buildings, structures, and facilities, the Floodplain Administrator, in coordination with the Building Official, shall:

1. Estimate the Market Value of the building or structure before the start of construction of the proposed work; in the case of repair, the market value of the building or structure shall be the market value before the damage occurred and before any repairs are made;

2. Compare the cost to perform the improvement, the cost to repair a damaged building to its pre-damaged condition, or the combined costs of improvements and repairs, if both repaired and improved are proposed, to the market value of the building or structure;

3. Determine and document whether the proposed work constitutes substantial improvement or repair of substantial damage; ~~the determination requires evaluation of previous permits issued for improvements and repairs as specified in the definition of~~

~~"substantial improvement";~~ and

4. Notify the applicant if it is determined that the proposed work constitutes substantial improvement or repair of substantial damage and that compliance with flood resistant construction requirements of the Florida Building Code and this Code, Section 1104 is required.

G. Review, in coordination with the Building Official, requests submitted that seek approval to modify the strict application of the flood load and flood-resistant construction requirements of the *Florida Building Code*, as amended by Pasco County, to determine whether such requests require the granting of a variance pursuant to this Code, Section 1104.7.

H. Make required inspections for development permits that are not subject to the *Florida Building Code*, including buildings, structures, and facilities exempt from the *Florida Building Code.*

I. Advise the permittee when additional Federal or State permits may be required and require that copies of such permits be provided and maintained on file with the Development Permit, including but not limited to:

1. Southwest Florida Water Management District; Section 373.036, F.S..

2. Florida Department of Health for onsite sewage treatment and disposal systems; Section 381.0065, F.S. and Chapter 62, F.A.C.

3. The Florida Department of Environmental Protection for construction, reconstruction, changes, or physical activities for shore protection or other activities seaward of the coastal construction control line; Section 161.141, F.S.

4. The Florida Department of Environmental Protection for activities subject to the Joint Coastal Permit; Section 161.055, F.S.

5. The Florida Department of Environmental Protection for activities that affect wetlands and alter surface water flows, in conjunction with the U.S. Army Corps of Engineers; Section 404 of the Clean Water Act.

6. Federal permits and approvals.

J. Notify adjacent communities, the Florida Division of Emergency Management, State Floodplain Management Office, and other Federal and/or State agencies with statutory or regulatory authority prior to any alteration or relocation of a watercourse and submit copies of such notifications to FEMA.

K. Ensure that the flood-carrying capacity within the altered or relocated portion of any watercourse is maintained.

L. Review required design certifications and documentation of elevations specified by this Code, Section 1104, and the *Florida Building Code,* as amended by Pasco County, to determine that such certifications and documentations are complete.

M. Provide available flood elevation and flood hazard information.

N. Where interpretation is needed as to the exact location of boundaries of the areas of special flood hazard, for example, where there appears to be a conflict between a mapped boundary and actual field conditions, make the necessary interpretation. The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in this Code, Section 1104.7.

O. When base flood elevation data or floodway data have not been provided on a FIRM, obtain, review, and reasonably utilize any base flood elevation and floodway data available from a Federal, State, or other source in order to administer the provisions of this Code, Section 1104, and the *Florida Building Code*, as amended by Pasco County.

P. Determine whether additional flood hazard data shall be obtained from other sources or shall be developed by an applicant.

Q. Require applicants who submit hydrologic and hydraulic engineering analyses to support permit applications to submit to FEMA, the data and information necessary to maintain the FIRMs if the analyses propose to change base flood elevations, flood hazard area boundaries, or floodway designations; such submissions shall be made within six (6) months of such data becoming available.

R. Notify FEMA when the unincorporate boundaries of Pasco County are modified.

S. Advise applicants for new buildings and structures, including substantial improvements that are located in any unit of the Coastal Barrier Resources System established by the Coastal Barrier Resources Act (Pub.L. 97-348) and the Coastal Barrier Improvement Act of 1990 (Pub.L. 101-591) that federal flood insurance is not available on such construction. Areas subject to this limitation are identified on Flood Insurance Rate Maps as "Coastal Barrier Resource System Areas" and "Otherwise Protected Areas."

T. All records pertaining to this Code, Section 1104, and the flood provisions of the *Florida Building Code*, as amended by Pasco County, shall be maintained in the office of the County Administrator, or designee, and shall be open for public inspection.

Appendix A

NOTICE OF AMENDMENT TO COMPREHENSIVE PLAN FOR PASCO COUNTY

The Pasco County Board of County Commissioners proposes to adopt the following:

AN ORDINANCE AMENDING THE PASCO COUNTY COMPREHENSIVE PLAN; PROVIDING FOR A COMPREHENSIVE PLAN TEXT AMENDMENT TO SUBAREA POLICY FLU 7.1.34:- PALMETTO RIDGE; AND PROVIDING FOR ADDITIONAL TEXT AMENDMENTS AS NECESSARY FOR INTERNAL CONSISTENCY; PROVIDING FOR A REPEALER, SEVERABILITY, AND AN EFFECTIVE DATE.

[CPA25(01) Palmetto Ridge CPAL]

On Thursday, April 9, 2026, at 1:30 p.m., the Pasco County Planning Commission, convened as the Local Planning Agency will hold a public hearing at the Historic Pasco County Courthouse, Board Room, 2nd Floor, 37918 Meridian Avenue, Dade City, Florida, to consider the consistency of the proposed amendment with the adopted Comprehensive Plan.

On Tuesday, May 5, 2026, at 1:30 p.m., the Pasco County Board of County Commissioners will hold a transmittal public hearing at the Historic Pasco County Courthouse, Board Room, 2nd Floor, 37918 Meridian Avenue, Dade City, Florida.

On Tuesday, July 14, 2026, at 1:30 p.m., the Pasco County Board of County Commissioners will hold an adoption public hearing at the Historic Pasco County Courthouse, Board Room, 2nd Floor, 37918 Meridian Avenue, Dade City, Florida.

NOTICE OF AMENDMENTS TO THE LAND DEVELOPMENT CODE FOR PASCO COUNTY

The Pasco County Board of County Commissioners proposes to adopt the following:

AN ORDINANCE BY THE PASCO COUNTY BOARD OF COUNTY COMMISSIONERS AMENDING THE PASCO COUNTY LAND DEVELOPMENT CODE; SECTION 1104 FLOOD DAMAGE PREVENTION; APPENDIX A DEFINITIONS; AND OTHER SECTIONS, AS NECESSARY, FOR INTERNAL CONSISTENCY; PROVIDING FOR APPLICABILITY; REPEALER; PROVIDING FOR SEVERABILITY; INCLUSION INTO THE LAND DEVELOPMENT CODE, AND AN EFFECTIVE DATE.

On Thursday, April 9, 2026, at 1:30 p.m., the Pasco County Planning Commission convened as the Local Planning Agency will hold a public hearing at the Historic Pasco County Courthouse, Board Room, 2nd Floor, 37918 Meridian Avenue, Dade City, Florida.

On Tuesday, May 5, 2026, at 1:30 p.m., the Pasco County Board of County Commissioners will hold a public hearing at the Historic Pasco County Courthouse, Board Room, 2nd Floor, 37918 Meridian Avenue, Dade City, Florida.

On Tuesday, June 16, 2026, at 1:30 p.m., the Pasco County Board of County Commissioners will hold an adoption public hearing at the West Pasco Government Center, Board Room, 8731 Citizens Drive, New Port Richey, Florida

Information concerning these matters will be on file and available for examination by appointment only in the office of the Pasco County Planning, Development and Economic Growth Department, West Pasco Government Center, 8731 Citizens Drive, Suite 200, New Port Richey, Florida 34654, or anytime on our website: www.pascocountyfl.net. To make an appointment or for further information, you may call 727-847-8140. All interested parties may participate in the public hearing and be heard. To learn how to participate in this hearing virtually, which requires advance registration, please visit http://mypasco.net/meetingagendas.

Any person desiring to appeal any decision made by the Planning Commission or the Pasco County Board of County Commissioners with respect to any matter considered at any hearing will need a record of the proceedings and may need to ensure that a verbatim record of the proceedings is made which includes the testimony and evidence upon which the appeal is to be based. Persons may obtain a verbatim record of the proceeding by contacting the Clerk and Comptroller's Office, East Pasco Government Center, 14236 6th Street, Suite 201, Dade City, Florida 33523-3414; or at (352) 521-4345.

For questions or inquiries about this meeting, members of the public can reach out to the County's Customer Service Center (727) 847-2411 or County Administration (727) 847-8115 or visit www.mypasco.net. To view the Local Planning Agency and Board of County Commissioners Agendas, please visit http://mypasco.net/meetingagendas.

If you are a person with a disability who needs any accommodation in order to participate in this proceeding, you are entitled, at no cost to you, to the provision of certain assistance. Please contact the County's Human Resources Department, Internal Services Building, 7536 State Street, New Port Richey, Florida 34654, (727) 847-8030 (V) at least 7 days before the public hearing, or immediately upon receiving this notification if the time before the public hearing is less than 7 days; if you are hearing or voice impaired, call 711.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** PDE26-0476 **DATE:** 6/16/2026

SUBJECT: An Ordinance By The Pasco County Board Of County Commissioners Amending The Pasco County Code Of Ordinances Chapter 18, Buildings And Building Regulations, Article VI, Section 18-122 Florida Building Code, Local Administrative Amendments, Local Technical Amendments, Flood Damage Prevention Standards; And Other Sections, As Necessary, For Internal Consistency; Providing For Applicability; Repealer; Providing For Severability; Inclusion Into The Code Of Ordinances, And An Effective Date.

REFERENCES: All Board of County Commissioners (BCC) public hearings at 1:30 p.m. in New Port Richey (NPR) or Dade City (DC): BCC at NPR 6/16/26.

AGENDA SECTION: Public Hearings

THRU: David Allen, Assistant County Administrator

FROM: David Engel, Director Planning, Development and Economic Growth

RECOMMENDED BOARD ACTION:

Accept public comment. Adopt the proposed Ordinance Amendments and Ordinance by roll-call vote. Authorize the Chair to execute the original(s) of the Ordinance provided and direct the Board Records Department to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

The purpose of this ordinance is to implement the required revisions to the Pasco County Code of Ordinances to ensure compliance with Section 163.31795 F.S. concerning hurricane relief, recovery, and response.

History of the Ordinance:
Section 163.31795(2), F.S., prohibits any local government participating in the National Flood Insurance Program (NFIP) from adopting or enforcing an ordinance for substantial improvements or repairs to a structure that includes a cumulative substantial improvement period, commonly referred to as “lookback ordinances.”

The following Sections are amended and stricken as shown in Attachment 1.

- Section 18-122. Florida Building Code, local administrative amendments, local technical amendments, flood damage prevention standards:
  - Subsections (b) and (d) are revised to remove the references to cumulative cost and period of accumulation to align with Section 163.31795(2), F.S.

Planning, Development, and Economic Growth, County Attorney’s Office and Building Construction Services provided input on these proposed amendments. The proposed amendments do not impact the County’s Community Rating System (CRS) Score.

Public Hearing History:

	Date	Vote: Approve/Deny
Board of County Commissioners	6/16/2026	Pending

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding is not required for this action. A Business Impact Estimate (BIE) is not required pursuant to Section 125.66(3)(c)1. Florida Statutes.

DISTRIBUTION:
Board Records to distribute as set forth below:
1. Retain one original for the record.
2. File a copy of the Ordinance with the Florida Department of State by transmittal via electronic mail within ten (10) days after the adoption of the Ordinance to CountyOrdinances@dos.myflorida.com.
3. Send the Executed Ordinance and redline to Municode via electronic mail after the adoption of the Ordinance to MunicodeOrds@civicplus.com.
4. Send electronically to: Brian Yunker, Planner II (byunker@mypasco.net), Amandla Hill, Principal Planner (ahill@mypasco.net).

cc: DA/DE/NP/AT/BY PDE26-0476 Chapter 18 Buildings and Building Regulations - BCC

BOARD OF COUNTY COMMISSIONERS **ORDINANCE NO. _____**

AN ORDINANCE BY THE PASCO COUNTY BOARD OF COUNTY COMMISSIONERS AMENDING THE PASCO COUNTY CODE OF ORDINANCES CHAPTER 18, BUILDINGS AND BUILDING REGULATIONS, ARTICLE VI, SECTION 18-122 FLORIDA BUILDING CODE, LOCAL ADMINISTRATIVE AMENDMENTS, LOCAL TECHNICAL AMENDMENTS, FLOOD DAMAGE PREVENTION STANDARDS; AND OTHER SECTIONS, AS NECESSARY, FOR INTERNAL CONSISTENCY; PROVIDING FOR APPLICABILITY; REPEALER; PROVIDING FOR SEVERABILITY; INCLUSION INTO THE CODE OF ORDINANCES, AND AN EFFECTIVE DATE.

WHEREAS, Chapter 553, Florida Statutes, was adopted by the Florida Legislature to provide a mechanism for the uniform adoption, updating, amendment, interpretation, and enforcement of the state building code (the Florida Building Code); and

WHEREAS, pursuant to Section 553.80, Florida Statutes, the Board of County Commissioners is required to enforce the Florida Building Code on all public and private buildings, structures, and facilities; and

WHEREAS, the Federal Emergency Management Agency has identified special flood hazard areas within the boundaries of Pasco County and such areas may be subject to periodic inundation which may result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare; and

WHEREAS, Pasco County participates in the National Flood Insurance Program (NFIP) and enforces floodplain management regulations consistent with FEMA standards and the Florida Building Code; and

WHEREAS, on June 26, 2025, Governor DeSantis signed Senate Bill 180 into law, prohibiting local governments participating in the NFIP from adopting or enforcing any ordinance that includes a cumulative substantial improvement period; and

WHEREAS, the Pasco County Building Construction Services, in cooperation with the Florida Division of Emergency Management, reviewed Chapter 18, Buildings and Building Regulations, and determined amendments are appropriate for consistency with the Florida Building Code and the Land Development Code, Section 1104, Flood Damage Prevention; and

WHEREAS, Chapter 553, Florida Statutes, allows for local technical amendments to the Florida Building Code that provide for more stringent requirements than those specified in the Code and allows adoption of local administrative and local technical amendments to the Florida Building Code to implement the National Flood Insurance Program and incentives; and

WHEREAS, the Board of County Commissioners has determined that it is in the public interest to amend the Pasco County Code of Ordinances to repeal a local technical amendment to the Florida Building that requires accumulation of accumulate costs of improvements and repairs of buildings in

flood hazard areas; and

WHEREAS, the citizens of Pasco County were provided with ample opportunity for comment and participation in this amendment process through Horizontal Roundtable and Interested Parties meeting, public meetings and public hearings; and

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Pasco County, Florida, as follows:

SECTION 1. Authority.

This ordinance is enacted pursuant to Chapter 125 and 163, Florida Statutes, as amended and under the home rule powers of the County.

SECTION 2. Legislative Findings of Fact.

The foregoing Whereas clauses, incorporated herein, are true and correct.

SECTION 3. Chapter 18, BUILDINGS AND BUILDING REGULATIONS, Article VI, Section 18-122, Florida Building Code, local administrative amendments, local technical amendments, flood damage prevention standards is hereby amended as follows:

(b) Florida Building Code, Building, Chapter 2, Section 202, Definitions.

Amend a definition as follows:

SUBSTANTIAL IMPROVEMENT. Any combination of repair, reconstruction, rehabilitation, alteration, addition or other improvement of a building or structure, the cost of which equals or exceeds forty-nine (49) percent of the market value of the structure before the improvement or repair is started. If the structure has sustained substantial damage, any repairs are considered substantial improvement regardless of the actual repair work performed.

The term does not, however, include either:

1. Any project for improvement of a building required to correct existing health, sanitary or safety code violations identified by the building official and that is the minimum necessary to assure safe living conditions except when damages are caused by willful intent or cumulative neglect by the owner or owners; or
2. Any alteration of a historic structure provided that the alteration will not preclude the structure's continued designation as a historic structure.

(d) Florida Building Code, Existing Building, Chapter 2, Definitions.

Amend a Definition as follows:

SUBSTANTIAL IMPROVEMENT. For the purpose of determining compliance with the flood provisions of this code, any combination of repair, reconstruction, rehabilitation, alteration, addition or other improvement of a building or structure, the cost of which equals or exceeds forty-nine (49) percent of the market value of the structure before the improvement or repair is

started. If the structure has sustained substantial damage, any repairs are considered substantial improvement regardless of the actual repair work performed. The term does not, however, include either:

1. Any project for improvement of a building required to correct existing health, sanitary or safety code violations identified by the building official and that is the minimum necessary to assure safe living conditions except when damages are caused by willful intent or cumulative neglect by the owner or owners; or
2. Any alteration of a historic structure provided that the alteration will not preclude the structure's continued designation as a historic structure.

SECTION 4. Repealer.

Any and all ordinances in conflict herewith are hereby repealed to the extent of any conflict.

SECTION 5. Severability.

It is declared to be the intent of the Board of County Commissioners of Pasco County, Florida, that if any section, subsection, sentence, clause, or provision of this Ordinance shall be declared invalid, the remainder of this Ordinance shall be construed as not having contained said section, subsection, sentence, clause, or provisions and shall not be affected by such holding.

SECTION 6. Effective Date.

A certified copy of this ordinance shall be filed with the Florida Department of State by the Clerk to the Board by electronic mail within ten (10) days after adoption and shall take effect upon such filing.

ADOPTED with a quorum present and voting this 16th day of June, 2026.

(SEAL)

BOARD OF COUNTY COMMISSIONERS
OF PASCO COUNTY, FLORIDA

ATTEST:

NIKKI ALVAREZ-SOWLES, ESQ
PASCO COUNTY CLERK & COMPTROLLER

JACK MARIANO, CHAIRMAN

Sec. 18-122. Florida Building Code, local administrative amendments, local technical amendments, flood damage prevention standards.

(b) Florida Building Code, Building, Chapter 2, Section 202, Definitions.

Amend a definition as follows:

SUBSTANTIAL IMPROVEMENT. Any combination of repair, reconstruction, rehabilitation, alteration, addition or other improvement of a building or structure ~~taking place during a one-year period~~, the ~~cumulative~~ cost of which equals or exceeds forty-nine (49) percent of the market value of the structure before the improvement or repair is started. ~~The period of accumulation begins when the permit for the first improvement or repair of each building is issued and extends for one (1) year or until the permit is closed.~~ If the structure has sustained substantial damage, any repairs are considered substantial improvement regardless of the actual repair work performed.

The term does not, however, include either:

1. Any project for improvement of a building required to correct existing health, sanitary or safety code violations identified by the building official and that is the minimum necessary to assure safe living conditions except when damages are caused by willful intent or cumulative neglect by the owner or owners; or
2. Any alteration of a historic structure provided that the alteration will not preclude the structure's continued designation as a historic structure.

(d) Florida Building Code, Existing Building, Chapter 2, Definitions.

Amend a Definition as follows:

SUBSTANTIAL IMPROVEMENT. For the purpose of determining compliance with the flood provisions of this code, any combination of repair, reconstruction, rehabilitation, alteration, addition or other improvement of a building or structure ~~taking place during a one-year period~~, the ~~cumulative~~ cost of which equals or exceeds forty-nine (49) percent of the market value of the structure before the improvement or repair is started. ~~The period of accumulation begins when the permit for the first improvement or repair of each building is issued and extends for one (1) year or until the permit is closed.~~ If the structure has sustained substantial damage, any repairs are considered substantial improvement regardless of the actual repair work performed. The term does not, however, include either:

1. Any project for improvement of a building required to correct existing health, sanitary or safety code violations identified by the building official and that is the minimum necessary to assure safe living conditions except when damages are caused by willful intent or cumulative neglect by the owner or owners; or
2. Any alteration of a historic structure provided that the alteration will not preclude the structure's continued designation as a historic structure.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** PDE26-0435 **DATE:** 6/16/2026

SUBJECT: An Ordinance Amending The Pasco County Comprehensive Plan; Providing For A Text Amendment To Chapter 2, Future Land Use Element Appendix Section FLU A-6; And Providing For Additional Text Amendments As Necessary For Internal Consistency Providing For Repealer, Severability, And An Effective Date.

REFERENCES: All Local Planning Agency (LPA) and Board of County Commissioners (BCC) public hearings at 1:30 p.m. in New Port Richey (NPR) or Dade City (DC): LPA at 3/19/26 NPR – BCC at 4/21/26 NPR – BCC at 6/16/26 NPR

AGENDA SECTION: Public Hearings

THRU: David Allen, Assistant County Administrator

FROM: David Engel, Director Planning, Development and Economic Growth

RECOMMENDED BOARD ACTION:

Accept public comment. Adopt the proposed Comprehensive Plan Amendment and Ordinance by roll-call-vote. Authorize the Chair to execute the original(s) of the ordinance provided and direct the Board Records Department to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

PROJECT OVERVIEW

Pasco County is initiating a Comprehensive Plan Text Amendment to amend the Future Land Use (FLU) Element Appendix Section FLU A-6 - The Official Future Land Use Map, to increase the residential density from the existing 24 dwelling units per developable residential acre (du/ac) to a maximum of 32 du/ac for the ROR (Retail/Office/Residential) FLU designated properties located within the West Market Area. The purpose of this text amendment is to support mixed-use development, expand housing opportunities, and advance the County's long-term land use vision for the West Market Area.

The proposed density increase reflects current market conditions and development trends that favor higher-density residential uses, particularly in areas with access to major transportation corridors, transit service, and commercial uses. Allowing this increased density enhances the feasibility of mixed-use and multifamily projects, supports a broader range of housing types, and promotes more efficient use of existing public facilities and infrastructure. These outcomes contribute to a more vibrant corridor environment, expand housing choice, support local businesses, and advance a more sustainable and economically resilient development pattern that benefits both the West Market Area and Pasco County as a whole.

This agenda memo was prepared by: Hayat Mazili, Principal Planner and Joseph Reinbold, Planner II

LPA/BCC ACTIONS

On March 19, 2026, the Local Planning Agency (LPA) held a public hearing on the proposed Text Amendment. The LPA recommended that the residential density for all ROR (Retail/Office/Residential) designated properties within the West Market Area to be increased from 24 dwelling units per residential developable acre (du/ac) to 32 du/ac. The LPA made a motion to "approve the proposed text amendment, striking the words redevelopment and repurposing from the first sentence [of the proposed text amendment], striking the last sentence [about the applicability of the density increase] from the proposed text amendment, and eliminating the two glossary terms — redevelopment and repurposing."

On April 21, 2026, the Board of County Commissioners (BCC) held a public hearing on the proposed Amendment to the Comprehensive Plan and authorized transmittal to the Department of Commerce (“FloridaCommerce”) and other reviewing agencies.

STATE AGENCY COMMENTS

On April 28, 2026, the Department of Commerce ("FloridaCommerce") acknowledged receipt of the proposed Amendment to the Comprehensive Plan for review pursuant to the Expedited State Review process. The reference number for this amendment package is 26-03ESR. The proposed submission package will be reviewed pursuant to section 163.3184(3), Florida Statues. FloridaCommerce’s comment letter will be received no later than May 28, 2026.

On May 4, 2026, the Florida Department of Transportation (FDOT) staff reviewed the proposed Comprehensive Plan Amendment and responded that the amendment "has no impact on important state transportation resources or facilities within its jurisdiction, at this time."

On May 8, 2026, Florida Fish and Wildlife Conservation Commission (FWC) staff reviewed the proposed Comprehensive Plan Amendment and responded that they "have no comments, recommendations, or objections to this amendment."

On May 20, 2026 the Southwest Florida Water Management District staff reviewed the proposed Comprehensive Plan Amendment with the following comments below for consideration. Their staff stated "No Comments" concerning Floodplains and Floodprone Areas, as well as for Wetlands and Other Surface Waters.

"1. The proposed amendment involves an increase in development density. Consequently, the adopted amendment should include supporting documentation that there is ongoing coordination between the County and Tampa Bay Water to address the County’s increasing potable water demands."

2. Considering the site would allow additional residential development, the use of water conservation should be maximized. Potential water conservation measures

include, but are not limited to, Florida Water Star SM, Florida-Friendly Landscaping™ and distribution of water conservation literature to residents."

On May 22, 2026, Pasco County received a confirmation letter from FloridaCommerce on the proposed Amendment to the Comprehensive Plan concluding that they had no comments.

COMPREHENSIVE PLAN CONSISTENCY ANALYSIS

The following is a discussion of the Comprehensive Plan Policies that support the recommendation to approve the proposed amendment.

ROR (RETAIL/OFFICE/RESIDENTIAL)

The intent of ROR FLU is to identify established areas exhibiting a broad range of commercial and residential uses and to recognize the continued existence of such areas through the long-range-planning time frame. Also, to establish appropriate sites for the development of major future community- or region-serving, commercial uses and to permit the land use intensities necessary to achieve this result.

The proposed text amendment to increase the maximum residential density for ROR designated properties within the West Market Area from 24 dwelling units per developable residential acre (du/ac) to 32 du/ac. By allowing up to 32 du/ac, the proposed amendment reinforces the mixed-use character of established ROR areas by encouraging reinvestment in these areas and providing the additional residential density needed to support community and regional serving commercial uses. Because the ROR FLU designation is intended to recognize the importance of established areas, this proposed text amendment would offer a tool to help maintain their long-term viability by creating a more integrated land use pattern that supports daily needs within close proximity, reduces reliance on single-use development formats, and aligns with the County's broader vision for a more connected and economically resilient West Market Area. The proposed amendment is consistent with and supported by the intent of the ROR FLU designation.

POLICY FLU: - 8.1.1: - WEST MARKET AREA ESTABLISHMENT

The West Market Area is envisioned as an Urban Coastal/Inland Area with redevelopment and infill opportunities. The significant inventory of affordable housing neighborhoods shall be enhanced through infill and redevelopment in a manner which will strengthen their vitality. The West Market Area's mission is the creation of a competitive and unique location with a choice of living, working, shopping, education, employment, and leisure time opportunities in an environmentally sound and safe setting. Its vision is to provide a significant inventory of affordable housing neighborhoods enhanced through redevelopment in a manner which will strengthen their vitality.

The proposed text amendment directly supports the West Market Area's Mission and Vision by enabling a more diverse mix of housing types and creating the residential density needed to sustain a vibrant and mixed use urban environment. Allowing up to 32 du/ac strengthens the West Market Area's ability to offer meaningful housing choices

that align with the area's character. Higher density also promotes more compact development patterns that improve access to jobs, services, and transit by placing housing closer to daily destinations. This supports neighborhood vitality, enhances mobility options, and contributes to a more connected and efficient urban framework consistent with the County's long-range goals for the West Market Area.

Moreover, the proposed text amendment is consistent with the Harbors Redevelopment/Infill Plan ("the Plan"), which directs growth toward established urban areas and emphasizes infill development, improved housing choice, and efficient use of existing infrastructure within the West Market Area. Increasing the maximum density within the ROR FLU designation in the West Market Area aligns with the Plan's strategy of focusing development within the County's most urbanized area, where infrastructure, services, and multimodal transportation options already exist. By supporting higher density residential development in appropriate locations, the proposed text amendment advances the Plan's goals of creating a more vibrant, accessible, and sustainable West Market Area while reinforcing its role as a key urban center within Pasco County.

THE BOARD OF COUNTY COMMISSIONERS **ORDINANCE NO. _____**

AN ORDINANCE AMENDING THE PASCO COUNTY COMPREHENSIVE PLAN; PROVIDING FOR A TEXT AMENDMENT TO CHAPTER 2, FUTURE LAND USE ELEMENT APPENDIX SECTION FLU A-6; AND PROVIDING FOR ADDITIONAL TEXT AMENDMENTS AS NECESSARY FOR INTERNAL CONSISTENCY; PROVIDING FOR REPEALER, SEVERABILITY, AND AN EFFECTIVE DATE.

WHEREAS, Chapters 125 and 163, Florida Statutes, authorize and require the Board of County Commissioners of Pasco County to prepare and enforce a Comprehensive Plan for the development of the County; and

WHEREAS, the Board of County Commissioners adopted a Comprehensive Plan on June 15, 1989, which has been subsequently amended; and

WHEREAS, the Board of County Commissioners has determined that the proposed Amendment meets the criteria for a Comprehensive Plan Amendment pursuant to Section 163.3187, Florida Statutes; and

WHEREAS, the Board of County Commissioners has considered the staff report including data and analysis and has determined that the proposed Amendment is consistent with Part II, Chapter 163, Florida Statutes, and the Pasco County Comprehensive Plan; and

WHEREAS, all map amendments exclude applicable Transportation Corridor Preservation width as established in Table 7-2, as may be amended from time to time, of the Pasco County Comprehensive Plan; and

WHEREAS, the Local Planning Agency, on March 19, 2026, held a public hearing, with a quorum attending and voting, on the proposed Amendment to the Comprehensive Plan with due public notice provided, pursuant to Section 125.66(2), Florida Statutes, and found the proposed amendment consistent with the adopted Comprehensive Plan; and

WHEREAS, the Board of County Commissioners, on April 21, 2026, held the Board of County Commissioners held an initial public hearing, with a quorum attending and voting, on the proposed Amendment to the Comprehensive Plan with due public notice provided, pursuant to Section 163.3184, Florida Statutes, and authorized transmittal of the proposed Amendment to the adopted Comprehensive Plan to the Florida Department of Commerce (“FloridaCommerce”) and other agencies to obtain review and comment on the said Amendment; and

WHEREAS, the Board of County Commissioners received a letter of no comment from FloridaCommerce; and

WHEREAS, no objections have been received from any reviewing agency; and

WHEREAS, the Board of County Commissioners has considered all comments received; and

WHEREAS, the proposed Amendment is consistent with Chapter 163, Florida Statutes, and the Pasco County Comprehensive Plan; and

WHEREAS, the Board of County Commissioners, on June 16, 2026, held an adoption public hearing, with a quorum attending and voting, on the proposed Amendment to the Comprehensive Plan with due public notice provided, pursuant to Section 163.3184, Florida Statutes, and considered all comments received during the public hearing.

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Pasco County, Florida, as follows:

SECTION 1. FUTURE LAND USE ELEMENT TEXT AMENDMENT.

The Pasco County Comprehensive Plan, Chapter 2, Future Land Use Element, Future Land Use Element Appendix Section FLU A-6 - The Official Future Land Use Map, is hereby amended, attached hereto as Exhibit A, and made a part hereof.

SECTION 2. REPEALER.

All provisions of the Pasco County Comprehensive Plan adopted pursuant to Ordinance No. 89-13, as amended, in conflict herewith are hereby repealed.

SECTION 3. SEVERABILITY.

Each provision of this Ordinance and all Exhibits hereto is material to the Board of County Commissioners' adoption of this Ordinance. Accordingly, these provisions are not severable. In the event any section, subsection, sentence, clause, or provision of this Ordinance and/or any Exhibits hereto is declared illegal or invalid by a body with jurisdiction to make such determination, the remainder of this Ordinance and all Exhibits hereto shall be suspended until such time that the Board of County Commissioners modifies this Ordinance and/or Exhibits

hereto to address the illegal or invalid provision of this Ordinance, and the remainder of this Ordinance after the exclusion of such part or parts shall be deemed to be valid.

SECTION 4. EFFECTIVE DATE.

This Ordinance shall be transmitted to the Department of State by the Clerk to the Board by electronic mail within ten (10) days of the adoption of this Ordinance, and this Ordinance shall take effect upon confirmation by the Department of State of its receipt. The effective date of this Plan Amendment, if the Amendment is not timely challenged, shall be (thirty-one) 31 days after adoption. If timely challenged, this Amendment shall become effective on the date the state land planning agency, or the Administration Commission enters a final order determining the Amendment to be in compliance. No development orders, development permits, or land uses dependent on this Amendment may be effective or commence before it has become effective. If a final order of noncompliance is issued by the Administration Commission, this Amendment may nevertheless be made effective by adoption of a resolution affirming its effective status, a copy of which resolution shall be sent to the state land planning agency.

SECTION 5. LEGISLATIVE FINDINGS OF FACT

The foregoing Whereas clauses, incorporated herein, are true and correct.

ADOPTED by the Board of County Commissioners of Pasco County, Florida, in a session with a quorum present and voting this 16th day of June, 2026.

(SEAL)

BOARD OF COUNTY COMMISSIONERS
OF PASCO COUNTY, FLORIDA

CHAPTER 2 FUTURE LAND USE ELEMENT

SECTION FLU A-6 - THE OFFICIAL FUTURE LAND USE MAP

ROR (RETAIL/OFFICE/RESIDENTIAL)

Note: This Future Land Use classification is INACTIVE. Existing properties assigned ROR (Retail/Office/Residential) as of the effective date of this Comprehensive Plan may continue to rely upon this definition for future development proposals. Developments of Regional Impact that have submitted to Pasco County both an Application for Development Approval and a request to amend the Future Land Use Map to ROR (Retail/Office/Residential) as of the effective date of this Comprehensive Plan, or both a Notice of Proposed Change to an existing Development of Regional Impact and a request to amend the Future Land Use Map to ROR (Retail/Office/Residential) as of the effective date of this Comprehensive Plan, may also continue to rely upon this definition for future development proposals. No new Future Land Use Map amendment requests may be considered for or granted as an ROR (Retail/Office/Residential) Future Land Use Classification.

Intent: To identify established areas exhibiting a broad range of commercial and residential uses and to recognize the continued existence of such areas through the long-range-planning time frame. Also, to establish appropriate sites for the development of major future community-or region-serving, commercial uses and to permit the land use intensities necessary to achieve this result.

No uses which have a primary purpose of distribution of goods shall be permitted in the ROR (Retail/Office/Residential) Land Use Classification.

The mix of uses within the areas designated for future ROR (Retail/Office/Residential) development must contain at least two (2) of the following uses with amounts of each within the ranges shown below:

Residential:	0-75 Percent
Retail:	0-75 Percent
Office:	0-75 Percent

General Range of Potential Uses:

Commercial uses, residential uses, hotels, motels, compatible light manufacturing, processing, and assembling of goods.

Density Restrictions: Dwelling Units/Developable Residential Acre: 24.00 Maximum

Within the West Market Area, the maximum density allowed shall not exceed 32.00 Dwelling Units/Developable Residential Acre.

Maximum Nonresidential Intensity: Floor Area Ratio: 0.60

Within the Urban Service Area (USA) the Floor Area Ratio (FAR) shall not exceed 3.0.

Business Impact Estimate (Amended)

Consistent with the posting requirement set forth in Section 125.66(3)(a), F.S., the County hereby publishes the following BIE information for this proposed ordinance on its website for public viewing and consideration on this 2nd day of March, 2026:

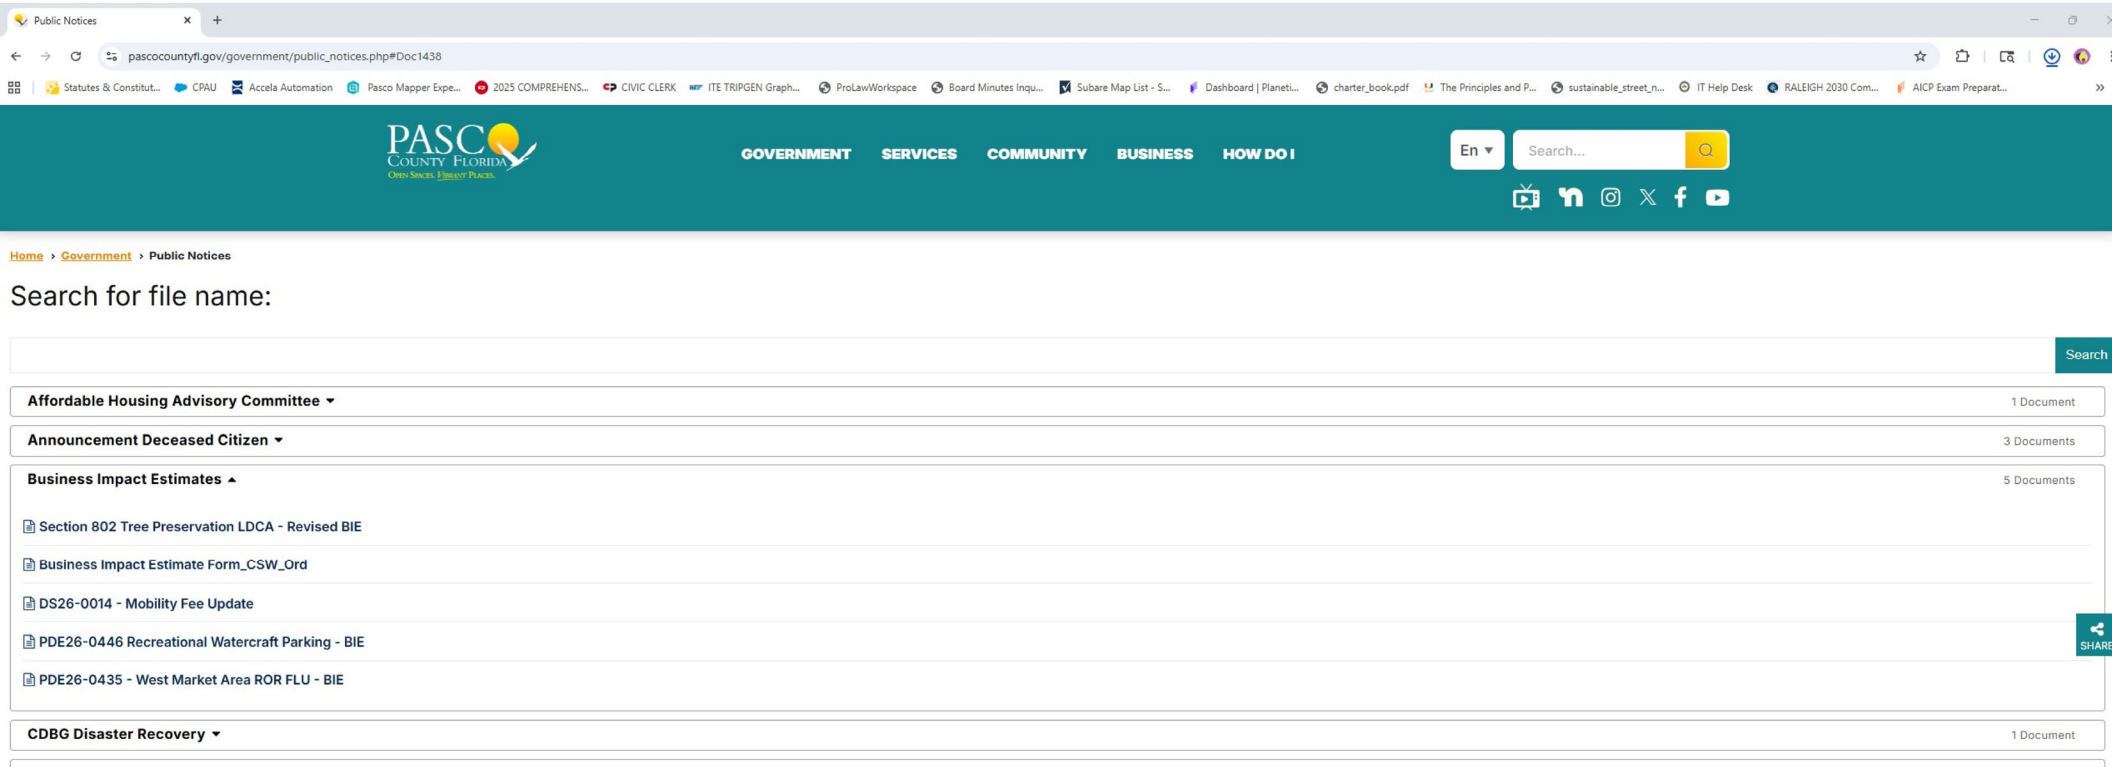
Proposed ordinance's title/reference:

An Ordinance Amending The Pasco County Comprehensive Plan; Providing For Text Amendment To Chapter 2, Future Land Use Element Appendix Section FLU A-6; And Providing For Additional Text Amendments As Necessary For Internal Consistency; Providing for Repealer, Severability, And An Effective Date.

1. Summary of the proposed ordinance (must include a statement of the public purpose, such as serving the public health, safety, morals and welfare):

The proposed text amendment to the ROR (RETAIL/OFFICE/RESIDENTIAL) FLU Category description to add a new density provision allowing a maximum of 32 dwelling units per developable residential acre (32 du/ac) for ROR (Retail/Office/Residential) designated properties located within the West Market Area. By allowing up to 32 du/ac, the proposed amendment reinforces the mixed-use character of established ROR areas by encouraging reinvestment in these areas and providing the additional residential density needed to support community and regional serving commercial uses. Because the ROR FLU designation is intended to recognize the importance of established areas, this proposed text amendment would offer a tool to help maintain their long-term viability by creating a more integrated land use pattern that supports daily needs within close proximity, reduces reliance on single-use development formats, and aligns with the County's broader vision for a more connected and economically resilient West Market Area. The proposed amendment is consistent with and supported by the intend of the ROR FLU designation.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in Pasco County, if any:



(a) An estimate of direct compliance costs that businesses may reasonably incur; Businesses will not incur any compliance costs.
(b) Any new charge or fee imposed by the proposed ordinance or for which businesses will be financially responsible; and No new charge or fee is imposed by the proposed ordinance.

(c) An estimate of Pasco County's regulatory costs, including estimated revenues from any new charges or fees to cover such costs.

There are no new regulatory costs.

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

The number of businesses in the West Market Area having the ROR Future Land Use designation that will avail themselves of the increased density of the proposed ordinance is unknown.

Parcel I.D. No(s): 20-24-17-0000-00200-0000 and 29-24-17-0000-01300-0010

Dear Property Owner:

This letter is to notify you that a Rezoning Application (RZ-7596) has been filed in the name of the property owner, DENTON AVE PROJECT LLC (Denton Avenue MPUD) to request a rezoning from AC (Agricultural District) to MPUD (Master Planned Unit Development) to allow for the development of a maximum 832 Single-Family Detached Homes, 75,000 SF of Commercial / Retail space and 440,000 SF of Light Industrial use.

The subject property is located on the south side of Denton Avenue approximately 1.53 miles east of the Denton Avenue/Little Road intersection and consists of 331.679 acres m.o.l. and on the north side of Kitten Trail.

Please contact our office if you would like us to send you copies of the Binding Concept Plan and Binding Landscape Plan for this project.

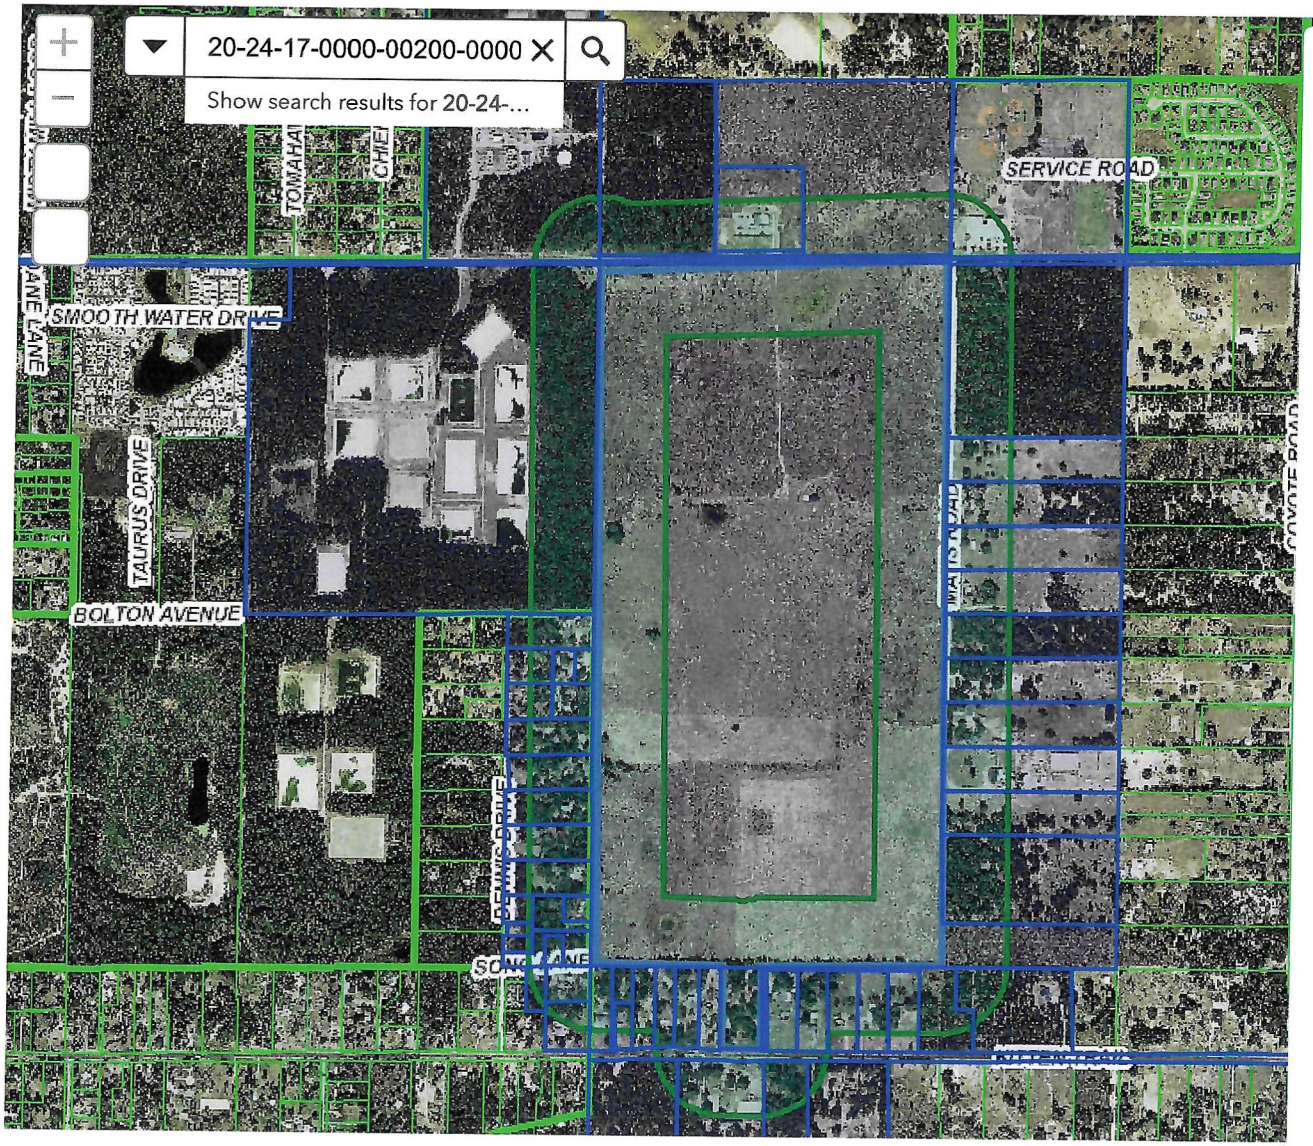
The public hearings for the consideration of this application will be held as follows:

Planning Commission RZ-7596	**04/16/2026**	**West Pasco Government Center 8731 Citizens Drive New Port Richey, FL 34654**	**1:30 p.m.**
Board of County Commissioners RZ-7596	**05/19/2026**	**West Pasco Government Center 8731 Citizens Drive New Port Richey, FL 34654**	**1:30 p.m.**

The application and all supporting documentation on file regarding the Rezoning Application can be viewed by contacting, William Vermillion, Senior Planner, Planning, Development, and Economic Growth Department, 8731 Citizens Drive, Suite 210, New Port Richey, FL 34654; 727-380-3521; wvermillion@mypasco.net.

If you are in opposition to the above-stated application, you will need competent, substantial evidence presented to support your opposition. Any person desiring to appeal any decision made by the Board of County Commissioners with respect to any matter considered at any meeting or hearing will need a record of the proceedings and may need to ensure that a verbatim record of the proceedings is made, which includes the testimony and evidence upon which the appeal is based.

On occasion, applications may be continued. It is your responsibility to contact this office or the above-contact at the County to confirm the above-scheduled public hearing dates.



If you are a person with a disability who needs any accommodation in order to participate in this proceeding, you are entitled, at no cost to you, to the provision of certain assistance. Please contact either the Pasco County Customer Service Center, 8731 Citizens Drive, New Port Richey, FL 34654, (727) 847-2411 (V) or the Pasco County Risk Management Office, 7536 State Street, New Port Richey, FL 34654, (727) 847-8028 (V) at least 7 days before the public hearing, or immediately upon receiving this notification if the time before the public hearing is less than 7 days; if you are hearing or voice impaired, call 711.

Very truly yours,

Barbara L. Wilhite

NOTICE OF PUBLIC HEARINGS
ON REZONINGS AND A CONDITIONAL USE
FOR PROPERTIES
LOCATED IN PASCO COUNTY

PUBLIC NOTICE is hereby given that the Pasadena Hills Planning and Policy Committee will hold a public hearing on **Wednesday, April 15, 2026, at the Historic Pasco County Courthouse, Board Room, 2nd Floor, 37918 Meridian Avenue, Dade City, Florida, at 1:30 p.m.**, and that the Pasco County Board of County Commissioners will hold a public hearing on **Tuesday, June 2, 2026, at the Historic Pasco County Courthouse, Board Room, 2nd Floor, 37918 Meridian Avenue, Dade City, Florida, at 1:30 p.m.** to consider applications for rezoning pursuant to the provisions of the Pasco County Land Development Code, Chapter 400. All hearings will be conducted at the stated time or as soon thereafter as is practical on the following application(s):

1. Evans Properties Inc / Evans C-1 MPUD (RZ-7876) petition for a rezoning from a MPUD Master Planned Unit Development District to a MPUD Master Planned Unit Development District for a parcel located at the north side of McCabe Road, approximately one and one-quarter mile east of Curly Road (aka 07-25-21-0000-01100-0000).

2. Clearwater Capital Partners USA LLC / Revilo Ranch MPUD (RZ-7904) a petition for a rezoning from an A-R Agricultural-Residential District to a MPUD Master Planned Unit Development District within the Villages of Pasadena Hills for a parcel located at the north side of Prospect Road, approximately one-half mile east of Curly Road (aka 13-25-20-0000-00500-0011).

PUBLIC NOTICE is hereby given that the Pasco County Planning Commission will hold a public hearing on **Thursday, April 16, 2026, at the West Pasco Government Center, Board Room, 8731 Citizens Drive, New Port Richey, Florida, at 1:30 p.m.**, and that the Pasco County Board of County Commissioners will hold a public hearing on **Tuesday, May 19, 2026, at the West Pasco Government Center, Board Room, 8731 Citizens Drive, New Port Richey, at 1:30 p.m.**, to consider applications for rezoning and/or conditional use pursuant to the provisions of the Pasco County Land Development Code, Chapter 400. All hearings will be conducted at the stated time or as soon thereafter as is practical on the following application(s):

3. Denton Avenue Project LLC/Denton Avenue MPUD (RZ-7596) a petition for a rezoning from an A-C Agricultural District to a MPUD Master Planned Unit Development District for a parcel located on the south side of Denton Avenue, approximately one and one-half miles east of Little Road (aka 20-24-17-0000-00200-0000 et al).

4. Sandridge Commercial LLC & SR 52 Williams LLC / Land O' Lakes 52-41 MPUD (RZ-7892) petition for a rezoning from a MPUD Master Planned Unit Development District to a MPUD Master Planned Unit Development District for a parcel located on the south side of State Road 52, approximately 900 feet west of US 41 (aka 09-25-18-0000-00100-0010 et al).

5. Shree Ram Investment Inc / Tahitian Multi-Family (#CU26-07 aka CU25-17) petition for a conditional use for Multi-Family Units in a C-2 General Commercial District for a parcel located on the west side of US Highway 19 at the intersection of US Highway 19 and Tahitian Gardens Circle, (aka 30-26-16-0010-04900-0010).

PUBLIC NOTICE is hereby given that the Pasco County Planning Commission will hold a public hearing on **Thursday, April 16, 2026, at the West Pasco Government Center, Board Room, 8731 Citizens Drive, New Port Richey, Florida, at 1:30 p.m.**, and that the Pasco County Board of County Commissioners will hold a public hearing on **Tuesday, July 14, 2026, at the Historic Pasco County Courthouse, Board Room, 2nd Floor, 37918 Meridian Avenue, Dade City, at 1:30 p.m.**, to consider applications for rezoning and/or conditional use pursuant to the provisions of the Pasco County Land Development Code, Chapter 400. All hearings will be conducted at the stated time or as soon thereafter as is practical on the following application(s):

6. James & Dorothy Mitchell Investments LTD/Mitchell 41 MPUD (RZ-7741) a petition for a rezoning from an A-C Agricultural District to a MPUD Master Planned Unit Development District for a parcel located on the west side of US41 and north of Goodman Drive (aka 02-24-18-0000-00100-0000 portion of, et al).

Information concerning these matters will be on file and available for examination by appointment only in the office of the Pasco County Planning, Development and Economic Growth Department, West Pasco Government Center, 8731 Citizens Drive, Suite 200, New Port Richey, Florida 34654, or anytime on our website: www.pascocountyfl.net. To make an appointment or for further information, you may call 727-847-8140. All interested parties may participate in the public hearing and be heard. To learn how to participate in this hearing virtually, which requires advance registration, please visit http://mypasco.net/meetingagendas.

Any person desiring to appeal any decision made by the Planning Commission or the Pasco County Board of County Commissioners with respect to any matter considered at any hearing will need a record of the proceedings and may need to ensure that a verbatim record of the proceedings is made which includes the testimony and evidence upon which the appeal is to be based. Persons may obtain a verbatim record of the proceeding by contacting the Clerk and Comptroller's Office, East Pasco Government Center, 14236 6th Street, Suite 201, Dade City, Florida 33523-3414; or at (727) 847-2411 ext. 4345.

For questions or inquiries about this meeting, members of the public can reach out to the County's Customer Service Center (727) 847-2411 or County Administration (727) 847-8115 or visit www.mypasco.net. To view the Local Planning Agency and Board of County Commissioners Agendas, please visit http://mypasco.net/meetingagendas.

If you are a person with a disability who needs any accommodation in order to participate in this proceeding, you are entitled, at no cost to you, to the provision of certain assistance. Please contact the County's Human Resources Department, Internal Services Building, 7536 State Street, New Port Richey, Florida 34654, (727) 847-8030 (V) at least 7 days before the public hearing, or immediately upon receiving this notification if the time before the public hearing is less than 7 days; if you are hearing or voice impaired, call 711.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 5 **FILE NO.:** PDE26-7909 **DATE:** 6/16/2026

SUBJECT: Zoning Amendment (Consent) – R & R Property Investments LLC / R & R Property Shady Hills – Change in Zoning from an A-R Agricultural-Residential District to a C-2 General Commercial District – North West Pasco County – East Side of Shady Hills Road and Approximately 784 Feet North of the Intersection of Shady Hills Road and Floralton Drive – Containing Approximately One (1) Acre

REFERENCES: All Board of County Commissioners (BCC) and Planning Commission (PC) public hearings at 1:30 p.m. in New Port Richey (NPR) or Dade City (DC): PC at NPR 5/21/26 – BCC at NPR 6/16/26

AGENDA SECTION: Public Hearings

THRU: David Allen, Assistant County Administrator

FROM: David Engel, Director Planning, Development and Economic Growth

RECOMMENDED BOARD ACTION:

Approve the Zoning Amendment. Authorize the Chairman to execute one (1) original of the Resolution provided and direct Board Records to distribute, as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

Petition No. 7909 (REZONE-2025-00020) in the name of R & R Property Investments LLC / R & R Property Shady Hills, has been filed for a change in zoning from an A-R Agricultural-Residential District to a C-2 General Commercial District in conformance with Section 526 of the Land Development Code (LDC) standards for development. The subject site contains approximately 23.03 acres of which one (1) acre is proposed to be rezoned to C-2 General Commercial District to allow for the use of a contractor's office and associated storage. The parcel of land is located on the east side of Shady Hills Road and approximately 784 feet north of the intersection of Shady Hills Road and Floralton Drive (Parcel I.D. No.: Portion of 06-24-18-0000-00100-0020), containing approximately one (1) acre.

The lead planner for this project and author of this memo is Kayla Duy, Planner I.

The surrounding zoning districts and land uses are as follows:

	ZONING DISTRICT	FUTURE LAND USE	EXISTING USE
NORTH	C-2 General Commercial District	ROR (Retail/Office/Residential)	Vacant; Warehouse and Commercial
EAST	A-R Agricultural - Residential District	RES-1 (Residential – 1 du/ga)	Utility Easement; Single Family Residential

SOUTH	A-R Agricultural - Residential District	RES-1 (Residential – 1 du/ga)	Utility Easement; Single Family Residential
WEST	C-2 General Commercial; A-R Agricultural - Residential District	COM (Commercial); RES-1 (Residential – 1 du/ga)	Vacant; Single Family Residential

FINDINGS OF FACT:

1. The subject site, containing approximately 23.03 acres, is currently vacant. The applicant proposes to develop one (1) acre, consisting of a small portion of the entire parcel, for the use of a contractor's office and associated storage, in conformance with Section 526 of the Land Development Code (LDC) standards for development.

2. The subject property is encumbered by a natural gas easement recorded in ORB 8183, Page 751. On January 15, 2026, Planning, Development and Economic Growth (PDE) staff met with a representative of Florida Gas Transmission Company to review the easement and evaluate any potential impacts associated with the proposed rezoning. The representative confirmed that the easement extends 15 feet from the property line and that the proposed rezoning will not affect the operation or integrity of the transmission line. Should a fence be installed along the eastern boundary of the property, coordination with Florida Gas Transmission Company will be required.

3. The applicant has volunteered to record a deed restriction (Attachment 2) to the property providing the following use restrictions:

    a. The Property will be zoned C-2 General Commercial District ("Commercial") upon approval by the Pasco County Board of County Commissioners of the Rezoning and execution and recording of these Restrictions, and the Property has been specifically reserved for those Commercial uses set forth in the Pasco County Land Development Code ("LDC") to ensure the Property provides the benefits of Commercial development, including, but not limited to, adequate employment generation. In addition, the Rezoning will not have an expiration date, so Commercial uses will be permitted to be developed on the Property beyond the expiration date of Section 125.01055(7), Florida Statutes (October 1, 2033). Accordingly, the Declarant has committed to, and is hereby requiring, that the permitted uses for the Property will remain Commercial uses, notwithstanding any potential contrary requirements in Section 125.01055(7), Florida Statutes. This Restriction is being imposed by the Declarant, and is not a requirement of Pasco County, to the extent it prevents any use allowed or preempted by Section 125.01055(7), Florida Statutes.

4. The rezoning shall take effect only after the deed restriction referenced in Finding of Fact Number 3 is reviewed and accepted by the County and recorded by the Applicant. The Applicant shall provide a copy of the recorded document to the Planning, Development and Economic Growth Department lead planner for this project.

5. The applicant has provided the following narrative (Attachment 5):

   "The applicant owns 23.03 acres on Shady Hills Rd. The owners would like to rezone the front 1 acre +/- of the property only. The property was formerly zoned C-2 in the past. It is currently zoned AR with a current FLU of ROR. The subject property is currently serviced by Pasco County Utilities and will continue to do so. There are no archeological or wetlands on the site."

6. The subject site is located in Flood Zone X and development is subject to the requirements of the Land Development Code (LDC), Section 1104, Flood Damage Prevention.

7. The surrounding area is characterized by residential development with commercial development along the northern frontage of Shady Hills Road.

8. The subject area has a Future Land Use (FLU) classification of ROR (Retail/Office/Residential) under the 2025 Pasco County Comprehensive Plan. Pursuant to Section FLU A-6, the proposed use is consistent with the Comprehensive Plan, for commercial equipment storage.

9. The subject site is within the North Market Area.

10. On May 25, 2010, the Board of County Commissioners (BCC) approved Rezoning Petition No. 6915, from the C-2 General Commercial District to the A-R Agricultural-Residential District for the subject site. The applicant at that time sought the rezoning specifically "in order to park farm equipment on this site," and Planning and Growth Management supported the request because the proposed use was considered a "passive, low-intensity agricultural activity." The rezoning from the C-2 General Commercial District to the A-R Agricultural-Residential District was therefore viewed as appropriate and consistent with the applicant's intended agricultural use and the surrounding rural character.

11. The subject application was submitted for review by the Natural Resources Division, and the following comments were received.

    a. If during construction activities any evidence of the presence of State or Federally protected plant and/or animal species is discovered, the Pasco County Natural Resources Inspector and applicable agencies shall be notified within two working days of the plant and/or animal species found on the site. All work in the affected area shall come to an immediate stop until all pertinent permits have been obtained, agency written authorization to

commence activities has been given, or unless compliance with state and federal guidelines can be demonstrated.

b. According to the Pasco County Land Development Code (LDC), Section 803.1, a detailed wildlife survey shall be conducted to identify any plant and animal species listed as threatened, endangered, or of special concern by the Florida Fish and Wildlife Conservation Commission (FFWCC) or the United States Fish and Wildlife Service (USFWS). Species specific surveys may be required depending on the preliminary survey results. The survey shall be submitted with the Preliminary Site Plan or Preliminary Development Plan, whichever is submitted first.

12. Access to the property is from Shady Hills Road, a County-maintained Collector Roadway with approximately 60 feet of right-of-way. Shady Hills Road, from Bosley Drive to County Line Road, is planned for ultimate expansion to a four-lane roadway with a total right-of-way of 160 feet. At the time of Preliminary Site Plan or Preliminary Development Plan review, unless an alternative standard is approved, the applicant must demonstrate the dedication of an additional 50 feet of right-of-way measured from the centerline, resulting in an 80-foot half-right-of-way and a total right-of-way width of 160 feet at full build-out.

13. On August 9, 2025, a Timing and Phasing Analysis (T&P-2025-00052) for the proposed development was performed by the applicant's consultant, Raysor Transportation Consulting, and approved by County staff with conditions. The Timing and Phasing Analysis document is attached and incorporated herein (Attachment 4). Access Management Analysis shall be performed at the time of Preliminary Site Plan or Preliminary Development Plan, if applicable.

14. Shady Hills Road meets County standards pursuant to LDC, Section 901.4, so it is recognized as a standard road and was determined to be exempt from Substandard Roadway Analysis. (SSRRA-2025-00143).

15. The LDC, Section 403, requires that owners/applicants submit a preliminary site plan or preliminary development plan, as applicable, for review and approval prior to the development or redevelopment of the property.

16. The proposed request is consistent with the LDC, Chapter 400, Permit Types and Applications; Section 402.1.E, Zoning Amendments, Review Considerations; and the applicable provisions of the County's Comprehensive Plan.

PLANNING COMMISSION ACTION:

Approval of PDE Recommendation: 4 Ayes; 0 Nays

BOARD OF COUNTY COMMISSIONERS ACTION:

Approval: _ Ayes; _ Nays

OWNER'S/APPLICANT'S ACKNOWLEDGMENT:

The owner/applicant acknowledges that he/she has read, understood, and accepted this Zoning Petition Review Report. (Do not sign until you receive a copy of this petition with the Board of County Commissioners' results.)

DECLARATION OF COVENANTS, CONDITIONS AND RESTRICTIONS

THIS DECLARATION OF COVENANTS, CONDITIONS AND RESTRICTIONS (this "Declaration") is made, dedicated, and declared on this _____day of ____, 2026, by R & R Property Investments LLC a Florida Limited Liability Company, whose post office address is 10439 Creation Court, New Port Richey, Fl 34654 ("Declarant").

RECITALS

1. Declarant is the fee owner of that certain real property more particularly described on Exhibit A attached hereto (the "Property").

2. Declarant requested Pasco County, a political subdivision of the State of Florida, ("County") for a change of the zoning designation of the Property by Petition No. RZ-7909, from AR to C-2 (General Commercial District) (the "Rezoning").

3. As a condition of the Rezoning, Declarant is willing to impose certain Restrictions (as defined herein) on the Property as hereinafter set forth in this Declaration in connection with the Rezoning for the benefit of the County.

W I T N E S E T H:

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements contained herein, Declarant hereby create, establish, promulgate and declare that the Property shall be held, sold, leased, developed, and conveyed expressly subject to the following covenants, conditions and restrictions:

ARTICLE I
RESTRICTIONS ON THE PROPERTY

Section 1.1 Restrictions. The following restrictions are hereby imposed upon the Property and shall continue as restrictions thereon for the benefit of the County unless otherwise approved by the County in connection with any subsequent rezoning of the Property or a portion thereof.

a. The Property will be zoned C-2 General Commercial District ("Commercial") upon approval by the Pasco County Board of County Commissioners of the Rezoning and execution and recording of these Restrictions, and the Property has been specifically reserved for those Commercial uses set forth in the Pasco County Land Development Code ("LDC") to ensure the Property provides the benefits of Commercial development, including, but not limited to, adequate employment generation. In addition, the Rezoning will not have an expiration date, so Commercial uses will be permitted to be developed on the Property beyond the expiration date of Section 125.01055(7), Florida Statutes (October 1, 2033). Accordingly, the Declarant has committed to, and is hereby requiring, that the permitted uses for the Property will remain Commercial uses, notwithstanding any potential contrary requirements in Section 125.01055(7), Florida Statutes. This Restriction is being imposed by the Declarant, and is not a requirement of Pasco

County, to the extent it prevents any use allowed or preempted by Section 125.01055(7), Florida Statutes.

ARTICLE II
MISCELLANEOUS PROVISIONS

Section 2.1 Enforcement. Declarant, for so long as it owns any portion of the Property, the fee simple owners of the Property (each an "Owner" and collectively, the "Owners") and the County shall have the right to enforce, by any proceedings at law or in equity, the Restrictions imposed by this Amended and Restated Declaration. Failure by Declarant, an Owner or the County to enforce any Restrictions contained herein shall in no event be deemed a waiver of the right to do so thereafter, nor shall Declarant, an Owner, or the County have any responsibility to ensure the compliance with the Restrictions by any other party.

Section 2.2 Duration. The covenants, conditions, and Restrictions contained herein shall inure to the benefit of and shall be binding upon the Property for a period of sixty (60) years from the Effective Date hereof. Thereafter, they shall be automatically extended for additional successive periods of ten (10) years unless otherwise agreed to in writing by Declarant (for so long as it owns any portion of the Property), the Owners of the Property and the County.

Section 2.3 Notice. Whenever any notice, demand, or request is required or permitted hereunder, such notice, demand, or request shall be sent by U.S. Mail, certified, postage prepaid to the addresses last given to or known by the party giving such notice or by Federal Express or other nationally-recognized overnight delivery service. Such notice is deemed to have been delivered upon the earlier of: (1) actual receipt or (2) within three (3) days from the date sent by U.S. Mail, certified, postage prepaid or by Federal Express. Declarant, the County, and the Owners of the Property shall have the right and election to designate to the other from time to time, by written notice in accordance with the notice provisions hereof to such other person or persons, at such other places in the United States as it may desire for the delivery or mailing of written notices in accordance herewith. The present parties and addresses to receive written notice hereunder are as follows:

Declarant:

County: Zoning Administrator
West Pasco Government Center
8731 Citizens Drive
New Port Richey, FL 34654

Section 2.4 Captions. The captions, section numbers, and article numbers appearing in this Amended and Restated Declaration are inserted only as a matter of convenience and in no way limit, construe, or describe the scope or the intent of such portions or articles of this Amended and Restated Declaration, nor in any way modify or affect this Amended and Restated Declaration.

Section 2.5 Covenants Running with the Land. The Restrictions, conditions, covenants, and obligations as specifically set forth herein shall be benefits and burdens respectively, on the

Property, running with the land and shall inure to the benefit of the successors, heirs and assigns of the owners of the Property as applicable.

Section 2.6 Amendments. This Declaration shall not be modified, amended, or rescinded except in writing by an instrument executed by Declarant (or its successor in title), the Owners and the County.

Section 2.7 Equitable Remedies. To the extent allowed by law, in the event of a breach by any Owner of any obligation of this Declaration, Declarant (for so long as it owns any portion of the Property), the other Owners or the County shall be entitled to obtain an order specifically enforcing the performance of such obligation or an injunction prohibiting any such breach; Declarant and the Owners hereby acknowledge the inadequacy of legal remedies and the irreparable harm which would be caused by any such breach, and/or to relief by other available legal and equitable remedies from the consequences of such breach. Except as otherwise specifically provided in this Declaration, (i) no remedy provided in this Declaration shall be exclusive, but each shall be cumulative with all other remedies provided in this Declaration and (ii) all remedies at law or in equity shall be available.

Section 2.8 No Breach. No breach of the provisions of this Declaration shall entitle Declarant or any Owner or party to cancel, rescind or otherwise terminate this Declaration, but such limitation shall not affect, in any manner, any other rights or remedies which any party may have hereunder by reason of any breach of the provisions of this Declaration.

Section 2.9 Force Majeure. In the event Declarant or any Owner or any other party shall be delayed or hindered in or prevented from the performance of any act required to be performed by such party by reason of Acts of God, strikes, lockouts, unavailability of materials, failure of power, prohibitive governmental laws or regulations, riots, insurrections, the act or failure to act of any other party, adverse weather conditions preventing the performance of work as certified to by an architect, war or other reason beyond such party's control, then the time for performance of such act shall be extended for a period equivalent to the period of such delay. Lack of adequate funds or financial inability to perform shall not be deemed to be a cause beyond the control of such party.

Section 2.10 Priority to Mortgages. Any mortgage or deed of trust affecting any portion of the Property shall at all times be subject and subordinate to the terms of this Declaration. Any party foreclosing any such mortgage or deed of trust or acquiring title by deed in lieu of foreclosure or trustee's sale shall acquire title subject to all of the terms and provisions of this Declaration.

Section 2.11 No Dedication. Nothing contained in this Declaration shall be deemed to be a gift or dedication of any portion of Property to the general public or for any public use or purpose whatsoever.

Section 2.12 Third Party Beneficiaries. Nothing contained in this Declaration shall be deemed or construed to benefit any person or entity other than Declarant, Owner(s) and County.

Section 2.13 Governing Law and Venue. This Declaration shall be construed in accordance with the laws of the State of Florida. Venue for any litigation arising from this Declaration shall be in Pasco County, Florida.

Section 2.14 No Joint Venture. Nothing in this Declaration shall be construed to make Declarant, the Owners or the County partners or joint venturers or render any of said parties

liable for the debts or obligations of the other.

Section 2.15 Effective Date. This Declaration shall become effective upon recording of this Declaration in the Public Records of the County (such date being the "Effective Date").

Legal Description

Attached hereto and incorporated herein by reference.

REZONING ATTACHMENT

The Planning Commission disagrees with the staff report and recommendation for the following reasons:

1. The proposed change (**is, is not**) consistent with the existing land use pattern in the area.

2. The proposed change (**would, would not**) result in the possible creation of an isolated district unrelated to adjacent and nearby districts.

3. The existing district boundaries (**are, are not**) illogically drawn in relation to existing conditions on the property proposed for the change.

4. Changed or changing conditions make passage of the proposed amendment (**necessary, unnecessary**).

5. The proposed change (**will, will not**) adversely affect living conditions in the immediate and surrounding neighborhoods.

6. There (**is, is not**) adequate access from a standard roadway to the site and the proposed change (**will, will not**) create or excessively increase traffic congestion or otherwise affect public safety.

7. The proposed change (**might, might not**) result in the reduction of light and air to adjacent properties or areas.

8. The proposed change (**might, might not**) result in lower property values in adjacent areas.

9. The property, as rezoned, (**could, could not**) be developed in a manner which would comply with other existing County and State regulations governing development.

10. The proposed change (**would, would not**) result in or act as a deterrent to the improvement or development of adjacent property in accordance with the existing regulations.

11. The property which is the subject of the proposed change (**is, is not**) a suitable site or location for the uses available under a proposed zoning district.

12. Certain portions of the property (**are, are not**) suitable for development under the proposed zoning classification.

13. Adequate public facilities (**are, are not**) available to the site, including, but not limited to, water and sewer facilities.

14. The property is developable under the zoning classification (**with, without**) appropriate public facilities, including, but not limited to, water and sewer facilities.

15. The site proposed for zoning change (**would, would not**) be subject to flooding and the effect of such flooding on the proposed or possible improvements on the site.

16. The physical characteristics of the site and the degree of site alteration which (**would, would not**) be required to make the site usable for any of the range of potential uses under the proposed zoning classification.

17. The potential need for expansion of public services and facilities to accommodate the proposed development, including the consideration of the results of the Timing and Phasing Analysis performed pursuant to Section 901.12, Transportation Analysis.

18. The proposed zoning change (**would, would not**) be consistent with the goals, objectives, policies, and recommendations set forth in adopted comprehensive plans or elements.

19. The existing zoning classification (**accomplishes, does not accomplish**) a legitimate public purpose that protects the integrity of the Goals, Objectives, and Policies of the Comprehensive Plan; the public's reliance upon the existing zoning; or another legitimate public purpose as determined by applicable law.

Ayes: _____ Nayes: _____

The Planning Commission recommends _____ approval _____ denial of the application, based upon the foregoing reasons that constitute the report of the Planning Commission.

The recommendation and report of the Planning Commission are based upon study and consideration of the factors outlined in the Pasco County Land Development Code, Section 402.1.E, and the evidence presented at the public hearing on the application.

The Planning Commission's recommendation is hereby submitted to the Board of County Commissioners as required under the Pasco County Land Development Code, Section 402.1.F.2.

Timing and Phasing Analysis

Existing Zoning: A R

Development Size: Vacant

Proposed Zoning: C-2

Proposed Development Size:

Land Area: 23.03 Acres (Rezone only 1 acre out of the 23 acres)

Condition	Zoning	Max Coverage	Best Use (Code)	Average Size	Peak Hr. Trip Rate
Existing	AR	25%	Single Family (ITE #210)	1DU/Acre	0.94 trip /DU
No. Trips (A)	(1 Acre × 1 DU/Acre) X 0.94 trip/DU ~ 1 Trip				
Proposed	C2	50%	Strip Retail (ITE #822)		6.59 trips / 1KSF
No. Trips (B)	(1 Acre x 43.560 KSF /Acre × 0.75 x 0.50) x 6.59 Trips/1KSF~ 108 Trips				
Trip Delta $\Delta = (B - A)$	$\Delta = 108 - 1 = 107$ Trips				

Comment: On August 20, 2025, the subject request was found to be ***not exempt*** from a Timing and Phasing analysis as the highest and best use of the proposed Zoning District would result in a gross trip difference (Δ) of more than 50 peak trips, a.m. or p.m., whichever is higher. Access Management Analysis shall be performed at the time of the Preliminary Site Plan, or Preliminary Development Plan, if applicable.

Findings:

- A Timing and Phasing Analysis report was submitted by Raysor Transportation Consulting, August 09, 2025.
- The studied area roadway segments of *Shady Hills Road from County Line Road to Peace Boulevard* are anticipated to operate acceptably for all peak hour analysis scenarios in consideration of Pasco County transportation performance standards. The analysis is summarized in Table 3.0.

TABLE 3.0 | ROADWAY SEGMENT ANALYSIS SUMMARY

Roadway Segment	Scenario	Peak Hour	LOS Std	Lanes / Context Class	Service Volume	Volume	LOS	V/C
Shady Hills Road from: County Line Road to: Project Driveway	Existing	AM	D	2 / C3R	2,020	1,206	C	0.60
		PM	D	2 / C3R	2,020	1,530	C	0.76

[1] NOT APPLICABLE [2] UNOPPOSED [3] SHARED LANE

- A preliminary site access turn lane warrant analysis was undertaken for the project site driveway connection to Shady Hills Road. The results of the analysis found that a *southbound-to-eastbound left turn lane is anticipated to be warranted on Shady Hills Road at the project site driveway*, and that a northbound-to-eastbound right turn lane is not warranted on Shady Hills Road at the project site driveway.

Condition of Approval:

Prior to the issuance of the First Building Permit, the applicant/developer shall construct and design to FDOT standards a southbound left turn lane on Shady Hills Road at the project site driveway.

Substandard Roadway Analysis

Adjacent Roadway(s) Name: Shady Hills Road - County Collector

Number of Avg. Daily Trips: ~ 889 *Trips (+/-)*

Comment: SSRRA-2025-00143 – Shady Hills Road meets County standards per LDC 901.4 and is ***exempt*** from substandard roadway review.

Rezoning of R & R Property Investments LLC Shady Hills Rd.

Project Narrative

The applicant owns 23.03 acres on Shady Hills Rd. The owners would like to rezone the front 1 acre +/- of the property only. The property was formerly zoned C-2 in the past. It is currently zoned AR with a current FLU of ROR. The subject property is currently serviced by Pasco County Utilities and will continue to do so. There are no archeological or wetlands on the site.

BY THE BOARD OF COUNTY COMMISSIONERS **RESOLUTION NO. 26-43RZ**

RESOLUTION CHANGING ZONING CLASSIFICATION OF PROPERTY DESCRIBED IN APPLICATION NO. 7909 FROM AN A-R AGRICULTURAL-RESIDENTIAL DISTRICT TO A C-2 GENERAL COMMERCIAL DISTRICT.

WHEREAS, the Board of County Commissioners of Pasco County, after due public notice, held a public hearing on June 16, 2026, on Rezoning Application No. 7909 and

WHEREAS, the Board of County Commissioners has heard the presentation and evidence of the applicant and individuals in opposition to and in favor of the application; and

WHEREAS, the Board of County Commissioners has taken into consideration other factors relevant to the decision as to whether the zoning classification should be approved for the subject property; and

WHEREAS, the Board of County Commissioners has reviewed the report and recommendations of the Planning Commission and the recommendation of the County staff and does hereby adopt the following findings of fact:

FINDINGS OF FACT:

1. The entire parcel, encompassing approximately 23.03 acres, is designated as a utility easement. The applicant proposes to develop 1.0 acres (the Subject Site), consisting of a small portion of the entire parcel. The frontage of the subject site is in conformance with the development standards of the C-2 General Commercial District, pursuant to the Land Development Code (LDC) Section 526.2.A.11, rendering it suitable for the construction of a metal building. The building is proposed to be designed to accommodate commercial equipment for a paving operations enterprise.
2. The applicant has volunteered to record a deed restriction (Attachment 2) to the property providing the following use restrictions:

   The Property will be zoned C-2 General Commercial District upon approval by the Pasco County Board of County Commissioners of the Rezoning and execution and recording of these Restrictions, and the Property has been specifically reserved for those uses and Commercial Uses set forth in the Pasco County Land Development Code ("LDC"). In addition, the Rezoning will not have an expiration date, so such uses will be

permitted to be developed on the Property beyond the expiration date of Section 125.01055(7), Florida Statutes (October 1, 2033). Accordingly, the Declarant has committed to, and is hereby requiring, that the permitted uses for the Property will remain Commercial uses, notwithstanding any potential contrary requirements in Section 125.01055(7), Florida Statutes. This Restriction is being imposed by the Declarant, and is not a requirement of Pasco County, to the extent it prevents any use allowed or preempted by Section 125.01055(7), Florida Statutes.

3. Pursuant to the Project Overview, Findings of Fact (FOF), and Planning Discussion set forth in memorandum PDE26-7909, the zoning amendment is found to be consistent with the Pasco County Comprehensive Plan and applicable provisions of the Land Development Code (LDC).

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Pasco County, Florida, with a quorum present and voting, this 16th day of June, 2026, that the zoning classification of the following described real property is hereby changed from an A-R Agricultural-Residential District to a C-2 General Commercial District effective upon the recordation and delivery to the County of the deed restrictions to the property referenced in finding of fact two.

See Description on Exhibit A Attached

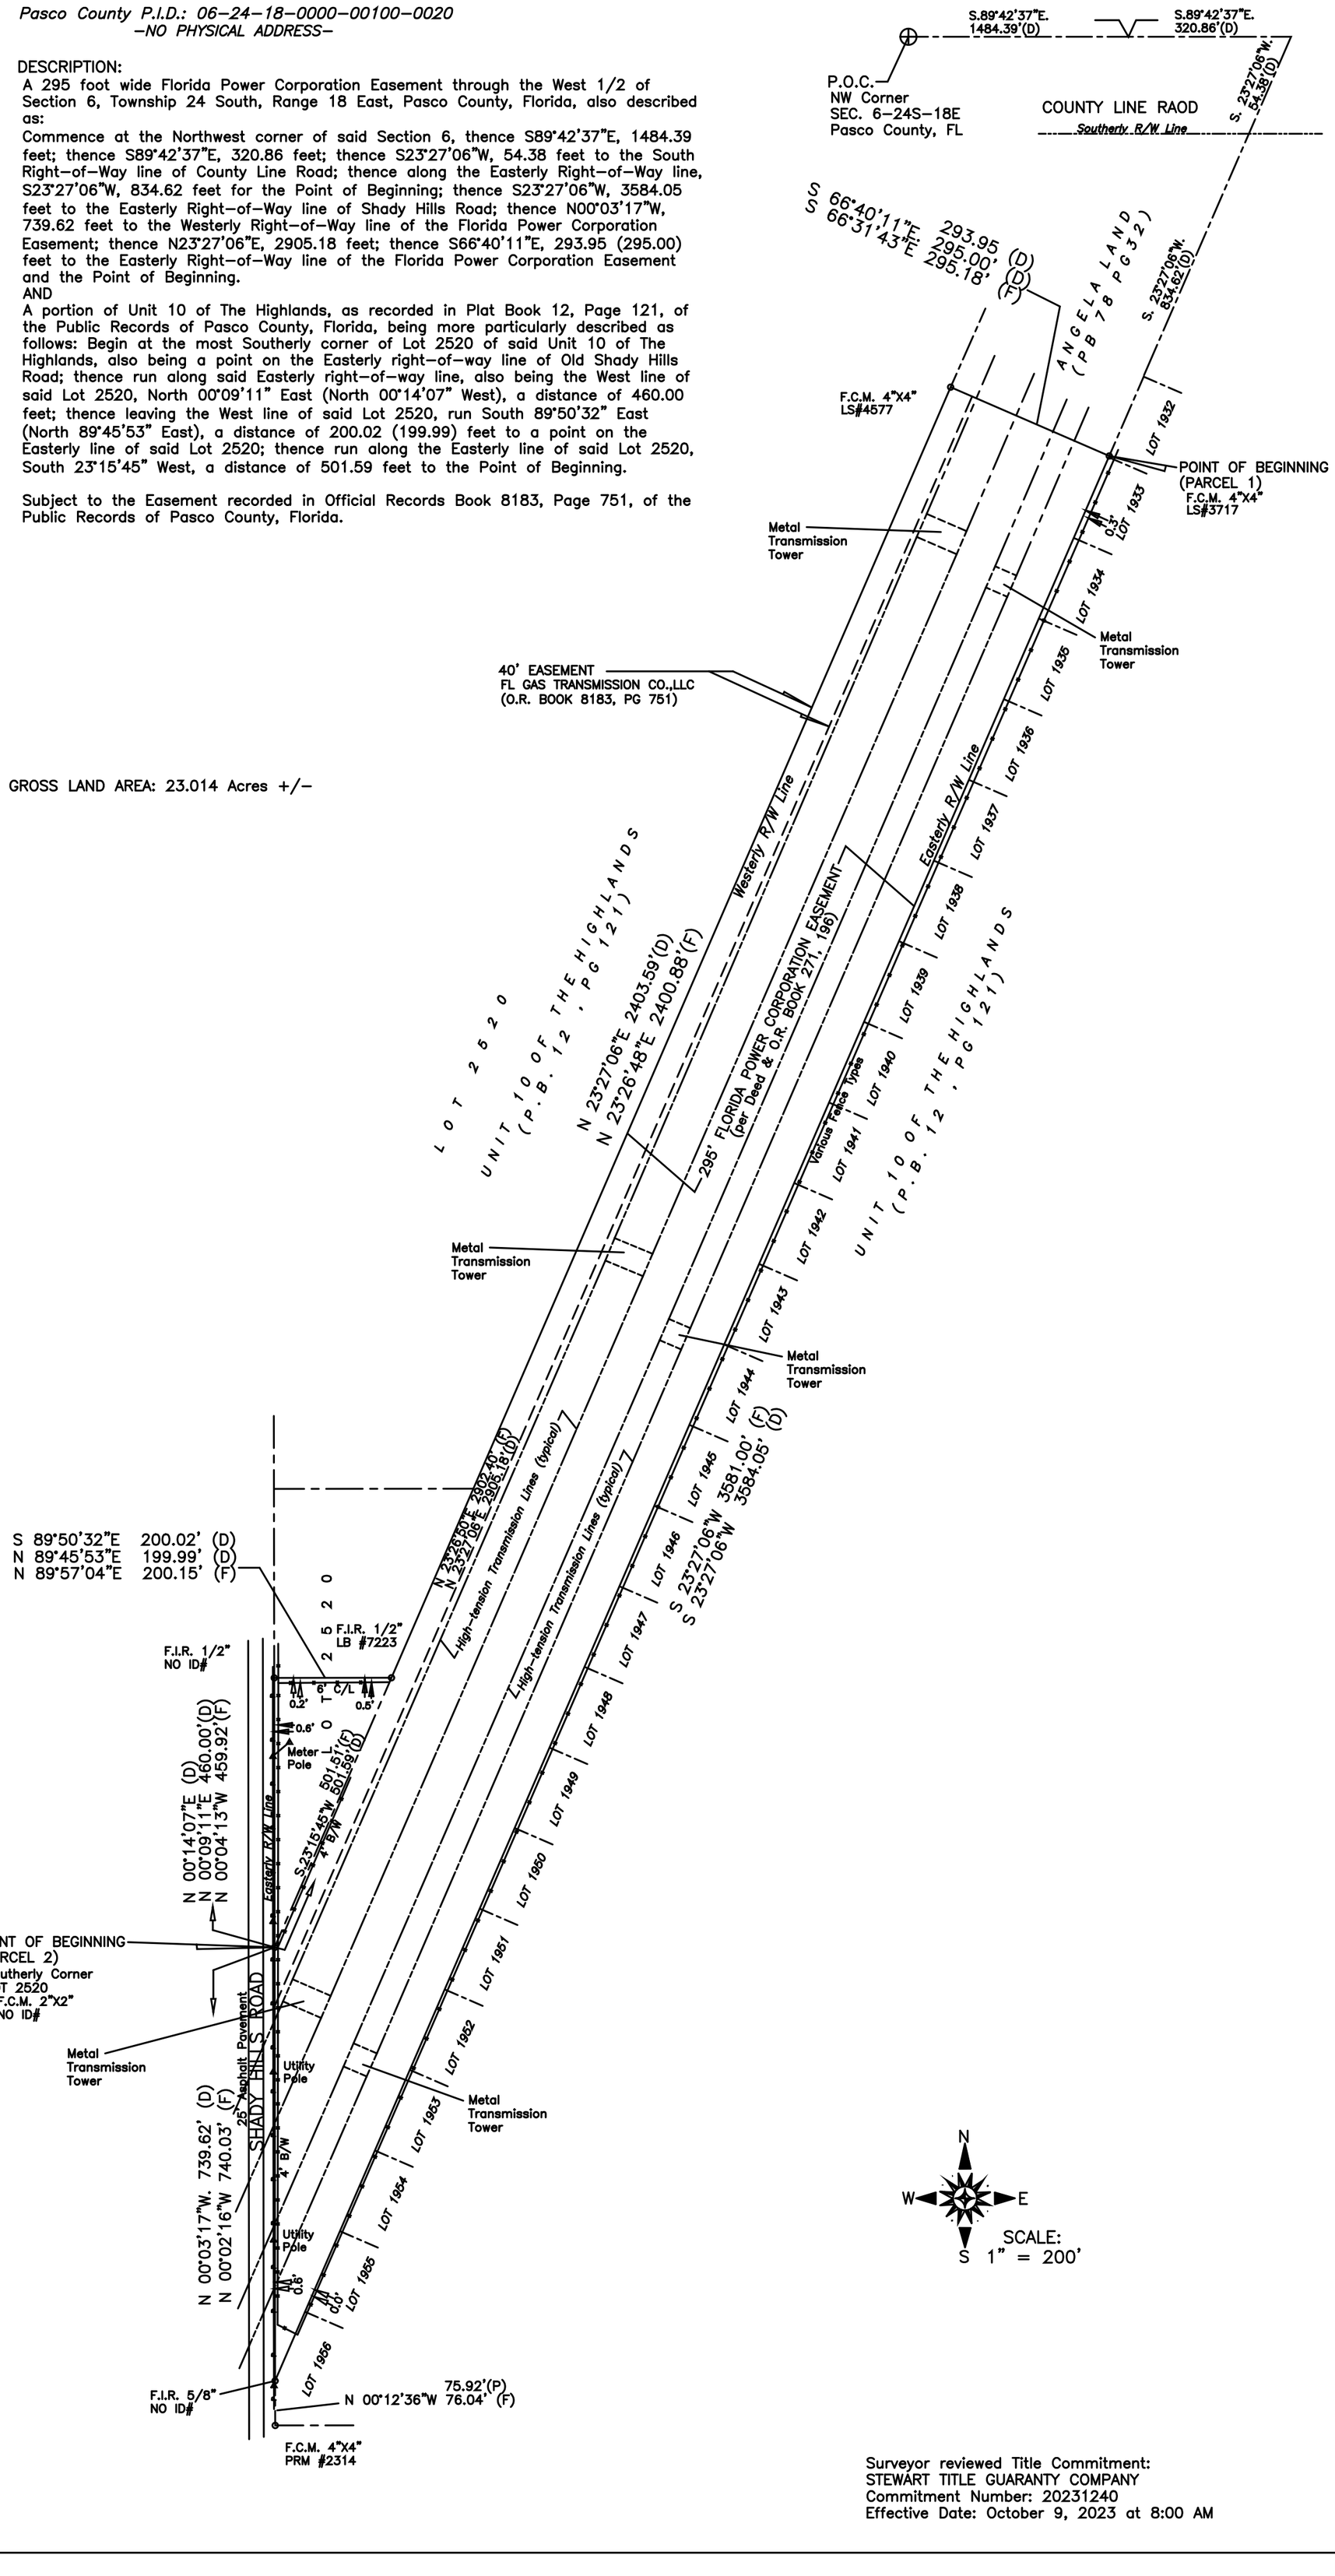
DONE AND RESOLVED this 16th day of June, 2026.

(SEAL)

ATTEST:

BOARD OF COUNTY COMMISSIONERS
OF PASCO COUNTY, FLORIDA

NIKKI ALVAREZ-SOWLES, ESQ
PASCO COUNTY CLERK & COMPTROLLER



JACK MARIANO, CHAIRMAN

Pasco County P.I.D.: 06–24–18–0000–00100–0020
–NO PHYSICAL ADDRESS–

DESCRIPTION:
A 295 foot wide Florida Power Corporation Easement through the West 1/2 of Section 6, Township 24 South, Range 18 East, Pasco County, Florida, also described as:
Commence at the Northwest corner of said Section 6, thence S89°42'37"E, 1484.39 feet; thence S89°42'37"E, 320.86 feet; thence S23°27'06"W, 54.38 feet to the South Right–of–Way line of County Line Road; thence along the Easterly Right–of–Way line, S23°27'06"W, 834.62 feet for the Point of Beginning; thence S23°27'06"W, 3584.05 feet to the Easterly Right–of–Way line of Shady Hills Road; thence N00°03'17"W, 739.62 feet to the Westerly Right–of–Way line of the Florida Power Corporation Easement; thence N23°27'06"E, 2905.18 feet; thence S66°40'11"E, 293.95 (295.00) feet to the Easterly Right–of–Way line of the Florida Power Corporation Easement and the Point of Beginning.
AND
A portion of Unit 10 of The Highlands, as recorded in Plat Book 12, Page 121, of the Public Records of Pasco County, Florida, being more particularly described as follows: Begin at the most Southerly corner of Lot 2520 of said Unit 10 of The Highlands, also being a point on the Easterly right–of–way line of Old Shady Hills Road; thence run along said Easterly right–of–way line, also being the West line of said Lot 2520, North 00°09'11" East (North 00°14'07" West), a distance of 460.00 feet; thence leaving the West line of said Lot 2520, run South 89°50'32" East (North 89°45'53" East), a distance of 200.02 (199.99) feet to a point on the Easterly line of said Lot 2520; thence run along the Easterly line of said Lot 2520, South 23°15'45" West, a distance of 501.59 feet to the Point of Beginning.

Subject to the Easement recorded in Official Records Book 8183, Page 751, of the Public Records of Pasco County, Florida.

Tampa Bay Times

Published Daily

STATE OF FLORIDA} ss
COUNTY OF PASCO County

Before the undersigned authority personally appeared Deirdre Bonett who on oath says that he/she is a Legal Advertising Representative of the Tampa Bay Times a daily newspaper printed in St. Petersburg, in Pasco County, Florida that the attached copy of advertisement being a Legal Notice in the matter PDE26-037 was published in said newspaper by print in the issues of 05/06/26 or by publication on the newspaper's website, if authorized.

Affiant further says that the website or newspaper complies with all legal requirements for publication in chapter 50, Florida Statutes. Affiant further says the said Tampa Bay Times is a newspaper published in Pasco County, Florida and that the said newspaper has heretofore been continuously published in said Pasco County, Florida each day and has been entered as a second class mail matter at the post office in said Pasco County, Florida for a period of one year next preceding the first publication of the attached copy of advertisement, and affiant further says that he/she neither paid nor promised any person, firm or corporation any discount, rebate, commission or refund for the purpose of securing this advertisement for publication in the said newspaper.

Signature of Affiant _____

Commission # HH 577686
My Commission Expires July 31, 2028

NOTICE OF PUBLIC HEARINGS
ON REZONINGS FOR PROPERTIES
LOCATED IN PASCO COUNTY

PUBLIC NOTICE is hereby given that the Pasco County Board of County Commissioners will hold a public hearing **on Tuesday, May 19, 2026, at the West Pasco Government Center, Board Room, 8731 Citizens Drive, New Port Richey, Florida, at 1:30 p.m.**, to consider applications for rezoning and/or conditional use pursuant to the provisions of the Pasco County Land Development Code, Chapter 400. All hearings will be conducted at the stated time or as soon thereafter as is practical on the following application(s):

1. Nguyen Thien/Little Road MPUD (RZ-7721) petition for a rezoning from a E-R Estate-Residential District to a MPUD Master Planned Unit Development District for a parcel located on the east side of Little Road, approximately 500 feet north of Jasmine Boulevard (aka 13-25-16-0040-00000-1521 et al).

PUBLIC NOTICE is hereby given that the Pasco County Planning Commission will hold a public hearing **on Thursday, May 21, 2026, at the West Pasco Government Center, Board Room, 8731 Citizens Drive, New Port Richey, Florida, at 1:30 p.m.**, and that the Pasco County Board of County Commissioners will hold a public hearing **on Tuesday, June 16, 2026, at the West Pasco Government Center, Board Room, 8731 Citizens Drive, New Port Richey, Florida, at 1:30 p.m.**, to consider applications for rezoning and/or conditional use pursuant to the provisions of the Pasco County Land Development Code, Chapter 400. All hearings will be conducted at the stated time or as soon thereafter as is practical on the following application(s):

2. R & R Property Investments LLC / R & R Property Shady Hills (RZ-7909) petition for a rezoning from an A-R Agricultural-Residential District to a C-2 General Commercial District for a parcel located on the east side of Shady Hills Road, approximately 75 feet north of the intersection of shady Hills Road and Floralton Drive (aka 06-24-18-0000-00100-0020 (portion of).

3. M&M Route 54 West LLC / Mitchell 54 West MPUD (RZ-7897) petition for a rezoning from a MPUD Master Planned Unit Development District to a MPUD Master Planned Unit Development District for a parcel located on the south side of State Road 54, approximately one-quarter mile west of Little Road (aka 23-26-16-0110-0D600-0000 et al).

Information concerning these matters will be on file and available for examination by appointment only in the office of the Pasco County Planning, Development and Economic Growth Department, West Pasco Government Center, 8731 Citizens Drive, Suite 200, New Port Richey, Florida 34654, or anytime on our website: www.pascocountyfl.net. To make an appointment or for further information, you may call 727-847-8140. All interested parties may participate in the public hearing and be heard. To learn how to participate in this hearing virtually, which requires advance registration, please visit http://mypasco.net/meetingagendas.

Any person desiring to appeal any decision made by the Planning Commission or the Pasco County Board of County Commissioners with respect to any matter considered at any hearing will need a record of the proceedings and may need to ensure that a verbatim record of the proceedings is made which includes the testimony and evidence upon which the appeal is to be based. Persons may obtain a verbatim record of the proceeding by contacting the Clerk and Comptroller's Office, East Pasco Government Center, 14236 6th Street, Suite 201, Dade City, Florida 33523-3414; or at (352) 521-4345.

For questions or inquiries about this meeting, members of the public can reach out to the County's Customer Service Center (727) 847-2411 or County Administration (727) 847-8115 or visit www.mypasco.net. To view the Local Planning Agency and Board of County Commissioners Agendas, please visit http://mypasco.net/meetingagendas.

If you are a person with a disability who needs any accommodation in order to participate in this proceeding, you are entitled, at no cost to you, to the provision of certain assistance. Please contact the County's Human Resources Department, Internal Services Building, 7536 State Street, New Port Richey, Florida 34654, (727) 847-8030 (V) at least 7 days before the public hearing, or immediately upon receiving this notification if the time before the public hearing is less than 7 days; if you are hearing or voice impaired, call 711.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: 3 **FILE NO.:** PDE26-7897 **DATE:** 6/16/2026

SUBJECT: Zoning Amendment Substantial Modification (Regular) — Mitchell 54 West MPUD – M&M ROUTE 54 WEST LLC – A Substantial Amendment to the Mitchell 54 West MPUD Master Planned Unit Development District to Remove the Transit Oriented Design and Mixed Use Trip Reduction Measures Requirements and to Reduce the Non-Residential Entitlements to 460,000 Square Feet of Commercial and Add 240 Hotel Rooms and Associated Infrastructure on Approximately 330 Acres Located in Southwest Pasco County on the Southwest Quadrant of the Intersection of State Road 54 and Little Road

REFERENCES: All Planning Commission (PC) and Board of County Commissioner (BCC) Public Hearings at 1:30 p.m. in New Port Richey (NPR) or Dade City (DC): PC at NPR 5/21/2026 - BCC at NPR 6/16/206

AGENDA SECTION: Public Hearings

THRU: David Allen, Assistant County Administrator

FROM: David Engel, Director Planning, Development and Economic Growth

RECOMMENDED BOARD ACTION:

Approve the MPUD rezoning request subject to the attached rezoning Conditions of Approval. Authorize the Chairman to execute one original of the Resolution provided, and direct Board Records to distribute as set forth under the Distribution section below.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

PROJECT OVERVIEW

Land Development Code (LDC) Section 402.2, Zoning Amendment – MPUD Master Planned Unit Development ; Section 522 – MPUD Zoning District.

Proposed is a substantial amendment to the Mitchell 54 West MPUD Master Planned Unit Development District to reduce the non-residential entitlements to 460,000 square feet (sf) of Commercial and add 240 hotel rooms associated infrastructure on approximately 330 acres located in southwest Pasco County on the southwest quadrant of the intersection of State Road 54 and Little Road.

The table below identifies the currently approved entitlements compared against the existing/built entitlements and the new total of entitlements through this substantial modification.

Approved Entitlements	Existing Built Entitlements	New Total Entitlements
980,000 sf Commercial	175,000 sf Commercial	460,000 sf Commercial

800 Residential Dwelling Units	240 Single Family Detached 422 Townhomes	662 Residential Dwelling Units
*LUEM Currently allows exchanges to multi-family		240 Hotel Rooms
		*LUEM prohibits conversion to residential

This proposed substantial modification also removes the Mixed-Use Trip Reduction Measures (MUTRM) and Transit Oriented Design (TOD) requirements that were originally given to this MPUD. The developer, as a result of both the MUTRM and TOD plan approval with the original MPUD, received the applicable impact fee reductions given to both styles of development. There is a companion amendment to an Economic Development Agreement (EDA), which requires the developer to pay the County back for anything built within the MPUD that received these impact fee reductions as a result of the removal of both the MUTRM and TOD plans (PDE26-0571). Currently, the estimated total for the reimbursement to the County stands at $3.5 million.

There are no changes to the external site access improvements, trip generation monitoring table, right of way dedication, or the master roadway phasing exhibits. These are attached hereto. The MPUD has added a binding concept plan, binding connectivity plan, binding materials palette plan, binding master landscape plan, and binding master landscape package exhibit to this submittal, which are also attached hereto. Additionally, the Land Use Equivalency Matrix (LUEM) has been updated with this substantial modification to prohibit any conversion to residential dwelling units.

The binding concept plan and connectivity plan highlight the pedestrian movements that are proposed within the subject site, illustrating pedestrian/bike circulation to and from existing commercial and residential development. The master landscape plan and materials palette illustrate the steps being taken to break up parking and provide human-scale plantings and architecture to frame internal drives and buildings. Additionally, specific building orientation conditions have been included to guide non-residential development and to provide shared social places between different non-residential users. All master infrastructure depicted on the connectivity plan shall be constructed prior to the final building inspection for the first certificate of occupancy within the center. For the purposes of clarity, there are parcels included in this MPUD that are not a part of the binding plans nor contiguous with the binding plans in the southeastern portion of the subject site along Little Road (Parcel IDs: 26 26 16 0000 00100 0100 and 26 26 16 0000 00100 0110). These particular parcels shall be non-residential and the form and orientation of these uses is expressly governed by condition 10, which specifies building and parking orientation and the requirement of integrating a social gathering space to be identified on the first PDP/PSP submittal

for these parcels.

The applicant is also seeking the following variations from the LDC:

LDC Section 905.2.D.5 - Site Perimeter Landscape Buffering and Screening – The applicant requests a variation to this section of the LDC due to the Binding Landscape Plan.

LDC Section 905.2.D.4 - Building Perimeter Landscaping - The applicant requests a variation to this section of the LDC due to the Binding Landscape Plan.

STAFF VARIATION REQUEST(S) ANALYSIS:

LDC Section 905.2.D.5 - Site Perimeter Landscape Buffering and Screening - Preliminary Site and Construction Plans are approved on a parcel-by-parcel basis for the property covered by the MPUD Binding Concept Plan. The LDC treats each of those parcels as individual parcels and requires site perimeter landscape buffering and screening for each of the parcels. This LDC requirement will isolate the various non-residential parcels instead of integrating the users within the project. The Binding Plans (Exhibits C, D, E, K and L) provide a well landscaped, architecturally themed, integrated project; and therefore, meet the intent and purpose of the LDC. Given this, PDE is amenable to this request.

LDC Section 905.2.D.4 - Building Perimeter Landscaping - Special attention has been given to the layout of the home improvement store to facilitate its unique need for material delivery, loading, staging, and shipments. Because of this, the one size fits all building perimeter landscaping requirements need to be adjusted to meet the specific needs of this end user. The proposed design accommodates the required landscape perimeter length and width, but because of the unique attributes described above, it is short of the overall area (square footage) of building perimeter landscaping required by the LDC. In order to meet the intent of the County's landscape code, this deficit has been offset with enhanced buffer landscaping around the perimeter of the home improvement store parcel as depicted on the Master Landscape Plan and in the Master Landscape Package. Given this, PDE is amenable to this request.

This agenda memo was prepared by William Vermillion, Senior Planner, AICP, CNU-A

SITE DETAILS

The project is located in the South Market Area, on the southwest quadrant of the intersection of State Road 54 and Little Road (Parcel ID Nos.: 23-26-16-0110-0D600-0000, et. al.).

Commission District:	The Honorable Kathryn Starkey
Project Name:	Mitchell 54 West

Applicants' Name(s) :	M&M
Current Zoning District:	MPUD Master Planned Unit Development District
Proposed Zoning District:	MPUD Master Planned Unit Development District
Future Land Use (FLU) Classification:	Planned Development (PD)
Water/Sewage:	Pasco/Pasco
Flood Zone:	A & AE
Requested Entitlements:	460k sf Commercial (175k built), 240 Hotel Rooms, and 662 Residential DU (built)
Roads/Access:	SR 54 (public), Little Road (public), Bear Landing Way (public), Legends Pasture Road (public)

MPUD SURROUNDING CONDITIONS ANALYSIS

1. The surrounding area is characterized by single-family detached development and town home development on the periphery of the intersectional node of SR 54 and Little Road transitioning to commercial development occupying the core internal areas of the node.

SURROUNDING ZONING AND LAND USES

	Zoning District	Future Land Use (FLU)	Existing Use
North	PUD Planned Unit Development, A-C Agricultural District, C-2 General Commercial District	RES-6 (Residential 6 du/ga), RES-9 (Residential 9 du/ga)	Vacant/ Commercial Development
South	A-C Agricultural District (School Site J.W. Mitchell)	RES-6 (Residential 6 du/ga), RES-9 (Residential 9 du/ga)	School Site
East	C-2 General Commercial District	ROR (Retail/Office/Residential)	Commercial Development
West	MPUD Master Planned Unit Development (Trinity Communities)	RES-3 (Residential 3 du/ga)	Residential Development

PREVIOUS ZONING ACTION(S) AND BACKGROUND DETAILS

On May 19, 2015, the BCC approved a rezoning for this property from A-C Agricultural District, C-2 General Commercial District, and MPUD Master Planned Unit Development District to the Mitchell 54 West MPUD Master Planned Unit Development District (RZ 7116; PDD15-1032).

On January 13, 2017, the BCC entered into a Cooperative Economic Development Agreement with Mitchell 54 Venture, LLC, a Delaware limited liability company (the "2017 Agreement").

On March 27, 2018, the BCC approved an Amended and Restated Economic Development Agreement assigning the 2017 Agreement from Mitchell 54 Venture to Mitchell Ranch Partnership, LTD (the "March 2018 Agreement").

On November 14, 2018, the BCC approved a substantial amendment to the Mitchell 54 West MPUD Master Planned Unit Development District (RZ 7116; PDD 19-0174) for the following entitlements: 980,000 SF Commercial & Mixed Use and 800 Residential Units, subject to Land Use Equivalency Matrix (LUEM) exchanges.

On November 27, 2018, the BCC approved an Amended and Restated Economic Development Agreement assigning the March 2018 Agreement from Mitchell Ranch Partnership, LTD. to M&M Route 54 West LLC.

On April 27, 2021, the PDD approved a Non-Substantial Modification to amend the MPUD to approve the TOD Concept Plan for Rezoning Petition Number 7116.

On December 6, 2022, the County approved a First Amendment to the November 27, 2018, Amended and Restated Cooperative Economic Development Agreement between Pasco County, Florida and M&M Route 54 West LLC.

On September 15, 2023, the PDD approved a request to utilize the approved Mitchell 54 West MPUD LUEM to exchange a total of 143,085 square feet of commercial/retail for 539 multi-family dwelling units.

FINDING OF FACT

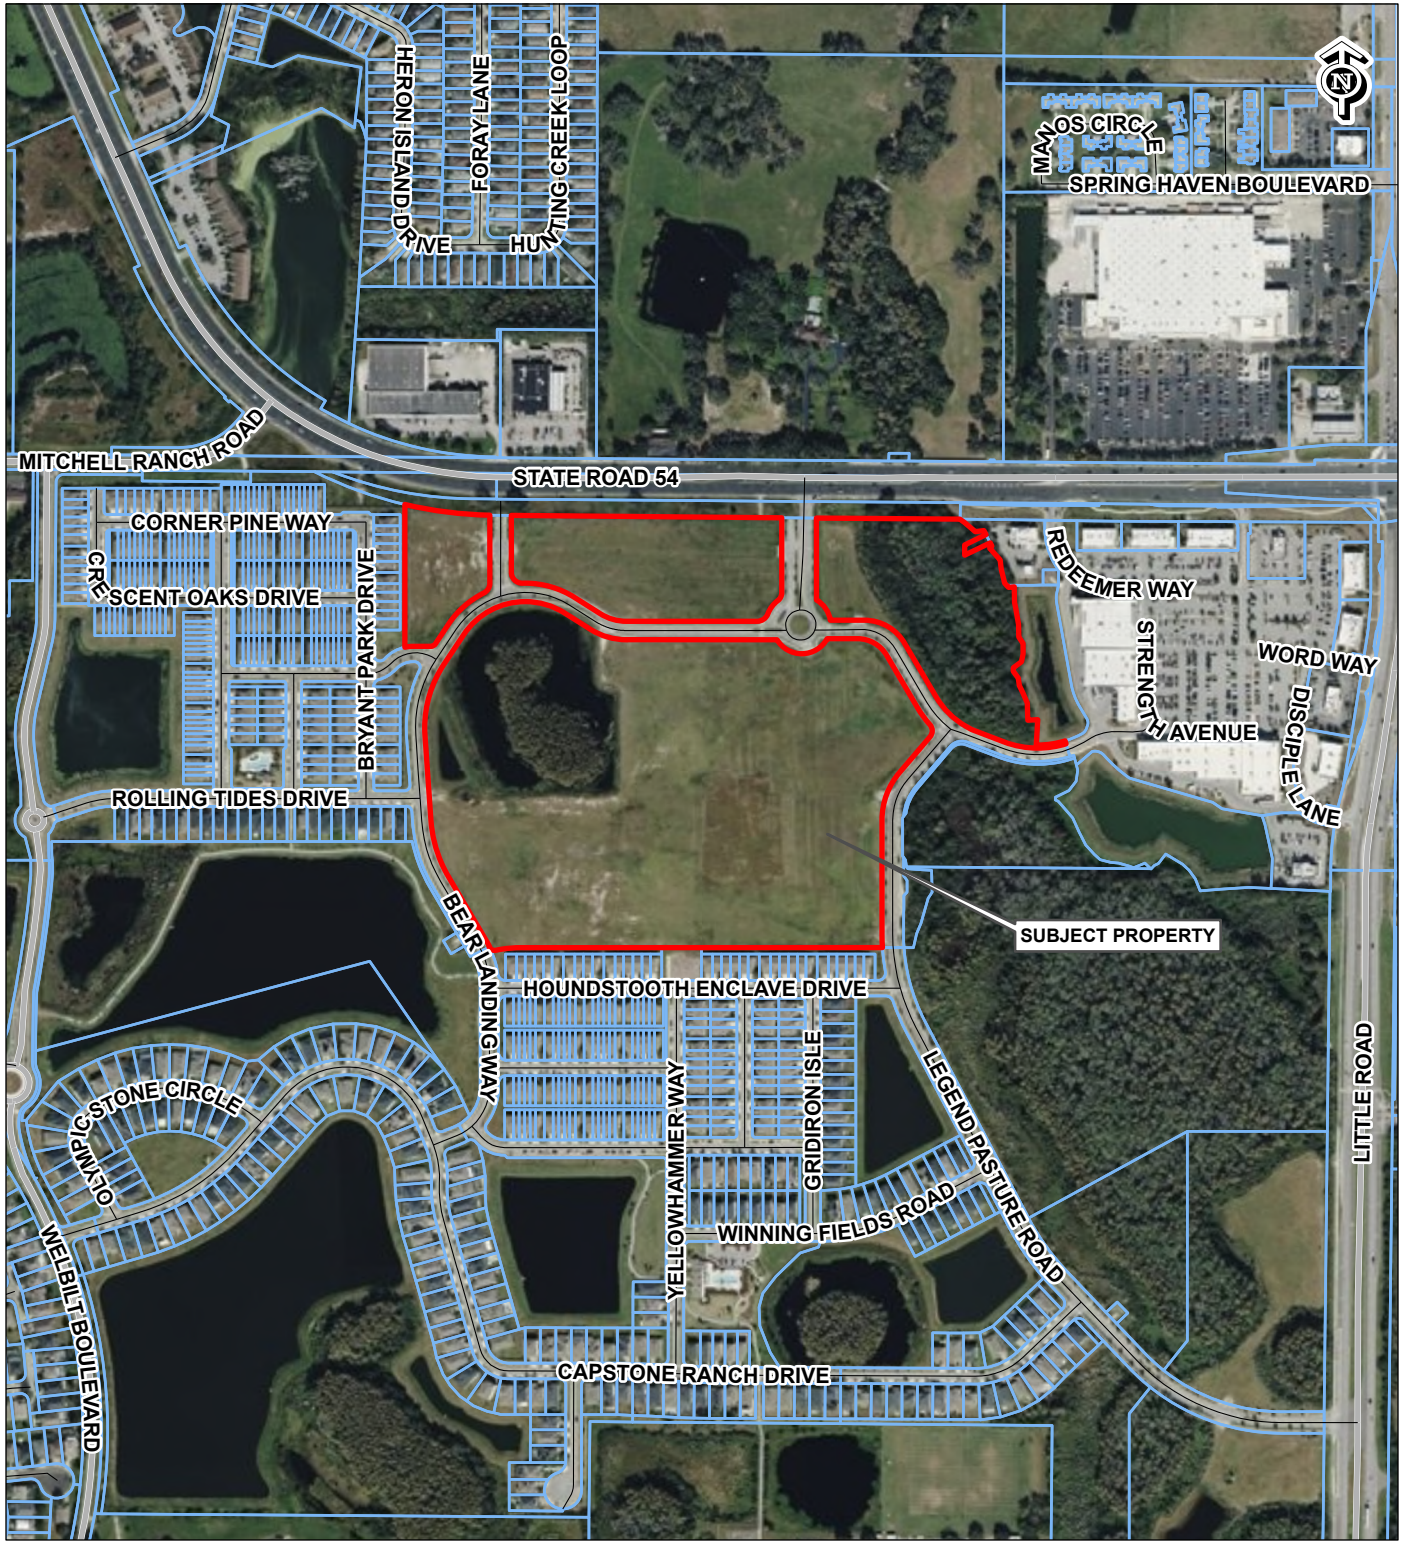
1. The subject sites are currently undeveloped aside from the existing roadway infrastructure onsite. There is currently commercial development constructed at the hard corner of Little Road and SR 54 with single family homes and townhomes constructed to the south of the vacant subject sites within the Mitchell 54 West MPUD.
2. There are several GoPasco stops around the intersection of SR 54 and Little Road (6 in total), with one stop interior to the subject site on Legends Pasture Road.
3. The applicant will be widening the pedestrian infrastructure on the south side of SR 54 to a ten (10) foot multi-use path as shown on the connectivity plan. The connectivity plan also illustrates the already existing 10 (ten) foot multi-use paths already constructed on Bear Landing Way and Legends Pasture Road.
4. This proposal includes a Binding Concept Plan and Binding Connectivity Plan as a

part of the substantial modification.
5. This project has included the standard Live Local provisions.
6. The Planning Commission voted unanimously to recommend approval with conditions on the proposed substantial amendment to the Board of County Commissioners at the May 21, 2026, Planning Commission hearing in New Port Richey.
7. LDC Section 402.2.C.8 specifies that variations from this Code may be reviewed and approved by the PC and BCC during the public hearing held on any application for an MPUD zoning amendment and the BCC finds, in the particular case, that the proposed variation(s) meet(s) or exceed(s) the intent of the Code. The Planning, Development and Economic Growth Department (PDE) has reviewed the requested variation(s) and finds that they meet the intent of the LDC as noted.
8. The proposed request is consistent with the Pasco County LDC, Chapter 400, Subsection 402.2 Zoning Amendment - MPUD Master Planned Unit Development, and with the applicable provisions of the Pasco County Comprehensive Plan.

PRELIMINARY FEASIBILITY ANALYSIS

A preliminary feasibility analysis was conducted by the PDE. The following assessments/comments/conditions are derived from the various County departments and other agencies.

1. Timing and Phasing (T&P) and/or Substandard Road Analysis (SSRA): The PDE Transportation Planner concluded that the reduction of entitlements in this proposal does not generate more than 50 am/pm peak trips and is exempt from T&P analysis. State Road 54 and Little Road are both standard roadways.
2. Pasco County Utilities (PCU): PCU is in agreement with the conditions provided herein.
3. Pasco Sheriff's Office (PSO): The PSO did not provide comments on this proposal.
4. Fire: Fire Services issued no comments on this proposal.
5. Emergency Management: The Emergency Management Department issued no comments on this proposal.
6. School District: There is no additional residential units being added with this proposal.
7. Parks, Recreation, and Natural Resources (PRNR): The PRNR is in agreement with the conditions provided herein.
8. Office of Economic Growth (OEG): OEG is in agreement with the proposed EDA which facilitates the modifications identified in this substantial amendment to the MPUD.



FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding is not required for this action.

BY THE BOARD OF COUNTY COMMISSIONERS **RESOLUTION NO. 26-57RZ**

RESOLUTION AMENDING ZONING CLASSIFICATION OF PROPERTY FROM AN MPUD MASTER PLANNED UNIT DEVELOPMENT DISTRICT TO AN MPUD MASTER PLANNED UNIT DEVELOPMENT DISTRICT AS DESCRIBED IN REZONING PETITION NO. 7897

WHEREAS, the Board of County Commissioners of Pasco County, after due public notice, held a public hearing on June 16th, 2026, on Rezoning Application No. 7897; and

WHEREAS, the Board of County Commissioners has heard the presentation and evidence of the applicant and individuals in opposition to and in favor of the application; and

WHEREAS, the Board of County Commissioners has reviewed the report and recommendations of the Planning Commission and the recommendation of the County staff and does hereby adopt the following findings of fact:

FINDINGS OF FACT

1. The subject sites are currently undeveloped aside from the existing roadway infrastructure onsite. There is currently commercial development constructed at the hard corner of Little Road and SR 54 with single family homes and townhomes constructed to the south of the vacant subject sites within the Mitchell 54 West MPUD.
2. There are several GoPasco stops around the intersection of SR 54 and Little Road (6 in total), with one stop interior to the subject site on Legends Pasture Road.
3. The applicant will be widening the pedestrian infrastructure on the south side of SR 54 to a ten (10) foot multi-use path as shown on the connectivity plan. The connectivity plan also illustrates the already existing 10 (ten) foot multi-use paths already constructed on Bear Landing Way and Legends Pasture Road.

4. This proposal includes a Binding Concept Plan and Binding Connectivity Plan as a part of the substantial modification.
5. This project has included the standard Live Local provisions.
6. The Planning Commission voted unanimously to recommend approval with conditions on the proposed substantial amendment to the Board of County Commissioners at the May 21, 2026, Planning Commission hearing in New Port Richey.
7. LDC Section 402.2.C.8 specifies that variations from this Code may be reviewed and approved by the PC and BCC during the public hearing held on any application for an MPUD zoning amendment and the BCC finds, in the particular case, that the proposed variation(s) meet(s) or exceed(s) the intent of the Code. The Board of County Commissioners (BCC) has reviewed the requested variation(s) and finds that they meet the intent of the LDC as noted.
    a. LDC Section 905.2.D.5 - Site Perimeter Landscape Buffering and Screening - Preliminary Site and Construction Plans are approved on a parcel-by-parcel basis for the property covered by the Binding MPUD Concept Plan. The LDC treats each of those parcels as individual parcels and requires site perimeter landscape buffering and screening for each of the parcels. This LDC requirement will isolate the various non-residential parcels instead of integrating the users within the project. The Binding Plans (Exhibits C, D, E, K and L) provide a well landscaped, architecturally themed, integrated project; and therefore, meet the intent and purpose of the LDC.
    b. LDC Section 905.2.D.4 - Building Perimeter Landscaping - Special attention has been given to the layout of the home improvement store to

facilitate its unique need for material delivery, loading, staging, and shipments. Because of this, the one size fits all building perimeter landscaping requirements need to be adjusted to meet the specific needs of this end user. The proposed design accommodates the required landscape perimeter length and width, but because of the unique attributes described above it is short of the overall area (square footage) of building perimeter landscaping required by the LDC. In order to meet the intent of the County's landscape code, this deficit has been offset with enhanced buffer landscaping around the perimeter of the home improvement store parcel as depicted on the Master Landscape Plan and in the Master Landscape Package.

8. The proposed request is consistent with the Pasco County LDC, Chapter 400, Subsection 402.2 Zoning Amendment - MPUD Master Planned Unit Development, and with the applicable provisions of the Pasco County Comprehensive Plan.

WHEREAS, the Board of County Commissioners has taken into consideration other factors relevant to the decision as to whether the zoning classification should be approved for the subject property.

WHEREAS, a description of the real property is attached hereto as Exhibit A and is made part hereof.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Pasco County, Florida, in regular session duly assembled with a quorum present and voting, this 16th day of June, 2026, that the zoning classification of the following described real property is hereby amended to an MPUD Master Planned Unit Development, subject to the amended

and restated conditions and master plan for the Mitchell 54 West MPUD as set forth in Exhibits B and C attached hereto and made part hereof.

DONE AND RESOLVED this 16th day of June 2026.

(SEAL)

thence N64°20'38"E, for 11.49 feet; thence N64°16'59"E, for 4.26 feet; thence N37°41'42"E, for 38.23 feet; thence S58°53'21"E, for 63.12 feet; thence S47°30'02"E, for 28.50 feet; thence S35°47'44"E, for 35.15 feet; thence S22°14'29"E, for 42.92 feet; thence N84°39'59"E, for 63.75 feet; thence N86°43'45"E, for 94.58 feet; thence S87°27'23"E, for 74.94 feet; thence S87°05'04"E, for 190.93 feet to the point of intersection with said Westerly Right-of-Way line of LITTLE ROAD, as described in Official Records Book 1469, Page 1422; thence S00°39'53"W, along said Westerly Right-of-Way line of LITTLE ROAD, as described in Official Records Book 1469, Page 1422, for 780.35 feet; thence leaving said Westerly Right-of-Way line of LITTLE ROAD, as described in Official Records Book 1469, Page 1422, N90°00'00"W, for 456.21 feet; thence S00°00'00"E, for 680.15 feet; thence S38°32'44"W, for 123.81 feet to the point of intersection with a non-tangent curve, concave Northerly; thence Easterly along the arc of said curve, with a radial bearing of N38°32'44"E, having a radius of 617.50 feet, a central angle of 38°32'44", an arc length of 415.42 feet, and a chord bearing S70°43'38"E, for 407.63 feet, to the point of tangent; thence N90°00'00"E, for 137.99 feet to the point of intersection with said Westerly Right-of-Way line of LITTLE ROAD, as described in Official Records Book 1469, Page 1422; thence S00°39'53"W, along said Westerly Right-of-Way line of LITTLE ROAD, as described in Official Records Book 1469, Page 1422, for 70.00 feet; thence leaving said Westerly Right-of-Way line of LITTLE ROAD, as described in Official Records Book 1469, Page 1422, S90°00'00"W, for 137.18 feet to the point of curvature of a curve concave Northerly; thence Westerly along the arc of said curve, having a radius of 687.50 feet, a central angle of 38°32'44", an arc length of 462.51 feet, and a chord bearing N70°43'38"W, for 453.84 feet to the point of intersection with a non-tangent line; thence S38°32'44"W, for 109.94 feet; thence S00°00'00"E, for 584.10 feet; thence N90°00'00"E, for 628.06 feet to the point of intersection with said Westerly Right-of-Way line of LITTLE ROAD, as described in Official Records Book 1469, Page 1422; thence S00°39'53"W, along said Westerly Right-of-Way line of LITTLE ROAD, as described in Official Records Book 1469, Page 1422, for 174.00 feet to the POINT OF BEGINNING.

TOGETHER WITH THE FOLLOWING M&M PARCELS

Developer Parcels

PARCEL 1 (M&M COMMERCIAL):

A parcel of land being a portion of Sections 23 and 26, Township 26 South, Range 16 East, Pasco County, Florida, being more particularly described as follows:

COMMENCE at the Southwest corner of the Southeast 1/4 of Section 23, Township 26 South, Range 16 East, Pasco County, Florida; thence N00°10'18"E, along the West line of said Southeast 1/4 of Section 23 (being the basis of bearings for this legal description), for 1,186.46 feet to the point of intersection with the South Right-of-Way line of STATE ROAD 54, as described in Official Records Book 2058, Page 1993, and Official Records Book 2059, Page 1, both of the Public Records of Pasco County, Florida, same being the POINT OF BEGINNING; thence leaving said West line of the Southeast 1/4 of Section 23, S89°32'48"E, along said South Right-of-Way line of STATE ROAD 54, as described in Official Records Book 2059, Page 1, and Official Records Book 2058, Page 1999, of the Public Records of Pasco County, Florida, respectively, for 1,183.46 feet; thence leaving said South Right-of-Way line of STATE ROAD 54, according to Official Records Book 2058, Page 1999, S00°27'12"W, for 53.70 feet; thence S52°55'46"E, for 18.78 feet; thence S49°59'15"E, for 46.05 feet; thence N81°22'55"E, for 28.05 feet; thence S27°00'44"E, for 15.26 feet to the point of intersection with the Westerly line of that certain property as described in Official Records Book 4216, Page 1356 of the Public Records of Pasco County, Florida; thence along said Westerly line of that certain property as described in Official Records Book 4216, Page 1356 the following three (3) courses: (1) thence S64°29'40"W, for 77.17 feet; (2) thence S00°00'51"E, for 33.24 feet; (3) thence N64°29'40"E, for 92.27 feet; thence leaving said Westerly line of that certain property as described in Official Records Book 4216, Page 1356, S27°00'44"E, for 11.71 feet; thence S45°50'13"W, for 9.95 feet; thence S40°59'00"E, for 51.02 feet; thence S07°59'39"E, for 29.08 feet; thence S12°52'33"E, for 47.84 feet; thence S45°41'57"E, for 18.80 feet; thence N86°17'41"E, for 18.19 feet; thence S01°00'16"E, for 50.44 feet; thence S10°19'26"E, for 21.96 feet; thence S09°58'46"E, for 51.15 feet; thence S01°54'20"E, for 40.31 feet; thence S34°05'10"E, for 24.92 feet; thence S00°10'13"W, for 34.68 feet; thence S12°12'20"W, for 26.37 feet; thence S53°33'19"W, for 31.88 feet; thence S04°01'54"W, for 10.83 feet; thence S34°58'03"E, for 28.28 feet; thence S07°48'57"E, for 24.52 feet; thence S26°04'58"E, for 27.76 feet; thence S23°35'24"E, for 35.01 feet; thence S00°40'51"E, for 34.18 feet; thence S03°58'09"E, for 21.19 feet; thence N86°52'30"E, for 31.46 feet; thence S03°02'10"W, for 82.63 feet to the point of intersection with a non-tangent curve, concave Northerly; thence Easterly along the arc of said curve, with a radial bearing of N00°56'28"E, having a radius of 300.00 feet, a central angle of 18°09'08", an arc length of 95.04 feet, and a chord bearing N81°51'54"E, for 94.65 feet, to the point of intersection with a non-tangent line; thence S17°12'40"E, for 53.00 feet to the point of intersection with a non-tangent curve, concave Northerly; thence Easterly along the arc of said curve, with a radial bearing of N17°12'40"W, having a radius of 353.00 feet, a central angle of 02°09'45", an arc length of 13.32 feet, and a chord bearing N71°42'27"E, for 13.32 feet, to the point of intersection with a non-tangent line; thence S14°45'00"E, for 10.03 feet to the point of intersection with a non-tangent curve, concave Northerly; thence Westerly along the arc of said curve, with a radial bearing of N19°14'46"W, having a radius of 363.00 feet, a central angle of 40°05'33", an arc length of 254.01 feet, and a chord bearing N89°11'59"W, for 248.86 feet, to the point of tangent; thence N69°09'13"W, for 111.09 feet to the point of curvature of a curve concave Southerly; thence Westerly along the arc of said curve, having a radius of 40.00 feet, a central angle of 70°22'49", an arc length of 49.13 feet, and a chord bearing S75°39'23"W, for 46.10 feet to the point of tangent; thence S40°27'59"W, for 171.49 feet to the point of curvature of a curve concave Southeasterly; thence Southwesterly along the arc of said curve, having a radius of 157.50 feet, a central angle of 32°18'25", an arc length of 88.81 feet, and a chord bearing S24°18'46"W, for 87.64 feet to the point of intersection with a non-tangent line; thence S38°42'42"W, for 18.22 feet to the point of intersection with a non-tangent curve, concave Easterly; thence Southerly along the arc of said curve, with a radial bearing of S87°13'00"E, having a radius of 167.50 feet, a central angle of 02°47'00", an arc length of 8.14 feet, and a chord bearing S01°23'30"W, for 8.14 feet, to the point of tangent; thence S00°00'00"E, for 116.04 feet; thence S36°56'00"E, for 16.64 feet; thence S07°11'50"E, for 22.86 feet; thence S37°56'19"E, for 7.08 feet; thence S85°58'46"E, for 46.98 feet; thence S86°01'21"E, for 30.54 feet; thence S01°35'22"E, for 70.56 feet; thence S33°28'29"W, for 24.23 feet; thence S15°57'57"W, for 85.29 feet; thence S23°15'22"W, for 35.60 feet; thence S12°57'19"W, for 46.76 feet; thence S89°58'40"W, for 1,273.44 feet to the point of curvature of a curve, concave Southerly; thence Westerly along the arc of said curve, having a radius of 430.00 feet, a central angle of 11°29'58", an arc length of 86.30 feet, and a chord bearing S84°13'40"W, for 86.16 feet, to the point of reverse curvature of a curve concave Northeasterly; thence Northwesterly along the arc of said curve, having a radius of 20.00 feet, a central angle of 75°08'52", an arc length of 26.23 feet, and a chord bearing N63°56'53"W, for 24.39 feet, to the point of reverse curvature of a curve concave Southwesterly; thence Northwesterly along the arc of said curve, having a radius of 280.00 feet, a central angle of 04°11'38", an arc length of 20.49 feet, and a chord bearing N28°28'15"W, for 20.49 feet, to the point of tangent; thence N30°34'04"W, for 243.42 feet to

the point of curvature of a curve concave Easterly; thence Northerly along the arc of said curve, having a radius of 420.00 feet, a central angle of 26°33'08", an arc length of 194.64 feet, and a chord bearing N17°17'30"W, for 192.90 feet to the point of tangent; thence N04°00'56"W, for 275.91 feet to the point of curvature of a curve concave Easterly; thence Northerly along the arc of said curve, having a radius of 370.00 feet, a central angle of 37°42'42", an arc length of 243.53 feet, and a chord bearing N14°50'25"E, for 239.16 feet to the point of tangent; thence N33°41'46"E, for 30.91 feet; thence N56°18'14"W, for 60.00 feet; thence N89°59'04"W, for 92.95 feet; thence N00°01'05"E, for 500.50 feet to the point of intersection with said South Right-of-Way line of STATE ROAD 54, as described in Official Records Book 4042, Page 1444, of the Public Records of Pasco County, Florida, same being the point of intersection with a non-tangent curve, concave Northerly; thence Easterly along said South Right-of-Way line of STATE ROAD 54, as described in Official Records Book 4042, Page 1444, along the arc of said curve, with a radial bearing of N10°19'48"E, having a radius of 1,278.23 feet, a central angle of 09°52'36", an arc length of 220.34 feet, and a chord bearing S84°36'30"E, for 220.07 feet, to the point of tangent; thence S89°32'48"E, continuing along said South Right-of-Way line of STATE ROAD 54, as described in Official Records Book 2058, Page 1993, for 402.00 feet to the POINT OF BEGINNING.

PARCEL 2 (OUTPARCEL 1):

A parcel of land being a portion of Section 26, Township 26 South, Range 16 East, Pasco County, Florida, being more particularly described as follows:

COMMENCE at the Southeast corner of the Northeast 1/4 of Section 26, Township 26 South, Range 16 East, Pasco County, Florida; thence N89°31'39"W, along the South line of said Northeast 1/4 of Section 26 (being the basis of bearings for this legal description), for 260.17 feet to the point of intersection with the Westerly Right-of-Way line of LITTLE ROAD, according to Official Records Book 1469, Page 1422 of the Public Records of Pasco County, Florida; thence leaving said South line of the Northeast 1/4 of Section 26, N00°34'52"E, along said Westerly Right-of-Way line of LITTLE ROAD, for 0.71 feet; thence N00°39'53"E, continuing along said Westerly Right-of-Way line of LITTLE ROAD, for 884.23 feet to the POINT OF BEGINNING; thence leaving said Westerly Right-of-Way line of LITTLE ROAD, S90°00'00"W, for 137.99 feet to the point of curvature of a curve concave Northerly; thence Westerly along the arc of said curve, having a radius of 617.50 feet, a central angle of 38°32'44", an arc length of 415.42 feet, and a chord bearing N70°43'38"W, for 407.63 feet to the point of intersection with a non-tangent line; thence N38°32'44"E, for 123.81 feet; thence N00°00'00"E, for 680.15 feet; thence N90°00'00"E, for 456.21 feet to the point of intersection with said Westerly Right-of-Way line of LITTLE ROAD; thence S00°39'53"W, along said Westerly Right-of-Way line of LITTLE ROAD. for 911.59 feet to the POINT OF BEGINNING.

PARCEL 3 (OUTPARCEL 2):

A parcel of land being a portion of Section 26, Township 26 South, Range 16 East, Pasco County, Florida, being more particularly described as follows:

COMMENCE at the Southeast corner of the Northeast 1/4 of Section 26, Township 26 South, Range 16 East, Pasco County, Florida; thence N89°31'39"W, along the South line of said Northeast 1/4 of Section 26 (being the basis of bearings for this legal description), for 260.17 feet to the point of intersection with the Westerly Right-of-Way line of LITTLE ROAD, according to Official Records Book 1469, Page 1422 of the Public Records of Pasco County, Florida; thence leaving said South line of the Northeast 1/4 of Section 26, N00°34'52"E, along said Westerly Right-of-Way line of LITTLE ROAD, for 0.71 feet; thence N00°39'53"E, continuing along said Westerly Right-of-Way line of LITTLE ROAD, for 293.91 feet to the POINT OF BEGINNING; thence leaving said Westerly Right-of-Way line of LITTLE ROAD, N90°00'00"W, for 628.06 feet; thence N00°00'00"W, for 584.10 feet; thence N38°32'44"E, for 109.94 feet to the point of intersection with a non-tangent curve, concave Northerly; thence Easterly along the arc of said curve, with a radial bearing of N38°32'44"E, having a radius of 687.50 feet, a central angle of 38°32'44", an arc length of 462.51 feet, and a chord bearing S70°43'38"E, for 453.84 feet, to the point of tangent; thence N90°00'00"E, for 137.18 feet to the point of intersection with said Westerly Right-of-Way line of LITTLE ROAD; thence S00°39'53"W, along said Westerly Right-of-Way line of LITTLE ROAD, for 520.32 feet to the POINT OF BEGINNING.

Less and except from all of the foregoing real property any land within the MPUD, the Construction Entity Parcel or the Developer Parcels which has been platted, conveyed to a Community Development District, Homeowners' Association or Property Owners' Association including, but not limited to, the real property subject to the following plats:

- Mitchell 54 West Phase 1 Residential, Plat Book 81, Page 49
- Mitchell 54 West Phase 2 Residential, Plat Book 82, Page 100
- Mitchell 54 West Phase 3 Residential, Plat Book 83, Page 125

- Mitchell Ranch 54 West Phases 4, 7, 8, 9 and 10, Plat Book 89 Pages 91-106

EXHIBIT B

CONDITIONS OF APPROVAL

MITCHELL 54 WEST
MASTER PLANNED UNIT DEVELOPMENT
CONDITIONS OF APPROVAL
(MODIFIED) REZONING PETITION NO. RZ-7897
ORGINAL REZONING PETITION NO. RZ-7116

Master Development Plans

1. Development shall be in accordance with the application, plans, and information submitted for the MPUD (the **"Project"),** unless otherwise stipulated or modified herein. The MPUD Master Planned Unit Development (MPUD) conditions of approval and Master Plan, Rezoning Petition No. 7116, are hereby superseded by Rezoning Petition RZ-7897.

2. Development within the area depicted on the following plans shall substantially conform to these plans:
   Binding Concept Plan (Exhibit "C")
   Building Material Palette Plan (Exhibit "D")
   Binding Connectivity Plan (Exhibit "E")
   Master Landscape Plan (Exhibit "H")
   Master Landscape Package (Exhibit "I")

   (collectively, "Binding Plans")

   Notwithstanding the foregoing, the Binding Plan have not been through the permitting process, and as such, is subject to variations as may be required by the various permitting authorities having jurisdiction. Such variations shall not require a non-substantial and/or substantial modification to this MPUD. The County Administrator or designee is hereby delegated authority to interpret and apply the Binding Plans to the PDP/PSP/Construction Plans for each phase or parcel, provided the substantive intent and purpose of the Binding Plan is achieved. So long as the PDP/PSP/Construction Plans are deemed in substantial conformance with the Binding Plans, a non-substantial or a substantial modification is not required. However, if the PDP/PSP/Construction Plans materially deviate from the Binding Plans, as determined by the County Administrator or designee, a substantial modification to this MPUD shall be required.

Ordinances

3. In addition to the MPUD Master Planned Unit Development conditions of approval, the applicant/developer shall comply with all Pasco County ordinances, including all impact/mobility fees and concurrency ordinances, subject to the provision of Condition No. 32 concerning School Concurrency.

Land Use

4. Land Use maximums shall be in accordance with the following Permitted Uses and Development Limits Table as shown in Table 1 below.

Table 1

Development Category	Totals
Single Family Detached (du)	240 (Built)

Single Family Attached (du)	422 (Built)
Commercial/Retail (SF)	175,000 (Built)
Commercial/Retail (SF)	285,000
Hotel (Rooms)	240

5. Land uses and entitlements may be exchanged by applicant/developer in accordance with the Land Use Equivalency Matrix attached hereto as **Exhibit "A".** Land use exchange requests shall be submitted to the Planning, Development and Economic Growth Department Director or designee for verification as to implementation and administrative approval in accordance with the Land Use Equivalency Matrix. Notwithstanding, commercial/retail entitlements shall not be exchanged for additional residential units, assisted living facilities, or nursing homes.

6. The nonresidential dimensional standards for the entire project shall be as follows:

   a. Minimum Building Line Setback of 20 Feet from external project boundaries (Type "B" landscape buffer along south end of the Project)
   b. Maximum height of 100 Feet (additional height for monumentation/architectural features may be allowed subject to approval by Planning, Development and Economic Growth Department Director or designee)
   c. Maximum Lot Coverage of 100 percent

7. The County acknowledges that the Center portion of the Project may contain a variety of individual uses, such as a movie theater, that have different individual parking requirements under the LDC. Based on its urban design, walkability, mixed use and off peak needs, parking for the Center shall be based on the total number of parking spaces within, or provided for, the Center and the minimum number of parking spaces provided for the Center as a whole (regardless of individual use) shall be 4.5 parking spaces per 1,000 SF of gross floor area.

8. The MPUD Master Plan for Mitchell 54 West includes three land use areas, listed below with the uses in each:

   a) **Mixed-Use:** Retail, professional services, office, entertainment (including theaters), civic, cultural, restaurants, hotels/motels, single family (built) (attached and detached) including without limitation, mixed-use, commercial, services, office (including administrative, medical and professional, medical facilities and clinics), adult congregate living facilities, daycare, churches, public service and educational facilities, support commercial/retail and services, and permanent and temporary retail and service kiosks.

   b) **Commercial:** Retail, professional services, office, entertainment, civic, cultural, restaurants, hotels/motels, including without limitation, mixed-use, commercial, services, office (administrative, medical and professional, medical facilities and clinics), , daycare, churches, public service facilities, and support commercial/retail and services.

   c) **Single Family Residential:** Single family detached units

   *- Residential areas within the Project may include "garage apartments" or "guest suites" under

the following terms and conditions:

- Garage apartments and guest suites shall be accessory units and shall not be considered separate residential units for purposes of the MPUD Entitlements.

- Garage apartments and guest suites may be constructed as part of the original home construction or as a post-construction addition.

- For-sale lots in the Project (attached or detached product) may have either a garage apartment or a guest suite, but in no instance may they have both.

- Garage apartments and guests suites may have a kitchen, in addition to other typical amenities, such as a living area, bathroom, and, bedroom(s).

- Garage apartments and guests suites shall be served by the same water meter and electric meter as the primary residence.

- Garages with garage apartments or guest suites may NOT be sold as separate dwelling units independent of the primary residence through a lot split, subdivision or other conveyance.

9. The following Special Conditions shall apply to development within the area depicted on Binding Plans (the "Center"):

   a. There shall only be one (1) drive-thru/drive-in restaurant.
   b. The Master Infrastructure depicted on the Binding Connectivity Plan shall be constructed prior to the final building inspection for the first certificate of occupancy within the Center.
   c. The Parcel Infrastructure depicted on the Binding Connectivity Plan shall be constructed prior to the final building inspection for the first certificate of occupancy within the respective parcel within the Center.
   d. Within Retail G and Retail F as depicted on the Binding Concept Plan, there shall be at least one (1) establishment with each parcel that sells and/or serves food and/or beverages and the sale and/or service of food and/or beverages shall be at least fifty-one percent (51%) of their sales respectively.

10. The following Special Conditions shall apply to development of Parcels 26-26-16-0000-00100-0100 and 26-26-16-0000-00100-0110 located on Little Road:

    a. All commercial/retail/office buildings (with the exception of a hotel use) on these parcels shall front on Little Road and shall be located no further than ten (10) feet from the required landscape buffer along Little Road. Outdoor seating areas shall be allowed between the building and the landscape buffer and shall not count towards the ten (10) feet. Notwithstanding, up to two (2) rows of store front parallel parking and an associated single drive aisle shall be allowed between the building and the landscape buffer. If there is a restaurant(s) including a drive-in or drive-thru restaurant, then at least one restaurant shall be designed to integrate a public space for social gatherings which may include, but are not limited to, the following: flex lawn space, landscape beds with public seating, fountains, or public art facilities. The public space shall be identified on the first respective PDP/PSP submittal (with the exception of a PSP for a hotel use).

Transportation/Circulation

Access Management

11. **Internal Access Points:** All internal roadways and intersections shall be built in accordance with the MRP.

12. **External Access Points:** The Applicant/developer has provided an access management study (the **"Access Management Study")** for the following external site access points/intersections (collectively, the **"External Site Access Improvements")** The applicant/developer shall construct or bond in accordance with the LDC, the following site-access improvements unless determined otherwise at the time of PSP/PDP review based on a subsequent access management analysis:

    a. SR 54 and Project Driveway A: The applicant/developer shall construct a directional median opening connection to SR 54 for Project Driveway A. The access connection shall include a westbound left turn lane and an eastbound right turn lane as shown on **Exhibit "F-1".**

    b. SR 54 and Project Driveway **B:** The applicant/developer shall construct a full access connection to SR 54 for Project Driveway **B.** The applicant/developer shall signalize the intersection when warranted. The access connection shall include westbound dual left turn lanes, an eastbound right turn lane, northbound dual left turn lanes, northbound through lane and a northbound right turn lane as shown on **Exhibit "F-2".**

    c. SR 54 and Project Driveway C: The applicant/developer shall construct a directional median opening connection to SR 54 for Project Driveway C. The access connection shall include a westbound left turn lane and an eastbound right turn lane as shown on **Exhibit "F-3". (COMPLETE)**

    d. SR 54 and Project Driveway D: The applicant/developer shall construct a right-in only access to SR 54 for Project Driveway D. The access connection shall include an eastbound right turn lane as shown on **Exhibit "F-4". (COMPLETE)**

    e. Little Road and Project Driveway **E:** The applicant/developer shall construct a right-in/right-out access to Little Road for Project Driveway **E.** The access connection shall include a southbound right turn lane as shown on **Exhibit "F-5". (COMPLETE)**

    f. Little Road and Project Driveway F: The applicant/developer shall construct a directional median opening on Little Road for Project Driveway F. The access connection shall include a southbound right turn lane and a northbound left turn lane as shown on **Exhibit "F-6". (COMPLETE)**

    g. Little Road and Project Driveway G: The applicant/developer shall construct a full access on Little Road for Project Driveway G. The applicant/developer shall signalize the intersection when warranted. The access connection shall include a southbound right turn lane, a northbound left turn lane, an eastbound left turn lane and a westbound through/right lane as shown on **Exhibit "F-7". (COMPLETE)**

    h. Welbilt Boulevard Extension at Project Driveway **H:** The applicant/developer shall construct a full access on Welbilt Boulevard Extension for Project Driveway **H** as shown on **"Exhibit "F-8". (COMPLETE)**

    i. Welbilt Boulevard Extension at Project Driveway I: The applicant/developer shall construct a full access on Welbilt Boulevard Extension for Project Driveway I as shown **in Exhibit "F-9". (COMPLETE)**

    j. Welbilt Boulevard Extension at Project Driveway J: The applicant/developer shall construct a full access on Welbilt Boulevard Extension for Project Driveway J. The applicant/developer shall construct a southbound left turn lane as shown on **Exhibit "F-9". (COMPLETE)**

    k. Welbilt Boulevard Extension at Braydon Drive: The applicant/developer shall extend Braydon Drive to a full access connection with Welbilt Boulevard Extension as shown in **Exhibit "F-1O". (COMPLETE)**

l. Welbilt Boulevard Extension at Project Driveway **L:** The applicant/developer shall construct a full access on Welbilt Boulevard Extension for Project Driveway **L** as shown on **"Exhibit "F-10". (COMPLETE)**

Applicant/developer shall be responsible for the construction of the External Site Access Improvements in phases prior to or concurrent with construction of the infrastructure improvements to serve the portions of the Project necessitating such improvements. At the time of each preliminary site plan approval, applicant/developer shall provide to the County for its review and approval, the list of External Site Access Improvements that have been or will be constructed to serve the existing phases of the Project and the phase(s) that are being considered for approval as part of such site plan approval. Provided that the County confirms that such proposed External Site Access Improvements are adequate to serve such existing and proposed phase(s) of the Project based on **Exhibit "G".** applicant/developer shall be permitted to construct the External Site Access Improvements in the phases as proposed by applicant/developer. If the Project trips as depicted in **Exhibit "G"** are exceeded for any access point, then the applicant/developer shall be required to either: 1) construct additional access points necessary to maintain the trip thresholds in **Exhibit "G"** or 2) demonstrate through additional access management analysis, as approved by the County, that the County's adopted Level of Service standards will be maintained at each access point.

13. The construction by the Applicant/developer of the External Site Access Improvements as set forth in **Exhibit "F"** shall vest the Project against further required external access requirements for County purposes through April 3, 2028 , subject to the following conditions (Note: some of the External Site Access Improvements are subject to FDOT approval at the time of development and FDOT may require additional improvements as applicable):

a. Trip Generation Monitoring

(1) Eighteen (18) months following construction plan approval for vertical construction of fifty percent (50%) of the MPUD entitlements in terms of the gross p.m. peak-hour Project trip generation (based on the Trip Generation Monitoring Table attached hereto as **Exhibit "H"),** or prior to construction plan approval for vertical construction of sixty percent (60%) of the MPUD entitlements in terms of gross p.m. peak-hour Project trip generation (based on the Trip Generation Monitoring Table attached hereto as **Exhibit "H"),** applicant/developer shall institute a monitoring program to compare current traffic counts with total future traffic projections (also shown on **Exhibit "H")** from the Access Management Study.

(2) Monitoring shall continue on a biennial basis until Project build-out and shall be submitted to the Planning, Development and Economic Growth Department biennially from the date of commencement. Should the County Engineer or his/her designee determine (in between biennial reporting dates) that storage bay queues entering the Project from SR 54 or Little Road are spilling into thru lanes on SR 54 or Little Road, the County Engineer or his/her designee may request an interim monitoring evaluation to evaluate and confirm if there is such a deficiency in storage length (to accommodate the queues) and propose possible improvements to cure such deficiency. Each monitoring event shall be conducted within a sixty (60) day period from the due date of each event to ensure that the counts are relatively current and shall be conducted when Pasco County schools are in session.

(3) The monitoring program shall consist of weekday, p.m. peak-hour directional counts from 4:00 p.m. to 6:00 p.m., with subtotals at fifteen (15) minute increments at all of the Project's external access points on SR 54, Little Road and Welbilt Boulevard. The trips at all external access points will be compared to the total future traffic forecasts identified in **Exhibit "H".**

(4) The monitoring program shall also monitor the storage bays entering the site at the intersections on SR 54 and Little Road to ensure that the queues do not spill out into thru traffic on SR 54 or Little Road.

(5) The results of each monitoring event shall be submitted to the Planning, Development and Economic Growth Department.

(6) If monitoring results demonstrate that the traffic exceeds the projected traffic volumes identified in **Exhibit "H"** or if the storage bays along SR 54

or Little Road are inadequate to accommodate queues, the County may require a re-evaluation of the Access Management Study and additional access improvements may be required. Improvements shall be determined in accordance with the LDC and Access Management Standards, as amended.

14. All roads that will be used to access public-purpose sites, such as public school, public park, library, and fire/rescue sites, if any (as determined by the School Board, Parks and Recreation Department, Libraries Services Department, Emergency Services Department, , as applicable) shall be public roadways and constructed in accordance with applicable County/FDOT design, construction, and signage standards; e.g., F.S. 316, and *Manual of Uniform Traffic Control Devices* standards. Such roadways shall be deeded in fee simple to the County or FDOT, as applicable, prior to or concurrent with the first record plat containing such roadways, or where no record plat is required prior to or concurrent with the issuance of the first CO for a building utilizing such roadways.

15. The County has approved Applicant's requests for Alternative Standards for the following:

    a. Cross access and interconnection requirements as set forth in Section 901.3 of the LDC, which relieves applicant/developer of the requirement to provide vehicular cross-access to the School Board site south of the Project.

    b. Access spacing as set forth in 901.3.1 of the LDC, which provides alternative access spacing for the Project based on existing roadway design and approvals.

    c. Prop Share for Substandard Road Analysis as set forth in Section 901.4.F, which allows Applicant/developer to make the payment as required under Condition No. 12 for the pending Welbilt Boulevard paving assessment. Applicant/developer acknowledges that this Alternative Standard request will be effective upon the County's adoption of certain amendments to Sections 407 and/or 901.4.F of the LDC to permit Alternative Standard requests for Prop Share payments under 901.4.F.

16. Any gates located within gated communities shall be setback sufficiently in order to provide vehicular stacking for a minimum of three vehicles, unless a greater distance is determined to be required at the time of each preliminary development plan or preliminary site plan review. All entrances accessed by key or electronically coded systems shall be equipped with a system approved by the Emergency Services Director to allow fire or other emergency vehicles immediate access to the development. Upon replacement of any existing gated system, the replacement shall be equipped with a system acceptable to Pasco County. In addition, the access lane widths and clearance between fixed structures shall be a minimum of 15 feet in width.

Dedication of Right-of-Way

17. Unless otherwise determined at the PDP/PSP review, streets may be private but shall be constructed to County standards. In case of private streets, dedication and maintenance shall be the responsibility of a Homeowner's/Property Owner's Association or CDD, as applicable. Pasco County will not be responsible for the maintenance of any private streets.

18. Subject to the provisions of the LDC, Section 901.2.J. (Transportation-Corridor Management; Dedication-Rough Proportionality) the applicant/developer shall convey, at no cost to the County, (a) the right-of-way for the portion of SR 54 lying adjacent to the Project depicted on **Exhibit "I"** (which provides 125 feet from centerline of construction of SR 54); (b) the right-of- way for the portion of Little Road lying adjacent to the Project depicted on **Exhibit "I"** (which provides 105 feet from centerline); (c) the right-of-way for the portion of Mitchell Ranch Road lying adjacent to the Project depicted on **Exhibit "I"** (which provides 40 feet from centerline); and (d) a total of 60 feet of right-of-way for Welbilt Boulevard for the portion of Welbilt Boulevard to be extended through the Project. (All per Pasco County Corridor Preservation Table, as amended, located in the Comprehensive Plan, Transportation Element, for arterial/collector and major intersection right-of-way requirements.) **(COMPLETE)**

    In addition, the applicant/developer shall, at no cost to Pasco County, provide sufficient drainage/retention, wetland and floodplain mitigation facilities on the applicant/developer's property or at another site acceptable to the County to mitigate all impacts associated with the initial and future planned (i.e., in the current County Comprehensive Plan Transportation Element or Metropolitan Planning Organization Long-Range Plan) improvements of SR 54, Little Road, Mitchell Ranch Road and Welbilt Boulevard within or adjacent to the boundaries of the applicant/developer's property including, but not limited to, mitigation for initial and future lanes of travel, shoulders, frontage roads, sidewalks, multimodal paths, medians, slope easements (if applicable, once grade of roadway is set) and other roadway appurtenances. The required drainage/retention, wetland, and floodplain mitigation facilities shall be determined at the time of

the Stormwater Management Master Plan review for the portion(s) of the project adjacent to SR 54, Little Road, Mitchell Ranch Road and Welbilt Boulevard, and this paragraph of this condition shall expire after such stormwater management plans have been approved, unless such facilities are required pursuant to a development agreement approved pursuant to the LDC, Section 403. All stormwater management plans, reports, or calculations for the applicant/developer's project shall include a detailed scope of design and permitting parameters and a signed and sealed certification that such plans, reports, or calculations comply with this condition. Applicant/developer's obligation to construct any improvements or facilities shall expire if no construction plans for the portion of SR 54, Little Road, Mitchell Ranch Road or Welbilt Boulevard, respectively, have been completed as of the date of approval of the stormwater-management plan for the portion(s) of the Project adjacent to such respective roads; however, applicant/developer's obligation to dedicate/convey such land as required by this condition shall not expire.

19. To the extent that any of the conditions of this approval constitute monetary or property exactions that are subject to *Nolan v. California Coastal Comm'n,* 483 U.S. 825 (1987), and *Dolan v. City of Tigard,* 512 U.S 374 (1994), the applicant/owner, and successors and assigns (a) agrees that there is a nexus and rough proportionality between such conditions and the impacts of this project/development, and that such conditions are necessary to ensure compliance with the criteria of the LDC and Comprehensive Plan that are applicable to this approval, and (b) waives any claims based on such conditions. This agreement/waiver was entered into voluntarily, in good faith, for valuable consideration, and with an opportunity to consult legal counsel, but does not affect the applicant/owner's ability to seek variances, administrative remedies, or modifications of the conditions of this approval through applicable processes in the LDC.

Design/Construction Specifications

20. The developers shall comply with the County and Pasco County Public Transportation requirements to accommodate mass transit service to and within the project if service is available or planned at the time of preliminary plan / preliminary site plan approval. A detailed description of the overall transit accommodations plan shall include, but is not limited to, a proposed ingress and egress route for buses and bus stops proposed to service the project including, but not limited to, benches, shelters, lighting, pedestrian walkways, landscaping, and placement as required by the County or Pasco County Public Transportation. The developers shall submit the detailed description of the overall transit accommodations plan to PDE for review and approval prior to or concurrent with the PDP/PSP of the first unit or phase within the development. Approval of the detailed description of the overall transit-accommodations plan is subject to Pasco County Public Transportation review and approval in accordance with the Pasco County Public Transportation *Transit Infrastructure Guidelines* (June 2005), as may be amended from time to time, or any subsequent ordinance adopted by Pasco County. The developers shall include and show on any PDP/PSP submittal the approved transit-accommodation facilities, which shall be constructed with the infrastructure improvements of each affected preliminary plan/preliminary site plan unless an alternative phasing of transit-accommodation-facilities construction is approved with the overall transit-accommodations plan. The applicant / developers and their successors shall not refuse the Pasco County Public Transportation, or any other transit authority, or any of its users / patrons access to such facilities.

21. Prior to, or concurrent with, 1) the issuance of a certificate of occupancy by the County for the first large scale commercial-retail building (Big Box) in the "Mixed Use" area in the northwest portion of the Project, or 2) the County's approval of the first plat for residential development in the "Single Family Residential" area along Welbilt Boulevard with a roadway connection to Welbilt Boulevard as depicted on the MPUD Master Plan, applicant/developer shall construct (or post performance security acceptable to the County) a 2-lane extension of Welbilt Boulevard within the 60 feet of right-of-way provided from applicant/developer pursuant to Condition No. 18 above, from its present northern terminus near the southwest corner of the Project through the Project to Mitchell Ranch Road, including the improvements at Mitchell Ranch Road and S.R. 54, all as more particularly described on the MRP (the **"Welbilt Extension"). (COMPLETE)** The cross section of the Welbilt Extension is depicted on the MRP. Concurrent with the approval of the subject MPUD, applicant/developer and the County are entering into a development agreement (the **"Development Agreement"),** which provides that Applicant/developer is entitled to mobility fee credits for the designing, permitting and construction of the Welbilt Extension and sets forth a more complete description of the facilities to be constructed as part of the Welbilt Extension.

The Project shall be assessed the sum of $243,327.37 as part of the paving assessment project for the existing section of Welbilt Boulevard (PVAS No. 3067), in full satisfaction of any obligations that the Project might have under the aforementioned paving assessment or under a Substandard Road Analysis. Applicant/developer's obligation to pay the foregoing sum is contingent upon there not being any timely appeals filed of this MPUD, or if there any such appeals, such appeals being resolved to the satisfaction of applicant/developer. **(PAID)**

22. Except as otherwise authorized by the Mitchell 54 West MPUD prior to final record plat approval for residential, or where platting is not required, prior to the issuance of any Building Permits occurring after April 3, 2028 , the applicant/developer shall submit an updated timing and phasing analysis utilizing a methodology approved by Pasco County. The County may impose additional conditions based upon the updated timing and phasing analysis as approved by Pasco County.

23. The applicant/developer has submitted a Master Roadway Phasing Plan attached hereto as **Exhibit "J"** (the **"MRP"),** which has been approved by DRC. The MRP sets forth the proposed road network and typology for all major streets and roads within the Project, the required right- of-way widths, roadway cross sections, number of lanes, intersection geometry, design speed, required interconnects, and the alignment of Welbilt Boulevard. All streets and roads in the Project shall comply with the MRP and cross-sections set forth therein. By its approval of the MRP, the DRC also granted certain alternative standards for the Project's street typology (sizes, right-of-way widths, and on-street parking). The MRP may be modified administratively by the Planning, Development and Economic Growth Department Director or designee and, if administratively approved, shall not constitute an amendment unless it is inconsistent with these MPUD conditions of approval or the MPUD Master Plan.

Environmental

24. If during construction activities any evidence of the presence of State or Federally protected plant and/or animal species is discovered, Pasco County Natural Resources Inspector and applicable agencies shall be notified within two working days of the plant and/or animal species found on the site. All work in the affected area shall come to an immediate stop until all pertinent permits have been obtained, agency written authorization to commence activities has been given, or unless compliance with state and federal guidelines can be demonstrated.

25. The applicant shall provide a 100% gopher tortoise burrow survey conducted according to FFWCC guidelines and the time of site development submittal. If potentially occupied burrows are found, the FFWCC gopher tortoise relocation permit and FFWCC accepted after action report prior to issuance of site development placard. If site construction does not commence within 90 days from the date of the most recent 100% gopher tortoise survey or capture activities, a new gopher tortoise burrow survey must be completed to ensure gopher tortoises have not moved in and, if found, a valid permit must be obtained, amended, or acted on to capture and relocate all tortoises prior to commencing any site clearing. A copy of the relocation permit and accepted after action report shall be provided.

26. The applicant/master developer or parcel developer shall submit a breeding season survey for the Southeastern American Kestrel in accordance with FFWCC survey guidelines. Surveys shall be conducted prior to anticipation of construction activities commencing for any phase that is within the Southeastern American Kestrel breeding season. If nests are found, the FFWCC and the Pasco County Biologist shall be contacted for review and consultation to determine appropriate preconstruction conservation and mitigation measures.

27. The applicant/master developer or parcel developer shall submit a breeding season survey for the Florida Sandhill Crane in accordance with FFWCC survey guidelines. Surveys shall be conducted prior to anticipation of construction activities commencing for any phase that is within the Florida Sandhill Crane breeding season. If nests are found, the FFWCC and the Pasco County Biologist shall be contacted for review and consultation to determine appropriate preconstruction conservation and mitigation measures.

28. A copy of the SWFWMD Environmental Resource Permit (ERP) shall be submitted to the Pasco County project record prior to issuance of site development placard.

29. The upland buffer line shall be clearly field demarcated prior to any construction activities. No construction activities, including clearing, grading, or grubbing, shall occur within the Wetland Upland Buffer unless otherwise approved by the County and as depicted on the County-approved construction plans for the project.

Community Development District

30. As provided in Chapter 190, Florida Statutes, and subject to the BCC's separate approval, the CDD is hereby authorized to undertake the funding and construction of any of the projects, whether within or outside the boundaries of the CDD, that are identified within this rezoning approval. Further, any obligations of the applicant/developer contained in this approval may be assigned to a CDD, homeowners'/property owners' association, or other entity approved by the County. However, such CDD shall not be authorized to levy assessments on any property either owned or to be owned by the County or School Board (Public Properties) that are located within the boundary of the CDD. All applicable documents pertaining to the undertaking of funding and

construction by the CDD shall reflect the following:

a. Public Properties shall not be considered benefited properties and shall not be assessed by the CDD.

b. No debt or obligation of such CDD shall constitute a burden on any Public Property.

Education Facilities

Payment of Impact Fees

31. The applicant/developer or its successors shall pay school impact fees for the impacts of the residential component of the MPUD to the District School Board of Pasco County (the **"School Board")** in accordance with Section 1302 of the LDC.

School Concurrency

32. The applicant/developer shall be required to comply with all applicable provisions of the adopted School Concurrency Ordinance, but shall not be required to provide an on-site school.

Contribution toward Multiuse Path

33. Within ten (10) days after the County's approval of the first residential plat for the portion of the Project that abuts the School Board property to the south, applicant/developer shall make a contribution in the amount of $15,000.00 to be used by the School Board for its construction of a multiuse path on the School Board's property lying south of the Project to provide limited (as controlled by the School Board) pedestrian access from the Project for students and their families.**(PAID)**

Utilities/Drainage/Water Service/Wastewater Disposal

34. The applicant/developer shall construct all water and wastewater facilities within the Project to current FGUA standards.

35. The applicant/developer shall submit a Stormwater Management Plan and Report for each development phase or increment in accordance with the Pasco County LDC, as amended. The plans shall be approved prior to or simultaneous with the application for construction plan review for the development phase/increment in question. No design for an individual increment/phase or portion of an increment/phase shall be dependent upon the ultimate construction of future increments/phases, unless an interim design for drainage is approved by the Planning, Development and Economic Growth Department.

Procedures

36. A disclosure statement regarding the construction of all future public roadways abutting and through the MPUD Master Planned Unit Development shall be included in all sales contracts for residential and nonresidential sales with the MPUD Master Planned Unit Development. This disclosure shall include the future roadway's number of lanes and construction timing, if applicable.

37. Unless required elsewhere within the conditions of approval, all conveyances shall occur at record plat or construction plan approval where a record plat is not required or within 90 days of the County's request, whichever occurs first. All conveyances shall include access easements, be in a form acceptable to the Real Estate Division and be free and clear of all liens and encumbrances, including exemption from all covenants and deed restrictions.

38. Unless otherwise approved by the Fire Marshal, or designee, the development shall be included into a Pasco County Municipal Fire Service Taxing Unit to provide fire protection. The developer(s) shall submit a petition for inclusion into the Pasco County Municipal Fire Service Taxing Unit at the time of record plat submission, or when no plat is required, prior to the issuance of the first Building Permit. In no case shall a Building Permit be issue until the Fire Marshal, or designee has received such a petition.

39. The portions of the Project which contain existing or interim silvicultural and/or agricultural activities shall be permitted until commencement of development for that portion of the Project.

40. Preliminary development plan/preliminary site plan submittals shall include a detailed breakdown of the individual plan approvals, including the plan name and increment or phase designation as

it relates to the Master Development Plan, acreage of the site, total number of units, or gross floor area ratio of commercial space which have received preliminary development plan/preliminary site plan approval, construction plan/construction site plan approval, and/or record plat approval.

41. In addition to complying with the above conditions, no further plan approvals will be granted until such time as the acknowledgment portion of the **BCC approved** document is completed (including notarization) and received by the Planning, Development and Economic Growth Department after the final BCC action.

42. All conditions of this MPUD Master Planned Unit Development approval are material to the BCC approval. Accordingly, the conditions are not severable. In the event any section, subsection, sentence, clause, or provision of these conditions or the rezoning resolution is challenged and declared illegal, invalid, or in violation of any statutory or constitutional requirement by a body with jurisdiction to make such determination, the remainder of the conditions and MPUD Master Planned Unit Development approval shall be suspended until such time that the BCC modifies the MPUD Master Planned Unit Development conditions of approval to address the illegal or invalid provision, provided that such suspension shall not exceed nine months in duration. However, such determination shall not affect the validity of 1) MPUD Master Planned Unit Development entitlements that have received plat, Building Permit, or CO approval; or 2) any MPUD Master Planned Unit Development mitigation committed to or performed as of the date the determination is made, unless such approvals or mitigation are specifically declared to be illegal, invalid, or unenforceable. Requests for BCC-approved modifications to the MPUD Master Planned Unit Development or the MPUD Master Planned Unit Development conditions of approval shall not be considered challenges and decisions by the BCC regarding any modification or the like shall not have the effect of suspending the conditions and the MPUD Master Planned Unit Development approval under any circumstances.

43. This MPUD contains land areas that could be construed as being zoned for commercial, mixed-use, or house of worship, and that have been specifically reserved in the MPUD for such uses to ensure that the project provides the benefits of mixed-use development, including but not limited to, adequate employment generation and internal capture of vehicular trips. Accordingly, the applicant/developer has committed to, and is hereby requiring, that the permitted uses for such commercial or mixed-use areas shall remain those uses required by these MPUD conditions of approval, notwithstanding any potential contrary requirements in Section 125.01055(7), Florida Statutes. This condition shall be construed as a requirement imposed by the applicant/developer, and not a requirement of the County, to the extent it prevents any use allowed or preempted by Section 125.01055(7), Florida Statutes.

    The applicant/developer agrees that the applicant/developer and any successors or assigns, are not eligible for the ad valorem tax exemption in Section 196.1978, Florida Statues, and further agrees the applicant/developer and any successors or assigns will not apply for such an exemption for any portion of the development authorized by this approval.

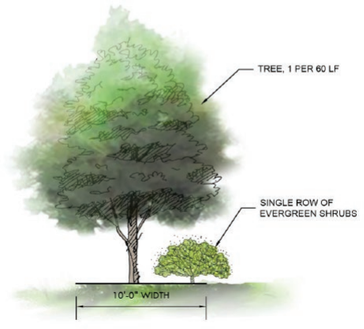
LANDSCAPE BUFFERS

- When landscape buffers align with wall locations, place plant material on street side (outer edge of project site)
- For landcape buffers that are shown on both sides of the street, mirror planting on each side of street for uniform 'streetscape' look.



Buffer Type	Width	Shade Trees[1]	Shrubs	Visual Screening[2]	Accent Plantings[3]
A Light	10	1 / 60 LF	Single row of evergreen shrubs	N/A	N/A
B Moderate	15	1 / 30 LF	Single row of evergreen shrubs	6' min - 8' max with any combination: Opaque fence (no wood or chain link), wall, berm, or hedge (plantings 1 / 5 LF)	N/A
D-2 Nonlocal Roadway- Vehicle Use Area	Varies [4][5]	1 / 30 LF	Double row of staggered evergreen shrubs 3' tall at planting OR Combination of a berm and single row of evergreen shrubs, 3' tall at installation	30 / 100 linear foot	

BUFFER TYPE A

PLAN VIEW

- To provide diversity, up to 30% of required shade trees may be substituted with ornamental trees and/or groups of palms
- Provide single row of shrubs

SECTION VIEW

<u>Trees</u>
Sycamore
65' height, 40' wide

(Shade Tree)
*2" caliper and
min 6' tall at installation

<u>Shrubs</u>
Sweet Viburnum

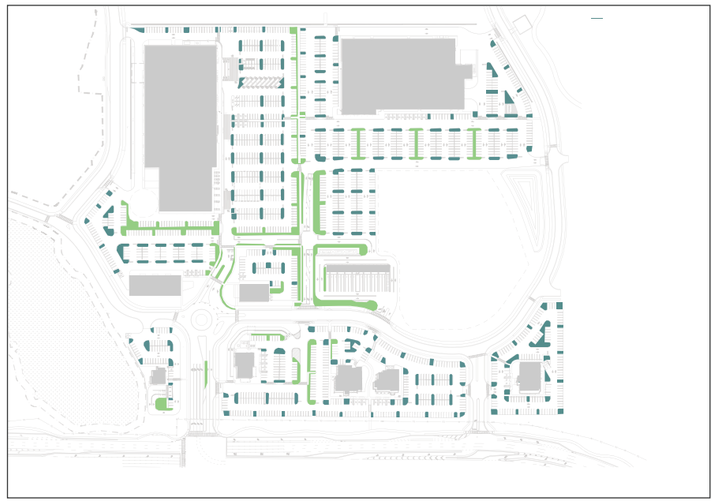
FPL Right Tree Right Place:
provide 30' offset from overhead utility lines for large tree species



Florida Statutes, Title XI, Chapter 163, Section 3209: *"plan shall not require the planting of a tree or other vegetation that will achieve a height greater than 14 feet in an established electric right-of-way"*
Note: small ornamental trees used instead of Shade Trees, per Florida Statute. Many of these species have been previously approved by Duke Engergy, and are readily found in local plant nurseries.

BUFFER TYPE D-2

Highlighted green is Pasco County Right-of-Way. The red line shows the overhead utility location. The blue dashed line is the 30' recommended offset for overstory trees adjacent to utility lines, per FPL. There's a few key locations where taller trees, such as palms could be added to enhance the buffer along State Road 54. If desired, additional understory trees could be added within county right-of-way, in the areas within the 30' overhead utility offset.

LANDSCAPE ISLANDS AND MEDIANS

- A minimum of 10% of the on-site vehicular use area (VUA) shall be devoted to interior landscaped areas.
- Other than trees, planting materials shall naturally grow no taller than 30 inches.
- Max of ten parking spaces between islands
- Terminal islands: 10' minimum width

ISLANDS

- 10 parking spaces between islands max
- 10' width minimum
- Two ornamental trees per island
  - *Eagleston Holly*
- Or one evergreen shade tree per island
  - *Swamp Bay*
  - *Rainbow Cassia*

Pasco County Social Media:

-----Original Message-----
From: HARVEY YENKINSON <vetcraft@aol.com>
Sent: Friday, May 8, 2026 9:27 AM
To: Planning <Planning@pascocountyfl.net>
Subject: App. No. RZ-7897).

Planning board,

As a resident of adjacent Bryant Square Estates, I would like to voice my strong opposition to the proposed 240 room hotel.

Our planning commission established building zones for a reason which is to allow building structures consistent with the communities character, requirements, and resources. Rezoning should only be allowed when it provides or does not diminish benefits to the existing community.

Homeowners, like myself, purchased homes in this community based on the knowledge of what businesses were to

be built on adjacent land, a huge hotel not being one of them.

Rezoning to allow such a structure to be built would be unfair, unneeded, and create detrimental effects to our community including late night noise, burdensome traffic, and be detrimental to the character of our community.

I respectfully ask that this Rezoning be denied

RE: Mitchell 54 West MPUD Amendment (RZ-7897)

Dear Property Owner:

This letter is to notify you that a Substantial MPUD Amendment to the approved Mitchell 54 West MPUD (RZ-7897) has been filed in the name of a property owner within the project, M&M ROUTE 54 WEST LLC (owner of Parcel ID Nos. 23-26-16-0110-0D600-0000; 23-26-16-0110-0D500-0000; 23-26-16-0110-0D400-0000; 23-26-16-0110-0D300-000; 26-26-16-0000-00100-0100, and, 26-26-16-0000-00100-0110) *to add 240 hotel rooms, remove apartment entitlements, prohibit land use exchanges for additional apartments, decrease commercial from 980,000 sq ft to 460,000 sq ft (of which 175,000 sq ft has already been built), remove requirement for transit oriented design/MUTRM, and add requirements for a binding concept plan, binding building material and palette plan, binding connectivity plan, binding master landscape plan and binding master landscape package.*

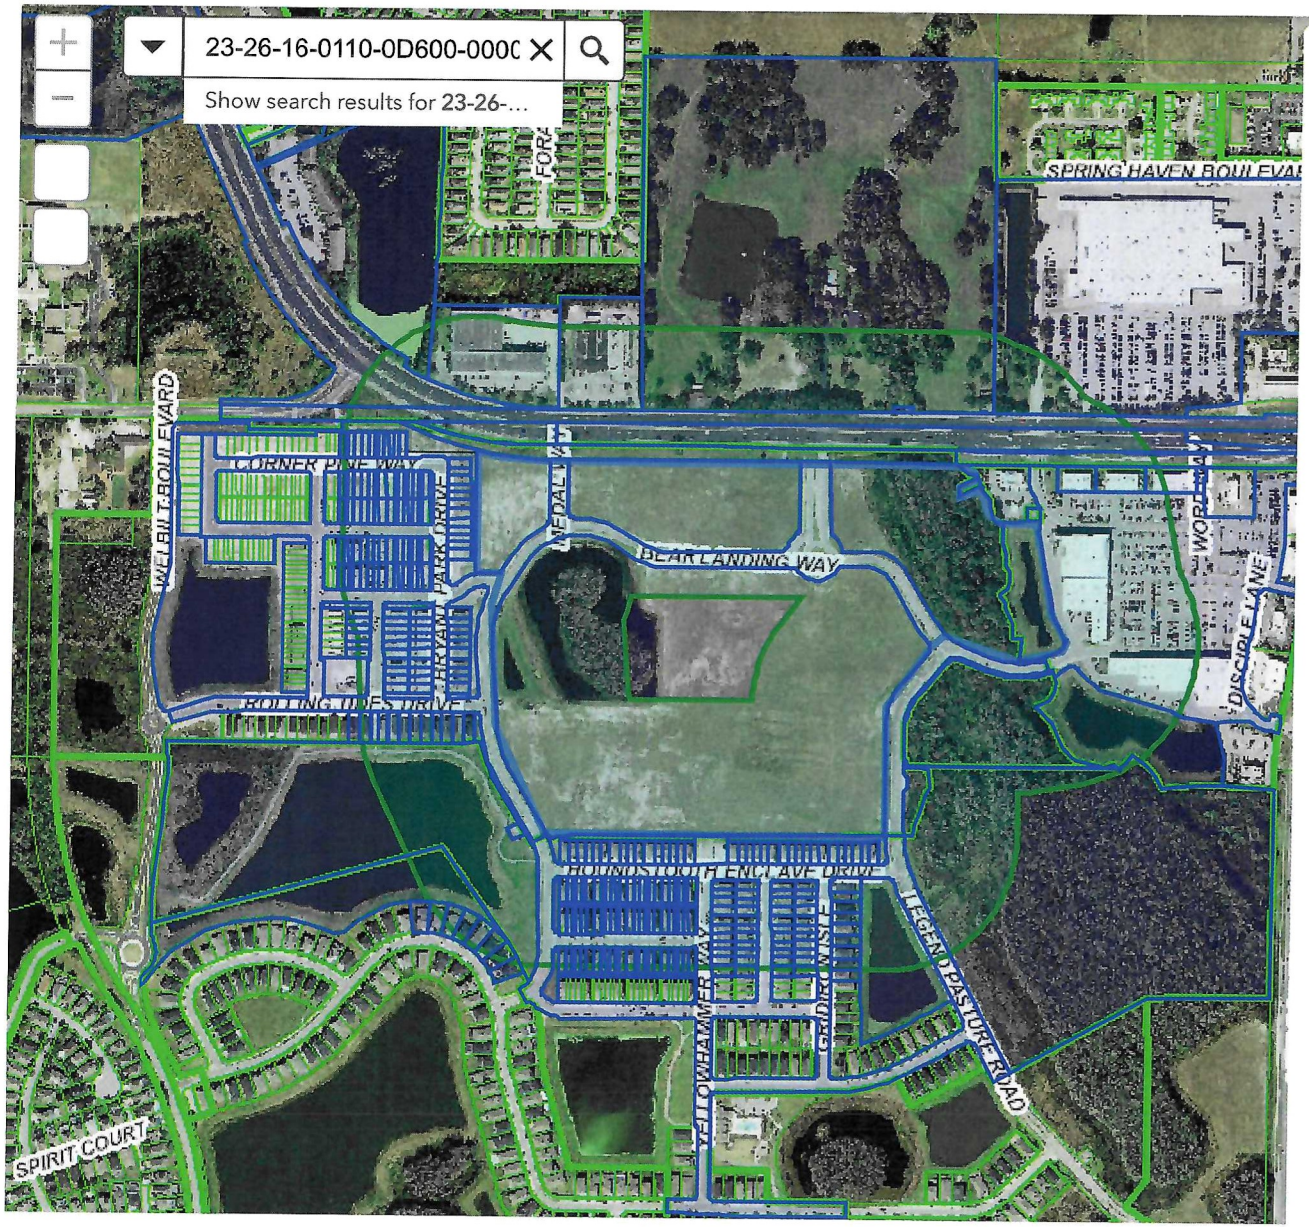
The MPUD is generally located around the southwest corner of Little Road and S.R. 54 and contains approximately 333 acres m.o.l.

The public hearings for the consideration of this application will be held as follows:

Planning Commission RZ-7897	**05/21/2026**	**West Pasco Government Center 8731 Citizens Drive New Port Richey, FL 34654**	**1:30 p.m.**
Board of County Commissioners RZ-7897	**06/16/2026**	**West Pasco Government Center 8731 Citizens Drive New Port Richey, FL 34654**	**1:30 p.m.**

The application and all supporting documentation on file regarding the Rezoning Application can be viewed by contacting, William Vermillion, AICP, CNU-A, Senior Planner, Planning, Development, and Economic Growth Department, 8731 Citizens Drive, Suite 210, New Port Richey, FL 34644; 727-380-3521; wvermillion@mypasco.net.

If you are in opposition to the above-stated application, you will need competent, substantial evidence presented to support your opposition. Any person desiring to appeal any decision made by the Board of County Commissioners with respect to any matter considered at any meeting or hearing will need a record of the proceedings and may need to ensure that a verbatim record of the proceedings is made which includes the testimony and evidence upon which the appeal is based.



On occasion, applications may be continued. It is your responsibility to contact this office or the above-contact at the County to confirm the above-scheduled public hearing dates.

If you are a person with a disability who needs any accommodation in order to participate in this proceeding, you are entitled, at no cost to you, to the provision of certain assistance. Please contact either the Pasco County Customer Service Center, 8731 Citizens Drive, New Port Richey, FL 34654, (727) 847-2411 (V) or the Pasco County Risk Management Office, 7536 State Street, New Port Richey, FL 34654, (727) 847-8028 (V) at least 7 days before the public hearing, or immediately upon receiving this notification if the time before the public hearing is less than 7 days; if you are hearing or voice impaired, call 711.

Very truly yours,

Barbara L. Wilhite

LOCATED IN PASCO COUNTY

PUBLIC NOTICE is hereby given that the Pasco County Board of County Commissioners will hold a public hearing **on Tuesday, May 19, 2026, at the West Pasco Government Center, Board Room, 8731 Citizens Drive, New Port Richey, Florida, at 1:30 p.m.**, to consider applications for rezoning and/or conditional use pursuant to the provisions of the Pasco County Land Development Code, Chapter 400. All hearings will be conducted at the stated time or as soon thereafter as is practical on the following application(s):

1. Nguyen Thien/Little Road MPUD (RZ-7721) petition for a rezoning from a E-R Estate-Residential District to a MPUD Master Planned Unit Development District for a parcel located on the east side of Little Road, approximately 500 feet north of Jasmine Boulevard (aka 13-25-16-0040-00000-1521 et al).

PUBLIC NOTICE is hereby given that the Pasco County Planning Commission will hold a public hearing **on Thursday, May 21, 2026, at the West Pasco Government Center, Board Room, 8731 Citizens Drive, New Port Richey, Florida, at 1:30 p.m.**, and that the Pasco County Board of County Commissioners will hold a public hearing **on Tuesday, June 16, 2026, at the West Pasco Government Center, Board Room, 8731 Citizens Drive, New Port Richey, Florida, at 1:30 p.m.**, to consider applications for rezoning and/or conditional use pursuant to the provisions of the Pasco County Land Development Code, Chapter 400. All hearings will be conducted at the stated time or as soon thereafter as is practical on the following application(s):

2. R & R Property Investments LLC / R & R Property Shady Hills (RZ-7909) petition for a rezoning from an A-R Agricultural-Residential District to a C-2 General Commercial District for a parcel located on the east side of Shady Hills Road, approximately 75 feet north of the intersection of shady Hills Road and Floralton Drive (aka 06-24-18-0000-00100-0020 (portion of).

3. M&M Route 54 West LLC / Mitchell 54 West MPUD (RZ-7897) petition for a rezoning from a MPUD Master Planned Unit Development District to a MPUD Master Planned Unit Development District for a parcel located on the south side of State Road 54, approximately one-quarter mile west of Little Road (aka 23-26-16-0110-0D600-0000 et al).

Information concerning these matters will be on file and available for examination by appointment only in the office of the Pasco County Planning, Development and Economic Growth Department, West Pasco Government Center, 8731 Citizens Drive, Suite 200, New Port Richey, Florida 34654, or anytime on our website: www.pascocountyfl.net. To make an appointment or for further information, you may call 727-847-8140. All interested parties may participate in the public hearing and be heard. To learn how to participate in this hearing virtually, which requires advance registration, please visit http://mypasco.net/meetingagendas.

Any person desiring to appeal any decision made by the Planning Commission or the Pasco County Board of County Commissioners with respect to any matter considered at any hearing will need a record of the proceedings and may need to ensure that a verbatim record of the proceedings is made which includes the testimony and evidence upon which the appeal is to be based. Persons may obtain a verbatim record of the proceeding by contacting the Clerk and Comptroller's Office, East Pasco Government Center, 14236 6th Street, Suite 201, Dade City, Florida 33523-3414; or at (352) 521-4345.

For questions or inquiries about this meeting, members of the public can reach out to the County's Customer Service Center (727) 847-2411 or County Administration (727) 847-8115 or visit www.mypasco.net. To view the Local Planning Agency and Board of County Commissioners Agendas, please visit http://mypasco.net/meetingagendas.

If you are a person with a disability who needs any accommodation in order to participate in this proceeding, you are entitled, at no cost to you, to the provision of certain assistance. Please contact the County's Human Resources Department, Internal Services Building, 7536 State Street, New Port Richey, Florida 34654, (727) 847-8030 (V) at least 7 days before the public hearing, or immediately upon receiving this notification if the time before the public hearing is less than 7 days; if you are hearing or voice impaired, call 711.

PASCO COUNTY PLANNING COMMISSION
PASCO COUNTY BOARD OF COUNTY COMMISSIONERS
PDE26-037

May 6, 2026 87538

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** ODRR26-1127 **DATE:** 6/16/2026

SUBJECT: Public Hearing for Substantial Amendment 1 to the Better Future Action Plan for Disaster Recovery – U.S. Department of Housing and Urban Development – Community Development Block Grant, CFDA No. 14.218 – No Funding Required

REFERENCES: ODRR25-0003

AGENDA SECTION: Public Hearings

THRU: Catherine Pearson, Assistant County Administrator

FROM: Charles Lane, Office of Disaster Recovery Resources Director

RECOMMENDED BOARD ACTION:

Approve Substantial Amendment 1 to the Better Future Action Plan for Disaster Recovery, and authorize the Pasco County Office of Disaster Recovery Resources to submit the amendment to the U.S. Department of Housing and Urban Development (HUD) for review and approval. Delegate authority to the County Administrator, or designee, to execute documents and take actions necessary to implement the amendment and satisfy related HUD requirements.

BACKGROUND SUMMARY/ALTERNATIVE ANALYSIS:

Amendment 1 is an implementation-focused update to the Better Future Action Plan. It does not request additional County funding; it clarifies program assumptions and gives the County stronger, clearer authority to deliver housing, infrastructure, public facilities, business recovery, planning, match, and mitigation activities while maintaining HUD's 70 percent low- and moderate-income (LMI) benefit requirement.

HUD awarded Pasco County $585,704,000 in Community Development Block Grant - Disaster Recovery (CDBG-DR) funds for long-term recovery and mitigation related to Hurricanes Idalia, Helene, and Milton. The Better Future Action Plan governs how those funds are used. The proposed Substantial Amendment 1 refines the approved Action Plan so programs can be implemented more effectively, flexibly, and consistently with HUD requirements.

The proposed amendment makes the following changes:

1. LMI benefit assumptions: Updates program-level LMI projections while preserving the overall requirement to use at least 70 percent of CDBG-DR funds for LMI residents and businesses.

2. Planning flexibility: Expands planning activities to include nonprofit and local government capacity-building, housing innovation, manufactured housing efficiency, housing development best practices, and workforce and economic development partnerships.

3. Housing delivery: Adds authority to use CDBG-DR funds for eligible non-federal share or match requirements; clarifies the Repair, Reconstruction, and Elevation maximum total award as $430,000 ($330,000 reconstruction plus $100,000 elevation);

increases the single-wide manufactured housing replacement cap from $145,000 to $163,000; and adds clear case-by-case exception language for cost reasonableness, accessibility, floodplain standards, and reasonable accommodation.

4. Affordable housing tools: Adds homeownership assistance, including down payment and closing cost support; refines residential buyout and relocation authority; and allows Urgent Need homeownership assistance up to 120 percent of area median income.

5. Infrastructure, public facilities, and mitigation delivery: Adds authority to use CDBG-DR funds for eligible FEMA Public Assistance and other federal cost-share requirements, and clarifies both direct allocation and competitive project selection processes for eligible County, municipal, and public entity projects.

6. Economic revitalization: Adds micro-business support and clarifies that funds may be used for eligible business location repairs and public facility or infrastructure improvements that support business recovery.

7. Substantial amendment threshold: Clarifies that the $5,000,000 threshold applies to program-level allocations or reallocations.

Approval will help keep recovery implementation moving, reduce match-related delays, align the Action Plan with program design, and preserve flexibility to respond to eligible needs as projects and applications are developed. The alternative is to leave the Action Plan unchanged, which could limit eligible uses, slow project delivery, and create unnecessary ambiguity during implementation.

Approval of this amendment does not approve any specific construction project, subrecipient agreement, contract, or future budget reallocation. Those items will be brought to the Board as required as the Better Future initiative progresses.

FISCAL IMPACT/COST/REVENUE STATEMENT:
Funding is not required for this action. The amendment uses existing HUD CDBG-DR funds and does not require additional County funding

DISTRIBUTION:
Not applicable.

ATTACHMENT(S):
1. ODRR26 - Change Summary_Action Plan_Substantial Amendment 1_20260428
2. ODRR26- CDBG-DR Action Plan_Amend1_20260427_REV

Change Summary: Action Plan Substantial Amendment 1

Executive Summary

Amendment 1 primarily refines program eligibility assumptions, delivery models, eligible activities, award caps, and match/mitigation authorities. Updates clarify how the County will meet the overall LMI benefit target while improving flexibility for planning, housing, infrastructure, public facilities, economic revitalization, and mitigation implementation.

Overview of Changes

Change Area	What Changed	Why This Matters
LMI Benefit Assumptions and Allocation Tables	Allocation Summary and program overview tables (p. 76, 78, 87, 97) revise projected LMI benefit percentages: overall housing from 85% to 77%; RRE 72% to 70%; MHR 95% to 80%; new construction 100% to 85%; infrastructure programs to 60%; mitigation from 70% to 60%. Adds narrative that the County will seek to use at least 70% of CDBG-DR funds for LMI residents and businesses.	Recalibrates program-level assumptions while preserving the grant-wide 70% LMI benefit objective (new total is 70.4%). This gives leadership a clearer view of expected compliance across the full portfolio, and expands flexibility to serve Urgent Need projects under other funding buckets.
Planning Program: Innovation, Capacity, and Workforce	Planning section (p. 77-78) expands planning activities to include nonprofit/local government capacity building and update the description of our Innovative Housing Planning Initiative focused on modular/prefabricated housing, resilient materials, and water/energy efficiency to include manufactured housing efficiency, housing development best practices, and workforce/economic development partnerships.	Positions planning funds as a strategic platform for resilient housing delivery, affordability, implementation readiness, and local workforce capacity. This update provides flexibility to fund additional housing-related planning activities above the original efforts outlined for the Innovative Housing Study.
Housing (RRE and MHR Programs): Match and Delivery Model	Housing (RRE, MHR) sections (p. 78-79, 81-84)) add Payment of Non-Federal Share as an eligible activity, authorize use of CDBG-DR to match payments required by other mitigation programs for residential housing improvements.	Prevents eligible recovery projects from stalling due to local match constraints and facilitating match payments to ensure approved projects do not place additional financial strain on eligible applicants.
RRE Program: Award Cap and Exception Criteria	RRE program description (p. 81) revises language to indicate the maximum total award from $330,000 to $430,000 and revises exception language to allow case-by-case approval for maximum award/activity-level caps when necessary for cost reasonableness, federal accessibility requirements, floodplain standards, or reasonable accommodation.	Aligns the action plan with program design that includes elevation costs and creates a clearer basis for leadership-approved exceptions in high-cost or accessibility-driven cases at the County's discretion. The revision related to the maximum total award is not an actual increase in cost – it clarifies the maximum total award as $430k – which is the sum-total of the maximum reconstruction award ($330k) plus Elevation ($100k).

Change Area	What Changed	Why This Matters
MHR Program: Replacement Cap and Eligibility Clean-Up	MHR section (p. 84-85) increases the single-wide replacement cap from $145,000 to $163,000, adds cap-exception language parallel to RRE, and removes limiting language that tied Urgent Need eligibility only to seniors or families with children.	Improves consistency with anticipated replacement costs based on current cost analyses, and preserves eligibility flexibility for disaster-impacted manufactured housing applicants.
Affordable Housing New Construction: Expanded Tools	New construction program (p. 85-87) adds homeownership assistance, including down payment and closing cost support; refines residential buyout/relocation authority; and adds Urgent Need up to 120% AMI for homeownership assistance.	Expands the County's toolkit to produce affordable units, support homeownership pathways – including homeownership assistance for Urgent Need applicants, and flexibility to respond to disaster-displaced households beyond repair/replacement programs
Infrastructure and Public Facilities: Match and Delivery Model	Critical Infrastructure (p. 89-90) and Public Facilities (p. 91-92) sections add Payment of Non-Federal Share as an eligible activity, authorize use of CDBG-DR for FEMA PA and other federal cost-share requirements, and formalize both direct allocation and competitive project selection processes.	Prevents eligible recovery projects from stalling due to local match constraints and gives the County flexibility to advance priority County projects while also soliciting municipal/public entity projects.
Economic Revitalization Eligible Activities and Use of Funds Small Business and Non-Profit Recovery Program	Economic Revitalization program (p. 94) adds micro-businesses to eligible economic development assistance for the Economic Revitalization Program and adds public facilities and infrastructure improvements as an eligible activity. Adds eligible uses for repairs to business locations and improvements to infrastructure or public facilities that support businesses. Application language is also tightened.	Broadens recovery support for small and micro-businesses and recognizes that reopening and resilience may require physical site, facility, and infrastructure improvements in addition to working capital or inventory assistance.
CDBG-DR Mitigation Set-Aside: Delivery Model	Mitigation Set-Aside program section (p. 99) adds direct allocation and competitive processes for critical infrastructure and public facility mitigation funding, excluding disaster tie-back requirements.	Aligns mitigation project selection with the infrastructure/public facilities model to specifically allow direct allocation of mitigation funds.
Substantial Amendment Threshold Clarification	The Substantial Amendment section (p. 113) Adds "program" before the allocation or reallocation threshold, clarifying that a substantial amendment is triggered by a program allocation or reallocation of $5,000,000 or more.	Clarifies the amendment trigger and helps distinguish program-level budget changes from smaller administrative or technical adjustments. This provides the County flexibility on reallocating program totals of $5M (and not a total of $5M shifted in any given amendment).

Executive Summary

Overview

Pasco County experienced an unprecedented series of disasters in 2023-2024, suffering severe impacts from Hurricane Idalia (2023), Hurricane Helene (2024), and Hurricane Milton (2024). Each storm caused widespread damage to homes, infrastructure, businesses, and public services in Pasco County. In January 2025, the U.S. Department of Housing and Urban Development (HUD) recognized the extent of Pasco's unmet recovery needs by announcing a direct allocation of $585.7 million in Community Development Block Grant-Disaster Recovery (CDBG-DR) funds to Pasco County.[1] $509.3 million of this allocation is explicitly designated for unmet recovery needs stemming from Hurricanes Idalia (DR-4734), Helene (DR-4828), and Milton (DR-4834); the remaining $76.4 million is set aside for mitigation activities. This assessment aims to evaluate those unmet needs in detail, by sector and municipality, to inform Pasco County's 2025 CDBG-DR Action Plan in alignment with HUD's Action Plan Template guidelines. Community Development Block Grant-Disaster Recovery (CDBG-DR) funding is designed to address needs that remain after all other assistance has been exhausted. This plan details how funds will be used to address the remaining unmet needs in Pasco County.

Disaster Context

Each storm had distinct characteristics and unique impacts on Pasco County's communities.

Hurricane Idalia (DR-4734)

Hurricane Idalia made landfall as a Category 3 storm in Florida's Big Bend on August 30, 2023. While the eyewall did not directly strike Pasco County, Idalia's storm surge and winds caused significant coastal flooding in neighborhoods in western Pasco.[2] [3] An estimated 4,000 to 6,000 homes in Pasco County were damaged by Idalia[4] streets in low-lying coastal areas turned into rivers, forcing numerous water rescues. Fortunately, advance evacuations helped prevent loss of life in Pasco, but flood damage displaced many families.

[4] Guardian News and Media. (2023, August 31). *"Everything is destroyed": Floridians begin long recovery from Idalia*. The Guardian.

Hurricane Helene (DR-4828)

One year later, Hurricane Helene struck in late September 2024 as a massive Category 4 storm that tracked north of Pasco but drove record-breaking storm surge into the Tampa Bay region. Pasco County's coast saw storm surge levels up to 16 feet above normal, far exceeding forecasts. Helene's surge inundated entire neighborhoods on Pasco's west side; roughly 200 people had to be rescued from rising floodwater on the night of landfall in Pasco County alone.[5]

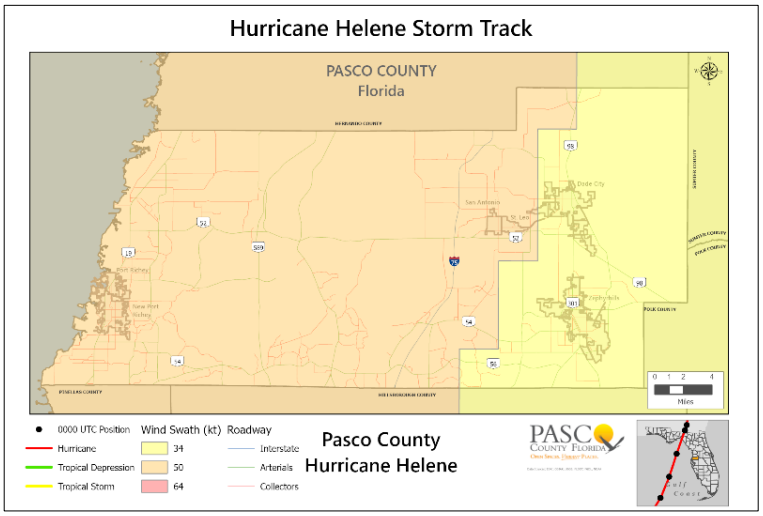

Figure 2: Helene Path and Wind Swath

Hurricane Milton (DR-4834)

Less than two weeks later, Hurricane Milton made landfall on October 9, 2024, as a Category 3 storm, this time passing just south of Pasco. Milton brought torrential rainfall (15+ inches) and strong winds that caused historic inland flooding. The Anclote and Withlacoochee Rivers overflowed into communities, and eastern Pasco neighborhoods saw up to 8 feet of standing floodwater from Milton's rains.[6] Pasco's emergency responders, already strained from Helene, conducted another 200+ rescues during Milton's floods. The back-to-back nature of Helene and Milton dealt a "one-two punch" to Pasco County, impacting many of the same residents and infrastructure twice within weeks.

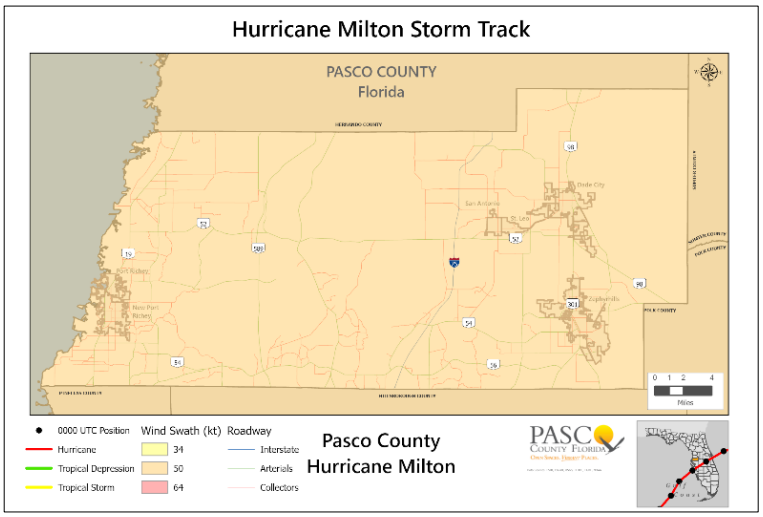

Figure 3: Milton Path and Wind Swath

Most Impacted and Distressed Areas (MIDs)

While damage was widespread- resulting in the entire County being declared Most Impacted and Distressed (MID) by HUD – each region experienced unique impacts. These include both specific neighborhoods and entire municipalities.

Western Coastal Communities

Including New Port Richey, Port Richey, Holiday, Hudson, and communities in the surrounding area, Hurricane Helene's storm surge caused catastrophic flooding along the Gulf coast and the lower reaches of coastal rivers. Many homes along the Pithlachascotee River and low-lying coastal roads were inundated by several feet of water in New Port Richey and Port Richey. Places like SunWest Park in Hudson were swamped by surge[7];

[5] Tampa Bay Times. (2024, October 12). *In Pasco, historic flooding from repeat storms tests limit of rescue crews.*
[6] Paul, Gabriella. (2024, September 27). *Pasco emergency officials "prepare for body recovery" in wake of Helene's storm surge*. WUSF.
[7] Lewis, C. (2025, April 22). Sunwest Park reopens to public after damage sustained from Hurricanes. Bay News 9.

the park was under water and filled with debris and sand, requiring seven months of cleanup before it could reopen[8]. These western areas saw significant home destruction, particularly older homes and mobile homes that could not withstand floodwater. Approximately 200 residents had to be rescued from rising floodwater in western Pasco the night Hurricane Helene hit,[9] highlighting the severity of the surge. Many coastal residents remain displaced or are rebuilding homes to new flood standards.

Eastern Inland Communities

Including Zephyrhills, Dade City, and communities in the surrounding area, Hurricane Milton's extreme rainfall led to unprecedented inland flooding in eastern Pasco. Areas of the City of Zephyrhills and unincorporated neighborhoods near rivers and retention ponds were submerged for weeks. Even months after Milton, dozens of properties in places like the Hickory Hills area of Dade City remained partially underwater. One resident described needing a boat to reach his home four months after the storm[10]. In Zephyrhills, floodwaters lingered so long that some homes were still inaccessible and without running water or electricity six months later.[11] These conditions illustrate the prolonged nature of the disaster's impact in inland Pasco. While Milton's winds were less intense than on the coast, they caused wind damage, such as downed trees and roof damage, countywide and exacerbated flooding by blowing water into areas that had never previously flooded.

Central Pasco

Including Land O' Lakes, Wesley Chapel, and other unincorporated communities in surrounding areas, Central Pasco experienced moderate impacts, mainly wind damage (downed power lines, roof damage) and sporadic flooding in low-lying spots. Power outages were widespread; some first responders had to work 12-plus-hour shifts restoring power to others while their homes went without electricity for over a week. The central region's prior growth had stressed stormwater infrastructure, and these storms exposed those vulnerabilities, including overflowing canals and saturated retention ponds.

Figure 4: Rescue Efforts in the Elfers Area of New Port Richey

Each of Pasco's municipalities faces unique recovery challenges. Coastal cities - like New Port Richey and Port Richey - are grappling with rebuilding homes to hurricane-resistant and flood-resilient standards in the wake of Helene's surge. Inland cities, like Zephyrhills and Dade City, are focused on resolving persistent flooding and repairing water-damaged infrastructure from Milton. Smaller towns, such as San Antonio and St. Leo, are addressing cumulative stresses as their residents recover from home damage. Unincorporated Pasco, from coastal enclaves

like Hudson to other suburban areas across the jurisdiction, contains the most damaged properties and infrastructure, requiring county-wide solutions.

Table 1: Disaster Overview

Disaster Summary	
Qualifying Disaster:	Hurricanes Idalia (DR-4734), Helene (DR-4828), Milton (4834)
HUD-identified MID Areas:	Pasco County
Grantee-Identified MID Areas:	Pasco County

Table 2: CDBG-DR Allocation Overview

CDBG-DR Allocation Overview:	
CDBG-DR Allocation:	$509,308,000
CDBG-DR Mitigation Set Aside[12]:	$76,396,000
Total Allocation:	$585,704,000

As required by HUD, at least 70% of the funds will benefit low- and moderate-income (LMI) individuals and households. The priorities in this Action Plan reflect both the quantitative damage, unmet needs assessments, and extensive input from residents, local organizations, and stakeholders.

Unmet Needs Assessment

Pasco County experienced severe damage from Hurricanes Idalia (2023), Helene (2024), and Milton (2024), resulting in significant unmet needs across the core recovery areas of **Housing**, **Infrastructure**, **Economic Revitalization**, and **Public Services**. The following summarizes these needs:

Housing

Housing is the most fundamental need for recovery. Thousands of homes require repair or reconstruction, and many families still lack permanent housing solutions. In fact, over 8,400 homes were destroyed or severely damaged by the 2024 storms alone, illustrating the scale of housing loss. This has displaced numerous households, especially low- and moderate-income families, seniors and those with special needs, who cannot fully recover without assistance. Pasco County also entered the disaster period with a pre-existing affordable housing shortage, which the storms exacerbated. As a result, housing accounts for roughly three-quarters of all unmet recovery needs – making it the top priority. Key needs include repairing and rebuilding owner-occupied homes, replacing destroyed manufactured homes, and assisting those still in temporary shelter. The goal is not only to restore housing to pre-storm conditions but to rebuild safer and more resilient homes, including elevation and code-compliance, to protect residents in future disasters.

Infrastructure

Infrastructure needs are likewise extensive – the hurricanes battered roads, bridges, utilities, and public facilities, many of which remain damaged. Critical infrastructure across Pasco County suffered extensive impacts, including flooded roadways, overflowing stormwater systems, power outages, strained water/wastewater facilities, and more. Rebuilding these systems is essential for community recovery. Many local infrastructure projects (e.g.,

[12] The CDBG-DR Mitigation allocation represents 15% of the Unmet Needs Allocation ($509,300,000), as required under Public Law 118-158 (90 FR 4761)

repairing or dredging local waterways, repairing roads, addressing stormwater issues) still lack full funding. In addition to basic repairs, hardening infrastructure against future storms is a priority – for example, elevating frequently flooded roads, upsizing culverts and pumps to prevent repeat flooding, and reinforcing bridges. These unmet infrastructure needs are estimated in hundreds of millions of dollars. Restoring infrastructure will ensure safe transportation, reliable utilities, and functioning public services, laying the groundwork for long-term resilience.

Economic Revitalization

The local economy needs a jump-start after the unprecedented interruption and losses caused by the storms. Small businesses across Pasco County – especially in hard-hit coastal and rural areas – were devastated by physical damage and lost revenue. Many businesses had to close for repairs or suffered inventory and property losses, leading to layoffs and lost income for workers. With many small businesses lacking reserves or insurance, there is a substantial unmet need for financial assistance to help them reopen and recover. Key economic revitalization needs include grants or low-interest loans for repairing and restoring storefronts and signage, replacing equipment, restocking inventory, and covering operating costs until business returns. Additionally, technical support is needed for businesses to navigate insurance and aid programs. Job loss has been a major impact; helping businesses recover will in turn restore jobs and livelihoods. Pasco County's analysis estimates roughly 8% of the total unmet recovery needs are economic, reflecting the importance of supporting the business community alongside housing and infrastructure. Revitalizing the economy – particularly the small businesses that are the backbone of local employment – is crucial for a full recovery.

Public Services

Disasters do not only damage physical assets; they also create immense needs for public services and strain the social safety net. In Pasco County, the human services dimension of unmet needs is as crucial as brick-and-mortar recovery. Many residents, especially vulnerable groups (seniors, persons with disabilities, low-income families, those experiencing homelessness), require extra support to get back on their feet. The storms resulted in increased demand for services like emergency shelter, disaster case management, healthcare (including mental health counseling to address trauma), and legal aid for housing or insurance issues. For example, shelters were stretched to capacity during the storms, and after the storms many families needed housing assistance and counseling. Unmet needs in this realm include funding for case managers to guide survivors through recovery programs, expanded mental health and substance abuse services post-disaster, support for food banks and childcare for affected families, and outreach to ensure all residents (including those with limited English proficiency) can access recovery resources without impediment. Pasco County plans to dedicate a portion of its recovery funds to Public Services (capped at 15%) to address these needs. Strengthening public services will ensure that individuals and families are not left behind as recovery progresses – it is an investment in the community's social fabric and well-being, complementing housing and infrastructure investments. In summary, robust public services support – from counseling to job training – is vital for an inclusive recovery that benefits all residents.

Overall, Pasco County's total unmet recovery needs across the three core areas of recovery - housing, infrastructure, and economic revitalization - are estimated at roughly $1.49 billion, far exceeding the $585.7 million available CDBG-DR funds allocated to Pasco County. This gap necessitates strategic allocation of funds to the highest priorities.

Mitigation Needs Assessment

In addition to addressing unmet recovery needs, Pasco County must also mitigate future disaster risks. The Mitigation Needs Assessment identifies key vulnerabilities to natural hazards and outlines the county's resilience priorities. Pasco's goal is to rebuild smarter and stronger, integrating mitigation into every recovery project to protect against current and future risks.

Key Vulnerabilities

Pasco County faces a variety of natural hazards due to its geography, and no area of the county is entirely risk-free. Coastal communities are highly vulnerable to storm surge and coastal flooding – for example, western areas like New Port Richey and Hudson saw storm surge up to 16 feet during Hurricane Helene, inundating entire neighborhoods. With rising sea levels, future coastal flooding could become even more severe. Inland areas face different hazards: eastern Pasco experienced historic rainfall flooding during Hurricane Milton (with rivers rising many feet and causing deep, long-lasting floods), and those communities are also exposed to hurricane wind damage and tornadoes. Central Pasco, which has seen rapid development, struggles with stormwater drainage issues – heavy rains can overwhelm aging drainage infrastructure, causing neighborhood flooding. This region and the northern parts of the county are also prone to sinkholes due to Florida's karst geology, which can undermine structures.

Additionally, Pasco has a considerable risk of wildfire in its inland wooded and rural areas, especially during drought conditions. Periods of drought can dry out vegetation and increase wildfire danger, which threatens homes in the wildland-urban interface. Extreme heat is another emerging risk: heat waves can impact public health, particularly for the elderly and those without air conditioning, and can compound drought and wildfire conditions.

These vulnerabilities – coastal storm surge, inland flooding, high winds, wildfire, extreme heat, and geologic hazards – all pose significant threats to Pasco's people and infrastructure. Recent events exposed many weaknesses: for instance, widespread power outages and sewage system failures occurred when flooding and power loss caused sewage spills, and evacuation routes were submerged (almost half of the county's evacuation route miles are at risk in a 100-year flood event). Understanding these risks, the county recognizes the need to address vulnerable systems and locations proactively. In summary, Pasco's key hazard vulnerabilities include flood-prone neighborhoods and roads, undersized or aging drainage and utility infrastructure, wind-prone housing (especially older mobile homes), wildfire-prone wildlands, and other climate-related risks. These challenges inform the county's mitigation priorities.

Resilience Priorities

Based on the risk assessment, Pasco County has identified several resilience priorities to guide the use of its mitigation funds. The focus is on reducing future disaster damage and protecting residents, especially in the most impacted areas. Key priorities include:

- **Flood Control and Stormwater Management:** Invest in drainage improvements and flood control infrastructure to reduce flooding in vulnerable areas. This includes enlarging culverts and retention basins, improving canals and stormwater pumps, and pursuing projects like seawalls or living shorelines along the coast. Elevating or relocating frequently flooded homes is also a priority to prevent repetitive losses. By controlling floodwaters and keeping communities dry, Pasco can significantly lower future storm damage.

- **Hardening Critical Infrastructure:** Strengthen essential infrastructure and facilities to withstand hurricanes and other hazards. Projects will focus on fortifying utilities (power grids, water and wastewater systems), so they remain operational during disasters, and upgrading key road segments and bridges (especially designated evacuation routes) to be flood-resistant and wind-resistant. Protecting critical community facilities is part of this priority – for example, reinforcing the water reclamation facility and other utilities that were identified as at risk. These measures ensure that vital services - including electricity, clean water, and safe roads - are available when disasters strike, enhancing community safety and quick recovery.
- **Resilient Housing and Shelters:** Increase the resilience of the housing stock and emergency shelters. This priority involves retrofitting homes and public housing sites with storm-resistant features – such as roof reinforcements, impact windows, and elevation above base flood elevation in accordance with program standards - and constructing new housing in safer locations as needed. It also includes expanding and improving emergency shelters – ensuring there are enough storm shelters and cooling centers and equipping them with backup power generators and supplies. By hardening housing and shelter infrastructure, Pasco will better protect lives and property when future storms or heat waves occur.
- **Wildfire and Other Hazard Mitigation:** Address risks from wildfire and other secondary hazards. This includes activities like vegetation management and creating defensible space in high-risk wildfire zones, improving rural water supply for firefighting, and community education on fire prevention. For extreme heat, priorities may include developing cooling centers (often overlapping with shelter improvements). Sinkhole monitoring and drainage improvements can mitigate collapse risks in susceptible areas. While these hazards are more localized, mitigating them is vital for Pasco's overall resilience.
- **Leveraging Funds through Mitigation Projects:** Pasco aims to integrate mitigation into every recovery project and leverage its CDBG-DR mitigation funds to the fullest. A key priority is to use the available mitigation funding as matching funds or gap financing for larger resilience projects. For example, the county can partner with state and federal government by providing local matching funds to support projects. This strategy ensures that critical projects – whether it's a major drainage overhaul or a new resilient community center – can move forward even if other funding sources fall short. By closing funding gaps for high-impact mitigation projects, Pasco will maximize the reach of its dollars and address vulnerabilities that would otherwise remain unaddressed due to lack of funding.

These resilience priorities align with Pasco County's long-term strategic goals (as outlined in its Local Mitigation Strategy) to protect lives and property, reduce repetitive losses, and strengthen community resilience. The county's approach is comprehensive: it combines structural investments (infrastructure upgrades, resilient housing, nature-based solutions) with non-structural measures (improved policies, building codes, public awareness). By pursuing the above priorities, Pasco County will use its mitigation allocation to build a safer, stronger community that is better prepared for the next disaster.

Summary of Programs

Pasco County's CDBG-DR funds will be distributed across seven program categories: Housing, Infrastructure, Economic Revitalization, Public Services, Mitigation, Planning, and Administration. Full descriptions of each program may be viewed in the **Allocation and Award Caps** section of this Action Plan. Table 3 summarizes allocations and program details by category.

Table 3: Summary of Allocations by Program

Category & Programs	Proposed Allocation	% of Allocation
Housing	**$305,000,000**	**52%**
Repair, Reconstruction, and Elevation (RRE)	$155,000,000	

Category & Programs	Proposed Allocation	% of Allocation
Manufactured Housing Program	$50,000,000	
Affordable Housing Construction	$100,000,000	
Infrastructure	**$130,022,800**	**22%**
Critical Infrastructure	$100,022,800	
Public Facilities	$30,000,000	
Economic Revitalization	**$25,000,000**	**4%**
Small Business and Non-Profit Recovery	$25,000,000	
Public Services	**$10,000,000**	**2%**
Public Services for a Better Future	$10,000,000	
Mitigation	**$76,396,000**	**13%**
Better Future Match and Mitigation	$76,396,000	
Planning	**$10,000,000**	**2%**
Planning for a Better Future	$10,000,000	
Administration	**$29,285,200**	**5%**
Administrative Costs	$29,285,200	
Total	**$585,704,000**	**100%**

Housing – $305 million (52%)

Funds support the repair, replacement, construction, and reconstruction of homes for residents impacted by the storms.

1. **Repair, Reconstruction, and Elevation (RRE) – $155,000,000**
   Assists homeowners and small landlords in repairing, rebuilding, or elevating damaged homes. Includes demolition of unsafe structures, buyouts, and reimbursement for out-of-pocket storm repairs.
2. **Manufactured Housing Program – $50,000,000**
   Repairs or replaces storm-damaged mobile and manufactured homes with safer units. Covers demolition, elevation, relocation, and necessary infrastructure connections.
3. **Affordable Housing Construction – $100,000,000**
   Builds new single-family and rental housing for displaced low- to moderate-income (LMI) households. Funds may be used to acquire and redevelop properties, including mobile home parks.

Infrastructure – $130 million (22%)

Funds are used to repair and upgrade damaged public infrastructure and facilities.

1. **Critical Infrastructure Resilience – $100,022,800**
   Repairs roads, bridges, and utilities impacted by storm damage. Funds stormwater improvements, pump upgrades, and backup power for critical infrastructure.
2. **Public Facilities – $30,000,000**
   Repairs or replaces damaged community-serving buildings such as emergency shelters, clinics, or community centers. Also allows for new construction where facilities failed or are insufficient.

Economic Revitalization – $25 million (4%)

Supports small business and nonprofit recovery.

1. **Small Business and Non-Profit Recovery – $25,000,000**

Offers grants or loans to help eligible small businesses and nonprofits recover from storm-related damage or income loss. Funds can be used for repairs, inventory replacement, and operating costs.

Public Services – $10 million (2%)

Provides services that support individual and household recovery.

1. **Public Services for a Better Future – $10,000,000**
   Funds case management, legal aid, housing counseling, job training, and mental health services for disaster-affected residents. Prioritizes LMI and vulnerable populations.

Mitigation Set-Aside – $76.4 million (13%)

Supports activities that reduce future disaster risk.

1. **Better Future Match and Mitigation Program – $76,396,000**
   Provides match for FEMA and other federal mitigation grants and funds standalone projects that improve storm resilience. Includes drainage upgrades, utility hardening, and facility retrofits.

Planning – $10 million (2%)

1. **Planning for a Better Future– $10,000,000**
   Supports disaster recovery planning, risk assessments, feasibility studies, and capacity-building for local partners.

Administration – $29.3 million (5%)

1. **Administrative Costs – $29,285,200**
   Covers program oversight, reporting, financial management, and compliance with federal requirements.

Introduction & Impact Overview

Pasco County experienced an unprecedented series of disasters in 2023-2024, suffering severe impacts from Hurricane Idalia (2023), Hurricane Helene (2024), and Hurricane Milton (2024). Each storm caused widespread damage to homes, infrastructure, businesses, and public services in Pasco County. In January 2025, the U.S. Department of Housing and Urban Development (HUD) recognized the extent of Pasco's unmet recovery needs by announcing a direct allocation of $585.7 million in Community Development Block Grant-Disaster Recovery (CDBG-DR) funds to Pasco County.[13] This historic funding is intended to address the remaining unmet needs from the three storms across housing, infrastructure, economic revitalization, and public services. $509.3 million of this allocation is explicitly designated for unmet recovery needs stemming from Hurricanes Idalia, Helene, and Milton; the remaining $76.4 million is set aside for mitigation activities. This assessment aims to evaluate those unmet needs in detail, by sector and municipality, to inform Pasco County's 2025 CDBG-DR Action Plan in alignment with HUD's Action Plan Template guidelines.

[13] NatureCoaster.com (2025, April 14). *Pasco County to receive $585 million for disaster recovery and requests* -. NatureCoaster.com.

Disaster Context

Each storm had distinct characteristics and unique impacts on Pasco County's communities.

Hurricane Idalia (DR-4734)

Hurricane Idalia made landfall as a Category 3 storm in Florida's Big Bend on August 30, 2023. While the eyewall did not directly strike Pasco County, Idalia's storm surge and winds caused significant coastal flooding in neighborhoods in western Pasco.[14] [15] An estimated 4,000 to 6,000 homes in Pasco County were damaged by Idalia[16] streets in low-lying coastal areas turned into rivers, forcing numerous water rescues. Fortunately, advance evacuations helped prevent loss of life in Pasco, but flood damage displaced many families.

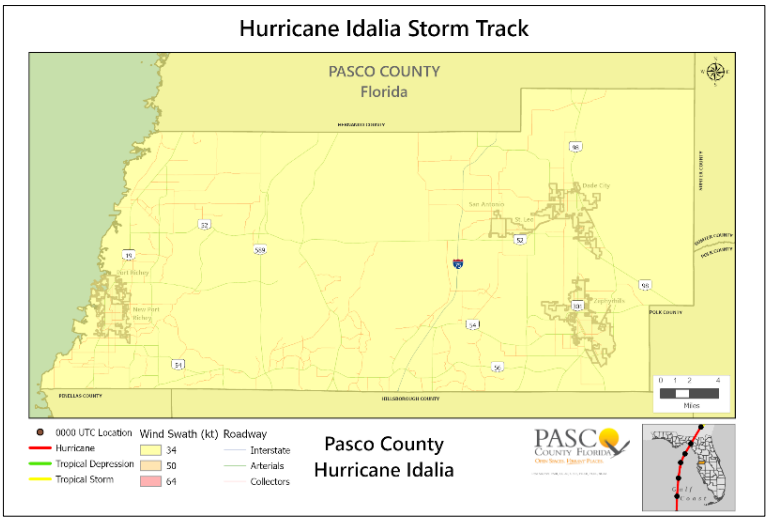

Figure 5: Idalia Path and Wind Swath

Hurricane Helene (DR-4828)

One year later, Hurricane Helene struck in late September 2024 as a massive Category 4 storm that tracked north of Pasco but drove record-breaking storm surge into the Tampa Bay region. Pasco County's coast saw storm surge levels up to 16 feet above normal, far exceeding forecasts. Helene's surge inundated entire neighborhoods on Pasco's west side; roughly 200 people had to be rescued from rising floodwater on the night of landfall in Pasco County alone.[17]

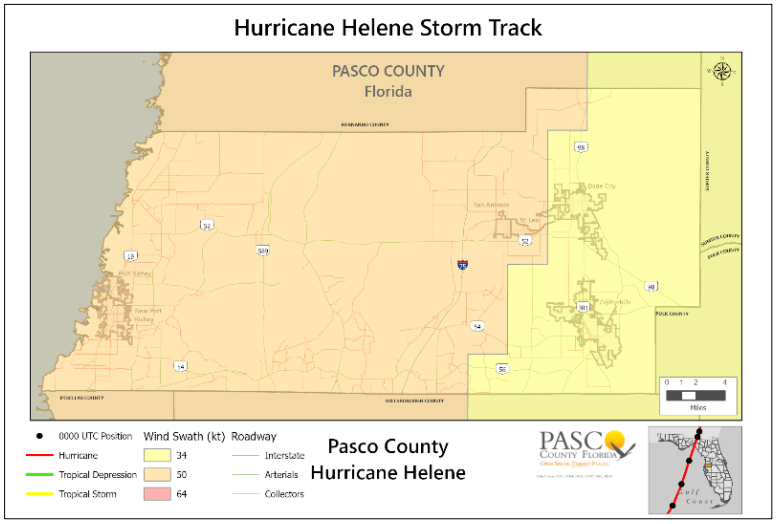

Figure 6: Helene Path and Wind Swath

[17] Tampa Bay Times. (2024, October 12). *In Pasco, historic flooding from repeat storms tests limit of rescue crews.*

Hurricane Milton (DR-4834)

Less than two weeks later, Hurricane Milton made landfall on October 9, 2024, as a Category 3 storm, this time passing just south of Pasco. Milton brought torrential rainfall (15+ inches) and strong winds that caused historic inland flooding. The Anclote and Withlacoochee Rivers overflowed into communities, and eastern Pasco neighborhoods saw up to 8 feet of standing floodwater from Milton's rains.[18] Pasco's emergency responders, already strained from Helene, conducted another 200+ rescues during Milton's floods. The back-to-back nature of Helene and Milton dealt a "one-two punch" to Pasco County, impacting many of the same residents and infrastructure twice within weeks.

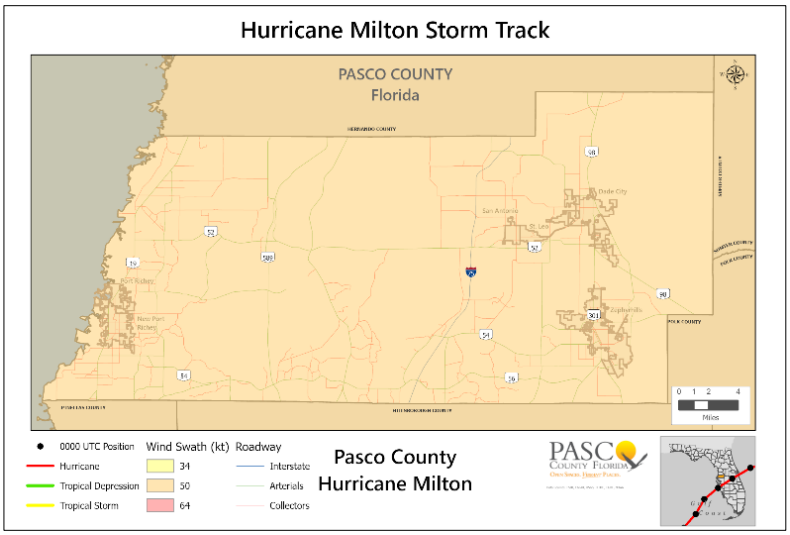

Figure 7: Milton Path and Wind Swath

Most Impacted and Distressed Areas (MIDs)

While damage was widespread, resulting in the entire County being declared Most Impacted and Distressed (MID) by HUD, each region experienced unique impacts. These include both specific neighborhoods and entire municipalities.

Western Coastal Communities

Including New Port Richey, Port Richey, Holiday, Hudson, and communities in the surrounding area, Hurricane Helene's storm surge caused catastrophic flooding along the Gulf coast and the lower reaches of coastal rivers. Many homes along the Pithlachascotee River and low-lying coastal roads were inundated by several feet of water in New Port Richey and Port Richey. Places like SunWest Park in Hudson were swamped by surge[19]; the park was under water and filled with debris and sand, requiring seven months of cleanup before reopening.[20] These western areas saw significant home destruction, particularly older homes and mobile homes that could not withstand floodwaters. Approximately 200 residents had to be rescued from rising floodwater in western Pasco the night Hurricane Helene hit,[21] highlighting the severity of the surge. Many coastal residents remain displaced or are rebuilding homes to new flood standards.

Eastern Inland Communities

Including Zephyrhills, Dade City, and communities in the surrounding area, Hurricane Milton's extreme rainfall led to unprecedented inland flooding in eastern Pasco. Areas of the City of Zephyrhills and unincorporated neighborhoods near rivers and retention ponds were submerged for weeks. Even months after Milton, dozens of

properties in places like the Hickory Hills area of Dade City remained partially underwater. One resident described needing a boat to reach his home four months after the storm.[22] In Zephyrhills, floodwaters lingered so long that six months later, some homes were still inaccessible and without running water or electricity.[23] These conditions illustrate the prolonged nature of the disaster's impact on inland Pasco. While Milton's winds were less intense on the coast, they caused wind damage, such as downed trees and roof damage, countywide and exacerbated flooding by blowing water into areas that had never previously flooded.

Central Pasco

Including Land O' Lakes, Wesley Chapel, and other unincorporated communities in surrounding areas, Central Pasco experienced moderate impacts, mainly wind damage (downed power lines, roof damage) and sporadic flooding in low-lying spots. Power outages were widespread; some first responders had to work 12-plus-hour shifts restoring power to others while their homes went without electricity for over a week. The central region's prior growth had stressed stormwater infrastructure, and these storms exposed those vulnerabilities, including overflowing canals and saturated retention ponds.

Figure 8: Rescue Efforts in the Elfers Area of New Port Richey

Each of Pasco's municipalities faces unique recovery challenges. Coastal cities - like New Port Richey and Port Richey - are grappling with rebuilding homes to hurricane-resistant and flood-compliant standards in the wake of Helene's surge. Inland cities, like Zephyrhills and Dade City, are focused on resolving persistent flooding and repairing water-damaged infrastructure from Milton. Smaller towns, such as San Antonio and St. Leo, are addressing cumulative stresses and assisting their residents with insurance claims and home repairs. Unincorporated Pasco, from coastal enclaves like Hudson to other suburban areas across the jurisdiction, contains the most damaged properties and infrastructure, requiring county-wide solutions.

Pre-Disaster Vulnerabilities Exacerbated

It is important to note that Pasco County entered this disaster period with pre-existing vulnerabilities worsened by the storms. The county had a deficit of affordable housing units even before 2023, with many low-income residents living in older mobile homes or low-lying neighborhoods. Infrastructure systems (particularly stormwater and wastewater management, along with aging road drainage) needed upgrades. The local economy, while growing, included many small businesses with limited reserves and a tourism sector (beaches, parks, hospitality) sensitive to storm disruptions. These factors have amplified the impact of Idalia, Helene, and Milton. For example, the lack of affordable housing has made it harder to relocate displaced families, and inadequate drainage in some subdivisions turned what would have been minor flooding into major, prolonged flooding. This assessment will

[22] Octavio, Miguel (2025, February 12). Parts of Dade City neighborhood still underwater 4 months after Hurricane Milton. WTSP.
[23] Lebron, Sky. (2025, March 6). *Months after Milton: Floodwaters are still surrounding these Zephyrhills Homes*. WUSF.

highlight instances where the disasters exacerbated existing needs, underscoring the importance of a recovery that mitigates future risks, as discussed further in our Mitigation Needs Assessment.

The cumulative damage to Pasco County from the three storms is staggering. Between Helene and Milton alone, county officials estimated over 800 homes were destroyed and 7,600 homes experienced major damage. Thousands more were affected by Idalia. Critical infrastructure was battered – utilities, roads, bridges, and public facilities suffered extensive damage. Small businesses across the county experienced physical losses and economic disruption. Community services were stretched thin as residents grappled with displacement, health and safety hazards, and the bureaucracy of seeking recovery needs from multiple sources post-disaster. This Unmet Needs Assessment provides a comprehensive look at the remaining needs in Pasco's recovery, organized into the three core aspects (or sectors) of long-term recovery – Housing, Infrastructure, Economic Revitalization – along with Public Services to address the needs of vulnerable populations and community well-being.

Unmet Needs Assessment

HUD requires that Pasco County develop the following Unmet Needs Assessment to strategically inform our use of CDBG-DR funding. This Unmet Needs Assessment analyzes community needs across Pasco County by assessing the remaining effects of the qualifying disaster on housing, infrastructure, and the economy. Since the entire county was declared a most-impacted and distressed area (MID), 100 percent of our CDBG-DR award will benefit HUD-identified MID areas.

This Unmet Needs Assessment includes the following:

1. A description of the effects of Hurricanes Idalia, Helene, and Milton, and the most significant remaining recovery needs that have not been addressed by other sources of funds, including insurance proceeds, other Federal assistance, or any other funding source; and
2. A thorough evaluation of the three core aspects of recovery - housing, infrastructure, and the economy (e.g., estimated job losses), which considers the pre-disaster needs (such as a lack of affordable housing) that the disaster has exacerbated. Our housing needs assessment addresses emergency shelters, interim and permanent housing, rental and owner-occupied single-family and multifamily housing, public housing, including HUD-assisted housing, and other affordable housing, including housing for vulnerable populations and those unhoused before the disaster.

The County understands that disaster recovery needs will evolve. As changes occur, the County will amend this Unmet Needs Assessment, as additional needs are identified, and/or additional resources become available. At a minimum, Pasco County will revisit and update the Unmet Needs Assessment when reallocating funds from one program to another through a substantial amendment.

In the following sections, Pasco County's unmet needs are evaluated in detail by sector. For each sector, we document the disaster impacts with data and community input, the resources already in place for recovery (such as FEMA, Insurance, and other duplicative benefits), and the remaining unmet needs, calculated as the gap that CDBG-DR and other funds must address because other sources do not cover them. All data sources are cited, and qualitative descriptions are provided where current data is unavailable. Figures and tables are included to visualize key information, ensuring the assessment is accessible to a non-technical audience. This assessment concludes with a summary of total unmet needs by category (Table 12) and a discussion of how these identified needs will drive Pasco County's recovery strategy, including using the $585.7 million CDBG-DR direct allocation and other supplemental funding.

Methodology for Calculating Unmet Needs

Housing

To calculate estimated Housing unmet needs, Pasco County used FEMA IA, National Flood Insurance Program (NFIP), and local data to identify damaged or destroyed units, calculated the value of housing losses using HUD multipliers established in the Federal Register (for Major/Severe FEMA damage level categories) and proxy calculations (for Minor FEMA damage level categories), and tabulate against the assistance received. FEMA Data was evaluated and records determined to be outside the County (e.g., City and Zip Codes in other counties, such as Hillsborough, Hernando, and Pinellas) were removed from our unmet needs calculation to provide the most accurate assessment with available data. An increase of 30 percent on top of estimated value of housing losses in Pasco County was included to account for costs associated with making newly constructed and rehabilitated housing more resilient to future disasters[24].

Infrastructure

Infrastructure impacts are estimated from the non-federal cost share of FEMA PA and known projects submitted to Pasco County. An increase of 30 percent of the total of known PA project costs provided by the County's Grants Division was included to account for costs associated with making repaired and newly constructed infrastructure more resilient to future disasters. An additional 26.9 percent for increased cost of building materials and supplies was also incorporated.

Economic Revitalization

To calculate estimated economic revitalization unmet needs, Pasco County evaluated de-duplicated data provided by SBA and calculated the Total Verified Loss, accounted for an additional 30 percent in funding needed to support rebuilding to higher standards (resilience), and removed payments that had been made.

The total unmet needs in each category (Table 16) are estimated based on the best available data as of April 2025. The unmet needs assessment will continue to be updated as programs progress and additional data become available. In total, Pasco County estimates approximately $1.5 billion in unmet needs from damage caused by Hurricanes Idalia, Helene, and Milton.

Data Sources

Unmet needs are calculated based on direct and indirect needs, less financial assistance that has been budgeted or obligated to meet those needs. A single data source does not provide sufficiently accurate information, so multiple sources were used to understand the full extent of needs in Pasco County following Hurricanes Helene and Milton. Data in this assessment reflects the best available data as of April 2025 to capture the needs at that point in time.

- **FEMA Individual Assistance (IA):** The FEMA IA Program is the primary source of data on impacted households and for calculating unmet housing recovery needs for CDBG-DR grantees. Following a disaster, homeowners and renters voluntarily register for FEMA IA. FEMA Verified Loss[17] awards only aid with repair/replacement to restore the home to habitable conditions. FEMA IA data only reflects the cost to repair a home to habitable

[24] The 30 percent resilience investment is consistent with HUD's approach in 2013 when it allocated CDBG-DR funding to jurisdictions impacted by Superstorm Sandy (78 FR 69112).

conditions and often underestimates need. However, the data available at the household level, including a range of income and real property damage estimates, allows for an analysis consistent with the unmet needs calculation outlined in the applicable federal register notice.

- **Small Business Administration (SBA):** The SBA disaster loan program is a recovery resource for impacted households. The program provides loans for housing repairs and business needs. For Homes, SBA loan estimates are based on inspections and often include the full home restoration cost.
- **Insurance Claims:** Pasco County utilized National Flood Insurance Program (NFIP) claim data at the county level to estimate assistance per household. Florida Office of Insurance Regulation (FOIR) data was not available for sufficient evaluation at the time of assessment.
- **American Community Survey:** The American Community Survey (ACS) is updated annually based on a sample of 3.5 million residents in the 50 states. ACS data was used to capture economic and demographic data.
- **HUD & Homelessness Data Exchange (HDX) Homeless Point-in-Time Count:** The Point-in-Time (PIT) Count is an annual count conducted by every Homeless Continuum of Care (CoC) in the County on one designated night in January. It accounts for the number of individuals housed in emergency shelters, transitional housing, Safe Havens, and unsheltered housing.
- **HUD Low- and Moderate-Income Data (LMI):** This data is available on the HUD Exchange at the block group, tract, jurisdiction, and county levels. The HUD limits calculate the extremely low (30 percent of area median income, or AMI) limit, very low income limit (50% AMI), and low limit (80 percent AMI) income limit for 1-person to 8-person families for every county and state in the United States. The limits are recalculated annually to determine eligibility for public housing, Section 8 vouchers, and programs assisting seniors and disabled persons.

Evaluation of the Three Core Aspects of Recovery

Housing

Hurricanes Idalia, Helene, and Milton caused widespread damage to housing in Pasco County, displacing thousands of residents. Housing recovery remains the most significant unmet need sector. This section evaluates housing impacts and needs in four areas: Emergency Shelters, Interim and Permanent Housing, Rental and Owner-Occupied Housing (Single-Family and Multifamily), and Public Housing and Other Affordable Housing.

Emergency Shelters, Interim Housing, and Permanent Housing Needs

The storm events severely affected the county's emergency shelter system, displacing vulnerable populations and reducing shelter capacity. One transitional housing facility operated by ACE Opportunities, which included emergency shelter beds, was flooded and rendered inoperable. As of April 2025, this facility remains out of service, further reducing available emergency accommodation.

In addition, several motels and hotels traditionally utilized through emergency shelter voucher programs sustained storm-related damage and are no longer accessible. This loss has significantly constrained emergency response capacity during times of peak need.

In neighboring Pinellas County, Pinellas Hope, a regional shelter operated by Catholic Charities Diocese of St. Petersburg, suffered extensive damage. Although outside of Pasco, this facility has historically served individuals displaced from Pasco County. The loss of this facility further strained the regional shelter network. Table 4 describes shelter capacity prior to Hurricanes Helene and Milton.

Table 4: Shelter Capacity Prior to Hurricanes Helene and Milton

Organization	Beds	Description
ACE Opportunities	5	Emergency shelter (flooded post-disaster)
CCDOSP – Pasco Family Shelter	36	Family shelter
CCDOSP – Felicity House	28	Women's shelter
CHPC – DCF ESG Emergency Shelter	2	Small-scale program
Youth and Family Alternatives (YFA) – RHYMIS ES	26	Youth-focused shelter
Sunrise	40	Domestic violence shelter
CHPC – Students in Transition	35	Youth in school district
St. Vincent de Paul – Hotel/Motel (CV3)	20	Voucher-based emergency shelter
Total	**216**	

Homelessness is a quality-of-life issue for people who lack housing, as well as the people who are stably housed. Pasco County believes that it's important to help our homeless neighbors get into our system of care. Table 5[25] identifies County estimates of homeless households and persons affected by our 2023-2024 disasters (including Statewide estimates for comparison):

Table 5: HUD Continuum of Care Point-in-Time Counts (2024)

CoC Point-in-Time Counts (2024)	Statewide Estimate	Pasco County Estimate
Total Homeless Households	**24,925**	**623**
Emergency Shelter	7,320	64
Transitional Housing	3,167	141
Unsheltered	14,438	418
Total Homeless Persons	**31,362**	**731**
Emergency Shelter	10,229	120
Transitional Housing	4,265	184
Unsheltered	16,868	427

Following the hurricanes, service providers reported significant increases in the number of unsheltered individuals. Many were forced into wooded and remote areas, creating outreach and safety challenges. Youth shelters and family shelters reported waitlists for the first time in several years, particularly for children and families under the age of 18.

Emergency Sheltering

In the immediate aftermath of each storm, hundreds of Pasco County residents relied on emergency shelters. Pasco County opened multiple evacuation shelters for Idalia, Helene, and Milton, including school-based and special needs shelters. During Hurricane Milton in October 2024, all public schools in Pasco County were closed for several days, and several, including Wiregrass High School in Wesley Chapel, were used as shelters for

[25] CoC Homeless Populations and Subpopulations Reports. (2024). Hudexchange.info. Accessed on April 15, 2025.

evacuees.[26] [27] Other regional shelters, like the Mike Fasano Regional Hurricane Shelter in Hudson, which is pet-friendly and capable of housing up to 1,000 occupants[28], was also used to shelter disaster-affected residents. Many coastal residents of Port Richey and New Port Richey who heeded evacuation orders took refuge in these shelters as Idalia and Helene approached.

During Helene, as storm surge inundated west Pasco neighborhoods, approximately 200 individuals were rescued by first responders and brought to higher ground and shelters[29]. During Milton's flooding, emergency crews evacuated over 200 residents from submerged homes in areas like Zephyrhills and Wesley Chapel.[30] These figures illustrate that hundreds of Pasco residents depended on public sheltering to survive the storms, yet shelter capacity and resources were stretched. Capacity restraints have resulted in many people across our region living in cars following the 2023-2024 storms.[31] Shelter operations went very well during Hurricane Helene. There was a peak total of 480 individuals in shelters, but the storm's effects left many permanently displaced. Helene brought new challenges with sheltering in recovery because there is no preexisting permanent place to put displaced citizens.[32] Moving forward, unmet needs include expanding shelter capacity and improving shelter facilities. Some evacuees, especially those with medical vulnerabilities, encountered crowded conditions and limited accessibility in shelters.

Interim Housing

After the immediate crisis, Pasco County has faced a prolonged need for interim or temporary housing for displaced residents. Hundreds of homes were uninhabitable– destroyed or so severely damaged that families could not return until major repairs or reconstruction occurred. As a result, many survivors have been living in hotels, with relatives, or in other temporary arrangements for months. FEMA's Transitional Sheltering Assistance (TSA) program provided short-term hotel stays for some survivors; however, this program was time-limited, and not all households qualified. Recognizing the gap, Pasco County, in partnership with the State of Florida and charitable organizations, established a temporary housing community called "Pasco Hope" in Holiday in late 2024.[33] This assessment notes that Holiday has two of the

top 10 zip codes in Pasco County with the highest total percentage of Low-to-Moderate Income (LMI) residents (34690 and 34691) per capita.[34]

This 2-acre site contains 50 small pallet homes and 25 RV trailers to house residents displaced by Hurricanes Helene and Milton. The Pasco Hope community, operated by Catholic Charities, offers a roof overhead and on-site services (including showers, laundry, and access to counseling) for storm survivors. This innovative approach helped Pasco address an urgent interim housing need through prior CDBG funding and the County's general fund.

Permanent Housing Repairs/Reconstruction

Ultimately, Pasco County's goal is to return survivors to safe, permanent housing – either by repairing damaged homes or rebuilding destroyed one. The scale of housing damage in Pasco is immense. Across Pasco County, more than 10,000 homes were substantially damaged by Hurricanes Helene and Milton in fall 2024.[35] "Substantially damaged" means repairs cost more than 50% of the structure's pre-storm value, triggering requirements for elevation or reconstruction to current codes.[36] Many homeowners are struggling to fund repairs due to gaps in insurance coverage and insufficient assistance. Flood damage has been problematic: standard homeowner's insurance does not cover flooding, and many residents did not carry flood insurance (especially those outside high-risk flood zones). Even insured flood victims often face high deductibles and payout limits. The National Flood Insurance Program (NFIP) has paid out large sums for these disasters – $449M across all three storms[37] – but this still does not come close to compensating for total losses.

The map in Figure 10 illustrates the geographic distribution of housing damage in Pasco for Hurricane Idalia using FEMA Verified Loss data (the total dollar value of verified housing damage per zip code). Lighter colors indicate lower aggregate damage, and darker shades indicate higher damage concentrations.

Pasco's western zip codes experienced the highest verified losses from Idalia's coastal flooding, especially around Port Richey and New Port Richey. Eastern and central Pasco saw relatively lower verified losses for Idalia, consistent with the storm's primary impacts being along the Gulf coast.

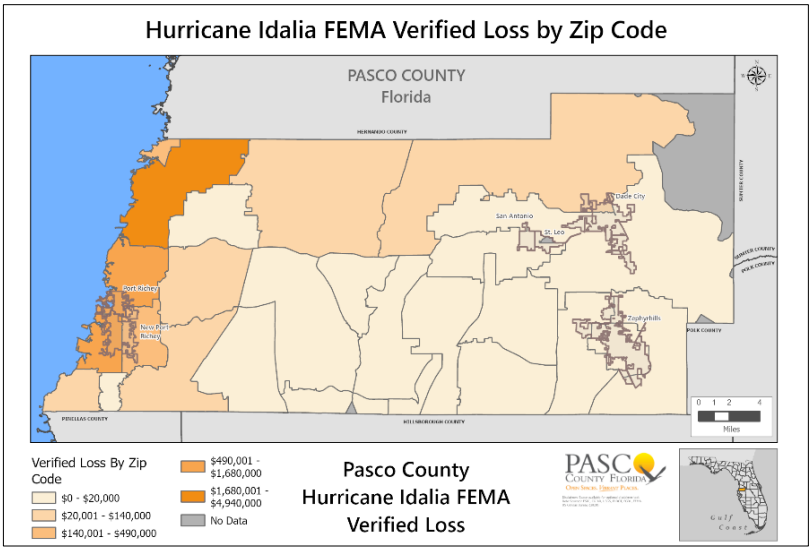

Figure 10: FEMA Verified Loss by Zip Code for DR-4734 (Idalia)

FEMA data suggests coastal Pasco County bore the brunt of Idalia's housing damage, whereas inland communities were less affected. However, the situation was

[34] HUD Office of PD&R. (n.d.). *Low to moderate income population by Block Group*.
[35] Hodgson, Ian, and Chesnes, Max. (2024, October 12). *In Pasco, historic flooding from repeat storms tests limit of rescue crews*. Tampa Bay Times.
[36] Simonton, Teghan, et. al. (2025, April 9). *It's been 6 months since Hurricanes Helene and Milton. how is Tampa Bay doing?* Tampa Bay Times.
[37] FEMA.gov. (n.d.). FIMA NFIP OpenFEMA Dataset v2. Accessed April 12, 2025.

different for the 2024 storms. Figure 11 shows Verified Loss by zip code for Hurricane Helene (DR-4828), and Figure 12 shows the same for Hurricane Milton (DR-4834).

Helene's verified housing losses were significant in western Pasco (Port Richey/New Port Richey area) due to storm surge, and notable in some inland areas, as well. Areas in southeast Pasco (around Zephyrhills) show moderate loss totals, indicating Helene's heavy rainfall caused some inland damage as well.

Milton's damage pattern differs from Helene's – verified losses are more evenly spread across the county, with both coastal and inland zip codes in the higher loss. Eastern Pasco (Dade City, Zephyrhills area) shows very high verified losses, correlating with the historic rainfall flooding. Western Pasco also has substantial losses from Milton, though Helene had already impacted many of those same areas two weeks prior.

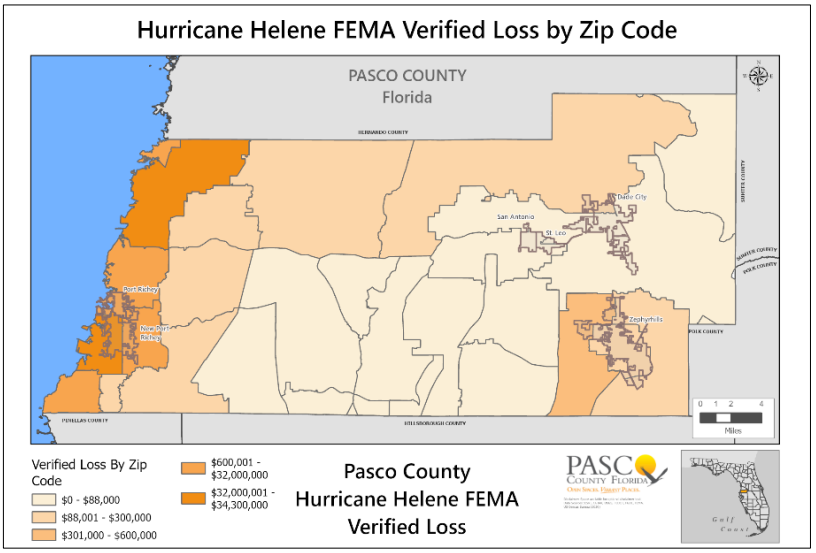

Figure 11: FEMA Verified Loss by Zip Code for DR-4828 (Helene)

The FEMA Verified Loss maps for Helene and Milton demonstrate that the combined impact of these storms was countywide. Coastal communities were hit twice (surge, followed by wind and rain), and eastern communities that were spared surge got inundated by rainfall flooding. As a result, nearly every part of Pasco County has residents facing lingering housing recovery challenges.

Unmet housing needs in Pasco County are extensive. Immediate sheltering needs have been met for most (with shelters closed and interim solutions in place), but temporary housing remains a critical need – many households still lack a stable temporary home while their permanent home is unlivable. The permanent repair and reconstruction need is measured in the thousands of homes and hundreds of millions of dollars. Pasco County's Action Plan will need to allocate a significant portion of CDBG-DR funds to homeowner rehabilitation, reconstruction, and possibly voluntary buyout programs in high-risk flood zones, as well as to rental housing recovery (discussed in the following section). Additionally, building safer, resilient housing to higher construction standards (elevating homes, strengthening roofs) is a priority to mitigate future disaster impacts, given that extreme weather is likely to continue.

Rental and Owner-Occupied Housing (Single Family and Multifamily)

Disaster impacts on housing in Pasco County affected both owner-occupied and renter-occupied homes, but the challenges these groups face can differ. This section examines how renters and owners have been impacted, including single-family and multifamily housing, and identifies unmet needs for each category. Analysis by municipality is provided where data allows, as renter vs. owner distributions vary across Pasco's communities (see Figure 13 for a geographic view of renter occupancy rates).

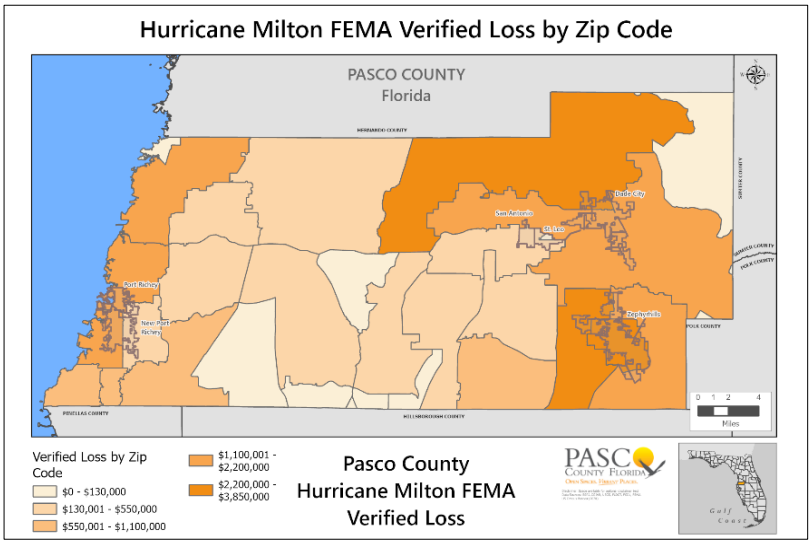

Figure 12: FEMA Verified Loss by Zip Code for DR-4834 (Milton)

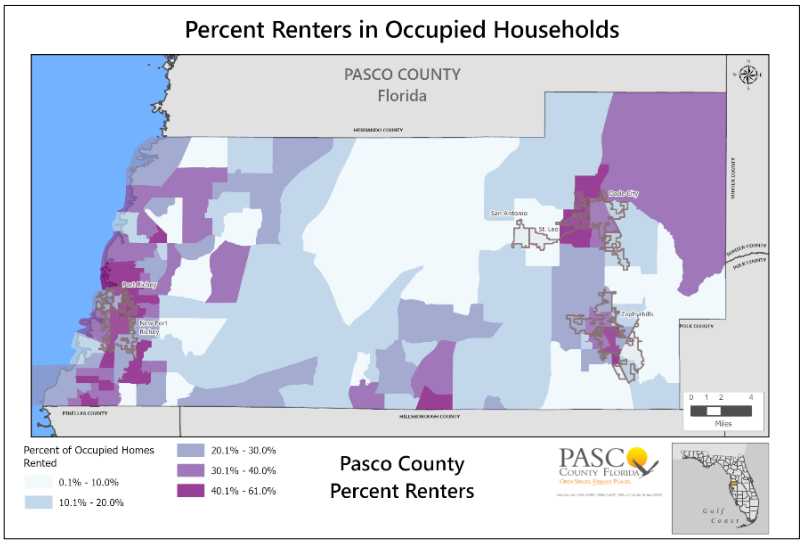

Figure 13: Percent of Renter-Occupied Households

Pasco County's housing stock includes suburban-style single-family homes (many owner-occupied), a significant stock of mobile/manufactured homes, and multifamily rental complexes, including apartment buildings, primarily in the western and southern parts of the county. About 77.3% of households are owner-occupied, and 22.7% of Pasco's households are renters,[38] though the percentage is much higher in certain cities and census tracts.

For instance, Port Richey and New Port Richey have high concentrations of renters, including in older apartment complexes and mobile home parks, while many inland tracts are predominantly owner-occupied. Figure 13 illustrates the percentage of occupied homes that are renter-occupied by census tract: Darker shades (purple) indicate a higher proportion of renters (up to ~60% of households) in that tract. Notably, tracts in and around Port Richey, New Port Richey, and Dade City show 40-60% renter households, as do some areas in Zephyrhills. In contrast, many central tracts (light colors) have under 20% renters, reflecting mostly owner-occupied homes.

The disasters affected homeowners and renters in different ways.

Owner-Occupied Single-Family Homes

Homeowners in Pasco experienced massive losses to their properties. Those with adequate insurance (including flood insurance) were somewhat buffered, but many still face funding gaps for rebuilding. A particular challenge for owners is complying with updated building codes and elevation requirements. In Pasco's coastal High Risk

[38] U.S. Census Bureau, U.S. Department of Commerce. "Physical Housing Characteristics for Occupied Housing Units." American Community Survey, ACS 1-Year Estimates Subject Tables, Table S2504, 2023,. Accessed on April 23, 2025.

Flood Areas, any substantially damaged owner-occupied home must be elevated – a high-cost requirement that is unlikely to be covered fully by insurance or FEMA. Thus, many owners face a choice of taking on debt, depleting savings, or abandoning their homes. Some hardest-hit owners, especially seniors and retirees on fixed incomes in communities like Port Richey's waterfront, simply cannot afford to rebuild to code without additional help. The municipalities of Port Richey and New Port Richey have a high share of seniors who are owner-occupants and who have expressed a need for help.

Owner-Occupied Mobile Homes

Mobile homes form a significant portion of Pasco's housing, particularly for seniors and low-income residents. As demonstrated in Table 6,[39] Pasco County's Mobile Home population is nearly nine percentage points higher than the State of Florida – representing a significant demographic with unmet housing needs following the 2023-2024 storms.

Table 6: Housing Units and Mobile Home Units (MHUs)

Mobile Homes	Statewide Estimate	Statewide Percentage	Pasco County Estimate	Pasco County Percentage
Total Housing Units	**10,451,823**	**-**	**279,605**	**-**
Mobile Homes	822,706	7.9%	46,445	16.6%

Many older mobile homes do not withstand hurricanes well. Helene's winds and Milton's floods destroyed numerous mobile homes. Typically, older mobile homes have little insurance and are not rebuilt. The unmet need here is to provide new housing, either new manufactured homes or transitioning residents to safer housing. Pasco may use funds to replace mobile homes with safer structures or acquire damaged mobile home parks for redevelopment.

Renter-Occupied Housing (Rentals)

Renters in Pasco also suffered greatly. Flooding and wind damage did not spare rental properties – from small single-family rental homes to large apartment complexes. However, renters have less control over repairs since property owners and landlords are responsible. A concerning trend observed after Helene and Milton is that many landlords were slow to respond or lacked the resources to repair rental units promptly, leaving tenants in unsafe conditions.[40] Renters typically do not have disaster insurance for their belongings (few carry renters' insurance), so they often lose furniture, clothing, and other personal property with no compensation. FEMA's Other Needs Assistance (ONA) can provide some grants for uninsured personal property losses, but not all renters qualify or know when/how to apply. This is supported by the disparity between the percentage of renters (demonstrated in Figure 13) and the FEMA claims across all three storms.[41]

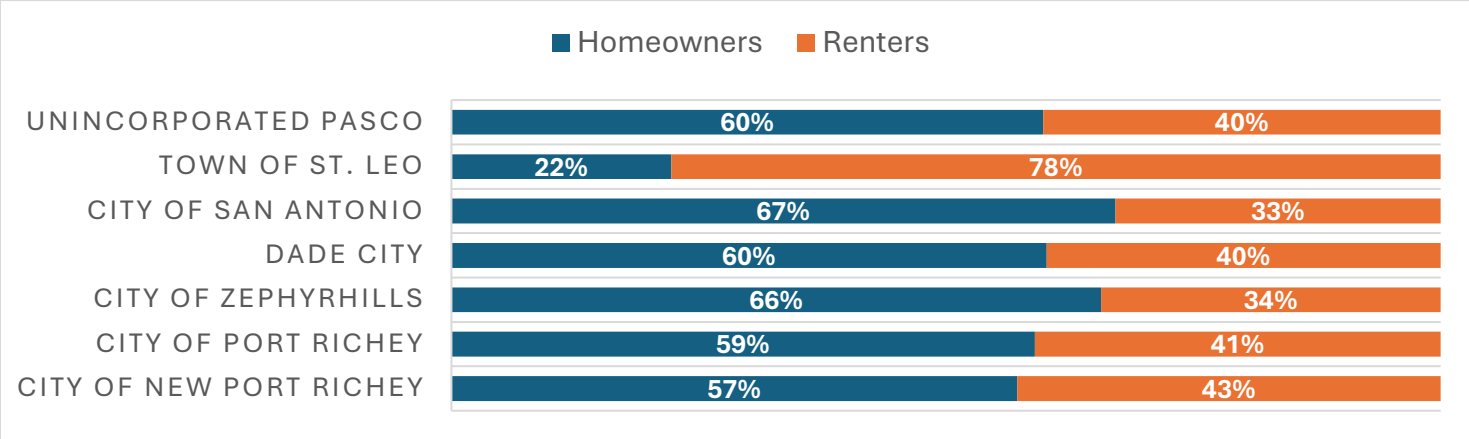

Figure 14: Disposition of FEMA Claims by Housing Tenure

Additionally, renters forced out of unlivable units may have struggled to find alternate housing in Pasco's already-tight rental market. Vacancy rates were low pre-storm, and suddenly many families were competing for habitable rentals. This drives rents up, which puts an economic strain on households who may have also lost wages during the disaster.

It's worth noting that many renters can become homeless or housing-insecure after the storms. Some ended up in the FEMA or Pasco interim housing programs, and others have left the area entirely. Municipalities like New Port Richey, which has a sizeable low-income renter population, have observed an uptick in homelessness after the storms, as displaced renters with nowhere to go show up at local shelters or encampments. This crossover between housing and public services (homeless services) indicates a need for supportive housing solutions for disaster-affected renters.

Renters and owners are both facing severe recovery hurdles, but renters are generally more vulnerable economically and depend on landlords and public support to restore their housing. Pasco County may consider allocating resources to ensure affordable rental housing is repaired or replaced - to prevent a long-term reduction in affordable units post-disaster, and to provide direct support to renters through extended rental assistance, legal aid (a Public Services activity), rehousing services, and new housing opportunities for renters. Meanwhile, homeowners need grants/loans for repair, replacement, and reconstruction to fill insurance gaps. Both groups would benefit from hazard mitigation measures integrated into repairs so that housing is safer and repaired, replaced, or reconstructed to higher construction standards.

Public Housing (HUD-Assisted) and Other Affordable Housing

Pasco County's public housing and HUD-assisted affordable housing stock is a vital resource for low-income residents and safeguarding it post-disaster is critical. "Public housing" refers to housing owned and operated by the Pasco County Housing Authority (or municipal housing authorities), typically reserved for very low-income households. "HUD-assisted housing" includes subsidized developments (like Section 8 project-based housing and Low-Income Housing Tax Credit properties. Additionally, other affordable housing, such as non-profit owned developments and mobile home communities, plays a big role in Pasco. This section assesses damage and needs in these housing segments.

The Pasco County Housing Authority (PCHA) manages several properties, including Dade Oaks (a housing complex for seniors in Dade City), Cypress Villas in Dade City, Citrus Villas in New Port Richey, Hudson Hills

Manor in Hudson, among others.[42] Many of these units house seniors and/or disabled residents. During the 2023-2024 disasters, the PCHA properties generally fared better than private housing, but some did sustain damage. However, there are unmet needs: the Housing Authority lacks funds for significant resilience and building safety upgrades. Aging roofs, old windows, and low elevation put these properties at future risk. CDBG-DR funds could be used to modernize and storm-harden public housing, such as installing generators for power backup, elevating electrical panels above flood level, and strengthening roofing.

Pasco County may allocate funds for affordable housing owners to restore units with enhanced resiliency, building safety features, and other higher construction standards. HUD's National Objective requirements encourage benefits to LMI households; repairing HUD-assisted housing squarely meets this objective since these units exclusively serve LMI tenants.

Another aspect is the loss of affordable housing due to the storms. Unfortunately, some naturally occurring affordable housing (e.g., older mobile home parks with low lot rents) was decimated. In Pasco's coastal belt (Port Richey/Hudson), entire mobile home parks were flooded. Those units often housed seniors on fixed incomes. When these homes are destroyed, those residents effectively lose their affordable housing. Replacing mobile homes is expensive, and not all are qualified for sufficient FEMA help (mobile homeowners who rented the lot might get some personal property aid, but often not enough to buy a new manufactured home). Therefore, an unmet need exists to assist households from destroyed mobile home parks – possibly through mobile home replacement programs or helping them relocate to other affordable housing.

The municipalities of Port Richey and unincorporated Hudson/Holiday have voiced concern that low-income mobile home residents are victims of these storms, and targeted outreach and assistance is needed to satisfy unmet needs. Additionally, the affordable housing continuum includes homeless shelters and transitional housing facilities. Repairing and fortifying these facilities is an unmet need, bridging housing and public services.

Summary: Housing

The 2023-2024 storms disproportionately impacted vulnerable populations residing in public and affordable housing. Ensuring those units are repaired, improved, and back online is critical. Unmet needs include repairing and reconstructing owner-occupied homes, including replacing damaged and destroyed mobile homes, expanding affordable housing to address pre-existing shortages and storm-related losses, hardening public housing sites, and restoring subsidized rentals. Pasco County's allocation provides an opportunity to invest in safe, affordable housing. This would replace what was lost and improve living conditions and reduce future disaster risk for residents, including LMI residents. The county will coordinate with federal, state, and local partners to prioritize these needs.

Figure 15 and corresponding Table 7 identify FEMA claims in each of Pasco's municipalities. Table 7 summarizes residences by damage level and municipality in Pasco County, with further breakdowns for homeowners and renters, based on available FEMA data.[43]

HUD uses FEMA IHP program data on housing-unit damage to calculate unmet needs for housing for qualifying disasters. Calculating unmet needs relies on this data, based on the FEMA-assessed level of damage. Table 9 identifies the criteria for each of the five levels of damage, based on FEMA data:

Table 9: FEMA Damage Level Category Criteria

FEMA Category	Owner-Occupied RPFVL	Owner Occupied PPFVL	Rental PPFVL
Minor-Low	Less than $3,000 of FEMA-inspected real property damage.	Less than $2,500 of FEMA-inspected personal property damage.	Less than $1,000 of FEMA-inspected personal property damage.
Minor-High	$3,000 to $7,999 of FEMA-inspected real property damage.	$2,500 to $3,499 of FEMA-inspected personal property damage.	$1,000 to $1,999 of FEMA-inspected personal property damage or determination of "Moderate" damage by the FEMA inspector.
Major-Low	$8,000 to $14,999 of FEMA-inspected real property damage and/or 1 to 3.9 feet of flooding on the first floor.	$3,500 to $4,999 of FEMA-inspected personal property damage or 1 to 3.9 feet of flooding on the first floor.	$2,000 to $3,499 of FEMA inspected personal property damage or 1 to 3.9 feet of flooding on the first floor or determination of "Major" damage by the FEMA inspector.
Major-High	$15,000 to $28,800 of FEMA-inspected real property damage and/or 4 to 5.9 feet of flooding on the first floor.	$5,000 to $9,000 of FEMA-inspected personal property damage or 4 to 5.9 feet of flooding on the first floor.	$3,500 to $7,500 of FEMA-inspected personal property damage or 4 to 5.9 feet of flooding on the first floor.
Severe	Greater than $28,800 of FEMA inspected real property damage or determined destroyed and/or 6 or more feet of flooding on the first floor.	Greater than $9,000 of FEMA inspected personal property damage or determined destroyed and/or 6 or more feet of flooding on the first floor.	Greater than $7,500 of FEMA-inspected personal property damage or determined destroyed and/or 6 or more feet of flooding on the first floor or determination of "Destroyed" by the FEMA inspector.

Table 10 further analyzes FEMA claims, including FEMA Estimated Property Loss (FVL) and the estimated total loss using CDBG-DR formula HUD multipliers. Given insufficient matching data between FEMA and SBA, an understanding that FEMA data does not fully capture all remaining unmet needs for residents, and the variance in FEMA claims submitted and paid, Pasco County has applied the following methodology for estimating unmet needs using FEMA data in order of precedence:

1. The standard HUD multipliers for mobile homes were applied to Major-Low ($77,058), Major-High ($98,643), and Severe ($134,834) damage categories.
2. The standard HUD multipliers for all other residence types (non-Mobile Homes) for the Hurricane disaster type were applied to Major-Low ($36,800), Major-High ($45,952), and Severe ($45,954) damage categories.
3. Proxy calculations were used to determine the appropriate multipliers for Minor-Low and Minor-High damage levels based on the residence type:
   a. Mobile Homes: Factored a multiplier of 59.64% from the next highest residence type – based on a ratio of the percentage difference between Major-Low and Major-High ($21,585) and Major-High and Severe multipliers ($36,191) assigned by HUD. The ratio of ~59.64% (59.6419%) was factored into the next highest damage type to determine multipliers for Minor-High ($45,959) and Minor-Low ($27,411) – each rounded to the nearest dollar.
   b. All Other Residence Types (including Homes, Apartments, Condos, and Townhomes): The ratio of Minor-High to Major-Low average real property loss calculations (~41.23%) was factored into the next highest damage type to determine multipliers for Minor-High ($15,171) and Minor-Low ($6,254) – each rounded to the nearest dollar.

Table 10: Housing Unmet Need (FEMA IA Data)

Damage Level and Residence Type	Total FEMA Claims	Total FEMA Estimated Property Loss	Average Real Property Loss	Estimated Total Loss
All Residences	**87,680**	**$128,238,745.58**	**$1,462.58**	**$1,317,256,412.00**

Considering available assistance data (FEMA and NFIP Repair Claims were considered; however, private insurance claim totals were unavailable at time of assessment), the total Housing Unmet Needs – including a 30% increase to account for resiliency measures and constructing homes to higher standards that make housing more resilient to future disasters[44] – is calculated at nearly $1.1 billion (Table 11: Estimated Total Housing Unmet Need).

[44] The 30 percent resilience investment is consistent with HUD's approach in 2013 when it allocated CDBG-DR funding to jurisdictions impacted by Superstorm Sandy (78 FR 69112).

Table 11: Estimated Total Housing Unmet Need

Cost Category	# of Claims	Average Amount	Estimated Totals
Total Housing Impact	**87,680**	**$15,023.45**	**$1,317,256,412.00**
(-) Repair Assistance Received	**5,456**	**$86,382.41**	**$471,302,402.56**

(+) 30% Resiliency			**$1,099,740,212.27**

Infrastructure

The 2023-2024 storms caused extensive damage to infrastructure systems across Pasco County. This section evaluates unmet infrastructure recovery needs, organized by infrastructure categories and with attention to damages in each municipality. “Infrastructure” here encompasses transportation systems, utilities, public facilities, and other critical infrastructure. Hurricanes Idalia, Helene, and Milton each created different infrastructure challenges: Idalia’s storm surge undermined roads and seawalls; Helene’s surge and winds knocked out utilities and flooded critical facilities; Milton’s heavy rains caused dam and drainage issues and further road washouts. The overlapping impacts strained repair efforts and revealed vulnerabilities.

Transportation

Roads and Bridges

Pasco County’s transportation network sustained widespread damage from Hurricanes Idalia, Helene, and Milton, including flooding, washouts, and debris-blocked roads. Storm surge from Idalia and Helene submerged U.S. Highway 19 and eroded local roads in Port Richey, where crews rebuilt 1,200 feet of roadway near Waterfront Park following Helene’s 16-foot surge. Hundreds of roads were initially blocked by debris, with Pasco receiving over 140 obstruction reports in the first hours after Milton’s landfall.[45] . While most roads have reopened, unmet needs remain for long-term repairs and mitigation. Certain areas may require floodwalls or raised roadbeds, and inland zones need larger culverts and improved drainage. Structural assessments are needed for bridges stressed by floodwaters. Additional funding is also needed to restore road shoulders, signage, and surfaces where only temporary repairs were made.

Transit

Pasco County bus services (GoPasco) were disrupted[46], including our Paratransit senior fleet for residents over the age of 60 with low income. Buses were used in some cases for evacuation before the storms. After Helene and Milton, regular bus routes were suspended for days due to impassable roads and shelters needing transportation support. The county’s transit fleet was not severely damaged, but some bus stops and transfer stations were flooded. Unmet needs include repairing damaged transit facilities and possibly elevating or floodproofing key bus stop areas. Also, ensuring transit access in recovery, like shuttles from temporary housing sites to commercial

[45] Fox News 13 Staff. (2024, October 10). *Hurricane Milton Aftermath: Pasco county storm damage*. FOX 13 Tampa Bay.

centers, is part of recovery services (covered in Public Services). Residents brought up Pasco County's aging bus fleet as an area of concern during our recent town hall meeting in Hudson (April 17, 2025).

Water, Wastewater, and Stormwater Infrastructure

Drinking Water Systems

Pasco County's potable water system (a mix of county and city utilities) faced challenges primarily from power outages and boil water notices. Floodwaters inundated some well fields and water treatment plant sites. For example, after Helene, Pasco County Utilities issued a countywide boil-water advisory because low water pressure occurred when backup generators at a pumping station failed during power loss. Saltwater intrusion from surge threatened a coastal well in Hudson. In Dade City, a water main break occurred when uprooted trees cracked an underground pipe.

While emergency repairs were made (with mutual aid from neighboring utilities), unmet needs are evident in the need to harden water infrastructure against floods and power loss. Backup generators at well fields, elevating electrical controls at treatment plants above flood level, and floodproofing well heads are needed. New Port Richey's water treatment plant is near the Pithlachascotee River; it came within inches of flooding during Helene – a temporary berm saved it. A permanent berm or floodwall around that plant is an identified need to prevent a catastrophic outage. The county's water distribution lines in flooded areas should also be inspected for infiltration or damage.

Wastewater (Sewer) Systems

The storms exposed vulnerabilities in wastewater infrastructure. Across the Tampa Bay region, an estimated 42 million gallons of sewage was spilled in October 2024 alone due to Helene and Milton.[47] Pasco County contributed significantly to this figure as floodwaters and power outages caused sewage lift stations and treatment plants to fail. The West Pasco Wastewater Treatment Plant (serving New Port Richey and Port Richey areas) was inundated by storm surge, leading to millions of gallons of partially treated sewage overflowing into local waterways. Nearby, manhole covers in New Port Richey popped off under flood pressure, releasing raw sewage in streets (one dramatic photo showed sewage bubbling out of a manhole downtown.[48] Pasco County officials estimated 1.5 to 2 million gallons of wastewater spills in the county from Helene/Milton. The impact of these spills is an environmental and public health concern – residents wading through floodwaters were exposed to contamination, and cases of illness (like *Vibrio vulnificus* infections) surged in Florida post-storm.

Unmet needs for wastewater infrastructure are substantial investments in resiliency. Pasco County needs to upgrade sewer lift stations by elevating pumps and controls or making them submersible. The county has dozens of lift stations; during Helene, dozens lost power and overflowed. Elevating and equipping lift stations with backup generators or quick-connect generator hookups is essential. The wastewater treatment plants (WWTPs) in Pasco – including those in New Port Richey, Shady Hills, and Dade City – need flood mitigation. The New Port Richey plant might need physical elevation of certain components or relocation of vulnerable equipment. Port Richey's wastewater system (a smaller utility) was completely offline for days; the city is considering decommissioning some low-lying pump stations and connecting those areas to county systems with more robust infrastructure. The

[47] Simonton, Teghan, et. al. (2025, April 9). *It's been 6 months since Hurricanes Helene and Milton. how is Tampa Bay doing?* Tampa Bay Times.
[48] Miller, Daylina (2024, October 13). Photos: Hurricane Milton's devastation across the Tampa Bay Area. WUSF.

Dade City plant built in the Mickens-Harper neighborhood required already needed significant upgrades[49] and needs were further exacerbated during Hurricanes Helene and Milton. These projects will require funding. Another need is to repair damaged sewer lines: infiltration of stormwater into the sewer system was extreme, indicating cracks and leaks. Pasco could implement an inflow/infiltration reduction program, including lining pipes and sealing manholes.

Stormwater Drainage

Perhaps the most glaring infrastructure limitation was in stormwater management. In all three storms, Pasco County's stormwater systems (ditch networks, retention ponds, and drains) were overwhelmed. Helene's rainfall and surge combined to overwhelm coastal drainage. During public input sessions, several residents noted neighborhood flooding in areas that have never previously flooded.

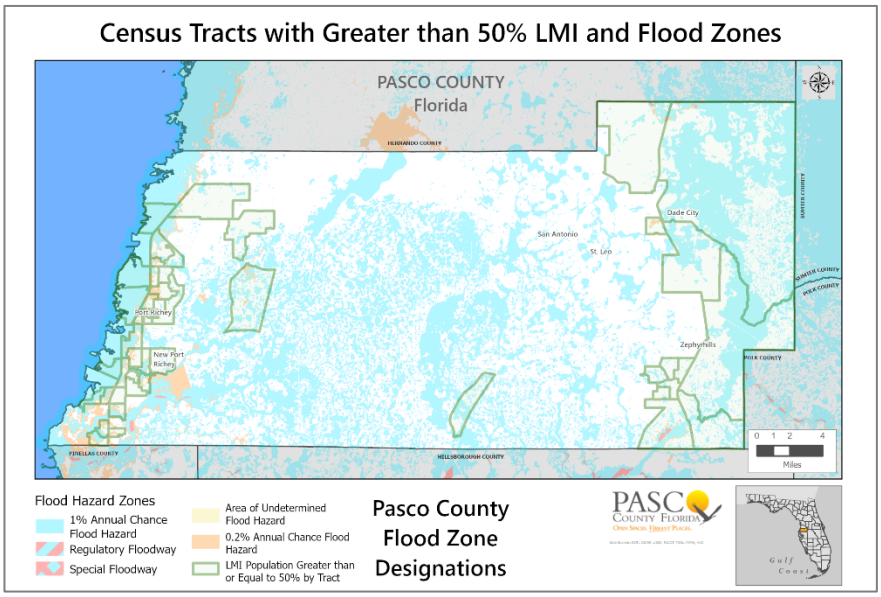

Figure 17: FEMA Flood Hazard Zones in Pasco County and Census Tracts with >50% Low- to Moderate-Income (LMI) Population.

Milton's deluge caused broad sheet flow of water in east Pasco – areas like Zephyrhills saw stormwater ponds overtop and new ponds form where water had nowhere to go. The historic flooding in Silver Oaks (Zephyrhills) suggests inadequate drainage infrastructure for such extreme rainfall; pumps ran for months but were insufficient[50]. Additionally, the county's network of swales and ditches in rural areas suffered from sedimentation and blockages.

Figure 18: Anclote River Flooding (Hurricane Helene)

Unmet needs include comprehensive stormwater system upgrades, such as dredging, enlarging culverts, constructing additional retention capacity, and restoring natural drainage where possible. A map of flood hazard zones relative to income (Figure 17) illustrates how widespread the flood-prone areas are, including areas principally serving LMI residents.

Areas in light blue are within the 1% annual chance (100-year) flood zone; green outlines indicate census tracts that are majority LMI. This map shows that extensive portions of Pasco County are flood-prone, including many LMI communities, including but not

[49] Blazonis, Sarah (2023, November 16) *Dade City gets $1.75m to relocate, upgrade wastewater treatment plant*.
[50] Hodgson, Ian, and Chesnes, Max. (2024, October 12). *In Pasco, historic flooding from repeat storms tests limit of rescue crews*. Tampa Bay Times.

limited to parts of New Port Richey, Port Richey, and Dade City. Strengthening stormwater infrastructure in these zones is a significant unmet recovery need.

Given this concern, Pasco County may explore infrastructure projects including improving the Anclote River drainage basin (which impacts Holiday and New Port Richey) – possibly through dredging or upstream water storage to reduce flood peaks, enhancing drainage in the Pithlachascotee River basin (Port Richey/New Port Richey) – such as considering a tide gate or pump system to evacuate water even during high Gulf tides; and Cypress Creek/Cypress Strand in central Pasco (impacts Wesley Chapel and Lutz). Milton's rains pushed Cypress Creek to record levels, flooding neighborhoods; building additional retention or diversion channels could mitigate this. The county's Stormwater Management Division had plans pre-storm for some improvements, but the storms have multiplied the urgency and scope. These plans include the redevelopment of Magnolia Valley, designed around a 38-acre regional stormwater facility constructed for flood attenuation and water quality improvement purposes. This master plan also consists of passive and active facilities, including basketball courts, soccer fields, baseball fields, tennis courts, trails, and exercise stations, making this a truly transformational project for Pasco County. Additional funding is needed to execute these projects and other stormwater management improvements to failed or functionally overwhelmed, especially in municipalities that rely on the county for broader watershed management.

Power and Utilities (Electric Grid and Communications)

The hurricanes caused widespread power outages in Pasco County, some lasting over a week. Several utilities serve Pasco: Duke Energy (west/north Pasco), Tampa Electric/TECO (south-east Pasco), Withlacoochee River Electric Cooperative (east/rural Pasco). All reported massive outages. After Hurricane Helene, nearly 1.3 million customers in Florida lost power; after Hurricane Milton, outages spiked to 3.4 million statewide – Milton almost tripled Helene's outages due to its track through highly populated areas. In the Tampa Bay region, 924,000 customers were still without power the day after Milton. In Pasco, estimates suggest 70% or more of the county lost electricity during Milton, reflecting tens of thousands of households and businesses in the dark. Tampa Electric - which serves parts of south Pasco like Wesley Chapel - experienced nearly 600,000 outages system-wide, affecting about 70% of its customers. Duke Energy also had hundreds of thousands affected by outages. Full restoration took 5-7 days for most, and up to 10 days for some pockets, as crews from around the country assisted.[51]

Prolonged outages had cascading effects: water and sewer systems went offline without power, traffic signals were dark, and vulnerable residents without generators endured heat and limited medical device power. Pasco County opened comfort stations where people could charge devices or get ice. Power companies have since been repairing infrastructure, but unmet needs include support for grid hardening and backup power for critical facilities.

Public Buildings, Facilities, and Parks

Government Buildings, Community Facilities, and Schools

Numerous public buildings across Pasco County sustained damage during Hurricanes Idalia, Helene, and Milton, ranging from minor water intrusion to major structural and roof damage. While repairs are underway for many facilities, unmet needs remain, particularly strengthening these structures to withstand future events. Government offices, community centers, and educational facilities were damaged and played critical roles as

[51] Simonton, T. (2025, January 22). *Hurricane Milton caused nearly triple the power outages of Helene*. Tampa Bay Times.

shelters, coordination hubs, and resource centers during the storms, underscoring the importance of their ability to withstand storms and other disasters.

Community buildings used as shelters and recovery hubs also suffered damage. Hudson Regional Library saw increased use as a multi-agency resource center and point of distribution site for relief resources. Community centers such as the Moore-Mickens Education Center in Dade City saw increased use as temporary shelter and relief sites but also experienced minor structural damage during Helene's rains and wind events.

Pasco County Schools experienced impacts from both Helene and Milton. While Helene brought moderate wind damage and localized flooding, Hurricane Milton caused more severe disruptions. Cypress Creek High School reported substantial roof damage that resulted in water intrusion, forcing portions of the school to close and relocate classes. Hudson Elementary School was flooded during both Idalia and Helene, leading to significant interior damage that required remediation and portable classrooms for displaced students. The school district reported extensive damage to some schools from Hurricane Milton.[52] Pasco's superintendent noted that around a dozen schools had damage significant enough to disrupt classes.[53] While insurance has covered portions of these costs, full recovery and necessary resilience upgrades - such as reinforced roofing systems, backup generators, and improved stormwater drainage around school campuses - remain unfunded.

Unmet needs across these public and community-serving facilities include not only repairing existing damage but enhancing their ability to withstand future storms and other disasters: elevating lift stations and other electrical systems, moving fire stations, installing impact-rated windows, reinforcing roofing materials, and equipping all critical buildings with reliable backup power. Many of these facilities are designated shelters or serve vulnerable populations, making their continued operation during disasters essential to public safety and continuity of services.

Parks and Recreation Facilities

Pasco County's parks, especially along the coast, were significantly impacted. Helene and Milton heavily damaged SunWest Park in Hudson, a major county park with a beach. A storm surge washed massive amounts of sand off the beach and into the parking lot, closing the park for months. Crews had to import 26 truckloads of sand to replace what was lost and make the beach safe again. As of April 2025, SunWest Park finally reopened after restoration.[54] This example underscores both the damage and the recovery effort required. Other parks had boardwalks destroyed or significant erosion. Inland parks also saw damage from wind, with over 200 trees uprooted or damaged. The region lost many public trees in parks during the storms, which impacts shade and ecosystem benefits. Unmet needs include park facility repairs – including rebuilding boardwalks, pavilions, and playgrounds, along with environmental restoration – such as replanting trees and restoring eroded shorelines. There is also an opportunity to compound benefits with parks serving as stormwater retention in some cases, which could be a mitigation strategy the County explores.

[54] Lewis, C. (2025, April 22). Sunwest Park reopens to public after damage sustained from Hurricanes. Bay News 9.

Debris Management

As part of infrastructure recovery, debris cleanup was a huge task. Pasco County removed ~1.3 million cubic yards of storm debris post-Helene and Milton[55], a massive volume that strained landfill and debris sites. While the immediate need has been largely addressed, one unmet need is funding for debris management improvements. The county may consider establishing a permanent debris management site or purchasing equipment to handle future events better. Additionally, waterway debris remains an issue; some waterways still have debris that could impede navigation or pose hazards, requiring removal.

Summary: Infrastructure

Pasco County's infrastructure unmet needs revolve around repairing damages (many of which are still in progress or pending funding) and building back stronger to reduce future disaster impacts. Virtually every sector - transportation, utilities, public facilities - has opportunities for mitigation. Table 12 in the conclusion will summarize the priority infrastructure needs across Pasco. The county and its cities will need to coordinate closely, leveraging CDBG-DR alongside other funds (FEMA PA, state grants) to address these infrastructure needs comprehensively.

As data was evaluated, we learned of limitations with the FEMA OpenData. The County consulted with its internal Grants Division to receive updated FEMA PA project data. Based on updated FEMA Public Assistance (PA) data obtained through coordination with Pasco County's Grants Division, Table 12 is a summary of FEMA PA assistance received by Pasco County for Hurricanes Idalia (DR-4734), Helene (DR-4828), and Milton (DR-4834):

Table 12: Infrastructure Unmet Need (FEMA PA Data)

FEMA PA Category	Estimated Total PA Cost	Total Federal Share	Total State Share	Total Local Share
A – Debris Removal	$0.00	$0.00	$0.00	$0.00
B – Emergency Protective Measures	$7,800,000.00	$7,800,000.00	$0.00	$0.00
C – Roads and Bridges	$0.00	$0.00	$0.00	$0.00
D – Water Control Facilities	$0.00	$0.00	$0.00	$0.00
E – Buildings and Equipment	$4,178,928.00	$3,134,196.00	$522,366.00	$522,366.00
F – Utilities	$0.00	$0.00	$0.00	$0.00
G – Parks and Other	$4,964,311.81	$3,723,233.86	$620,538.98	$620,538.98
Total	**$16,943,239.81**	**$14,657,429.86**	**$1,142,904.98**	**$1,142,904.98**

Table 13 adds an additional 30% total for resiliency and 26.9% total for increased cost of building materials[56] due to inflation and cost increases over time for eligible FEMA PA Categories with non-federal share requirements.[57]

[55] Pasco County News Brief - February 03, 2025

[56] Producer Price Index by Industry: Building Material and Supplies Dealers, May 2024, https://fred.stlouisfed.org/series/PCU44414441

[57] Non-Federal Match Required is calculated as Local share plus State share, as applicable.

Table 13: Infrastructure Unmet Need (FEMA PA Data)

FEMA PA Category	30% Resiliency	26.9% Increased Cost of Building Materials	Estimated Total PA Cost with Increased Safety and Material Costs	Non-Federal Match Required (Total Unmet Need)
A – Debris Removal	$0.00	$0.00	$0.00	$0.00
B – Emergency Protective Measures	$2,340,000.00	$2,098,200.00	$12,238,200.00	$0.00
C – Roads and Bridges	$0.00	$0.00	$0.00	$0.00
D – Water Control Facilities	$0.00	$0.00	$0.00	$0.00
E – Buildings and Equipment	$1,253,678.40	$1,124,131.63	$6,556,738.03	$1,639,184.51
F – Utilities	$0.00	$0.00	$0.00	$0.00
G – Parks and Other	$1,489,293.54	$1,335,399.88	$7,789,005.23	$1,947,251.31
Total	**$5,082,971.94**	**$4,557,731.51**	**$26,583,943.26**	**$3,586,435.82**

Through consultations with County departments and Pasco County's municipalities, the County has built a list of known projects not funded through other sources. After applying another 30% increased cost for resiliency measures, and an additional 26.9% for increased cost of building materials due to inflation, we have calculated an additional $241,423,175 in unmet needs to support these projects adversely impacted by the 2023-2024 storms (Table 14).

Table 14: Standalone Projects Identified by County

Other Infrastructure Projects	Initial Cost Projections	30% Resiliency	26.9% Increased Cost of Building Materials	Estimated Total PA Cost with Resiliency and Increased Cost of Materials
Standalone Projects	$153,870,730	$46,161,219	$41,391,226.37	$241,423,175

Pasco County will utilize infrastructure and mitigation funding to support unmet needs for Infrastructure projects.

Economic Revitalization

Beyond the immediate physical damage, Hurricanes Idalia, Helene, and Milton severely impacted Pasco County's economy, especially to small businesses. This section analyzes the economic impacts and unmet needs related to business recovery, job losses, and overall economic revitalization. Particular attention is given to small businesses. The storms caused both direct losses (physical damage to business properties, inventory, equipment) and indirect losses (business interruption, lost revenue due to power outages and customer displacement). While federal aid (like SBA loans) has been offered, many businesses face gaps in recovery resources.

Historic development patterns in Pasco County have guided the location of business establishments, with a significant number of small-scale retail and food services located along the coastal US-19 highway. In contrast,

industrial parks, healthcare facilities, and other industries with large building footprints are predominantly located close to major commercial transit routes such as SR 54, I-75, and US-301.

Hurricane Helene caused extensive storm surge flooding to businesses west of US-19 and resulted in property damage, inventory damages, and closures. The business damage assessment survey conducted by the local Small Business Development Center (SBDC) indicated that 67% of 106 respondents from Pasco County suffered damages totaling $1.35 million from Hurricane Helene. These were concentrated in four industries: Hospitality, Tourism and Food Services, Retail Trade, Real Estate, Rental and Leasing, and Other. These industries also reported the highest number of business entities that suffered both physical and economic damages from the hurricane. Inland locations remained outside the area of inundation caused by Helene's storm surge, sparing them from the most severe impacts.

Hurricane Milton produced both flooding and wind-related impacts in Pasco County, contributing to damages totaling $1.45 million. The Hurricane Milton survey included responses from 82 businesses. The assessment indicated a wider variety of damages - flood, physical, and economic - were encountered by respondents. Hospitality, Tourism, and Food Services and Other were again the most impacted industries, followed by Educational Services, Construction, and Professional, Scientific, and Technical Services. Only 20% of businesses reported flood damage, while 54% experienced physical damage, and an overwhelming 90% experienced economic damages, showing how widespread business disruptions can be even in the absence of significant storm surge.

PascoEDC, the County's Economic Development Council, noted that in their recovery response efforts, industrial sites were generally located outside of floodplains. These structures reported minimal wind or water-related damages, and the primary disruptions were due to power outages that affected production. They also noted that small businesses were most severely impacted due to the following issues:

Figure 19: Issues Affecting Small Businesses

Another key observation from the post-disaster recovery efforts was the disruption to the local workforce. Business damage assessments revealed that many employers had to lay off staff - either temporarily or permanently - due to closures, physical damage, or economic losses. A high number of businesses sought SBA Economic Injury Disaster Loans and Emergency Bridge Loans to maintain operations and cover payroll, underscoring the fragility of the labor market in impacted sectors.

Many small businesses, especially in coastal areas, lacked the resilience and flexibility to retain staff during disruptions. Employees, meanwhile, faced barriers like property damage, displacement, and transportation issues, further reducing workforce participation. The events highlighted the need not only for short-term recovery assistance but for longer-term investment in workforce development - particularly in high-turnover industries like hospitality, retail, and food services. The County has an opportunity to strengthen economic resilience and better prepare its labor force for future disruptions.

Impacts on Small Businesses

Pasco County is home to thousands of small businesses – retail shops, restaurants, services, manufacturing, and agriculture – many of which suffered in the disasters:

Physical Damage and Business Interruption

In the coastal communities (Port Richey, New Port Richey, Holiday), storm surge from Idalia and Helene flooded numerous businesses. Along Port Richey's waterfront, several popular restaurants and bars had their lower levels, docks, and equipment destroyed. Even businesses not physically damaged were closed for days or weeks due to extended power outages, boil water notices, road closures, and storefront repairs. Retail shops missed critical sales days. The storms essentially halted everyday commerce – restaurants lost food stock due to a lack of refrigeration and lost revenue.

Employment and Income Loss

Many workers lost wages when businesses closed. Hourly employees at restaurants, retail, and service firms went unpaid during the closure period. Tragically, some businesses have not since reopened, causing permanent job loss. The cumulative effect is reduced household income, further straining families dealing with home losses.

While larger corporations (like chain stores) often have insurance and resources to rebuild, small businesses are far more vulnerable, often underinsured and reliant on each week's income to stay afloat. Many Pasco entrepreneurs turned to the U.S. Small Business Administration (SBA) disaster loan program for help. By October 2024, SBA had opened a business recovery center in nearby Tampa to assist businesses and residents affected by Hurricanes Helene, Milton, and Debby. However, a major setback occurred on October 15, 2024, when it was announced that SBA's disaster loan funding was fully expended. The program temporarily ran out of money due to the scale of disasters, and no new loans could be issued until Congress provided more funds. This left many Pasco businesses in limbo: they could apply and be approved but not receive funds until later. This delay has been devastating for some. Though Congress subsequently appropriated additional SBA loan funds, some businesses gave up waiting for much-needed funding.

Special Sectors

Tourism

Pasco's tourism drivers include sports events, historical sites, parks, and eco-tourism. Funds for tourism promotion and events could be beneficial to draw people into affected downtown and beach areas.

Industrial

Pasco has several industrial parks, including parks located in affected areas. These larger employers might have insurance, but any unmet needs for rebuilding could affect jobs. Given the broad impact, Pasco County may consider several economic revitalization programs with CDBG-DR:

1. **Small Business Recovery Loan and Grant Programs:** Including grants or forgivable loans to small businesses (especially those with <50 employees or in LMI areas) to repair physical damage, replace inventory, or pay for operating costs during the recovery period. This could prioritize businesses that serve essential community needs or employ residents.

2. **Technical Assistance and Capacity Building**: Including funding for workshops, one-on-one counseling, and application help for businesses to access other resources (SBA loans when available, state bridge loans, insurance claims).
3. **Façade or Code Improvements**: Since repairs will happen, offering additional incentives to improve buildings to current codes can improve resilience, building safety, and appearance.
4. **Workforce Recovery**: If their employer closed due to the storms, some workers may need new employment. Pasco County may explore the possibility of partnering with the local workforce board to provide job placement or even short-term subsidized employment in recovery projects, such as hiring local labor for reconstruction.

The estimated total assistance provided through the SBA and NFIP insurance amounts to approximately $62 million; this covered roughly one-third of the total verified loss of $176 million using available data. The resulting unmet need totals more than $147 million (Table 15). This difference indicates that businesses may still need recovery and mitigation assistance to rebuild operations to return to their pre-disaster state.

Table 15: SBA and NFIP Business Disaster Analysis

SBA and NFIP Business Disaster Analysis		
Current Verified Loss	**Total Assistance**	**Economic Unmet Need (with 30% Resiliency)**
$176,109,186.20	$62,390,296,93	$147,834,556.05

Public Services

Disasters do not only damage physical assets – they also create immense needs for public services and put strain on the social support systems of a community. In Pasco County, the 2023-2024 storms led to surging demand for a range of public and social services, including emergency response, healthcare, social assistance, and disaster case management. This section examines unmet needs in the public services realm, including needs specific to municipalities or populations, such as residents with limited English proficiency, seniors, homeless or housing insecure individuals, and low-income households. In the context of CDBG-DR, Public Services also refers to eligible activities like health and mental health services, housing counseling, legal aid, job training, and other services that help residents recover.

Emergency Response and Public Safety Services

The immediate response to the hurricanes showcased both the strength and the strain of Pasco's public safety agencies. Firefighters, law enforcement, EMS, and other first responders worked around the clock during and after the storms, performing rescues, securing neighborhoods, and providing aid. Pasco County Fire Rescue and the Sheriff's Office conducted more than 400 high-water rescues combined during Helene and Milton.58 They did so in coordination with National Guard teams. While heroic, this effort taxed personnel and resources. In the aftermath, responders were also dealing with their own impacted homes (many first responders are residents who suffered losses). Unmet needs remain in this realm months after the storms

[58] Paul, Gabriella. (2024, September 27). *Pasco emergency officials "prepare for body recovery" in wake of Helene's storm surge*. WUSF.

Health and Medical Services

The hurricanes impacted healthcare facilities and created a surge in health needs. Wastewater overflows and floodwaters introduced public health risks. Unmet needs include continued public health monitoring and outreach in affected areas – as noted in public input townhall sessions, some wells may still be contaminated, mold in homes poses respiratory risks, and other health concerns still exist. Clinics serving low-income residents saw increased demand post-storm for respiratory care, mental health counseling, and medication refills – as many lost medications in the flooding. Mental health services are a particularly acute need: survivors have faced trauma from near-drownings, loss of homes and livelihoods, and even grief from disaster-related deaths in the community.[59] Pasco County has a pre-existing shortage of mental health providers, and the disasters exacerbated this. Local nonprofits and providers - like BayCare Behavioral Health - report long waitlists for counseling.

The temporary housing site "Pasco Hope" in Holiday plans to offer on-site mental health counseling for residents coping with trauma[60], illustrating recognition of this need. CDBG-DR funds can support expanded counseling and mental health programs for disaster survivors – for example, by funding additional counselors through community centers or school-based programs. Each municipality has residents in need: in Port Richey/New Port Richey, some individuals who were caught in life-threatening surge flooding are dealing with PTSD-like symptoms; in Zephyrhills and Dade City, families that lost everything in floodwaters require grief counseling and stress management; older adults in all areas may need specialized mental health outreach, as disasters can trigger depression or anxiety in seniors.

Healthcare infrastructure itself also requires support. Hospitals operated on generators and faced patient surges after the storms. Additionally, Pasco County Fire Rescue's EMS operations were taxed – ambulance response times were impacted in the aftermath due to high call volume and roadway conditions. An unmet need is funding for a temporary increase in EMS units or a reserve fleet to deploy during disasters.

Social Services and Case Management

Another critical aspect of long-term recovery is helping residents navigate the labyrinth of assistance programs and rebuild their lives. Many Pasco residents, especially the most vulnerable, need ongoing case management. For instance, low-income families who lost their homes and cars in the floods may need help applying for FEMA assistance, SBA loans, unemployment benefits, and then finding new housing and jobs. Pasco County has been working with non-profit partners to provide Disaster Case Management, but the demand exceeds available resources. Unmet need exists for a robust long-term recovery case management program – possibly funded through CDBG-DR public services – that can handle hundreds of cases and assist survivors – homeowners and residents, including seniors, disabled persons, veterans, homeless individuals, and those with severe housing cost burdens - through to a stable recovery. This would involve hiring case managers who can develop individual recovery plans for each household, coordinate construction volunteers for those who need home repairs, connect clients to other wrap-around resources, and ensure no one falls through the cracks throughout the long-term recovery process.

[59] Simonton, Teghan, et. al. (2025, April 9). *It's been 6 months since Hurricanes Helene and Milton. how is Tampa Bay doing?* Tampa Bay Times.
[60] Lebron, Sky. (2024, October 25). *Pasco County is opening a temporary housing community for residents displaced by recent hurricanes*. WUSF.

Language Access

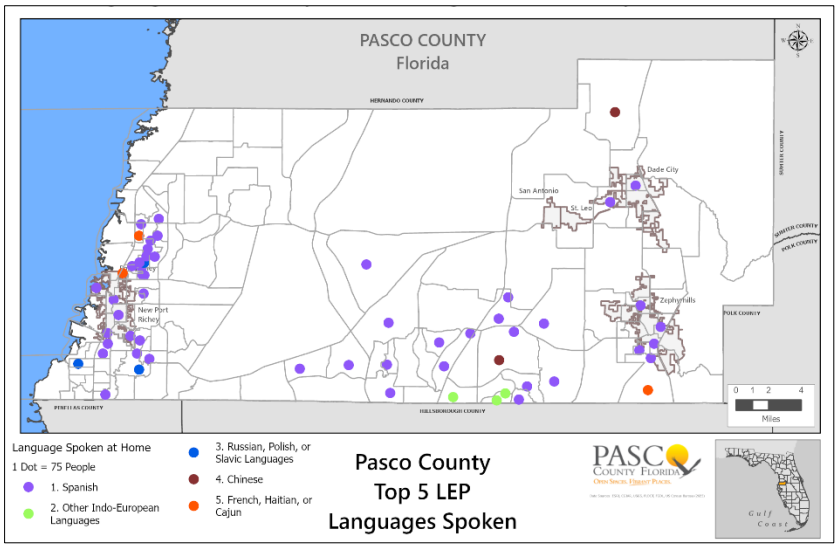

Figure 20: Languages Spoken by LEP Households

Pasco County is diverse, and a noteworthy portion of the population has limited English proficiency (LEP). The top non-English languages spoken at home in Pasco include Spanish (by far the largest) and smaller communities speaking languages like Haitian Creole, Russian/Polish, and others. Figure 20 maps the distribution of LEP households by primary language spoken. Spanish-speaking LEP populations are concentrated in New Port Richey/Port Richey on the west side and in Dade City and surrounding areas in the east. Additionally, a notable Haitian Creole-speaking group exists near Zephyrhills. These communities faced language barriers in understanding emergency orders, applying for aid, and accessing services. Moving forward, unmet needs may include establishing a more systematic language access program in disaster recovery.

Assistance for Vulnerable Populations

Several specific populations require tailored public services post-disaster:

Seniors and Persons with Disabilities

Pasco has a large retiree population, many living in the affected coastal communities or in 55+ mobile home parks. These storms revealed how vulnerable some seniors are – a 79-year-old woman in a neighboring county drowned alone at home during Helene's surge[61], underscoring the stakes. In Pasco, emergency officials conducted outreach to known special-needs individuals but, going forward, there's a need for improved registries and check-in systems. The county's nutrition program, Meals on Wheels, had to expand after the storms because more seniors became homebound due to physical injury or loss of transportation. Ensuring funding to continue expanded meal delivery, in-home care, and medical transport for impacted seniors is essential. Also, many disabled residents lost mobility equipment, such as wheelchairs and ramps, to flood damage. Nonprofits have provided some replacements, but a more comprehensive program to assist those with functional needs in recovery, like replacing medical equipment and providing accessible temporary housing, is needed. Municipal senior centers became information hubs after the storms for information; these centers need resources to enhance their outreach.

Homeless Individuals

Pasco had a homeless population pre-storm, and it likely grew after the storms as some people without resources lost their housing. Shelters like Metropolitan Ministries in Holiday saw greater demand for services. Public services funding can support emergency shelter expansion or rapid rehousing programs for those newly homeless due to

[61] Simonton, Teghan, et. al. (2025, April 9). *It's been 6 months since Hurricanes Helene and Milton. how is Tampa Bay doing?* Tampa Bay Times.

the disasters. The Pasco Hope temporary housing community also serves some previously homeless individuals and families who were living in tents that got washed away; connecting these individuals to longer-term housing and services - like mental health or substance abuse treatment, if needed - is an identified need.

Children and Youth

School disruptions - roughly two weeks of classes were missed across Pasco due to Helene and Milton - and storm impacts have affected children. Schools are a focal point for providing stability and support. Unmet needs include counseling in schools and academic support for students who fell behind due to displacement. Pasco Schools might establish an academic tutoring program or an after-school program in heavily impacted schools to help students catch up. Additionally, youth-serving organizations could use support to extend hours or offer special programs for storm-affected youth – such as programs providing meals, since some kids' families still struggle with food security after job/income loss, or funding needed repairs to maintain a decent, safe, and sanitary housing environment.

Legal Aid

In the wake of the storms, many residents have faced legal challenges – for instance, disputes with insurance companies, landlord-tenant issues, contractor fraud and other scams, and title and documentation problems (e.g., some homeowners lacked clear title and had trouble proving ownership to get FEMA aid). Legal services providers in the area, like Bay Area Legal Services, have been assisting low-income survivors with these issues, but they are stretched thin. An unmet need exists to expand free legal clinics or assistance specifically for disaster recovery issues. This can significantly expedite individual recoveries.

Community and Faith-Based Organizations

It is important to note the role of local organizations in providing public services post-disaster. Churches, charities, and community groups in Pasco have provided food, clothing, cleaning supplies, and emotional support. As one example, Volunteer Way - a food pantry in Pasco County - saw a spike in need and distributed thousands of extra meals. The Salvation Army Pasco division operated mobile feeding units in flooded neighborhoods in the immediate aftermath. While these groups have done tremendous work, they have lingering unmet needs – funding to replenish their resources and expand capacity for the long haul of recovery. CDBG-DR can indirectly support them by funding the services they deliver through subrecipient agreements or grants. Continuing and strengthening these public-private partnerships will ensure a more holistic recovery.

Summary: Public Services

In summary, the human services dimension of Pasco County's unmet needs is as crucial as bricks-and-mortar recovery. Addressing social needs – health, mental health, safety net services, and reducing impediments to access for assistance – will ensure that the most vulnerable residents recover alongside the rest of the community. Pasco County will dedicate a portion of its funding to public services, within the 15% cap for CDBG-DR public service activities, to fund programs such as disaster case management, legal aid, mental health counseling, and outreach to reduce impediments to access for vulnerable populations. These efforts will complement the infrastructure and housing investments by strengthening community resilience and well-being.

Summary and Conclusion

In the wake of Hurricanes Idalia, Helene, and Milton, Pasco County faces a long road to full recovery. This Unmet Needs Assessment has detailed the extensive damages and remaining needs across Housing, Infrastructure, Economic Revitalization, and Public Services – the core aspects of a holistic recovery. Pasco County's most fundamental needs lie in housing: thousands of homes require repair or reconstruction, and many families still lack permanent housing solutions. Infrastructure needs are likewise massive, from rebuilding roads and utilities to hardening systems against future storms. The local economy, especially small businesses, needs a jump-start after unprecedented interruption and loss. And the community's social fabric requires further assistance through robust public services, ensuring that individuals and families are not left behind as recovery progresses.

Table 16 evaluates the percentage of remaining unmet needs across the three core areas of recovery – Housing, Infrastructure, and Economic Revitalization:

Table 16: Estimated Needs for Core Areas of Recovery

Summary of Impacts/Support	Housing	Infrastructure	Economy	Total
Amount of Estimated Impact	$1,317,256,412.00	$258,366,415.18	$176,109,186.20	$1,751,732,013.38
(-) Amount of Funds Available	$471,302,402.56	$13,356,803.99	$62,390,296.93	$547,049,503.48
Unmet Needs *([Impact - Available Funds] + Resiliency and Increased Costs)*	**$1,099,740,212.27**	**$245,009,611.19**	**$147,834,556.05**	**$1,492,584,379.51**
Percent of Total Unmet Needs	**73.68%**	**16.42%**	**9.90%**	**100.00%**

As shown in Table 16, Pasco County's unmet needs significantly exceed the available CDBG-DR allocation of $585.7 million. The total unmet needs outlined (roughly $1.5 billion) are on the order of the allocation, indicating that Pasco will need to carefully prioritize funding and also leverage other sources (FEMA, state, private insurance, etc.) to address all recovery aspects. The Action Plan will prioritize life-safety and housing needs first, in line with HUD guidance that housing recovery is paramount, while also ensuring that infrastructure, economic recovery, and public service projects that underpin the community's functionality are addressed.

Table 17 provides a high-level summary of estimated unmet needs across these sectors in Pasco County, incorporating data available at the time of assessment. All figures are preliminary estimates and will be updated as the Program evolves.

Table 17: Summary of Unmet Needs by Sector - Pasco County (2023-2024 Disasters)

Eligible Cost Category	CDBG-DR Allocation Amount	% of CDBG-DR Allocation	Estimated % to CDBG-DR Mitigation Set-aside	Estimated % to HUD identified MID Areas	Estimated % to LMI
Housing	$305,000,000.00	52%	0%	100%	85%

Recovery needs overlap with mitigation needs. HUD's allocation to Pasco also includes funds designated for the mitigation of future risks. Pasco County intends to integrate mitigation into every recovery project – rebuilding smarter and stronger. When repairing repeatedly flooding roads, the county will aim to elevate it or improve drainage. When reconstructing homes, elevation and wind-hardened construction will be included to the extent possible, in coordination with other State, HUD, and FEMA mitigation programs. We will discuss this further in the next section of this Action Plan.

Community engagement has been and will continue to be central to identifying and addressing unmet needs. Pasco County held public input workshops in April 2025 in Holiday, Hudson, and Dade City to hear directly from residents on recovery priorities. Common themes included the urgency of getting people back in their homes, frustration with insurance and the desire for advocacy, concerns about future floods, a desire for strengthened public services – including seniors, veterans, and homeless individuals, and the need to support local businesses so the economy can bounce back. These sentiments reinforce the findings of this assessment. The county's long-term recovery efforts will align with what our evaluation of data supports, and the community has voiced – focusing on housing and infrastructure while also considering economic revitalization needs and the human services side of recovery.

By addressing critical housing needs, particularly for homeowners and renters, investing in resilient infrastructure restoration, revitalizing the economy, including the small business sector, and bolstering public and social services, Pasco County can recover from the 2023-2024 hurricanes and build back stronger for our county's residents. The journey will span multiple years – some housing and infrastructure projects will take two to six years to complete – but with the strategic use of the CDBG-DR funds and coordinated efforts with state and federal partners, the County is determined to restore Pasco's communities. Our goal is not just to rebuild what was lost, but to reduce risk and ensure that all residents, from the coast of Port Richey to the farms of Dade City, emerge from this recovery safer, more secure, and resilient in the face of future storms and disaster-related events. Pasco County's "Better Future" initiative describes our forward-looking approach, turning a hard-learned lesson from Idalia, Helene, and Milton into an opportunity to create a safer, stronger, and more connected community in the years ahead.

Mitigation Needs Assessment

Introduction and Background

Pasco County faces many natural hazards that pose risks to its people, economy, and built environment. This Mitigation Needs Assessment provides a comprehensive, risk-based analysis of current and future hazards in Pasco County, forming the foundation for the County's 2025 CDBG-DR Action Plan. It draws on the County's

recently updated Local Mitigation Strategy (LMS)[62] and the Resilient Pasco Risk & Vulnerability Assessment (RVA) (2024)[63] to identify key hazards - including sea-level rise, hurricanes, tornadoes, storm surge, flooding, drought, wildfires, extreme heat, and sinkholes - and evaluate their impacts on local communities.

The assessment considers historical disaster data and future projections, recognizing that Pasco County was included in 12 federal disaster declarations (for hurricanes, tropical storms, severe storms, and even a pandemic)[64] between 2018 and 2023 alone. It also acknowledges the influence of changing weather in exacerbating specific hazards (e.g., rising seas, higher temperatures).

By understanding these risks, Pasco County can strategically invest its CDBG-DR mitigation funding to reduce vulnerabilities and build long-term resilience.

Overview of Hazard Risks in Pasco County

Pasco County's geography – spanning coastal lowlands on the Gulf of America to inland uplands in central Florida – means that different county areas face different hazard exposures. However, every jurisdiction within Pasco is vulnerable to one or more hazards (natural or man-made).

Table 18 summarizes the significant hazards in Pasco County, their relative risk levels, and recent examples of impacts. The Pasco LMS hazard analysis and the Resilient Pasco RVA data inform this risk overview.

Table 18: Summary of Pasco County Risks and Recent Impacts

Hazard	Risk Level	Key Impacts with Examples
Hurricanes & Tropical Storms (Wind)	**High** (frequent storms historically)	Widespread wind damage, power outages, and debris, e.g., Hurricane Irma (2017) caused countywide damage and long outages; mobile homes are especially vulnerable (all mobile home parks require evacuation for hurricanes).
Storm Surge (Coastal Flooding)	**High** (catastrophic in coastal areas)	Inundation of coastal neighborhoods and infrastructure. Hurricane Idalia (2023) pushed storm surge approximately 5 feet into Hudson and other coastal Pasco communities[65], flooding homes. Hurricane Helene (2024) brought an even higher surge (4+ feet above Idalia levels) in New Port Richey and surrounding areas.
Inland Flooding (Heavy Rain/Rivers)	**High** (moderate-to-high impacts in low-lying areas)	Frequent heavy thunderstorms and tropical systems cause flash flooding and ponding. Western Pasco has low-lying neighborhoods that flood in summer rain, and eastern Pasco has areas of closed-basin flooding (poor drainage). In 2015, record rainfall caused extensive neighborhood flooding and road closures. Multiple flood events occurred between 2014 and 2023.
Long-Term Sea Level Rise	**High** (gradually increasing tidal flooding)	Rising sea levels will amplify coastal flood risk over the coming decades. Nuisance "sunny day" tidal flooding will worsen - under intermediate projections, Pasco may see approximately 83 high tide flood days per year by 2070. Higher sea levels mean a 1% annual chance of flood (100-year) affecting more areas: by 2040, many US-19 corridor properties could be isolated in a major surge event.
Tornadoes & Severe Storms	**Moderate** (localized but notable damage)	Pasco experiences approximately 1 tornado per year on average – 21 tornadoes were recorded from 2003–2023. Most are EF0–EF1, but they can still cause property damage (e.g. a November 2018 outbreak spawned 3 tornadoes causing $600K+ in damage). Severe thunderstorms also bring down trees and hail (hail up to 1–1.75" has been reported, though generally causing minor damages).

[64] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy*.
[65] Axelbank, E. (2023, August 31). Idalia aftermath: Pasco County residents clean up after major hurricane. FOX 13 Tampa Bay.

Hazard	Risk Level	Key Impacts with Examples
Drought	**Moderate** (periodic)	Periodic droughts impact agriculture, water supply, and wildfire risk. In prolonged drought, crop losses and water shortages occur – a two-year drought in the late 1990s caused an estimated $100 million in crop damage statewide and a 6% citrus yield reduction. Droughts also prompt water-use restrictions and contribute to wildfire fuel buildup.
Wildfire	**Moderate** (high in wildland-urban boundaries)	Dry seasons and lightning make Pasco susceptible to wildfires, especially in interface areas near large preserves. Wildfires have frequently occurred in Starkey Park and around the Suncoast Parkway/I-75 corridor, where forests meet development. The 1998 Florida wildfires[66] (drought-driven) burned thousands of acres statewide, including portions of Pasco. Homes adjacent to wooded areas (e.g. in Land O' Lakes, Trinity) face periodic brush fire threats.
Extreme Heat	**Moderate** (increasing with changing weather)	High summertime temperatures (90°F+ with high humidity) pose health risks, especially inland. Inland communities experience more extreme heat days than coastal ones – for example, inland Pasco sees heat advisories on significantly more days than the coast due to the lack of sea breeze. Heat waves can affect vulnerable populations (elderly, outdoor workers, those without AC) and contribute to drought and energy strain. Pasco's RVA projects more frequent and intense heat waves in the coming decades.
Sinkholes (Land Subsidence)	**Moderate** (ongoing background risk)	Pasco lies in Florida's "Sinkhole Alley" (along with Hernando and Hillsborough counties).[67] Its geology means sinkholes can occur with little warning, swallowing land and structures. Heavy rainfall and fluctuating groundwater (e.g., after drought or during floods) trigger sinkholes. Notably, after Hurricane Irma's heavy rains in 2017, over 400 sinkhole incidents were reported in Pasco County. Sinkholes cause serious property damage and require costly remediation; Pasco promotes public awareness and monitoring of sinkhole warning signs.

Coastal flooding (including storm surge) and hurricane winds represent some of the highest risks in Pasco County, given the County's location on Florida's Gulf Coast and history of tropical cyclones. Inland flooding from heavy rainfall is also a recurring problem. Other hazards like wildfire, drought, extreme heat, and sinkholes pose more localized or episodic threats but can still be devastating in certain circumstances. Each hazard is detailed in the sections below, emphasizing how it has impacted or may impact Pasco County communities.

[67] Rahman, K. (2021, July 13). Florida Sinkhole Map: Where have incidents been reported in the state? Newsweek.

Detailed Hazard Assessment and Impacts

Hurricanes and Strong Wind Events

Hurricanes and tropical storms regularly threaten Pasco County during the Atlantic hurricane season. The County's hazard mitigation plan identifies tropical cyclones (hurricanes) as a high-probability, high-impact hazard.[68] Several factors drive Pasco's vulnerability:

Long Gulf coastline exposed to storm landfalls and onshore winds	Large coastal population	Significant proportion of elderly residents who may have greater difficulty evacuating or recovering.

Figure 21: Factors Driving Pasco County's Vulnerability

Historically, Pasco County has experienced direct and indirect impacts from numerous hurricanes. In 2017, Hurricane Irma swept through Florida, causing countywide wind damage, downed trees, and prolonged power outages in Pasco. More recently, in 2023, Hurricane Idalia passed just north of Pasco but still brought tropical-storm-force winds, heavy rains, and storm surge flooding along Pasco's coast.

In 2024, Hurricane Helene delivered tropical storm conditions in Pasco, highlighting that even near-miss or offshore storms can have significant impacts. Helene's large wind field pushed water into Pasco's coast, causing record flooding. These events underscore Pasco's exposure to both wind damage and the compounding effects of rain and surge from hurricanes.

Wind impacts from hurricanes include structural damage - especially to older buildings and manufactured homes, fallen power lines and extended outages, debris blockage of roads, and damage to crops and vegetation. Pasco's LMS notes that manufactured and mobile homes are highly vulnerable to high winds and heavy rain, regardless of location. Therefore, all mobile home residents are ordered to evacuate during hurricanes as a precaution.[69]

This is a significant concern in Pasco, as the county has many mobile home parks, especially popular with retirees and seniors. High winds can peel off roofs or destroy these structures, posing life-safety risks. Even site-built homes can sustain roof and wall damage if not built to modern wind-resistant codes. Critical facilities such as hospitals, shelters, and emergency operations centers in Pasco have backup generators and hardened structures. Still, schools and older public buildings may need retrofits for higher wind standards.

Tornadoes spawned by hurricanes are another wind hazard: Tropical cyclones frequently generate short-lived tornadoes. For example, several weak tornadoes were reported in Pasco during Hurricane Irma's passage. Hurricane events can combine multiple threats - extreme wind gusts, tornadoes, torrential rain, and surge - making them especially dangerous.

Hurricane wind events are a top-priority hazard for Pasco County. They have high likelihood (multiple storm threats occur each year) and potentially catastrophic impacts countywide. This risk profile drives many of the County's mitigation initiatives. Pasco County is "highly vulnerable to tropical cyclones" based on local climatology and past events. Going forward, climate trends suggest storms could become wetter and possibly more intense, reinforcing the need for continued hurricane mitigation.

[68] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*
[69] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*

Storm Surge and Coastal Flooding

Storm surge flooding is the most severe hazard for Pasco's coastal communities. Storm surge is the abnormal rise of seawater generated by a storm's winds, and on Florida's shallow Gulf Coast, surge can inundate miles of inland area in low-lying zones. Historically, coastal Pasco County (from Hudson to Holiday, including the cities of New Port Richey and Port Richey) has been impacted by storm surge flooding associated with tropical storms and hurricanes[70]. The LMS notes that storm surge, coastal flooding, and high winds have repeatedly affected New Port Richey and Port Richey and adjacent unincorporated areas along the Gulf. These areas lie only a few feet above sea level and contain dense neighborhoods, many of them older or low-to-moderate income, making surge a particularly dangerous threat.

Figure 22: Coastal Flooding caused by Hurricane Idalia

Recent events underscore Pasco's surge vulnerability. When Hurricane Idalia (August 2023) struck north Florida, it drove 4–6 feet of storm surge into parts of Pasco County[71]. Coastal homes in neighborhoods like Hudson, Aripeka, and New Port Richey were flooded (four to five feet of water), and an estimated 6,000 structures in Pasco sustained flood damage from Idalia's surge. Residents described water up to their thighs inside their houses. The surge arrived quickly and receded faster than anticipated, but it still caused major property damage.

One year later, in September 2024, Hurricane Helene produced an even more devastating coastal flood in Pasco. Helene's storm surge overtopped Idalia's high-water marks by several feet in some locations, catching many residents off guard. Hundreds of homes across Pasco were taken over by the Gulf of America during Helene, with water depths more than four feet higher than Idalia in certain spots.[72] Homes that had just been repaired from Idalia were inundated again; residents reported four-foot waterlines on their walls and homes knocked off foundations. These back-to-back events highlight the extreme surge risk faced by Pasco's coast.

The impacts of storm surge are catastrophic: deep saltwater flooding can destroy homes, businesses, vehicles, utilities, and roads. In Pasco's coastal neighborhoods, surge floods cause extensive mold and structural damage, render homes uninhabitable, contaminate and make inoperable drinking water wells and septic systems, and deposit debris and hazardous materials. Infrastructure also suffers – roads like US-19 and local streets can be submerged or washed out, and evacuation routes become impassable at the height of surge flooding. Pasco County's emergency management must plan evacuations well in advance of storms because once surge arrives, rescue access is severely limited.

Pasco's RVA analysis quantified transportation vulnerabilities to coastal flooding. Under current conditions, a 1% annual chance (or 100-year) coastal flood would flood about 406 lane-miles of roads in Pasco, nearly half of which are designated evacuation routes. At least 4.5% of Pasco's evacuation routes and 6.2% of major roads are

[70] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*

exposed to surge flooding in a 100-year event today. Many of these are in low-lying coastal zones near the Gulf. This means

evacuation and emergency response are major challenges – portions of roads like US-19, Old Dixie Highway, Hudson Avenue, Strauber Memorial Highway, Green Key Road, or Bay Boulevard could be underwater.

The RVA further found that many properties in census blocks along the US-19 corridor could become completely isolated (surrounded by water) during a major surge, especially as sea levels rise. In a 100-year surge event with a modest 2040 sea level rise scenario, about 4.2% of parcel-level assets in Pasco could be isolated from emergency services – essentially cut off by floodwaters. By 2070, with higher sea level rise (SLR), around 5% of assets could be isolated.[73] This analysis emphasizes that beyond direct flood damage, surge threatens life safety by stranding people and hindering emergency response.

Geographically, the most surge-prone areas are west of U.S. Highway 19 – the low-lying coastal strip including communities such as Hudson, Gulf Harbors, Holiday, Port Richey, and New Port Richey. Pasco County uses Evacuation Zones A, B, C, etc. (based on storm surge modeling) to plan evacuations; these zones were determined using storm surge probabilities and expected inundation extents. Zone A (highest risk) includes the immediate coast and river mouths – these areas must be evacuated even for relatively lower-category storms. Further inland, elevation rises, so central and eastern Pasco are outside of storm surge zones (their flooding issues stem from rain and drainage or river conditions, not Gulf surge).

Mitigation for storm surge is difficult – structural elevation or relocation is often the only way to protect buildings, and maintaining open space in surge zones (as buffers and natural barriers) is ideal. The Pasco LMS serves as the County's Floodplain Management Plan and credits such policies under FEMA's Community Rating System to reduce flood insurance costs.[74] Despite these efforts, surge remains a critical unmet mitigation need due to the sheer scale of potential damage. CDBG-DR mitigation funds may be directed at projects like home buyouts or elevations in the worst flood areas, hardening of critical facilities (e.g., elevating generators or other control/electrical systems, flood-proofing sewage lift stations or treatment works) in coastal zones, and improvement of evacuation route resilience (perhaps elevating or flood-proofing key road segments). Larger scale and scope projects along the coast warrant mitigation such as the more significant wastewater treatment facilities – such as the City of New Port Richey Water Reclamation Facility.

Inland Flooding (Heavy Rainfall and Riverine Flooding)

Beyond coastal surge, Pasco County experiences frequent inland flooding from heavy rainfall and overflowing rivers/creeks. Pasco's weather brings intense summer thunderstorms and occasionally stalled tropical systems that can drop a foot of rain or more. Low-lying neighborhoods with poor drainage and areas near rivers are particularly at risk. Unlike surge, which is coastal, inland flooding can occur anywhere in the county given sufficient rainfall, often overwhelming local drainage or stormwater infrastructure.

Notable flood events in Pasco include the June–August 2012 flooding (Tropical Storm Debby) and the July 2015 floods. In mid-2015, summer downpours caused widespread flooding in west Pasco – rivers like the Anclote overflowed, and communities from New Port Richey to Elfers and Trinity saw neighborhoods completely under water. According to Pasco's records, numerous flooding incidents between 2014 and 2023 impacted the County. The Western Pasco coastal plain tends to have a high-water table and slow drainage, so even four to six inches of rain can inundate streets. The highest rainfall totals in some events have exceeded nine inches in inland Pasco –

[73] Resilient Pasco. (2024). Resilient Pasco Risk & Vulnerability Assessment

[74] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*

such as the Richland area, and approximately seven inches in coastal Pasco (e.g., Port Richey), in single storms – more than enough to flood yards and roads.

Apart from riverine flooding along the Anclote River, Pithlachascotee River, and Withlacoochee River, Pasco also has "closed-basin" inland flooding areas. Closed-basin areas are typically depressions or sinkhole-prone zones where water collects with no easy outlet to the ocean or a river. Central Pasco's landscape of lakes and sinkholes (around Land O' Lakes, Odessa, Wesley Chapel) include such basins. During heavy rains, these areas can experience rising lake levels that flood homes and remain for weeks because the water only recedes via percolation or evaporation. The Pasco LMS notes that while inland (closed-basin) flooding might not create large flowing floods, it can still render areas uninhabitable for long durations. Conversely, riverine flooding – such as along the Withlacoochee on the east County border- tends to have a slower onset but can cover large agricultural and low-lying land areas. Significant river flooding has been experienced in all parts of the County.[75]

Impacts of inland flooding in Pasco include water entering homes and businesses (requiring gutting of walls and repairs), damage to roads, bridges, and culverts, erosion of stream banks, and contamination and inoperability of wells and septic systems. Flooded roads trap residents in their neighborhoods and impedes emergency and other services until the waters recede. Pasco County reported numerous road closures and evacuations during the 2015 floods, with some families needing boat evacuation from subdivisions. Floodwater can linger in flat neighborhoods; even when only a few homes are flooded, high water can isolate many more. Repetitive flooding has been documented in certain communities – some neighborhoods in New Port Richey and unincorporated west Pasco have flooded multiple times in the past decade – especially following Hurricanes Helene and Milton in 2024.[76]

To mitigate inland flooding, Pasco County invests in stormwater management projects - like enlarging drainage canals, adding retention ponds, and maintaining pump stations. Yet funding limitations have left drainage improvement needs in several older communities where development occurred before modern standards. Floodplain regulation and preserving wetlands are also critical strategies, the county's comprehensive plan[77] steers new growth away from flood prone areas.

Still, as heavy rainfall events become more intense with changing weather, inland flood risk is expected to increase. The Resilient Pasco RVA analyzed compound flooding scenarios – such as simultaneous surge and heavy rain and found that more properties and infrastructure will be at risk under future conditions[78]. This underscores an ongoing need for flood mitigation – such as upgrading undersized culverts, improving stormwater storage, and perhaps pursuing property buyouts in chronically flooded spots. These priorities will inform how CDBG-DR mitigation funds are allocated to address flooding.

Sea Level Rise

Sea level rise (SLR) is a gradual hazard that will exacerbate coastal flooding and erosion in Pasco County over the long term. While not a hazard that causes damage on its own in a short timeframe, rising sea levels magnify the risks of storm surge, high tide flooding, and even raise groundwater levels inland. Pasco County's Gulf Coast has observed rising tides consistent with global trends. According to NOAA gauges in the Tampa Bay region, sea level has been rising on the order of one inch per decade historically, but this rate is accelerating.

---

[77] Pasco 2050 Comprehensive Plan
[78] Resilient Pasco. (2024). Resilient Pasco Risk & Vulnerability Assessment

The Resilient Pasco Risk & Vulnerability Assessment (2024) evaluated future flood risks for planning horizons 2040, 2070, and even 2100, under various sea level rise scenarios. The County followed Florida's Section 380.093 FS guidelines which recommend using the NOAA intermediate-low and intermediate-high SLR projections. The statute was subsequently modified requiring the planning horizons of 2050 and 2080, the NOAA 2022 Intermediate Low and Intermediate SLR projections, but Pasco's RVA remains in compliance with the projections and horizons utilized. Some key findings from that analysis include:

- **Tidal (or "sunny day") flooding will dramatically increase**. What is now an occasional nuisance flood during king tides will become far more frequent. For instance, under an intermediate SLR scenario, Pasco might experience on the order of 80+ tidal flooding days per year by 2070, and possibly daily high-tide flooding (240 days/year) by 2100 under higher scenarios. Essentially, many coastal streets and yards that today flood one or two times per year could be underwater much more frequently in the future, weekly in some locations. Already, low-lying spots in Pasco (like near Miller's Bayou in Port Richey) see minor saltwater street flooding during the highest tides; SLR will expand the frequency, footprint, and duration of these events.
- **Storm surge impacts will worsen with SLR.** A given hurricane will produce deeper and more extensive flooding in the future because the baseline sea level is higher. Areas that might not flood today in a Category 1 storm could flood in the same storm under, say, 1–2 feet of sea level rise. The Pasco RVA found that by 2040, even with a relatively modest SLR, a 1% annual chance surge could isolate 4.2% of assets, as mentioned earlier. By 2070, under a higher scenario, roughly 5% of parcels would be within areas that become islands or peninsulas in a major flood. Regarding critical infrastructure, by the 2070 high scenario, about 8% of wastewater lift stations in Pasco could be exposed to tidal flooding (versus <1% today), indicating rising seas could threaten utilities that are currently safe. On a positive note, the RVA found relatively few emergency facilities would flood even with SLR (only approximately 1% by 2070 scenario), likely because many critical facilities are built on higher ground – but neighborhood-scale impacts will still be significant.
- **Coastal erosion and habitat loss are indirect effects of SLR.** As the Gulf encroaches, shoreline erosion may accelerate along Pasco's coast - which is a mix of estuarine wetlands, beaches, and seawalls. Protective natural barriers like salt marshes and barrier islands could degrade or shift, removing natural storm protection. Additionally, rising saltwater can penetrate upstream into the Anclote and Pithlachascotee Rivers, affecting freshwater ecosystems and potentially rising groundwater levels, which can increase inland flooding and even exacerbate sinkhole activity as groundwater dynamics change.

Sea level rise is a serious future hazard multiplier for Pasco County. While the direct effects are gradual, the County is looking ahead now. Adaptation and mitigation measures – such as protecting and restoring coastal wetlands (living shorelines), elevating structures/infrastructure, updating flood maps and building codes to account for future conditions, and planning for potential relocation of at-risk assets – are being considered. CDBG-DR mitigation funds can support some SLR resilience projects, for example, funding a tidal flooding relief project or helping acquire conservation lands in coastal floodplain to buffer communities. Pasco's membership in the Tampa Bay Regional Resiliency Coalition and our own Resilience Plan effort (Phase 4 of Resilient Pasco) will guide policy responses to SLR in concert with this Action Plan.

Tornadoes and Severe Thunderstorms

Pasco County is also at risk from tornadoes, which can occur during hurricanes or as independently severe weather events - especially in spring and summer thunderstorms. Florida's peninsula experiences a moderate number of tornadoes annually, typically weaker (EF0–EF1) tornadoes, but occasionally stronger ones. Pasco's

LMS documents that the County experienced 21 tornadoes from 2003 through 2023.[79] These include tornadoes spawned by landfalling hurricanes in 2004 and 2005 and those from frontal systems. For example, in November 2018, a severe squall line off the Gulf produced *at least three tornadoes* in Pasco County, causing over $600,000 in damage across different locations. This demonstrates that multi-tornado outbreaks, while not common, happen and can impact several communities in one event.

Most tornadoes in Pasco have been on the lower end of the Enhanced Fujita scale. Many cause limited damage (including roof shingles torn, carports crumpled, and trees uprooted). However, even an EF1 tornado with winds of approximately 100 mph can destroy mobile homes or weak structures. Tornado risk is countywide – there is no specific "tornado alley" in Pasco, as tornadoes can form wherever thunderstorms form. Some studies note that coastal counties can get waterspouts coming ashore as tornadoes. With its warm Gulf waters, Pasco's coastline does see waterspouts; if one moves onshore, it is counted as a tornado (often brief but potentially damaging in a small area).

In addition to tornadoes, severe thunderstorms bring hazards like lightning, hail, and downburst winds. Florida leads the nation in lightning strikes, and Pasco has had tragic lightning incidents. Lightning can cause wildfires, strike individuals outdoors, and damage electronic equipment. Hail up to golf-ball size (about 1.75 inches in diameter) has been reported in Pasco, occasionally causing property or crop damage. Hail damage in Wesley Chapel in March 2003 reached $50,000[80]. Straight-line winds from severe storms can down trees and power lines, similar to a weak tornado. A severe thunderstorm in spring can gust 60–70 mph, enough to peel off roofs or knock out power in pockets.

The impacts of tornadoes and severe storms tend to be localized but can be severe for those affected. One neighborhood can be torn apart while another a mile away is untouched. In Pasco, a notable tornado event occurred in 1992 when an F3 tornado (on the old Fujita scale) struck East Pasco - it caused significant destruction to homes and, unfortunately, some fatalities. More commonly, downbursts have hit areas like Trinity and Zephyrhills, causing costly damage to a few structures.

Mitigating tornado and storm damage is challenging as well – the primary approach is building codes requiring wind-resistant construction, which also helps in the event of tornadoes, and public warning systems so people can seek shelter. Pasco's outdoor warning sirens and NOAA weather radio alerts are part of preparedness. Also, ensuring that critical facilities, such as schools that serve as storm shelters, can withstand tornado winds is essential. While we cannot prevent tornadoes, the hazard is accounted for in the County's risk planning. It reinforces the need to harden structures, especially given Pasco's vulnerable housing stock – like older homes and mobile homes. The LMS risk assessment likely rates tornado probability as moderate and vulnerability as moderate due to the scattered nature of development. Though not the highest priority hazard, they remain a concern that can cause loss of life and property if not addressed.

Drought

Drought in Pasco County is typically a medium-term hazard characterized by below-normal rainfall over an extended period, leading to dry conditions. Florida's climate includes wet summers and drier winters; however, multi-month or multi-year droughts do occur, often influenced by climate patterns like La Niña. In Pasco, drought does not usually cause direct property damage like a storm would, but it has significant secondary impacts:

[79] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*
[80] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*

- **Wildfire Risk Increases:** Dry vegetation becomes fuel for wildfires (drought conditions set the stage for the intense 1998 wildfires in Florida, for example). Pasco County often implements burn bans during droughts due to heightened fire danger.[81]
- **Water Supply Stress:** Pasco is part of the Tampa Bay Water regional water supply system. During drought, aquifer levels drop, spring flows diminish, and the County may face water use restrictions. As noted, in severe droughts, regional authorities impose one-day-per-week lawn watering[82], and residents might be asked to conserve water. Pasco's agriculture (though not as large as some counties) can suffer from a lack of irrigation water or rainfall.
- **Environmental and Economic Impacts**: Crops and livestock can be affected (Pasco has nurseries, citrus groves, and pastureland). A drought in 2007 reduced central Florida's citrus output; similarly, during a late 2000s drought, Florida's citrus crop was 6% below normal and caused $100 million in losses[83] – which likely reflected impacts in Pasco's groves. Drought also can lead to soil subsidence and sinkholes: underground support for limestone and overlying soils can weaken as groundwater levels drop, sometimes triggering sinkhole collapses. There is additional sinkhole formation susceptibility when subsequent rains saturate surface soils following extended drought. This also highlights how drought and sinkholes are indirectly connected hazards.

Pasco County has experienced notable drought periods, such as 2006–2008 and 2016–2017. According to the U.S. Drought Monitor, Pasco sometimes reaches "Severe Drought (D2)" levels, meaning likely crop losses and water shortages.[84] In 2017, much of Pasco was in extreme fire danger due to drought, prompting emergency brush firefighting and public warnings. Another effect of drought is on wetlands and lakes - water bodies shrink, affecting wildlife and potentially recreation and tourism, including low river levels for kayaking.

While drought impacts on the built environment are less dramatic, mitigation efforts include water conservation programs, developing alternative water supplies, like reclaimed water for irrigation to reduce groundwater withdrawals, and public education. Pasco County's Extension Service and Utilities Department work on drought preparedness by encouraging drought-tolerant landscaping and efficient irrigation (Pasco County enforces watering schedules). Additionally, emergency managers coordinate with agriculture agencies and the Florida Forest Service on wildfire readiness when droughts occur.

In the context of this Action Plan, drought ties into mitigation needs through its connections to wildfire and water infrastructure. Ensuring the County has resilient water infrastructure – such as sufficient storage and interconnections to move water during drought- and reducing wildfire fuel through mitigation, like prescribed burns when conditions are safe, are both ways to address drought risk. Changing weather projections suggest that longer dry spells could occur, so planning for drought resiliency – including drought-resistant landscaping codes and backup water supplies- is part of Pasco County's holistic mitigation strategy.

Wildfire Risk

Pasco County contains extensive natural and semi-rural lands prone to wildfires, especially in dry seasons. The County's rapid development has led to many wildland-urban interface (WUI) areas – neighborhoods or

[81] NatureCoaster, F. O. (2024, December 26). Pasco County wildfire and smoke conditions update - NatureCoaster.com.

subdivisions adjacent to forests, prairies, or other wildlands. For example, the communities bordering Starkey Wilderness Park or the Cypress Creek Preserve). In these interfaces, periodic fires in the natural lands can threaten homes and businesses.

Historically, wildfire has been a notable hazard in Pasco, though less frequent than in some inland Florida counties. The LMS notes that wildfires have most frequently occurred near large wildland areas such as Starkey Park, around the Suncoast Parkway and I-75 corridor, and other WUI communities like those near Cypress Creek and Land O' Lakes.[85] These areas have a combination of forests and increasing residential development. Lightning strikes and human causes, either accidental or arson, are common ignition sources. During the severe statewide drought of spring 1998, Pasco saw multiple fires; that year's most devastating Florida wildfire burned about 173,000 acres (though that fire complex was primarily north of Pasco County). This highlights the potential scale of impact to the County during extreme conditions.

In recent years, Pasco has had wildfire incidents requiring evacuations on a smaller scale. For example, brush fires during a drought in the Trinity/New Port Richey area in 2017 came close to homes, and a large fire in Starkey Park in 2020 burned several hundred acres, blanketing surrounding neighborhoods in smoke and prompting temporary road closures. Smoke from wildfires is itself a hazard, reducing air quality and visibility. Pasco, like many Florida counties, issues air quality alerts when nearby wildfires produce significant smoke, as happened when a 4,000-acre prescribed burn in East Pasco caused days of haze in 2021.[86]

The impact of wildfires includes destruction of structures - if fires encroach on developed areas, loss of timber or agricultural resources, and ecological damage. Fortunately, Pasco has not seen a recent wildfire that destroyed many homes. Still, it remains a risk – especially with many houses built along wooded greenbelts that could serve as fire corridors if not managed. Wildfires can also damage power lines, and in remote areas, fire can degrade road surfaces or wooden bridges. Economic costs include firefighting expenses and potential hits to property values in fire-prone areas.

Pasco County's mitigation efforts for wildfire involve a combination of prevention, fuel management, and public awareness. The LMS doubles as the County's Community Wildfire Protection Plan, developed in partnership with the Florida Forest Service. This means Pasco identifies areas of wildfire concern and strategies like creating defensible space around structures, promoting fire-resistant landscaping, and conducting controlled burns to reduce excessive vegetation fuel. Starkey Park and Cypress Creek Preserve have active prescribed burn programs to lower wildfire intensity risk. Pasco Fire Rescue also engages in community outreach in WUI neighborhoods about clearing brush and having evacuation plans.

For mitigation funding, FEMA Hazard Mitigation grants have sometimes been used in Florida for projects like creating fire breaks or hardening water systems for firefighting. However, these sources are limited and often prioritize flood or wind projects. So, part of Pasco's mitigation needs includes ensuring that wildfire risk is not overlooked. CDBG-DR mitigation funds could be used to fill gaps by supporting activities like vegetation management in high-risk interface areas or improving rural water supply for firefighting, such as installing dry hydrants in remote communities. Given that wildfire risk might grow with projected hotter, drier periods, maintaining a focus on wildfire mitigation is vital for Pasco's overall resilience.

[86] ALERT: Southwest Florida water management is conducting a 4000 acre prescribed fire causing dense smoke in the eastern and central areas of Pasco County

Extreme Heat

In recent years, extreme heat has emerged as a growing hazard in Pasco County, as in much of Florida. While Florida is known for heat and humidity, historically, the concern in emergency management was more about hurricanes and floods. However, heat-related health risks are increasing with rising temperatures and more frequent heat waves. Extreme heat is defined by periods of very high temperatures - often combined with high humidity - that can cause heat stress or heat stroke in people, especially vulnerable groups.

Pasco's climate already features hot summers – average high temperatures in July/August are around 90°F, with high humidity pushing heat index values well above 100°F on many days. Heat advisories - issued by the National Weather Service when the heat index is forecast to exceed 108°F for a certain period, have become more common. It's noted in the Resilient Pasco project that inland Pasco experiences more frequent high-heat conditions than on the immediate coast.[87] For example, areas like Dade City and Zephyrhills, further from the Gulf breeze, often record higher afternoon temperatures and more days meeting heat advisory criteria than New Port Richey or Hudson on the coast. The difference can be several degrees, meaning inland residents endure more intense heat.

The impacts of extreme heat are primarily on human health and quality of life. The most vulnerable populations are the elderly, young children, outdoor laborers, and those with pre-existing health conditions. Pasco County has a large senior population, some of whom may not have adequate air conditioning or might live alone with limited social support. During heat waves, these individuals are at risk of dehydration, heat exhaustion, or heat stroke. The County's human services and health departments carefully monitor and provide cooling centers or outreach during extreme heat events. Another impact is on infrastructure and utilities: High heat increases electricity demand due to air conditioning, which can strain the power grid and lead to higher utility costs for residents. Road materials and rails can also buckle under prolonged extreme heat – though this is more an issue in climates with greater temperature swings.

The Resilient Pasco RVA included extreme heat as a focal hazard. Key findings include projections such as a significant rise in days above 95°F or nights above 75°F by mid-century. While exact figures were not cited here, generally, our region could see double or triple the number of very hot days by the 2040s-2050s. This trend will increase heat stress unless mitigated by expanding tree canopy for shade, cooling infrastructure, and ensuring all residents have access to cooled spaces.

Mitigation for extreme heat is somewhat different from other hazards – it overlaps with public health and adaptive measures. Strategies include creating more cooling centers (air-conditioned public spaces) for heat emergencies, urban greening - like planting trees, cool roofs, and heat-reflective pavements to reduce the urban heat island effect, and programs to assist low-income households with home weatherization and efficient AC systems. Pasco County's long-term resilience planning considers heat in its Resilience and Sustainability Plan. Additionally, coordination with regional partners - since heat waves typically affect the whole Tampa Bay region- is essential for early warning and response.

In the context of CDBG-DR mitigation funding, extreme heat adaptation projects could be eligible if tied to recovery from a disaster (for example, integrating resilience when rebuilding housing by adding better insulation or shade, or including multiuse space in resilience hub facilities). While heat may not be the direct cause of a disaster

[87] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*

declaration, it is a hazard that compounds other risks (drought, health crises) and is, therefore, part of the County's comprehensive mitigation approach.

Sinkholes (Land Subsidence)

Pasco County is in the heart of Florida's "Sinkhole Alley," and sinkhole formation is an ever-present hazard for the county. Sinkholes are a form of land subsidence that occurs when acidic groundwater dissolves underlying limestone bedrock, creating voids that can collapse, taking soil and structures down with them. Pasco's geology – founded on carbonate rock and with sandy soils – is highly favorable for sinkhole activity. They can be triggered by heavy rain events, drought followed by rain, or even man-made activities like well drilling or heavy groundwater drawdown.

Pasco sees numerous small sinkholes annually; many go unreported unless they cause damage. They range from minor depressions in yards to large collapses that can swallow sections of homes. A dramatic example occurred in 2017: after Hurricane Irma's soaking rains, over 400 sinkhole reports were filed in Pasco County[88], indicating how widespread the phenomenon became following the storm. In one high-profile incident (July 2017, Land O' Lakes), a massive sinkhole destroyed two homes and forced the evacuation of several others, drawing national attention. That sinkhole was over 200 feet wide and 50 feet deep. Other incidents have affected roads – like a sinkhole on Curley Road in San Antonio that opened after heavy rains, necessitating road closure and repairs (Figure 23).[89]

Figure 23: Curley Road damage after Hurricane Milton

The impacts of sinkholes can be severe on a site-specific level, causing the collapse of one's property, foundation cracking, and destabilization of roads or utilities. They pose safety risks, though fortunately, injuries are rare as the collapses usually happen slowly enough that people can evacuate. Infrastructure like pipelines or sewer lines can break when the ground shifts. Even if a sinkhole doesn't entirely collapse, sinkhole *activity* (subsurface voids causing building settlement) can render structures condemned and uninsurable. Pasco has one of the highest rates of sinkhole insurance claims in Florida, reflecting the frequency of the issue.

Mitigating sinkholes is tricky – it's mainly about avoidance and preparedness. Through its comprehensive plan and land development code, Pasco County has standards for geotechnical evaluation in high-risk areas, including that developers may need to do soil borings to check for cavities before projects can begin. Public education is also vital: the County shares information on how to spot warning signs of sinkholes - such as cracks in walls, stuck doors, and ground depressions.[90] When a sinkhole does occur, the response often involves filling it with gravel and/or concrete grout to stabilize it, which can be very costly to private owners.

While we cannot necessarily prevent natural sinkholes, managing water resources helps - abrupt aquifer drawdowns are avoided, and stormwater is managed to not pond excessively in one spot. Pasco's participation in

[88] Curts, D. P. a. M. S. (2021, July 26). Damaging sinkholes. *ArcGIS StoryMaps*.

[90] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*

regional water supply means local wells are managed to reduce sinkhole triggers. One example is Tampa Bay Water, which has rules to mitigate sudden over-pumping that, in the past, caused sinkholes.

Regarding funding needs, FEMA will often not directly pay for sinkhole damages (unless triggered by a disaster event's conditions), and private insurance in Florida covers sinkhole damage only if it meets certain criteria. This leaves some homeowners with an unmet need when a sinkhole strikes unexpectedly. Pasco County may consider using some mitigation funds to acquire and demolish properties repeatedly affected by sinkholes, treating them like a buyout in a floodplain, if the area is clearly hazard-prone. Infrastructure mapping is useful – identifying areas where a sinkhole could break a crucial utility line and adding redundancies.

The Pasco LMS includes sinkhole hazards in its vulnerability analysis. While it's impossible to map every potential sinkhole, it acknowledges that virtually every part of Pasco is susceptible. According to our LMS, "sinkholes have occurred in almost every county in Florida," and Pasco is among the most prone. As development continues, continued attention to geotechnical safety is a mitigation priority.

Other Hazards (Technological and Human-Caused)

While this assessment focuses on natural hazards, it should be noted that Pasco County also plans for certain technological or human-caused hazards in its LMS – such as hazardous materials incidents, industrial accidents, and extreme cold weather. For instance, the presence of major highways (I-75, Suncoast Parkway, US-41) and a railroad means hazardous material spills are a consideration; the LMS indicates higher vulnerability to industrial chemical incidents in areas like Dade City, New Port Richey, Port Richey, and along transport corridors.[91] Additionally, while rare, freezes have historically impacted Pasco's agriculture. Citrus freezes in the 1980s devastated crops. Extreme cold events – specifically, hard freezes - are infrequent but can harm vulnerable residents without heating. These hazards are generally addressed through separate safety regulations and emergency response plans.

Natural hazards remain the primary focus of this assessment. However, Pasco's LMS's multi-hazard approach ensures that strategies are in place for a broad range of potential emergencies.

Geographic and Community-Specific Vulnerabilities

Each area of Pasco County – its six municipalities and diverse unincorporated communities – experiences the above hazards uniquely. Local geography and development patterns influence how severely a given hazard will impact a community. Below, we highlight how each city and key unincorporated area in Pasco is affected by major risks:

- **City of New Port Richey (NPR):** A coastal city on the Pithlachascotee River, New Port Richey is highly vulnerable to flooding and storm surge. Its historic downtown and residential areas along the river and bayous have seen repeated floods. NPR was impacted by Hurricane Idalia's surge flooding in 2023 and even more by Hurricane Helene in 2024 – where many neighborhoods were inundated[92]. Wind damage from hurricanes is also a concern, and some older homes may not be built to current wind codes. New Port Richey's population (about 17,270 residents) includes many low-to-moderate-income residents, so disaster impacts hit the community hard. Mitigation needs here center on flood control projects, property elevations, and stormwater

[91] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*
[92] Moon, E. (2024, September 28). Hurricane Helene floods thousands of Pasco homes: "Makes Idalia look like an inconvenience." FOX 13 Tampa Bay.

system upgrades, as well as fortifying critical facilities like the Water Reclamation (wastewater) Facility, local hospital, which lies just outside the floodplain.

- **City of Port Richey:** Adjacent to New Port Richey on the coast, Port Richey is even smaller (about 3,250 residents) but similarly exposed to coastal hazards. It borders Miller's Bayou and the Gulf, making storm surge a primary threat – much of the city is in Evacuation Zone A. Historical surge and oil spill events have impacted Port Richey's waterfront[93]. The city has a mix of older homes and new builds; ensuring new development meets elevation requirements is key. Aside from surges and tropical storm winds, Port Richey also faces frequent "sunny day" high tide flooding in low areas, which will worsen with the rise of sea levels. Mitigation for Port Richey includes improving drainage, replacing its flood-prone Fire Station, reinforcing seawalls, and potentially creating living shorelines to buffer surge. The city coordinates closely with Pasco County on LMS projects due to its limited staff and budget.

- **Dade City:** Dade City (population of about 9,380 residents) is in northeast Pasco, on higher elevation with hilly terrain, roughly 100 feet above sea level in some spots. It is less exposed to flooding – in fact, Dade City often serves as an inland shelter hub during hurricanes for evacuees from coastal areas. However, the city has some creeks that can flood low-lying spots during heavy rain. Dade City's biggest hazard concerns are wind events (hurricanes/tornadoes) and extreme heat. Being inland, it receives strong winds from landfalling hurricanes. Dade City saw Category 1-force winds during Irma 2017. The region around Dade City also experienced an EF0 tornado in 2003[94]. Dade City's large mobile home communities on its outskirts are vulnerable to wind and require evacuation in hurricanes. Additionally, as an inland community, it endures more extreme heat days[95] – an essential consideration given its sizable elderly population. Sinkhole risk is moderate; there have been incidents in surrounding rural areas. Mitigation needs for Dade City include hardening critical infrastructure (power, water, wastewater - the wastewater treatment plant, in particular, has been cited as a critical need) against storms, ensuring adequate shelters, and possibly expanding tree canopy in urban areas to mitigate heat.

- **City of Zephyrhills:** Located in southeast Pasco, Zephyrhills is another inland city known for its wells and springs. Zephyrhills bottled water comes from this area. Like Dade City, flood risk is relatively low, with few FEMA flood zones within the city proper. Still, heavy localized rain can cause street flooding. The city's concerns revolve around hurricane winds, tornadoes, and heat. Zephyrhills' population (about 19,670 residents) includes many retirees (seasonal RV parks, mobile home parks), vulnerable to wind and requiring robust evacuation planning. In 2004, the area was affected by the fringes of the hurricanes that crossed Florida, and more recently, severe thunderstorms have caused wind damage. Extreme heat is also a growing issue here, with inland location meaning less cooling from Gulf breezes. Zephyrhills also has a general aviation airport that storms could impact (e.g., small planes damaged in high winds). For mitigation, drainage improvements and flood prevention – including the Zephyr Creek Project - a partner project with Pasco County Public Works, public education on tornado safety, strengthening community centers to serve as cooling centers, and ensuring backup power for critical wells for water supply are priorities.

[93] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*

[95] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*

- **City of San Antonio:** San Antonio is a small, incorporated city in eastern Pasco County with a population of just under 1,400 residents. The city is defined by its historic downtown, hilly terrain, and a close-knit community of residents and local businesses. Although San Antonio lies at a relatively high elevation with low flood risk, it remains vulnerable to wind-related hazards, downed trees, and debris during hurricanes and severe storms. As noted earlier, Curley Road near San Antonio cracked from erosion or subsidence during that storm. Also, being in "sinkhole alley," the City has had sinkhole occurrences; for example, a portion of a local road or field might suddenly settle. The city's aging infrastructure and limited right-of-way areas present ongoing challenges for emergency response and utility restoration. Future mitigation strategies for San Antonio may include hardening public buildings, burying or reinforcing overhead utility lines, improving stormwater systems, and developing joint-use agreements for emergency sheltering and resource staging with nearby municipalities and Pasco County. The city's scale and location make it well-suited for targeted resilience pilot projects, especially those that demonstrate the effectiveness of small-town readiness and continuity planning.

- **Town of St. Leo:** St. Leo is an incorporated municipality located between Dade City and San Antonio in central-east Pasco County, with approximately 2,280 residents. It is home to key institutions such as Saint Leo University, Holy Name Monastery, Saint Leo Abbey, and Discover Fellowship Church, and sits on the shores of Lake Jovita. While its elevated location places it outside major floodplains, localized drainage issues and lake level rises may occur during heavy rains. The town is most vulnerable to hurricane-force winds and tornadoes due to its open terrain and aging tree canopy. In 2024, Hurricane Milton caused significant debris and damage to roads and three of the town's four anchor institutions. Mitigation priorities include reinforcing roadways, trimming or removing hazard trees, burying power lines, and exploring partnerships with local institutions to strengthen resilience. Saint Leo University, which served as a critical vaccine distribution center during the COVID-19 pandemic, could also support future disaster operations by serving as an emergency shelter, cooling center, or logistics hub.

Unincorporated Pasco is home to over 579,770 residents. This assessment breaks unincorporated Pasco into sections for a better assessment of needs – given that it spans the entire county, and each area has unique challenges and needs.

- **Unincorporated Coastal Communities:** Including locations such as Hudson, Holiday, and Aripeka, a significant portion of Pasco's population lives in unincorporated areas, and along the Gulf Coast are several communities at extreme risk of storm surge and coastal flooding. Areas such as Hudson, Aripeka, Holiday, Elfers, and Gulf Harbors essentially extend the coastal floodplain outside city limits. These communities have repeatedly flooded (Hudson and Aripeka saw severe surge flooding in both Idalia and Helene; Holiday and Elfers regularly flood from Anclote River and coastal backwater). Many homes are older single-story houses at ground level, highly susceptible to even minor surge. Evacuation Zone A covers most of these locales, indicating the highest risk. These areas also tend to have concentrations of low-income and elderly residents. For instance, Holiday has many senior mobile home parks. In addition to surge, saltwater intrusion and sea level rise are concerns for their long-term habitability. Mitigation for unincorporated coastal Pasco involves large-scale projects: home buyout programs, elevating homes and roads, improving coastal wetlands (which buffer surge), and maintaining updated evacuation plans. For example, Pasco County has undertaken some buyouts along repeatedly flooded stretches of the Anclote River in Elfers, but more funding is needed to

expand these efforts. Infrastructure hardening - like raising the coastal road in Hudson or installing tide-flex valves in storm drains to prevent backflow- are possible projects that CDBG-DR funds could support.

- **Unincorporated Inland Communities:** Including places like Land O' Lakes, Wesley Chapel, and Trinity, central Pasco has large unincorporated suburban areas that have grown rapidly. These communities face multi-faceted risks: some neighborhoods in Land O' Lakes are famous for sinkholes (a massive sinkhole formed in 2017 in this area, destroying homes), and also brush fires (the 2017 Land O' Lakes sinkhole incident occurred during a time of drought and nearby brush fires). Wesley Chapel and Trinity have many new developments with extensive stormwater retention ponds; while this helps manage typical rains, extreme rainfall could still cause localized flooding if ponds overflow. These areas are also not immune to wind damage – Hurricane Irma knocked out power and toppled trees throughout central Pasco. One of Pasco's recorded tornadoes (an F1) hit Land O' Lakes in 2005, causing $80K in damage[96] Wildfire risk touches Wesley Chapel on its eastern fringe where it meets the Cypress Creek Preserve, and Trinity borders the Jay B. Starkey Wilderness to the north – both areas identified for frequent wildfire occurrence. Lastly, extreme heat in these dense suburban areas can be exacerbated due to the urban heat island effect – such as asphalt and fewer mature trees in new subdivisions. Mitigation needs for these booming unincorporated areas include ensuring new construction is hazard-resilient - enforcing wind codes, floodplain rules, and sinkhole soil testing; expanding community wildfire protection - like creating buffers between preserves and homes; and continuing aggressive stormwater planning to handle both current and future rainfall extremes. Public outreach is also needed as many new residents may be less aware of Florida-specific hazards like sinkholes or lightning – education can improve preparedness at the household level.
- **Rural Unincorporated Areas:** These include unincorporated areas toward the Green Swamp and along county borders. Pasco's far northeastern areas (east of Dade City) and southeastern corner (east of Zephyrhills) remain rural, with pasture, agriculture, and state forests, such as the Green Swamp area. These areas have smaller populations but can be significantly impacted by wildfires, freezes, and drought. For example, ranchers in the northeast county may struggle with water and feed for cattle during drought. Flooding can occur along the Withlacoochee River on the east border – the river can rise slowly and inundate large tracts of farmland and a few riverside homes when heavy rains are upstream. San Antonio Lake and other natural lakes can flood some low farmland, too. These rural areas also have limited infrastructure redundancy – a single road or power line outage from a storm can isolate residents. Here, mitigation might focus on improving redundant communications – like radio towers, bridging low-water crossings, and supporting agricultural stakeholders with resilience techniques – including drought-resistant crops or improving field drainage.

Pasco County's hazard vulnerabilities vary geographically, but no area is entirely risk-free. Coastal municipalities and communities bear the brunt of surge and coastal floods; inland cities face wind, heat, and isolated flood issues; central booming areas contend with a mix including sinkholes and wildfire; and rural outskirts must handle extremes of Florida's climate in relative isolation. This wide range of vulnerabilities underscores the need for a tailored, community-specific approach to mitigation – one that Pasco County's CDBG-DR Action Plan will implement by funding projects that are needed most based on this risk assessment.

[96] Pasco County Department of Emergency Management. (2024). *Pasco County Local Mitigation Strategy.*

Mitigation Strategy Informed by Risk Assessment

This hazard risk assessment directly informs how Pasco County will invest CDBG-DR mitigation funding. The goal is to target resources toward the most significant risks and the most vulnerable communities identified above, aligned with the data and priorities from the LMS and RVA. The following key considerations inform our assessment's mitigation strategy:

- **Prioritizing Flood and Wind Mitigation Projects:** Given that flooding and hurricane winds are identified as the highest risks, a large share of mitigation funds will be devoted to these hazards. For example, the County may allocate CDBG-DR funds to elevate frequently-flooded homes in New Port Richey, Port Richey, and coastal unincorporated areas – directly reducing future surge and flood damages. Similarly, funding may support hardening critical facilities and infrastructure against wind – such as reinforcing shelter roofs, adding hurricane shutters to schools/community centers, or burying power lines in key corridors. By addressing these top hazards, Pasco will ensure the use of funds that target the areas of greatest impact, as evidenced by this risk analysis.

- **Integrating Future Conditions:** Because the RVA provided forward-looking scenarios (2040, 2070), Pasco's strategy is not just reacting to past events but proactively preparing for future risks. For example, sea level rise projections inform decisions like where to rebuild versus retreat. CDBG-DR mitigation funds might be used for projects with long lifespans that account for future changes – such as constructing a new stormwater pump station with the capacity for higher sea levels or elevating a road that is predicted to flood frequently by 2070. By doing so, the County ensures that today's investments remain effective decades later, embodying the principle of building back smarter and stronger. This approach is supported by data like road inundation statistics from the RVA; we know which evacuation routes will need elevation or armoring as seas rise.

- **Multi-Hazard Mitigation Approach:** While specific projects often target a primary hazard, Pasco is looking for co-benefits across hazards. For instance, green infrastructure - like restoring a wetland or creating a detention basin- can reduce flood risk and provide water for aquifer recharge during drought or as a firebreak for wildfires. The strategy will encourage such multi-benefit solutions. Another example is undergrounding power lines in a vulnerable grid area, which reduces wind damage outages but also helps in wildfire prevention because there are no lines to spark fires and improves reliability during heat waves. By leveraging projects to tackle multiple issues, the County can stretch the mitigation dollars and address the interconnected nature of risks.

- **Public Education and Preparedness as Mitigation:** Although structural projects are key, Pasco's strategy also values community resilience programs. Some CDBG-DR mitigation funds could support public outreach or planning efforts that arise from this needs assessment. For example, suppose extreme heat is a growing risk. In that case, the county might fund the development of a comprehensive heat response plan or expand its cooling center network, which would be relatively low-cost interventions that could save lives. If sinkhole awareness is crucial, perhaps some funds could enhance the County's sinkhole mapping and education campaign. These mitigation actions complement physical projects and ensure that residents are empowered to mitigate and prepare on a personal level.

This mitigation needs assessment serves as a blueprint for our Action Plan. Pasco County will use a combination of structural investments – such as infrastructure, housing retrofits, nature-based solutions, and non-structural

measures – including policy changes, education, and improved codes that address the identified hazards. The result will be a suite of CDBG-DR funded mitigation activities that directly respond to the vulnerabilities detailed in our Plan – whether it's lifting homes out of flood harm's way, reinforcing a community center to double as a hurricane shelter, or planting trees to combat the heat island effect in a city center.

By following the risk priorities, the County ensures that mitigation funding is used effectively and transparently to reduce disaster risk, consistent with HUD's objectives and Pasco County's strategic vision.

Mitigation Funding Sources and Gaps

While CDBG-DR funds provide a critical infusion for mitigation, Pasco County's needs far outstrip any single funding source. It is important to identify other funding sources available for mitigation, and where they are insufficient, to justify using CDBG-DR dollars for unmet needs. The County has been actively leveraging various federal, state, and local programs for hazard mitigation, including:

- **FEMA Hazard Mitigation Grant Program (HMGP):** After each presidentially declared disaster, HMGP provides funding for mitigation projects. Through its LMS Working Group, Pasco County prepares HMGP applications whenever eligible. For example, following Hurricane Irma in 2017 and Hurricane Idalia in 2023, Pasco submitted drainage improvements and generator installation projects. However, HMGP funds are limited and competitive – they must be split among many counties or statewide. Pasco's LMS contains dozens of proposed projects totaling far more than HMGP allocations can cover. Many high-priority projects remain unfunded or only partially funded.
    - **Gap:** HMGP helps, but not all approved LMS projects receive funding due to cap limits; timelines are slow, and smaller-scale needs - like minor localized fixes or planning efforts - often don't get funded.
- **FEMA Flood Mitigation Assistance (FMA):** FMA provides annual funding specifically to mitigate National Flood Insurance Program (NFIP) insured properties (e.g., repetitive loss homes). Pasco has numerous repetitive loss properties, especially in the West Pasco coastal and Anclote River areas. The County has helped homeowners apply for FMA funds to elevate or buy out homes. However, FMA funding is relatively small, and only a handful of properties can be addressed each cycle. For example, if Pasco has 100 repetitive loss homes, an FMA grant might only elevate 5–10 of them.
    - **Gap:** There continues to be a large backlog of flood-prone homes that have not been mitigated. Many homeowners can't afford the non-federal match or to wait years for a grant, so they remain vulnerable. CDBG-DR could supplement this by funding additional buyouts or elevation grants without those constraints.
- **State-Administered HUD CDBG-Mitigation (CDBG-MIT):** Prior to this CDBG-DR allocation, Pasco benefited from the state of Florida's CDBG-MIT program, specifically funds from 2016-2017 disasters. A CDBG-MIT grant from the Florida Department of Commerce funded the Resilient Pasco Project (vulnerability assessment and upcoming resilience plan). That grant, approximately $1.5 million, covered planning and studies - but not physical projects. It underscores that Pasco is leveraging outside resources to plan effectively.
    - **Gap:** Implementation funds for projects were not part of that planning grant, so now that RVA has identified needs (like road elevations and stormwater upgrades), Pasco needs capital funding to execute

them. The new HUD CDBG-DR funds can fill that implementation gap for projects identified through Resilient Pasco.

- **State of Florida Resilient Florida and Other Programs:** Florida launched the Resilient Florida program in 2021, providing grants for vulnerability assessments and adaptation projects focusing on flooding and sea level rise. Pasco County has participated and will be eligible to submit projects to the state for funding.
- Additionally, the state Division of Emergency Management offers programs like the Flood Mitigation Assistance (FEMA FMA, mentioned above) and Hurricane Loss Mitigation Program (HLMP). Pasco has received small grants from HLMP in the past, providing free hurricane shutters or wind retrofits to low-income homes.
    - **Gap:** State funds, while growing, are still not enough for large infrastructure – they might fund a $300k planning or $500k culvert project, but multi-million dollar needs – such as a $10 million regional stormwater facility – require federal dollars. Also, these programs often require local matching funds, which can be challenging for a county with many competing budget needs.
- **Local County/Municipal Funding:** Pasco County and its cities invest in mitigation to the extent budgets allow. The County has a Municipal Service Fund for stormwater that addresses drainage maintenance and minor improvements. The County and cities also invest in emergency services - like improving fire stations to withstand hurricanes. However, local resources are limited. Pasco is a growing county with many infrastructure demands (roads, schools, utilities for new development), and dedicated funding for mitigation projects often lacks outside of post-disaster repairs. For instance, a city like Port Richey has very limited revenue and cannot afford a multimillion-dollar seawall improvement without external help.
    - **Gap:** There is a funding gap between what local governments can afford and the cost of major mitigation projects. Many projects sit on wish lists until grants are found.

Table 19 illustrates some of the key funding programs versus the needs:

Table 19: Mitigation Funding Sources Versus Needs in Pasco County

Funding Source	Purpose	Use in Pasco	Gaps/Limitations
FEMA HMGP	Funds projects after disasters (15% of relief funds)	Used for shelter generators and drainage fixes after recent hurricanes.	Not enough for all LMS projects; must wait for disasters to occur; competitive statewide.
FEMA FMA	Elevation or buyout of NFIP-insured homes provided through grants	Dozens of RL/SRL[97] homes were identified; a few were elevated with FMA.	Only a handful of homes mitigated per cycle; most flood-prone homes are still at risk.
HUD CDBG-MIT (state program)	One-time mitigation funds via state.	Funded Pasco's Resilient Pasco assessment.	Planning was funded but not construction; the state's share to Pasco was small relative to needs.

[97] RL = Repetitive Loss; SRL = Severe Repetitive Loss under NFIP.)

Funding Source	Purpose	Use in Pasco	Gaps/Limitations
State Resilient Florida & HLMP[98]	State grants for resilience (planning & projects) and wind mitigation.	Received grants for assessment (RVA) and minor home wind retrofits.	Project funding is not guaranteed annually, is typically small-scale, and requires local match & application effort.
Local Capital Improvement	County/city budgets for infrastructure.	Ongoing stormwater maintenance, incremental upgrades, tree trimming, etc.	Cannot fund large new projects without external aid; competing priorities (roads, utilities) limit mitigation-specific spending.

Each funding source has constraints – timing, competitiveness, scale, or availability – leaving important mitigation needs unaddressed. This is where the CDBG-DR allocation is vital. HUD's mitigation funds offer flexibility to undertake projects that might not neatly fit other programs or to cover local match portions to make other grants feasible. For example, if Pasco has an HMGP project awarded but needs the 25% non-federal match, CDBG-DR could potentially fill that gap to ensure the project proceeds.

In particular, the 15% CDBG-DR Mitigation Set-Aside will be programmed to address strategic gaps:

1. Projects reducing risk that haven't received adequate funding from FEMA or state sources.
2. Innovative or pilot projects not planned for use through FEMA grants but grounded in Pasco's resilience plans.
3. Multi-jurisdictional or regional projects that might not fit neatly in other programs.

Despite all these efforts, needs remain greater than available funding. Pasco County's LMS project list contains numerous high-priority actions totaling hundreds of millions of dollars in identified needs, from major drainage overhauls to bridge replacements and community safe rooms. The CDBG-DR allocation will cover only a portion of our community's needs.

Therefore, Pasco will continue seeking a layered funding approach: using CDBG-DR to jump-start key projects and leveraging those as matching or demonstration projects to attract future funding.

This assessment and the resulting strategy ensure that CDBG-DR funds are used in a coordinated way, not in a vacuum. Projects selected will complement what FEMA and the State are funding, thereby avoiding duplication and maximizing overall impact. The gaps identified substantiate the importance and need for CDBG-DR investment –without these HUD funds, many of the highlighted vulnerabilities - like those repetitive flood homes or that needed pump station- would remain unaddressed indefinitely due to lack of funding. This Action Plan aims to close those gaps.

Alignment with Local Mitigation and Resilience Plans

Pasco County is committed to ensuring that the initiatives in this Action Plan align with and advance the goals of existing local plans, namely the Pasco County LMS, the Resilient Pasco RVA, and the Resilience and Sustainability Plan, as well as other regional plans. This alignment is essential for consistency, avoiding duplication, and meeting regulatory requirements.

[98] FDEM Hurricane Loss Mitigation Program

- **Pasco County LMS (2024 Hazard Mitigation Plan):** The LMS is the county's comprehensive hazard mitigation plan, developed by a multi-jurisdictional working group and approved by Florida DEM and FEMA. It identifies the county's hazards and vulnerabilities and lists mitigation actions/projects. The LMS's goals – such as protecting lives and property, reducing repetitive losses, and enhancing coordination – provide the strategic framework for this Mitigation Needs Assessment. The hazards profiled in this document mirror those in the LMS (hurricanes, floods, wildfires, etc.), and the risk findings (like vulnerability of coastal areas and mobile homes) are directly drawn from or supported by LMS data. Each mitigation action proposed in the Action Plan will be cross-checked against the LMS project list or goals. In most cases, CDBG-DR funded projects will be those already prioritized in the LMS or emergent needs that still fit LMS objectives. Because the LMS is updated every 5 years and tracked annually, using it as a guide ensures our efforts remain eligible for future FEMA funding and complement ongoing initiatives. Of note, Pasco's LMS also doubles as the Floodplain Management Plan and Community Wildfire Protection Plan, which means our flood and fire mitigation efforts via CDBG-DR will also help maintain our standing in NFIP's CRS program and state wildfire programs.
- **Resilient Pasco RVA (2024) and Resilience and Sustainability Plan (2025):** The RVA was essentially Phase 1 of a larger resilience project funded by CDBG-MIT[99]. It provided a detailed assessment of climate-related hazards (like flooding, surge, SLR, and extreme heat) and critical assets. The findings from the RVA are woven throughout this needs assessment, such as stats on road and infrastructure vulnerability. The next phase is a Resilience and Sustainability Action Plan for Pasco - to be completed in 2025. The mitigation strategies in this CDBG-DR Action Plan will be coordinated with those resilience recommendations. Essentially, we are using the same dataset and focus areas. If the Resilience Plan suggests pursuing a living shoreline in Miller's Bayou or hardening a water treatment plant, we can utilize CDBG-DR funds to implement those suggestions. This ensures a seamless transition from assessment to action – something HUD strongly encourages. By funding projects consistent with the Resilient Pasco Plan, we also leverage the stakeholder input and consultant expertise that went into that effort. The County will document how each CDBG-DR project ties back to a vulnerability identified in the RVA or a strategy in the forthcoming Resilience Plan. For example, "elevate lift stations" was noted, which we can fund. This also provides longevity – so once CDBG-DR funds are spent, the County's Resilience Plan will continue guiding further work in the same direction.
- **Other Local and Regional Plans:** Pasco County is involved in regional resiliency efforts such as the Tampa Bay Regional Resiliency Action Plan (RRAP)[100] through the TBRPC. Pasco County's mitigation priorities - like addressing sea level rise and extreme heat - reflect regional goals and actions in the RRAP (for example, improving regional evacuation route resilience, which is a Tampa Bay priority and clearly needed per our analysis).

As an added benefit, the LMS is FEMA-approved; aligning with it means Pasco retains eligibility for future FEMA mitigation funding. The County also benefits from alignment by leveraging plan-approved cost-benefit analyses and environmental reviews already done or anticipated in those plans, allowing Pasco County to streamline implementation.

By demonstrating these connections, Pasco County ensures that mitigation investments are not made in a vacuum; rather, they are part of a coherent, multi-plan strategy for resilience. This also provides confidence to

[99] Resilient Pasco Project
[100] TBRPC Regional Resiliency Goals & Measurable Actions

stakeholders – like our County's residents, the State of Florida, and HUD, that Pasco County is building on established plans rather than starting something from the ground up. Each project funded will cite which strategic initiative or recommendation it supports, creating a clear audit trail of consistency.

Summary and Conclusion

This assessment is informed by and feeds into Pasco County's broader resilience planning efforts. It bridges thought, analysis, and action, ensuring that our Action Plan's mitigation component is evidence-based, strategically targeted, community-specific, and well-coordinated with all relevant plans and funding streams. By addressing identified risks with appropriate strategies and integrating them into existing plans, Pasco County will move toward a safer, more disaster-resilient future. These efforts ultimately aim to reduce future disaster losses, protect our most vulnerable populations, and break the costly cycle of damage and repair by investing smartly in mitigation now.

Connecting Proposed Programs and Unmet needs

Connection between proposed programs and projects and unmet needs

Pasco County has allocated funding across eight proposed programs to address its unmet needs and mitigation priorities identified. Each program is tailored to a specific aspect of recovery (housing, infrastructure, economic revitalization, public services, or mitigation) and is designed to benefit LMI residents to the greatest extent possible. The total CDBG-DR allocation of $585.7 million (after setting aside funds for administration and planning) is distributed across these programs in reasonable proportion to the severity of needs in each sector. The entire county is HUD-designated as the Most Impacted and Distressed (MID) area for these disasters, so all programs will serve the MID area (Pasco County as a whole). The following narrative provides an overview of the proposed programs, including their purpose, the unmet needs they address, the funding allocated to each program, and how they benefit LMI residents.

The County's proposed allocations by category are summarized in the "Allocation and Award Cap" section of this document, including the estimated mitigation set-aside and the percentage to overall LMI benefit. Award caps are listed in each program description.

Unmet Needs Assessment

The Unmet Needs Assessment for Pasco County reviewed FEMA IA/PA, SBA, NFIP, and local data. In addition, comments, survey responses, and other public input received from residents, businesses, and other stakeholders were considered.

Housing

As one citizen commented during our Dade City town hall meeting, "First and foremost, this money should be used to get people back into housing." The County is committed to assisting our income-qualified households with returning to safe, sanitary, and resilient housing.

To ensure Pasco County is responsive to the needs of our community, the County has analyzed the demographic data of our residents, including our low- and moderate-income households and vulnerable populations - older adults, families with small children, people experiencing homelessness, survivors of domestic violence, and

individuals with disabilities. Pasco County is committed to serving our low-moderate income households and areas, as well as our vulnerable populations, with CDBG-DR assistance.

According to the FY 2024 American Community Survey 2016-2020, Low-and Moderate-Income (LMI) Summary Data, 43.3% of the households in Pasco County are low-to moderate-income, or over 230,000 persons.[101] Many of these low-moderate-income communities have been disproportionately impacted by the damage caused by the storms, both through their housing, whether temporary relocation or permanent housing, and job loss.

The map below delineates census tracts where the households are over 51% LMI areas, concentrating on both the west and east sides of the County.[102]

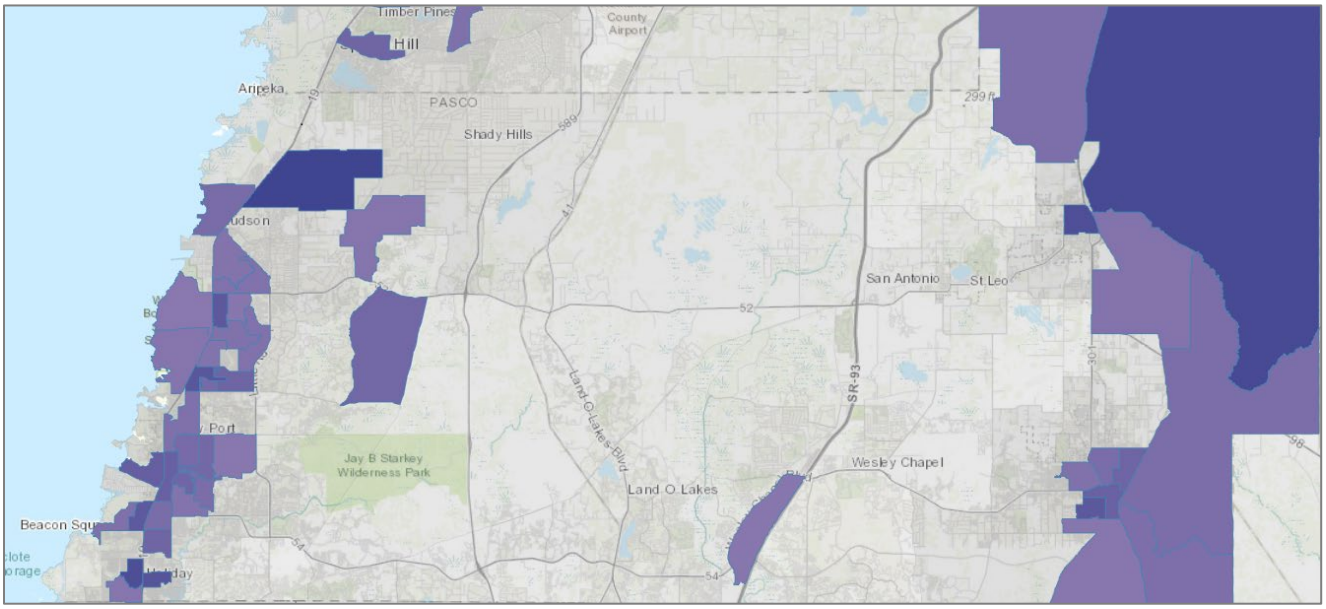

Figure 24: Census Tracts with >51% LMI Households

= more than 51% of households are low- and moderate-income

Pasco County has allocated $305,000,000 to support housing recovery programs in the County.

The Unmet Needs Assessment indicates that Hurricanes Idalia, Helene, and Milton caused significant damage to our housing stock in Pasco County. As the highest priority to ensure our residents can return to their homes, Pasco County has created three Housing for a Better Future Programs to assist in rebuilding safe, sanitary, and secure housing for our residents. The County will operate one centralized program to assist those impacted by the storms, whether in a municipality or unincorporated Pasco County. Through this program, Pasco County plans to address the unmet housing needs, rebuild more resilient housing, and protect our citizens.

Pasco County's homeownership population is significantly higher than the renter population. With over 77% of households classified as homeowners, these households may have homeowner's and/or flood insurance, FEMA assistance, Small Business Administration loans, and other means to repair their homes and recover from

[101] Office of Housing and Urban Development (HUD) Exchange. (2023). FY 2024 ACS 5-Year 2016-20120 Low- and Moderate- Income Summary Data. [online] Available at: https://www.hudexchange.info/programs/acs-low-mod-summary-data/. Accessed April 15, 2025.

[102] Department of Housing and Urban Development (HUD), Office of Policy Development and Research (PD&R). Mapping Tool. [online] Available at: https://arcg.is/1Deyz12

disasters. They also had the ability to park a recreational vehicle and live on their property while their permanent residence undergoes repair. Renters in Pasco County, while just under 23% of the population, faced significant challenges, including relocation to another affordable rental in an already tight affordable housing rental market, and landlords were slow to respond to unit repairs.

Housing Program #1: Housing for a Better Future – Repair, Reconstruction, and Elevation (RRE) Program

1. **Purpose:** Provide assistance to homeowners and landlords to repair or rebuild homes damaged by the hurricanes, incorporating resiliency measures like elevation and wind-hardening. Funds will also be available for eligible reimbursement expenses. This is the County's primary homeowner recovery program.
2. **Needs Addressed:** This program directly addresses the largest unmet need - housing recovery. As noted, thousands of Pasco homes remain damaged or destroyed, with families still displaced or living in unsafe conditions. The RRE program will fill the gap left by other sources by funding the repair or reconstruction of homes that residents cannot afford to fix on their own. By restoring these houses, the program helps families return to safe, permanent homes. It also ensures rebuilt homes are more resilient to future storms (e.g. elevating homes in flood zones, strengthening roofs), which addresses the overlap between recovery and mitigation.
3. **Allocation: $155 million** (about 26.4% of total CDBG-DR funds allocated to Pasco County) is allocated to the RRE Program. This large share of funding is justified by the housing sector's outsized portion of unmet needs (roughly 74% of total needs). With these funds, the County anticipates repairing, rebuilding, and elevating approximately 800 housing units (depending on final project costs), significantly lessening the $1.1 billion housing repair gap and approximately 500 households will seek reimbursement.

Homeowners and renters – including individuals who 65 years old and older - can be on a limited income, dealing with physical/health issues and also mental health/social isolation all contributing to their vulnerability. According to the American Community Survey, DP05 5-year estimates, there are 137,708 households in Pasco County with at least one person over 65. Almost 50% of households with a senior present are homeowners. Of those households with a person 65 and older, 46,421 persons (34.4%) have any disability. Of those households with a person 65 and over, 15.2% have incomes less than 125% of the poverty level. Seniors who are displaced by the storms face many challenges. Those who were renters must find comparable housing close to health care, grocery shopping and transportation. Homeowners face the challenges of navigating FEMA and insurance claims, permitting, and managing contractors. A manufactured housing replacement program will assist our residents – including seniors, families with children, and LMI population - to regain their independence and housing security. Of the 256,783 housing units within the County, 18% of these units are considered mobile or manufactured homes;[103] these are particularly vulnerable to high winds and flooding.

[103] U.S. Census Bureau, U.S. Department of Commerce. "Selected Housing Characteristics." American Community Survey, ACS 1-Year Estimates Data Profiles, Table DP04, 2023, Accessed on April 15, 2025.

Housing Program #2: Housing for a Better Future – Manufactured Housing Replacement (MHR) Program

1. **Purpose:** Replace disaster-damaged manufactured homes with new, safe, and code-compliant manufactured housing units for eligible low-income residents. This program specifically targets homeowners and renters who lived in mobile homes that are beyond repair.
2. **Needs Addressed:** Mobile homes form a significant portion of Pasco's affordable housing stock, especially for LMI households – including seniors. Unfortunately, older mobile homes could not withstand the hurricanes – many were destroyed by high winds or flooding. Entire mobile home parks in coastal areas were flooded, and when those homes were lost, their residents lost their only affordable housing option. Traditional repair programs aren't effective for units that were obliterated or structurally compromised. The MH Replacement Program meets this unmet need by providing a new manufactured home to households whose mobile homes were severely damaged or destroyed, ensuring these families are not left homeless or
living in dilapidated homes. This gives vulnerable residents (often on fixed incomes) a secure and resilient home for the future instead of an unsafe, storm-damaged unit.
3. **Allocation: $50 million** (around 8.5% of the total funds) is set aside for the Mobile Home Replacement Program. This substantial investment reflects the large number of mobile homes impacted and the high cost of providing new units. With these funds, the County anticipates replacing approximately 250 mobile homes (depending on final project costs), targeting those households that had no other means to recover their residence and approximately 100 households will seek reimbursement.

Investments in new single family or multi-family homeownership will help our residents and families with young children build wealth and provide a stable housing environment for their families. With multi-family rental projects, an increase in affordable rental housing units will benefit LMI and vulnerable populations alike.

Housing Program #3: Better Future Affordable Housing New Construction Program

1. **Purpose:** Develop new affordable housing (both single-family and multifamily units) to replace housing stock lost to the disasters and to address the pre-disaster affordable housing shortage that was worsened by the storms. This program will fund the construction of new homes and apartments, through partnerships with developers or nonprofits, with affordability requirements for LMI households.
2. **Needs Addressed:** Even after repairs and replacements, Pasco County faces a situation where repairing existing homes alone is not sufficient to meet all housing needs. The hurricanes not only damaged individual homes but also exacerbated an existing housing crisis. With many homes destroyed, the rental market tightened, and housing costs rose, leaving displaced renters with nowhere affordable to go. This program addresses the unmet need for additional housing by creating new units that disaster-impacted residents can move into when repairs are not possible or if they were previously unhoused. For example, if an entire neighborhood was wiped out by flooding, it might be safer to build a new apartment complex on higher ground and offer units to those residents. On the west side of Pasco County, a number of mobile home parks were destroyed. These properties could be acquired by developers and redeveloped into sustainable, wind resistant modular or manufactured housing or other types of affordable units. The New

Construction Program is a forward-looking recovery strategy to ensure that LMI income residents have viable housing options rather than being permanently displaced from the community. It also helps replace some of the affordable housing that was lost - including public or subsidized housing units that were storm-damaged.

3. **Allocation: $100 million** (around 17% of total funds) is allocated to the Affordable Housing New Construction Program. While smaller than the repair programs, this investment is significant; it could produce almost a thousand new affordable housing units through gap financing to developers or direct construction. The allocation is justified because new construction addresses both disaster impacts and longstanding needs. By adding new units, Pasco can begin to close the affordability gap and ensure that disaster-impacted families have a place to live.

Infrastructure

To fully recover from the impact of Hurricanes Idalia, Helene and Milton, Pasco County has allocated $130,022,800 to support the repairs, reconstruction, and improvements to critical infrastructure and public facilities. Priorities will be given to projects located in or serving Pasco County's LMI census tracts. While the data available through FEMA PA indicated approximately 16% for infrastructure unmet needs, the County consulted closely with our municipalities, internal departments, community needs survey results, and stakeholder engagement discussions. As a result, many expressed a substantial need for infrastructure projects, activities, and repairs. Projects most often identified included upgrading water and sewer facilities, stormwater projects to mitigate flooding in residential areas, the installation of permanent or elevated generators, dredging of canals and hardening or repairing of critical infrastructure.

Infrastructure Program #1: Critical Infrastructure

1. **Purpose:** Repair and improve critical infrastructure systems damaged by the hurricanes, with an emphasis on resilience. This program will fund projects for public infrastructure such as roads, bridges, drainage systems, water and wastewater facilities, and power infrastructure. The aim is to restore functionality and harden these systems to better withstand future risks.
2. **Needs Addressed:** The storms caused widespread infrastructure damage in Pasco – flooding and washouts damaged roads (including evacuation routes), bridges, and culverts; power outages occurred; and sewer overflows and water system disruptions highlighted weaknesses in utilities. While FEMA PA and other programs cover some repairs, many projects require additional funds or improvements beyond simple repair - such as upsizing a culvert or relocating a lift station out of a floodplain. By funding these projects, the program ensures that communities have safe roads, effective drainage, and reliable utilities, which are all essential for public safety and economic recovery. It specifically targets infrastructure that, if not fixed, would impede recovery or pose ongoing risks (like a repeatedly flooding highway or a storm-damaged water treatment plant). In addition, improving infrastructure now (such as elevating a road or burying power lines) mitigates the impact of future disasters on the community.
3. **Allocation: Approximately $100 million** ($100,022,800, or about 17% of total funds) is allocated to the Critical Infrastructure Resilience Program. This corresponds to the significant portion of unmet needs attributed to infrastructure (around 16% of the unmet needs total, or roughly $245 million), balanced with the recognition that some infrastructure repairs have other funding. Accomplishments for this program will be contingent on the mix of projects submitted for approval. The allocated amount will cover multiple high-

priority projects across the county. This investment is essential to restore normalcy and protect communities from future harm.

Infrastructure Program #2: Public Facilities Program

1. **Purpose:** Repair, rebuild, or enhance public facilities that were damaged by the disasters or are needed to support recovery and resilience. Public facilities include community centers, emergency shelters, public schools, libraries, health clinics, government service buildings, and other public or nonprofit-owned facilities serving the community. This program ensures that these facilities are restored to full function and improved to better serve the public in future events.
2. **Needs Addressed:** Many public facilities in Pasco were impacted by the hurricanes or revealed to be insufficient. For example, some schools and community centers used as shelters experienced damage or lacked generators, and other facilities like fire stations or clinics may have suffered flooding or wind damage. Additionally, facilities such as homeless shelters are considered public facilities for recovery purposes – several of these had roof damage, water intrusion, or other issues that need repair and mitigation - including installing backup power. Unmet needs include funding to fix these damages and to upgrade facilities (e.g., strengthen a community center so it can double as a hurricane shelter, or rebuild a damaged senior center). By addressing public facilities, the program supports services that residents rely on – a repaired senior center can reopen to serve elders, a hardened shelter can safely house people in the next storm, and a rebuilt clinic can provide healthcare without interruption. These projects often fall outside traditional infrastructure funding, so CDBG-DR fills a crucial gap.
3. **Allocation: $30 million** (about 5% of total funds) is proposed for the Public Facilities Program. This funding will be used for several key facility projects – for instance, repairing a storm-damaged community resource center and equipping it with resilient features, or integrating an emergency operations center that is undersized with a community resilience center. This level of funding recognizes that while facility needs are
smaller in dollar terms than housing or major infrastructure, they are highly impactful for community recovery. Accomplishments for this program will be contingent on the mix of projects submitted for approval. If additional facility needs are identified or specific larger projects, like a new shelter construction project, are identified, the County can adjust the allocation accordingly through a substantial amendment.

Economic Revitalization

The impact on our business communities followed a similar pattern to the housing impacts. This Action Plan has allocated $25,000,000 (4.2%) to economic revitalization of Pasco's business communities. Engaging the business community through the Greater Pasco Chamber of Commerce and the Greater East Pasco Chamber of Commerce as well as public surveys, the business community cared about small business recovery, equipment and signage. Job training, including workforce development, will provide training in manufacturing, robotics, and soft skills that are all in demand for our local labor market. Participants may include LMI and vulnerable populations - those experiencing homelessness, disabled adults and re-careering older adults.

Economic Revitalization Program #1: Small Business/Non-Profit Recovery Program

1. **Purpose:** Provide financial assistance to small businesses and nonprofits affected by the hurricanes to support economic recovery and job retention/creation. Assistance may include grants or low-interest loans for rebuilding physical damages, replacing inventory and equipment, covering working capital needs, and implementing mitigation measures, such as elevating utilities or purchasing generators, to make businesses more resilient.
2. **Needs Addressed:** The storms dealt a major blow to local businesses – especially small businesses, which make up the backbone of Pasco's economy. Many shops, restaurants, and service providers suffered damage or lengthy power outages that spoiled inventory and halted operations. Some businesses had to lay off employees or shut down entirely. These businesses often did not receive enough insurance or SBA assistance to fully recover, leaving an unmet need for assistance. The Small Business Recovery Program
   addresses this need by injecting much-needed capital so businesses can repair their premises, restock, and reopen. This helps revive the local economy and preserves jobs that might otherwise be lost permanently. Additionally, by encouraging or requiring simple mitigation measures (like elevating electrical panels or adding flood barriers for a store in a flood-prone location), the program helps businesses come back stronger against future disasters. Overall, this program is a key part of economic revitalization, targeting the gap for those businesses that lack the resources to recover on their own.
3. **Allocation: $25 million** (approximately 4.3% of total funds) is allocated to the Small Business Recovery Program. This allocation aligns with the share of unmet economic needs (roughly 10% of the total gap) while considering other known available resources like insurance and SBA loans. With this funding, Pasco can assist a substantial number of businesses through a combination of grants and loans. For example, if average grants were around $50,000, this could help approximately 500 businesses. Grants might range higher for severely impacted businesses, and some funds could be reserved as loans revolving to help even more over time – so accomplishments for this program will be contingent on the mix of applications and requested benefits received by the Program.

Public Services

The County is allocating $10 million to serve our LMI population with much needed public service programs. These services may include outreach, case management, legal services, and housing delivery, navigation, and/or stabilization for our residents - including vulnerable seniors, homeless, disabled, survivors of domestic violence and human trafficking, and those with substance abuse or mental health issues. Delivery of services for food insecurity, behavioral health, and job training may also be supported with CDBG-DR funding.

According to the 2023 Point-In-Time Count, 623 persons were experiencing homelessness on the last Wednesday in January 2023. Of those, 67% were unsheltered, living in tents, encampments, cars and other places not fit for human habitation.[104]

People with disabilities can include mental, physical and/or developmental disabilities. According to the 2023 American Community Survey, 1 year estimate S1810, there are 101,830 (16.2%) persons living with a disability in Pasco County, with 46,421 (34.4%) of those persons being over 65. These disabilities include hearing, ambulatory, vision, cognitive, self-care and/or independent living difficulty.[105] This population has been disproportionately impacted by the storms, in many cases losing their independence, proximity to medical services, and social support networks.

Survivors of domestic violence and human trafficking experience income, housing and employment insecurities, in addition to mental and physical abuse.

These vulnerable populations are some of the many individuals and households who have special recovery needs.

Public Services Program #1: Public Services Program

1. **Purpose:** Support a range of public services to assist individuals and households recovering from the disaster, particularly those who are vulnerable or have special recovery needs. Eligible activities under this program include disaster case management, housing counseling, legal services related to recovery, mental health services for trauma survivors, employment training for those who lost jobs, childcare or youth programs to support families during recovery, and other CDBG-DR eligible Public Services activities.
2. **Needs Addressed:** As detailed in the Unmet Needs Assessment, human services needs post-disaster are substantial. Many impacted residents require help navigating the recovery process – for example, completing complicated aid applications or managing home repairs – which disaster case managers can provide. Others face emotional and mental health challenges after the trauma of the hurricanes, creating demand for counseling and support groups. There are also families who became homeless or experienced extreme hardship due to the storms and need housing stability services or emergency assistance. These needs are not bricks-and-mortar but are vital for our county's recovery. The Public Services Program addresses these unmet needs by funding organizations and agencies that provide direct assistance to residents in need. By doing so, it ensures that vulnerable populations (including LMI households, seniors, persons with disabilities, and residents with limited English proficiency) receive help in recovering, bridging the gap between enduring the storm and fully getting back on their feet. Without this support, many at-risk residents might not access housing programs or could suffer long-term setbacks. This program fills the crucial gap in the recovery ecosystem related to outreach, counseling, and social support.
3. **Allocation: $10 million** (approximately 1.7% of total funds) is allocated to the Public Services Program. While $10 million is a relatively small portion of the $585M grant, it can have an outsized impact when used

[104] CoC Homeless Populations and Subpopulations Reports. (2024). Hudexchange.info. https://www.hudexchange.info/programs/coc/coc-homeless-populations-and-subpopulations-reports/?filter_Year=2024&filter_Scope=State&filter_State=&filter_CoC=&program=CoC&group=PopSubreports/published/CoC_PopSub_CoC_FL-519-2024_FL_2024.pdf. Accessed on April 15, 2025.

[105] U.S. Census Bureau, U.S. Department of Commerce. "Disability Characteristics." American Community Survey, ACS 1-Year Estimates Subject Tables, Table S1810, 2023, https://data.census.gov/table/ACSST1Y2023.S1810?q=disability&g=050XX00US12101. Accessed on April 17, 2025.

for services - as service programs are generally lower cost per subrecipient than construction projects. For example, these funds could support several years of case management services for hundreds of families, legal clinics for storm victims, and mental health services accessible to thousands of residents. By investing in public services, Pasco County ensures the "people side" of recovery is addressed to assist our residents. In addition, the County intends to use some Planning dollars to build the capacity of our nonprofits to better respond during disasters.

Mitigation

Pasco's mitigation needs assessment indicates significant need for improvements to critical infrastructure and public facilities to prevent damages during future disasters. To address mitigation needs, Pasco County will utilize $76,396,000[106] in CDBG-DR funds to address these needs. These improvements may include structural hardening to increase resiliency from high wind events and elevation to increase flood resiliency. Pasco County is committed to ensuring the initiatives in this Action Plan align with and advance the goals of existing local plans such as the LMS and Resiliency and Sustainability Plan.

Mitigation Set-Aside Program #1: Better Future Match and Mitigation

1. **Purpose:** Utilize the designated mitigation set-aside funds ($76.4 million) to finance projects that reduce future disaster risks, and to provide required matching funds for other state or federal mitigation grants. This program is forward-looking, funding infrastructure projects, property improvements, and other measures that protect the community from current and future hazards identified in the Mitigation Needs Assessment. It is dubbed "Better Future" because it invests in a safer, more resilient future for Pasco County and its residents.
2. **Needs Addressed:** This program addresses the mitigation needs including risks and vulnerabilities to flooding, wind, wildfire, and other hazards that, if left unaddressed, will lead to repeated damage. Specific needs include: improving stormwater systems and flood control in areas prone to flooding; elevating or flood-proofing critical facilities (like water treatment plants or emergency shelters) so they aren't knocked out by the next storm; hardening the electric grid or burying power lines to reduce hurricane outages; acquiring or elevating homes that repeatedly flood to prevent future property loss; and implementing wildfire mitigation in high-risk zones. Many of these projects do not necessarily tie-back to the 2023-2024 storms but are essential to increase resilience. Additionally, the need for local matching funds is significant; without the availability of required match funding, the County might have to forgo those mitigation opportunities. This program ensures Pasco can take on these projects by covering matches and funding standalone mitigation initiatives. It narrows the funding gap for critical resilience projects that would reduce the impact of future disasters on Pasco's communities. This forward-thinking approach means the CDBG-DR funds will leave a legacy of safer infrastructure and neighborhoods long after the immediate recovery is done.
3. **Allocation:** The full mitigation set-aside of **$76,396,000** is allocated to the Match and Mitigation Program. These funds are separately identified for mitigation activities by federal requirement, and Pasco will use them in a strategic manner. For example, a portion of this funding might be reserved to match other

[106] The CDBG-DR Mitigation allocation represents 15% of the Unmet Needs Allocation ($509,300,000), as required under Public Law 118-158 (90 FR 4761)

Federal grants, while the remainder directly funds county-selected mitigation projects - such as upgrading stormwater pumps in a vulnerable town or creating a regional retention pond to prevent neighborhood flooding. All projects will meet HUD's definition of mitigation: addressing identified risks with a measurable reduction of future disaster damage. The $76.4 million allocation is fixed as the mitigation portion of the grant, so the County's focus is on spending it effectively.

Planning

Pasco County has allocated $10,000,000 for planning activities. The County will build on the existing efforts of State, local, and regional hazard mitigation, emergency management, and resiliency planning. These funds will help the community's ability to minimize future damage and recover quickly from extreme events and changing conditions, including natural hazard risks**.** These funds will also help to build the capacity of our nonprofit agency infrastructure to allow a more robust response during times of crises and storms; our nonprofit community are most often the first responders and boots on the ground to assist those in the LMI community and vulnerable populations in recovery efforts.

Compliance with Applicable Statutes

Pasco County is committed to the allocation of CDBG-DR funds in a manner that complies with applicable statutes. Guidance for compliance on these laws and regulations can be found in Section 109 of the Housing and Community Development Act, 42 U.S.C. 5309; Title VI of the Civil Rights Act of 1964,42 U.S.C. 2000d et seq.; Title VII of the Civil Rights Act of 1964, 42 U.S.C. 2000d et seq.; Title VIII of the Civil Rights Act of 1968 (The Fair Housing Act), 42 U.S.C 3601-19; Section 504 and Section 508 of the Rehabilitation Act of 1973, 29 U.S.C. 794; the Americans with Disabilities Act of 1990, 42 U.S.C. 12131 et seq, and the Personal Responsibility and Work Opportunity Reconciliation Act of 1996.

Programs are designed to provide necessary ADA accommodations to support the recovery needs of impacted individuals with disabilities. Programs, as noted above, will provide access to all our residents - including our vulnerable populations.

Pasco County will meet or exceed expending 70% of CDBG-DR funds on activities that benefit low-and-moderate income households or areas. The County will guarantee that all eligible individuals are given the opportunity to apply for assistance in rehabilitating their homes if they incurred damage during Hurricanes Idalia, Helene, or Milton.

Minimizing Displacement and Ensuring Accessibility

Pasco County recognizes that disaster recovery efforts should strive to keep communities intact and avoid uprooting residents or businesses as much as possible. The County has a large senior population (over 22% of residents are 65 or older) and a significant number of households living in mobile or manufactured homes (approximately 1 in 5 homes in the County is a mobile home). These demographic factors mean that many residents are particularly vulnerable to the disruptive effects of displacement. Therefore, in designing our CDBG-DR programs, Pasco County will make reasonable efforts to minimize displacement of persons and entities,

provide necessary assistance to anyone who is displaced, and ensure that the accessibility needs of displaced persons with disabilities are met.

Minimizing Displacement

Whenever feasible, recovery programs will be structured to allow residents to remain in their homes or communities. For example, the County's housing programs will prioritize in-place repairs of disaster-damaged homes, so families (especially elderly residents) do not have to relocate during construction if it can be avoided. If homes are too damaged and must be rebuilt, the program will explore temporary on-site housing solutions (such as temporary trailers on the property) or phase construction in a way that minimizes time away from home. For infrastructure projects, the County will seek design or location alternatives that avoid displacing businesses or residents. Overall, Pasco County will seek to avoid or reduce adverse impacts from displacement in all CDBG-DR activities, consistent with HUD's guidance to use non-displacing recovery methods where possible.

Assistance to Displaced Persons

If displacement does occur as a result of a CDBG-DR funded project, Pasco County will ensure that those affected receive appropriate assistance and protections. The County will follow the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA) and Section 104(d) of the HCDA, as applicable, to provide relocation assistance. This means any residents who must move will be given advance notice, counseling, and help in finding comparable replacement housing. They will also be eligible for financial assistance such as moving expenses, rent or down payment assistance, and other support to transition to a new home. For example, if a low-income family in a mobile home park is, the County might assist them with the costs of moving to a safer manufactured home community or provide a rent subsidy so they can afford an apartment elsewhere. Business owners displaced by infrastructure improvements would also be assisted in relocating their shop or office. All such assistance will meet or exceed the minimum standards set by federal law to ensure that no displaced person suffers undue hardship. The Action Plan will include a Residential Anti-Displacement and Relocation Assistance Plan that details these commitments, as required by governing HUD regulations.

Ensuring Accessibility for Displaced Persons with Disabilities

Pasco County will pay special attention to the needs of displaced seniors or individuals with disabilities, as these residents may face added challenges during relocation. The County will make sure that any temporary housing or permanent rehousing options offered to displaced persons are accessible and accommodating. For instance, if an elderly homeowner who uses a wheelchair must relocate while their home is being rehabilitated or reconstructed, the County will arrange interim housing that has necessary features such as ramped entrances, wide doorways, and an accessible bathroom. When helping a displaced family find a new rental unit, the County's case managers will consider disability access needs and will coordinate with landlords to secure modifications if needed (e.g., outward door swing patters, grab bars, etc.). Additionally, the process of notifying and assisting displaced persons will be carried out in an accessible manner: notifications will be available in large print or audio format for the visually impaired, and the County will take reasonable steps to provide sign language interpretation for any meetings with persons who are deaf or hard of hearing. By addressing these needs, the County ensures that no displaced person with a disability is left without accommodations required for equal access to relocation resources.

Summary

Pasco County will seek to minimize displacement in its disaster recovery projects by favoring solutions that allow people to stay in their homes or communities. When displacement is unavoidable, the County will assist displaced persons and businesses through every step of the relocation process, providing both financial help and logistical support to secure safe and decent replacement housing or sites. Recognizing the large number of seniors and persons with disabilities in the community, the County will take extra care to meet accessibility needs for those affected – ensuring that the most vulnerable residents experience a smooth transition with housing that is suitable for their needs. These efforts reflect Pasco County's dedication to compassionate recovery, where rebuilding does not come at the cost of displacing or those who have already suffered from the disaster. All the above measures will be clearly outlined in the Action Plan to reassure the public that recovery will be conducted in a fair and supportive manner for all residents.

Allocation and Award Caps

Funding Criteria

Pasco County, via the Office of Disaster Recovery Resources, is the lead agency responsible for administering $585,700,000 in CDBG-DR funds that were allocated as a result of Hurricanes Idalia, Helene, and Milton. Pasco County Community Development is the Responsible Entity for Environmental Review.

Pasco County has incurred pre-agreement costs and will seek reimbursement for these costs after the effective date of the CDBG-DR grant agreement. These costs could include salaries, benefits and direct operating expenses of Pasco County's Office of Disaster Recovery Resources as well as the vendors providing technical support for the planning of the CDBG-DR programs. Other pre-agreement costs could include activity delivery and project costs associated with eligible disaster recovery programs identified within this Action Plan. The County may request reimbursement for certain eligible pre-agreement costs necessary for the efficient and timely implementation of its recovery programs. These costs may include but are not limited to environmental review, public engagement activities, damage assessment, program design, creation of policies and procedures, staffing and capacity building functions, and other costs necessary for determining eligibility of projects.

General Exception Criteria

Pasco County may make exceptions to award caps when necessary to comply with federal accessibility standards or to reasonably accommodate persons with disabilities. In such cases, requests for increases to award caps will be subject to an evaluation based on (a) documented need and (b) cost reasonableness.

Allocation Summary & Program Descriptions

Table 20: Summary of Programs

Category & Programs	Proposed Allocation	% of Allocation
Housing	**$305,000,000**	**52%**
Repair, Reconstruction, and Elevation (RRE)	$155,000,000	
Manufactured Housing Program	$50,000,000	
Affordable Housing Construction	$100,000,000	
Infrastructure	**$130,022,800**	**22%**
Critical Infrastructure	$100,022,800	
Public Facilities	$30,000,000	
Economic Revitalization	**$25,000,000**	**4%**
Small Business and Non-Profit Recovery	$25,000,000	
Public Services	**$10,000,000**	**2%**
Public Services for a Better Future	$10,000,000	
Mitigation	**$76,396,000**	**13%**
Better Future Match and Mitigation	$76,396,000	
Planning	**$10,000,000**	**2%**
Planning for a Better Future	$10,000,000	
Administration	**$29,285,200**	**5%**
Administrative Costs	$29,285,200	
Total	**$585,704,000**	**100%**

Table 21: Grantee Administration Activity Overview

Eligible Cost Category	CDBG-DR Allocation Amount	% of CDBG-DR Allocation	Estimated % to CDBG-DR Mitigation Set-aside	Estimated % to HUD identified MID Areas	Estimated % to LMI
Administration	$29,285,000	5%			
Planning	$10,000,000	2%	50%		
Housing	$305,000,000	52%	0%	100%	77%
Infrastructure	$130,022,800	22%	0%	100%	60%
Economic Revitalization	$25,000,000	4%	0%	100%	70%
Public Service	$10,000,000	2%	0%	100%	100%
CDBG-DR Mitigation Set-Aside[107]	$76,396,000	13%	100%	100%	60%

[107] The CDBG-DR Mitigation allocation represents 15% of the Unmet Needs Allocation ($509,300,000), as required under Public Law 118-158 (90 FR 4761)

Pasco County's CDBG-DR investments will repair homes and infrastructure, support economic recovery, improve access to services, and strengthen resilience. All programs prioritize low- and moderate-income residents and are designed to ensure timely, compliant, and transparent recovery. The County will seek to utilize at least 70 percent of CDBG-DR funding to serve low- and moderate-income residents and businesses.

Administration

Table 22: Grantee Administration Activity Overview

Eligible Cost Category	CDBG-DR Allocation Amount	% of CDBG-DR Allocation
Administration Total:	$29,285,200	5%
Total	**$29,285,200**	**$29,285,200**

The County will utilize 5 percent of the total grant award for administration, plus 5% of any program income. This is the maximum amount permissible for administrative costs, as outlined in the Universal Notice. Eligible costs include staff time, administrative expenses, and other costs related to developing, managing, and overseeing the Action Plan, CDBG-DR grant setup, and resilience and recovery programs. This includes financial certifications, unmet needs analysis, capacity assessment, technical assistance, monitoring, environmental reviews, grant reporting including DRGR, quarterly reports and other activities per 24 CFR 570.206.

Planning

Table 23: Grantee Planning Activity Overview

Eligible Cost Category	CDBG-DR Allocation Amount	% of CDBG-DR Allocation
Planning Activity Number One	**$10,000,000**	**2%**
Total:	**$10,000,000**	**2%**

Pasco County will engage in a range of planning activities to guide our recovery efforts and help us achieve a more sustainable and resilient County. The proposed planning activities include disaster preparedness/hazards plans, local recovery and development plans, feasibility and mitigation studies as well as capacity building for our non-profit community and local governments to assist with recovery and enhancing quality of life for residents.

In one such activity, Pasco County will launch an Innovative Housing Planning Initiative to catalyze integration of advanced building technologies and resilient site strategies into its new construction and recovery efforts as well as housing development best practices. This initiative will leverage CDBG-DR Planning Funds to support public-private partnerships and design community-scale demonstration projects that advance construction innovation, energy efficiency, and long-term resilience and affordability.

Pilot housing projects and planning efforts will focus on, but are not limited to:

1. **Modular & Prefabricated Housing:** To accelerate rebuilding timelines and expand affordable housing options, while maintaining high standards for quality, durability, and energy efficiency.
2. **Resilient Building Materials:** Including concrete panel systems, 3-D printed components, and other durable, storm-resistant technologies capable of withstanding extreme weather and reducing lifecycle maintenance costs.

3. **Manufactured Housing Efficiency**: Including the review of current codes and requirements used by the County and best practices from the State and Nation for improved standards that builds resiliency and improves health and safety.
4. **Water and Energy Efficiency:** Employing advanced systems such as smart grids, passive cooling designs, greywater reuse, and stormwater-resilient infrastructure that reduce environmental impact, decrease operating costs for the County, and lower utility expenses for homeowners and renters.
5. **Housing Development Best Practices:** Provide strategies and standards to improve housing affordability, conditions, and availability in Pasco County for vulnerable populations.

In addition to addressing long-term housing needs, the Planning program will serve as a platform for local economic development and workforce capacity-building by partnering with economic development organizations to foster economic revitalization and growth in the County and technical schools, trade unions, and innovative construction firms to train and employ Pasco County residents in high-demand construction fields.

Housing

Housing Programs Overview

Table 24: Grantee Housing Programs Overview

Eligible Cost Category	CDBG-DR Allocation Amount	% of CDBG-DR Allocation for LMI Benefit
Housing Program Number One	$155,000,000	70%
Housing Program Number Two	$50,000,000	80%
Housing Program Number Three	$100,000,000	85%
Housing Program Total:	**$305,000,000**	**77%**

Grantee Housing Program Number One

Program Title: Housing for a Better Future – Repair, Reconstruction and Elevation (RRE)

Amount of CDBG-DR Funds Allocated to this Program: $155,000,000

Eligible Activities

- Repair, Reconstruction, and Elevation of Residential Structures (1-4 Units)
- Repair, Reconstruction, and Elevation of Rental Housing Units (1-4 units)
- Reimbursement of Disaster Recovery Expenses for Homeowners
- Demolition and clearance of blighted structures
- Residential Buyout and relocation
- Acquisition of Real Property (with redevelopment allowed)
- Payment of Non-Federal Share

All activities are authorized under the Housing and Community Development Act (HCDA) Section 105(a)(4) (42 U.S.C. 5305(a)(4)) 24 CFR 570.202 (eligible repair and preservation activities), and FRN-6489-N-01. Only properties damaged by Hurricanes Idalia, Helene, and Milton are considered for eligibility.

National Objective: Low- and Moderate-Income Housing (LMH) (24 CFR 570.208(a)(3)), Elimination of Slum or Blight (24 CFR 570.208(b)(2), and Urgent Need (FR-6489-N-01 and 24 CFR 570.208[c])

Lead Agency and Distribution Model: Pasco County is the lead agency and Responsible Entity for administering Housing for a Better Future Repair, Reconstruction, and Elevation Program. The County is procuring an implementation vendor to support this program. The County will accept applications from income qualified residents whose homes were impacted by Hurricanes Idalia, Helene or Milton.

Program Description: Based on the evaluation of FEMA IA data and public engagement activities, Pasco County has determined that housing repair, reconstruction and elevation is required to address unmet needs resulting from Hurricanes Idalia, Helene, and Milton. Additionally, homeowners may have incurred expenses for eligible construction costs that exceeded available assistance prior to the start of the Better Future Program, which may be eligible for reimbursement. Pasco County anticipates that approximately 1,600 households will seek assistance to make repairs or to reconstruct or replace their homes and approximately 500 households will seek reimbursement. Pasco County will monitor program subscription closely to evaluate progress against expected outcomes and ensure programs are not oversubscribed given funding limitations. The County will use a phasing criteria established within our policies and procedures.

All newly constructed, replaced, or repaired housing units must incorporate disaster resilience measures to provide better outcomes in a major storm. Activities funded under this program may include:

- Repair existing structures, including substantial repair to bring the property up to local codes and standards.
- Making energy efficiency improvements through insulation, new windows and doors, and other similar improvements.
- Installing handicapped accessibility aids, such as grab bars and ramps.
- Repairing or replacing key components of the home - including hurricane damaged roofs, windows, water systems, septic tanks, air conditioning, wells, windows, electrical, and plumbing systems.
- Demolishing and re-building a unit in substantially the same manner, including elevating homes which are substantially damaged in special flood hazard areas.
- Demolishing unsafe and blighted housing structures.
- Reimbursing eligible costs for repairing, reconstructing, or demolishing homes damaged by a qualifying disaster.
- Residential Buyout and relocation of households in substantially damaged/destroyed housing, particularly repetitively flooding sites.
- Payment of the non-federal share (match requirement) for residential housing improvements – including elevation and resiliency upgrades.

All repair and reconstruction activities will comply with all applicable HUD, State, County, and local building codes and requirements. Pasco County will define “not suitable for repair” in the program guidelines to determine eligibility for reconstruction or replacement assistance. Reimbursement costs must be associated with eligible activities performed prior to application for CDBG-DR assistance and properly documented by the homeowner and/or verified using program-approved cost estimation software. Repairs must be completed at the time of application to qualify for reimbursement.

Pasco County understands that homeowners are in various stages of their rebuilding process and has created a program that will assist eligible homeowners at different stages of their recovery efforts. The County will reimburse homeowners for eligible costs for the repair, replacement, or elevation of storm damaged homes subject to all eligibility criteria and availability of funds.

Pasco County is aware of private not-for-profit entities who leverage private sector resources to work with impacted homeowners and provide short-term bridge loans to repair damage to impacted homes. These organizations are familiar with CDBG-DR regulations and cross-cutting requirements (such as duplication of benefits and environmental regulations) and can provide assistance to help homeowners remain in their home and complete repairs quickly. Homeowners who choose to work with these entities may be eligible for reimbursement of their short-term bridge loans through the Housing for a Better Future Program, RRE.

In all cases, assistance is subject to meeting program eligibility requirements (such as verification of storm damage, income qualification, ownership, etc.) and the availability of funds.

Eligible Geographic Areas: Pasco County, FL has been designated an MID area.

Other Eligibility Criteria:

For Single Family Homeowners:

- Applicants must have owned the home as a primary resident at the time of the qualifying event.
- Damage must be tied back to one of the 2023-24 hurricanes.
- Household income must be at or below 80% of the Area Median Income for LMI or at or below 120% for UN households.
- Property taxes and mortgage (if applicable) must be current or on a payment plan.
- The property must be a residential structure (1-4 unit owner-occupied) and located in Pasco County. Homes in a Special Flood Hazard Area will be eligible only if they adhere to federal flood insurance and elevation requirements.
- Homeowners will be required to maintain flood insurance if the property is in a floodplain
- Duplication of benefits will be reviewed: Applicants must disclose any insurance, FEMA, SBA, or other assistance received for home repair, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements).

For Small Rental properties, landlords must demonstrate eligibility in the following areas:

- Applicant landlords must have owned the property at the time of the qualifying event.
- Damage must be tied back to one of the 2023-24 hurricanes.
- Property taxes and mortgage (if applicable) must be current or on a payment plan. Applicants must not be in bankruptcy or foreclosure.
- The property must be a residential structure (1-4 unit) and located in Pasco County. Homes in a SFHA will be eligible only if they adhere to federal flood insurance and elevation requirements.
- Rental unit owners will be required to maintain flood insurance if the property is in a floodplain.
- Duplication of benefits will be reviewed: Applicants must disclose any insurance, FEMA, SBA, or other assistance received for repair, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements).

- Agree to 5 year affordability period for rental housing, forgivable at 20% annually and that owners will comply with HUD rental housing requirements (including but not limited to income eligibility, rent levels, leasing, tenant protections, and property conditions) as detailed in the program housing guidelines.

For match activities (payment of non-federal share) associated with housing mitigation, eligibility criteria – listed in order of importance – include:

1. Applicants must demonstrate they have been deemed eligible and approved for in-kind programs with an outstanding cost-share match requirement. Additional eligibility requirements will be outlined in program policies and procedures.
2. Duplication of benefits will be reviewed: Applicants must disclose any leveraged funding or other duplicative benefits, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements). After national objective eligibility, prioritization will be based on federal guidance.

Maximum Amount of Assistance Per Beneficiary: The maximum total award (not including activity delivery costs) is $430,000. The following maximum amounts for reimbursement, repair, and reconstruction awards apply:

- Reimbursement: $75,000
- Repair: $175,000
- Reconstruction: $330,000
- Additional Cost of Elevation of Reconstructed Home: $100,000 above the Repair and Reconstruction maximum amounts detailed above.

The program may review and approve case-by-case exceptions to maximum total award and activity level award amounts when necessary to ensure cost reasonableness, comply with applicable federal accessibility requirements or floodplain standards, or provide a reasonable accommodation for a person with disabilities.

Maximum Income of Beneficiary: Household income must be at or below 80% of the Area Median Income for LMI or at or below 120% for UN households.

Mitigation Measures: While this program will not count towards Pasco County's mitigation set-aside, the program will rehabilitate, replace and reconstruct homes in a manner that makes them more resilient to future disasters. Mitigation measures will be incorporated into construction activities where determined to be necessary and cost reasonable, in accordance with applicable HUD guidance and local code requirements, and program goals for increased resilience.

Reducing Impediments for Assistance: The Housing for a Better Future Program is available to all Pasco County homeowners and landlords of small residential complexes who have been impacted by Hurricanes Idalia, Helene, or Milton. Intake for the program will be accessible to individuals with disabilities and communication assistance will be provided upon request. The program will follow its Limited English Proficiency policies. Pasco County will identify potential CDBG-DR beneficiaries through evaluation of data and will implement a targeted community outreach and engagement campaign to ensure broad program participation. All Pasco County residents will have access to the application process and the County will seek to streamline application processes to improve delivery. Program staff will be trained on program requirements and customer relations to improve the efficiency and effectiveness of the program's delivery. By coordinating with other federal, state and local agencies, the program will reduce impediments for assistance by coordinating resources and avoid duplication of benefits, streamlining the process for applicants who may be eligible for multiple types of assistance and leverage local knowledge and networks for more effective program delivery.

Grantee Housing Program Number Two

Program Title: Housing for a Better Future - Manufactured Housing Replacement (MHR) Program

Amount of CDBG-DR Funds Allocated to this Program: $50,000,000

Eligible Activities:

- Repair, replace, and elevate Single-Family Owner-Occupied Manufactured, Mobile, or Modular Housing
- Reimbursement of Disaster Recovery Expenses for Homeowners
- Demolition and clearance of blighted structures
- Residential Buyout and relocation (with redevelopment allowed)
- Payment of Non-Federal Share

All activities are authorized under the Housing and Community Development Act (HCDA) Section 105(a)(4) (42 U.S.C. 5305(a)(4)) 24 CFR 570.202 (eligible rehabilitation and preservation activities), and applicable federal guidance, waiver, or alternative requirement. Only properties damaged by Hurricanes Idalia, Helene, and Milton are considered for eligibility

National Objective: Low- and Moderate-Income Housing (LMH) (24 CFR 570.208(a)(3)), Elimination of Slum or Blight (24 CFR 570.208(b)(2), and Urgent Need (FR-6489-N-01 and 24 CFR 570.208[c])

Lead Agency and Distribution Model: Pasco County is the lead agency and Responsible Entity for administering Housing for a Better Future Repair, Reconstruction and Elevation Program. The County is procuring an implementation vendor to support this program. The County will accept applications from income qualified residents whose homes were impacted by Hurricanes Idalia, Helene or Milton.

Many low-income and Senior residents of Pasco County lived in mobile or manufactured homes that were severely damaged or destroyed by the hurricanes. Older mobile homes, in particular, proved unable to withstand the high winds and flooding – they were inundated, blown off foundations, or otherwise made uninhabitable. Traditional repair programs may not be cost-effective for these units, and often the best solution is to replace the old mobile home with a new, safer manufactured or modular home. The Manufactured Housing Replacement Program will provide eligible households with a new manufactured housing unit to replace their disaster-damaged one. This ensures those families have a secure and resilient home for the future, rather than living in unsafe structures or being displaced.

Program Description: Based on the evaluation of FEMA IA data and community engagement, Pasco County has determined that housing repair, replacement, and elevation is required to address unmet needs resulting from Hurricanes Idalia, Helene, and Milton. Additionally, homeowners may have incurred expenses for eligible construction costs that exceeded available assistance prior to the start of the Better Future Program. Pasco County anticipates that approximately 450 households will seek assistance to repair or replace their mobile homes and approximately 100 households will seek reimbursement. Pasco County will monitor program subscription closely to evaluate progress against outcomes and ensure programs are not oversubscribed given funding limitations

All replaced housing units must incorporate disaster resilience measures to provide better outcomes in a major storm. Activities funded under this program may include:

Repairs to Manufactured Housing

- Making energy efficiency improvements through insulation, new windows and doors, and other similar improvements – as required for repair projects.
- Installing handicapped accessibility aids, such as grab bars and ramps.
- Repairing or replacing key components of the home - including hurricane damaged roofs, windows, water systems, septic tanks, air conditioning, wells, windows, electrical, and plumbing systems – as required for repair projects.
- Payment of the non-federal share (match requirement) for residential housing improvements – including elevation and resiliency upgrades.

Replacing Manufactured Housing

- Replacing storm-damaged structures with HUD- and code-compliant MHUs, including transport and connection to utilities.
- Demolishing and replacing units in substantially the same manner, including elevating homes which are substantially damaged in special flood hazard areas on owned land or relocating and replacing units on leased land.
- Demolishing unsafe and blighted housing structures
- Covering all eligible and reasonable costs including unit purchase, delivery, installation, permits, utility reconnection, steps, skirting, and tie-downs.
- Installing handicapped accessibility aids, such as grab bars and ramps;
- Reimbursing eligible costs for rehabilitating, reconstructing, or demolishing homes damaged by a qualifying disaster.
- Residential buyout and relocation (with redevelopment allowed).
- Payment of the non-federal share (match requirement) for residential housing improvements – including elevation and resiliency upgrades.

All repair and replacement activities will comply with all applicable HUD, State, County, and local building codes and requirements. Pasco County will define “not suitable for repair” (NSFR) in the program guidelines to determine eligibility for relocation and replacement assistance. Reimbursement costs must be associated with code-compliant activities performed prior to application for CDBG-DR assistance and properly documented by the homeowner and/or verified using program-approved cost estimation software. Repairs must be completed at the time of application to qualify for reimbursement.

Pasco County understands that homeowners are in various stages of their rebuilding process and has created a program that will assist eligible homeowners at different stages of their recovery efforts. The County will reimburse homeowners for eligible costs for the replacement or elevation of storm damaged homes subject to all eligibility criteria and availability of funds.

Pasco County is aware of private not-for-profit entities who leverage private sector resources to work with impacted homeowners and provide short-term bridge loans to repair damage to impacted homes. These organizations are familiar with CDBG-DR regulations and cross-cutting requirements (such as duplication of benefits and environmental regulations) and can provide assistance to help homeowners remain in their home and complete repairs quickly. Homeowners who choose to work with these entities may be eligible for reimbursement of their short-term bridge loans through the Housing for a Better Future Program.

In all cases, assistance is subject to meeting program eligibility requirements (such as verification of storm damage, income qualification, ownership, etc.) and the availability of funds.

Eligible Geographic Areas: Pasco County, FL has been designated a MID area.

Other Eligibility Criteria:

- Applicants must have owned the home as a primary resident at the time of the qualifying event.
- Damage must be tied back to one of the 2023-24 hurricanes.
- Eligible repairs would not exceed $35,000 per unit
- Household income must be at or below 80% of the Area Median Income
- If the applicant does not own the land (e.g. leased land in a mobile home park), the site must be able to accept a new unit (or the program may assist with relocating the applicant to another park or site in Pasco County). The park owner's cooperation or a lease for the lot may be required.
- The new unit provided will generally be of similar type/size (e.g. a single-wide or double-wide manufactured home) as appropriate for the household and allowable on the site, up to program cost limits. The applicant must agree to accept the replacement unit type offered.
- Property taxes, lot rent, and/or mortgage (as applicable) must be current or on a payment plan.
- The property must be a residential structure located in Pasco County. Homes in a Special Flood Hazard Area will be eligible only if they adhere to federal flood insurance and elevation requirements.
- Homeowners will be required to maintain flood insurance if the property is in a floodplain.

Duplication of benefits will be reviewed: Applicants must disclose any insurance, FEMA, SBA, or other assistance received for home repair, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements). After income eligibility, prioritization will be based on federal guidance.

For match activities (payment of non-federal share) associated with housing mitigation, eligibility criteria – listed in order of importance – include:

1. Applicants must demonstrate they have been deemed eligible and approved for in-kind programs with an outstanding cost-share match requirement. Additional eligibility requirements will be outlined in program policies and procedures.
2. Duplication of benefits will be reviewed: Applicants must disclose any leveraged funding or other duplicative benefits, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements). After national objective eligibility, prioritization will be based on federal guidance.

Maximum Award Amount: The maximum total award (not including activity delivery costs is $240,000. The following maximum amounts for reimbursement, repair and replacement awards apply:

- Reimbursement: $25,000
- Repair: $30,000
- Replacement: Single-wide manufactured home $163,000
- Double-wide manufactured home $225,000

The program may review and approve case-by-case exceptions to maximum total award and activity level award amounts when necessary to ensure cost reasonableness, comply with applicable federal accessibility requirements or floodplain standards, or provide a reasonable accommodation for a person with disabilities.

Maximum Income of Beneficiary: Household income must be at or below 80% of the Area Median Income for LMI or at or below 120% for UN households.

Mitigation Measures: While this program will not count towards Pasco County's mitigation set-aside, the program will replace homes in a manner that makes them more resilient to future disasters. Mitigation measures will be incorporated into construction activities where determined to be necessary and cost reasonable, in accordance with applicable HUD guidance and local code requirements, and program goals for increased resilience.

Reducing Impediments for Assistance: The Housing for a Better Future Program is available to all Pasco County homeowners who have been impacted by Hurricanes Idalia, Helene, or Milton. Intake for the program will be accessible to individuals with disabilities and communication assistance will be provided upon request. The program will follow its Limited English Proficiency policies. Pasco County will identify potential CDBG-DR beneficiaries through evaluation of data and will implement a targeted community outreach and engagement campaign to ensure broad program participation. All Pasco County residents will have access to the application process and the County will seek to streamline application processes to improve delivery. Program staff will be trained on program requirements and customer relations to improve the efficiency and effectiveness of the program's delivery. By coordinating with other federal, state and local agencies, the program will reduce impediments for assistance by coordinating resources and avoid duplication of benefits, streamlining the process for applicants who may be eligible for multiple types of assistance and leverage local knowledge and networks for more effective program delivery.

Grantee Housing Program Number Three

Program Title: Better Future New Construction – Affordable Housing Development

Amount of CDBG-DR Funds Allocated to this Program: $100,000,000

Eligible Activities:

- Acquisition of real property
- Acquisition/redevelopment of mobile home parks
- New Construction of Residential Structures (minimum number of units will be required per applicant)
- New construction of Rental Housing Units (1-4 units and 5 or more units)
- Disposition of real property acquired
- Provision of Homeownership assistance (such as downpayment and closing cost assistance)
- Demolition and clearance of blighted structures
- Residential and Commercial Buyout and relocation (with redevelopment allowed)

All activities are authorized under the Housing and Community Development Act (HCDA) Sections 105(a)(1), 105(a)(4), and 105(a)(7), 24 CFR 570.201 and 24 CFR 570.202, and applicable federal guidance, waiver, or alternative requirement. Only properties damaged by Hurricanes Idalia, Helene, and Milton are considered for eligibility.

Connection to Unmet Needs: Pasco County has been experiencing an affordable housing crisis with a deficit of nearly 36,000 units for those at 80% or below the Area Median Income. Hurricanes Idalia, Helene, and Milton caused widespread damage to housing, displacing thousands of residents. About 77.3% of households are owner-occupied, and 22.7% of Pasco's households are renters. Homeowners impacted by the storms face a significant challenge in rebuilding their homes with updated building codes and elevation requirements, Although the

percentage of renters is less than homeowners, challenges remain for this population. Renters forced out of unlivable units struggled to find alternate affordable housing in an already tight rental market. Many do not have contents insurance and landlords are slow to respond to repairs and refunds of deposits,

National Objective: Low- and Moderate-Income Housing (LMH) (24 CFR 570.208(a)(3) and Urgent Need (FR-6489-N-01 and 24 CFR 570.208[c]) up to 120 percent of AMI (for homeownership assistance).

Lead Agency and Distribution Model: Pasco County is the responsible entity (RE) assuming the authority for the decision making and completion of the environmental review per 24 CFR 58.4. Pasco County's Office of Disaster Recovery Resources is the lead agency for administering the New Construction – Affordable Owner-Occupied and Rental Housing Units. The County is procuring an implementation vendor to support this program. The County will issue a competitive Notice of Funding Availability (NOFA) or similar solicitation for proposals from qualified developers and/or non-profits to carry out specific housing projects. The distribution model is competitive and project-based: funds are awarded to projects that meet program criteria and can execute timely. If needed, the County may also directly procure a development partner or manage construction itself.

Program Description: This program addresses the situation where repairing existing homes alone is not sufficient to meet housing recovery needs. In Pasco County, the hurricanes not only damaged individual homes but also exacerbated an already tight housing market by displacing families and reducing the stock of habitable, affordable units. Some neighborhoods saw extensive destruction where entire homes (especially older ones or mobile homes) were wiped out. Additionally, even before the storms, Pasco faced shortages of affordable housing; the disasters intensified that shortage by driving up demand and costs for the remaining units. The New Construction Program is a forward-looking recovery strategy: it will create new affordable housing – both for homeowners and renters – to replace what was lost, provided much needed housing supply for LMI households, and ensure that low-income survivors have viable housing options rather than being permanently displaced.

Examples of what this program will do include:

- Building a new small subdivision of single-family homes or infill housing on scattered sites on vacant or acquired land with reduced flood risk for households particularly those whose previous homes (perhaps in a floodplain) were destroyed and or bought out.
- Acquiring newly built housing in reduced flood risk areas for sale to or rent by LMI households.
- Acquiring a mobile home park flooded out by the hurricanes and redeveloping the property with sustainable and wind resistant modular or innovative affordable housing.
- Household income must be at or below 80% of the Area Median Income for LMI or at or below 120% for UN households.
- Provide homeownership assistance (such as but not limited to downpayment and/or closing cost assistance) to eligible homebuyers.
- Residential Buyout and relocation of households in substantially damaged/destroyed housing.
- Constructing new multifamily rental housing units in reduced flood risk areas.
- Partnering with a non-profit organization to build affordable housing that will be sold to eligible LMI families who had been renting and are burdened by increased housing costs.

This program also helps deconcentrate risk: if certain high-risk areas (like repetitive flood zones) are being depopulated as a result of recent disasters, new housing can be built in lower-risk areas, reducing future disaster exposure for those residents – aligning with Pasco Better Future and mitigation goals.

From an economic standpoint, constructing new housing also stimulates the local economy and creates construction jobs, contributing to overall recovery. Our main metric for success is providing safe, affordable homes for people who would otherwise struggle to find a place to live in Pasco's post-disaster housing market.

To expand housing opportunities for Pasco's workforce and vulnerable populations, the County will implement strategic land acquisition and community development initiatives. These efforts will support the development of affordable homeownership opportunities through models such as community land trusts (CLTs). Pasco will prioritize the acquisition and retention of land to increase the supply of new housing types, including single-family homes, townhomes, duplexes, and other "gentle density" infill housing formats that align with the County's housing needs.

In addition, the County will evaluate currently approved and permitted market-rate developments located within HUD-approved MID areas. Where feasible, the County will establish agreements with developers to acquire a portion of land or units within these developments to serve low- and moderate-income (LMI) households, ensuring that affordable housing is interspersed within mixed-income and market-rate communities.
The County will coordinate with Planning Program initiatives to support the development of demonstration and pilot projects that integrate resilient, cost-effective, and innovative construction methods.

Eligible Geographic Areas: Pasco County, FL has been designated a MID area.

Other Eligibility Criteria: Eligible applicants to receive funding under this program (for the purpose of carrying out a project) include non-profit housing developers, for-profit developers, local public housing authorities, or other entities with capacity to construct housing. These partners will apply to develop specific housing units benefiting the target population. Eligibility criteria – listed in order of importance – include:

- Disaster Tie-Back: Developers must show how the project addresses an unmet disaster-related housing need.
- Affordability Commitments: Rental projects will be required to maintain affordability depending on the project and investment and detailed in the county's housing guidelines. Affordability will be imposed by a deed restriction, a covenant running with the land, an agreement restricting the use of the property, or other mechanisms approved by HUD and must give the grantee or recipient the right to require specific performance (except that the grantee may provide that the affordability restrictions may terminate upon foreclosure or transfer in lieu of foreclosure). Compliance will be monitored via annual reports on tenant incomes and rents. For ownership, the buyers must be income-eligible at purchase.
- Project Feasibility: Proposed projects must have a feasible development plan, including a realistic budget, timeline, and (for rentals) an operating pro forma demonstrating financial viability with affordable rents. The program will not fully fund large projects alone; developers should leverage other funding (LIHTC, private financing, insurance proceeds if rebuilding an asset, etc.) where possible. CDBG-DR will fill the gap to achieve the affordability or to cover storm-related added costs. Each project will undergo underwriting to ensure the amount of CDBG-DR award is cost-reasonable.
- Timing and Capacity to Proceed: Since CDBG-DR funds have expenditure deadlines, preference goes to "shovel-ready" or quickly actionable projects. Developers who already have site control (own or have an agreement on the land) and at least preliminary plans and zoning will be favored over very conceptual ideas.
- Eligible Developers: The County will vet participating developers for capacity and experience in delivering affordable housing. Developers must be in good standing (no debarments, etc.) and able to comply with federal requirements (Davis-Bacon labor standards for projects with 8+ units, Section 3 economic opportunities for low-income persons, etc.).

- Beneficiary Selection: Homeownership units will be marketed to income-eligible households, with a preference likely given to households affected by the storms (e.g., people who lost their prior homes or were renters displaced by a qualifying event). Buyers will be required to complete homebuyer education. Rental projects will follow HUD rental housing requirements as detailed in the county's housing guidelines.
- Compliance with Uniform Relocation Act (URA): If the project involves acquiring property with existing occupants (or businesses) to demolish and rebuild housing, URA requirements for notice and relocation assistance apply.

Duplication of benefits will be reviewed: Applicants must disclose any insurance, FEMA, SBA, or other assistance received for home repair, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements). After income eligibility, prioritization will be based on federal guidance.

Maximum Amount of Assistance Per Project: The maximum total award is $100,000,000. The total amount awarded to one or more subrecipients will be dependent on the service being provided - subject to assessment of cost-reasonableness.

Maximum Income of Beneficiary: For owner-occupied units, homebuyers will be LMI (≤80% AMI at purchase). For rental developments, at least 51% of the units will be restricted to LMI households at affordable rents.

The County anticipates ensuring that 100% of CDBG-DR–assisted units meet the LMI benefit in most projects (with any non-LMI units possibly financed by other sources). If mixed-income developments are pursued, CDBG-DR funds will only pay for the proportion of units that are LMI-restricted. The primary objective is to expand affordable housing for LMI residents, so the LMH national objective will be the guiding criterion.

Mitigation Measures: While this program will not count towards Pasco County's mitigation set-aside, the program will newly construct homes in a manner that makes them more resilient to future disasters. Mitigation measures will be incorporated into construction activities where determined to be necessary and cost reasonable, in accordance with applicable HUD guidance and local code requirements, and program goals for increased resilience.

Reducing Impediments for Assistance: This new construction program will involve multiple stakeholders (including homeowners, renters, and developers), and the County will take steps to ensure that low-income households can access the housing produced. Intake for the program will be accessible to individuals with disabilities and communication assistance will be provided upon request. The program will follow its Limited English Proficiency policies. Pasco County will identify potential CDBG-DR beneficiaries through evaluation of data and will implement a targeted community outreach and engagement campaign to ensure broad program participation. The County will seek to streamline application processes through its program provider to improve delivery. Program and housing management staff will be trained on program requirements and customer relations to improve the efficiency and effectiveness of the program's delivery. By coordinating with other federal, state and local agencies, the program will leverage local knowledge and networks for more effective program delivery.

Infrastructure

Infrastructure Programs Overview

Table 25: Grantee Infrastructure Programs Overview

Eligible Cost Category	CDBG-DR Allocation Amount	% of CDBG-DR Allocation for LMI Benefit
Infrastructure Program Number One	$100,022,800	60%
Infrastructure Program Number Two	$30,000,000	60%
Infrastructure Program Total:	**$130,022,800**	**60%**

Grantee Infrastructure Program Number One

Program Title: Critical Infrastructure Resilience Program

Amount of CDBG-DR Funds Allocated to this Program: $100,022,800

Eligible Activities:

- Acquisition of Real Property
- Public Facilities and Infrastructure Improvements
- Clearance, Demolition, Rehabilitation, and Reconstruction of Publicly Owned Buildings
- Payment of Non-Federal Share

All activities are authorized under the Housing and Community Development Act (HCDA) Sections 105(a)(1), 105(a)(2), 105(a)(4), 105(a)(14), and 105(a)(16), 24 CFR 570.201 and 24 CFR 570.202, and applicable federal guidance, waiver, or alternative requirement. Only properties damaged by or failed to function due to Hurricanes Idalia, Helene, and Milton are considered for eligibility.

National Objective Low- and Moderate-Income Area Benefit (LMA) (24 CFR 570.208(a)(1); Urgent Need (FR-6489-N-01 and 24 CFR 570.208[c])

Lead Agency and Distribution Model: Pasco County is the responsible entity (RE) assuming the authority for decision-making and completion of the environmental review per 24 CFR 58.4, as applicable. Pasco County's Office of Disaster Recovery Resources will administer the Critical Infrastructure Program, along with an implementation vendor, by selecting projects through a 1) direct allocation and 2) competitive process. In the direct allocation process, Pasco County will review county projects and select projects that meet County goals and objective as well as are eligible CDBG-DR activities. In the competitive process, Pasco County will solicit proposals for infrastructure projects from eligible entities, which include County departments and city governments in Pasco and select projects based on solicitation criteria and priorities.

Program Description: The Critical Infrastructure Program will fund the restoration and strengthening of key infrastructure systems that were damaged or stressed/failed to function by Hurricanes Idalia, Helene, and Milton. Typical projects under this program may include:

- Road repairs – fixing washouts, repaving roads damaged by debris removal equipment or floodwater, and repairing structures impacted by debris.

- Stormwater management projects are a high priority – for instance, replacing undersized culverts with larger ones, constructing new retention ponds or enlarging existing ones in neighborhoods that experienced severe flooding, dredging, and upgrading drainage pump stations with higher capacity pumps.
- Water and wastewater facilities that suffered damage or loss of function (perhaps a sewer lift station that was inundated, or water treatment components that lost power) will be rehabilitated and protected (e.g., elevating electrical controls, adding backup power).
- The program may also fund power resilience improvements for critical infrastructure, such as installing backup generators at key intersections (for traffic lights) or utility plants, especially where power outages from the storms caused cascading issues.

CDBG-DR funds may be used to satisfy a match requirement, share, or contribution to other federal programs when carrying out an eligible activity. Accordingly, Pasco County may utilize CDBG-DR funds to meet the local cost-share requirements FEMA Public Assistance (PA) and other federally assisted projects related to Hurricanes Idalia, Helene, or Milton. This ensures that vital infrastructure recovery projects are not stalled due to local matching fund constraints, accelerating repairs and strengthening resilience.

This program will coordinate with other funding sources (FEMA Public Assistance, insurance, state funds) to ensure no duplication. CDBG-DR will fill gaps and cover improvements that those sources might not fund. By focusing on critical infrastructure, the program targets those systems that are essential for public safety, health, and overall function of the community.

Eligible Geographic Areas: Pasco County, FL has been designated a MID area.

Other Eligibility Criteria Eligible units of local government or other public entities applicants will apply to repair, reconstruct, or construct critical infrastructure benefiting the County's target population. Eligibility criteria – listed in order of importance – include:

- Disaster Impact Documentation: Each project must have documentation of how it addresses damage or impact from Hurricanes Idalia, Helene, and/or Milton.
- Benefit to LMI or Urgent Community Need: Ideally, projects will be selected that benefit primarily LMI populations or meet an urgent need. The County may use scoring criteria that favors projects in LMI communities or critical facilities that serve vulnerable populations.
- Public Ownership: The infrastructure or facility to be assisted must be publicly owned (by Pasco County, a city, or a public district) or a public service infrastructure
- Environmental and Permitting Feasibility: Projects will be evaluated for feasibility – for example, any large-scale infrastructure project will need to pass environmental review (NEPA) and receive necessary permits. The program will prioritize "shovel-ready" or at least well-defined projects that can be started within a reasonable time.
- Coordination and Non-Duplication: If a project has received other federal or state funding (e.g., FEMA PA repair funds), CDBG-DR will only fund the enhancement portion or unmet need portion. Each project must provide information on any other funds available.
- Consistency with Existing Plans: Projects should be consistent with local and regional plans (e.g., Local Mitigation Strategy, capital improvement plans, comprehensive plan). This ensures that CDBG-DR funds reinforce planned recovery and mitigation efforts
- Maintenance Commitment: The local agency responsible for the infrastructure must commit to maintain the improvements after completion.

Duplication of benefits will be reviewed: Applicants must disclose any leveraged funding or other duplicative benefits, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements). After national objective eligibility, prioritization will be based on federal guidance.

Maximum Amount of Assistance Per Subrecipient: The maximum total award is $100,022,800. The total amount awarded to one or more subrecipients will be dependent on the service being provided - subject to assessment of cost-reasonableness.

Maximum Income of Subrecipient: N/A

Mitigation Measures: Critical infrastructure projects will be conducted in a manner that makes them more resilient to future disasters. Mitigation measures will be incorporated into construction activities where determined to be necessary and cost-reasonable, in accordance with applicable HUD guidance and local code requirements, and program goals for increased resilience

Reducing Impediments for Assistance: The Critical Infrastructure Program is available to assist infrastructure that has been impacted by Hurricanes Idalia, Helene or Milton. The Program will enhance access to disaster risk reduction resources for communities vulnerable to hazards by promoting community-driven approaches to new investments in infrastructure. Pasco County will identify potential CDBG-DR subrecipients through evaluation of data and will implement a targeted community outreach and engagement campaign to ensure broad program participation. All eligible entities will have access to the application process.

Grantee Infrastructure Program Number Two

Program Title: Public Facilities Program

Amount of CDBG-DR Funds Allocated to this Program: $30,000,000

Eligible Activity(ies):

- Acquisition of Real Property
- Public Facilities including but not limited to community centers, emergency shelters, transitional housing and Improvements
- Payment of Non-Federal Share
- Clearance, Demolition, Rehabilitation, and Reconstruction of Buildings

All activities are authorized under the Housing and Community Development Act (HCDA) Sections 105(a)(1), 105(a)(2), 105(a)(4), 105(a)(14), and 105(a)(16), 24 CFR 570.201 and 24 CFR 570.202, and applicable federal guidance, waiver, or alternative requirement. Only properties damaged by Hurricanes Idalia, Helene, and Milton are considered for eligibility.

National Objective: Low- and Moderate-Income Area Benefit (LMA) (24 CFR 570.208(a)(1); Urgent Need (FR-6489-N-01 and 24 CFR 570.208[c])

Lead Agency and Distribution Model: Pasco County is the responsible entity (RE) assuming the authority for decision-making and completion of the environmental review per 24 CFR 58.4, as applicable. Pasco County's Office of Disaster Recovery Resources will administer the Public Facilities, along with an implementation vendor, by selecting projects through a 1) direct allocation and 2) competitive process. In the direct allocation process, Pasco County will review county projects and select projects that meet County goals and objective as well as are

eligible CDBG-DR activities. In the competitive process, Pasco County will solicit proposals for infrastructure projects from eligible entities, which include County departments and city governments in Pasco and select projects based on solicitation criteria and priorities.

Program Description: The Public Facilities Program recognizes that community recovery is not just about homes and roads, but also about the places where people gather, receive services, and obtain help. Hurricanes Helene and Milton disrupted many of these facilities: for instance, some neighborhood community centers and parks were used for emergency response and then found to be damaged; some fire/rescue stations had flooding that ruined equipment; a public clinic may have experienced roof damage that forced it to relocate temporarily. These damages can strain the recovery by limiting access to services (like a closed library meaning students have nowhere for after-school programs, etc.). This program will restore those public facilities to full function and correct any failure by the facility to function at full operations.

CDBG-DR funds may be used to satisfy a match requirement, share, or contribution to other federal programs when carrying out an eligible activity. Accordingly, Pasco County may utilize CDBG-DR funds to meet the local cost-share requirements FEMA Public Assistance (PA) and other federally assisted projects related to Hurricanes Idalia, Helene, or Milton. This ensures that vital public facility recovery projects are not stalled due to local matching fund constraints, accelerating repairs and strengthening resilience.

This program will coordinate with other funding sources (e.g., FEMA Public Assistance, insurance, state funds, etc.) to ensure no duplication. CDBG-DR will fill gaps and cover improvements that those sources might not fund. This Program will target public facilities that are essential for public safety, health, and overall function of the community.

Eligible Geographic Areas: Pasco County, FL has been designated a MID area.

Other Eligibility Criteria: Eligible applicants (units of local government or other public entities, non-profit, institutional) will apply to repair, reconstruct, or construct public facilities benefiting the County's target population. Eligibility criteria – listed in order of importance – include:

- Disaster Impact Documentation: Each project must have documentation of how it addresses damage or impact from Hurricanes Idalia, Helene, and/or Milton.
- Public Use: The facility must be open to the general public or a specific segment of the public.
- Benefit to LMI or Urgent Community Need: Ideally, projects will be selected that benefit primarily LMI populations or meet an urgent need. The County may use scoring criteria that favors projects in LMI communities or critical facilities that serve vulnerable populations.
- Environmental and Permitting Feasibility: Projects will be evaluated for feasibility – for example, any large-scale infrastructure project will need to pass environmental review (NEPA) and receive necessary permits. The program will prioritize "shovel-ready" or at least well-defined projects that can be started within a reasonable time.
- Capacity for Completion: For non-County subrecipients, an eligibility factor is capacity – the entity must demonstrate it can properly manage a construction project in accordance with federal requirements or partner with the County to do so. The County might provide technical support, but if an entity is extremely limited in capacity, the County may directly manage the project on their behalf to ensure timely completion.

- Coordination and Non-Duplication: If a project has received other federal or state funding (e.g., FEMA PA repair funds), CDBG-DR will only fund the enhancement portion or unmet need portion. Each project must provide information on any other funds available.
- Consistency with Existing Plans: Projects should be consistent with local and regional plans (e.g., Local Mitigation Strategy, capital improvement plans, comprehensive plan). This ensures that CDBG-DR funds reinforce planned recovery and mitigation efforts.
- Maintenance Commitment: The local agency responsible for the infrastructure must commit to maintain the improvements after completion.

Duplication of benefits will be reviewed: Applicants must disclose any leveraged funding or other duplicative benefits, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements). After national objective eligibility, prioritization will be based on federal guidance.

Maximum Amount of Assistance Per Project: The maximum total award is $30,000,000. The total amount awarded to one or more subrecipients will be dependent on the service being provided - subject to assessment of cost-reasonableness.

Maximum Income of Subrecipient: N/A

Mitigation Measures: Public facility projects will be conducted in a manner that makes them more resilient to future disasters. Mitigation measures will be incorporated into construction activities where determined to be necessary and cost-reasonable, in accordance with applicable HUD guidance and local code requirements, and program goals for increased resilience.

Reducing Impediments for Assistance: The Public Facilities Program is available to assist facilities that have been impacted by Hurricanes Idalia, Helene, or Milton. The Program will enhance access to disaster risk reduction resources for communities vulnerable to hazards by promoting community-driven approaches to new investments in infrastructure. Pasco County will identify potential CDBG-DR subrecipients through evaluation of data and will implement a targeted community outreach and engagement campaign to ensure broad program participation. All eligible entities will have access to the application process.

Economic Revitalization

Economic Revitalization Programs Overview

Table 26: Grantee Economic Revitalization Programs Overview

Eligible Cost Category	CDBG-DR Allocation Amount	% of CDBG-DR Allocation for LMI Benefit
Economic Revitalization Program Number One	$25,000,000	70%
Economic Revitalization Program Total:	**$25,000,000**	**70%**

Grantee Economic Revitalization Program Number One

Program Title: Small Business and Non-Profit Recovery Program

Amount of CDBG-DR Funds Allocated to this Program: 25,000,000

Eligible Activity(ies):

- Economic Development Assistance to For-Profit Businesses, Micro-businesses and not for-profits
- Reimbursement of Disaster Recovery Expenses for Business and not-for-profits
- Public Facilities and Infrastructure Improvements
- Job Training

All activities are authorized under the Housing and Community Development Act (HCDA) Sections 105(a)(17) and 105(a)(22), 24 CFR 570.203, and applicable federal guidance, waiver, or alternative requirement. Only businesses impacted by Hurricanes Idalia, Helene, and Milton are considered for eligibility.

National Objective: Low- and Moderate-Income Area Benefit (LMA) (24 CFR 570.208(a)(1); Low- and Moderate-Income Jobs (LMJ) 24 CFR 570.208 (a)(4) and FR-6489- N-01 III.d.7(b) and (c); Urgent Need (FR-6489-N-01 and 24 CFR 570.208[c]); Elimination of Slum and Blight (24 CFR 570.208 (b)).

Lead Agency and Distribution Model: Pasco County is the responsible entity (RE) assuming the authority for the decision making and completion of the environmental review per 24 CFR 58.4, as applicable. Pasco County's Office of Disaster Recovery Resources will administer the Small Business Recovery Program and procure an implementation vendor and together will issue Request for Applications from non-profits and for-profit entities.

Program Description: After the hurricanes, many local businesses and non-profits, especially small and family-owned establishments, have faced challenges. Physical damages (flooded storefronts, wind-damaged signage and inventory loss from power outages) combined with downtime (weeks or months of closure) put these businesses at risk of permanent closure. While some received insurance payouts or SBA disaster loans, others did not qualify or found those sources insufficient. The Small Business Recovery Program will provide critical financial relief to bridge these gaps, ensuring that disaster-impacted businesses can get back on their feet. Funding can also be used to repair or replace structures of the business, By infusing capital for key expenses and repairs, the program helps businesses reopen faster or stay open, preserving local jobs and the vitality of commercial corridors. Direct assistance as grants or loans, to small businesses impacted by Hurricanes Helene and Milton, to enable them to recover, reopen, and retain or create jobs. Forms of assistance and eligible uses of funds may include:

- Grants or Forgivable Loans for Working Capital: Providing funds to cover operating expenses during the recovery period – e.g. rent, payroll, utilities, and other costs that the business struggles to pay due to disaster-related revenue loss.
- Reimbursement for eligible expenses incurred as a result of Hurricanes Idalia, Helene, and/or Milton.
- Machinery and Equipment: Purchasing new equipment to replace disaster-damaged equipment, or even to upgrade to more resilient equipment if appropriate.
- Replacement of Inventory and Supplies: The program can help finance the restocking of lost inventory essential for the business to resume operations.
- Repairs of physical damages to business locations
- Improvements of infrastructure and public facilities that support businesses.
- Job Training
- Technical Assistance related to recovery: Though primarily a grant program, the County may also offer technical support like financial counseling, assistance with developing a recovery plan, or navigating insurance/SBA processes.

Eligible Geographic Areas: Pasco County, FL has been designated a MID area.

Other Eligibility Criteria: Eligible applicants will apply to repair, reconstruct, or construct their small business benefiting the County's target business population. Eligibility criteria – listed in order of importance – include:

- Disaster impact documentation: Applicants must demonstrate physical damage to assets or significant economic injury directly caused by Hurricanes Idalia, Helene, and/or Milton.
- Commitment to Retain/Create Jobs: Applicants must be able to retain or rehire their employees (or add new ones) as a result of the assistance. This will be formalized by agreement. If a business had to lay off staff post-storm, it should detail how the grant will enable re-staffing.
- Small businesses must meet all established eligibility criteria, as established in program policies and procedures.
- Good Standing: Applicants should have been in operation prior to the qualifying disaster and intend to continue operations. It should also be in good standing with the County and State. We may exclude businesses with delinquent taxes or serious legal issues.

Duplication of benefits will be reviewed: Applicants must disclose any leveraged funding or other duplicative benefits, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements). After national objective eligibility, prioritization will be based on federal guidance.

Maximum Amount of Assistance Per Beneficiary: The maximum total award is $25,000,000. The total amount awarded to one or more subrecipients will be dependent on the service being provided - subject to assessment of cost-reasonableness.

Maximum Income of Beneficiary: N/A

Mitigation Measures: Small business recovery projects will be conducted in a manner that makes them more resilient to future disasters. Mitigation measures will be incorporated into construction activities where determined to be necessary and cost reasonable, in accordance with applicable HUD guidance and local code requirements, and program goals for increased resilience.

Reducing Impediments for Assistance: This program will assist small businesses impacted by Hurricanes Idalia, Helene, or Milton. Intake for the program will be accessible to individuals with disabilities and communication assistance will be provided upon request. The program will follow its Limited English Proficiency policies. Pasco County will identify potential CDBG-DR beneficiaries through evaluation of data and will implement a targeted community outreach and engagement campaign to ensure broad program participation. All eligible entities will have access to the application process, and reasonable efforts will be made to ensure access to eligible beneficiaries of CDBG-DR funded public service programs. Program staff will be trained on program requirements and customer relations to improve the efficiency and effectiveness of the program's delivery. By coordinating with other federal, state and local agencies, the program will reduce impediments for assistance by coordinating resources and avoid duplication of benefits, streamlining the process for applicants who may be eligible for multiple types of assistance and leverage local knowledge and networks for more effective program delivery.

Public Services

Public Services Programs Overview

Table 27: Grantee Public Services Programs Overview

Eligible Cost Category	CDBG-DR Allocation Amount	% of CDBG-DR Allocation for LMI Benefit	Is this Program Exempt from the 15% Public Service Cap?
Public Services Program Number One	$10,000,000	100%	No
Public Services Program Total:	$10,000,000	100%	No

Grantee Public Services Program Number One

Program Title: Public Services Program

Amount of CDBG-DR Funds Allocated to this Program: $10,000,000

Eligible Activities:

- Public Services
- Special activities by Community-Based Development Organizations (CBDOs)

All activities are authorized under the Housing and Community Development Act (HCDA) Sections 105(a)(8), 105(a)(14), and 105(a)(15), 24 CFR 570.201 and 24 CFR 570.204, and applicable federal guidance, waiver, or alternative requirement.

National Objective: Low- and Moderate-Income Area Benefit (LMA) (24 CFR 570.208(a)(1); Low- and Moderate-Income Jobs (LMJ) 24 CFR 570.208 (a)(4) and FR-6489- N-01 III.d.7(b) and (c); Limited Clientele (LMC) 24 CFR 570.208(a)(2); Urgent Need (FR-6489-N-01 and 24 CFR 570.208[c]); Elimination of Slum and Blight (24 CFR 570.208 (b)).

Lead Agency and Distribution Model: Pasco County is the responsible entity (RE) assuming the authority for decision making. Pasco County's Office of Disaster Recovery Resources will administer Public Services Program and may procure an implementation vendor. Projects will be selected through a competitive process. The County will issue a Request for Proposals (RFP) or NOFA detailing the program's scope and inviting submissions of project applications. Each proposal must describe the public service project proposed, the population served, and funding needed.

Once projects are selected, the County will enter into subrecipient agreements or inter-local agreements with the entity responsible for the project to carry it out. Agreements will outline the scope, budget, schedule, and federal compliance requirements (such as procurement, labor standards, environmental review, etc.). The County will monitor project progress and compliance. All activities are subject to HUD approval and must undergo environmental review and receive clearance before construction begins.

Program Description: The County's Public Services Program is designed to meet the human recovery needs that go beyond rebuilding physical structures. After the hurricanes, many Pasco County residents have faced challenges such as displacement, unemployment, physical and mental health strains, and bureaucratic hurdles

in getting assistance. This program will provide crucial services to help individuals and families navigate the recovery process and rebuild their lives. By addressing these needs, we ensure that the recovery is comprehensive. Key components of the program may include:

- Case Management and Navigation Services: Many residents and families need personalized help to connect them with resources for housing, employment, and financial assistance.
- Housing Counseling and Relocation Assistance: With many homes damaged, some residents and families have to find new permanent housing or deal with landlord-tenant issues. Some households chose to purchase a home and need Post Purchase Counseling.
- Financial Literacy and management– Many of our seniors and those with disabilities lost their homes and all their belongings. Special needs populations need help in how to recover from these disasters and how to manage funds going forward.
- Homeless Services and Housing – Those experiencing homelessness lost encampments, vehicles, documentation in the storms and need outreach, housing navigation and stabilization services to recover.
- Legal Services: Disasters often lead to legal problems for survivors: insurance claim denials, contractor fraud or disputes, title issues, landlord-tenant, and replacement of lost documentation.
- Health and Mental Health Services: Disasters take a toll on physical and mental health. The program will fund counseling services, such as community-based trauma counseling, support groups, or school-based mental health programs in affected areas.
- Employment and Financial Recovery Services: Many people lost income during and after the storms – including businesses that closed, work hours that were cut, and jobs that were eliminated. The program can provide targeted workforce development such as short-term job training or re-training for those whose jobs may not return. It can also assist with supportive functions such as childcare as persons work to find employment or training.
- Food Security and Basic Needs Assistance: In the wake of the hurricanes, some areas might have struggled with access to food or other essentials. While immediate disaster feeding is often covered by charities and FEMA in early phases, longer-term food insecurity can persist if incomes are reduced.

In implementing these components, the Public Services Program will remain flexible, adjusting offerings as needs evolve. Pasco County will coordinate closely with FEMA and other disaster case management programs to complement, not duplicate, their efforts. Our local non-profits often continue where FEMA leaves off, so CDBG-DR can fund that continuity.

Eligible Geographic Areas: Pasco County, FL has been designated a MID area.

Other Eligibility Criteria: Eligible applicants will apply to repair, reconstruct, or construct critical infrastructure benefiting the County's target population. Eligibility criteria – listed in order of importance – include:

- Non-profits, institutional, and governmental providers must meet all established eligibility criteria, as established in program policies and procedures.
- Operational Documentation: Entities must have been operational during one of the qualifying events (Hurricanes Idalia, Helene, and/or Milton) and must currently be operational or demonstrate ability to open and expand operations upon receiving CDBG-DR assistance.
- Consistency with existing plans: Projects should be consistent with local and regional plans (e.g., Local Mitigation Strategy, comprehensive plan). This ensures that CDBG-DR funds reinforce planned recovery and mitigation efforts.

- Coordination and non-duplication: If a project has received other federal or state funding CDBG-DR will only fund the enhancement portion or unmet need portion. Each project must provide information on any other funds available.
- Benefit to LMI or urgent community need: Ideally, projects will be selected that benefit primarily LMI populations or meet an urgent need. The County may use scoring criteria that favors projects in LMI communities or critical facilities that serve vulnerable populations.

Participants in the program must also comply with basic requirements of each service, as established in program policies and procedures. Criteria will be clearly communicated by providers. Duplication of benefits will be reviewed: Applicants must disclose any leveraged funding or other duplicative benefits, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements). After national objective eligibility, prioritization will be based on federal guidance.

Maximum Amount of Assistance Per Subrecipient: The maximum total award is $10,000,000. The total amount awarded to one or more subrecipients will be dependent on the service being provided - subject to assessment of cost-reasonableness.

Maximum Income of Subrecipient: N/A

Mitigation Measures: The provision of public services is intended to address the continuing unmet and exacerbated need caused by multiple disasters. However, access to these services is intended to provide residents with the tools necessary to better prepare for future disasters.

Reducing Impediments for Assistance: This program will assist public services impacted by Hurricanes Idalia, Helene, or Milton. Intake for the projects will be required to be accessible to individuals with disabilities and communication assistance will be provided upon request. The program and its funded projects will follow its Limited English Proficiency policies. Pasco County will identify potential CDBG-DR subrecipients through evaluation of data and will implement a targeted community outreach and engagement campaign to ensure broad program participation. All eligible entities will have access to the application process, and reasonable efforts will be made to ensure access to eligible subrecipients of CDBG-DR funded public service programs. Project staff will be trained on program requirements and customer relations to improve the efficiency and effectiveness of the program's delivery. By coordinating with other federal, state and local agencies, the program will reduce impediments for assistance by coordinating resources and avoid duplication of benefits, streamlining the process for applicants who may be eligible for multiple types of assistance and leverage local knowledge and networks for more effective program delivery.

CDBG-DR Mitigation Set-Aside

CDBG-DR Mitigation Set-Aside Programs Overview

Table 28: Grantee CDBG-DR Mitigation Set-Aside Programs Overview

Eligible Cost Category	CDBG-DR Mitigation Set Aside Allocation Amount	% of CDBG-DR Allocation for LMI Benefit	Does this Program have tie back to the disaster?
Total:	**$76,396,000**	**60%**	No

Grantee CDBG-DR Mitigation Set-Aside Program Number One

Program Title: Better Future Match and Mitigation Program

Amount of CDBG-DR Funds Allocated to this Program: $76,396,000

Eligible Activities:

- Acquisition of Real Property
- Public Facilities and Infrastructure Improvements
- Clearance, Demolition, Rehabilitation, and Reconstruction of Buildings
- Payment of Non-Federal Share

All activities are authorized under the Housing and Community Development Act (HCDA) Sections 105(a)(1), 105(a)(2), 105(a)(4), 105(a)(9), 105(a)(14), and 105(a)(16), 24 CFR 570.201 and 24 CFR 570.202, and applicable federal guidance, waiver, or alternative requirement. Only properties damaged by Hurricanes Idalia, Helene, and Milton are considered for eligibility.

National Objective: Low- and Moderate-Income Area Benefit (LMA) (24 CFR 570.208(a)(1); Urgent Need (FR-6489-N-01 and 24 CFR 570.208[c]); Elimination of Slum and Blight (24 CFR 570.208 (b)).

Lead Agency and Distribution Model: Pasco County is the responsible entity (RE) assuming the authority for the decision making and completion of the environmental review per 24 CFR 58.4, as applicable. Pasco County's Office of Disaster Recovery Resources will administer the Local Match and Mitigation Program along with an implementation vendor. Matching grants for CDBG-DR eligible activities that have been awarded by an eligible federal agency (FEMA, USDA, USACE, or FHWA) will be requested through an online application form available to eligible applicants.

Mitigation funding for Critical Infrastructures and Public Facilities will be available through a direct allocation and competitive processes similar to Infrastructure Programs One and Two, excluding disaster tie-back requirements.

Program Description: This program provides funding to address unmet housing, infrastructure, and public facilities and mitigation needs arising from Hurricanes Idalia, Helene, and Milton. It is designed to leverage and supplement other disaster recovery funds by providing the required non-federal match (cost share) for federally funded recovery and mitigation projects, and by funding additional mitigation investments in critical public assets. As authorized by the Housing and Community Development Act (HCDA) and HUD's CDBG-DR rules, CDBG-DR funds may be used to satisfy a match requirement, share, or contribution to other federal programs when carrying out an eligible activity. Accordingly, Pasco County's Non-Federal Match and Mitigation Program will utilize CDBG-DR funds to meet the local cost-share requirements FEMA Public Assistance (PA), FEMA Hazard Mitigation Grant Program (HMGP), and other projects related to Hurricanes Idalia, Helene, or Milton. This ensures that vital infrastructure and public facility recovery projects are not stalled due to local matching fund constraints, accelerating repairs and strengthening resilience.

In addition to match funding, the program will finance stand-alone mitigation projects for critical infrastructure and public facilities that address vulnerabilities to current and future risks. Hurricanes Idalia, Helene, and Milton in 2024 caused severe wind, tornado, and flood (storm surge) damage in Pasco County, impacting roads, utilities, water/wastewater systems, public buildings, emergency services facilities, and other key assets. Significant unmet needs remain in the aftermath of these storms, including needs for improved stormwater management, flood control structures, hardened emergency facilities, and other measures to protect against future similar events. By investing in infrastructure improvements and hazard mitigation measures, the program will reduce future disaster risks and enhance the resilience of these services in Pasco County.

For housing activities, match funding may be available to applicants eligible and approved for funding through other State programs with a cost-share match requirement (e.g., Elevate Florida, FDEM's Residential Mitigation Program).

Eligible Geographic Areas: Pasco County, FL has been designated a MID area.

Other Eligibility Criteria: As described in FR-6489-N-01, activities funded by additional mitigation funds do not require such a ''tie-back'' to the specific qualified disaster that has served as the basis for the grantee's allocation. Activities funded under this program will (a) meet the definition of mitigation activities; (b) address the current and future risks as identified in the grantee's mitigation needs assessment in the MID areas; (c) be CDBG-eligible activities under title I of the HCDA or otherwise eligible pursuant to a waiver or alternative requirement; and (d) meet a national objective.

For activities relating to critical infrastructure and public facilities, eligibility criteria – listed in order of importance – include:

1. Eligible applicants are units of local government or other public entities within Pasco County that are implementing recovery or mitigation projects tied to Hurricanes Idalia, Helene, and/or Milton. Applicants must provide documentation of either:
   a. A critical infrastructure/public facility mitigation project addressing a current or future risk; or
   b. A FEMA PA project, FEMA HMGP project, or other project awarded for the disaster that requires a non-federal cost share.
2. Duplication of benefits will be reviewed: Applicants must disclose any leveraged funding or other duplicative benefits, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements). After national objective eligibility, prioritization will be based on federal guidance.
3. Projects must align with existing mitigation and long-term recovery plans (e.g., Local Mitigation Strategy and Comprehensive Plan).

For activities associated with housing mitigation, eligibility criteria – listed in order of importance – include:

3. Applicants must demonstrate they have been deemed eligible and approved for in-kind programs with an outstanding cost-share match requirement. Additional eligibility requirements will be outlined in program policies and procedures.
4. Duplication of benefits will be reviewed: Applicants must disclose any leveraged funding or other duplicative benefits, and any duplicative funds must be appropriately deducted from the CDBG-DR award (per Stafford Act and HUD requirements). After national objective eligibility, prioritization will be based on federal guidance.

Maximum Amount of Assistance Per Subrecipient: The maximum total award is $76,396,000. The total amount awarded to one or more subrecipients will be dependent on the service being provided. Match awards may not exceed the total calculated non-federal share amount.

Maximum Income of Subrecipient: N/A

Mitigation Measures: This program will count 100% toward the CDBG-DR Mitigation Set-Aside. All funds allocated are dedicated to eligible mitigation activities that reduce future disaster risks, thereby satisfying HUD's requirement to spend a specified portion of the grant on mitigation. Mitigation measures will be incorporated into construction activities where determined to be necessary and cost reasonable, in accordance with applicable HUD guidance and local code requirements, and program goals for increased resilience.

Reducing Impediments for Assistance: This program will assist projects, infrastructure, and facilities either impacted by Hurricanes Idalia, Helene or Milton or vulnerable to current and future risks. Pasco County will identify potential CDBG-DR subrecipients through evaluation of data and will implement a targeted community outreach and engagement campaign – including other County offices and local municipalities - to ensure broad program participation. The County will inform the prospective subrecipients that CDBG-DR match funding is available and the process is to secure it. All eligible entities will have access to the application process, and reasonable efforts will be made to ensure access to eligible subrecipients of CDBG-DR funded public service programs.

General Information

Citizen Participation

Pasco County is committed to delivering robust community outreach to effectively inform, engage, and empower stakeholders and residents of Pasco County throughout the Community Development Block Grant – Disaster Recovery (CDBG-DR) process. The result is an action plan that is community-driven, engaging input from our residents – including low-and moderate-income individuals and communities in a variety of ways. Our plan follows HUD's citizen participation requirements (24 CFR 91.105) and follows the County's approved Community Development Citizen Participation Plan approved by the Board of County Commissioners on March 9, 2021.

Figure 25: Senior Fair in New Port Richey

During March, April, and May 2025, Pasco County actively sought public input on how to use the disaster recovery funds allocated to our community. The County used multiple outreach methods to gather ideas and feedback on recovery needs and priorities. Residents could weigh in through hands-on activities at community events, an in-depth online survey, and a series of town hall meetings. This multifaceted approach ensured that people from different backgrounds and areas had a chance to voice their needs and preferences.

Community Engagement Meetings

Between April 5 and May 8, 2025, Pasco County hosted or attended a total of nine community engagement events where residents and stakeholders could participate in a "Pasco Money" input activity. Through the "Pasco Money" activity, attendees were given five colored chips, each representing $1 million, to allocate across six program areas: Housing, Infrastructure, Economic Revitalization, Public Services, Mitigation, and Planning. The chip color reflected stakeholder type: orange (homeowners), blue (renters), green (businesses), and pink (other stakeholders). The goal of this activity was to learn more about CDBG-DR program areas that community members are motivated to fund for our upcoming Better Future program to recover from 2023-2024 storms (Hurricanes Idalia, Helene, and Milton).

Figure 26: Town Hall at Moore-Mickens Education Center in Dade City

What We Learned

In order of preference, the top three funding priorities across these workshops were Housing, Infrastructure, and Public Services. Housing and Infrastructure consistently emerged as the top choices for participants who were homeowners. Renters also highly prioritized Housing, but their second-most selected category was Public Services - indicating the importance of services like healthcare, senior assistance, and other community support to renters. Figure 28 demonstrates the breakdown of total funding across each funding area at all events.

Figure 27: Commission on the Status of Women in Wesley Chapel

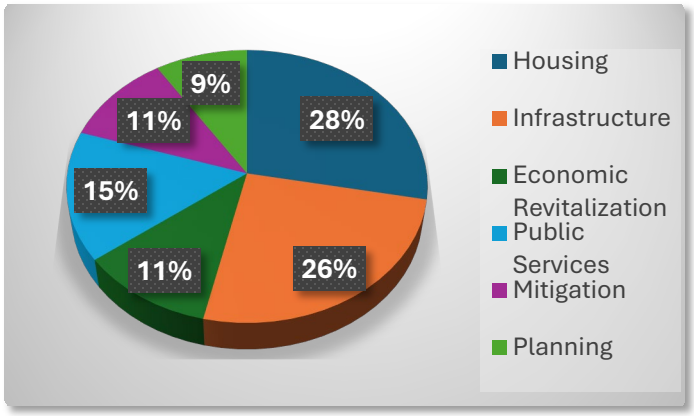

Figure 28: Jar Game Results (Funding by Program Area)

These combined results told us that both homeowners and renters see Housing as the most critical need. Infrastructure was especially important to homeowners, while renters placed slightly more emphasis on community services. This exercise gave the County a snapshot of what local residents value most for recovery spending. The following graph, Figure 29, displays the rankings for each program area funded at each of our community events – including town halls (discussed further below).

Public Survey

Pasco County also created an online survey to learn more about community needs, widely reaching residents through the County website, targeted outreach, direct emails, QR codes at eight public meetings, and social media. Other distributions included email lists of targeted populations (Continuum of Care, Citizens Academy) and local municipalities. The purpose of the survey was to delve deeper into how the community believed the funding should be allocated based on the unmet needs following the qualifying disasters of Hurricanes Idalia, Helene, and Milton.

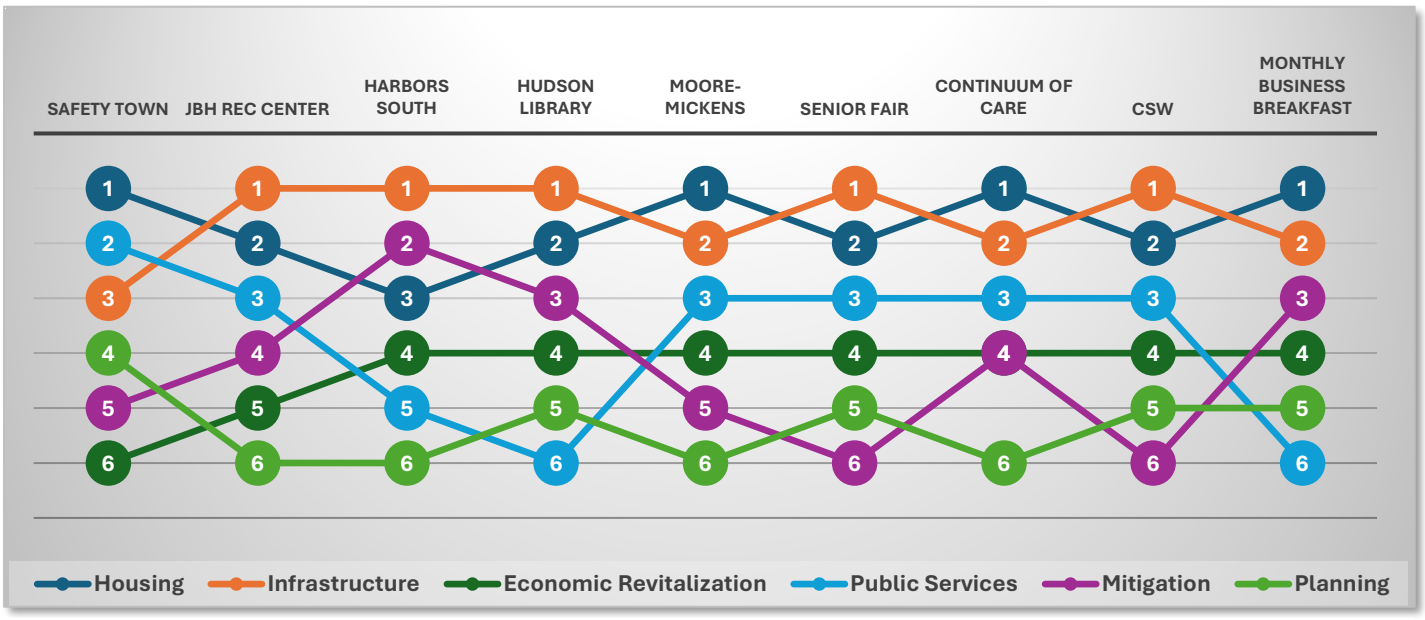

Figure 29: Jar Game Rankings (By Program Area and Meeting)

Survey participation was strong: Between April 14th and May 5th, 2025, Pasco County gathered more than 2,200 responses (with 1,090 fully completed surveys) to this extended survey on recovery priorities for funding Pasco County. Respondents were asked to rank six program areas (Housing, Infrastructure, Economic Revitalization, Public Services, Mitigation, and Planning) and identify specific recovery needs.

What We Learned

Of those who participated, 84% were homeowners, 10% were renters, 4% identified as non-profits, and 2% were business owners. This shows that a broad cross-section of the community engaged, though homeowners were the largest group who took the survey.

Table 29: Survey Respondents (By Type)

Stakeholder Role	Number of Respondents	Percent of Respondents*[108]
Homeowners	1,191	84%
Renters	146	10%
Non-Profit Reps	46	4%
Business Owners	28	2%

The most productive engagement channels were the County website (40%) and paid outreach (37%). Infrastructure (29%) and Mitigation (24%) ranked the highest overall for priorities among the participants and Housing (22%) came in third place.

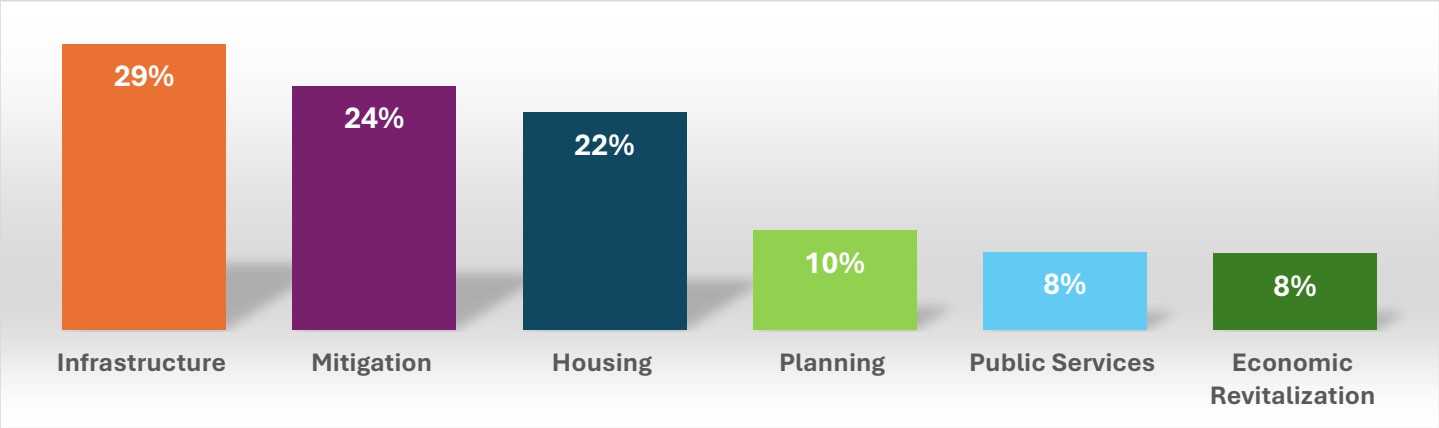

Figure 30: Survey Results ("What of These Areas Is the County's Most Critical Need?")

What were the most cited unmet needs? The survey asked open-ended questions about remaining recovery needs. The most frequently cited needs were home repairs and affordable housing. Many residents reported damage to homes that still need fixing and a shortage of affordable places to live after the storms.

[108] Percentages calculated out of ~1,411 respondents who indicated a stakeholder role. The remaining survey submissions did not provide this information (many of those were incomplete responses)

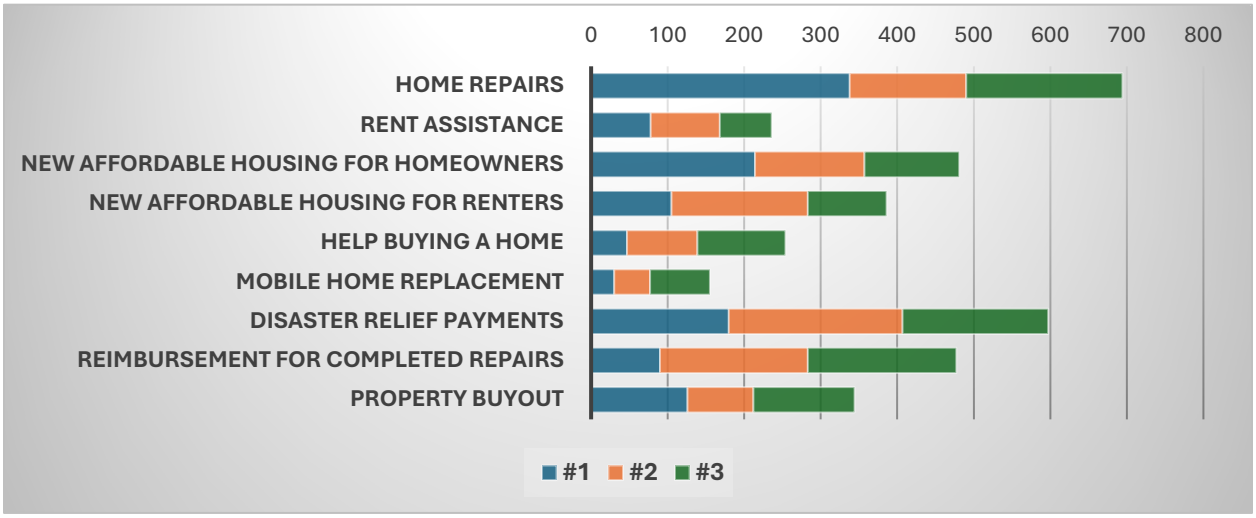

Figure 32: Survey Results ("What Housing-Related Need Is Most Urgent?")

Residents across the county repeatedly mentioned flooding issues, specifically calling for upgraded stormwater systems to prevent the kind of recurring neighborhood flooding experienced in recent storms.

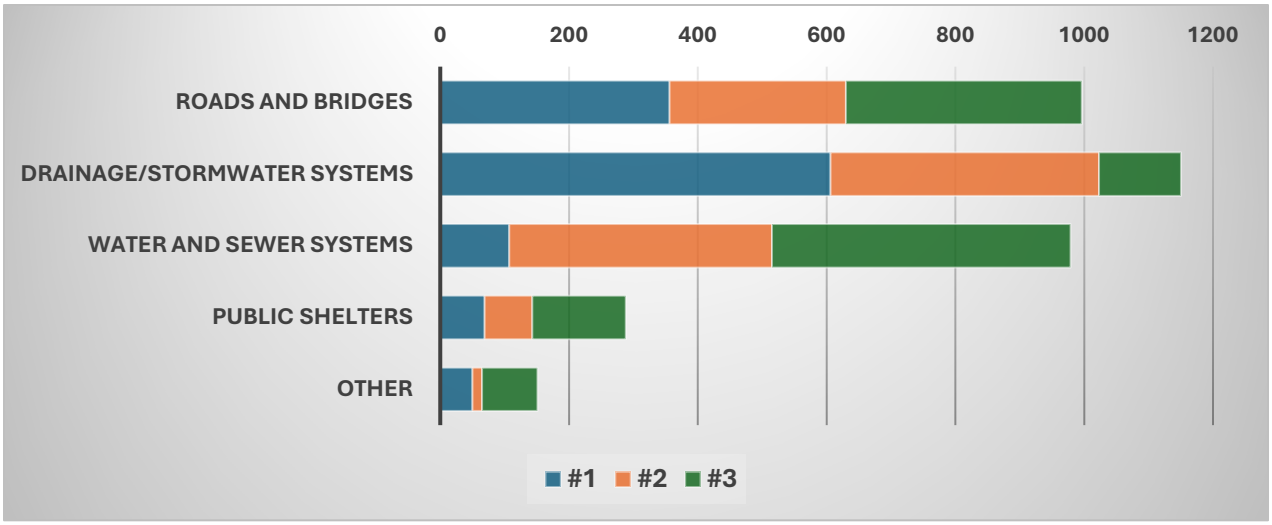

Figure 31: Survey Results ("What Infrastructure Repairs Are Most Urgent?")

Another common theme was financial gaps – people pointed out that insurance payouts and FEMA assistance often didn't cover all their repair costs, leaving them with unmet needs. This has led to interest in gap-funding programs (grants or loans to cover what insurance and FEMA did not). In terms of public services, the community highlighted support for seniors, help for people experiencing homelessness, and access to mental health services as important needs in recovery. For economic recovery, many supported small business assistance (like grants to help local businesses reopen or relocate if needed) more so than longer-term economic development programs.

Different areas of the county provided different perspectives on the County's recovery. Pasco County communities, from the coastal neighborhoods to the inland and rural areas, responded differently to the survey questions. High-impact coastal neighborhoods (accounting for most QR-code respondents) placed Housing first (60%). County-wide online respondents elevated Infrastructure and Mitigation, reflecting concerns about roads, drainage, and future storms. Renters, non-profits, and business owners leaned more heavily toward Housing and Economic Revitalization than homeowners. Drainage improvements and road repairs were universal priorities across regions.

The following Word Cloud identifies the most mentioned concerns in open-ended comments provided by residents in survey responses:

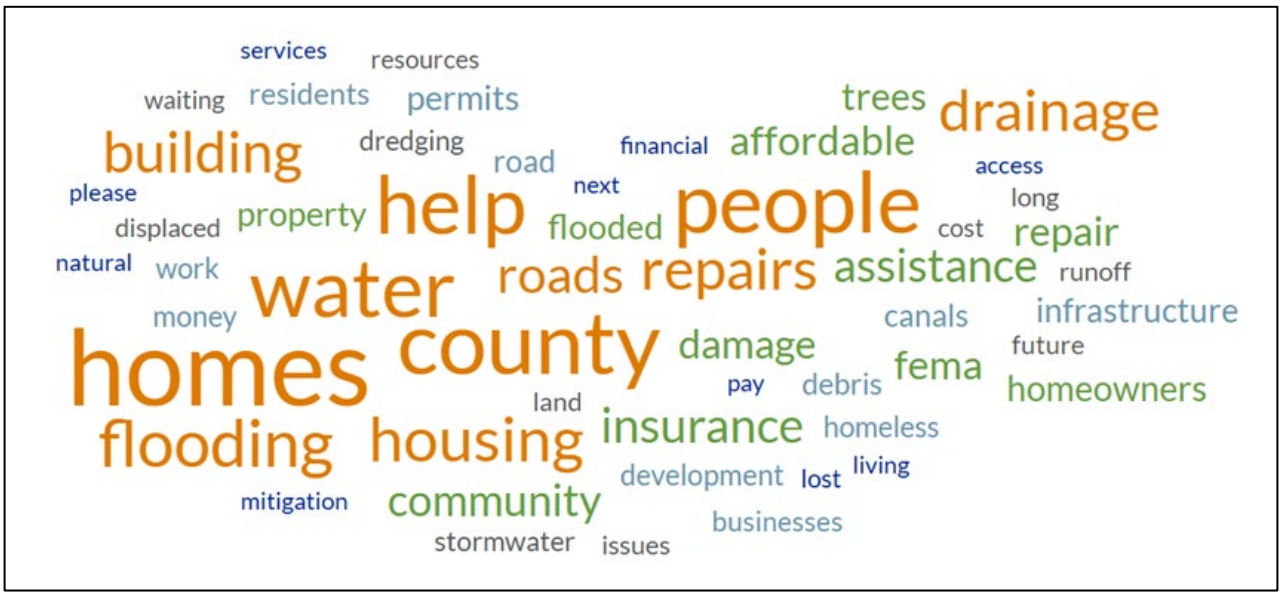

Figure 33: Word Cloud (Most Mentioned Concerns in Public Survey)

Town Halls

In partnership with our municipalities and focusing on the areas most impacted by the three hurricanes, Pasco County held a series of Town Hall meetings in April and May 2025. The purpose of these town halls was to have an open forum where officials could discuss the storms' impacts with residents, explain the CDBG-DR program (including what types of assistance are eligible), and - most importantly - listen to citizen questions, comments, and ideas about recovery. Each meeting began with a brief presentation about the disaster's impact and the funding available, and then the floor was opened for public input.

Four town hall meetings were conducted on the following dates and locations (covering different parts of the county for broad accessibility):

- **Monday, April 14, 2025, at 6:00 PM** – J. Ben Harrill Recreation Complex, Holiday, FL (West
- **Thursday, April 17, 2025, at 6:00 PM** – Hudson Public Library, Hudson, FL
- **Monday, April 21, 2025, at 6:00 PM** – Moore-Mickens Education Center, Dade City, FL
- **Thursday, May 1, 2025, at 12:00 PM** – Virtual Town Hall

Each in-person venue was in or near communities hit hard by the hurricanes, and the virtual option allowed anyone who could not attend in person to participate during a lunch-hour session. These meetings were publicized in advance through local postings, the County website, and coordination with city officials to encourage a good turnout.

At the town halls, residents shared personal stories of storm damage. Common feedback themes included the urgency of repairing homes, improving drainage infrastructure to prevent future floods, and providing assistance to vulnerable residents such as the seniors and those without insurance. County staff recorded all comments and answered questions about what CDBG-DR can and cannot fund. This community feedback from the town halls was later compiled and reviewed to ensure this Action Plan addresses the on-the-ground needs expressed by residents.

What We Learned

Across our four town halls, community members were most concerned about housing recovery and flood mitigation. Many attendees stressed the urgency of getting storm-damaged homes repaired or replaced and prioritizing those who are still displaced (including homeless residents) for assistance. Residents expressed frustration with the slow timeline of help. Several participants described living in temporary situations for months and urged the County to expedite the recovery process.

Figure 34: Hudson Library Town Hall

Infrastructure issues were another common theme: residents from different areas discussed chronic flooding problems and urged investments in drainage improvements – from dredging silt-clogged canals and repairing aging seawalls in coastal neighborhoods to upgrading stormwater systems and fixing eroded roads in inland communities. In both meetings, people sought clarity on how CDBG-DR funding can be used. Questions were asked about ensuring the funds are dedicated to recovery, avoiding duplication with other programs (like other programs administered in Florida or SBA loans), and whether the grant could cover specific needs such as the 25% homeowner match required for Elevate Florida. County representatives confirmed such funds are focused on the named storms and can potentially fill gaps - like providing match funds - within program rules.

Each meeting also contributed unique community insights and suggestions. Hudson attendees also emphasized that recovery dollars should fix current problems (damaged homes and infrastructure) rather than being diverted to future growth. They voiced support for projects like restoring Pasco's eroded shoreline and echoed the need for long-term flood defenses (e.g., canal dredging and higher seawalls to protect low-lying homes). At the Moore-Mickens Education Center (Dade City) meeting, residents highlighted some longstanding local issues exacerbated by the disaster. Notably, they advocated relocating a wastewater treatment plant out of their neighborhood – a promise pending for decades – and asked to be involved in decisions about restoring that site, underscoring a desire for community-driven planning. A local pastor proposed establishing a centralized "community village" shelter on county-owned land to house families displaced by the storms – a creative idea to improve interim housing, developed from the observation that FEMA's temporary trailers were not deployed locally.

Additional ideas ranged from developing an agricultural "food hub" to prevent post-storm food shortages, to using local contractors and labor for debris cleanup and home repairs - so that recovery efforts also benefit the local economy. There were even quality-of-life concerns tied to resilience – for instance, paving unmaintained dirt roads that had turned into dumping grounds for storm debris, and addressing poor internet connectivity that hampers communications.

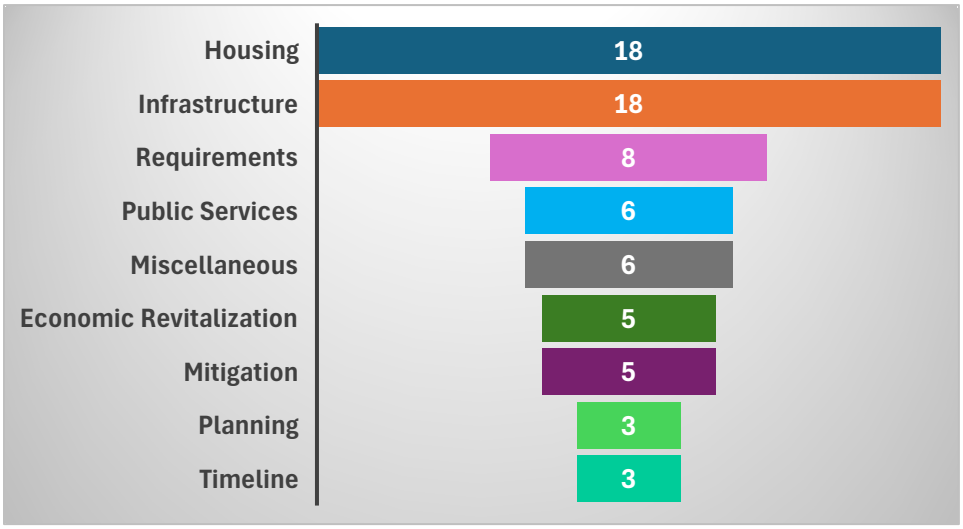

Figure 35: Town Hall Questions and Comments Received (By Category)

Despite covering a wide array of topics, these dialogues shared a common thread: residents want to see the substantial recovery funds used transparently and effectively to rebuild safer homes, strengthen critical infrastructure, and support the well-being of those hardest hit by the hurricanes in their communities.

Consultation of Developing the Action Plan

To make sure Pasco County's Action Plan is comprehensive and well-informed, the County consulted a wide range of stakeholders beyond the general public. Stakeholder consultation took place throughout the planning period and included federal and state agencies, local governments, non-profit and community organizations, and private sector representatives. The aim was to gather expert input and data on recovery needs, coordinate efforts with other agencies, and ensure the plan aligns with regional and state recovery strategies.

We have organized our consultation into groups by stakeholder type; a summary of consultations may be found in Table 30.

Federal Agencies

Pasco County worked with federal partners like the Federal Emergency Management Agency (FEMA) and the Small Business Administration (SBA) while developing the plan. The County entered into data-sharing agreements and reviewed the FEMA Individual Assistance data and SBA disaster loan data. This information about how many residents received federal aid, and where gaps remained, was used to shape the unmet needs analysis in the Action Plan. These federal consultations helped identify where CDBG-DR funds could fill in gaps left after FEMA and SBA assistance.

Local Municipalities

In March 2025, County officials met one-on-one with leadership from each of the six municipalities in Pasco County (the Cities of Zephyrhills, New Port Richey, Port Richey, Dade City, the Town of St. Leo, and the City of San Antonio). At these meetings, city managers, clerks, and/or elected officials shared how the hurricanes affected their communities and discussed local recovery priorities. These consultations ensured that the Action Plan considers the unique needs of Pasco's cities in addition to unincorporated areas.

Non-Profit and Community Organizations

The County engaged numerous non-governmental organizations to get input on the needs of vulnerable populations and to leverage local expertise. In late March, County staff presented at a Continuum of Care (CoC) Leadership Council meeting to understand how homelessness services were impacted by the storms. This was followed by an April 24th meeting with the full CoC General Membership, where over 15 nonprofits were represented, providing a broad perspective on community needs. Pasco County also met with specific service providers and community groups such as Sertoma, Bridges for Freedom, and Steps to Recovery on April 28th to discuss recovery challenges for special needs populations and those in recovery programs. Additionally, the County spoke with legal aid and youth/family advocacy organizations, as well as area hospitals, to gather information on issues like tenant-landlord concerns post-disaster, youth homelessness, and healthcare system impacts. Input from these groups helped ensure the plan's programs will be accessible and effective for those who need help the most, including people experiencing homelessness or other hardships.

Private Sector and Economic Interests

Recognizing that disaster recovery includes economic recovery, Pasco County reached out to the business community. The County met with the Greater Pasco Chamber of Commerce on May 5th and the East Pasco Chamber of Commerce on May 8th to hear directly from local businesses about their storm-related challenges. The County's Office of Economic Growth and the Pasco Economic Development Council were also consulted to discuss strategies for reviving the local economy, retaining jobs, and attracting investment post-disaster. These conversations ensured that the Action Plan's economic revitalization programs target the actual needs of Pasco's business community.

State and Regional Agencies

Pasco County coordinated with state-level partners to align the Action Plan with broader recovery and mitigation efforts. The County's Department of Emergency Management worked closely with the Florida Division of Emergency Management, especially regarding Hazard Mitigation Grant Program (HMGP) projects. Through ongoing coordination calls - including statewide emergency management calls that Pasco participated in, the County gathered input on mitigation priorities and learned about state initiatives like the Elevate Florida program. This coordination helped identify opportunities to use CDBG-DR funds to complement other funding sources for projects like drainage improvements or backup power for shelters.

Housing Sector Stakeholders

Housing recovery is a major focus, so the County consulted those with housing expertise. The Pasco County Housing Authority was consulted to discuss how public housing residents and Section 8 voucher holders were affected by the hurricanes, and what unmet needs exist in public housing communities. The County also reached out to a HUD-approved housing counseling agency, Suncoast Housing Connections, to understand what housing challenges their clients - including seniors and first-time homebuyers - are facing after the storms. The County also consulted with the Florida Housing Coalition to explore ways to leverage CDBG-DR funds together with other housing programs for building or rehabilitating affordable housing. This discussion included how to maintain long-term affordability for any new housing units created.

Pasco County Government Departments

The County's Office of Disaster Recovery Resources met with each major County department to gather internal input. Departments reported how the hurricanes impacted their operations or the populations they serve, and they suggested project ideas from their departmental perspective. This internal consultation ensured the Action Plan is comprehensive and that interdepartmental knowledge - such as existing capital improvement plans or social service needs - is incorporated.

Table 30: Consultations with Partners

Partners Consulted	Description of Consultation
Federal Partners (FEMA, SBA)	Pasco County entered into data-sharing agreements with both FEMA and SBA. FEMA IA, FEMA and SBA Disaster Loan (Home and Business) Data was used for the completion of the unmet needs analysis.
Local/State Government	Pasco County held one-on-one meetings with the managers, clerks or elected officials of local municipalities on the following dates: • **3/12** – City of Zephyrhills • **3/13** – Town of Saint Leo • **3/14** – City of New Port Richey • **3/14** – City of Port Richey • **3/19** – Dade City • **3/21** – Township of Saint Leo
Non-governmental Organizations	Pasco County held meetings with local, non-governmental organizations on the following dates: • **3/27** – Continuum of Care Leadership Council • **4/16** – AmSkills Workforce Innovation Center • **4/24** – CoC General Membership (15+ nonprofits in attendance) • **4/28** – Sertoma, Bridges for Freedom, STEPS to Recovery Pasco County also held meetings with Bay Area Legal, Youth and Family Advocates, and area hospitals.
Private Sector	Pasco County has met with Greater Pasco Chamber of Commerce (5/5), the East Pasco Chamber of Commerce (5/8), and consulted with the Department of Planning and Economic Growth and the Economic Development Council.
State and Local Emergency Management Agencies that have Primary Responsibility for the Administration of FEMA Funds	The County's Department of Emergency Management coordinates with local jurisdictions and makes recommendations to the State of Florida Division of Emergency Management with respect to the ongoing list of local hazard mitigation projects. Input was received regarding ongoing mitigation needs and priorities as well as HMGP projects and matches. We met on the Elevate Florida program. Pasco County attended statewide Emergency Management calls.

Partners Consulted	Description of Consultation
Agencies that Manage Local Continuum of Care	The Office of Disaster Recovery Resources attended and presented at two CoC meetings. The lead agency, Pasco County Coalition for the Homeless, provided information that was included in the unmet needs analysis including how the storms impacted those experiencing homelessness.
Public Housing Agencies	The County consulted with the Pasco County Housing Authority to obtain impacts and unmet needs.
HUD-approved Housing Counseling Agencies	The County consulted Suncoast Housing Connections for current information on impacts and any unmet needs. Concerns for seniors needing financial management and new homeowners needing post-purchase counseling were expressed.
State Housing Finance Agencies	Pasco County consulted with the Florida Housing Coalition to discuss the best means to leverage DR housing dollars with new construction programs to maintain affordability.

All these consultation efforts – from federal data to local town hall comments – were synthesized to guide the development of Pasco County's Action Plan. By engaging such a broad coalition of partners, the County worked to ensure no major issue was overlooked and that the resulting recovery programs will coordinate well with other ongoing efforts.

While Pasco County does not have any designated Tribal trust lands or reservations, approximately 0.6% of Pasco County's population indicated that they were American Indian or Alaska Native. The County will consult with tribal nations for historical and environmental reviews as defined by Section 106 regulations to maintain compliant with Federal and State requirements.

Public Comments

Transparency and public input continue to be important as the Action Plan is finalized. Pasco County will publish the draft Action Plan for public review and comment for a period of 30 days, as required by HUD. The draft Better Future Action Plan for Disaster Recovery will be made available on the County's website on May 12th, 2025, marking the start of the public comment period. The public comment period will run from May 12th, 2025, through June 12, 2025. During this time, anyone can review the draft plan and submit their feedback.

In accordance with HUD requirements, Pasco County has formally advertised the publication of the Better Future Action Plan for Disaster Recovery with the 30-day public comment period through multiple channels. A public notice was placed in the Tampa Bay Times on May 7th, 2025, announcing where to find the draft plan and how to comment. Additionally, information about the comment period is posted on the Pasco County website and shared via social media and community partners to reach as many residents as possible. The draft Action Plan document is accessible online (and a reasonable number of printed copies are available at the County Community

Development office for those without internet access). All comments will be considered in the formulation of the final action plan. A summary of all comments received will be incorporated into the final action plan prior to submission to HUD.

How to Submit Comments

Pasco County offers several convenient ways for the public to send in comments on the draft Action Plan. People can submit comments electronically through an online form on the Better Future program webpage, or by emailing **BetterFuture@mypasco.net**. Written comments can also be mailed or delivered to the Community Development Department at the County's office. The County will also accept verbal comments at the scheduled public hearings (detailed below). All comments, whether online, written, or spoken at a hearing, will be collected for consideration.

Pasco County encourages all interested residents and stakeholders to review the draft plan and share their thoughts during this window. The input received during the public comment period is a critical part of finalizing Pasco County's Action Plan.

Public Hearings

As per the Universal Notice, Pasco County, receiving $585,704,000 in CDBG-DR funding was required to hold three (3) public hearings. These hearings were advertised in the Tampa Bay Times, along with notification our draft Action Plan. In coordination with local municipalities, the public hearings were scheduled in some of the most impacted communities after Draft Action Plan was published. The hearings were also scheduled at times to most likely engage our citizens. The locations of the hearings provided a geographic balance between the impacted areas of West and East Pasco County. All public hearings were held in locations accessible to people with disabilities. The public hearings were also advertised on the Pasco County website 30 days prior to the first hearing. It was publicized in print and online in accordance with the County's Citizen Participation Plan. The online notice of the public hearing includes instructions for persons with disabilities or special needs to contact Pasco County for special accommodations.

Public Hearing Dates and Locations

- **Tuesday, May 13, 2025, at 6 PM:** Zephyrhills Train Depot, Zephyrhills, FL
- **Monday, May 19, 2025, at 6 PM:** Wiregrass Ranch Sports Campus, Wesley Chapel, FL
- **Tuesday, May 20, 2025, at 5 PM:** Board of County Commissioners Board Room, New Port Richey, FL

Consideration of Public Comments

Every comment that Pasco County receives on the draft Action Plan, whether written or spoken at a public hearing, will be carefully considered before the plan is finalized. The County is committed to reviewing all public input and making changes to the Action Plan where appropriate in response to community feedback. If certain suggestions cannot be incorporated, the County will still document those comments and explain why a change was not made.

After the 30-day public comment period ends, the County will organize all the feedback by topic and prepare a summary of public comments. This summary will detail the concerns and suggestions raised by the public. The County will provide a response describing how the comment is addressed in the Action Plan. In certain cases, the Action Plan may be revised to incorporate good ideas from the public; where it isn't, the response will clarify the reasoning (for example, if a request is not eligible for CDBG-DR funding by law).

Pasco County values community voices and will ensure that the final Action Plan reflects input we have received. This responsiveness helps build a plan that truly meets local needs and has public support. Public Comments with County Responses may be referenced in **Appendix C: Public Comments**.

Citizen Complaints

Pasco County is committed to maintaining a transparent and accessible process for addressing citizen complaints related to the CDBG-DR Action Plan, amendments and associated recovery activities. Complaints may be submitted by residents and stakeholders to express concerns or provide feedback on the Better Future program. Complaints may be submitted through email, written correspondence via mail, or an online submission form available on the County's CDBG-DR website.

The County understands that maintaining public trust requires addressing concerns promptly and fairly. In accordance with the County's Citizen Participation Plan approved by the BCC, the County will make every effort to respond to citizen complaints in writing within 15 days when practical. Each complaint will be thoroughly reviewed, and responses will be tailored to the nature and complexity of the issue. Complaints related to noncompliance with HUD regulations, or the Universal Notice requirements will be escalated for appropriate resolution in consultation with relevant agencies.

The County is committed to transparency in this process. To promote transparency and fairness, the County will document all complaints, responses, and resolutions. This log of complaints and responses helps the County track common issues and ensure they are addressed. The County may conduct regular evaluations of the complaint process to ensure it aligns with community needs and HUD's Citizen Participation Requirements.

Modifications to the Action Plan

The County understands that recovery needs, programs, and projects may evolve over the course of the grant and modifications to the Better Future Action Plan for Disaster Recovery may be necessary. These changes will be classified as either substantial or non-substantial amendments based on their impact on program scope, funding allocation and eligibility criteria. Pasco County will ensure that all amendments comply with HUD's Universal Notice requirements, maintaining transparency and public engagement as required. In simple terms, big changes will involve public notice and input, while minor changes will still be documented and reported - but won't require a full public comment period.

Substantial Amendment

The following criteria determines what changes in Pasco's Better Future Action Plan for Disaster Recovery constitute a substantial amendment and thus require public comment. Pasco County considers an amendment to be "substantial" if it meets any of the following criteria:

1. A change in program benefit or eligibility criteria (including the expansion of eligible beneficiaries.
2. The addition or deletion of an activity.
3. A proposed reduction in the overall benefit requirement.
4. The program allocation or reallocation of $5,000,000 or more; and
5. An update to the submitted initial Action Plan if the original submission was incomplete.

If a change falls into one of these categories, Pasco County will follow a formal process to amend the Action Plan. This process will include publishing the proposed substantial amendment for public review and comment for at least 30 days (similar to the original Action Plan comment period). The County will advertise the amendment's availability and will hold at least one public hearing to gather feedback on the proposed changes. After the comment period, the County will consider all comments and then submit the substantial amendment to HUD for approval. The County will implement the change only after HUD approves the amendment.

Non-Substantial Amendment

A non-substantial amendment refers to a minor modification that does not meet the criteria listed above for a substantial amendment. These are typically smaller adjustments or corrections that keep the core of the Action Plan the same. Non-substantial amendments might include things like technical corrections (fixing a typo or updating a factual detail), clarifications of wording, or small shifts in budget that are below the substantial amendment threshold (for example, moving a small amount of funds from one activity to another to better meet demand, as long as it's less than the threshold percentage of the total grant).

Non-substantial amendments do not require a formal public comment period or public hearing. In other words, the County can make these minor changes administratively. However, Pasco County will still notify HUD at least five (5) business days before any non-substantial amendment takes effect, as required. This notification ensures HUD is aware of even minor changes. All amendments, both substantial and non-substantial, will be noted in the applicable Amendment chart located at the beginning of this document. The amendments will be numbered sequentially and posted on Better Future's website at https://pascocountyfl.net/government/better_future.php.

Performance Reports

Pasco County is committed to a clear and efficient reporting process for its CDBG-DR programs. All reports will follow the formats and rules set by the U.S. Department of Housing and Urban Development (HUD) and will be submitted through HUD's Disaster Recovery Grant Reporting (DRGR) system. Our goal is to provide accurate, well-documented updates that demonstrate accountability and show how CDBG-DR funds are being used to help the community and meet local needs.

Any changes to programs or the Action Plan will be updated in DRGR after receiving HUD approval. Updates to DRGR will be made within five business days of approval by either HUD or the County's Grant Manager. The Grant Manager, with help from our consultant team, will make sure all updates, revisions, and reports meet HUD requirements. All staff involved will receive training to ensure they can use the DRGR system effectively.

Quarterly Performance Reports

Pasco County will also submit required Quarterly Performance Reports within 30 days following the conclusion of each quarter. These reports will be posted online once approved by HUD and will continue until all funds are spent and projects are closed.

Program Income

Some CDBG-DR programs may earn program income, such as from loan repayments or rental revenue. Pasco County will track and report this income and use it to support eligible recovery projects. All program income will be managed according to HUD rules to help strengthen recovery and long-term community resilience. Pasco County will comply with all applicable requirements regarding the use and management of program income.

Pre-Award Costs

"Pre-award costs" are expenses that Pasco County incurred before the official approval of this Action Plan and the signing of the grant agreement, which are related to getting the disaster recovery program up and running. HUD allows the County to reimburse itself for certain eligible costs that happened in this pre-award period, as long as

they are for CDBG-DR eligible activities and the proper procedures are followed. Pasco County had to invest resources ahead of time to kick-start the recovery process.

Pasco County intends to seek reimbursement for pre-award activities (all of which were done in anticipation of receiving the CDBG-DR funds), including:

- **Action Plan Development:** The work to write and prepare the CDBG-DR Action Plan, including community outreach efforts during plan development.
- **Needs Assessment:** The research and data analysis to identify unmet housing, infrastructure, economic, and other needs resulting from Hurricanes Idalia, Helene, and Milton – including public engagement activities. This analysis also evaluated current and future risks (mitigation needs).
- **County Assessments:** Pre-award activities related to required Environmental Reviews and Damage Assessments.
- **Translation and Accessibility:** Services to translate the Action Plan and important notices into other languages and to make information accessible so that all members of the public can participate in the process.
- **Program Design and Staffing:** Initial costs related to designing proposed recovery programs – including program policies and procedures - and potentially hiring or assigning staff and resources to the disaster recovery team before executing the grant agreement to build capacity.
- **Administrative Setup:** Any upfront administrative expenses, such as setting up financial systems or reporting systems in preparation for managing the grant funds.

All these tasks were conducted before HUD's final approval but were necessary to get the recovery programs ready to launch as soon as funding became available. The County has kept careful track of these expenses. They will be categorized appropriately in our budget. Seeking reimbursement for pre-award costs will not detract from project funds; it simply covers the preparatory work that laid the groundwork for a successful recovery program. All pre-award costs that we plan to charge to the grant will be clearly identified in the Action Plan budget and reported to HUD.

Appendix A: Certifications

Pasco County acknowledges that it will administer the CDBG-DR grant consistent with the following certifications required by Federal statute and regulation.

a) Uniform Relocation Act and Residential Anti-displacement and Relocation Plan (RARAP): Pasco County certifies that it:
   1) will comply with the acquisition and relocation requirements of the Uniform Act, and implementing regulations at 49 CFR part 24, as such requirements may be modified by waivers or alternative requirements;
   2) has in effect and is following a RARAP in connection with any activity assisted with CDBG–DR grant funds that fulfills the requirements of Section 104(d), 24 CFR part 42, and 24 CFR part 570, as amended by waivers and alternative requirements.

b) Authority of Grantee: Pasco County certifies that the Action Plan for disaster recovery is authorized under State and local law (as applicable) and that Pasco County, and any entity or entities designated by Pasco County, and any contractor, subrecipient, or designated public agency carrying out an activity with CDBG–DR funds, possess(es) the legal authority to carry out the program for which it is seeking funding, in accordance with applicable HUD regulations as modified by waivers and alternative requirements.

c) Consistency with the Action Plan: Pasco County certifies that activities to be undertaken with CDBG–DR funds are consistent with its action plan.

d) Citizen Participation: Pasco County certifies that it is following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.115 or 91.105 (except as provided for in waivers and alternative requirements). Also, each local government receiving assistance from a state grantee must follow a detailed citizen participation plan that satisfies the requirements of 24 CFR 570.486 (except as provided for in waivers and alternative requirements).

e) Use of Funds: Pasco County certifies that it is complying with each of the following criteria:
   1) Purpose of the funding: Funds will be used solely for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, economic revitalization, and mitigation in the most impacted and distressed areas for which the President declared a major disaster pursuant to the Stafford Act (42U.S.C. 5121 et seq.).
   2) Maximum Feasibility Priority: With respect to activities expected to be assisted with CDBG–DR funds, the Action Plan has been developed so as to give the maximum feasible priority to activities that will benefit low- and moderate-income families.
   3) Overall benefit: The aggregate use of CDBG–DR funds shall principally benefit low- and moderate-income families in a manner that ensures that at least 70 percent (or another percentage permitted by HUD in a waiver) of the grant amount is expended for activities that benefit such persons.
   4) Special Assessment: Pasco County will not attempt to recover any capital costs of public improvements assisted with CDBG– DR grant funds, by assessing any amount against properties owned and occupied by persons of low- and moderate- income, including any fee charged or assessment made as a condition of obtaining access to such public improvements, unless:
      i. disaster recovery grant funds are used to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from revenue sources other than under this title; or

ii. for purposes of assessing any amount against properties owned and occupied by persons of moderate income, Pasco County certifies to the Secretary that it lacks sufficient CDBG funds (in any form) to comply with the requirements of clause (a).

f) Grant Timeliness: Pasco County certifies that it (and any subrecipient or administering entity) currently has or will develop and maintain the capacity to carry out disaster recovery activities in a timely manner and that Pasco County has reviewed the requirements applicable to the use of grant funds.

g) Order of Assistance: Pasco County certifies that it will comply with the statutory order of assistance listed in Appendix C paragraph 9 and will verify if FEMA or USACE funds are available for an activity, or the costs are reimbursable by FEMA or USACE before awarding CDBG–DR assistance for the costs of carrying out the same activity.

h) Affirmatively Further Fair Housing: Pasco County certifies it will affirmatively further fair housing.

i) Anti-Lobbying: Pasco County certifies its compliance with the restrictions on lobbying required by 24 CFR part 87, together with disclosure forms, if required by part 87.

j) Section 3: Pasco County certifies that it will comply with section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) and implementing regulations at 24 CFR part 75.

k) Excessive Force: Pasco County certifies that it has adopted and is enforcing the following policies, and, in addition, State grantees must certify that they will require local governments that receive their grant funds to certify that they have adopted and are enforcing:

1) A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in nonviolent civil rights demonstrations; and

2) A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location that is the subject of such nonviolent civil rights demonstrations within its jurisdiction.

l) Compliance with Anti-discrimination Laws: Pasco County certifies that the grant will be conducted and administered in conformity with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d), the Fair Housing Act (42 U.S.C. 3601–3619), and implementing regulations.

m) Lead-Based Paint: Pasco County certifies that its activities concerning lead-based paint will comply with the requirements of 24 CFR part 35, subparts A, B, J, K, and R.

n) Compliance with Laws: Pasco County certifies that it will comply with the provisions of title I of the HCDA and with other applicable laws.

Appendix B: Waivers

The County currently does not request any waivers. If the County identifies the need for waivers in the future, we will request those waivers through independent submission.

Appendix C: Public Comments

During the public comment period for Pasco County's CDBG-DR Action Plan, a total of 122 questions and comments were received – 47 made at public hearings and 75 unique responses submitted via the online web form or e-mail. These comments have been grouped into nine categories: Housing, Infrastructure, Economic Revitalization, Public Services, Mitigation, Planning, Requirements, Timeline, and Miscellaneous.

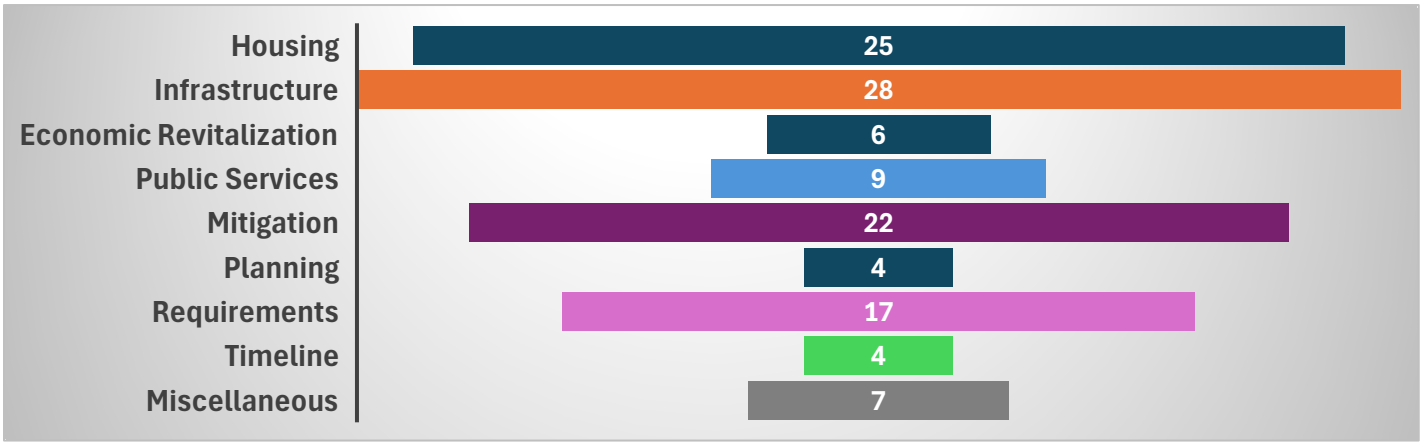

Figure 36: Total Number of Unique Public Comments Received (By Category)

Below is a narrative summary of the feedback in each category, along with Pasco County's responses. For each category, we note the number of comments (with a breakdown of how many came from public hearings vs. web submissions) and the approximate percentage of all comments this represents.

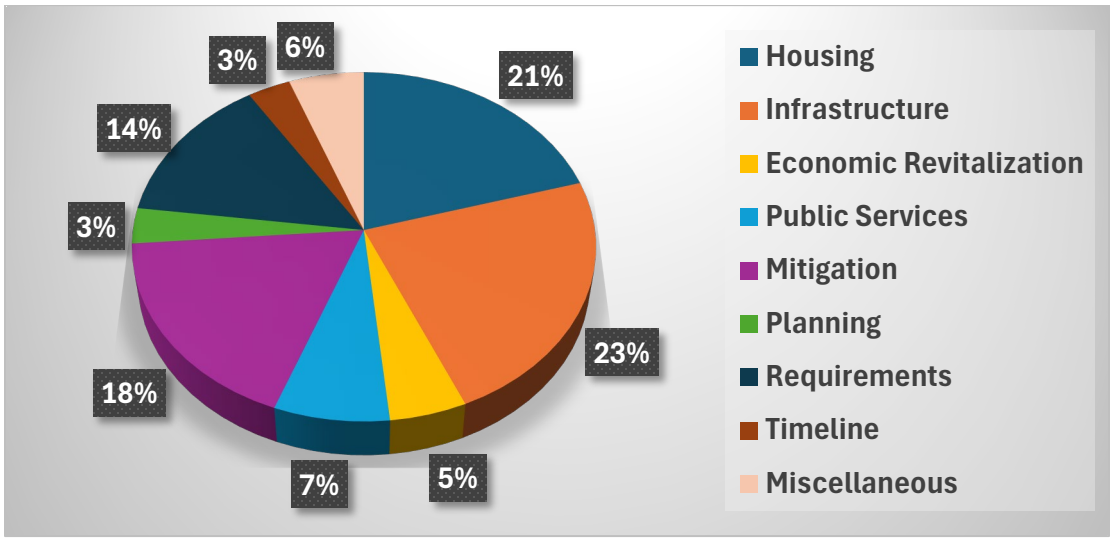

Figure 37: Percentage of Comments Received (By Category)

Housing

Summary of Comments

The County received 25 public comments related to housing (8 from public hearings and 17 via web form), accounting for about 21% of all input. Commenters included Pasco County residents, representatives of local non-profit organizations, and professionals in the affordable housing sector. Overall, the tone was supportive of the County's focus on housing recovery but also urgent and concerned. Many people were encouraged by the significant funding dedicated to affordable housing, with one attendee expressing that these investments will help lower-income residents "live in dignity". However, others stressed that the need is dire and immediate, noting that Pasco already faces a housing deficit and cannot wait 3–5 years for new units to become available. One commenter from west Pasco added that homelessness remains a problem in the community, underscoring the importance of urgent housing solutions. Several people urged the County to expedite housing projects and overcome obstacles (such as zoning and permitting delays) that slow down development. There were creative suggestions to address housing needs, like partnering with non-profits to tackle neighborhood blight and repurposing unused land or buildings to create resilient housing. Some commenters emphasized that new housing should be high-quality, with modern green and storm-resilient features, so that rebuilt homes are safe and sustainable long-term.

There were also many practical questions about how the housing programs will work. One resident asked how buyout awards will be calculated for eligible homeowners (wanting to know if offers will be based on pre-storm value, etc.). Others inquired about the criteria for the buyout program, and whether certain properties like low-income rental units in manufactured home parks can qualify. Some community members voiced concern that Pasco's housing needs (estimated at over $1 billion) far exceed the available CDBG-DR funds (around $300 million countywide), and they wondered if aid will be distributed on a first-come, first-served basis given the shortfall. Lastly, a resident who lost her home expressed frustration with the rebuilding permitting process and urged the County to provide more help to seniors and others who struggle with complex paperwork.

County Response

Pasco County sincerely thanks all residents and stakeholders for their input on housing. Pasco County understands the urgency behind these comments and is committed to accelerating the delivery of safe, affordable homes to those who need them most. We recognize that our community cannot wait years for housing relief, so we are exploring every opportunity to speed up program launch and project implementation. Where possible, the County will fast-track housing initiatives – for example, by identifying "shovel-ready" projects and setting reasonable deadlines for funded developments to break ground, ensuring that recovery funds are put to use quickly. We have heard the call to think creatively: we will pursue local partnerships to address blighted properties and look at repurposing or acquiring available land, properties, or buildings to expand our housing stock in a resilient way to ensure affordable housing units come online faster to support holistic housing efforts.(

The County also agrees that new housing should be built to high standards of quality and resilience. We will require that projects supported by the disaster funds include modern, and storm-resistant design features. This not only protects residents but also honors the idea that lower-income residents deserve quality housing just as much as anyone else. We have adjusted our Housing program descriptions to ensure these higher standards for resilient construction are captured in Housing program descriptions.

For specific community concerns like the situation in the Silver Oaks Drive area of Zephyrhills (where flooding destroyed homes), Pasco County is coordinating with relevant agencies to ensure those homeowners get the assistance they need – via housing programs through disaster recovery or other programs. Owners of mobile home parks, residents of condominiums or cooperative housing, and other non-traditional housing occupants will not be left out – they will be able to apply for assistance if their situation meets the program criteria. We plan to assist a broad range of housing types, recognizing that disaster-affected households include homeowners, renters, mobile home residents, seniors in co-ops, and more. The buyout program will be designed to offer fair compensation to owners of storm-damaged homes (for example, providing an offer based on the home's pre-storm value). The eligibility criteria for the buyout and other housing programs (such as income qualifications like HUD's definition of "moderate income" and proof of storm impact – the required "tie-back" to Hurricanes Idalia, Helene, or Milton) will be clearly explained to the public. We want applicants to know exactly how the process works and who is eligible, so that there are no surprises.

Pasco County also wants to reassure the community that having homeowner's insurance will not exclude anyone from receiving help. CDBG-DR funds are intended to cover "unmet needs," which means if your insurance did not fully cover the damage or if you have costs that weren't paid by other assistance, our programs can help fill that gap. We understand many residents with insurance still need help due to deductibles and losses beyond their coverage. Aid will be distributed based on remaining need after all other resources, rather than simply whether someone had insurance or not. At the same time, families without insurance often have no other option, so the program will also ensure the most vulnerable and least-insured households get the attention they need.

We acknowledge that the total funding available is not enough to solve every housing problem. Because the ~$300 million in CDBG-DR funds cannot cover an estimated $1+ billion in housing recovery needs, the County will prioritize those investments that help the most people and those in greatest need. This means the program will not operate strictly on a first-come, first-served basis if that would disadvantage our most impacted residents. Outreach efforts will be made to inform low- and moderate-income families about the assistance, and we will likely prioritize applications based on vulnerability factors – such as income level and age or special needs of the occupants. Every eligible resident will have access to the program, and we will strive to ensure that those most in need are served first.

Finally, we hear and appreciate the concern for our seniors and others who may struggle with the paperwork or permitting process. The County will provide support to help homeowners navigate rebuilding requirements – for example, through housing counselors or case managers who can guide applicants through each step. We want our senior residents and all applicants to feel supported, not frustrated, when seeking recovery assistance. Pasco County remains dedicated to working together with the community to restore and improve housing. We thank everyone for their housing-related comments and will use this feedback to shape programs that rebuild stronger and faster for all our residents.

Infrastructure

Summary of Comments

A total of 28 comments (11 from public hearings and 17 via web submissions) were focused on infrastructure needs and storm protection, making up about 23% of all comments. Residents from both west Pasco (including Port Richey, New Port Richey, Hudson, and Holiday) and east Pasco (including Dade City, Wesley Chapel, Zephyrhills) voiced opinions, and an executive from a local utilities company also provided input. Several commenters expressed support for using disaster funds to improve critical public infrastructure. For instance, one

resident approved of plans to invest in public facilities like parks and recreation, and a utility executive noted that the County's Action Plan was "great" but emphasized the need to upgrade aging infrastructure. He highlighted a critical need to relocate two older electrical substations out of harm's way and asked how the County intends to protect such vital utilities before the next storm. Another resident suggested working with state environmental authorities (the Florida DEP) to fix problems in impaired drainage basins. A New Port Richey commenter inquired if CDBG-DR funds could be used to extend the Coastal Barrier Resources System along the coast (citing a gap from the Anclote River up to Crystal River) to mitigate storm surge. Additionally, one resident living just outside the Zephyrhills city limits pleaded for the County's help in dredging and clearing blockages from Zephyr Creek to prevent overflow, noting that maintenance had been neglected in that area.

Several East Pasco residents stressed that inadequate drainage and sewer infrastructure contributed to the hurricane's impacts on their homes. They pointed out that many retention ponds in the Zephyrhills area are old, filled with silt, and have very little capacity. When those ponds overflow, the flooding affects public streets and properties beyond the pond owners' land. One resident shared that she lives on 6th Avenue in a semi-rural part of Zephyrhills and, despite paying for city water service, does not have access to city sewers; during the hurricane, her septic system collapsed and her yard flooded. She is worried that planned new development nearby could worsen future flooding if infrastructure isn't upgraded. Echoing this concern, another commenter felt that too much of the recovery budget was going toward housing when "the main problem is infrastructure." He argued that with proper drainage in place, his home would never have flooded to begin with. This resident asked whether the County has a concrete plan to fix longstanding water management issues, or if residents should expect the same flooding problems when the next hurricane hits. There was also a call to improve emergency preparedness: one community member observed that "emergency shelters" were listed as eligible projects and asked if the County could use CDBG-DR funds to build a dedicated hurricane shelter in the Zephyrhills area. Several attendees at that public meeting nodded in agreement with the idea of establishing an emergency shelter in that part of the county.

In addition to these, several written comments – particularly from the Trinity and southwest Pasco areas – described persistent flooding issues in their neighborhoods. Residents of communities like Thousand Oaks (Trinity) and Holiday Hills reported that their streets flood after heavy rains and that many homes took on water during recent storms (with some homes flooding repeatedly). These commenters implored the County to invest in stormwater management projects to protect their neighborhoods (for example, adding drainage capacity or pumps, or even constructing a dam or floodgate on the Anclote River to control storm surge). Some residents suggested that private roads and older subdivisions in low-lying areas need infrastructure upgrades as part of recovery. They emphasized that even inland communities (some 10–12 miles from the coast) experienced unprecedented flooding and need better protection.

County Response

Pasco County agrees that infrastructure upgrades are a vital part of long-term disaster recovery, and we appreciate the community's focus on these issues. The Action Plan does allocate funding for infrastructure and mitigation projects, and resident feedback helps guide us to the most pressing needs. The County will work closely with utility providers to protect critical facilities like electrical substations. For example, we will explore using CDBG-DR funds to relocate or elevate essential infrastructure out of flood-prone areas so that power and other services remain functional during future storms. We also acknowledge the support for improving public facilities such as parks, and we intend to repair and harden community spaces impacted by the hurricane. Furthermore, the idea of establishing an emergency shelter in the Zephyrhills area (or other location in the east side of Pasco) is well noted. Building or upgrading an emergency shelter is an eligible use of these funds, and the County will

seriously consider this proposal as we prioritize projects. Our goal is to ensure that all parts of Pasco County have safe refuge options and robust facilities in the event of another storm.

Many of the comments highlighted stormwater management and flood control, and the County is committed to making improvements in these areas. We have heard the concerns about clogged waterways like Zephyr Creek, and the County will explore options for these improvements with the appropriate agencies. By restoring proper flow in creeks and canals, we can help reduce neighborhood flooding. Similarly, we know that many retention ponds and drainage basins need attention. Pasco County will use disaster recovery funds (where eligible) to expand and improve drainage infrastructure – including refurbishing aging retention ponds and adding new stormwater capacity – especially in neighborhoods that experienced flooding during the storms. Even if certain ponds are privately owned, the resulting floods affect public roads and homes, so we will look for solutions that can be supported under the recovery program to benefit the wider community. We will also continue working with state partners like the Florida DEP to address impaired basins and ensure our water management improvements meet environmental standards.

In response to concerns about failing septic systems and limited sewer service, the County will evaluate options to help. Extending sewer lines or assisting with septic system upgrades in heavily impacted areas could be part of our infrastructure strategy, as better wastewater infrastructure will prevent health hazards and future flood-related failures. These types of projects can be complex and may require coordination with city utilities, but please be assured that they are on our radar.

Pasco County understands why some residents feel that infrastructure needs more attention relative to housing. Both aspects are critical to our recovery. While a large portion of the funding is dedicated to housing recovery (based on the results of our Unmet Needs Assessment and federal guidelines), we have set aside substantial resources for infrastructure projects aimed at flood prevention and community resilience. We want to assure the public that we are not ignoring the drainage and flooding issues that resulted from Hurricanes Idalia, Helene, and Milton. On the contrary, we are actively planning improvements so that when the next hurricane comes, our neighborhoods will be better protected. It should be noted that CDBG-DR funds must be used for recovery from Hurricanes Idalia, Helene, or Milton, the disaster for which this grant was awarded. However, many infrastructure improvements in affected areas will also benefit the county in future storms. Of course, large engineering projects can take time to implement, but we are committed to starting this work as soon as possible. Our engineering teams, along with experts like the U.S. Army Corps of Engineers, will design upgrades to reduce future flood risk. Through these efforts, we intend to significantly lessen the chance that residents will face the same flooding problems in the next storm.

Finally, the County appreciates the community's ideas and will incorporate them where feasible. For suggestions that cannot be carried out directly with this funding, we will explore alternative means to assist the community. Overall, improving infrastructure is a cornerstone of Pasco County's recovery plan. By investing in stronger utilities, better drainage, and emergency facilities, we aim to build back smarter and stronger. This approach will ensure a more inclusive recovery by protecting homes and lives across all our communities.

Economic Revitalization

Summary of Comments

Six comments (1 from a public hearing and 5 via web form; ~5% of total comments) were related to economic recovery for businesses and non-profits. One resident at a public hearing in Zephyrhills asked whether reimbursement would be available for non-profit organizations that incurred expenses or damage during the

disaster (for example, "could a non-profit that provided emergency services be repaid through CDBG-DR?"). The other comments came from small business owners describing their dire situation after the storm. In particular, the owners of a family-run café in downtown Dade City submitted multiple statements detailing the catastrophic damage their business sustained during a recent hurricane. They lost their roof and saw everything inside destroyed, requiring a complete gutting and rebuild of the building. They explained that their insurance did not pay out nearly enough to cover the losses, and their attempt to get an SBA disaster loan fell through, leaving them with a huge funding gap. This business – a beloved local market and café – is the owners' only livelihood, and they shared that they have invested everything into it. They pleaded for help to finish rebuilding and to avoid losing their business entirely. Their comments conveyed an urgent need for financial assistance or guidance, and an appreciation that helping small businesses with repairs is indeed an eligible use of CDBG-DR. They also noted, however, that the HUD process and waiting period for funding is very long, which is frustrating when they need help quickly.

In addition, a representative of a community arts organization (a historic theater in New Port Richey) reached out to highlight the cultural importance of their venue and the challenges they face. This commenter implicitly hoped that the theater, as a non-profit community asset, could be supported in the recovery.

County Response

Pasco County is committed to restoring and improving the local economy as part of the disaster recovery. The Action Plan includes support for small business and non-profit recovery programs to help the community bounce back. We have allocated a portion of our CDBG-DR funds to an Economic Revitalization Program aimed at assisting businesses and organizations that suffered losses from Hurricanes Idalia, Helene, or Milton. Although only a few public comments specifically addressed this category, we recognize from these examples how critical our local businesses and non-profits are to the community's recovery.

For the question about non-profits: organizations that were directly involved in disaster response or that suffered damage from the storm may be able to receive reimbursement assistance for eligible expenses; eligibility criteria will be outlined in our program guidelines. In addition, continued operating expenses that businesses or non-profits struggle to pay during the recovery period following application (such as rent, payroll, utilities, and other costs outlined in program guidelines) may be eligible for grants or forgivable loans to provide eligible entities working capital. Additionally, we encourage non-profits to collaborate with us – potentially as subrecipients or partners – so that their ongoing work can be funded and expanded to meet recovery needs. Pasco County greatly values the contributions of our non-profit community in disaster recovery, and we will include them wherever possible.

For small businesses like the Dade City café owners who shared their story: we understand how devastating storm damage can be to a family business. Our Economic Revitalization efforts will be inclusive, aiming to benefit small businesses, their employees, and the overall local economy. We plan to offer recovery assistance such as small business grants or low-interest loans that can help owners repair and reopen. We will continue to engage with affected businesses one-on-one – for example, connecting them with available resources, helping them navigate application processes, and coordinating with state or federal programs like the SBA. It is true that the HUD grant process can be lengthy, but we have been pushing forward so that once funds are approved, we can quickly roll out support. We want to get businesses like the Dade City café back on their feet as soon as possible.

It's important to note that CDBG-DR assistance must be tied to documented disaster damage for declared disasters (Hurricanes Idalia, Helene, and Milton). Businesses or organizations whose losses stemmed from other events (for instance, the 2023 storms some commenters referenced) would not be eligible under this particular

grant. That said, Pasco County is coordinating with state and federal partners to identify any other aid for those impacted by later storms. We are dedicated to helping all our local businesses recover, either through this program or other available means.

In summary, even though we did not receive many comments in this category, the input we did receive underscores why economic revitalization is a critical component of our Action Plan. Pasco County will continue to engage with local businesses, non-profits, and economic stakeholders to implement recovery programs that are fair and effective. We welcome ongoing input on economic needs and will ensure that our efforts benefit small businesses, workers, and all who contribute to Pasco County's economy. By helping local enterprises reopen and thrive, we not only restore services and jobs but also strengthen the community's resilience for the future.

Public Services

Summary of Comments

Nine comments (3 from public hearings and 6 from web submissions; ~7% of total) fell into the Public Services category, largely from local non-profit organizations or individuals working closely with vulnerable populations. The tone was generally positive and collaborative. A representative of Deaf and Hard of Hearing Services noted that the percentages of funding allocated in the plan aligned with expectations and emphasized that their organization's services would be available to assist throughout the recovery period. Another non-profit representative expressed gratitude that Pasco County's Action Plan recognizes the role of non-profits in disaster recovery.

At the same time, one resident involved with a local non-profit voiced concern about how recovery funds would be distributed between large corporations and community-based organizations. She urged the County to leverage partnerships in a way that empowers the local community and to "invest in our people, above and beyond charity work," rather than channeling all funds through big corporate contractors. Additionally, a resident from Zephyrhills asked whether CDBG-DR would offer any reimbursement for non-profits that incurred costs during the hurricane response – for example, if a non-profit provided emergency shelter or other services out of pocket, could they be paid back through the program? This question highlighted an interest in how the recovery programs might support or work with charitable organizations that stepped up to help after the storm.

There were also a few public service-related suggestions that fell outside typical disaster recovery. For instance, one commenter suggested using some of the funds to support animal services, noting that during major storms many pets become homeless when owners are displaced, and that helping the animal shelter system before, during, and after disasters would indirectly help families. Another individual talked about the need for improved public transportation in Pasco (longer bus hours, more bus shelters) to assist low-income workers.

County Response

Pasco County is grateful for the strong network of non-profit and service organizations that support our residents, and we appreciate the positive feedback and offers of assistance. The Action Plan indeed acknowledges the critical role of non-profits in disaster recovery. We plan to coordinate with organizations like Deaf and Hard of Hearing Services (and many others) to ensure that all residents – including those with disabilities or other special needs – including seniors - can access recovery resources. Public Services funding in our CDBG-DR allocation can be used for a range of supportive programs, and we will make sure these services are deployed effectively to help individuals and families recover.

We also hear and appreciate the concerns about how funds are distributed and the desire to invest in people at the community level. Pasco County is committed to leveraging local talent and organizations in our recovery efforts. This means we will seek out ways for non-profit agencies, community groups, and local businesses to participate in recovery programs. Whenever feasible, programs will be designed to empower the community – for instance, by funding non-profits to provide housing counseling, legal aid, or other recovery services to residents. Our goal is to go "beyond charity" by strengthening community capacity and making investments that have lasting benefits. In addition, we will maintain transparency about how funds are spent, so the community can see that resources are reaching the people who need them most.

Regarding the question of reimbursing non-profits for their hurricane-related expenses: we will clarify this in our program guidelines. In general, CDBG-DR funds are forward-looking and must be used for eligible recovery projects, which means they typically aren't designed to retroactively pay back organizations for emergency response costs that have already been covered. However, the County is eager to support non-profits in other ways. For example, if a non-profit organization had storm damage to its facility or wants to lead a new recovery initiative, they may be able to apply for assistance under our programs. We encourage non-profits to collaborate with us – as subrecipients or partners – so that their ongoing work can be expanded to meet recovery needs. In fact, some of our public services funding may be used to contract with local non-profits to provide disaster case management, counseling, or other services, thereby funding their work going forward. Pasco County will continue to value the input and involvement of our non-profit community, and we remain committed to a recovery that lifts up all segments of our population. The County will set expectations on all suggestions received and eligibility for public services funding in our forthcoming program guidelines.

Mitigation

Summary of Comments

Twenty-two comments (4 from public hearings, 18 from web submissions; ~18% of total) specifically addressed mitigation and long-term resiliency. These commenters were generally positive about Pasco County's mitigation focus but also highlighted important considerations and local issues. A New Port Richey resident raised a safety concern unrelated to flooding: she warned about fire hazards in the Anclote Park area due to fallen timber and storm debris that had accumulated, creating a potential "tinderbox" condition. Another speaker – a Dade City resident who had lived through Hurricane Katrina in New Orleans – said she was "shocked and excited" (in a good way) when reading the County's Action Plan, praising the thorough planning and hard work reflected in it. She mentioned that her elderly mother, a fixed-income resident of the Hickory Hills community, wants to elevate her home for flood protection; FEMA provided some grant money for an elevation project but not the full amount, and they cannot afford the required matching funds. This resident asked if Pasco's CDBG-DR disaster funds could be used to cover that local match portion to help make home elevations possible for people like her mother.

A third commenter, from just over the county line in Hernando County, expressed appreciation for Pasco's forward-thinking approach to planning and mitigation, noting that the County has engaged the U.S. Army Corps of Engineers for expertise. Her concern was about the unintended "cascading effects" of certain mitigation measures like home elevations. She gave an example: a new home built next to hers was elevated three feet above the base flood elevation, and since then her previously dry property has started to experience flooding. She urged the County to be mindful that every time land is elevated or filled, the displaced water must go somewhere else. This commenter implored that the program's planning takes these domino effects into account so that one neighborhood's protection doesn't inadvertently cause new flooding problems for neighbors.

Beyond those three, many of the other mitigation-related comments echoed concerns about flooding in specific areas and suggestions for big-picture solutions. Several commenters from the Trinity area (Thousand Oaks) and from Zephyrhills (Silver Oaks/Hidden Creek area) submitted detailed input on watershed management. One detailed comment described a 58-acre floodplain pasture in east Pasco that could be preserved or utilized to alleviate flooding for the Silver Oaks and Hidden Creek neighborhoods, and explained how runoff currently flows through that area toward Zephyrhills. The commenter urged the County to "get together" with all stakeholders and make use of that natural basin to prevent downstream flooding (mentioning ongoing efforts like pumping water to Geiger Pond and the need to improve drainage at Simons Road). These kinds of local insights underscore the importance of regional, watershed-based mitigation planning. Other residents suggested constructing new retention areas or reservoirs to catch runoff in heavy storms and exploring engineered solutions like pumps or gates on waterways (as noted in the Infrastructure section above).

County Response

Pasco County appreciates these mitigation-focused comments and the recognition of our planning efforts. We are strongly committed to reducing both current and future disaster risks across the county. In response to the fire hazard issue in Anclote Park: the County will coordinate with the appropriate agencies to remove storm debris (such as downed timber) that could fuel wildfires. Keeping our parks and natural areas safe is an important part of disaster recovery, and if hurricane debris remains, we will use available resources to clear it and protect nearby residents.

Home elevation and flood mitigation for individual properties are key strategies in our Action Plan. The County understands that federal and State programs - like FEMA's mitigation grants or FDEM's Residential Mitigation Program - often require a local or homeowner match, which can be a barrier for seniors and low-income families. We are exploring ways to use CDBG-DR funds to help homeowners leverage such programs – for example, by covering a required match so that a critical elevation or hardening project can move forward. If it is deemed eligible and feasible, the County would like to assist cases like the Hickory Hills homeowner mentioned, so that needed flood protection improvements aren't stalled due to lack of matching funds. Any such assistance would of course adhere to HUD's rules and regulations.

The point about the "cascading effects" of mitigation projects is very well taken. Pasco County is committed to holistic flood planning. We will work with hydrologists and engineers (including experts from the U.S. Army Corps of Engineers) to analyze how one area's changes might impact another. When designing elevation projects, new developments, or large-scale drainage improvements, we will enforce standards and review processes to make sure we are not unintentionally causing water to be pushed onto someone else's property. In practice, this means we'll look at drainage patterns for entire neighborhoods and watersheds, not just individual sites. If one home is elevated or a berm is built, we will consider additional measures (like improved stormwater infrastructure) to handle the runoff so that neighbors are not adversely affected. The County will be mindful of these domino effects in all mitigation planning.

Our goal is to improve overall resilience: every mitigation project will be evaluated for its broader impact, ensuring that we protect as many people as possible without creating new problems. Pasco County remains dedicated to forward-looking mitigation efforts – reducing fire risks, preventing flood damage, and working together with the community so that everyone shares in the benefits of a safer, stronger Pasco County.

Planning

Summary of Comments

Four comments (~3% of total; 1 from a public hearing, 3 via web) dealt with Pasco County's planning processes and the use of data in the recovery. One resident from Zephyrhills asked whether the County has performed any comparative analysis with other places that have suffered similar disasters (for example, looking at how New Orleans handled recovery after Hurricane Katrina) to learn how best to "build back better". This commenter was interested in whether we are applying lessons from other communities' recoveries to our own Action Plan. Another question – also raised by an engaged resident – was whether the County has conducted a root-cause or multi-variable analysis to determine the optimal use of funds for stabilizing future growth. In other words, did we dig into the underlying factors (across housing, infrastructure, land use, etc.) that made certain areas more vulnerable, and use that analysis to prioritize projects? There was a desire for data-driven decision making in how recovery resources are allocated.

Additionally, an individual who attended a Chamber of Commerce breakfast presentation offered to help with the planning effort. This person, a local business owner with a background in urban planning and economic geography, explained that their company builds custom data and AI solutions. They asked if there are any data products or analytical tools that the County could use to aid in decision-making, mentioning ideas like digital maps and multivariate models to optimize growth. Essentially, they volunteered their expertise and technology to assist the County in planning and implementing a constructive recovery.

It should be noted that no public comments specifically commented on the County's formal "Planning for a Better Future" section of the Action Plan – the comments in this category were more about ensuring we plan smartly and use all available knowledge. Many of these planning-related suggestions were woven into other categories during our analysis, but we summarize them here for completeness.

County Response

Pasco County values forward-thinking planning and data-driven strategies, and we appreciate these comments aimed at strengthening our planning approach. In developing our Action Plan, we have indeed looked at lessons learned from other disaster recoveries. The County consulted with disaster recovery experts and reviewed best practices from events like Hurricane Katrina and more recent hurricanes in Florida. This comparative insight helped us adopt strategies that worked elsewhere and avoid pitfalls observed in other recoveries. In short, we are not planning in a vacuum – we're building on years of knowledge from around the country to "build back better" here in Pasco.

Regarding analytical approaches: data analysis was a foundation of our Action Plan. We conducted an in-depth Unmet Needs Assessment to identify the sectors and areas with the greatest storm impacts. This is essentially a root-cause analysis of the disaster's effects – looking at factors like housing stock, infrastructure conditions, floodplain management, and social vulnerabilities that contributed to the outcomes. Using this analysis, we prioritized funding toward the root problems (for example, allocating funds to drainage improvements in areas that flooded, or to housing for populations that were most impacted). We will continue to use data and expert input as we implement the programs, to make sure funds are used in ways that truly increase the community's resilience and address underlying issues. In fact, our ongoing recovery program management involves cross-departmental coordination and input from engineers, planners, and subject matter experts to ensure we're considering all variables.

We also warmly welcome offers of assistance like the one from the Chamber event. Partnering with local experts and leveraging modern technology can only improve our efforts. If there are tailored data or AI tools that can help optimize our decision-making, the County is open to exploring them. Our team will be reaching out to follow up on that generous offer. By collaborating with community partners who bring additional skills and innovative ideas, we can make our recovery planning even smarter and more efficient.

Overall, thoughtful planning is key to an effective recovery, and Pasco County will carry this principle forward. Every aspect of the Action Plan – from housing to infrastructure to mitigation – benefits from careful planning and public engagement. We will keep the public informed and involved as we move from planning into implementation. By using the best data available, seeking community input, and being willing to adjust based on lessons learned, we are confident that our recovery programs will not only rebuild what was lost but also make Pasco County more resilient for the future.

Requirements

Summary of Comments

17 comments (11 from public hearings, 6 via web; ~14% of total) centered on the eligibility requirements and rules of the CDBG-DR programs. Several residents sought clarification on basic program definitions and criteria. For instance, one person asked for guidance on how interested parties (like contractors or organizations) can submit proposals or applications to participate in the recovery programs. Another individual wanted to know what HUD considers “moderate income” – essentially asking for the income thresholds that determine who qualifies as low- or moderate-income for aid. There was a question about whether living in a community governed by a Homeowners Association (HOA) would affect a resident’s eligibility for assistance, as well as an inquiry if CDBG-DR money could be used as a matching fund for other grants or programs (to amplify the reach of recovery projects).

Some commenters compared Pasco’s upcoming programs to other disaster recovery programs active in the state or region. Two residents emphasized that our CDBG-DR funds should be directed primarily toward the core needs of disaster victims – specifically, repairing, reconstructing, and elevating homes that were affected by the storm. Underlying these questions was a concern about fairness and outreach. One commenter noted that a lot of discussion is about low- to moderate-income (LMI) families and raised a worry that this group might not even be aware of the program yet could potentially receive more money than those who had insurance and “did everything right” to protect their homes. This perspective highlighted the importance of clear communication about program requirements and ensuring that all affected populations – including both LMI households and those who had insurance – understand how to apply and what help is available.

There were also a few personal pleas and examples embedded in these comments. One homeowner asked how to apply for help to repair or replace a mobile home that was never fixed after the storm. Another individual, who identified himself and provided an address in New Port Richey, said his house was destroyed by Hurricane Idalia and he still has nowhere to live – he wanted to know how to get assistance. A couple of commenters expressed frustration that they had applied for housing help in the past and been turned down, or that they felt others got aid while they did not. These sentiments reinforce how important it is for the County to explain who qualifies and why, in plain language, to avoid confusion or frustration.

County Response

We appreciate these questions about program requirements and will strive to make all guidelines as clear as possible. Pasco County will be publishing a detailed Program Manual and outreach materials to explain who is eligible and how to apply for each form of assistance. For community members interested in participating in recovery efforts (for example, builders, contractors, or non-profits looking to carry out projects), the County will issue Requests for Proposals (RFPs) and application instructions openly. We will provide guidance on how to submit proposals and will offer help – such as workshops or technical assistance – so that local organizations and businesses know how to get involved. Transparency and accessibility in the application process are a top priority for us.

In terms of income qualifications, "moderate income" is defined by HUD as households earning above 50% and up to 80% of the area's median income (AMI), adjusted for family size. This means the program will primarily assist low- and moderate-income families, in accordance with federal requirements. However, we want to reassure everyone that having a moderate or higher income, or having insurance, does not automatically exclude you from all assistance. Our programs are designed to address unmet needs from the hurricane. If you had insurance or a higher income but still have significant recovery needs that were not fully covered, you may still be eligible for certain programs. At the same time, we must ensure that the majority of the funds benefit LMI households, as they often have the fewest resources to recover on their own – this is a national objective for CDBG-DR funding. The County will conduct robust outreach to LMI communities – including those who may not be aware of the program – to make sure they know about the assistance available. We will also reach out to all affected groups (renters, homeowners, those with and without insurance) so that everyone understands the programs and has a fair chance to apply. No one will be left in the dark; clear information on eligibility (such as income limits, the requirement to have a disaster tie-back, proof of primary residence, etc.) will be shared through community meetings, our website, and direct communications.

For residents living in neighborhoods with HOAs: you can absolutely apply for help. Being part of an HOA does not disqualify a household from CDBG-DR assistance. The key eligibility factors will be related to your disaster damages and income, not the governance structure of your neighborhood. If your home was impacted by Hurricanes Idalia, Helene, or Milton, and you meet the other criteria, you remain eligible whether or not you have an HOA. Similarly, we have heard the question about using CDBG-DR funds as a "match" for other programs. The answer is yes – one of the advantages of CDBG-DR is that it can fill gaps and be used alongside other funding sources. Pasco County intends to leverage our grant to complement state and federal programs. For example, if there is a FEMA or state-administered rebuild program that doesn't cover the full cost of a necessary repair or elevation, our CDBG-DR program can potentially cover the remainder so the project can go forward. We will coordinate closely with other agencies to avoid any duplication of benefits while maximizing the impact of every dollar.

Lastly, we completely agree that the core mission of these funds is to repair and rebuild homes and infrastructure affected by the storm. In fact, the largest share of Pasco County's CDBG-DR allocation is budgeted for housing activities – including home repairs, reconstruction of destroyed homes, and elevations for flood mitigation – exactly as the commenters hoped. We remain focused on getting houses and communities restored. Other eligible uses – including infrastructure, economic recovery, and planning – are also important for our community's recovery, but housing is the top priority based on the results of our Unmet Needs Assessment. We will continue to communicate all program requirements in plain language and ensure a fair application process. Our commitment is that everyone understands how to seek assistance and that funds are distributed in accordance with federal

requirements and our Action Plan. If anyone has additional questions about eligibility or criteria, we encourage them to reach out to us – we are here to help guide residents through the process.

Timeline

Summary of Comments

Four comments (all from public hearings; ~3% of total) dealt with the timeline and speed of the recovery programs. A clear sense of urgency came through. One non-profit representative asked, "How can we move more quickly?" and suggested the County explore ways to involve local talent and labor in the recovery efforts to speed things up. Two residents in attendance wanted to know when they could actually see help on the ground. One individual simply asked about the timeline for the program launch, indicating that people are waiting for assistance to begin. Another resident from Wesley Chapel, whose friend's home in a closed-basin area took on four feet of water, pressed for specifics – he wanted to know how soon the programs will launch and how to apply for help once they do. All of these comments conveyed a pressing concern that recovery initiatives should proceed as fast as possible, given that serious damage has already occurred, and many residents are eager for aid.

County Response

Pasco County wholeheartedly agrees that getting recovery programs up and running quickly is critically important. We thank the community for emphasizing this point – we share your sense of urgency. The County is moving as fast as possible within the required process set by HUD. The Action Plan is a necessary step to unlock the funding – once the plan is approved by HUD (a step we expect to occur soon), we will immediately proceed to launch the various programs. We understand that families are waiting for assistance, so we have been working in advance on program designs and implementation plans. This way, when we get the official green light, we can hit the ground running. Our goal is to open applications and begin projects in the very near future. We will publicly announce the program launch timeline and eligibility details as soon as we are able, so that everyone knows when and how to seek help.

In the meantime, the County is not sitting idle. We are laying the groundwork by securing the necessary staff, contractors, and systems to administer these programs efficiently. Importantly, we plan to utilize local talent and contractors as much as possible in the recovery work. Doing so not only speeds up the process – since local builders and organizations are already here and understand the community's needs – but also helps our local economy by creating jobs. The County appreciates the patience of our residents and will continue to push for the fastest possible rollout. Every day, we are working to move from planning to action. By combining careful preparation with a commitment to speed, Pasco County aims to deliver recovery assistance to our community without unnecessary delay.

Our team truly understands that people's lives are on hold waiting for this help. We are accountable to you, our community, and we are dedicating all necessary resources to get these disaster recovery programs implemented. As of now, we anticipate being able to launch the first programs in the very near future (pending final HUD approval). No one will be left waiting longer than necessary. Pasco County will continue to communicate updates on the timeline. When we have concrete start dates, we will broadcast that information widely – through public notices, community updates, and direct outreach – so that everyone knows help is on the way and how to access it.

Miscellaneous

Summary of Comments

Seven comments (~6% of total) did not fit neatly into the categories above, touching on broader or unique issues. One resident asked whether the County has performed any comparative analysis with other disaster-struck places (like post-Katrina New Orleans) – this was addressed in the Planning section, but it reflects a general interest in how Pasco is benchmarking its recovery plan against best practices. Another question was whether CDBG-DR funds could be used to evaluate or improve the effectiveness of County departments themselves – essentially suggesting an internal review or capacity-building effort to ensure that local government is fully prepared to utilize the disaster funds efficiently. (For example, one commenter recommended upgrading the County's emergency management computer systems to better handle disasters.) In response, a clarification was needed: by law, federal disaster dollars must be used for specific recovery projects and programs, not for internal administrative improvements, so such expenses are not eligible.

Additional feedback touched on the allocation of the budget and general trust in the County. One commenter pointed out that the budget for Administration in the Action Plan is relatively high (observing that it was about one-third of the amount dedicated to Mitigation) and questioned why the administrative allocation was set so high. In contrast, another attendee offered praise – a resident living on the Wesley Chapel/Zephyrhills border thanked County staff for doing a great job listening to residents and acknowledged that the County is doing the best it can with the funding available. This supportive comment reflected understanding of the challenges the County faces and an appreciation for its efforts.

County Response

Pasco County appreciates the wide range of ideas and questions raised in these miscellaneous comments. As noted in the Planning response, we have looked at lessons learned from other recoveries and consulted experts so that we can adopt proven strategies and avoid past mistakes. We are continuously striving to improve our own processes as well. Regarding the question of using CDBG-DR funds to evaluate County departments: by law, these federal dollars must be used for specific recovery projects and programs, not for internal administrative studies or general government upgrades. That means we cannot directly spend disaster grant money on an operational review of our departments or on unrelated improvements like new county computer systems. However, we want to assure the public that we are absolutely committed to efficient management of this recovery effort. Even without using grant funds for it, the County continuously works to improve its internal processes. For this CDBG-DR grant, we have set up a dedicated team to oversee the projects, and we are monitoring our performance closely. We will adjust as needed to ensure the efficient use of all funds. In short, we are actively making sure that our departments collaborate and perform at the highest level to deliver the recovery programs. For this reason, we have allocated 5% of the total grant for Administration. This 5% is allowed by HUD per the Universal Notice that governs this allocation. We will use this for administrative costs and to cover any failed projects, so that failed projects do not need to be repaid through County funding. Together, this ensures we have the appropriate resources to fully support efficient and effective program delivery, while also protecting the County against any reimbursement costs that HUD may deem ineligible. The County plans to evaluate its budget and expenditures annually, and funds may be reallocated between programs as necessary.

Closing Comments

The County is grateful for the encouraging feedback from the resident who acknowledged our staff's hard work. We have strived to listen to the community throughout this process, and it's heartening to hear that residents feel heard. Pasco County will continue to do our very best with the resources we have. Our team lives in this community, too, and we are deeply invested in its recovery. As we move forward, we remain dedicated to a comprehensive, transparent, and accountable recovery process. We believe that by working together with our residents – listening to concerns, applying best practices, and managing funds responsibly – we can rebuild a stronger Pasco County and Better Future for everyone.

Appendix D: Standard Form 424

The County will enter Standard Form 424 here in the final submission of this Action Plan to HUD.

BOARD OF COUNTY COMMISSIONERS
AGENDA MEMORANDUM

COMMISSION DISTRICT: All **FILE NO.:** NI26-0809 **DATE:** 6/16/2026

SUBJECT: Library System Advisory Board/Library Cooperative Board Meeting Minutes — April 14, 2026

AGENDA SECTION: Noted Items

RECOMMENDED BOARD ACTION:

Receive and File

ATTACHMENT(S):

1. NI26-0809 - Library System Advisory Board-Library Cooperative Board Meeting Minutes - April 14 2026

Pasco County Library System
Library System Advisory Board (LAB) & Library Cooperative Board (COOP)
Tuesday, April 14, 2026
1:30 PM – 3:00 PM
Land O' Lakes Branch Library

MEETING MINUTES

I. CALL TO ORDER

The meeting was called to order and roll was called at 1:38 PM, on April 14, 2026, by Libraries Director, Sean McGarvey.

IN ATTENDANCE

Barbara De Simone, Representing Pasco County Commission District IV*
Doug Butler, Representing Pasco County Commission District V*
Ron Becker, Representing the City of New Port Richey*
Roz Fenton, Representing Countywide Friends of the Library*
Henry Riley, Representing the City of Dade City*
Susan Dillinger, Representing Pasco County At Large (West side)
Peggy Panak, Director – Zephyrhills Public Library
Sean McGarvey, Director – Pasco County Libraries
Robert Speich, Librarian III Community Engagement – Pasco County Libraries
Alesha Hassard, Project Coordinator II – Pasco County Libraries
Tanisha Otten, Administrative Assistant – Pasco County Libraries

VIRTUAL

Richard Hayes, Representing Pasco County Commission District III*

EXCUSED

BJ Jarvis, Representing Pasco County Commission District I*
Elayne Bassinger, Representing Pasco County Commission District II*
Anjali Bedi, Representing the City of Zephyrhills*

*Indicates voting Member

II. PUBLIC COMMENT

No public attendees were present.

III. APPROVAL OF MEETING MINUTES – MARCH 10, 2026

A motion was made by Doug Butler, and seconded by Barbara DeSimone, to accept and file meeting minutes from March 10, 2026.

IV. OFFICER/COMMITTEE REPORTS

A. CITY OF ZEPHYRHILLS – PEGGY PANAK

1. The Daughters of the American Revolution (DAR) are still partnering with the Library and doing book readings. The books will be sent to the library in Dade City afterward, and the DAR will be participating in the reading program at that branch as well.
2. Spring Break went well, and a program occurred every day of the week.
3. The city of Zephyrhills has put together a book called "Dogtown," which will be part of a story-writing contest for third-grade students.

B. CITY OF NEW PORT RICHEY – RON BECKER

1. The Friends of the New Port Richey Library hosted "The Lucky Nugget Casino Night," on February 28, 2026. This was a shared fundraiser with the Richey Suncoast Theatre, and the event was a success.
2. The Library's Internet Acceptable Use Policy was revised to be compliant with the Children's Internet Protection Act (CIPA).
3. The Touch-a-Truck event is happening on Saturday, May 30, 2026, and is anticipated to be largely attended.
4. E.L.R.O.Y. Mobile Library has been a success and is getting many visitors.

C. PASCO COUNTY LIBRARY NEWS

1. 250th Celebration of America Events
    a. The kick-off event is the Great American Farmer's Market – Saturday, May 16, 2026, at the Starkey Ranch Theatre Library Cultural Center.
    b. The series of events can be found on the Pasco County website at: Celebrating America's 250th.

V. UNFINISHED BUSINESS

A. "NATIONAL LIBRARY WEEK"

1. "National Library Week" will occur during the week of April 19, 2026.
2. A resolution for "National Library Week" will be presented during the April 21, 2026, BOCC Meeting in New Port Richey, at the West Pasco Government Center.

VI. NEW BUSINESS

A. NATIONAL ARTS PROGRAM (NAP) – PASCO PERSPECTIVE

1. The fourth annual Pasco Perspective art show, sponsored by The National Arts Program, gives Pasco County team members, their immediate family, and volunteers the opportunity to professionally exhibit their artwork and compete for cash prizes.
2. The exhibit will be displayed at the West Pasco Government Center in New Port Richey, from August 3 through October 2, 2026.
3. Additional information for Pasco Perspective can be found on the Pasco County website at: Pasco County | The National Arts Program Foundation.

B. HUDSON LIBRARY UPDATES

1. Hudson Library Updates
    a. Disaster Recovery Grant Funding will be utilized for bringing all exterior windows up to code and replacing them with hurricane-resistant units. The roof will be repaired, and a new generator will be installed.
    b. The parking lot will be completely resurfaced and will include ADA parking at the front of the building.

C. FRIENDS OF THE LIBRARY MISSION

1. It was suggested that a new priority of the Countywide Friends be to organize and coordinate ways to increase membership.
2. A meeting to discuss ideas on how to increase membership will be planned for the near future. Other Friends groups are encouraged to attend as well.

VII. ANNOUNCEMENTS

Next Meeting is Tuesday, May 12, 2026, at 1:30 PM, at the New Port Richey Public Library.

VIII. ADJOURNMENT

The meeting was adjourned at 2:39 PM, on April 14, 2026, by Sean McGarvey.

BOARD OF COUNTY COMMISSIONERS

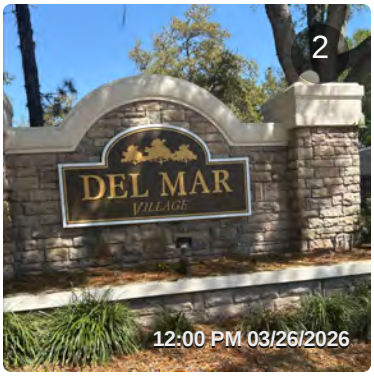
Clean out dead material in ferns and Shell Ginger on the ROW berm of Lexington Oaks Blvd. by the community playground.

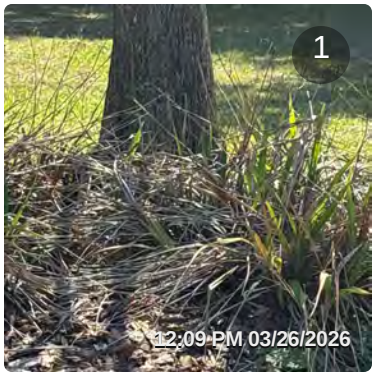


completed

Item 14

Assigned To: Yellowstone

There are a few annuals at the raised planters for the Del Mar Village monuments. However, they are lacking here compared to all the other raised planters throughout the district.

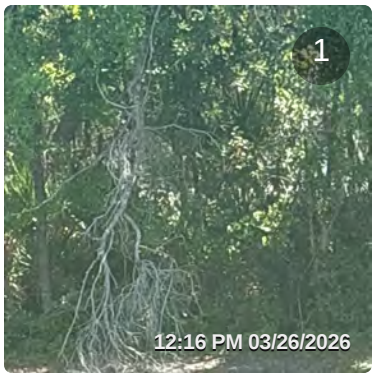


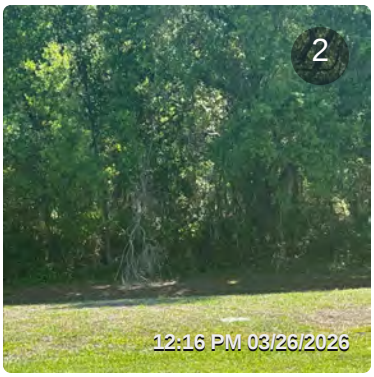
annuals are due for a rotation next month. Irrigation related

Item 15

Assigned To: Yellowstone

Clean out dead material in the Flax Lilies in bed by community tennis court off of War Admiral Dr.



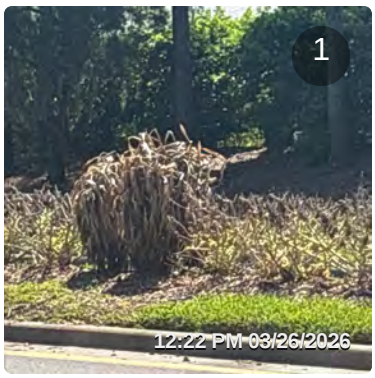


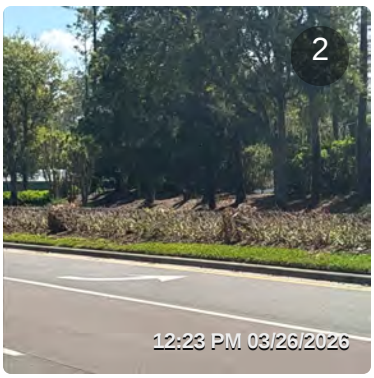
4/20/26

Item 16

Assigned To: Yellowstone

Noting a dead hanging branch along
the preserve line that should be considered for removal on War Admiral Dr. across the street from Commendable Loop.

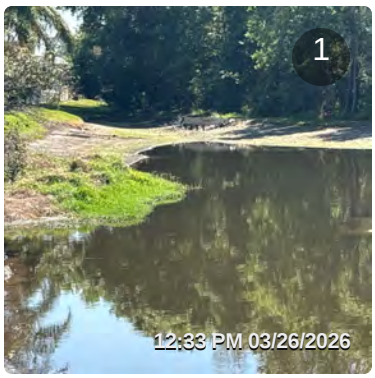




Item 17

Assigned To: Yellowstone

Need rejuvenation cut backs on the medians on Lexington Oaks Blvd. between the large round about to War Admiral Dr.



completed

Item 18

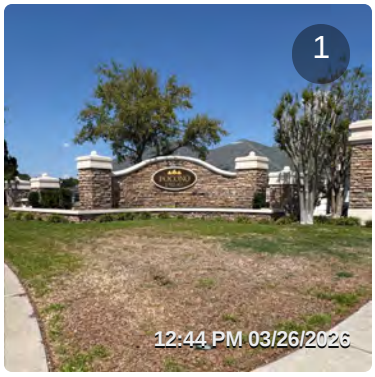
Assigned To: Aquatics

Treat grassy weeds in pond 18 B and remove a small branch.

Item 19

Assigned To: Yellowstone

Noting a large ant mound that needs treatment along the sidewalk of Aptitude Terr. near access point for pond 19 A.

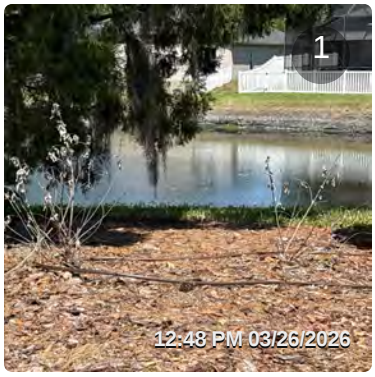


ant piles are ongoing issue. crew has bait

Item 20

Assigned To: Yellowstone and Ballenger

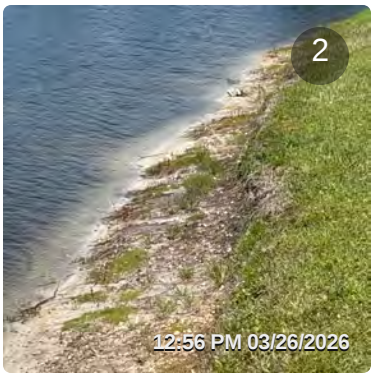
Diagnose and treat declining turf in front of the entrance and exit monuments of Pocono Village. Ensure irrigation is working properly here. This is the intersection of Riva Ridge Dr. and Lexington Oaks Boulevard.



Item 21

Assigned To: Yellowstone

Noting a few dead Viburnum that should be removed and considered for replacement on Lexington Oaks Boulevard right away by pond 20 A.



Item 22

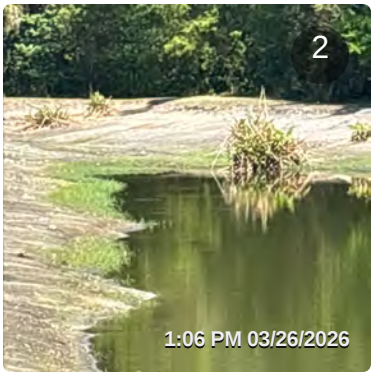
Assigned To: Aquatics

Overall, pond 22 A appears healthy. Need to treat small Weed starting to grow along the bank.

Item 23

Assigned To: Board

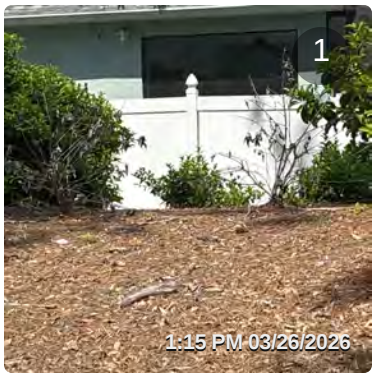
Noting several ponds throughout the district are very low. This one is 24 A.

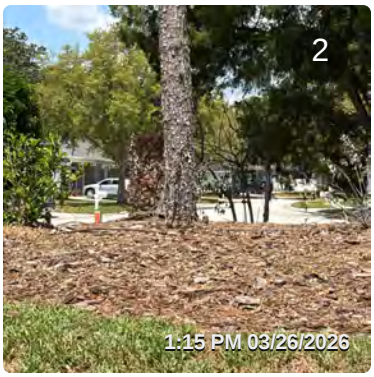


Item 24

Assigned To: Aquatics

Treat undesirable grassy weeds for pond 23 C.





Item 25

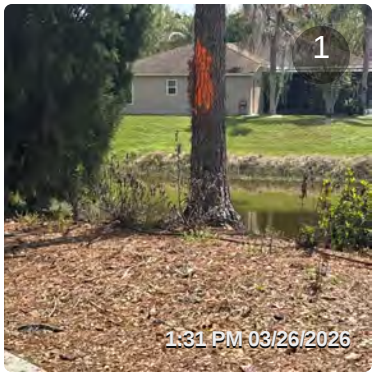
Assigned To: Yellowstone and Ballenger

Noting several dead recently installed Viburnum on Lexington Oaks Boulevard ROW across the street from Gato Del Sol Cir. Does the irrigation work properly here?

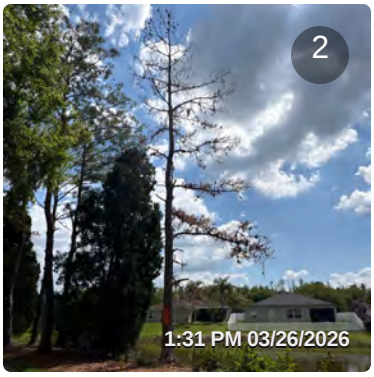
Item 26

Assigned To: Yellowstone

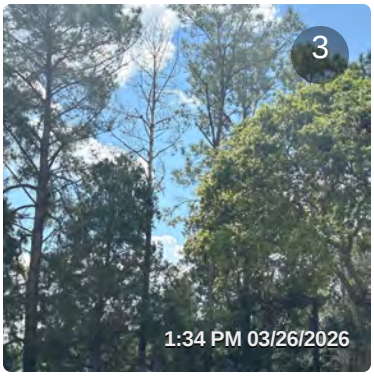
Treat weeds and general cleanup behind Northampton Village Monument on the exit side.



completed



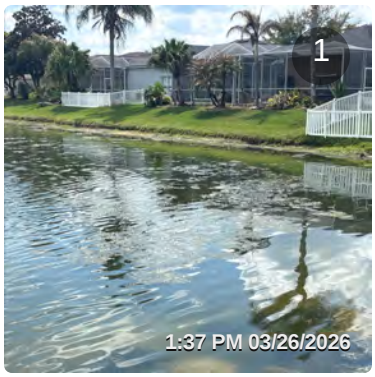
Item 27



Assigned To: Yellowstone

There are a few more dead viburnum on Lexington Oaks Boulevard between Riva Ridge Dr. and Spectacular Bid Dr. Also, there are a couple dead pine trees marked for removal. When will this be completed?

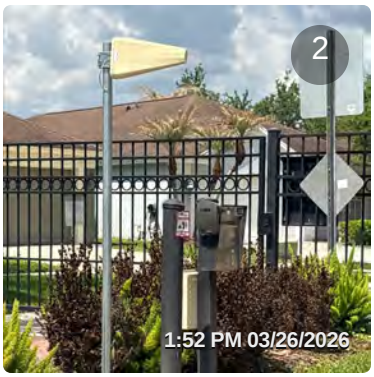
Lexington has a tree company I mark the trees and give a list of locations. this is completed



Item 28

Assigned To: Aquatics

Treat Algae starting to form on pond 33 A. Need to remove broken down pine branches in the pond on the north end. Treat weeds starting to grow along the bank.



Item 29

Assigned To: Yellowstone

Schedule a rejuvenation cutback for the plant material in median before entering gate of Cannonade Dr. Will these recover?

These have been cut in half might need to cut them lower

MINUTES OF MEETING
LEXINGTON OAKS
COMMUNITY DEVELOPMENT DISTRICT

The regular meeting of the Board of Supervisors of the Lexington Oaks Community Development District was held on Thursday, March 19, 2026 at 6:30 p.m. at the Lexington Oaks Clubhouse, 26304 Lexington Oaks Boulevard, Wesley Chapel, Florida.

Present and constituting a quorum were:

Rick Carroll	Chairman
Terry Bechtel	Vice Chairman
Butch Straber	Assistant Secretary
Scott A. Carlson	Assistant Secretary
William Palermo	Assistant Secretary

Also presents were:

Mark Vega	District Manager
Todd Wilhelmi	Site Manager

This is not a certified or verbatim transcript but rather represents the context and summary of the meeting. The full meeting is available in audio format upon request. Contact the District Office for any related costs for an audio copy.

FIRST ORDER OF BUSINESS **Roll Call**

The roll was called. A quorum was established.

SECOND ORDER OF BUSINESS **Pledge of Allegiance**

The Pledge of Allegiance was recited.

THIRD ORDER OF BUSINESS **Audience Comments**

A resident asked who had been driving a golf cart with security on it. It was clarified that the golf cart in question was not associated with the CDD.

Another resident asked for an update regarding Churchill irrigation. It was noted that Ballenger had been awarded the work.

FOURTH ORDER OF BUSINESS **Items for Consideration, Additions, Deletions**

None.

FIFTH ORDER OF BUSINESS **Staff Report**

A. Accounting Staff Report

The accountant will attend the April meeting and provide a cash flow report.

B. Engineer's Report

Mr. Brletic reported that the basketball court project had been completed.

C. Counsel's Report

Mr. Vega read an email from Ms. Sousa regarding the Ballenger Irrigation contract.

D. Site Manager's Report

i. Irrigation Report

Discussion ensued regarding ongoing irrigation and landscape items. The Board advised that Jona from Ballenger indicated the pressure logger was a high priority item and should be completed the following week.

Mr. Wilhelmi presented Mr. Ballenger's proposal for nine (9) viburnum bushes and 1,788 square feet of St. Augustine sod.

It was noted that Jona would meet with Mr. Wilhelmi on March 24, 2026, to review the clocks and the wet area near the entrance.

It was further noted that Jona would speak with Sean at Ballenger to follow up on the gate valve project, which had not yet begun.

Mr. Wilhelmi stated he would provide color samples at the workshop and would ask the painters to reprice the work using the same paint.

E. District Manager's Report

Mr. Vega reminded the Board that the regular meeting will be on Monday, April 16, 2026, at 6:30 p.m.

SIXTH ORDER OF BUSINESS **Consent Agenda**

A. Ratification of Proposal Irrigation Supplementation for Reclaimed Water

Tabled.

B. Minutes of February 19, 2026 Regular Meeting and March 5, 2026 Workshop
During discussion of March 5, 2026 Workshop Minutes, the Board requested that Item 8 be amended to reflect that Mr. Straber would have the article from September 2025 run again in the newsletter.

C. Review of the January 2026 Financials

On MOTION by Mr. Palermo, seconded by Mr. Straber the January 2026 Financials and the February 19, 2026 Regular

Meeting and March 5, 2026 Workshop was amended correcting the 8th Order of Business were approved as presented. 5-0

SEVENTH ORDER OF BUSINESS **Supervisors' Requests and Comments**

Mr. Bechtel requested a proposal for a 6ix foot fence next to the cart path.

Mr. Carlson stated that the playground questions should be addressed at the workshop. He also commented that the cart path matters need to be resolved.

Mr. Palermo had no requests.

Mr. Carroll had no requests.

Mr. Straber had no requests.

EIGHTH ORDER OF BUSINESS **Adjournment**

On MOTION by Mr. A. Carlson, seconded by Mr. Palermo, with all in favor, the meeting was adjourned at 7:49 pm.

_____ _____

Secretary/Assistant Secretary Chairman/Vice Chairman

Notes to the Financial Statements

Financial Overview / Highlights

- Total revenues are currently at 92.00% of the annual budget. 95.19% of special assessments have been collected through February.
- Total expenditures are at approximately 45.77% of the annual budget.

Proposal

8606 Herons Cove Pl
Tampa, FL 33647
Tim Gay (813) 334-4827

TO:

Lexington Oaks CDD
2005 Pam Am Cir; Suite 300
Tampa, FL 33607

JOB DESCRIPTION
Landscape Lighting Proposal for Lexington Oaks CDD This proposal is designed to enhance the nighttime appearance, safety and overall curb appeal of the Lexington Oaks entrance features. All fixtures are Bluetooth-enabled RGBW LED technology, allowing full color customization and control via SmartApp. All fixtures will be strategically placed to highlight signage, architectural elements and landscaping while maintaining a clean, uniform and professional lighting effect throughout the property. The system is designed to provide consistent illumination while minimizing glare and ensuring long-term performance with minimal maintenance.

ITEMIZED ESTIMATE: TIME AND MATERIALS	AMOUNT
Project Total	$36,500.00
Center Median 6 landscape fixtures on Center Median Sign (one on each column; one center) 3 crepe myrtles just past center median sign (1 fixture per tree) 2 oak trees down center median (2 fixtures per tree)	
Entrance 3 landscape fixtures on Entrance Sign (one on each column; one center) 4 landscape fixtures on lower planter bed wall 7 crepe myrtles behind entrance sign (1 fixture per tree) 1 column at end of planter bed (1 fixture) 6 oak trees behind race rail (2 fixtures per tree) 2 columns at end of fence rail (1 fixture per column) 1 oak tree at entrance roadway (2 fixtures)	
Exit 3 landscape fixtures on Exit Sign (one on each column, one center) 4 landscape fixtures on lower planter bed wall 7 crepe myrtles behind entrance sign (1 fixture per tree) 1 column at end of planter bed (1 fixture) 5 oak trees behind race rail (2 fixtures per tree) 2 columns at end of fence rail (1 fixture per column) 2 oak trees at exit roadway (2 fixtures per tree)	
TOTAL LIGHTS: 75 **TOTAL TRANSFORMERS: 5**	
Lighting System Components: • Professional-grade low-voltage Bluetooth LED fixtures • High-efficiency MR16 RGBW LED lamps with Bluetooth control • Commercial-grade transformers with lifetime warranty • Heavy-duty direct burial wire (12/2) and waterproof connections • Designed for long-term durability in Florida climate conditions	
Warranty & System Protection: 10-Year Warranty on Fixtures Life-time Warranty on Transformers 1-Year Service Warranty Requires 50% Deposit	
TOTAL ESTIMATED JOB AMOUNT	$36,500.00

* Price Includes Materials and Labor
* Remaining balance of project due upon receipt of invoice after installation.

WORK AUTHORIZATION AGREEMENT **Date: 5/5/26**

IN CONSIDERATION of the mutual covenants and promises contained herein, Inframark, LLC (the "Company") agrees to perform the following services for ***Lexington Oaks Community Development District*** (the "Client") **The services as set forth herein will begin effective July 1st, 2026**

I. DESCRIPTION OF SERVICES: The Company shall perform the Field Inspection Services set forth below for the Client's Infrastructure and Common areas, which are hereinafter referred to as the "Services":

Scope of Services

1. 1 Monthly Property Inspection

Conduct a comprehensive monthly inspection (1 Month) of all District-owned property and areas of maintenance responsibility.

2. Follow-Up Inspections

Perform follow-up inspections to verify completion and adequacy of previously identified items prior to regularly scheduled Board meetings.

3. Inspection Reports

Prepare and provide detailed monthly inspection reports, including:

- Photographs
- Analysis of Findings
- Conduct pre-application meetings with interested

proposers as necessary.

4. Vendor Deficiency Notification

Notify District vendors of any deficiencies in service or performance discovered during inspections.

5. Staff Coordination

Collaborate and coordinate with the District's on-site staff, if applicable, to support operations and ensure follow-through on maintenance activities.

6. Vendor Progress Monitoring

Monitor the progress of remedial work performed by vendors and provide progress updates to the District Board.

7. Budget Input

Provide input and recommendations to the District Manager for consideration during the annual budgeting process.

8. Project Proposal Procurement

Utilize industry experience to obtain competitive proposals for various District projects and services.

9. Procurement Assistance

Assist in drafting procurement documents, including:

Agreed to: _____ (please initial)

- Instructions to proposers
- Scope of Services
- Related materials for competitive bidding.
- Conduct pre-application meetings with interested proposers as necessary.

10. Meeting Attendance

Attend Board meetings and workshops as requested or required, to present findings, provide updates, and answer related questions.

II. CONTRACT PRICE:

The Client agrees to pay the Company for the Services provided under this Contract as follows:

Item Description	Monthly Rate	Total Cost
1 Field Inspections Monthly (as noted in Section 1)	$1,000.00	**$12,000.00**

Unless stated otherwise above, payments are due in accordance with the standard terms and conditions of this Contract.

If any unforeseen problems should be discovered by the Company during the performance of the Services, the Company shall provide the Client with notice of said problems as soon as reasonably possible and identify the nature of such problem and any additional cost that may be incurred. Any changes requested by the Client are not covered by this Contract, and must be add subsequently, at the cost agreed upon by both parties.

III. ITEMS TO BE PROVIDED BY THE CLIENT

A. Provide Access to Premises

THE STANDARD TERMS AND CONDITIONS on the pages following this Contract are agreed to be a part of this Contract.

INFRAMARK
INFRASTRUCTURE MANAGEMENT SERVICES

STANDARD TERMS AND CONDITIONS

Definitions. As used herein, the following terms shall have the following meanings:

- "*Applicable Law*" is defined as those laws, rules, regulations, codes, administrative, judicial and settlement orders, directives, guidelines, judgments, rulings, interpretations, permit conditions and restrictions or similar requirements or actions of any federal, state, local government, agency or executive or administrative body of any of the foregoing in each case that pertain to the (a) parties' respective responsibilities under this Contract, (b) the performance of the Services hereunder, and (c) health and welfare of individuals related to the Services and this Contract.
- "*Change of Law*" the occurrence of any of the events listed in (i) through (iv) below, which results or can reasonably be expected to result in a direct increase to the Company's cost of providing the Services:
  - (i) there is passed or promulgated any federal, state, or other local law, statute, ordinance, rule or regulation different from those existing on the date of the Contract; or
  - (ii) there is passed or promulgated any amendment to, or change in, any federal, state, or other local law, statute, ordinance, rule or regulation (including any applicable sales tax regulation) following the date of the Contract; or
  - (iii) there comes into existence an order or judgment of any federal, state, or local court, administrative agency or other governmental body following the date of the Contract containing interpretations of law relating to the provision of the Services by the Company that is inconsistent with generally accepted interpretations in effect on the date of the Contract; or
  - (iv) (a) the imposition of any condition different from those existing on the date of the Contract on the issuance or renewal of any official permit, license or necessary approval related to the provision of the Services by the Company, or (b) there shall be a suspension, termination, interruption, revocation, denial or failure of renewal of any official permit, license or necessary approval related to the provision of the Services by the Company, including without limitation such of the foregoing as are issued or approved by the USEPA, the Occupational Safety and Health Administration or any local Environmental and/or Building Department;
- "*Client*" means the party or parties identified as such in this Contract. In addition, the term "Client" specifically includes the party or parties to whom the Company provides Services and the party or parties responsible for paying the Company for Services provided pursuant to this Contract;
- "*Contract*" means these terms and conditions, any additional terms and conditions attached hereto and/or expressly incorporated herein directly or by reference including, without limitation, the Company's proposal to perform the Services to the extent such proposal is referenced or attached herein;
- "*Contract Price*" means the compensation to be paid by the Client to the Company in accordance with the terms of this Contract;
- "*Company*" means Inframark, LLC and its permissible successors and/or assigns. Any reference to actions taken or not taken by the Company shall include those actions taken or not taken on Company's behalf;
- "*Force Majeure*" means any act, event or condition to the extent that it adversely affects the cost or the ability of a party to perform its obligations in accordance with the terms of this Contract if such act, event or condition, in light of any circumstances that should have been known or reasonably believed to have existed at the time, is beyond the reasonable control and is not a result of the willful or negligent act, error or omission or failure to exercise reasonable diligence on the part of the party so affected. Force Majeure includes but is not limited to: (a) acts of God; (b) flood, fire, earthquake, hurricane or explosion; (c) war, invasion, hostilities (whether war is declared or not), terrorist threats or acts, riot or other civil unrest; (d) government order or law; (e) actions, embargoes or blockades in effect on or after the date of this Contract; (f) action by any governmental authority; (g) national or regional emergency; (h) strikes, labor stoppages or slowdowns or other industrial disturbances, other than those involving the affected parties employees; (i) shortage of adequate power or transportation facilities.
- "*Services*" means the services to be provided by the Company to the Client as identified in this Contract;

Disclosure of Information and Cooperation of the Parties. (a) The Client represents and warrants that it will furnish the Company with all items, if any, described in this Contract in a diligent and timely manner; (b) The Client further represents and warrants that it has disclosed, and it will continue to disclose, any and all information it now has, or may have in the future, to the extent that such information is relevant to the Company in performing its duties and obligations hereunder; (c) Each party hereto agrees that it will cooperate in good faith with the other and its agents, employees, representatives, officers, contractors and subcontractors to facilitate the performance of the mutual obligations set forth in this Contract.

Employee Safety. Company shall be responsible for the safety, efficiency and adequacy of its employees and any vehicles and/or machinery, equipment or materials furnished or utilized by the Company during the performance of Services. Company, however, shall not assume any obligation or incur any liability for personal injury or property damage caused by (i) unsafe site

Agreed to: _____ (please initial)

conditions not created by the Company or by any of its agents, employees and subcontractors, (ii) work being performed by other parties not related to the Company, (iii) the negligence or misconduct of the Client, and/or (iv) the negligence or misconduct of any third party not related to the Company.

Permits. Client shall be responsible for obtaining, maintaining and renewing, in Client's name and expense, all state, federal and local permits and licenses required for the Services.

Quality of Work and Materials. The Services to be provided hereunder shall be performed by qualified personnel in accordance with standards generally acceptable in Company's industry. Company shall use the effort, skill, diligence and quality control/quality assurance measures expected of a qualified firm performing services of a similar nature to the Services to be performed by the Company pursuant to this Contract. Materials furnished by the Company, if any, shall be current, of merchantable quality and in compliance with any technical standards or specifications incorporated into this Contract. When certain materials are specified by a reference standard, Company may select any suitable commercially acceptable material meeting the standard. The Company makes no representations or warranties as to the merchantable quality and in compliance with any technical standards or specifications of materials provided by third parties. COMPANY SHALL NOT BE RESPONSIBLE TO THE CLIENT FOR ANY GUARANTEES OR WARRANTIES OFFERED BY OTHERS IN CONNECTION WITH ANY EQUIPMENT, MATERIALS, AND SUPPLIES PROVIDED FOR THE SERVICES HEREUNDER. COMPANY MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WARRANTIES REGARDING ANY EQUIPMENT, MATERIALS, AND SUPPLIES, IF ANY, OR ANY WARRANTIES THAT MIGHT ARISE FROM COURSE OF DEALING OR USAGE OF TRADE.

Ownership of Documents and Inventions. (a) All tracing, specifications, computations, notes and other original documents as instruments of service shall, following the full payment of the Contract Price, become the property of the Client, provided however that the Company shall be entitled to keep copies of same; (b) All inventions, discoveries and copyright in work of authorship, including those in formative stages, made by the Company (either alone or jointly with the Client) shall from the time of conception or, in the case of works of authorship, from the time of creation be the property of Company.

Approval of Work. Services performed by Company shall be deemed approved and accepted by Client within a reasonable period (but in no event longer than thirty (30) days) after the Client has had the opportunity to review and/or inspect such services unless Client objects within such period by written notice specifically stating the details in which Client believes such services are incomplete or defective. Under all circumstances, final payment of the Contract Price shall be deemed as conclusive evidence that the Client has accepted all Services provided.

Compliance with Law. All parties shall comply with all Applicable Law in performing their respective obligations hereunder.

Contract Schedule. The date of completion provided in this Contract, if any, is approximate and is based upon prompt receipt by Company of all necessary information and data required to be supplied by the Client, and is subject to weather, groundwater conditions and unforeseen site conditions. Company will use all reasonable efforts to meet the stipulated completion date and completion of the Services within a reasonable time shall constitute the Company's full compliance with this Contract.

Default and Termination. Default and Termination. Either party may terminate this Contract by immediate written notice if the other has failed to comply with a material term, provided that the non-defaulting party has first given the defaulting party written notice to cure their default within forty-five (45) days ("Cure Period") and the defaulting party has not done so. If a default cannot be cured within the Cure Period days, the parties may agree an extension as long as the defaulting party provides evidence within the Cure Period that it has commenced a cure and is pursuing it diligently. In the event of any termination, Company shall be paid for all services rendered and materials supplied (including materials specifically manufactured/made for the Client that have yet to be supplied), if any, through the date of termination. For purposes of this section, the failure of the Client to pay Company in accordance with the payment terms of this Contract shall be considered such a substantial failure. In the event of a substantial failure on the part of the Client, Company, in addition to the right to terminate set forth in this paragraph, may also elect to suspend work until the default in question has been cured. No delay or omission on the part of either party in exercising any right or remedy hereunder shall constitute a waiver of any such right or remedy on any future occasion. The effectiveness of a termination by Client will be conditioned upon receipt by Company of such payment for all services rendered and materials supplied (including materials specifically manufactured/made for the Client that have yet to be supplied), if any, through the date of termination. If Client incurs costs for damages due to a default of the Company that results in termination of this Contract, Client may deduct such costs or damages from the final payment due to Company. Such

Agreed to: _____ (please initial)

deduction will not exceed the final payment owed to Company and will constitute a full and final settlement between Client and Company for any and all claims against Company by Client and a release by Client of any and all further claims against Company.

Additional Work. (a) All additional labor, materials, tools, bonds, insurance, equipment, licenses, taxes, transportation, surveys, engineering, other professional services and any additional item provided by or on behalf of the Company because of Force Majeure or a Change of Law shall constitute additional work extending beyond the scope of the Services to be provided by Company hereunder. Company shall be compensated for all such additional work commensurate with the appropriate unit prices and/or hourly rates indicated in this contract and if no such prices or rates are provided, Company shall be compensated for the fair and equitable value of such additional work in an amount reasonably agreeable to the parties; (b) The parties may add, delete, modify, alter, or accelerate the Services to be performed hereunder, including without limitation, order changes to the Services, or require the Company to perform additional services but only through a duly executed change or field order. All change and field orders shall be in writing and require the signature and acceptance by Company prior to becoming effective. Unless agreed to otherwise by the Company, all such change and field orders shall reflect the parties' agreement regarding price and proposed completion date.

Payment Terms. For any estimate over $2,000.00, Client shall pay the Company 50% of the estimated project price upon execution of this Contract and the remainder shall be due upon completion of the services. Unless specifically stated otherwise, all payments are due thirty (30) days from the date of invoice. Any payment delayed beyond the specified due date shall be subject to one and one-half percent (1.5%) per month interest on the unpaid balance.

Taxes. Client shall pay all property, franchise, sales, use and other taxes associated with the Services other than taxes imposed on Company's net income or Company's payroll taxes. The prices hereunder do not include sales, use, excise, ad valorem, property or other taxes, other than taxes based on income, now or hereafter imposed directly or indirectly, by any governmental authority or agency with respect to this Contract and the Services provided and materials furnished hereunder. Client shall pay directly or reimburse Company for any such taxes that Company may be required to pay, including without limitation, sales and/or use taxes that Company may be required to pay, under Applicable Law, in connection with Company's purchase or use, in performing the Services hereunder, of equipment, supplies, material and/or subcontracted services.

Indemnification. *TO THE MAXIMUM EXTENT PERMITTED BY LAW, EACH PARTY (THE "INDEMNIFYING PARTY") SHALL DEFEND, INDEMNIFY AND HOLD HARMLESS THE OTHER PARTY AND THEIR RESPECTIVE SUCCESSORS AND ASSIGNS (EACH IS REFERRED TO HEREIN AS AN "INDEMNIFIED PARTY") AGAINST ANY AND ALL LIABILITY FOR DAMAGES, COSTS, LOSSES, AND EXPENSES, INCLUDING REASONABLE ATTORNEY'S FEES, RESULTING FROM ANY CLAIM ASSERTED BY A THIRD PARTY AGAINST THE INDEMNIFIED PARTY FOR WRONGFUL DEATH, BODILY INJURY AND/OR PROPERTY DAMAGE, BUT ONLY TO THE EXTENT CAUSED BY THE WILLFUL OR NEGLIGENT ACTS OR OMISSIONS OF THE INDEMNIFYING PARTY.*

Company's Liability. The Company's maximum liability for all claims under this Contract shall not exceed an amount equal to the Contract Price for the year in which the claim arises. Notwithstanding any provision to the contrary contained in this Contract, in no event shall either party be liable, either directly or indirectly, for any special, punitive, indirect and/or consequential damages, including damages attributable to loss of use, loss of income or loss of profit even if such party has been advised of the possibility of such damages.

Client Instructions. Under no circumstances shall Company be responsible for any damages, losses, settlement, payment deficiencies, liabilities, costs and expenses arising directly or indirectly because of the execution or implementation of instruction or directions provided by the Client or any of its directors, officers, employees, agents, or representatives.

Client Information and Records. If any information, opinions, recommendations, advice, or other work product or any data, information, procedures, charts, spreadsheets, logs, instruments, documents, plans, designs, specifications, operating manuals and specifications, information, regulatory filings, permits, authorizations, licenses, maintenance records, or other records are provided by the Client or any third party acting on behalf the Client are provide to and used or relied on by Operator, the Client will be liable for any damages resulting directly or indirectly from such use and reliance.

Risk of Loss. Any losses or other liabilities resulting from theft, damage or unauthorized use of Client's property, by any party other than Company, shall be borne by the Client.

Force Majeure. Any event of Force Majeure that directly or indirectly causes a party to be unable to perform its obligations under this Contract shall not be deemed a breach of this Contract. The occurrence of such event shall suspend the obligations of the affected party for only so long as the impact of

Agreed to: _____ (please initial)

such event continues. The obligation to pay amounts due and owing shall not be suspended by such event. The party affected will use commercially reasonable efforts to mitigate the effect of the event.

Insurance. Company shall procure and maintain through the period of this Contract, at Company's own cost and expense (a) general liability insurance in the amount of one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) in the aggregate; and (b) worker's compensation insurance in accordance with all statutory requirements.

Governing Law. This Contract and performance under it shall be governed by and construed in accordance with the laws of the state in which the services are performed.

Dispute Resolution. In the event of any disputes, the parties shall first attempt to resolve the situation by good faith discussions in a timely manner. If the dispute cannot be resolved within forty-five (45) days, the parties shall mediate their dispute before a mediator acceptable to both parties, if they cannot agree, they shall ask the Director of the Federal Mediation and Conciliation Service to nominate a mediator. The parties shall bear their own costs of the mediation but the parties shall share equally the costs of the mediator and the mediation facilities. If the parties are unable to resolve any disputes through good faith discussions or mediation, either party may request that such dispute be submitted for binding arbitration, which shall be governed by the rules of the American Arbitration Association or such other rules as the parties may agree. The parties agree that any judgment issued as a result of arbitration may be entered in the court having jurisdiction thereof. The parties agree that arbitration shall be the exclusive means to settle any dispute, controversy or claim arising out of this Contract.

Notices. Wherever under this Contract one party is required or permitted to give notice to the other party, such notice shall be in writing and shall be delivered personally, sent by facsimile transmission, sent by nationally recognized express courier or sent by certified, registered, first class mail, postage prepaid, but not by electronic mail. Notices required to be given to the parties by each other will be addressed to:

Company: Inframark, LLC
2002 West Grand Parkway North, Suite 100
Katy, Texas 77449
Attn: Chris Tarase

Attn: Board Chairman

Any such notice shall be deemed given when actually received when delivered either personally, by facsimile transmission or by express courier, or if mailed, on the fifth day after its mailing, postage prepaid to the recipient party.

Successors and Assigns. This Contract shall not be assigned by either party without the prior written consent of the other party unless such assignment shall be to a parent, subsidiary, affiliate, or successor of either Party or to the extent that any assignment, subletting or transfer is mandated by law or the effect of this limitation may be restricted by law. When written consent of a party is required, such consent shall not be unreasonably withheld.

Non-Solicitation. Neither party may actively solicit, for hire, the employees of the other party during the term of this Contract or for one (1) year after termination of this Contract.

Severability. Each and every provision of law and government regulation required by law to be inserted in this Contract shall be deemed to be inserted and this Contract shall read and shall be enforced as though so included herein, and if through mistake or otherwise any such provision is not inserted or is not correctly inserted, then upon the application of either party, this Contract shall be deemed to be amended to make such insertion or correction. If this Contract contains any unlawful provision, the same shall be deemed of no effect and shall, upon the application of either party, be deemed stricken from this Contract without affecting the binding force of the remainder.

No Third-Party Beneficiaries. This Contract is entered into solely between and may be enforced only by the Company and Client; and this Contract shall not be deemed to create any rights in third parties, including clients, suppliers, or customers of a party, or to create any obligations of a party to any such third parties.

Construction of Agreement. Whenever the context requires, the gender of all words used in this Contract includes the masculine, feminine, and neuter. All references to Articles and Sections refer to articles and sections of this Contract, and all references to Exhibits are to Exhibits attached to this all purposes. Captions, headings, cover pages, tables of contents and footnote instructions contained in this Contract are inserted only to facilitate reference and for convenience and in no way define, limit or describe the scope, intent or meaning of any

Agreed to: _____ (please initial)

provisions of this Contract. Words and abbreviations that have well known technical or trade meanings are used in this Contract in accordance with such recognized meanings.

Entire Agreement. The terms and conditions set out herein are the entire terms and conditions of this Contract and any prior or contemporaneous understandings or agreements, oral or written, are merged herein. There are no representations or warranties, agreements, or covenants other than those expressly set forth in this Contract. This Contract may be amended or modified and/or any right or obligation arising under this Contract may be waived from time to time only by a written instrument executed by the Client and the Company. The failure of the Company at any time to enforce any of the provisions of this Contract shall not constitute a waiver of such provision.

RESOLUTION 2026-03

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE LEXINGTON OAKS COMMUNITY DEVELOPMENT DISTRICT APPROVING A PROPOSED OPERATION AND MAINTENANCE BUDGET FOR FISCAL YEAR 2026/2027; SETTING A PUBLIC HEARING THEREON PURSUANT TO FLORIDA LAW; ADDRESSING TRANSMITTAL, POSTING, AND PUBLICATION REQUIREMENTS; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the District Manager prepared and submitted to the Board of Supervisors (**"Board"**) of the Lexington Oaks Community Development District (**"District"**) prior to June 15, 2026, a proposed operation and maintenance budget for the fiscal year beginning October 1, 2026, and ending September 30, 2027 (**"Proposed Budget"**); and

WHEREAS, the Board has considered the Proposed Budget and desires to approve the Proposed Budget and set the required public hearing thereon.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF THE DISTRICT:

1. **Proposed Budget Approved**. The Proposed Budget, including any modifications made by the Board, attached hereto as **Exhibit A** is hereby approved as the basis for conducting a public hearing to adopt said Proposed Budget.

2. **Setting a Public Hearing**. The public hearing on said Proposed Budget is hereby declared and set for Thursday, August 20, 2026, at 6:30 p.m. at Lexington Oaks Community Center located at 26304 Lexington Oaks Boulevard, Wesley Chapel, Florida 33544.

3. **Transmittal of Proposed Budget to Local General Purpose Government**. The District Manager is hereby directed to submit a copy of the Proposed Budget to Pasco County at least 60 days prior to the hearing set above.

4. **Posting of Proposed Budget**. In accordance with Section 189.016, Florida Statutes, the District's Secretary is further directed to post the Proposed Budget on the District's website at least 2 days before the budget hearing date and shall remain on the website for at least 45 days.

5. **Publication of Notice**. Notice of this public hearing shall be published in the manner prescribed by Florida law.

6. **Effective Date**. This Resolution shall take effect immediately upon adoption.

Passed and Adopted on May 21, 2026.

Attest: **Lexington Oaks Community Development District**

Budget Narrative
Fiscal Year 2027

REVENUES

Interest-Investments

The District earns interest income on their checking account and other Money Market accounts.

Room Rentals

The District receives revenue from the rental of the Clubhouse for events.

Interest-Tax Collector

The District earns interest income on the Non-Ad Valorem Assessments from the Pasco County Tax Collector's office.

Special Assessment-Tax Collector

The District will levy a Non-Ad Valorem assessment on all sold and platted parcels within the District to pay for the operating expenditures during the Fiscal Year.

Special Assessment-Discounts

Per Section 197.3632 and Section 197.162 of the Florida Statutes, discounts are allowed for timely payment of assessments collected by the Tax Collector and only when the Tax Collector is using the uniform methodology. The budgeted amount for the fiscal year is calculated at 4% of the anticipated Non-Ad Valorem assessments.

Other Miscellaneous Revenues

The District receives revenue from fitness lessons and various other small charges.

EXPENDITURES

Administrative

P/R-Board of Supervisors

Chapter 190 of the Florida Statutes allows for a member of the Board of Supervisors to be compensated for a meeting attendance and to receive $200 per meeting. The amount for the fiscal year is based upon all supervisors attending to the meetings.

Payroll-Other

ADP administration fees charged for the payroll services.

FICA Taxes

Payroll Social Security and Medicare taxes on Board of Supervisor's compensation. The budgeted amount for the fiscal year is calculated at 7.65% of the total Board of Supervisor's payroll expenditures.

Workers' Compensation

Workers' compensation is insurance that provides medical care and wage replacement for employees who are insured or become ill due to their job.

Unemployment Compensation

The payroll unemployment taxes are based on the first $7,000 of wages paid to each Board of Supervisor in a calendar year. The budgeted amount for the fiscal year is calculated at 0.10% of the total Board of Supervisor's payroll expenditures.

Budget Narrative
Fiscal Year 2027

Administrative (continued)

Professional Services-Arbitrage Rebate Calculation

The District will contract with an independent certified public accountant to annually calculate the District's Arbitrage Rebate Liability on the Series of Benefit Special Assessment Bonds. The budgeted amount for the fiscal year is based on standard fees charged for this service.

Professional Services-Dissemination Agent

The District is required by the Securities and Exchange Commission to comply with Rule 15c2-12(b)-(5), which relates to additional reporting requirements for unrelated bond issues. The budgeted amount for the fiscal year is based on standard fees charged for this service.

Professional Services-Engineering

The District's engineer will provide general engineering services to the District, i.e. attendance and preparation for monthly board meetings, review of invoices, and other specifically requested assignments.

Professional Services-Legal Services

The District's legal counsel will provide general legal services to the District, i.e. attendance and preparation for monthly meetings, review of operating and maintenance contracts, and other specifically requested assignments.

Professional Services-Management Consulting

The District receives Management, Accounting and Administrative services as part of a Management Agreement with Inframark Infrastructure Management Services, LLC. The budgeted amount for the fiscal year is based on the contracted fees outlined in Exhibit "A" of the Management Agreement.

Professional-Property Appraiser

The District reimburses the Pasco County Property Appraiser for her or his necessary administrative costs. This includes the annual fee of $150 to expedite the annual processing that elects to use the Uniform Method of Collection.

Professional Service-Special Assessment

Administrative costs to put the District's assessments on the Tax Roll Accounting Services.

Professional Service-Trustee Fees

The District issued Series of Special Assessment Bonds that are deposited with a Trustee to handle all trustee matters. The annual trustee fee is based on standard fees plus any out of pockets expenses.

Professional Service-Web Site Development

The District contracts services for a website at www.lexingtonoakscdd.org that contains information about the District.

Auditing Services

The District is required to conduct an annual audit of its financial records by an Independent Certified Public Accounting Firm. The budgeted amount for the fiscal year is based on the prior year actual amount.

Contracts-Website Hosting

The District is required to update their website and that data meets ADA standards. It has contracted with outside vendor to assure ADA guidelines are complying.

Website Compliance

The District is required to meet ADA standards. It has contracted with outside vendor to assure ADA guidelines are complying.

Budget Narrative
Fiscal Year 2027

Administrative (continued)

Postage & Freight
Postage and/or freight used for District mailings including agenda packages, vendor checks and other correspondence.

Insurance-General Liability
The District's General Liability & Public Officials Liability Insurance policy is currently with Florida Municipal Insurance. FMI Insurance specializes in providing insurance coverage to governmental agencies. The budgeted amount for the fiscal year is based on prior year premiums plus any anticipated market adjustments.

Printing & Binding
Copies used in the preparation of agenda packages, required mailings, and other special projects.

Legal Advertising
The District is required to advertise various notices for monthly Board meetings and other public hearings in a newspaper of general circulation.

Misc-Bank Charges
This includes bank charges and any other miscellaneous expenses that incurred during the year.

Misc-Property Taxes
Personal property tax on security equipment.

Misc-Assessment Collection Costs
The District reimburses the Pasco County Tax Collector for her or his necessary administrative costs. Per the Florida Statutes, administrative costs shall include, but not be limited to, those costs associated with personnel, forms, supplies, data processing, computer equipment, postage, and programming. The District also compensates the Tax Collector for the actual cost of collection or 2% on the amount of special assessments collected and remitted, whichever is greater. The budget for collection costs was based on a maximum of 2% of the anticipated assessment collections.

Misc-County Tax Bill
The District pays a Non-Ad Valorem Assessments for Pasco County Stormwater and Solid Waste Assessment (Clubhouse) to the Pasco County.

Office Supplies
Supplies used in the preparation and binding of agenda packages, required mailings, and other special projects.

Annual District Filling Fee
The District is required to pay an annual fee of $175 to the Department of Community Affairs.

Operations and Maintenance

Field

Contracts-Landscape
The District has a contract for landscape maintenance with Yellowstone Landscape that includes general mowing, edging and maintenance.

Contracts-Irrigation
The District has a contract for maintenance with Ballenger that includes maintenance for the irrigation system.

Budget Narrative
Fiscal Year 2027

Field (continued)

Insurance-Property
The District's Property Insurance policy is currently with Florida Municipal Insurance. FMI Insurance specializes in providing insurance coverage to governmental agencies. The budgeted amount for the fiscal year is based on prior year premiums plus any anticipated market adjustments.

R&M-Entry Feature
This is for the repairs and maintenance of the Entry Feature and monuments for the District.

R&M-Irrigation
The landscaping contract with Ballenger includes repairs and maintenance of the irrigation system in the District.

R&M-Mulch
The landscaping contract with Yellowstone Landscape includes maintenance of mulch.

R&M-Plant Replacement
The landscaping contract with Yellowstone Landscape includes maintenance for new sod, clean up, and new flowering.

R&M-Sidewalk Cleaning
District sidewalks pressure washing.

R&M-Annuals
The landscaping contract with Yellowstone Landscape includes maintenance of annuals.

R&M-Tree Replacement
The landscaping contract with Yellowstone Landscape to replace trees.

R&M-Tree Removal
This is for the expenditures related to removing damaged trees.

Misc-Contingency
The costs associated with any other items not budgeted for within another line item.

Capital Improvements
The District will replace existing equipment or purchase new equipment for District facilities.

Utilities

Contracts-Solid Waste Services
The District has a contract for solid waste services with Waste Services of Florida, Inc. for $145 per month.

Communication-Telephone-Field
This is for the telephone usage in the field by the District.
- Verizon phone line # (813) 907 8719

Electricity-General
Electrical usage for District facilities and assets. Budget based on historical costs.

Utility-Gas
This is for the gas pool heater.

Budget Narrative
Fiscal Year 2027

Utilities (continued)

Utility-Water & Sewer
The Water and Sewer expense is based on historical usage. Pasco County Utilities Service

Parks and Recreation – General

Payroll-Salaries
This is the payroll for the Parks and Recreation staff.

Payroll-Site Manager
This is the payroll for the Site Manager

FICA Taxes
The payroll taxes are calculated at 7.65% of the total Park & Recreation and Lifeguards payroll expenditures.

Workers' Compensation
This is the workers' compensation for the Parks and Recreation staff.

Unemployment Compensation
The payroll unemployment taxes are based on the first $7,000 of wages paid to each employee in a calendar year. The budgeted amount for the fiscal year is calculated at 0.10% of the Park & Recreation and Lifeguards payroll expenditures

Contracts-Pools
The District has a contract with Caribbean Bay Pool Service for $1,500 per month service of the pool at the Recreation Center.

Contracts-Security Alarms
The District has a contract for the monitoring of security alarms to assist with safety.

Contracts-Sheriff
The District has a contract with the Pasco Sheriff's Office that provides off duty sheriff's patrol.

Security Monitoring Services
The District has a camera system that monitors the property for safety.

R&M-Clubhouse
This includes the repairs and maintenance of the Clubhouse and its equipment at the Recreation Center.

R&M-Parks
This includes the repairs and maintenance of the Parks in the District.

R&M-Pools
This includes any non-contractual repairs and maintenance of the pool at the Recreation Center.

R&M-Fitness Center
This includes any repairs and maintenance ($135 per month) to the new fitness center.

Miscellaneous-Property Taxes
Personal property taxes for the security equipment lease for TIP Capital.

Security Enhancements
This is for non-contractual security equipment expenditures.

Budget Narrative
Fiscal Year 2027

Parks and Recreation – General (continued)

Holiday Lighting & Decorations
This includes holidays lighting decoration throughout the District.

Op Supplies-Clubhouse
This includes drinking water and miscellaneous supplies needed for the Recreation Center.

Flood Control / Stormwater Management

Budget Narrative
Fiscal Year 2027

REVENUES

Interest-Investments
The District earns interest income on their trust accounts with US Bank.

Special Assessment-Tax Collector
The District will levy a Non-Ad Valorem assessment on all sold and platted parcels within the District to pay for the operating expenditures during the Fiscal Year.

Special Assessment-Discounts
Per Section 197.3632 and Section 197.162 of the Florida Statutes, discounts are allowed for timely payment of assessments collected by the Tax Collector and only when the Tax Collector is using the uniform methodology. The budgeted amount for the fiscal year is calculated at 4% of the anticipated Non-Ad Valorem assessments.

EXPENDITURES

Administrative

Misc-Assessment Collection Costs
The District reimburses the Pasco County Tax Collector for her or his necessary administrative costs. Per the Florida Statutes, administrative costs shall include, but not be limited to, those costs associated with personnel, forms, supplies, data processing, computer equipment, postage, and programming. The District also compensates the Tax Collector for the actual cost of collection or 2% on the amount of special assessments collected and remitted, whichever is greater. The budget for collection costs was based on a maximum of 2% of the anticipated assessment collections.

Debt Service

Principal Debt Retirement
The District pays regular principal payments annually to pay down/retire the debt on May 1.

Interest Expense
The District pays interest expense on the debt on May 1 and November 1 of each year.

The Objective and Scope of the Audit of the Financial Statements

You have requested that Berger, Toombs, Elam, Gaines & Frank CPAs PL ("we") audit Lexington Oaks Community Development District's, (the "District"), governmental activities and each major fund as of and for the years ending September 30, 2026, 2027, and 2028, which collectively comprise the District's basic financial statements. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter for the years ending September 30, 2026, 2027, and 2028, and thereafter if mutually agreed upon by Lexington Oaks Community Development District and Berger, Toombs, Elam, Gaines & Frank.

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America ("GAAS") and *Government Auditing Standards* issued by the Comptroller General of the United States ("GAS") will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of controls.

The Responsibilities of the Auditor

We will conduct our audit in accordance with GAAS and GAS. Those standards require that we comply with applicable ethical requirements. As part of an audit in accordance with GAAS and GAS, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, based on an understanding of the entity and its environment, the applicable financial reporting framework, and the entity's system of internal control, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion;

2. Consider the entity's system of internal control in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit;

3. Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and

4. Conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for the reasonable period of time.

Because of the inherent limitations of an audit, together with the inherent limitations of controls, an unavoidable risk that some material misstatements may not be detected exists, even though the audit is properly planned and performed in accordance with GAAS and GAS. Because the determination of waste or abuse is subjective, GAS does not require auditors to perform specific procedures to detect waste or abuse in financial statement audits.

We will also communicate to the Board (a) any fraud involving senior management and fraud (whether caused by senior management or other employees) that causes a material misstatement of the financial statements that becomes known to us during the audit, and (b) any instances of noncompliance with laws and regulations that we become aware of during the audit (unless they are clearly inconsequential).

We will maintain our independence in accordance with the standards of the American Institute of Certified Public Accountants ("AICPA") and GAS.

The Responsibilities of Management and Identification of the Applicable Financial Reporting Framework

Management is responsible for:

1. Identifying and ensuring that the District complies with the laws and regulations applicable to its activities, and for informing us about all known violations of such laws or regulations, other than those that are clearly inconsequential;

2. The design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the District involving management, employees who have significant roles in internal control, and others where the fraud could have a material effect on the financial statements; and

3. Informing us of its knowledge of any allegations of fraud or suspected fraud affecting the District received in communications from employees, former employees, analysts, regulators, short sellers, vendors, customers or others.

Management is responsible for the required supplementary information ("RSI") which accounting principles generally accepted in the United States of America ("U.S. GAAP") require to be presented to supplement the basic financial statements.

The Board is responsible for informing us of its views about the risks of fraud, waste or abuse within the District, and its knowledge of any fraud, waste or abuse or suspected fraud, waste or abuse affecting the District.

Our audit will be conducted on the basis that management acknowledges and understands that it has responsibility:

1. For the preparation and fair presentation of the financial statements in accordance with U.S. GAAP;

2. To evaluate subsequent events through the date the financial statements are issued. Management also agrees that it will not conclude on subsequent events earlier than the date of the management representation letter referred to below;

3. For the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error;

4. For report distribution; and

5. To provide us with:

    a. Access to all information of which management is aware that is relevant to the preparation and fair presentation of the financial statements including information relevant to disclosures;

    b. Information relevant to the preparation and fair presentation of the financial statements, when needed, to allow for the completion of the audit in accordance with the proposed timeline;

    c. Additional information that we may request from management for the purpose of the audit; and

d. Unrestricted access to persons within the District from whom we determine it necessary to obtain audit evidence.

As part of our audit process, we will request from management written confirmation concerning representations made to us in connection with the audit, including among other items:

1. That management has fulfilled its responsibilities as set out in the terms of this Engagement Letter; and

2. That it believes the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Reporting

We will issue a written report upon completion of our audit of the District's financial statements. Our report will be addressed to the Board of Supervisors of the District. Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinion, or add an emphasis-of-matter paragraph or other-matter paragraph to our auditor's report.

If circumstances arise relating to the condition of the District's records, the availability of appropriate audit evidence or indications of a significant risk of material misstatement of the financial statements because of error, fraudulent financial reporting or misappropriation of assets which, in our professional judgement, prevent us from completing the audit or forming an opinion, we retain the unilateral right to take any course of action permitted by professional standards, including, but not limited to, declining to express an opinion or issue a report, or withdrawing from the engagement.

In addition to our report on the District's financial statements, we will also issue the following reports:

1. Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with GAS;

2. Auditor General Management Letter, if applicable; and

3. Report on Compliance with Section 218.415, Florida Statutes, if applicable.

Records and Assistance

During the course of our engagement, we may accumulate records containing data that should be reflected in the District's books and records. The District will determine that all such data, if necessary, will be so reflected. Accordingly, the District will not expect us to maintain copies of such records in our possession.

The assistance to be supplied by District personnel, including the preparation of schedules and analyses of accounts, will be discussed and coordinated with a designated individual, serving on behalf of management. The timely and accurate completion of this work is an essential condition to our completion of the audit and issuance of our audit report.

Non-audit Services

In connection with our audit, you have requested us to perform the following non-audit services:

1. Assistance in drafting the District's financial statements in accordance with accounting principles generally accepted in the United States of America, based on information provided by the District. While we will assist in drafting the financial statements, management retains responsibility for the financial statements, including their fair presentation, the selection and application of accounting principles, the accuracy and completeness of the underlying financial information, and for reviewing, approving, and accepting the financial statements prior to their issuance. Management is also responsible for establishing and maintaining effective internal controls relevant to the financial reporting process.

GAS independence standards require that the auditor maintain independence so that opinions, findings, conclusions, judgments, and recommendations will be impartial and viewed as impartial by reasonable and informed third parties. Before we agree to provide a non-audit service to the District, we determine whether providing such a service would create a significant threat to our independence for GAS audit purposes, either by itself or in aggregate with other non-audit services provided. A critical component of our determination is consideration of management's ability to effectively oversee the non-audit services to be performed. The District has agreed to designate an individual, serving on behalf of management, who possesses suitable skill, knowledge, and experience, and who understands the non-audit services to be performed and described above sufficiently to oversee them. Accordingly, the management of the District agrees to the following:

1. The District will designate a qualified individual, serving in a management capacity, who possesses suitable skill, knowledge, and experience to oversee the services;

2. The designated individual will assume all management responsibilities for the subject matter and scope of the non-audit service described above;

3. The District will evaluate the adequacy and results of the services performed; and

4. The District accepts responsibility for the results and ultimate use of the services.

GAS further requires that we establish an understanding with the District's management or those charged with governance of the objectives of the non-audit services, the services to be performed, the District's acceptance of its responsibilities, the auditor's responsibilities, and any limitations of the non-audit services. We believe this Engagement Letter documents that understanding.

Other Relevant Information

In accordance with GAS, a copy of our most recent peer review report has been provided to you, for your information.

Fees and Costs

Our fees for the services described above are based upon the value of the services performed and the time required by the individuals assigned to the engagement, plus direct expenses. Billings are due upon submission. Our fee for the services described in this letter for the year ending September 30, 2026 will not exceed $5,100 unless the scope of the engagement is changed, the assistance which the District has agreed to furnish is not provided, or unexpected conditions are encountered, in which case we will discuss the situation with you before proceeding. Our fee and the timely completion of our work are based on anticipated cooperation from District personnel, timely responses to our inquiries, timely completion and delivery of client assistance requests, timely communication of all significant accounting and financial reporting matters, and the assumption that no unexpected circumstances will be encountered during the engagement. Our fee for the years ending September 30, 2027 and 2028 will not exceed $5,100. All other provisions of this letter will survive any fee adjustment.

Use and Ownership; Access to Audit Documentation

The Audit Documentation for this engagement is the property of Berger, Toombs, Elam, Gaines, & Frank. For the purposes of this Engagement Letter, the term "Audit Documentation" shall mean the confidential and proprietary records of Berger, Toombs, Elam, Gaines, & Frank's audit procedures performed, relevant audit evidence obtained, other audit-related workpapers, and conclusions reached. Audit Documentation shall not include custom-developed documents, data, reports, analyses, recommendations, and deliverables authored or prepared by Berger, Toombs, Elam, Gaines, & Frank for the District under this Engagement Letter, or any documents belonging to the District or furnished to Berger, Toombs, Elam, Gaines, & Frank by the District.

Review of Audit Documentation by a successor auditor or as part of due diligence is subject to applicable Berger, Toombs, Elam, Gaines, & Frank policies, and will be agreed to, accounted for and billed separately. Any such access to our Audit Documentation is subject to a successor auditor signing an Access and Release Letter substantially in Berger, Toombs, Elam, Gaines, & Frank's form. Berger, Toombs, Elam, Gaines, & Frank reserves the right to decline a successor auditor's request to review our Audit Documentation.

In the event we are required by government regulation, subpoena or other legal process to produce our documents or our personnel as witnesses with respect to our engagement for the District, the District will, so long as we are not a party to the proceeding in which the information is sought, reimburse us for our professional time and expenses, as well as the fees and expenses of our counsel, incurred in responding to such requests.

Indemnification, Limitation of Liability, and Claim Resolution

The District and Berger, Toombs, Elam, Gaines & Frank agree that no claim arising out of, from, or relating to the services rendered pursuant to this engagement letter shall be filed more than two years after the date of the audit report issued by Berger, Toombs, Elam, Gaines & Frank or the date of this engagement letter if no report has been issued. To the fullest extent permitted by Florida law, our firm shall not be liable for any loss of profits, business interruption, or other consequential, incidental, or punitive damages. In all circumstances, the total liability for any claim arising from this engagement will not exceed the total amount of the fees paid by the District to Berger, Toombs, Elam, Gaines & Frank under this engagement letter. Notwithstanding the foregoing, nothing in this limitation of liability provision shall, or shall be interpreted or construed to, relieve the District of its payment obligations to Berger, Toombs, Elam, Gaines & Frank under this Engagement Letter.

Confidentiality

Berger, Toombs, Elam, Gaines & Frank is committed to the safe and confidential treatment of the District's proprietary information. Berger, Toombs, Elam, Gaines & Frank is required to maintain the confidential treatment of client information in accordance with relevant industry professional standards which govern the provision of services described herein. The District agrees that it will not provide Berger, Toombs, Elam, Gaines & Frank with any unencrypted electronic confidential or proprietary information, and the parties agree to utilize commercially reasonable measures to maintain the confidentiality of the District's information, including the use of collaborate sites to ensure the safe transfer of data between the parties.

Retention of Records

We will return to you all original records you provide to us in connection with this engagement. Further, in addition to providing you with those deliverables set forth in this Engagement Letter, upon request, we will provide you with a copy of any records we prepare or accumulate in connection with such deliverables which are not otherwise reflected in your books and records without which your books and records would be incomplete. You have the sole responsibility for retaining and maintaining in your possession or custody all of your financial and non-financial records related to this engagement. We will not host, and will not accept responsibility to host, any of your records. We, however, may maintain a copy of any records of yours necessary for us to comply with applicable law and/or professional standards or to exercise our rights under this Engagement Letter. Any such records retained by us will be destroyed in accordance with our record retention policies.

Termination

Either party hereto may terminate this Engagement Letter for any reason upon fifteen (15) days' prior written notice to the other party. In the event the District terminates this engagement, the District will pay us for all services rendered, expenses incurred, and noncancelable commitments made by us on the District's behalf through the effective date of termination.

Either party may terminate this Engagement Letter upon written notice if: (i) circumstances arise that in its judgment cause its continued performance to result in a violation of law, a regulatory requirement, applicable professional or ethical standards, or in the case of Berger, Toombs, Elam, Gaines, & Frank, our client acceptance or retention standards; or (ii) if the other party is placed on a Sanctioned List, or if any director or executive of, or other person closely associated with such other party or its affiliate, is placed on a Sanctioned List.

Neither Berger, Toombs, Elam, Gaines & Frank nor the District shall be responsible for any delay or failure in its performance resulting from acts beyond our reasonable control or unforeseen or unexpected circumstances, such as, but not limited to, acts of God, government or war, riots or strikes, disasters, fires, floods, epidemics, pandemics, or outbreaks of communicable disease, cyberattacks, and internet or other system or network outages. At the District's option, the District may terminate this Engagement Letter where our services are delayed more than 120 days; however, the District is not excused from paying us for all amounts owed for services rendered and deliverables provided prior to the termination of this Engagement Letter.

The parties agree that those provisions of this Engagement Letter which, by their context, are intended to survive, including, but not limited to, payment, limitations on liability, claim resolution, use and ownership, and confidentiality obligations, shall survive the termination of this Engagement Letter.

Miscellaneous

We may mention your name and provide a general description of the engagement in our client lists and marketing materials.

Each party hereto affirms it has not been placed on a Sanctioned List (as defined below) and will promptly notify the other party upon becoming aware that it has been placed on a Sanctioned List at any time throughout the duration of this Engagement Letter. The District shall not, and shall not permit third parties to, access or use any of the deliverables provided for hereunder, or Third-Party Products provided hereunder, in violation of any applicable sanctions laws or regulations, including, but not limited to, accessing or using the deliverables provided for hereunder or any Third-Party Products from any territory under embargo by the United States. The District shall not knowingly cause Berger, Toombs, Elam, Gaines & Frank to violate any sanctions applicable to Berger, Toombs, Elam, Gaines & Frank. As used herein “Sanctioned List” means any sanctioned person or entity lists promulgated by the Office of Foreign Assets Control of the U.S. Department of the Treasury and the U.S. State Department.

Any term of this Engagement Letter that would be prohibited by or impair our independence under applicable law or regulation shall not apply, to the extent necessary only to avoid such prohibition or impairment.

Governing Law

This Engagement Letter, including, without limitation, its validity, interpretation, construction, and enforceability, and any dispute, litigation, suit, action, claim, or other legal proceeding arising out of, from, or relating in any way to this Engagement Letter, any provisions herein, a report issued or the services provided hereunder, will be governed and construed in accordance with the laws of the State of Florida, without regard to its conflict of law principles, and applicable U.S. federal law.

Entire Agreement

This Engagement Letter constitutes the entire agreement between Berger, Toombs, Elam, Gaines & Frank and the District, and supersedes all prior agreements, understandings, and proposals, whether oral or written, relating to the subject matter of this Engagement Letter including any separate nondisclosure agreement executed between the parties.

If any term or provision of this Engagement Letter is determined to be invalid or unenforceable, such term or provision will be deemed stricken and all other terms and provisions will remain in full force and effect.

This Engagement Letter may be amended or modified only by a written instrument executed by both parties.

Electronic Signatures and Counterparts

This Engagement Letter may be executed in one or more counterparts, each of which will be deemed to be an original, but all of which taken together will constitute one and the same instrument. Each party agrees that any electronic signature of a party to this Engagement Letter or any electronic signature to a document contemplated hereby (including any representation letter) is intended to authenticate such writing and shall be as valid and have the same force and effect as a manual signature.

Acknowledgement and Acceptance

Each party acknowledges that it has read and agrees to all of the terms contained herein. Each party and its signatory below represent that said signatory is a duly authorized representative of such party and has the requisite power and authority to bind such party to the undertakings and obligations contained herein.

Please sign and return this letter to indicate your acknowledgment of, and agreement with, the terms of this Engagement Letter.

Sincerely,

Berger Toombs Elam
Gaines + Frank

Report on the Firm's System of Quality Control

December 4, 2025

To the Partners of Berger, Toombs, Elam, Gaines & Frank, CPAs, PL
and the Peer Review Committee of the Florida Institute of Certified Public Accountants

We have reviewed the system of quality control for the accounting and auditing practice of Berger, Toombs, Elam, Gaines & Frank, CPAs, PL, in effect for the year ended May 31, 2025. Our peer review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants (Standards). A summary of the nature, objectives, scope, limitations of, and the procedures performed in a system review as described in the Standards may be found at www.aicpa.org/prsummary. The summary also includes an explanation of how engagements identified as not performed or reported on in conformity with applicable professional standards, if any, are evaluated by a peer reviewer to determine a peer review rating.

Firm's Responsibility

The firm is responsible for designing and complying with a system of quality control to provide the firm with reasonable assurance of performing and reporting in conformity with the requirements of applicable professional standards in all material respects. The firm is also responsible for evaluating actions to promptly remediate engagements deemed as not performed or reported on in conformity with the requirements of applicable professional standards, when appropriate, and for remediating weaknesses in its system of quality control, if any.

Peer Reviewer's Responsibility

Our responsibility is to express an opinion on the design of and compliance with the firm's system of quality control based on our review.

Required Selections and Considerations

Engagements selected for review included engagements performed under *Government Auditing Standards*, including a compliance audit under the Single Audit Act.

As a part of our peer review, we considered reviews by regulatory entities as communicated by the firm, if applicable, in determining the nature and extent of our procedures.

Opinion

In our opinion, the system of quality control for the accounting and auditing practice of Berger, Toombs, Elam, Gaines & Frank, CPAs, PL , in effect for the year ended May 31, 2025 has been suitably designed and complied with to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Firms can receive a rating of pass, pass with deficiency(ies), or fail. Berger, Toombs, Elam, Gaines & Frank, CPAs, PL has received a peer review rating of pass.

ADDENDUM TO ENGAGEMENT LETTER BETWEEN BERGER, TOOMBS, ELAM, GAINES AND FRANK AND LEXINGTON OAKS COMMUNITY DEVELEOPMENT DISTRICT (DATED APRIL 13, 2026)

Public Records. Auditor shall, pursuant to and in accordance with Section 119.0701, Florida Statutes, comply with the public records laws of the State of Florida, and specifically shall:

a. Keep and maintain public records required by the District to perform the services or work set forth in this Agreement; and

b. Upon the request of the District's custodian of public records, provide the District with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law; and

c. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the Agreement if the Auditor does not transfer the records to the District; and

d. Upon completion of the Agreement, transfer, at no cost to the District, all public records in possession of the Auditor or keep and maintain public records required by the District to perform the service or work provided for in this Agreement. If the Auditor transfers all public records to the District upon completion of the Agreement, the Auditor shall destroy any duplicate public records that are exempt or confidential and exempt from public disclosure requirements. If the Auditor keeps and maintains public records upon completion of the Agreement, the Auditor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the District, upon request from the District's custodian of public records, in a format that is compatible with the information technology systems of the District.

Auditor acknowledges that any requests to inspect or copy public records relating to this Agreement must be made directly to the District pursuant to Section 119.0701(3), Florida Statutes. If notified by the District of a public records request for records not in the possession of the District but in possession of the Auditor, the Auditor shall provide such records to the District or allow the records to be inspected or copied within a reasonable time. Auditor acknowledges that should Auditor fail to provide the public records to the District within a reasonable time, Auditor may be subject to penalties pursuant to Section 119.10, Florida Statutes.

IF THE AUDITOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE AUDITOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT/CONTRACT, THE AUDITOR MAY CONTACT THE CUSTODIAN OF PUBLIC RECORDS FOR THE DISTRICT AT:

INFRAMARK
2005 PAN AM CIRCLE, SUITE 300
TAMPA, FL 33607
TELEPHONE: 954-603-0033

E-VERIFY REQUIREMENTS. Auditor shall comply with and perform all applicable provisions of Section 448.095, *Florida Statutes*. Accordingly, beginning January 1, 2021, to the extent required by Florida Statute, Auditor shall register with and use the United States Department of Homeland Security's E-Verify system to verify the work authorization status of all newly hired employees. The District may terminate this Agreement immediately for cause if there is a good faith belief that the Auditor has knowingly violated Section 448.091, Florida Statutes.

If the Auditor anticipates entering into agreements with a subcontractor for the Work, Auditor will not enter into the subcontractor agreement without first receiving an affidavit from the subcontractor regarding compliance with Section 448.095, *Florida Statutes*, and stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien. Auditor shall maintain a copy of such affidavit for the duration of the agreement and provide a copy to the District upon request.

In the event that the District has a good faith belief that a subcontractor has knowingly violated Section 448.095, *Florida Statutes*, but the Auditor has otherwise complied with its obligations hereunder, the District shall promptly notify the Auditor. The Auditor agrees to immediately terminate the agreement with the subcontractor upon notice from the District. Further, absent such notification from the District, the Auditor or any subcontractor who has a good faith belief that a person or entity with which it is contracting has knowingly violated s. 448.09(1), Florida Statutes, shall promptly terminate its agreement with such person or entity.

By entering into this Agreement, the Auditor represents that no public employer has terminated a contract with the Auditor under Section 448.095(2)(c), *Florida Statutes*, within the year immediately preceding the date of this Agreement.

MINUTES OF MEETING
LEXINGTON OAKS
COMMUNITY DEVELOPMENT DISTRICT

The regular meeting of the Board of Supervisors of the Lexington Oaks Community Development District was held on Thursday, April 16, 2026 at 6:30 p.m. at the Lexington Oaks Clubhouse, 26304 Lexington Oaks Boulevard, Wesley Chapel, Florida.

Present and constituting a quorum were:

Rick Carroll	Chairman
Terry Bechtel	Vice Chairman
Butch Straber	Assistant Secretary
Scott A. Carlson	Assistant Secretary
William Palermo	Assistant Secretary

Also presents were:

Mark Vega	District Manager
John Fowler	Field Inspection

Audience Members

This is not a certified or verbatim transcript but rather represents the context and summary of the meeting. The full meeting is available in audio format upon request. Contact the District Office for any related costs for an audio copy.

FIRST ORDER OF BUSINESS **Roll Call**

The roll was called. A quorum was established.

SECOND ORDER OF BUSINESS **Pledge of Allegiance**

The Pledge of Allegiance was recited.

THIRD ORDER OF BUSINESS **Audience Comments**

A resident addressed the Board regarding a gym incident that occurred on April 14, 2026.

A resident addressed the Board regarding maintenance concerns, including cleaning of flags, repair of the flag stand and noted that the air conditioning turns on at 8:30 p.m.

FOURTH ORDER OF BUSINESS **Items for Consideration, Additions, Deletions**

Addition: Item 6D – Ratification of Ballenger proposals for Mainline Repairs.

FIFTH ORDER OF BUSINESS **Staff Report**

A. Landscape Report – Yellowstone

Discussion regarding landscape and irrigation items was tabled to the next meeting.

B. Irrigation Report – Ballenger

Discussion of the irrigation report was included under item 6D.

C. Accounting Staff Report

i. Discussion of Cash Flow Report

Mr. Nesbitt presented the Cash Flow Report.

Board consensus that funds in the Truist account be swept into an interest-bearing account.

D. Engineer's Report

No report.

E. Counsel's Report

The letters were sent to 5639 and 5645 Riva Ridge Drive in regards to their fences blocking CDD access to the pond for maintenance.

F. Field Inspection Report

Mr. Fowler presented the field inspection report.

On MOTION by Ms. Bechtel, seconded by Mr. Caroll, with all in favor, the Field Agreement in the amount of $12,000 annually was approved as presented. 5-0

G. District Manager's Report

Discussion ensued regarding a Landscape Request for RFP, which will be handled by Mr. Fowler of Inframark.

On MOTION by Ms. Bechtel, seconded by Mr. Palermo, with all in favor, proceeding with the Landscape RFP was approved as presented. 5-0

SIXTH ORDER OF BUSINESS **Consent Agenda**

A. Minutes of March 19, 2026 Regular Meeting

B. Review of the February 2026 Financials

On MOTION by Mr. A. Carlson, seconded by Mr. Palermo the February 2026 Financials and the March 19, 2026 Regular Meeting were approved as presented. 5-0

C. Ratification of Blue Wave Lighting Proposal for Front Entrance for $36,500.00

D. Ratification of Ballenger Proposals for Mainline Repairs

On MOTION by Mr. A. Carlson, seconded by Mr. Palermo the Blue Wave Lighting Proposal for Front Entrance and Ballenger Proposals for Mainline Repairs were ratified as presented. 5-0

SEVENTH ORDER OF BUSINESS **Supervisors' Requests and Comments**

None.

EIGHTH ORDER OF BUSINESS **Adjournment**

On MOTION by Mr. A. Carlson, seconded by Mr. Palermo, with all in favor, the meeting was adjourned at 8:00 p.m.

_____ _____

Secretary/Assistant Secretary Chairman/Vice Chairman

MINUTES OF MEETING
LEXINGTON OAKS
COMMUNITY DEVELOPMENT DISTRICT

The workshop meeting of the Board of Supervisors of the Lexington Oaks Community Development District was held on Thursday, May 7, 2026 at 9:02 p.m. at the Lexington Oaks Clubhouse, 26304 Lexington Oaks Boulevard, Wesley Chapel, Florida.

Present and constituting a quorum were:

Rick Carroll	Chairman
Terry Bechtel	Vice Chairman
Butch Straber	Assistant Secretary
Scott A. Carlson	Assistant Secretary *via Zoom*
William Palermo	Assistant Secretary

Also presents were:

Mark Vega	District Manager
John Fowler	Field Inspection
Todd Wilhelmi	Site Manager

This is not a certified or verbatim transcript but rather represents the context and summary of the meeting. The full meeting is available in audio format upon request. Contact the District Office for any related costs for an audio copy.

FIRST ORDER OF BUSINESS **Open Workshop**

The roll was called. A quorum was established.

SECOND ORDER OF BUSINESS **Pledge of Allegiance**

The Pledge of Allegiance was recited.

THIRD ORDER OF BUSINESS **Audience Comments**

None.

FOURTH ORDER OF BUSINESS **Update on Water Buggy**

A Discussion ensued regarding the recently delivered Water Buggy. It was noted the trailer includes a 300-gallon tank; however, staff is currently limiting capacity to 150 gallons to maintain proper steering and weight control. Further discussion was held regarding irrigation deficiencies with Johan Ballanger and Josh Wright. Staff reported

irrigation is currently operating on Mondays, Tuesdays, and Fridays from midnight to 2:00 a.m. It was also noted the center median entrance project remains on hold due to irrigation-related issues.

FIFTH ORDER OF BUSINESS **Discussion of Appraisal**

Board members provided hard copies of appraisal documents to Mr. Vega for compilation.

SIXTH ORDER OF BUSINESS **Review of Landscape RFP**

Discussion ensued regarding updates to the Landscape RFP. Mr. Carlson stated he would provide Mr. Fowler with redlined revisions for special items included in the RFP. Board consensus was to proceed with advertisement of the RFP with an anticipated start date of August 1, 2026.

SEVENTH ORDER OF BUSINESS **Discussion on FY 2027 Budget**

Discussion ensued regarding the Fiscal Year 2027 budget. It was noted the high-water mark scenario would reflect an approximate 10% increase over the Fiscal Year 2026 budget.

EIGHTH ORDER OF BUSINESS **Gametime Playground Equipment – Discussion of Playground**

Brady Ruselink of Gametime Playground provided a presentation regarding playground equipment options and stated pricing information would be provided prior to the budget meeting.

NINETH ORDER OF BUSINESS **Supervisors' Requests and Comments**

Discussion ensued regarding the current gym suspension. Mr. Wilhelmi stated the suspension is scheduled to conclude on May 14, 2026.

Mr. Straber also provided information regarding obtaining a Southwest Florida Water Management District recreation booklet.

On MOTION by Mr. A. Carlson, seconded by Mr. Palermo, with all in favor, the meeting was adjourned at 11:02 a.m.

Secretary/Assistant Secretary Chairman/Vice Chairman

Notes to the Financial Statements

Questions about your bill?
verizon.com/business/support
800-922-0204

You may be eligible for a discount by enrolling in Auto Pay and paper-free billing, depending on your plan.

See eligible plans at verizon.com/business/payoptions

You can enroll in Auto Pay by:
1. Logging in or Registering for My Business at verizon.com/mybusiness.
2. Calling our Automated Payment Option Enrollment system at 866-868-3882.
3. Signing the remit slip below and mailing with check.

You can enroll in paper-free billing by:
1. Logging into your My Business Account > Billing > Manage payments > Paper-free billing.

Eligible payment methods for potential discount include:
1. Bank Account
2. Verizon Business Mastercard

Written notations included with or on your payment will not be reviewed or honored. Please send correspondence to:
Verizon Wireless Attn: Correspondence Team PO Box 15069 Albany, NY 12212

Automatic Payment Enrollment for Account: 820984375-00001 LEXINGTON OAK CDD

By signing below, you authorize Verizon Wireless to electronically debit your bank account each month for the total balance due on your account. The check you send will be used to setup Automatic Payment. You will be notified each month of the date and amount of the debit 10 days in advance of the payment. You agree to receive all Auto Pay related communications electronically. I understand and accept these terms. This agreement does not alter the terms of your existing Customer Agreement. I agree that Verizon Wireless is not liable for erroneous bill statements or incorrect debits to my account. To withdraw your authorization you must call Verizon Wireless. Check with your bank for any charges.

1. Check this box. 2. Sign name in box below, as shown on the bill and date. 3. Return this slip with your payment. Do not send a voided check.

Billing Information

Tax and Fees - This statement reflects the current taxes and fees for your area (including sales, excise, user taxes, etc.). These taxes and fees may change without notice. Visit spectrum.net/taxesandfees for more information.

Spectrum Terms and Conditions of Service – In accordance with the Spectrum Business Services Agreement, Spectrum services are billed on a monthly basis. Spectrum does not provide credits for monthly subscription services that are cancelled prior to the end of the current billing month.

Terms & Conditions - Spectrum's detailed standard terms and conditions for service are located at spectrum.com/policies.

Notice - Nonpayment of any portion of your cable television, high-speed data, and/or Digital Phone service could result in disconnection of any of your Spectrum provided services.

Important Messages

How cold weather impacts your bill
You may have noticed your natural gas bill is higher than usual. Cold weather across the nation caused natural gas prices to rise. Visit **PeoplesGas.com/AboutMyBill** to learn more and connect with resources.

NOTES

upon arrival got started by turning system on and checking all existing lights. labeled the ones not working. pulled all fixtures that were not working. we then moved some of the existing lifts that were working, to areas where light was needed that fixtures were pulled from earlier that were broken. adjusted all lights as needed and put lights it optimal locations. we also no feed the lights on the exit side of the street, moving the lights from one side of the tree to the other so they would no longer look like headlights and would not flare into drivers eyes anymore. coated away all debris near all fixtures. buried all lines that were exposed. capped off all locations where lights were removed and no lights were added in their place. changed all lights to 3k that had the ability to do so (2). checked all lights were working after job completion.

Item	Description	Quantity	Amount
Service Call	Service Call - Landscape Lighting Repair Front Entry Repair at Lexington Oaks Blvd & Wesley Chapel Blvd Remove 2 fixtures on post in grass on N side, no tree. Relocate to Replace failed fixtures at Oak Trees as possible. Remove posts, Cap and Replace connectors. Place 2" Hub Piece over and bury at grade to avoid mowers. S side similar area Oak Tree with two fixtures that are causing glare to resemble headlights. relocate 1 fixture to back side, aim and adjust other to where tree blocks it. add metal flashing as glare shield. Adjust floods on monuments to 3K output, done on the back 1 extra hour of service walk-thru clear plant material and aim remaining fixtures.	1	$125.00

You may be eligible for a discount by enrolling in Auto Pay and paper-free billing, depending on your plan.

See eligible plans at verizon.com/business/payoptions

You can enroll in Auto Pay by:
1. Logging in or Registering for My Business at verizon.com/mybusiness.
2. Calling our Automated Payment Option Enrollment system at 866-868-3882.
3. Signing the remit slip below and mailing with check.

You can enroll in paper-free billing by:
1. Logging into your My Business Account > Billing > Manage payments > Paper-free billing.

Eligible payment methods for potential discount include:
1. Bank Account
2. Verizon Business Mastercard

Written notations included with or on your payment will not be reviewed or honored. Please send correspondence to:
Verizon Wireless Attn: Correspondence Team PO Box 15069 Albany, NY 12212

Automatic Payment Enrollment for Account: 820984375-00001 LEXINGTON OAK CDD

By signing below, you authorize Verizon Wireless to electronically debit your bank account each month for the total balance due on your account. The check you send will be used to setup Automatic Payment. You will be notified each month of the date and amount of the debit 10 days in advance of the payment. You agree to receive all Auto Pay related communications electronically. I understand and accept these terms. This agreement does not alter the terms of your existing Customer Agreement. I agree that Verizon Wireless is not liable for erroneous bill statements or incorrect debits to my account. To withdraw your authorization you must call Verizon Wireless. Check with your bank for any charges.

1. Check this box. 2. Sign name in box below, as shown on the bill and date. 3. Return this slip with your payment. Do not send a voided check.

Description	Hours/Qty	Rate	Amount
Hawthorne			
Check gate operation 2/26/2026 - 2/27/2026 Inspected gate operators, found entry side gate had loose pulley on electric motor side due to set screws backing out. Added thread locker to set screw and re-tightened onto motor shaft, tested for function and reset cams for swing limit. Exit gate would not open on AK tail, found DC batteries were dead, replaced batteries and tested for function. Both gates operated properly several times. *Gate code 5050 was written in sharpie on code box.

Billing Information

Tax and Fees - This statement reflects the current taxes and fees for your area (including sales, excise, user taxes, etc.). These taxes and fees may change without notice. Visit spectrum.net/taxesandfees for more information.

Spectrum Terms and Conditions of Service – In accordance with the Spectrum Business Services Agreement, Spectrum services are billed on a monthly basis. Spectrum does not provide credits for monthly subscription services that are cancelled prior to the end of the current billing month.

Terms & Conditions - Spectrum's detailed standard terms and conditions for service are located at spectrum.com/policies.

Notice - Nonpayment of any portion of your cable television, high-speed data, and/or Digital Phone service could result in disconnection of any of your Spectrum provided services.

Insufficient Funds Payment Policy - Charter may charge an insufficient funds processing fee for all returned checks and bankcard charge-backs. If your check, bankcard (debit or credit) charge, or other instrument or electronic transfer transaction used to pay us is dishonored, refused or returned for any reason, we may electronically debit your account for the payment, plus an insufficient funds processing fee as set forth in your terms of service or on your Video Services rate card (up to the amount allowable by law and any applicable sales tax). Your bank account may be debited as early as the same day payment is dishonored, refused or returned. If your bank account is not debited, the returned check amount (plus fee) must be replaced by cash, cashier's check or money order.

Billing Practices - Spectrum Business mails monthly, itemized invoices for all monthly services in advance. A full payment is required on or before the due date indicated on this invoice. Payments made after the indicated due date may result in a late payment processing charge. Failure to pay could result in the disconnection of all your Spectrum Business service(s). Disconnection of Business Voice service may also result in the loss of your phone number.

Mr. Straber inquired regarding the status of the HOA sidewalk matter.

EIGHTH ORDER OF BUSINESS **Adjournment**

On MOTION by Mr. Palermo, seconded by Mr. Bechtel, with all in favor, the meeting was adjourned at 8:38 pm.

_____ _____

Secretary/Assistant Secretary Chairman/Vice Chairman

MINUTES OF MEETING
LEXINGTON OAKS
COMMUNITY DEVELOPMENT DISTRICT

The regular meeting of the Board of Supervisors of the Lexington Oaks Community Development District was held on Thursday, March 5, 2026 at 9:00 a.m. at the Lexington Oaks Clubhouse, 26304 Lexington Oaks Boulevard, Wesley Chapel, Florida.

Present and constituting a quorum were:

Rick Carroll	Chairman
Terry Bechtel	Vice Chairman
Butch Straber	Assistant Secretary
Scott A. Carlson	Assistant Secretary
William Palermo	Assistant Secretary

Also presents were:

Mark Vega	District Manager
Stephen Brletic	District Engineer *(via conference call)*
Todd Wilhelmi	Site Manager

The following item was discussed during March 5, 2026, Lexington Oaks Community Development District Workshop; no motions, votes or actions were taken. Any action to be taken on the items listed below will occur at a regular meeting of the Board of Supervisors.

FIRST ORDER OF BUSINESS **Open Workshop**

The workshop opened.

SECOND ORDER OF BUSINESS **Pledge of Allegiance**

The Pledge of Allegiance was recited.

THIRD ORDER OF BUSINESS **Audience Comments**

No Audience present.

FOURTH ORDER OF BUSINESS **Site Manager Report**

i. Consideration of Proposal Irrigation Supplementation for reclaimed water

The Board provided consensus to ratify the permit expense at a next meeting on the consent

agenda, in an amount Not-To-Exceed $3,000.

FIFTH ORDER OF BUSINESS District Engineering

Mr. Brletic reported that he is working with Superior regarding the basketball court resurfacing punch list.

FOURTH ORDER OF BUSINESS Site Manager Report

ii. Discussion of Ballenger Dead Plant Plan

Ballenger reported that irrigation zone 7 is currently down.

Ballenger will replace sod and 9 viburnum plants as part of the remediation plan.

iii. Discussion of Yellowstone Dead Plant Plan

Yellowstone advised that they will replace 6 viburnum plants.

During the discussion, Mr. Palermo exited the meeting.

iv. Marvelux Lighting Presentation

Mr. Schriver, CEO of Marvelux Lighting, provided a presentation to the Board.

Mr. Schriver advised that a proposal will be provided in three parts by our April 2nd workshop.

v. Discussion of Playground Repair Proposal – New Proposals Enroute

Tabled.

FIFTH ORDER OF BUSINESS District Engineering

This item was discussed earlier in the meeting.

SIXTH ORDER OF BUSINESS District Manager

i. Discussion on Workshop Time Change

Tabled.

ii. Discussion for Maintenance of Pond 27D

Mr. Vega updated the Board regarding resident concern related to Pond 27D.

SEVENTH ORDER OF BUSINESS District Counsel

No report.

EIGHTH ORDER OF BUSINESS Supervisors' Requests

Mr. Bechtel had no request.

Mr. Straber advised that he will send a letter to the newspaper regarding trees.

Mr. Carroll had no request.

The Board provided consensus to allow the County to install a chain-link fence around the lift station.

NINTH ORDER OF BUSINESS **Close Workshop**

There being no further business, the workshop has been declared adjourned at 11:55 a.m.

_____
Secretary/Assistant Secretary

Notes to the Financial Statements

Riana Giannico, Grants Coordinator for Support Services

Call to Order

Madam Chair Baracaldo called the meeting to order at 10:02 a.m.

Invocation and Pledge

Ms. Amanda Dobson, Deputy Clerk, gave the Invocation and led the Pledge of Allegiance to the Flag.

Welcome and Introductions

Madam Chair Baracaldo welcomed Mr. Chalmers as the representative for the Fire Rescue team.

Roll Call

Ms. Dobson called the roll. All members were present. Ms. Tracey Kaly arrived to the meeting at 10:05 a.m.

Public Comment

Madam Chair Baracaldo reviewed the procedures to be followed and called for public comment.

Mr. Darryl Henderson, Director of Advocacy for the Recovery Epicenter Foundation, spoke regarding the grand opening of the Out-Field, the Catcher's Mitt in Clearwater, a BayCare grant, benefits of the grant, funding from the Pasco Opioid Abatement Board, additional centers in other Counties, attendees that will tour the facility, and thanked the Committee for their support.

Mr. Nathan Cantie, Vice President of The Hope Shot, spoke regarding his appreciation to the Committee, the funding impact, goals moving forward, job placement, and sustainability.

Mr. Steve Blank, Regional Vice President of Operations of WestCare GulfCoast, spoke regarding his appreciation to the Committee for funds, the recreational vehicle for medication assisted treatment, addressing issues, and providing access to treatment.

Judge Crane spoke regarding WestCare, the Drug Court Ambassador Program, the children helped, and expressed his gratefulness to The Hope Shot.

New Business

1 Sunshine Requirements Training

The Committee approved to follow the best practice to abstain from making comments or voting on projects that would benefit their employers.

2 General Updates: Year 2, Project Status and Execution Rates

This item was for information only.

3 School Board Proposal for Year 2

The Committee approved to maintain the process as it exists now and allow the School Board to come back for Year 3 with Captain Roach absent from the vote and Ms. Hudson abstaining from the vote due to a conflict of interest.

4 Draft Calendar for Year 3

The Committee approved the draft calendar as the final calendar.

5 Year 3 Application Process

This item was for information only.

6 Reporting Requirements – ODMS

The Committee approved the Opioid Task Force to only approve annual allocations, the same information that will be communicated to subrecipients for Year 3 and beyond.

Approval of Minutes

7 07-22-24 OTF Meeting Minutes

This item was not discussed.

8 07-23-24 OTF Meeting Minutes

This item was not discussed.

Miscellaneous

There was none.

Old Business

9 Revisit Recommendations from Year 2

The item was withdrawn.

Committees Reports

Ms. Roghani Shareef noted the upcoming Opioid Committee Fatality Review.

Ms. Kaly spoke regarding the ribbon cutting event for the Behavioral Health Urgent Care opening, how long it had been open, the number of individuals needing services, and an overview of the services.

Madam Chair Baracaldo spoke regarding briefing leadership on uses of the Opioid Funding, the Tri-County meeting, that she would like to bring the Office of Disaster Recovery Services to the next meeting, and thanked staff for their support.

Adjournment

Madam Chair Baracaldo stated that their next meeting was April 29, 2025.

Ms. Kaly left the meeting at 11:24 a.m. and returned at 11:26 a.m.

Deputy Chief Letona left the meeting at 11:26 a.m. and returned at 11:31 a.m.

The meeting adjourned at 11:43 a.m.

Judge Crane spoke regarding WestCare, the Drug Court Ambassador Program, the children helped, and expressed his gratefulness to The Hope Shot.

New Business

1 Sunshine Requirements Training

Mr. Hale used a PowerPoint presentation to review the item and spoke regarding relationships with other Boards.

Madam Chair Baracaldo spoke regarding the scoring system, the recommendation, the best practice, and a conversation from last year about serving the community.

Ms. Kaley spoke regarding the grant review process, clarification on representatives, and communication.

The Committee approved to follow the best practice to abstain from making comments or voting on projects that would benefit their employers.

2 General Updates: Year 2, Project Status and Execution Rates

Madam Chair Baracaldo used a PowerPoint presentation and displayed items to review the item and spoke regarding reappointments, questions from applicants, a secondary meeting, priority of funding, general ideas shared with other Counties and the Board of County Commissioners, the allocation to BayCare's project, the gap in funding, the contingency left over from Year 1, interest rates, subrecipients, Year 1 and Year 2 projects, a proposed change to the application, and funding for Year 3.

Ms. Cathy Pearson, Assistant County Administrator for Public Services, spoke regarding her appreciation to Staff for their work on the Advisory Board, the timing of funding, applications, the process with the County, and the need to coincide with budgets.

Discussion was held regarding the Substance Use Sim in 2023; transportation; the Urgent Mental Health Care Center; project changes; the WestCare project; reimbursement-based grants; small organizations that may not have the capital;

projects from the County; briefing the Board; the nature of the process; advocating for projects; and a possible contingency.

This item was for information only.

3 School Board Proposal for Year 2

Madam Chair Baracaldo used a PowerPoint presentation to review the item and spoke regarding the original project, revamping what they submitted, an application out of cycle, and the reduced allocation.

Mr. Mark Clairmont, Pasco County School Board Health and Wellness Collaborative Specialist, spoke regarding the reduction in funding, the vaping project, and that the student government was creating their own campaign.

Ms. Judy Horvath, Division of Special Programs and Student Services, spoke regarding the cost of the vaping detectors, the new Superintendent and their initiative, the code of conduct, changes in the funding, and the need to resubmit.

Discussion was held regarding partial funding, Year 2 contingency; the application for Year 3 funding; the original non-recommendation; the revised scope; the budget; the cost of equipment and application District wide; funds from the BOCC on the original project; distribution; concerns with the adjustment; language on the application; and that they were applying for Year 3.

The Committee approved to maintain the process as it exists now and allow the School Board to come back for Year 3 with Captain Roach absent from the vote and Ms. Hudson abstaining from the vote due to a conflict of interest.

4 Draft Calendar for Year 3

Madam Chair Baracaldo used a PowerPoint Presentation to review the item and spoke regarding the application timeline, communicating with the community for the kickoff meetings, member's schedules, the weighted score sheet, and a subrecipient guide.

Discussion was held regarding schedules; availability; tutorials for small organizations; conflicts of interest; webinars; coordinating the application process; resources for applicants; Sims over the last two years; the press release; Hope Shot; a possible guide for presentations; the option for virtual; and revisions.

The Committee approved the draft calendar as the final calendar.

5 Year 3 Application Process

Madam Chair Baracaldo used a PowerPoint Presentation to review the item and spoke regarding feedback from applicants, kickoff meetings, registrations, timing concerns, process of evidence, the applicant's records, a multi-year request, what was covered by funds, reimbursement grants, terminology and explanations for applicants, a change from Budgetary Information to Financial Sustainability, the rubric, and working with Neighborly.

Discussion was held regarding blanks in the application; limiting to one thousand characters; and the diversified planning strategy.

This item was for information only.

6 Reporting Requirements – ODMS

Madam Chair Baracaldo used a PowerPoint Presentation to review the item and spoke regarding the new requirements from the Department of Children and Families, Year 1 and 2 subrecipients registering in the database, the format for non-traditional partners, what the State was requesting, a technical assistance training session, and monthly submittals.

Discussion was held regarding the data; DCF getting it monthly and quarterly for the Board; how many years were being funded; annual allocations; capital; the effective date; the term they have to report; and the next meeting.

The Committee approved the Opioid Task Force to only approve annual allocations, the same information that will be communicated to subrecipients for Year 3 and beyond.

Approval of Minutes

7 07-22-24 OTF Meeting Minutes

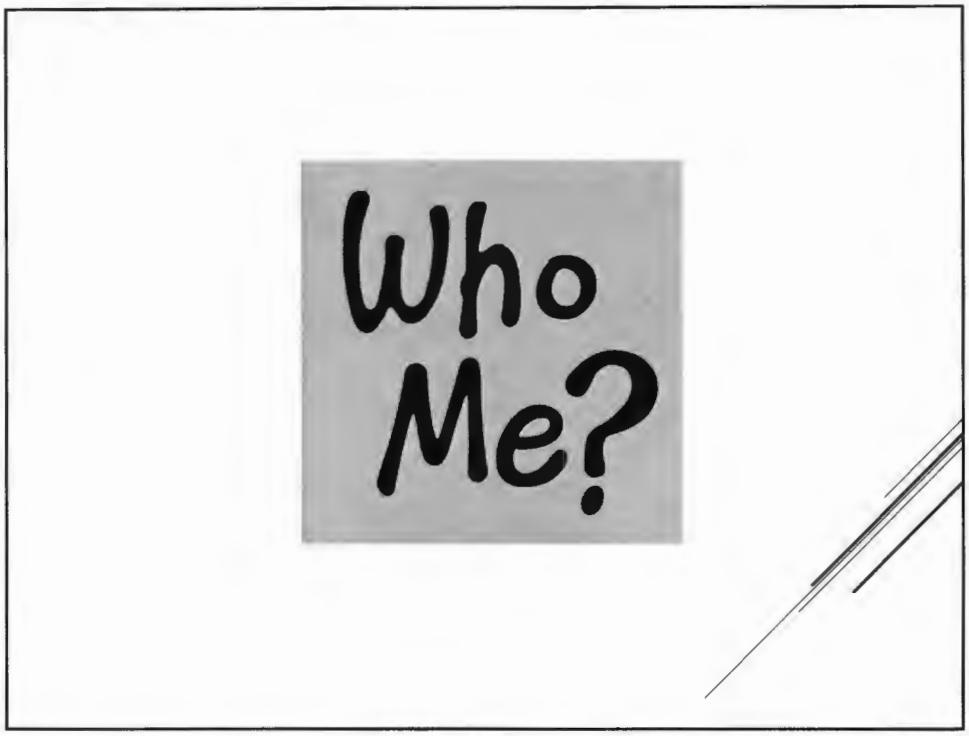
SUNSHINE LAW
Open Meetings



1

Florida's Government in the Sunshine Law provides a right of access to governmental proceedings at both the state and local levels.

Chapter 286, Florida Statutes

2

Who
Me?

3

YOU,
YES, YOU
Advisory boards created pursuant to law or ordinance or otherwise established by public agencies may be subject to the Sunshine Law even though their recommendations are not binding upon the agencies that create them.

4

Board members may not engage in private discussions

- **with each other**
- **about board business**
- **in person or by**
- **telephoning,**
- **emailing,**
- **texting or**
- **any other type of electronic communication (Facebook, etc.)**

5

In the absence of a statutory exemption, it applies to any gathering of two or more members of the same board to discuss some matter *which will foreseeably come before that board for action*.

6

While a board member is not prohibited from discussing board business with staff or a non-board member, these individuals may not be used as a "liaison" to communicate information between board members.

For example, a board member cannot ask staff to poll the other board members to determine their views on a board issue.

7

8

SCOPE OF THE SUNSHINE LAW

There are three basic requirements:

1) Meetings of public boards or commissions must be open to the public; and
2) Reasonable notice of such meetings must be provided; and
3) Minutes of the meetings must be prepared and open to public inspection.

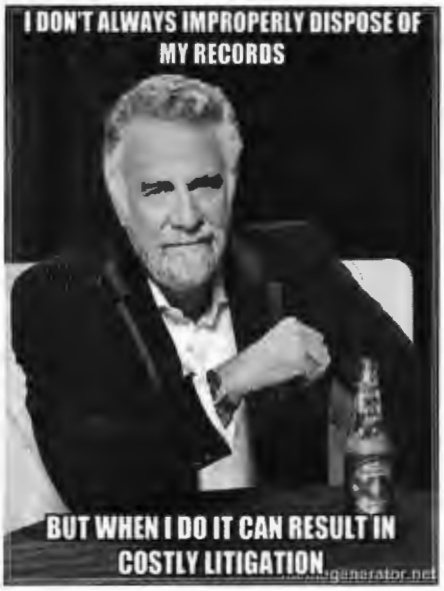
9

10

Public Right to:

- Attend
- Participate
- Be Heard

11



Florida's Public Records Law

It creates a right of access to inspect and/or have copies of public records.

Chapter 119, Florida Statutes

12

"Public records" means all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by any agency.

Fla. Stat. 119.011(12)

13

Public Records

- A public record is something made or received in connection with the transaction of official business by any agency.
- The form of the record is not important. If it meets the definition, it is a public record.
- Anything, in any format, that is intended to **PERPETUATE**, **COMMUNICATE**, or **FORMALIZE** knowledge.
- Includes DRAFTS of documents that are not in "final form."

14

15

CODE OF ETHICS FOR PUBLIC OFFICERS & EMPLOYEES

CHAPTER 112, PART III,
FLORIDA STATUTES

16

It is essential to the proper conduct and operation of government that public officials be **independent** and **impartial** and that public office not be used for private gain other than the remuneration provided by law.

LEGISLATIVE INTENT
SECTION 112.311, FLA. STAT.

17

Black's Law Dictionary defines ethics as "of or relating to moral action, conduct, motive or character... *professionally right or befitting*."

18

U.S. Supreme Court Justice Potter Stewart once said:

19

VOTING CONFLICTS OF INTEREST

No county, municipal, or other **local public officer** shall ***vote*** in an official capacity upon any measure which would **inure to his or her special private gain or loss; which he or she knows would inure to the special private gain or loss of any principal by whom he or she is retained or to the parent organization or subsidiary of a corporate principal by which he or she is retained**, other than an agency as defined in s. 112.312(2); **or which he or she knows would inure to the special private gain or loss of a relative or business associate of the public officer**.

20

VOTING CONFLICTS OF INTEREST

Such public officer shall, **prior** to the vote being taken, publicly state to the assembly the nature of the officer's interest in the matter from which he or she is abstaining from voting and, within 15 days after the vote occurs, disclose the nature of his or her interest as a public record in a memorandum filed with the person responsible for recording the minutes of the meeting, who shall incorporate the memorandum in the minutes.

Fla. Stat. 112.3143(3)(a)

21

VOTING CONFLICTS OF INTEREST

"**Public officer**" includes any person elected or appointed to hold office in any agency, including any person serving on an advisory body.

22

PARTICIPATION

No appointed public officer shall ***participate*** in any matter which would **inure to the officer's special private gain or loss**; **which the officer knows would inure to the special private gain or loss of any principal by whom he or she is retained or to the parent organization or subsidiary of a corporate principal by which he or she is retained**; or **which he or she knows would inure to the special private gain or loss of a relative or business associate of the public officer**, without **first disclosing the nature of his or her interest** in the matter.

Fla. Stat. 112.3143(4)

23

PARTICIPATION

(a) Such disclosure, indicating the nature of the conflict, shall be made in a written memorandum filed with the person responsible for recording the minutes of the meeting, **prior** to the meeting in which consideration of the matter will take place, and shall be incorporated into the minutes. Any such memorandum shall become a public record upon filing, shall immediately be provided to the other members of the agency, and shall be read publicly at the next meeting held subsequent to the filing of this written memorandum.

24

PARTICIPATION

(b) In the event that disclosure has not been made prior to the meeting or that any conflict is unknown prior to the meeting, the disclosure shall be made orally at the meeting when it becomes known that a conflict exists. A written memorandum disclosing the nature of the conflict shall then be filed within 15 days after the oral disclosure with the person responsible for recording the minutes of the meeting and shall be incorporated into the minutes of the meeting at which the oral disclosure was made. Any such memorandum shall become a public record upon filing, shall immediately be provided to the other members of the agency, and shall be read publicly at the next meeting held subsequent to the filing of this written memorandum.

Fla. Stat. 112.3143(4)

25

BEST PRACTICES & CUSTOM

- Since inception, it has been this board's custom to treat voting and participation as one in the same and to avoid the appearance of impropriety
- To meet and exceed that goal of independence and impartiality

- Customary, and best practice, to:
  - Recuse oneself from participating in discussion of employer's project
  - Recuse oneself from voting on the same

26

JUST BECAUSE YOU CAN
DOESN'T MEAN YOU SHOULD
memegenerator.net

27

PASCO COUNTY ADVISORY BOARDS

SUMMARY OF ETHICS, SUNSHINE LAW AND PUBLIC RECORDS REQUIREMENTS FOR ADVISORY BOARDS

AUGUST 3, 2012

Prepared by Pasco County Attorney's Office
Based on Materials Prepared by the Lee County Attorney's Office

You have been appointed to a Pasco County advisory board and/or committee. Accordingly, you should be generally aware of Florida Laws that may affect your service and the conducting of board/committee public body business. This document is presented as a general outline of some of the important regulations relating to your public service. It is not intended to be an exhaustive analysis of all the parameters thereof and the fact situations that may be applicable, which can dictate any final conclusions. If upon review, you desire further information and/or analysis to any particular circumstances, please contact the Pasco County Attorney's Office, 727-847-8120.

1. **Florida Government-in-the Sunshine Law (Section 286.011, Florida Statutes)**. You should not communicate with another member of the same public body concerning matters which may foreseeably come before the body, except in an open public meeting.

2. **Public Records Law (Section 119.011, Florida Statutes)**. In general, all documents, letters, and materials prepared or received by you in connection with your public body business used to perpetuate, communicate, or formalize knowledge are open for public inspection and copying.

3. **Code of Ethics and Standards of Conduct (Section 112.313, Florida Statutes)**.

   a. Gifts. You should not solicit or accept anything of value, including a gift, loan, reward, promise of future employment, favor, or service based upon any understanding that your vote, official action, or judgment would be influenced thereby.

   b. Unauthorized Compensation. You, your spouse or child should not accept any compensation, payment, or thing of value if you, with the exercise of reasonable care, should know that it was given to influence your official action.

   c. Doing Business with One's Agency. You should not while in your official capacity, either directly or indirectly purchase, rent, or lease any realty, goods, or services for your own agency from any business entity of which you or your spouse or child is an officer, partner, director, or proprietor or in which you or your spouse or child has a material interest. Nor should you while acting in a private capacity rent, lease, or sell any realty, goods, or services to Pasco County or any agency thereof, while you serve in an official public body capacity.

   d. Misuse of Public Position. You should not corruptly use or attempt to use your official position or any property or resource which may within your trust, or perform your official duties, to secure a special privilege, benefit, or exemption for yourself or others.

   e. Conflicting Employment or Contractual Relationship.

      (1) You are prohibited from holding any employment or contract with any business entity or agency regulated by or doing business with an agency of which you are an officer or employee.

      (2) You are prohibited from holding any employment or having a contractual relationship which will pose a frequently recurring conflict between your private interest and public duties.

f. Disclosure or Use of Certain Information. You should not disclose or use information not available to members of the general public, and gained by reason of your official position, for your personal gain or benefit or for the personal gain or benefit of any other person or business entity.

g. Exemptions. The requirements relating to "Doing Business with One's Agency" and "Conflicting Employment or Contractual Relationship" may be waived in certain circumstances. In addition, the statute provides for various specific exceptions to compliance. Please contact the Pasco County Attorney's Office should you need specific guidance as to whether an exemption applies.

4. **Voting Conflicts (Section 112.3143, Florida Statutes)**. You should not participate in any matter which would inure to your special private gain or loss, the special private gain or loss of any principal by whom you are retained, of the parent organization or subsidiary of a corporate principal by whom you are retained, without first disclosing the nature of your interest in the matter. A voting conflict form (Form 8B) must be filed with the meetings recording officer, be provided to the other members of the agency and be read publically at the next meeting. If the conflict is unknown or not disclosed prior to the meeting, you must orally disclose the conflict at the meeting when the conflict becomes known and file a voting conflict form.

5. **Disclosure of Financial Interest and Disclosure of Clients (Section 112.3145, Florida Statutes)**. You may have been appointed to a Pasco County advisory body which due to its function in land planning and zoning or other responsibilities, you are required to comply with additional disclosure and filing requirements. You will be duly notified if you are required to meet these additional responsibilities.

a. Form 1, Limited Financial Disclosure. In general, this form includes the reporting person's sources and types of financial interests, such as the names of employers and addresses of real property holdings. No dollar values are required to be listed. You are required to file within 30 days from the date of appointment and by July 1 of each year.

b. Form 2, Quarterly Client Disclosure. This form includes the disclosure of the names of clients represented by yourself or by any partner or associate of your professional firm for a fee or commission before the County. Such representations do not include ministerial matters or representations on behalf of the County in your official capacity. The form should be filed quarterly and only when reportable representations were made during the quarter.

c. Form 9, Quarterly Gift Disclosure. The form is filed on the last day of any calendar quarter following the calendar quarter in which you received a gift over $100.00 other than gifts from relatives, gifts prohibited from being accepted (see below), gifts primarily associated with your business or employment and gifts otherwise required to be disclosed. The form is not filed if no such gift was so received.

d. Gifts. You are prohibited from soliciting any gift from a political committee or lobbyist who has lobbied the County within the past 12 months or the partner, firm, employer, or principal of such a lobbyist. You are prohibited from directly or

indirectly accepting a gift worth over $100.00 from such a lobbyist; from a partner, firm, employer or principal of the lobbyist; or from a political committee.

FLORIDA GOVERNMENT-IN-THE-SUNSHINE LAW
SECTION 286.011, FLORIDA STATUTES

Provides for the public's right of access to governmental proceedings and the decision-making process.

1. **Basic Requirements**

- Meetings of public boards or committees must be open to the public;
- Reasonable notice of such meetings must be given; and
- Minutes of the meetings must be taken.

a. Law is equally applicable to elected and appointed boards. Can apply to certain committee meetings of staff.

b. Applies to any gathering of two or more members of the same board to discuss some matter which will foreseeably come before that board for action.

Question: Does it relate to board business? If so, there is a real probability that the matter will come up or if already decided, may come back before the board in some fashion.

Point: Do not discuss board business outside the properly noticed and scheduled board meeting.

c. Applies to the entire decision-making process. It is the how and why officials decided to act, not merely the final decision. Thus, the law applies to discussions between two members on actionable issues whether the discussions are formal, informal, or preliminary in nature. In addition, it does not matter what communication method is used - telephone, electronic, mail, text, social media, etc.

d. Members cannot discuss board business and/or reach a final decision by the use of secret ballots (votes must be open to review), codes, and/or the use of liaisons.

e. Written correspondence between members. One member's position or information provided in writing to other members is generally okay; however, there must not be any interaction among the members related to the correspondence. The correspondence must not be used as a vehicle for a response or interaction from the other members or used as a substitute for open meeting actions. If written correspondence is circulated among members for comment with such written comments and/or responses being provided to the other members, this is a violation of the requirements of the open meeting law. Even though the correspondence itself is subject to disclosure under the Florida

Public Records Law, the interactive written communication can be held violative of the open-decision-making process. Due to the unintended consequence of other members providing responsive writings, the use of written correspondence by one member to other members outside the meeting is discouraged.

f. Subcommittees: Subcommittee meetings are normally held to the same standard as the committee meetings. There is a limited exception for strictly fact-finding; however, if the subcommittee is making recommendations and/or taking other actions, they must comply with the open meeting requirements.

g. Single Individual: Ordinarily the law does not apply to an individual member of the board. Certain factual circumstances, however, have arisen where in order to assure the public access to the decision-making process, the courts have concluded that the presence of two members of the same board is not necessary to trigger the open meeting law requirements; i.e.:

(1) The individual has been delegated de facto authority on behalf of the board to take actions and/or make decisions on its behalf. The individual functions as the board's alter ego. The open meeting law does not allow the board to circumvent the open process by having one member make decisions for them outside the public meeting.

(2) If the member has been authorized only to gather information or function as a fact-finder with all such matters being related back for board consideration at the open meeting, the law does not normally apply. Individual members, committees, and/or subcommittees delegated fact-finding and reporting activities can be an exception to the law. If used, caution dictates how such exception is first established, the authority given, and the need for full disclosure and discussion at the subsequent open meeting.

h. Staff: Meetings of staff employees are not ordinarily subject to the Sunshine Law. Some exceptions may be where there is:

(1) A delegated decision-making function outside the ambit of the normal staff function; or

(2) A staff employee acting as a liaison between members; or

(3) A staff employee acting in place of members at the member's direction.

There are reported cases wherein the courts have held that an employee has ceased to function in his or her staff capacity when appointed to a specific committee or group that has been delegated authority to make material recommendations and/or take substantial acts that could affect certain rights and interests. In general, the courts look at the nature of the act performed, not the make-up of the committee or the proximity of the act to the final decision.

General Examples Noted: Certain appointed Budget, Grievance, and Bid Selection Committees. In creating a staff committee, it is important to review how and why members are selected, committee function in relation to the jobs of the members, and the intended results.

2. **Meeting Requirements**

a. Meeting Place: Open to the public, access available, opportunity for public participation, out-of-town meetings are discouraged.

b. Reasonable Notice: Time and manner. Factual circumstances dictate what is "reasonable." This is always better to provide as much notice as possible.

c. Minutes: Promptly recorded and written. Can be a written summary or synopsis. A tape recording may be made but must be reduced to written minutes. If tape used, it is retained as a public record. Minutes must be retained and open for public inspection as a public record.

3. **Penalties**

a. Individual:

(1) A Knowing Violation: 2nd Degree Criminal Misdemeanor
60 Days/$500.00
State Attorney's Office

(2) Suspension and removal from official duties.

(3) Non-Criminal Infraction: Fine not to Exceed $500.00
State Attorney's Office.

(4) Attorney Fees: If civil action.

b. Government Body:

(1) Civil action for injunctive or declaratory relief.

(2) Acts of the government body may be held void.

(3) Attorney fees may be imposed.

PUBLIC RECORDS
SECTION 119.011(1), FLORIDA STATUTES

All documents and materials made or received by the County and its advisory boards in connection with official business which are used to perpetuate, communicate, or formalize knowledge are considered Public Records.

All such materials, regardless of whether they are in final form, are open for public inspection and copying unless the Legislature has specifically exempted them from disclosure.

The term "Public Record" is not limited to traditional written documents. It includes such materials as tapes, photographs, sound recordings, e-mail, film, etc.

If the purpose of the document and/or material prepared in connection with the official business is to perpetuate, communicate, or formalize knowledge, it is a public record regardless of whether it is in final form or the ultimate product of a board or staff. Thus, however prepared, if any such document is circulated for review, comment, or information, it is a public record, even if marked or intended to be a "preliminary" or "draft" document.

It is only those uncirculated materials which are merely preliminary or precursors to future documents that are not in and of themselves intended to serve as final evidence of the knowledge to be recorded which are not public records.

> Examples: Preliminary notes to be used in preparing a public record, uncirculated rough drafts not intended for filing, or final evidence of knowledge.

THE PUBLIC HAS THE RIGHT TO INSPECT AND COPY PUBLIC RECORDS:

Inspection and Copying Points:

- Custodian must keep records secure and readily available.
- Custodian must allow the record to be inspected and examined by any person desiring to do so, at any reasonable time.
- Inspection can be done under reasonable conditions, but a custodian may not impose a condition of inspection which operates to restrict the right of access. The custodian's role is to see that the record is reasonably protected from alternation or destruction, but not to frustrate the inspection.
- No special or legitimate interest need be shown by the individual requesting to inspect a public record.
- Custodian cannot refuse a request on the basis that the request is "over broad."
- A request need not be in writing or contain any special information.
- Custodian not required to answer questions, create or reformat its records in a particular form.

- Custodian must allow inspection and copying within limited reasonable time. No automatic delay is permissible. Custodian must retrieve the record, review for any exemptions, and delete any portion of the required claimed exempt from disclosure.

- If a record is exempt from inspection pursuant to law, the basis for the refusal to release their record must be provided. If only a portion of the record is exempt, that portion only can be deleted, but the remaining record must be provided for inspection.

- All exemptions of a public record or portions of a public record must be specifically authorized by law. Exemptions are strictly construed in favor of open records.

- The custodian can charge the fees as authorized by Florida Statute for copies of Public Records; and

- Public records are maintained, stored, and then destroyed pursuant to the rules of the State of Florida.

Penalties:

- Individual:

    - Willful and Knowing Violation: 1st Degree Criminal Misdemeanor
      One Year/$1,000.00
      State Attorney's Office

    - Non-Criminal Infraction - Fine not to Exceed $500.00
      State Attorney's Office

- Government Body:

  Injunctive/Declaratory Civil Action: Reasonable costs and attorney fees imposed.

EXECUTIVE SUMMARY

The Pasco County Opioid Task Force, together with various community partners, has prepared this plan which aims to provide a framework for the planning and funding priorities to address opioid use and other substance disorders in Pasco County. This plan may be revised on a quarterly basis to adopt changes needed based on community needs, as a review of Pasco County's existing resources and opportunities continues with providers and stakeholders.

Historic Pasco County Courthouse Recognizing 2024 International Opioid Overdose Awareness Day

OPIOID SETTLEMENT BACKGROUND

In 2018, Pasco County, along with numerous other cities and counties, filed suit against manufacturers and distributors of opioids. At the time, the State of Florida also sued 11 corporate entities for their wrongful conduct in the opioid epidemic crisis. In 2021, Pasco County formalized its agreement with the State of Florida in order to obtain funds as part of the global settlement on what became later known as The Florida Plan. In 2022, a global settlement of all the cases, through cooperation between the State Attorney General and local governments in Florida, resulted in the state negotiating its share of the nationwide opioid settlement. The litigation from the opioid

settlements represents thousands of lawsuits across the country against opioid pharmaceutical companies and distributors, whose practices contributed to the opioid crisis. These dollars were split into two main funds: the "City/County Fund" and the "Regional Fund." Pasco County and two of its largest municipalities, the Cities of New Port Richey and Zephyrhills, received funding from the settlement through the City/County Fund; this is the smallest allocation available for grant opportunities.

As part of the settlement, Florida Counties could also opt to become "Qualified Counties" in order to manage additional funds for treatment, prevention, and recovery efforts, if the following requirements were met:

- Be a charter or non-chartered county within the State that has a population of at least 300,000 individuals; and
- Has an opioid task force of which it is a member or operates in connection with its municipalities or others on a local or regional basis;
- Has an abatement plan that has been either adopted or is being utilized to respond to the opioid epidemic;
- Is currently either providing or is contracting with others to provide substance abuse prevention, recovery, and treatment services to its citizens; and
- Has or enters into an agreement with a majority of Municipalities (majority is more than 50% of the municipalities' total population) related to the expenditure of Opioid Funds.

Pasco County, having met the requirements listed above, submitted formal documentation to become officially designated as a Qualified County. Below is a list of the documents that enabled the Support Services Department to seek out community members to join the Opioid Task Force; create and manage the Opioid Treatment, Prevention and Recovery Fund; and support the Board of County Commissioners' vision for how these funds would assist the impacted population in our community:

- Resolution 21-266, approved on August 24, 2021, by the Pasco County Board of County Commissioners (BCC), "Establishing the Terms, Composition, Membership, and Quorum Requirements for the 'Pasco County Opioid Task Force,'" and Designating the Chair and Vice-Chair for the Task Force.
- *SPS22-0002 Pasco County Florida Opioid Abatement Plan*, approved by the Pasco County BCC on November 9, 2021.
- *BayCare Behavioral Health, Inc., Managed Contract with Pasco County*, as part of the Central Florida Behavioral Health Network, to provide Substance Abuse Mental Health Services to Pasco County residents, approved by the Pasco County BCC on December 10, 2019.
- *SPS22-0005 Interlocal Agreements Governing Use of Pasco County Regional Opioid Settlement Funds – Cities of New Port Richey and Zephyrhills*, approved by the Pasco County BCC on December 7, 2021.

THE OPIOID TASK FORCE

Formed in August 2021, the Opioid Task Force (OTF) recognized the serious public health problems associated with the opioid epidemic impacting Pasco County. The OTF works with public and private partners to make recommendations that ensure that our community works collectively to gather data about the nature, extent, and problems being faced in the county; receive and report recommendations from other government and private entities about activities that should be undertaken to abate the opioid epidemic; and make recommendations to the Board about steps, actions, or plans that should be undertaken to abate the opioid epidemic in Pasco County.

Purpose of Opioid Task Force

Serves as an advisory body to the Pasco County BCC to:

- Recommend expenditures
- Ensure the County meets requirements under the *Florida Plan*
- Develop and maintain the *Community Abatement Plan*

Opioid Task Force Members

Member	Organization
Robert Chalmers, Chief Administrative Officer	Pasco County Fire Rescue
Michelle Hudson, MSW, Supervisor of Social Work	Pasco County Schools
Toni Roach, Captain	Pasco County Sheriff's Office
Paula Baracaldo, Support Services Director	Pasco County Public Services
Lauren Letona, Deputy Chief	City of New Port Richey
Derek Brewer, Police Chief	City of Zephyrhills
Trang Chikatone, Administrative Services Director	Department of Health
Joey Resnick, President and Chief Executive Officer	Premier Community Healthcare
Tracey Kaly, Clinical Operations Director	BayCare Behavioral Health
The Honorable Judge Shawn Crane	Sixth Judicial Circuit Court
Parnia Roghani	Pasco County Alliance for Substance Addiction Prevention
Art Rowand, Retired Sergeant	Retired Public Health or Addiction Expert

OPIOID TREATMENT, PREVENTION, AND RECOVERY FUND

After the County received the allocations from the City/County and Regional Funds, the OTF began its process to determine the best way to distribute funds based on the Florida Plan and the County's Community Abatement Plan. As a result, the Opioid Treatment, Prevention, and Recovery Fund (Opioid Fund) was initiated. This countywide Fund returns opioid settlement allocations from

the global settlement as critical investments and resources to residents impacted by the opioid crisis in Pasco County.

The Fund will award grants to community-based organizations that engage residents affected by the opioid epidemic through programs in substance use disorder treatment, overdose prevention, substance misuse awareness and education, and harm reduction. Funding can be used for evidence-based practices only if they address treatment, prevention, and recovery of substance use disorders for Pasco County residents. Funding requests for these funds must be consistent with the Community Abatement Plan and with Schedule A - Core Strategies, as stipulated in the Florida Plan.

Award amounts may vary depending on available resource levels and priorities of the OTF and the data-reflected needs of the community. In addition, there is not a specified number of grants that will be awarded. Decisions will be made based on the quality of applications received, and organizations that meet the selection criteria and submit applications will be considered.

Further, multi-year awards will be available for up to three years. Program Awardees may be eligible to apply for additional funding upon successful completion of their projects/programs and requirements under this funding program. Funding will be granted on an annual basis; and a five percent (5%) administrative cost reimbursement is allowed under this grant.

For all grants, funds must be used to support, advance, or align with at least one of the focus areas and directly reference how the project/program relates to the Community Abatement Plan, which includes community needs received by our OTF members and the public:

- *Treatment and Supportive Services:* Support treatment of Opioid Use Disorder (OUD) and any co-occurring Substance Use Disorder or Mental Health (SUD/MH) conditions through evidence-based or evidence-informed programs and promote and facilitate connections to behavioral health treatment and recovery services.

- *Prevention and Education:* Expand efforts in community-based prevention, education, and harm reduction. Reduce stigma in communities related to substance use. Support efforts to prevent over-prescribing and ensure appropriate prescribing and dispensing of opioids through evidence-based or evidence-informed programs.

- *System-Level Abatement:* Address and respond inclusively to complex, unmet community needs related to substance use disorder for underserved populations

- *Caregiver Support:* Heal individual and collective trauma related to substance use. Provide family peer mentoring, funding for reunification support, trauma treatment, child-parent psychotherapy, etc.

- *Mitigation and Enforcement:* Promote public safety and wellness for community workers in the substance use field. Create or leverage existing prevention strategies.

Overall, the fund's allowable uses are intended to be broad and all-encompassing to encourage

organizations working in communities to propose novel and innovative ideas, especially those that may not be funded elsewhere, in response to the overdose crisis.

REPORTING REQUIREMENTS TO THE STATE

On an annual basis, a report is due by June 30th of each year on the intended uses for the settlement funds, as per the Florida Agreement to the Department of Children and Families (DCF) for the upcoming fiscal year. In addition, by August 31st of each year, a report is due to DCF detailing the expenditures and data sets to demonstrate the effectiveness of expenditures on the Approved Purposes.

MANAGING DEPARTMENT AND CONTACT INFORMATION

For questions about this funding opportunity, please contact the Support Services Department at (727) 847-2411 or via email to opioidsettlementgrant@pascocountyfl.net.

SCHEDULE A

Core Strategies

A. Naloxone or other FDA-approved drug to reverse opioid overdoses

1. Expand training for first responders, schools, community support groups and families; and
2. Increase distribution to individuals who are uninsured or whose insurance does not cover the needed service.

B. Medication-Assisted Treatment ("MAT") Distribution and other opioid-related treatment

1. Increase distribution of MAT to non-Medicaid eligible or uninsured individuals;
2. Provide education to school-based and youth-focused programs that discourage or prevent misuse;
3. Provide MAT education and awareness training to healthcare providers, EMTs, law enforcement, and other first responders; and
4. Treatment and Recovery Support Services such as residential and inpatient treatment, intensive outpatient treatment, outpatient therapy or counseling, and recovery housing that allow or integrate medication with other support services.

C. Pregnant & Postpartum Women

1. Expand Screening, Brief Intervention, and Referral to Treatment ("SBIRT") services to non-
2. Medicaid eligible or uninsured pregnant women;
3. Expand comprehensive evidence-based treatment and recovery services, including MAT, for women with co-occurring Opioid Use Disorder ("OUD") and other Substance Use Disorder ("SUD")/Mental Health disorders for uninsured individuals for up to 12 months postpartum; and
4. Provide comprehensive wrap-around services to individuals with Opioid Use Disorder (OUD)
5. including housing, transportation, job placement/training, and childcare.

D. Expanding Treatment for Neonatal Abstinence Syndrome

1. Expand comprehensive evidence-based and recovery support for NAS babies;
2. Expand services for better continuum of care with infant-need dyad; and
3. Expand long-term treatment and services for medical monitoring of NAS babies and their families.

SCHEDULE B

PART ONE: TREATMENT

A. Treat Opioid Use Disorder (OUD)

Support treatment of OUD and any co-occurring Substance Use Disorder or SUD/MH conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Expand availability of treatment for OUD and any co-occurring SUD/MH conditions, including all forms of Medication-Assisted Treatment (MAT) approved by the U.S. Food and Drug Administration.

2. Support and reimburse evidence-based services that adhere to the American Society of Addiction Medicine (ASAM) continuum of care for OUD and any co-occurring SUD/MH conditions

3. Expand telehealth to increase access to treatment for OUD and any co-occurring SUD/MH conditions, including MAT, as well as counseling, psychiatric support, and other treatment and recovery support services.

4. Improve oversight of Opioid Treatment Programs (OTPs) to assure evidence-based or evidence-informed practices such as adequate methadone dosing and low threshold approaches to treatment.

5. Support mobile intervention, treatment, and recovery services offered by qualified professionals and service providers, such as peer recovery coaches for persons with OUD and any co-occurring SUD/MH conditions and for persons who have experienced an opioid overdose.

6. Treatment of trauma for individuals with OUD (e.g., violence, sexual assault, human trafficking, or adverse childhood experiences) and family members (e.g., surviving family members after an overdose or overdose fatality), and training of health care personnel to identify and address such trauma.

7. Support evidence-based withdrawal management services for people with OUD and any co-occurring mental health conditions.

8. Training on MAT for health care providers, first responders, veterans, students, or other supporting professionals, such as peer recovery coaches or recovery outreach specialists, including tele-mentoring to assist community-based providers in rural or underserved areas.

8.1. **Host trainings or conferences** on addiction and drug trends for behavioral health organizations, as well as the public.

9. Support workforce development for addiction professionals who work with persons with OUD and any co-occurring SUD/MH conditions.

10. Fellowships for addiction medicine specialists for direct patient care, instructors, and clinical research for treatments.

11. Scholarships and supports for behavioral health practitioners or workers involved in addressing OUD and any co-occurring SUD or mental health conditions, including but not limited to training, scholarships, fellowships, loan repayment programs, or other incentives for providers to work in rural or underserved areas.

12. Provide funding and training for clinicians to obtain a waiver under the federal Drug Addiction Treatment Act of 2000 (DATA 2000) to prescribe MAT for OUD and provide technical assistance and professional support to clinicians who have obtained a DATA 2000 waiver.

13. Dissemination of web-based training curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service - Opioids web-based training curriculum and motivational interviewing.

14. Development and dissemination of new curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service for Medication-Assisted Treatment.

B. Support People in Treatment and Recovery

Support people in treatment for or recovery from OUD and any co-occurring SUD/MH conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Provide comprehensive wrap-around services to individuals with OUD and any co-occurring SUD/MH conditions, including housing, transportation, education, job placement, job training, or childcare.

2. Provide the full continuum of care of treatment and recovery services for OUD and any co-occurring SUD/MH conditions, including supportive housing, peer support services and counseling, community navigators, case management, and connections to community-based services.

3. Provide counseling, peer-support, recovery case management and residential treatment with access to medications for those who need it to persons with OUD and any co-occurring SUD/MH conditions.

3.1. Recovery Community Organization (RCO) Coordinator (full-time position)

3.2. RCO Navigation Center: Resources and outsourcing options.

3.3. Peer Support Specialist (full-time position)

4. Provide access to housing for people with OUD and any co-occurring SUD/MH conditions, including supportive housing, recovery housing, housing assistance programs, training for housing providers, or recovery housing programs that allow or integrate FDA-approved medication with other support services.

5. Provide community support services, including social and legal services, to assist in deinstitutionalizing persons with OUD and any co-occurring SUD/MH conditions.

6. Support or expand peer-recovery centers, which may include support groups, social events, computer access, or other services for persons with OUD and any co-occurring SUD/MH conditions.

7. Provide or support transportation to treatment or recovery programs or services for persons with OUD and any co-occurring SUD/MH conditions.

8. Provide employment training or educational services for persons in treatment for or recovery from OUD and any co-occurring SUD/MH conditions.

9. Identify successful recovery programs such as physician, pilot, and college recovery programs, and provide support and technical assistance to increase the number and capacity of high-quality programs to help those in recovery.

10. Engage non-profits, faith-based communities, and community coalitions to support people in treatment and recovery and to support family members in their efforts to support the person with OUD in the family.

11. Training and development of procedures for government staff to appropriately interact and provide social and other services to individuals with or in recovery from OUD, including reducing stigma.

12. Support stigma reduction efforts regarding treatment and support for persons with OUD, including reducing the stigma on effective treatment.

13. Create or support culturally appropriate services and programs for persons with OUD and any co- occurring SUD/MH conditions, including new Americans.

14. Create and/or support recovery high schools.

15. Hire or train behavioral health workers to provide or expand any of the services or supports

listed above.

C. Connect People Who Need Help to the Help They Need (Connections to Care)

Provide connections to care for people who have – or are at risk of developing – OUD and any co-occurring SUD/MH conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Ensure that health care providers are screening for OUD and other risk factors and know how toappropriately counsel and treat (or refer if necessary) a patient for OUD treatment.

2. Fund Screening, Brief Intervention and Referral to Treatment (SBIRT) programs to reduce the transition from use to disorders, including SBIRT services to pregnant women who are uninsured or not eligible for Medicaid.

   2.1. **SBIRT becoming a reimbursable service for doctors** (primary care, OBGYN, etc.) **Legislative Policy Change** for the State to consider.

3. Provide training and long-term implementation of SBIRT in key systems (health, schools, colleges, criminal justice, and probation), with a focus on youth and young adults when transition from misuse to opioid disorder is common.

4. Purchase automated versions of SBIRT and support ongoing costs of the technology.

5. Expand services such as navigators and on-call teams to begin MAT in hospital emergency departments.

6. Training for emergency room personnel treating opioid overdose patients on post-discharge planning, including community referrals for MAT, recovery case management or support services.

7. Support hospital programs that transition persons with OUD and any co-occurring SUD/MH conditions, or persons who have experienced an opioid overdose, into clinically-appropriate follow-up care through a bridge clinic or similar approach.

8. Support crisis stabilization centers that serve as an alternative to hospital emergency departments for persons with OUD and any co-occurring SUD/MH conditions or persons that have experienced an opioid overdose.

9. Support the work of Emergency Medical Systems, including peer support specialists, to connect individuals to treatment or other appropriate services following an opioid overdose or other opioid- related adverse event.

10. Provide funding for peer support specialists or recovery coaches in emergency departments,

detox facilities, recovery centers, recovery housing, or similar settings; offer services, supports, or connections to care to persons with OUD and any co-occurring SUD/MH conditions or to persons who have experienced an opioid overdose.

11. Expand warm hand-off services to transition to recovery services.

12. Create or support school-based contacts that parents can engage with to seek immediate treatment services for their child; and support prevention, intervention, treatment, and recovery programs focused on young people.

    12.1. **Early Childhood Court Coordinator**: full-time position to reduce trauma on brain development in the zero to five population due to parents with substance use disorders and child welfare involvement. Extend available treatment of children/parents in dependency cases (including dependency drug court cases) to include access to Child-Parent Psychotherapy (CPP) for families with children five and under (as well as providing CPP certified training to cadre of local counselors), provide other trauma treatment to older children, provide tutoring for children with fetal drug exposure, provide for substance abuse risk screening and subsequent treatment for school-age young, provide for young mentoring services, family peer mentoring, provide for rental deposit assistance to families in an effort to aid them to secure stable housing necessary for reunification.

13. Develop and support best practices on addressing OUD in the workplace.

14. Support assistance programs for health care providers with OUD.

15. Engage non-profits and the faith community as a system to support outreach for treatment.

16. Support centralized call centers that provide information and connections to appropriate services and supports for persons with OUD and any co-occurring SUD/MH conditions.

D. Address the Needs of Criminal-Justice-Involved Persons

Address the needs of persons with OUD and any co-occurring SUD/MH conditions who are involved in, are at risk of becoming involved in, or are transitioning out of the criminal justice system through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Support pre-arrest or pre-arraignment diversion and deflection strategies for persons with OUD and any co-occurring SUD/MH conditions, including established strategies such as:

    - Self-referral strategies such as the Angel Programs or the Police Assisted Addiction Recovery Initiative (PAARI);

    - Active outreach strategies such as the Drug Abuse Response Team (DART) model;

- "Naloxone Plus" strategies, which work to ensure that individuals who have received naloxone to reverse the effects of an overdose are then linked to treatment programs or other appropriate services;

- Officer prevention strategies, such as the Law Enforcement Assisted Diversion (LEAD) model;

- Officer intervention strategies such as the Leon County, Florida Adult Civil Citation Network or the Chicago Westside Narcotics Diversion to Treatment Initiative; or

- Co-responder and/or alternative responder models to address OUD-related 911 calls with greater SUD expertise.

1.1. **New Squad** (additional full-time personnel to support all municipalities in Pasco County)**:** to enhance our overall opioid response by adding capabilities to our current initiative (focused on heroin/fentanyl related to Pasco overdose deaths, and related sources of supply) and add an additional capability with resources focused on regional sources of supply for heroin/fentanyl overdose deaths.

1.2. **Additional full-time personnel to support all municipalities in Pasco County to a DEA Opioid Task Force** that has a regional overdose source of supply focus.

2. Support pre-trial services that connect individuals with OUD and any co-occurring SUD/MH conditions to evidence-informed treatment, including MAT, and related services.

3. Support treatment and recovery courts that provide evidence-based options for persons with OUD and any co-occurring SUD/MH conditions.

4. Provide evidence-informed treatment, including MAT, recovery support, harm reduction, or other appropriate services to individuals with OUD and any co-occurring SUD/MH conditions who are incarcerated in jail or prison.

5. Provide evidence-informed treatment, including MAT, recovery support, harm reduction, or other appropriate services to individuals with OUD and any co-occurring SUD/MH conditions who are leaving jail or prison, have recently left jail or prison, are on probation or parole, are under community corrections supervision, or are in re-entry programs or facilities.

5.1. **Substance Use Disorder Counselor/Re-Entry Planner:** Requesting an individual that would be able to instruct substance use disorder classes and provide counseling services to those that are incarcerated and demonstrate motivation for change. This individual will also assist the Program Department with making appropriate referrals and re-entry planning to assist these inmates in obtaining sober-living upon their release and scheduling follow-up services in the community, to include outpatient services.

6. Support critical time interventions (CTI), particularly for individuals living with dual-diagnosis (QUO)/serious mental illness, and services for individuals who face immediate risks and service needs and risks upon release from correctional settings.

7. Provide training on best practices for addressing the needs of criminal-justice-involved persons with OUD and any co-occurring SUD/MH conditions to law enforcement, correctional, or judicial personnel or to providers of treatment, recovery, harm reduction, case management, or other services offered in connection with any of the strategies described in this section.

E. Address the Needs of Pregnant or Parenting Women and their Families, Including Babies with Neonatal Abstinence Syndrome

Address the needs of pregnant or parenting women with OUD and any co-occurring SUD/MH conditions, and the needs of their families, including babies with Neonatal Abstinence Syndrome (NAS),through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Support evidence-based or evidence-informed treatment, including MAT, recovery services and supports, and prevention services for pregnant women – or women who could become pregnant – who have OUD and any co-occurring SUD/MH conditions, and other measures to educate and provide support to families affected by NAS.

2. Expand comprehensive evidence-based treatment and recovery services, including MAT, for uninsured women with OUD and any co-occurring SUD/MH conditions for up to 12 months postpartum.

    2.1. **Substance Exposed Newborn care kits** for parents to take when the babies are going home.

3. Training for obstetricians or other healthcare personnel that work with pregnant women and theirfamilies regarding treatment of OUD and any co-occurring SUD/MH conditions.

4. Expand comprehensive evidence-based treatment and recovery support for NAS babies; expand services for better continuum of care with infant-need dyad; expand long-term treatment and services for medical monitoring of NAS babies and their families.

5. Provide training to health care providers who work with pregnant or parenting women on bestpractices for compliance with federal requirements that children born with Neonatal AbstinenceSyndrome get referred to appropriate services and receive a plan of safe care.

6. Child and family supports for parenting women with OUD and any co-occurring SUD/MH conditions.

7. Enhanced family supports and childcare services for parents with OUD and any co-occurring SUD/MH conditions.

8. Provide enhanced support for children and family members suffering trauma as a result of addiction in the family; and offer trauma-informed behavioral health treatment for adverse childhood events.

9. Offer home-based wrap-around services to persons with OUD and any co-occurring SUD/MH conditions, including but not limited to parent skills training.

10. Support for Children's Services - Fund additional positions and services, including supportive housing and other residential services, relating to children being removed from the home and/or placedin foster care due to custodial opioid use.

PART TWO: PREVENTION

F. Prevent Over-Prescribing and Ensure Appropriate Prescribing and Dispensing of Opioids

Support efforts to prevent over-prescribing and ensure appropriate prescribing and dispensing of opioids through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Fund medical provider education and outreach regarding best prescribing practices for opioids consistent with Guidelines for Prescribing Opioids for Chronic Pain from the U.S. Centers for Disease Control and Prevention, including providers at hospitals (academic detailing).

2. Training for health care providers regarding safe and responsible opioid prescribing, dosing, and tapering patients off opioids.

3. Continuing Medical Education (CME) on appropriate prescribing of opioids.

4. Support for non-opioid pain treatment alternatives, including training providers to offer or refer to multi-modal, evidence-informed treatment of pain.

5. Support enhancements or improvements to Prescription Drug Monitoring Programs (PDMPs), including but not limited to improvements that:

    5.1.1. Increase the number of prescribers using PDMPs;

    5.1.2. Improve point-of-care decision-making by increasing the quantity, quality, or format of data available to prescribers using PDMPs, by improving the interface that prescribers use to access POMP data, or both; or

    5.1.3. Enable states to use POMP data in support of surveillance or intervention strategies, includingMAT referrals and follow-up for individuals identified within POMP data as likely to experience OUD in a manner that complies with all relevant privacy and security laws and rules.

6. Ensuring PDMPs incorporate available overdose/naloxone deployment data, including the United States Department of Transportation's Emergency Medical Technician overdose database in a manner that complies with all relevant privacy and security laws and rules.

7. Increase electronic prescribing to prevent diversion or forgery

8. Educate dispensers on appropriate opioid dispensing.

G. Prevent Misuse of Opioids

Support efforts to discourage or prevent misuse of opioids through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Fund media campaigns to prevent opioid misuse.
2. Corrective advertising or affirmative public education campaigns based on evidence.
3. Public education relating to drug disposal.
4. Drug take-back disposal or destruction programs.
5. Fund community anti-drug coalitions that engage in drug prevention efforts.
6. Support community coalitions in implementing evidence-informed prevention, such as reduced social access and physical access, stigma reduction – including staffing, educational campaigns, support for people in treatment or recovery, or training of coalitions in evidence-informed implementation, to include the Strategic Prevention Framework developed by the U.S. Substance Abuse and Mental Health Services Administration (SAMHSA).
7. Engage non-profits and faith-based communities as systems to support prevention.
8. Fund evidence-based prevention programs in schools or evidence-informed school and communityeducation programs and campaigns for students, families, school employees, school athletic programs,parent-teacher and student associations, and others.
    - 8.1. **Facilitators in Schools** – to conduct prevention curriculum and life skills/social emotional groups.
    - 8.2. **Curriculum for Schools and Community Settings** – schools (charter and non-traditional), church groups, Department of Juvenile Justice, after-school programs, etc.
9. School-based or youth-focused programs or strategies that have demonstrated effectiveness in preventing drug misuse and seem likely to be effective in preventing the uptake and use of opioids.
    - 9.1. **STAND Youth Advocacy Coordinator** – to build a strong infrastructure for the youth coalition.
10. Create of support community-based education or intervention services for families, youth, and adolescents at risk for OUD and any co-occurring SUD/MH conditions.
11. Support evidence-informed programs or curricula to address mental health needs of young

people who may be at risk of misusing opioids or other drugs, including emotional modulation and resilience skills.

12. Support greater access to mental health services and supports for young people, including services and supports provided by school nurses, behavioral health workers or other school staff, to address mental health needs in young people that (when not properly addressed) increase the risk of opioid or other drug misuse.

H. Prevent Overdose Deaths and Other Harms (Harm Reduction)

Support efforts to prevent or reduce overdose deaths or other opioid-related harms through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Increase availability and distribution of naloxone and other drugs that treat overdoses for first responders, overdose patients, individuals with OUD and their friends and family members, individuals at high risk of overdose, schools, community navigators and outreach workers, persons being released from jail or prison, or other members of the general public.

2. Public health entities provide free naloxone to anyone in the community.

3. Training and education regarding naloxone and other drugs that treat overdoses for first responders, overdose patients, patients taking opioids, families, schools, community support groups, and other members of the general public.

4. Enable school nurses and other school staff to respond to opioid overdoses, and provide them with naloxone, training, and support.

5. Expand, improve, or develop data tracking software and applications for overdoses/naloxone revivals.

6. Public education relating to emergency responses to overdoses.

7. Public education relating to immunity and Good Samaritan laws.

8. Educate first responders regarding the existence and operation of immunity and Good Samaritan laws.

9. Syringe service programs and other evidence-informed programs to reduce harms associated with intravenous drug use, including supplies, staffing, space, peer support services, referrals to treatment, fentanyl checking, connections to care, and the full range of harm reduction and treatment services provided by these programs.

10. Expand access to testing and treatment for infectious diseases, such as HIV and Hepatitis C, resulting from intravenous opioid use.

11. Support mobile units that offer or provide referrals to harm reduction services, treatment, recovery supports, health care, or other appropriate services to persons that use opioids or persons with OUD and any co-occurring SUD/MH conditions.

12. Provide training in harm reduction strategies to health care providers, students, peer recovery coaches, recovery outreach specialists, or other professionals that provide care to persons who use opioids or persons with OUD and any co-occurring SUD/MH conditions.

13. Support screening for fentanyl in routine clinical toxicology testing.

PART THREE: OTHER STRATEGIES

I. First Responders

In addition to items in Sections C, D, and H relating to first responders, support the following:

1. Educate law enforcement or other first responders regarding appropriate practices and precautions when dealing with fentanyl or other drugs.

2. Provision of wellness and support services for first responders and others who experience secondary trauma associated with opioid-related emergency events.

J. Leadership, Planning and Coordination

Support efforts to provide leadership, planning, coordination, facilitation, training and technical assistance to abate the opioid epidemic through activities, programs, or strategies that may include, but are not limited to, the following:

1. Statewide, regional, local, or community regional planning to identify root causes of addiction and overdose, goals for reducing harms related to the opioid epidemic, and areas and populations with the greatest needs for treatment intervention services; to support training and technical assistance; or to support other strategies to abate the opioid epidemic described in this opioid abatement strategy list.

2. A dashboard to share reports, recommendations, or plans to spend opioid settlement funds; to show how opioid settlement funds have been spent; to report program or strategy outcomes; or to track, share,or visualize key opioid-related or health-related indicators and supports as identified through collaborative statewide, regional, local, or community processes.

3. Invest in infrastructure or staffing at government or not-for-profit agencies to support collaborative, cross-system coordination with the purpose of preventing overprescribing, opioid misuse, or opioid overdoses, treating those with OUD and any co-occurring SUD/MH conditions, supporting them in treatment or recovery, connecting them to care, or implementing other strategies to abate the opioid epidemic described in this opioid abatement strategy list.

4. Provide resources to staff government oversight and management of opioid abatement programs.

K. Training

In addition to the training referred to throughout this document, support training to abate the opioid epidemic through activities, programs, or strategies may include, but are not limited to,

the following:

1. Provide funding for staff training or networking programs and services to improve the capability of government, community, and not-for-profit entities to abate the opioid crisis.

2. Support infrastructure and staffing for collaborative cross-system coordination to prevent opioid misuse, prevent overdoses, and treat those with OUD and any co-occurring SUD/MH conditions, or implement other strategies to abate the opioid epidemic described in this opioid abatement strategy list (e.g., health care, primary care, pharmacies, PDMPs, etc.).

    2.1. **Epidemiologist Position:** to gather all data surrounding drug trends, substance exposed newborns, youth use, recovery success from treatment programs, conduct focus groups, and local surveys to keep local stakeholders informed as trends change.

L. Research

Support opioid abatement research that may include, but is not limited to, the following:

1. Monitoring, surveillance, data collection, and evaluation of programs and strategies described in this opioid abatement strategy list.

2. Research non-opioid treatment of chronic pain.

3. Research on improved service delivery for modalities such as SBIRT that demonstrate promising but mixed results in populations vulnerable to opioid use disorders.

4. Research on novel harm reduction and prevention efforts such as the provision of fentanyl test strips.

5. Research on innovative supply-side enforcement efforts such as improved detection of mail-based delivery of synthetic opioids.

    5.1. **Forensic lab costs associated with opioid use (including mass spectroscopy).**

6. Expanded research on swift/certain/fair models to reduce and deter opioid misuse within criminal justice populations that build upon promising approaches used to address other substances (e.g., HawaiiHOPE and Dakota 24/7).

7. Epidemiological surveillance of OUD-related behaviors in critical populations including individuals entering the criminal justice system, including but not limited to, approaches modeled on the Arrestee Drug Abuse Monitoring (ADAM) system.

8. Qualitative and quantitative research regarding public health risks and harm reduction

opportunities within illicit drug markets, including surveys of market participants who sell or distribute illicit opioids.

9. Geospatial analysis of access barriers to MAT and their association with treatment engagement and treatment outcomes.

OPIOID TASK FORCE
AGENDA MEMORANDUM

DATE: 4/1/2025

SUBJECT: School Board Proposal for Year 2

RECOMMENDED BOARD ACTION:
Review/Discuss

ATTACHMENT(S):
1. District School Board - Opioid Narrative
2. District School Board - Vaping Budget Request

Pasco County Schools Grant Proposal

Objective: Increase awareness and action around vaping for all middle and high school students in Pasco County ultimately reducing the use of vaping.

Background/Overview of Pasco County Student Congress:

- Each school's student Congress team is comprised of three to five students and a school administrator from every middle and high school.
- The goal is to allow students and their administrator to voice needs in their school and its population that is safe, inclusive and where students thrive.
- Each school's student Congress team attends district-wide meetings during the school year and one large culmination event at the end of the school year called Together We Stand.

Grant Proposal for Pasco County School Student Congress:

- Student Congress participants will receive training and engage in learning about vaping and the impact it has in various health, economic and social environments.
    - Pasco Schools staff members will be trained in the Not-On-Tobacco Proven Teen Smoking and Vaping Cessation Program (NOT), INDEPTH: An Alternative to Suspension or Citation program (INDEPTH), and Teen Mental Health First Aid (TMHFA). The three programs mentioned are all evidence-based programs aimed at reducing tobacco use and increasing the mental health awareness of teens.
    - The staff members will then provide training to the student Congress members during the student Congress meetings to enhance the student Congress's ability to create an individualized plan for the school to reduce the number of students vaping and using drugs.
- Student Congress students and administrators will create and implement a targeted individualized vaping/tobacco mitigation and education program for each school.
- Each school will utilize a template that the students and administration will use as a backbone to create their program whether it be an advertising campaign, handouts, etc. This will include goals, objectives, content creation, data collection and budgeting.
- Any students involved in the student Congress that want to receive the Teen Mental Health First Aid training may also attend a training course and become certified as a Teen Mental Health First Aider.

Outcomes:

1. A 20% increase in the post assessment scores of Student Congress participants.
2. 90% of Middle and High schools have created and implemented a school-based plan of action to reduce drug and tobacco usage by the end of the 25/26 school year.
3. A 10% reduction the number of referrals for possession/using tobacco or drugs in middle and high schools by the end of the 26/27 school year.
4. Have at least three staff members trained in the NOT, INDEPTH, and TMHFA programs by the start of the 25/26 school year.

The funds from the grant will pay for the following:

- Key-note speaker
- Training costs for Teen Mental Health First Aid training
- Training costs for NOT
- Training costs for INDEPTH
- Supplies/materials for Student Congress sessions

Salary Budget

Function	Object	Staff title	Cost	Count	Total Salary	
6120	130	Other Certified Personnel - Salary for Program Specialist - 60,280	$25,000.00	1	$25,000.00	
6120	210	Retirement @ 13.63%	13.63%		$3,407.50	
6120	220	FICA @ 7.65%	7.65%		$1,912.50	
6120	240	Workers Compensation @ 1.25%	1.25%		$312.50

ATTACHMENT(S):
1. Scoring Rubric for Neighborly_Year3_DRAFT

Category	Subcategory	Score	Description
Budgetary Information	Well-Defined Budget Proposal	5	Budget is comprehensive, detailed, and aligns with project goals. All expenses are justified.
		4	Budget is clear with only minor details missing; most expenses are well justified.
		3	Budget is included but lacks details on some key expenses or allocations.
		2	Budget is vague or missing significant details; justification is weak.
		1	Budget is incomplete or unrealistic.
	Financial Sustainability	5	Strong sustainability plan with clear long-term funding strategy.
		4	Financial sustainability is well-planned, with minor areas needing improvement.
		3	Some sustainability planning exists, but gaps remain in funding strategy.
		2	Sustainability plan is unclear or does not extend beyond initial funding.
		1	No sustainability plan provided.
Project Plan	Clear and Actionable Objectives	5	Objectives are well-defined, measurable, and achievable within the project scope.
		4	Objectives are clear but may need slight refinement for full measurability.
		3	Objectives are somewhat clear but lack strong measurability or focus.
		2	Objectives are vague or difficult to measure.
		1	No clear objectives presented.
	Completeness of Project Submittal	5	Proposal is thorough, includes all required documents, and meets submission standards.
		4	Submission is complete with only minor missing elements.
		3	Submission is mostly complete but missing key details.
		2	Submission is incomplete or lacks significant required documents.
		1	Proposal is substantially incomplete or unorganized.
	Overall Quality & Level of Professionalism	5	Proposal is highly polished, well-structured, and professionally presented.
		4	Proposal is well-written with minor formatting or clarity issues.
		3	Proposal is clear but lacks professional formatting or polish.
		2	Proposal is difficult to read, with major formatting or clarity issues.
		1	Proposal is unprofessional, disorganized, or poorly presented.
	Key Performance Indicators (KPIs)	5	KPIs are specific, measurable, and aligned with project outcomes.
		4	KPIs are mostly clear but could be more specific.
		3	KPIs are somewhat relevant but lack specificity.
		2	KPIs are vague or weakly tied to project goals.
		1	No KPIs provided.
	Clearly Defined Expected Community Outcomes	5	Outcomes are well-defined, measurable, and clearly aligned with community impact.
		4	Outcomes are mostly clear with minor refinements needed.
		3	Outcomes are present but not fully measurable or clearly defined.
		2	Outcomes are vague or not clearly linked to community impact.
		1	No defined outcomes provided.
	Qualified & Experienced Personnel	5	Team has extensive relevant experience, with strong qualifications.
		4	Team has solid experience, but some members may lack extensive qualifications.
		3	Team has relevant experience, but with gaps in expertise.
		2	Team has minimal experience or lacks necessary qualifications.
		1	No relevant experience demonstrated.
	Detailed Personnel Duties & Responsibilities	5	Roles and responsibilities are well-defined and clearly assigned.
		4	Roles are mostly clear, with minor areas needing clarification.
		3	Some roles are defined, but responsibilities are not well-distributed.
		2	Roles are vague or not clearly assigned.
		1	No roles or responsibilities are defined.
Timeline	Realistic Project Implementation Timeline	5	Timeline is detailed, feasible, and aligns with project deliverables.
		4	Timeline is mostly feasible with minor areas needing clarification.
		3	Timeline is present but lacks detail or clear milestones.
		2	Timeline is unrealistic or missing key deadlines.
		1	No timeline provided or unrealistic schedule.
Presentation	Ability to Answer Questions	5	Presenter confidently answers all questions with detailed and relevant responses.
		4	Presenter answers most questions well but lacks depth on a few points.
		3	Presenter answers some questions adequately but struggles with details.
		2	Presenter struggles to answer key questions or lacks confidence.
		1	Presenter is unprepared or unable to answer questions effectively.

OPIOID TASK FORCE
REGULAR MEETING

ANNOTATED MINUTES

JULY 22, 2024

PREPARED IN THE OFFICE OF
NIKKI ALVAREZ-SOWLES, Esq., CLERK & COMPTROLLER

THE MINUTES WERE PREPARED IN AGENDA ORDER
AS PUBLISHED AND NOT IN THE ORDER
IN WHICH THE ITEMS WERE HEARD

9:00 A.M.

WEST PASCO GOVERNMENT CENTER, BOARD ROOM, 1ST FLOOR
8731 CITIZENS DRIVE, NEW PORT RICHEY, FL 34654

Members:

Paula Baracaldo, Chairman
Support Services Director, Public Services

J. David Feichtner
Deputy Fire Chief, Fire Rescue

Lauren Letona
Deputy Chief, City of New Port Richey
Police Department

Trang Chitakone
Administrator, Florida Department of Health
In Pasco County

The Honorable Judge Shawn Crane
Sixth Judicial Circuit Court

Joseph Resnick
CEO, Premier Community Healthcare

Captain Toni Roach
Pasco County Sheriff's Office

Derek Brewer
Police Chief, City of Zephyrhills

Art Rowand
Retired, Pasco County Sheriff's Office
Sergeant

Michelle Hudson, MSW
Supervisor of Social Work
Pasco County School Board

Parnia Roghani Shareef, Co-Chair
Pasco County Alliance for Substance
Addiction Prevention (ASAP)

Tracey Kaly
Director of Clinical Operations
BayCare Behavioral Health

Legal Counsel:

Robert Hale, Assistant County Attorney

Staff:

Lori Bushway, Administrative Assistant for Support Services
Nicole O'Neill, Support Services Specialist
Riana Giannico, Grants Coordinator for Support Services

Call to Order

Madam Chair Baracaldo called the meeting to order at 9:00 a.m.

Invocation and Pledge

Ms. Amanda Dobson, Records Clerk, gave the Invocation and led the Pledge of Allegiance to the Flag.

Welcome and Introductions

Madam Chair Baracaldo introduced and welcomed Mr. Robert Hale, Assistant County Attorney, and Mr. J. David Feichtner, Deputy Fire Chief.

Roll Call

Ms. Dobson called the roll. All members were present.

Public Comment

Madam Chair Baracaldo reviewed the procedures to be followed and called for public comment.

There was none.

New Business

Madam Chair Baracaldo reviewed the recusal procedures.

Madam Chair Baracaldo spoke regarding the Pasco Kids First submission for funding, that they were unavailable to present today or tomorrow, and that they had requested to be added to the August meeting.

Discussion was held regarding approving the Pasco Kids First request.

The Committee approved to add the Pasco Kids First application presentation to the August 12, 2024 meeting.

1 Discussion - $750,000 to Public Safety Projects

Madam Chair Baracaldo used a PowerPoint presentation to review the item and spoke regarding $750,000.00 money allocation for County projects and the remaining $5,000,000.00 funds for community projects.

Ms. O'Neill distributed a Program Overview packet to the Committee for reference on the item.

Ms. Cathy Pearson, Assistant County Administrator for Public Services, spoke during the discussion.

Discussion was held regarding the current County applications being reviewed; the agencies that qualified for the $750,000.00 Public Safety Projects; the applications that had been submitted; the budget process and timeline; clarification that the $750,000.00 would go towards County projects only; the application process; the reason for a separate application process; that this was a particular fund for the BCC to utilize; the $750,000.00 fund distribution; regional funds; transparency on the allocation of funds; the 5% County take away; that funds would be specific to just a project; application case ID 30047; the breakdown of the budget and allocation process; the current applications that showed a need; awarding to community projects; and the eligibility status of the County funds for projects being reviewed.

The Committee approved the $750,000.00 for County projects with the Honorable Judge Crane, Mr. Rowand, and Captain Roach abstaining from the vote due to a conflict of interest.

2 Letter of Intent

Madam Chair Baracaldo used a PowerPoint presentation to review the item and spoke regarding the application process with the Community Abatement Plan and verification and contact with the state.

The item was for information only.

3 Project Presentations

Madam Chair Baracaldo spoke regarding the presentation rules and process for the presenters and that there would be eight presentations today.

Discussion was held regarding last year's applications and their status; the current reimbursement requests; the pending approval applications process; the funds disbursed in Munis; the ranking list for each project; and a clarification on how much money the Committee had to distribute.

Project 1 – Ace Opportunities: Ace Opportunities Rise Up 2024

Mr. Frank Seidl, Ace Opportunities, spoke regarding an overview of Ace Opportunities and it's recovery program, the ultimate goal of general housing, survey results on existing people at Ace Opportunities, an overview on services and the background of people served, the program's purpose, the success rate for individuals, the proven outcomes of the program, and the breakdown of the requested funds.

Discussion was held regarding clarification on what specific item would be funded; that clients would benefit from the whole program being funded; the importance to report to the state on a specific funded item; the matching of funds; to fund monthly housing and allocate the budget as needed; the importance of demonstrating the specific use of the funds; that the $50,000.00 could be used for a Case Manager's salary; that general housing would be easier to document; the Neighborly insight and a new version of the budget; and that Ace Opportunities received a lot of individuals through the court system.

The item was for information only.

Project 2 – Alliance for Healthy Communities: The Alliance Expansion Project

Mr. Rowand, Mr. Resnick, Ms. Roghani Shareef, Ms. Kaly, Captain Roach, and Ms. Chitakone abstained from the project discussion due to a conflict of interest.

Mr. Rikkard Rambo, Executive Director of Alliance for Healthy Communities, introduced Ms. Christine Parris, Board President of Alliance for Healthy Communities, Ms. Kellie Rodriguez, Programs and Outreach Director for Alliance for Healthy Communities, and Ms. Missy Coyle, ASAP Coalition Coordinator for Alliance for Healthy Communities, and spoke regarding the history of ASAP, the efforts of the program, an overview of year one with the OTF funding, the partnerships with The Hope Shot and the Always Center, funding to support staffing, an overview of the staffing positions, the success of the year one funding, and that the OTF's support would help sustain all of the program's efforts.

Discussion was held regarding salary range breakdowns; the congressional allocation; that the funds would be used for more than just salaries; and fundraising earnings and goals for the future.

The item was for information only.

Project 3 – BayCare Behavioral Healthcare: Pasco County Response Team

Ms. Roghani Shareef, Deputy Chief Letona, Captain Roach, Chief Brewer, and Ms. Kaly abstained from the project discussion due to a conflict of interest.

Ms. Sonya Bufe, Baycare Behavioral Health, introduced Ms. Erica Fritz, Baycare Behavioral Health, used a PowerPoint presentation to review the item and spoke regarding the need for increased law enforcement services, the co-responder model, Baycare's relationship with law enforcement, built upon funding with Baycare to start including other municipalities, the overdose statistics across the United States and Pasco County, and that the project connected Pasco citizens with lifesaving services.

Discussion was held regarding an overview of the job of the Pasco County Response Team; the availability of the Response Team; to add additional co-responders for all five municipalities; the salary breakdown and the determination of municipality needs; a breakdown of staff levels; the utilization of funds; the priority timeline with municipalities; that the fund request was based on population growth and the number of overdose and mental health calls; the number of calls responded to; the process of working with citizens who had been Baker or Marchman Acted; that opioid based issues or overdoses was the priority; the data on service calls and co-responder teams; and that the primary focus was on the west side of the County with the hope of expanding to all of Pasco.

The item was for information only.

Project 4 – Brianna's 2nd Chance: Future Fuel Youth Harm Reduction & Prevention

Ms. Angie Hatfield, President of Brianna's 2nd Chance Inc, spoke regarding the 2021 data of child deaths due to Fentanyl in Florida, an overview of her program and its approach towards individuals, reality-based prevention, studies on resistance-based training, ways to reduce harm, collateral consequences, her experience with the loss of her daughter, and project assistance within the program.

Ms. Bushway spoke during the discussion.

Discussion was held regarding if any groups were currently operating in Pasco County; the eligibility of the project; OTF versus CDBG funds; curriculum; the hosting of groups and classes; the interactiveness of the program; the grant funding in Polk County; that the project was non-evidence based; recruitment of members within the project; evidence for resistance training; conversations with youth; that the closest idea to Future Fuel would be Standford University Safety First; and that the project could be disqualified due to not being evidence based.

The item was for information only.

Project 5 – Public Safety 30049: Pasco County Pasco Sheriff's Office Mental, Physical, and Emotional Health Center - Joint Usage with Pasco County Public Safety

Mr. Rowand, Captain Roach, and Madam Chair Baracaldo abstained from the project discussion due to a conflict of interest.

Mr. Robert Chalmers, Senior Executive Officer for the Public Safety Administration, used a PowerPoint presentation to review the item and spoke regarding the loss of Officer Jean Karlo Santiago Miranda due to a mental health crisis, the amount of traumatic events an officer experienced per shift, the loss of state funding, part three of the abatement plan, the caregiver support focus area of the application, the unpredictability of first responder responsibilities, statistics on overdose response calls, an analogy of first responders and oxygen masks on an emergency aircraft, funds for the construction of a facility, and an example of a real life overdose call.

Discussion followed regarding construction on the health center; the appropriation amount; the location of the health center; that the health center was currently just for Pasco Sheriffs and Public Safety but could potentially open to other municipalities; the

potential expansion design of the health center; that the long-term goal would include all Pasco County first responders; and staffing.

The item was for information only.

THE COMMITTEE RECESSED AT 9:56 A.M. AND RECONVENED AT 10:11 A.M. ALL MEMBERS WERE PRESENT.

Project 6 – District School Board of Pasco County: In-School Vaping Mitigation

Ms. Hudson abstained from the project discussion due to a conflict of interest.

Mr. Mark Clairmont, Project Specialist with the Pasco County School District, used a PowerPoint presentation to review the item and spoke regarding the teenaged vaping epidemic in Florida, the Florida Youth Risk Survey results with vaping and supported data, the 2022 Florida Youth Substance Abuse Survey results comparing Pasco County with the State of Florida, his experience as a school nurse with Pasco County Schools, the Charlotte County Schools vaping pilot program and its success, an overview of the chosen schools, and the cameras and sensors.

Discussion was held regarding the TOOLS program; camera usage within schools; that school enforcement in real time was a challenge; the amount secondary students vaping; if the pilot program had decreased vaping within the Charlotte County School District; whether or not students could find another area within a school to vape; sensor tampering; the software's continuous updating capability; Pasco County Schools ongoing and future ideas for education on vaping; the ten-year commitment to the pilot program; the potential to slowly add more secondary schools; and that there had been issues of vaping within elementary schools.

The item was for information only.

Project 7 – Fire Rescue, Pasco County Pasco County: Fire Rescue Mobile Integrated Health

Madam Chair Baracaldo and Ms. Chitakone abstained from the project discussion due to a conflict of interest.

Mr. Eric Munroe, Firefighter Support II of Pasco County Fire Rescue Integrated Health Team, used a PowerPoint presentation to review the item and spoke regarding data for opioid addiction, an overview and success of the MIH team, use of funding, the size of the team versus the size of the County, zoning, a longitudinal approach to treatment, the ease of access in the County, and the goals of the project.

Discussion was held regarding supplementing CORE funding; the expansion of the program to match the size and population of the County; the difference from Baycare's project; access to care; overdose response; law enforcement assistance with MIH; acute treatment and long-term care; Baycare verses MIH care in the field; that MIH's priority aligned with treating substance abuse; and current unit size and expansion of the unit.

The item was for information only.

Project 8 – Florida Recovery Schools of Tampa Bay: Victory High School

Ms. Tina Miller, Executive Director of Florida Recovery Schools of Tampa Bay and Principal of Victory High School, used a PowerPoint presentation to review the item and spoke regarding an overview of this year's graduates from Victory High School, the importance of connection for overall success, and the second quarter success rate for Pasco students.

Discussion was held regarding funding; the breakdown of the funding usage; that they did not need to relocate the school; salary staff level breakdown; the number of Pasco students serving in the program; the average student attendance; and other outside grants and funding.

The item was for information only.

Projects 9 through 17 would be heard at the July 23, 2024 Opioid Task Force meeting.

Call to Order

Madam Chair Baracaldo called the meeting to order at 9:02 a.m.

Invocation and Pledge

Ms. Amanda Dobson, Records Clerk, gave the Invocation and led the Pledge of Allegiance to the Flag.

Welcome and Introductions

Madam Chair Baracaldo clarified funding allocations and spoke regarding that information would be sent out ahead of the August 12, 2024 meeting, that Captain Roach would need to step out of today's meeting briefly, she reminded the Committee about recusal forms, and noted that an email was received by Brianna's 2nd Chance challenging the ineligibility disqualification and whether or not the Committee wanted to consider them in the process going forward.

Discussion was held regarding if Brianna's 2nd Chance could provide evidence than it could be considered and that they would reach back out to the organization for more information.

Deputy Fire Chief Feichtner spoke regarding clarification on County based organizations and Sunbiz with the scoring procedures.

Madam Chair Baracaldo spoke regarding that County organizations receiving a free score for Sunbiz due to them being a larger organization that met the established requirements, that a one year established structure of an organization was required, that Sunbiz reports would be resent, and to reach out for any further questions or information so it could be shared with the rest of the Committee.

Discussion was held regarding Sunbiz scoring; the screening process for applicants; and that an organization needed to be established for at least a year to show stability within the organization.

Roll Call

Ms. Dobson called the roll. All members were present.

Public Comment

Public comment was not called.

New Business

1 Project Presentations

Projects 1 through 8 were heard at the July 22, 2024 Opioid Task Force meeting.

Project 9 – Marching Forward: Marching Forward Stomping Out Addiction

Ms. Estell Keshock, Director and Founder of Marching Forward Stomping Out Addiction, spoke regarding research from The Children's Hospital of Philadelphia on opioid poisoning, the power of education for awareness and prevention, the program targets, the focus on children, the egg analogy for teaching children, community involvement, goals for student outreach, data collection, to help targeted age groups, and the abatement process.

Discussion was held regarding the program's intervention curriculum; if there was tested evidence pertaining to the program; the Shedding Out Silence program; examples of helping families in need; the potential for partnerships with schools; and clarification on the proposed budget.

Captain Roach left the meeting at 9:17 a.m.

Discussion continued regarding services provided to support the homeless; tracking and follow-ups for homeless individuals; and if there was a partnership with the homeless coalition.

The Committee approved to receive and file documents submitted by Ms. Estell Keshock with Captain Roach absent from the vote.

The item was for information only.

Project 10 – Operation PAR: MAPS Pasco

Mr. Jim Miller, CEO of Operation PAR, spoke regarding the MAPS program, the Pasco County overdose rate in 2022, the gaps in treatment during non-traditional hours, services provided by the MAPS program, to offer all three FDA approved medications and mental health supports, the uniqueness of the project, a 5% increase in the individuals accessing MAPS services in the first year, the benefits of weekend services, positive preliminary results from other counties, and the proposed budget breakdown.

Captain Roach returned at 9:29 a.m.

Discussion was held regarding extended hours and accessibility for individuals; the increased number of individuals helped; the program's difference from the Pasco Fire Rescue and Sherif's Office; the current amount of people served; and that the service was only in west Pasco currently with the potential in east Pasco depending on need and licensing.

The item was for information only.

Project 11 – Pasco Kids First: Mobile Opioid/Substance Abuse and Child Abuse Prevention Project

Madam Chair Paula Baracaldo noted that the item would be heard at the August 12, 2024 meeting.

Project 12 – Premier Community HealthCare: Premier's Integrated Capital Expansion Project: Access to Care for Residents with OUD & Any Co-Occuring SUD/MH Conditions

Mr. Resnick abstained from the project discussion due to a conflict of interest.
